- 4) A general description of the activities of the Applicants for the quarter ended September 30, 2001, and of the projects in which they or their subsidiary companies have an ownership interest:

The Project Activities (as such term is defined in the aforesaid Application-Declaration) that National and Horizon, and subsidiaries of Horizon, were engaged in pursuant to File No. 70-8649, as of September 30, 2001, are as follows:

Horizon, through its wholly owned indirect subsidiaries, Horizon Energy

Edgar Filing: NATIONAL FUEL GAS CO - Form 35-CERT

Holdings, Inc. and Horizon Energy Development, B. V. (HEDBV), continues to own 100% of the capital stock of each of Horizon Energy Development s.r.o. ("HED") and Power Development s.r.o. ("PD"). PD had owned 100% of the capital stock of Telplarna Kromeriz a.s. ("TK"), however, 100% of such ownership was transferred to HEDBV as part of the ongoing liquidation of PD which had been previously reported. HEDBV and TK continue to engage in power development and related activities in the Czech Republic and eastern Europe.

The only material asset of TK is its district heating system which sells steam heat to its residential and commercial customers in the city of Kromeriz, Czech Republic. TK continues to investigate ways to convert the existing steam plant into a cogeneration facility, or otherwise to generate electricity at the site.

As of September 30, 2001, HEDBV also owned approximately 86% of the capital stock of United Energy, a.s. (UE), formerly known as Prvni Severozapadni Teplarenska, a.s. (PSZT). As previously reported, PSZT was the surviving entity resulting from the merger of PSZT and Severoceske Teplarny, a.s. (SCT). Both PSZT and SCT, directly, and through subsidiaries produced heat and power. UE continues to carry on those operations and distribute heat and sells power at wholesale in the northern part of the Czech Republic.

HEDBV, as a shareholder of SCT, had received dividends from its investment in the SCT shares. HEDBV, as a shareholder of PSZT (now UE), has received, and expects to receive, in the future, dividends from its investment in UE shares.

During the quarter, Horizon also carried on Project Activities in Italy and Belgium, but owns no assets in those countries at this time.

The aggregate investment of National and its subsidiaries in electric wholesale generators and foreign utility companies does not exceed the limits set forth in the Commission's Rule 53.

5) Information on intercompany service transactions (including those provided at cost and at market rates) involving affiliated Intermediate Companies during the quarter ended September 30, 2001:

Neither Horizon nor National engaged in any intercompany service transactions with affiliated Intermediate Companies.
