HEICO CORPORATION AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – UNAUDITED

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of HEICO Corporation and its subsidiaries (collectively, "HEICO," or the "Company") have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q. Therefore, the condensed consolidated financial statements do not include all information and footnotes normally included in annual consolidated financial statements and should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended October 31, 2013. The October 31, 2013 Condensed Consolidated Balance Sheet has been derived from the Company's audited consolidated financial statements. In the opinion of management, the unaudited condensed consolidated financial statements contain all adjustments (consisting principally of normal recurring accruals) necessary for a fair presentation of the condensed consolidated balance sheets, statements of operations, statements of comprehensive income, statements of shareholders' equity and statements of cash flows for such interim periods presented. The results of operations for the nine months ended July 31, 2014 are not necessarily indicative of the results which may be expected for the entire fiscal year.

Stock Split

All applicable fiscal 2013 share and per share information has been adjusted retrospectively to reflect a 5-for-4 stock split effected in October 2013.

New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income," which requires disclosure about changes in and amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement of operations or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income, but only if the amount reclassified is required to be reclassified to net income in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional detail about those amounts. The Company adopted ASU 2013-02 in the first quarter of fiscal 2014, resulting in only expanded disclosure regarding the changes in accumulated other comprehensive income and no impact on the Company's consolidated results of operations, financial position or cash flows.

In March 2013, the FASB issued ASU 2013-05, "Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity," which clarifies the applicable guidance for the release of any cumulative translation adjustments into net earnings. ASU 2013-05 specifies that the entire amount of cumulative translation adjustments should be released into earnings when an entity ceases to have a controlling financial interest in a subsidiary or group of assets within a consolidated foreign entity and the sale or transfer results in the complete or substantially complete liquidation of the investment in the foreign entity. ASU 2013-05 is effective prospectively for fiscal years and interim reporting periods within those years beginning after December 15, 2013, or in fiscal 2015 for HEICO. Early adoption is permitted. The Company is currently evaluating the effect, if any, the adoption of this guidance will have on its consolidated results of operations, financial position or cash flows.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which provides a comprehensive new revenue recognition model that will supersede nearly all existing revenue recognition guidance. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. ASU 2014-09 is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2016, or in fiscal 2018 for HEICO. Early adoption is not permitted. ASU 2014-09 shall be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. The Company is currently evaluating which transition method it will elect and the effect the adoption of this guidance will have on its consolidated results of operations, financial position or cash flows.

## 2. ACQUISITION

In June 2014, the Company, through a subsidiary of its HEICO Flight Support Corp. subsidiary, acquired certain assets and liabilities of Quest Aviation Supply, Inc. ("Quest Aviation"). Quest Aviation is a niche supplier of parts to repair thrust reversers on various aircraft engines. The purchase price of this acquisition was paid in cash, principally using proceeds from the Company's revolving credit facility.

The total consideration and related allocation to the tangible and identifiable intangible assets acquired and liabilities assumed for the acquisition of Quest Aviation is not material or significant to the Company's condensed consolidated financial statements. The operating results of Quest Aviation were included in the Company's results of operations from the effective acquisition date. The amount of net sales and earnings of Quest Aviation included in the Condensed Consolidated Statement of Operations is not material. Had the Quest Aviation acquisition been consummated as of November 1, 2012, net sales, net income from consolidated operations, net income attributable to HEICO, and basic and diluted net income per share

attributable to HEICO shareholders on a pro forma basis for the nine and three months ended July 31, 2014 and 2013 would not have been materially different than the reported amounts.

Contracts in process represents accumulated capitalized costs associated with fixed price contracts for which revenue is recognized on the completed-contract method. Related progress billings and customer advances (“billings to date”) are classified as a reduction to contracts in process, if any, and any excess is included in accrued expenses and other current liabilities.

#### Property, Plant and Equipment

#### Accrued Customer Rebates and Credits

The aggregate amount of accrued customer rebates and credits included within accrued expenses and other current liabilities in the accompanying Condensed Consolidated Balance Sheets was \$8.8 million and \$14.8 million as of July 31, 2014 and October 31, 2013, respectively. The total customer rebates and credits deducted within net sales for the nine months ended July 31, 2014 and 2013 was \$5.3 million and \$6.0 million, respectively. The total customer rebates and credits deducted within net sales for the three months ended July 31, 2014 and 2013 was \$1.9 million and \$2.5 million, respectively. The decrease in the amount of accrued customer rebates and credits since October 31, 2013 principally reflects the payments made in the second quarter of fiscal 2014.

#### Employee Retirement Plan

In connection with an acquisition during the third quarter of fiscal 2013, the Company assumed a frozen qualified defined benefit pension plan. The components of net pension income for the nine and three months ended July 31, 2014 and 2013 that were recorded within the Company's Condensed Consolidated Statements of Operations are as follows (in thousands):

|                                | Nine months ended July 31, |       | Three months ended July 31, |       |
|--------------------------------|----------------------------|-------|-----------------------------|-------|
|                                | 2014                       | 2013  | 2014                        | 2013  |
| Expected return on plan assets | \$555                      | \$128 | \$185                       | \$128 |
| Interest cost                  | 459                        | 95    | 153                         | 95    |
| Net pension income             | \$96                       | \$33  | \$32                        | \$33  |

## Research and Development Expenses

The amount of new product research and development expenses (R&D expenses) included in costs of sales for the nine and three months ended July 31, 2014 and 2013 is as follows (in thousands):

|              | Nine months ended July 31, |          | Three months ended July 31, |         |
|--------------|----------------------------|----------|-----------------------------|---------|
|              | 2014                       | 2013     | 2014                        | 2013    |
| R&D expenses | \$28,278                   | \$23,547 | \$9,862                     | \$8,550 |

