SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 27, 2016

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission File Number: 1-9444

CEDAR FAIR, L.P.

(Exact name of registrant as specified in its charter)

DELAWARE

34-1560655

(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

One Cedar Point Drive, Sandusky, Ohio 44870-5259

(Address of principal executive offices) (Zip Code)

(419) 626-0830

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer

☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company) Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

CEDAR FAIR, L.P.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIODS ENDED MARCH 27, 2016 AND MARCH 29, 2015

The accompanying unaudited condensed consolidated financial statements have been prepared from the financial records of Cedar Fair, L.P. (the Partnership) without audit and reflect all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary to fairly present the results of the interim periods covered in this report. Due to the seasonal nature of the Partnership's amusement and water park operations, the results for any interim period may not be indicative of the results expected for the full fiscal year.

(1) Significant Accounting and Reporting Policies:

The Partnership's unaudited condensed consolidated financial statements for the periods ended March 27, 2016 and March 29, 2015 included in this Form 10-Q report have been prepared in accordance with the accounting policies described in the Notes to Consolidated Financial Statements for the year ended December 31, 2015, which were included in the Form 10-K filed on February 26, 2016. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (the Commission). These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Form 10-K referred to above.

Adopted Accounting Pronouncements

In April 2015, the FASB issued Accounting Standards Update No. 2015-03, Simplifying the Presentation of Debt Issuance Costs ("ASU 2015-03"). The amendments in ASU 2015-03 require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying value of the corresponding debt liability, consistent with debt discounts. This ASU requires retrospective adoption and is effective for annual and interim periods beginning after December 15, 2015. The adoption of ASU 2015-03 did not have an impact on our unaudited condensed consolidated statements of operations or unaudited condensed consolidated statements of cash flows. The impact of the adoption of this guidance resulted in the reclassification of the unamortized debt issuance cost amounts, from other assets to long-term debt on the unaudited condensed consolidated balance sheets for the prior periods, of \$19.7 million and \$23.0 million at December 31, 2015 and March 29, 2015, respectively.

In November 2015, the FASB issued Accounting Standards Update No. 2015-17, Balance Sheet Classification of Deferred Taxes ("ASU 2015-17"). The amendments in ASU 2015-17 require that deferred tax assets and liabilities be classified as non-current in the Consolidated Balance Sheet. This ASU is effective for fiscal years beginning after December 15, 2016 and for interim periods within those fiscal years, with early adoption permitted. The guidance may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. We adopted this guidance early and applied retrospective treatment. The impact of the adoption of this guidance resulted in the reclassification of the current deferred tax assets to net against the deferred tax liability on the consolidated balance sheets, which reduced both current deferred tax asset and deferred tax liability for the prior periods by \$12.2 million and \$40.8 million at December 31, 2015 and March 29, 2015, respectively.

New Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"). The amendments in ASU 2014-09 provide for a single, principles-based model for revenue recognition that replaces the existing revenue recognition guidance. ASU 2014-09 is effective for annual and interim periods beginning on or after December 15, 2017 and will replace most existing revenue recognition guidance under U.S. GAAP when it becomes effective. It permits the use of either a retrospective or cumulative effect transition

method and early adoption is not permitted. The Partnership has not yet selected a transition method and is in the process of evaluating the effect this standard will have on the consolidated financial statements and related disclosures.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, Leases ("ASU 2016-02"). The amendments in ASU 2016-02 provide that most leases will now be recorded on the balance sheet. ASU 2016-02 is effective for annual and interim periods beginning on or after January 1, 2019 and will replace most existing lease guidance under U.S. GAAP when it becomes effective. It requires a modified transition method for existing leases and the guidance applies to earliest period presented in the financial statements. The Partnership is in the process of evaluating the effect this standard will have on the consolidated financial statements and related disclosures.

Table of Contents

(2) Interim Reporting:

The Partnership owns and operates eleven amusement parks, three separately gated outdoor water parks, one indoor water park and five hotels. Virtually all of the Partnership's revenues from its seasonal amusement parks, as well as its outdoor water parks and other seasonal resort facilities, are realized during a 130- to 140-day operating period beginning in early May, with the major portion concentrated in the third quarter during the peak vacation months of July and August. Knott's Berry Farm is open daily on a year-round basis. Castaway Bay is generally open daily from Memorial Day to Labor Day, plus a limited daily schedule for the balance of the year.

To assure that these highly seasonal operations will not result in misleading comparisons of current and subsequent interim periods, the Partnership has adopted the following accounting and reporting procedures for its seasonal parks:

(a) revenues on multi-use products are recognized over the estimated number of uses expected for each type of product and are adjusted periodically during the operating season prior to the ticket or product expiration, which occurs no later than the close of the operating season or December 31 each year, (b) depreciation, advertising and certain seasonal operating costs are expensed during each park's operating season, including certain costs incurred prior to the season which are amortized over the season, and (c) all other costs are expensed as incurred or ratably over the entire year. Revenues on multi-use products for the next operating season are deferred in the year received and recognized as revenue in the following operating season.

(3) Long-Lived Assets:

Long-lived assets are reviewed for impairment upon the occurrence of events or changes in circumstances that would indicate that the carrying value of the assets may not be recoverable. In order to determine if an asset has been impaired, assets are grouped and tested at the lowest level for which identifiable, independent cash flows are available. A significant amount of judgment is involved in determining if an indicator of impairment has occurred. Such indicators may include, among others: a significant decline in expected future cash flows; a sustained, significant decline in equity price and market capitalization; a significant adverse change in legal factors or in the business climate; unanticipated competition; and slower growth rates. Any adverse change in these factors could have a significant impact on the recoverability of these assets and could have a material impact on our consolidated financial statements.

