FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements use words such as “seek,” “potential,” “expect,” “strive,” “continue,” “continuously,” “accelerate,” “anticipate,” “intend,” “plan,” “target,” “believe,” “estimate,” “forecast,” “pursue,” and other similar expressions or future or conditional verbs such as “will,” “should,” “would” and “could”. They include statements as to our anticipated or expected results; future financial performance; projections of revenue, profit growth and other financial items; discussion of strategic initiatives and related actions; comments about our future economic performance; comments about future market or industry performance; comments about environmental litigation and other contingencies; and beliefs, expectations, intentions, and strategies, among other things. Forward-looking statements are based on management's current beliefs, expectations and assumptions and involve a number of known and unknown risks and uncertainties, many of which are outside our control. These forward-looking statements are not guarantees of future performance, and there are a number of factors, risks and uncertainties including those listed in Item 1A "Risk Factors," and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," of this Annual Report on Form 10-K, that could cause actual outcomes and results to differ materially from the results contemplated by such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements after the filing date of this Annual Report on Form 10-K, whether as a result of new information, future events or otherwise.

Table of Contents

PART I

Item 1. BUSINESS

General

NCR Corporation and its subsidiaries (NCR or the Company, also referred to as “we”, “us” or “our”) provide technology and services that help businesses connect, interact and transact with their customers.

Businesses

NCR Corporation is a leading global technology company that provides innovative products and services that enable businesses to connect, interact and transact with their customers and enhance their customer relationships by addressing consumer demand for convenience, value and individual service. Our portfolio of self-service and assisted-service solutions serve customers in the financial services, retail, hospitality, travel, and telecommunications and technology industries and include automated teller machines (ATMs) and ATM and financial services software, point of sale devices (POS) and POS software, and self-service kiosks and software applications that can be used by consumers to enable them to interact with businesses from their computer or mobile device. We complement these product solutions by offering a complete portfolio of services to support both NCR and third party solutions. We also resell third-party networking products and provide related service offerings in the telecommunications and technology sectors.

Industries Served

NCR provides specific solutions for customers in a range of industries such as financial services, retail, hospitality, travel, and telecommunications and technology. NCR’s solutions are built on a foundation of long-established industry knowledge and consulting expertise, value-added software and hardware technology, global customer support services, and a complete line of business consumables and specialty media products.

Company History

NCR was originally incorporated in 1884 and was a publicly traded company on the New York Stock Exchange prior to its merger with a wholly-owned subsidiary of AT&T Corp. (AT&T) on September 19, 1991. Subsequently, on December 31, 1996, AT&T distributed all of its interest in NCR to its stockholders. NCR common stock is listed on the New York Stock Exchange and trades under the symbol “NCR”.

On September 30, 2007, NCR completed the spin-off of its Teradata Data Warehousing business through the distribution of a tax-free stock dividend to NCR stockholders. NCR distributed one share of common stock of Teradata Corporation (Teradata) for each share of NCR common stock to NCR stockholders of record as of the close of business on September 14, 2007.

Significant Transactions

Effective in the first quarter of 2013, we elected to change our accounting methodology for recognizing costs for all of our company-sponsored U.S. and international pension benefit plans. Under our new accounting methods, we will recognize changes in the fair value of plan assets and net actuarial gains or losses upon remeasurement, which is at least annually in the fourth quarter of each year. These new accounting methods will result in changes in the fair value of plan assets and net actuarial gains and losses being recognized in expense faster than under our previous amortization method. The remaining components of pension expense, primarily net service cost, interest cost, and the expected return on plan assets, will be recorded on a quarterly basis as ongoing pension expense. While our previous policy of recognizing pension expense was acceptable, we believe that these new policies are preferable as they accelerate the recognition in our operating results of changes in the fair value of plan assets and actuarial gains and losses.

On February 6, 2013, we completed the acquisition of Retalix Ltd. (Retalix), for which we paid an aggregate cash purchase price of \$791 million which includes \$3 million to be recognized as compensation expense within selling, general and administrative expenses over a period of approximately three years from the acquisition date. The purchase price was paid from the net proceeds of the December 2012 offer and sale of our 4.625% senior unsecured notes and borrowing under our senior secured credit facility. As a result of the acquisition, Retalix became an indirect wholly owned subsidiary of NCR.

Table of Contents

On December 2, 2013, we entered into an Agreement and Plan of Merger to acquire Digital Insight Corporation (Digital Insight), a leader in online and mobile banking solutions, for a cash purchase price of \$1.65 billion. On December 19, 2013, through a newly formed wholly owned subsidiary, NCR Escrow Corp., we completed the offering of \$400 million aggregate principal amount of 5.875% senior unsecured notes due in 2021 and \$700 million aggregate principal amount of 6.375% senior unsecured notes due in 2023, to help finance the acquisition. The aggregate principal amount from the offerings was initially deposited into a segregated escrow account of NCR Escrow Corp. On January 10, 2014, we completed the acquisition of Digital Insight, NCR Escrow Corp. merged with and into NCR, with NCR assuming all of NCR Escrow Corp.'s obligations under the 5.875% and 6.375% notes and the indentures governing those notes, and the net proceeds from the offering were released from the escrow account to pay a portion of the purchase price for Digital Insight.

Operating Segments

We categorize our operations into four reportable segments: Financial Services, Retail Solutions, Hospitality, and Emerging Industries.

The information required by Item 1 with respect to our reportable segments and financial information regarding our geographic areas and those reportable segments can be found in Item 7 of Part II of this Report under "Revenue and Operating Income by Segment" as well as in Item 8 of Part II of this Report as part of Note 13, "Segment Information and Concentrations," of the Notes to Consolidated Financial Statements, and is incorporated herein by reference.

Products and Services

We sell products and services that help businesses connect, interact and transact with their customers. Our product and service offerings fall into the following categories:

ATMs and Other Financial Products

We provide financial institutions, retailers and independent deployers with financial-oriented self-service technologies, such as ATMs, cash dispensers, and software solutions, including the APTRA™ self-service ATM software application suite (providing ATM management systems) and cash management and video banking software, as well as professional services related to ATM security, software and bank branch optimization. ATM and other financial product solutions are designed to quickly and reliably process consumer transactions and incorporate advanced features such as automated check cashing/deposit, automated cash deposit, web-enablement and bill payment (including mobile bill payment). These solutions help enable businesses to reduce costs and generate new revenue streams while enhancing customer loyalty.

Point of Sale

We provide retail and hospitality oriented technologies such as point of sale terminals and point of sale software, bar-code scanners and other retail-oriented software and services to companies and entertainment and sports venues worldwide. Combining our retail and hospitality industry expertise, software and hardware technologies, and professional services, our solutions are designed to enable cost reductions and improve operational efficiency while increasing customer satisfaction.

Self-Service Kiosks

We provide self-service kiosks and related operating software to the retail, hospitality and travel and gaming industries. Our versatile kiosk solutions can support numerous retail self-service functions, including self-checkout, wayfinding (our self-service software application that helps customers easily locate products or navigate through large, complex buildings and campuses), digital signage, bill payment and gift registries. We provide self-check in/out kiosk solutions to airlines, hotels and casinos that allow guests to check-in/out without assistance. These solutions create pleasant and convenient experiences for consumers and enable our customers to reduce costs. Our kiosks for the

hospitality industry provide consumers the ability to order and pay at restaurants while enabling our customers to streamline order processing and reduce operating costs.

Check and Document Imaging

Our check and document imaging offerings provide end-to-end solutions for both traditional paper-based and image-based check and item processing. These solutions utilize advanced image recognition and workflow technologies to automate item processing, helping financial institutions increase efficiency and reduce operating costs. Consisting of hardware, software, professional and support services, our comprehensive check and document imaging solutions enable check and item-based transactions to be digitally captured, processed and retained within a flexible, scalable environment.

Table of Contents

Consumables

We develop, produce and market a complete line of printer consumables for various print technologies. These products include two-sided thermal paper (2ST®), paper rolls for receipts in ATMs and POS solutions, inkjet and laser printer supplies, thermal transfer and ink ribbons, labels, laser documents, business forms, and specialty media items such as photo and presentation papers. Consumables are designed to optimize operations and improve transaction accuracy, while reducing overall costs.

Services

Services are an essential and integrated component of NCR's complete solution offerings. We provide maintenance and support services for our product offerings and also provide other services including site assessment and preparation, staging, installation and implementation, systems management and complete managed services. We provide Predictive Services, a managed services offering, which is designed to predict and address information technology issues quickly before they happen.

We also offer a range of software and services such as Software as a Service (SaaS), hosted services, and online, mobile and transactional services and applications such as bill pay. In addition, we are also focused on expanding the resale of third party networking products and related service offerings to a broader base of customers in the telecommunications and technology sectors and servicing third-party computer hardware from select manufacturers who value and leverage our global service capability.

Target Markets and Distribution Channels

Our ATMs and other financial product solutions primarily serve the financial services industry with particular focus on retail banking, which includes traditional providers of consumer banking and financial services. These solutions also serve the retail markets through convenience banking products for retailers designed to complement their core businesses. Customers are located throughout the world in both developed and emerging markets. We have historically sold most of our ATMs and financial products and services through a direct sales channel, although a portion of revenues is derived through distributors and value-added resellers.

We provide self-service kiosk and POS solutions to the retail, hospitality and travel and gaming industries. Retail customers include department stores, specialty retailers, mass merchandisers, catalog stores, supermarkets, hypermarkets, grocery stores, drug stores, wholesalers, convenience stores and petroleum outlets. Hospitality customers include restaurants and food service providers, and sports and entertainment venues (including stadiums, arenas and cinemas). Travel and gaming customers include airlines, airports, car rental companies, hotel/lodging operators and casinos. Self-service kiosk and POS solutions are sold through a direct sales force and through relationships with value-added resellers, distributors, dealers and other indirect sales channels. We have focused our investments and resources on self-service technologies with expanded offerings to include self-ticketing and mobile check-in for the travel industry.

Our imaging solutions primarily serve the financial services industry worldwide, with the primary focus on banks. We have historically distributed most of our imaging products and services through a direct sales channel, although certain revenues are derived through sales by value-added resellers and distributors.

Our consumables products are sold to the financial services, retail and hospitality industries as well as to customers involved in transportation and manufacturing. These products are also sold through a direct sales force as well as through various channel partners including office product retailers, contract stationers, value-added resellers, original equipment manufacturers as well as through telemarketing and the Internet.

We provide service and support for our products and solutions through service contracts with our customers. We have also established managed service contracts with key customers and continue to pursue additional managed service

relationships. Longer term managed service arrangements can help improve the efficiency and performance of the customer's business, and also increase the strategic and financial importance of its relationship with NCR. We also service competing technologies—for example, ToshibaTec retail technologies and Diebold ATMs. The primary sales channel for our services is our direct sales teams, which exist across all geographies. Our services professionals provide these services directly to end customers.

Competition

In the financial services industry, we face a variety of competitors, including Diebold, Wincor Nixdorf GmbH & Co. (Wincor) and Hyosung, as well as many other regional firms, across all geographies. The primary factors of competition can vary, but typically include: value and quality of the solutions or products; total cost of ownership; industry knowledge of the vendor; the vendor's ability to provide and support a total end-to-end solution; the vendor's ability to integrate new and existing systems; fit of the vendor's strategic vision with the customer's strategic direction; and quality of the vendor's support and consulting services.

Table of Contents

We face a variety of competitors in the retail and hospitality industries across all geographies. We believe that key competitive factors can vary by geographic area but typically include: value and quality of the solutions or products; total cost of ownership; industry knowledge of the vendor; and knowledge, experience and quality of the vendor's consulting, deployment and support services. Our competitors vary by market segment, product, service offering and geographic area, and include ToshibaTec, Wincor, Fujitsu, Hewlett-Packard, Dell, Honeywell, Micros Systems, Verifone and Datalogic, among others.

We face a diverse group of competitors in the travel and gaming industries. Competitors in the travel industry include IBM, SITA and IER, among others. In the gaming industry, our key competitors are IBM, Wincor and Cummins.

We face competition for services from other technology and service providers, as well as from independent service operators, in all geographies where we operate around the world. The primary services competitors are the companies identified in the descriptions of our other solutions as global technology providers are becoming more focused on services as a core business strategy. We also compete with a range of regional and local service companies across our various geographies.

Competition for printer consumables is significant and varies by geographic area and product group. The primary areas of competitive differentiation typically include: quality; logistics and supply chain management; and total cost of ownership. While price is always a factor, we focus on the customer's total cost of ownership for our consumables products. Total cost of ownership takes into account not only the per-unit cost, but also service, usage, reporting and support costs. Our competitors include, among others, RiteMade Paper and Schades.

We face competition in the financial services industry for imaging solutions across all geographies. The primary areas of competition can vary, but typically include: quality of the solutions or products; total cost of ownership; industry knowledge; the vendor's ability to provide and support a total end-to-end solution; the vendor's ability to integrate new and existing systems; fit of the vendor's strategic vision with the customer's strategic direction; and quality of the vendor's support and consulting services. Our competitors vary by product, service offering and geographic area, and include Fidelity National Information Services and Unisys Corporation, among others.

Research and Development

We remain focused on designing and developing products, services and solutions that anticipate our customers' changing technological needs and consumer preferences. Our expenses for research and development were \$203 million in 2013, \$155 million in 2012, and \$209 million in 2011. We anticipate that we will continue to have significant research and development expenditures in the future in order to provide a continuing flow of innovative, high-quality products and services and to help maintain and enhance our competitive position. Information regarding the accounting and costs included in research and development activities is included in Note 1, "Description of Business and Significant Accounting Policies," of the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report and is incorporated herein by reference.

Patents and Trademarks

NCR seeks patent protection for its innovations and improvements associated with its products, services, and developments, where such protection is likely to provide value to NCR. NCR owns approximately 1,425 patents in the U.S. and numerous other patents in foreign countries. The foreign patents are generally counterparts of NCR's U.S. patents. Many of the patents owned by NCR are licensed to others, and NCR is licensed under certain patents owned by others. NCR has active patent licensing programs. NCR also has numerous patent applications pending in the U.S. and in foreign countries. NCR's portfolio of patents and patent applications, in the aggregate, is of significant value to NCR.

NCR has registered certain trademarks and service marks in the U.S. and in a number of foreign countries. NCR considers the “NCR” and NCR logo marks and many of its other trademarks and service marks to be valuable assets.

Seasonality

Our sales are historically seasonal, with lower revenue in the first quarter and higher revenue in the fourth quarter of each year. Such seasonality also causes our working capital cash flow requirements to vary from quarter to quarter depending on variability in the volume, timing and mix of product sales. In addition, revenue in the third month of each quarter is typically higher than in the first and second months. Information regarding seasonality and its potential impact on our business is included in Item 1A of this Report under the caption, “Operating Results Fluctuations,” and is incorporated herein by reference.

Table of Contents

Manufacturing and Raw Materials

In most cases, there are a number of vendors providing the services and producing the parts and components that we utilize. However, there are some services and components that are purchased from single sources due to price, quality, technology or other reasons. For example, we depend on computer chips and microprocessors from Intel and operating systems from Microsoft. Certain parts and components used in the manufacturing of our ATMs and the delivery of many of our retail solutions are also supplied by single sources. In addition, there are a number of key suppliers for our businesses who provide us with critical products for our solutions.

We manufacture our ATMs in facilities located in Columbus, Georgia, USA; Manaus, Brazil; Budapest, Hungary; Beijing, China; and Puducherry, India. Our self-checkout solutions are manufactured in facilities located in Columbus, Georgia, USA and Budapest, Hungary. Our financial kiosk solutions are manufactured in facilities located in Beijing, China. Our POS/Display terminals are manufactured in facilities located in Columbus, Georgia, USA; Beijing, China; and Adelaide, Australia, and certain hand-held solutions are manufactured in Salzburg, Austria. NCR outsources the manufacturing in all geographic regions of its payment solutions, some POS/Display terminals, printers, bar code scanners and various other kiosks.

Further information regarding the potential impact of these relationships on our business operations, and regarding sources and availability of raw materials, is also included in Item 1A of this Report under the caption "Reliance on Third Parties," and is incorporated herein by reference.

Product Backlog

Our backlog was approximately \$1,172 million and \$1,137 million at December 31, 2013 and 2012, respectively. The backlog includes orders confirmed for products scheduled to be shipped as well as certain professional and transaction services to be provided. Although we believe that the orders included in the backlog are firm, some orders may be cancelled by the customer without penalty, and we may elect to permit cancellation of orders without penalty where management believes it is in our best interests to do so. Further, we have a significant portion of revenues derived from our growing service-based business as well as the Hospitality line of business, the recently acquired Retalix business and the consumables business, for which backlog information is not measured. Therefore, we do not believe that our backlog, as of any particular date, is necessarily indicative of revenues for any future period.

Employees

On December 31, 2013, NCR had approximately 29,300 employees and contractors.

Environmental Matters

Compliance with federal, state, and local environmental regulations relating to the protection of the environment could have a material adverse impact on our capital expenditures, earnings or competitive position. While NCR does not currently expect to incur material capital expenditures related to compliance with such laws and regulations, and while we believe the amounts provided in our Consolidated Financial Statements are adequate in light of the probable and estimable liabilities in this area, there can be no assurances that environmental matters will not lead to a material adverse impact on our capital expenditures, earnings or competitive position. A detailed discussion of the current estimated impacts of compliance issues relating to environmental regulations, particularly the Fox River and Kalamazoo River matters, is reported in Item 8 of Part II of this Report as part of Note 10, "Commitments and Contingencies," of the Notes to Consolidated Financial Statements and is incorporated herein by reference. Further information regarding the potential impact of compliance with federal, state, and local environmental regulations is also included in Item 1A of this Report under the caption "Environmental," and is incorporated herein by reference.

Executive Officers of the Registrant

The Executive Officers of NCR (as of February 26, 2014) are as follows:

8

Table of Contents

Name	Age	Position and Offices Held
William R. Nuti	50	Chairman of the Board, Chief Executive Officer and President
John G. Bruno	49	Executive Vice President, Industry and Field Operations and Corporate Development
Jennifer M. Daniels	50	Senior Vice President, General Counsel and Secretary
Peter A. Dorsman	58	Executive Vice President, Services
Robert P. Fishman	50	Senior Vice President and Chief Financial Officer
Andrea L. Ledford	48	Senior Vice President, Corporate Services and Chief Human Resources Officer

Set forth below is a description of the background of each of the Executive Officers.

William R. Nuti, is NCR's Chairman of the Board, Chief Executive Officer and President. Mr. Nuti became Chairman of the Board on October 1, 2007. Before joining NCR in August 2005, Mr. Nuti served as President and Chief Executive Officer of Symbol Technologies, Inc., an information technology company. Prior to that, he was Chief Operating Officer of Symbol Technologies. Mr. Nuti joined Symbol Technologies in 2002 following a 10 plus year career at Cisco Systems, Inc. where he advanced to the dual role of Senior Vice President of the company's Worldwide Service Provider Operations and U.S. Theater Operations. Prior to his Cisco experience, Mr. Nuti held sales and management positions at International Business Machines Corporation, Netrix Corporation and Network Equipment Technologies. Mr. Nuti is also a director of United Continental Holdings, Inc. where he is a member of the Audit Committee and previously served as a director of Sprint Nextel Corporation. He is also a member of the Georgia Institute of Technology advisory board and a trustee of Long Island University. Mr. Nuti became a director of NCR on August 7, 2005.

John G. Bruno became Executive Vice President, Industry and Field Operations and Corporate Development on November 18, 2013. Prior to that position, Mr. Bruno was Executive Vice President and Chief Technology Officer from November 1, 2011 through November 17, 2013 and also previously served as Executive Vice President, Industry Solutions Group, from November 29, 2008 to October 31, 2011. Prior to joining NCR, Mr. Bruno was a Managing Director at The Goldman Sachs Group, Inc., a global investment banking, securities and investment management firm, from August 2007 to November 2008. Prior to this position, he was Senior Vice President - General Manager, RFID Division, at Symbol Technologies, Inc., an information technology company, from June 2005 through February 22, 2006. Mr. Bruno was Symbol Technologies' Senior Vice President, Corporate Development from May 2004 to June 2005, and was Symbol Technologies' Senior Vice President, Business Development, and Chief Information Officer, from November 2002 to May 2004.

Jennifer M. Daniels became Senior Vice President, General Counsel and Secretary in April 2010. Prior to joining NCR, Ms. Daniels was Vice President, General Counsel and Corporate Secretary of Barnes & Noble, Inc., from August 2007 to April 2010. Prior to that, she served as an attorney for more than 16 years at IBM, a worldwide provider of computer hardware, software and services, where she held, among other positions, the positions of Vice President, Assistant General Counsel and Chief Trust and Compliance Officer; Vice President and Assistant General Counsel for Litigation; and Vice President and General Counsel of IBM Americas.

Peter A. Dorsman became Executive Vice President, Services on September 13, 2013. Before assuming that role, he served as Executive Vice President and Chief Quality Officer from June 2012 through September 12, 2013 and also previously served as Executive Vice President, Industry Solutions Group and Global Operations. Mr. Dorsman is also responsible for NCR's Customer Experience/Continuous Improvement. Previously, he was Senior Vice President, Global Operations from January 1, 2008 to October 31, 2011 and was Vice President and General Manager of NCR's Systemedia Division, now named NCR Interactive Printer Solutions, from April 17, 2006 to December 31, 2007. Prior to joining NCR, Mr. Dorsman served in several roles with The Standard Register Company, a provider of information solutions, including as its Executive Vice President and Chief Operating Officer responsible for the day-to-day operations of the company. Before his role at Standard Register, Mr. Dorsman served for nearly 20 years at NCR in

various marketing and sales leadership roles, including vice president of worldwide industry marketing. Mr. Dorsman is a director of Applied Industrial Technologies Inc.

Robert P. Fishman became Senior Vice President and Chief Financial Officer in March 2010. Prior to assuming this position, he was Interim Chief Financial Officer from October 2009 to March 2010. Prior to that position, he was Vice President and Corporate Controller from January 2007 to October 2009. From September 2005 to January 2007, Mr. Fishman was Assistant Controller and from January 2005 to September 2005, he was Director, Corporate Planning. Mr. Fishman joined NCR in 1993.

Table of Contents

Andrea L. Ledford became Senior Vice President, Corporate Services and Chief Human Resources Officer on November 13, 2013. Previously, Ms. Ledford was Senior Vice President, Human Resources. She also served as Interim Senior Vice President, Human Resources from February 2007 to June 2007. Prior to assuming this position, she was Vice President, Human Resources, Asia/Pacific, and Europe, Middle East and Africa, from February 2006 to February 2007. Before joining NCR in February 2006, Ms. Ledford was EMEA Leader, Human Resources, at Symbol Technologies, Inc., an information technology company, from 2002 to February 2006 and held a variety of leadership roles at Cisco Systems, Inc., a manufacturer of communications and information technology networking products, in EMEA, Asia/Pacific and Latin America.

Available Information

NCR makes available through its website at <http://investor.ncr.com>, free of charge, its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, definitive proxy statements on Schedule 14A and Current Reports on Form 8-K, and all amendments to such reports and schedules, as soon as reasonably practicable after these reports are electronically filed or furnished to the U.S. Securities and Exchange Commission (SEC) pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934. The SEC website (www.sec.gov) contains the reports, proxy statements and information statements, and other information regarding issuers that file electronically with the SEC. Also, the public may read and copy any materials that NCR files with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. NCR will furnish, without charge to a security holder upon written request, the Notice of Meeting and Proxy Statement for the 2014 Annual Meeting of Stockholders (the 2014 Proxy Statement), portions of which are incorporated herein by reference. NCR also will furnish its Code of Conduct at no cost and any other exhibit at cost. Document requests are available by calling or writing to:

NCR's website, www.ncr.com, contains a significant amount of information about NCR, including financial and other information for investors. NCR encourages investors to visit its website regularly, as information may be updated and new information may be posted at any time. The contents of NCR's website are not incorporated by reference into this Form 10-K and shall not be deemed "filed" under the Securities Exchange Act of 1934.

Table of Contents

Item 1A. RISK FACTORS

The risks and uncertainties described below could materially and adversely affect our business, financial condition, results of operations, could cause actual results to differ materially from our expectations and projections, and could cause the market value of our stock to decline. You should consider these risk factors when reading the rest of this Annual Report on Form 10-K, including “Management's Discussion and Analysis of Financial Condition and Results of Operations” and our financial statements and related notes included elsewhere in this document. These risk factors may not include all of the important factors that could affect our business or our industry or that could cause our future financial results to differ materially from historic or expected results or cause the market price of our common stock to fluctuate or decline.

Economic Pressures. Our business may be negatively affected by global economic and credit conditions. Our business is sensitive to the strength of domestic and global economic and credit conditions. The strength of global economic and credit conditions depends on a number of factors, including consumer confidence, unemployment levels, interest rates and the effects of government actions to address sovereign debt issues, improve global credit markets and generally stimulate economic growth. Recent sovereign debt crises in Europe and elsewhere, slower growth in the emerging markets, and the uneven global economic recovery, among other things, have created a challenging and unpredictable environment in which to market the products and services of our various businesses across different geographies.

A negative economic climate could create financial pressures that impact the ability or willingness of our customers to make capital expenditures, thereby affecting their ability to purchase our products or services, or especially with respect to smaller customers, to pay accounts receivable owed to NCR. Additionally, if customers respond to a negative economic climate by consolidation, such as has occurred in the financial services sector in the recent past, it could reduce our base of potential customers. Negative global economic conditions also may have a material effect on our customers' ability to obtain financing for the purchase of our products and services from third party financing companies, which could adversely affect our operating results.

Indebtedness. Our substantial level of indebtedness could limit our financial and operating activities, and adversely affect our ability to incur additional debt to fund future needs. At December 31, 2013, we had approximately \$3,354 million of total indebtedness outstanding. Additionally, at December 31, 2013, we had approximately \$828 million of secured debt available for borrowing under our senior secured credit facility. This level of indebtedness could:

- require us to dedicate a substantial portion of our cash flow to the payment of principal and interest, thereby reducing the funds available for operations and future business opportunities;

- make it more difficult for us to satisfy our obligations with respect to our outstanding senior unsecured notes, including our change in control repurchase obligations;

- limit our ability to borrow additional money if needed for other purposes, including working capital, capital expenditures, debt service requirements, acquisitions and general corporate or other purposes, on satisfactory terms or at all;

- limit our ability to adjust to changing economic, business and competitive conditions;

- place us at a competitive disadvantage with competitors who may have less indebtedness or greater access to financing;

- make us more vulnerable to an increase in interest rates, a downturn in our operating performance or a decline in general economic conditions; and

- make us more susceptible to changes in credit ratings, which could impact our ability to obtain financing in the future and increase the cost of such financing.

If compliance with our debt obligations, including those under our senior secured credit facility and the indentures for our senior unsecured notes, materially limits our financial or operating activities, or hinders our ability to adapt to changing industry conditions, we may lose market share, our revenue may decline and our operating results may be negatively affected.

Table of Contents

The terms of our senior secured credit facility and the indentures for our senior unsecured notes include financial and other covenants that could restrict or limit our financial and business operations. Our senior secured credit facility and the indentures for our senior unsecured notes include restrictive covenants that, subject to certain exceptions and qualifications, restrict or limit our ability and the ability of our subsidiaries to, among other things:

- incur additional indebtedness;
- create liens on, sell or otherwise dispose of, our assets;
- engage in certain fundamental corporate changes or changes to our business activities;
- make certain material acquisitions;
- engage in sale-leaseback or hedging transactions;
- repurchase our common stock, pay dividends or make similar distributions on our capital stock;
- repay certain indebtedness;
- engage in certain affiliate transactions; and
- enter into agreements that restrict our ability to create liens, pay dividends or make loan repayments.

The senior secured credit facility and the indentures also contain certain affirmative covenants, and the senior secured credit facility requires us to comply with financial coverage ratios regarding both our interest expense and our debt relative to our Consolidated EBITDA (as defined in the senior secured credit facility).

These covenants and restrictions could affect our ability to operate our business, and may limit our ability to react to market conditions or take advantage of potential business opportunities as they arise. Additionally, our ability to comply with these covenants may be affected by events beyond our control, including general economic and credit conditions and industry downturns.

If we fail to comply with these covenants and are unable to obtain a waiver or amendment, an event of default would result under these agreements and under other agreements containing related cross-default provisions. Upon an event of default under the senior secured credit facility, the lenders could, among other things, declare outstanding amounts due and payable, refuse to lend additional amounts to us, and require deposit of cash collateral in respect of outstanding letters of credit. If we were unable to repay or pay the amounts due, the lenders could, among other things, proceed against the collateral granted to them to secure such indebtedness, which includes certain of our domestic assets and the equity interests of certain of our domestic and foreign subsidiaries. Upon an event of default under the indentures, the trustee or holders of our senior unsecured notes could declare all outstanding amounts immediately due and payable.

In connection with the December 2013 issuances of our 5.875% and 6.375% senior unsecured notes, we also entered into registration rights agreements that require us to file a registration statement with respect to an offer to exchange each series of notes for a new issue of our debt securities registered under the Securities Act of 1933, as amended, with terms substantially identical to such series of notes (except for the provisions relating to the transfer restrictions and payment of additional interest). If we fail to satisfy our exchange obligations under the registration rights agreements by October 15, 2014, we will be required to pay additional interest to the holders of the notes of the applicable series under certain circumstances.

Our cash flows may not be sufficient to service our indebtedness, and if we are unable to satisfy our obligations under our indebtedness, we may be required to seek other financing alternatives, which may not be successful. Our ability to make timely payments of principal and interest on our debt obligations under our senior secured credit facility and senior unsecured notes depends on our ability to generate positive cash flows from operations, which is subject to general economic conditions, competitive pressures and certain financial, business and other factors beyond our control. If our cash flows and capital resources are insufficient to make these payments, we may be required to seek additional financing sources, reduce or delay capital expenditures, sell assets or operations or refinance our indebtedness. These actions could have a material adverse effect on our business, financial condition and results of

operations. In addition, we may not be able to take any of these actions, and, even if successful, these actions may not permit us to meet our scheduled debt service obligations. Our ability to restructure or refinance our outstanding indebtedness will depend on, among other things, the condition of the capital markets and our financial condition at such time. There can be no assurance that we will be able to restructure or refinance any of our indebtedness on commercially reasonable terms or at all. If we cannot make scheduled payments on our debt, we will be in default and the outstanding principal and interest on our debt could be declared to be due and payable, in which case we could be forced into bankruptcy or liquidation or required to substantially restructure or alter our business operations or debt obligations.

Table of Contents

Despite our current levels of debt, we may still incur substantially more debt, including secured debt, and similar liabilities, which would increase the risks described herein. The agreements relating to our debt, including our senior secured credit facility and the indentures governing our senior unsecured notes, limit but do not prohibit our ability to incur additional debt, and the amount of debt that we could incur could be substantial. In addition, certain types of liabilities are not considered “Indebtedness” under our senior secured credit facility or the indentures governing our senior unsecured notes, and the senior secured credit facility and indentures do not impose any limitation on the amount of liabilities incurred by the subsidiaries, if any, that might be designated as “unrestricted subsidiaries” (as defined in the indentures). Accordingly, we could incur significant additional debt or similar liabilities in the future, including additional debt under our senior secured credit facility, some of which could constitute secured debt. In addition, if we form or acquire any subsidiaries in the future, those subsidiaries also could incur debt or similar liabilities. If new debt or similar liabilities are added to our current debt levels, the related risks that we now face could increase.

Borrowings under our senior secured credit facility bear interest at a variable rate, which subjects us to interest rate risk, which could cause our debt service obligations to increase significantly. All of our borrowings under our senior secured credit facility are at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on this variable rate indebtedness would increase even though the amount borrowed remained the same. We are party to an interest rate swap agreement that fixes the interest rate, based on LIBOR, on a portion of our LIBOR-indexed floating rate borrowings through August 22, 2016, with a notional amount of \$518 million as of December 31, 2013 that amortizes to \$341 million over the term of the agreement. Although we may enter into additional interest rate swaps to reduce interest rate volatility, we cannot provide assurances that we will be able to do so or that such swaps will be effective.

We may also enter into interest rate swaps in the future in connection with our senior unsecured notes. This would expose us to interest rate risk, which could increase our debt service obligations.

We may not be able to raise the funds necessary to finance a required change in control purchase of our senior unsecured notes. Upon the occurrence of a change in control under the applicable indenture governing the applicable senior unsecured notes, holders of those notes may require us to purchase their notes. However, it is possible that we would not have sufficient funds at that time to make the required purchase of notes. We cannot assure the holders of the senior unsecured notes that we will have sufficient financial resources, or will be able to arrange financing, to pay the repurchase price in cash with respect to any such notes tendered by holders for repurchase upon a change in control. Our failure to repurchase the senior unsecured notes of a series when required would result in an event of default with respect to such notes which could, in turn, constitute a default under the terms of our other indebtedness, if any. In addition, a change in control may constitute an event of default under our senior secured credit facility that would permit the lenders to accelerate the maturity of the borrowings thereunder and would require us to make a similar change in control offer to holders of our existing senior unsecured notes.

Important corporate events may not constitute a change in control under the indentures governing our senior unsecured notes. Certain important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a change in control under the indentures.

A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies may increase our future borrowing costs and reduce our access to capital. Any rating assigned to our debt could be lowered or withdrawn entirely by a rating agency if, in that rating agency’s judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. Any future lowering of our ratings likely would make it more difficult or more expensive for us to obtain additional debt financing.

Competition. If we do not compete effectively within the technology industry, we will not be successful. We operate in the intensely competitive information technology industry. This industry is characterized by rapidly changing technology, evolving industry standards, frequent new product introductions, price and cost reductions, and increasingly greater commoditization of products, making differentiation difficult. Our competitors include other large companies in the information technology industry, such as: IBM, Hewlett-Packard, Diebold, Wincor, Hyosung, ToshibaTec, Micros, Fujitsu and Unisys, some of which have more financial and technical resources, or more widespread distribution and market penetration for their platforms and service offerings, than we do. In addition, we compete with companies in specific industry segments, such as entry-level ATMs, imaging solutions, and business consumables and media products. Our future competitive performance and market position depend on a number of factors, including our ability to:

Table of Contents

- react to competitive product and pricing pressures (particularly in the ATM marketplace);
- penetrate and meet the changing competitive requirements and deliverables in developing and emerging markets, such as India, China, Brazil and Russia;
- exploit opportunities in emerging vertical markets, such as travel and telecommunications and technology;
- cross-sell additional products and services to our existing customer base, including customers gained from our recent acquisitions;
- rapidly and continually design, develop and market, or otherwise maintain and introduce innovative solutions and related products and services for our customers that are competitive in the marketplace;
- react on a timely basis to shifts in market demands;
- compete in reverse auctions for new and continuing business;
 - reduce costs without creating operating inefficiencies or impairing product or service quality;
- maintain competitive operating margins;
- improve product and service delivery quality; and
- effectively market and sell all of our diverse solutions.

Our business and operating performance also could be impacted by external competitive pressures, such as increasing price erosion and the entry of new competitors into our existing product and geographic markets. In addition, our customers sometimes finance our product sales through third-party financing companies, and in the case of customer default, these financing companies may be forced to resell this equipment at discounted prices, competing with NCR and impacting our ability to sell incremental units. The impact of these product and pricing pressures could include lower customer satisfaction, decreased demand for our solutions, loss of market share and reduction of operating profits.

Business Model. If we are unsuccessful in transforming our business model, our operating results could be negatively impacted. In recent years, we have begun to shift our business model to focus increasingly on sales of higher margin software and SaaS, and professional, managed and other services. Our ability to successfully grow our software and services businesses depends on a number of different factors, including market acceptance of our software solutions; integrating, developing and supporting software gained through recent acquisitions; enabling our sales force to use a consultative selling model that better incorporates our comprehensive and new solutions; and the expansion of our services capabilities and geographic coverage, among others. In addition, development of these businesses may require increased capital and research and development expenses and resource allocation, and while we will seek to have the right level of investment and the right level of resources focused on these opportunities, these costs may reduce our gross margins and the return on these investments may be lower, or may develop more slowly, than we expect. In addition, we are pursuing initiatives to expand our customer base by increasing our use of an indirect sales channel, and by developing, marketing and selling solutions aimed at the small- to medium-business market. It is not yet certain whether these initiatives will yield the anticipated benefits, or whether our solutions will be compelling and attractive to small and medium-sized businesses. If we are not successful in growing our software and services businesses and expanding our customer base at the rate that we anticipate, we may not meet our growth and gross margin projections or expectations, and operating results could be negatively impacted.

Product Defects and Errors. Defects, errors, installation difficulties or development delays could expose us to potential liability, harm our reputation and negatively impact our business. Many of our products are sophisticated and complex, and despite testing and quality control, we cannot be certain that defects or errors will not be found in current versions or new versions of our products. If our products contain undetected defects or errors, or otherwise fail to meet our customers' expectations, we could face the loss of customers and additional development costs. If defects or errors delay product installation or make it more difficult, we could experience delays in customer acceptance, or if our products require significant amounts of customer support, it could result in incremental costs to NCR. In addition,

our customers may license and deploy our software in both standard and non-standard configurations in different environments with different computer platforms, system management software and equipment and networking configurations, which may increase the likelihood of technical difficulties. Our products may be integrated with other components or software, and, in the event that there are defects or errors, it may be difficult to determine the origin of such defects or errors. Additionally, damage to or failure of any significant aspect of our SaaS hosting facilities could interrupt the availability of our SaaS offerings, which could cause disruption for our customers and expose us to liability. If any of these risks materialize, they could result in additional costs and expenses, exposure to liability claims, diversion of technical and other resources to engage in remediation efforts, loss of customers or negative publicity, each of which could impact our business and operating results.

Table of Contents

Operating Results Fluctuations. Our revenue, operating results, and margins could fluctuate for a number of reasons, including those described below:

Manufacturing. We manufacture advanced ATMs in facilities located in Columbus, Georgia, USA; Manaus, Brazil; Budapest, Hungary; Beijing, China; and Puducherry, India. Our self-checkout solutions are manufactured in facilities located in Columbus, Georgia, USA and Budapest, Hungary. Our financial kiosk solutions are manufactured in facilities located in Beijing, China. Our POS/Display terminals are manufactured in facilities located in Columbus, Georgia, USA; Beijing, China; and Adelaide, Australia, and certain hand-held solutions are manufactured in Salzburg, Austria. If we develop or experience problems relating to product quality or on-time delivery to customers that we are unable to quickly manage and resolve, whether due to the geographical diversity of our manufacturing base or otherwise, we could experience business interruption that could negatively impact our business and operating results.

Seasonality. Our sales are historically seasonal, with lower revenue in the first quarter and higher revenue in the fourth quarter of each year. Such seasonality also causes our working capital cash flow requirements to vary from quarter to quarter depending on the variability in the volume, timing and mix of product sales. In addition, revenue in the third month of each quarter is typically higher than in the first and second months. These factors, among other things, may adversely affect our ability to manage working capital, make our forecasting process more difficult and impact our ability to predict financial results accurately.

Foreign Currency. Our revenue and operating income are subject to variability due to the effects of foreign currency fluctuations against the U.S. Dollar. We have exposure to approximately 50 functional currencies. We endeavor to mitigate the effects of currency fluctuations by our hedging strategy; however, certain significant currency fluctuations could adversely affect our results of operations, including sales and gross margins.

Cost/Expense Reductions. Our success in achieving targeted cost and expense reductions through our continuous improvement and other similar programs depends on a number of factors, including our ability to achieve infrastructure rationalizations, drive lower component and product development costs, improve supply chain efficiencies and optimize the efficiency of our customer services and professional services consulting resources. If we do not successfully execute on our cost and expense reduction initiatives or if we experience delays in completing the implementation of these initiatives, our results of operations or financial condition could be adversely affected.

Contractual Obligations for Professional Services. Our contracts for professional services consulting work, may contemplate that services will be performed over multiple periods. Our profitability under those contracts is largely a function of performing our contractual obligations within the estimated costs and time periods specified. If we exceed these estimated costs or cannot otherwise complete the contracted services within the specified periods, our profitability related to these contracts could be negatively impacted. In addition, if we are unable to maintain appropriate utilization rates for our consultants, we may not be able to sustain profitability on these contracts.

Acquisitions, Divestitures and Alliances. As part of our strategy, we expect to selectively acquire and divest technologies, products and businesses, either through acquisitions, investments, joint ventures, strategic alliances, or divestitures. As these acquisitions, divestitures and alliances occur and we begin to include or exclude, as the case may be, the financial results related to these transactions our operating results could fluctuate materially, depending on the size and nature of the transactions. In addition, our operating results may be adversely affected if we are unable to properly integrate acquisitions or if investments or alliances do not perform up to, or meet, our original expectations.

Underfunded Pension Obligation. At December 31, 2013, our obligation for benefits under our pension plans was \$5,145 million and our pension plan assets totaled \$5,056 million, which resulted in an underfunded pension obligation of \$89 million. While we recently rebalanced our US and international plan assets in order to reduce volatility and made several discretionary contributions to our pension plans, our remaining underfunded pension

obligation continues to require significant cash contributions. In addition, certain of the plan assets remain subject to financial market risk, and our actuarial and other assumptions underlying our expected future benefit payments, long-term expected rate of return and future funding expectations for our plans depend on, among other things, interest rate levels and trends and capital market expectations. Further volatility in the performance of financial markets, changes in any of these actuarial assumptions (including those described in our “Critical Accounting Policies and Estimates” section of the “Management's Discussion and Analysis of Financial Condition and Results of Operations” included in Item 7 of Part II of this Report) or changes in regulations regarding funding requirements could require material increases to our expected cash contributions to our pension plans in future years. Our financial position and liquidity could be materially impacted by these contributions.

Table of Contents

See the “Effects of Pension, Postemployment and Postretirement Benefit Plans” and “Financial Condition, Liquidity And Capital Resources” sections of the “Management's Discussion and Analysis of Financial Condition and Results of Operations” included in Item 7 of Part II of this Report and Note 9, "Employee Benefit Plans" in the Notes to the Consolidated Financial Statements included in Item 8 of Part II of this Report for further information regarding the funded status of our pension plans and potential future cash contributions.

Stock-based Compensation. Similar to other companies, we use stock awards as a form of compensation for certain employees and non-employee directors. All stock-based awards are required to be recognized in our financial statements based on their fair values. The amount recognized for stock compensation expense could vary depending on a number of assumptions or changes that may occur. For example, assumptions such as the risk-free rate, expected holding period and expected volatility that drive our valuation model could change. Other examples that could have an impact include changes in the mix and type of awards, changes in our compensation plans or tax rate, changes in our forfeiture rate, differences in actual results compared to management’s estimates for performance-based awards or an unusually high amount of expirations of stock awards.

Income Taxes. We are subject to income taxes in the United States and a number of foreign jurisdictions. We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities. Significant judgment is required in determining our provision for income taxes. We regularly review our deferred tax assets for recoverability and establish a valuation allowance if it is more likely than not that some portion or all of a deferred tax asset will not be realized. Our deferred tax assets totaled approximately \$804 million and \$839 million at December 31, 2013 and 2012, respectively. If we are unable to generate sufficient future taxable income, if there is a material change in the actual effective tax rates, if there is a change to the time period within which the underlying temporary differences become taxable or deductible, or if the tax laws change unfavorably, then we could be required to increase our valuation allowance against our deferred tax assets, which could result in a material increase in our effective tax rate. Additionally, we are subject to ongoing tax audits in various jurisdictions both in the U.S. and internationally, the outcomes of which could result in the assessment of additional taxes. Our effective tax rate in the future could be adversely affected by changes in the mix of earnings in countries with differing statutory tax rates, the changes in the valuation of deferred tax assets and liabilities, changes in tax laws and regulations, and management’s assessment in regards to repatriation of earnings.

Multinational Operations. Our multinational operations, including our expansion into new and emerging markets, expose us to business and legal risks. For the years ended December 31, 2013 and 2012, the percentage of our revenues from outside of the United States was 61% and 62%, respectively, and we expect our percentage of revenues generated outside the United States to continue to be significant. In addition, we continue to seek to further penetrate existing international markets, and to identify opportunities to enter into or expand our presence in developing and emerging markets, including Brazil, Russia, China, India, Africa, and the Middle East, among others. While we believe that our geographic diversity may help to mitigate some risks associated with geographic concentrations of operations (e.g., adverse changes in foreign currency exchange rates, deteriorating economic environments or business disruptions due to economic or political uncertainties), our ability to manufacture and sell our solutions internationally, including in new and emerging markets, is subject to risks, which include, among others:

Table of Contents

the impact of ongoing and future sovereign debt, economic and credit conditions on the stability of national and regional economies;

political conditions and local regulations that could adversely affect demand for our solutions, or our ability to access funds and resources, in these markets;

the impact of a downturn in the global economy, or in regional economies, on demand for our products;

currency exchange rate fluctuations that could result in lower demand for our products as well as generate currency translation losses;

changes to and compliance with a variety of laws and regulations that may increase our cost of doing business or otherwise prevent us from effectively competing internationally;

government uncertainty, including as a result of new, or changes to, laws and regulations;

the institution of, or changes to, trade protection measures, currency restrictions, and import or export licensing requirements;

the successful implementation and use of systems, procedures and controls to monitor our operations in foreign markets;

changing competitive requirements and deliverables in developing and emerging markets;

work stoppages and other labor conditions or issues;

disruptions in transportation and shipping infrastructure; and

the impact of civil unrest relating to war and terrorist activity on the economy or markets in general, or on our ability, or that of our suppliers, to meet commitments.

In addition, as a result of our revenues generated outside of the United States, the amount of cash and cash equivalents that is held by our foreign subsidiaries continues to be significant. If these cash and cash equivalents are distributed to the United States, whether in the form of dividends or otherwise, we may be subject to additional U.S. income taxes and foreign withholding taxes. Any such taxes would reduce the amount of such cash and cash equivalents that are available for our use.

Acquisitions and Alliances. If we do not successfully integrate acquisitions or effectively manage alliance activities, we may not drive future growth. As part of our overall solutions strategy, we have made, and intend to continue to make, investments in companies, products, services and technologies, either through acquisitions (such as our acquisitions of Digital Insight Corporation and Retalix, Ltd.), investments, joint ventures or strategic alliances. Acquisitions and alliance activities inherently involve risks. The risks we may encounter include those associated with:

assimilating and integrating different business operations, corporate cultures, personnel, infrastructures and technologies or products acquired or licensed;

the potential for unknown liabilities within the acquired or combined business; and

the possibility of conflict with joint venture or alliance partners regarding strategic direction, prioritization of objectives and goals, governance matters or operations.

Further, we may make acquisitions and investments in order to acquire or obtain access to new technology or products that expand our offerings. There is risk that the new technology or products may not perform as anticipated and may not meet estimated growth projections or expectations, or investment recipients may not successfully execute their business plans. There is also risk that key employees of an acquired business may not remain with the acquired business as long as expected. In the event that these risks materialize, we may not be able to fully realize the benefit of our investments. An acquisition or alliance, and the integration of an acquired business, may also disrupt our ongoing business or we may not be able to successfully incorporate acquired products, services or technologies into our solutions and maintain quality. Further, we may not achieve the projected synergies once we have integrated the business into our operations, which may lead to additional costs not anticipated at the time of acquisition.

Table of Contents

Data Privacy and Security. Breaches to our systems or products that compromise the security and integrity of personally identifiable information could have a negative impact on our results of operations. Certain of our products and services are used by our customers to store and transmit personally identifiable information of their customers. We also offer SaaS solutions that include the hosting of customer data on our networks. In addition to customer data, we also maintain personal information about our employees. This information is subject to a variety of laws, regulations and industry standards governing its collection, use, disclosure and disposal, which are continually evolving and which may not be consistent across all of the jurisdictions in which we do business. Vulnerabilities in the security of our products and services, whether relating to hardware, software or otherwise, could compromise the confidentiality of, or result in unauthorized access to or the loss of, information transmitted or stored using our products or solutions, or impact the availability of our SaaS offerings. Additionally, vulnerabilities in the security of our own internal systems could compromise the confidentiality of, or result in unauthorized access to, personal information of our employees. If we do not maintain the security and integrity of personally identifiable information in accordance with applicable regulatory requirements, we could lose customers and be exposed to claims, costs and reputational harm that could materially and adversely affect our operating results. In addition, if we are required to implement additional or different data protection measures, the associated costs could be significant.

Introduction of New Solutions. If we do not swiftly and successfully develop and introduce new solutions in the competitive, rapidly changing environment in which we do business, our business results will be impacted. The development process for our solutions requires high levels of innovation from our product development teams and suppliers of the components embedded or incorporated in our solutions. In addition, certain of our solutions, including our SaaS solutions, may require us to build or expand, and maintain, infrastructure to support them. The development process also can be lengthy and costly, and requires us to commit a significant amount of resources to bring our business solutions to market. If we are unable to anticipate our customers' needs and technological and industry trends accurately, or are otherwise unable to complete development efficiently, we would be unable to introduce new solutions into the market on a timely basis, if at all, and our business and operating results could be impacted. Likewise, we sometimes make assurances to customers regarding the operability and specifications of new technologies, and our results could be impacted if we are unable to deliver such technologies, or if such technologies do not perform as planned. Once we have developed new solutions, if we cannot successfully market and sell those solutions, our business and operating results could be impacted.

Reliance on Third Parties. If third-party suppliers upon which we rely are not able to fulfill our needs, our ability to bring our products to market in a timely fashion could be affected. In most cases, there are a number of vendors providing the services and producing the parts and components that we utilize in or in connection with our products. However, there are some services and components that are licensed or purchased from single sources due to price, quality, technology, functionality or other reasons. For example, we depend on transaction processing services from Accenture, computer chips and microprocessors from Intel and operating systems from Microsoft. Certain parts and components used in the manufacturing of our ATMs and the delivery of many of our retail solutions are also supplied by single sources. In addition, there are a number of key suppliers for our businesses that provide us with critical products for our solutions. If we were unable to secure the necessary services, including contract manufacturing, parts, software, components or products from a particular vendor, and we had to find an alternative supplier, our new and existing product shipments and solution deliveries, or the provision of contracted services, could be delayed, impacting our business and operating results.

We have, from time to time, formed alliances with third parties that have complementary products, software, services and skills. These alliances represent many different types of relationships, such as outsourcing arrangements to manufacture hardware and subcontract agreements with third parties to perform services and provide products and software to our customers in connection with our solutions. For example, we rely on third parties for cash replenishment services for our ATM products. These alliances introduce risks that we cannot control, such as nonperformance by third parties and difficulties with or delays in integrating elements provided by third parties into

our solutions. Lack of information technology infrastructure, shortages in business capitalization, and manual processes and data integrity issues of smaller suppliers can also create product time delays, inventory and invoicing problems, staging delays, as well as other operating issues. The failure of third parties to provide high-quality products or services that conform to required specifications or contractual arrangements could impair the delivery of our solutions on a timely basis, create exposure for non-compliance with our contractual commitments to our customers and impact our business and operating results. Also, some of these third parties have access to confidential NCR and customer data, the integrity and security of which are of significant importance to the Company.

Table of Contents

Intellectual Property. Our continuing ability to be a leading technology and services solutions provider could be negatively affected if we do not develop and protect intellectual property that drives innovation. It is critical to our continued development of leading technologies that we are able to protect and enhance our proprietary rights in our intellectual property through patent, copyright, trademark and trade secret laws. These efforts include protection of the products and the application, diagnostic and other software we develop. To the extent we are not successful in protecting our proprietary rights, our business could be adversely impacted. Also, many of our offerings rely on technologies developed by others, and if we are unable to continue to obtain licenses for such technologies, our business could be adversely impacted. From time to time, we receive notices from third parties regarding patent and other intellectual property claims. Whether such claims have merit, they may require significant resources to defend. If an infringement claim is successful and we are required to pay damages, or we are unable to license the infringed technology or to substitute similar non-infringing technology, our business could be adversely affected.

Work Environment. Our continuous improvement, customer experience and cost reduction initiatives could negatively impact productivity and business results. As part of our ongoing efforts to optimize our cost structure, from time to time, we shift and realign our internal organizational structure and resources, which could temporarily result in reduced productivity levels. In addition to our initiatives to reduce costs and expenses, we have initiatives to grow revenue, drive innovation and improve the experience of our customers. We typically have many such initiatives underway. If we are not successful in implementing and managing these various initiatives and minimizing any resulting loss in productivity, we may not be able to achieve targeted cost savings or productivity gains, and our business and operating results could be negatively impacted.

If we do not attract and retain quality employees, we may not be able to meet our business objectives. Our employees are vital to our success, including the successful reinvention to a hardware-enabled, software driven business. Our ability to attract and retain highly skilled technical, sales, consulting and other key personnel, including key personnel of acquired businesses, is critical, as these key employees are difficult to replace. If we are unable to attract or retain highly qualified employees by offering competitive compensation, secure work environments and leadership opportunities now and in the future, our business and operating results could be negatively impacted.

Our ability to effectively manage our business could be negatively impacted if we do not invest in and maintain reliable technology infrastructure and information systems. It is periodically necessary to add to, replace, upgrade or modify our technology infrastructure and internal information systems. If we are unable to expand, replace, upgrade or modify such systems in a timely and cost-effective manner, especially in light of demands on our information technology resources, our ability to capture and process financial transactions and therefore, our financial condition, results of operations, or ability to comply with legal and regulatory reporting obligations, may be impacted.

Internal Controls. If we do not maintain effective internal controls, accounting policies, practices, and information systems necessary to ensure reliable reporting of our results, our ability to comply with our legal obligations could be negatively affected. Our internal controls, accounting policies and practices, and internal information systems enable us to capture and process transactions in a timely and accurate manner in compliance with applicable accounting standards, laws and regulations, taxation requirements and federal securities laws and regulations. Our internal controls and policies are being closely monitored by management as we continue to implement a worldwide Enterprise Resource Planning (ERP) system. While we believe these controls, policies, practices and systems are adequate to ensure data integrity, unanticipated and unauthorized actions of employees or contractors (both domestic and international), temporary lapses in internal controls due to shortfalls in transition planning and oversight, or resource constraints, could lead to improprieties and undetected errors that could impact our financial condition, results of operations, or compliance with legal obligations. Moreover, while management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2013 (as set forth in "Management's Report on Internal Control over Financial Reporting" included in Item 9A of Part II of this Report), due to their inherent limitations, such controls may not prevent or detect misstatements in our reported financial

statements. Such limitations include, among other things, the potential for human error or circumvention of controls. Further, the Company's internal control over financial reporting is subject to the risk that controls may become inadequate because of a failure to remediate control deficiencies, changes in conditions or a deterioration of the degree of compliance with established policies and procedures.

Table of Contents

Environmental. Our historical and ongoing manufacturing activities subject us to environmental exposures. Our facilities and operations are subject to a wide range of environmental protection laws, and we have investigatory and remedial activities underway at a number of facilities that we currently own or operate, or formerly owned or operated, to comply, or to determine compliance, with such laws. In addition, our products are subject to environmental laws in a number of jurisdictions. Given the uncertainties inherent in such activities, there can be no assurances that the costs required to comply with applicable environmental laws will not impact future operating results. We have also been identified as a potentially responsible party in connection with certain environmental matters, including the Fox River and Kalamazoo River matters, as further described in Note 10, "Commitments and Contingencies," of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report; in "Environmental Matters" within Item 1 of Part I of this Report; and in "Environmental and Legal Contingencies" within the "Critical Accounting Policies and Estimates" section of the "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of Part II of this Report, and we incorporate such disclosures by reference and make them a part of this discussion of risk factors.

Sale of Entertainment. The sale of assets of our entertainment business may expose us to certain post-closing liabilities. On February 3, 2012, we entered into an agreement to sell certain assets of our entertainment line of business to Redbox Automated Retail, LLC (Redbox). Pursuant to the terms of the agreement, as amended on June 22, 2012, and upon the terms and conditions thereof, on June 22, 2012, we completed the disposition of our entertainment line of business to Redbox for cash consideration of \$100 million. We remain responsible for pre-closing liabilities of the entertainment business, and are subject to certain indemnification obligations in favor of Redbox for, among other things, breaches of representations, warranties and covenants under the purchase agreement. In addition, we may be subject to liabilities and obligations under and with respect to contracts and assets of the entertainment business that were not transferred to or assumed by Redbox.

Contingencies. We face uncertainties with regard to regulations, lawsuits and other related matters. In the normal course of business, we are subject to proceedings, lawsuits, claims and other matters, including, for example, those that relate to the environment, health and safety, labor and employment, employee benefits, import/export compliance, intellectual property, data privacy and security, product liability, commercial disputes and regulatory compliance, among others. Because such matters are subject to many uncertainties, their outcomes are not predictable and we must make certain estimates and assumptions in our financial statements. While we believe that amounts provided in our Consolidated Financial Statements with respect to such matters are currently adequate in light of the probable and estimable liabilities, there can be no assurances that the amounts required to satisfy alleged liabilities from such matters will not impact future operating results. Additionally, we are subject to diverse and complex laws and regulations, including those relating to corporate governance, public disclosure and reporting, environmental safety and the discharge of materials into the environment, product safety, import and export compliance, data privacy and security, antitrust and competition, government contracting, anti-corruption, and labor and human resources, which are rapidly changing and subject to many possible changes in the future. Compliance with these laws and regulations, including changes in accounting standards, taxation requirements, and federal securities laws among others, may create a substantial burden on us, and substantially increase costs to our organization or could have an impact on our future operating results.

Additionally, doing business on a worldwide basis requires us and our subsidiaries to comply with the laws and regulations of the U.S. government and various international jurisdictions. For example, our international operations are subject to U.S. and foreign anti-corruption laws and regulations, such as the Foreign Corrupt Practices Act, which generally prohibits U.S. companies or agents acting on behalf of such companies from making improper payments to foreign officials for the purpose of obtaining or keeping business. Our international operations are also subject to economic sanction programs administered by the U.S. Treasury Department's Office of Foreign Assets Control. If we are not in compliance with such laws and regulations, we may be subject to criminal and civil penalties, which may cause harm to our reputation and to our brand and could have an adverse effect on our business, financial condition

and results of operations. See Note 10, "Commitments and Contingencies" of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report for information regarding our FCPA and OFAC investigations, which disclosures are incorporated by reference and made a part of this discussion of risk factors.

Table of Contents

Item 1B. UNRESOLVED STAFF COMMENTS

None.

Item 2. PROPERTIES

As of December 31, 2013, NCR operated 276 facilities consisting of approximately 5.9 million square feet in 63 countries throughout the world. On a square footage basis, 24% of these facilities are owned and 76% are leased. Within the total facility portfolio, NCR operates 35 research and development and manufacturing facilities totaling 2.2 million square feet, 72% of which is leased. The remaining 3.7 million square feet of space includes office, repair, and warehousing space and other miscellaneous sites, and is 78% leased. NCR also owns 10 land parcels totaling 4 million square feet in 5 countries.

NCR is headquartered in Duluth, Georgia, USA. Our address at our corporate headquarters is 3097 Satellite Boulevard, Duluth, Georgia, 30096, USA.

Item 3. LEGAL PROCEEDINGS

Information regarding legal proceedings is included in Item 8 of Part II of this Report as part of Note 10, "Commitments and Contingencies," of the Notes to Consolidated Financial Statements and is incorporated herein by reference.

Item 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

NCR common stock is listed on the New York Stock Exchange and trades under the symbol "NCR." There were approximately 108,474 holders of NCR common stock as of February 11, 2014. The following table presents the high and low per share prices for NCR common stock for each quarter of 2013 and 2012 as reported on the NYSE.

	2013			2012	
	High	Low		High	Low
1st quarter	\$29.76	\$25.74	1st quarter	\$22.19	\$16.39
2nd quarter	\$34.31	\$25.64	2nd quarter	\$23.91	\$20.05
3rd quarter	\$39.94	\$32.79	3rd quarter	\$25.99	\$21.55
4th quarter	\$41.63	\$31.38	4th quarter	\$25.75	\$20.92

Dividends

Historically NCR has not paid cash dividends and does not anticipate the payment of cash dividends on NCR common stock in the immediate future. The declaration of dividends is restricted under our senior secured credit facility and the terms of the indentures for our senior unsecured notes, and would be further subject to the discretion of NCR's Board of Directors.

Stock Performance Graph

The following graph compares the relative investment performance of NCR stock, the Standard & Poor's MidCap 400 Stock Index, Standard & Poor's 500 Information Technology Sector and the Standard & Poor's 500 Stock Index. This graph covers the five-year period from December 31, 2008 through December 31, 2013.

S&P MidCap 400 Stock Index	\$137	\$174	\$171	\$202	\$269

⁽¹⁾ In each case, assumes a \$100 investment on December 31, 2008, and reinvestment of all dividends, if any.

Purchase of Company Common Stock

In October 1999, the Company's Board of Directors authorized a share repurchase program that provided for the repurchase of up to \$250 million of its common stock, with no expiration from the date of authorization. On October 31, 2007 and July 28, 2010, the Board authorized the repurchase of an additional \$250 million and \$210 million, respectively, under this share repurchase program. In December 2000, the Board approved a systematic share repurchase program, with no expiration from the date of authorization, to be funded by the proceeds from the purchase of shares under the Company's Employee Stock Purchase Plan and the exercise of stock options, for the purpose of offsetting the dilutive effects of the employee stock purchase plan and outstanding options. As of December 31, 2013, approximately \$179 million and \$119 million remained available for further repurchases of the Company's common stock under the 1999 and 2000 Board of Directors share repurchase programs, respectively. The Company's ability to repurchase its common stock is restricted under the Company's senior secured credit facility and terms of the indentures for the Company's senior unsecured notes.

During the three months ended December 31, 2013, the Company did not repurchase any shares of its common stock. The Company occasionally purchases vested restricted stock shares at the current market price to cover withholding taxes. During the three months ended December 31, 2013, 29,052 shares of vested restricted stock were purchased at an average price of \$36.42 per share.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)

BUSINESS OVERVIEW

NCR Corporation is a leading global technology company that provides innovative products and services that enable businesses to connect, interact and transact with their customers and enhance their customer relationships by addressing consumer demand for convenience, value and individual service. Our portfolio of self-service and assisted-service solutions serve customers in the financial services, retail, hospitality, travel, and telecommunications and technology industries and include automated teller machines (ATMs) and ATM and financial services software, point of sale (POS) devices and POS software, self-service kiosks and software applications that can be used by consumers to enable them to interact with businesses from their computer or mobile device. We also complement these product solutions by offering a complete portfolio of services that support both NCR and third party solutions. We also resell third-party networking products and provide related service offerings in the telecommunications and technology sectors.

We have four operating segments: Financial Services, Retail Solutions, Hospitality and Emerging Industries. Each of our lines of business derives its revenues by selling products and services in each of the sales theaters in which NCR operates.

Our solutions are based on a foundation of long-established industry knowledge and consulting expertise, value-added software, hardware technology, global customer support services, and a complete line of business consumables and specialty media products.

NCR's reputation is founded upon over 129 years of providing quality products, services and solutions to our customers. At the heart of our customer and other business relationships is a commitment to acting responsibly, ethically and with the highest level of integrity. This commitment is reflected in NCR's Code of Conduct, which is available on the Corporate Governance page of our website.

2013 OVERVIEW

As more fully discussed in later sections of this MD&A, the following were significant themes and events for 2013:

• Revenue growth of approximately 7% compared to full year 2012

• Continued growth of higher margin software and services offerings and improvements in revenue mix

• Pension underfunded status improved by \$372 million compared to 2012

• Completed the acquisition of Retalix Ltd.

• Entered into a definitive Agreement and Plan of Merger to acquire Digital Insight Corporation for a cash purchase price of approximately \$1.65 billion

• Issued \$400 million aggregate principal amount of 5.875% senior unsecured notes due in 2021, and \$700 million aggregate principal amount of 6.375% senior notes due in 2023, to help finance the Digital Insight acquisition

Table of Contents

OVERVIEW OF STRATEGIC INITIATIVES

We have established a focused and consistent business strategy targeted at revenue growth, gross margin expansion, improved customer loyalty and employee engagement. This strategy guided our efforts in 2013, and will continue to guide us in 2014.

To execute this strategy, we incorporate three key imperatives that align with our financial objectives: deliver disruptive innovation; focus on migrating our revenue to higher margin software and recurring services revenue; and more fully enable our sales force with a consultative selling model that better leverages the innovation we are bringing to the market.

Our strategy is summarized in more detail below:

Gain profitable share - We have been working to shift our business model to focus on growth of higher margin software and services revenue, including by focusing our research and development efforts, changing and educating our sales force and executing transformative acquisitions in each of our core lines of business. At the same time, we are continuing our effort to optimize our investments in demand creation to increase NCR's market share in areas with the greatest potential for profitable growth, which include opportunities in self-service technologies with our core financial services, retail, and hospitality customers. We focus on expanding our presence in our core industries, while seeking additional growth by:

penetrating market adjacencies in single and multi-channel self-service segments;

expanding and strengthening our geographic presence and sales coverage across customer tiers through use of the indirect channel; and

leveraging NCR Services and consumables solutions to grow our share of customer revenue, improve customer retention, and deliver increased value to our customers.

Expand into emerging growth industry segments - We are focused on broadening the scope of our self-service solutions from our existing customers to expand these solution offerings to customers in newer industry-vertical markets including telecommunications and technology as well as travel and gaming. We expect to grow our business in these industries through integrated service offerings in addition to targeted acquisitions and strategic partnerships.

- **Build the lowest cost structure in our industry** - We strive to increase the efficiency and effectiveness of our core functions and the productivity of our employees through our continuous improvement initiatives.

Enhance our global service capability - We continue to identify and execute various initiatives to enhance our global service capability. We also focus on improving our service positioning, increasing customer service attach rates for our products and improving profitability in our services business. Our service capability can provide us with a competitive advantage in winning customers and it provides NCR with an attractive and stable revenue source.

Innovation of our people - We are committed to solution innovation across all customer industries. Our focus on innovation has been enabled by closer collaboration between NCR Services and our lines of business, and the movement of our software development resources directly into our various lines of business. We also have placed responsibility for hardware engineering in our Integrated Supply Chain organization, which is responsible for procuring the parts for, and manufacturing, our hardware products. Innovation is also driven through investments in training and developing our employees by taking advantage of our new world-class training centers. We expect that these steps and investments will accelerate the delivery of innovative solutions focused on the needs of our customers and changes in consumer behavior.

Enhancing the customer experience - We are committed to providing a customer experience to drive loyalty, focusing on product and software solutions based on the needs of our customers, a sales force enabled with the consultative selling model to better leverage the innovative solutions we are bringing to market, and sales and support service teams focused on delivery and customer interactions. We continue to rely on the Customer Loyalty Survey, among other metrics, to measure our current state and set a course for our future state where we aim to continuously improve

with solution innovations as well as through the execution of our service delivery programs.

Pursue strategic acquisitions that promote growth and improve gross margin - We are continually exploring potential acquisition opportunities in the ordinary course of business to identify acquisitions that can accelerate the growth of our business and improve our gross margin mix, with a particular focus on software-oriented transactions. We may fund acquisitions through either equity or debt, including borrowings under our senior secured credit facility.

Table of Contents

We are encouraged by our market position for 2014 and are forecasting revenue to be higher than 2013. We plan to continue to manage our costs effectively and balance our investments in areas that generate high returns. Potentially significant risks to the execution of our initiatives include the global economic and credit environment and its effect on capital spending by our customers, competition that can drive further price erosion and potential loss of market share, difficulties associated with introduction of products in new self-service markets, market adoption of our products by customers, management and servicing of our existing indebtedness, and integration of previously completed acquisitions. For further information on potential risks and uncertainties see Item 1A "Risk Factors."

RESULTS FROM OPERATIONS

The following table shows our results for the years ended December 31:

In millions	2013	2012	2011
Revenue	\$6,123	\$5,730	\$5,291
Gross margin	1,740	1,645	951
Gross margin as a percentage of revenue	28.4%	28.7%	18.0%
Operating expenses			
Selling, general and administrative expenses	871	742	890
Research and development expenses	203	155	209
Income (loss) from operations	\$666	\$748	\$(148)

The following table shows our revenues and gross margins from products and services, respectively, for the years ended December 31:

In millions	2013	2012	2011
Product revenue	\$2,912	\$2,854	\$2,592
Cost of products	2,152	2,144	2,022
Product gross margin	\$760	\$710	\$570
Product gross margin as a percentage of revenue	26.1%	24.9%	22.0%
Services revenue	\$3,211	\$2,876	\$2,699
Cost of services	2,231	1,941	2,318
Services gross margin	\$980	\$935	\$381
Services gross margin as a percentage of revenue	30.5%	32.5%	14.1%

The following table shows our revenues by theater for the years ended December 31:

In millions	2013	% of Total	2012	% of Total	% Increase

Consolidated revenue	\$6,123	100%	\$5,730	100%	7	% 9	%

Table of Contents

2013 compared to 2012 results discussion

Revenue

Revenue increased 7% in 2013 from 2012 due to improvement in our retail solutions, hospitality, and emerging industries lines of business offset by declines in our financial services line of business. The effects of foreign currency fluctuations had a 2% unfavorable impact on revenue for the year. For the year ended December 31, 2013, our product revenue increased 2% and services revenue increased 12% compared to the year ended December 31, 2012. The increase in our product revenue was due to growth in the retail solutions line of business in the Americas, growth in the hospitality line of business in all theaters, and growth in the financial services and emerging industries lines of business in the AMEA theater partially offset by declines in the financial services line of business in the Americas. The increase in our services revenue was primarily attributable to increases in professional and installation services, maintenance services and software as a service (SaaS) in the retail solutions line of business in the Americas and AMEA theaters, in the hospitality line of business in all theaters and in the financial services line of business in the AMEA theater, partially offset by declines in professional and installation services and maintenance services in the emerging industries line of business in the Americas theater.

Gross Margin

Gross margin as a percentage of revenue was 28.4% in 2013 compared to 28.7% in 2012. Product gross margin in 2013 increased to 26.1% compared to 24.9% in 2012. During 2013 and 2012, product gross margin was adversely affected by approximately \$36 million and \$19 million, respectively, of acquisition related amortization of intangibles. Product gross margin in 2013 was also negatively impacted by \$14 million in lower pension benefit, or 0.5% as a percentage of product revenue, year over year. After considering these items, the product gross margin increased due to favorable sales mix with an increase in software revenue.

Services gross margin decreased to 30.5% in 2013 compared to 32.5% in 2012. Services gross margin in 2013 was negatively impacted by \$68 million in lower pension benefit, or 2.1% as a percentage of services revenue, year over year. After considering this item, the increase in services gross margin was due to a favorable mix of revenues, including an increase in SaaS revenues.

2012 compared to 2011 results discussion

Revenue

Revenue increased 8% in 2012 from 2011 due to improvement in our financial services and hospitality lines of business offset by declines in our retail solutions and emerging industries lines of business. The effects of foreign currency fluctuations had a 3% unfavorable impact on revenue. For the year ended December 31, 2012, our product revenue increased 10% and services revenue increased 7% compared to the year ended December 31, 2011. The increase in our product revenue was due to growth in the financial services line of business in the Americas, Europe and AMEA theaters, and growth in the hospitality line of business in the Americas theater offset by declines in the retail solutions line of business in the Americas and Europe theaters. The increase in our services revenue was primarily attributable to increases in professional and installation services and maintenance services in the financial services and hospitality lines of business in the Americas theater offset by declines in such services in the retail solutions line of business in the Americas and Europe theaters.

Gross Margin

Gross margin as a percentage of revenue was 28.7% in 2012 compared to 18.0% in 2011. Product gross margin in 2012 increased slightly to 24.9% compared to 22.0% in 2011. During 2012 and 2011, product gross margin was adversely affected by approximately \$19 million and \$6 million, respectively, of acquisition related amortization of intangibles. Product gross margin was positively impacted by \$37 million in lower pension expense, or 1.3% as a percentage of product revenue, year over year. After considering these items, the product gross margin increased due to favorable sales mix with an increase in software revenue.

Services gross margin increased to 32.5% in 2012 compared to 14.1% in 2011. Services gross margin was positively impacted by \$454 million in lower pension expense, or 15.8% as a percentage of services revenue, year over year. After considering this item, the increase in services gross margin was due to lower labor and service delivery costs.

Table of Contents

Effects of Pension, Postemployment, and Postretirement Benefit Plans

NCR's income from continuing operations for the years ended December 31 was impacted by certain employee benefit plans as shown below:

In millions	2013	2012	2011
Pension (benefit) expense	\$(78)	\$(224)	\$582
Postemployment expense	18	37	46
Postretirement benefit	(15)	(14)	(13)
Total (benefit) expense	\$(75)	\$(201)	\$615

In 2013, pension benefit decreased to \$78 million compared to \$224 million in 2012 and expense of \$582 million in 2011. In 2013, the pension benefit included actuarial gains of \$104 million driven by increases in discount rates used to value the U.S. and certain international plans and \$15 million associated with the termination of NCR's U.S. non-qualified pension plans. Additionally, the 2013 pension benefit included special termination benefit costs of \$26 million related to U.S. employees who irrevocably accepted a voluntary early retirement offer during 2013. In 2013, approximately 41% of the pension benefit was included in selling, general and administrative and research and development expenses, with the remaining 59% included in cost of products and services. In 2012, the pension benefit included actuarial gains of \$293 million related to remeasurement of the U.S. pension obligations in the fourth quarter of 2012, which primarily included the impact of the voluntary lump sum offer to certain participants of the U.S. qualified pension plan that was completed in the fourth quarter of 2012. In 2011, pension expense included actuarial losses of \$570 million driven by significant decreases in discount rates used to value the U.S. and international pension plan obligations.

Postemployment expense (severance and disability medical) was \$18 million in 2013 compared to \$37 million in 2012 and \$46 million in 2011. During the first quarter of 2013, NCR amended its U.S. separation plan to eliminate the accumulation of postemployment benefits. This amendment resulted in a curtailment benefit of approximately \$13 million. The decrease in postemployment expense in 2012 was primarily related to \$6 million of Radiant acquisition related severance costs incurred in 2011.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$129 million to \$871 million in 2013 from \$742 million in 2012. As a percentage of revenue, these expenses were 14.2% in 2013 and 12.9% in 2012. In 2013, selling, general and administrative expenses include \$22 million of pension benefit, \$46 million of acquisition related costs, \$29 million of amortization of acquisition related intangible assets and \$3 million of legal costs related to the previously disclosed OFAC and FCPA internal investigations. In 2012, selling, general and administrative expenses included a pension benefit of \$66 million, \$23 million of acquisition related costs, \$19 million of amortization of acquisition related intangible assets and \$4 million of legal costs related to the previously disclosed OFAC and FCPA internal investigations. After considering these items, selling, general and administrative expenses remained consistent as a percentage of revenue at 13.3%, primarily due to a \$7 million gain on the sale of an office property in 2013 offset by investment in sales resources during 2013.

Selling, general, and administrative expenses decreased \$148 million to \$742 million in 2012 from \$890 million in 2011. As a percentage of revenue, these expenses were 12.9% in 2012 and 16.8% in 2011. In 2012, selling, general, and administrative expenses included a pension benefit of \$66 million, \$23 million of acquisition related costs, \$19 million of amortization of acquisition related intangible assets and \$4 million of legal costs related to the previously disclosed OFAC and FCPA internal investigations. In 2011, selling, general, and administrative expenses included \$162 million of pension costs, \$37 million of acquisition related costs, and \$6 million of amortization of acquisition related intangible assets. After considering these items, selling, general and administrative expenses

increased as a percentage of revenue to 13.3% in 2012 from 12.9% in 2011 primarily due to additional investments in sales resources.

30

Table of Contents

Research and Development Expenses

Research and development expenses increased \$48 million to \$203 million in 2013 from \$155 million in 2012. As a percentage of revenue, these costs were 3.3% in 2013 and 2.7% in 2012. Research and development expenses included pension benefit of \$10 million in 2013 as compared to pension benefit of \$30 million in 2012. After considering this item, research and development expenses slightly increased to 3.5% in 2013 from 3.2% in 2012 as a percentage of revenue and are in line with management expectations as we continue to invest in broadening our self-service solutions.

Research and development expenses decreased \$54 million to \$155 million in 2012 from \$209 million in 2011. As a percentage of revenue, these costs were 2.7% in 2012 and 4.0% in 2011. Research and development expenses included a \$30 million pension benefit in 2012 as compared to pension expense of \$57 million in 2011. After considering this item, research and development expenses slightly increased to 3.2% in 2012 from 2.9% in 2011 as a percentage of revenue and are in line with management expectations as we continue to invest in broadening our self-service solutions.

Interest and Other Expense Items

Interest expense was \$103 million in 2013 compared to \$42 million in 2012 and \$13 million in 2011. Interest expense in 2013 was primarily related to the Company's senior unsecured notes and borrowings under the Company's senior secured credit facility. The increase in 2013 compared to 2012 is primarily related to a full year of interest expense related to the Company's senior unsecured notes in 2013 compared to a partial year of interest expense in 2012. The increase in 2012 compared to 2011 is primarily related to a full year of interest expense related to the Company's senior secured credit facility that was entered into in August 2011.

Other (expense) income, net was \$9 million in 2013 compared to \$8 million in 2012 and \$3 million in 2011. Interest income was \$6 million in 2013, \$6 million in 2012, and \$5 million in 2011. In 2013, other (expense) income, net included \$13 million related to losses from foreign currency contracts not designated as hedging instruments as well as from foreign currency fluctuations and \$7 million in bank related fees partially offset by income from the sale of certain patents and a \$3 million gain on the sale of an investment. In 2012, other (expense) income, net included \$7 million related to the impairment of an investment, \$5 million in bank related fees and \$2 million related to losses from foreign currency fluctuations. In 2011, other (expense) income, net included \$7 million related to losses from foreign currency fluctuations partially offset by income from the sale of certain patents and a benefit of \$3 million from final settlement of a litigation matter.

Income Taxes

The effective tax rate was 18% in 2013, 32% in 2012, and 40% in 2011. During 2013, we recorded a one-time benefit of approximately \$16 million in connection with the American Taxpayer Relief Act of 2012 that was signed into law in January 2013 and the related retroactive tax relief for certain law provisions that expired in 2012. The 2013 tax rate was also favorably impacted by the release of a \$10 million valuation allowance due to the implementation of a tax planning strategy to access certain deferred tax assets, a \$15 million reduction in a valuation allowance related to a subsidiary in Japan, and a favorable mix of earnings by country, primarily related to lower pension benefit. During 2012, we favorably settled examinations with Canada for the 2003 tax year and Japan for tax years 2001 through 2006 that resulted in tax benefits of \$14 million and \$13 million, respectively. In addition, the 2012 tax rate was favorably impacted by the mix of earnings by country. These benefits were partially offset by an increase of \$17 million to the U.S. valuation allowance for deferred tax assets, primarily related to tax attributes expiring by 2015. During 2011, we favorably settled examinations with Canada for 1997 through 2001 that resulted in a \$12 million tax benefit.

During 2011, the Internal Revenue Service commenced an examination of our 2009 and 2010 income tax returns, which is ongoing. While we are subject to numerous federal, state and foreign tax audits, we believe that appropriate reserves exist for issues that might arise from these audits. Should these audits be settled, the resulting tax effect could impact the tax provision and cash flows in future periods. During 2014, the Company expects to resolve certain tax matters related to U.S. and foreign jurisdictions. These resolutions could have a material impact on the effective tax rate in 2014.

Table of Contents

Income (Loss) from Discontinued Operations

For the year ended December 31, 2013, loss from discontinued operations was \$9 million, net of tax, solely related to environmental matters, which was due to changes in estimates related to the Fox River reserve in addition to accruals for litigation fees related to the Kalamazoo River environmental matter, partially offset by recoveries from insurance carriers.

For the year ended December 31, 2012, income from discontinued operations was \$6 million, net of tax, which includes a \$4 million operating loss from the Entertainment business, an \$8 million benefit from favorable changes in uncertain tax benefits related to Teradata and a \$2 million benefit from an insurance recovery from a previously agreed settlement related to the Fox River environmental matter.

For the year ended December 31, 2011, loss from discontinued operations was \$93 million, net of tax, which includes a \$96 million operating loss from the Entertainment business, a \$1 million operating loss from the closure of NCR's EFT payment processing business in Canada, and a \$4 million operating loss from the divestiture of our healthcare solutions business, offset by \$2 million of income from environmental matters which included the favorable impact of changes in estimates related to the Fox River reserve offset by an accrual for litigation fees related to the Kalamazoo River environmental matter and an accrual for anticipated future disposal costs related to an environmental matter in Japan, and a \$6 million benefit from favorable changes in uncertain tax benefits attributable to Teradata.

Table of Contents

Revenue and Operating Income by Segment

As described in Note 13, "Segment Information and Concentrations" of the Notes to Consolidated Financial Statements, the Company manages and reports its businesses in the following segments:

Financial Services - We offer solutions to enable customers in the financial services industry to reduce costs, generate new revenue streams and enhance customer loyalty. These solutions include a comprehensive line of ATM and payment processing hardware and software and cash management and video banking software, and related installation, maintenance, and managed and professional services. We also offer a complete line of printer consumables.

Retail Solutions - We offer solutions to customers in the retail industry designed to improve selling productivity and checkout processes as well as increase service levels. These solutions primarily include retail-oriented technologies, such as point of sale terminals and point-of-sale software, bar-code scanners, as well as innovative self-service kiosks, such as self-checkout. We also offer installation, maintenance, and managed and professional services and a complete line of printer consumables.

Hospitality - We offer technology solutions to customers in the hospitality industry, serving businesses that range from a single store or restaurant to global chains and sports and entertainment venues. Our solutions include point of sale hardware and software solutions, installation, maintenance, and managed and professional services and a complete line of printer consumables.

Emerging Industries - We offer maintenance as well as managed and professional services for third-party computer hardware provided to select manufacturers, primarily in the telecommunications industry, who value and leverage our global service capability. Also included in the Emerging Industries segment are solutions designed to enhance the customer experience for the travel and gaming industries, including self-service kiosks, as well as related installation, maintenance, and managed and professional services.

Each of these segments derives its revenues by selling products and services in the sales theaters in which NCR operates. Segments are measured for profitability by the Company's chief operating decision maker based on revenue and segment operating income. For purposes of discussing our operating results by segment, we exclude the impact of certain items from segment operating income, consistent with the manner by which management reviews each segment, evaluates performance, and reports our segment results under accounting principles generally accepted in the United States of America (otherwise known as GAAP). This format is useful to investors because it allows analysis and comparability of operating trends. It also includes the same information that is used by NCR management to make decisions regarding the segments and to assess our financial performance.

Certain amounts have been excluded from segment operating income for each reporting segment presented below, including pension expense and certain other significant, non-recurring items. Our segment results are reconciled to total Company results reported under GAAP in Note 13, "Segment Information and Concentrations" of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report.

In the segment discussions below, we have disclosed the impact of foreign currency fluctuations as it relates to our segment revenue due to its significance.

Table of Contents

Financial Services Segment

The following table presents the Financial Services revenue and segment operating income for the years ended December 31:

In millions	2013	2012	2011
Revenue	\$3,115	\$3,201	\$2,999
Operating income	\$356	\$327	\$313
Operating income as a percentage of revenue	11.4%	10.2%	10.4%

Financial Services revenue decreased 3% in 2013 compared to 2012 and increased 7% in 2012 compared to 2011. Revenue decreased in 2013 compared to 2012 primarily driven by declines in product sales in the Americas theater partially offset by growth in product sales and services revenues in the AMEA theater. Foreign currency fluctuations negatively impacted the year-over-year revenue comparison by 2%. Revenue growth in 2012 compared to 2011 was primarily generated from higher product volumes in the Americas, Europe and AMEA theaters, and higher services revenue in the Americas and Europe theaters. Foreign currency fluctuations negatively impacted the year-over-year revenue comparison by 3%.

Operating income was \$356 million in 2013, \$327 million in 2012 and \$313 million in 2011. The increase in operating income in 2013 compared to 2012 was driven by a higher mix of software and professional services revenue, reduced expenses, and a reimbursement from a supplier of certain previously incurred costs in the second quarter of 2013. The improvement in Financial Services operating income in 2012 compared to 2011 was driven by higher product sales and an improved mix of services revenue, slightly offset by a continued investment in services and research and development.

Retail Solutions Segment

The following table presents the Retail Solutions revenue and segment operating income for the years ended December 31:

In millions	2013	2012	2011
Revenue	\$2,034	\$1,667	\$1,778
Operating income	\$205	\$102	\$71
Operating income as a percentage of revenue	10.1%	6.1%	4.0%

The Company completed the acquisition of Retalix on February 6, 2013. As a result, the revenue and operating income results for the Retail Solutions segment include the impact of Retalix from February 6, 2013 through December 31, 2013. Retalix generated revenue of \$298 million and \$53 million of operating income in the year ended December 31, 2013.

Retail Solutions revenue increased 22% in 2013 compared to 2012 and decreased 6% in 2012 compared to 2011. The increase in revenue in 2013 compared to 2012 was primarily driven by growth in product sales and services revenue in the Americas theater and services revenue in the AMEA theater, due, in part, to the impact of the Retalix business. Foreign currency fluctuations negatively impacted the year-over-year revenue comparison by 3%. The decrease in revenue in 2012 compared to 2011 was primarily driven by declines in product sales and services revenue in the Americas and Europe theaters. Foreign currency fluctuations negatively impacted the year-over-year revenue comparison by 1%.

Operating income was \$205 million in 2013, \$102 million in 2012 and \$71 million in 2011. The increase in the Retail Solutions operating income in 2013 compared to 2012 was primarily due to increased revenues, a higher mix of software as well as the contribution from the Retalix business, as noted above. The improvement in the Retail Solutions operating income in 2012 compared to 2011 was driven by a favorable mix of revenue and the movement of specialty retail customer accounts that were formerly part of the Hospitality segment to the Retail Solutions segment and the movement of hospitality customer accounts that were formerly part of the Retail Solutions segment to the Hospitality segment, both of which occurred as of January 1, 2012.

Table of Contents

Hospitality Segment

The following table presents the Hospitality revenue and segment operating income for the years ended December 31:

In millions	2013	2012	2011
Revenue	\$626	\$522	\$141
Operating income	\$100	\$85	\$22
Operating income as a percentage of revenue	16.0%	16.3%	15.6%

The Hospitality segment generated revenue of \$626 million in 2013, \$522 million in 2012, and \$141 million in 2011. The increase in revenue in 2013 compared to 2012 was primarily driven by growth in product sales and services revenues in all theaters. Foreign currency fluctuations negatively impacted the year-over-year revenue comparison by 1%.

Operating income for Hospitality was \$100 million in 2013, \$85 million in 2012, and \$22 million in 2011. The increase in 2013 compared to 2012 was driven by higher revenues slightly offset by investment in sales and development resources.

The company completed its acquisition of Radiant Systems on August 24, 2011. Because the acquisition was completed during the third quarter of 2011, the revenue and operating income results for the Hospitality segment for the year ended December 31, 2011 are partial, and reflect only the period from August 24, 2011 through the end of the year.

Emerging Industries Segment

The following table presents the Emerging Industries revenue and segment operating income for the years ended December 31:

In millions	2013	2012	2011
Revenue	\$348	\$340	\$373
Operating income	\$56	\$75	\$77
Operating income as a percentage of revenue	16.1%	22.1%	20.6%

Emerging Industries revenue increased 2% in 2013 compared to 2012 and decreased 9% in 2012 compared to 2011. The increase in revenue in 2013 compared to 2012 was primarily driven by growth in product sales in the AMEA theater, partially offset by declines in services revenues in the Americas theater. Foreign currency fluctuations negatively impacted the year-over-year revenue comparison by 1%. The decrease in revenue in 2012 compared to 2011 was primarily driven by a decline in services revenue in the Americas theater. Foreign currency fluctuations negatively impacted the year-over-year revenue comparison by 2%.

Operating income was \$56 million in 2013, \$75 million in 2012, and \$77 million in 2011. The decrease in the Emerging Industries operating income in 2013 compared to 2012 was primarily due to an unfavorable mix of revenues. The decline in the Emerging Industries operating income in 2012 compared to 2011 was primarily due to the decline in revenue.

Table of Contents

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

In the year ended December 31, 2013, cash provided by operating activities was \$281 million and for the year ended December 31, 2012, cash used in operating activities was \$180 million.

NCR's management uses a non-GAAP measure called "free cash flow" to assess the financial performance of the Company. We define free cash flow as net cash provided by (used in) operating activities and cash provided by (used in) discontinued operations, less capital expenditures for property, plant and equipment, less additions to capitalized software plus discretionary pension contributions and settlements. Free cash flow does not have a uniform definition under GAAP, and therefore NCR's definition may differ from other companies' definitions of this measure. We believe free cash flow information is useful for investors because it relates the operating cash flows from the Company's continuing and discontinued operations to the capital that is spent to continue and improve business operations. In particular, free cash flow indicates the amount of cash available after capital expenditures for, among other things, investments in the Company's existing businesses, strategic acquisitions and investments, repurchase of NCR stock and repayment of debt obligations. Free cash flow does not represent the residual cash flow available for discretionary expenditures, since there may be other non-discretionary expenditures that are not deducted from the measure. This non-GAAP measure should not be considered a substitute for, or superior to, cash flows from operating activities under GAAP. The table below reconciles net cash provided by (used in) operating activities, the most directly comparable GAAP measure, to NCR's non-GAAP measure of free cash flow for the year ended December 31:

In millions	2013	2012	2011
Net cash provided by (used in) operating activities	\$281	\$(180)	\$388
Expenditures for property, plant and equipment	(116)	(80)	(61)
Additions to capitalized software	(110)	(80)	(62)
Net cash used in discontinued operations	(52)	(114)	(77)
Pension discretionary contributions and settlements	204	600	—
Free cash flow (non-GAAP)	\$207	\$146	\$188

In 2013, net cash provided by operating activities increased \$461 million, net capital expenditures increased \$36 million, capitalized software additions increased \$30 million, net cash used in discontinued operations decreased \$62 million, and pension discretionary contributions and settlements were \$204 million in 2013, down from \$600 million in 2012, all of which contributed to a net increase in free cash flow of \$61 million in comparison to 2012. The increase in net capital expenditures and capitalized software was due to continued investment in the business as well as research and development. The cash used in discontinued operations in 2013 was primarily attributable to remediation payments associated with the Fox River environmental matter. For the year ended December 31, 2012, net cash used in discontinued operations excludes cash provided by investing activities from discontinued operations of \$99 million.

In 2012, net cash provided by operating activities decreased \$568 million, net capital expenditures increased \$19 million, capitalized software additions increased \$18 million, net cash used in discontinued operations increased \$37 million, and pension discretionary contributions and settlements were \$600 million in 2012 and zero in 2011, all of which contributed to a net decrease in free cash flow of \$42 million in comparison to 2011. The increase in net capital expenditures and capitalized software was due to additional investment since the acquisition of Radiant. The cash used in discontinued operations was attributable to the operating loss from the Entertainment business as well as remediation payments associated with the Fox River environmental matter. For the year ended December 31, 2012, net cash used in discontinued operations excludes cash provided by investing activities from discontinued operations of \$99 million.

Financing activities and certain other investing activities are not included in our calculation of free cash flow. Our other investing activities primarily include business acquisitions, divestitures and investments as well as proceeds from the sales of property, plant and equipment. During the year ended December 31, 2013, we completed the acquisition of Retalix for \$664 million, net of cash received, and multiple other acquisitions that totaled \$116 million, net of cash received. During the year ended December 31, 2012, we completed multiple acquisitions that totaled \$108 million, net of cash received. During the year ended December 31, 2011, we completed the acquisition of Radiant for approximately \$1.087 billion, net of cash received (which is discussed further below), and the divestiture of our healthcare business for approximately \$2 million.

Table of Contents

Our financing activities primarily include proceeds from employee stock plans, repurchases of NCR common stock, issuance of unsecured notes and borrowings and repayments of credit facilities. During the years ended December 31, 2013, 2012 and 2011, proceeds from employee stock plans were \$57 million, \$53 million and \$18 million, respectively. During the years ended December 31, 2013, 2012 and 2011, payments made for tax withholding on behalf of employees totaled \$30 million, \$12 million and zero, respectively. During the year ended December 31, 2013, we repurchased shares of our consolidated subsidiaries from minority shareholders for \$24 million. During the year ended December 31, 2011, we repurchased approximately 3.6 million shares of NCR common stock for \$70 million. Additionally, during the year ended December 31, 2011, we received proceeds of \$43 million from the sale of a 49% voting equity interest in our manufacturing subsidiary in Brazil to Scopus Tecnologia, Ltda.

On December 4, 2013, we amended our senior secured credit facility with and among the lenders party thereto and JPMorgan Chase Bank, N.A. (JPMCB), as the administrative agent. As of December 31, 2013, the senior secured credit facility consisted of a term loan facility in an aggregate principal amount of \$1.12 billion, and a revolving credit facility in an aggregate principal amount of \$850 million. The revolving credit facility also allows a portion of the availability to be used for outstanding letters of credit, and as of December 31, 2013, outstanding letters of credit totaled approximately \$22 million. As of December 31, 2013, the outstanding principal balance of the term loan facility was \$1.12 billion and the outstanding balance on the revolving facility was zero. On December 4, 2013, under and in connection with the senior secured credit facility, we also entered into an incremental facility agreement with and among the lenders party thereto and JPMCB, as administrative agent. This incremental facility agreement created an additional \$250 million of term loan commitments, which were drawn on January 10, 2014 in connection with the completion of the acquisition of Digital Insight.

On December 19, 2013, in connection with the anticipated acquisition of Digital Insight, through a newly formed wholly owned subsidiary, NCR Escrow Corp., we issued \$400 million aggregate principal amount of 5.875% senior unsecured notes due in 2021 and \$700 million aggregate principal amount of 6.375% senior unsecured notes due in 2023. Both the 5.875% and the 6.375% notes were sold at 100% of the principal amount, and are unsecured senior obligations of NCR Escrow Corp. and are guaranteed, on an unsecured senior basis, by our subsidiary, NCR International, Inc., which also guarantees our obligations under the senior secured credit facility. The aggregate principal amount from the offerings was initially deposited into a segregated escrow account of NCR Escrow Corp., and was held in that escrow account at December 31, 2013 to be used solely for the acquisition of Digital Insight, which was completed on January 10, 2014. The aggregate principal amount plus accrued interest funded to the escrow account totaling \$1.11 billion has therefore been classified as restricted cash in the Consolidated Balance Sheet as of December 31, 2013.

On September 17, 2012, we issued \$600 million aggregate principal amount of 5.00% senior unsecured notes due in 2022 and on December 18, 2012, we issued \$500 million aggregate principal amount of 4.625% senior unsecured notes due in 2021. The 5.00% notes were sold at 100% of the principal amount and will mature on July 15, 2022. The 4.625% notes were sold at 100% of the principal amount and will mature on February 15, 2021. Both the 5.00% and the 4.625% notes are unsecured senior obligations of NCR Corporation and are guaranteed, on an unsecured senior basis, by our subsidiary, NCR International, Inc.

The net proceeds of the 5.00% notes of \$592 million were used for a \$500 million discretionary contribution to our U.S. qualified pension plan in the third quarter of 2012 and a \$100 million discretionary contribution to our U.S. qualified pension plan in the fourth quarter of 2012. The net proceeds of the 4.625% notes of \$494 million were used to help fund the acquisition of Retalix, which was completed during the first quarter of 2013.

See Note 6, "Debt Obligations," of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report for further information on the senior secured credit facility and the senior unsecured notes, and Note 18, "Subsequent Events" for additional information on the completion of the Digital Insight acquisition.

We expect to make pension, postemployment and postretirement plan contributions of approximately \$122 million in 2014. Refer to Note 9, "Employee Benefit Plans," of the Notes to the Consolidated Financial Statements for additional discussion on our pension, postemployment and postretirement plans.

Cash and cash equivalents held by the Company's foreign subsidiaries were \$461 million and \$509 million at December 31, 2013 and 2012, respectively. Under current tax laws and regulations, if cash and cash equivalents and short-term investments held outside the United States are distributed to the United States in the form of dividends or otherwise, we may be subject to additional U.S. income taxes and foreign withholding taxes, which could be significant.

Table of Contents

As of December 31, 2013, our cash and cash equivalents and restricted cash totaled \$528 million and \$1.11 billion, respectively, and our total debt was \$3.35 billion. Excluding amounts available under the December 4, 2013 incremental facility agreement, our borrowing capacity under the term loan and revolver facility of our senior secured credit facility was \$828 million at December 31, 2013. Our ability to generate positive cash flows from operations is dependent on general economic conditions, competitive pressures, and other business and risk factors described in Item 1A of Part I of this 2013 Annual Report on Form 10-K. If we are unable to generate sufficient cash flows from operations, or otherwise comply with the terms of our credit facilities, we may be required to seek additional financing alternatives.

We believe that we have sufficient liquidity based on our current cash position, cash flows from operations and existing financing to meet our expected pension, postemployment, and postretirement plan contributions, remediation payments related to the Fox River environmental matter, debt servicing obligations, and our operating requirements for the next twelve months.

Contractual Obligations In the normal course of business, we enter into various contractual obligations that impact, or could impact, the liquidity of our operations. The following table and discussion outlines our material obligations as of December 31, 2013 on an undiscounted basis, with projected cash payments in the years shown:

In millions	Total Amounts	2014	2015 - 2016	2017 - 2018	2019 & Thereafter	All Other
Debt obligations	\$3,354	\$34	\$180	\$932	\$2,208	\$—
Interest on debt obligations	1,207	159	299	267	482	—
Estimated environmental liability payments	163	46	54	8	55	—
Lease obligations	236	94	111	30	1	—
Purchase obligations	970	872	51	47	—	—
Uncertain tax positions	193	4	—	—	—	189
Total obligations	\$6,123	\$1,209	\$695	\$1,284	\$2,746	\$189

As of December 31, 2013, we had short and long-term debt totaling \$3.35 billion. On January 10, 2014, in connection with the completion of the acquisition of Digital Insight, \$250 million in incremental term loans were drawn under the Company's December 2013 incremental facility agreement along with approximately \$300 million in additional borrowings under the revolving portion of the Company's senior secured credit facility, which are not included above. For additional information, refer to Note 18, "Subsequent Events," included in Item 8 of Part II of this Report.

For purposes of this table, we used interest rates as of December 31, 2013 to estimate the future interest on debt obligations outstanding as of December 31, 2013 and have assumed no voluntary prepayments of existing debt. See Note 6, "Debt Obligations," of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report for additional disclosure related to our debt obligations and the related interest rate terms. We have also incorporated the expected fixed payments based on our interest rate swap related to our term loan. See Note 11, "Derivatives and Hedging Instruments," of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report for additional disclosure related to our interest rate swap.

The estimated environmental liability payments included in the table of contractual obligations shown above are related to the Fox River environmental matter. The amounts shown are NCR's expected payments, net of the payment obligations of its co-obligors; the amounts do not include an estimate for payments to be received from insurers or indemnification parties. For additional information, refer to Note 10, "Commitments and Contingencies," included in Item 8 of Part II of this Report.

Our lease obligations are primarily for certain sales and manufacturing facilities in various domestic and international locations as well as leases related to equipment and vehicles. Purchase obligations represent committed purchase orders and other contractual commitments for goods or services. The purchase obligation amounts were determined through information in our procurement systems and payment schedules for significant contracts. Included in the amounts are committed payments in relation to the long-term service agreement with Accenture under which NCR's transaction processing activities and functions are performed.

We have a \$193 million liability related to our uncertain tax positions. Due to the nature of the underlying liabilities and the extended time often needed to resolve income tax uncertainties, we cannot make reliable estimates of the amount or timing of cash payments that may be required to settle these liabilities. For additional information, refer to Note 7, "Income Taxes," of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report.

Table of Contents

We also have product warranties that may affect future cash flows. These items are not included in the table of obligations shown above, but are described in detail in Note 10, "Commitments and Contingencies," of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report.

Our U.S. and international employee benefit plans, which are described in Note 9, "Employee Benefit Plans," of the Notes to Consolidated Financial Statements included in Item 8 of Part II of this Report, could require significant future cash payments. The funded status of NCR's U.S. pension plans is an underfunded position of \$248 million as of December 31, 2013 compared to an underfunded position of \$440 million as of December 31, 2012. The improvement in our funded status is primarily attributable to the \$180 million in discretionary contributions and settlements in 2013. The funded status of our international retirement plans improved to an overfunded position of \$159 million as of December 31, 2013 from an underfunded position of \$21 million as of December 31, 2012. Strong asset returns and cash contributions coupled with increases in discount rates, which reduce the plan liabilities, contributed to the improvement in funded status for these plans. We may, in connection with the third phase of our pension strategy, make one or more discretionary contributions over the next two years but no such contributions are scheduled as of this date. Contributions to international and executive pension plans are expected to be approximately \$88 million in 2014.

Our senior secured credit facility and the indentures for our senior unsecured notes includes affirmative and negative covenants that restrict or limit our ability to, among other things, incur indebtedness; create liens on assets; engage in certain fundamental corporate changes or changes to our business activities; make investments; sell or otherwise dispose of assets; engage in sale-leaseback or hedging transactions; pay dividends or make similar distributions; repay other indebtedness; engage in certain affiliate transactions; or enter into agreements that restrict our ability to create liens, pay dividends or make loan repayments. Our senior secured credit facility also includes financial covenants that require us to maintain:

a consolidated leverage ratio on the last day of any fiscal quarter, not to exceed (i) in the case of any fiscal quarter ending on or prior to June 30, 2014, 4.85 to 1.00, (ii) in the case of any fiscal quarter ending after June 30, 2014 and on or prior to December 31, 2014, (a) the sum of (x) 4.50 and (y) an amount (not to exceed 0.25) to reflect new debt used to reduce NCR's underfunded pension liabilities, to (b) 1.00, (iii) in the case of any fiscal quarter ending after December 31, 2014 and on or prior to December 31, 2016, (a) the sum of (x) 4.25 and (y) an amount (not to exceed 0.50) to reflect new debt used to reduce NCR's underfunded pension liabilities, to (b) 1.00, (iv) in the case of any fiscal quarter ending after December 31, 2016 and on or prior to December 31, 2017, 4.00 to 1.00, and (v) in the case of any fiscal quarter ending after December 31, 2017, 3.75 to 1.00; and

an interest coverage ratio on the last day of any fiscal quarter to be less than (i) in the case of any fiscal quarter ending on or prior to December 31, 2014, 3.00 to 1.00, and (ii) in the case of any fiscal quarter ending after December 31, 2014, 3.50 to 1.00.

Off-Balance Sheet Arrangements We have no significant contractual obligations not fully recorded on our consolidated balance sheets or fully disclosed in the notes to our consolidated financial statements. We have no material off-balance sheet arrangements as defined by SEC Regulation S-K Item 303 (a) (4) (ii).

See Note 10, "Commitments and Contingencies," in the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report for additional information on guarantees associated with NCR's business activities.

Table of Contents

Disclosure Pursuant to Section 13(r)(1)(D)(iii) of the Securities Exchange Act. Pursuant to Section 13(r)(1)(D)(iii) of the Securities Exchange Act of 1934, as amended, we note that, during the period January 1, 2012 through December 31, 2012, the Company's branch in Syria maintained a bank account and guarantees at the Commercial Bank of Syria (CBS), which was designated as a Specially Designated National pursuant to Executive Order 13382 (EO 13382) on August 10, 2011. This bank account and the guarantees at CBS were maintained in the normal course of business prior to the listing of CBS pursuant to EO 13382. The bank account generated interest at a rate greater than or equal to 1 percent compounded semi-annually during the period covered by this Report and the account balance as of January 31, 2014 was approximately \$5,307. The guarantees did not generate any revenue or profits for the Company.

Pursuant to a license granted to the Company by the Office of Foreign Asset Controls (OFAC) on January 3, 2013 and subsequent licenses granted on April 29, 2013 and July 12, 2013, the Company has been winding down its operations in Syria. In connection with these efforts, the Company has also received authorization from OFAC to close the CBS account and terminate any guarantees. Following the closure of the account and termination of the guarantees upon receipt of a license from OFAC for this purpose, the Company does not intend to engage in any further business activities with CBS.

Table of Contents

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our consolidated financial statements are prepared in accordance with GAAP. In connection with the preparation of these financial statements, we are required to make assumptions, estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses and the related disclosure of contingent liabilities. These assumptions, estimates and judgments are based on historical experience and are believed to be reasonable at the time. However, because future events and their effects cannot be determined with certainty, the determination of estimates requires the exercise of judgment. Our critical accounting policies are those that require assumptions to be made about matters that are highly uncertain. Different estimates could have a material impact on our financial results. Judgments and uncertainties affecting the application of these policies and estimates may result in materially different amounts being reported under different conditions or circumstances. Our management continually reviews these assumptions, estimates and judgments to ensure that our financial statements are presented fairly and are materially correct.

In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require significant management judgment in its application. There are also areas in which management's judgment in selecting among available alternatives would not produce a materially different result. The significant accounting policies and estimates that we believe are the most critical to aid in fully understanding and evaluating our reported financial results are discussed in the paragraphs below. Our senior management has reviewed these critical accounting policies and related disclosures with our independent registered public accounting firm and the Audit Committee of our Board of Directors (see Note 1, "Description of Business and Significant Accounting Policies," of the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report, which contains additional information regarding our accounting policies and other disclosures required by GAAP).

Revenue Recognition NCR frequently enters into multiple-element arrangements with its customers including hardware, software, professional consulting services and maintenance support services. For arrangements involving multiple deliverables, when deliverables include software and non-software products and services, NCR evaluates and separates each deliverable to determine whether it represents a separate unit of accounting based on the following criteria: (a) the delivered item has value to the customer on a stand-alone basis; and (b) if the contract includes a general right of return relative to the delivered item, delivery or performance of the undelivered items is considered probable and substantially in the control of NCR.

For arrangements entered into or materially modified after January 1, 2011, consideration is allocated to each unit of accounting based on the unit's relative selling prices. In such circumstances, the Company uses a hierarchy to determine the selling price to be used for allocating revenue to each deliverable: (i) vendor-specific objective evidence of selling price (VSOE), (ii) third-party evidence of selling price (TPE), and (iii) best estimate of selling price (BESP). VSOE generally exists only when the Company sells the deliverable separately and is the price actually charged by the Company for that deliverable. VSOE is established for our software maintenance services and we use TPE to establish selling prices for our non-software related services, which include hardware maintenance, non-software related professional services, and transaction services. The Company uses BESP to allocate revenue when we are unable to establish VSOE or TPE of selling price. BESP is primarily used for elements such as products that are not consistently priced within a narrow range. The Company determines BESP for a deliverable by considering multiple factors including product class, geography, average discount, and management's historical pricing practices. Amounts allocated to the delivered hardware and software elements are recognized at the time of sale provided the other conditions for revenue recognition have been met. Amounts allocated to the undelivered maintenance and other services elements are recognized as the services are provided or on a straight-line basis over the service period. In certain instances, customer acceptance is required prior to the passage of title and risk of loss of the delivered products. In such cases, revenue is not recognized until the customer acceptance is obtained. Delivery and acceptance generally occur in the same reporting period.

For arrangements entered into prior to January 1, 2011, the Company has not applied BESP. In such arrangements, if the Company has the requisite evidence of selling price for the undelivered elements but not for the delivered elements, the Company applies the residual method to allocate arrangement consideration.

In situations where NCR's solutions contain software that is more than incidental, revenue related to the software and software-related elements is recognized in accordance with authoritative guidance on software revenue recognition. For the software and software-related elements of such transactions, revenue is allocated based on the relative fair value of each element, and fair value is determined by VSOE. If the Company cannot objectively determine the fair value of any undelivered element included in such multiple-element arrangements, the Company defers revenue until all elements are delivered and services have been performed, or until fair value can objectively be determined for any remaining undelivered elements. When the fair value of a delivered element has not been established, but fair value exists for the undelivered elements, the Company uses the residual method to recognize revenue. Under the residual method, the fair value of the undelivered elements is deferred and the remaining portion of the arrangement fee is allocated to the delivered elements and is recognized as revenue.

Table of Contents

For certain of NCR's long-term contracts, primarily related to the acquisition of Retalix, the Company utilizes a percentage-of-completion accounting method, which requires estimates of future revenues and costs over the full term of product and/or service delivery. Estimated losses, if any, on long-term projects are recognized as soon as such losses become known.

Revenue recognition for complex contractual arrangements, especially those with multiple elements, requires a significant level of judgment and is based upon a review of specific contracts, past experience, the selling price of undelivered elements when sold separately, creditworthiness of customers, international laws and other factors. Changes in judgments about these factors could impact the timing and amount of revenue recognized between periods.

Allowance for Doubtful Accounts We evaluate the collectability of our accounts receivable based on a number of factors. We establish provisions for doubtful accounts using percentages of our accounts receivable balance as an overall proxy to reflect historical average credit losses and also use management judgment that may include elements that are uncertain, including specific provisions for known issues. The percentages are applied to aged accounts receivable balances. Aged accounts are determined based on the number of days the receivable is outstanding, measured from the date of the invoice, or from the date of revenue recognition. As the age of the receivable increases, the provision percentage also increases. This policy is applied consistently among all of our operating segments.

Based on the factors below, we periodically review customer account activity in order to assess the adequacy of the allowances provided for potential losses. Factors include economic conditions and judgments regarding collectability of account balances, each customer's payment history and creditworthiness.

The allowance for doubtful accounts was \$18 million as of December 31, 2013, \$16 million as of December 31, 2012, and \$16 million as of December 31, 2011. These allowances represent, as a percentage of gross receivables, 1.3% in 2013, 1.5% in 2012, and 1.5% in 2011.

Given our experience, the reserves for potential losses are considered adequate, but if one or more of our larger customers were to default on its obligations, we could be exposed to potentially significant losses in excess of the provisions established. We continually evaluate our reserves for doubtful accounts and economic deterioration could lead to the need to increase our allowances.

Inventory Valuation Inventories are stated at the lower of cost or market, using the average cost method. Each quarter, we reassess raw materials, work-in-process, parts and finished equipment inventory costs to identify purchase or usage variances from standards, and valuation adjustments are made. Additionally, to properly provide for potential exposure due to slow-moving, excess, obsolete or unusable inventory, a reserve against inventory is established. This reserve is established based on forecasted usage, orders, technological obsolescence and inventory aging. These factors are impacted by market conditions, technology changes and changes in strategic direction, and require estimates and management judgment that may include elements that are uncertain. On a quarterly basis, we review the current market value of inventory and adjust for any inventory exposure due to age or excess of cost over market value.

We have inventory in more than 40 countries around the world. We purchase inventory from third party suppliers and manufacture inventory at our plants. This inventory is transferred to our distribution and sales organizations at cost plus a mark-up. This mark-up is referred to as inter-company profit. Each quarter, we review our inventory levels and analyze our inter-company profit to determine the correct amount of inter-company profit to eliminate. Key assumptions are made to estimate product gross margins, the product mix of existing inventory balances and current period shipments. Over time, we refine these estimates as facts and circumstances change. If our estimates require refinement, our results could be impacted. The policies described are consistently applied across all of our operating

segments.

Warranty Reserves One of our key objectives is to provide superior quality products and services. To that end, we provide a standard manufacturer's warranty typically extending up to 12 months, allowing our customers to seek repair of products under warranty at no additional cost. A corresponding estimated liability for potential warranty costs is also recorded at the time of the sale. We sometimes offer extended warranties in the form of product maintenance services to our customers for purchase. We defer the fair value of these revenues and recognize revenue over the life of the extended warranty period. Refer to Note 1, "Description of Business and Significant Accounting Policies," in the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report for further information regarding our accounting for extended warranties.

Future warranty obligation costs are based upon historical factors such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts. When a sale is consummated, the total customer revenue is recognized and the associated warranty liability is recorded based upon the estimated cost to provide the service over the warranty period.

42

Table of Contents

Total warranty costs were \$39 million in 2013, \$46 million in 2012, and \$42 million in 2011. Warranty costs as a percentage of total product revenues were 1.3% in 2013, 1.6% in 2012, and 1.6% in 2011. Historically, the principal factor used to estimate our warranty costs has been service calls per machine. Significant changes in this factor could result in actual warranty costs differing from accrued estimates. Although no near-term changes in our estimated warranty reserves are currently anticipated, in the unlikely event of a significant increase in warranty claims by one or more of our larger customers, costs to fulfill warranty obligations would be higher than provisioned, thereby impacting results.

Goodwill Goodwill is tested at the reporting unit level for impairment on an annual basis during the fourth quarter or more frequently if certain events occur indicating that the carrying value of goodwill may be impaired. A significant amount of judgment is involved in determining if an indicator of impairment has occurred. Such indicators may include a decline in expected cash flows, a significant adverse change in legal factors or in the business climate, a decision to sell a business, unanticipated competition, or slower growth rates, among others.

In the evaluation of goodwill for impairment, we first perform a qualitative assessment to determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. If so, we perform a quantitative assessment and compare the fair value of the reporting unit to the carrying value. If the carrying value of a reporting unit exceeds its fair value, the goodwill of that reporting unit is potentially impaired and we proceed to step two of the impairment analysis. In step two of the analysis, we will record an impairment loss equal to the excess of the carrying value of the reporting unit's goodwill over its implied fair value. Fair value of the reporting units is estimated primarily using the income approach, which incorporates the use of discounted cash flow (DCF) analyses. A number of significant assumptions and estimates are involved in the application of the DCF model to forecast operating cash flows, including markets and market shares, sales volumes and prices, costs to produce, tax rates, capital spending, discount rate and working capital changes. Most of these assumptions vary among reporting units. The cash flow forecasts are generally based on approved strategic operating plans.

Valuation of Long-lived Assets and Amortizable Other Intangible Assets We perform impairment tests for our long-lived assets if an event or circumstance indicates that the carrying amount of our long-lived assets may not be recoverable. In response to changes in industry and market conditions, we may also strategically realign our resources and consider restructuring, disposing of, or otherwise exiting businesses. Such activities could result in impairment of our long-lived assets or other intangible assets. We also are subject to the possibility of impairment of long-lived assets arising in the ordinary course of business. We consider the likelihood of impairment if certain events occur indicating that the carrying value of the long-lived assets may be impaired and we may recognize impairment if the carrying amount of a long-lived asset or intangible asset is not recoverable from its undiscounted cash flows. Impairment is measured as the difference between the carrying amount and the fair value of the asset. We use both the income approach and market approach to estimate fair value. Our estimates of fair value are subject to a high degree of judgment since they include a long-term forecast of future operations. Accordingly, any value ultimately derived from our long-lived assets may differ from our estimate of fair value.

Pension, Postretirement and Postemployment Benefits We sponsor domestic and foreign defined benefit pension and postemployment plans as well as domestic postretirement plans. As a result, we have significant pension, postretirement and postemployment benefit costs, which are developed from actuarial valuations. Actuarial assumptions attempt to anticipate future events and are used in calculating the expense and liability relating to these plans. These factors include assumptions we make about interest rates, expected investment return on plan assets, rate of increase in healthcare costs, total and involuntary turnover rates, and rates of future compensation increases. In addition, our actuarial consultants advise us about subjective factors such as withdrawal rates and mortality rates to use in our valuations. We generally review and update these assumptions on an annual basis at the beginning of each fiscal year. We are required to consider current market conditions, including changes in interest rates, in making these

assumptions. The actuarial assumptions that we use may differ materially from actual results due to changing market and economic conditions, higher or lower withdrawal rates, or longer or shorter life spans of participants. These differences may result in a significant impact to the amount of pension, postretirement or postemployment benefits expense we have recorded or may record. Postemployment and postretirement expense impacts all of our segments. Pension expense is reported at the corporate level and is excluded from our segment results as it is not included in the evaluation of segment performance. See Note 13, "Segment Information and Concentrations," in the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report for a reconciliation of our segment results to income from operations.

Table of Contents

The key assumptions used in developing our 2013 expense were discount rates of 3.8% for our U.S. pension plans and 2.6% for our postretirement plan. We used an expected return on assets assumption of 3.8% for our U.S. plans in 2013. The U.S. plans represented 57% and 100% of total pension and postretirement plan obligations, respectively, as of December 31, 2013. We recognized changes in the fair value of plan assets and net actuarial gains or losses of our pension plans upon remeasurement, which is at least annually in the fourth quarter of each year. The remaining components of pension expense, primarily net service cost, interest cost, and the expected return on plan assets, were recorded on a quarterly basis as ongoing pension expense. Holding all other assumptions constant, a 0.25% change in the discount rate used for the U.S. plans would have increased or decreased 2013 ongoing pension expense by approximately \$5 million and would have had an immaterial impact on 2013 postretirement expense. A 0.25% change in the expected rate of return on plan assets assumption for the U.S. pension plan would have increased or decreased 2013 ongoing pension expense by approximately \$7 million. Our expected return on plan assets has historically been and will likely continue to be material to net income. While it is required that we review our actuarial assumptions each year at the measurement date, we generally do not change them between measurement dates. We use a measurement date of December 31 for all of our plans. Changes in assumptions or asset values may have a significant effect on the annual measurement of expense or income in the fourth quarter.

We intend to use discount rates of 4.6% and 3.4% in determining the 2014 U.S. qualified plan pension and postretirement expense, respectively, and an expected rate of return on assets assumption of 4.6% for the U.S. qualified plan. The most significant assumption used in developing our 2014 postemployment plan expense is the assumed rate of involuntary turnover of 4.8%. The involuntary turnover rate is based on historical trends and projections of involuntary turnover in the future. A 0.25% change in the rate of involuntary turnover would have increased or decreased 2013 expense by approximately \$2 million. The sensitivity of the assumptions described above is specific to each individual plan and not to our pension, postretirement and postemployment plans in the aggregate.

Environmental and Legal Contingencies Each quarter, we review the status of each claim and legal proceeding and assess our potential financial exposure. If the potential loss from any claim or legal proceeding would be material and is considered probable and the amount can be reasonably estimated, we accrue a liability for the estimated loss. To the extent that the amount of such a probable loss is estimable only by reference to a range of equally likely outcomes, and no amount within the range appears to be a better estimate than any other amount, we accrue the amount at the low end of the range. Because of uncertainties related to these matters, the use of estimates, assumptions and judgments, and external factors beyond our control, accruals are based on the best information available at the time. As additional information becomes available, we reassess the potential liability related to our pending claims and litigation and may revise our estimates. Such revisions in the estimates of the potential liabilities could have a material impact on our results of operations and financial position. Except for the sharing agreement with Appleton Papers Inc. (API) with respect to a particular insurance settlement described in Note 10, "Commitments and Contingencies," in the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report with respect to the Fox River matter, when insurance carriers or third parties have agreed to pay any amounts related to costs, and we believe that it is probable that we can collect such amounts, those amounts are reflected as receivables in our Consolidated Balance Sheet.

The most significant legal contingency impacting our Company relates to the Fox River matter, which is further described in detail in Note 10, "Commitments and Contingencies," in the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report. NCR has been identified as a potentially responsible party (PRP) at the Fox River site in Wisconsin.

As described below and in Note 10, "Commitments and Contingencies," while substantial progress has been made in the Fox River clean-up, the extent of our potential liability continues to be subject to significant uncertainties. These uncertainties include the total clean-up costs for each of the segments of the river; the total natural resource damages for the site; the extent to which clean-up and other costs will be allocated to and paid by other PRPs; the solvency and

willingness to pay of other PRPs, co-obligors or indemnitors; and the extent of NCR's eventual liability in the allocation litigation, including the outcome of the various appeals of the court orders and judgments in the allocation litigation and in the government enforcement action described in Note 10, "Commitments and Contingencies."

Our net reserve for the Fox River matter as of December 31, 2013 was approximately \$112 million as further discussed in Note 10, "Commitments and Contingencies." The Company regularly re-evaluates the assumptions used in determining the appropriate reserve for the Fox River matter as additional information becomes available and, when warranted, makes appropriate adjustments.

Table of Contents

In determining our reserve, we attempt to estimate a range of reasonably possible outcomes for relevant factors, although each range is itself highly uncertain. We use our best estimate within the range if that is possible. Where there is a range of equally likely outcomes, and there is no amount within that range that appears to be a better estimate than any other amount, we use the low end of the range. Our eventual liability for remediation, which we expect will be paid out over a period continuing into 2017 or later (and a longer period thereafter for long-term monitoring), will depend on a number of factors, the most significant of which are described in Note 10, "Commitments and Contingencies."

AT&T Corp. (AT&T) and Alcatel-Lucent are each responsible for indemnifying NCR for a portion of amounts NCR incurs for the Fox River matter over a certain threshold, which was reached in the fourth quarter of 2012. NCR's estimate of what AT&T and Alcatel-Lucent will pay under the indemnity totaled approximately \$51 million as of December 31, 2013, and is deducted in determining the net reserve discussed above.

While it remains difficult to predict, there could be significant changes in the future to some of the assumptions underlying the reserve that could have a material effect on the amount of our reserve. Also, there are other estimates for some of these factors that are significantly higher than the estimates described herein. It is the opinion of the Company that the Fox River matter will have a moderate, but manageable, impact on our liquidity and capital resources, assuming that the Company's expenditures with respect to the Fox River matter are required to be paid over the time frame currently contemplated. However, if such an amount were required to be paid in a shorter time period or if any of NCR's co-obligors or indemnitors defaulted on or otherwise did not perform their contractual obligations, it could have a material impact on our liquidity and capital resources.

Income Taxes We recognize deferred tax assets and liabilities based on the differences between the financial statement carrying amounts and the tax basis of assets and liabilities. The deferred tax assets and liabilities are determined based on the enacted tax rates expected to apply in the periods in which the deferred tax assets or liabilities are anticipated to be settled or realized.

We regularly review our deferred tax assets for recoverability and establish a valuation allowance if it is more likely than not that some portion or all of a deferred tax asset will not be realized. The determination as to whether a deferred tax asset will be realized is made on a jurisdictional basis and is based on the evaluation of positive and negative evidence. This evidence includes historical taxable income, projected future taxable income, the expected timing of the reversal of existing temporary differences and the implementation of tax planning strategies. Projected future taxable income is based on our expected results and assumptions as to the jurisdiction in which the income will be earned. The expected timing of the reversals of existing temporary differences is based on current tax law and our tax methods of accounting.

If we are unable to generate sufficient future taxable income, or if there is a material change in the actual effective tax rates or the time period within which the underlying temporary differences become taxable or deductible, or if the tax laws change unfavorably, then we could be required to increase our valuation allowance against our deferred tax assets, resulting in an increase in our effective tax rate.

We had valuation allowances of \$364 million as of December 31, 2013 and \$399 million as of December 31, 2012, related to certain deferred income tax assets, primarily tax loss carryforwards, in jurisdictions where there is uncertainty as to the ultimate realization of a benefit from those tax assets. At December 31, 2013, our net deferred tax assets in the United States totaled approximately \$555 million. For the three year period ended December 31, 2013, we had a cumulative net loss from continuing operations before income taxes, which is generally considered a negative indicator of our ability to realize the benefits of those assets. We further evaluated the realizability by weighing both positive and negative evidence, including our history of taxable income in the U.S., and the substantial length of time over which our deferred tax assets relating to net operating losses and employee pensions may be

realized. Through this assessment, realization of the related benefits was determined to be more likely than not.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the consolidated financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon settlement. Interest and penalties related to uncertain tax positions are recognized as part of the provision for income taxes and are accrued beginning in the period that such interest and penalties would be applicable under relevant tax law until such time that the related tax benefits are recognized.

Table of Contents

The provision for income taxes may change period-to-period based on non-recurring events, such as the settlement of income tax audits and changes in tax laws, as well as recurring factors including the geographic mix of income before taxes, state and local taxes and the effects of various global income tax strategies. We maintain certain strategic management and operational activities in overseas subsidiaries and our foreign earnings are taxed at rates that are generally lower than in the United States. As of December 31, 2013, we did not provide for U.S. federal income taxes or foreign withholding taxes on approximately \$1.9 billion of undistributed earnings of our foreign subsidiaries as such earnings are expected to be reinvested indefinitely.

Refer to Note 7, "Income Taxes," in the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report for disclosures related to foreign and domestic pretax income, foreign and domestic income tax (benefit) expense and the effect foreign taxes have on our overall effective tax rate.

Stock-based Compensation We measure compensation cost for stock awards at fair value and recognize compensation expense over the service period for which awards are expected to vest. We utilize the Black-Scholes option pricing model to estimate the fair value of options at the date of grant, which requires the input of highly subjective assumptions, including expected volatility and expected holding period. We estimate forfeitures for awards granted which are not expected to vest. The estimation of stock awards that will ultimately vest requires judgment, and to the extent that actual results or updated estimates differ from our current estimates, such amounts will be recorded as a cumulative adjustment in the period in which estimates are revised. We consider many factors when estimating expected forfeitures, including types of awards and historical experience. Actual results and future changes in estimates may differ from our current estimates.

In addition, we have performance-based awards that vest only if specific performance conditions are satisfied, typically at the end of a multi-year performance period. The number of shares that will be earned can vary based on actual performance. No shares will vest if the objectives are not met, and in the event the objectives are exceeded, additional shares will vest up to a maximum amount. The cost of these awards is expensed over the performance period based upon management's estimates of achievement against the performance criteria. Because the actual number of shares to be awarded is not known until the end of the performance period, the actual compensation expense related to these awards could differ from our current expectations.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

A discussion of recently issued accounting pronouncements is described in Note 1, "Description of Business and Significant Accounting Policies," of the Notes to Consolidated Financial Statements in Item 8 of Part II of this Report, and we incorporate by reference such discussion in this MD&A.

Table of Contents

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

We are exposed to market risks primarily from changes in foreign currency exchange rates and interest rates. It is our policy to manage our foreign exchange exposure and debt structure in order to manage capital costs, control financial risks and maintain financial flexibility over the long term. In managing market risks, we employ derivatives according to documented policies and procedures, including foreign currency contracts and interest rate swaps. We do not use derivatives for trading or speculative purposes.

Foreign Exchange Risk

Since a substantial portion of our operations and revenue occur outside the United States, and in currencies other than the U.S. Dollar, our results can be significantly impacted by changes in foreign currency exchange rates. We have exposure to approximately 50 functional currencies and are exposed to foreign currency exchange risk with respect to our sales, profits and assets and liabilities denominated in currencies other than the U.S. Dollar. Although we use financial instruments to hedge certain foreign currency risks, we are not fully protected against foreign currency fluctuations and our reported results of operations could be affected by changes in foreign currency exchange rates. To manage our exposures and mitigate the impact of currency fluctuations on the operations of our foreign subsidiaries, we hedge our main transactional exposures through the use of foreign exchange forward and option contracts. These foreign exchange contracts are designated as highly effective cash flow hedges. This is primarily done through the hedging of foreign currency denominated inter-company inventory purchases by the marketing units. All of these transactions are firmly committed or forecasted. We also use derivatives not designated as hedging instruments consisting primarily of forward contracts to hedge foreign currency denominated balance sheet exposures. For these derivatives we recognize gains and losses in the same period as the remeasurement losses and gains of the related foreign currency-denominated exposures.

We utilize non-exchange traded financial instruments, such as foreign exchange forward and option contracts that we purchase exclusively from highly rated financial institutions. We record these contracts on our balance sheet at fair market value based upon market price quotations from the financial institutions. We do not enter into non-exchange traded contracts that require the use of fair value estimation techniques, but if we did, they could have a material impact on our financial results.

For purposes of analyzing potential risk, we use sensitivity analysis to quantify potential impacts that market rate changes may have on the fair values of our hedge portfolio related to firmly committed or forecasted transactions. The sensitivity analysis represents the hypothetical changes in value of the hedge position and does not reflect the related gain or loss on the forecasted underlying transaction. A 10% appreciation or depreciation in the value of the U.S. Dollar against foreign currencies from the prevailing market rates would result in a corresponding increase or decrease of \$2 million as of December 31, 2013 in the fair value of the hedge portfolio. The Company expects that any increase or decrease in the fair value of the portfolio would be substantially offset by increases or decreases in the underlying exposures being hedged.

The U.S. Dollar was slightly stronger in 2013 compared to 2012 based on comparable weighted averages for our functional currencies. This had an unfavorable impact of 2% on 2013 revenue versus 2012 revenue. This excludes the effects of our hedging activities and, therefore, does not reflect the actual impact of fluctuations in exchange rates on our operating income.

Interest Rate Risk

We are subject to interest rate risk principally in relation to variable-rate debt under our senior secured credit facility. We use derivative financial instruments to manage exposure to fluctuations in interest rates in connection with our risk management policies. We have entered into an interest rate swap for a portion of our senior secured credit facility. The interest rate swap effectively converts a designated portion of the credit facility from a variable interest rate to a fixed interest rate instrument. Approximately 46% of our borrowings under the credit facility were effectively on a fixed rate basis as of December 31, 2013. As of December 31, 2013, the net fair value of the interest rate swap was a liability of \$10 million.

The potential gain in fair value of the swap from a hypothetical 100 basis point increase in interest rates would be approximately \$11 million as of December 31, 2013. The annual increase in pre-tax interest expense from a hypothetical 100 basis point increase in variable interest rates (including the impact of the interest rate swap) would be approximately \$6 million as of December 31, 2013.

Concentrations of Credit Risk

We are potentially subject to concentrations of credit risk on accounts receivable and financial instruments, such as hedging instruments and cash and cash equivalents. Credit risk includes the risk of nonperformance by counterparties. The maximum potential loss may exceed the amount recognized on the balance sheet. Exposure to credit risk is managed through credit approvals, credit limits, selecting major international financial institutions (as counterparties to hedging transactions) and monitoring procedures. Our business often involves large transactions with customers for which we do not require collateral. If one or more of those customers were to default in its obligations under applicable contractual arrangements, we could be exposed to potentially significant losses. Moreover, a prolonged downturn in the global economy could have an adverse impact on the ability of our customers to pay their obligations on a timely basis. We believe that the reserves for potential losses are adequate. As of December 31, 2013, we did not have any significant concentration of credit risk related to financial instruments.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTAL DATA

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of NCR Corporation:

In our opinion, the consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of NCR Corporation and its subsidiaries at December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 15(a)(2) presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedule, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 2 to the consolidated financial statements, the Company changed the manner in which it accounts for defined benefit pension plans effective January 1, 2013.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become

inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NCR Corporation

Notes to Consolidated Financial Statements

1. DESCRIPTION OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Description of Business NCR Corporation (NCR or the Company, also referred to as “we,” “us” or “our”) and its subsidiaries provide innovative products and services that are designed to enable NCR’s customers to connect, interact and transact with their customers and enhance their customer relationships by addressing consumer demand for convenience, value and individual service. NCR’s portfolio of self-service and assisted-service solutions serve customers in the financial services, retail, hospitality, travel, and telecommunications and technology industries and include automated teller machines (ATMs) and ATM and financial services software, point of sale (POS) devices and POS software, self-service kiosks and software applications that can be used by consumers to enable them to interact with businesses from their computer or mobile device. NCR complements these product solutions by offering a complete portfolio of services to support both NCR and third party solutions. NCR also resells third-party networking products and provides related service offerings in the telecommunications and technology sector.

NCR’s solutions are built on a foundation of long-established industry knowledge and consulting expertise, value-added software and hardware technology, global customer support services, and a complete line of business consumables and specialty media products.

On February 6, 2013, the Company completed the acquisition of Retailix Ltd. (Retailix). As a result of the acquisition, the results of Retailix are included for the period from February 6, 2013 to December 31, 2013. See Note 4, "Business Combinations and Divestitures," for additional information.

Use of Estimates The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (otherwise known as GAAP) requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the period reported. Actual results could differ from those estimates.

Evaluation of Subsequent Events The Company evaluated subsequent events through the date that our Consolidated Financial Statements were issued. Except as described in Note 18, "Subsequent Events," no matters were identified that required adjustment of the Consolidated Financial Statements or additional disclosure.

Out of Period Adjustments During the fourth quarter of 2013, the Company recorded a \$15 million income tax benefit related to the release of a valuation allowance on specific deferred tax assets in NCR’s subsidiary in Japan that should have been released in a prior period. The Company determined the impact of this error was not material to the annual or interim financial statements of previous periods and the effect of correcting this error was not material to the 2013 annual financial statements.

During the third quarter of 2012, the Company recorded a \$5 million income tax benefit related to an error in the calculation of the interest portion included in income tax expense for 2011 and 2010. The Company determined the impact of this error was not material to the annual or interim financial statements of previous periods and the effect of correcting this error was not material to the 2012 annual or interim financial statements.

During the fourth quarter of 2011, the Company recorded charges of approximately \$2 million in other (expense) income, net related to foreign currency fluctuations from several inter-company transactions that were incorrectly included in the cumulative translation adjustment balance. Additionally, the Company recorded an increase in selling, general and administrative expenses of approximately \$4 million to correct certain tax accounts in Brazil determined

to be unrecoverable. The Company determined the impact of these errors was not material to the annual or interim financial statements of previous periods and the effect of correcting these errors in 2011 was not material to the 2011 annual financial statements.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Basis of Consolidation The consolidated financial statements include the accounts of NCR and its majority-owned subsidiaries. Long-term investments in affiliated companies in which NCR owns between 20% and 50%, and therefore, exercises significant influence, but which it does not control, are accounted for using the equity method. Investments in which NCR does not exercise significant influence (generally, when NCR has an investment of less than 20% and no significant influence, such as representation on the investee's board of directors) are accounted for using the cost method. All significant inter-company transactions and accounts have been eliminated. In addition, the Company is required to determine whether it is the primary beneficiary of economic income or losses that may be generated by variable interest entities in which the Company has such an interest. In circumstances where the Company determined it is the primary beneficiary, consolidation of that entity would be required. For the periods presented, no variable interest entities have been consolidated.

Reclassifications Certain prior-period amounts have been reclassified in the accompanying Consolidated Financial Statements and Notes thereto in order to conform to the current period presentation.

Revenue Recognition The Company records revenue, net of taxes, when it is realized, or realizable, and earned. The Company considers these criteria met when persuasive evidence of an arrangement exists, the products or services have been provided to the customer, the sales price is fixed or determinable, and collectability is reasonably assured. For product sales, delivery is deemed to have occurred when the customer has assumed risk of loss of the goods sold and all performance obligations are complete. For services sales, revenue is recognized as the services are provided or ratably over the service period, or, if applicable, after customer acceptance of the services.

NCR frequently enters into multiple-element arrangements with its customers including hardware, software, professional consulting services, transaction services and maintenance support services. For arrangements involving multiple deliverables, when deliverables include software and non-software products and services, NCR evaluates and separates each deliverable to determine whether it represents a separate unit of accounting based on the following criteria: (a) whether the delivered item has value to the customer on a stand-alone basis; and (b) if the contract includes a general right of return relative to the delivered item, whether delivery or performance of the undelivered items is considered probable and substantially in the control of NCR.

For arrangements entered into or materially modified after January 1, 2011, consideration is allocated to each unit of accounting based on the units' relative selling prices. In such circumstances, the Company uses a hierarchy to determine the selling price to be used for allocating revenue to each deliverable: (i) vendor-specific objective evidence of selling price (VSOE); (ii) third-party evidence of selling price (TPE); and (iii) best estimate of selling price (BESP). VSOE generally exists only when the Company sells the deliverable separately and is the price actually charged by the Company for that deliverable. VSOE is established for our software maintenance services and we use TPE to establish selling prices for our non-software related services, which include hardware maintenance, non-software related professional services, and transaction services. The Company uses BESP to allocate revenue when we are unable to establish VSOE or TPE of selling price. BESP is primarily used for elements such as products that are not consistently priced within a narrow range. The Company determines BESP for a deliverable by considering multiple factors including product class, geography, average discount, and management's historical pricing practices. Amounts allocated to the delivered hardware and software elements are recognized at the time of sale, provided the other conditions for revenue recognition have been met. Amounts allocated to the undelivered maintenance and other services elements are recognized as the services are provided or on a straight-line basis over the service period. In certain instances, customer acceptance is required prior to the passage of title and risk of loss of the delivered products. In such cases, revenue is not recognized until the customer acceptance is obtained. Delivery and acceptance generally occur in the same reporting period.

For arrangements entered into prior to January 1, 2011, the Company has not applied BESP. In such arrangements, if the Company has the requisite evidence of selling price for the undelivered elements but not for the delivered elements, the Company applies the residual method to allocate arrangement consideration.

In situations where NCR's solutions contain software that is more than incidental, revenue related to the software and software-related elements is recognized in accordance with authoritative guidance on software revenue recognition. For the software and software-related elements of such transactions, revenue is allocated based on the relative fair value of each element, and fair value is determined by VSOE. If the Company cannot objectively determine the fair value of any undelivered element included in such multiple-element arrangements, the Company defers revenue until all elements are delivered and services have been performed, or until fair value can objectively be determined for any remaining undelivered elements. When the fair value of a delivered element has not been established, but fair value evidence exists for the undelivered elements, the Company uses the residual method to recognize revenue. Under the residual method, the fair value of the undelivered elements is deferred and the remaining portion of the arrangement fee is allocated to the delivered elements and is recognized as revenue.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

For certain of NCR's long-term contracts, primarily related to the acquisition of Retalix, the Company utilizes a percentage-of-completion accounting method, which requires estimates of future revenues and costs over the full term of product and/or service delivery. Estimated losses, if any, on long-term projects are recognized as soon as such losses become known.

NCR's customers may request that delivery and passage of title and risk of loss occur on a bill and hold basis. For the years ended December 31, 2013, 2012, and 2011, the revenue recognized from bill and hold transactions approximated 1% or less of total revenue.

In addition to the standard product warranty, the Company periodically offers extended warranties to its customers in the form of product maintenance services. For contracts that are not separately priced but include product maintenance, the Company defers revenue at an amount based on the selling price, using objective and reliable evidence, and recognizes the deferred revenue over the service term. For separately priced product maintenance contracts, NCR defers the stated amount of the separately priced contract and recognizes the deferred revenue ratably over the service term.

Shipping and Handling Costs related to shipping and handling are included in cost of products in the Consolidated Statements of Operations.

Cash and Cash Equivalents All short-term, highly liquid investments having original maturities of three months or less, including time deposits, are considered to be cash equivalents.

Restricted Cash Restricted cash consists of deposits that are contractually restricted as to their withdrawal or use. Refer to Note 6, "Debt Obligations" for further discussion.

Allowance for Doubtful Accounts NCR establishes provisions for doubtful accounts using percentages of accounts receivable balances to reflect historical average credit losses and specific provisions for known issues.

Inventories Inventories are stated at the lower of cost or market, using the average cost method. Cost includes materials, labor and manufacturing overhead related to the purchase and production of inventories. Service parts are included in inventories and include reworkable and non-reworkable service parts. The Company regularly reviews inventory quantities on hand, future purchase commitments with suppliers and the estimated utility of inventory. If the review indicates a reduction in utility below carrying value, inventory is reduced to a new cost basis. Excess and obsolete reserves are established based on forecasted usage, orders, technological obsolescence and inventory aging.

Goodwill and Other Long-Lived Assets

Capitalized Software Certain direct development costs associated with internal-use software are capitalized within other assets and amortized over the estimated useful lives of the resulting software. NCR typically amortizes capitalized internal-use software on a straight-line basis over four to seven years beginning when the asset is substantially ready for use, as this is considered to approximate the usage pattern of the software.

Costs incurred for the development of software that will be sold, leased or otherwise marketed are capitalized when technological feasibility has been established. These costs are included within other assets and are amortized on a sum-of-the-years' digits or straight-line basis over the estimated useful lives ranging from three to five years, using the method that most closely approximates the sales pattern of the software. Amortization begins when the product is

available for general release. Costs capitalized include direct labor and related overhead costs. Costs incurred prior to technological feasibility or after general release are expensed as incurred. The following table identifies the activity relating to total capitalized software:

In millions	2013	2012	2011	
Beginning balance as of January 1	\$142	\$118	\$107	
Capitalization	110	80	62	
Amortization	(59) (56) (51)
Ending balance as of December 31	\$193	\$142	\$118

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Goodwill and Other Intangible Assets Goodwill represents the excess of purchase price over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. Goodwill is tested at the reporting unit level for impairment on an annual basis during the fourth quarter or more frequently if certain events occur indicating that the carrying value of goodwill may be impaired. A significant amount of judgment is involved in determining if an indicator of impairment has occurred. Such indicators may include a decline in expected cash flows, a significant adverse change in legal factors or in the business climate, a decision to sell a business, unanticipated competition, or slower growth rates, among others.

In the evaluation of goodwill for impairment, we first perform a qualitative assessment to determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. If so, we perform a quantitative assessment and compare the fair value of the reporting unit to the carrying value. If the carrying value of a reporting unit exceeds its fair value, the goodwill of that reporting unit is potentially impaired and we proceed to step two of the impairment analysis. In step two of the analysis, we will record an impairment loss equal to the excess of the carrying value of the reporting unit's goodwill over its implied fair value should such a circumstance arise. Fair values of the reporting units are estimated primarily using the income approach, which incorporates the use of discounted cash flow (DCF) analyses. A number of significant assumptions and estimates are involved in the application of the DCF model to forecast operating cash flows, including markets and market shares, sales volumes and prices, costs to produce, tax rates, capital spending, discount rate and working capital changes. Most of these assumptions vary among reporting units. The cash flow forecasts are generally based on approved strategic operating plans.

For the fourth quarter of 2013 and 2012, we performed our annual impairment assessment of goodwill which did not indicate that an impairment existed.

Acquired intangible assets other than goodwill are amortized over their weighted average amortization period unless they are determined to be indefinite. Acquired intangible assets are carried at cost, less accumulated amortization. For intangible assets purchased in a business combination, the estimated fair values of the assets received are used to establish the carrying value. The fair value of acquired intangible assets is determined using common techniques, and the Company employs assumptions developed using the perspective of a market participant.

Property, Plant and Equipment Property, plant and equipment, and leasehold improvements are stated at cost less accumulated depreciation. Depreciation is computed over the estimated useful lives of the related assets primarily on a straight-line basis. Machinery and other equipment are depreciated over 3 to 20 years and buildings over 25 to 45 years. Leasehold improvements are depreciated over the life of the lease or the asset, whichever is shorter. Assets classified as held for sale are not depreciated. Upon retirement or disposition of property, plant and equipment, the related cost and accumulated depreciation or amortization are removed from the Company's accounts, and a gain or loss is recorded. Depreciation expense related to property, plant and equipment was \$68 million, \$64 million, and \$58 million for the years ended December 31, 2013, 2012, and 2011, respectively.

Valuation of Long-Lived Assets Long-lived assets such as property, plant and equipment, finite-lived intangible assets, and software are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable or in the period in which the held for sale criteria are met. For assets held and used, this analysis consists of comparing the asset's carrying value to the expected future cash flows to be generated from the asset on an undiscounted basis. If the carrying amount of the asset is determined not to be recoverable, a write-down to fair value is recorded. Fair values are determined based on quoted market values, discounted cash flows, or external appraisals, as applicable. Long-lived assets are reviewed for impairment at the individual asset or the asset group level for which the lowest level of independent cash flows can be identified.

Warranty and Sales Returns Provisions for product warranties and sales returns and allowances are recorded in the period in which NCR becomes obligated to honor the related right, which generally is the period in which the related product revenue is recognized. The Company accrues warranty reserves based upon historical factors such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts. When a sale is consummated, a warranty reserve is recorded based upon the estimated cost to provide the service over the warranty period. The Company accrues sales returns and allowances using percentages of revenue to reflect the Company's historical average of sales return claims.

Research and Development Costs Research and development costs primarily include payroll and benefit-related costs, contractor fees, facilities costs, infrastructure costs, and administrative expenses directly related to research and development support and are expensed as incurred, except certain software development costs are capitalized after technological feasibility of the software is established.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Leases The Company accounts for material escalation clauses, free or reduced rents and landlord incentives contained in operating type leases on a straight-line basis over the lease term, including any reasonably assured lease renewals. For leasehold improvements that are funded by the landlord, the Company records the incentive as deferred rent. The deferred rent is then amortized as reductions to lease expense over the lease term.

For capital leases where NCR is the lessee, we record an amortizable debt and a related fixed asset in the Consolidated Balance Sheet.

Pension, Postretirement and Postemployment Benefits NCR has significant pension, postretirement and postemployment benefit costs, which are developed from actuarial valuations. Actuarial assumptions are established to anticipate future events and are used in calculating the expense and liabilities relating to these plans. These factors include assumptions the Company makes about interest rates, expected investment return on plan assets, rate of increase in healthcare costs, total and involuntary turnover rates, and rates of future compensation increases. In addition, NCR also uses subjective factors, such as withdrawal rates and mortality rates to develop the Company's valuations. NCR generally reviews and updates these assumptions on an annual basis. NCR is required to consider current market conditions, including changes in interest rates, in making these assumptions. The actuarial assumptions that NCR uses may differ materially from actual results due to changing market and economic conditions, higher or lower withdrawal rates, or longer or shorter life spans of participants. These differences may result in a significant impact to the amount of pension, postretirement or postemployment benefits expense, and the related assets and liabilities, the Company has recorded or may record.

Foreign Currency For many NCR international operations, the local currency is designated as the functional currency. Accordingly, assets and liabilities are translated into U.S. Dollars at year-end exchange rates, and revenues and expenses are translated at average exchange rates prevailing during the year. Currency translation adjustments from local functional currency countries resulting from fluctuations in exchange rates are recorded in other comprehensive income. Where the U.S. Dollar is the functional currency, remeasurement adjustments are recorded in other (expense) income, net.

Derivative Instruments In the normal course of business, NCR enters into various financial instruments, including derivative financial instruments. The Company accounts for derivatives as either assets or liabilities in the Consolidated Balance Sheets at fair value and recognizes the resulting gains or losses as adjustments to earnings or other comprehensive income. The Company formally documents all relationships between hedging instruments and hedged items, as well as the risk management objective and strategy for undertaking various hedge transactions. Hedging activities are transacted only with highly rated institutions, reducing exposure to credit risk in the event of nonperformance. Additionally, the Company completes assessments related to the risk of counterparty nonperformance on a regular basis.

The accounting for changes in fair value of a derivative instrument depends on whether it has been designated and qualifies as part of a hedging relationship, and further, on the type of hedging relationship. For those derivative instruments that are designated and qualify as hedging instruments, the Company has designated the hedging instrument, based on the exposure being hedged, as a fair value hedge, a cash flow hedge or a hedge of a net investment in a foreign operation. For derivative instruments designated as fair value hedges, the effective portion of the hedge is recorded as an offset to the change in the fair value of the hedged item, and the ineffective portion of the hedge, if any, is recorded in the Consolidated Statement of Operations. For derivative instruments designated as cash flow hedges and determined to be highly effective, the gains or losses are deferred in other comprehensive income and recognized in the determination of income as adjustments of carrying amounts when the underlying hedged

transaction is realized, canceled or otherwise terminated. When hedging certain foreign currency transactions of a long-term investment nature (net investments in foreign operations) gains and losses are recorded in the currency translation adjustment component of accumulated other comprehensive income (loss). Gains and losses on foreign exchange contracts that are not used to hedge currency transactions of a long-term investment nature, or that are not designated as cash flow or fair value hedges, are recognized in other (expense) income, net as exchange rates change.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Fair Value of Assets and Liabilities Fair value is defined as an exit price, representing an amount that would be received to sell an asset or the amount paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the guidance prioritizes the inputs used to measure fair value into the following three-tier fair value hierarchy:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs, other than quoted prices in active markets, that are observable either directly or indirectly

Level 3: Unobservable inputs for which there is little or no market data

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurements. The Company reviews the fair value hierarchy classification on a quarterly basis. Changes to the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

NCR measures its financial assets and financial liabilities at fair value based on one or more of the following three valuation techniques:

Market approach: Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Cost approach: Amount that would be required to replace the service capacity of an asset (replacement cost).

Income approach: Techniques to convert future amounts to a single present amount based upon market expectations (including present value techniques, option pricing and excess earnings models).

We regularly review our investments to determine whether a decline in fair value, if any, below the cost basis is other than temporary. If the decline in the fair value is determined to be other than temporary, the cost basis of the security is written down to fair value and the amount of the write-down is included in the Consolidated Statement of Operations. For qualifying investments in debt or equity securities, a temporary impairment charge would be recognized in other comprehensive income (loss).

Environmental and Legal Contingencies In the normal course of business, NCR is subject to various proceedings, lawsuits, claims and other matters, including, for example, those that relate to the environment and health and safety, labor and employment, employee benefits, import/export compliance, intellectual property, data privacy and security, product liability, commercial disputes and regulatory compliance, among others. Additionally, NCR is subject to diverse and complex laws, regulations, and standards including those relating to corporate governance, public disclosure and reporting, environmental safety and the discharge of materials into the environment, product safety, import and export compliance, data privacy and security, antitrust and competition, government contracting, anti-corruption, and labor and human resources, which are rapidly changing and subject to many possible changes in the future. Compliance with these laws and regulations, including changes in accounting standards, taxation requirements, and federal securities laws among others, may create a substantial burden on, and substantially increase the costs to NCR or could have an impact on NCR's future operating results. NCR believes that the amounts provided in its Consolidated Financial Statements are adequate in light of the probable and estimable liabilities. However, there can be no assurances that the actual amounts required to satisfy alleged liabilities from various lawsuits, claims, legal proceedings and other matters, including the Fox River and Kalamazoo River environmental matters discussed in Note 10, "Commitments and Contingencies," and to comply with applicable laws and regulations, will not exceed the

amounts reflected in NCR's Consolidated Financial Statements or will not have a material adverse effect on the Company's consolidated results of operations, financial condition or cash flows. Any costs that may be incurred in excess of those amounts provided as of December 31, 2013 cannot currently be reasonably determined or are not currently considered probable.

Legal fees and expenses related to loss contingencies are typically expensed as incurred, except for certain costs associated with NCR's environmental remediation obligations. Costs and fees associated with litigating the extent and type of required remedial actions and the allocation of remediation costs among potentially responsible parties are typically included in the measurement of the environmental remediation liabilities.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Advertising Advertising costs are recognized in selling, general and administrative expenses when incurred.

Income Taxes Income tax expense is provided based on income before income taxes. Deferred income taxes reflect the impact of temporary differences between assets and liabilities recognized for financial reporting purposes and such amounts recognized for tax purposes. These deferred taxes are determined based on the enacted tax rates expected to apply in the periods in which the deferred assets or liabilities are expected to be settled or realized. NCR records valuation allowances related to its deferred income tax assets when it is more likely than not that some portion or all of the deferred income tax assets will not be realized.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the consolidated financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being sustained upon examination by authorities. Interest and penalties related to uncertain tax positions are recognized as part of the provision for income taxes and are accrued beginning in the period that such interest and penalties would be applicable under relevant tax law and until such time that the related tax benefits are recognized.

Redeemable Noncontrolling Interests In 2011, we sold a 49% voting equity interest in NCR Brasil - Indústria de Equipamentos para Automação S.A., a subsidiary of the Company (NCR Manaus) to Scopus Tecnologia Ltda. (Scopus) for a subscription price of approximately \$43 million. In the event NCR Manaus does not meet a defined financial performance goal during the five year period ending in 2016, Scopus may elect to put its noncontrolling interest to us for its then-current fair value.

Earnings Per Share Basic earnings per share is calculated by dividing net income by the weighted average number of shares outstanding during the reported period. The calculation of diluted earnings per share is similar to basic earnings per share, except that the weighted average number of shares outstanding includes the dilution from potential shares resulting from stock options and restricted stock awards. When calculating diluted earnings per share, the Company includes the potential windfall or shortfall tax benefits as well as average unrecognized compensation expense as part of the assumed proceeds from exercises of stock options. The Company uses the tax law ordering approach to determine the potential utilization of windfall benefits. The holders of unvested restricted stock awards do not have nonforfeitable rights to dividends or dividend equivalents and therefore, such unvested awards do not qualify as participating securities. See Note 8, "Employee Stock Compensation Plans" for share information on NCR's stock compensation plans.

The components of basic and diluted earnings per share attributable to NCR common stockholders are as follows for the years ended December 31:

In millions, except per share amounts	2013	2012	2011
Income (loss) from continuing operations	\$452	\$475	\$(97)
(Loss) income from discontinued operations, net of tax	(9)	6)	(93)
Net income (loss) attributable to NCR common stockholders	\$443	\$481	\$(190)
Weighted average outstanding shares of common stock	165.4	159.3	158.0
Dilutive effect of employee stock options and restricted stock	3.9	4.5	—
Diluted weighted average number of shares outstanding	169.3	163.8	158.0
Basic earnings (loss) per share:			
From continuing operations	\$2.73	\$2.98	\$(0.61)

Edgar Filing: NCR CORP - Form 10-K

From discontinued operations	(0.05) 0.04	(0.59)
Total basic earnings (loss) per share	\$2.68	\$3.02	\$(1.20)
Diluted earnings (loss) per share:				
From continuing operations	\$2.67	\$2.90	\$(0.61)
From discontinued operations	(0.05) 0.04	(0.59)
Total diluted earnings (loss) per share	\$2.62	\$2.94	\$(1.20)

For 2011, due to the net loss attributable to NCR common stockholders, potential common shares that would cause dilution, such as restricted stock and stock options, have been excluded from the diluted share count because their effect would have been anti-dilutive. For the year ended December 31, 2011, the fully diluted shares would have been 161.0 million shares.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

For 2013, there were no anti-dilutive options. For 2012 and 2011, outstanding options to purchase approximately 1.2 million, and 3.7 million shares of common stock, respectively, were not included in the diluted share count because the options' exercise prices were greater than the average market price of the underlying common shares and, therefore, the effect would have been anti-dilutive.

Stock Compensation Stock-based compensation represents the costs related to share-based awards granted to employees and non-employee directors. For all periods presented, the Company's outstanding stock-based compensation awards are classified as equity except for certain awards granted to non-employee directors. The Company measures stock-based compensation cost at the grant date, based on the estimated fair value of the award and recognizes the cost on a straight-line basis (net of estimated forfeitures) over the requisite service period. See Note 8, "Employee Stock Compensation Plans" for further information on NCR's stock-based compensation plans.

Related Party Transactions In 2011, concurrent with the sale of a noncontrolling interest in NCR Manaus to Scopus, we entered into a Master Purchase Agreement (MPA) with Banco Bradesco SA (Bradesco), the parent of Scopus. Through the MPA, Bradesco agreed to purchase up to 30,000 ATMs from us over the 5 year term of the agreement. Pricing of the ATMs will adjust over the term of the MPA using certain formulas which are based on prevailing market pricing. We recognized \$124 million, \$145 million and \$35 million in revenue related to Bradesco for the years ended December 31, 2013, 2012 and 2011, respectively, and we had \$9 million in receivables outstanding from Bradesco as of December 31, 2013 and 2012.

Recent Accounting Pronouncements

Adopted

In February 2013, the Financial Accounting Standards Board (FASB) issued an accounting standards update requiring new disclosures about reclassifications from accumulated other comprehensive loss to net income. These disclosures may be presented on the face of the statements or in the notes to the consolidated financial statements. The standards update is effective for fiscal years beginning after December 15, 2012. We adopted this standards update and included the additional disclosure, as required, beginning with the first quarter of 2013. See Note 15, "Accumulated Other Comprehensive Income (Loss)" for further information.

Issued

In February 2013, the FASB issued changes to the accounting for obligations resulting from joint and several liability arrangements. These changes require an entity to measure those joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date. The total amount of the obligation is determined as the sum of (i) the amount the reporting entity agreed to pay on the basis of its arrangement with its co-obligors, and (ii) any additional amount the reporting entity expects to pay on behalf of its co-obligors. The guidance also requires an entity to disclose the nature and amount of the obligation as well as other information about the obligation. Examples of obligations subject to these requirements include debt arrangements, settled litigation and judicial rulings. The amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013, with early adoption permitted. The implementation of the amended accounting guidance on January 1, 2014 is not expected to have a material impact on our consolidated financial statements.

In March 2013, the FASB issued amendments to address the accounting for the cumulative translation adjustment when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial

interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. The amendments are effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013, with early adoption permitted. The initial adoption on January 1, 2014 is not expected to have a material impact on our consolidated financial statements.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

2. PENSION BENEFIT PLAN ACCOUNTING METHODOLOGY CHANGES

Effective in the first quarter of 2013, we elected to change our accounting methodology for recognizing costs for all of our company-sponsored U.S. and international pension benefit plans. Previously, net actuarial gains or losses (except those differences not yet reflected in the market-related value) were only amortized to the extent that they exceeded 10% of the higher of the market-related value or the projected benefit obligation of each respective plan. Beginning in 2012, the losses associated with the U.S. qualified pension plan and our largest UK pension plan were amortized over the expected remaining lifetime of plan participants instead of the expected service period of active plan participants, because almost all of the participants were inactive. For our other U.S. and international plans, the gains or losses were amortized over the expected service period of the active plan participants. Further, the expected return on plan assets component of pension expense for our U.S. pension plan was previously determined using the expected rate of return and a calculated value of assets, referred to as the “market-related value.” Differences between the assumed and actual returns were reflected in market-related value on a straight-line basis over a 5-year period. Differences in excess of 10% of the market value were recognized immediately. Similar approaches were employed in determining expense for NCR's international plans.

Under our new pension accounting methods, we will recognize changes in the fair value of plan assets and net actuarial gains or losses upon remeasurement, which is at least annually in the fourth quarter of each year. These new accounting methods will result in changes in the fair value of plan assets and net actuarial gains and losses being recognized in expense faster than under our previous amortization method. The remaining components of pension expense, primarily net service cost, interest cost, and the expected return on plan assets, will be recorded on a quarterly basis as ongoing pension expense. While our previous policy of recognizing pension expense was acceptable, we believe that these new policies are preferable as they accelerate the recognition in our operating results of changes in the fair value of plan assets and actuarial gains and losses.

These changes have been reported through retrospective application of the new policies to all periods presented. We recorded a cumulative reduction of retained earnings as of December 31, 2010 (the most recent measurement date prior to the change) of \$1,297 million related to these changes in accounting methodology. The impact of all adjustments made to the financial statements presented is summarized below (amounts in millions, except per share data):

4. BUSINESS COMBINATIONS AND DIVESTITURES

2013 Acquisitions

Following is a brief description of the Company's noteworthy acquisitions completed during the 2013 fiscal year:

Acquisition of Retalix Ltd. On February 6, 2013, NCR completed the acquisition of Retalix Ltd. ("Retalix"), for which it paid an aggregate cash purchase price of \$791 million which includes \$3 million to be recognized as compensation expense within selling, general and administrative expenses over a period of approximately three years from the acquisition date. The purchase price was paid from the net proceeds of the December 2012 offer and sale of NCR's 4.625% senior unsecured notes and borrowings under NCR's senior secured credit facility. As a result of the acquisition, Retalix became an indirect wholly owned subsidiary of NCR. Retalix is a leading global provider of innovative retail software. The acquisition is consistent with NCR's continued transformation to a hardware-enabled, software-driven business. Retalix's strength with blue-chip retailers is highly complementary and provides additional sales opportunities across the combined installed base.

Recording of Assets Acquired and Liabilities Assumed

The fair value of consideration transferred to acquire Retalix was allocated to the identifiable assets acquired and liabilities assumed based upon their estimated fair market values as of the date of the acquisition as set forth below. This allocation is final as of December 31, 2013.

The allocation of the purchase price for Retalix is as follows:

In millions	Fair Value
Cash and cash equivalents	\$127
Accounts receivable	107
Other tangible assets	56
Acquired goodwill	461
Acquired intangible assets other than goodwill	205
Deferred tax liabilities	(52)
Liabilities assumed	(116)
Total purchase consideration	\$788

Goodwill represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. The goodwill arising from the acquisition consists of the margin and cost synergies expected from combining the operations of NCR and Retalix. It is expected that approximately \$35 million of the goodwill recognized in connection with the acquisition will be deductible for tax purposes. The goodwill arising from the acquisition has been allocated to the Retail Solutions segment. Refer to Note 5, "Goodwill and Other Long-Lived Assets" for the carrying amounts of goodwill by segment as of December 31, 2013.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The intangible assets acquired in the acquisition include the following:

	Estimated Fair Value (In millions)	Weighted Average Amortization Period ⁽¹⁾ (years)
Direct customer relationships	\$121	20
Technology - Software	74	5
Trademarks	10	6
Total acquired intangible assets	\$205	14

Determination of the weighted average amortization period of the individual categories of intangible assets was based on the nature of the applicable intangible asset and the expected future cash flows to be derived from the intangible asset. Amortization of intangible assets with definite lives is recognized over the period of time the assets are expected to contribute to future cash flows.

The Company incurred a total of \$9 million of transaction expenses to date relating to the acquisition, of which \$6 million and \$3 million are included in selling, general and administrative expenses in the Company's Consolidated Statement of Operations for the years ended December 31, 2013 and 2012, respectively. See Note 13, "Segment Information and Concentrations" for additional information regarding revenues and operating income related to Retailix for the year ended December 31, 2013.

Unaudited Pro forma Information

The following unaudited pro forma information presents the consolidated results of NCR and Retailix for the years ended December 31, 2013 and 2012. The unaudited pro forma information is presented for illustrative purposes only. It is not necessarily indicative of the results of operations of future periods, or the results of operations that actually would have been realized had the entities been a single company during the periods presented or the results that the combined company will experience after the acquisition. The unaudited pro forma information does not give effect to the potential impact of current financial conditions, regulatory matters or any anticipated synergies, operating efficiencies or cost savings that may be associated with the acquisition. The unaudited pro forma information also does not include any integration costs or remaining future transaction costs that the companies may incur related to the acquisition as part of combining the operations of the companies.

The unaudited pro forma consolidated results of operations, assuming the acquisition had occurred on January 1, 2012, are as follows:

In millions	For the year ended December 31	
	2013	2012
Revenue	\$6,156	\$5,992
Net income attributable to NCR	\$447	\$443

The unaudited pro forma results for the year ended December 31, 2013 include:

\$13 million in additional revenue associated with deferred revenue acquired, assuming the deferred revenue was acquired on January 1, 2012,

\$2 million, net of tax, in additional amortization expense for acquired intangible assets and

\$5 million, net of tax, in eliminated transaction costs as if those costs had been recognized in the prior-year period.

The unaudited pro forma results for the year ended December 31, 2012 include:

\$16 million in reduced revenue associated with deferred revenue acquired,

\$15 million, net of tax, in additional amortization expense for acquired intangible assets,

\$20 million, net of tax, in interest expense from the 4.625% senior unsecured notes and senior secured credit facility,
and

\$5 million, net of tax, in transaction costs.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Acquisition of Alaric Systems Limited On December 2, 2013, the Company acquired all of the outstanding share capital of Alaric Systems Limited ("Alaric Systems") in exchange for approximately \$84 million, plus related acquisition costs. Alaric Systems is a provider of secure transaction switching and fraud prevention software. Goodwill recognized related to this acquisition was \$55 million, of which it is expected that zero will be deductible for tax purposes. The goodwill and their results from the date of acquisition has been reported within our Financial Services segment. As a result of the Alaric Systems acquisition, NCR recorded \$37 million related to identifiable intangible assets consisting primarily of proprietary technology and customer relationships, which have a weighted-average amortization period of 8 years. Supplemental pro forma information and actual revenue and earnings since the acquisition date have not been provided as this acquisition did not have a material impact on the Company's Consolidated Statements of Operations.

Other Acquisitions During the year ended December 31, 2013, the Company completed five additional acquisitions for aggregate purchase consideration of approximately \$38 million, plus related acquisition costs. Approximately \$6 million was withheld by the Company as a source of recovery for possible claims under the related acquisition agreements and will be paid to the respective sellers pursuant to the terms of such agreements. Goodwill recognized related to these acquisitions was \$23 million, of which it is expected that \$19 million will be deductible for tax purposes. The goodwill arising from these acquisitions has been allocated to the Hospitality segment. As a result of these five additional acquisitions, NCR recorded \$14 million related to identifiable intangible assets consisting primarily of customer relationships, which have a weighted-average amortization period of 3 years. Supplemental pro forma information and actual revenue and earnings since the acquisition dates have not been provided as these acquisitions did not have a material impact, individually or in the aggregate, on the Company's Consolidated Statements of Operations.

2012 Acquisitions

Following is a brief description of the Company's noteworthy acquisitions completed during the 2012 fiscal year:

Acquisition of POS and RDS On February 7, 2012, the Company acquired all of the outstanding capital stock of POS Integrated Solutions Do Brasil Comercio E Servicos De Informatica S.A. ("POS") and RDS South America Comercio E Servicos De Informatica S.A. ("RDS") for aggregate purchase consideration of approximately \$1 million, plus related acquisition costs. POS and RDS were resellers of certain of the Company's hardware and software, and their results have been reported within our Hospitality segment since the date of the acquisitions.

Acquisition of Wyse Sistemas de Informatica Ltda. On May 31, 2012, the Company acquired all of the outstanding units of membership interest of Wyse Sistemas de Informatica Ltda. ("Wyse") for aggregate purchase consideration of approximately \$13 million, plus related acquisition costs. Wyse was a developer and provider of point of sale software specifically designed for the hospitality market in Brazil, and their results have been reported within our Hospitality segment since the date of the acquisition.

Hospitality Reseller Acquisitions During 2012, the Company acquired the assets of six of its domestic Hospitality resellers in separate transactions for aggregate purchase consideration of approximately \$28 million, plus related acquisition costs.

Acquisition of Transoft, Inc. On September 7, 2012, the Company acquired substantially all of the assets of Transoft, Inc. for aggregate purchase consideration of approximately \$40 million, plus related acquisition costs, of which the

Company will recognize \$7 million as compensation expense included within selling, general and administrative expenses over a period of two years from the acquisition date. Transoft, Inc. was a global leader in cash management software for financial institutions, and their results have been reported within our Financial Services segment since the date of the acquisition.

Acquisition of uGenius Technology, Inc. On, December 31, 2012, the Company acquired substantially all of the assets of uGenius Technology, Inc. (uGenius) for aggregate purchase consideration of approximately \$37 million, including the settlement of NCR's pre-existing 8.7% equity investment in uGenius Technology, LLC, plus related acquisition costs. uGenius was a provider of video banking solutions, and their results have been reported within our Financial Services segment since the date of the acquisition.

Approximately \$11 million of the aggregate purchase consideration was withheld by the Company as a source of recovery for possible claims under the acquisition agreements for the 2012 acquisitions noted above, and will be paid to the respective sellers pursuant to the terms of such agreements. As a result of the above noted 2012 acquisitions, NCR recorded \$34 million related to identifiable intangible assets consisting primarily of proprietary technology and customer relationships, which have a weighted-average amortization period of 7 years.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The operating results of the businesses acquired in 2012 have been included within NCR's results as of the closing date of each acquisition. Supplemental pro forma information and actual revenue and earnings since the acquisition dates have not been provided as these acquisitions did not have a material impact, individually or in the aggregate, on the Company's Consolidated Statements of Operations. The purchase price of these businesses, reported in business acquisitions, net of cash acquired within investing activities in the Consolidated Statements of Cash Flows, has been allocated based on the estimated fair value of net tangible and intangible assets acquired, with any excess recorded as goodwill. Goodwill recognized in the Company's 2012 acquisitions was \$85 million, of which it is expected that \$55 million of the goodwill will be deductible for tax purposes.

2011 Acquisitions

Following is a brief description of the Company's noteworthy acquisitions completed during the 2011 fiscal year:

Acquisition of Radiant Systems, Inc. On August 24, 2011, NCR completed the acquisition of Radiant Systems, Inc. (Radiant). The acquisition was completed through a tender offer and subsequent merger, with Radiant becoming a wholly-owned subsidiary of NCR. The total equity purchase price was approximately \$1.2 billion.

Radiant was a leading provider of technology solutions for managing site operations in the hospitality and specialty retail industries, and is operated within NCR as a part of NCR's Hospitality line of business.

Recording of Assets Acquired and Liabilities Assumed

The fair value of consideration transferred to acquire Radiant was allocated to the identifiable assets acquired and liabilities assumed based upon their fair values as of the date of the acquisition as set forth below. This allocation is final as of December 31, 2011.

In millions

Purchase Consideration	Net Tangible Assets Acquired/(Liabilities Assumed)	Purchased Intangible Assets	Goodwill
\$1,206	\$78	\$319	\$809

The goodwill arising from the acquisition consists of the revenue and cost synergies expected from combining the operations of NCR and Radiant. It is expected that approximately \$73 million of the goodwill recognized in connection with the acquisition will be deductible for tax purposes. The goodwill arising from the acquisition has been allocated as follows: approximately \$624 million to the Hospitality segment; \$86 million to the Financial Services segment; and \$99 million to the Retail Solutions segment.

See Note 5, "Goodwill and Other Long-Lived Assets" for additional information related to the carrying amounts of goodwill by segment.

The intangible assets acquired include the following:

	Estimated Fair Value (In millions)	Weighted Average Amortization Period ⁽¹⁾ (years)
Reseller Network	88	13
Technology - Software and Hardware	106	6
Trademarks	48	9
Direct customer relationships	74	15
Noncompete agreements	2	2

Internally developed software	1	2
Total acquired intangible assets	\$319	

(1) Determination of the weighted average amortization period of the individual categories of intangible assets was based on the nature of the applicable intangible asset and the expected future cash flows to be derived from the intangible asset. Amortization of intangible assets with definite lives is recognized over the period of time the assets are expected to contribute to future cash flows.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The Company incurred a total of \$30 million of transaction expenses relating to the acquisition, which are included in selling, general and administrative expenses in the results of operations for the year ended December 31, 2011. See Note 13, "Segment Information and Concentrations" for additional information regarding revenues and operating income related to Radiant for the year ended December 31, 2011.

Unaudited Pro forma Information

The following unaudited pro forma information presents the consolidated results of NCR and Radiant for the year ended December 31, 2011. The unaudited pro forma information is presented for illustrative purposes only. It is not necessarily indicative of the results of operations of future periods, or the results of operations that actually would have been realized had the entities been a single company during the periods presented or the results that the combined company will experience after the acquisition. The unaudited pro forma information does not give effect to the potential impact of current financial conditions, regulatory matters or any anticipated synergies, operating efficiencies or cost savings that may be associated with the acquisition. The unaudited pro forma information also does not include any integration costs or remaining future transaction costs that the companies may incur related to the acquisition as part of combining the operations of the companies.

The unaudited pro forma consolidated results of operations, assuming the acquisition had occurred on January 1, 2010, are as follows:

In millions	Year ended December 31, 2011
Revenue	\$ 5,538
Net income attributable to NCR	\$ (179)

The unaudited pro forma results for the year ended December 31, 2011 include:

- \$25 million, net of tax, in additional amortization expense for acquired intangible assets,
- \$37 million, net of tax, in eliminated transaction costs as if those costs had been recognized in the prior-year period,
- \$10 million, net of tax, in additional interest expense from the senior secured credit facility, and
- \$7 million, net of tax, in eliminated accelerated vesting of stock options and restricted stock unit compensation expense directly attributable to the acquisition.

Divestitures

On February 3, 2012, NCR entered into an Asset Purchase Agreement (the "Agreement") with Redbox Automated Retail, LLC ("Purchaser") pursuant to which NCR agreed to sell certain assets of its Entertainment business (the "Entertainment Business"), including, but not limited to, substantially all of NCR's DVD kiosks, certain retailer contracts, select DVD inventory and certain intellectual property to Purchaser (the "Transaction"). Pursuant to the terms of the Agreement, as amended on June 22, 2012, and upon the terms and conditions thereof, on June 22, 2012, NCR completed the disposition of the assets of its Entertainment Business to Purchaser for cash consideration of \$100 million. As of the date of the sale, total assets sold of \$67 million included \$51 million of property, plant and equipment, \$15 million of inventory, and \$1 million of intangible assets.

NCR agreed to provide Purchaser with certain short-term support services following the closing under a transition services agreement. The Agreement also contemplates that, for a period of five years following the closing, Purchaser and its affiliates may procure certain hardware, software and services from NCR under a manufacturing and services agreement. If, at the end of such five-year period, Purchaser and its affiliates have not procured hardware, software and services that have yielded \$25 million in margin to NCR, Purchaser will pay the difference to NCR.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

We determined that the cash inflows under the transition services agreement and the manufacturing and services agreement will not constitute significant continuing involvement with the operations of the Entertainment Business after the sale. In addition, the ongoing cash inflows related to the Entertainment Business under the manufacturing and services agreement are substantially unrelated to the business sold. Therefore, we have reclassified the operating results of the Entertainment Business, for all historical periods, to income (loss) from discontinued operations, net of tax in the accompanying Consolidated Statements of Operations. During the year ended December 31, 2011, we determined that disposal of the Entertainment business was probable, and we assessed the assets of the business for impairment, which resulted in charges which reduced the carrying values of goodwill, long-lived assets and certain inventories by an aggregate amount of \$88 million.

The following table includes the results of the Entertainment Business, which we historically included in our Entertainment segment:

In millions	For the year ended	
	December 31	
	2012	2011
Revenue	\$62	\$152
Operating expenses	101	299
Loss from operations	(39)	(147)
Gain from divestiture of the business	33	—
Loss before income taxes	(6)	(147)
Income tax benefit	(2)	(51)
Loss from discontinued operations, net of tax	\$(4)	\$(96)

Long-Lived Assets

NCR's identifiable intangible assets, reported in other assets in the Consolidated Balance Sheets, were specifically identified when acquired, and are deemed to have finite lives. The gross carrying amount and accumulated amortization for NCR's identifiable intangible assets were as follows. The increase in the gross carrying amount is primarily due to the acquisitions detailed in Note 4, "Business Combinations and Divestitures."

In millions	Amortization Period (in Years)	December 31, 2013		December 31, 2012	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Identifiable intangible assets					
Reseller & customer relationships	1 - 20	\$328	\$(37)	\$179	\$(17)
Intellectual property	2 - 7	275	(118)	180	(80)

6. DEBT OBLIGATIONS

Short-Term Borrowings

The following table summarizes the Company's short-term borrowings:

In millions, except percentages	December 31, 2013		December 31, 2012	
	Amount	Weighted-Average Interest Rate	Amount	Weighted-Average Interest Rate
Current portion of Senior Secured Credit Facility ⁽¹⁾	\$28	2.55%	\$70	3.06%
Other ⁽²⁾	6	7.11%	2	3.22%
Total short-term borrowings	\$34		\$72	

Long-Term Debt

The following table summarizes the Company's long-term debt:

In millions, except percentages	December 31, 2013		December 31, 2012	
	Amount	Weighted-Average Interest Rate	Amount	Weighted-Average Interest Rate
Senior Secured Credit Facility:				
Term loan facility due 2018 ⁽¹⁾	\$1,087	2.55%	\$780	3.06%
Revolving credit facility due 2018	—		—	
Senior notes:				
5.00% Senior Notes due 2022	600		600	
4.625% Senior Notes due 2021	500		500	
5.875% Senior Notes due 2021	400		—	
6.375% Senior Notes due 2023	700		—	
Other ⁽²⁾	33	7.21%	11	6.13%
Total long-term debt	\$3,320		\$1,891	

Interest rates are weighted average interest rates as of December 31, 2013 and 2012 related to the Senior Secured

⁽¹⁾ Credit Facility, which incorporates the impact of the interest rate swap. Refer to Note 11, "Derivatives and Hedging Instruments," for additional details.⁽²⁾ Interest rates are weighted average interest rates as of December 31, 2013 and 2012 primarily related to various international credit facilities and a note payable in the U.S.

Senior Secured Credit Facility In August 2011, the Company entered into a senior secured credit facility with JPMorgan Chase Bank, NA (JPMCB), as administrative agent, and a syndicate of lenders. On July 25, 2013, the Company amended and restated the senior secured credit facility, and refinanced its term loan facility and revolving credit facility thereunder. On December 4, 2013, in connection with the then pending acquisition of Digital Insight, the senior secured credit facility was further amended (as amended, the Senior Secured Credit Facility). As of December 31, 2013, the Senior Secured Credit Facility consisted of a term loan facility in an aggregate principal amount of \$1.12 billion, and a revolving credit facility in an aggregate principal amount of \$850 million. The revolving credit facility also allows a portion of the availability to be used for outstanding letters of credit, and as of December 31, 2013, outstanding letters of credit totaled approximately \$22 million.

On December 4, 2013, in connection with the amendment of the Senior Secured Credit Facility, the Company entered into an Incremental Facility Agreement with and among the lenders party thereto and JPMCB, as administrative agent. The Incremental Facility Agreement created an additional \$250 million of term loan commitments, which were drawn, along with \$300 million from the revolving credit facility, on January 10, 2014 in connection with the completion of the acquisition of Digital Insight. Refer to Note 18, "Subsequent Events" for further details.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The outstanding principal balance of the term loan facility is required to be repaid in equal quarterly installments in annual amounts. As of December 31, 2013, the repayment schedule required quarterly installments of approximately \$14 million beginning September 30, 2014, approximately \$21 million beginning September 30, 2015, and approximately \$28 million beginning September 30, 2016, with the balance being due at maturity on July 25, 2018. Borrowings under the revolving portion of the credit facility are due July 25, 2018. Amounts outstanding under the Senior Secured Credit Facility bear interest, at the Company's option, at a base rate equal to the highest of (i) the federal funds rate plus 0.50%, (ii) the administrative agent's "prime rate" and (iii) the one-month LIBOR rate plus 1.00% (the Base Rate) or LIBOR, plus a margin ranging from 0.25% to 1.25% for Base Rate-based loans that are either term loans or revolving loans and ranging from 1.25% to 2.25% for LIBOR-based loans that are either term loans or revolving loans, depending on the Company's consolidated leverage ratio. The terms of the Senior Secured Credit Facility also require certain other fees and payments to be made by the Company, including a commitment fee on the undrawn portion of the revolving credit facility.

The Company's obligations under the Senior Secured Credit Facility are guaranteed by certain of its wholly-owned domestic subsidiaries. The Senior Secured Credit Facility and these guarantees are secured by a first priority lien and security interest in certain equity interests owned by the Company and the guarantor subsidiaries in certain of their respective domestic and foreign subsidiaries, and a perfected first priority lien and security interest in substantially all of the Company's U.S. assets and the assets of the guarantor subsidiaries, subject to certain exclusions. These security interests would be released if the Company achieves an "investment grade" rating, and will remain released so long as the Company maintains that rating.

The Senior Secured Credit Facility includes affirmative and negative covenants that restrict or limit the ability of the Company and its subsidiaries to, among other things, incur indebtedness; create liens on assets; engage in certain fundamental corporate changes or changes to the Company's business activities; make investments; sell or otherwise dispose of assets; engage in sale-leaseback or hedging transactions; repurchase stock, pay dividends or make similar distributions; repay other indebtedness; engage in certain affiliate transactions; or enter into agreements that restrict the Company's ability to create liens, pay dividends or make loan repayments. The Senior Secured Credit Facility also includes financial covenants that require us to maintain:

a consolidated leverage ratio on the last day of any fiscal quarter, not to exceed (i) in the case of any fiscal quarter ending on or prior to June 30, 2014, 4.85 to 1.00, (ii) in the case of any fiscal quarter ending after June 30, 2014 and on or prior to December 31, 2014, (a) the sum of (x) 4.50 and (y) an amount (not to exceed 0.25) to reflect new debt used to reduce NCR's underfunded pension liabilities, to (b) 1.00, (iii) in the case of any fiscal quarter ending after December 31, 2014 and on or prior to December 31, 2016, (a) the sum of (x) 4.25 and (y) an amount (not to exceed 0.50) to reflect new debt used to reduce NCR's underfunded pension liabilities, to (b) 1.00, (iv) in the case of any fiscal quarter ending after December 31, 2016 and on or prior to December 31, 2017, 4.00 to 1.00, and (v) in the case of any fiscal quarter ending after December 31, 2017, 3.75 to 1.00; and

an interest coverage ratio on the last day of any fiscal quarter to be less than (i) in the case of any fiscal quarter ending on or prior to December 31, 2014, 3.00 to 1.00, and (ii) in the case of any fiscal quarter ending after December 31, 2014, 3.50 to 1.00.

The Senior Secured Credit Facility also contains events of default, which are customary for similar financings. Upon the occurrence of an event of default, the lenders may, among other things, terminate the loan commitments, accelerate all loans and require cash collateral deposits in respect of outstanding letters of credit.

The Company may request, at any time and from time to time, but the lenders are not obligated to fund, the establishment of one or more incremental term loans and/or revolving credit facilities (subject to the agreement of existing lenders or additional financial institutions to provide such term loan and/or revolving credit facilities) with commitments in an aggregate amount not to exceed the greater of (i) \$150 million, and (ii) such amount as would not (a) prior to the date that the Company obtains an investment grade rating cause the leverage ratio under the Senior

Secured Credit Facility, calculated on a pro forma basis including the incremental facility and assuming that it and the revolver are fully drawn, to exceed 2.50 to 1.00, and (b) on and after the date that the Company obtains an investment grade rating cause the leverage ratio under the Senior Secured Credit Facility, calculated on a pro forma basis including the incremental facility and assuming that it and the revolver are fully drawn, to exceed a ratio that is 0.50 less than the leverage ratio then applicable under the financial covenants of the Senior Secured Credit Facility, the proceeds of which can be used for working capital requirements and other general corporate purposes.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Senior Unsecured Notes On September 17, 2012, the Company issued \$600 million aggregate principal amount of 5.00% senior unsecured notes due in 2022 (the 5.00% Notes) and on December 18, 2012, the Company issued \$500 million aggregate principal amount of 4.625% senior unsecured notes due in 2021 (the 4.625% Notes). On December 19, 2013, the Company, through its newly formed wholly owned subsidiary, NCR Escrow Corp., issued \$400 million aggregate principal amount of 5.875% senior unsecured notes due in 2021 (the 5.875% Notes) and \$700 million aggregate principal amount of 6.375% senior unsecured notes due in 2023 (the 6.375% Notes). The aggregate principal amount from the 5.875% and 6.375% Notes was initially deposited into a segregated escrow account of NCR Escrow Corp., and was held in that escrow account at December 31, 2013 to be used solely for the pending acquisition of Digital Insight Corporation. The aggregate principal amount plus accrued interest funded to the escrow account have therefore been classified as restricted cash in the Consolidated Balance Sheet as of December 31, 2013. Refer to Note 18, "Subsequent Events" for additional details.

The senior unsecured notes are guaranteed, fully and unconditionally, on an unsecured senior basis, by our subsidiary, NCR International, Inc. Effective, December 31, 2013, Radiant Systems, Inc., formerly a guarantor subsidiary of certain of the senior unsecured notes and, in such capacity, a party to the registration rights agreements described below, was merged with and into the Company with the Company continuing as the surviving corporation.

The Company has the option to redeem the 5.00% Notes, in whole or in part, at any time on or after July 15, 2017, at a redemption price of 102.5%, 101.667%, 100.833% and 100% during the 12-month periods commencing on July 15, 2017, 2018, 2019 and 2020 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to July 15, 2017, the Company may redeem the 5.00% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. Prior to July 15, 2015, the Company may redeem the 5.00% Notes in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the notes originally issued at a redemption price of 105% plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more qualified equity offerings under certain further requirements.

The Company has the option to redeem the 4.625% Notes, in whole or in part, at any time on or after February 15, 2017, at a redemption price of 102.313%, 101.156% and 100% during the 12-month periods commencing on February 15, 2017, 2018 and 2019 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to February 15, 2017, the Company may redeem the 4.625% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. Prior to February 15, 2016, the Company may redeem the 4.625% Notes in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the notes originally issued at a redemption price of 104.625% plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more qualified equity offerings under certain further requirements.

The Company has the option to redeem the 5.875% Notes, in whole or in part, at any time on or after December 15, 2017, at a redemption price of 102.938%, 101.469% and 100% during the 12-month periods commencing on December 15, 2017, 2018 and 2019 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to December 15, 2017, the Company may redeem the 5.875% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. Prior to December 15, 2016, the Company may redeem the 5.875% Notes in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the notes originally issued at a redemption price of 105.875% plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more qualified equity offerings under certain further requirements.

The Company has the option to redeem the 6.375% Notes, in whole or in part, at any time on or after December 15, 2018, at a redemption price of 103.188%, 102.125%, 101.063% and 100% during the 12-month periods commencing on December 15, 2018, 2019, 2020 and 2021 and thereafter, respectively, plus accrued and unpaid interest to the redemption date. Prior to December 15, 2018, the Company may redeem the 6.375% Notes, in whole or in part, at a redemption price equal to 100% of the principal amount plus a make-whole premium and accrued and unpaid interest to the redemption date. Prior to December 15, 2016, the Company may redeem the 6.375% Notes in an aggregate principal amount not to exceed 35% of the aggregate principal amount of the notes originally issued at a redemption price of 106.375% plus accrued and unpaid interest to the redemption date, with the net cash proceeds from one or more qualified equity offerings under certain further requirements.

The terms of the indentures for these senior unsecured notes limit the ability of the Company and certain of its subsidiaries to, among other things, incur additional debt or issue redeemable preferred stock; pay dividends or make certain other restricted payments or investments; incur liens; sell assets; incur restrictions on the ability of the Company's subsidiaries to pay dividends to the Company; enter into affiliate transactions; engage in sale and leaseback transactions; and consolidate, merge, sell or otherwise dispose of all or substantially all of the Company's assets. These covenants are subject to significant exceptions and qualifications.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

For example, if the senior unsecured notes are assigned an investment grade rating by Moody's or S&P and no default has occurred or is continuing, certain covenants will be terminated.

In connection with the issuances of the 5.875% and 6.375% Notes, the Company entered into registration rights agreements with J.P. Morgan Securities LLC as representative of the initial purchasers of the applicable notes, and NCR International, Inc. and Radiant Systems, Inc. in their capacities as future subsidiary guarantors. Each registration rights agreement requires the Company and the subsidiary guarantors, at their cost, to among other things:

- use their commercially reasonable efforts to file a registration statement on an appropriate registration form with respect to a registered offer to exchange the notes for new notes that are guaranteed by the guarantors with terms substantially identical in all material respects to the notes (except that the exchange notes will not contain terms with respect to transfer restrictions or any increase in annual interest rate);

- use their commercially reasonable efforts to cause the registration statement to become effective under the Securities Act of 1933, as amended; and

- promptly after the applicable registration statement is effective, commence an exchange offer.

In addition, under certain circumstances, the Company and the subsidiary guarantors may be required to file shelf registration statements to cover sales of the notes by their holders.

If the Company and the subsidiary guarantors do not comply with their registration statement and exchange offer obligations under a registration rights agreement, then additional interest shall accrue on the principal amount of the notes that are registrable securities (as defined in each registration rights agreement) at a rate of 0.25% per annum for the first 90-day period beginning on the day immediately following such registration default (which rate will be increased by an additional 0.25% per annum for each subsequent 90-day period that such additional interest continues to accrue, provided that the rate at which such additional interest accrues may in no event exceed 1.00% per annum).

Debt Maturities Maturities of long-term debt outstanding, in principal amounts, at December 31, 2013 are summarized below:

In millions	Total	For the years ended December 31					Thereafter
		2014	2015	2016	2017	2018	
Debt maturities	\$3,354	\$34	\$76	\$104	\$118	\$814	\$2,208

Fair Value of Debt

The fair value of debt is based on a discounted cash flow model that incorporates a market yield curve based on the Company's credit rating with adjustments for duration. As of December 31, 2013 and 2012, the fair value of debt was \$3.33 billion and \$1.97 billion, respectively, and has been measured using significant other observable inputs (Level 2).

7. INCOME TAXES

For the years ended December 31, income (loss) from continuing operations before income taxes consisted of the following:

In millions	2013	2012	2011
Income (loss) before income taxes			
United States	\$29	\$280	\$(418)
Foreign	525	418	254
Total income (loss) from continuing operations before income taxes	\$554	\$698	\$(164)

For the years ended December 31, income tax expense (benefit) consisted of the following:

In millions	2013	2012	2011
Income tax expense (benefit)			
Current			
Federal	\$(13)) \$6	\$2
State	3	—	1
Foreign	105	73	61

Total income tax expense (benefit)	\$98	\$223	\$(66)

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

NCR's tax provisions include a provision for income taxes in certain tax jurisdictions where its subsidiaries are profitable, but reflect only a portion of the tax benefits related to certain foreign subsidiaries' tax losses due to the uncertainty of the ultimate realization of future benefits from these losses. During 2013, we recorded a one-time benefit of approximately \$16 million in connection with the American Taxpayer Relief Act of 2012 that was signed into law in January 2013 and the related retroactive tax relief for certain law provisions that expired in 2012. The 2013 tax provision was also favorably impacted by the release of a \$10 million valuation allowance due to the implementation of a tax planning strategy to access certain deferred tax assets, a \$15 million reduction in a valuation allowance related to a subsidiary in Japan, and a favorable mix of earnings by country, primarily related to lower pension benefit. During 2012, we favorably settled examinations with Canada for the 2003 tax year and Japan for tax years 2001 through 2006 that resulted in tax benefits of \$14 million and \$13 million, respectively. In addition, the 2012 tax provision was favorably impacted by the mix of earnings by country. These benefits were partially offset by an increase of \$17 million to the U.S. valuation allowance. During 2011, we favorably settled examinations with Canada for 1997 through 2001 that resulted in a \$12 million tax benefit.

Deferred income tax assets and liabilities included in the Consolidated Balance Sheets as of December 31 were as follows:

In millions	2013	2012
Deferred income tax assets		
Employee pensions and other benefits	\$119	\$322
Other balance sheet reserves and allowances	170	140
Tax loss and credit carryforwards	719	628
Capitalized research and development	101	86
Property, plant and equipment	7	8
Other	52	54
Total deferred income tax assets	1,168	1,238
Valuation allowance	(364)	(399)
Net deferred income tax assets	804	839
Deferred income tax liabilities		
Intangibles	125	83
Capitalized software	20	16
Other	7	11
Total deferred income tax liabilities	152	110
Total net deferred income tax assets	\$652	\$729

NCR recorded valuation allowances related to certain deferred income tax assets due to the uncertainty of the ultimate realization of the future benefits from those assets. The valuation allowances cover deferred tax assets, primarily tax loss carryforwards, in tax jurisdictions where there is uncertainty as to the ultimate realization of a benefit from those tax losses. At December 31, 2013, our net deferred tax assets in the United States totaled approximately \$555 million. For the three year period ended December 31, 2013, we had a cumulative net loss from continuing operations before income taxes, which is generally considered a negative indicator about our ability to realize the benefits of those assets. We further evaluated the realizability of the U.S. deferred tax assets by weighing other positive and negative evidence, including our history of taxable income in the U.S., and the substantial length of time over which our deferred tax assets relating to net operating losses and employee pensions may be realized. Through this assessment, realization of the related benefits was determined to be more likely than not. If we are unable to generate sufficient future taxable income in the time period within which the temporary differences underlying our deferred tax assets become deductible, or before the expiration of our loss and credit carryforwards, additional valuation allowance could

be required.

As of December 31, 2013, NCR had U.S. federal and foreign tax attribute carryforwards of approximately \$1.8 billion. The net operating loss carryforwards, subject to expiration, expire in the years 2014 through 2033. The amount of tax deductions in excess of previously recorded windfall tax benefits associated with stock-based compensation included in U.S. federal net operating loss carryforwards but not reflected in deferred tax assets for the year ended December 31, 2013 was \$69 million. Upon realization of the U.S. federal net operating losses, the Company will recognize a windfall tax benefit as an increase to additional paid-in capital. In addition, the Company had U.S. tax credit carryforwards of \$117 million. Approximately \$22 million of the credit carryforwards do not expire, and \$95 million expires in the years 2014 through 2033.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The aggregate changes in the balance of our gross unrecognized tax benefits were as follows for the years ended December 31:

In millions	2013	2012	2011	
Gross unrecognized tax benefits - January 1	\$256	\$273	\$303	
Increases related to tax positions from prior years	33	24	24	
Decreases related to tax positions from prior years	(33) (16) (31)
Increases related to tax provisions taken during the current year	40	30	23	
Settlements with tax authorities	(2) (35) (33)
Lapses of statutes of limitation	(17) (20) (13)
Total gross unrecognized tax benefits - December 31	\$277	\$256	\$273	

Of the total amount of gross unrecognized tax benefits as of December 31, 2013, \$155 million would affect NCR's effective tax rate if realized. The Company's liability arising from uncertain tax positions is recorded in income tax accruals and other current liabilities in the Consolidated Balance Sheets.

We recognized interest and penalties associated with uncertain tax positions as part of the provision for income taxes in our Consolidated Statements of Operations of \$8 million of expense, \$4 million of expense, and \$11 million of benefit for the years ended December 31, 2013, 2012, and 2011, respectively. The gross amount of interest and penalties accrued as of December 31, 2013 and 2012 was \$56 million and \$51 million, respectively.

In the U.S., NCR files consolidated federal and state income tax returns where statutes of limitations generally range from three to five years. U.S. federal tax years remain open to examination from 2009 forward. In 2011, the IRS commenced an examination of our 2009 and 2010 income tax returns, which is ongoing. Years beginning after 2000 are still open to examination by certain foreign taxing authorities, including several major taxing jurisdictions. We are open to examination from 2001 onward in Korea and India and from 2002 onward in Canada.

During 2014, the Company expects to resolve certain tax matters related to U.S. and foreign jurisdictions. As of December 31, 2013, we estimate that it is reasonably possible that unrecognized tax benefits may decrease by \$20 million to \$25 million in the next 12 months due to the resolution of these issues.

NCR did not provide for U.S. federal income taxes or foreign withholding taxes in 2013 on approximately \$1.9 billion of undistributed earnings of its foreign subsidiaries as such earnings are intended to be reinvested indefinitely. Due to the complexities in the tax laws, the assumptions that we would have to make and the availability and calculation of associated foreign tax credits, it is not practicable to determine the amount of the related unrecognized deferred income tax liability associated with these undistributed earnings.

See the Consolidated Statements of Comprehensive Income for details of the tax effects on the components of other comprehensive income.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

8. EMPLOYEE STOCK COMPENSATION PLANS

The Company recognizes all share-based payments, including grants of stock options, as compensation expense in its financial statements based on their fair value.

As of December 31, 2013, the Company's primary types of stock-based compensation were restricted stock and stock options. The Company recorded stock-based compensation expense, the components of which are further described below, for the years ended December 31 as follows:

In millions	2013	2012	2011
Restricted stock	\$39	\$46	\$27
Stock options	2	3	6
Total stock-based compensation (pre-tax)	41	49	33
Tax benefit	(13) (14) (10
Total stock-based compensation (net of tax)	\$28	\$35	\$23

Stock-based compensation expense for the years ended December 31, 2013, 2012 and 2011 was computed using the fair value of options as calculated using the Black-Scholes option-pricing model. During the year ended December 31, 2013, the Company did not grant any stock options. The weighted average fair value of options granted was estimated based on the below weighted average assumptions and was \$8.24 per share in 2012 and \$7.38 per share in 2011.

	2012	2011	
Dividend yield	—	—	
Risk-free interest rate	0.78	% 2.04	%
Expected volatility	40.1	% 40.4	%
Expected holding period (years)	5.0	5.1	

Expected volatility incorporates a blend of both historical volatility of the Company's stock over a period equal to the expected term of the options and implied volatility from traded options on the Company's stock, as management believes this is more representative of prospective trends. The Company uses historical data to estimate option exercise and employee terminations within the valuation model. The expected holding period represents the period of time that options are expected to be outstanding. The risk-free interest rate for periods within the contractual life of the option is based on the 5-year U.S. Treasury yield curve in effect at the time of grant.

Approximately 19 million shares are authorized to be issued under the 2013 Stock Incentive Plan (formerly the 2011 Amended and Restated Stock Incentive Plan) (SIP). Details of the Company's stock-based compensation plans are discussed below.

Restricted Stock and Restricted Stock Units

The SIP provides for the issuance of restricted stock, as well as restricted stock units. These types of awards can have either service-based or performance-based vesting with performance goals being established by the Compensation and Human Resource Committee. Any grant of restricted stock or restricted stock units is subject to a vesting period of at least three years, except that a one-year term of service may be required if vesting is conditioned upon achievement of performance goals. Performance-based grants are subject to future performance measurements, which include NCR's achievement of specific return on capital and other financial metrics (as defined in the SIP) during the performance period. Performance-based grants must be earned, based on performance, before the actual number of shares to be

awarded is known. The Company considers the likelihood of meeting the performance criteria based upon management's estimates and analysis of achievement against the performance criteria. At the date of grant, a recipient of restricted stock has all the rights of a stockholder subject to certain restrictions on transferability and a risk of forfeiture. A recipient of restricted stock units does not have the rights of a stockholder and is subject to restrictions on transferability and risk of forfeiture. Other terms and conditions applicable to any award of restricted stock or restricted stock units will be determined by the Compensation and Human Resource Committee and set forth in the agreement relating to that award.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The following table reports restricted stock activity during the year ended December 31, 2013:

Shares in thousands	Number of Shares	Weighted Average Grant-Date Fair Value per Share
Unvested shares as of January 1	4,720	\$19.02
Shares granted	2,286	\$25.64
Shares vested	(1,156)) \$15.56
Shares forfeited	(541)) \$21.75
Unvested shares as of December 31	5,309	\$22.30

The total fair value of shares vested and distributed was \$33 million in 2013, \$68 million in 2012, and \$1 million in 2011. As of December 31, 2013, there was \$54 million of unrecognized compensation cost related to unvested restricted stock grants. The unrecognized compensation cost is expected to be recognized over a remaining weighted-average period of 1.4 years. The weighted average grant date fair value for restricted stock awards granted in 2012 and 2011 was \$19.59 and \$18.84, respectively.