## Redeemable Noncontrolling Interests

The holders of equity interests in certain of the Company's subsidiaries have put rights that may be exercised on varying dates causing the Company to give cash consideration to purchase their equity interests based on fair value or a formula that management intended to reasonably approximate fair value based solely on a multiple of future earnings over a measurement period. Management's estimate of the aggregate redemption amount of all put rights that the Company could be required to pay at varying dates through fiscal 2022 is as follows (in thousands):

|   | July 31, 2014 | October 31, 2013 |
|---|---------------|------------------|
| Redeemable at fair value                          | \$27,969      | \$47,839         |
| Redeemable based on a multiple of future earnings | 10,136        | 11,379           |
| Redeemable noncontrolling interests               | \$38,105      | \$59,218         |

The decrease in the aggregate redemption amount of put rights redeemable at fair value since the prior fiscal year end principally reflects a reclassification of the redemption amount pertaining to the equity interest in one of the Company's subsidiaries from redeemable noncontrolling interests (temporary equity) to noncontrolling interests (permanent equity) upon the expiration of the holder's put right in the second quarter of fiscal 2014.

## Accumulated Other Comprehensive Income (Loss)

Changes in the components of accumulated other comprehensive income (loss) for the nine months ended July 31, 2014 are as follows (in thousands):

|                              | Foreign Currency<br>Translation | Pension Benefit<br>Obligation | Accumulated<br>Other Comprehensive<br>Income (Loss) |   |
|------------------------------|---------------------------------|-------------------------------|---|---|
| Balances at October 31, 2013 | (\$466                          | ) \$610                       | \$144   |   |
| Unrealized loss              | (2,715                          | ) —                           | (2,715  | ) |
| Balances at July 31, 2014    | (\$3,181                        | ) \$610                       | (\$2,571  | ) |

## 4. GOODWILL AND OTHER INTANGIBLE ASSETS

The Company has two operating segments: the Flight Support Group (“FSG”) and the Electronic Technologies Group (“ETG”). Changes in the carrying amount of goodwill by operating segment for the nine months ended July 31, 2014 are as follows (in thousands):

|  | Segment   |           | Consolidated |
|--|-----------|-----------|--------------|
|  | FSG       | ETG       | Totals       |
| Balances as of October 31, 2013          | \$279,855 | \$408,634 | \$688,489    |
| Goodwill acquired                        | 2,552     | —         | 2,552        |
| Foreign currency translation adjustments | —         | (1,745    | ) (1,745     |
| Adjustment to goodwill                   | —         | 27        | 27           |
| Balances as of July 31, 2014             | \$282,407 | \$406,916 | \$689,323    |

The goodwill acquired pertains to the current year acquisition described in Note 2, Acquisition, and represents the residual value after the allocation of the total consideration to the tangible and identifiable intangible assets acquired and liabilities assumed. The Company estimates that all of the goodwill acquired in fiscal 2014 will be deductible for income tax purposes.

Identifiable intangible assets consist of the following (in thousands):

|                        | As of July 31, 2014   |                          |                     | As of October 31, 2013 |                          |                     |

The decrease in the gross carrying amount of customer relationships and non-amortizing trade names reflects impairment losses of \$7.5 million and \$1.7 million, respectively, recognized during the third quarter of fiscal 2014. The impairment losses were due to reductions in the future cash flows associated with such intangible assets within the ETG and were recorded as a component of selling, general and administrative expenses in the Company's Condensed Consolidated Statement of Operations.

Amortization expense related to intangible assets for the nine months ended July 31, 2014 and 2013 was \$21.1 million and \$14.3 million, respectively. Amortization expense related to intangible assets for the three months ended July 31, 2014 and 2013 was \$7.0 million and \$5.4 million, respectively. The increase in amortization expense for the nine and three months ended July 31, 2014 compared to the nine and three months ended July 31, 2013 principally relates to the incremental amortization expense of intangible assets recognized in connection with fiscal 2013 acquisitions. Amortization expense related to intangible assets for the remainder of fiscal 2014 is estimated to be \$6.6 million. Amortization expense for each of the next five fiscal years and thereafter is estimated to be \$24.8 million in fiscal 2015, \$23.0 million in fiscal 2016, \$22.1 million in fiscal 2017, \$20.2 million in fiscal 2018, \$18.1 million in fiscal 2019 and \$44.3 million thereafter.

## 5. LONG-TERM DEBT

Long-term debt consists of the following (in thousands):

|  | July 31, 2014 | October 31, 2013 |
|--|---------------|------------------|
| Borrowings under revolving credit facility | \$383,000     | \$373,000        |
| Capital leases and notes payable           | 3,333         | 4,515            |
|  | 386,333       | 377,515          |
| Less: Current maturities of long-term debt | (466          | ) (697           |
|  | \$385,867     | \$376,818        |

As of July 31, 2014 and October 31, 2013, the weighted average interest rate on borrowings under the Company's revolving credit facility was 1.4% and 1.3%, respectively. The revolving credit facility contains both financial and non-financial covenants. As of July 31, 2014, the Company was in compliance with all such covenants.

In November 2013, the Company entered into an amendment to extend the maturity date of its revolving credit facility by one year to December 2018 and to increase the aggregate principal amount to \$800 million. Furthermore, the amendment includes a feature that will allow the Company to increase the aggregate principal amount by an additional \$200 million to become a \$1.0 billion facility through increased commitments from existing lenders or the addition of new lenders.

## 6. INCOME TAXES

As of July 31, 2014, the Company's liability for gross unrecognized tax benefits related to uncertain tax positions was \$1.0 million of which \$.7 million would decrease the Company's income tax expense and effective income tax rate if the tax benefits were recognized. A reconciliation of the activity related to the liability for gross unrecognized tax benefits for the nine months ended July 31, 2014 is as follows (in thousands):

|   |         |   |
|---|---------|---|
| Balance as of October 31, 2013                  | \$1,072 |   |
| Increases related to current year tax positions | 81      |   |
| Settlements                                     | (22)    | ) |
| Lapse of statutes of limitations                | (94)    | ) |
| Balance as of July 31, 2014                     | \$1,037 |   |

There were no material changes in the liability for unrecognized tax positions resulting from tax positions taken during the current or a prior year, settlements with other taxing authorities or a lapse of applicable statutes of limitations. The accrual of interest and penalties related to the unrecognized tax benefits was not material for the nine months ended July 31, 2014. Further, the Company does not expect the total amount of unrecognized tax benefits to materially change in the next twelve months.

The Company's effective tax rate in the first nine months of fiscal 2014 increased to 29.7% from 29.5% in the first nine months of fiscal 2013. The increase is principally due to an income tax credit for qualified research and development activities for the last ten months of fiscal 2012 that was recognized in the first quarter of fiscal 2013 resulting from the retroactive extension of the U.S research and development tax credit and its subsequent expiration on December 31, 2013 that limited the tax credit recognized in fiscal 2014 to just two months. Additionally, the increase reflects a larger income tax deduction recognized in the prior year for the special and extraordinary cash dividend paid to participants of the HEICO Savings and Investment Plan ("SIP") holding HEICO common stock and the benefit in the prior year from higher tax-exempt unrealized gains in the cash surrender values of life insurance policies related to the HEICO Corporation Leadership Compensation Plan ("LCP"). These increases to the effective tax rate were partially offset by the impact of a nontaxable reduction in accrued contingent consideration during fiscal 2014 associated with a fiscal 2013 acquisition acquired by means of a stock transaction.

The Company's effective tax rate in the third quarter of fiscal 2014 decreased to 23.4% from 26.6% in the third quarter of fiscal 2013. The decrease is principally attributed to the previously mentioned reduction in accrued contingent consideration partially offset by the previously mentioned lower research and development tax credits recognized in fiscal 2014 due to expiration of the U.S. research and development tax credit, larger prior year income tax deduction for the cash dividends paid to participants of the HEICO SIP and higher tax-exempt unrealized gains in the prior year related to the LCP.

## 7. FAIR VALUE MEASUREMENTS

The Company's assets and liabilities that were measured at fair value on a recurring basis are set forth by level within the fair value hierarchy in the following tables (in thousands):

|                                | As of July 31, 2014   |  |   |          |

The Company maintains two non-qualified deferred compensation plans. The assets of the HEICO Corporation Leadership Compensation Plan (the "LCP") principally represent cash surrender values of life insurance policies, which derive their fair values from investments in mutual funds that are managed by an insurance company and are classified within Level 2 and valued using a market approach. Certain other assets of the LCP represent investments in money market funds that are classified within Level 1. The assets of the Company's other deferred compensation plan are principally invested in equity securities, mutual funds, and money market

deposit accounts that are classified within Level 1. The assets of both plans are held within irrevocable trusts and classified within other assets in the Company's Condensed Consolidated Balance Sheets and have an aggregate value of \$69.3 million as of July 31, 2014 and \$57.6 million as of October 31, 2013, of which the LCP related assets were \$63.8 million and \$52.7 million as of July 31, 2014 and October 31, 2013, respectively. The related liabilities of the two deferred compensation plans are included within other long-term liabilities in the Company's Condensed Consolidated Balance Sheets and have an aggregate value of \$68.5 million as of July 31, 2014 and \$56.9 million as of October 31, 2013, of which the LCP related liability was \$63.0 million and \$51.9 million as of July 31, 2014 and October 31, 2013, respectively.

As part of the agreement to acquire a subsidiary by the ETG in fiscal 2013, the Company may have been obligated to pay contingent consideration of up to \$20.0 million had the acquired entity met certain earnings objectives during the last three months of the calendar year of acquisition and may be obligated to pay contingent consideration of up to \$30.0 million should the acquired entity meet certain earnings objectives during each of the next two calendar years (2014 and 2015). In December 2013, the acquired entity incurred unanticipated costs associated with certain contracts for which revenue is recognized on the percentage-of-completion method and as a result, did not meet its calendar 2013 related earnings objectives. Accordingly, the \$7.0 million contingent consideration accrued as of October 31, 2013 was recorded as a reduction to selling, general and administrative expenses ("SG&A") in the Company's Condensed Consolidated Statement of Operations in the first quarter of fiscal 2014. The estimated fair value of the contingent consideration for the calendar 2014 and 2015 earnings period was \$1.2 million as of July 31, 2014 compared to \$13.7 million as of October 31, 2013. The aggregate \$12.5 million decrease is principally attributed to revised earnings estimates that reflect less favorable projected market conditions resulting in fair value adjustments of \$2.3 million and \$10.2 million recorded as reductions to SG&A expenses in the second and third quarters of fiscal 2014, respectively.

As part of the agreement to acquire a subsidiary by the ETG in fiscal 2012, the Company may be obligated to pay contingent consideration of up to \$10.6 million in aggregate should the acquired entity meet certain earnings objectives during each of the next three years following the second anniversary date of the acquisition. As of July 31, 2014 and October 31, 2013, the estimated fair value of the contingent consideration was \$8.6 million.

