To the Plan Participants and the Plan Administrator of the ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and the ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and the ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees (the "Plans") as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plans at December 31, 2017 and 2016, and the changes in their net assets available for benefits for the year ended December 31, 2017, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Plans' management. Our responsibility is to express an opinion on the Plans' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plans in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plans are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Schedules

The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2017, have been subjected to audit procedures performed in conjunction with the audits of the Plans' financial statements. The information in the supplemental schedules is the responsibility of the Plans' management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Ernst & Young LLP

We have served as the Plans' auditor since at least 1979, but we are unable to determine the specific year.

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements

1. Description of the Plans

General

The ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees (the Salaried Plan) and the ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees (the Hourly Plan) (collectively, the Plans), each of which includes an employee stock ownership component, are defined contribution plans available to all eligible salaried and hourly employees, respectively of Archer-Daniels-Midland Company (ADM or the Company) and its participating affiliates. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plans provides only general information regarding the Plans as of December 31, 2017. Participants should refer to the appropriate plan document and the prospectus for a more complete description of the applicable plan's provisions.

Employee eligibility varies by employment class, location, and employment status. Complete information regarding employee eligibility is described in the plan documents, summary plan descriptions, and, in certain cases, an appendix to the appropriate plan.

Arrangement with Related Party and Investment in ADM Common Stock

Fidelity Management Trust Company is the trustee for the Plans. ADM management decided to switch trustees during fiscal year 2017. Mercer Trust Company was the trustee through September 30, 2017. Our current trustee, Fidelity Management Trust Company has handled the plans through December 31, 2017. The Plans hold investments in ADM common stock. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. Furthermore, dividends paid on ADM common stock held in participant accounts are automatically reinvested in additional shares of the Company's common stock purchased on the market unless the participant has elected to receive a distribution of such dividends in cash. The Master Trust held 10,526,490 and 11,020,220 shares of ADM common stock as of December 31, 2017 and 2016, respectively. There is no time requirement for holding common stock purchased with ordinary dividends. The total amount of dividends paid on ADM common stock for the years ended December 31, 2017 and 2016 was \$13,701,807 and \$13,750,594, respectively.

Contributions

Under the terms of the Plans, employees electing to participate can contribute from 1% up to as much as 75% of their eligible compensation to the plan, subject to certain Internal Revenue Service (IRS) limitations and the respective plan's provisions for the participating location. Participants age 50 or older can make additional "catch-up" contributions, up to the limits allowed under the tax laws. Eligible new hires are automatically initially enrolled at 6% unless they file an affirmative election requesting a higher or lower participation percentage within the terms of the applicable plan.

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

1. Description of the Plans (continued)

ADM's matching contributions are made in cash. The Company matches 100% of all contributions up to 2% of compensation, and 50% of all contributions between 3% and 6%. The Company also makes a non-elective contribution of 1% of plan-defined compensation to all eligible employees' accounts, subject to each plan's provisions, which may vary by participating locations.

Vesting

The Company's match and non-elective contributions vest over a two-year period. For the Hourly Plan, the vesting dates may vary for hourly bargaining unit employees. Employees should refer to the plan appendix applicable to their plan and participating location for more complete information regarding employee contributions, employer match, and non-elective contribution eligibility and limitations.

Forfeitures

Participants forfeit their nonvested balances upon the earlier of the full distribution of their vested account following termination of employment or a break in service of five years. If a participant receives a distribution of his or her vested account, and the participant is rehired before incurring a five-year break in service, any nonvested balance that previously was forfeited will be reinstated if the participant repays the vested balance that was distributed. Forfeited balances of terminated participant's nonvested accounts are applied to pay administrative expenses, used to reduce employer contributions, or otherwise applied in accordance with the terms of the applicable plan. As of December 31, 2017, unallocated forfeiture balances for the Salaried and Hourly Plans were \$14,171 and \$27,208, respectively. As of December 31, 2016, unallocated forfeiture balances for the Salaried and Hourly Plans were \$44,451 and \$5,950, respectively. In 2017, forfeitures used to reduce employer contributions for the Salaried and Hourly Plans were \$1,482 and \$18, respectively, and forfeitures used to pay administrative expenses for the Salaried and Hourly Plans were \$21,171 and \$21,227, respectively. In 2016, forfeitures used to reduce employer contributions for the Salaried and Hourly Plans were \$1,125,630 and \$1,005,677, respectively, and forfeitures used to pay administrative expenses for the Salaried and Hourly Plans were \$59,909 and \$56,851, respectively.

