

GENERAL DYNAMICS CORP
Form 10-Q
April 25, 2018

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended April 1, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 1-3671

GENERAL DYNAMICS CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

13-1673581

State or other jurisdiction of incorporation or organization I.R.S. employer identification no.

2941 Fairview Park Drive, Suite 100

22042-4513

Falls Church, Virginia

Address of principal executive offices

Zip code

(703) 876-3000

Registrant's telephone number, including area code

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

297,033,427 shares of the registrant's common stock, \$1 par value per share, were outstanding on April 1, 2018.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share amounts or unless otherwise noted)

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Consolidation and Classification. The unaudited Consolidated Financial Statements include the accounts of General Dynamics Corporation and our wholly owned and majority-owned subsidiaries. We eliminate all inter-company balances and transactions in the unaudited Consolidated Financial Statements. Some prior-year amounts have been reclassified among financial statement accounts or disclosures to conform to the current-year presentation.

Consistent with industry practice, we classify assets and liabilities related to long-term contracts as current, even though some of these amounts may not be realized within one year.

Further discussion of our significant accounting policies is contained in the other notes to these financial statements. **Interim Financial Statements.** The unaudited Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. These rules and regulations permit some of the information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) to be condensed or omitted.

Our fiscal quarters are 13 weeks in length. Because our fiscal year ends on December 31, the number of days in our first and fourth quarters varies slightly from year to year. Operating results for the three-month period ended April 1, 2018, are not necessarily indicative of the results that may be expected for the year ending December 31, 2018. The unaudited Consolidated Financial Statements contain all adjustments that are of a normal recurring nature necessary for a fair presentation of our results of operations and financial condition for the three-month periods ended April 1, 2018, and April 2, 2017.

These unaudited Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Accounting Standards Updates. On January 1, 2018, we adopted the following accounting standards issued by the Financial Accounting Standards Board (FASB):

ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 addresses certain aspects of recognition, measurement, presentation and disclosure of financial instruments. Specific to our business, ASU 2016-01 requires equity investments to be measured at fair value with changes in fair value recognized in net income. The ASU eliminates the available-for-sale classification for equity investments that recognized changes in fair value as a component of other comprehensive income. We adopted the standard on a modified retrospective basis on January 1, 2018, and recognized the cumulative effect as a \$24 increase to retained earnings on the date of adoption.

ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments.

ASU 2016-15 is intended to reduce diversity in practice in how certain cash receipts and cash payments are presented and classified in the Consolidated Statement of Cash Flows by providing guidance on eight specific cash flow issues. We adopted the standard retrospectively on January 1, 2018.

The adoption of the ASU did not have an effect on our cash flows for the three-month period ended April 2, 2017. ASU 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. ASU 2017-07 requires the service cost component of net benefit cost to be reported separately from the other components of net benefit cost in the income statement. We adopted the standard retrospectively on January 1, 2018. Our restated operating earnings increased \$11 for the three-month period ended April 2, 2017, due to the reclassification of the non-service cost components of net benefit cost, and other income decreased by the same amount, with no impact to net earnings.

ASU 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. ASU 2018-02 allows the reclassification from accumulated other comprehensive income to retained earnings of stranded tax effects resulting from the implementation of the Tax Cuts and Jobs Act (tax reform) enacted on December 22, 2017. We adopted the standard on January 1, 2018, and recognized a \$614 increase to retained earnings on the date of adoption.

For a discussion of other accounting standards that have been issued by the FASB but are not yet effective, refer to the Accounting Standards Updates section in our Annual Report on Form 10-K for the year ended December 31, 2017.

B. SUBSEQUENT EVENTS

On April 3, 2018, we completed our acquisition of CSRA Inc. (CSRA) for \$41.25 per share in cash. The aggregate amount of consideration paid, including amounts to repay CSRA's due and payable debt and cash out outstanding stock options and restricted stock units of CSRA, was approximately \$9.7 billion. This amount was funded by a combination of available cash on hand, a borrowing of \$7.5 billion under the 364-day credit facility further described in Note J and proceeds from commercial paper issuances. In addition, approximately \$450 was paid to satisfy obligations under CSRA's accounts receivable purchase agreement.

CSRA is now part of General Dynamics Information Technology (GDIT) in our Information Systems and Technology group. The combination of GDIT and CSRA creates a premier provider of high-tech IT solutions to the government IT market.

The disclosures required by Accounting Standards Codification (ASC) Topic 805 are not included in this Form 10-Q because the initial accounting for the business combination is incomplete.

Additionally, on April 11, 2018, we announced that we had entered into a binding agreement to acquire Hawker Pacific, a leading provider of integrated aviation solutions across Asia Pacific and the Middle East, for \$250. The transaction is subject to customary closing conditions, and is expected to be completed in the second quarter of 2018.

C. ACQUISITIONS AND DIVESTITURES, GOODWILL, AND INTANGIBLE ASSETS

Acquisitions and Divestitures. In the first quarter of 2018, we acquired a provider of specialized transmitters and receivers in our Information Systems and Technology group. In 2017, we acquired four businesses for an aggregate of \$399: a fixed-base operation (FBO) in our Aerospace group; and a manufacturer of electronics and communications products, a provider of mission-critical support services, and a manufacturer of signal distribution products in our Information Systems and Technology group. As the purchase prices of these

acquisitions were not material for the three-month periods ended April 1, 2018, and April 2, 2017, they are included in other investing activities, net, in the unaudited Consolidated Statement of Cash Flows.

The operating results of these acquisitions have been included with our reported results since the respective closing dates. The purchase prices of the acquisitions have been allocated to the estimated fair value of net tangible and intangible assets acquired, with any excess purchase price recorded as goodwill.

In the first quarter of 2018, we completed the sale of a commercial health products business in our Information Systems and Technology group. The proceeds from the sale are included in other investing activities, net, in the unaudited Consolidated Statement of Cash Flows.

Goodwill. The changes in the carrying amount of goodwill by reporting unit were as follows:

	Aerospace	Combat Systems	Information Systems and Technology	Marine Systems	Total Goodwill
December 31, 2017 (a)	\$ 2,638	\$ 2,677	\$ 6,302	\$ 297	\$ 11,914
Acquisitions/divestitures (b)	—	—	16	—	16
Other (c)	40	(14)	(1)	—	25
April 1, 2018 (a)	\$ 2,678	\$ 2,663	\$ 6,317	\$ 297	\$ 11,955

(a) Goodwill in the Information Systems and Technology reporting unit is net of \$2 billion of accumulated impairment losses.

(b) Includes adjustments during the purchase price allocation period and an allocation of goodwill associated with the sale of the commercial health products business discussed above.

(c) Consists primarily of adjustments for foreign currency translation.

Intangible Assets. Intangible assets consisted of the following:

	Gross Carrying Amount (a)	Accumulated Amortization (a)	Net Carrying Amount	Gross Carrying Amount (a)	Accumulated Amortization (a)	Net Carrying Amount
	April 1, 2018			December 31, 2017		
Contract and program intangible assets (b)	\$ 1,665	\$ (1,318)	\$ 347	\$ 1,684	\$ (1,320)	\$ 364
Trade names and trademarks	477	(168)	309	465	(160)	305
Technology and software	154	(109)	45	137	(105)	32
Other intangible assets	155	(154)	1	155	(154)	1
Total intangible assets	\$ 2,451	\$ (1,749)	\$ 702	\$ 2,441	\$ (1,739)	\$ 702

(a) Change in gross carrying amounts consists primarily of adjustments for acquired intangible assets and foreign currency translation.

(b) Consists of acquired backlog and probable follow-on work and associated customer relationships.

Amortization expense was \$20 and \$19 for the three-month periods ended April 1, 2018, and April 2, 2017, respectively.

D. REVENUE

The majority of our revenue is derived from long-term contracts and programs that can span several years. We account for revenue in accordance with ASC Topic 606, Revenue from Contracts with Customers.

Performance Obligations. A performance obligation is a promise in a contract to transfer a distinct good or service to the customer, and is the unit of account in ASC Topic 606. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. The majority of our contracts have a single performance obligation as the promise

to transfer the individual goods or services is not separately identifiable from other promises in the contracts and is, therefore, not distinct. Some of our contracts have multiple performance obligations, most commonly due to the contract covering multiple phases of the product lifecycle (development, production, maintenance and support). For contracts with multiple performance obligations, we allocate the contract's transaction price to each performance obligation using our best estimate of the standalone selling price of each distinct good or service in the contract. The primary method used to estimate standalone selling price is the expected cost plus a margin approach, under which we forecast our expected costs of satisfying a performance obligation and then add an appropriate margin for that distinct good or service.

Contract modifications are routine in the performance of our contracts. Contracts are often modified to account for changes in contract specifications or requirements. In most instances, contract modifications are for goods or services that are not distinct, and, therefore, are accounted for as part of the existing contract.

Our performance obligations are satisfied over time as work progresses or at a point in time. Revenue from products and services transferred to customers over time accounted for 73% and 70% of our revenue for the three-month periods ended April 1, 2018, and April 2, 2017, respectively. Substantially all of our revenue in the defense groups is recognized over time because control is transferred continuously to our customers. Typically, revenue is recognized over time using costs incurred to date relative to total estimated costs at completion to measure progress toward satisfying our performance obligations. Incurred cost represents work performed, which corresponds with, and thereby best depicts, the transfer of control to the customer. Contract costs include labor, material, overhead and, when appropriate, G&A expenses.

