Item 7.01 Regulation FD Disclosure

The following information is furnished pursuant to Regulation FD.

Emerson 3-Month Orders

(Percentage change versus prior year; trailing 3-month averages, excluding acquisitions and divestitures, including currency translation)

	September '17	October '17	November '17
Automation Solutions	15 to 20	15 to 20	20
Commercial & Residential Solutions	5 to 10	5 to 10	10
Total Emerson	10 to 15	10 to 15	15 to 20

November 2017 Orders Comments

Emerson trailing three-month orders increased 16 percent. Underlying orders increased 11 percent excluding favorable currency translation of 5 percent.

Automation Solutions orders increased 20 percent with underlying orders up 13 percent excluding favorable currency translation of 7 percent. Orders growth reflected broad-based momentum across end markets driven by strong MRO demand and growth of small and mid-sized projects focused on expansion and optimization of existing facilities. Demand was led by North America, driven by continued favorable trends in energy, life sciences and chemical markets. Asia orders increased low-double digits led by China. Europe orders declined moderately. Latin America demand appears to be stabilizing, due mainly to upstream and midstream opportunities in Mexico and increased investment activity in Argentina and Chile. Robust growth in Middle East/Africa reflects pent-up demand in upstream, refining and chemical markets.

Commercial & Residential Solutions underlying orders were up high-single digits. Growth was led by Asia, driven by strong demand across the region in air conditioning and refrigeration markets. Demand in North America was favorable, reflecting continued growth of professional tools in oil and gas and construction related markets, increased industrial refrigeration demand and stable conditions in air conditioning markets. Europe orders declined moderately.