The long-lived operating asset impairment test involves a two-step process. The first step is a comparison of each asset group's carrying value to its estimated undiscounted future cash flows expected to result from the use of the assets, including disposition. Projected future cash flows reflect management's best estimates of economic and market conditions over the projected period, including growth rates in revenues and costs, estimates of future expected changes in operating margins and cash expenditures. Other significant estimates and assumptions include terminal value growth rates and future estimates of capital expenditures. If the carrying value of the asset group is higher than its undiscounted future cash flows, there is an indication that impairment exists and the second step must be performed to measure the amount of impairment loss. The amount of impairment is determined by comparing the implied fair value of the asset group to its carrying value in a manner consistent with the highest and best use of those assets.

The Partnership estimates fair value of operating assets using an income, market, and/or cost approach. The income approach uses an asset group's projection of estimated operating results and cash flows that is discounted using a weighted-average cost of capital reflective of current market conditions. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The cost approach is based on the amount currently required to replace the service capacity of an asset adjusted for obsolescence. If the implied fair value of the assets is less than their carrying value, an impairment charge is recorded for the difference.

Non-operating assets are evaluated for impairment based on changes in market conditions. When changes in market conditions are observed, impairment is estimated using a market-based approach. If the estimated fair value of the non-operating assets is less than their carrying value, an impairment charge is recorded for the difference.

(4) Goodwill and Other Intangible Assets:

In accordance with the applicable accounting rules, goodwill is not amortized, but, along with indefinite-lived trade-names, is evaluated for impairment on an annual basis or more frequently if indicators of impairment exist. As of March 27, 2016, there were no indicators of impairment. The Partnership's annual testing date is the first day of the fourth quarter.

There were no impairments for any period presented.

Table of Contents

A summary of changes in the Partnership's carrying value of goodwill for the three months ended March 27, 2016 and March 29, 2015 is as follows:

| (In thousands) | Goodwill (gross) | Accumulated Impairment Losses | Goodwill (net) |
|------------------------------|---------------------|-------------------------------------|-------------------|
| Balance at December 31, 2015 | \$290,679 | \$ (79,868) | \$210,811 |
| Foreign currency translation | 3,897 | — | 3,897 |
| Balance at March 27, 2016 | \$294,576 | \$ (79,868) | \$214,708 |
| Balance at December 31, 2014 | \$308,159 | \$ (79,868) | \$228,291 |

| | \$1,600,851 | \$1,536,676 | \$1,592,834 |

⁽¹⁾ The average interest rate does not reflect the effect of interest rate swap agreements (see Note 6).

In June of 2014, the Partnership issued \$450 million of 5.375% senior unsecured notes ("June 2014 notes"), maturing in 2024. The net proceeds from the offering of the June 2014 notes were used to redeem in full all of the Partnership's \$405 million of 9.125% July 2010 senior unsecured notes that were scheduled to mature in 2018 (and which included \$5.6 million of Original Issue Discount ("OID") to yield 9.375%), to satisfy and discharge the indenture governing the notes that were redeemed and for general corporate purposes.

The Partnership's June 2014 notes pay interest semi-annually in June and December, with the principal due in full on June 1, 2024. Prior to June 1, 2017, up to 35% of the notes may be redeemed with the net cash proceeds of certain equity offerings at a price equal to 105.375% together with accrued and unpaid interest. The notes may be redeemed, in whole or in part, at any time prior to June 1, 2019 at a price equal to 100% of the principal amount of the notes redeemed plus a "make-whole" premium together with accrued and unpaid interest, if any, to the redemption date.

Thereafter, the notes may be redeemed, in whole or in part, at various prices depending on the date redeemed.

In March 2013, the Partnership issued \$500 million of 5.25% senior unsecured notes ("March 2013 notes"), maturing in 2021. The Partnership's March 2013 notes pay interest semi-annually in March and September, with the principal due in full on March 15, 2021. The notes may be redeemed, in whole or in part, at any time prior to March 15, 2017 at a price equal to 103.938% of the principal amount of the notes redeemed, together with accrued and unpaid interest, if any, to the redemption date. The notes may be redeemed after this date, in whole or in part, at various prices depending on the date redeemed.

Concurrently with this offering, the Partnership entered into a new \$885 million credit agreement (the "2013 Credit Agreement"), which included a \$630 million senior secured term loan facility and a \$255 million senior secured revolving credit facility. The terms of the senior secured term loan facility include a maturity date of March 6, 2020 and an interest rate of LIBOR ("London InterBank Offering Rate") plus 250 bps with a LIBOR floor of 75 bps. The term loan amortizes at \$6.3 million annually and allows interest to be paid on a 30-, 60-, or 90-day basis. The Partnership is currently paying interest on a 30-day basis. The net proceeds from the notes and borrowings under the 2013 Credit Agreement were used to repay in full all amounts outstanding under the previous credit facilities. The facilities provided under the 2013 Credit Agreement are collateralized by substantially all of the assets of the Partnership.

Terms of the 2013 Credit Agreement include a revolving credit facility of a combined \$255 million. Under the 2013 Credit Agreement, the Canadian portion of the revolving credit facility has a sub-limit of \$15 million. U.S. denominated and Canadian denominated loans made under the revolving credit facility bear interest at a rate of

LIBOR plus 225 bps (with no LIBOR floor). The revolving credit facility is scheduled to mature in March 2018 and also provides for the issuance of documentary and standby letters of credit. The 2013 Credit Agreement requires the Partnership to pay a commitment fee of 38 bps per annum on the unused portion of the credit facilities.