Revenue from goods and services transferred to customers at a point in time accounted for 27% and 30% of our revenue for the three-month periods ended April 1, 2018, and April 2, 2017, respectively. The majority of our revenue recognized at a point in time is for the manufacture of business-jet aircraft in our Aerospace group. Revenue on these contracts is recognized when the customer obtains control of the asset, which is generally upon delivery and acceptance by the customer of the fully outfitted aircraft.

On April 1, 2018, we had \$62.1 billion of remaining performance obligations, which we also refer to as total backlog. We expect to recognize approximately 60% of our remaining performance obligations as revenue by 2019, an additional 25% by 2021 and the balance thereafter. On December 31, 2017, we had \$63.2 billion of remaining performance obligations, and on December 31, 2017, we expected to recognize approximately 40% of these remaining performance obligations as revenue in 2018, an additional 40% by 2020 and the balance thereafter.

Contract Estimates. Accounting for long-term contracts and programs involves the use of various techniques to estimate total contract revenue and costs. For long-term contracts, we estimate the profit on a contract as the difference between the total estimated revenue and expected costs to complete a contract and recognize that profit over the life of the contract.

Contract estimates are based on various assumptions to project the outcome of future events that often span several years. These assumptions include labor productivity and availability; the complexity of the work to be performed; the cost and availability of materials; the performance of subcontractors; and the availability and timing of funding from the customer.

The nature of our contracts gives rise to several types of variable consideration, including claims and award and incentive fees. We include in our contract estimates additional revenue for submitted contract modifications or claims against the customer when we believe we have an enforceable right to the modification or claim, the amount can be estimated reliably and its realization is probable. In evaluating these criteria, we consider the contractual/legal basis for the claim, the cause of any additional costs incurred,

the reasonableness of those costs and the objective evidence available to support the claim. We include award or incentive fees in the estimated transaction price when there is a basis to reasonably estimate the amount of the fee. These estimates are based on historical award experience, anticipated performance and our best judgment at the time. Because of our certainty in estimating these amounts, they are included in the transaction price of our contracts and the associated remaining performance obligations.

As a significant change in one or more of these estimates could affect the profitability of our contracts, we review and update our contract-related estimates regularly. We recognize adjustments in estimated profit on contracts under the cumulative catch-up method. Under this method, the impact of the adjustment on profit recorded to date on a contract is recognized in the period the adjustment is identified. Revenue and profit in future periods of contract performance are recognized using the adjusted estimate. If at any time the estimate of contract profitability indicates an anticipated loss on the contract, we recognize the total loss in the period it is identified.

The impact of adjustments in contract estimates on our operating earnings can be reflected in either operating costs and expenses or revenue. The aggregate impact of adjustments in contract estimates increased our revenue, operating earnings and diluted earnings per share as follows:

Three Months Ended	April 1,	April 2,
	2018	2017
Revenue	\$ 115	\$ 72
Operating earnings	97	50
Diluted earnings per share	\$ 0.25	\$ 0.11

No adjustment on any one contract was material to the unaudited Consolidated Financial Statements for the three-month periods ended April 1, 2018, or April 2, 2017.

Revenue by Category. Our portfolio of products and services consists of almost 10,000 active contracts. The following series of tables presents our revenue disaggregated by several categories.

Revenue by major products and services was as follows:

Three Months Ended	April 1, 2018	April 2, 2017
Aircraft manufacturing, outfitting and completions	\$ 1,366	\$ 1,629
Aircraft services	451	435
Pre-owned aircraft	8	10
Total Aerospace	1,825	2,074
Wheeled combat and tactical vehicles	625	560
Weapons systems, armament and munitions	383	346
Tanks and tracked vehicles	331	247
Engineering and other services	101	134
Total Combat Systems	1,440	1,287
C4ISR* solutions	1,098	1,088
Information technology (IT) services	1,138	1,058
Total Information Systems and Technology	2,236	2,146
Nuclear-powered submarines	1,296	1,204
Surface combatants	265	247
Auxiliary and commercial ships	218	143
Repair and other services	255	340
Total Marine Systems	2,034	1,934
Total revenue	\$ 7,535	\$ 7,441

* Command, control, communications, computers, intelligence, surveillance and reconnaissance.

Revenue by contract type was as follows:

Three Months Ended	Aerospace	Combat Systems	Information Systems and Technology	Marine Systems	Total Revenue
Three Months Ended April 1, 2018					
Fixed-price	\$ 1,668	\$ 1,253	\$ 1,007	\$ 1,305	\$ 5,233
Cost-reimbursement	—	179	1,017	728	1,924
Time-and-materials	157	8	212	1	378
Total revenue	\$ 1,825	\$ 1,440	\$ 2,236	\$ 2,034	\$ 7,535
Three Months Ended April 2, 2017					
Fixed-price	\$ 1,902	\$ 1,073	\$ 930	\$ 1,130	\$ 5,035
Cost-reimbursement	—	207	1,010	801	2,018
Time-and-materials	172	7	206	3	388
Total revenue	\$ 2,074	\$ 1,287	\$ 2,146	\$ 1,934	\$ 7,441

Each of these contract types presents advantages and disadvantages. Typically, we assume more risk with fixed-price contracts. However, these types of contracts offer additional profits when we complete the work for less than originally estimated. Cost-reimbursement contracts generally subject us to lower risk. Accordingly, the associated base fees are usually lower than fees earned on fixed-price contracts. Under time-and-materials contracts, our profit may vary if actual labor-hour rates vary significantly from the negotiated rates. Also, because these contracts can provide little or no fee for managing material costs, the content mix can impact profitability.

Revenue by customer was as follows:

Three Months Ended April 1, 2018	Aerospace	Combat Systems	Information Systems and Technology	Marine Systems	Total Revenue
U.S. government:					
Department of Defense (DoD)	\$ 41	\$ 607	\$ 1,175	\$ 1,950	\$ 3,773
Non-DoD	—	1	755	—	756
Foreign Military Sales (FMS)	16	69	15	29	129
Total U.S. government	57	677	1,945	1,979	4,658
U.S. commercial	842	58	67	53	1,020
Non-U.S. government	10	697	173	2	882
Non-U.S. commercial	916	8	51	—	975
Total revenue	\$ 1,825	\$ 1,440	\$ 2,236	\$ 2,034	\$ 7,535
Three Months Ended April 2, 2017					
U.S. government:

Non-U.S. government	5	502	176	4	687
Non-U.S. commercial	1,084	5	29	2	1,120
Total revenue	\$ 2,074	\$ 1,287	\$ 2,146	\$ 1,934	\$ 7,441

Contract Balances. The timing of revenue recognition, billings and cash collections results in billed accounts receivable, unbilled receivables (contract assets), and customer advances and deposits (contract liabilities) on the Consolidated Balance Sheet. In our defense groups, amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., biweekly or monthly) or upon achievement of contractual milestones. Generally, billing occurs subsequent to revenue recognition, resulting in contract assets. However, we sometimes receive advances or deposits from our customers, particularly on our international contracts, before revenue is recognized, resulting in contract liabilities. These assets and liabilities are reported on the Consolidated Balance Sheet on a contract-by-contract basis at the end of each reporting period. In our Aerospace group, we generally receive deposits from customers upon contract execution and upon achievement of contractual milestones. These deposits are liquidated when revenue is recognized. Changes in the contract asset and liability balances during the three-month period ended April 1, 2018, were not materially impacted by any other factors. Revenue recognized in the three-month periods ended April 1, 2018, and April 2, 2017, that was included in the contract liability balance at the beginning of each year was \$1.5 billion and \$1.7 billion, respectively. This revenue represented primarily the sale of business-jet aircraft.

E. EARNINGS PER SHARE

We compute basic earnings per share (EPS) using net earnings for the period and the weighted average number of common shares outstanding during the period. Basic weighted average shares outstanding have decreased in 2018 and 2017 due to share repurchases. See Note L for further discussion of our share repurchases. Diluted EPS incorporates the additional shares issuable upon the assumed exercise of stock options and the release of restricted stock and restricted stock units (RSUs).

Basic and diluted weighted average shares outstanding were as follows (in thousands):

Three Months Ended	April 1, April 2,	
	2018	2017
Basic weighted average shares outstanding	296,399	301,771
Dilutive effect of stock options and restricted stock/RSUs*	4,705	5,511
Diluted weighted average shares outstanding	301,104	307,282

* Excludes outstanding options to purchase shares of common stock that had exercise prices in excess of the average market price of our common stock during the period and, therefore, the effect of including these options would be antidilutive. These options totaled 517 and 681 for the three-month periods ended April 1, 2018, and April 2, 2017, respectively.

F. FAIR VALUE

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between marketplace participants. Various valuation approaches can be used to determine fair value, each requiring different valuation inputs. The following hierarchy classifies the inputs used to determine fair value into three levels:

- Level 1 - quoted prices in active markets for identical assets or liabilities;
- Level 2 - inputs, other than quoted prices, observable by a marketplace participant either directly or indirectly; and
- Level 3 - unobservable inputs significant to the fair value measurement.

We did not have any significant non-financial assets or liabilities measured at fair value on April 1, 2018, or December 31, 2017.

