KOSS CORPORATION  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
March 31, 2018  
(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The condensed consolidated balance sheet of Koss Corporation (the "Company") as of June 30, 2017, has been derived from audited financial statements. The unaudited condensed consolidated financial statements presented herein are based on interim amounts. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") have been condensed or omitted. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary to present fairly the financial position, results of operations and cash flows for all periods presented have been made. The operating results for the nine months ended March 31, 2018, are not necessarily indicative of the operating results that may be experienced for the full fiscal year ending June 30, 2018.

These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Registrant's Annual Report on Form 10-K for the fiscal year ended June 30, 2017.

2. NEW ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09 (Topic 606), Revenue from Contracts with Customers. This new standard supersedes nearly all existing revenue recognition guidance and provides a five-step analysis to determine when and how revenue is recognized. The underlying principle is to recognize revenue when promised goods or services transfer to the customer. The amount of revenue recognized will reflect the consideration expected to be received for those goods or services. The new standard also requires additional disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. The standard permits the use of either the full or modified retrospective transition method. The Company will adopt the new standard in the first quarter of fiscal 2019 and anticipates using the full retrospective method.

The Company has begun the assessment of the new revenue standard through review of customer contracts, identification of what performance obligations exist, and calculation of the required adjustments. The preliminary results of our assessment indicate that the Company expects an immaterial impact on its consolidated financial statements and related disclosures. The Company is continuing its assessment and may identify other impacts.

In February 2016, the FASB issued ASU 2016-02 (Topic 842), Leases. This new standard revises existing lease guidance and requires all leases to be recorded on a company's balance sheet as right-of-use assets and lease liabilities. The new guidance also requires additional disclosures about leases. The Company plans to early adopt the new standard in the first quarter of fiscal 2019.

The Company has begun the assessment of the new lease standard through review of lease contracts and calculation of the required adjustments. The preliminary result of our assessment is that the Company expects an immaterial impact on its consolidated statements of operations and a material impact as a result of recording the right-of-use asset and corresponding lease liability on the Company's consolidated balance sheets. The Company is continuing its assessment and may identify other impacts.

## 3. UNAUTHORIZED TRANSACTION RELATED COSTS AND RECOVERIES

In December 2009, the Company learned of significant unauthorized transactions as previously reported. The Company has ongoing costs and recoveries associated with the unauthorized transactions. For the three and nine months ended March 31, 2017, the costs incurred were for legal fees related to claims initiated against a third party (see Note 13). For the three and nine months ended March 31, 2018 and 2017, the costs and recoveries were as follows:

	Three Months Ended		Nine Months Ended	
	March 31		March 31	
	2018	2017	2018	2017
Legal fees incurred	\$—	\$40,000	\$—	\$77,500

Unauthorized transaction related (recoveries) costs, net	\$(1,265)	\$39,663	\$(17,445)	\$73,759

## 4. INVENTORIES

The components of inventories were as follows:

	March 31, 2018	June 30, 2017
Raw materials	\$2,741,338	\$2,900,499
Work-in process	5,644	—

Allowance for obsolete inventory	(2,668,614 )	(2,450,717 )
Total inventories	\$6,356,456	\$8,345,343

## 5. INCOME TAXES

The Company files income tax returns in the United States federal jurisdiction and in several state jurisdictions. The statute of limitations for the Company's federal tax returns for tax years beginning July 1, 2014 or later are open. For states in which the Company files state income tax returns, the statute of limitations is generally open for tax years ended June 30, 2014 and forward.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 ("the Tax Act") was signed. The Tax Act significantly changed the income tax environment for US corporations, including the reduction of the US federal corporate tax rate from 35% to 21%. Accordingly, we remeasured certain deferred tax assets and liabilities based on the rates at which they are expected to reverse in the future, which is generally 21%. For the three and nine months ended March 31, 2018, the Company recorded an income tax expense of \$5,126 and \$3,048,208, respectively, compared to income tax expense of \$62,523 and \$188,948 for the three and nine months ended March 31, 2017, respectively. The income tax expense for the nine months ended March 31, 2018 includes \$713,826 for the write-down of deferred income taxes due to the change in federal statutory tax rate as a result of the passage of the Tax Act. There was no tax expense in the three months ended March 31, 2018, related to the change in federal statutory tax rate. Income tax expense for the three and nine months ended March 31, 2018, also includes \$187,846 and \$2,429,235, respectively, related to the recording of a valuation allowance for all deferred tax assets. The valuation allowance was recorded due to uncertainty of the realizability of the deferred tax assets.

