## NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 28, 2015

## NOTE 1 – Basis of presentation and summary of significant accounting policies

Basis of presentation: Our accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all information and footnotes which are normally included in the Form 10-K and annual report to shareholders. In our opinion, the financial statements reflect all adjustments of a normal recurring nature necessary for a fair presentation of results for the interim periods presented.

On the first day of our fiscal third quarter, we completed the spin-off of our publishing businesses. The publishing company has retained the name Gannett Co., Inc. and now trades on the New York Stock Exchange (NYSE) under the symbol GCI. TEGNA Inc. trades on the NYSE under the symbol TGNA. Second quarter and year-to-date results presented in the financial statements and footnotes are for the former consolidated Gannett Co., Inc. TEGNA will report publishing as a discontinued operation beginning in the third quarter of 2015.

Variable Interest Entities (VIE): A variable interest entity is an entity that lacks equity investors or whose equity investors lack a controlling interest in the entity through their equity investments. We consolidate VIEs when we are the primary beneficiary. In determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we are obligated to absorb losses or the right to receive returns that would significantly impact the VIE.

We have determined that the entities holding four of our television stations constitute VIEs. Accordingly, we evaluated the arrangements to determine whether we are considered the primary beneficiary, and, as a result of this evaluation, consolidated four stations in the Louisville, KY, Portland, OR, and Tucson, AZ, television markets since December 23, 2013.

The carrying amounts and classification of the assets and liabilities of the consolidated VIEs mentioned above and included in our consolidated balance sheets were as follows:

In thousands	Jun. 28, 2015	Dec. 28, 2014
Current assets	\$18,857	\$20,541
Plant, property and equipment, net	9,711	10,084
Intangible and other assets	28,989	29,412
Total assets	\$57,557	\$60,037
Current liabilities	\$10,342	\$11,635
Noncurrent liabilities	21,850	26,028
Total liabilities	\$32,192	\$37,663

Recent accounting standards: In July 2015, the Financial Accounting Standards Board (FASB) delayed the effective date for Accounting Standards Update (ASU) 2014-09 Revenue from Contracts with Customers (Topic 606). The core principle contemplated by ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. New disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers are also required. We are required to adopt the standard in the first quarter of 2018 and retroactively apply it to our 2016 and 2017 financial results at the time of adoption. Under the new rules, we are permitted to adopt the new standard in 2017. We can also choose to apply the standard using either the full retrospective approach or a modified retrospective approach, which recognizes a cumulative catch up adjustment to the opening balance of retained earnings. We are currently assessing the impact and timing of adopting this pronouncement, and the transition method we will use.

In April 2015, the FASB issued ASU 2015-03 Interest - Imputation of Interest (Subtopic 835-30) Simplifying the Presentation of Debt Issuance Costs. Under the ASU, an entity presents their debt issuance cost on the balance sheet

as a direct deduction from the carrying amount of their debt liability, similar to their debt discounts, rather than as an asset as has been done previously. Amortization of the cost is reported as interest expense. We are required to adopt ASU 2015-03 in the first quarter of 2016, with early adoption also being permitted. We are required to apply the new guidance on a retrospective basis, wherein the balance sheet of each period presented is adjusted to reflect the effects of applying the new guidance. At the end of the second quarter, we had \$48.6 million of debt issuance costs recorded as assets, which amount to less than 1% of our total assets.

NOTE 2 – Acquisitions and dispositions

On December 29, 2014, we sold Gannett Healthcare Group (GHG) to OnCourse Learning, an online education and training provider. GHG is a leading provider of continuing education, certification test preparation, online recruitment, digital media, publications and related services for nurses and other healthcare professionals in the United States. In March 2015, CareerBuilder increased its controlling interest in Economic Modeling Specialists Intl. (EMSI) by 11% from 74% to 85%. EMSI is an economic software firm that specializes in employment data and labor market analysis. EMSI collects and interprets large amounts of labor data, which is used in work force development and talent strategy.

In May 2015, Newsquest Media Group, a subsidiary of our former publishing businesses in the U.K, acquired Romanes Media Group, a local news publishing business operating in Scotland, Berkshire and Northern Ireland. In June 2015, our former publishing business completed the acquisition of the remaining 59.36% interest in the Texas-New Mexico Newspapers Partnership that it did not previously own from Digital First Media. The deal was completed through the assignment of our 19.49% interest in the California Newspapers Partnership and additional cash consideration. As a result, our former publishing business now owns 100% of the Texas-New Mexico Newspapers Partnership and no longer has any ownership interest in California Newspapers Partnership.

NOTE 3 – Facility consolidation and asset impairment charges

We evaluated the carrying values of property, plant and equipment at certain publishing and digital businesses as a result of our ongoing facility consolidation efforts. We revised the useful lives of certain assets to reflect the use of those assets over a shortened period as a result. In the second quarter of 2015, we recognized related non-cash charges, the largest of which, \$6.8 million, related to a digital business. Certain assets classified as held-for-sale according to Accounting Standards Codification (ASC) Topic 360 resulted in us recognizing non-cash charges in 2014 as we reduced the carrying values to equal the fair value less cost to dispose. The fair values were based on the estimated prices of similar assets. In 2015, we also recorded non-cash impairment charges to reduce the book value of goodwill and other intangible assets. The goodwill impairment and other intangible non-cash charges resulted from our application of the interim impairment testing provisions included within the goodwill subtopic ASC Topic 350. We are required to test goodwill and other indefinite lived assets for impairment annually. Our annual measurement date for testing is the first day of the fourth quarter. However, because of softening business conditions at one of our smaller Publishing Segment reporting units in 2015 and two similar units in 2014, we accelerated our testing of those units. Our testing showed that the implied fair value of the goodwill was less than the recorded value. Therefore, we recognized a non-cash charge of \$5.9 million in the first quarter of 2015 and \$15.3 million in the second quarter of 2014 to reduce the carrying value of goodwill to the implied fair value.

We recorded pre-tax charges for facility consolidations and asset impairments of \$20.8 million in the second quarter and \$33.2 million for the year-to-date period in 2015. For 2014, we recorded \$28.8 million pre-tax charges for the second quarter and \$43.6 million for the year-to-date period.

## NOTE 4 – Goodwill and other intangible assets

The following table displays goodwill, indefinite-lived intangible assets, and amortizable intangible assets at June 28, 2015 and December 28, 2014:

On October 1, 2014 we completed the acquisition of the remaining 73% that we did not previously own in Cars.com (formerly Classified Ventures, LLC). On May 26, 2015 our former publishing business acquired Romanes Media Group and on June 1, 2015 it completed the acquisition of the remaining 59.36% interest in the Texas-New Mexico Newspapers Partnership that it did not own from Digital First Media. The initial purchase price allocations are preliminary, based upon all information available to us at the present time and are subject to change.

