1. Description of Business and Basis of Presentation.

General

Icahn Enterprises L.P. ("Icahn Enterprises") is a master limited partnership formed in Delaware on February 17, 1987. Icahn Enterprises Holdings L.P. ("Icahn Enterprises Holdings") is a limited partnership formed in Delaware on February 17, 1987. References to "we," "our" or "us" herein include both Icahn Enterprises and Icahn Enterprises Holdings and their subsidiaries, unless the context otherwise requires.

Icahn Enterprises owns a 99% limited partner interest in Icahn Enterprises Holdings. Icahn Enterprises G.P. Inc. ("Icahn Enterprises GP"), which is owned and controlled by Mr. Carl C. Icahn, owns a 1% general partner interest in each of Icahn Enterprises and Icahn Enterprises Holdings as of September 30, 2016. Icahn Enterprises Holdings and its subsidiaries own substantially all of our assets and liabilities and conduct substantially all of our operations. Therefore, the financial results of Icahn Enterprises and Icahn Enterprises Holdings are substantially the same, with differences relating primarily to debt, as discussed further in Note 10, "Debt," and to the allocation of the general partner interest, which is reflected as an aggregate 1.99% general partner interest in the financial statements of Icahn Enterprises. In addition to the above, Mr. Icahn and his affiliates owned approximately 89.7% of Icahn Enterprises' outstanding depositary units as of September 30, 2016.

We are a diversified holding company owning subsidiaries currently engaged in the following continuing operating businesses: Investment, Automotive, Energy, Metals, Railcar, Gaming, Mining, Food Packaging, Real Estate and Home Fashion. We also report the results of our Holding Company, which includes the results of certain subsidiaries of Icahn Enterprises and Icahn Enterprises Holdings (unless otherwise noted), and investment activity and expenses associated with the Holding Company. Further information regarding our reporting segments is contained in Note 2, "Operating Units," and Note 13, "Segment Reporting."

We conduct and plan to continue to conduct our activities in such a manner as not to be deemed an investment company under the Investment Company Act of 1940, as amended (the "'40 Act"). Therefore, no more than 40% of our total assets can be invested in investment securities, as such term is defined in the '40 Act. In addition, we do not invest or intend to invest in securities as our primary business. We intend to structure our investments to continue to be taxed as a partnership rather than as a corporation under the applicable publicly traded partnership rules of the Internal Revenue Code, as amended.

The accompanying condensed consolidated financial statements and related notes should be read in conjunction with our consolidated financial statements and related notes contained in our Annual Report on Form 10-K for the year ended December 31, 2015. The condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC") related to interim financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") have been condensed or omitted pursuant to such rules and regulations. The financial information contained herein is unaudited; however, management believes all adjustments have been made that are necessary to present fairly the results for the interim periods. All such adjustments are of a normal and recurring nature.

Reclassifications

Certain reclassifications from the prior year presentation have been made to conform to the current year presentation.

Principles of Consolidation

As of September 30, 2016, our condensed consolidated financial statements include the accounts of (i) Icahn Enterprises and Icahn Enterprises Holdings and (ii) the wholly and majority owned subsidiaries of Icahn Enterprises and Icahn Enterprises Holdings, in addition to variable interest entities ("VIEs") in which we are the primary beneficiary. In evaluating whether we have a controlling financial interest in entities that we consolidate, we consider the following: (1) for voting interest entities, including limited partnerships and similar entities that are not VIEs, we

consolidate these entities in which we own a majority of the voting interests; and (2) for VIEs, we consolidate these entities in which we are the primary beneficiary. See below for a discussion of our VIEs. Kick-out rights (which are the rights underlying the limited partners' ability to dissolve the limited partnership or otherwise remove the general partners and which are collectively referred to as "kick-out" rights) held through voting interests of partnerships and similar entities that are not VIEs are considered the equivalent of the equity interests of corporations that are not VIEs. All material intercompany accounts and transactions have been eliminated in consolidation.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Except for our Investment segment, for those investments in which we own 50% or less but greater than 20%, we generally account for such investments using the equity method, while investments in affiliates of 20% or less are accounted for under the cost method.

Acquisitions of Businesses

We account for business combinations under the acquisition method of accounting (other than acquisitions of businesses under common control), which requires us to recognize separately from goodwill the assets acquired and the liabilities assumed at their acquisition date fair values. While we use our best estimates and assumptions to accurately value assets acquired and liabilities assumed at the acquisition date as well as contingent consideration, where applicable, our estimates are inherently uncertain and subject to refinement.

Accounting for business combinations requires us to make significant estimates and assumptions, especially at the acquisition date including our estimates for intangible assets, contractual obligations assumed, pre-acquisition contingencies, and contingent consideration, where applicable. In valuing our acquisitions we estimate fair values based on industry data and trends and by reference to relevant market rates and transactions, and discounted cash flow valuation methods, among other factors. The discount rates used were commensurate with the inherent risks associated with each type of asset and the level and timing of cash flows appropriately reflect market participant assumptions. The primary items that generate goodwill include the value of the synergies between the acquired company and our existing businesses and the value of the acquired assembled workforce, neither of which qualifies for recognition as an intangible asset.

The various acquisitions made during the nine months ended September 30, 2016 as discussed below, are not material, individually or in the aggregate, to our condensed consolidated financial statements.

Automotive

Pep Boys Acquisition

On February 3, 2016, pursuant to a tender offer, Icahn Enterprises acquired a majority of the outstanding shares of Pep Boys - Manny, Moe and Jack ("Pep Boys"). On February 4, 2016, Icahn Enterprises completed the acquisition of the remaining outstanding shares of Pep Boys and our wholly owned subsidiary, IEP Parts Acquisition LLC, merged with and into Pep Boys, with Pep Boys surviving the merger as a wholly owned subsidiary of Icahn Enterprises Holdings. The primary reasons for the acquisition of Pep Boys were to add new product lines to our Automotive segment, to provide operating synergies, to strengthen distribution channels and enhance our Automotive segment's ability to better service its customers.

The total value for the acquisition of Pep Boys was approximately \$1.2 billion, including the fair value of our equity interest in Pep Boys just prior to our acquisition of a controlling interest. Prior to obtaining a controlling interest, we remeasured our equity interest in Pep Boys to its acquisition-date fair value of \$121 million. The difference between the carrying value and the acquisition-date fair value of our equity interest in Pep Boys was immaterial.

A preliminary valuation of the net assets of the Pep Boys acquisition resulted in \$993 million allocated to tangible net assets and \$210 million allocated to goodwill and other intangible net assets as of the acquisition date. Our allocation to other intangible net assets includes \$59 million allocated to unfavorable leases liability which is included in accrued expenses and other liabilities on the condensed consolidated balance sheets. We are in the process of valuing the Pep Boys acquisition and have recorded provisional amounts based on preliminary estimates of fair value of net assets acquired, including goodwill. The provisional measurements of net assets are subject to change as we finalize the purchase price allocation.

Our consolidated results for the nine months ended September 30, 2016 include total revenues of approximately \$1.3 billion, net of intercompany eliminations, and net loss attributable to Icahn Enterprises and Icahn Enterprises Holdings of \$8 million, net of intercompany eliminations, that are directly attributable to our acquisition of Pep Boys.

After giving effect to the acquisition of Pep Boys as if it had occurred on January 1, 2015, Icahn Enterprises' pro forma revenue for the nine months ended September 30, 2016 and 2015 was approximately \$12.5 billion and \$14.3

billion, respectively, pro forma net (loss) income was approximately \$(1.7) billion and \$9 million, respectively, and pro forma net loss attributable to Icahn Enterprises was \$963 million and \$81 million, respectively. Additionally, pro forma basic and diluted loss per LP unit was \$6.99 and \$0.63 for the nine months ended September 30, 2016 and 2015, respectively.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Other Acquisition

On May 26, 2016, Federal-Mogul completed the acquisition of the assets of a filter manufacturing business in Mexico, which primarily serves the Mexican market, for a purchase price of \$25 million, net of cash acquired. The estimated fair value of net assets acquired at the acquisition date is \$25 million. Federal-Mogul is in the process of finalizing certain customary post-closing adjustments which could affect the estimated fair value of assets acquired and liabilities assumed.

Energy

CVR Nitrogen, LP Acquisition

On April 1, 2016, CVR Partners completed its acquisition of CVR Nitrogen, LP ("CVR Nitrogen") (formerly known as East Dubuque Nitrogen Partners, L.P. and also formerly known as Rentech Nitrogen Partners L.P.) and CVR Nitrogen GP, LLC (formerly known as East Dubuque Nitrogen GP, LLC and also formerly known as Rentech Nitrogen GP, LLC). In connection with this acquisition, CVR Partners issued approximately 40.2 million common units to CVR Nitrogen common unitholders with a fair market value of \$336 million and paid \$99 million in cash consideration and assumed \$368 million fair value of debt. The total fair value of the purchase price consideration to be allocated was \$440 million and the estimated fair value of net assets acquired at the acquisition date was \$440 million. There were no identifiable intangible assets related to this acquisition. CVR Partners is in the process of finalizing certain customary post-closing adjustments which could affect the estimated fair value of assets acquired and liabilities assumed.

CVR Nitrogen's debt arrangements that remained in place after the closing date of the acquisition included \$320 million of its 6.5% notes due 2021, the majority of which were purchased in June 2016, as discussed further in Note 10, "Debt." On April 1, 2016, in connection with the acquisition of CVR Nitrogen, CVR Partners entered into a new \$320 million senior term loan facility with American Entertainment Properties Corp. (the "AEPC Facility"), a wholly owned subsidiary of Icahn Enterprises, as the lender. In connection with the repayment of the substantial majority of CVR Nitrogen's 6.5% notes due 2021, the AEPC Facility was terminated.

CVR Nitrogen, located in East Dubuque, Illinois, owns and operates a nitrogen fertilizer facility, producing primarily ammonia and UAN using natural gas as its facility's primary feedstock. The primary reasons for the mergers were to expand CVR Partners' geographical footprint, diversify its raw material feedstocks, widen its customer reach and increase its potential cash-flow generation.

Gaming

Trump Acquisition

On September 9, 2014, Trump Entertainment Resorts, Inc. ("Trump") and its subsidiaries filed voluntary Chapter 11 petitions in the United States Bankruptcy Court for the District of Delaware in Wilmington, Delaware. On February 26, 2016 (the "Effective Date"), Trump emerged from bankruptcy. Icahn Enterprises was the sole holder of Trump's senior secured debt. On the Effective Date, among other things, the existing pre-petition senior secured debt with a face amount of \$286 million held by Icahn Enterprises was extinguished and converted into 100.0% of Trump's New Common Stock (as defined in the bankruptcy plan). As a result, we became the 100.0% owner of Trump after reorganization and accordingly, obtained control and began consolidating the results of Trump on February 26, 2016. Trump owns the Trump Taj Mahal Casino Resort (the "Trump Taj Mahal"). The Trump Taj Mahal closed and ceased its casino and hotel operations on October 10, 2016.

Prior to obtaining a controlling interest in Trump upon its emergence from bankruptcy, we remeasured our interest in Trump to its acquisition-date fair value of \$126 million, resulting in a \$16 million gain on investment activities. A valuation of the net assets of the Trump business resulted in \$112 million allocated to tangible net assets and \$14 million to intangible assets. As a result of the Trump Taj Mahal's closing, we recorded an aggregate impairment charge of \$92 million for the three and nine months ended September 30, 2016 related to property, plant and equipment and intangible assets for our Gaming segment. See Note 5, "Fair Value Measurements," and Note 8,

"Goodwill and Intangible Assets, Net," for further discussion regarding these impairment charges.

Variable Interest Entities

As further discussed below, the Financial Statement Accounting Standards Board's ("FASB") Accounting Standards Update ("ASU") No. 2015-02 became effective during the first quarter of 2016. ASU No. 2015-02 amends the current consolidation guidance, including introducing a separate consolidation analysis specific to limited partnerships and other similar entities. Specifically, under the revised consolidation analysis, limited partnerships and other similar entities are

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

considered VIEs unless the limited partners hold substantive kick-out rights or participating rights. Although ASU No. 2015-02 changed the status of certain of our limited partnership entities as VIEs (as discussed below), we continue to consolidate these entities because we are the primary beneficiaries of such entities.

Investment

Our Investment segment is comprised of various private investment funds, including Icahn Partners L.P. ("Icahn Partners") and Icahn Partners Master Fund LP ("Master Fund") (collectively, the "Investment Funds"), through which we invest our proprietary capital. See Note 2, "Operating Units - Investment," for further discussion regarding our Investment segment's business.

We determined that each of the Investment Funds are considered VIEs because these limited partnerships lack both substantive kick-out and participating rights. Because we are the general partner in each of the Investment Funds and have significant limited partner interests in each of the Investment Funds, coupled with our significant exposure to losses and benefits in each of the Investment Funds, we are the primary beneficiary of each of the Investment Funds and therefore continue to consolidate each of the Investment Funds. Substantially all of the assets and liabilities of our Investment segment pertain to the Investment Funds. See Note 13, "Segment Reporting," for details of our condensed balance sheets for our Investment segment.

Energy

We conduct our Energy segment through our majority ownership in CVR Energy Inc. ("CVR"). CVR owns petroleum refining and nitrogen fertilizer manufacturing businesses held through CVR Refining, LP ("CVR Refining") and CVR Partners, LP ("CVR Partners"), respectively, and each are considered VIEs. See Note 2, "Operating Units - Energy," for further discussion regarding our Energy segment's business.