Our financial instruments include cash and equivalents, accounts receivable and payable, marketable securities held in trust and other investments, short- and long-term debt, and derivative financial instruments. The carrying values of cash and equivalents and accounts receivable and payable on the unaudited Consolidated Balance Sheet approximate their fair value. The following tables present the fair values of our other financial assets and liabilities on April 1, 2018, and December 31, 2017, and the basis for determining their fair values:

	Carryover Value	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Financial Assets (Liabilities)	April 1, 2018				
Measured at fair value:					
Marketable securities held in trust:					
Cash and equivalents	\$6	\$ 6	\$ 2	\$ 4	\$ —
Available-for-sale debt securities	130	130	—	130	—
Equity securities	54	54	54	—	—
Other investments	4	4	—	—	4
Cash flow hedges	(107)	(107)	—	(107)	—
Measured at amortized cost:					
Short- and long-term debt principal	(6,536)	(6,356)	—	(6,356)	—
	December 31, 2017				
Measured at fair value:					
Marketable securities held in trust:					
Cash and equivalents	\$20	\$ 20	\$ 15	\$ 5	\$—
Available-for-sale debt securities	117	117	—	117	—
Equity securities	54	54	54	—	—
Other investments	4	4	—	—	4
Cash flow hedges	(105)	(105)	—	(105)	—
Measured at amortized cost:					
Short- and long-term debt principal	(4,032)	(3,974)	—	(3,974)	—

Our Level 1 assets include investments in publicly traded equity securities valued using quoted prices from the market exchanges. The fair value of our Level 2 assets and liabilities is determined under a market approach using valuation models that incorporate observable inputs such as interest rates, bond yields and quoted prices for similar assets. Our Level 3 assets include direct private equity investments that are measured using inputs unobservable to a marketplace participant.

G. INCOME TAXES

Income Tax Provision. We calculate our provision for federal, state and international income taxes based on current tax law. Tax reform was enacted on December 22, 2017, and has several key provisions impacting accounting for and reporting of income taxes. The most significant provision reduced the U.S. corporate statutory tax rate from 35% to 21% beginning on January 1, 2018. We recorded the effect of the change in tax law in the fourth quarter of 2017.

Net Deferred Tax Liability. Our deferred tax assets and liabilities are included in other noncurrent assets and liabilities on the Consolidated Balance Sheet. Our net deferred tax liability consisted of the following:

	April 1, December 31,	
	2018	2017
Deferred tax asset	\$60	\$ 75
Deferred tax liability	(249)	(244)
Net deferred tax liability	\$(189)	\$ (169)

Tax Uncertainties. For all periods open to examination by tax authorities, we periodically assess our liabilities and contingencies based on the latest available information. Where we believe there is more than a 50% chance that our tax position will not be sustained, we record our best estimate of the resulting tax liability, including interest, in the Consolidated Financial Statements. We include any interest or penalties incurred in connection with income taxes as part of income tax expense. The total amount of these tax liabilities on April 1, 2018, was not material to our results of operations, financial condition or cash flows.

We participate in the Internal Revenue Service (IRS) Compliance Assurance Process (CAP), a real-time audit of our consolidated federal corporate income tax return. The IRS has examined our consolidated federal income tax returns through 2016. We do not expect the resolution of tax matters for open years to have a material impact on our results of operations, financial condition, cash flows or effective tax rate.

Based on all known facts and circumstances and current tax law, we believe the total amount of any unrecognized tax benefits on April 1, 2018, was not material to our results of operations, financial condition or cash flows, and if recognized, would not have a material impact on our effective tax rate. In addition, there are no tax positions for which it is reasonably possible that the unrecognized tax benefits will vary significantly over the next 12 months, producing, individually or in the aggregate, a material effect on our results of operations, financial condition or cash flows.

H. UNBILLED RECEIVABLES

Unbilled receivables represent revenue recognized on long-term contracts (contract costs and estimated profits) less associated advances and progress billings. These amounts will be billed in accordance with the agreed-upon contractual terms or upon achievement of contractual milestones. Unbilled receivables consisted of the following:

	April 1, December 31,	
	2018	2017
Unbilled revenue	\$22,928	\$ 21,845
Advances and progress billings	(17,063)	(16,605)
Net unbilled receivables	\$5,865	\$ 5,240

The increase in net unbilled receivables during the three-month period ended April 1, 2018, was due primarily to the timing of billings on large international vehicle contracts in our Combat Systems group.

I. INVENTORIES

The majority of our inventories are for business-jet aircraft. Our inventories are stated at the lower of cost or net realizable value. Work in process represents largely labor, material and overhead costs associated with aircraft in the manufacturing process and is based primarily on the estimated average unit cost in a production lot. Raw materials are valued primarily on the first-in, first-out method. We record pre-owned aircraft acquired in connection with the sale of new aircraft at the lower of the trade-in value or the estimated net realizable value.

Inventories consisted of the following:

	April 1, December 31,	
	2018	2017
Work in process	\$4,138	\$ 3,872
Raw materials	1,328	1,357
Finished goods	52	51
Pre-owned aircraft	25	23
Total inventories	\$5,543	\$ 5,303

J. DEBT

Debt consisted of the following:

		April 1, December 31,	
		2018	2017
Fixed-rate notes due:	Interest rate:		
July 2021	3.875%	\$ 500	\$ 500
November 2022	2.250%	1,000	1,000
August 2023	1.875%	500	500
November 2024	2.375%	500	500
August 2026	2.125%	500	500
November 2027	2.625%	500	500
November 2042	3.600%	500	500
Commercial paper	2.097%	2,500	—
Other	Various	32	32
Total debt principal		6,532	4,032
Less unamortized debt issuance costs and discounts		53	50
Total debt		6,479	3,982
Less current portion		2,498	2
Long-term debt		\$3,981	\$ 3,980

In the first quarter of 2018, we renewed and increased to \$2 billion our \$1 billion multi-year committed bank credit facility, which was scheduled to expire in July 2018. The new credit facility expires in March 2023. We have an additional \$1 billion multi-year committed bank credit facility that expires in November 2020. We may renew or replace these credit facilities in whole or in part at or prior to their expiration dates.

Also in the first quarter of 2018, we entered into a \$7.5 billion, 364-day committed bank credit facility that expires in March 2019. We financed the acquisition of CSRA, in part, by borrowing \$7.5 billion under this facility subsequent to the end of the quarter. We intend to issue debt securities in the future to repay in whole or in part the borrowings under this facility. The proceeds from these issuances will automatically reduce the bank's commitments under this facility to an amount not less than \$2 billion. Following this reduction, our three credit facilities will total \$5 billion. Our credit facilities are used for general corporate purposes and working capital needs and support our commercial paper issuances. Our credit facilities are guaranteed by several of our 100%-owned subsidiaries.

On April 1, 2018, \$2.5 billion of commercial paper had been issued and remained outstanding with a dollar-weighted average interest rate of 2.097% and original maturities of less than 90 days.

Our fixed-rate notes are fully and unconditionally guaranteed by several of our 100%-owned subsidiaries. See Note Q for condensed consolidating financial statements. We have the option to redeem the notes prior to their maturity in whole or in part for the principal plus any accrued but unpaid interest and applicable make-whole amounts.

Our financing arrangements contain a number of customary covenants and restrictions. We were in compliance with all covenants and restrictions on April 1, 2018.

K. OTHER LIABILITIES

A summary of significant other liabilities by balance sheet caption follows:

	April 1, December 31,	
	2018	2017
Salaries and wages	\$ 665	\$ 786
Workers' compensation	320	320
Retirement benefits	292	295
Fair value of cash flow hedges	201	180
Other (a)	1,320	1,317
Total other current liabilities	\$ 2,798	\$ 2,898
Retirement benefits	\$ 4,359	\$ 4,408
Customer deposits on commercial contracts	555	814
Deferred income taxes	249	244
Other (b)	1,059	1,066
Total other liabilities	\$ 6,222	\$ 6,532

(a) Consists primarily of dividends payable, taxes payable, environmental remediation reserves, warranty reserves, deferred revenue and supplier contributions in the Aerospace group, liabilities of discontinued operations, and insurance-related costs.

(b) Consists primarily of warranty reserves, workers' compensation liabilities and liabilities of discontinued operations.

L. SHAREHOLDERS' EQUITY

Share Repurchases. Our board of directors authorizes management's repurchase of outstanding shares of our common stock on the open market from time to time. On March 1, 2017, the board of directors authorized management to repurchase up to 10 million additional shares of the company's outstanding stock. In the three-month period ended April 1, 2018, we repurchased 1.2 million of our outstanding shares for \$257. On April 1, 2018, 6.4 million shares remained authorized by our board of directors for repurchase, approximately 2% of our total shares outstanding. We repurchased 1.9 million shares for \$355 in the three-month period ended April 2, 2017.

Dividends per Share. Dividends declared per share were \$0.93 and \$0.84 for the three-month periods ended April 1, 2018, and April 2, 2017, respectively. Cash dividends paid were \$250 and \$230 for the three-month periods ended April 1, 2018, and April 2, 2017, respectively.

