NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE A BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete consolidated financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended July 31, 2007 are not necessarily indicative of the results that may be expected for the year ending April 30, 2008. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto incorporated by reference in the Company's Annual Report on Form 10-K for the year ended April 30, 2007

NOTE B NEW ACCOUNTING PRONOUNCEMENTS

In June 2006, the Emerging Issues Task Force reached a consensus on Issue No. 06-3 (EITF 06-3), Disclosure Requirements for Taxes Assessed by a Governmental Authority on Revenue-Producing Transactions. The consensus allows an entity to choose between two acceptable alternatives based on their accounting policies for transactions in which the entity collects taxes on behalf of a governmental authority, such as sales taxes. Under the gross method, taxes collected are accounted for as a component of sales revenue with an offsetting expense. Conversely, the net method allows a reduction to sales revenue. Entities should disclose the method selected pursuant to APB No. 22, Disclosure of Accounting Policies. If such taxes are reported gross and are significant, entities should disclose the amount of those taxes. The guidance should be applied to financial reports through retrospective application for all periods presented, if amounts are significant, for interim and annual reporting beginning May 1, 2007. The Company adopted the guidance during the first quarter of fiscal 2008 and it had no impact on the Company.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 establishes a common definition for fair value to be applied to GAAP guidance requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the expected impact of the provisions of SFAS 157 on its results of operations and its financial position.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Options for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to expand the use of fair value measurements in accounting for financial instruments. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the expected impact of the provisions of SFAS 159 on its results of operations and its financial position.

NOTE C COMPREHENSIVE INCOME

The Company's comprehensive income was \$5.3 million and \$13.4 million for the quarters ended July 31, 2007 and July 31, 2006, respectively. Comprehensive income differs from net income for the quarter ending July 31, 2007 due to the changes in the pension and postretirement benefits liability.

Basic	\$ 0.34	\$ 0.84
Diluted	\$ 0.34	\$ 0.82

NOTE E STOCK-BASED COMPENSATION

The Company has various stock compensation plans, which are more fully described in Note G to the consolidated financial statements incorporated by reference in the Company's 2007 Annual Report on Form 10-K. During the quarter ended July 31, 2007 the Board of Directors of the Company approved grants to key employees totaling 386,600 shares of non-statutory stock options of the Company's common stock with a weighted average exercise price of \$34.11 and weighted average fair value of \$11.49. The options vest evenly over a three-year period and have a ten-year contractual term.

Total compensation expense related to stock-based awards during the quarters ended July 31, 2007 and 2006 was \$1.4 million and \$1.5 million, respectively. For the quarters ended July 31, 2007 and 2006, stock-based compensation expense was allocated as follows:

	Quarter Ended	
	July 31	
	2007	2006
(in thousands)		
Cost of sales and distribution	\$ 315	\$ 326
Selling and marketing expenses	323	318
General and administrative expenses	750	884
	<u> </u>	<u> </u>
Stock-based compensation expense, before income taxes	\$ 1,388	\$ 1,528
Less:		
Income tax benefit	542	581
	<u> </u>	<u> </u>
Total stock-based compensation expense, net of taxes	<u>\$ 846</u>	<u>\$ 947</u>

As of July 31, 2007, there was \$9.1 million of total unrecognized compensation expense related to unvested stock options granted under the Company's stock-based compensation plans. That expense is expected to be recognized over a weighted average period of 1.6 years.

Cash received from option exercises for the three months ended July 31, 2007 and 2006 was \$0.5 million and \$4.6 million, respectively. The actual tax benefit recognized as additional paid-in capital for exercises of stock option awards during the three months ended July 31, 2007 and 2006 was \$25,000 and \$2.0 million, respectively.