Our Energy segment determined that CVR Refining and CVR Partners are each considered VIEs because each of these limited partnerships lack both substantive kick-out and participating rights. In addition, our Energy segment also concluded that based upon its general partner's roles and rights in CVR Refining and CVR Partners as afforded by their respective partnership agreements, coupled with its exposure to losses and benefits in each of CVR Refining and CVR Partners through its significant limited partner interests, intercompany credit facilities and services agreements, CVR determined that it is the primary beneficiary of both CVR Refining and CVR Partners. Based upon this evaluation, CVR continues to consolidate both CVR Refining and CVR Partners. The assets and liabilities of our Energy segment that are directly related to CVR Refining and CVR Partners included in our condensed consolidated balance sheets are as follows:

	September 30, 2016	December 31, 2015
	(in millions)	
Cash and cash equivalents	\$ 351	\$ 237
Property, plant and equipment, net	3,365	2,674
Inventories	323	290
Goodwill	—	574
Intangible assets, net	323	337
Other assets	79	115
Accounts payable, accrued expenses and other liabilities	436	333
Debt	1,167	667

Icahn Enterprises Holdings

As discussed above, Icahn Enterprises Holdings and its subsidiaries own substantially all of our assets and liabilities and conduct substantially all of our operations. We determined that Icahn Enterprises Holdings is a VIE because it lacks both substantive kick-out and participating rights. Icahn Enterprises is the primary beneficiary of Icahn Enterprises Holdings principally based on its 99% limited partner interest in Icahn Enterprises Holdings and therefore

continues to consolidate Icahn Enterprises Holdings. The condensed consolidated financial statements of Icahn Enterprises Holdings are included in this Report.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Fair Value of Financial Instruments

The carrying values of cash and cash equivalents, cash held at consolidated affiliated partnerships and restricted cash, accounts receivable, due from brokers, accounts payable, accrued expenses and other liabilities and due to brokers are deemed to be reasonable estimates of their fair values because of their short-term nature.

See Note 4, "Investments and Related Matters," and Note 5, "Fair Value Measurements," for a detailed discussion of our investments.

The fair value of our long-term debt is based on the quoted market prices for the same or similar issues or on the current rates offered to us for debt of the same remaining maturities. The carrying value and estimated fair value of our long-term debt as of September 30, 2016 was approximately \$13.0 billion and \$12.8 billion, respectively. The carrying value and estimated fair value of our long-term debt as of December 31, 2015 was approximately \$12.6 billion and \$12.2 billion, respectively.

Restricted Cash

Our restricted cash balance was \$569 million and \$966 million as of September 30, 2016 and December 31, 2015, respectively.

Inventories

As discussed above we acquired Pep Boys on February 3, 2016. Pep Boys' inventories are valued at lower of cost or market and cost of goods sold is determined using the last-in, first-out ("LIFO") method. Pep Boys is currently the only subsidiary of ours that uses LIFO in determining cost of goods sold. As inventories of Pep Boys have been revalued to fair value as a result of our acquisition on February 3, 2016, there are immaterial differences between inventory balances calculated using LIFO as compared to inventory balances calculated using first-in, first-out as of September 30, 2016.

Adoption of New Accounting Standards

In February 2015, the FASB issued ASU No. 2015-02, Amendments to the Consolidation Analysis, which amends FASB ASC Topic 810, Consolidations. This ASU amends the current consolidation guidance, including introducing a separate consolidation analysis specific to limited partnerships and other similar entities. This ASU requires that limited partnerships and similar legal entities provide partners with either substantive kick-out rights or substantive participating rights over the general partner in order to be considered a voting interest entity. The specialized consolidation model and guidance for limited partnerships and similar legal entities have been eliminated. There is no longer a presumption that a general partner should consolidate a limited partnership. For limited partnerships and similar legal entities that qualify as voting interest entities, a limited partner with a controlling financial interest should consolidate a limited partnership. A controlling financial interest may be achieved through holding a limited partner interest that provides substantive kick-out rights. The standard is effective for annual periods beginning after December 15, 2015. As a result of adopting this guidance in the first quarter of 2016, while certain of our limited partnership entities are now considered VIEs, we continue to consolidate these limited partnerships. See above for further discussion regarding our VIEs.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which amends FASB ASC Subtopic 835-30, Interest - Imputation of Interest. The new standard requires that all costs incurred to issue debt be presented in the balance sheet as a direct deduction from the carrying value of the debt. Given the absence of authoritative guidance within this ASU regarding debt issuance costs related to line-of-credit, the SEC staff has stated that it would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred issuance costs ratably over the term of the line-of-credit arrangement. The standard is effective for interim and annual periods beginning after December 15, 2015 and is required to be applied on a retrospective basis. Early adoption is permitted. The adoption of this guidance resulted in a reclassification of debt issuance costs on our condensed consolidated balance sheets to debt in the amount of \$39 million as of December 31, 2015.

In September 2015, the FASB issued ASU No. 2015-16, Simplifying the Accounting for Measurement-Period Adjustments, which amends FASB ASC Topic 805, Business Combinations. This ASU eliminates the requirement to retrospectively adjust provisional amounts recognized at the acquisition dates of business combinations. Rather, this ASU requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. This ASU is effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendments in this ASU should be applied prospectively to adjustments to provisional amounts that occur after the effective date with earlier application permitted for

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

financial statements that have not been issued. The adoption of this guidance in the first quarter of 2016 did not have a material impact on our condensed consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

Recently Issued Accounting Standards

In May 2014, the FASB issued ASU No. 2014-09, creating a new topic, FASB ASC Topic 606, Revenue from Contracts with Customers, superseding revenue recognition requirements in FASB ASC Topic 605, Revenue Recognition. This ASU requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. In addition, an entity is required to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. This ASU was amended by ASU No. 2015-14, issued in August 2015, which deferred the original effective date by one year; the effective date of this ASU is for fiscal years, and interim reporting periods within those years, beginning after December 15, 2017, using one of two retrospective application methods. In addition, the FASB issued other amendments during 2016 to FASB ASC Topic 606, Revenue from Contracts with Customers, that include implementation guidance to principal versus agent considerations, guidance to identifying performance obligations and licensing guidance and other narrow scope improvements. Early adoption is permitted only as of the annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. Given the complexity of our operations, we continue to evaluate the impact of these guidance on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures. We will adopt these new guidance on January 1, 2018 using the modified retrospective application method.

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory, which amends FASB ASC Topic 330, Inventory. This ASU requires entities to measure inventory at the lower of cost or net realizable value and eliminates the option that currently exists for measuring inventory at market value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. This ASU is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. This ASU should be applied prospectively with earlier application permitted as of the beginning of an interim period or annual reporting period. We anticipate that the adoption of this guidance will have minimal impact on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments - Overall, which amends FASB ASC Topic 825, Financial Instruments. This ASU requires that equity investments (except those accounted for under the equity method of accounting or those that result in the consolidation of the investee) to be measured at fair value with changes recognized in earnings. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment. In addition, there were other amendments to certain disclosure and presentation matters pertaining to financial instruments, including the requirement of an entity to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. This ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The amendments in this ASU should be applied by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. The amendments related to equity securities without readily determinable fair values should be applied prospectively to equity investments that exist as of the date of adoption. Early application is permitted for certain matters only. We are currently evaluating the impact of this guidance on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which supersedes FASB ASC Topic 840, Leases. This ASU requires the recognition of lease assets and lease liabilities by lessees for those leases classified as operating leases under previous guidance. In addition, among other changes to the accounting for leases, this ASU

retains the distinction between finance leases and operating leases. The classification criteria for distinguishing between finance leases and operating leases are substantially similar to the classification criteria for distinguishing between capital leases and operating leases in the previous guidance. This ASU is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The amendments in this ASU should be applied using a modified retrospective approach. Early application is permitted. We are currently evaluating the impact of this guidance on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

In March 2016, the FASB issued ASU No. 2016-07, Simplifying the transition to equity method of accounting, which amends FASB ASC Topic 323, Investments - Equity Method and Joint Ventures. This ASU eliminates the retroactive adjustment of an investment that qualifies for the equity method as a result of an increase in the level of ownership or degree of

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

influence as if the equity method had been in effect during all previous periods that the investment had been held. The amendments in this ASU are effective for interim and annual fiscal years beginning after December 15, 2016. Earlier application is permitted. We anticipate that the adoption of this guidance will have minimal impact on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

In June 2016, the FASB issued ASU No. 2016-13, Measurement of credit losses on financial instruments, which amends FASB ASC Topic 326, Financial Instruments - Credit Losses. This ASU requires financial assets measured at amortized cost to be presented at the net amount to be collected and broadens the information, including forecasted information incorporating more timely information, that an entity must consider in developing its expected credit loss estimate for assets measured. We are currently evaluating the impact of this guidance on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

In August 2016, the FASB issued ASU No. 2016-15, Classification of Certain Cash Receipts and Cash Payments, which amends FASB ASC Topic 230, Statement of Cash Flows. This ASU seeks to reduce the diversity currently in practice by providing guidance on the presentation of eight specific cash flow issues in the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. We are currently evaluating the impact of this guidance on our consolidated statement of cash flows.

In October 2016, the FASB issued ASU No. 2016-16, Intra-Entity Transfers of Assets Other Than Inventory, which amends FASB ASC Topic 740, Income Taxes. This ASU requires the recognition of income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. Current GAAP prohibits the recognition of current and deferred incomes taxes for an intra-entity asset transfer until the asset has been sold to an outside party. This ASU is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We are currently evaluating the impact of this guidance on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

In October 2016, the FASB issued ASU No. 2016-17, Interests Held Through Related Parties That Are Under Common Control, which amends FASB ASC Topic 810, Consolidation. This ASU requires that a reporting entity, in determining whether it satisfies the characteristics of a primary beneficiary, to include all of its direct variable interests in a VIE and, on a proportionate basis, its indirect variable interests in a VIE held through related parties, including related parties that are under common control with the reporting entity. Current GAAP requires that a single decision maker to consider indirect interests in the entity held through related parties to be the equivalent of direct interests in their entirety. This ASU is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We are currently evaluating the impact of this guidance on our consolidated financial position, results of operations, comprehensive income, cash flows and disclosures.

Filing Status of Subsidiaries

Federal-Mogul Holdings Corporation ("Federal-Mogul"), CVR Energy, Inc. ("CVR"), American Railcar Industries, Inc. ("ARI") and Tropicana Entertainment Inc. ("Tropicana") are each a public reporting entity under the Securities Exchange Act of 1934, as amended, and file annual, quarterly and current reports and proxy and information statements with the SEC. Each of these reports is publicly available at www.sec.gov.

2. Operating Units.

Investment

Our Investment segment is comprised of various private investment funds, including the Investment Funds, through which we invest our proprietary capital. We and certain of Mr. Icahn's wholly owned affiliates are the sole investors in the Investment Funds. Icahn Onshore LP and Icahn Offshore LP (together, the "General Partners") act as the general partner of Icahn Partners and the Master Fund, respectively. The General Partners provide investment advisory and certain administrative and back office services to the Investment Funds but do not provide such services to any other entities, individuals or accounts. Interests in the Investment Funds are not offered to outside investors.

We had interests in the Investment Funds with a fair value of approximately \$1.8 billion and \$3.4 billion as of September 30, 2016 and December 31, 2015, respectively.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Automotive

We conduct our Automotive segment through our majority ownership in Federal-Mogul Holdings Corporation ("Federal-Mogul"), our wholly owned subsidiary IEH Auto Parts Holding LLC ("IEH Auto"), effective June 1, 2015, and our wholly owned subsidiary Pep Boys, effective February 3, 2016.

Federal-Mogul is a leading global supplier of a broad range of components, accessories and systems to the automotive, small engine, heavy-duty, marine, railroad, agricultural, off-road, aerospace and energy, industrial and transport markets, including customers in both the original equipment manufacturers and servicers ("OE") market and the replacement market ("aftermarket"). Federal-Mogul's customers include the world's largest automotive OEs and major distributors and retailers in the independent aftermarket.

Federal-Mogul operates with two end-customer focused businesses. The Powertrain business unit focuses on original equipment products for automotive, heavy duty and industrial applications. The Motorparts business unit sells and distributes a broad portfolio of products in the global aftermarket, while also serving original equipment manufacturers with products including braking, chassis, wipers and other vehicle components.

As of September 30, 2016, we owned approximately 82.0% of the total outstanding common stock of Federal-Mogul. On September 6, 2016, we, through our wholly owned subsidiary, IEH FM Holdings LLC commenced a cash tender offer (the "Federal-Mogul Tender Offer") to acquire, subject to the terms and conditions of the Federal-Mogul Merger Agreement, all of the issued and outstanding shares of Federal-Mogul's common stock not already owned by us. See Part II, Item 5, "Other Information - Federal-Mogul Tender Offer," of this Report for further discussion regarding this transaction.

Pep Boys has 805 locations in the automotive aftermarket industry located throughout the United States and Puerto Rico. Pep Boys stores are organized into a hub and spoke network consisting of Supercenters and Service & Tire Centers. Supercenters average approximately 20,000 square feet and combine a parts and accessories store with professional service centers that perform a full range of automotive maintenance and repair services. Most of the Pep Boys Supercenters also have a commercial sales program that provides prompt delivery of parts, tires and equipment to automotive repair shops and dealers. Service & Tire Centers, which average approximately 6,000 square feet, provide automotive maintenance and repair services in neighborhood locations that are conveniently located where our customers live or work.

