PROSPECTUS SUPPLEMENT

Rule 424(b)(3)-Registration Statement

Dated March 29, 2006 No. 333-132807

GENERAL ELECTRIC CAPITAL CORPORATION

GECC Extendible Monthly Securities

The floating rate notes described in this pricing supplement, which we refer to as the GECC Extendible Monthly Securities (the "Notes"), will mature on the initial maturity date, unless the Maturity of all or any portion of the principal amount of the Notes is extended in accordance with the procedures described below. In no event will the Maturity of the Notes be extended beyond the Final Maturity Date.

During the notice period relating to each election date, you may elect to extend the Maturity of all or any portion of the principal amount of your Notes so that the Maturity of your Notes will be extended to the date occurring 366 calendar days from and including the 24th day of the next succeeding month. However, if that 366th calendar day is not a Business Day, the Maturity of your Notes will be the immediately preceding Business Day. The election dates will be the 24th calendar day of each month from August 2006 to July 2010 inclusive, whether or not any such day is a Business Day.

You may elect to extend the Maturity of all of your Notes or of any portion thereof having a principal amount of \$1,000 or any multiple of \$1,000 in excess thereof. To make your election effective on any election date, you must deliver a notice of election during the notice period for that election date. The notice period for each election date will begin on the fifth Business Day prior to the election date and end on the election date, however, if that election date is not a Business Day, the notice period will be extended to the following Business Day. Your notice of election must be delivered to the Depository no later than 12:00 noon (New York City time) on the last Business Day in the notice period so that such notice is delivered to the Trustee for the Notes, through the normal clearing system channels described in more detail below, no later than the close of business on the last Business Day in the notice period relating to the applicable election date. Upon delivery to the Trustee of a notice of election to extend the Maturity of the Notes or any portion thereof during any notice period, that election will be revocable during each day of such notice period, until 12:00 noon, New York City time, on the last Business Day in the notice period relating to the applicable election date, at which time such notice will become irrevocable.

If, with respect to any election date, you do not make an election to extend the Maturity of all or any portion of the principal amount of your Notes, the principal amount of the Notes for which you have failed to make such an election will become due and payable on the initial maturity date, or any later date to which the Maturity of your Notes has previously been extended. The principal amount of the Notes for which such election is not exercised will be represented by a note issued on such election date. The note so issued will have the same terms as the Notes, except that it will not be extendible, will have a separate CUSIP number and its maturity date will be the date that is 366

calendar days from and including such election date or, if such 366th calendar day is not a Business Day, the immediately preceding Business Day. The failure to elect to extend the Maturity of all or any portion of the Notes will be irrevocable and will be binding upon any subsequent holder of such Notes.

Pricing Supplement No. 4397

Dated July 19, 2006

Rule 424(b)(3)-Registration Statement

No. 333-132807

The Notes will bear interest from the date of issuance until the principal amount thereof is paid or made available for payment at a rate determined for each Interest Reset Period by reference to the base rate, based on the index maturity, plus the applicable spread for the applicable Interest Reset Date. We describe how floating rates are determined and calculated in the section called "*Interest and Interest Rates Floating Rate Notes*" in the accompanying prospectus supplement, subject to and as modified by the provisions described below.

The Notes will be issued in registered global form and will remain on deposit with the Depositary for the Notes. Therefore, you must exercise the option to extend the Maturity of your Notes through the Depositary. To ensure that the Depositary will receive timely notice of your election to extend the Maturity of all or a portion of your Notes, so that it can deliver notice of your election to the Trustee prior to the close of business on the last Business Day in the notice period, you must instruct the direct or indirect participant through which you hold an interest in the Notes to notify the Depositary of your election to extend the Maturity of your Notes in accordance with the then applicable operating procedures of the Depositary.

The Depositary must receive any notice of election from its participants no later than 12:00 noon (New York City time) on the last Business Day in the notice period for any election date. Different firms have different deadlines for accepting instructions from their customers. You should consult the direct or indirect participant through which you hold an interest in the Notes to ascertain the deadline for ensuring that timely notice will be delivered to the Depositary. If the election date is not a Business Day, notice of your election to extend the maturity date of your Notes must be delivered to the Depositary by its participants no later than 12:00 noon (New York City time) on the first Business Day following the election date.

The Notes will initially be limited to \$4,000,000,000 in aggregate principal amount. We may create and issue additional floating rate notes with the same terms as the Notes so that such additional floating rate notes will be combined with this initial issuance of Notes.

CAPITALIZED TERMS USED IN THIS PRICING SUPPLEMENT WHICH ARE DEFINED IN THE PROSPECTUS SUPPLEMENT SHALL HAVE THE MEANINGS ASSIGNED TO THEM IN THE PROSPECTUS SUPPLEMENT.