Less current portion of long-term debt maturities of VIE loans	7,854	7,854
Long-term debt, net of current portion	\$4,453,202	\$4,488,028

For the first six months of 2015, our long-term debt decreased by \$34.8 million, primarily reflecting debt payments of \$86.5 million partially offset by debt discount amortization and additional borrowing of \$45.0 million from the revolving credit agreement. On June 28, 2015, we had unused borrowing capacity of \$586.0 million under our revolving credit agreement.

On June 29, 2015, we entered into an agreement to amend and extend our existing revolving credit facility with one expiring on June 29, 2020 (the Amended and Restated Competitive Advance and Revolving Credit Agreement). Total commitments under the Amended and Restated Competitive Advance and Revolving Credit Agreement are \$1.32 billion. The maximum total leverage ratio permitted by the new agreement is 5.0x through June 30, 2017, after which it is reduced to 4.75x through June 30, 2018 and then to 4.50x thereafter. Commitment fees on the revolving credit agreement are equal to 0.25% - 0.40% of the undrawn commitments, depending upon our leverage ratio, and are computed on the average daily undrawn balance under the revolving credit agreement and paid each quarter. Under the Amended and Restated Competitive Advance and Revolving Credit Agreement, we may borrow at an applicable margin above the Eurodollar base rate (LIBOR loan) or the higher of the Prime Rate, the Federal Funds Effective Rate plus 0.50%, or the one month LIBOR rate plus 1.00% (ABR loan). The applicable margin is determined based on our leverage ratio but differs between LIBOR loans and ABR loans. For LIBOR based borrowing, the margin varies from 1.75% to 2.50%. For ABR-based borrowing, the margin will vary from 0.75% to 1.50%.

Shortly after quarter end we also borrowed \$200.0 million under a new five-year term loan. The interest rate on the term loan is equal to the same interest rates as borrowings under the Amended and Restated Competitive Advance and Revolving Credit Agreement. Both the revolving credit agreement and the term loan are guaranteed by a majority of our wholly-owned material domestic subsidiaries. These two transactions effectively increased our borrowing capacity by \$214 million, for total unused borrowing capacity of \$800 million as of June 29, 2015.

## NOTE 6 – Retirement plans

We, along with our subsidiaries, have various retirement plans, including plans established under collective bargaining agreements. Our retirement plan costs include costs for qualified and nonqualified plans and are presented in the following table:

In thousands	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	Jun. 28, 2015	Jun. 29, 2014	Jun. 28, 2015	Jun. 29, 2014

Expense (credit) for company-sponsored retirement plans	\$745	\$(2,350)	\$1,514	\$(3,618)

For the twenty-six weeks ended June 28, 2015, we contributed \$112.0 million to our principal retirement plan and \$5.8 million (£3.8 million) to the Newsquest Pension Scheme in the U.K. Included in the \$112.0 million contribution to our principal retirement plan was a voluntary contribution of \$100.0 million. TEGNA has no required contributions to any of its principal pension plans for the remainder of 2015.

## NOTE 7 – Post-retirement benefits other than pension

We provide health care and life insurance benefits to certain retired employees who meet age and service requirements. Most of our retirees contribute to the cost of these benefits, and retiree contributions are increased as actual benefit costs increase. The cost of providing retiree health care and life insurance benefits is actuarially determined. Our policy is to fund benefits as claims and premiums are paid. In March 2014, we adopted changes to the retiree medical plan that were effective July 1, 2014. Beginning on that date, we pay a stipend to certain Medicare-eligible retirees. As a result of this change, we remeasured the related post-retirement benefit obligation during the first quarter of 2014, and recorded a reduction to the liability of \$33.9 million (with a corresponding adjustment to “Accumulated other comprehensive loss”). Post-retirement benefit costs for health care and life insurance are presented in the following table:

In thousands	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	Jun. 28, 2015	Jun. 29, 2014	Jun. 28, 2015	Jun. 29, 2014

Amortization of actuarial loss	400	124	800	332
Net periodic post-retirement benefit credit	\$(1,001)	\$(1,894)	\$(2,002)	\$(2,450)

## NOTE 8 – Income taxes

The total amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate was approximately \$24.1 million as of June 28, 2015 and \$23.2 million as of December 28, 2014. The amount of accrued interest and penalties payable related to unrecognized tax benefits was \$7.3 million as of June 28, 2015 and \$6.9 million as of December 28, 2014.

It is reasonably possible that the amount of unrecognized benefits with respect to certain of our unrecognized tax positions will significantly increase or decrease within the next 12 months. These changes may be the result of settlement of ongoing audits, lapses of statutes of limitations or other regulatory developments. At this time, we estimate the amount of gross unrecognized tax positions may be reduced by up to approximately \$4.4 million within the next 12 months primarily due to lapses of statutes of limitations and settlement of ongoing audits in various jurisdictions.

## NOTE 9 – Supplemental equity information

The following table summarizes equity account activity for the twenty-six week periods ended June 28, 2015 and June 29, 2014:

In August 2012, our CareerBuilder subsidiary acquired 74% of Economic Modeling Specialists Intl. (EMSI), a software firm that specializes in employment data and labor market analytics. In March 2015, CareerBuilder purchased an additional 11% ownership interest in EMSI. Holders of the remaining 15% ownership interest in EMSI hold put rights that permit them to put their equity interest to CareerBuilder. Since redemption of EMSI noncontrolling interest is outside of our control, the balance is presented on the Condensed Consolidated Balance Sheets in the caption “Redeemable noncontrolling interest.”

## NOTE 10 – Fair value measurement

We measure and record in the accompanying condensed consolidated financial statements certain assets and liabilities at fair value. ASC Topic 820, Fair Value Measurement, establishes a hierarchy for those instruments measured at fair value that distinguishes between market data (observable inputs) and our own assumptions (unobservable inputs). The hierarchy consists of three levels:

Level 1 - Quoted market prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 inputs that are either directly or indirectly observable; and

Level 3 - Unobservable inputs developed using our own estimates and assumptions, which reflect those that a market participant would use.