IEH Auto has 21 distribution centers and 284 corporate-owned jobber stores (including 14 satellite locations) in the United States and supports a network of more than 2,000 independent wholesalers. Through its banner and technical support programs as well as its offering of premium auto parts, IEH Auto has built its reputation on being the partner of choice for independent entrepreneurs eager to tap into the strength of large network.

Pep Boys and IEH Auto are being operated together in order to grow their sales to do-it-for-me ("DIFM") distributors and DIFM service professionals, to grow their automotive service business, and to maintain their do-it-yourself customer bases by offering the newest and broadest product assortment in the automotive aftermarket.

In addition, Federal-Mogul is operated independently from Pep Boys and IEH Auto. Transactions among Federal-Mogul, Pep Boys and IEH Auto have been eliminated in consolidation.

Accounts Receivable, net

Federal-Mogul's subsidiaries in Brazil, France, Germany, Italy, Canada and the United States are party to accounts receivable factoring and securitization facilities. Gross accounts receivable transferred under these facilities were \$519 million and \$408 million as of September 30, 2016 and December 31, 2015, respectively. Of those gross amounts, \$510 million and \$401 million, respectively, qualify as sales as defined in FASB ASC Topic 860, Transfers and Servicing. The remaining transferred receivables were pledged as collateral and accounted for as secured borrowings and recorded in the condensed consolidated balance sheets within accounts receivable, net and debt. Under the terms of these facilities, Federal-Mogul is not obligated to draw cash immediately upon the transfer of accounts receivable. As of September 30, 2016 and December 31, 2015, Federal-Mogul had undrawn cash related to such transferred

receivables of \$1 million and \$1 million, respectively. Proceeds from the transfers of accounts receivable qualifying as sales were \$311 million and \$380 million for the three months ended September 30, 2016 and 2015, respectively, and approximately \$1.2 billion and \$1.2 billion for the nine months ended September 30, 2016 and 2015, respectively. Expenses associated with transfers of receivables were \$2 million and \$3 million for the three months ended September 30, 2016 and 2015, respectively, and \$9 million and \$7 million for the nine months ended September 30, 2016 and

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

2015, respectively. Such expenses were recorded in the condensed consolidated statements of operations within other income (loss), net. Where Federal-Mogul receives a fee to service and monitor these transferred receivables, such fees are sufficient to offset the costs and as such, a servicing asset or liability is not incurred as a result of such activities. Certain of the facilities contain terms that require Federal-Mogul to share in the credit risk of the sold receivables. The maximum exposure to Federal-Mogul associated with certain of these facilities' terms were \$5 million and \$11 million as of September 30, 2016 and December 31, 2015, respectively.

Restructuring

Federal-Mogul recorded restructuring expenses of \$7 million and \$18 million for the three months ended September 30, 2016 and 2015, respectively, and \$28 million and \$57 million for the nine months ended September 30, 2016 and 2015, respectively. These restructuring expenses, primarily consisting of employee costs and headcount reductions, pertain to all restructuring programs that Federal-Mogul has initiated in order to improve its operating performance.

Federal-Mogul's restructuring expenses for the nine months ended September 30, 2016 are aimed at optimizing its cost structure. Federal-Mogul expects to complete these programs in 2017 and incur additional restructuring and other charges of \$1 million. For programs previously initiated in prior periods, Federal-Mogul expects to complete these programs in 2018 and incur additional restructuring charges of approximately \$4 million.

Energy

We conduct our Energy segment through our majority ownership in CVR. CVR is a diversified holding company primarily engaged in the petroleum refining and nitrogen fertilizer manufacturing industries through its holdings in CVR Refining and CVR Partners, respectively. CVR Refining is an independent petroleum refiner and marketer of high value transportation fuels. CVR Partners produces and markets nitrogen fertilizers in the form of urea ammonium nitrate ("UAN") and ammonia. As of September 30, 2016, CVR owned 100% of the general partners of CVR Refining and CVR Partners and approximately 66% of the common units of CVR Refining and approximately 34% of the common units of CVR Partners.

As of September 30, 2016, we owned approximately 82.0% of the total outstanding common stock of CVR. In addition, as of September 30, 2016, we owned approximately 3.9% of the total outstanding common units of CVR Refining directly.

Petroleum Business

CVR Refining's petroleum business includes a 115,000 barrels per calendar day ("bpcd") rated capacity complex full coking medium-sour crude oil refinery in Coffeyville, Kansas and a 70,000 bpcd rated capacity complex crude oil refinery in Wynnewood, Oklahoma. The Coffeyville refinery is situated on approximately 440 acres in southeast Kansas, approximately 100 miles from Cushing, Oklahoma, a major crude oil trading and storage hub. The Wynnewood refinery is situated on approximately 400 acres located approximately 65 miles south of Oklahoma City, Oklahoma and approximately 130 miles from Cushing, Oklahoma.

In addition to the refineries, CVR's petroleum business owns and operates the following: (i) a crude oil gathering system with a gathering capacity of over 65,000 barrels per day ("bpd") serving Kansas, Oklahoma, Missouri, Nebraska, Colorado and Texas; (ii) a 170,000 bpd pipeline system (supported by approximately 340 miles of active owned and leased pipeline) that transports crude oil to its Coffeyville refinery from its Broome Station facility near Caney, Kansas; (iii) approximately 6.4 million barrels of company owned and leased crude oil storage capacity; (iv) a rack marketing division supplying product through tanker trucks directly to customers located in close geographic proximity to Coffeyville, Kansas and Wynnewood, Oklahoma and at throughput terminals on Magellan and NuStar Energy, LP's ("NuStar") refined products distribution systems; and (v) over 4.5 million barrels of combined refinery related storage capacity.

On August 2, 2016, we sold 250,000 common units of CVR Refining. As a result of this transaction, we and our affiliates collectively own 69.99% of CVR Refining. See Part II, Item 5, "Other Information - CVR Refining Call

Right," of this Report for further discussion regarding this transaction.

Nitrogen Fertilizer Business

CVR Partners' nitrogen fertilizer business consists of a nitrogen fertilizer manufacturing facility located in Coffeyville, Kansas that utilizes a petroleum coke, or pet coke, gasification process to produce nitrogen fertilizer and a nitrogen fertilizer manufacturing facility located in East Dubuque, Illinois that uses natural gas to produce nitrogen fertilizer (as a result of the acquisition of CVR Nitrogen as discussed above). The facility in Coffeyville includes a 1,300 ton-per-day ammonia unit, a

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

3,000 ton-per-day UAN unit and a gasifier complex having a capacity of 89 million standard cubic feet per day of hydrogen. The facility in East Dubuque includes a 1,025 ton-per-day ammonia unit and a 1,100 ton-per-day UAN unit.

Metals

We conduct our Metals segment through our indirect wholly owned subsidiary, PSC Metals, Inc. ("PSC Metals"). PSC Metals collects industrial and obsolete scrap metal, processes it into reusable forms and supplies the recycled metals to its customers, including electric-arc furnace mills, integrated steel mills, foundries, and secondary smelters and metals brokers. PSC Metals' ferrous products include busheling, plate and structural, shredded, sheared and bundled scrap metal and other purchased scrap metal such as turnings (steel machining fragments), and cast furnace iron. PSC Metals processes the scrap into a size, density and purity required by customers to meet their production needs. PSC Metals also processes non-ferrous metals, including aluminum, copper, brass, stainless steel and nickel-bearing metals. Non-ferrous products are a significant raw material in the production of aluminum and copper alloys used in manufacturing. PSC Metals also operates a steel products business that includes the supply of secondary plate and structural grade pipe that is sold into niche markets for counterweights, piling and foundations, construction materials and infrastructure end-markets. PSC Metals also purchases end of life vehicles, dismantles those vehicles, resells valuable parts, and ships the resulting vehicle hulks to its shredder yards.

Railcar

We conduct our Railcar segment through our majority ownership interest in ARI and our wholly owned subsidiary American Railcar Leasing, LLC ("ARL").

ARI manufactures railcars that are offered for sale or lease, custom and standard railcar components and other industrial products, primarily aluminum and special alloy steel castings. These products are sold to various types of companies including shippers, leasing companies, industrial companies, and Class I railroads. ARI leases railcars that it manufactures to certain markets that include the chemical, mineral, petrochemical, food and agriculture, and energy industries. ARI provides railcar services consisting of railcar repair services, ranging from full to light repair, engineering and on-site repairs and maintenance through its various repair facilities, including mini repair shops and mobile repair units.

ARL is engaged in the business of leasing railcars to customers with specific requirements whose products require specialized railcars dedicated to transporting, storing, and preserving the integrity of their products. These products are primarily in the chemical, mineral, petrochemical, food and agriculture, and energy industries.

Transactions between ARI and ARL have been eliminated in consolidation.

As of September 30, 2016, we owned approximately 61.2% of the total outstanding common stock of ARI.

Gaming

We conduct our Gaming segment through our majority ownership in Tropicana and, effective February 26, 2016, our wholly owned subsidiary, Trump, which owns the Trump Taj Mahal. The Trump Taj Mahal closed and ceased its casino and hotel operations on October 10, 2016.

Tropicana owns and operates a diversified, multi-jurisdictional collection of casino gaming properties. The eight casino facilities it operates feature approximately 392,000 square feet of gaming space with 7,900 slot machines, 300 table games and 5,500 hotel rooms with two casino facilities located in Nevada and one in each of Mississippi, Missouri, Indiana, Louisiana, New Jersey and Aruba.

Trump Taj Mahal is located in Atlantic City, New Jersey and features approximately 160,000 square feet of gaming space with 2,500 slot machines, 130 table games and 2,000 hotel rooms. In addition, Trump also owns an idled casino property in Atlantic City, New Jersey, Trump Plaza Hotel and Casino, which ceased operations in September 2014.

As of September 30, 2016, we owned approximately 68.8% of the total outstanding common stock of Tropicana.

Mining

We conduct our Mining segment through our majority ownership in Ferrous Resources. We obtained control of and consolidated the results of Ferrous Resources during the second quarter of 2015.

Ferrous Resources acquired certain rights to iron ore mineral resources in Brazil and develops mining operations and related infrastructure to produce and sell iron ore products to the global steel industry. Ferrous Resources has acquired significant iron ore assets in the State of Minas Gerais, Brazil, known as Viga, Viga Norte, Esperança, Serrinha and Santanense.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

In addition, Ferrous Resources has acquired certain mineral rights near Jacuípe in the State of Bahia, Brazil. Of the assets acquired, Viga, Esperança and Santanense are already extracting and producing iron ore, while the other assets are at an early stage of exploration.

In response to the current depressed iron ore price environment, Ferrous Resources decided to temporarily suspend Esperança's and Santanense's operations during the first quarter of 2015 in order to study alternatives to further reduce cost of production and improve product quality and therefore to improve profitability and margin per metric ton. As of September 30, 2016, we owned approximately 77.2% of the total outstanding common stock of Ferrous Resources.

Food Packaging

We conduct our Food Packaging segment through our majority ownership in Viskase Companies, Inc. ("Viskase"). Viskase is a worldwide leader in the production and sale of cellulosic, fibrous and plastic casings for the processed meat and poultry industry. Viskase currently operates nine manufacturing facilities, six distribution centers and three service centers throughout North America, Europe, South America and Asia and derived approximately 70% of its total net sales from customers located outside the United States for the nine months ended September 30, 2016. As of September 30, 2016, we owned approximately 75.3% of the total outstanding common stock of Viskase.

Real Estate

Our Real Estate segment consists of rental real estate, property development and club activities.

As of September 30, 2016, we owned 15 commercial rental real estate properties. Our property development operations are run primarily through Bayswater Development LLC, a real estate investment, management and development subsidiary that focuses primarily on the construction and sale of single-family and multi-family homes, lots in subdivisions and planned communities and raw land for residential development. Our New Seabury development property in Cape Cod, Massachusetts and our Grand Harbor development property in Vero Beach, Florida include land for future residential development of approximately 239 and 1,128 units of residential housing, respectively. Both our developments operate golf and club operations as well. In addition, our Real Estate segment owns an unfinished development property which is located on approximately 23 acres in Las Vegas, Nevada.

Home Fashion

We conduct our Home Fashion segment through our indirect wholly owned subsidiary, WestPoint Home LLC ("WPH"), a manufacturer and distributor of home fashion consumer products. WPH is engaged in the business of designing, marketing, manufacturing, sourcing, distributing and selling home fashion consumer products. WPH markets a broad range of manufactured and sourced bed, bath, basic bedding, and other textile products, including sheets, pillowcases, bedspreads, quilts, comforters and duvet covers, bath and beach towels, bath accessories, bed skirts, bed pillows, flocked blankets, woven blankets and throws and mattress pads. WPH recognizes revenue primarily through the sale of home fashion products to a variety of retail and institutional customers. In addition, WPH receives a small portion of its revenues through the licensing of its trademarks.

3. Related Party Transactions.

Our amended and restated agreement of limited partnership expressly permits us to enter into transactions with our general partner or any of its affiliates, including, without limitation, buying or selling properties from or to our general partner and any of its affiliates and borrowing and lending money from or to our general partner and any of its affiliates, subject to limitations contained in our partnership agreement and the Delaware Revised Uniform Limited Partnership Act. The indentures governing our indebtedness contain certain covenants applicable to transactions with affiliates.