The Company does not believe it has any unrecognized tax benefits as of March 31, 2018, and as of June 30, 2017. Any changes to the Company's unrecognized tax benefits as of March 31, 2018, if recognized, would impact the effective tax rate.

## 6. CREDIT FACILITY

On May 12, 2010, the Company entered into a secured credit facility (“Credit Agreement”) with JPMorgan Chase Bank, N.A. (“Lender”). The Credit Agreement provided for an \$8,000,000 revolving secured credit facility with interest rates either ranging from 0.0% to 0.75% over the Lender’s most recently publicly announced prime rate or 2.0% to 3.0% over LIBOR, depending on the Company’s leverage ratio. The Company pays a fee of 0.3% to 0.45% for unused amounts committed in the credit facility. On June 29, 2017, the Credit Agreement was amended to reduce the facility to \$4,000,000 and to eliminate the financial covenants. On May 9, 2018, the Credit Agreement was amended to extend the expiration to July 31, 2019. In addition to the revolving loans, the Credit Agreement also provides that the Company may, from time to time, request the Lender to issue letters of credit for the benefit of the Company of up to a sublimit of \$2,000,000 and subject to certain other limitations. The loan may be used only for general corporate purposes of the Company. The Company and the Lender also entered into the Pledge and Security Agreement dated May 12, 2010, under which the Company granted the Lender a security interest in substantially all of the Company’s assets in connection with the Company’s obligations under the Credit Agreement. The Company is currently in compliance with all covenants related to the Credit Agreement. As of March 31, 2018, and June 30, 2017, there were no outstanding borrowings on the facility.

The Company incurs interest expense primarily related to its secured credit facility. Interest expense was \$5,218 and \$964 for the nine months ended March 31, 2018 and 2017, respectively. There was no interest expense in the three months ended March 31, 2018 and 2017.

Total accrued liabilities	\$1,507,422	\$1,149,395

## 8. LOSS PER COMMON AND COMMON STOCK EQUIVALENT SHARE

Basic loss per share is computed based on the weighted-average number of common shares outstanding. The weighted-average number of common shares outstanding was 7,382,706 for the periods ended March 31, 2018 and 2017. When dilutive, stock options are included in income per share as share equivalents using the treasury stock method. For the periods ended March 31, 2018 and 2017, there were no common stock equivalents related to stock option grants that were included in the computation of the weighted-average number of shares outstanding for diluted income per share. Shares issuable upon the exercise of outstanding options of 2,395,000 and 2,345,000 were excluded from the diluted weighted-average common shares outstanding for the periods ended March 31, 2018 and 2017, respectively, as they would be anti-dilutive.

## 9. STOCK OPTIONS

The Company recognizes stock-based compensation expense for options granted under both the 1990 Flexible Incentive Plan and the 2012 Omnibus Incentive Plan. The stock-based compensation relates to stock options granted to employees and non-employee directors. In the nine months ended March 31, 2018, options to purchase 490,000 shares were granted under the 2012 Omnibus Incentive Plan at a weighted average exercise price of \$1.89. In the nine months ended March 31, 2017, options to purchase 485,000 shares were granted under the 2012 Omnibus Incentive Plan at a weighted average exercise price of \$2.33. Stock-based compensation expense during the three and nine months ended March 31, 2018 was \$82,792 and \$248,624, respectively. 13. LEGAL MATTERS

As of March 31, 2018, the Company is party to the following matter related to the unauthorized transactions described below:

On December 17, 2010, the Company filed an action against Park Bank in Circuit Court of Milwaukee County, Wisconsin alleging a claim of breach of the Uniform Fiduciaries Act relating to the unauthorized transactions, as previously reported. In 2015, Park Bank filed third party claims based on contribution and subrogation against Grant Thornton LLP and Michael Koss. The Court granted motions to dismiss the contribution claims against Grant Thornton LLP and Michael Koss, but determined that it was premature to decide the subrogation claims at this stage of the proceedings. On or around March 11, 2016, the Court entered an order granting Park Bank's motion for summary judgment that dismissed the case. On March 22, 2016, the Company filed a Notice of Appeal that appeals the order granting Park Bank's motion for summary judgment and the Court's denial of the motion to dismiss the subrogation claims. Park Bank also filed a cross–appeal that appeals the Court's order that granted the motions to dismiss the contribution claims against Grant Thornton LLP and Michael Koss. On December 12, 2017, the Court of Appeals issued its decision that affirmed the Circuit Court's judgment dismissing the Company's claim against Park Bank. The Company filed a Petition for Review of that decision before the Supreme Court of Wisconsin. On March 14, 2018, the Court granted the Petition. The case is currently pending before the Wisconsin Supreme Court.

The ultimate resolution of this matter is not determinable unless otherwise noted.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

## Overview

The Company developed stereo headphones in 1958 and has been a leader in the industry. Koss markets a complete line of high-fidelity headphones, wireless Bluetooth® headphones, wireless Bluetooth® speakers, computer headsets, telecommunications headsets, and active noise canceling headphones. The Company operates as one business segment.

## Results of Operations Summary

Net sales for the quarter ended March 31, 2018, decreased \$447,241 to \$4,326,674, compared to the same quarter last year. For the nine months ended March 31, 2018, net sales were \$16,277,181 compared to \$17,810,418 for the same period last year for a decrease of 8.6%. A decline in sales to export distributors in general and an OEM customer in Asia, partially offset by an increase in sales to domestic customers, drove the decrease in net sales for the three and nine months ended March 31, 2018.

Gross profit as a percent of sales increased for the three months ended March 31, 2018 compared to the same quarter last year. The lower margin in the prior year was driven by an inventory write-down of a certain product to net realizable value which was not repeated this year. A decrease in gross profit for the nine months ended March 31, 2018, compared to the same period last year was primarily driven by change in the mix of business by product, customer and sales channel.

Selling, general and administrative expenses for the three and nine months ended March 31, 2018, decreased compared to the same period in the prior year primarily due to decreases in sales commissions, incentive compensation and marketing expense.

Tax expense for the three months ended March 31, 2018, was minimal due to an offsetting change in the valuation allowance for deferred tax assets. The write-down of deferred tax assets to the new federal statutory rate as well as an increase in the valuation allowance to include all deferred tax assets caused the increase in tax expense for the nine months ended March 31, 2018, compared to the same period in the prior year.

## Financial Results

## 2018 Results Compared with 2017

(comments refer to both the three and nine month periods unless otherwise stated)

For the three months ended March 31, 2018, sales declined 9.4% due to overall decreases in the export markets partially offset by increased sales in the domestic markets. In the export market the decrease was driven by an OEM customer in Asia. The increase in the domestic market was driven by sales to mass retail. For the nine months ended March 31, 2018, sales decreased 8.6% to \$16,277,181. A decline in sales to export distributors in general and an OEM customer in Asia were partially offset by increased sales to domestic customers, driven primarily by mass retailers.

Domestic net sales increased from approximately \$3,103,000 in the three months ended March 31, 2017, to approximately \$3,526,000 in the three months ended March 31, 2018. Increased sales to mass retail, prison distributors, and an education customer were partially offset by a decline in sales to certain other distributors. For the nine months ended March 31, 2018, domestic net sales increased from \$11,089,000 in the prior year to approximately \$11,771,000. Increased sales through mass retail and prison distributors were partially offset by a decline in sales to certain distributors, a grocery chain and an education customer.

Export net sales decreased from approximately \$1,671,000 to approximately \$801,000 for the three months ended March 31, 2017 and 2018, respectively. For the nine months ended March 31, 2018, sales decreased to approximately \$4,506,000 from \$6,721,000 in the same period last year. Sales to an OEM customer in Asia and to distributors in Europe and Asia in general caused the decline.