The estimated fair values of the contingent consideration arrangements described above are classified within Level 3 and were determined using a probability-based scenario analysis approach. Under this method, a set of discrete potential future subsidiary earnings was determined using internal estimates based on various revenue growth rate assumptions for each scenario. A probability of likelihood was assigned to each discrete potential future earnings estimate and the resultant contingent consideration was calculated. The resulting probability-weighted contingent consideration amounts were discounted using a weighted average discount rate reflecting the credit risk of a market participant. Changes in either the revenue growth rates, related earnings or the discount rate could result in a material change to the amount of contingent consideration accrued and such changes will be recorded in the Company's condensed consolidated statements of operations.

The Level 3 inputs used to derive the estimated fair values of the contingent consideration as of July 31, 2014 are as follows:

|   | Fiscal 2013<br>Acquisition | Fiscal 2012<br>Acquisition |
|---|----------------------------|----------------------------|
| Compound annual revenue growth rate range | (2%) - 24%                 | (5%) - 18%                 |
| Weighted average discount rate            | 2.9%                       | 3.0%                       |

Changes in the Company's contingent consideration measured at fair value on a recurring basis using unobservable inputs (Level 3) for the nine months ended July 31, 2014 are as follows (in thousands):

|  | Liabilities |
|--|-------------|
| Balance as of October 31, 2013               | \$29,310    |
| Decrease in accrued contingent consideration | (19,516 )   |
| Balance as of July 31, 2014                  | \$9,794     |

Included in the accompanying Condensed Consolidated Balance Sheet under the following captions:

|  |         |
|--|---------|
| Accrued expenses and other current liabilities | \$2,090 |
| Other long-term liabilities                    | 7,704   |
|  | \$9,794 |

The Company did not have any transfers between Level 1 and Level 2 fair value measurements during the nine months ended July 31, 2014.

The carrying amounts of the Company's cash and cash equivalents, accounts receivable, trade accounts payable and accrued expenses and other current liabilities approximate fair value as of July 31, 2014 due to the relatively short maturity of the respective instruments. The carrying amount of long-term debt approximates fair value due to its variable interest rates.

During the third quarter of fiscal 2014, certain customer relationships and a non-amortizing trade name within the ETG were measured at fair value on a nonrecurring basis, resulting in the recognition of impairment losses aggregating \$9.2 million (see Note 4, Goodwill and Other Intangible Assets). The fair values of the Company's nonfinancial assets and liabilities that were measured at fair value on a nonrecurring basis, which are classified within Level 3, and the related impairment losses recognized in the third quarter of fiscal 2014 are as follows (in thousands):

|                                 | Carrying Amount | Impairment Loss | Fair Value (Level 3) |
|---------------------------------|-----------------|-----------------|----------------------|
| Assets:                         |                 |                 |                      |
| Customer relationships          | \$15,316        | (\$7,500 )      | \$7,816              |
| Non-amortizing trade name       | 9,500           | (1,700 )        | 7,800                |
| Impairment of intangible assets |                 | (\$9,200 )      |                      |

The fair values of such customer relationships and non-amortizing trade name were determined using variations of the income approach which apply an asset-specific discount rate to a forecast of asset-specific cash flows. These methods utilize certain significant unobservable inputs categorized as Level 3. The Level 3 inputs used to derive the estimated fair values of the customer relationships and non-amortizing trade name as of July 31, 2014 are as follows:

|                                | Customer Relationships | Non-Amortizing Trade Name |
|--------------------------------|------------------------|---------------------------|
| Valuation method               | Excess Earnings        | Relief from Royalty       |
| Discount rate                  | 15.0%                  | 14.0%                     |
| Customer annual attrition rate | 25.0%                  | N/A                       |
| Royalty rate                   | N/A                    | 2.5%                      |

## 8. SHAREHOLDERS' EQUITY

In January 2014, the Company paid a special and extraordinary \$.35 per share cash dividend on both classes of HEICO's common stock as well as its regular semi-annual \$.06 per share cash dividend. The dividends, which aggregated \$27.2 million, were principally funded from borrowings under the Company's revolving credit facility.

Consistent with the Company's past practice of increasing its ownership in certain non-wholly-owned subsidiaries, on February 18, 2014, HEICO Corporation acquired the 20% noncontrolling interest held by Lufthansa Technik AG ("LHT") in four of the Company's existing subsidiaries principally operating in the specialty products and distribution businesses within its HEICO Aerospace Holdings Corp. ("HEICO Aerospace") subsidiary (the "Transaction"). Pursuant to the Transaction, HEICO Aerospace paid dividends proportional to the ownership (80%/20%) to HEICO and LHT, and HEICO transferred the businesses to HEICO Flight Support Corp., a wholly-owned subsidiary of HEICO. HEICO did not record any gain or loss in connection with the Transaction. LHT's dividend of \$67.4 million was paid in cash, principally using proceeds from the Company's revolving credit facility. LHT remains a 20% owner in HEICO Aerospace, a leading producer of PMA parts and component repair and overhaul services.

## 9. NET INCOME PER SHARE ATTRIBUTABLE TO HEICO SHAREHOLDERS

The computation of basic and diluted net income per share attributable to HEICO shareholders is as follows (in thousands, except per share data):

## 11. COMMITMENTS AND CONTINGENCIES

## Guarantees

As of July 31, 2014, the Company has arranged for standby letters of credit aggregating \$2.8 million, which are supported by its revolving credit facility. One letter of credit in the amount of \$1.5 million is to satisfy the security requirement of the Company's insurance company for potential workers' compensation claims and the remainder pertain to performance guarantees related to customer contracts entered into by certain of the Company's subsidiaries.

