**Results of Operations and Financial Condition.**

On September 8, 2006, Stage Stores, Inc. (the "Company") filed a Form 12b-25 Notification of Late Filing with the Securities and Exchange Commission. The Form 12b-25 included the following narrative:

"Stage Stores, Inc. (the "Company") announced on August 16, 2006 that, in the course of reviewing its preliminary financial results for its second fiscal quarter ended July 29, 2006, it became apparent that its Peebles Division gross margins were significantly higher than forecast. After evaluating the positive second quarter business trends that could account for the large upside variance, the Company determined that a review of its inventory valuation methodology used to calculate its cost of goods sold might be appropriate. As a result, the Company undertook an internal review of its methodology to determine the scope and magnitude of the issue.

Because its review is still continuing, the Company is unable to quantify with certainty, at this time, the impact on the Company's historical financial statements.

The Audit Committee of the Company's Board of Directors is actively involved in reviewing this matter along with the Company's management and has retained the services of BDO Seidman, LLP to assist management in this matter.

Due to its ongoing review, the Company is unable to file its Quarterly Report on Form 10-Q for its second fiscal quarter by the required filing date of September 7, 2006, and does not currently expect that it will be filed on or before September 12, 2006, which is the prescribed due date following the five calendar day extension provided by Rule 12b-25.

The Company is working as diligently and expeditiously as possible to complete its review and will file its Form 10-Q for its second fiscal quarter as soon as is practicable."