Investment Options

Participants may invest their contributions in one or more of the investment options offered by the Plans, including ADM common stock. Participants can elect at any time to convert all or any number of the shares of ADM common stock held in their accounts to cash and have the cash transferred within the plan to be invested in the investment options available under the applicable plan.

Participants can also elect to sell any portion of the investment options in their accounts and reinvest the proceeds in one or more of the other investment options.

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

1. Description of the Plans (continued)

Participant Loans

For eligible salaried and hourly employees, loans are allowed for general purposes or for home purchase. General purpose loans are available for terms of up to five years, and home purchase loans are available for terms of up to ten years.

Eligible participants may borrow from their plan accounts a minimum of \$1,000, or the full amount available to them if less, or the amount available to the participant up to the lesser of \$50,000 less the participant's highest outstanding vested loan balance within the past year, 50% of their vested participant account balance, or 100% of their loan-eligible plan accounts. A "loan-eligible plan account" for this purpose is any plan account except an account consisting of Roth contributions (including Roth 401(k) contributions and Roth account rollovers) and earnings thereon. A maximum of one loan may be outstanding to a participant at any time.

The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate at the time of the loan's issuance plus 1%. Principal and interest are repaid ratably through payroll deductions, with payments taken from each paycheck. Eligibility for the general purpose loan varies by each plan's provisions.

Complete information regarding participant loans is described in the plan document, summary plan description, participant loan policy statement, and, in certain cases, an appendix to the appropriate plan.

Participant Accounts

Each participant's account contains the participant's contributions, rollover or transferred accounts from other qualified plans, the Company's matching and non-elective contributions, investment earnings and/or losses and an allocation of administrative expenses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement, or termination, a participant may elect to receive a lump-sum or may elect a delayed distribution (available for accounts of more than \$5,000). A participant whose vested account balance is \$1,000 or less will automatically receive a lump-sum distribution as soon as administratively practicable.

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

1. Description of the Plans (continued)

Withdrawal

In-service withdrawals are available in certain limited circumstances, as defined by the plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Plan Divestitures

In 2017, the Company completed the divestiture of Crop Risk Services. Effective April 30, 2017, the active Crop Risk Services employees were no longer eligible for ADM benefits. Effective August 1, 2017, ADM transitioned the 401(k) plan assets related to Crop Risk Services out of the Plans. The net assets transferred from the Salaried Plan totaled \$14,722,885. The net assets transferred from the Hourly Plan totaled \$11,361.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plans are maintained on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments in the Master Trust are reported at fair value (except for the Stable Value Fund, the fully-benefit responsive synthetic investment contract). Further information regarding the valuation techniques used to measure the fair value of investment assets held the Master Trust is included in the Fair Value Measurements footnote (see Note 3).

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Boards issued Accounting Standards Update (ASU) 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the impact of the adoption to the Plans' financial statement disclosures and the timing of adoption.

3. Fair Value Measurements

The Plans' assets are valued as required by ASC 820. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels are described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In evaluating the significance of fair value inputs, the Plans generally classify assets or liabilities as Level 3 when their fair value is determined using unobservable inputs that, individually or when aggregated with other unobservable inputs, represent more than 10% of the fair value of the assets or liabilities.

Judgment is required in evaluating both quantitative and qualitative factors in the determination of significance for purposes of fair value level classification. Valuation techniques used are generally required to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy.

ADM and other common stock:

Equity securities are valued based on closing quoted exchange prices and are classified within Level 1 of the valuation hierarchy.

Mutual funds:

Mutual funds are valued at the closing price reported on the active market on which they are traded and are classified within Level 1 of the valuation hierarchy.

Common collective trust funds:

Common collective trust fund (CCTs) units are not listed on national exchanges or over-the-counter markets and are valued at net asset value (NAV practical expedient). Accordingly, they are not classified within the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plans believe the valuation methods are appropriate and consistent with other market participants' methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plans' policy regarding the timing of transfers between levels, including both transfers into and transfers out of Level 3, is to measure and record the transfers at the end of the reporting period.