## Product Warranty

Changes in the Company's product warranty liability for the nine months ended July 31, 2014 and 2013, respectively, are as follows (in thousands):

|   | Nine months ended July 31, |         |
|---|----------------------------|---------|
|   | 2014                       | 2013    |
| Balances as of beginning of fiscal year | \$3,233                    | \$2,571 |
| Accruals for warranties                 | 2,075                      | 795     |

| Balances as of July 31                  | \$3,879                    | \$3,026 |

## Litigation

The Company is involved in various legal actions arising in the normal course of business. Based upon the Company's and its legal counsel's evaluations of any claims or assessments, management is of the opinion that the outcome of these matters will not have a material adverse effect on the Company's results of operations, financial position or cash flows.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

This discussion of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and notes thereto included herein. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates if different assumptions were used or different events ultimately transpire.

Our critical accounting policies, which require management to make judgments about matters that are inherently uncertain, are described in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," under the heading "Critical Accounting Policies" in our Annual Report on Form 10-K for the year ended October 31, 2013. There have been no material changes to our critical accounting policies during the nine months ended July 31, 2014.

Our business is comprised of two operating segments: the Flight Support Group ("FSG"), consisting of HEICO Aerospace Holdings Corp. ("HEICO Aerospace") and HEICO Flight Support Corp. and their collective subsidiaries, and the Electronic Technologies Group ("ETG"), consisting of HEICO Electronic Technologies Corp. ("HEICO Electronic") and its subsidiaries.

Our results of operations for the nine and three months ended July 31, 2014 have been affected by the fiscal 2014 acquisition of certain noncontrolling interests as further detailed in Note 8, Shareholders' Equity, of the Notes to the Condensed Consolidated Financial Statements of this quarterly report and by the fiscal 2013 acquisitions as further detailed in Note 2, Acquisitions, of the Notes to the Consolidated Financial Statements of our Annual Report on Form 10-K for the year ended October 31, 2013.

All fiscal 2013 per share information has been adjusted retrospectively to reflect a 5-for-4 stock split effected in October 2013.

## Results of Operations

The following table sets forth the results of our operations, net sales and operating income by segment and the percentage of net sales represented by the respective items in our Condensed Consolidated Statements of Operations (in thousands):

## Comparison of First Nine Months of Fiscal 2014 to First Nine Months of Fiscal 2013

### Net Sales

Our net sales in the first nine months of fiscal 2014 increased by 16% to a record \$840.1 million, as compared to net sales of \$721.3 million in the first nine months of fiscal 2013. The increase in net sales principally reflects an increase of \$92.5 million (a 19% increase) to a record \$568.0 million in net sales within the FSG as well as an increase of \$29.1 million (a 12% increase) to a record \$279.3 million in net sales within the ETG. The net sales increase in the FSG reflects organic growth of approximately 12% as well as additional net sales of \$37.7 million from a fiscal 2013 acquisition. The organic growth in the FSG reflects new product offerings and favorable market conditions resulting in net sales increases of \$48.3 million within our aftermarket replacement parts and repair and overhaul services product lines and \$6.4 million within our specialty products lines. The net sales increase in the ETG resulted from additional net sales of \$19.0 million from a fiscal 2013 acquisition as well as organic growth of approximately 4%. The organic growth in the ETG principally reflects an increase in demand for certain defense, industrial and electronics, and aerospace products resulting in a \$4.1 million, \$2.6 million and \$1.9 million increase in net sales, respectively. Sales price changes were not a significant contributing factor to the FSG and ETG net sales growth in the first nine months of fiscal 2014.

### Gross Profit and Operating Expenses

Our consolidated gross profit margin decreased to 35.2% in the first nine months of fiscal 2014 as compared to 36.7% in the first nine months of fiscal 2013, principally reflecting a decrease of 4.2% in the ETG's gross profit margin. The decrease in the ETG's gross profit margin is principally attributed to a less favorable product mix for certain of our space and defense products. Total new product research and development expenses included within our consolidated cost of sales increased to \$28.3 million in the first nine months of fiscal 2014 compared to \$23.5 million in the first nine months of fiscal 2013.

Selling, general and administrative ("SG&A") expenses were \$145.7 million and \$136.5 million in the first nine months of fiscal 2014 and 2013, respectively. The increase in SG&A expenses is principally attributable to additional costs to support the higher net sales volumes. During the first nine months of fiscal 2014, SG&A expenses were reduced by \$10.3 million from the net impact of a \$19.5 million decrease in the estimated fair value of accrued contingent consideration associated with a fiscal 2013 acquisition that was partially offset by \$9.2 million of impairment losses related to the write-down of certain intangible assets associated with the acquired business to their estimated fair values. The impairment losses and adjustments to the contingent consideration obligation were principally due to less favorable projected market conditions.

SG&A expenses as a percentage of net sales decreased from 18.9% in the first nine months of fiscal 2013 to 17.3% in the first nine months of fiscal 2014 principally reflecting the previously mentioned net impact of fair value adjustments to contingent consideration and

impairment losses related to the write-down of certain intangible assets to their estimated fair values.

#### Operating Income

Operating income in the first nine months of fiscal 2014 increased by 17% to a record \$149.7 million as compared to operating income of \$128.0 million in the first nine months of fiscal 2013. The increase in operating income reflects a \$16.1 million increase (a 19% increase) to a record \$103.3 million in operating income of the FSG in the first nine months of fiscal 2014, up from \$87.2 million in the first nine months of fiscal 2013 and a \$5.2 million increase (a 9% increase) in operating income of the ETG to a record \$62.5 million in the first nine months of fiscal 2014, up from \$57.3 million in the first nine months of fiscal 2013. The increase in operating income of the FSG is principally attributed to the previously mentioned net sales growth. The increase in operating income of the ETG principally reflects the net impact of the previously mentioned reduction in contingent consideration and increased net sales partially offset by the less favorable product mix and impairment loss.