Accumulated Other Comprehensive Loss. The changes, pretax and net of tax, in each component of accumulated other comprehensive loss (AOCL) consisted of the following:

	Losses on Cash Flow Hedges	Unrealized Gains on Marketable Securities	Foreign Currency Translation Adjustments	Changes in Retirement Plans' Funded Status	AOCL
December 31, 2017	\$ (94)	\$ 19	\$ 402	\$ (3,147)	\$(2,820)
Cumulative effect adjustments (see Note A)	(4)	(19)	—	(615)	(638)
Other comprehensive income, pretax	(3)	—	1	84	82
Provision for income tax, net	(1)	—	—	16	15
Other comprehensive income, net of tax	(2)	—	1	68	67
April 1, 2018	\$(100)	\$ —	\$ 403	\$ (3,694)	\$(3,391)
December 31, 2016	\$(345)	\$14	\$69	\$(3,125)	\$(3,387)
Other comprehensive income, pretax	13	5	82	69	169
Provision for income tax, net	4	1	15	24	44
Other comprehensive income, net of tax	9	4	67	45	125
April 2, 2017	\$(336)	\$18	\$136	\$(3,080)	\$(3,262)

Current-period amounts reclassified out of AOCL related primarily to changes in our retirement plans' funded status and consisted of pretax recognized net actuarial losses of \$95 and \$85 for the three-month periods ended April 1, 2018, and April 2, 2017, respectively. This was offset partially by pretax amortization of prior service credit of \$12 and \$18 for the three-month periods ended April 1, 2018, and April 2, 2017, respectively. These AOCL components are included in our net periodic pension and other post-retirement benefit cost. See Note O for additional details.

M. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

We are exposed to market risk, primarily from foreign currency exchange rates, interest rates, commodity prices and investments. We may use derivative financial instruments to hedge some of these risks as described below. We had \$4.3 billion in notional forward exchange contracts outstanding on April 1, 2018, and December 31, 2017. We do not use derivative financial instruments for trading or speculative purposes. We recognize derivative financial instruments on the Consolidated Balance Sheet at fair value. See Note F for additional details.

Foreign Currency Risk and Hedging Activities. Our foreign currency exchange rate risk relates to receipts from customers, payments to suppliers and inter-company transactions denominated in foreign currencies. To the extent possible, we include terms in our contracts that are designed to protect us from this risk. Otherwise, we enter into derivative financial instruments, principally foreign currency forward purchase and sale contracts, designed to offset and minimize our risk. The dollar-weighted three-year average maturity of these instruments generally matches the duration of the activities that are at risk.

We record changes in the fair value of derivative financial instruments in operating costs and expenses in the Consolidated Statement of Earnings or in other comprehensive loss (OCL) within the Consolidated Statement of Comprehensive Income depending on whether the derivative is designated and qualifies for hedge accounting. Gains and losses related to derivative financial instruments that qualify as cash flow hedges are deferred in OCL until the underlying transaction is reflected in earnings. We adjust derivative

financial instruments not designated as cash flow hedges to market value each period and record the gain or loss in the Consolidated Statement of Earnings. The gains and losses on these instruments generally offset losses and gains on the assets, liabilities and other transactions being hedged. Gains and losses resulting from hedge ineffectiveness are recognized in the Consolidated Statement of Earnings for all derivative financial instruments, regardless of designation.

Net gains and losses on derivative financial instruments recognized in earnings, including gains and losses related to hedge ineffectiveness, were not material to our results of operations for the three-month periods ended April 1, 2018, and April 2, 2017. Net gains and losses reclassified to earnings from OCL were not material to our results of operations for the three-month periods ended April 1, 2018, and April 2, 2017, and we do not expect the amount of these gains and losses that will be reclassified to earnings during the next 12 months to be material.

We had no material derivative financial instruments designated as fair value or net investment hedges on April 1, 2018, or December 31, 2017.

Interest Rate Risk. Our financial instruments subject to interest rate risk include fixed-rate long-term debt obligations and variable-rate commercial paper. However, the risk associated with these instruments is not material.

Commodity Price Risk. We are subject to rising labor and commodity price risk, primarily on long-term, fixed-price contracts. To the extent possible, we include terms in our contracts that are designed to protect us from these risks.

Some of the protective terms included in our contracts are considered derivative financial instruments but are not accounted for separately, because they are clearly and closely related to the host contract. We have not entered into any material commodity hedging contracts but may do so as circumstances warrant. We do not believe that changes in labor or commodity prices will have a material impact on our results of operations or cash flows.

Investment Risk. Our investment policy allows for purchases of fixed-income securities with an investment-grade rating and a maximum maturity of up to five years. On April 1, 2018, we held \$4.3 billion in cash and equivalents, but held no marketable securities other than those held in trust to meet some of our obligations under workers' compensation and non-qualified supplemental executive retirement plans. On April 1, 2018, and December 31, 2017, these marketable securities totaled \$190 and \$191, respectively, and were reflected at fair value on the unaudited Consolidated Balance Sheet in other current and noncurrent assets.

Foreign Currency Financial Statement Translation. We translate foreign currency balance sheets from our international businesses' functional currency (generally the respective local currency) to U.S. dollars at end-of-period exchange rates, and statements of earnings at average exchange rates for each period. The resulting foreign currency translation adjustments are a component of OCL.

We do not hedge the fluctuation in reported revenue and earnings resulting from the translation of these international operations' results into U.S. dollars. The impact of translating our non-U.S. operations' revenue into U.S. dollars was not material to our results of operations for the three-month periods ended April 1, 2018, and April 2, 2017. In addition, the effect of changes in foreign exchange rates on non-U.S. cash balances was not material for the three-month periods ended April 1, 2018, and April 2, 2017.

N. COMMITMENTS AND CONTINGENCIES

Litigation

In 2015, Electric Boat Corporation, a subsidiary of General Dynamics Corporation, received a Civil Investigative Demand from the U.S. Department of Justice regarding an investigation of potential False Claims Act violations relating to alleged failures of Electric Boat's quality system with respect to allegedly non-conforming parts purchased from a supplier. In 2016, Electric Boat was made aware that it is a defendant in a lawsuit related to this matter filed under seal in U.S. district court. Also in 2016, the Suspending and Debarring Official for the U.S. Department of the Navy issued a Show Cause Letter to Electric Boat requesting that Electric Boat respond to the official's concerns regarding Electric Boat's oversight and management with respect to its quality assurance systems for subcontractors and suppliers. Electric Boat responded to the Show Cause Letter and has been engaged in discussions with the U.S. government. Given the current status of these matters, we are unable to express a view regarding the ultimate outcome or, if the outcome is adverse, to estimate an amount or range of reasonably possible loss. Depending on the outcome of these matters, there could be a material impact on our results of operations, financial condition and cash flows.

Additionally, various other claims and legal proceedings incidental to the normal course of business are pending or threatened against us. These other matters relate to such issues as government investigations and claims, the protection of the environment, asbestos-related claims and employee-related matters. The nature of litigation is such that we cannot predict the outcome of these other matters. However, based on information currently available, we believe any potential liabilities in these other proceedings, individually or in the aggregate, will not have a material impact on our results of operations, financial condition or cash flows.

Environmental

We are subject to and affected by a variety of federal, state, local and foreign environmental laws and regulations. We are directly or indirectly involved in environmental investigations or remediation at some of our current and former facilities and third-party sites that we do not own but where we have been designated a Potentially Responsible Party (PRP) by the U.S. Environmental Protection Agency or a state environmental agency. Based on historical experience, we expect that a significant percentage of the total remediation and compliance costs associated with these facilities will continue to be allowable contract costs and, therefore, recoverable under U.S. government contracts.

As required, we provide financial assurance for certain sites undergoing or subject to investigation or remediation. We accrue environmental costs when it is probable that a liability has been incurred and the amount can be reasonably estimated. Where applicable, we seek insurance recovery for costs related to environmental liabilities. We do not record insurance recoveries before collection is considered probable. Based on all known facts and analyses, we do not believe that our liability at any individual site, or in the aggregate, arising from such environmental conditions will be material to our results of operations, financial condition or cash flows. We also do not believe that the range of reasonably possible additional loss beyond what has been recorded would be material to our results of operations, financial condition or cash flows.

Other

Government Contracts. As a government contractor, we are subject to U.S. government audits and investigations relating to our operations, including claims for fines, penalties, and compensatory and treble

damages. We believe the outcome of such ongoing government audits and investigations will not have a material impact on our results of operations, financial condition or cash flows.

In the performance of our contracts, we routinely request contract modifications that require additional funding from the customer. Most often, these requests are due to customer-directed changes in the scope of work. While we are entitled to recovery of these costs under our contracts, the administrative process with our customer may be protracted. Based on the circumstances, we periodically file requests for equitable adjustment (REAs) that are sometimes converted into claims. In some cases, these requests are disputed by our customer. We believe our outstanding modifications, REAs and other claims will be resolved without material impact to our results of operations, financial condition or cash flows.

Letters of Credit and Guarantees. In the ordinary course of business, we have entered into letters of credit, bank guarantees, surety bonds and other similar arrangements with financial institutions and insurance carriers totaling approximately \$1.4 billion on April 1, 2018. In addition, from time to time and in the ordinary course of business, we contractually guarantee the payment or performance of our subsidiaries arising under certain contracts.

Aircraft Trade-ins. In connection with orders for new aircraft in contract backlog, our Aerospace group has outstanding options with some customers to trade in aircraft as partial consideration in their new-aircraft transaction. These trade-in commitments are generally structured to establish the fair market value of the trade-in aircraft at a date generally 45 or fewer days preceding delivery of the new aircraft to the customer. At that time, the customer is required to either exercise the option or allow its expiration. Any excess of the pre-established trade-in price above the fair market value at the time the new aircraft is delivered is treated as a reduction of revenue in the new-aircraft sales transaction.