NOTE F CUSTOMER RECEIVABLES

The components of customer receivables were:

	July 31, 2007	April 30, 2007
(in thousands)		
Gross customer receivables	\$ 43,733	\$ 43,262
Less:		
Allowance for doubtful accounts	(1,053)	(1,511)
Allowances for returns and discounts	(3,552)	(3,677)
Net customer receivables	<u>\$ 39,128</u>	<u>\$ 38,074</u>

NOTE G INVENTORIES

The components of inventories were:

	July 31, 2007	April 30, 2007
(in thousands)		
Raw materials	\$ 15,757	\$ 16,615
Work-in-process	41,430	41,274
Finished goods	12,217	12,020
Total FIFO inventories	<u>\$ 69,404</u>	<u>\$ 69,909</u>
Reserve to adjust inventories to LIFO value	(14,010)	(13,560)
Total LIFO inventories	<u>\$ 55,394</u>	<u>\$ 56,349</u>

For the three-month period ended July 31, 2007, after tax earnings were increased by \$44 as a result of liquidation of LIFO based inventories. An actual valuation of inventory under the LIFO method is made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Since these items are estimated, interim results are subject to the final year-end LIFO inventory valuation.

NOTE H PRODUCT WARRANTY

The Company estimates outstanding warranty costs based on the historical relationship between warranty claims and revenues. The warranty accrual is reviewed monthly to verify that it properly reflects the remaining obligation based on the anticipated expenditures over the balance of the obligation period. Adjustments are made when actual warranty claim experience differs from estimates. Warranty claims are generally made within three months of the original shipment date.

The following is a reconciliation of the Company's warranty liability:

	Quarter Ended July 31,	
	2007	2006
(in thousands)		
Beginning balance at May 1	\$ 3,105	\$ 5,387
Accrual	3,143	4,782

Amortization of prior service cost	37	36
Net pension cost	\$ 1,496	\$ 1,497

Employer Contributions

The Company previously disclosed in its consolidated financial statements for the year ended April 30, 2007, that it expected to contribute \$7.6 million to its pension plan in fiscal 2008. As of July 31, 2007, \$1.9 million of contributions have been made. The Company presently anticipates contributing an additional \$5.7 million to fund its pension plan in fiscal 2008 for a total of \$7.6 million.

NOTE K ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, effective May 1, 2007. As a result of the adoption of FIN 48, the Company recognized no adjustment in the unrecognized income tax benefits that existed at April 30, 2007. On May 1, 2007, the Company had approximately \$557,770 of unrecognized tax benefits accrued. Of this amount, approximately \$362,551 would affect the effective tax rate if recognized.

Consistent with prior policy, the Company classifies interest on underpayments of income tax as Interest Expense and classifies penalties in connection with underpayments of tax as Other Expense. As of May 1, 2007, the Company had liabilities of \$71,350 and \$253,200, for interest and penalties, respectively.

The Company does not anticipate that total unrecognized tax benefits recorded as of May 1, 2007 will significantly change during the fiscal year ending April 30, 2008.

The Company is currently not under audit by any federal or state taxing authorities.

Table of Contents

NOTE L OTHER INFORMATION

The Company is involved in suits and claims in the normal course of business, including product liability and general liability claims, in addition to claims pending before the EEOC. On at least a quarterly basis, the Company consults with its legal counsel to ascertain the reasonable likelihood that such claims may result in a loss. As required by Statement of Financial Accounting Standards No. 5 (SFAS 5), the Company categorizes the various suits and claims into three categories according to their likelihood for resulting in potential loss; those that are probable (i.e., more likely than not), those that are reasonably possible, and those that are deemed to be remote. The Company accounts for these loss contingencies in accordance with SFAS 5. Where losses are deemed to be probable and estimable, accruals are made. Where losses are deemed to be reasonably possible or remote, a range of loss estimates is determined. Where no loss estimate range can be made, the Company and its counsel perform a worst case estimate. In determining these loss range estimates, the Company considers known values of similar claims and consultation with independent counsel.

The Company believes that the aggregate range of loss stemming from the various suits and asserted and unasserted claims which were deemed to be either probable or reasonably possible were not material as of July 31, 2007.

NOTE M SUBSEQUENT EVENTS

On August 23, 2007, the Board of Directors approved a \$.09 per share cash dividend on its common stock. The cash dividend will be paid on September 21, 2007, to shareholders of record on September 14, 2007.