The 2013 Credit Agreement includes two Financial Condition Covenants, which if breached for any reason and not cured, could result in an event of default. At the end of the first quarter of 2016, the first of these, the Consolidated Leverage Ratio, was set at

Table of Contents

a maximum of 5.75x consolidated total debt (excluding the revolving debt)-to-consolidated EBITDA. This required ratio decreased by 0.25x at the beginning of the second quarter of 2015 and will decrease each second quarter until it reaches 5.25x. The second of these required ratios, the Consolidated Fixed Charge Coverage Ratio, is set at a minimum of 1.1x (consolidated total fixed charges-to-consolidated EBITDA). As of March 27, 2016, the Partnership was in compliance with these Financial Condition Covenants and all other covenants under the 2013 Credit Agreement.

The Partnership is allowed to make Restricted Payments, as defined in the 2013 Credit Agreement, of up to \$60 million annually, so long as no default or event of default has occurred and is continuing and so long as the Partnership would be in compliance with certain financial ratios after giving effect to the payments. Additional Restricted Payments are allowed to be made based on an Excess-Cash-Flow formula, should the Partnership's pro-forma Consolidated Leverage Ratio be less than or equal to 5.00x. Pursuant to the terms of the indentures governing the Partnership's June 2014 and March 2013 notes, the Partnership can make Restricted Payments of \$60 million annually so long as no default or event of default has occurred and is continuing, and our ability to make additional Restricted Payments in 2016 and beyond is permitted should the Partnership's pro forma Total-Indebtedness-to-Consolidated-Cash-Flow Ratio be less than or equal to 5.00x.

As market conditions warrant, the Partnership may from time to time repurchase debt securities issued by the Partnership, in privately negotiated or open market transactions, by tender offer, exchange offer or otherwise.

(6) Derivative Financial Instruments:

Derivative financial instruments are used within the Partnership's overall risk management program to manage interest rate risk. By utilizing a derivative instrument to hedge our exposure to LIBOR rate changes, the Partnership is exposed to counterparty credit risk, in particular the failure of the counterparty to perform under the terms of the derivative contract. To mitigate this risk, hedging instruments are placed with a counterparty that the Partnership believes poses minimal credit risk. The Partnership does not use derivative financial instruments for trading purposes. In the first quarter of 2016, the Partnership amended each of its four interest rate swap agreements to extend each of the maturities by two years to December 31, 2020, and to fix LIBOR at a rate of 2.64%. As a result of the amendments, the previously existing interest rate swap agreements were de-designated and the amounts recorded in AOCI will be amortized into earnings through the original December 2018 maturity. The newly amended interest rate swap agreements are not designated as hedging instruments. There were no other changes to the terms of the agreements beyond those disclosed.

Fair Value of Derivative Instruments and the Classification in Condensed Consolidated Balance Sheet:

| (In thousands) | Condensed Consolidated Balance Sheet Location | Fair Value as of March 27, 2016 | Fair Value as of December 31, 2015 | Fair Value as of March 29, 2015 |
|---|--|---------------------------------------|--|---------------------------------------|
| Derivatives designated as hedging instruments: | | | | |
| Interest rate swaps | Derivative Liability | \$ — | \$ (22,918) | \$ (19,252) |
| Total derivatives designated as hedging instruments | | \$ — | \$ (22,918) | \$ (19,252) |
| Derivatives not designated as hedging instruments: | | | | |
| Interest rate swaps | Current Derivative Liability | \$ — | \$ — | \$ (9,989) |
| Interest rate swaps | Derivative Liability | \$ (27,855) | \$ — | \$ — |
| Total derivatives not designated as hedging instruments | | \$ (27,855) | \$ — | \$ (9,989) |
| Net derivative liability | | \$ (27,855) | \$ (22,918) | \$ (29,241) |

Derivatives Designated as Hedging Instruments

Changes in fair value of highly effective hedges are recorded as a component of accumulated other comprehensive income in the consolidated balance sheets. Any ineffectiveness is recognized immediately in income. Amounts recorded as a component of accumulated other comprehensive income are reclassified into earnings in the same period the forecasted transactions affect earnings. As a result of the first quarter of 2016 amendments, the previously existing interest rate swap agreements were de-designated and the newly amended interest rate swap agreements are not designated as hedging instruments. As of March 27, 2016 we have no designated derivatives and thus no amounts for designated derivatives that are forecasted to be reclassified into earnings in the next twelve months.

Table of Contents

Derivatives Not Designated as Hedging Instruments

Certain interest rate swap contracts were deemed ineffective in prior years and no longer qualified for hedge accounting. As a result of discontinued hedge accounting, the instruments are prospectively adjusted to fair value each reporting period through "Net effect of swaps" on the consolidated statements of operations and comprehensive income. The amounts that were previously recorded as a component of accumulated other comprehensive income prior to the de-designation are reclassified to earnings and a corresponding realized gain or loss will be recognized when the forecasted cash flow occurs. As a result of the first quarter 2016 amendments, the previously existing interest rate swap agreements were de-designated and the amounts previously recorded in AOCI will be amortized into earnings through the original December 2018 maturity. As of March 27, 2016, approximately \$26.0 million of losses remain in accumulated comprehensive income related to the effective cash flow hedge contracts prior to de-designation, \$9.5 million of which will be reclassified to earnings within the next twelve months.