Investment

Mr. Icahn, along with his affiliates (excluding Icahn Enterprises and Icahn Enterprises Holdings), makes investments in the Investment Funds. During the nine months ended September 30, 2016 and 2015, affiliates of Mr. Icahn made

net investments aggregating \$498 million and \$246 million, respectively, in the Investment Funds. As of September 30, 2016 and December 31, 2015, the total fair market value of investments in the Investment Funds made by Mr. Icahn and his affiliates (excluding Icahn Enterprises and Icahn Enterprises Holdings) was approximately \$4.1 billion and \$4.1 billion, respectively, representing approximately 69% and 55%, respectively, of the Investment Funds' assets under management.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Icahn Capital LP ("Icahn Capital") pays for expenses pertaining to the operation, administration and investment activities of our Investment segment for the benefit of the Investment Funds (including salaries, benefits and rent). Effective April 1, 2011, based on an expense-sharing arrangement, certain expenses borne by Icahn Capital are reimbursed by the Investment Funds. For the three months ended September 30, 2016, \$21 million was allocated to the Investment Funds based on this expense-sharing arrangement. During the three months ended September 30, 2015, there was a reversal of expenses allocated to the Investment Funds due to the performance of a certain fund, resulting in an expense reallocation of \$24 million to Icahn Capital based on this expense-sharing arrangement. For the nine months ended September 30, 2016 and 2015, \$28 million and \$204 million, respectively, was allocated to the Investment Funds based on this expense-sharing arrangement.

Railcar

ARL Acquisition

On February 29, 2016, Icahn Enterprises entered into a contribution agreement with IRL Holding, LLC ("IRL"), an affiliate of Mr. Icahn, to acquire the remaining 25% economic interest in ARL not already owned by us. Pursuant to this contribution agreement, we contributed 685,367 newly issued depositary units of Icahn Enterprises to IRL in exchange for the remaining 25% economic interest in ARL. As a result of the transaction, we own a 100% economic interest in ARL. This transaction was authorized by the independent committee of the board of directors of the general partner of Icahn Enterprises. The independent committee was advised by independent counsel and retained an independent financial advisor which rendered a fairness opinion.

Agreements with ACF Industries LLC

ARI has from time to time purchased components from ACF Industries LLC ("ACF"), an affiliate of Mr. Icahn, under a long-term agreement, as well as on a purchase order basis. ACF is a manufacturer and fabricator of specialty railcar parts and miscellaneous steel products. Under the manufacturing services agreement entered into in 1994 and amended in 2005, ACF agreed to manufacture and distribute, at ARI's instruction, various railcar components. In consideration for these services, ARI agreed to pay ACF based on agreed upon rates. The agreement automatically renews unless written notice is provided by ARI.

Also in April 2015, ARI entered into a parts purchasing and sale agreement with ACF. The agreement was unanimously approved by the independent directors of ARI's and Icahn Enterprises' audit committee. Under this agreement, ARI and ACF may, from time to time, purchase and sell to each other certain parts for railcars ("Railcar Parts"). ARI also provides a non-exclusive and non-assignable license of certain intellectual property related to the manufacture and sale of Railcar Parts to ARI. The buyer under the agreement must pay the market price of the parts as determined in the agreement or as stated on a public website for all ARI customers. ARI may provide designs, engineering and purchasing support, including all materials and components to ACF. Subject to certain early termination events, the agreement terminates on December 31, 2020.

ARI purchased \$2 million and \$4 million of components from ACF for the three months ended September 30, 2016 and 2015, respectively, and \$4 million and \$13 million of components from ACF for the nine months ended September 30, 2016 and 2015, respectively.

In January 2013, ARI entered into a purchasing and engineering services agreement and license with ACF. The agreement was unanimously approved by the independent directors of ARI's and Icahn Enterprises' audit committee on the basis that the terms of the agreement were not materially less favorable to ARI than those that could have been obtained in a comparable transaction with an unrelated person. Under this agreement, ARI provides purchasing support and engineering services to ACF in connection with ACF's manufacture and sale of tank railcars at its facility in Milton, Pennsylvania. Additionally, ARI has granted ACF a nonexclusive, non-assignable license to certain of ARI's intellectual property, including certain designs, specifications, processes and manufacturing know-how required to manufacture and sell tank railcars during the term of the agreement. In November 2015, ARI and ACF amended this agreement to, among other provisions, extend the termination date to December 31, 2016 from December 31,

2015, subject to certain early termination events.

In consideration for the services and license provided by ARI to ACF in conjunction with the agreement, ACF pays ARI a royalty and, if any, a share of the net profits ("ACF Profits") earned on each railcar manufactured and sold by ACF under the agreement, in an aggregate amount equal to 30% of such ACF Profits, as calculated under the agreement. ACF Profits are net of certain of ACF's start-up and shutdown expenses and certain maintenance capital. If no ACF Profits are realized on a railcar manufactured and sold by ACF pursuant to the agreement, ARI will still be entitled to the royalty for such railcar and will not share in any losses incurred by ACF in connection therewith. In addition, any railcar components supplied by ARI to ACF for the manufacture of these railcars are provided at fair market value.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Under the agreement, ACF had the exclusive right to manufacture and sell subject tank railcars for any new orders scheduled for delivery to customers on or before January 31, 2014. ARI has the exclusive right to any sales opportunities for such tank railcars for any new orders scheduled for delivery after that date and through termination of the agreement. ARI also has the right to assign any sales opportunity to ACF, and ACF has the right, but not the obligation, to accept such sales opportunity. Any sales opportunity accepted by ACF will not be reflected in ARI's orders or backlog.

ARI's revenues under this agreement were zero and \$3 million for the three months ended September 30, 2016 and 2015, respectively, and less than \$1 million and \$9 million for the nine months ended September 30, 2016 and 2015, respectively. Such revenues were recorded for sales of railcar components to ACF and for royalties and profits on railcars sold by ACF.

In April 2015, ARI entered into a repair services and support agreement with ACF. The agreement was unanimously approved by the independent directors of ARI's and Icahn Enterprises' audit committee. Under this agreement, ARI provides certain sales and administrative and technical services, materials and purchasing support and engineering services to ACF to provide repair and retrofit services ("Repair Services"). Additionally, ARI provides a non-exclusive and non-assignable license of certain intellectual property related to the Repair Services for railcars. ARI receives 30% of the net profits (as defined in the agreement) for Repair Services related to all railcars not owned by ARL or its subsidiaries and 20% of the net profits for Repair Services related to all railcars owned by ARL or its subsidiaries, if any, but does not absorb any losses incurred by ACF.

Under the agreement, ARI has the exclusive right to sales opportunities related to Repair Services, except for any sales opportunity related to Repair Services presented to ACF by ARL with respect to ARL-owned railcars. ARI also has the right to assign any sales opportunities related to Repair Services to ACF, and ACF has the right, but not the obligation, to accept such sales opportunity. Subject to certain early termination events, the agreement terminates on December 31, 2020.

For each of the three and nine months ended September 30, 2016, revenues of less than \$1 million were recorded under this agreement. No revenues were recorded under this agreement for each of the three and nine months ended September 30, 2015.

In April 2013, AEP Leasing LLC entered into an agreement (the "ACF Agreement") with ACF whereby AEP Leasing would purchase railcars from ACF. The ACF Agreement was assumed by ARL in connection with our purchase of economic interest in ARL. The ACF Agreement was unanimously approved by Icahn Enterprises' audit committee consisting of independent directors, who were advised by independent counsel and an independent financial advisor on the basis that the terms were not less favorable than those terms that could have been obtained in a comparable transaction with an unaffiliated third party. Under this agreement, purchases of railcars from ACF were \$9 million for the nine months ended September 30, 2015. There were no purchases of railcars from ACF under this agreement for the nine months ended September 30, 2016.

In addition to the above purchases, on a contract-by-contract basis, ARL purchased zero and \$16 million of railcars from ACF for the three months ended September 30, 2016 and 2015, respectively, and \$14 million and \$43 million of railcars from ACF for the nine months ended September 30, 2016 and 2015, respectively.

Insight Portfolio Group LLC

Insight Portfolio Group LLC ("Insight Portfolio Group") is an entity formed and controlled by Mr. Icahn in order to maximize the potential buying power of a group of entities with which Mr. Icahn has a relationship in negotiating with a wide range of suppliers of goods, services and tangible and intangible property at negotiated rates.

In 2013, Icahn Enterprises Holdings acquired a minority equity interest in Insight Portfolio Group and agreed to pay a portion of Insight Portfolio Group's operating expenses. In addition to the minority equity interest held by Icahn Enterprises Holdings, certain subsidiaries of Icahn Enterprises Holdings, including Federal-Mogul, CVR, PSC Metals, ARI, ARL, Tropicana, Viskase and WPH also acquired minority equity interests in Insight Portfolio Group and agreed

to pay a portion of Insight Portfolio Group's operating expenses. A number of other entities with which Mr. Icahn has a relationship also acquired equity interests in Insight Portfolio Group and also agreed to pay certain of Insight Portfolio Group's operating expenses. For each of the three months ended September 30, 2016 and 2015 less than \$1 million was paid in respect to certain of Insight Portfolio Group's operating expenses. For each of the nine months ended September 30, 2016 and 2015, \$2 million were paid in respect to certain of Insight Portfolio Group's operating expenses.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES

ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

September 30, 2016 (Unaudited)

The portion of trading gains (losses) that relates to trading securities still held by our Investment segment was \$754 million and approximately \$(2.2) billion for the three months ended September 30, 2016 and 2015, respectively, and \$626 million and approximately \$(1.9) billion for the nine months ended September 30, 2016 and 2015, respectively. Our Investment segment assesses the applicability of equity method accounting with respect to their investments based on a combination of qualitative and quantitative factors, including overall stock ownership of the Investment Funds combined with those of our affiliates along with board of directors representation.

As of September 30, 2016, the Investment Funds and their affiliates collectively owned approximately 21.1% of Herbalife Ltd. ("Herbalife"). Our Investment segment applied the fair value option to Herbalife because this investment would have otherwise been subject to the equity method of accounting during the third quarter of 2016. Our Investment segment recorded net gains of \$52 million and \$119 million for the three and nine months ended September 30, 2016, respectively, with respect to its investment in Herbalife. As of September 30, 2016, the fair value of the Investment Funds' investment in Herbalife was \$973 million and was included in investments in our condensed consolidated balance sheets. We believe that the Investment Funds' investment in Herbalife is not material to our condensed consolidated financial statements.

5. Fair Value Measurements.

U.S. GAAP requires enhanced disclosures about investments and non-recurring non-financial assets and non-financial liabilities that are measured and reported at fair value and has established a hierarchal disclosure framework that prioritizes and ranks the level of market price observability used in measuring investments or non-financial assets and liabilities at fair value. Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments and non-financial assets and/or liabilities measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 - Quoted prices are available in active markets for identical investments as of the reporting date. The types of investments included in Level 1 include listed equities and listed derivatives. We do not adjust the quoted price for these investments, even in situations where we hold a large position.

Level 2 - Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities and certain over-the-counter derivatives. The inputs and assumptions of our Level 2 investments are derived from market observable sources including reported trades, broker/dealer quotes and other pertinent data.

Level 3 - Pricing inputs are unobservable for the investment and non-financial asset and/or liability and include situations where there is little, if any, market activity for the investment or non-financial asset and/or liability. The inputs into the determination of fair value require significant management judgment or estimation. Fair value is

determined using comparable market transactions and other valuation methodologies, adjusted as appropriate for liquidity, credit, market and/or other risk factors.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and consideration of factors specific to the investment. Significant transfers, if any, between the levels within the fair value hierarchy are recognized at the beginning of the reporting period when changes in circumstances require such transfers.

The following table summarizes the valuation of our investments, derivative contracts, securities sold not yet purchased and other liabilities by the above fair value hierarchy levels measured on a recurring and non-recurring basis as of September 30, 2016 and December 31, 2015:

	September 30, 2016				December 31, 2015			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Assets	(in millions)							
Investments (Note 4)	\$9,037	\$405	\$243	\$9,685	\$14,447	\$289	\$292	\$15,028
Derivative contracts, at fair value ⁽¹⁾	—	20	—	20	—	259	—	259
	\$9,037	\$425	\$243	\$9,705	\$14,447	\$548	\$292	\$15,287
Liabilities								
Securities sold, not yet purchased (Note 4)	\$1,154	\$56	\$—	\$1,210	\$794	\$—	\$—	\$794
Other liabilities	—	112	—	112	—	3	—	3
Derivative contracts, at fair value ⁽²⁾	—	768	—	768	—	36	—	36
	\$1,154	\$936	\$—	\$2,090	\$794	\$39	\$—	\$833

⁽¹⁾ Amounts are classified within other assets in our condensed consolidated balance sheets.

⁽²⁾ Amounts are classified within accrued expenses and other liabilities in our condensed consolidated balance sheets.

Assets Measured at Fair Value on a Recurring Basis for Which We Use Level 3 Inputs to Determine Fair Value

The changes in investments measured at fair value on a recurring basis for which we use Level 3 inputs to determine fair value are as follows:

	Nine Months Ended September 30,	
	2016	2015
	(in millions)	
Balance at January 1	\$283	\$229
Net realized and unrealized gains (losses) ⁽¹⁾	10	(40)
Purchases	50	100
Net transfers out	(121)	(44)
Balance at September 30	\$222	\$245

⁽¹⁾ Includes net unrealized losses of \$6 million and \$40 million for the nine months ended September 30, 2016 and 2015, respectively, relating to investments still held at September 30 of each respective period and which are included in net (loss) gain from investment activities in the condensed consolidated statements of operations.

During the first quarter of 2016, we transferred out a Level 3 corporate debt investment in the amount of \$126 million. See Note 2, "Operating Units - Gaming," for further discussion regarding this transaction.