In addition, on August 23, 2007, the Board of Directors authorized an additional \$100 million to repurchase common stock under a new stock repurchase program. This Board authorization is for the repurchase of company stock from time-to-time when, in the opinion of management, the market price presents an attractive return on investment for the shareholders.

Item 2.

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our condensed consolidated financial statements and the related notes to the condensed consolidated financial statements, both of which are included in Part I, Item 1 of this report. The Company's critical accounting policies are included in the Company's 2007 Annual Report, which was filed as an exhibit to the Company's Annual Report on Form 10-K for the year ended April 30, 2007.

Forward-Looking Statements

This report contains statements concerning the Company's expectations, plans, objectives, future financial performance, and other statements that are not historical facts. These statements are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In most cases, the reader can identify these forward-looking statements by words such as anticipate, estimate, forecast, expect, believe, should, could, plan, may or other similar words. Forward-looking statements contained in this Management's Discussion and Analysis are based on current expectations and our actual results may differ materially from those projected in any forward-looking statements. In addition, we participate in an industry that is subject to rapidly changing conditions and there are numerous factors that could cause the Company to experience a decline in sales and/or earnings. These include (1) overall industry demand at reduced levels, (2) economic weakness in a specific channel of distribution, (3) the loss of sales from specific customers due to their loss of market share, bankruptcy or switching to a competitor, (4) a sudden and significant rise in basic raw material costs, (5) a dramatic increase to the cost of diesel fuel and/or transportation related services, (6) the need to respond to price or product initiatives launched by a competitor, (7) the Company's ability to successfully implement initiatives related to increasing market share, new products, maintaining and increasing its sales force and new product displays, and (8) sales growth at a rate that outpaces the Company's ability to install new capacity. While the Company believes that these risks are manageable and will not adversely impact the long-term performance of the Company, these risks could, under certain circumstances, have a materially adverse impact on its operating results and financial condition.

Overview

American Woodmark Corporation manufactures and distributes kitchen cabinets and vanities for the remodeling and new home construction markets. Its products are sold on a national basis directly to home centers, major builders and home manufacturers, and through a network of independent dealers and distributors. At July 31, 2007, the Company operated 15 manufacturing facilities and 9 service centers across the country.

The three-month period ending July 31, 2007 was the Company's first quarter of its fiscal year that ends on April 30, 2008 (fiscal 2008). During the first quarter of fiscal 2008, the Company experienced a continuation of difficult housing market conditions that had begun during the previous fiscal year. During the first quarter of fiscal 2008, the market for remodeling and new construction spending experienced lower sales than in the prior year. In new construction, housing starts were down 25% on a calendar year-to-date basis through July 2007. In remodeling, indicators such as the sales of existing homes were down 9% and comparable store sales reported by the large home centers were negative during the same year-to-date period. In addition, credit conditions in the market continued to worsen as the first quarter progressed. The Company believes these conditions, as well as the heavy media coverage they have received, combined to further erode consumer confidence relative to housing and made it more difficult to obtain residential mortgage financing. Consequently, the Company has lowered its expectation

for its financial results for fiscal 2008.

Despite the present housing market downturn, the Company believes that the long-term fundamentals for the American housing industry remain strong, based upon strong employment, continued overall economic growth, relatively low interest rates, continued population growth and other favorable demographic trends. Based upon this belief, the Company has continued to maintain its strategy of investing to improve its operations and its capabilities to best service its customers. The Company remains focused on continuing to gain market share and has continued to invest in developing and launching new products, maintaining and increasing its sales force, and increasing its new product displays and related marketing collateral deployed at new customers in its new construction channel.

The Company believes that it has been successful in gaining market share during the first quarter of fiscal 2008. The Company's remodeling sales declined by approximately 10% as compared with the first quarter of fiscal 2007. The Company believes that the magnitude of this decline was lower than the sales declines experienced by its remodeling customers. The Company's new construction sales for the first quarter declined nearly 30% as compared with the comparable period of fiscal 2007. While the magnitude of the Company's decline was slightly more than the magnitude of the reduction in housing starts, the Company believes that it has been awarded a number of housing developments which have not yet begun construction. In addition, the Company experienced a sequential increase in its new construction sales in the first quarter of fiscal 2008 as compared with the fourth quarter of fiscal 2007, the first time this occurred in more than one year.