Effects of Derivative Instruments on Income (Loss) and Other Comprehensive Income (Loss) for the three-month periods ended March 27, 2016 and March 29, 2015:

| (\$'s in thousands): | Amount of (Loss) recognized in OCI on Derivatives (Effective Portion) | | Amount and Location of (Loss) Reclassified from Accumulated OCI into Income (Effective Portion) | | Amount and Location of Gain (Loss) Recognized in Income on Derivatives | | | |
|----------------------|---|------------------------------|---|------------------------------|--|----------------------------|------------------------------|------------------------------|
| | Three months ended 3/27/2016 | Three months ended 3/29/2015 | Designated Derivatives | Three months ended 3/27/2016 | Three months ended 3/29/2015 | Derivatives Not Designated | Three months ended 3/27/2016 | Three months ended 3/29/2015 |
| | | | | | | | | |
| Interest rate swaps | \$ (4,671) | \$ (4,602) | Interest Expense | \$ (851) | \$ — | Net effect of swaps | \$ (265) | \$ 1,802 |

During the quarter ended March 27, 2016, the Partnership recognized \$0.3 million in income for the loss on the derivatives not designated as cash flow hedges and \$1.6 million of expense representing the regular amortization of amounts in AOCI. The effect of these amounts resulted in a charge to earnings of \$1.8 million recorded in "Net effect of swaps."

During the quarter ended March 29, 2015, the Partnership recognized \$1.8 million in income for the gain on the derivatives not designated as cash flow hedges and \$1.7 million of expense representing the amortization of amounts in AOCI. The effect of these amounts resulted in a benefit to earnings of \$0.1 million recorded in "Net effect of swaps."

(7) Fair Value Measurements:

The FASB Accounting Standards Codification (ASC) relating to fair value measurements emphasizes that fair value is a market-based measurement that should be determined based on assumptions (inputs) that market participants would use in pricing an asset or liability. Inputs may be observable or unobservable, and valuation techniques used to measure fair value should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Accordingly, the FASB's ASC establishes a hierarchical disclosure framework that ranks the quality and reliability of information used to determine fair values. The hierarchy is associated with the level of pricing observability utilized in measuring fair value and defines three levels of inputs to the fair value measurement process. Quoted prices are the most reliable valuation inputs, whereas model values that include inputs based on unobservable data are the least reliable. Each fair value measurement must be assigned to a level corresponding to the lowest level input that is significant to the fair value measurement in its entirety.

The three broad levels of inputs defined by the fair value hierarchy are as follows:

Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Table of Contents

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The table below presents the balances of assets and liabilities measured at fair value as of March 27, 2016, December 31, 2015, and March 29, 2015 on a recurring basis as well as the fair values of other financial instruments:

| (In thousands) | Condensed Consolidated Balance Sheet Location | Fair Value Hierarchy Level | March 27, 2016 Carrying Value | March 27, 2016 Fair Value | December 31, 2015 Carrying Value | December 31, 2015 Fair Value | March 29, 2015 Carrying Value | March 29, 2015 Fair Value |
|--|---|----------------------------|-------------------------------|---------------------------|----------------------------------|------------------------------|-------------------------------|---------------------------|
| Financial assets (liabilities) measured on a recurring basis: | | | | | | | | |
| Interest rate swap agreements not designated as cash flow hedges | Current derivative liability | Level 2 | — | — | — | — | (9,989) | (9,989) |
| Interest rate swap agreements not designated as cash flow hedges | Derivative Liability | Level 2 | (27,855) | (27,855) | — | — | — | — |
| Interest rate swap agreements designated as cash flow hedges | Derivative Liability | Level 2 | — | — | (22,918) | (22,918) | (19,252) | (19,252) |
| Other financial assets (liabilities): | | | | | | | | |
| Term debt | Long-Term Debt ⁽¹⁾ | Level 2 | (604,800) | (604,800) | (606,375) | (605,806) | (608,850) | (610,372) |
| March 2013 notes | Long-Term Debt ⁽¹⁾ | Level 1 | (500,000) | (518,750) | (500,000) | (501,250) | (500,000) | (513,750) |
| June 2014 notes | Long-Term Debt ⁽¹⁾ | (2) | (450,000) | (464,625) | (450,000) | (451,125) | (450,000) | (460,125) |

(1) Carrying values of Long-Term debt balances are before reductions for deferred financing fee amounts of \$18.9 million, \$19.7 million, and \$23.0 million as of March 27, 2016, December 31, 2015, and March 29, 2015.

(2) The June 2014 notes were based on Level 1 inputs as of both March 27, 2016 and December 31, 2015 and Level 2 inputs as of March 29, 2015.

Fair values of the interest rate swap agreements are determined using significant inputs, including the LIBOR forward curves, which are considered Level 2 observable market inputs. In addition, the Partnership considered the effect of its credit and non-performance risk on the fair values provided, and recognized an adjustment decreasing the net derivative liability by approximately \$1.1 million as of March 27, 2016, \$0.8 million as of December 31, 2015, and \$0.6 million as of March 29, 2015.

The carrying value of cash and cash equivalents, revolving credit loans, accounts receivable, current portion of term debt, accounts payable, and accrued liabilities approximates fair value because of the short maturity of these instruments. There were no assets measured at fair value on a non-recurring basis at March 27, 2016, December 31, 2015, or March 29, 2015.