Our consolidated operating income as a percentage of net sales increased to 17.8% in the first nine months of fiscal 2014 from 17.7% in the first nine months of fiscal 2013.

#### Interest Expense

Interest expense increased to \$4.2 million in the first nine months of fiscal 2014 from \$2.5 million in the first nine months of fiscal 2013. The increase was principally due to a higher weighted average balance outstanding under our revolving credit facility in the first nine months of fiscal 2014 associated with fiscal 2013 acquisitions.

#### Other Income

Other income in the first nine months of fiscal 2014 and 2013 was not material.

#### Income Tax Expense

Our effective tax rate in the first nine months of fiscal 2014 increased to 29.7% from 29.5% in the first nine months of fiscal 2013. The increase is principally due to an income tax credit for qualified research and development activities for the last ten months of fiscal 2012 that was recognized in the first quarter of fiscal 2013 resulting from the retroactive extension of the U.S. research and development tax credit and its subsequent expiration on December 31, 2013 that limited the tax credit recognized in fiscal 2014 to just two months. Additionally, the increase reflects a larger income tax deduction recognized in the prior year for the special and extraordinary cash dividend paid to participants of the HEICO Savings and Investment Plan ("SIP") holding HEICO common stock and the benefit in the prior year from higher tax-exempt unrealized gains in the cash surrender value of life insurance policies related to the HEICO Corporation Leadership Compensation Plan ("LCP"). These increases to the effective tax rate were partially offset by the impact of a nontaxable reduction in accrued contingent consideration

during fiscal 2014 associated with a fiscal 2013 acquisition acquired by means of a stock transaction.

#### Net Income Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests relates to the 20% noncontrolling interest held by Lufthansa Technik AG in HEICO Aerospace and the noncontrolling interests held by others in certain subsidiaries of the FSG and ETG. Net income attributable to noncontrolling interests was \$13.5 million in the first nine months of fiscal 2014 compared to \$16.2 million in the first nine months of fiscal 2013. The decrease principally reflects purchases of certain noncontrolling interests during fiscal 2014 resulting in lower allocations of net income to noncontrolling interests.

#### Net Income Attributable to HEICO

Net income attributable to HEICO increased to a record \$89.2 million, or \$1.32 per diluted share, in the first nine months of fiscal 2014 from \$72.6 million, or \$1.09 per diluted share, in the first nine months of fiscal 2013, principally reflecting the previously mentioned increased operating income.

#### Comparison of Third Quarter of Fiscal 2014 to Third Quarter of Fiscal 2013

##### Net Sales

Our net sales in the third quarter of fiscal 2014 increased by 9% to a record \$291.0 million, as compared to net sales of \$267.1 million in the third quarter of fiscal 2013. The increase in net sales principally reflects an increase of \$14.7 million (a 17% increase) to a record \$102.1 million in net sales within the ETG as well as an increase of \$10.2 million (a 6% increase) to \$191.6 million in net sales within the FSG. The net sales increase in the ETG resulted from organic growth of approximately 9% as well as additional net sales of \$6.8 million from a fiscal 2013 acquisition. The organic growth in the ETG principally reflects an increase in demand for certain defense, space, and industrial and electronics products resulting in a \$4.7 million, \$1.4 million and \$1.1 million increase in net sales, respectively. The net sales increase in the FSG resulted from additional net sales of \$6.5 million from a fiscal 2013 acquisition as well as organic growth of approximately 2%. The organic growth in the FSG principally reflects new product offerings and favorable market conditions resulting in a net sales increase of \$3.3 million within our aftermarket replacement parts and repair and overhaul services product lines partially offset by a reduction in net sales from defense and other industrial product offerings within our specialty products lines. Sales price changes were not a significant contributing factor to the ETG and FSG net sales growth in the third quarter of fiscal 2014.

## Gross Profit and Operating Expenses

Our consolidated gross profit margin decreased to 35.5% in the third quarter of fiscal 2014 as compared to 36.5% in the third quarter of fiscal 2013, principally reflecting a decrease of 5.8% in the ETG's gross profit margin partially offset by a .9% increase in the FSG's gross profit margin. The decrease in the ETG's gross profit margin is principally attributed to a less favorable product mix for certain of our space and defense products. The increase in the FSG's gross profit margin mainly reflects the previously mentioned net sales growth within our aftermarket replacement parts and repair and overhaul services product lines partially offset by a less favorable product mix within our specialty product lines. Total new product research and development expenses included within our consolidated cost of sales increased to \$9.9 million in the third quarter of fiscal 2014 compared to \$8.5 million in the third quarter of fiscal 2013.

SG&A expenses were \$53.2 million and \$49.1 million in the third quarter of fiscal 2014 and 2013, respectively. The increase in SG&A expenses is principally attributed to additional costs to support the higher net sales volumes. During the third quarter of fiscal 2014, SG&A expenses were reduced by \$1.0 million from the net impact of a \$10.2 million decrease in the estimated fair value of accrued contingent consideration associated with a fiscal 2013 acquisition that was partially offset by \$9.2 million of impairment losses related to the write-down of certain intangible assets associated with the acquired business to their estimated fair values. The impairment losses and adjustments to the contingent consideration obligation were principally due to less favorable projected market conditions.

SG&A expenses as a percentage of net sales decreased from 18.4% in the third quarter of fiscal 2013 to 18.3% in the third quarter of fiscal 2014.