The Company's gross margin rate for the first quarter of fiscal 2008 was 20.7%, down from 22.0% in the first quarter of fiscal 2007. The reduction in the Company's gross margin rate was driven by the impact of inefficiencies in labor and overhead costs that were caused by lower sales volumes. These inefficiencies more than offset the favorable impact from the Company's completed transition out of certain low-margin products, which improved the Company's sales mix and reduced materials and freight costs in relation to sales.

Table of Contents

Net income for the first quarter of fiscal 2008 was \$5.1 million, compared to \$13.4 million during the first quarter of fiscal 2006.

Results of Operations

(in thousands)	Quarter Ended July 31		
	2007	2006	Percent Change
Net Sales	\$ 166,056	\$ 222,752	(25.5%)
Gross Profit	34,309	49,111	(30.1%)
Selling and Marketing Expenses	20,217	17,924	12.8%
General and Administrative Expenses	6,667	10,006	(33.4%)
Interest Expense	191	252	(24.2%)

Net Sales. Net sales were \$166.1 million for the first quarter of fiscal 2008, a decrease of 25% as compared with the first quarter of fiscal 2007, while the Company's core product sales (defined as all products excluding the transitioned low-margin products) declined by 19% as compared with the first quarter of fiscal 2007. Overall unit volume for the quarter ended July 31, 2007 decreased 36%, driven by the completion of the Company's previously announced transition out of certain high volume low-margin products, as well as by reduced market demand for the Company's core products. Average revenue per unit increased 17% for the first quarter of fiscal 2008, driven by the completion of the aforementioned low-margin products sales transition, and the resulting improvements in the Company's sales mix.

Gross Profit. Gross profit margin for the first quarter of fiscal 2008 was 20.7%, as compared with 22.0% for the same period of fiscal 2007. Labor costs increased by 1.0% of sales and manufacturing overhead costs increased by 3.2% of sales, due to inefficiencies stemming from reduced core sales levels. Materials and freight costs declined by 2.0% of sales and by 0.8% of sales, respectively, during the first quarter of fiscal 2008 as compared with a year ago, due primarily to the aforementioned improvements in sales mix and improved efficiencies in lumber yields and prices.

Selling and Marketing Expenses. Selling and marketing expenses for the first quarter of fiscal 2008 were \$20.2 million or 12.2% of sales compared to \$17.9 million or 8.0% of sales for the same period in fiscal 2007. The increase as a percent of sales in the first quarter of fiscal 2008 was due primarily to additional spending to grow market share, including increases related to the launch of new products, an increase in collateral literature and promotional displays for new customers in the new construction channel and additional retail promotional costs, as well as to the reduced sales base.

General and Administrative Expenses. General and administrative expenses for the first quarter of fiscal 2008 were \$6.7 million or 4.0% of sales compared to \$10.0 million or 4.5% of sales for the same period in fiscal 2007. The reduction in fiscal 2008 was due primarily to reduced

Edgar Filing: AMERICAN WOODMARK CORP - Form 10-Q

costs associated with the Company's pay-for-performance employee incentive plans, as well as the reversal of a \$0.5 million provision for potential loss on the receivables from one of the Company's new construction customers whose financial situation has become more stable.

Interest Expense. Interest expense for the first quarter of fiscal 2008 was \$191 thousand, which represented a 24% decline from the first quarter of fiscal 2007, as the level of outstanding indebtedness and the applicable interest rates declined somewhat, and a slightly higher amount of interest cost was capitalized than in the prior fiscal year.

Effective Income Tax Rates. The Company's effective income tax rates for the first quarters of fiscal years 2008 and 2007 were 35.7% and 38.0% respectively. The decrease in the effective tax rate was a result of credits from the American Jobs Creation Act of 2004, which allows for a deduction based on qualified domestic production activities, and a larger impact of tax-exempt interest income.