The following table summarizes our assets and liabilities measured at fair value in the accompanying Condensed Consolidated Balance Sheets as of June 28, 2015 and December 28, 2014:

In thousands	Fair Value Measurements as of Jun. 28, 2015			
	Level 1	Level 2	Level 3	Total
Employee compensation related investments	\$63,234	\$—	\$—	\$63,234
Sundry investments	37,351	—	—	37,351
Total assets	\$100,585	\$—	\$—	\$100,585
Contingent consideration payable	\$—	\$—	\$786	\$786
Total liabilities	\$—	\$—	\$786	\$786
In thousands	Fair Value Measurements as of Dec. 28, 2014			
	Level 1	Level 2	Level 3	Total
Employee compensation related investments	\$41,017	\$—	\$—	\$41,017
Sundry investments	36,641	—	—	36,641
Total assets	\$77,658	\$—	\$—	\$77,658
Contingent consideration payable	\$—	\$—	\$9,912	\$9,912
Total liabilities	\$—	\$—	\$9,912	\$9,912

Under certain acquisition agreements, we have agreed to pay the sellers earn-outs based on the future financial performance of the businesses. Contingent consideration payable in the table above represents the estimated fair value of future earn-outs payable under such agreements. The fair value of the contingent payments was measured based on the present value of the consideration expected to be transferred using a discounted cash flow analysis. The discount rate is a significant unobservable input in such present value computations. Discount rates ranged between 15% and 24% depending on the risk associated with the cash flows. Changes to the fair value of earn-outs are reflected in “Selling, general and administrative expenses” on our Condensed Consolidated Statements of Income. For the twenty-six weeks ended June 28, 2015, the contingent consideration decreased by \$9.1 million as a result of payments and adjustments to fair value.

The fair value of our total long-term debt, based on the bid and ask quotes for the related debt (Level 2), totaled \$4.61 billion at June 28, 2015 and \$4.65 billion at December 28, 2014.

During the first quarter of 2015, a small Publishing Segment goodwill asset was impaired as the implied fair value of the goodwill was determined to be less than the recorded value. Implied fair value of the goodwill asset was zero. As a result, we recognized a non-cash goodwill impairment charge of \$5.9 million to reduce the carrying value to the implied fair value.

During the second quarter of 2014, certain Publishing Segment goodwill assets were impaired as the implied fair value of the goodwill was less than the recorded value. Implied fair value of the goodwill assets totaled \$6.2 million, and we recognized a goodwill impairment charge of \$15.3 million to reduce the carrying value to the implied fair value.

## NOTE 11 – Business segment information

Our reportable segments based on our management and internal reporting structures are Broadcasting, Digital and Publishing. The Broadcasting Segment at the end of the second quarter includes our 46 owned and serviced television stations. The Digital Segment includes Cars.com, CareerBuilder, Shoplocal and PointRoll. The Publishing Segment principally includes local domestic publishing operations, Newsquest operations in the U.K. and the USA TODAY group.

The diluted earnings per share amounts exclude the effects of approximately 2.2 million stock options outstanding for the second quarter and year-to-date of 2014, as their inclusion would be antidilutive.

## NOTE 13 – Commitments, contingencies and other matters

We, along with a number of our subsidiaries, are defendants in judicial and administrative proceedings involving matters incidental to our business. Management believes any liability that exists as a result of these matters is immaterial.

## NOTE 14 – Subsequent events

In August 2014, we announced our plan to separate into two independent, publicly traded companies: a broadcasting and digital company, which would operate under the name TEGNA, and a publishing company that would retain the name Gannett Co., Inc. On June 29, 2015, we completed the previously announced spin-off. Under the terms of the transaction, our shareholders retained their shares of TEGNA common stock, which now trades on the NYSE under the symbol “TGNA,” and also received one share of stock of the “new Gannett” publishing business for every two shares of our stock they owned on the record date of June 22, 2015. New Gannett shares trade on the NYSE under the symbol GCI.

On July 15, 2015, we announced a binding definitive agreement for the sale of our corporate headquarters in McLean, Virginia to Tamares Tysons Corner LLC, an affiliate of Tamares, for a purchase price of \$270 million. The purchaser has made a \$27 million non-refundable deposit pursuant to the purchase agreement. The sale transaction is expected to close late in the third quarter or early in the fourth quarter, subject to the satisfaction of customary closing conditions.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Overview

On the first day of our fiscal third quarter, we completed the spin-off of our publishing businesses. The publishing company has retained the name Gannett Co., Inc. and now trades on the New York Stock Exchange under the symbol GCI. Our company was renamed TEGNA Inc., and our stock trades on the New York Stock Exchange under the symbol TGNA. Second quarter and year-to-date results presented in this discussion and the accompanying tables are for the former consolidated Gannett Co., Inc. TEGNA will report its former publishing business as a discontinued operation beginning in the third quarter of 2015.

Prior to the spin, our operations consisted of three business segments: Broadcasting (television), Digital, and Publishing. Through our Broadcasting Segment, we own or service (through shared service agreements or similar arrangements) 46 television stations with affiliated digital platforms in 38 markets. These stations serve more than 35 million households and represent almost one-third of the U.S. population. Excluding owner-operators, we are the No. 1 NBC affiliate group, No. 1 CBS affiliate group, and the No. 4 ABC affiliate group. We are the largest independent station group of major network affiliates in the top 25 markets, with a uniquely diversified portfolio.

Our Digital Segment consists of Cars.com (formerly Classified Ventures, LLC), CareerBuilder, PointRoll and Shoplocal. Cars.com, which we acquired full ownership of on Oct. 1, 2014, is a leading destination for online car shoppers. Cars.com allows consumers to search, compare and connect with sellers and dealers, and provides buyers with greater control over the shopping process. Cars.com hosts approximately four million vehicle listings and serves more than 20,000 customers that are primarily franchise and independent car dealers in all 50 states. CareerBuilder is the global leader in human capital solutions, helping companies to target, attract and retain talent. It provides unmatched reach from employers by offering the largest online career destination in the U.S. for job seekers and maintains the largest online recruitment sales presence in North America. CareerBuilder has made significant investments over the past few years to further its transformation into a global leader in the Human Resources software as a service business.

The spun-off Publishing Segment's operations comprised 112 daily publications and digital platforms in the U.S. and the U.K., more than 400 non-daily publications in the U.S., and more than 140 such titles in the U.K. The Publishing Segment's 93 U.S. daily publications include USA TODAY, which is currently the nation's number one newspaper in consolidated print and digital circulation. In the U.K., through the Newsquest group, the publishing business produced 19 daily paid-for publications and more than 140 weekly publications, magazines and trade publications. In the markets served by the Publishing business, it also operates desktop, smartphone and tablet products which are tightly integrated with the publishing operations. The publishing operations have strategic business relationships with many of our Digital Segment businesses, including CareerBuilder, Cars.com, PointRoll and Shoplocal. The Publishing Segment also includes commercial printing, newswire, marketing and data services operations.