Product Warranties. We provide warranties to our customers associated with certain product sales. We record estimated warranty costs in the period in which the related products are delivered. The warranty liability recorded at each balance sheet date is based generally on the number of months of warranty coverage remaining for the products delivered and the average historical monthly warranty payments. Warranty obligations incurred in connection with long-term production contracts are accounted for within the contract estimates at completion. Our other warranty obligations, primarily for business-jet aircraft, are included in other current and noncurrent liabilities on the Consolidated Balance Sheet.

The changes in the carrying amount of warranty liabilities for the three-month periods ended April 1, 2018, and April 2, 2017, were as follows:

Three Months Ended	April 1, 2018	April 2, 2017
Beginning balance	\$ 467	\$ 474
Warranty expense	29	38
Payments	(25)	(24)
Adjustments	(3)	—
Ending balance	\$ 468	\$ 488

O. RETIREMENT PLANS

We provide defined-contribution benefits to eligible employees, as well as some remaining defined-benefit pension and other post-retirement benefits.

Net periodic defined-benefit pension and other post-retirement benefit cost for the three-month periods ended April 1, 2018, and April 2, 2017, consisted of the following:

Three Months Ended	Pension Benefits		Other Post-retirement Benefits	
	April 2018	April 2017	April 1, 2018	April 2, 2017
Service cost	\$46	\$ 42	\$ 3	\$ 3
Interest cost	114	113	8	8
Expected return on plan assets	(179)	(169)	(9)	(8)
Recognized net actuarial loss (gain)	96	86	(1)	(1)
Amortization of prior service credit	(11)	(17)	(1)	(1)
Net periodic benefit cost	\$66	\$ 55	\$ —	\$ 1

As discussed in Note A, the service cost component of net periodic benefit cost is reported separately from the other components of net periodic benefit cost in accordance with ASU 2017-07.

Our contractual arrangements with the U.S. government provide for the recovery of contributions to our pension and other post-retirement benefit plans covering employees working in our defense business groups. For non-funded plans, our government contracts allow us to recover claims paid. Following payment, these recoverable amounts are allocated to contracts and billed to the customer in accordance with the Cost Accounting Standards (CAS) and specific contractual terms. For some of these plans, the cumulative pension and other post-retirement benefit cost exceeds the amount currently allocable to contracts. To the extent recovery of the cost is considered probable based on our backlog and probable follow-on contracts, we defer the excess in other contract costs in other current assets on the Consolidated Balance Sheet until the cost is allocable to contracts. For other plans, the amount allocated to contracts and included in revenue has exceeded the plans' cumulative benefit cost. We have similarly deferred recognition of these excess earnings on the Consolidated Balance Sheet.

It is our policy to fund our defined-benefit retirement plans in a manner that optimizes the tax deductibility and contract recovery of contributions considered within our capital deployment framework. Therefore, we may make discretionary contributions in addition to the required contributions determined in accordance with IRS regulations. In addition to our required contributions of approximately \$315 in 2018, as we deploy additional cash resulting from the recent tax reform, we intend to make discretionary contributions, resulting in total pension plan contributions of approximately \$550 in 2018.

P. BUSINESS GROUP INFORMATION

We operate in four business groups: Aerospace, Combat Systems, Information Systems and Technology, and Marine Systems. We organize our business groups in accordance with the nature of products and services offered. We measure each group's profitability based on operating earnings. As a result, we do not allocate net interest, other income and expense items, and income taxes to our business groups.

Summary financial information for each of our business groups follows:

Three Months Ended	Revenue		Operating Earnings	
	April 1, 2018	April 2, 2017	April 1, 2018	April 2, 2017
Aerospace	\$1,825	\$2,074	\$346	\$439
Combat Systems	1,440	1,287	224	205
Information Systems and Technology	2,236	2,146	247	236
Marine Systems	2,034	1,934	184	161
Corporate	—	—	7	5
Total	\$7,535	\$7,441	\$1,008	\$1,046

ASU 2017-07 requires the non-service cost components of pension and other post-retirement benefit cost (e.g., interest cost) to be reported in other income (expense) in the income statement. In our three defense groups, pension and other post-retirement benefit costs are allocable contract costs. For these groups, we report the offset for the non-service cost components in Corporate operating results. Stock option expense is also reported in Corporate operating results.

Q. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

The fixed-rate notes described in Note J are fully and unconditionally guaranteed on an unsecured, joint and several basis by several of our 100%-owned subsidiaries (the guarantors). The following condensed consolidating financial statements illustrate the composition of the parent, the guarantors on a combined basis (each guarantor together with its majority-owned subsidiaries) and all other subsidiaries on a combined basis.

CONDENSED CONSOLIDATING STATEMENT OF EARNINGS (UNAUDITED)

Three Months Ended April 1, 2018	Parent	Guarantors on a Combined Basis	Other Subsidiaries on a Combined Basis	Consolidating Adjustments	Total Consolidated
Revenue	\$—	\$ 6,484	\$ 1,051	\$ —	\$ 7,535

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Dollars in millions, except per-share amounts or unless otherwise noted)

BUSINESS OVERVIEW

General Dynamics is a global aerospace and defense company that offers a broad portfolio of products and services in business aviation; combat vehicles, weapons systems and munitions; information technology (IT) services and C4ISR (command, control, communications, computers, intelligence, surveillance and reconnaissance) solutions; and shipbuilding and ship repair.

Our company is organized into four business groups: Aerospace, Combat Systems, Information Systems and Technology, and Marine Systems. Our primary customer is the U.S. government, including the Department of Defense (DoD), the intelligence community and other U.S. government customers. We also have significant business with non-U.S. governments and a diverse base of corporate and individual buyers of business-jet aircraft. The following discussion should be read in conjunction with our 2017 Annual Report on Form 10-K and with the unaudited Consolidated Financial Statements included in this Form 10-Q.

ACQUISITION OF CSRA

On April 3, 2018, we completed our acquisition of CSRA Inc. (CSRA) for \$41.25 per share in cash. See Note B to the unaudited Consolidated Financial Statements in Part I, Item 1, for further discussion of the acquisition. CSRA is now part of General Dynamics Information Technology (GDIT) in our Information Systems and Technology group. The combination of GDIT and CSRA creates a premier provider of high-tech IT solutions to the government IT market. As a result of the CSRA acquisition and the associated impacts (e.g., acquisition financing), we anticipate the following adjustments to our 2018 outlook:

CSRA is expected to add approximately \$3.6 billion of revenue in 2018 to the Information Systems and Technology group's revenue.

After a one-time charge of approximately \$80 in the second quarter of 2018 associated with the costs to complete the acquisition, we expect the acquisition to be break even to slightly accretive to our diluted earnings per share in the second half of 2018.

RESULTS OF OPERATIONS

INTRODUCTION

An understanding of our accounting practices is necessary in the evaluation of our financial statements and operating results. The following paragraphs explain how we recognize revenue and operating costs in our business groups. We account for revenue in accordance with Accounting Standards Codification (ASC) Topic 606, Revenue from Contracts with Customers.

In the Aerospace group, we record revenue on contracts for new aircraft when the customer obtains control of the asset, which is generally upon delivery and acceptance by the customer of the fully outfitted aircraft. Revenue associated with the group's completions of other original equipment

manufacturers' (OEMs) aircraft and the group's services businesses is recognized as work progresses or upon delivery of services. Fluctuations in revenue from period to period result from the number and mix of new aircraft deliveries, progress on aircraft completions and the level of aircraft service activity during the period.

The majority of the Aerospace group's operating costs relate to new aircraft production on firm orders and consist of labor, material, subcontractor and overhead costs. The costs are accumulated in production lots, recorded in inventory and recognized as operating costs at aircraft delivery based on the estimated average unit cost in a production lot.

While changes in the estimated average unit cost for a production lot impact the level of operating costs, the amount of operating costs reported in a given period is based largely on the number and type of aircraft delivered. Operating costs in the Aerospace group's completions and services businesses are recognized generally as incurred.

For new aircraft, operating earnings and margin are a function of the prices of our aircraft, our operational efficiency in manufacturing and outfitting the aircraft, and the mix of large-cabin and mid-cabin aircraft deliveries. Additional factors affecting the group's earnings and margin include the volume, mix and profitability of completions and services work performed, the volume of and market for pre-owned aircraft, and the level of general and administrative (G&A) and net research and development (R&D) costs incurred by the group.

In the three defense groups, revenue on long-term government contracts is recognized generally over time as the work progresses, either as the products are produced or as services are rendered. Typically, revenue is recognized over time using costs incurred to date relative to total estimated costs at completion to measure progress toward satisfying our performance obligations. Incurred cost represents work performed, which corresponds with, and thereby best depicts, the transfer of control to the customer. Contract costs include labor, material, overhead and, when appropriate, G&A expenses. Variances in costs recognized from period to period reflect primarily increases and decreases in production or activity levels on individual contracts. Because costs are used as a measure of progress, year-over-year variances in cost result in corresponding variances in revenue, which we generally refer to as volume.

Operating earnings and margin in the defense groups are driven by changes in volume, performance or contract mix. Performance refers to changes in profitability based on adjustments to estimates at completion on individual contracts. These adjustments result from increases or decreases to the estimated value of the contract, the estimated costs to complete the contract or both. Therefore, changes in costs incurred in the period compared with prior periods do not necessarily impact profitability. It is only when total estimated costs at completion on a given contract change without a corresponding change in the contract value that the profitability of that contract may be impacted. Contract mix refers to changes in the volume of higher- versus lower-margin work. Additionally, higher or lower margins can be inherent in the contract type (e.g., fixed-price/cost-reimbursable) or type of work (e.g., development/production).