Outlook. The Company expects a continuation of slumping remodeling and new construction market demand until such time as the prevailing credit crunch situation is resolved. The Company expects that it will continue to gain market share throughout fiscal 2008, causing its sales to decline at a lower rate than the overall market. The Company expects that its core sales will decline in a range of 8% to 12% as compared with fiscal 2007, and that its total sales, inclusive of the transition impact of the low-margin products which were sold in fiscal year 2007, will decline in a range of 12% to 16% as compared with fiscal 2007.

The Company expects that its gross margin rate for fiscal 2008 will approximate the 20.5% of sales that it earned in fiscal 2007. The Company expects that improvements gained from the Company's continued investment in improving quality and operational efficiencies, as well as from the exit of the transitioned low-margin products, will roughly offset the inefficiencies associated with lower sales volumes.

LIQUIDITY AND CAPITAL RESOURCES

On July 31, 2007, the Company's cash and cash equivalents totaled \$51.6 million, down from \$58.1 million at April 30, 2007. At July 31, 2007, total short-term and long-term debt was \$27.6 million, nearly unchanged from its balance at April 30, 2007. Long-term debt to capital was 10.8% and 10.6% at July 31, 2007 and April 30, 2007, respectively.

The Company's main source of liquidity is cash generated from operating activities consisting of net earnings adjusted for non-cash operating items, primarily depreciation, amortization and non-cash stock-based compensation expense, and changes in operating assets and liabilities such as receivables, inventories, and payables.

Cash provided by operating activities in the first three months of fiscal 2008 was \$11.4 million, compared with \$37.1 million in the comparable period of fiscal 2007. The reduction in cash provided from operations was primarily attributable to a decrease in net income of \$8.3 million, combined with the collective reduction in cash provided by changes in operating assets and liabilities, which generated \$12.5 million in cash in the first quarter of fiscal 2007, and only \$0.9 million of cash in the first quarter of fiscal 2008. Cash provided by changes in operational assets and liabilities was much higher in the first quarter of fiscal 2007 due to the transition of the low-margin products, which drove reductions of both accounts receivable and inventory levels.

The Company's primary investing activities are capital expenditures and investments in promotional displays. Net cash used by investing activities in the first three months of fiscal 2008 was \$5.6 million compared with \$5.7 million in the comparable period of fiscal 2007. Additions to property, plant, and equipment for the first three months of fiscal 2008 were \$3.3 million, compared with \$1.8 million in the first three months of fiscal 2007. The property, plant, and equipment additions made in both periods did not reflect any new plant construction activities. The Company's investment in promotional displays for the first three months of fiscal 2008 was \$2.2 million, compared with \$4.0 million in the first three months of fiscal 2007. The Company expects its investments in capital expenditures and promotional displays for fiscal 2008 will approximate the total invested in fiscal 2007.

During the first three months of fiscal 2008, net cash used by financing activities was \$12.3 million, compared with net cash used in the comparable period of fiscal 2007 of \$8.7 million. The primary use of cash in both periods related to the Company's repurchase of its common stock in the amounts of \$11.7 million and \$13.9 million in the first quarters of fiscal 2008 and fiscal 2007, respectively. The increase in cash used for financing activities in fiscal 2008 was driven by the \$4.8 million decline in proceeds from the exercise of stock options, while dividends paid increased by \$0.4 million.

Edgar Filing: AMERICAN WOODMARK CORP - Form 10-Q

Under the Company's \$50 million stock repurchase plan approved by its Board of Directors in November 2006, the Company repurchased \$11.7 million of its common stock during the first three months of fiscal 2008. This authorization allows the Company to repurchase its common stock from time to time, when management believes the market price presents an attractive use of the Company's cash. At July 31, 2007, approximately \$8.6 million remained authorized by the Company's Board of Directors to repurchase shares of the Company's common stock under the November 2006 authorization. On August 24, 2007, the Company announced that its Board of Directors authorized an additional \$100 million stock repurchase. Including the August 2007 authorization, the Company has authorized a total of \$220 million of stock repurchases since the inception of the program in 2001. See Part II, Item 2 for a table summarizing stock repurchases in the quarter ended July 31, 2007, and the approximate dollar value of shares that may be repurchased under the program.