## Operating Income

Operating income in the third quarter of fiscal 2014 increased by 4% to \$50.1 million as compared to operating income of \$48.4 million in the third quarter of fiscal 2013. The increase in operating income principally reflects a \$1.6 million increase (a 5% increase) to \$34.2 million in operating income of the FSG in the third quarter of fiscal 2014, up from \$32.6 million in the third quarter of fiscal 2013. The increase in operating income of the FSG reflects the previously mentioned net sales growth.

As a percentage of net sales, our consolidated operating income decreased to 17.2% in the third quarter of fiscal 2014 from 18.1% in the third quarter of fiscal 2013. The decrease in consolidated operating income as a percentage of net sales principally reflects a reduction in the ETG's operating income as a percentage of net sales from 24.6% in the third quarter of fiscal 2013 to 21.0% in the third quarter of fiscal 2014. The decrease in operating income as a percentage of net sales for the ETG is attributed to the previously mentioned less favorable product mix including the impact of the acquired business.

### Interest Expense

Interest expense increased to \$1.4 million in the third quarter of fiscal 2014 from \$1.1 million in the third quarter of fiscal 2013. The increase was principally due to a higher weighted average balance outstanding under our revolving credit facility in the third quarter of fiscal 2014 associated with fiscal 2013 acquisitions and the acquisition of certain noncontrolling interests during the second quarter of fiscal 2014.

### Other Income

Other income in the third quarter of fiscal 2014 and 2013 was not material.

### Income Tax Expense

Our effective tax rate in the third quarter of fiscal 2014 decreased to 23.4% from 26.6% in the third quarter of fiscal 2013. The decrease is principally attributed to the impact of a nontaxable reduction in accrued contingent consideration during fiscal 2014 associated with a fiscal 2013 acquisition acquired by means of a stock transaction. The decrease in the effective tax rate was partially offset by lower research and development tax credits recognized in fiscal 2014 due to the previously mentioned expiration of the U.S. research and development tax credit, the larger income tax deduction recognized in the prior year for the special and extraordinary cash dividend paid to participants of the HEICO SIP holding HEICO common stock, and the benefit in the prior year from higher tax-exempt unrealized gains in the cash surrender values of life insurance policies related to the HEICO LCP.

### Net Income Attributable to Noncontrolling Interests

Net income attributable to noncontrolling interests relates to the 20% noncontrolling interest held by Lufthansa Technik AG in HEICO Aerospace and the noncontrolling interests held by others in certain subsidiaries of the FSG and ETG. Net income attributable to noncontrolling interests was \$4.0 million in the third quarter of fiscal 2014 compared to \$5.8 million in the third quarter of fiscal 2013. The decrease principally reflects the purchase of certain noncontrolling interests during the second quarter of fiscal 2014 resulting in lower allocations of net income to noncontrolling interests.

### Net Income Attributable to HEICO

Net income attributable to HEICO increased to a record \$33.4 million, or \$.49 per diluted share, in the third quarter of fiscal 2014 from \$28.9 million, or \$.43 per diluted share, in the third quarter of fiscal 2013, principally reflecting the previously mentioned increased operating income, lower allocation of net income to noncontrolling interests and the lower effective tax rate.

## Outlook

As we look ahead to the remainder of fiscal 2014, we continue to anticipate growth within the FSG's aftermarket replacement parts and repair and overhaul services product lines partially offset by declines in demand for certain products within our specialty products lines. Furthermore, we anticipate softer demand in the fourth quarter of fiscal 2014 pertaining to the ETG's defense products partially offset by a net increase in demand within the other markets served by the ETG. During the remainder of fiscal 2014, we plan to remain focused on new product development, further market penetration, executing our acquisition strategies and maintaining our financial strength. Based on our current economic visibility, we continue to estimate consolidated fiscal 2014 year-over-year growth in net sales of 12% - 14%, but are increasing our estimated consolidated fiscal 2014 year-over-year growth in net income to 14% - 16%, up from our prior growth estimates of 12% - 14%.

## Liquidity and Capital Resources

Our principal uses of cash include acquisitions, distributions to noncontrolling interests, cash dividends, capital expenditures and working capital needs. Capital expenditures in fiscal 2014 are anticipated to approximate \$20 million, down from our previous estimate of \$25 million. We finance our activities primarily from our operating and financing activities, including borrowings under our revolving credit facility.

In November 2013, we entered into an amendment to extend the maturity date of our revolving credit facility by one year to December 2018 and to increase the aggregate principal amount to \$800 million. Furthermore, the amendment includes a feature that will allow us to increase the aggregate principal amount by an additional \$200 million to become a \$1.0 billion facility through increased commitments from existing lenders or the addition of new lenders. In February 2014, we paid a cash dividend of \$67.4 million to Lufthansa Technik AG ("LHT") as part of a transaction in which we acquired certain noncontrolling interests held by LHT in four of our existing subsidiaries. Additionally, in January 2014, we paid a special and extraordinary cash dividend of \$.35 per share on both classes of our common stock as well as our regular semi-annual \$.06 per share cash dividend, which aggregated \$27.2 million. The dividends were principally funded from borrowings under our revolving credit facility.

The revolving credit facility contains both financial and non-financial covenants. As of July 31, 2014, we were in compliance with all such covenants. As of July 31, 2014, our net debt to shareholders' equity ratio was 49.0%, with net debt (total debt less cash and cash equivalents) of \$365.4 million.

Based on our current outlook, we believe that our net cash provided by operating activities and available borrowings under our revolving credit facility will be sufficient to fund cash requirements for at least the next twelve months.