During 2015, the Holding Company made a certain investment classified as trading securities in the amount of \$100 million, which is considered a Level 3 investment due to unobservable market data and is measured at fair value on a recurring basis. We purchased an additional \$50 million of this investment during the nine months ended September 30, 2016. We determined the fair value of this investment using internally developed models and other

valuation techniques. As of September 30, 2016 and December 31, 2015, the fair value of this investment was \$207 million and \$157 million, respectively.

During 2015, the Holding Company obtained control of, and consolidated, Ferrous Resources, which was previously considered a Level 3 investment due to unobservable market data. The fair value of our investment in Ferrous Resources

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

immediately prior to obtaining control was \$36 million, which was transferred out of Level 3 investments during the second quarter of 2015. In addition, during the three months ended September 30, 2015, our Gaming segment received \$10 million as reimbursement for certain approved capital expenditures.

Assets Measured at Fair Value on a Non-Recurring Basis for Which We Use Level 3 Inputs to Determine Fair Value

We have certain investments in debt securities classified as held-to-maturity within our Gaming segment since we have the ability and intent to hold the bonds to maturity. The debt securities are classified as Level 3 investments measured at fair value on a non-recurring basis and therefore are excluded from the roll forward of Level 3 investments measured on a recurring basis above. As of September 30, 2016 and December 31, 2015, the fair value of these debt securities was \$21 million and \$9 million, respectively, with the increase resulting from our acquisition of Trump during the first quarter of 2016.

During the nine months ended September 30, 2016, our Energy segment recorded a goodwill impairment charge of \$574 million, which represented the full amount of the remaining goodwill allocated to this segment. Additionally, during the nine months ended September 30, 2016, our Gaming segment recorded an intangible asset impairment charge of \$14 million, which represented the full amount of intangible assets allocated to Trump. Refer to Note 8, "Goodwill and Intangible Assets, Net," for further discussion.

During the nine months ended September 30, 2016, we recorded an aggregate \$82 million of impairment relating to property, plant and equipment at our Gaming and Automotive segments. During the nine months ended September 30, 2015, we recorded impairment charges of \$10 million relating to property, plant and equipment at our Automotive segment. We determined the fair value of property, plant and equipment by applying probability weighted, expected present value techniques to the estimated future cash flows using assumptions a market participant would utilize.

6. Financial Instruments.

Certain derivative contracts with a single counterparty executed by the Investment Funds, by our Automotive segment with a single counterparty or by our Energy segment with a single counterparty, or by our Holding Company with a single counterparty are reported on a net-by-counterparty basis where a legal right of offset exists under an enforceable netting agreement. Values for the derivative financial instruments, principally swaps, forwards, over-the-counter options and other conditional and exchange contracts, are reported on a net-by-counterparty basis. As a result, the net exposure to counterparties is reported in either other assets or accrued expenses and other liabilities in our condensed consolidated balance sheets.

Investment Segment and Holding Company

The Investment Funds currently maintain cash deposits and cash equivalents with financial institutions. Certain account balances may not be covered by the Federal Deposit Insurance Corporation, while other accounts may exceed federally insured limits. The Investment Funds have prime broker arrangements in place with multiple prime brokers as well as a custodian bank. The Investment Funds also have relationships with several financial institutions with which they trade derivative and other financial instruments.

In the normal course of business, the Investment Funds and the Holding Company may trade various financial instruments and enter into certain investment activities, which may give rise to off-balance-sheet risks, with the objective of capital appreciation or as economic hedges against other securities or the market as a whole. The Investment Funds' and the Holding Company's investments may include futures, options, swaps and securities sold, not yet purchased. These financial instruments represent future commitments to purchase or sell other financial instruments or to exchange an amount of cash based on the change in an underlying instrument at specific terms at specified future dates. Risks arise with these financial instruments from potential counterparty non-performance and from changes in the market values of underlying instruments.

Securities sold, not yet purchased, at fair value represent obligations to deliver the specified security, thereby creating a liability to repurchase the security in the market at prevailing prices. Accordingly, these transactions result in

off-balance-sheet risk, as the satisfaction of the obligations may exceed the amount recognized in our condensed consolidated balance sheets. Our investments in securities and amounts due from brokers are partially restricted until we satisfy the obligation to deliver the securities sold, not yet purchased.

The Investment Funds and the Holding Company may enter into derivative contracts, including swap contracts, futures contracts and option contracts. The Investment Funds may also enter into foreign currency derivative contracts with the objective of capital appreciation or to economically hedge against foreign currency exchange rate risks on all or a portion of their non-U.S. dollar denominated investments.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

The Investment Funds and the Holding Company have entered into various types of swap contracts with other counterparties. These agreements provide that they are entitled to receive or are obligated to pay in cash an amount equal to the increase or decrease, respectively, in the value of the underlying shares, debt and other instruments that are the subject of the contracts, during the period from inception of the applicable agreement to its expiration. In addition, pursuant to the terms of such agreements, they are entitled to receive or obligated to pay other amounts, including interest, dividends and other distributions made in respect of the underlying shares, debt and other instruments during the specified time frame. They are also required to pay to the counterparty a floating interest rate equal to the product of the notional amount multiplied by an agreed-upon rate, and they receive interest on any cash collateral that they post to the counterparty at the federal funds or LIBOR rate in effect for such period.

The Investment Funds and the Holding Company may trade futures contracts. A futures contract is a firm commitment to buy or sell a specified quantity of a standardized amount of a deliverable grade commodity, security, currency or cash at a specified price and specified future date unless the contract is closed before the delivery date. Payments (or variation margin) are made or received by the Investment Funds and the Holding Company each day, depending on the daily fluctuations in the value of the contract, and the whole value change is recorded as an unrealized gain or loss by the Investment Funds and the Holding Company. When the contract is closed, the Investment Funds and the Holding Company record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The Investment Funds and the Holding Company may utilize forward contracts to seek to protect their assets denominated in foreign currencies and precious metals holdings from losses due to fluctuations in foreign exchange rates and spot rates. The Investment Funds' and the Holding Company's exposure to credit risk associated with non-performance of such forward contracts is limited to the unrealized gains or losses inherent in such contracts, which are recognized in other assets and accrued expenses and other liabilities in our condensed consolidated balance sheets.

The Investment Funds may also enter into foreign currency contracts for purposes other than hedging denominated securities. When entering into a foreign currency forward contract, the Investment Funds agree to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed-upon future date unless the contract is closed before such date. The Investment Funds record unrealized gains or losses on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into such contracts and the forward rates at the reporting date.

The Investment Funds may also purchase and write option contracts. As a writer of option contracts, the Investment Funds receive a premium at the outset and then bear the market risk of unfavorable changes in the price of the underlying financial instrument. As a result of writing option contracts, the Investment Funds are obligated to purchase or sell, at the holder's option, the underlying financial instrument. Accordingly, these transactions result in off-balance-sheet risk, as the Investment Funds' satisfaction of the obligations may exceed the amount recognized in our condensed consolidated balance sheets. At September 30, 2016, the maximum payout amounts relating to certain put options written by the Investment Funds were approximately \$1.4 billion, all of which were related to covered put options on existing short positions on certain stock indices. At December 31, 2015, the maximum payout amounts relating to certain put options written by the Investment Funds were approximately \$5.9 billion, of which approximately \$5.9 billion related to covered put options on existing short positions on certain stock and credit indices. As of September 30, 2016 and December 31, 2015, there were unrealized gains of \$6 million and \$67 million, respectively, with respect to these put options.

Certain terms of the Investment Funds' contracts with derivative counterparties, which are standard and customary to such contracts, contain certain triggering events that would give the counterparties the right to terminate the derivative instruments. In such events, the counterparties to the derivative instruments could request immediate payment on derivative instruments in net liability positions. The aggregate fair value of all of the Investment Funds' derivative

instruments with credit-risk-related contingent features that are in a liability position at September 30, 2016 and December 31, 2015 was \$766 million and \$33 million, respectively.

At September 30, 2016 and December 31, 2015, the Investment Funds had \$492 million and \$883 million, respectively, posted as collateral for derivative positions, including those derivative instruments with credit-risk-related contingent features; these amounts are included in cash held at consolidated affiliated partnerships and restricted cash in our condensed consolidated balance sheets.

U.S. GAAP requires the disclosure of information about obligations under certain guarantee arrangements. Such guarantee arrangements requiring disclosure include contracts that contingently require the guarantor to make payments to the

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

guaranteed party based on another entity's failure to perform under an agreement as well as indirect guarantees of the indebtedness of others.

Each Investment Fund's assets may be held in one or more accounts maintained for the Investment Fund by its prime brokers or at other brokers or custodian banks, which may be located in various jurisdictions. The prime brokers, brokers and custodian banks are subject to various laws and regulations in the relevant jurisdictions in the event of their insolvency. Accordingly, the practical effect of these laws and their application to the Investment Funds' assets may be subject to substantial variations, limitations and uncertainties. The insolvency of any of the prime brokers, brokers, custodian banks or clearing corporations may result in the loss of all or a substantial portion of the Investment Funds' assets or in a significant delay in the Investment Funds' having access to those assets.

Credit concentrations may arise from investment activities and may be impacted by changes in economic, industry or political factors. The Investment Funds and the Holding Company routinely execute transactions with counterparties in the financial services industry, resulting in credit concentration with respect to this industry. In the ordinary course of business, the Investment Funds and the Holding Company may also be subject to a concentration of credit risk to a particular counterparty.

The Investment Funds and the Holding Company seek to mitigate these risks by actively monitoring exposures, collateral requirements and the creditworthiness of our counterparties.

Automotive

Commodity Price Risk

Federal-Mogul's production processes are dependent upon the supply of certain raw materials that are exposed to price fluctuations on the open market. The primary purpose of Federal-Mogul's commodity price forward contract activity is to manage the volatility associated with forecasted purchases. Federal-Mogul monitors its commodity price risk exposures regularly to maximize the overall effectiveness of its commodity forward contracts. Principal raw materials hedged include copper, nickel, tin, zinc, high-grade aluminum and aluminum alloy. Forward contracts are used to mitigate commodity price risk associated with raw materials, generally related to purchases forecast for up to 15 months in the future.

Federal-Mogul had commodity price hedge contracts outstanding with combined notional values of \$17 million and \$28 million at September 30, 2016 and December 31, 2015, respectively, substantially all of which mature within one year in each of the respective periods and all of which were designated as hedging instruments for accounting purposes. Federal-Mogul had recorded a net asset of \$1 million and a net liability of \$3 million as of September 30, 2016 and December 31, 2015, respectively, with respect to these hedging positions. Unrealized net losses of zero and \$2 million were recorded in accumulated other comprehensive loss as of September 30, 2016 and December 31, 2015, respectively.

Foreign Currency Risk

Federal-Mogul manufactures and sells its products in North America, South America, Asia, Europe and Africa. As a result, Federal-Mogul's financial results could be significantly affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets in which it manufactures and sells its products. Federal-Mogul's operating results are primarily exposed to changes in exchange rates between the U.S. dollar and various global currencies.

Federal-Mogul generally tries to use natural hedges within its foreign currency activities, including the matching of revenues and costs, to minimize foreign currency risk. Where natural hedges are not in place, Federal-Mogul considers managing certain aspects of its foreign currency activities and larger transactions through the use of foreign currency options or forward contracts. Principal currencies hedged have historically included the euro, British pound and Polish zloty. Foreign currency forwards are also used in conjunction with Federal-Mogul's commodity hedging program. As part of its hedging program, Federal-Mogul attempts to limit hedge ineffectiveness by matching terms of the commodity purchases with the hedging instrument. Federal-Mogul does not hold any foreign currency price hedge

contracts as of September 30, 2016 or December 31, 2015.

Concentrations of Credit Risk

Financial instruments including cash equivalents, derivative contracts, and accounts receivable, expose Federal-Mogul to counter-party credit risk for non-performance. Federal-Mogul's counterparties for cash equivalents and derivative contracts are banks and financial institutions that meet its requirement of high credit standing. Federal-Mogul's counterparties for derivative contracts are substantial investment and commercial banks with significant experience using such derivatives. Federal-Mogul manages its credit risk through policies requiring minimum credit standing and limiting credit exposure to any one counter-

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

party and through monitoring counter-party credit risks. Federal-Mogul's concentration of credit risk related to derivative contracts at September 30, 2016 and December 31, 2015 was not material.

Energy

CVR is subject to price fluctuations caused by supply conditions, weather, economic conditions, interest rate fluctuations and other factors. To manage price risk on crude oil and other inventories and to fix margins on certain future production, CVR from time to time enters into various commodity derivative transactions.

CVR has adopted accounting standards that impose extensive record-keeping requirements in order to designate a derivative financial instrument as a hedge. CVR holds derivative instruments, such as exchange-traded crude oil futures and certain over-the-counter forward swap agreements, which it believes provide an economic hedge on future transactions, but such instruments are not designated as hedges for GAAP purposes. Gains or losses related to the change in fair value and periodic settlements of these derivative instruments are included in other income (loss), net in the condensed consolidated statements of operations.