### Results from Operations

The reportable segments, which were based on our management and internal reporting structures, are Broadcasting, Digital, and Publishing. The primary categories of Broadcasting Segment revenue are: 1) core advertising which includes local and national non-political advertising; 2) political advertising revenues which are cyclical with peaks occurring in even years (e.g., 2014 and 2012) and particularly in the second half of those years; 3) retransmission revenues representing fees paid by satellite and cable networks and telecommunications companies to carry our television signals on their network; 4) digital revenues which encompass digital marketing services and advertising on the stations' website, tablet and mobile products; and 5) other revenues, which consist of payments by advertisers to television stations for other services, such as production of programming from third parties and production of advertising material. We own and operate a number of stand-alone digital subsidiaries, which are included in our Digital Segment, including two digital leaders, Cars.com and CareerBuilder, as well as several other well-positioned online companies. CareerBuilder, the largest company in the Digital Segment, generates revenues both through its own sales force by providing talent and compensation intelligence, human resource related consulting services and recruitment solutions and through sales of employment advertising placed by affiliated media organizations. Cars.com generates revenues through subscription-based online automotive advertising packages targeting car dealerships and national advertisers through its own direct sales force as well as its affiliate sales channels. We generated revenue

within our Publishing Segment through advertising and subscriptions to our print and digital publications. Our advertising teams sell retail, classified and national advertising across multiple platforms including print, online, mobile and tablet as well as niche publications. Across both Broadcasting and Publishing Segments, we generated revenue by providing digital marketing products and services, ranging from search to social media to website development.

Our largest component of operating expense is payroll and benefits. Other significant operating expenses include the costs of locally produced content and purchased syndicated programming in the Broadcasting Segment, production (raw materials) and distribution costs within the Publishing Segment, and sales and marketing costs within the Digital Segment.

Our operating revenues were \$1.52 billion in the second quarter of 2015, an increase of 4% from \$1.46 billion in the same quarter last year. For the first six months, operating revenues increased 5% to \$2.99 billion from \$2.86 billion in 2014. The increases were driven by record results in the Digital Segment due to the acquisition of and organic growth at Cars.com as well as record results in the Broadcasting Segment due to substantially higher retransmission revenue and digital revenue which more than offset the absence of the incremental political advertising revenues of \$14 million in the second quarter and \$22 million in the year-to-date periods of 2014. The results for the second quarter of 2015 and the year-to-date periods include results for Cars.com. The prior year periods do not include results for Cars.com, impacting year-over-year comparisons. A separate discussion of pro forma information begins on page 29. Operating expenses increased 3% for both the second quarter and the first six months of 2015, driven primarily by the acquisition of Cars.com in the Digital Segment and increased programming costs related to reverse network compensation in the Broadcasting Segment, partially offset by lower Publishing Segment expenses. Non-operating expense increased from income of \$89.4 million in the second quarter of 2014 and \$7.5 million for the year-to-date period in 2014 to expense of \$70.5 million in the second quarter of 2015 and \$113.5 million for the year-to-date period in 2015, primarily due to the absence of the \$148.4 million gain on the sale of Apartments.com that occurred in the second quarter of last year. Equity income in unconsolidated investees decreased \$153.9 million in the second quarter of 2014 to \$2.6 million in the second quarter of 2015, and decreased \$157.3 million to \$7.7 million in the year-to-date period in 2015, primarily due to the same gain. Interest expense was \$69.3 million in the second quarter and \$140.1 million for the year-to-date period compared to \$64.1 million in the second quarter of 2014 and

\$133.8 million for the year-to-date period in 2014, reflecting higher average debt outstanding due to the Classified Ventures acquisition in October 2014 partially offset by a lower average interest rate. The total average outstanding debt was \$4.40 billion for the second quarter of 2015, compared to \$3.48 billion last year. The weighted average interest rate on total outstanding debt was 6.00% for the second quarter of 2015 compared to 6.88% last year. For the year-to-date period total average outstanding debt was \$4.43 billion compared to \$3.58 billion last year. The

weighted average interest rate on total outstanding debt was 6.02% year-to-date in 2015 compared to 6.96% in the same period last year.

Our reported effective income tax rate was 36.4% for the second quarter of 2015, compared to 33.7% for the second quarter of 2014. The tax rate for the second quarter in 2015 was higher than the comparable rate in 2014 primarily due to one-time tax charges incurred in 2015 for an internal legal entity restructuring that was a precursor to the spin-off of our publishing business. The reported effective income tax rate was 35.7% for the first six months of 2015 compared to 37.2% for the same period last year. The year-to-date 2014 rate was higher than the year-to-date 2015 rate primarily due to a \$23.8 million tax charge recognized on the sale of KMOV-TV in St. Louis, MO in February 2014, partially offset by tax benefits from other year-to-date 2014 special items. A separate discussion of effective income tax rates excluding special items (non-GAAP basis) appears on page 29.

The weighted average number of diluted shares outstanding for the second quarter of 2015 decreased by 0.2 million shares from 2014. For the year-to-date period, the weighted average number of diluted shares outstanding in 2015 decreased by 0.3 million shares. These declines reflect shares repurchased in 2015, partially offset by issuances of additional equity-based awards. See Part II, Item 2 for information on share repurchases.

#### Segment Results

The following is a discussion of our reported operating segment results for the second quarter and year-to-date period of 2015. Unless otherwise noted, all comparisons are to the comparable prior year period.

#### Broadcasting Segment Results

A summary of our Broadcasting Segment results is presented below:

Broadcasting Segment revenues are grouped into five categories: Core (Local and National), Political, Retransmission, Digital and Other. The following table summarizes the year-over-year changes in these select revenue categories.

In thousands	Second Quarter		Year-to-Date	
	2015	Percentage change from 2014	2015	Percentage change from 2014
Core (Local & National)	\$268,779	3 %	\$521,888	1 %

Total	\$417,429	5 %	\$814,223	4 %

(a) Reverse compensation to network affiliates is included as part of programming costs and therefore is excluded from this line.

Broadcasting Segment revenues in the second quarter of 2015 increased 5% to \$417.4 million, a record for second quarter revenues. The increase was driven primarily by a substantial increase in retransmission revenue and continued

growth in digital revenue, partly offset by the absence of \$14 million in incremental politically related advertising that occurred in the second

20

---

quarter of 2014. Core advertising revenues, which consist of Local and National non-political advertising, increased 3% to \$268.8 million in the second quarter of 2015. This was primarily driven by stronger advertising revenues in the entertainment and home improvement categories across all television stations and partially offset by softness in the automotive and retail advertising categories. As anticipated, because of regular election cycle timing, political advertising revenues decreased 83% to \$2.7 million compared to \$16.6 million in the second quarter a year ago. Retransmission revenues increased 23% to \$109.4 million in the quarter resulting from newly negotiated agreements at the end of last year as well as rate increases. Digital revenues increased 23% to \$28.7 million in the second quarter of 2015 reflecting continued growth from digital marketing services products.