Table of Contents

(8) Earnings per Unit:

Net loss per limited partner unit is calculated based on the following unit amounts:

| | |
|--|--|
| | Three months ended 3/27/2016/29/2015 (In thousands except per unit amounts) |
| Basic weighted average units outstanding | 55,877 55,820 |
| Diluted weighted average units outstanding | 55,877 55,820 |
| Net loss per unit - basic | \$(0.87) \$ (1.50) |
| Net loss per unit - diluted | \$(0.87) \$ (1.50) |

(9) Income and Partnership Taxes:

Under the applicable accounting rules, income taxes are recognized for the amount of taxes payable by the Partnership's corporate subsidiaries for the current year and for the impact of deferred tax assets and liabilities, which represent future tax consequences of events that have been recognized differently in the financial statements than for tax purposes. The income tax provision (benefit) for interim periods is determined by applying an estimated annual effective tax rate to the quarterly income (loss) of the Partnership's corporate subsidiaries. In addition to income taxes on its corporate subsidiaries, the Partnership is subject to a publicly traded partnership tax (PTP tax) on partnership-level gross income (net revenues less cost of food, merchandise and games). As such, the Partnership's total provision (benefit) for taxes includes amounts for both the PTP tax and for income taxes on its corporate subsidiaries.

As of the first quarter of 2016, the Partnership has recorded \$1.1 million of unrecognized tax benefits including interest and/or penalties related to state and local tax filing positions. The Partnership recognizes interest and/or penalties related to unrecognized tax benefits in the income tax provision. The Partnership does not anticipate that the balance of the unrecognized tax benefit will change significantly over the next 12 months.

(10) Contingencies:

The Partnership is a party to a number of lawsuits arising in the normal course of business. In the opinion of management, none of these matters are expected to have a material effect in the aggregate on the Partnership's financial statements.

Table of Contents

(11) Changes in Accumulated Other Comprehensive Income by Component:

(12) Consolidating Financial Information of Guarantors and Issuers:

Cedar Fair, L.P., Canada's Wonderland Company ("Cedar Canada"), and Magnum Management Corporation ("Magnum") are the co-issuers of the Partnership's June 2014 and March 2013 notes (see Note 5). The notes have been fully and unconditionally guaranteed, on a joint and several basis, by each 100% owned subsidiary of Cedar Fair (other than Cedar Canada and Magnum) that guarantees the Partnership's senior secured credit facilities. There are no non-guarantor subsidiaries.

The following consolidating schedules present condensed financial information for Cedar Fair, L.P., Cedar Canada, and Magnum, the co-issuers, and each 100% owned subsidiary of Cedar Fair (other than Cedar Canada and Magnum), the guarantors (on a combined basis), as of March 27, 2016, December 31, 2015, and March 29, 2015 and for the three-month periods ended March 27, 2016 and March 29, 2015. In lieu of providing separate unaudited financial statements for the guarantor subsidiaries, the Partnership has included the accompanying condensed consolidating financial statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Overview:

We generate our revenues primarily from sales of (1) admission to our parks, (2) food, merchandise and games inside our parks, and (3) hotel rooms, food and other attractions both inside and outside our parks. Our principal costs and expenses, which include salaries and wages, advertising, maintenance, operating supplies, utilities and insurance, are relatively fixed and do not vary significantly with attendance.

Each of our properties is overseen by a park general manager and operates autonomously. Management reviews operating results, evaluates performance and makes operating decisions, including allocating resources on a property-by-property basis.

Along with attendance and guest per capita statistics, discrete financial information and operating results are prepared at the individual park level for use by the CEO, who is the Chief Operating Decision Maker (CODM), as well as by the Chief Financial Officer, the Chief Operating Officer, the Executive Vice President - Operations, and the park general managers.

Critical Accounting Policies:

Management's discussion and analysis of financial condition and results of operations is based upon our unaudited condensed consolidated financial statements, which were prepared in accordance with accounting principles generally accepted in the United States of America. These principles require us to make judgments, estimates and assumptions during the normal course of business that affect the amounts reported in the unaudited condensed consolidated financial statements. Actual results could differ significantly from those estimates under different assumptions and conditions.

Management believes that judgment and estimates related to the following critical accounting policies could materially affect our consolidated financial statements:

- Impairment of Long-Lived Assets
- Goodwill and Other Intangible Assets
- Self-Insurance Reserves
- Derivative Financial Instruments
- Revenue Recognition

Income Taxes

In the first quarter of 2016, there were no changes in the above critical accounting policies from those previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

Table of Contents

Adjusted EBITDA:

We believe that Adjusted EBITDA (earnings before interest, taxes, depreciation, amortization, other non-cash items, and adjustments as defined in the 2013 Credit Agreement) is a meaningful measure of park-level operating profitability because we use it for measuring returns on capital investments, evaluating potential acquisitions, determining awards under incentive compensation plans, and calculating compliance with certain loan covenants. Adjusted EBITDA is provided in the discussion of results of operations that follows as a supplemental measure of our operating results and is not intended to be a substitute for operating income, net income or cash flows from operating activities as defined under generally accepted accounting principles. In addition, Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

The table below sets forth a reconciliation of Adjusted EBITDA to net income for the three-month period ended March 27, 2016 and March 29, 2015.