Commodity Swaps

CVR Refining enters into commodity swap contracts in order to fix the margin on a portion of future production. Additionally, CVR Refining may enter into price and basis swaps in order to fix the price on a portion of its commodity purchases and product sales. The physical volumes are not exchanged and these contracts are net settled with cash. The contract fair value of the commodity swaps is reflected on the condensed consolidated balance sheets with changes in fair value currently recognized in the condensed consolidated statement of operations. Quoted prices for similar assets or liabilities in active markets (Level 2) are considered to determine the fair values for the purpose of marking to market the hedging instruments at each period end. At December 31, 2015, CVR Refining had open commodity hedging instruments consisting of 2.5 million barrels of crack spreads primarily to fix the margin on a portion of its future gasoline and distillate production. During the first quarter of 2016, CVR Refining settled a number of the open crack spread positions and entered into offsetting positions to effectively lock in the gain on the remaining positions to be settled in 2016. During the third quarter of 2016, CVR Refining entered into contracts consisting of 2.2 million barrels of crack spreads to fix the margin on a portion of its future production. At September 30, 2016, CVR Refining had open commodity hedging instruments consisting of 2.2 million barrels net of 2-1-1 crack spreads, 0.2 million barrels net of heating crack spreads and 0.3 million barrels of price and basis swaps. The fair value of the outstanding contracts at September 30, 2016 and December 31, 2015 was a net asset of \$5 million and \$45 million, respectively. CVR Refining recognized a net loss of \$2 million and net gain of \$3 million for the three months ended September 30, 2016 and 2015, respectively, and net loss of \$4 million and \$60 million for the nine months ended September 30, 2016 and 2015, respectively, which are included in other income (loss), net in the condensed consolidated statements of operations.

Interest Rate Swaps

Coffeyville Resources Nitrogen Fertilizers, LLC ("CRNF"), a subsidiary of CVR Partners, had two floating-to-fixed interest rate swap agreements for the purpose of hedging the interest rate risk associated with a portion of its \$125 million floating rate term debt, which matured in April 2016. The aggregate notional amount covered under these agreements totaled \$62.5 million (split evenly between the two agreements) which commenced on August 12, 2011 and expired on February 12, 2016. The interest rate swaps agreements terminated in February 2016. The realized losses on the interest rate swaps reclassified from accumulated other comprehensive loss into interest expense was less than \$1 million for each of the three and nine months ended September 30, 2016 and 2015.

Consolidated Derivative Information

The volume of our derivative activities based on their notional exposure, categorized by primary underlying risk, is as follows:

	September 30, 2016		December 31, 2015	
	Long	Short	Long	Short
	Notional	Notional	Notional	Notional
	Exposure	Exposure	Exposure	Exposure
Primary underlying risk:	(in millions)			
Credit swaps ⁽¹⁾	\$203	\$ 503	\$187	\$ 2,306
Equity swaps	291	15,793	1,343	14,167
Foreign currency forwards	—	872	—	842
Interest rate swap contracts ⁽²⁾	—	—	—	137
Commodity contracts	22	459	43	643

The short notional amount on our credit default swap positions is approximately \$2.6 billion and \$10.0 billion as of September 30, 2016 and December 31, 2015, respectively. However, because credit spreads cannot compress below zero, our downside short notional exposure to loss is approximately \$0.5 billion and \$2.3 billion as of September 30, 2016 and December 31, 2015, respectively.

The short notional amount on certain of our interest rate contracts with a three month duration is approximately \$16.0 billion as of December 31, 2015. We assume that interest rates will not fall below zero and therefore our downside short notional exposure to loss on these contracts is \$74 million (of the total \$137 million disclosed in the above table) as of December 31, 2015.

The following table presents the consolidated fair values of our derivatives that are not designated as hedging instruments:

Derivatives Not Designated as Hedging Instruments	Asset Derivatives ⁽¹⁾		Liability Derivatives ⁽²⁾	
	September 30, 2016	December 31, 2015	September 30, 2016	December 31, 2015
	(in millions)			
Equity contracts	\$17	\$ 339	\$694	\$ 122
Foreign exchange contracts	—	—	1	19
Credit contracts	14	45	70	53
Interest rate swap contracts	—	—	—	—
Commodity contracts	7	46	21	10
Sub-total	38	430	786	204
Netting across contract types ⁽³⁾	(18)	(171)	(18)	(171)
Total ⁽³⁾	\$20	\$ 259	\$768	\$ 33

⁽¹⁾ Net asset derivatives are located within other assets in our condensed consolidated balance sheets.

⁽²⁾ Net liability derivatives are located within accrued expenses and other liabilities in our condensed consolidated balance sheets.

⁽³⁾ Excludes netting of cash collateral received and posted. The total collateral posted at September 30, 2016 and December 31, 2015 was \$492 million and \$883 million, respectively, across all counterparties.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

The following table presents the amount of gain (loss) recognized in the condensed consolidated statements of operations for our derivatives not designated as hedging instruments:

Derivatives Not Designated as Hedging Instruments	(Loss) Gain Recognized in Income ⁽¹⁾			
	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
	(in millions)			
Equity contracts	\$(448)	\$892	\$(1,106)	\$741
Foreign exchange contracts	(7)	(2)	(21)	134
Credit contracts	(44)	387	87	536
Interest rate contracts	—	—	(12)	—
Commodity contracts	32	57	(36)	6
	\$(467)	\$1,334	\$(1,088)	\$1,417

Gains (losses) recognized on derivatives are classified in net gain (loss) from investment activities in our

⁽¹⁾ condensed consolidated statements of operations for our Investment segment and are included in other income (loss), net for all other segments.

7. Inventories, Net.

Inventories, net consists of the following:

	September 30,	
	2016	2015
	(in millions)	
Raw materials	\$480	\$ 457

Customer relationships	\$1,060	\$ (456)) \$ 604	\$1,041	\$ (408)) \$ 633
Developed technology	144	(101)) 43	144	(90)) 54
In-place leases	121	(80)) 41	121	(73)) 48
Gasification technology license	60	(11)) 49	60	(9)) 51
Other	47	(21)) 26	44	(20)) 24
	\$1,432	\$ (669)) \$ 763	\$1,410	\$ (600)) \$ 810
Indefinite-lived intangible assets:						
Trademarks and brand names			\$ 306			\$ 260
Gaming licenses			38			38
			344			298
Intangible assets, net			\$ 1,107			\$ 1,108

Amortization expense associated with definite-lived intangible assets was \$22 million and \$25 million for the three months ended September 30, 2016 and 2015, respectively, and \$69 million and \$70 million for the nine months ended September 30, 2016 and 2015, respectively. We utilize the straight-line method of amortization, recognized over the estimated useful lives of the assets.

For our segments discussed below, the fair values of our reporting units are based upon consideration of various valuation methodologies, one of which is projecting future cash flows discounted at rates commensurate with the risks involved ("DCF"). Assumptions used in a DCF require the exercise of significant judgment, including judgment about appropriate discount rates and terminal values, growth rates, and the amount and timing of expected future cash flows. The forecasted cash flows are based on current plans and for years beyond that plan, the estimates are based on assumed growth rates. We believe that our assumptions are consistent with the plans and estimates used to manage the underlying businesses. The discount rates, which are intended to reflect the risks inherent in future cash flow projections, used in a DCF are based on estimates of the weighted-average cost of capital of a market participant. Such estimates are derived from our analysis of peer companies and consider the industry weighted average return on debt and equity from a market participant perspective.

Automotive

As further discussed in Note 1, "Description of Business and Basis of Presentation - Acquisitions of Businesses," during the first quarter of 2016, we acquired Pep Boys and allocated \$48 million to trademarks and brand names, \$19 million to customer relationships, \$3 million to other definite-lived intangible assets and \$199 million to goodwill as of the acquisition date. None of the goodwill is deductible for income tax purposes. We continue to finalize the valuation of the Pep Boys acquisition and have recorded provisional amounts based on preliminary estimates of fair value of net assets acquired, including goodwill. The provisional measurements of net assets are subject to change as we finalize the purchase price allocation.

Due to the complexity in the "Step 2" goodwill impairment analysis, we finalized our Automotive segment's goodwill impairment for the year ended December 31, 2015 for the Motorparts reporting unit during the third quarter of 2016 and noted that no additional adjustments to goodwill were required during the third quarter of 2016.

We are currently performing the annual goodwill impairment tests as of October 1, 2016 for all of the reporting units within our Automotive segment and expect to finalize these goodwill impairment tests during the fourth quarter of

2016.

Energy

Due to worsening sales trends for our Energy segment's Petroleum reporting unit, we performed an interim goodwill impairment analysis during the first quarter of 2016. Based on this analysis, our Energy segment recognized a goodwill impairment charge of \$574 million, which represented the full amount of the remaining goodwill allocated to the Petroleum

35

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

reporting unit. Due to the complexity in the "Step 2" goodwill impairment test performed during the first quarter of 2016, we finalized the assessment of our Energy segment's goodwill impairment during the third quarter of 2016 and noted that no additional adjustments to goodwill were required during the third quarter of 2016.

We perform the annual goodwill impairment test for our Energy segment as of April 30 of each year, or more frequently if impairment indicators exist. Due to worsening sales trends for our Energy segment's Fertilizer reporting unit, we performed an interim goodwill impairment analysis during the fourth quarter of 2015. Due to the complexity in the "Step 2" goodwill impairment test performed during the fourth quarter of 2015, we finalized the assessment of our Energy segment's goodwill impairment for the Fertilizer reporting unit during the first quarter of 2016 and noted that no additional adjustments to goodwill were required for the first quarter of 2016.

Railcar

We perform the annual goodwill impairment test as of November 1 of each year for our Railcar segment. For purposes of goodwill impairment testing, our Railcar segment's manufacturing reporting unit is the only reporting unit with allocated goodwill. We assess qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit is greater than its carrying amount. If, however, we had determined that it was more likely than not that the fair value of the reporting unit was less than its carrying amount, then we would perform the first step of the two-step goodwill impairment test. In evaluating whether it is more likely than not that the fair value of the reporting unit is greater than its carrying amount, we considered various qualitative and quantitative factors, including macroeconomic conditions, railcar industry trends and the fact that our railcar manufacturing reporting unit has historical positive operating cash flows that we anticipate will continue. After assessing these factors, we determined that it was more likely than not the fair value of our railcar manufacturing reporting unit was greater than its carrying amount, and therefore no further testing was necessary.

Gaming

As further discussed in Note 1, "Description of Business and Basis of Presentation - Acquisitions of Businesses," during the first quarter of 2016, we acquired Trump and allocated \$13 million to trademarks and brand names and \$1 million to customer relationships as of the acquisition date. As discussed in Note 2, "Operating Units - Gaming," the Trump Taj Mahal closed and ceased its casino and hotel operations on October 10, 2016. As a result of this triggering event, for the three and nine months ended September 30, 2016, we recorded an intangible asset impairment charge of \$14 million, which represented the full amount of intangible assets allocated to Trump.

9. Property, Plant and Equipment, Net.

Property, plant and equipment, net consists of the following:

	Useful Life	September 30, 2016	December 31, 2015
	(in years)	(in millions)	(in millions)
Land		\$959	\$ 614
Buildings and improvements	4 - 40	3,029	2,456
Machinery, equipment and furniture	1 - 30	7,544	6,047
Assets leased to others	15 - 39	4,061	3,994
Construction in progress		558	676
		16,151	13,787
Less: Accumulated depreciation and amortization		(4,705)	(4,109)
Property, plant and equipment, net		\$11,446	\$ 9,678

Assets leased to others are related to our Railcar and Real Estate segments. Included in assets leased to others in the table above are our Railcar segment's railcars for lease in the amount of approximately \$3.6 billion and \$3.6 billion as of September 30, 2016 and December 31, 2015, respectively. Additionally, included in assets leased to others in the

table above are our Real Estate segment's properties on lease in the amount of \$420 million and \$423 million as of September 30, 2016 and December 31, 2015, respectively. Aggregate accumulated depreciation pertaining to assets leased to others is approximately \$1.1 billion and \$1.1 billion as of September 30, 2016 and December 31, 2015, respectively.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Depreciation and amortization expense related to property, plant and equipment was \$237 million and \$190 million for the three months ended September 30, 2016 and 2015, respectively, and \$675 million and \$556 million for the nine months ended September 30, 2016 and 2015, respectively.

10. Debt.

Debt consists of the following:

	September 30, 2016	December 31, 2015
	(in millions)	
5.875% senior unsecured notes due 2022 - Icahn Enterprises/Icahn Enterprises Holdings	\$1,339	\$ 1,338
6.00% senior unsecured notes due 2020 - Icahn Enterprises/Icahn Enterprises Holdings	1,705	1,706
4.875% senior unsecured notes due 2019 - Icahn Enterprises/Icahn Enterprises Holdings	1,271	1,270
3.50% senior unsecured notes due 2017 - Icahn Enterprises/Icahn Enterprises Holdings	1,174	1,172
Debt and credit facilities - Automotive	3,324	3,121
Debt facilities - Energy	1,120	619
Debt and credit facilities - Railcar	2,343	2,671
Credit facilities - Gaming	287	289
Credit facilities - Food Packaging	265	267
Other	143	141
	\$12,971	\$ 12,594

Except for those described below, there were no other significant changes to our consolidated debt during the nine months ended September 30, 2016 as compared to that reported in our Annual Report on Form 10-K for the year ended December 31, 2015. Additionally, where applicable, we or our subsidiaries were in compliance with all covenants for their respective debt instruments as of September 30, 2016 and December 31, 2015.

Senior Unsecured Notes - Icahn Enterprises and Icahn Enterprises Holdings

Senior Unsecured Notes Covenants

As of September 30, 2016 and December 31, 2015, we were in compliance with all covenants, including maintaining certain minimum financial ratios, as defined in the indentures. Additionally, as of September 30, 2016, based on covenants in the indentures governing our senior unsecured notes, we are not permitted to incur additional indebtedness.