Cash flow from operations combined with accumulated cash on hand and available borrowing capacity on the Company's \$35 million line of credit, of which there were no borrowings during fiscal 2007 and 2008, is expected to be more than sufficient to meet forecasted working capital requirements, service existing debt obligations, and fund capital expenditures for the remainder of fiscal 2008.

The timing of the Company's contractual obligations as of April 30, 2007 is summarized in the table below.

(in thousands)	FISCAL YEARS ENDING APRIL 30					
	Total Amounts	2008	2009	2010	2011	2012
Term credit facility	\$ 10,000	\$	\$		\$ 10,000	\$
Economic development loans	2,234					2,234
Term loans	5,876	381		747	805	3,943
Capital lease obligations	9,652	473		976	1,015	7,188
Interest on long-term debt(a)	5,337	997		1,913	691	1,736
Operating lease obligations	22,326	4,519		6,866	4,119	6,822
Pension contributions (b)	30,618	7,590		11,598	11,430	
Total	\$ 86,043	\$ 13,960		\$ 22,100	\$ 28,060	\$ 21,923

- (a) Interest commitments under interest bearing debt consists of interest under the Company's primary loan agreement and other term loans and capitalized lease agreements. The Company's term credit facility includes a \$10 million term note that bears a variable interest rate determined by the London Interbank Offered Rate (LIBOR) plus a spread of .50%. Interest under other term loans and capitalized lease agreements is fixed at rates between 2% and 6%. Interest commitments under interest bearing debt for the Company's term credit facility is at LIBOR plus the spread as of April 30, 2007, throughout the remaining term of the agreement.
- (b) The estimated cost and benefits of the Company's two defined benefit pension plans are determined annually by independent actuaries based upon the discount rate and other assumptions at fiscal year end. Future pension funding contributions beyond 2012 have not been determined at this time.

Dividends Declared

On August 23, 2007, the Board of Directors approved a \$.09 per share cash dividend on its common stock. The cash dividend will be paid on September 21, 2007 to shareholders of record on September 14, 2007.

Seasonal and Inflationary Factors

The Company's business has historically been subject to seasonal influences, with higher sales typically realized in the second and fourth fiscal quarters.

The costs of the Company's products are subject to inflationary pressures and commodity price fluctuations. The Company has generally been able over time to recover the effects of inflation and commodity price fluctuations through sales price increases.

Critical Accounting Policies

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. There have been no significant changes to the Company's critical accounting policies as disclosed in the Company's 2007 Annual Report, which was filed as an exhibit to the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2007.

Item 3. Quantitative and Qualitative Disclosures of Market Risk

At July 31, 2007, the Company had no material exposure to changes in interest rates for its debt agreements. As of July 31, 2007, the Company had a \$10 million term loan which bears interest at the London InterBank Offered Rate (LIBOR) (5.26% at July 31, 2007) plus a spread (0.50% at July 31, 2007) based on the Company's total funded debt to earnings before deduction of interest and taxes, plus depreciation and amortization (EBITDA). All other borrowings of the Company carry a fixed interest rate between 2% and 6%. See additional disclosures regarding the Company's market risks in the Company's Annual Report on Form 10-K for the year ended April 30, 2007 under Item 7A Quantitative and Qualitative Disclosures of Market Risk.

Item 4. Controls and Procedures

Senior management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of July 31, 2007. Based on this evaluation process, the Chief Executive Officer and Chief Financial Officer have concluded that the design and operating effectiveness of the Company's disclosure controls and procedures are effective and that there have been no changes in the Company's internal control over financial reporting that occurred during the quarter ended July 31, 2007 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various suits and claims in the normal course of business all of which constitute ordinary, routine litigation incidental to the business. The Company does not have any litigation that does not constitute ordinary, routine litigation to its business.

There have been no material changes in the risk factors disclosed in the Company's 10-K for the year ended April 30, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes repurchases of common stock in the quarter ended July 31, 2007:

Share Repurchases

	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under The Programs (1) (000's)