For the years ended December 31, 2017 and 2016, the Plans had no transfers between Levels 1, 2, and 3.

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
 ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

The following table sets forth by Level within the fair value hierarchy the investments included in the Master Trust at fair value as at December 31, 2017. This table does not include Master Trust cash, accrued investment income, fully benefit-responsive investment contracts, or the effect of pending transactions in accordance with the disclosure requirements of ASC 820. There were no pending transactions as of December 31, 2017.

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stocks:	\$422,041,091	—	—	\$422,041,091
Mutual funds:	870,468,330	—	—	870,468,330
	\$1,292,509,421	\$	—\$	—\$1,292,509,421
Common collective trust funds at NAV				614,219,164
Total assets at fair value				\$1,906,728,585

The following table sets forth by Level within the fair value hierarchy the investments included in the Master Trust at fair value as at December 31, 2016. This table does not include Master Trust cash, accrued investment income, fully benefit-responsive investment contracts, or the effect of pending transactions totaling \$174,780 in accordance with the disclosure requirements of ASC 820.

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common stocks:	\$502,627,389	—	—	\$502,627,389
Mutual funds:	735,068,678	—	—	735,068,678
	\$1,237,696,067	\$	—\$	—\$1,237,696,067

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

Level 3 Gains and Losses:

There are no assets in the Master Trust classified as Level 3 in the fair value hierarchy; therefore there are no gains or losses to disclose.

4. Fully Benefit-Responsive Investment Contracts

The Master Trust invests in security-backed investment contracts through the Galliard Stable Value Fund, a synthetic investment contract (the Fund). The Fund primarily invests in common collective trusts, as well as wrapper contracts. The wrapper contracts provide assurance that future adjustments to the variable crediting rates of investments in the common collective trust cannot result in a crediting rate less than zero.

The Fund is managed exclusively for participants of the Plans. The Fund seeks safety and stability in its investment approach. The Fund may utilize guaranteed investment contracts and/or synthetic investment contracts as part of its investment strategy. The Fund may utilize individual securities and/or pooled vehicles as underlying investments of synthetic investment contracts. Participant-directed redemptions generally have no restrictions; however, plan-initiated redemptions and/or other major events may necessitate restrictions. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would generally receive if they were to initiate permitted transactions under the terms of the Plans.

The wrapper contracts are investment contracts issued by an insurance company or other financial institution, backed by the portfolio of bonds that are owned by the common collective trusts in which the Fund is invested. The portfolio underlying the contract is maintained separately from the contract issuer's general assets by a third-party custodian. The interest crediting rate of the wrapper contracts is based on the contract value, the fair value, duration, and yield to maturity of the underlying portfolio. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized; usually over the duration of the underlying investments, through adjustments to the future interest crediting rate, rather than reflected immediately in the net assets of the Fund. The issuer guarantees that all qualified participant withdrawals will be at contract value.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security-backed investment contracts have the risk of default or the lack of liquidity of the underlying portfolio assets.

The primary variables impacting the future crediting rates of security-backed investment contracts include the current yield of the assets underlying the contract, the duration of the assets underlying the contract, and the existing difference between the fair value and contract value of the assets within the contract.

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

4. Fully Benefit-Responsive Investment Contracts (continued)

The Fund uses a compound net crediting rate formula, which reflects fees paid to security-backed contract issuers. The security-backed investment contracts are designed to reset their respective crediting rates on a quarterly basis and cannot credit an interest rate that is less than zero percent. The crediting rate of security-backed investment contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration. To the extent that the underlying portfolio of a security-backed investment contract has unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future crediting rate may be lower over time than the then-current market rates.

Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future crediting rate may be higher than the then-current market rates.

Security-backed investment contracts generally provide for withdrawals associated with certain events that are not in the ordinary course of Fund operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events that may trigger a market value adjustment. At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

Security-backed investment contracts generally contain termination provisions, allowing the Fund or the contract issuer to terminate with notice at any time at fair value and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero. In addition, if the Fund defaults on its obligations under the security-backed contract (including the issuer's determination that the agreement constitutes a non-exempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Fund will receive the fair value as of the date of termination.

5. Master Trust Investment Information

The Plans' investments are held in the Master Trust. Investments and the income therefrom are allocated to participating plans based on each plan's participation in investment options within the Master Trust. The Salaried and Hourly Plans' interest in the net assets of the Master Trust was approximately 75% and 25% at December 31, 2017, and approximately 76% and 24% at December 31, 2016.