Year-to-date Broadcasting Segment revenues increased 4% to \$814.2 million, a record high, driven primarily by substantially higher retransmission revenues and digital revenues as well as the acquisition of television stations, despite the absence of \$22 million in incremental political advertising revenue that occurred in the same period last year.

Broadcasting Segment operating expenses for the second quarter of 2015 increased 6% to \$240.9 million primarily due to higher reverse network fees and investments in our digital sales initiatives, as well as broad-based sales force expansion and newly developed product offerings. Year-to-date, Broadcasting Segment operating expenses increased 2% supporting higher revenues. A separate discussion of operating expenses excluding special items (non-GAAP basis) can be found on page 27.

#### Digital Segment Results

The Digital Segment includes results for TEGNA's stand-alone digital subsidiaries including Cars.com, CareerBuilder, PointRoll, and Shoplocal. Many of our other digital offerings are highly integrated within publishing or broadcasting offerings, and therefore the results of these integrated digital offerings are reported within the operating results of the Publishing and Broadcasting Segments. The results for the second quarter of 2015 and the year-to-date period include results for Cars.com which was acquired Oct. 1, 2014. The prior year periods do not include results for Cars.com, impacting year-over-year comparisons.

A summary of our Digital Segment results is presented below:

Digital Segment operating revenues increased 74% to \$338.1 million in the second quarter of 2015 compared to \$194.4 million in 2014, primarily driven by the acquisition and ongoing strong organic growth of Cars.com.

CareerBuilder revenues decreased 2% for the quarter, reflecting year-over-year declines in foreign exchange rates as well as the strategic decision to accelerate the reduction of transactional advertising and focus on more lucrative long-term recurring software deals. A separate discussion of pro forma information can be found on page 29.

For the year-to-date period, Digital Segment operating revenues increased 79% to \$670.8 million compared to \$374.1 million last year, driven by the acquisition and strong organic growth of Cars.com. CareerBuilder revenues increased 1% driven by increased sales of digital software-as-a service products, partly offset by year-over-year declines in foreign exchange rates as well as the strategic shift in sales focus discussed above.

Digital Segment operating expenses increased 73% to \$274.5 million in the second quarter of 2015 and increased 75% to \$551.1 million for the year-to-date period, primarily due to the Cars.com acquisition, partly offset by lower CareerBuilder operating expenses. As a result of these factors, Digital Segment operating income increased 78% to

\$63.6 million for the quarter and increased 101% to \$119.8 million for the year-to-date period in 2015. A separate discussion of operating expenses excluding special items (non-GAAP basis) can be found on page 28.

Publishing Segment operating revenues are derived principally from advertising sales and circulation sales.

Advertising revenues include those derived from advertising placed with print products as well as publishing related Internet desktop, smartphone and tablet applications. Circulation revenues are derived principally from distributing our publications on our digital platforms, from home delivery and from single copy sales of publications. Other publishing revenues are mainly from commercial printing.

Publishing Segment operating expenses decreased 9% in the quarter to \$742.7 million compared to \$814.1 million last year. Publishing Segment operating income was \$47.2 million in the quarter compared to \$53.2 million last year, a decrease of 11%.

#### Corporate Expense

Corporate expense increased 7% to \$19.0 million in the second quarter and increased 8% to \$37.9 million for the first six months of 2015, mainly due to increased costs related to the separation of our publishing business that occurred on June 29, 2015. Although we anticipate some of these costs to be recurring in nature, we have identified offsetting reductions which will be implemented over the balance of the year as we right-size our new footprint.

#### Results from Operations - Non-GAAP and Pro Forma Information

##### Presentation of Non-GAAP information

We use non-GAAP financial performance and liquidity measures to supplement the financial information presented on a GAAP basis. These non-GAAP financial measures should not be considered in isolation from or as a substitute for the related GAAP measures, and should be read together with financial information presented on a GAAP basis. We discuss in this report non-GAAP financial performance measures that exclude from our reported GAAP results the impact of special items consisting of workforce restructuring charges, transformation costs, non-cash asset impairment charges, certain gains and expenses recognized in non-operating categories and certain charges to our income tax provision.

We believe that such expenses, charges and gains are not indicative of normal, ongoing operations and their inclusion in results makes for more difficult comparisons between years and with peer group companies. We also discuss Adjusted EBITDA, a non-GAAP financial performance measure that we believe offers a useful view of the overall operation of our businesses. Adjusted EBITDA is defined as net income attributable to TEGNA Inc. before (1) net income attributable to noncontrolling interests, (2) income taxes, (3) interest expense, (4) equity income, (5) other non-operating items, (6) workforce restructuring, (7) other transformation items, (8) asset impairment charges, (9) depreciation and (10) amortization. When Adjusted EBITDA is discussed in reference to performance on a consolidated basis, the most directly comparable GAAP financial measure is Net income attributable to TEGNA Inc. We do not analyze non-operating items such as interest expense and income taxes on a segment level; therefore, the most directly comparable GAAP financial measure to Adjusted EBITDA when performance is discussed on a segment level is Operating income.

Workforce restructuring and transformation items primarily relate to incremental expenses we have incurred to consolidate or outsource production processes and centralize other functions primarily within the Publishing business. Workforce restructuring expenses include payroll and related benefit costs. Transformation items include incremental expenses incurred by us to execute on our transformation and growth plan and incremental expenses and gains associated with optimizing our real

estate portfolio. Transformation items also include amortization of acquired advertising contracts. Asset impairment charges reflect non-cash charges to reduce the book value of certain intangible assets to their respective fair values, as our projections for the businesses underlying the related assets had declined.

In the first quarter of 2015, special items were recorded in other non-operating items primarily related to the pre-tax gain of \$44 million related to the sale of the Gannett Healthcare Group, partly offset by costs related to the spin-off of our publishing operation. Other non-operating items for the first quarter of 2014 included special charges primarily related to the early retirement of our 9.375% notes due in 2017. The charges included a call premium paid as well as the write off of unamortized debt issuance costs and original issue discount. We also incurred expenses related to the consent solicitation relating to the Belo debentures we assumed as part of the Belo transaction. The income tax provision for the first quarter of 2014 reflects a charge related to the sale of our interest in television station KMOV TV in St. Louis, MO, in February 2014.