| | Three months ended | |
|---|--------------------|------------|
| | 3/27/2016 | 3/29/2015 |
| | (13 | (13 |
| | weeks) | weeks) |
| | (In thousands) | |
| Net loss | \$(48,486) | \$(83,833) |
| Interest expense | 19,787 | 20,532 |
| Interest income | (18) | (40) |
| Benefit for taxes | (19,382) | (44,394) |
| Depreciation and amortization | 5,191 | 4,011 |
| EBITDA | (42,908) | (103,724) |
| Net effect of swaps | 1,842 | (116) |
| Unrealized foreign currency (gain) loss | (19,714) | 38,258 |
| Non-cash equity expense | 2,468 | 2,385 |
| Loss on impairment / retirement of fixed assets, net | 2,612 | 2,903 |
| Class action settlement costs | — | 150 |
| Other non-recurring items (as defined) ⁽¹⁾ | 244 | (303) |
| Adjusted EBITDA | \$(55,456) | \$(60,447) |

(1) The Company's 2013 Credit Agreement references certain costs as non-recurring or unusual. These items are excluded in the calculation of Adjusted EBITDA and have included certain legal expenses, costs associated with certain ride abandonment or relocation expenses, contract termination costs, and severance expenses.

Table of Contents

Results of Operations:

Three months ended March 27, 2016

Operating results for the first quarter are historically less than 5% of our full-year revenues and attendance. The results include normal off-season operating, maintenance, and administrative expenses at our ten seasonal amusement parks and three outdoor water parks, as well as daily operations at Knott's Berry Farm, which is open year-round, and Castaway Bay, which is generally open daily Memorial Day to Labor Day plus a limited daily schedule for the balance of the year. The fiscal three-month period ended March 27, 2016, consisted of a 13-week period and included a total of 96 operating days compared with 13 weeks and 97 operating days for the fiscal three-month period ended March 29, 2015. As of March 27, 2016 and March 29, 2015, we had opened four of our amusement parks for the respective seasons.

The following table presents key financial information for the three months ended March 27, 2016 and March 29, 2015:

| | Three months ended 3/27/2016 (13 weeks) (Amounts in thousands) | Three months ended 3/29/2015 (13 weeks) | Increase (Decrease) | |
|--|--|--|---------------------|--------|
| | | | \$ | % |
| Net revenues | \$58,438 | \$46,817 | \$ 11,621 | 24.8 % |

For the quarter ended March 27, 2016, net revenues increased by \$11.6 million, to \$58.4 million, from \$46.8 million in the first quarter of 2015. This reflects an increase in both attendance and average in-park guest per capita spending and a slight increase in out-of park revenues compared to the same period in the prior year. Attendance for the first quarter was positively impacted by strong early-season pass visitation at Knott's Berry Farm, while the increase in per capita spending was mainly attributable to the continued growth in admissions and our food and beverage programs. Currency exchange rates had an immaterial impact on net revenues for the quarter as our Canadian park was not in operation during the period.

Operating costs and expenses for the quarter increased 6.3%, or \$6.9 million, to \$116.5 million from \$109.5 million in the first quarter of 2015. The increase is the result of a \$0.6 million increase in cost of goods sold and a \$6.5 million increase in operating expenses which were slightly offset by a \$0.2 million decrease in SG&A. The \$0.6 million increase in cost of goods sold reflects the higher attendance levels in the quarter, and cost of goods sold as a percentage of revenues was comparable for both periods. The \$6.5 million increase in operating expenses was primarily due to several factors. First, the three-month period ended March 27, 2016 included an increase in labor costs due to both normal merit increases and market / minimum-wage rate increases. Second, operating supplies increased as a result of incremental special events and other planned spending on our current year initiatives. Lastly, first-quarter maintenance expense increased due to increases in ride maintenance and support of infrastructure improvements. The slight \$0.2 million decrease in SG&A expense was primarily due to a reduction in current period equity compensation expense reflecting a modest increase in unit price in the current quarter, compared to a

significant increase in unit price experienced in the first quarter of 2015. This benefit was partially offset by increases in media and other marketing costs. The increase in operating costs and expenses is net of the favorable impact of foreign currency exchange rates of \$0.6 million compared to the first quarter of 2015.

Depreciation and amortization expense for the quarter increased \$1.2 million. For the first quarter of 2016, the loss on impairment / retirement of fixed assets was \$2.6 million, reflecting the retirement of assets during the period at several of our properties, as compared to \$2.9 million in the first quarter of 2015. After depreciation, amortization, loss on impairment/retirement of fixed assets, and all other non-cash costs, operating loss decreased \$3.8 million to \$65.8 million for the first quarter of 2016 compared to operating loss of \$69.6 million for the first quarter of 2015.

Table of Contents

Interest expense for the first quarter of 2016 decreased slightly to \$19.8 million from \$20.5 million in the first quarter of 2015. The net effect of our swaps resulted in a non-cash charge to earnings of \$1.8 million for the first quarter of 2016 compared with a \$0.1 million non-cash benefit to earnings in the first quarter of 2015. The difference reflects the change in fair market value movements in our de-designated swap portfolio offset by the amortization of amounts in OCI for these swaps. During the current quarter, we also recognized a \$19.6 million net benefit to earnings for unrealized/realized foreign currency gains compared with a \$38.2 million net charge to earnings for the first quarter in 2015. Both amounts primarily represented foreign currency movements on the U.S.-dollar denominated debt held at our Canadian property.

During the first quarter, a benefit for taxes of \$19.4 million was recorded to account for PTP taxes and income taxes on our corporate subsidiaries. This compares to a benefit for taxes recorded in the first quarter of 2015 of \$44.4 million. This decrease in tax benefit relates largely to a smaller pretax loss in our corporate subsidiaries.

After the items above, net loss for the quarter totaled \$48.5 million, or \$0.87 per diluted limited partner unit, compared with a net loss of \$83.8 million, or \$1.50 per diluted unit, for the first quarter a year ago.

We believe Adjusted EBITDA is a meaningful measure of our operating results (for additional information regarding Adjusted EBITDA, including how we define and use Adjusted EBITDA, as well as a reconciliation from net loss, see page 25). For the current quarter, our Adjusted EBITDA loss decreased to \$55.5 million from \$60.4 million for the fiscal first quarter of 2015. The approximate \$5.0 million decrease in Adjusted EBITDA loss is a direct result of higher attendance, higher average guest per capita spending, and stronger out-of-park revenues during the three-month period compared with the prior-year period. Partially offsetting these revenue increases were increases in operating costs and expenses associated with the higher first-quarter attendance, special events and other planned spending on our current year initiatives.

Liquidity and Capital Resources:

With respect to both liquidity and cash flow, we ended the first quarter of 2016 in sound condition. The working capital ratio (current assets divided by current liabilities) of 0.6 at March 27, 2016 is the result of normal seasonal activity and the distribution payable which was outstanding at the end of the quarter and not outstanding in the prior-year period. Receivables, inventories, and payables are at normal seasonal levels.

Operating Activities

During the three-month period ended March 27, 2016, net cash used by operating activities increased \$7.6 million from the same period a year ago, primarily due to higher income tax payments and other changes to both working capital and other non-current assets and liabilities.

Investing Activities

Net cash used in investing activities in the three-month period ended March 27, 2016 was \$52.2 million, a decrease of \$9.5 million compared with the same period ended March 29, 2015. The increase reflects lower capital expenditures in the period and a \$2.0 million preferred equity investment made in a non-public entity in the prior year.

Financing Activities

Net cash from financing activities in the first three months of 2016 was \$63.5million, an increase of \$49.8 million compared with the same period ended March 29, 2015, reflecting the year-over-year timing difference in the payment of unitholder distributions.

Table of Contents

As of March 27, 2016, our outstanding debt, before reduction for deferred financing fees, consisted of the following:

\$450 million of 5.375% senior unsecured notes, maturing in 2024, issued at par. Prior to June 1, 2017, up to 35% of the notes may be redeemed with the net cash proceeds of certain equity offerings at a price equal to 105.375% together with accrued and unpaid interest. The notes may be redeemed, in whole or in part, at any time prior to June 1, 2019 at a price equal to 100% of the principal amount of the notes redeemed plus a "make-whole" premium, together with accrued and unpaid interest, if any, to the redemption date. The notes may be redeemed after this date, in whole or in part, at various prices depending on the date redeemed. The notes pay interest semi-annually in June and December.

\$500 million of 5.25% senior unsecured notes, maturing in 2021, issued at par. The notes may be redeemed, in whole or in part, at any time prior to March 15, 2017 at a price equal to 103.938% of the principal amount of the notes redeemed, together with accrued and unpaid interest, if any, to the redemption date. The notes may be redeemed after this date, in whole or in part, at various prices depending on the date redeemed. The notes pay interest semi-annually in March and September.

\$608.9 million of senior secured term debt, maturing in March 2020 under our 2013 Credit Agreement. The term debt bears interest at a rate of LIBOR plus 250 bps with a LIBOR floor of 75 bps. The term loan amortizes at \$6.3 million annually. Due to a prepayment made during 2014, we have \$4.1 million of current maturities as of March 27, 2016.

\$65 million of borrowings under the \$255 million senior secured revolving credit facility under our 2013 Credit Agreement. Under the 2013 Credit Agreement, the Canadian portion of the revolving credit facility has a sub-limit of \$15 million. U.S. denominated and Canadian denominated loans made under the revolving credit facility bear interest at a rate of LIBOR plus 225 bps (with no LIBOR floor). The revolving credit facility is scheduled to mature in March 2018 and also provides for the issuance of documentary and standby letters of credit. The 2013 Credit Agreement requires that we pay a commitment fee of 38 bps per annum on the unused portion of the credit facilities. After letters of credit, which totaled \$16.3 million at March 27, 2016, we had \$173.7 million of available borrowings under the revolving credit facility and cash on hand of \$64.6 million.

As of March 27, 2016, we have \$500 million of interest rate swaps in place that effectively convert variable-rate debt to fixed rates. These swaps, which mature in December 2020 and fix LIBOR at a weighted average rate of 2.64%, were not designated as cash flow hedges. Additional detail regarding our current and historical swap arrangements is provided in Note 6 to our Unaudited Condensed Consolidated Financial Statements and in Note 6 to the Audited Consolidated Financial Statements included in our Form 10-K filed on February 26, 2016.

At March 27, 2016, the fair market value of our derivative portfolio was \$27.9 million and was recorded in "Derivative Liability."

The 2013 Credit Agreement includes two Financial Condition Covenants, which if breached for any reason and not cured, could result in an event of default. At the end of the first quarter of 2016, the first of these, the Consolidated Leverage Ratio, was set at a maximum of 5.75x consolidated total debt (excluding the revolving debt)-to-consolidated EBITDA. The required ratio decreased by 0.25x at the beginning of the second quarter of 2015 and will decrease each second quarter until it reaches 5.25x. The second of these required ratios, the Consolidated Fixed Charge Coverage Ratio, was set at a minimum of 1.1x (consolidated total fixed charges-to-consolidated EBITDA). As of March 27, 2016, we were in compliance with these Financial Condition Covenants and all other covenants under the 2013 Credit Agreement.