Gross profit increased to 22.3% for the three months ended March 31, 2018, compared to 19.9% for the three months ended March 31, 2017. The lower gross profit in the prior year was largely due to an inventory write-down of a certain product to net realizable value, which was not repeated this year. The decrease in gross profit for the nine months ended March 31, 2018, from 28.6% to 27.8% is driven by change in the mix of sales by product, customer and sales channel and partially offset by a decrease in freight expenses.

Selling, general and administrative expenses for the three and nine months ended March 31, 2018, decreased compared to the prior year. Lower expense for sales commissions, incentive compensation, marketing, and travel, partially offset by an increase in legal fees, contributed to this decrease.

More frequent and extended periods of borrowing to cover timing differences between cash provided and used by operations caused an increase in interest expense for the nine months ended March 31, 2018.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 ("the Tax Act") was signed. The Tax Act significantly changed the income tax environment for US corporations. The income tax expense for the nine months ended March 31, 2018, was comprised of a blended U.S. federal statutory rate of 27.5%, the write-down of deferred taxes to the new federal statutory rate of 21%, an increase in the valuation allowance to include all deferred tax assets due to uncertainty of the realizability of those assets, and the effect of state income taxes.

## Index

### Operating Activities

The decrease in accounts receivable and inventory, partially offset by a decrease in accounts payable, drove the increase in cash provided by operating activities during the nine months ended March 31, 2018.

### Investing Activities

Cash used in investing activities was lower for the nine months ended March 31, 2018, as the Company had decreased expenditures for tooling related to new product introductions. During the fiscal year ending June 30, 2018, the Company anticipates it will incur total expenditures for tooling, leasehold improvements and capital expenditures similar to last fiscal year. The Company expects to generate sufficient cash flow through operations or through the use of its credit facility to fund these expenditures.

### Financing Activities

As of March 31, 2018 and 2017, the Company had no outstanding borrowings on its bank line of credit facility.

There were no purchases of common stock in 2018 or 2017 under the stock repurchase program. No stock options were exercised in 2018 or 2017.

### Liquidity

The Company's capital expenditures are primarily for tooling. In addition, it has interest payments on its borrowings when it uses its line of credit facility. The Company believes that cash generated from operations, together with cash reserves and borrowings available under its credit facility, provide it with adequate liquidity to meet operating requirements, debt service requirements and planned capital expenditures for the next twelve months and thereafter for the foreseeable future. The Company regularly evaluates new product offerings, inventory levels and capital expenditures to ensure that it is effectively allocating resources in line with current market conditions.

### Credit Facility

On May 12, 2010, the Company entered into a secured credit facility ("Credit Agreement") with JPMorgan Chase Bank, N.A. ("Lender"). The Credit Agreement provided for an \$8,000,000 revolving secured credit facility and letters of credit for the benefit of the Company of up to a sublimit of \$2,000,000. On June 29, 2017, the Credit Agreement was amended to reduce the facility to \$4,000,000 and to eliminate the financial covenants. On May 9, 2018, the Credit Agreement was amended to extend the expiration to July 31, 2019. The Company and the Lender also entered into the Pledge and Security Agreement dated May 12, 2010, under which the Company granted the Lender a security interest in substantially all of the Company's assets in connection with the Company's obligations under the Credit Agreement. The Company is currently in compliance with all covenants related to the Credit Agreement. As of March 31, 2018 and June 30, 2017, there were no outstanding borrowings on the facility.

### Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements other than the lease for the facility in Milwaukee, Wisconsin. The Company leases the facility from Koss Holdings, LLC, which is wholly-owned by the former Chairman. On January 5, 2017, the lease was renewed for a period of five years, ending June 30, 2023, and is being accounted for as an operating lease. The lease extension maintained the rent at a fixed rate of \$380,000 per year. The Company is responsible for all property maintenance, insurance, taxes and other normal expenses related to ownership. The facility is in good repair and, in the opinion of management, is suitable and adequate for the Company's business

purposes.