Notes to Financial Statements (continued)

5. Master Trust Investment Information (continued)

The following table presents the investments for the Master Trust:

	December 31	
	2017	2016
Assets		
Investment securities at fair value:		
ADM common stock	\$421,901,733	\$502,485,540
Mutual funds	870,468,330	735,068,678
Common collective trust funds	614,219,164	487,852,708
Other common stock	139,358	141,849
	1,906,728,585	1,725,548,775
Investment in synthetic contract at contract value	272,295,378	296,573,690
	2,179,023,963	2,022,122,465
Pending transactions	—	174,780
	\$2,179,023,963	\$2,022,297,245

Summarized financial information with respect to the Master Trust's net investment income (loss) is as follows:

	Year Ended December 31	
	2017	2016
Net realized and unrealized appreciation (depreciation) in fair value of investments	\$138,086,703	\$182,600,072
Dividend and interest income	\$69,459,482	\$43,654,607

6. Plan expenses

Brokerage commissions, transfer taxes, and other charges and expenses in connection with the purchase or sale of securities are charged to the Master Trust fund and added to the cost of such securities, or deducted from the sale proceeds, as the case may be. The stable value fund, mutual funds and CCTs incur expenses in the course of their operations and distribute returns to shareholders based on the funds' net income. Accordingly, these costs are not shown in plan expenses. Certain costs of administering the Plans are currently paid by the Plans' sponsor, ADM. The Plans permit the reasonable expenses of administering the Plans to be paid from the trust fund.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plans to discontinue its contributions at any time and to terminate the Plans subject to the provisions of ERISA. In the event of plan termination, participants will be 100% vested in their accounts.

ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

8. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the Plans' financial statements to the Form 5500:

	December 31, 2017	
	Salaried Plan	Hourly Plan
Net assets available for benefits per the financial statements	\$ 1,686,636,963	\$ 552,423,080
Amounts allocated to deemed distributions	(867,961)	(1,082,026)
Net assets available for benefits per the Form 5500	\$ 1,685,769,002	\$ 551,341,054

	December 31, 2016	
	Salaried Plan	Hourly Plan
Net assets available for benefits per the financial statements	\$ 1,572,516,792	\$ 508,968,167
Change in deemed distributions	(800,858)	(912,502)
Net assets available for benefits per the Form 5500	\$ 1,571,715,934	\$ 508,055,665

The accompanying financial statements present fully benefit-responsive contracts at contract value. The 2017 and 2016 Form 5500 reports the fully benefit-responsive investment contracts at fair value. Therefore, the adjustment from fair value to contract value for fully benefit- responsive investment contracts represents a reconciling item.

The following is a reconciliation of net change in net assets per the Plans' financial statements to the Form 5500:

	Year Ended December 31, 2017	
	Salaried Plan	Hourly Plan
Net increase in net assets per the financial statements	\$ 114,120,170	\$ 43,454,913
Amounts allocated to deemed distributions	(67,103)	(169,524)
Net increase in net assets per the Form 5500	\$ 114,053,067	\$ 43,285,389

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees and
ADM 401(k) and Employee Stock Ownership Plan for Hourly Employees

Notes to Financial Statements (continued)

8. Reconciliation of Financial Statements to the Form 5500 (continued)

The following is a reconciliation of net change in net assets per the Plans' financial statements to the Form 5500:

	Year Ended December 31, 2016	
	Salaried Plan	Hourly Plan
Net increase in net assets per the financial statements	\$ 171,926,391	\$ 59,933,403
Amounts allocated to deemed distributions	(114,987)	(206,124)
Net increase in net assets per the Form 5500	\$ 171,811,404	\$ 59,727,279

9. Income Tax Status

The Salaried Plan and Hourly Plan have received determination letters from the IRS dated August 2, 2017, stating that the Plans are qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the Master Trust is exempt from taxation. Subsequent to this determination by the IRS, the Plans were amended. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualified status. ADM believes the Plans are being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plans, as amended, are qualified and the related Master Trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plans, and has concluded that there are no uncertain positions taken or expected to be taken. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Supplemental Schedules

ADM 401(k) and Employee Stock Ownership Plan for Salaried Employees

EIN: 41-0129150
