December 31, 2015.

Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

In accordance with Section 1502 of the Dodd-Frank Act, which amends the Securities and Exchange Act of 1934 to add Section 13(p), Lowe's Companies, Inc. (the "Company" or "Lowe's") has completed its annual assessment to determine whether certain products it offered for sale during the year ended December 31, 2015 may have contained conflict minerals that were necessary to the functionality or production of such products. Please refer to Rule 13p-1 and Form SD for definitions of the terms used in this disclosure, unless otherwise defined herein.

The Company's Conflict Minerals Compliance Program working group met with representatives from various departments within Lowe's and evaluated the application of the terms "manufacture" and "contract to manufacture" as they could relate to the business of Lowe's. The working group then identified product groups over which the Company may have specific influence in the manufacturing process and that could include Conflict Minerals and mapped the products within the product groups to their respective vendors in the supply chain. Thereafter, the working group conducted a reasonable country of origin inquiry and determined that it was unable to conclude based on the information received from such vendors that a Conflict Mineral did not originate in a covered country or come from recycled or scrap sources.

The Conflict Minerals Report that Lowe's has filed as Exhibit 1.01 to this Specialized Disclosure Report on Form SD is publicly available at the following website:
