CITIZENS FINANCIAL SERVICES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 - Basis of Presentation

Citizens Financial Services, Inc. (individually and collectively with its direct and indirect subsidiaries, the “Company”) is a Pennsylvania corporation organized as the holding company of its wholly owned subsidiary, First Citizens Community Bank (the “Bank”), and the Bank’s subsidiary, First Citizens Insurance Agency, Inc. (“First Citizens Insurance”).

The accompanying consolidated financial statements have been prepared pursuant to rules and regulations of the Securities and Exchange Commission (“SEC”) and in conformity with U.S. generally accepted accounting principles. Because this report is based on an interim period, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. Certain of the prior year amounts have been reclassified to conform with the current year presentation. Such reclassifications had no effect on net income or stockholders’ equity. All material inter-company balances and transactions have been eliminated in consolidation.

In the opinion of management of the Company, the accompanying interim financial statements for the periods ended September 30, 2014 and 2013 include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the financial condition and the results of operations for the period. In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. The financial performance reported for the Company for the nine month period ended September 30, 2014 is not necessarily indicative of the results to be expected for the full year. This information should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2013.

Note 2 - Earnings per Share

The following table sets forth the computation of earnings per share. Earnings per share calculations give retroactive effect to stock dividends declared by the Company.

	Three months ended September 30,		Nine months ended September 30,	
	2014	2013	2014	2013
Net income applicable to common stock	\$3,368,000	\$3,512,000	\$9,909,000	\$10,079,000
Basic earnings per share computation				
Weighted average common shares outstanding	3,035,214	3,054,226	3,038,973	3,059,520
Earnings per share - basic	\$1.11	\$1.15	\$3.26	\$3.29
Diluted earnings per share computation				
Weighted average common shares outstanding for basic	3,035,214	3,054,226	3,038,973	3,059,520

earnings per share				
Add: Dilutive effects of restricted stock	1,486	1,483	1,427	1,288
Weighted average common shares outstanding for dilutive earnings per share	3,036,700	3,055,709	3,040,400	3,060,808
Earnings per share - diluted	\$1.11	\$1.15	\$3.26	\$3.29

For the three months ended September 30, 2014 and 2013, there were 1,938 and 1,037 shares, respectively, related to the restricted stock program that were excluded from the diluted earnings per share calculations since they were anti-dilutive. These anti-dilutive shares had prices ranging from \$34.70-\$50.50 for the three month period ended September 30 2014 and prices ranging from \$36.00-\$44.50 for the three month period ended September 30, 2013. For the nine months ended September 30, 2014 and 2013, 2,913 and 3,280 shares, respectively, related to the restricted stock program were excluded from the diluted earnings per share calculations since they were anti-dilutive. These anti-dilutive shares had prices ranging from \$34.70-\$50.50 for the nine month period ended September 30, 2014 and prices ranging from \$34.70-\$44.50 for the nine month period ended September 30, 2013.

Note 3 - Income Tax Expense

Income tax expense is less than the amount calculated using the statutory tax rate, primarily as a result of tax-exempt income earned from state and municipal securities and loans and investments in tax credits.

Note 4 – Investments

The amortized cost and fair value of investment securities at September 30, 2014 and December 31, 2013 were as follows (in thousands):

	Amortized	Gross	Gross	Fair
September 30, 2014	Cost	Unrealized Gains	Unrealized Losses	Value
Available-for-sale securities:				
U.S. agency securities	\$ 146,993	\$ 503	\$ (1,011)	\$ 146,485
U.S. treasury securities	11,873	-	(343)	11,530

Corporate obligations	13,923	250	(73)	14,100
Mortgage-backed securities in government sponsored entities	33,581	486	(85)	33,982
Equity securities in financial institutions	1,136	647	(20)	1,763
Total available-for-sale securities	\$ 304,336	\$ 5,670	\$ (1,723)	\$ 308,283
December 31, 2013				
Available-for-sale securities:				
U.S. agency securities	\$ 153,896	\$ 702	\$ (2,409)	\$ 152,189
U.S. treasury securities	11,856	-	(547)	11,309
Obligations of state and political subdivisions	94,113	2,146	(1,254)	95,005

Corporate obligations	16,651	341	(190)	16,802
Mortgage-backed securities in government sponsored entities	40,405	566	(300)	40,671
Equity securities in financial institutions	542	783	-	1,325
Total available-for-sale securities	\$ 317,463	\$ 4,538	\$ (4,700)	\$ 317,301

The following table shows the Company's gross unrealized losses and fair value of the Company's investments with unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment category and length of time, which individual securities have been in a continuous unrealized loss position, at September 30, 2014 and December 31, 2013 (in thousands). As of September 30, 2014, the Company owned 76 securities whose fair value was less than their cost basis.

Edgar Filing: CITIZENS FINANCIAL SERVICES INC - Form 10-Q

September 30, 2014	Less than Twelve Months		Twelve Months or Greater		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses

U.S. treasury securities	11,309	(547)	-	-	11,309	(547)
Obligations of states and political subdivisions	24,201	(865)	6,491	(389)	30,692	(1,254)
Corporate obligations	6,103	(124)	2,251	(66)	8,354	(190)
Mortgage-backed securities in government sponsored entities	23,920	(266)	1,164	(34)	25,084	(300)
Total securities	\$ 163,889	\$ (4,014)	\$ 12,731	\$ (686)	\$ 176,620	\$ (4,700)

As of September 30, 2014, the Company's investment securities portfolio contained unrealized losses on agency securities issued or backed by the full faith and credit of the United States government or are generally viewed as having the implied guarantee of the U.S. government, U.S treasuries, obligations of states and political subdivisions, corporate obligations, mortgage backed securities in government sponsored entities and equity securities in financial institutions. For fixed maturity investments management considers whether the present value of cash flows expected to be collected are less than the security's amortized cost basis (the difference defined as the credit loss), the magnitude and duration of the decline, the reasons underlying the decline and the Company's intent to sell the security or whether it is more likely than not that the Company would be required to sell the security before its anticipated recovery in market value, to determine whether the loss in value is other than temporary. Once a decline in value is determined to be other than temporary, if the Company does not intend to sell the security, and it is more likely than not that it will not be required to sell the security before recovery of the security's amortized cost basis, the charge to earnings is limited to the amount of credit loss. Any remaining difference between fair value and amortized cost (the difference defined as the non-credit portion) is recognized in other comprehensive income, net of applicable taxes. Otherwise, the entire difference between fair value and amortized cost is charged to earnings. For equity securities where the fair value has been significantly below cost for one year, the Company's policy is to recognize an impairment loss unless sufficient evidence is available that the decline is not other than temporary and a recovery period can be predicted. The Company has concluded that any impairment of its investment securities portfolio outlined in the above table is not other than temporary and is the result of interest rate changes, sector credit rating changes, or company-specific rating changes that are not expected to result in the non-collection of principal and interest during the period.

Proceeds from sales of securities available-for-sale for the nine months ended September 30, 2014 and 2013 were \$17,338,000 and \$15,894,000, respectively. For the three months ended September 30, 2014 and 2013, there were sales of \$5,187,000 and \$121,000, respectively, of available-for-sale securities. The gross gains and losses were as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Gross gains	\$ 242	\$ 91	\$ 488	\$ 525
Gross losses	-	-	-	(140)
Net gains	\$ 242	\$ 91	\$ 488	\$ 385

Investment securities with an approximate carrying value of \$189.1 million and \$194.7 million at September 30, 2014 and December 31, 2013, respectively, were pledged to secure public funds and certain other deposits.

Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. The amortized cost and fair value of debt securities at September 30, 2014, by contractual maturity, are shown below (in thousands):

	Amortized Cost	Fair Value
Available-for-sale debt securities:		
Due in one year or less	\$ 11,726	\$ 11,879
Due after one year through five years	129,401	129,523
Due after five years through ten years	61,345	61,461
Due after ten years	100,728	103,657
Total	\$ 303,200	\$ 306,520

Note 5 – Loans

The Company grants loans primarily to customers throughout North Central Pennsylvania and Southern New York. Although the Company had a diversified loan portfolio at September 30, 2014 and December 31, 2013, a substantial portion of its debtors' ability to honor their contracts is dependent on the economic conditions within these regions. The following table summarizes the primary segments of the loan portfolio and how those segments are analyzed within the allowance for loan losses as of September 30, 2014 and December 31, 2013 (in thousands):

September 30, 2014	Total Loans	Individually evaluated for impairment	Collectively evaluated for impairment
Real estate loans:			
Residential	\$ 187,315	\$ 324	\$ 186,991
Commercial and agricultural	211,888	6,333	205,555

The segments of the Bank's loan portfolio are disaggregated into classes to a level that allows management to monitor risk and performance. Residential real estate mortgages consists primarily of 15 to 30 year first mortgages on residential real estate, while residential real estate home equity loans are consumer purpose installment loans or lines of credit secured by a mortgage which is often a second lien on residential real estate with terms of 15 years or less. Commercial real estate loans are business purpose loans secured by a mortgage on commercial real estate. Agricultural real estate loans are loans secured by a mortgage on real estate used in agriculture production. Construction real estate loans are loans secured by residential or commercial real estate used during the construction phase of residential and commercial projects. Consumer loans are typically unsecured or primarily secured by something other than real estate and overdraft lines of credit connected with customer deposit accounts. Other commercial loans are loans for commercial purposes primarily secured by non-real estate collateral. Other agricultural loans are loans for agricultural purposes primarily secured by non-real estate collateral. State and political subdivisions are loans for state and local municipalities for capital and operating expenses or tax free loans used to finance commercial development.

Management considers commercial loans, other agricultural loans, state and political subdivision loans, commercial real estate loans and agricultural real estate loans which are 90 days or more past due to be impaired. Management will also consider a loan impaired based on other factors it becomes aware of, including the customer's results of operations and cash flows or if the loan is modified in a troubled debt restructuring. In addition, certain residential mortgages, home equity and consumer loans that are cross collateralized with commercial relationships that are determined to be impaired may also be classified as impaired. Impaired loans are analyzed to determine if it is probable that all amounts will not be collected according to the contractual terms of the loan agreement. If management determines that the value of the impaired loan is less than the recorded investment in the loan (net of previous charge-offs, deferred loan fees or costs and unamortized premium or discount), impairment is recognized through an allocation of the allowance for loan losses or a charge-off to the allowance for loan losses.

The following table includes the recorded investment and unpaid principal balances for impaired financing receivables by class, with the associated allowance amount, if applicable (in thousands):

Credit Quality Information

For commercial real estate, agricultural real estate, construction, other commercial, other agricultural and state and political subdivision loans, management uses a nine point internal risk rating system to monitor the credit quality. The first five categories are considered not criticized and are aggregated as "Pass" rated. The criticized rating categories utilized by management generally follow bank regulatory definitions. The definitions of each rating are defined below:

- Pass (Grades 1-5) – These loans are to customers with credit quality ranging from an acceptable to very high quality and are protected by the current net worth and paying capacity of the obligor or by the value of the underlying collateral.
- Special Mention (Grade 6) – This loan grade is in accordance with regulatory guidance and includes loans where a potential weakness or risk exists, which could cause a more serious problem if not corrected.
- Substandard (Grade 7) – This loan grade is in accordance with regulatory guidance and includes loans that have a well-defined weakness based on objective evidence and be characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.
-

Doubtful (Grade 8) – This loan grade is in accordance with regulatory guidance and includes loans that have all the weaknesses inherent in a substandard asset. In addition, these weaknesses make collection or liquidation in full highly questionable and improbable, based on existing circumstances.

- Loss (Grade 9) – This loan grade is in accordance with regulatory guidance and includes loans that are considered uncollectible, or of such value that continuance as an asset is not warranted.

To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay loan as agreed, the Bank's loan rating process includes several layers of internal and external oversight. The Company's loan officers are responsible for the timely and accurate risk rating of the loans in each of their portfolios at origination and on an ongoing basis under the supervision of management. All commercial, agricultural and municipal loans are reviewed annually to ensure the appropriateness of the loan grade. In addition, the Bank engages an external consultant on at least an annual basis. The external consultant is engaged to 1) review a minimum of 55% of the dollar volume of the commercial loan portfolio on an annual basis, 2) review new loans over \$1.0 million originated in the last year, 3) review a majority of relationships in aggregate over \$1.0 million, 4) review selected aggregate loan relationships over \$750,000 which are over 30 days past due classified Special Mention, Substandard, Doubtful, or Loss, and 5) such other loans which management or the consultant deems appropriate.