In the second quarter of 2015, special items were recorded in other non-operating items primarily related to costs related the spin-off of our publishing operation, partly offset by the gain related to the Texas-New Mexico Newspapers Partnership acquisition. In the second quarter of 2014, non-operating special items were recorded primarily related to the pre-tax gain of \$148 million related to the Classified Ventures sale of its Apartments.com business. This gain is reflected in the line equity income in unconsolidated investees, net.

We use non-GAAP financial performance measures for purposes of evaluating business unit and consolidated company performance. Therefore, we believe that each of the non-GAAP measures presented provides investors a view into the ongoing operation of our businesses through the eyes of our management and Board of Directors. This facilitates comparison of results across historical periods, and provides a focus on the underlying ongoing operating performance of our businesses. Many of our peer group companies present similar non-GAAP measures to better facilitate industry comparisons.

Discussion of special charges and credits affecting reported results

Our results for 2015 included the following items we consider special and not indicative of our normal ongoing operations:

- Costs associated with workforce restructuring;

- Transformation items;

- Non-cash asset impairment charges;

- Other non-operating gains related to the sale of Gannett Healthcare Group and the newspaper partnerships exchange and charges related to the spin-off of our Publishing business; and

- Special tax charge primarily related to the restructuring of our legal entities in advance of the spin-off of our Publishing business.

Results for 2014 included the following special items:

- Costs associated with workforce restructuring;

- Transformation costs;

- Non-cash asset impairment charges;

- Other non-operating charges;

- Non-operating gain related to the sale of Apartments.com; and

- A tax charge related to the sale of our interest in KMOV-TV.

## Consolidated Summary - Non-GAAP

The following is a discussion of our as adjusted non-GAAP financial results. All as adjusted (non-GAAP basis) measures are labeled as such or "adjusted."

Adjusted operating results were as follows:

In thousands, except share data	Second Quarter			Year-to-Date		
	2015	2014	Change	2015	2014	Change
Operating revenues	\$1,521,392	\$1,460,004	4 %	\$2,994,157	\$2,864,070	5 %
Adjusted operating expenses	1,215,243	1,165,810	4 %	2,444,263	2,343,117	4 %
Adjusted operating income	\$306,149	\$294,194	4 %	\$549,894	\$520,953	6 %
Adjusted net income attributable to TEGNA Inc.	\$150,165	\$154,649	(3 %)	\$262,930	\$263,073	— %
Adjusted diluted earnings per share	\$0.65	\$0.67	(3 %)	\$1.13	\$1.13	— %

Operating revenues increased 4% to \$1.52 billion in the second quarter of 2015 and 5% to \$2.99 billion for the year-to-date period. The increase in both periods were driven by record results in the Broadcasting Segment, partially offset by the absence of politically related advertising revenues that benefited the same periods last year, and record results in the Digital Segment, driven by the acquisition and strong organic growth of Cars.com.

Broadcasting Segment revenues increased 5% in the second quarter of 2015 and 4% year-to-date, reflecting substantially higher retransmission revenues and digital revenues, partly offset by the absence of political advertising revenue in the quarter and year-to-date periods. Digital Segment revenues increased 74% for the second quarter and 79% for the year-to-date period, which was driven by the acquisition and strong organic growth of Cars.com.

Publishing Segment revenues were down 9% in both, the second quarter of 2015 and year-to-date periods.

A summary of the impact of special items on our operating expenses is presented below:

In thousands	Second Quarter			Year-to-Date

Adjusted operating income increased 4% for the second quarter, reflecting higher Broadcasting and Digital Segment adjusted operating income, partially offset by lower Publishing Segment adjusted operating income. Adjusted Broadcasting

Segment operating income increased 1% to \$179.2 million for the quarter reflecting substantially higher retransmission revenue, partially offset by the absence of \$14 million in incremental politically related advertising that occurred in the second quarter last year. Adjusted Digital Segment operating income was \$71.8 million for the quarter driven primarily by the acquisition of and strong organic growth at Cars.com. Adjusted Publishing Segment operating income was \$74.2 million for the quarter. On a year-to-date basis, adjusted operating income increased 6%, reflecting higher Broadcasting and Digital Segment adjusting operating income, partly offset by lower Publishing Segment adjusted operating income.

A summary of the impact of special items on non-operating income (expense), net income attributable to TEGNA Inc. and diluted earnings per share is presented below:

As adjusted net income attributable to TEGNA Inc. and as adjusted diluted earnings per share each decreased 3% for the quarter and were flat for the year-to-date period. The decrease for the quarter was primarily due to a higher effective tax rate in the second quarter of 2015 compared to last year.

Adjusted Digital Segment operating expenses increased 68% for the second quarter due to the acquisition of Cars.com. Adjusted expenses on a pro forma basis decreased 4% for the second quarter reflecting lower traffic acquisition costs and favorable changes to affiliate agreements at Cars.com as well as cost efficiencies at CareerBuilder.

Adjusted operating income for the Digital Segment was \$71.8 million for the second quarter, an increase of 101%.

Adjusted operating income on a pro forma basis increased by 65% due to strong results at Cars.com.

On a year-to-date basis, adjusted Digital Segment operating expenses increased 72% due to the acquisition of Cars.com. Adjusted expenses on a pro forma basis decreased 2%. Adjusted operating income was \$131.0 million for the first six months of 2015, an increase of 120% over the same comparable period last year. The increase was due to strong results at Cars.com and CareerBuilder.

## Publishing Segment - Non-GAAP

As adjusted effective tax rate (non-GAAP basis)	33.7	% 30.5	% 32.1	% 30.3	%

The adjusted effective tax rate for the second quarter of 2015 was 33.7%, compared to the 30.5% adjusted effective tax rate for the comparable period last year. For the first six months, the adjusted effective tax rate was 32.1% in 2015 compared to 30.3% in the comparable period last year. The higher 2015 adjusted effective tax rates for both periods are due to larger benefits obtained in 2014 from releases of prior year tax reserves, favorable tax examination resolutions, and state statutory tax rate reductions, partially offset by a 2015 benefit from an accounting method change.

#### Presentation of Pro Forma Information

Pro forma information is presented on the basis as if the acquisition of Cars.com had occurred on the first day of 2014. The pro forma financial information is based on historical results of operations, adjusted for the allocation of the purchase price and other acquisition accounting adjustments, and is not necessarily indicative of what our results would have been had we operated the business since the beginning of 2014. Pro forma adjustments for Cars.com reflect depreciation expense and amortization of intangibles related to the fair value adjustments of the assets acquired and the alignment of accounting policies for all acquisitions.