The following table represents the composition of restricted stock grants in 2013:

Shares in thousands	Number of Shares	Weighted Average Grant-Date Fair Value
Service-based shares	944	\$27.72
Performance-based shares	1,342	\$24.18
Total restricted stock grants	2,286	\$25.64

The 2013 performance-based share grant activity above includes 0.9 million shares related to the 2013 to 2014 performance period. The remaining performance-based share grant activity in 2013 relates to the achievement of performance goals in 2013 associated with performance-based shares granted in a prior period.

Stock Options

The SIP also provides for the grant of several different forms of stock-based compensation, including stock options to purchase shares of NCR common stock. The Compensation and Human Resource Committee of the Board of Directors has discretion to determine the material terms and conditions of option awards under the SIP, provided that (i) the exercise price must be no less than the fair market value of NCR common stock (defined as the closing price) on the date of grant, (ii) the term must be no longer than ten years, and (iii) in no event shall the normal vesting schedule provide for vesting in less than one year. Other terms and conditions of an award of stock options will be determined by the Compensation and Human Resource Committee of the Board of Directors as set forth in the agreement relating to that award. The Compensation and Human Resource Committee has authority to administer the SIP, except that the Committee on Directors and Governance will administer the SIP with respect to non-employee members of the Board of Directors. New shares of the Company's common stock are issued as a result of stock option exercises.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The following table summarizes the Company's stock option activity for the year ended December 31, 2013:

Shares in thousands	Shares Under Option	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in millions)
Outstanding as of January 1	4,858	\$17.49		
Granted	—	\$—		
Exercised	(2,870)	\$17.66		
Forfeited or expired	(50)	\$13.86		
Outstanding as of December 31	1,938	\$17.32	4.02	\$32
Fully vested and expected to vest as of December 31	1,918	\$17.36	4.14	\$32
Exercisable as of December 31	1,708	\$17.84	3.71	\$27

The total intrinsic value of all options exercised was \$37 million in 2013, \$31 million in 2012, and \$8 million in 2011. Cash received from option exercises under all share-based payment arrangements was \$51 million in 2013, \$47 million in 2012, and \$13 million in 2011. The tax benefit realized from these exercises was \$12 million in 2013, \$10 million in 2012, and \$3 million in 2011.

Other Share-based Plans

The Employee Stock Purchase Plan (ESPP) enables eligible employees to purchase NCR's common stock at a discount to the average of the highest and lowest sale prices on the last trading day of each month. The ESPP discount is 5% of the average market price. Accordingly, this plan is considered non-compensatory. Employees may authorize payroll deductions of up to 10% of eligible compensation for common stock purchases. Employees purchased approximately 0.2 million shares in 2013, 0.3 million shares in 2012, and 0.3 million shares in 2011 for approximately \$6 million in 2013, \$6 million in 2012, and \$5 million in 2011. A total of 4 million shares were originally authorized to be issued under the new ESPP and approximately 1.7 million authorized shares remain unissued as of December 31, 2013.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

9. EMPLOYEE BENEFIT PLANS

Pension, Postretirement and Postemployment Plans NCR sponsors defined benefit plans for many of its U.S. and international employees. For salaried employees, the defined benefit plans are based primarily upon compensation and years of service. For certain hourly employees in the U.S., the benefits are based on a fixed dollar amount per years of service. NCR's U.S. pension plans ceased the accrual of additional benefits after December 31, 2006 and are closed to new participants. Certain international plans are also closed to new participants. NCR's funding policy is to contribute annually not less than the minimum required by applicable laws and regulations. Assets of NCR's defined benefit plans are primarily invested in corporate and government debt securities, insurance products, common and commingled trusts, publicly traded common stocks, real estate investments, and cash or cash equivalents.

NCR recognizes the funded status of each applicable plan on the Consolidated Balance Sheets. Each overfunded plan is recognized as an asset and each underfunded plan is recognized as a liability. For pension plans, changes in the fair value of plan assets and net actuarial gains or losses are recognized upon remeasurement, which is at least annually in the fourth quarter of each year. For postretirement and postemployment plans, changes to the funded status are recognized as a component of other comprehensive loss in stockholders' equity.

Prior to September 1998, substantially all U.S. employees who reached retirement age while working for NCR were eligible to participate in a postretirement benefit plan. The plan provides medical care and life insurance benefits to retirees and their eligible dependents. In September 1998, the plan was amended whereby U.S. participants who had not reached a certain age and years of service with NCR were no longer eligible for such benefits. Non-U.S. employees are typically covered under government-sponsored programs, and NCR generally does not provide postretirement benefits other than pensions to non-U.S. retirees. NCR generally funds these benefits on a pay-as-you-go basis.

NCR offers various postemployment benefits to involuntarily terminated and certain inactive employees after employment but before retirement. These benefits are paid in accordance with NCR's established postemployment benefit practices and policies. Postemployment benefits include mainly severance as well as disability benefits, supplemental unemployment benefits, workers' compensation benefits, and continuation of healthcare benefits and life insurance coverage. NCR provides appropriate accruals for these postemployment benefits. These postemployment benefits are funded on a pay-as-you-go basis.

Amounts to be Recognized

The amounts in accumulated other comprehensive loss that are expected to be recognized as components of net periodic benefit cost (income) during 2014 are as follows:

In millions	U.S. Pension Benefits	International Pension Benefits	Total Pension Benefits	Postretirement Benefits	Postemployment Benefits
Prior service cost (income)	\$—	\$2	\$2	\$(18) \$(4
Actuarial loss	\$—	\$—	\$—	\$2	\$—

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The following table presents the funded status and the reconciliation of the funded status to amounts recognized in the Consolidated Balance Sheets and in accumulated other comprehensive loss as of December 31:

In millions	U.S. Pension Benefits		International Pension Benefits		Total Pension Benefits	
	2013	2012	2013	2012	2013	2012
Funded Status	\$(248)	\$(440)	\$159	\$(21)	\$(89)	\$(461)
Amounts recognized in the Consolidated Balance Sheets						
Noncurrent assets	\$—	\$—	\$478	\$368	\$478	\$368
Current liabilities	(17)	(9)	(18)	(15)	(35)	(24)
Noncurrent liabilities	(231)	(431)	(301)	(374)	(532)	(805)
Net amounts recognized	\$(248)	\$(440)	\$159	\$(21)	\$(89)	\$(461)
Amounts recognized in accumulated other comprehensive loss						
Prior service cost	—	—	2	5	2	5
Total	\$—	\$—	\$2	\$5	\$2	\$5

For pension plans with accumulated benefit obligations in excess of plan assets, the projected benefit obligation, accumulated benefit obligation and fair value of assets were \$3,319 million, \$3,311 million, and \$2,582 million, respectively, as of December 31, 2013, and \$4,271 million, \$4,243 million and \$3,457 million, respectively, as of December 31, 2012.

The net periodic benefit (income) cost of the pension plans for the years ended December 31 was as follows:

In millions	U.S. Pension Benefits			International Pension Benefits			Total Pension Benefits		
	2013	2012	2011	2013	2012	2011	2013	2012	2011
Net service cost	\$—	\$—	\$—	\$14	\$14	\$15	\$14	\$14	\$15
Interest cost	124	159	182	79	83	90	203	242	272
Expected return on plan assets	(109)	(127)	(175)	(99)	(98)	(106)	(208)	(225)	(281)
Amortization of prior service cost	—	—	—	6	7	6	6	7	6
Special termination benefit cost	26	—	—	—	—	—	26	—	—
Actuarial (gain) loss	(43)	(293)	450	(76)	31	120	(119)	(262)	570
Net periodic benefit (income) cost	\$(2)	\$(261)	\$457	\$(76)	\$37	\$125	\$(78)	\$(224)	\$582

During 2013, a select group of U.S. employees were offered the option to participate in a voluntary early retirement opportunity, which included incremental benefits for each employee who elected to participate, resulting in recognition of special termination benefit costs totaling \$26 million. Additionally, during the year ended December 31, 2013, an actuarial gain of \$15 million was recognized associated with the termination of NCR's U.S. non-qualified pension plans.

In the third quarter of 2012, the Company offered a voluntary lump sum payment option to certain former employees who were deferred vested participants of the Company's U.S. pension plan who had not yet started monthly payments of their pension benefit. The voluntary lump sum payment offer was completed during the fourth quarter of 2012, which resulted in an actuarial gain from the remeasurement of the plan.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The weighted average rates and assumptions used to determine benefit obligations as of December 31 were as follows:

	U.S. Pension Benefits		International Pension Benefits		Total Pension Benefits	
	2013	2012	2013	2012	2013	2012
Discount rate	4.6	% 3.8	% 3.8	% 3.7	% 4.3	% 3.7
Rate of compensation increase	N/A	N/A	2.7	% 2.5	% 2.7	% 2.5

The weighted average rates and assumptions used to determine net periodic benefit cost for the years ended December 31 were as follows:

	U.S. Pension Benefits			International Pension Benefits			Total Pension Benefits		
	2013	2012	2011	2013	2012	2011	2013	2012	2011
Discount rate	3.8	% 4.0	% 5.3	% 3.7	% 4.1	% 4.6	% 3.7	% 4.0	% 5.0
Expected return on plan assets	3.8	% 4.8	% 6.8	% 4.6	% 4.8	% 5.5	% 4.1	% 4.8	% 6.3
Rate of compensation increase	N/A	N/A	N/A	2.5	% 3.0	% 3.5	% 2.5	% 3.0	% 3.5

The discount rate used to determine December 31, 2013 U.S. benefit obligations was derived by matching the plans' expected future cash flows to the corresponding yields from the Aon Hewitt AA Bond Universe Curve. This yield curve has been constructed to represent the available yields on high-quality, fixed-income investments across a broad range of future maturities. International discount rates were determined by examining interest rate levels and trends within each country, particularly yields on high-quality, long-term corporate bonds, relative to our future expected cash flows.

NCR employs a building block approach as its primary approach in determining the long-term expected rate of return assumptions for plan assets. Historical market returns are studied and long-term relationships between equities and fixed income are preserved consistent with the widely accepted capital market principle that assets with higher volatilities generate higher returns over the long run. Current market factors, such as inflation and interest rates are evaluated before long-term capital market assumptions are determined. The expected long-term portfolio return is established for each plan via a building block approach with proper rebalancing consideration. The result is then adjusted to reflect additional expected return from active management net of plan expenses. Historical plan returns, the expectations of other capital market participants, and peer data are all used to review and assess the results for reasonableness and appropriateness.

Plan Assets The weighted average asset allocations as of December 31, 2013 and 2012 by asset category are as follows:

	U.S. Pension Fund			Target Asset Allocation	International Pension Fund		
	Actual Allocation of Plan Assets as of December 31		2012		Actual Allocation of Plan Assets as of December 31		Target Asset Allocation

-------	---------	--------	----------	-------	---------	--------	----------	--------

Notes:

1. Common stocks are valued based on quoted market prices at the closing price as reported on the active market on which the individual securities are traded.

2. Government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the security is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields on similar instruments but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. Corporate debt is valued primarily based on observable market quotations for similar bonds at the closing price reported on the active market on which the individual securities are traded. When such quoted prices are not available, the bonds are valued using a discounted cash flows approach using current yields on similar instruments of issuers with similar credit ratings.

3. Common/collective trusts and registered investment companies (RICs) such as mutual funds are valued using a Net Asset Value (NAV) provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares or units outstanding. The fair value of the underlying securities within the fund, which are generally traded on an active market, are valued at the closing price reported on the active market on which those individual securities are traded. For investments not traded on an active market, or for which a quoted price is not publicly available, a variety of unobservable valuation methodologies, including discounted cash flow, market multiple and cost valuation approaches, are employed by the fund manager or independent third party to value investments.

4. Partnership/joint ventures and hedge funds are valued based on the fair value of the underlying securities within the fund, which include investments both traded on an active market and not traded on an active market. For those investments that are traded on an active market, the values are based on the closing price reported on the active market on which those individual securities are traded and in the case of hedge funds they are valued using a Net Asset Value (NAV) provided by the manager of each fund. For investments not traded on an active market, or for which a quoted price is not publicly available, a variety of unobservable valuation methodologies, including discounted cash flow, market multiples and cost valuation approaches, are employed by the fund manager to value investments.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The following table presents the reconciliation of the beginning and ending balances of those plan assets classified within Level 3 of the valuation hierarchy. When the determination is made to classify the plan assets within Level 3, the determination is based upon the significance of the unobservable inputs to the overall fair value measurement.

In millions	U.S. Pension Plans	International Pension Plans
Balance, December 31, 2011	\$96	\$187

Purchases, sales and settlements, net	(16) (29
Transfers, net	28	4
Balance, December 31, 2013	\$83	\$187

Investment Strategy NCR has historically employed a total return investment approach, whereby a mix of fixed-income, equities and real estate investments are used to maximize the long-term return of plan assets subject to a prudent level of risk. The risk tolerance is established for each plan through a careful consideration of plan liabilities, plan funded status and corporate financial condition. During the first quarter of 2010, the Company completed a comprehensive analysis of its capital allocation strategy, with specific focus on its approach to pension management. As a result of this analysis, the Company implemented a plan to reduce future volatility in the value of assets held by the U.S. pension plan by rebalancing the asset allocation to a portfolio of entirely fixed income assets by the end of 2012. At the end of 2012, the Company had reallocated approximately 100% of pension assets to fixed income assets compared to 80% at the end of 2011. Similar investment strategy changes are under consideration or being implemented in a number of NCR's international plans.

The investment portfolios contain primarily fixed-income investments, which are diversified across U.S. and non-U.S. issuers, type of fixed-income security (i.e., government bonds, corporate bonds, mortgage-backed securities) and credit quality. The investment portfolios also contain a blend of equity investments, which are diversified across U.S. and non-U.S. stocks, small and large capitalization stocks, and growth and value stocks, primarily of non-U.S. issuers. Where applicable, real estate investments are made through real estate securities, partnership interests or direct investment and are diversified by property type and location. Other assets, such as cash or private equity are used judiciously to improve portfolio diversification and enhance risk-adjusted portfolio returns. Derivatives may be used to adjust market exposures in an efficient and timely manner. Due to the timing of security purchases and sales, cash held by fund managers is classified in the same asset category as the related investment. Rebalancing algorithms are applied to keep the asset mix of the plans from deviating excessively from their targets. Investment risk is measured and monitored on an ongoing basis through regular performance reporting, investment manager reviews, actuarial liability measurements and periodic investment strategy reviews.

From time to time, the Company may invest in insurance contracts, known as buy-in contracts, as a step towards transferring the plan's liabilities to a third party. In November 2013, the trustees of the NCR Pension Plan (UK) entered into an agreement with Pension Insurance Corporation (PIC) to purchase, as a plan asset, an insurance policy with PIC to facilitate the wind-up and buy-out of the pension plan. NCR Limited, a UK subsidiary of the Company, is the principal employer of the pension plan which has approximately 5,400 participants and approximately \$750

million in pension plan obligations.

Postretirement Plans

Reconciliation of the beginning and ending balances of the benefit obligation for NCR's U.S. postretirement plan is as follows:

In millions	Postretirement Benefits	
	2013	2012
Change in benefit obligation		
Benefit obligation as of January 1	\$35	\$44
Gross service cost	—	—
Interest cost	1	1
Amendment	—	(4)
Actuarial (gain) loss	(5)	(1)
Plan participant contributions	2	3
Benefits paid	(6)	(8)
Benefit obligation as of December 31	\$27	\$35

The following table presents the funded status and the reconciliation of the funded status to amounts recognized in the Consolidated Balance Sheets and in accumulated other comprehensive loss as of December 31:

In millions	Postretirement Benefits	
	2013	2012
Benefit obligation	\$(27)	\$(35)
Amounts recognized in the Consolidated Balance Sheets		
Current liabilities	\$(4)	\$(5)
Noncurrent liabilities	(23)	(30)
Net amounts recognized	\$(27)	\$(35)
Amounts recognized in accumulated other comprehensive loss		
Net actuarial loss	\$20	\$29
Prior service benefit	(69)	(88)
Total	\$(49)	\$(59)

The net periodic benefit (income) cost of the postretirement plan for the years ended December 31 was:

In millions	Postretirement Benefits		
	2013	2012	2011
Interest cost	\$1	\$1	\$2
Net service cost	—	—	—
Amortization of:			
Prior service benefit	(18)	(18)	(18)
Actuarial loss	2	3	3
Net periodic benefit (income) cost	\$(15)	\$(14)	\$(13)

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The assumptions utilized in accounting for postretirement benefit obligations as of December 31 and for postretirement benefit income for the years ended December 31 were:

	Postretirement Benefit Obligations		Postretirement Benefit Costs				
	2013	2012	2013	2012	2011		
		%	%	%	%	%	
Discount rate	3.4	2.6	2.6	3.3	4.3	%	

Assumed healthcare cost trend rates as of December 31 were:

	2013		2012	
	Pre-65 Coverage	Post-65 Coverage	Pre-65 Coverage	Post-65 Coverage
		%	%	%
Healthcare cost trend rate assumed for next year	7.0	6.0	8.0	6.5
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	5.0	5.0	5.0	5.0
Year that the rate reaches the ultimate rate	2024	2024	2018	2018

In addition, a one percentage point change in assumed healthcare cost trend rates would have had an immaterial impact on the postretirement benefit income and obligation.

Postemployment Benefits

Reconciliation of the beginning and ending balances of the benefit obligation for NCR's postemployment plan was:

In millions	Postemployment Benefits	
	2013	2012
Change in benefit obligation		
Benefit obligation as of January 1	\$258	\$264
Restructuring program cost	—	(1)
Service cost	24	24
Interest cost	6	9
Amendments	1	(3)
Benefits paid	(35)	(37)
Curtailment	(51)	—
Foreign currency exchange	(6)	1
Actuarial (gain) loss	(21)	1
Benefit obligation as of December 31	\$176	\$258

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The following tables present the funded status and the reconciliation of the unfunded status to amounts recognized in the Consolidated Balance Sheets and in accumulated other comprehensive loss at December 31:

In millions	Postemployment Benefits	
	2013	2012
Benefit obligation	\$(176) \$(258
Amounts recognized in the Consolidated Balance Sheets		
Current liabilities	\$(30) \$(42
Noncurrent liabilities	(146) (216
Net amounts recognized	\$(176) \$(258
Amounts recognized in accumulated other comprehensive loss		
Net actuarial loss	\$5	\$87
Prior service benefit	(18) (36
Total	\$(13) \$51

The net periodic benefit cost of the postemployment plan for the years ended December 31 was:

In millions	Postemployment Benefits		
	2013	2012	2011
Service cost	\$24	\$24	\$25
Interest cost	6	9	10
Amortization of:			
Prior service benefit	(4) (6) (9
Actuarial loss	5	11	14
Curtailment gain	(13) —	—
Net benefit cost	\$18	\$38	\$40
Restructuring severance cost	—	(1) 6
Net periodic benefit cost	\$18	\$37	\$46

During the first quarter of 2013, NCR amended its U.S. separation plan to eliminate the accumulation of postemployment benefits, resulting in a curtailment benefit of \$13 million.

During 2011, NCR recorded approximately \$6 million of severance costs related to the acquisition of Radiant. Additionally, during 2011, NCR announced a change in the long term disability benefits provided to former employees, effective July 1, 2011. This action reduced the actuarial liability associated with this benefit by approximately \$6 million in 2011.

The weighted average assumptions utilized in accounting for postemployment benefit obligations as of December 31 and for postemployment benefit costs for the years ended December 31 were:

	Postemployment Benefit Obligations		Postemployment Benefit Costs			
	2013	2012	2013	2012	2011	
Discount rate	3.2	% 2.9	% 2.9	% 3.5	% 3.9	%
Salary increase rate	2.8	% 2.6	% 2.6	% 3.2	% 3.4	%
Involuntary turnover rate	4.8	% 5.5	% 5.5	% 5.5	% 5.5	%

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Cash Flows Related to Employee Benefit Plans

Cash Contributions NCR does not plan to contribute to the U.S. qualified pension plan in 2014, and plans to contribute approximately \$70 million to the international pension plans and a one-time contribution of \$18 million to the executive pension plan to settle the remaining obligation related to the plan termination in 2014. The Company also plans to make contributions of \$4 million to the U.S. postretirement plan and \$30 million to the postemployment plan in 2014.

Estimated Future Benefit Payments NCR expects to make the following benefit payments reflecting past and future service from its pension, postretirement and postemployment plans:

In millions	U.S. Pension Benefits	International Pension Benefits	Total Pension Benefits	Postretirement Benefits	Postemployment Benefits
Year					
2014	\$233	\$106	\$339	\$4	\$30
2015	\$212	\$102	\$314	\$4	\$27
2016	\$209	\$106	\$315	\$3	\$25
2017	\$207	\$104	\$311	\$3	\$24
2018	\$206	\$104	\$310	\$2	\$22
2019 - 2023	\$997	\$534	\$1,531	\$7	\$91

Savings Plans U.S. employees and many international employees participate in defined contribution savings plans. These plans generally provide either a specified percent of pay or a matching contribution on participating employees' voluntary elections. NCR's matching contributions typically are subject to a maximum percentage or level of compensation. Employee contributions can be made pre-tax, after-tax or a combination thereof. The expense under the U.S. plan was approximately \$12 million in 2013, \$10 million in 2012, and \$8 million in 2011. The expense under international and subsidiary savings plans was \$22 million in 2013, \$17 million in 2012, and \$16 million in 2011.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

10. COMMITMENTS AND CONTINGENCIES

In the normal course of business, NCR is subject to various proceedings, lawsuits, claims and other matters, including, for example, those that relate to the environment and health and safety, labor and employment, employee benefits, import/export compliance, intellectual property, data privacy and security, product liability, commercial disputes and regulatory compliance, among others. Additionally, NCR is subject to diverse and complex laws and regulations, including those relating to corporate governance, public disclosure and reporting, environmental safety and the discharge of materials into the environment, product safety, import and export compliance, data privacy and security, antitrust and competition, government contracting, anti-corruption, and labor and human resources, which are rapidly changing and subject to many possible changes in the future. Compliance with these laws and regulations, including changes in accounting standards, taxation requirements, and federal securities laws among others, may create a substantial burden on, and substantially increase costs to NCR or could have an impact on NCR's future operating results. NCR believes the amounts provided in its Consolidated Financial Statements, as prescribed by GAAP, are currently adequate in light of the probable and estimable liabilities with respect to such matters, but there can be no assurances that the amounts required to satisfy alleged liabilities from such matters will not impact future operating results. Other than as stated below, the Company does not currently expect to incur material capital expenditures related to such matters. However, there can be no assurances that the actual amounts required to satisfy alleged liabilities from various lawsuits, claims, legal proceedings and other matters, including, but not limited to the Fox River and Kalamazoo River environmental matters and other matters discussed below, and to comply with applicable laws and regulations, will not exceed the amounts reflected in NCR's Consolidated Financial Statements or will not have a material adverse effect on its consolidated results of operations, capital expenditures, competitive position, financial condition or cash flows. Any costs that may be incurred in excess of those amounts provided as of December 31, 2013 cannot currently be reasonably determined, or are not currently considered probable.

In 2012, NCR received anonymous allegations from a purported whistleblower regarding certain aspects of the Company's business practices in China, the Middle East and Africa. The principal allegations received in 2012 relate to the Company's compliance with the Foreign Corrupt Practices Act (FCPA) and federal regulations that prohibit U.S. persons from engaging in certain activities in Syria. NCR promptly retained experienced outside counsel and began an internal investigation of those allegations that was completed in January 2013. On August 31, 2012, the Board of Directors received a demand letter from an individual shareholder demanding that the Board investigate and take action in connection with certain of the whistleblower allegations. The Board formed a Special Committee to investigate those matters, and that Special Committee also separately retained experienced outside counsel, and completed an investigation in January 2013. On January 23, 2013, upon the recommendation of the Special Committee following its review, the Board of Directors adopted a resolution rejecting the shareholder demand. As part of its resolution, the Board determined, among other things, that the officers and directors named in the demand had not breached their fiduciary duties and that the Company will not commence litigation against the named officers and directors. The Board further resolved to review measures proposed and implemented by management to strengthen the Company's compliance with trade embargos, export control laws and anti-bribery laws. In March 2013, the shareholder who sent the demand filed a derivative action in a Georgia state court, naming as defendants three Company officers, five members of the Board of Directors, and the Company as a nominal defendant. The Company and the officers and directors removed the case to federal court in Georgia. In July 2013, the Board of Directors received a demand letter from another shareholder with respect to allegations similar to those contained in the prior demand letter. In September 2013, the Board of Directors rejected the demand contained in that letter. In the quarter ended December 31, 2013, the individual defendants in the Georgia suit, and the Company as nominal defendant, entered into a memorandum of understanding with respect to a potential settlement of plaintiff's claims. See Note 18,

"Subsequent Events" for additional information.

With respect to Syria, in 2012 NCR voluntarily notified the U.S. Treasury Department, Office of Foreign Assets Control (OFAC) of potential violations and ceased operations in Syria, which were commercially insignificant. The notification related to confusion stemming from the Company's failure to register in Syria the transfer of the Company's Syrian branch to a foreign subsidiary and to deregister the Company's legacy Syrian branch, which was a branch of NCR Corporation. The Company has applied for and received from OFAC various licenses that have permitted the Company to take measures required to wind down its past operations in Syria. The Company also submitted a detailed report to OFAC regarding this matter, including a description of the Company's comprehensive export control program and related remedial measures.

With respect to the FCPA, the Company made a presentation to the staff of the Securities and Exchange Commission (SEC) and the U.S. Department of Justice (DOJ) providing the facts known to the Company related to the whistleblower's FCPA allegations, and advising the government that many of these allegations were unsubstantiated. The Company is responding to subpoenas of the SEC and requests of the DOJ for documents and information related to the FCPA, including matters related to the whistleblower's FCPA allegations. The Company's investigations of the whistleblower's FCPA allegations identified a few opportunities to strengthen the Company's comprehensive FCPA compliance program, and remediation measures are being implemented.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

The Company is fully cooperating with the authorities with respect to all of these matters. There can be no assurance that the Company will not be subject to fines or other remedial measures as a result of OFAC's, the SEC's or the DOJ's investigations.

In relation to a patent infringement case filed by a company known as Automated Transactions LLC (ATL), the Company agreed to defend and indemnify its customers, 7-Eleven and Cardtronics. On behalf of those customers, the Company won summary judgment in the case in March 2011. ATL's appeal of that ruling was decided in favor of 7-Eleven and Cardtronics in 2012, and its petition for review by the United States Supreme Court was denied in January 2013. (There are further proceedings to occur in the trial court on the indemnified companies' counterclaims against ATL, such that the case is not fully resolved, although ATL's claims of infringement in that case have now been fully adjudicated.) ATL contends that Vcom terminals sold by the Company to 7-Eleven (Cardtronics ultimately purchased the business from 7-Eleven) infringed certain ATL patents that purport to relate to the combination of an ATM with an Internet kiosk, in which a retail transaction can be realized over an Internet connection provided by the kiosk. Independent of the litigation, the U.S. Patent and Trademark Office (USPTO) rejected the parent patent as invalid in view of certain prior art, although related continuation patents were not reexamined by the USPTO. ATL filed a second suit against the same companies with respect to a broader range of ATMs, based on the same patents plus additional more recently issued patents; that suit has been consolidated with the first case. These cases are being defended vigorously by NCR, together with 7-Eleven and Cardtronics.

Environmental Matters NCR's facilities and operations are subject to a wide range of environmental protection laws, and NCR has investigatory and remedial activities underway at a number of facilities that it currently owns or operates, or formerly owned or operated, to comply, or to determine compliance, with such laws. Also, NCR has been identified, either by a government agency or by a private party seeking contribution to site clean-up costs, as a potentially responsible party (PRP) at a number of sites pursuant to various state and federal laws, including the Federal Water Pollution Control Act, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and comparable state statutes. Other than the Fox River matter and the Kalamazoo River matter detailed below, we currently do not anticipate material expenses and liabilities from these environmental matters.

Fox River NCR is one of eight entities that were formally notified by governmental and other entities, such as local Native American tribes, that they are PRPs for environmental claims (under CERCLA and other statutes) arising out of the presence of polychlorinated biphenyls (PCBs) in sediments in the lower Fox River and in the Bay of Green Bay in Wisconsin. The other Fox River PRPs that received notices are Appleton Papers Inc. (API; now known as Appvion, Inc.), P.H. Glatfelter Company, Georgia-Pacific Consumer Products LP (GP, successor to Fort James Operating Company), WTM I Co. (formerly Wisconsin Tissue Mills, now owned by Canal Corporation, formerly known as Chesapeake Corporation), CBC Corporation (formerly Riverside Paper Corporation), U.S. Paper Mills Corp. (owned by Sonoco Products Company), and Menasha Corporation. NCR was identified as a PRP because of alleged PCB discharges from two carbonless copy paper manufacturing facilities it previously owned, which were located along the Fox River. NCR sold its facilities in 1978 to API. Some parties contend that NCR is also responsible for PCB discharges from paper mills owned by other companies because NCR carbonless copy paper "broke" was allegedly purchased by those other mills as a raw material.

The United States Environmental Protection Agency (USEPA) and Wisconsin Department of Natural Resources (together, the Governments) developed clean-up plans for the upper and lower parts of the Fox River and for portions of the Bay of Green Bay. On November 13, 2007, the Governments issued a unilateral administrative order (the 2007 Order) under CERCLA to the eight original PRPs, requiring them to perform remedial work under the Governments' clean-up plan. In April 2009, NCR and API formed a limited liability company (the LLC), which entered into an agreement with an environmental remediation contractor to perform the work at the Fox River site. In-water dredging

and remediation under the clean-up plan commenced shortly thereafter.

NCR and API, along with B.A.T Industries p.l.c. (BAT), share a portion of the cost of the Fox River clean-up and natural resource damages (NRD) based upon a 1998 agreement (the Cost Sharing Agreement) and a 2005 arbitration award (subsequently confirmed as a judgment). The Cost Sharing Agreement and the arbitration resolved disputes that arose out of agreements relating to the Company's 1978 sale of its Fox River facilities to API. The agreement and award result in a 45% share for NCR of the first \$75 million of such costs (a threshold that was reached in 2008), and a 40% share for amounts in excess of \$75 million. The non-NCR balance is shared on a joint and several basis by API and BAT.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Various litigation proceedings concerning the Fox River are pending. In a contribution action filed in 2008 seeking to determine allocable responsibility of several companies and governmental entities, a federal court in Wisconsin ruled that NCR and API did not have a right to obtain contribution from the other parties, but that those parties could obtain contribution from NCR and API with respect to certain moneys they had spent. Decisions in that action were issued in 2009, 2011, 2012 and 2013, with a final judgment entered in 2013. The final judgment held the Company liable in the approximate amount of \$76 million; the Company prevailed on claims seeking to hold it liable under an “arranger” theory for the most upriver portion of the site, where claimed damages were approximately \$95 million. The Company has secured a bond to stay execution on the judgment and has commenced an appeal from the aspects of the judgment that were not favorable to the Company. Other companies are also appealing from the judgment, including from those aspects that are favorable to the Company.

In August 2013, GP filed a breach of contract action against the Company in a Wisconsin state court, seeking reimbursement of expenses incurred under Fox River-related agreements entered into by certain PRPs in the 1990s; the Wisconsin federal court had ruled the expenses could not be recovered in the context of the contribution action. Any liability arising under those agreements would be subject to the cost-sharing obligations described herein pertaining to API, BAT, AT&T and Alcatel-Lucent. The Company expects the outcome of the appeal in the contribution litigation to control the result of this breach of contract action; the amount sought in the action is encompassed in the Company's Fox River reserve, described below.

In 2010, the Governments filed a lawsuit (the Government enforcement action) in Wisconsin federal court against the companies named in the 2007 Order. After a 2012 trial, in May 2013 the court held, among other things, that harm at the site is not divisible, and it entered a declaratory judgment against seven defendants (including NCR), finding them jointly and severally liable to comply with the applicable provisions of the 2007 Order. The court also issued an injunction against four companies (including NCR), ordering them to comply with the applicable provisions of the 2007 Order. Several parties, including NCR, have appealed from the judgment.