Debt and Credit Facilities - Automotive

Federal-Mogul Credit Facility

During the first quarter of 2016, Federal-Mogul increased its borrowing capacity under a certain revolving credit facility (the "Federal-Mogul Replacement Revolver Facility") by \$50 million to \$600 million. As of September 30, 2016 and December 31, 2015, the outstanding balance on the Federal-Mogul Replacement Revolver Facility was \$390 million and \$340 million, respectively. As of September 30, 2016 and December 31, 2015, the borrowing availability under the Federal-Mogul Replacement Revolver Facility was \$173 million and \$170 million, respectively.

Federal-Mogul had \$37 million and \$40 million of letters of credit outstanding as of September 30, 2016 and December 31, 2015, respectively, pertaining to the Federal-Mogul Replacement Revolver Facility. To the extent letters of credit associated with the Federal-Mogul Replacement Revolver Facility are issued, there will be a corresponding decrease in borrowings available under this facility. There was also \$37 million of availability under foreign credit facilities at September 30, 2016.

IEP Auto Credit Facility

On August 16, 2016, IEP Auto Holdings LLC ("IEP Auto"), a wholly owned subsidiary of ours and parent company of IEH Auto and Pep Boys, executed a new loan and security agreement (the "IEP Auto Credit Facility") providing for

borrowings of up to \$675 million. A portion of the proceeds from the new IEP Auto Credit Facility was used to repay in full both the IEH

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Auto Revolving Credit Facility and Pep Boys Revolving Credit Facility (each as defined and discussed below). In addition, the IEP Auto Credit Facility replaced both the IEH Auto Revolving Credit Facility and Pep Boys Revolving Credit Facility.

The IEP Auto Credit Facility consists of an asset-based revolving credit facility and a first in-last out revolving credit facility with a schedule maturity date of August 16, 2021 and August 16, 2019, respectively. The interest rates on the IEP Auto Credit Facility range from LIBOR plus a margin of 1.25% to 2.75% for LIBOR Rate borrowings or Prime Rate plus 0.25% to 1.75% for Prime Rate borrowings at the election of IEP Auto.

As of September 30, 2016, IEP Auto had an aggregate \$225 million outstanding under the IEP Auto Credit Facility. As of September 30, 2016, there was \$43 million in letters of credit outstanding with respect to the IEP Auto Credit Facility. To the extent letters of credit associated with the IEP Auto Credit Facility are issued, there will be a corresponding decrease in borrowings available under this facility. As of September 30, 2016, taking into account the borrowing base requirements (including reduction for amounts outstanding under the trade payable program), there was \$129 million of availability under the IEP Auto Credit Facility.

IEH Auto Credit Facility

On November 25, 2015, IEH Auto entered into a senior secured asset based revolving credit facility (the "IEH Auto Revolving Credit Facility") for \$125 million. On January 25, 2016, the IEH Auto Credit Facility was amended and restated to increase the revolver commitments to \$210 million. As discussed above, the IEH Auto Revolving Credit Facility was paid in full from a portion of the proceeds from the IEP Auto Credit Facility and terminated during the third quarter of 2016.

Pep Boys Credit Facility

Pep Boys had a revolving credit agreement (the "Pep Boys Revolving Credit Facility") providing for borrowings of up to \$300 million, with an original maturity date of July 26, 2016. The maturity date of this revolving credit agreement was extended to October 24, 2016. As discussed above, the Pep Boys Revolving Credit Facility was paid in full from a portion of the proceeds from the IEP Auto Credit Facility and terminated during the third quarter of 2016.

Debt and Credit Facilities - Energy

CVR Refining Credit Facility

As of September 30, 2016, CVR Refining and its subsidiaries had availability under its existing amended and restated asset backed credit facility (the "CVR Refining Credit Facility") of \$323 million and had letters of credit outstanding of \$28 million. There were no borrowings outstanding under the CVR Refining Credit Facility as of September 30, 2016. Availability under the CVR Refining Credit Facility was limited by borrowing base conditions as of September 30, 2016.

CVR Partners 2011 Credit Facility

CVR Partners' credit facility included a term loan in the amount of \$125 million and a revolving credit facility. No amounts were outstanding under the revolving credit facility. On April 1, 2016, CVR Partners repaid all amounts outstanding with respect to its term loan under the credit facility and the credit facility was terminated.

CVR Partners 2023 Senior Notes

On June 10, 2016, CVR Partners and CVR Nitrogen Finance Corporation, an indirect wholly-owned subsidiary of CVR Partners, certain subsidiary guarantors named therein and Wilmington Trust, National Association, as trustee and as collateral trustee, completed a private offering of \$645 million aggregate principal amount of 9.25% Senior Secured Notes due 2023 (the "CVR Partners 2023 Notes"). The CVR Partners 2023 Notes mature on June 15, 2023, unless earlier redeemed or repurchased by the issuers. Interest on the CVR Partners 2023 Notes is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2016. The CVR Partners 2023 Notes are guaranteed on a senior secured basis by all of the Nitrogen Fertilizer Partnership's existing subsidiaries.

The CVR Partners 2023 Notes were issued at a \$16 million discount, which is being amortized over the term of the CVR Partners 2023 Notes as interest expense using the effective-interest method. CVR Partners received \$623 million of cash proceeds, net of the original issue discount and underwriting fees, but before deducting other third-party fees and expenses associated with the offering. The net proceeds from the sale of the CVR Partners 2023 Notes were used to: (i) repay all amounts outstanding under the senior term loan credit facility with Coffeyville Resources, LLC; (ii) finance the CVR Nitrogen 2021 Notes tender offer (discussed below) and (iii) to pay related fees and expenses.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

The CVR Partners 2023 Notes contain customary covenants for a financing of this type that, among other things, restrict CVR Partners' ability and the ability of certain of its subsidiaries to: (i) sell assets; (ii) pay distributions on, redeem or repurchase CVR Partners' units or redeem or repurchase its subordinated debt; (iii) make investments; (iv) incur or guarantee additional indebtedness or issue preferred units; (v) create or incur certain liens; (vi) enter into agreements that restrict distributions or other payments from CVR Partners' restricted subsidiaries to CVR Partners; (vii) consolidate, merge or transfer all or substantially all of CVR Partners' assets; (viii) engage in transactions with affiliates; and (ix) create unrestricted subsidiaries.

CVR Nitrogen 2021 Notes

Prior to the acquisition of CVR Nitrogen by CVR Partners, CVR Nitrogen and CVR Nitrogen Finance Corporation (together the "CVR Nitrogen 2021 Notes Issuers") issued \$320 million of 6.5% senior secured notes due 2021 (the "CVR Nitrogen 2021 Notes"). The CVR Nitrogen 2021 Notes are scheduled to mature on April 15, 2021, unless repurchased or redeemed earlier in accordance with their terms.

On April 29, 2016, the CVR Nitrogen 2021 Notes Issuers commenced a cash tender offer (the "CVR Nitrogen Tender Offer") to purchase any and all of the outstanding CVR Nitrogen 2021 Notes. In connection with the CVR Nitrogen Tender Offer, the CVR Nitrogen 2021 Notes Issuers solicited the consents of holders of the notes to certain proposed amendments to the indenture governing the notes (the "Consent Solicitation"). As a result of the CVR Nitrogen Tender Offer, on June 10, 2016, the CVR Nitrogen 2021 Notes Issuers repurchased \$315 million of the CVR Nitrogen 2021 Notes, representing approximately 98.5% of the total outstanding principal amount of the notes at a purchase price of \$1,015 per \$1,000 in principal amount. The total amount paid related to the CVR Nitrogen Tender Offer was \$320 million, including a premium of \$5 million. Additionally, the CVR Nitrogen 2021 Notes Issuers paid \$3 million for accrued and unpaid interest for the tendered notes up to the settlement date. CVR Partners received the requisite consents in respect of the CVR Nitrogen 2021 Notes in connection with the Consent Solicitation to amend the indenture governing the CVR Nitrogen 2021 Notes. As a result, the CVR Nitrogen 2021 Notes Issuers executed a supplemental indenture, dated as of June 10, 2016, which eliminated or modified substantially all of the restrictive covenants relating to CVR Nitrogen and its subsidiaries, eliminated all events of default other than failure to pay principal, premium or interest on the CVR Nitrogen 2021 Notes, eliminated all conditions to satisfaction and discharge, and released the liens on the collateral securing the CVR Nitrogen 2021 Notes. The repurchase of a portion of the CVR Nitrogen 2021 Notes resulted in a loss on extinguishment of debt of \$5 million for the nine months ended September 30, 2016.

Concurrently with, but separately from the CVR Nitrogen Tender Offer, the CVR Nitrogen 2021 Notes Issuers also commenced an offer to purchase all of the outstanding CVR Nitrogen 2021 Notes at a price equal to 101% of the principal amount thereof, as required as a result of the acquisition of CVR Nitrogen (the "Change of Control Offer"). The offer expired on June 28, 2016. As a result of the Change of Control Offer, CVR Partners repurchased less than \$1 million of CVR Nitrogen 2021 Notes at a purchase price of \$1,010 per \$1,000 in principal amount. The total amount paid related to the Change of Control offer was less than \$1 million, including a nominal amount of premium and accrued and unpaid interest.

As of September 30, 2016, a principal amount of \$4 million of the CVR Nitrogen 2021 Notes remained outstanding following the consummation of the CVR Nitrogen Tender Offer.

CVR Partners 2016 Credit Facility

On September 30, 2016, CVR Partners entered into a senior secured asset based revolving credit facility (the "CVR Partners Credit Facility") providing for availability of up to \$50 million with an incremental facility, which permits an increase in borrowings of up to \$25 million in the aggregate subject to additional lender commitments and certain other conditions. The proceeds of the loans may be used for capital expenditures and working capital and general corporate purposes of CVR Partners and its subsidiaries. The CVR Partners Credit Facility provides for loans and standby letters of credit in an amount up to the aggregate availability under the facility, subject to meeting certain

borrowing base conditions, with sub-limits of the lesser of 10.0% of the total facility commitment and \$5 million for swingline loans and \$10 million for letters of credit. The CVR Partners Credit Facility is scheduled to mature on September 30, 2021.

At the option of the borrowers, loans under the CVR Partners Credit Facility initially bear interest at an annual rate equal to (i) 2.0% plus LIBOR or (ii) 1.0% plus a base rate, subject to a 0.5% step-down based on the previous quarter's excess availability. The borrowers must also pay a commitment fee on the unutilized commitments and also pay customary letter of credit fees.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

The CVR Partners Credit Facility also contains customary covenants for a financing of this type that limit the ability of the Nitrogen Fertilizer Partnership and its subsidiaries to, among other things, incur liens, engage in a consolidation, merger, purchase or sale of assets, pay dividends, incur indebtedness, make advances, investments and loans, enter into affiliate transactions, issue equity interests or create subsidiaries and unrestricted subsidiaries. The CVR Partners Credit Facility also contains a fixed charge coverage ratio financial covenant, as defined therein. As of September 30, 2016, CVR Partners and its subsidiaries had availability under the CVR Partners Credit Facility of \$48 million. There were no borrowings outstanding under the CVR Partners Credit Facility as of September 30, 2016.

Debt and Credit Facilities - Railcar

ARI 2015 Credit Facility

In December 2015, ARI completed a financing of its railcar lease fleet with availability of up to \$200 million under a credit agreement. The initial amount drawn from the revolving credit facility ("ARI Revolving Loan") obtained at closing amounted to \$100 million, net of fees and expenses. In February 2016, ARI repaid amounts outstanding under the ARI Revolving Loan in full and as of September 30, 2016, ARI had borrowing availability of \$200 million under the ARI Revolving Loan.

As of September 30, 2016 and December 31, 2015, the net book value of the railcars that were pledged as part of ARI's credit facilities was \$549 million and \$564 million, respectively.

ARL 2016 Term Loan

On September 28, 2016, NCI IV LLC (f/k/a ARI First LLC), a wholly owned subsidiary of ARL, entered into a secured term facility with PNC Equipment Finance in the amount of \$150 million with an interest rate based on 30 day LIBOR with a maturity date of September 27, 2017. The net proceeds and cash on hand were used to pay off a certain debt of NCI IV LLC that matured during the third quarter of 2016 in the amount of \$208 million.

11. Pension, Other Post-employment Benefits and Employee Benefit Plans.

Federal-Mogul, ARI and Viskase each sponsor several defined benefit pension plans (the "Pension Benefits") (and, in the case of Viskase, its pension plans include defined contribution plans). Additionally, Federal-Mogul and Viskase each sponsors health care and life insurance benefits ("Other Post-Employment Benefits" or "OPEB") for certain employees and retirees around the world. The Pension Benefits are funded based on the funding requirements of federal and international laws and regulations, as applicable, in advance of benefit payments and the Other Post-Employment Benefits as benefits are provided to participating employees. As prescribed by applicable U.S. GAAP, Federal-Mogul, ARI and Viskase each uses, as applicable, appropriate actuarial methods and assumptions in accounting for its defined benefit pension plans, non-pension post-employment benefits, and disability, early retirement and other post-employment benefits. The measurement date for all defined benefit plans is December 31 of each year.

Components of net periodic benefit cost for the three and nine months ended September 30, 2016 and 2015 are as follows:

Pension Benefits	OPEB
Three Months Ended September 30, 2016	Three Months Ended September 30, 2015

LP Unit Issuance

As disclosed in Note 3, "Related Party Transactions," pursuant to a certain contribution agreement, on February 29, 2016, we contributed 685,367 newly issued depositary units of Icahn Enterprises to IRL in exchange for the remaining 25% economic interest in ARL.