CONSOLIDATED OVERVIEW

Three Months Ended	April 1, 2018	April 2, 2017	Variance	
Revenue	\$7,535	\$7,441	\$94	1.3 %
Operating costs and expenses	6,527	6,395	132	2.1 %
Operating earnings	1,008	1,046	(38)	(3.6)%
Operating margin	13.4 %	14.1 %		

Our consolidated revenue increased in the first quarter of 2018 as revenue growth in each of our defense groups offset a decrease in revenue in our Aerospace group due to fewer aircraft deliveries. The increase in revenue in our defense groups was driven by higher volume from international military vehicles in our Combat Systems group, IT services in our Information Systems and Technology group and U.S. Navy ship construction in our Marine Systems group. Operating costs and expenses increased at a greater rate than revenue in the first quarter of 2018, resulting in lower operating earnings and margin due primarily to aircraft delivery mix in our Aerospace group. This margin decrease was offset partially by margin expansion in our Marine Systems group, reflecting improved operating performance across the group's shipyards.

REVIEW OF BUSINESS GROUPS

Following is a discussion of operating results and outlook for each of our business groups. For the Aerospace group, results are analyzed by specific types of products and services, consistent with how the group is managed. For the defense groups, the discussion is based on the lines of products and services each group offers with a supplemental discussion of specific contracts and programs when significant to the group's results. Additional information regarding our business groups can be found in Note P to the unaudited Consolidated Financial Statements in Part I, Item 1.

AEROSPACE

Three Months Ended	April 1, 2018	April 2, 2017	Variance
Revenue	\$1,825	\$2,074	\$(249) (12.0)%
Operating earnings	346	439	(93) (21.2)%
Operating margin	19.0 %	21.2 %	
Gulfstream aircraft deliveries (in units)	26	30	(4) (13.3)%

Operating Results

The change in the Aerospace group's revenue in the first quarter of 2018 consisted of the following:

Aircraft manufacturing, outfitting and completions	\$(263)
Aircraft services	16
Pre-owned aircraft	(2)
Total decrease	\$(249)

Aircraft manufacturing, outfitting and completions revenue decreased due to fewer deliveries of the ultra-large-cabin G650 aircraft consistent with our plan. Revenue is expected to increase later this year with initial deliveries of the new G500 aircraft. The increase in aircraft services revenue was driven by higher demand for maintenance work.

The change in the group's operating earnings in the first quarter of 2018 consisted of the following:

Aircraft manufacturing, outfitting and completions	\$(86)
Aircraft services	11
G&A/other expenses	(18)
Total decrease	\$(93)

Aircraft manufacturing, outfitting and completions earnings were down due to fewer aircraft deliveries and the mix of aircraft deliveries. Aircraft services operating earnings were particularly strong in the first quarter of 2018 due to favorable cost performance and the mix of services. G&A/other expenses were higher due primarily to increased R&D expenses associated with ongoing product-development efforts. Overall, the Aerospace group's operating margin decreased 220 basis points to 19% consistent with our plan as we transition to the G500 and later the G600 aircraft.

COMBAT SYSTEMS

Three Months Ended	April 1, 2018	April 2, 2017	Variance	
Revenue	\$1,440	\$1,287	\$153	11.9%
Operating earnings	224	205	19	9.3 %
Operating margin	15.6 %	15.9 %		

Operating Results

The increase in the Combat Systems group's revenue in the first quarter of 2018 consisted of the following:

International military vehicles	\$133
Weapons systems and munitions	11
U.S. military vehicles	9
Total increase	\$153

Revenue from international military vehicles increased due primarily to the ramp up of several production programs, including U.K. AJAX armoured fighting vehicles, Piranha 5 wheeled armored vehicles for the Romanian Armed Forces and the upgrade of light armored vehicles (LAVs) for the Government of Canada.

The Combat Systems group's operating margin decreased 30 basis points driven by contract mix in our weapons systems and munitions business.

INFORMATION SYSTEMS AND TECHNOLOGY

Three Months Ended	April 1, 2018	April 2, 2017	Variance	
Revenue	\$2,236	\$2,146	\$90	4.2%
Operating earnings	247	236	11	4.7%
Operating margin	11.0 %	11.0 %		

Operating Results

The increase in the Information Systems and Technology group's revenue in the first quarter of 2018 consisted of the following:

IT services	\$80
C4ISR solutions	10
Total increase	\$90

Revenue in our Information Systems and Technology group increased in the first quarter of 2018 due to an increase in activity following program delays across the group in 2017 and the acquisition of a provider of mission-critical support services in late 2017 in our IT services business. Operating margin in the first quarter of 2018 was steady compared with the prior-year period.

MARINE SYSTEMS

Three Months Ended	April 1, 2018	April 2, 2017	Variance	
Revenue	\$2,034	\$1,934	\$100	5.2 %
Operating earnings	184	161	23	14.3 %
Operating margin	9.0 %	8.3 %		

Operating Results

The increase in the Marine Systems group's revenue in the first quarter of 2018 consisted of the following:

U.S. Navy ship construction	\$146
Commercial ship construction	18
U.S. Navy ship engineering, repair and other services	(64)
Total increase	\$100

Revenue from U.S. Navy ship construction increased due primarily to higher volume on Block IV of the Virginia-class submarine program and the TAO-205 fleet oiler contract. Commercial ship construction revenue increased as work ramped up on a contract for two container ships scheduled for delivery in 2019 and 2020. These increases were offset partially by lower revenue from U.S. Navy ship engineering, repair and other services driven by a lower volume of submarine repair work and the timing of surface ship repair work.

The Marine Systems group's operating margin increased 70 basis points reflecting improved performance across the group's shipyards.

CORPORATE

Corporate income totaled \$7 in the first quarter of 2018 compared with \$5 in the first quarter of 2017. As discussed in Note A to the unaudited Consolidated Financial Statements in Part I, Item 1, Corporate operating costs are impacted by Accounting Standards Update (ASU) 2017-07. ASU 2017-07 requires the non-service cost components of pension and other post-retirement benefit cost (e.g., interest cost) to be reported in other income (expense) in the income statement. In our three defense groups, pension and other post-retirement benefit costs are allocable contract costs. For these groups, we report the offset for the non-service cost

components in Corporate operating results. This amount exceeds our stock option expense in the first quarters of 2018 and 2017.

OTHER INFORMATION

PRODUCT REVENUE AND OPERATING COSTS

Three Months Ended	April 1, 2018	April 2, 2017	Variance	
Revenue	\$4,576	\$4,467	\$109	2.4%
Operating costs	3,546	3,438	108	3.1%

The increase in product revenue in the first quarter of 2018 consisted of the following:

Military vehicle production	\$176
Ship construction	167
Aircraft manufacturing, outfitting and completions (263)	
Other, net	29
Total increase	\$109

Military vehicle production revenue increased due primarily to the ramp up of several international production programs, including U.K. AJAX armoured fighting vehicles, Romanian Piranha 5 wheeled armored vehicles and the upgrade of LAVs for the Government of Canada. Ship construction revenue increased due primarily to higher volume on Block IV of the Virginia-class submarine program, the TAO-205 fleet oiler contract and commercial container ship construction. These increases were offset partially by lower aircraft manufacturing, outfitting and completions revenue due to fewer aircraft deliveries. Product operating costs increased consistent with the changes in volume on the programs described above.

SERVICE REVENUE AND OPERATING COSTS

Three Months Ended	April 1, 2018	April 2, 2017	Variance	
Revenue	\$2,959	\$2,974	\$(15)	(0.5)%
Operating costs	2,444	2,485	(41)	(1.6)%

The change in service revenue in the first quarter of 2018 consisted of the following:

Ship engineering, repair and other services	\$(68)
IT services	70
Other, net	(17)
Total decrease	\$(15)

Ship engineering, repair and other services decreased due primarily to a lower volume of submarine repair work and the timing of surface ship repair work. This decrease was offset by higher IT services revenue, including the acquisition of a provider of mission-critical support services in late 2017. Service operating costs decreased at a higher rate than revenue due to strong service operating performance in each of our business groups.

OTHER FINANCIAL INFORMATION

G&A Expenses

As a percentage of revenue, G&A expenses were 7.1% in the first three months of 2018 compared with 6.3% in the first three months of 2017.

Interest, Net

Net interest expense was \$27 in the first three months of 2018 compared with \$25 in the prior-year period. The increase is due primarily to slightly higher interest rates on the \$1 billion of fixed-rate notes issued in 2017 compared with the \$900 of fixed-rate notes that matured in 2017. See Note J to the unaudited Consolidated Financial Statements in Part I, Item 1, for additional information regarding our debt obligations, including interest rates.

Other, Net

Net other expense was \$21 in the first three months of 2018 compared with \$11 in the first three months of 2017. Other expense represents the non-service cost components of pension and other post-retirement benefit cost and transaction costs associated with the CSRA acquisition.