The following tables represent credit exposures by internally assigned grades as of September 30, 2014 and December 31, 2013 (in thousands):

September 30, 2014	Pass	Special Mention	Substandard	Doubtful	Loss	Ending Balance

For residential real estate mortgages, home equity and consumer loans, credit quality is monitored based on whether the loan is performing or non-performing, which is typically based on the aging status of the loan and payment activity, unless a specific action, such as bankruptcy, repossession, death or significant delay in payment occurs to raise awareness of a possible credit event. Non-performing loans include those loans that are considered nonaccrual, described in more detail below and all loans past due 90 or more days and still accruing. The following table presents the recorded investment in those loan classes based on payment activity as of September 30, 2014 and December 31, 2013 (in thousands):

September 30, 2014	Performing	Non-performing	Total
Real estate loans:			
Mortgages \$	122,393 \$	991 \$	123,384

Total	\$ 195,611 \$	1,053 \$	\$ 196,664

Age Analysis of Past Due Financing Receivables

Management further monitors the performance and credit quality of the loan portfolio by analyzing the age of the portfolio as determined by the length of time a recorded payment is past due. The following table includes an aging analysis of the recorded investment of past due financing receivables as of September 30, 2014 and December 31, 2013 (in thousands):

Edgar Filing: CITIZENS FINANCIAL SERVICES INC - Form 10-Q

Nonaccrual Loans

Loans are considered for non-accrual status upon reaching 90 days delinquency, although the Company may be receiving partial payments of interest and partial repayments of principal on such loans or if full payment of principal and interest is not expected. Additionally, if management is made aware of other information including bankruptcy, repossession, death, or legal proceedings, the loan may be placed on non-accrual status. If a loan is 90 days or more past due and is well secured and in the process of collection, it may still be considered accruing.

The following table reflects the financing receivables on non-accrual status as of September 30, 2014 and December 31, 2013, respectively. The balances are presented by class of financing receivable (in thousands):

	September 30, 2014	December 31, 2013

Troubled Debt Restructurings

In situations where, for economic or legal reasons related to a borrower's financial difficulties, management may grant a concession for other than an insignificant period of time to the borrower that would not otherwise be considered, the related loan is classified as a Troubled Debt Restructuring (TDR). Management strives to identify borrowers in financial difficulty early and work with them to modify more affordable terms before their loan reaches nonaccrual status. These modified terms may include rate reductions, principal forgiveness, payment forbearance and other actions intended to minimize the economic loss and to avoid foreclosure or repossession of the collateral. In cases where borrowers are granted new terms that provide for a reduction of either interest or principal, management measures any impairment on the restructuring by calculating the present value of the revised loan terms and comparing this balance to the Company's investment in the loan prior to the restructuring. As these loans are individually evaluated, they are excluded from pooled portfolios when calculating the allowance for loan and lease losses and a separate allocation within the allowance for loan and lease losses is provided. Management continually evaluates loans that are considered TDRs, including payment history under the modified loan terms, the borrower's ability to continue to repay the loan based on continued evaluation of their operating results and cash flows from operations. Based on this evaluation management would no longer consider a loan to be a TDR when the relevant facts support such a conclusion. As of September 30, 2014 and December 31, 2013, included within the allowance for loan losses are reserves of \$29,000 and \$28,000 respectively, that are associated with loans modified as TDRs.

There were no loan modifications that were considered TDRs during the three months ended September 30, 2014 or 2013. Loan modifications that are considered TDRs completed during the nine months ended September 30, 2014 and 2013 were as follows (dollars in thousands):

For the Nine months Ended September 30, 2014		
Number of contracts	Pre-modification Outstanding Recorded Investment	Post-Modification Outstanding

Total	1	4	\$ 72	\$ 2,895	\$ 72	\$ 2,895

Recidivism, or the borrower defaulting on its obligation pursuant to a modified loan, results in the loan once again becoming a non-accrual loan. Recidivism occurs at a notably higher rate than do defaults on new origination loans, so modified loans present a higher risk of loss than do new origination loans. The following table presents the recorded investment in loans that were modified as TDRs during each 12-month period prior to the current reporting periods, which begin January 1, 2014 and 2013 (nine month periods) and July 1, 2014 and 2013 (3 month periods), respectively, and that subsequently defaulted during these reporting periods (dollars in thousands):