Rule 424(b)(3)-Registration Statement

No. 333-132807

Additional Information

:

At March 31, 2006, the Company had outstanding indebtedness totaling \$359.920 billion, consisting of notes payable within one year, senior notes payable after one year and subordinated notes payable after one year. The total amount of outstanding indebtedness at March 31, 2006, excluding subordinated notes payable after one year, was equal to \$357.254 billion.

Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

<u>Year Ended December 31</u>					Three Months ended
					March 31,
<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>
1.56	1.62	1.71	1.82	1.66	1.63

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, minority interest and fixed charges.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which the Company believes is a reasonable approximation of the interest factor of such rentals.

Plan of Distribution

:

The Notes are being purchased by Morgan Stanley & Co. Incorporated (the "Underwriter"), as principal, at 100% of their aggregate principal amount less an underwriting discount equal to 0.25% of the principal amount of the Notes. GE Capital Markets, Inc. is acting as agent (the "Agent") in connection with the distribution of the Notes. The Agent will receive a selling commission equal to 0.125% of the principal amount of the Notes.

The Company has agreed to indemnify the Underwriter and the Agent against and contribute toward certain liabilities, including liability under the Securities Act of 1933, as amended.

United States Federal Taxation:

The following discussion, which supplements and, to the extent it is inconsistent with, replaces the discussion in the accompanying Prospectus Supplement under the heading "United States Tax Considerations", is based on the opinion of Sidley Austin LLP, the Company's special tax counsel ("Special Tax Counsel").

(GECC Extendible Monthly Securities)

Page 7

Pricing Supplement No. 4397

Dated July 19, 2006

Rule 424(b)(3)-Registration Statement

No. 333-132807

An election to extend the maturity of all or any portion of the principal amount of the Notes in accordance with the procedures described above should not be a taxable event for U.S. federal income tax purposes. Special Tax Counsel has reached this conclusion based, in part, upon the Treasury regulations governing original issue discount on debt instruments (the "OID Regulations").

Pursuant to Treasury regulations governing modifications to the terms of debt instruments (the "Modification Regulations"), the exercise of an option by a holder of a debt instrument to defer any scheduled payment of principal is a taxable event if, based on all the facts and circumstances, such deferral is considered material under the Modification Regulations. The Modification Regulations do not specifically address the unique features of the Notes (including their economic equivalence to a debt

instrument having a term to maturity of approximately five years and containing put options). However, under the OID Regulations, for purposes of determining the yield and maturity of a debt instrument that provides the holder with an unconditional option or options, exercisable on one or more dates during the term of the debt instrument, that, if exercised, require payments to be made on the debt instrument under an alternative payment schedule or schedules (e.g., an option to extend the maturity of the debt instrument), a holder is deemed to exercise or not exercise an option or combination of options in a manner that maximizes the yield on the debt instrument. Since the Spread will periodically increase during the term of the Notes from an initial amount equal to Minus .04% to an amount equal to Plus .03%, under these rules, as of the Original Issue Date, original holders of the Notes should be deemed to elect to extend the maturity of all of the principal amount of the Notes to the Final Maturity Date in accordance with the procedures described above. Accordingly, under these rules, the Final Maturity Date should be treated as the maturity date of the Notes for U.S. federal income tax purposes. Although it is unclear how the OID Regulations should apply in conjunction with the Modification Regulations to the Notes, Special Tax Counsel is of the opinion that, based upon the OID Regulations, an election to extend the maturity of all or any portion of the principal amount of the Notes in accordance with the procedures described above should not be a taxable event for U.S. federal income tax purposes. In addition, the Notes should not constitute contingent payment debt instruments that would be subject to certain Treasury regulations governing contingent payment obligations (the "Contingent Payment Regulations").

Under the treatment described above, the Notes will be treated as having been issued with de minimis original issue discount. Therefore, the Notes will not constitute OID Notes.

Prospective investors should note that no assurance can be given that the Internal Revenue Service (the "IRS") will accept, or that the courts will uphold, the characterization and the tax treatment of the Notes described above. If the IRS were successful in asserting that an election to extend the maturity of all or any portion of the principal amount of the Notes is a taxable event for U.S. federal income tax purposes, then Special Tax Counsel has indicated that you would be required to recognize any gain inherent in the Notes at such time upon the exercise of such election. Also, if the IRS were successful in asserting that the Notes were subject to the Contingent Payment Regulations, Special Tax Counsel has indicated that the timing and character of income thereon would be affected. Among other things, you may be required to accrue original issue discount income, subject to adjustments, at a "comparable yield" on the issue price. Furthermore, any gain recognized with respect to the Notes would generally be treated as ordinary income. The foregoing is a summary of the views of Special Tax Counsel to the Company and is not to be construed as tax advice for investors. Prospective investors should consult their tax advisor regarding the U.S. federal income tax consequences of an investment in, and extending the maturity of, the Notes.

Prospective investors should also consult the summary describing the principal U.S. federal income tax consequences of the ownership and disposition of the Notes contained in the section called "United States Tax Considerations" in the accompanying Prospectus Supplement.
