Form 20-F

Form 40-F

**BP p.l.c. AND SUBSIDIARIES**

**US GAAP CONDENSED FINANCIAL INFORMATION**

This Report on Form 6-K amends and supersedes the previously filed Reports on Form 6-K containing US GAAP condensed financial information of BP (i) for the six months ended June 30, 2005 and for the year ended December 31, 2004 dated September 7, 2005 and (ii) for the nine months ended September 30, 2005 dated November 17, 2005.

The Securities and Exchange Commission has amended Form 20-F to provide four options for foreign private issuers that are first-time adopters of International Financial Reporting Standards (IFRS) and are required to provide interim financial statements in Securities Act or Exchange Act documents used after nine months from the financial year end. BP is using the US GAAP condensed financial information option. This option allows foreign companies to use condensed US GAAP financial information to bridge the gap in interim financial information between previous GAAP and IFRS. The condensed US GAAP financial information provides a level of detail consistent with that required by Article 10 of Regulation S-X for interim financial statements and should be read in conjunction with the unaudited interim financial statements and notes included in BP's Form 6-K for the year ended December 31, 2005.

The following financial information is contained in this report on Form 6-K:

The unaudited US GAAP consolidated statements of income for the six months ended June 30, 2005 and 2004, for the nine months ended September 30, 2005 and 2004 and for the years ended December 31, 2005 and 2004;

The unaudited US GAAP condensed consolidated balance sheets at June 30, 2005 and 2004, September 30, 2005 and 2004 and December 31, 2005 and 2004.

**Sales and other operating revenue**

The Group's accounting policy has been to present oil, natural gas and power forward sales and purchases on a gross basis in the income statement. During 2005, a review was undertaken into the presentation of these commodity derivative transactions and related activity. This led to the conclusion that it was more appropriate to represent transactions in these areas on a net basis rather than gross.

In the fourth quarter of 2005, sales and other operating revenues and purchases for the earlier quarters of 2005 and for prior year were restated.

This restatement, while reducing sales and other operating revenues and purchases, did not impact the Group's reported profit, earnings per share or cash flows.

The impact of the restatement on US GAAP revenues in the selected financial information included in the 2004 Annual Report on Form 20-F is shown below:

	Years ended December 31,				
	2004	2003	2002	2001	2000
	(\$ million)				
<b>US GAAP</b>					
Revenues					
As reported	285,059	232,571	178,721	174,218	148,062
As restated	211,155	178,403	149,674	148,502	131,967

**Major maintenance expenditure**

For purposes of US GAAP reporting, prior to January 1, 2005, the Group capitalized expenditures on maintenance, refits or repairs where it enhanced or restored the performance of an asset, or replaced an asset or part of an asset that was separately depreciated. This included other elements of expenditure incurred during major plant maintenance shutdowns, such as overhaul costs.

As of January 1, 2005, the Group changed its US GAAP accounting policy to expense all overhaul costs and similar major maintenance expenditure as incurred. The effect of this accounting change for US GAAP reporting is reflected as a cumulative effect of an accounting change for the year ended December 31, 2005. This adjustment is equal to the net book value of capitalised overhaul costs as of January 1, 2005 as reported under US GAAP. The effect of this restatement is to (i) reduce profit for the six months ended June 30 and the nine months ended September 30, 2005 previously reported by \$794 million; and (ii) increase profits for the six months ended June 30, the nine months ended September 30 and the year ended December 31, 2004 previously reported by \$88 million, \$123 million and \$217 million respectively.

**BP p.l.c. AND SUBSIDIARIES**

**US GAAP CONDENSED FINANCIAL INFORMATION**

**Share-based payments**

The Group adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123R) as of January 1, 2005 using the modified prospective transition method. Under SFAS 123R, share-based payments to employees are required to be measured based on their grant date fair value (with limited exceptions) and recognised over the related service period. For periods prior to January 1, 2005, the Group accounted for share-based payments under Accounting Principles Board Opinion No. 25 using the intrinsic value method.

Upon adoption of SFAS 123R, the Group utilized a different valuation model than was utilized for purposes of the previous SFAS 123 pro-forma disclosure. As a result, the previously reported compensation charges and related deferred tax have been restated using the appropriate valuation model as required under the transition rules of SFAS 123R. The effect of this adjustment is (i) nil for the six months ended June 30, the nine months ended September 30, and the year ended December 31, 2005 and (ii) to increase profits for the six months ended June 30, the nine months ended September 30 and the year ended December 31, 2004 previously reported by \$35 million, \$109 million and \$24 million respectively.