In April 2012, the court ruled in the Government enforcement action that API did not have direct CERCLA liability to the Governments, without disturbing API's continuing obligation to pay under the Cost Sharing Agreement, arbitration award and judgment. Following the court's decision and API's subsequent and disputed withdrawal from the LLC, API has refused to pay for remediation costs and the Company has funded the cost of remediation activity ordered by the court. NCR has sought payment from API under the Cost Sharing Agreement, and NCR's payment demands made upon API as of December 31, 2013 total to approximately \$80 million. The Company believes that the court's decision dismissing the Governments' claims against API has no effect on API's independent contractual and judgment-based obligations to NCR. The Company and API are engaged in arbitration proceedings over API's failure to pay; API has counterclaimed against NCR. In connection with the dispute, in public filings in November 2013 API states that the Wisconsin federal court's rulings “do not affect [API's] rights or obligations to share defense and liability costs with NCR in accordance with the terms of a 1998 agreement [the Cost Sharing Agreement] and a 2005 arbitration determination . . .” Appleton also reports in the same filing that “[t]he current carrying amount of [API's] liability under the [a]rbitration is \$60.8 million, which represents [API's] best estimate of potential amounts to be paid.”

The extent of NCR's potential Fox River liability remains subject to many uncertainties. NCR's eventual remediation liability, which is expected to be paid out over a period extending through approximately 2017, followed by long-term monitoring, will depend on a number of factors. In general, the most significant factors include: (1) the total clean-up costs, which are estimated at \$825 million (there can be no assurances that this estimate will not be significantly higher as work progresses); (2) total NRD for the site, which may range from zero to \$246 million (the government in one court filing in 2009 indicated claims could be as high as \$382 million; in a September 2011 ruling the Wisconsin

federal court ruled that the defendants in the contribution litigation could seek recovery against NCR for overpayments of NRD, although NRD recovery, if any, is a disputed issue that is not expected to be determined before later in 2014 or 2015); (3) the share of future clean-up costs and NRD that NCR will bear, which under the current rulings by the federal court is assumed to be the full extent of clean-up activities other than for the most upriver portion of the site; (4) NCR's transaction and litigation costs to defend itself in this matter; and (5) the share of NCR's payments that API or BAT will bear, which is established by the Cost Sharing Agreement, arbitration award and judgment. With respect to the last point, as a result of certain corporate transactions unrelated to NCR, API is itself indemnified by Windward Prospects Limited, which has funded and managed much of API's liability to date. NCR's analysis of this factor assumes that API and Windward Prospects are financially viable and pay their percentage share. This analysis also assumes that BAT would be financially viable and willing to pay the joint and several obligation if API does not.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Calculation of the Company's Fox River reserve is subject to several complexities, and it is possible there could be additional changes to some elements of the reserve over upcoming periods, although the Company is unable to predict or estimate such changes at this time. There can be no assurance that the clean-up and related expenditures will not have a material effect on NCR's capital expenditures, earnings, financial condition, cash flows, or competitive position. As of December 31, 2013, the net reserve for the Fox River matter was approximately \$112 million, compared to \$115 million as of December 31, 2012. The decrease in the net reserve is due to payments for clean-up activities and litigation costs, offset by cash receipts from AT&T and Alcatel-Lucent and changes in estimates and assumptions of the total costs. NCR contributes to the LLC in order to fund remediation activities and generally, by contract, funds three months' worth of remediation activities in advance. As of December 31, 2013 and 2012, approximately zero and \$3 million, respectively, remained from this funding and was recorded in other current assets in the Consolidated Balance Sheets. NCR's reserve for the Fox River matter is reduced as the LLC makes payments to the remediation contractor and other vendors with respect to remediation activities.

Under a 1996 agreement, AT&T and Alcatel-Lucent are responsible severally (not jointly) for indemnifying NCR for certain portions of the amounts paid by NCR for the Fox River matter over a defined threshold and subject to certain offsets. (The agreement governs certain aspects of AT&T Corp.'s divestiture of NCR and of what was then known as Lucent Technologies.) NCR's estimate of what AT&T and Alcatel-Lucent will be obligated to pay under the indemnity totaled approximately \$51 million as of December 31, 2013 and \$84 million as of December 31, 2012, and is deducted in determining the net reserve discussed above.

In connection with the Fox River and other matters, through December 31, 2013, NCR has received a combined total of approximately \$173 million in settlements reached with its principal insurance carriers. Included in this sum is approximately \$9 million received in settlements, distributions and other transactions in the quarter ended December 31, 2013. Portions of most of these settlements are payable to a law firm that litigated the claims on the Company's behalf. Some of the settlements cover not only the Fox River but also other environmental sites. Of the total amount collected to date, \$9 million is subject to competing claims by API. As of December 31, 2013, NCR had reached settlement with all of the solvent insurance companies against which it had advanced claims with respect to the Fox River, and no litigation against insurance carriers remains pending.

Kalamazoo River In November 2010, USEPA issued a "general notice letter" to NCR with respect to the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site (Kalamazoo River site) in Michigan. Three other companies - International Paper, Mead Corporation, and Consumers Energy - also received general notice letters at or about the same time. USEPA asserts that the site is contaminated by various substances, primarily PCBs, as a result of discharges by various paper mills located along the river. USEPA does not claim that the Company made direct discharges into the Kalamazoo River, but indicated that "NCR may be liable under Section 107 of CERCLA ... as an arranger, who by contract or agreement, arranged for the disposal, treatment and/or transportation of hazardous substances at the Site." USEPA stated that it "may issue special notice letters to [NCR] and other PRPs for future RI/FS [remedial investigation / feasibility studies] and RD/RA [remedial design / remedial action] negotiations."

In connection with the Kalamazoo River site, in December 2010 the Company, along with two other defendants, was sued in federal court by three companies in a contribution and cost recovery action for alleged pollution. The suit, pending in Michigan, asks that the Company pay a "fair portion" of these companies' costs, which are represented in the complaint as \$79 million to date; various removal and remedial actions remain to be performed at the Kalamazoo River site, the costs for which have not been determined. The suit alleges that the Company is liable as an "arranger" under CERCLA. The initial phase of the case was tried in a Michigan federal court in February 2013; on September 26, 2013 the court issued a decision that held NCR was liable as an "arranger," at least as of March

1969. PCB-containing carbonless copy paper was produced from approximately 1954 to April 1971. The Court did not determine NCR's share of the overall liability or how NCR's liability relates to the liability of other liable or potentially liable parties at the site. The amount of damages, if any, will be litigated in a subsequent phase of the case, with trial scheduled to commence on July 28, 2015. If the Company is found liable for money damages with respect to the Kalamazoo River site, it would have claims against API and BAT under the Cost Sharing Agreement, arbitration award and judgment discussed above in connection with the Fox River matter and against AT&T and Alcatel-Lucent.

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Environmental Remediation Estimates It is difficult to estimate the future financial impact of environmental laws, including potential liabilities. NCR records environmental provisions when it is probable that a liability has been incurred and the amount or range of the liability is reasonably estimable. Provisions for estimated losses from environmental restoration and remediation are, depending on the site, based generally on internal and third-party environmental studies, estimates as to the number and participation level of other PRPs, the extent of contamination, estimated amounts for attorney and other fees, and the nature of required clean-up and restoration actions. Reserves are adjusted as further information develops or circumstances change. Management expects that the amounts reserved from time to time will be paid out over the period of investigation, negotiation, remediation and restoration for the applicable sites. The amounts provided for environmental matters in NCR's Consolidated Financial Statements are the estimated gross undiscounted amounts of such liabilities, without deductions for insurance, third-party indemnity claims or recoveries from other PRPs, except as qualified in the following sentences. Except for the sharing agreement with API described above with respect to a particular insurance settlement, in those cases where insurance carriers or third-party indemnitors have agreed to pay any amounts and management believes that collectibility of such amounts is probable, the amounts are recorded in the Consolidated Financial Statements. For the Fox River site, as described above, assets relating to the AT&T and Alcatel-Lucent indemnity and to the API/BAT joint and several obligation are recorded as payment is supported by contractual agreements, public filings and/or payment history.

Guarantees and Product Warranties Guarantees associated with NCR's business activities are reviewed for appropriateness and impact to the Company's financial statements. As of December 31, 2013 and 2012, NCR had no material obligations related to such guarantees, and therefore its financial statements do not have any associated liability balance.

NCR provides its customers a standard manufacturer's warranty and records, at the time of the sale, a corresponding estimated liability for potential warranty costs. Estimated future obligations due to warranty claims are based upon historical factors, such as labor rates, average repair time, travel time, number of service calls per machine and cost of replacement parts. When a sale is consummated, the total customer revenue is recognized, provided that all revenue recognition criteria are otherwise satisfied, and the associated warranty liability is recorded using pre-established warranty percentages for the respective product classes. From time to time, product design or quality corrections are accomplished through modification programs. When identified, associated costs of labor and parts for such programs are estimated and accrued as part of the warranty reserve.

The Company recorded the activity related to the warranty reserve for the years ended December 31 as follows:

In millions	2013	2012	2011
Warranty reserve liability			
Beginning balance as of January 1	\$26	\$23	\$24
Accruals for warranties issued	39	46	42
Settlements (in cash or in kind)	(43)	(43)	(43)
Ending balance as of December 31	\$22	\$26	\$23

In addition, NCR provides its customers with certain indemnification rights. In general, NCR agrees to indemnify the customer if a third party asserts patent or other infringement on the part of its customers for its use of the Company's products subject to certain conditions that are generally standard within the Company's industries. On limited occasions the Company will undertake additional indemnification obligations for business reasons. From time to time, NCR also enters into agreements in connection with its acquisition and divestiture activities that include indemnification obligations by the Company. The fair value of these indemnification obligations is not readily determinable due to the conditional nature of the Company's potential obligations and the specific facts and

circumstances involved with each particular agreement. The Company has not recorded a liability in connection with these indemnifications, and no current indemnification instance is material to the Company's financial position. Historically, payments made by the Company under these types of agreements have not had a material effect on the Company's consolidated financial condition, results of operations or cash flows.

Table of Contents

NCR Corporation

Notes to Consolidated Financial Statements—(Continued)

Purchase Commitments The Company has purchase commitments for materials, supplies, services, and property, plant and equipment as part of the normal course of business. This includes a long-term service agreement with Accenture under which many of NCR's key transaction processing activities and functions are performed.

Leases NCR conducts certain of its sales and manufacturing operations using leased facilities, and also operates certain equipment and vehicles under leases, the initial lease terms of which vary in length. Many of the leases contain renewal options and escalation clauses that are not material to the overall lease portfolio. Future minimum lease payments under non-cancelable operating leases as of December 31, 2013, for the following fiscal years were:

In millions	2014	2015	2016	2017	2018
Minimum lease obligations	\$94	\$67	\$44	\$21	\$9

Total rental expense for operating leases was \$118 million in 2013, \$102 million in 2012, and \$100 million in 2011.

Notes to Consolidated Financial Statements—(Continued)

11. DERIVATIVES AND HEDGING INSTRUMENTS

NCR is exposed to risks associated with changes in foreign currency exchange rates and interest rates. NCR utilizes a variety of measures to monitor and manage these risks, including the use of derivative financial instruments. NCR has exposure to approximately 50 functional currencies. Since a substantial portion of our operations and revenues occur outside the United States (U.S.), and in currencies other than the U.S. Dollar, our results can be significantly impacted, both positively and negatively, by changes in foreign currency exchange rates.

Foreign Currency Exchange Risk The accounting guidance for derivatives and hedging requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the Consolidated Balance Sheets. The Company designates foreign exchange contracts as cash flow hedges of forecasted inter-company inventory purchases when they are determined to be highly effective at inception.

Our risk management strategy includes hedging, on behalf of certain subsidiaries, a portion of our forecasted, non-functional currency denominated cash flows for a period of up to 15 months. As a result, some of the impact of currency fluctuations on non-functional currency denominated transactions (and hence on subsidiary operating income, as stated in the functional currency), is mitigated in the near term. The amount we hedge and the duration of hedge contracts may vary significantly. In the longer term (greater than 15 months), the subsidiaries are still subject to the effect of translating the functional currency results to U.S. Dollars. To manage our exposures and mitigate the impact of currency fluctuations on the operations of our foreign subsidiaries, we hedge our main transactional exposures through the use of foreign exchange forward and option contracts. This is primarily done through the hedging of foreign currency denominated inter-company inventory purchases by NCR's marketing units and the foreign currency denominated inputs to our manufacturing units. As these transactions are firmly committed and forecasted, the related foreign exchange contracts are designated as highly effective cash flow hedges. The gains or losses on these hedges are deferred in AOCI and reclassified to income when the underlying hedged transaction has been completed and is recorded in earnings. As of December 31, 2013, the balance in AOCI related to foreign exchange derivative transactions was zero. The gains or losses from derivative contracts related to inventory purchases are recorded in cost of products when the inventory is sold to an unrelated third party.

We also utilize foreign exchange contracts to hedge our exposure of assets and liabilities denominated in non-functional currencies. We recognize the gains and losses on these types of hedges in earnings as exchange rates change. We do not enter into hedges for speculative purposes.

Interest Rate Risk The Company is party to an interest rate swap agreement that fixes the interest rate on a portion of the Company's LIBOR indexed floating rate borrowings under its Senior Secured Credit Facility through August 22, 2016. The notional amount of the interest rate swap as of December 31, 2013 was \$518 million and amortizes to \$341 million over the term. The Company designates the interest rate swap as a cash flow hedge of forecasted quarterly interest payments made on three-month LIBOR indexed borrowings under the Senior Secured Credit Facility. The interest rate swap was determined to be highly effective at inception.

Our risk management strategy includes hedging a portion of our forecasted interest payments. These transactions are firmly committed and forecasted and the related interest rate swap agreement is designated as a highly effective cash flow hedge. The gains or losses on this hedge are deferred in AOCI and reclassified to income when the underlying hedged transaction has been completed and is recorded in earnings. As of December 31, 2013, the balance in AOCI related to the interest rate swap agreement was a loss of \$5 million, net of tax. The gains or losses from this derivative contract related to interest payments are recorded in interest expense when the interest is accrued and affects earnings.

Refer to Note 12, "Fair Value of Assets and Liabilities" for further information on derivative assets and liabilities recorded at fair value on a recurring basis.

Concentration of Credit Risk NCR is potentially subject to concentrations of credit risk on accounts receivable and financial instruments such as hedging instruments and cash and cash equivalents. Credit risk includes the risk of nonperformance by counterparties. The maximum potential loss may exceed the amount recognized on the

Consolidated Balance Sheets. Exposure to credit risk is managed through credit approvals, credit limits, selecting major international financial institutions (as counterparties to hedging transactions) and monitoring procedures. NCR's business often involves large transactions with customers, and if one or more of those customers were to default on its obligations under applicable contractual arrangements, the Company could be exposed to potentially significant losses. However, management believes that the reserves for potential losses are adequate. As of December 31, 2013 and 2012, NCR did not have any major concentration of credit risk related to financial instruments.

**** Included in Other current liabilities and Other liabilities in the Consolidated Balance Sheets.

Deposits Held in Money Market Mutual Funds - A portion of the Company's excess cash is held in money market mutual funds which generate interest income based on prevailing market rates. Money market mutual fund holdings are measured at fair value using quoted market prices and are classified within Level 1 of the valuation hierarchy.

Available-For-Sale Securities - The Company has investments in mutual funds and equity securities that are valued using the market approach with quotations from the NASDAQ stock exchange and two stock exchanges in Japan. As a result, available-for-sale securities are classified within Level 1 of the valuation hierarchy.

Interest rate swap - As a result of our Senior Secured Credit Facility, we are exposed to risk from changes in LIBOR, which may adversely affect our financial condition. To manage our exposure and mitigate the impact of changes in LIBOR on our financial results, we hedge a portion of our forecasted interest payments through the use of an interest rate swap agreement. The interest rate swap is valued using the income approach inclusive of nonperformance and counterparty risk considerations and is classified within Level 2 of the valuation hierarchy.

Foreign Exchange Contracts - As a result of our global operating activities, we are exposed to risks from changes in foreign currency exchange rates, which may adversely affect our financial condition. To manage our exposures and mitigate the impact of currency fluctuations on our financial results, we hedge our primary transactional exposures through the use of foreign exchange forward and option contracts. The foreign exchange contracts are valued using the market approach based on observable market transactions of forward rates and are classified within Level 2 of the valuation hierarchy.

Assets Measured at Fair Value on a Non-recurring Basis

Certain assets have been measured at fair value on a nonrecurring basis using significant unobservable inputs (Level 3). NCR measures certain assets, including intangible assets and cost and equity method investments, at fair value on a non-recurring basis. These assets are recognized at fair value when initially valued and when deemed to be impaired.

NCR reviews the carrying values of investments when events and circumstances warrant and considers all available evidence in evaluating when declines in fair value are other-than-temporary declines. NCR carries equity investments in privately-held companies at cost or at fair value when NCR recognizes an other-than-temporary impairment charge. During 2012, we measured the fair value of an investment utilizing the income approach based on the use of discounted cash flows. The discounted cash flows are based on unobservable inputs, including assumptions of projected revenues, expenses, earnings, capital spending, as well as a discount rate determined by management's estimates of risk associated with the investment. As a result, the year ended December 31, 2012, we recorded an other-than-temporary impairment charge of \$7 million in Other (expense) income, net in the Consolidated Statements of Operations based on Level 3 valuations.

13. SEGMENT INFORMATION AND CONCENTRATIONS

Operating Segment Information The Company manages and reports its businesses in the following four segments:

Financial Services - We offer solutions to enable customers in the financial services industry to reduce costs, generate new revenue streams and enhance customer loyalty. These solutions include a comprehensive line of ATM and payment processing hardware and software and cash management and video banking software, and related installation, maintenance and managed and professional services. We also offer a complete line of printer consumables.

Retail Solutions - We offer solutions to customers in the retail industry designed to improve selling productivity and checkout processes as well as increase service levels. These solutions primarily include retail-oriented technologies, such as point of sale terminals and point of sale software, bar-code scanners, as well as innovative self-service kiosks, such as self-checkout. We also offer installation, maintenance, and managed and professional services and a complete line of printer consumables.

Hospitality - We offer technology solutions to customers in the hospitality industry, serving businesses that range from a single store or restaurant to global chains and sports and entertainment venues. Our solutions include point of sale hardware and software solutions, installation, maintenance, and managed and professional services and a complete line of printer consumables.

Emerging Industries - We offer maintenance as well as managed and professional services for third-party computer hardware provided to select manufacturers, primarily in the telecommunications industry, who value and leverage our global service capability. Also included in our Emerging Industries segment are solutions designed to enhance the customer experience for the travel and gaming industries, including self-service kiosks, as well as related installation, maintenance, and managed and professional services.

These segments represent components of the Company for which separate financial information is available that is utilized on a regular basis by the chief operating decision maker in assessing segment performance and in allocating the Company's resources. Management evaluates the performance of the segments based on revenue and segment operating income. Assets are not allocated to segments, and thus are not included in the assessment of segment performance, and consequently, we do not disclose total assets by reportable segment.

The accounting policies used to determine the results of the operating segments are the same as those utilized for the consolidated financial statements as a whole. Intersegment sales and transfers are not material.

In recognition of the volatility of the effects of pension expense on our segment results, and to maintain operating focus on business performance, pension expense, as well as other significant, non-recurring items, are excluded from the segment operating results utilized by our chief operating decision maker in evaluating segment performance and are separately delineated to reconcile to income from operations.

Japan	41	51
Asia Middle East Africa (excluding Japan)	80	45
Consolidated property, plant and equipment, net	\$352	\$308

Concentrations No single customer accounts for more than 10% of NCR's consolidated revenue. As of December 31, 2013, NCR is not aware of any significant concentration of business transacted with a particular customer that could, if suddenly eliminated, have a material adverse effect on NCR's operations. NCR also lacks a concentration of available sources of labor, services, licenses or other rights that could, if suddenly eliminated, have a material adverse effect on its operations.

A number of NCR's products, systems and solutions rely primarily on specific suppliers for microprocessors and other component products, manufactured assemblies, operating systems, commercial software and other central components. NCR also utilizes contract manufacturers in order to complete manufacturing activities. There can be no assurances that any sudden impact to the availability or cost of these technologies or services would not have a material adverse effect on NCR's operations.

Notes to Consolidated Financial Statements—(Continued)

14. DISCONTINUED OPERATIONS

Income (loss) from discontinued operations, net of tax includes activity related to environmental matters, the divestiture of our Entertainment business, the spin-off of Teradata Data Warehousing (Teradata), the closure of NCR's EFT payment processing business in Canada, and the divestiture of our healthcare solutions business.

The income (loss) from discontinued operations for the years ended December 31 was:

	2013		2012		2011	
	Pre - Tax	Net of Tax	Pre - Tax	Net of Tax	Pre - Tax	Net of Tax
Environmental matters	\$ (15)	\$ (9)	\$ 3	\$ 2	\$ 3	\$ 2
Divestiture of the Entertainment business	—	—	(6)	(4)	(147)	(96)
Spin-off of Teradata	—	—	—	8	—	6
Closure of the EFT Canadian business	—	—	—	—	(2)	(1)
Divestiture of the Healthcare business	—	—	—	—	(5)	(4)
Total	\$ (15)	\$ (9)	\$ (3)	\$ 6	\$ (151)	\$ (93)

Environmental Matters For the year ended December 31, 2013, loss from discontinued operations primarily includes changes in estimates related to the Fox River reserve in addition to accruals for litigation fees related to the Kalamazoo River environmental matter, partially offset by recoveries from insurance carriers. For the year ended December 31, 2012, income from discontinued operations primarily includes previously agreed settlements with insurance carriers related to the Fox River matter. For the year ended December 31, 2011, loss from discontinued operations included an accrual for an environmental matter in Japan, which relates to anticipated future disposal requirements of certain materials generated by a former NCR manufacturing facility in that country, and accruals for litigation fees related to the Kalamazoo River environmental matter. These accruals were offset by Fox River related activities which include scheduled payments from an insurer in connection with a settlement that had been agreed to in prior years coupled with the favorable impact of changes in estimates and assumptions of the total costs. Refer to Note 10, "Commitments and Contingencies" for additional information regarding the Fox River environmental matter.

Divestiture of the Entertainment Business As described in Note 4, "Business Combinations and Divestitures" on June 22, 2012, we sold certain assets of our Entertainment business. Beginning in the first quarter of 2012, we accounted for the Entertainment business as a discontinued operation and as a result, for each period presented, the results of operations and cash flows of the Entertainment business have been presented as a discontinued operation. For the year ended December 31, 2012, income (loss) from discontinued operations included the results of operations of the Entertainment business, as well as a \$33 million, or \$21 million net of tax, gain from the divestiture of the business.

Spin-off of Teradata On September 30, 2007, NCR completed the spin-off of Teradata through the distribution of a tax-free stock dividend to NCR stockholders. The results of operations and cash flows of Teradata have been presented as a discontinued operation. There was no operating activity related to the spin-off of Teradata in 2013, 2012 and 2011. For the years ended December 31, 2012 and 2011, income from discontinued operations, net of tax, related to favorable changes in uncertain tax benefits attributable to Teradata.

Closure of the Canadian EFT Business In the second quarter of 2011, we closed our EFT payment processing business in Canada. For each of the years presented, we have included the results of operations of the EFT business under loss from discontinued operations.

Divestiture of our Healthcare Solutions Business In December 2011, we sold our healthcare solutions business. For each of the years presented, we have included the results of operations of the healthcare solutions business under loss from discontinued operations.

16. CONDENSED CONSOLIDATING SUPPLEMENTAL GUARANTOR INFORMATION

During 2012, the Company issued 5.00% senior unsecured notes due in 2022 ("5.00% Notes") and 4.625% senior unsecured notes due in 2021 (the "4.625% Notes"). During 2013, the Company, through its newly formed wholly owned subsidiary, NCR Escrow Corp., issued 5.875% senior unsecured notes due in 2021 ("5.875% Notes") and 6.375% senior unsecured notes due in 2023 ("6.375% Notes"). Each series of these senior unsecured notes is guaranteed by the Company's subsidiary, NCR International, Inc. ("Guarantor Subsidiary"), which is 100% owned by the Company and has guaranteed fully and unconditionally, the obligations to pay principal and interest for the senior unsecured notes. Effective December 31, 2013, Radiant Systems, Inc., formerly a subsidiary guarantor of these senior unsecured notes, was merged with and into NCR Corporation. Therefore, Radiant Systems, Inc. is included within Issuers in the accompanying Condensed Consolidating Financial Statements. The Company has reclassified prior period amounts to conform to current period presentation. Refer to Note 6, "Debt Obligations," and Note 18, "Subsequent Events," for additional disclosures.

Pursuant to the registration rights agreements entered into in connection with the offerings of the 5.00% and 4.625% Notes, the Company completed registered offers to exchange the 5.00% and 4.625% Notes on May 30, 2013.

In connection with the offerings of the 5.875% and 6.375% Notes, the Company and the Guarantor Subsidiary and Radiant Systems Inc. entered into registration rights agreements with the initial purchasers of such Notes. Each registration rights agreement requires the Company and the Guarantor Subsidiary, at their cost, to among other things, use their commercially reasonable efforts to file a registration statement with respect to a registered offer to exchange the senior unsecured notes subject to such registration rights agreement for new notes that are guaranteed by the Guarantor Subsidiary with terms substantially identical in all material respects to the senior unsecured notes subject to such registration statement.

In connection with the registration statements for the exchange offers of the 5.00% and 4.625% Notes and the filing of the registration statements for the 5.875% and 6.375% Notes, the Company is required to comply with Rule 3-10 of SEC Regulation S-X (Rule 3-10), and has therefore included the accompanying Condensed Consolidating Financial Statements in accordance with Rule 3-10(f) of SEC Regulation S-X.

The following supplemental information sets forth, on a consolidating basis, the statements of operations and comprehensive income (loss), the balance sheets and the statements of cash flows for the issuers of these senior unsecured notes, for the Guarantor Subsidiary and for the Company and all of its consolidated subsidiaries (amounts in millions):

Diluted	\$0.31	\$0.62	\$0.53	\$1.47	

As described in Note 2, “Pension Benefit Plan Accounting Methodology Changes,” our results have been revised for the retrospective application of our accounting methodology for recognizing costs for all of our company-sponsored U.S. and international pension benefit plans. For the quarter ended December 31, 2012, operating loss was previously reported as \$7 million, net loss attributable to NCR was previously reported as \$20 million, and basic and diluted loss per share was previously reported as \$0.12. For the quarter ended December 31, 2013, if we had not elected to change our accounting methodology, operating income would have been \$124 million, net income attributable to NCR would have been \$82 million, basic earnings per share would have been \$0.49, and diluted earnings per share would have been \$0.48.

Operating income for the quarter ended December 31, 2013 was impacted by actuarial gains related to the remeasurement of our pension plan assets and liabilities. The actuarial gains included in pension benefit recognized in the quarter ended December 31, 2013 increased operating income by \$104 million, net income attributable to NCR by

\$73 million, basic earnings per share by \$0.44, and diluted earnings per share by \$0.43.

Operating income for the quarter ended December 31, 2012 was impacted by actuarial gains related to the remeasurement of our pension plan assets and liabilities. The actuarial gains included in pension benefit recognized in the quarter ended December 31, 2012 increased operating income by \$262 million, net income attributable to NCR by \$155 million, basic earnings per share by \$0.97, and diluted earnings per share by \$0.94.

Net income per share in each quarter is computed using the weighted-average number of shares outstanding during that quarter while net income per share for the full year is computed using the weighted-average number of shares outstanding during the year. Thus, the sum of the four quarters' net income per share will not necessarily equal the full-year net income per share.

Notes to Consolidated Financial Statements—(Continued)

18. SUBSEQUENT EVENTS

Acquisition of Digital Insight Corporation On January 10, 2014, the Company completed its acquisition of Digital Insight Corporation, a leader in online and mobile banking solutions for a cash purchase price of approximately \$1.65 billion. As a result of the acquisition, Digital Insight became an indirect wholly owned subsidiary of NCR. The transaction will be accounted for as a business combination.

The purchase price for Digital Insight was financed using the aggregate principal amount from the December 2013 offering by NCR Escrow Corp. of \$400 million aggregate principal amount of 5.875% senior unsecured notes due in 2021 and \$700 million aggregate principal amount of 6.375% senior unsecured notes due in 2023, \$250 million in incremental term loans drawn at closing under the Company's December 2013 Incremental Facility Agreement and approximately \$300 million in additional borrowings made at closing under the revolving portion of the Company's Senior Secured Credit Facility. At the closing of the acquisition of Digital Insight, NCR Escrow Corp. merged with and into the Company, with the Company continuing as the surviving corporation. The Company assumed all of NCR Escrow Corp.'s obligations under the 5.875% and 6.375% Notes and the indentures governing those Notes, and the net proceeds from the offering were released from the escrow account to pay for the Digital Insight acquisition. Following the Digital Insight acquisition, NCR's total debt balance was \$3.92 billion

NCR incurred acquisition-related transaction costs of approximately \$15 million which consist primarily of investment banking, legal and accounting fees. Approximately \$7 million were incurred during the year ended December 31, 2013 and are included in selling, general and administrative expenses and interest expense in the accompanying Consolidated Statements of Operations.

These disclosures are based on our preliminary estimates and management is still determining the purchase price allocation. However, the substantial majority of the purchase price is expected to be allocated to goodwill and intangible assets. Additionally, management is still determining the pro forma impact of the Digital Insight acquisition on the 2013 results.

Shareholder Derivative Action With respect to the derivative action settlement referenced in Note 10, "Commitments and Contingencies," on February 3, 2014, the court issued an order that preliminarily approved the proposed settlement, approved the form and content of shareholder notices, and scheduled a fairness hearing.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

NCR has established disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act)) to ensure that information required to be disclosed by NCR in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by NCR in the reports that it files or submits under the Exchange Act is accumulated and communicated to NCR's management, including its Chief Executive and Chief Financial Officers, as appropriate to allow timely decisions regarding required disclosure. Based on their evaluation as of the end of the period covered by this Report, conducted under their supervision and with the participation of management, the Company's Chief Executive and Chief Financial Officers have concluded that NCR's disclosure controls and procedures are effective to meet such objective and that NCR's disclosure controls and procedures adequately alert them on a timely basis to material information relating to the Company (including its consolidated subsidiaries) required to be included in NCR's Exchange Act filings.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining effective internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations due to, for example, the potential for human error or circumvention of controls, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2013. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework (1992). Based on our assessment, we determined that, as of December 31, 2013, the Company's internal control over financial reporting was effective based on those criteria.

PricewaterhouseCoopers LLP, our independent registered public accounting firm, has audited the effectiveness of the Company's internal control over financial reporting as of December 31, 2013 as stated in their report which appears in Item 8 of this Report.

Table of Contents

PART III

Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Except as set forth in the following paragraphs of this Item 10, the information required by this Item 10 will be set forth under the headings “Election of Directors,” “Section 16(a) Beneficial Ownership Reporting Compliance,” and “Committees of the Board” in the Definitive Proxy Statement for our 2014 Annual Meeting of Stockholders to be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal 2013 year, and is incorporated herein by reference. The information required by this Item 10 regarding our executive officers is set forth under the heading “Executive Officers of the Registrant” in Part I of this Form 10-K and is incorporated herein by reference.

We have not materially changed the procedures by which stockholders may recommend nominees to the Company’s Board of Directors.

We have a Code of Conduct that sets the standard for ethics and compliance for all of our directors and employees, including our chief executive officer, our chief financial officer and our chief accounting officer. Our Code of Conduct is available on the Corporate Governance page at our website at <http://www.ncr.com/about-ncr/corporate-governance> under the heading “Code of Conduct.” We intend to disclose any amendments to or waivers of the Code of Conduct with respect to any director as well as our principal executive officer, principal financial officer, and principal accounting officer, on the Corporate Governance page of our website promptly following the date of such amendment or waiver.

Item 11. EXECUTIVE COMPENSATION

The information required by this Item 11 will be set forth under the headings “Executive Compensation,” “Compensation and Human Resource Committee,” and “Board Compensation and Human Resource Committee Report on Executive Compensation” in the Definitive Proxy Statement for our 2014 Annual Meeting of Stockholders to be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal 2013 year, and is incorporated herein by reference.

Item 12. SECURITY OWNERSHIPS OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this Item 12 will be set forth under the headings “Stock Ownership” and “Equity Compensation Plan Information” in the Definitive Proxy Statement for our 2014 Annual Meeting of Stockholders to be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal 2013 year, and is incorporated herein by reference.

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

The information required by this Item 13 will be set forth under the headings “Related Person Transactions” and “Corporate Governance” in the Definitive Proxy Statement for our 2014 Annual Meeting of Stockholders to be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal 2013 year, is incorporated herein by reference.

Item 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by this Item 14 will be set forth under the heading “Fees Paid to Independent Registered Public Accounting Firm” in the Definitive Proxy Statement for our 2014 Annual Meeting of Stockholders to be filed with the Securities and Exchange Commission within 120 days after the end of our fiscal 2013 year, and is incorporated herein by reference.