Provision for Income Tax, Net

Our effective tax rate was 16.8% in the first three months of 2018 compared with 24.5% in the prior-year period. The decrease is due primarily to the reduction of the U.S. corporate statutory tax rate from 35% to 21% beginning on January 1, 2018, resulting from the enactment of the Tax Cuts and Jobs Act (tax reform) on December 22, 2017. The effective tax rate in the first three months of 2018 also included the impact of excess tax benefits from equity-based compensation.

BACKLOG AND ESTIMATED POTENTIAL CONTRACT VALUE

Our total backlog, including funded and unfunded portions, was \$62.1 billion at the end of the first quarter of 2018, compared with \$63.2 billion on December 31, 2017. Our total backlog is equal to our remaining performance obligations under contracts that meet the criteria in ASC Topic 606 as discussed in Note D to the unaudited Consolidated Financial Statements in Part I, Item 1. Our total estimated contract value, which combines total backlog with estimated potential contract value, was \$87.6 billion on April 1, 2018.

The following table details the backlog and estimated potential contract value of each business group at the end of the first quarter of 2018 and the fourth quarter of 2017:

	Funded	Unfunded	Total Backlog	Estimated Potential Contract Value	Total Potential Contract Value
April 1, 2018					
Aerospace	\$11,898	\$ 158	\$ 12,056	\$ 1,868	\$ 13,924
Combat Systems	17,126	378	17,504	3,549	21,053
Information Systems and Technology	6,739	2,075	8,814	15,787	24,601

AEROSPACE

Aerospace funded backlog represents new aircraft and custom completion orders for which we have definitive purchase contracts and deposits from customers. Unfunded backlog consists of agreements to provide future aircraft maintenance and support services. The group ended the first quarter of 2018 with backlog of \$12.1 billion compared with \$12.5 billion on December 31, 2017.

Orders in the first quarter of 2018 reflected good demand across our product and services portfolio. We received orders for all models of in-production Gulfstream aircraft, with particularly strong first-quarter orders for the ultra-large-cabin G650 aircraft. We continue to progress toward anticipated U.S. Federal Aviation Administration (FAA) type certification and entry into service of the new G500 and G600, for which we received additional orders in the first quarter of 2018.

Beyond total backlog, estimated potential contract value in the Aerospace group was \$1.9 billion on April 1, 2018, compared with \$2 billion on December 31, 2017. Estimated potential contract value represents primarily options to purchase new aircraft and long-term aircraft services agreements.

DEFENSE GROUPS

The total backlog in our three defense groups represents the estimated remaining sales value of work to be performed under firm contracts. The funded portion of this backlog includes items that have been authorized and appropriated by the U.S. Congress and funded by customers, as well as commitments by international customers that are approved and funded similarly by their governments. The unfunded portion includes the amounts that we believe are likely to be funded, but there is no guarantee that future budgets and appropriations will provide the same funding level currently anticipated for a given program.

Estimated potential contract value in our defense groups includes unexercised options associated with existing firm contracts and work awarded on unfunded indefinite delivery, indefinite quantity (IDIQ) contracts. Contract options in our defense business represent agreements to perform additional work under existing contracts at the election of the customer. We recognize options in backlog when the customer exercises the option and establishes a firm order. For IDIQ contracts, we evaluate the amount of funding we expect to receive and include this amount in our estimated potential contract value. This amount is often less than the total IDIQ contract value, particularly when the contract has multiple awardees. The actual amount of funding received in the future may be higher or lower than our estimate of potential contract value.

Total backlog in our defense groups was \$50.1 billion on April 1, 2018, compared with \$50.7 billion on December 31, 2017. The decrease was due primarily to the Marine Systems group as the group continued to perform on significant multi-year contracts. The Combat Systems group achieved a book-to-bill ratio (orders divided by revenue) higher than one-to-one in the first quarter of 2018, driven by a large international armored vehicle order. Estimated potential contract value in our defense groups was \$23.6 billion on April 1, 2018, up 3.4% from \$22.8 billion on December 31, 2017. We received the following significant contract awards during the first quarter of 2018:

Combat Systems:

• \$445 to produce Piranha 5 wheeled armored vehicles and provide associated support services to the Romanian Armed Forces, part of a larger contract with a total potential value exceeding \$1 billion.

• \$285 from the U.S. Army for inventory management and engineering and support services for the Stryker wheeled combat-vehicle fleet.

• \$155 from the Army for various calibers of ammunition.

• \$80 from the Army for technical support and engineering and logistics services for the Abrams main battle tank program.

• \$70 from the Army for the production of Stryker double-V-hull vehicles in the A1 configuration.

• \$65 to produce AGM-114R Hellfire munitions.

Information Systems and Technology:

• \$215 from the National Aeronautics and Space Administration (NASA) for the Space Network Ground Segment Sustainment (SGSS) program to modernize NASA's ground infrastructure systems for its satellite network.

• \$120 from the U.S. Army for computing and communications equipment under the Common Hardware Systems-4 (CHS-4) program.

• \$95 from the U.S. Air Force for the Battlefield Information Collection and Exploitation System (BICES) program to provide information sharing support to coalition operations.

• \$60 to provide IT network and technical support services for the U.S. Army Intelligence and Security Command.

• \$55 from the U.S. Air Force Central Command for communications equipment and associated technical support services in Asia.

\$50 from the National Geospatial-Intelligence Agency (NGA) for IT lifecycle management and virtual desktop services.

\$45 to provide vehicle electronic systems and components for Prophet, the Army's ground-based tactical signals intelligence and electronic warfare system.

\$45 from the Army for the lightweight mobile tactical network.

\$40 to continue managing the Army's live training systems.

\$30 to provide engineering and integration support for the Canadian Army's tactical communications network, the Land Command Support System (LCSS).

Marine Systems:

\$695 from the U.S. Navy to procure long-lead materials for four Virginia-class submarines under Block V of the program.

\$420 from the Navy for construction of the second ship in the John Lewis-class (TAO-205) fleet oiler program.

\$100 from the Navy for Advanced Nuclear Plant Studies in support of the Columbia-class submarine program.

\$85 from the Navy for maintenance and modernization work on the USS Montpelier, a Los Angeles-class attack submarine.

\$40 from the Navy to provide design and development and lead yard services for Virginia-class submarines.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

We ended the first quarter of 2018 with a cash balance of \$4.3 billion, up \$1.3 billion from the end of 2017. Our net debt position, defined as debt less cash and equivalents and marketable securities, was \$2.1 billion at the end of the first quarter of 2018 compared with \$999 at the end of 2017.

We believe we have adequate funds on hand and sufficient borrowing capacity to execute our financial and operating strategy. The following is a discussion of our major operating, investing and financing activities in the first three months of 2018 and 2017, as classified on the unaudited Consolidated Statement of Cash Flows in Part I, Item 1.

OPERATING ACTIVITIES

We used cash for operating activities of \$496 in the first three months of 2018 compared with cash generated from operating activities of \$533 in the same period in 2017. The primary driver of cash inflows in both periods was net earnings. However, cash flows in the first three months of 2018 were affected negatively by growth in operating working capital, particularly the timing of billings and collections on large international vehicle contracts in our Combat Systems group. Additionally, in both periods, cash flows were affected negatively by the build-up of inventory related to the new G500 and G600 aircraft programs and the liquidation of customer deposits associated with aircraft deliveries in our Aerospace group.

INVESTING ACTIVITIES

Cash used for investing activities was \$105 in the first three months of 2018 compared with \$85 in the same period in 2017. Our investing activities include cash paid for capital expenditures and business acquisitions; purchases, sales and maturities of marketable securities; and proceeds from asset sales. The primary use of cash for investing activities in both periods was capital expenditures. Capital expenditures were \$104 in the first three months of 2018 compared with \$62 in the same period in 2017 as we deploy additional cash resulting from the recent tax reform to support the growth in our shipyards.

FINANCING ACTIVITIES

Cash provided by financing activities was \$2 billion in the first three months of 2018 compared with cash used for financing activities of \$606 in the same period in 2017. Our financing activities include repurchases of common stock, payment of dividends and debt repayments. Net cash from financing activities also includes proceeds received from debt and commercial paper issuances and employee stock option exercises.

On March 1, 2017, our board of directors authorized management to repurchase up to 10 million additional shares of the company's outstanding stock. In the first three months of 2018, we repurchased approximately 1.2 million of our outstanding shares for \$257. On April 1, 2018, 6.4 million shares remained authorized by our board of directors for repurchase, approximately 2% of our total shares outstanding. We repurchased 1.9 million shares for \$355 in the first three months of 2017.

On March 7, 2018, our board of directors declared an increased quarterly dividend of \$0.93 per share, the 21st consecutive annual increase. Previously, the board had increased the quarterly dividend to \$0.84 per share in March 2017. Cash dividends paid were \$250 in the first three months of 2018 compared with \$230 in the same period in 2017.

In the first quarter of 2018, we took several actions in anticipation of the acquisition of CSRA, which was completed on April 3, 2018. We renewed and increased to \$2 billion our \$1 billion multi-year committed bank credit facility, which was scheduled to expire in July 2018. The new credit facility expires in March 2023. We have an additional \$1 billion multi-year committed bank credit facility that expires in November 2020. We may renew or replace these credit facilities in whole or in part at or prior to their expiration dates. We also entered into a \$7.5 billion, 364-day committed bank credit facility that expires in March 2019. We financed the acquisition of CSRA, in part, by borrowing \$7.5 billion under this facility subsequent to the end of the quarter. We intend to issue debt securities in the future to repay in whole or in part the borrowings under this facility. The proceeds from these issuances will automatically reduce the bank's commitments under this facility to an amount not less than \$2 billion. Following this reduction, our three credit facilities will total \$5 billion. Our credit facilities are used for general corporate purposes and working capital needs and support our commercial paper issuances.