Reconciliations of Digital Segment revenues and expenses on an as reported basis to a pro forma basis for the second quarter and year-to-date periods in 2014 are below:

In thousands	Second Quarter 2014			Year-to-Date 2014		
	As reported	Pro Forma Adjustments <sup>(a)</sup>	Pro Forma	As reported	Pro Forma Adjustments <sup>(a)</sup>	Pro Forma
Digital operating revenue	\$ 194,381	\$ 125,355	\$ 319,736	\$ 374,116	\$ 248,052	\$ 622,168
Digital operating expenses	158,686	117,537	276,223	314,597	234,273	548,870
Digital operating income	\$ 35,695	\$ 7,818	\$ 43,513	\$ 59,519	\$ 13,779	\$ 73,298

<sup>(a)</sup> The pro forma adjustments include additions to revenue and expenses for the acquisition of Cars.com as if it had occurred on the first day of 2014. With the acquisition of Cars.com in the fourth quarter of 2014, we began reporting intersegment eliminations separately. In addition, prior quarter intersegment eliminations that were previously reported within the Digital Segment were adjusted on a pro forma basis to the new intersegment elimination line. Digital Segment revenues on a pro forma basis increased 6% for the second quarter and 8% for the year-to-date period, driven mainly by strong organic growth at Cars.com. On a percentage basis, Cars.com revenues increased in the mid-twenties for the second quarter and year-to-date, primarily due to higher wholesale rates that Cars.com charges its affiliates, as well as an increase in average revenue per dealer and unit growth in Cars.com direct markets. CareerBuilder revenues declined 2% for the second quarter and increased 1% for year-to-date. The decline in the quarter reflects year-over-year declines in foreign exchange rates as well as the strategic decision to reduce our dependency on transactional advertising, replaced by an emphasis on more lucrative, long-term software deals. On a pro forma basis, Digital Segment operating expenses decreased 4% for the second quarter of 2015 and 2% for year-to-date.

#### Certain Matters Affecting Future Operating Results

The following items will affect year-over-year comparisons for future results:

**Spin-off of Publishing businesses** - On the first day of our third quarter, we completed the previously announced spin-off of our publishing businesses. We will report publishing as a discontinued operation beginning in the third quarter of 2015 and for the remainder of the year.

**Recurring income tax rate** - We anticipate a recurring tax rate on a standalone basis to be in the mid-30%'s, given the loss of U.K. statutory tax benefits resulting from the spin-off of our publishing businesses.

**Broadcasting Segment revenues** - Broadcasting Segment revenues will be impacted by challenging year-over-year comparisons, due to the cyclical absence of record political revenues during the second half of this year. These revenues totaled \$159 million in 2014, with \$132 million generated in the second half of the year. Based on current trends, we expect the percentage decrease in total television revenues for the third quarter of 2015, compared to the same quarter in 2014, to be down in the low to mid-single digits as year-over-year comparisons in the third quarter of 2014 benefited from political advertising of \$40 million.

**Acquisition of remaining 73% interest in Classified Ventures LLC** - On October 1, 2014, we acquired the remaining 73% interest in Classified Ventures, LLC, which owned Cars.com, for \$1.8 billion. As a result, we expect a substantial increase in Digital Segment revenues and Adjusted EBITDA in the third quarter of 2015 compared to the third quarter of 2014, driven by the consolidation of Cars.com and the impact of new affiliate agreements.

**CareerBuilder investment** - CareerBuilder has accelerated its de-emphasis on transactional lower margin sourcing and screening businesses to focus on broader software as a service offerings which provide for higher margins and longer-term relationships with clients as valued partners. This transition will impact CareerBuilder growth rates over the balance of the year and we intend to invest \$10 - \$15 million in additional sales and distribution resources in the second half.

2015 fiscal calendar - In connection with the spin-off of our publishing business, we plan to align our calendar with the Gregorian calendar by extending our fourth quarter four days to December 31, 2015. Our results in the fourth quarter, particularly for the Broadcasting Segment, will be impacted by the extra four days.

Sale of Gannett Healthcare Group - On December 29, 2014, we sold Gannett Healthcare Group to OnCourse Learning, an online education and training provider. As a result, revenue comparisons between 2015 and 2014 will be impacted by the absence of approximately \$29 million due to this sale.

### Liquidity, Capital Resources and Cash Flows

Our cash generating capability and financial condition, together with our revolving credit agreement, are sufficient to fund our capital expenditures, interest, dividends, share repurchases, contributions to our pension plans, investments in strategic initiatives and other operating requirements. Looking ahead, we expect to continue to fund debt maturities, acquisitions and investments through a combination of cash flows from operations, borrowings under our revolving credit agreement and/or funds raised in the capital markets.

In February 2012, Gannett announced a new capital allocation plan, which aimed to return \$1.3 billion to shareholders by 2015. This plan included increasing our dividend to its current level of \$0.80 per share on an annual basis. A \$300 million share repurchase program was also launched. On June 13, 2013, we announced that the existing share buyback program was replaced with a new \$300 million authorization projected to be completed within the two year period following its announcement. We suspended share repurchases in mid-2014 in connection with our acquisition of Cars.com. The temporary suspension on repurchases was lifted in February 2015 and for the first half of the year, we repurchased \$75.1 million of stock. As of June 28, 2015, we had \$73.8 million remaining under this authorization. In connection with the spin-off of our Publishing businesses on the first day of the third quarter, we announced that we expect to return approximately \$1.5 billion to shareholders by the end of 2018 through a regular cash dividend of \$0.56 per share annually and a \$750 million share repurchase program to be completed over a three-year period beginning June 29, 2015.

At the end of the second quarter, our total long-term debt was \$4.45 billion. Cash and cash equivalents at the end of the second quarter totaled \$219.1 million.

Our financial and operating performance, as well as our ability to generate sufficient cash flow to maintain compliance with credit facility covenants, are subject to certain risk factors as noted in the section below titled “Certain Factors Affecting Forward-Looking Statements.”