The 2013 Credit Agreement allows restricted payments of up to \$60 million annually so long as no default or event of default has occurred and is continuing and so long as the Partnership would be in compliance with certain financial ratios after giving effect to the payments. Additional restricted payments are allowed to be made based on an excess-cash-flow formula, should our pro-forma Consolidated Leverage Ratio be less than or equal to 5.0x.

The indentures governing our notes also include annual restricted payment limitations and additional permitted payment formulas. We can make restricted payments of \$60 million annually so long as no default or event of default

has occurred and is continuing. Our ability to make additional restricted payments is permitted should our pro forma Total Indebtedness-to-Consolidated-Cash-Flow Ratio be less than or equal to 5.00x.

In accordance with these debt provisions, on February 24, 2016, we announced the declaration of a distribution of \$0.825 per limited partner unit, which was paid on March 28, 2016. Also, on May 4, 2016, we announced the declaration of a distribution of \$0.825 per limited partner unit, which will be payable on June 15, 2016.

Existing credit facilities and cash flows from operations are expected to be sufficient to meet working capital needs, debt service, partnership distributions and planned capital expenditures for the foreseeable future.

Table of Contents

Off Balance Sheet Arrangements:

We had \$16.3 million in letters of credit, which are primarily in place to backstop insurance arrangements, outstanding on our revolving credit facility as of March 27, 2016. We have no other significant off-balance sheet financing arrangements.

Forward Looking Statements

Some of the statements contained in this report (including the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section) that are not historical in nature are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements as to our expectations, beliefs and strategies regarding the future. These forward-looking statements may involve risks and uncertainties that are difficult to predict, may be beyond our control and could cause actual results to differ materially from those described in such statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Important factors, including those listed under Item 1A in the Company’s Annual Report on Form 10-K, could adversely affect our future financial performance and cause actual results to differ materially from our expectations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks from fluctuations in interest rates, and to a lesser extent on currency exchange rates on our operations in Canada and, from time to time, on imported rides and equipment. The objective of our financial risk management is to reduce the potential negative impact of interest rate and foreign currency exchange rate fluctuations to acceptable levels. We do not acquire market risk sensitive instruments for trading purposes.

We manage interest rate risk through the use of a combination of fixed-rate long-term debt, interest rate swaps that fix a portion of our variable-rate long-term debt, and variable-rate borrowings under our revolving credit facility.

Translation exposures with regard to our Canadian operations are not hedged.

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the change in fair value of the derivative instrument is reported as a component of “Other comprehensive income (loss)” and reclassified into earnings in the period during which the hedged transaction affects earnings. Changes in fair value of derivative instruments that do not qualify as effective hedging activities are reported as “Net effect of swaps” in the consolidated statement of operations. Additionally, the “Other comprehensive income (loss)” related to interest rate swaps that become ineffective is amortized over the remaining life of the interest rate swap, and reported as a component of “Net effect of swaps” in the consolidated statement of operations.

As of March 27, 2016, before reduction for deferred financing fees, we had \$950.0 million of fixed-rate senior unsecured notes and \$608.9 million of variable-rate term debt. After considering the impact of interest rate swap agreements, most of our outstanding long-term debt represents fixed-rate debt. Assuming an average balance on our revolving credit borrowings of approximately \$18.3 million, a hypothetical 100 bps increase in 30-day LIBOR on our variable-rate debt (not considering the impact of our interest rate swaps) would lead to an increase of approximately \$6.2 million in annual cash interest costs.

Assuming a hypothetical 100 bps increase in 30-day LIBOR, the amount of net cash interest paid on our derivative portfolio would decrease by \$4.9 million over the next year.

A uniform 10% strengthening of the U.S. dollar relative to the Canadian dollar would result in a \$2.7 million decrease in annual operating income.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

(a)Evaluation of Disclosure Controls and Procedures -

The Partnership maintains a system of controls and procedures designed to ensure that information required to be disclosed by the Partnership in its reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified by the Commission and that such information is accumulated and communicated to the Partnership's management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. As of March 27, 2016, the Partnership's management, with the participation of the Partnership's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Partnership's disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Partnership's disclosure controls and procedures were effective as of March 27, 2016.

(b)Changes in Internal Control Over Financial Reporting -

There were no changes in the Partnership's internal control over financial reporting that occurred during the fiscal quarter ended March 27, 2016 that have materially affected, or are reasonably likely to materially affect, the Partnership's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Not applicable.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2015.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities:

The following table presents information about repurchases of Cedar Fair, L.P. Depositary Units representing limited partner interests made by the Partnership during the first quarter of fiscal 2016:

| Period | (a) | (b) | (c) | (d) |
|--------------------------|---|--------------------------------------|---|--|
| | Total Number of Units Purchased (1) | Average Price Paid per Unit | Total Number of Units Purchased as Part of Publicly Announced Plans or Programs | Maximum Number (or Approximate Dollar Value) of Units that May Yet Be Purchased Under the Plans or Programs |
| January 1 - January 31 | — | \$ — | — | \$ — |
| February 1 - February 28 | 14,916 | 57.20 | — | — |
| February 29 - March 27 | 984 | 55.84 | — | — |
| | 15,900 | \$ 57.12 | — | \$ — |

All of the units reported as purchased are attributable to units that were reacquired by the Partnership in satisfaction (1) of tax obligations related to the vesting of restricted units which were granted under the Cedar Fair, L.P. 2008 Omnibus Incentive Plan.
