The Plan Administrator  
First Midwest Bancorp, Inc. Savings and Profit Sharing Plan

We have audited the accompanying statements of net assets available for benefits of First Midwest Bancorp, Inc. Savings and Profit Sharing Plan as of December 31, 2004 and 2003, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2004 and 2003, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2004, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

## FIRST MIDWEST BANCORP, INC. SAVINGS AND PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2004 and 2003

### 1. Description of the Plan

The following brief description of the First Midwest Bancorp, Inc. Savings and Profit Sharing Plan ("Plan") is provided for general information purposes. The Plan document provides more complete information about the Plan.

#### Background

First Midwest Bancorp, Inc. ("Company") established the Plan effective December 31, 1984. The Plan is a defined-contribution benefit plan covering substantially all full-time and part-time Company employees meeting certain age and length-of-service criteria.

#### Contributions and Benefit Payments

The Company's contribution to the Plan during 2004 and 2003 included a matching contribution of \$2.00 for each \$1.00 of the first 1% of eligible participant compensation and an annual discretionary contribution of up to an additional 15% of eligible participant compensation. Matching contributions are made quarterly to participants employed on the last day of the quarter. Discretionary contributions are made only to those employed on the last day of the Plan year. Company discretionary contributions are based upon performance of all subsidiaries and the overall consolidated performance of the Company. Participants are fully vested in Company matching contributions and participants become vested in Company discretionary contributions over a period of seven years.

Contributions by participants of up to 15% of eligible compensation are allowed on a tax-deferred basis under the provisions of Internal Revenue Code (the Code) Section 401(k), subject to certain limitations. Participant contributions (and earnings thereon) are fully vested.

Participants may direct their contributions as well as Company matching contributions and Company discretionary contributions to any of the investment options offered by the Plan.

On January 1, 2002, the portion of participants' accounts related to employee contributions and Company matching contributions invested in the FMBI Stock Fund were transferred to the ESOP Fund. A portion of the Company discretionary contributions were invested in the ESOP Fund; no employee contributions and Company matching contributions were credited to this fund. Participants may elect to transfer all or a portion of their ESOP Fund account balance to other investment options offered by the Plan. Employees may not elect to transfer from other investment

options into the ESOP Fund. Participants may elect to have any cash dividends paid on the Company common stock held in the ESOP Fund paid in cash to the participant or reinvested in shares of Company common stock held in the ESOP Fund.

On June 25, 2002, all funds in the Plan, except for the FMBI Stock Fund and ESOP Fund, are maintained in the Daily Valuation Fund ("Daily Fund"). The funds in the Plan are valued on a daily basis. Retirement Direct, LLC manages and maintains the record keeping for the Daily Fund. The Daily Fund enables participants to make changes to their account within the Plan on a daily basis (including the FMBI Stock Fund and ESOP Fund). The Daily Fund is held in the trust fund managed by First Midwest Bank ("Bank"). The Bank continues to manage the FMBI Stock Fund and ESOP Fund.

Company contributions are reduced by any forfeitures during the year.

Notes to Financial Statements (continued)

### 1. Description of the Plan (continued)

#### Investment of Plan Assets

A trust fund was established for the purpose of holding and investing Plan assets in accordance with the terms of the Trust Agreement between the Company and the Trustee, First Midwest Bank, ("Trustee"), a subsidiary of the Company and a party-in-interest.

#### Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 0-60 months. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

### 2. Summary of Significant Accounting Policies

#### Basis of Presentation

The accompanying financial statements are prepared under the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

#### Investment Valuation and Income Recognition

Investments are reported at fair value, which, except for common trust funds, short-term investments and loans to participants, is determined using quoted market prices. Common trust funds are valued based on redemption value. Short-term investments and loans to participants are reported at cost and unpaid principal balance, respectively, which approximates market.

Purchases and sales of securities are recorded on a trade-date basis and are accounted for using the specific identification method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes realized and unrealized investment gains and losses.

### Administrative Expense

Administrative expenses of the Plan are paid from the trust fund, to the extent they are not paid by the Company. Administrative expenses relating to participant loans totaling \$7,600 and \$6,500 were paid by the Plan's loan account for the years ended December 31, 2004 and 2003, respectively.

### Use of Estimates

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.