In the first quarter of 2018, we issued \$2.5 billion of commercial paper, which remained outstanding on April 1, 2018.

NON-GAAP FINANCIAL MEASURE – FREE CASH FLOW

We emphasize the efficient conversion of net earnings into cash and the deployment of that cash to maximize shareholder returns. As described below, we use free cash flow from operations to measure our performance in these areas. While we believe this metric provides useful information, it is not a defined operating measure under U.S. generally accepted accounting principles (GAAP), and there are limitations associated with its use. Our calculation of this metric may not be completely comparable to similarly titled measures of other companies due to potential differences in the method of calculation. As a result, the use of this metric should not be considered in isolation from, or as a substitute for, other GAAP measures.

We define free cash flow from operations as net cash provided by operating activities less capital expenditures. We believe free cash flow from operations is a useful measure for investors because it portrays our ability to generate cash from our businesses for purposes such as repaying maturing debt, funding business acquisitions, repurchasing our common stock and paying dividends. We use free cash flow from operations to assess the quality of our earnings and as a key performance measure in evaluating management. The following table reconciles the free cash flow from operations with net cash provided by operating activities, as classified on the unaudited Consolidated Statement of Cash Flows in Part I, Item 1:

Three Months Ended	April 1, 2018	April 2, 2017
Net cash (used) provided by operating activities	\$(496)	\$533
Capital expenditures	(104)	(62)
Free cash flow from operations	\$(600)	\$471
Cash flows as a percentage of earnings from continuing operations:		
Net cash (used) provided by operating activities	(62)%	70 %
Free cash flow from operations	(75)%	62 %

ADDITIONAL FINANCIAL INFORMATION

ENVIRONMENTAL MATTERS AND OTHER CONTINGENCIES

For a discussion of environmental matters and other contingencies, see Note N to the unaudited Consolidated Financial Statements in Part I, Item 1. Except as otherwise noted in Note N, we do not expect our aggregate liability with respect to these matters to have a material impact on our results of operations, financial condition or cash flows.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on the unaudited Consolidated Financial Statements, which have been prepared in accordance with U.S. GAAP. The preparation of financial statements in accordance with GAAP requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period.

Accounting for long-term contracts and programs involves the use of various techniques to estimate total contract revenue and costs. Contract estimates are based on various assumptions to project the outcome of future events that often span several years. We review and update our contract-related estimates regularly. We recognize adjustments in estimated profit on contracts under the cumulative catch-up method. Under this method, the impact of the adjustment on profit recorded to date on a contract is recognized in the period the adjustment is identified. The aggregate impact of adjustments in contract estimates increased our operating earnings (and diluted earnings per share) by \$97 (\$0.25) and \$50 (\$0.11) for the three-month periods ended April 1, 2018, and April 2, 2017, respectively. No adjustment on any one contract was material to the unaudited Consolidated Financial Statements for the three-month periods ended April 1, 2018, or April 2, 2017.

Other significant estimates include those related to goodwill and intangible assets, income taxes, pension and other post-retirement benefits, workers' compensation, warranty obligations, and litigation and other contingencies. We employ judgment in making our estimates, but they are based on historical experience,

currently available information and various other assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

We believe our judgment is applied consistently and produces financial information that fairly depicts our results of operations for all periods presented. For a full discussion of our critical accounting policies, see our Annual Report on Form 10-K for the year ended December 31, 2017. For a discussion of new accounting standards that have been issued by the FASB but are not yet effective, see Note A to the unaudited Consolidated Financial Statements in Part I, Item 1.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes with respect to this item from the disclosure included in our Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Our management, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of April 1, 2018, (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, on April 1, 2018, our disclosure controls and procedures were effective.

There were no changes in our internal control over financial reporting that occurred during the quarter ended April 1, 2018, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The certifications of the company's Chief Executive Officer and Chief Financial Officer required under Section 302 of the Sarbanes-Oxley Act have been filed as Exhibits 31.1 and 31.2 to this report.

FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains forward-looking statements that are based on management's expectations, estimates, projections and assumptions. Words such as "expects," "anticipates," "plans," "believes," "scheduled," "outlook," "estimates," "should" and variations of these words and similar expressions are intended to identify forward-looking statements. Examples include projections of revenue, earnings, operating margin, segment performance, cash flows, contract awards, aircraft production, deliveries and backlog. In making these statements we rely on assumptions and analyses based on our experience and perception of historical trends, current conditions and expected future developments as well as other factors we consider appropriate under the circumstances. We believe our estimates and judgments are reasonable based on information available to us at the time. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict. Therefore, actual future results and trends may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation, the risk factors discussed in Item 1A of our Annual Report on Form 10-K. These factors include:

- general U.S. and international political and economic conditions;
- decreases in U.S. government defense spending or changing priorities within the defense budget;
- termination or restructuring of government contracts due to unilateral government action;

differences in anticipated and actual program performance, including the ability to perform under long-term, fixed-price contracts within estimated costs, and performance issues with key suppliers and subcontractors; expected recovery on contract claims and requests for equitable adjustment; changing customer demand or preferences for business aircraft, including the effects of economic conditions on the business-aircraft market; potential for changing prices for energy and raw materials; and the status or outcome of legal and/or regulatory proceedings.

All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to General Dynamics or any person acting on our behalf are qualified by the cautionary statements in this section. We do not undertake any obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report. These factors may be revised or supplemented in subsequent reports on SEC Forms 10-Q and 8-K.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For information relating to legal proceedings, see Note N to the unaudited Consolidated Financial Statements in Part I, Item 1.

ITEM 1A. RISK FACTORS

There have been no material changes with respect to this item from the disclosure included in our Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information about our first-quarter purchases of equity securities that are registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be Purchased Under the Program
Pursuant to Share Buyback Program				
1/1/18-1/28/18	425,242	\$207.83	425,242	7,160,168
1/29/18-2/25/18	—	—	—	7,160,168
2/26/18-4/1/18	750,000	224.23	750,000	6,410,168

Shares Delivered or Withheld

Pursuant to Restricted Stock

Vesting*

1/1/18-1/28/18	321,249	201.99
1/29/18-2/25/18	—	—
2/26/18-4/1/18	110,501	223.93
	1,606,992	\$215.43

* Represents shares withheld by, or delivered to, us pursuant to provisions in agreements with recipients of restricted stock granted under our equity compensation plans that allow us to withhold, or the recipient to deliver to us, the number of shares with a fair value equal to the statutory tax withholding due upon vesting of the restricted shares. We did not make any unregistered sales of equity securities in the first quarter of 2018.

ITEM 6. EXHIBITS

- Agreement and Plan of Merger, dated February 9, 2018, by and among CSRA Inc., General Dynamics Corporation
- 2.1 and Red Hawk Enterprises Corp. (incorporated herein by reference from the company's current report on Form 8-K, filed with the Commission on February 12, 2018)*
- Amendment No. 1 to Agreement and Plan of Merger, dated March 20, 2018, by and among CSRA Inc., General
- 2.2 Dynamics Corporation and Red Hawk Enterprises Corp. (incorporated herein by reference from the company's current report on Form 8-K, filed with the Commission on March 20, 2018)
- Indenture, dated as of March 22, 2018, among General Dynamics Corporation, the Guarantors party thereto and
- 4.1 The Bank of New York Mellon, as Trustee (incorporated herein by reference from the company's registration statement on Form S-3, filed with the Commission on March 22, 2018)
- 364-Day Incremental Credit Facility Commitment Letter, dated March 1, 2018, by and among General Dynamics
- 10.1 Corporation, JPMorgan Chase Bank, N.A., Wells Fargo Securities, LLC and Wells Fargo Bank, National Association (incorporated herein by reference from the company's current report on Form 8-K, filed with the Commission on March 5, 2018)
- 364-Day Credit Agreement, dated as of March 16, 2018, by and among General Dynamics Corporation,
- 10.2 JPMorgan Chase Bank, N.A., as administrative agent, and the lenders named therein (incorporated herein by reference from the company's current report on Form 8-K, filed with the Commission on March 20, 2018)

- 10.3 Resignation and Appointment Agreement, dated March 23, 2018, by and among JPMorgan Chase Bank, N.A., as resigning administrative agent, Wells Fargo Bank, National Association, as successor administrative agent, and certain guarantors and lenders named therein (incorporated herein by reference from the company's current report on Form 8-K, filed with the Commission on March 27, 2018)
- 10.4 Amendment No. 1 to the 364-Day Credit Agreement, dated as of March 28, 2018, by and among General Dynamics Corporation and Wells Fargo Bank, National Association, as administrative agent, and the lenders named therein**
- 31.1 Certification by CEO pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**
- 31.2 Certification by CFO pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**
- 32.1 Certification by CEO pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**
- 32.2 Certification by CFO pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**
- 101 Interactive Data File**

General Dynamics Corporation has omitted certain schedules and exhibits pursuant to Item 601(b)(2) of Regulation S-K and agrees to furnish supplementally to the SEC a copy of any omitted schedule or exhibit upon request by the SEC.

**Filed or furnished herewith.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

GENERAL DYNAMICS CORPORATION