#### Cash Flows

Our net cash flow from operating activities was \$295.4 million for the first six months of 2015, compared to \$354.9 million for the first six months of 2014. The decrease in net cash flow from operating activities was due to the relative absence of \$64 million of political and Olympic revenue achieved in the first two quarters last year, a \$63.2 million increase in pension payments in 2015, the timing of certain reverse network compensation payments, payments related to previously accrued expenses for the shutdown of USA Weekend and routine working capital changes. The increase in pension payments in 2015 was primarily due to a voluntary contribution we made of \$100.0 million to our principal retirement plan. TEGNA has no required contributions to any of its principal pension plans for the remainder of 2015. Cash flows from investing activities totaled \$0.4 million for the first six months of 2015, compared to cash flows of \$45.8 million for the same period in 2014 or a difference of \$45.4 million. The significant decrease in cash inflows was due primarily to \$12.4 million received from investments in the first half of 2015 compared to \$163.3 million for the same period in 2014, driven by a \$154.6 million cash distribution from Classified Ventures related to its sale of Apartments.com last year. This is partially offset by lower payments for acquisitions in the first half of 2015 compared to the same period in 2014. In the first half of 2015, we paid \$37.3 million for acquisitions compared to \$122.0 million in the first half of 2014.

Cash flows used for financing activities totaled \$195.3 million for the first six months of 2015, compared to \$439.6 million for the first six months of 2014. The decrease in cash flows used for financing activities was mainly due to lower debt payments made in 2015 compared to the same period in 2014. We paid \$86.5 million in debt payments in the first half of 2015 compared to \$267.9 million in the same period last year, which included the early repayment of the 9.375% notes due in 2017 with a then aggregate principal balance of \$250 million.

#### Non-GAAP Liquidity Measure

Our free cash flow, a non-GAAP liquidity measure, was \$156.2 million for the second quarter ended June 28, 2015 and \$285.4 million for the first half of 2015. Free cash flow, which we reconcile to “net cash flow from operating activities,” is cash flow from operations reduced by “purchase of property, plant and equipment” as well as “payments for investments” and increased by “proceeds from investments” and voluntary pension contributions, net of related tax benefit. We believe that free cash flow is a useful measure for management and investors to evaluate the level of cash generated by operations and the ability of our operations to fund investments in new and existing businesses, return

cash to shareholders under our capital program, repay indebtedness or to use in other discretionary activities.

Reconciliations from “Net cash flow from operating activities” to “Free cash flow” follow:

In thousands	Second Quarter		Year-to-Date

Free cash flow	\$ 156,195	\$ 307,121	\$ 285,421	\$ 456,031

Our free cash flow in the first six months of 2015 is lower than the first six months in 2014 driven primarily by the cash distribution received last year from our investment in Classified Ventures.

#### Certain Factors Affecting Forward-Looking Statements

Certain statements in this Annual Report on Form 10-Q contain certain forward-looking statements regarding business strategies, market potential, future financial performance and other matters. The words “believe,” “expect,” “estimate,” “could,” “should,” “intend,” “may,” “plan,” “seek,” “anticipate,” “project” and similar expressions, among others, generally identify “forward-looking statements,” which speak only as of the date the statements were made. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results and events to differ materially from those anticipated in the forward-looking statements. We are not responsible for updating or revising any forward-looking statements, whether the result of new information, future events or otherwise, except as required by law.

Potential risks and uncertainties which could adversely affect our results include, without limitation, the following factors: (a) changes in economic conditions in the U.S. and other markets we serve may depress demand for our products and services; (b) competition from alternative forms of media may impair our ability to grow or maintain revenue levels in core and new businesses; (c) the separation of our Publishing business from our Broadcasting and Digital businesses may not achieve some or all of the anticipated benefits; (d) the value of our assets or operations may be diminished if our information technology systems fail to perform adequately or if we are the subject of a data breach or cyber attack; (e) volatility in the U.S. credit markets could significantly impact our ability to obtain new financing to fund our operations and strategic initiatives or to refinance our existing debt at reasonable rates as it matures; (f) volatility in global financial markets directly affects the value of our pension plan assets and liabilities; (g) changes in the regulatory environment could encumber or impede our efforts to improve operating results or the value of assets; (h) our strategic acquisitions, investments and partnerships could pose various risks, increase our leverage and may significantly impact our ability to expand our overall profitability; (i) the value of our existing intangible assets may become impaired, depending upon future operating results; and (j) adverse results from litigation or governmental investigations can impact our business practices and operating results.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk

We believe that our market risk from financial instruments, such as accounts receivable, accounts payable and debt, is immaterial. At the end of the second quarter of 2015, we had \$821.7 million in long-term floating rate obligations outstanding. While these fluctuate with market interest rates, by way of comparison, a 50 basis points increase or decrease in the average interest rate for these obligations would result in a change in annualized interest expense of \$4 million.

The fair value of our total long-term debt, based on bid and ask quotes for the related debt, totaled \$4.61 billion at June 28, 2015 and \$4.65 billion at December 28, 2014.

#### Item 4. Controls and Procedures

Based on their evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective, as of June 28, 2015, to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There have been no changes in our internal controls or in other factors during the fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

## PART II. OTHER INFORMATION

## Item 1. Legal Proceedings

There have been no material developments with respect to our potential liability for environmental matters previously reported in our 2014 Annual Report on Form 10-K.

## Item 1A. Risk Factors

There have been no material changes from the risk factors described in the “Risk Factors” section previously reported in our 2014 Annual Report on Form 10-K.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Program	(d) Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
3/30/15 – 5/3/15	356,800	\$36.01	356,800	\$98,561,922
5/4/15 – 5/31/15	329,800	\$35.27	329,800	\$86,930,737
6/1/15 – 6/28/015	363,000	\$36.06	363,000	\$73,841,450
Total Second Quarter 2015	1,049,600	\$35.79	1,049,600	\$73,841,450

On June 11, 2013, our Board of Directors approved a new \$300 million share repurchase program (replacing the 2012 \$300 million program). This program was temporarily suspended in the third quarter of 2014 in support of the Cars.com acquisition. Share repurchases started again in the first quarter 2015 under this program.

In connection with the spin-off of our Publishing businesses on the first day of the third quarter, we announced that we expect to return approximately \$1.5 billion to shareholders by the end of 2018 through a regular cash dividend of \$0.56 per share annually and a \$750 million share repurchase program to be completed over a three-year period beginning June 29, 2015.

## Item 3. Defaults Upon Senior Securities

This item is not applicable.

## Item 4. Mine Safety Disclosures

This item is not applicable.

## Item 5. Other Information

## Item 5.03. Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.

On August 5, 2015, we determined that we will change our fiscal year from a 52/53 week period ending the last Sunday in December to a calendar year period by extending our 2015 fiscal year by four days to end on December 31, 2015. We will report the additional four days as part of our 2015 fourth quarter results, consistent with SEC guidance for reporting a change of this nature. Beginning January 1, 2016, our quarterly results will be for the three month periods ending March 31, June 30, September 30 and December 31. We do not intend to restate historical results in connection with this change.