### Operating Activities

Net cash provided by operating activities was \$127.2 million in the first nine months of fiscal 2014 and consisted primarily of net income from consolidated operations of \$102.7 million, depreciation and amortization of \$36.3 million (a non-cash item) and impairment of intangible assets totaling \$9.2 million (a non-cash item), partially offset by \$19.5 million of non-cash fair value adjustments to contingent consideration obligations associated with prior year acquisitions. Net cash provided by operating activities increased by \$34.9 million in the first nine months of fiscal 2014 from \$92.3 million in the first nine months of fiscal 2013. The increase in net cash provided by operating activities in fiscal 2014 is principally due to a \$20.0 million decrease in working capital and increases of \$13.9 million, \$10.4 million and \$9.2 million in net income from consolidated operations, depreciation and amortization, and impairment of intangible assets, respectively, partially offset by an \$18.3 million increase in non-cash fair value adjustments associated with contingent consideration obligations on prior year acquisitions.

### Investing Activities

Net cash used in investing activities totaled \$21.0 million in the first nine months of fiscal 2014 and related primarily to capital expenditures of \$12.3 million and acquisitions of \$8.7 million. Further details regarding acquisitions may be found in Note 2, Acquisition, of the Notes to Condensed Consolidated Financial Statements.

### Financing Activities

Net cash used in financing activities in the first nine months of fiscal 2014 totaled \$100.6 million and related primarily to distributions to noncontrolling interests of \$76.7 million and cash dividends paid on our common stock of \$31.2 million, partially offset by net borrowings on our revolving credit facility of \$10.0 million.

### Contractual Obligations

There have not been any material changes to the amounts presented in the table of contractual obligations that was included in our Annual Report on Form 10-K for the year ended October 31, 2013.

### Off-Balance Sheet Arrangements

#### Guarantees

As of July 31, 2014, we have arranged for standby letters of credit aggregating \$2.8 million, which are supported by our revolving credit facility. One letter of credit in the amount of \$1.5 million is to satisfy the security requirement of our insurance company for potential workers' compensation claims and the remainder pertain to performance guarantees related to customer contracts entered into by certain of our subsidiaries.

## New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income," which requires disclosure about changes in and amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement of operations or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income, but only if the amount reclassified is required to be reclassified to net income in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional detail about those amounts. We adopted ASU 2013-02 in the first quarter of fiscal 2014, resulting in only expanded disclosure regarding the changes in accumulated other comprehensive income and no impact on our consolidated results of operations, financial position or cash flows.

In March 2013, the FASB issued ASU 2013-05, "Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity," which clarifies the applicable guidance for the release of any cumulative translation adjustments into net earnings. ASU 2013-05 specifies that the entire amount of cumulative translation adjustments should be released into earnings when an entity ceases to have a controlling financial interest in a subsidiary or group of assets within a consolidated foreign entity and the sale or transfer results in the complete or substantially complete liquidation of the investment in the foreign entity. ASU 2013-05 is effective prospectively for fiscal years and interim reporting periods within those years beginning after December 15, 2013, or in fiscal 2015 for HEICO. Early adoption is permitted. We are currently evaluating the effect, if any, the adoption of this guidance will have on our consolidated results of operations, financial position or cash flows.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which provides a comprehensive new revenue recognition model that will supersede nearly all existing revenue recognition guidance. Under ASU 2014-09, an entity will recognize revenue when it transfers promised goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. The guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. ASU 2014-09 is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2016, or in fiscal 2018 for HEICO. Early adoption is not permitted. ASU 2014-09 shall be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. We are currently evaluating which transition method we will elect and the effect the adoption of this guidance will have on our consolidated results of operations, financial position or cash flows.

#### Forward-Looking Statements

Certain statements in this report constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained herein that are not clearly historical in nature may be forward-looking and the words “anticipate,” “believe,” “expect,” “estimate” and similar expressions are generally intended to identify forward-looking statements. Any forward-looking statement contained herein, in press releases, written statements or other documents filed with the Securities and Exchange Commission or in communications and discussions with investors and analysts in the normal course of business through meetings, phone calls and conference calls, concerning our operations, economic performance and financial condition are subject to risks, uncertainties and contingencies. We have based these forward-looking statements on our current expectations and projections about future events. All forward-looking statements involve risks and uncertainties, many of which are beyond our control, which may cause actual results, performance or achievements to differ materially from anticipated results, performance or achievements. Also, forward-looking statements are based upon management’s estimates of fair values and of future costs, using currently available information. Therefore, actual results may differ materially from those expressed or implied in those statements. Factors that could cause such differences include: lower demand for commercial air travel or airline fleet changes or airline purchasing decisions, which could cause lower demand for our goods and services; product development or product specification costs and requirements, which could cause an increase to our costs to complete contracts; governmental and regulatory demands, export policies and restrictions, reductions in defense, space or homeland security spending by U.S. and/or foreign customers or competition from existing and new competitors, which could reduce our sales; product development difficulties, which could increase our product development costs and delay sales; our ability to make acquisitions and achieve operating synergies from acquired businesses, customer credit risk, interest and income tax rates and economic conditions within and outside of the aviation, defense, space, medical, telecommunications and electronics industries, which could negatively impact our costs and revenues; and defense budget cuts, which could reduce our defense-related revenue. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except to the extent required by applicable law.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have not been any material changes in our assessment of HEICO's sensitivity to market risk that was disclosed in Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," in our Annual Report on Form 10-K for the year ended October 31, 2013.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report. Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that HEICO's disclosure controls and procedures are effective as of the end of the period covered by this quarterly report.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the third quarter ended July 31, 2014 that have materially affected, or are reasonably likely to materially affect, HEICO's internal control over financial reporting.