LP Unit Distributions

On February 23, 2016, Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit in which each depositary unit holder had the option to make an election to receive either cash or additional depositary units. As a result, on April 12, 2016, Icahn Enterprises distributed an aggregate 2,824,186 depositary units to unit holders electing to receive depositary units in connection with this distribution.

On April 29, 2016, Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit in which each depositary unit holder had the option to make an election to receive either cash or additional depositary units. As a result, on June 16, 2016, Icahn Enterprises distributed an aggregate 3,116,976 depositary units to unit holders electing to receive depositary units in connection with this distribution.

On August 3, 2016, Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit in which each depositary unit holder had the option to make an election to receive either cash or additional depositary

units. As a result, on September 19, 2016, Icahn Enterprises distributed an aggregate 3,586,029 depositary units to unit holders electing to receive depositary units in connection with this distribution.

Mr. Icahn and his affiliates elected to receive a majority of their proportionate share of these distributions in depositary units. As of November 2, 2016, Mr. Icahn and his affiliates owned 89.7% of Icahn Enterprises outstanding depositary units.

13. Segment Reporting.

We are a diversified holding company owning subsidiaries currently engaged in the following continuing operating businesses: Investment, Automotive, Energy, Metals, Railcar, Gaming, Mining, Food Packaging, Real Estate and Home Fashion. We also report the results of our Holding Company, which includes the results of certain subsidiaries of Icahn Enterprises and Icahn Enterprises Holdings, and investment activity and expenses associated with the Holding Company. Our determination of what constitutes an operating segment is based on the various industries in which our businesses operate and how we manage those businesses in accordance with our investment strategy. We assess and measure segment operating results based on net income from continuing operations attributable to Icahn Enterprises and Icahn Enterprises Holdings, as disclosed below. Certain terms of financings for certain of our segments impose restrictions on the segments' ability to transfer funds to us, including restrictions on dividends, distributions, loans and other transactions. See Note 2, "Operating Units," for a detailed description of each of our reporting segments.

Icahn Enterprises' condensed statements of operations by reporting segment for the three and nine months ended September 30, 2016 and 2015 are presented below:

	Three Months Ended September 30, 2016

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

September 30, 2016 and 2015, respectively, and \$14 million and \$10 million for the nine months ended September 30, 2016 and 2015, respectively.

14. Income Taxes.

For the three months ended September 30, 2016, each of Icahn Enterprises and Icahn Enterprises Holdings recorded an income tax expense of \$15 million on pre-tax income of \$253 million compared to an income tax expense of \$22 million on pre-tax loss of \$918 million for the three months ended September 30, 2015. Our effective income tax rate was 5.9% and (2.4)% for the three months ended September 30, 2016 and 2015, respectively.

For the three months ended September 30, 2016, the effective tax rate was lower than the statutory federal rate of 35%, primarily due to partnership income not subject to taxation, as such income is allocated to the partners.

For the three months ended September 30, 2015, the effective tax rate was lower than the statutory federal rate of 35%, primarily due to partnership losses for which there was no tax benefit, as such taxes are the responsibility of the partners.

For the nine months ended September 30, 2016, each of Icahn Enterprises and Icahn Enterprises Holdings recorded an income tax expense of \$81 million on pre-tax loss of approximately \$1.6 billion compared to an income tax expense of \$184 million on pre-tax income of \$207 million for the nine months ended September 30, 2015. Our effective income tax rate was (5.1)% and 88.9% for the nine months ended September 30, 2016 and 2015, respectively.

For the nine months ended September 30, 2016, the effective tax rate was lower than the statutory federal rate of 35%, primarily due to partnership losses for which there was no tax benefit, as such losses are allocated to the partners, and goodwill impairment not deductible for tax purposes.

For the nine months ended September 30, 2015, the effective tax rate was higher than the statutory federal rate of 35%, primarily due to partnership losses not subject to taxation, as such taxes are the responsibility of the partners.

15. Changes in Accumulated Other Comprehensive Loss.

Changes in accumulated other comprehensive loss consists of the following:

Automotive

Environmental Matters

Federal-Mogul is a defendant in lawsuits filed, or the recipient of administrative orders issued or demand letters received, in various jurisdictions pursuant to the Federal Comprehensive Environmental Response Compensation and Liability Act of 1980 (“CERCLA”) or other similar national, provincial or state environmental remedial laws. These laws provide that responsible parties may be liable to pay for remediating contamination resulting from hazardous substances that were discharged into the environment by them, by prior owners or occupants of property they currently own or operate, or by others to whom they sent such substances for treatment or other disposition at third party locations. Federal-Mogul has been notified by the United States Environmental Protection Agency, other national environmental agencies, and various provincial and state agencies that it may be a potentially responsible party (“PRP”) under such laws for the cost of remediating hazardous substances pursuant to CERCLA and other national and state or provincial environmental laws. PRP designation often results in the funding of site investigations and subsequent remedial activities.

Many of the sites that are likely to be the costliest to remediate are often current or former commercial waste disposal facilities to which numerous companies sent wastes. Despite the potential joint and several liability that might be imposed on Federal-Mogul under CERCLA and some of the other laws pertaining to these sites, its share of the total waste sent to these sites has generally been small. Federal-Mogul believes its exposure for liability at these sites is limited.

Federal-Mogul has also identified certain other present and former properties at which it may be responsible for cleaning up or addressing environmental contamination, in some cases as a result of contractual commitments and/or federal or state environmental laws. Federal-Mogul is actively seeking to resolve these actual and potential statutory, regulatory and contractual obligations. Although difficult to quantify based on the complexity of the issues, Federal-Mogul has accrued amounts corresponding to its best estimate of the costs associated with such regulatory and contractual obligations on the basis of available information from site investigations and best professional judgment of consultants.

Total environmental liabilities, determined on an undiscounted basis, were \$12 million and \$14 million as of September 30, 2016 and December 31, 2015, respectively, and are included in accrued expenses and other liabilities in our condensed consolidated balance sheets.

Federal-Mogul believes that recorded environmental liabilities will be adequate to cover its estimated liability for its exposure in respect to such matters. In the event that such liabilities were to significantly exceed the amounts recorded by Federal-Mogul, our Automotive segment's results of operations could be materially affected. At September 30, 2016, Federal-Mogul estimates reasonably possible material additional losses, above and beyond its best estimate of required remediation costs as recorded, to approximate \$44 million.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Asset Retirement Obligations

Federal-Mogul has identified sites with contractual obligations and several sites that are closed or expected to be closed and sold. In connection with these sites, Federal-Mogul has accrued \$16 million and \$16 million as of September 30, 2016 and December 31, 2015, respectively, for asset retirement obligations ("ARO"), primarily related to anticipated costs of removing hazardous building materials at its facilities, and has considered impairment issues that may result from capitalization of these ARO amounts.

Federal-Mogul has conditional asset retirement obligations ("CARO"), primarily related to removal costs of hazardous materials in buildings, for which it believes reasonable cost estimates cannot be made at this time because it does not believe it has a reasonable basis to assign probabilities to a range of potential settlement dates for these retirement obligations. Accordingly, Federal-Mogul is currently unable to determine amounts to accrue for CARO at such sites.

Other Matters

On April 25, 2014, a group of plaintiffs brought an action against Federal-Mogul Products, Inc. ("F-M Products"), a wholly-owned subsidiary of Federal-Mogul, alleging injuries and damages associated with the discharge of chlorinated hydrocarbons by the former owner of a facility located in Kentucky. Since 1998, when F-M Products acquired the facility, it has been cooperating with the applicable regulatory agencies on remediating the prior discharges pursuant to an order entered into by the facility's former owner. Federal-Mogul does not currently believe that the outcome of this litigation will have a material effect on its condensed consolidation financial position, results of operations or cash flows.

Energy

Unconditional Purchase Obligations

CVR leases various equipment, including railcars, and real properties under long-term operating leases expiring at various dates. For each of the three months ended September 30, 2016 and 2015 lease expense was \$2 million and for the nine months ended September 30, 2016 and 2015 lease expense was \$6 million and \$7 million, respectively. The lease agreements have various remaining terms. Some agreements are renewable, at CVR's option, for additional periods. It is expected, in the ordinary course of business, that leases will be renewed or replaced as they expire. Additionally, in the normal course of business, CVR has long-term commitments to purchase oxygen, nitrogen, electricity, storage capacity and pipeline transportation services.

Crude Oil Supply Agreement

On August 31, 2012, Coffeyville Resources Refining & Marketing, LLC ("CRRM"), a subsidiary of CVR Refining, and Vitol Inc. ("Vitol") entered into an Amended and Restated Crude Oil Supply Agreement (the "Vitol Agreement"). Under the Vitol Agreement, Vitol supplies the petroleum business with crude oil and intermediation logistics, which helps to reduce the Refining Partnership's inventory position and mitigate crude oil pricing risk. The Vitol Agreement will automatically renew for successive one-year terms (each such term, a "Renewal Term") unless either party provides the other with notice of nonrenewal at least 180 days prior to the expiration of any Renewal Term. The Vitol Agreement currently extends through December 31, 2017.

Litigation

From time to time, CVR is involved in various lawsuits arising in the normal course of business, including matters such as those described below under "Environmental, Health and Safety Matters." Liabilities related to such litigation are recognized when the related costs are probable and can be reasonably estimated. These provisions are reviewed at least quarterly and adjusted to reflect the impacts of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular case. It is possible that management's estimates of the outcomes will change due to uncertainties inherent in litigation and settlement negotiations. Except as described below for our Energy segment, there were no new proceedings or material developments in proceedings that we previously reported in our annual report on Form 10-K for the year ended December 31, 2015. In the opinion of CVR's management, the ultimate resolution of any other litigation matters is not expected to have a material adverse effect on the

accompanying condensed consolidated financial statements. There can be no assurance that management's beliefs or opinions with respect to liability for potential litigation matters are accurate.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

Rentech Nitrogen Mergers Litigation

As previously disclosed in our 2015 Form 10-K, two class action lawsuits were filed in connection with the East Dubuque Merger, (i) the "Mustard Lawsuit", which was filed in the Court of Chancery of the State of Delaware, and (ii) the "Sloan Lawsuit" (together with Mustard Lawsuit, the "Merger Lawsuits"), which was filed in the United States District Court for the Central District of California. The Merger Lawsuits alleged (among other things) breach of fiduciary duties and inadequate disclosure, in each case, in connection with the East Dubuque Merger. In February 2016, the parties to the Merger Lawsuits entered into a memorandum of understanding providing for the proposed settlement of the Merger Lawsuits. The parties subsequently entered into a stipulation of settlement, which was subject to customary conditions including court approval following notice to the CVR Nitrogen unitholders. In July 2016, the Mustard Lawsuit was dismissed, and in October 2016, the United States District Court for the Central District of California issued an order and judgment approving the settlement of the Sloan Lawsuit. The settlement resolves and releases all claims by unitholders of CVR Nitrogen challenging the East Dubuque Merger. The plaintiff's counsel in the Sloan Lawsuit has filed a petition for the award of attorneys' fees, which remains pending with the Court. CVR Partners does not believe the settlement or the award of attorneys' fees will have a material adverse effect on its business, financial condition or results of operation.

Environmental, Health and Safety Matters ("EHS")

The petroleum and nitrogen fertilizer businesses are subject to various stringent federal, state, and local EHS rules and regulations. Liabilities related to EHS matters are recognized when the related costs are probable and can be reasonably estimated. Estimates of these costs are based upon currently available facts, existing technology, site-specific costs, and currently enacted laws and regulations. In reporting EHS liabilities, no offset is made for potential recoveries.

CRRM, CRNF, Coffeyville Resources Crude Transportation, LLC ("CRCT"), Wynnewood Refining Company, LLC ("WRC") and Coffeyville Resources Terminal, LLC ("CRT") own and/or operate manufacturing and ancillary operations at various locations directly related to petroleum refining and distribution and nitrogen fertilizer manufacturing. Therefore, CRRM, CRNF, CRCT, WRC and CRT have exposure to potential EHS liabilities related to past and present EHS conditions at these locations. Under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), the Resource Conservation and Recovery Act ("RCRA"), and related state laws, certain persons may be liable for the release or threatened release of hazardous substances. These persons can include the current owner or operator of property where a release or threatened release occurred, any persons who owned or operated the property when the release occurred, and any persons who disposed of, or arranged for the transportation or disposal of, hazardous substances at a contaminated property. Liability under CERCLA is strict, and under certain circumstances, joint and several, so that any responsible party may be held liable for the entire cost of investigating and remediating the release of hazardous substances. Similarly, the Oil Pollution Act generally subjects owners and operators of facilities to strict, joint and several liability for all containment and clean-up costs, natural resource damages, and potential governmental oversight costs arising from oil spills into the waters of the United States, which has been broadly interpreted to include most water bodies including intermittent streams.

CRRM, CRNF, CRCT, WRC and CRT are subject to extensive and frequently changing federal, state and local environmental and health and safety laws and regulations governing the emission and release of hazardous substances into the environment, the treatment and discharge of waste water, and the storage, handling, use and transportation of petroleum and nitrogen products, and the characteristics and composition of gasoline and diesel fuels. The ultimate impact of complying with evolving laws and regulations is not always clearly known or determinable due in part to the fact that our operations may change over time and certain implementing regulations for laws, such as the federal Clean Air Act, have not yet been finalized, are under governmental or judicial review or are being revised. These laws and regulations could result in increased capital, operating and compliance costs.

As previously reported in our 2015 Form 10-K, the petroleum and nitrogen fertilizer businesses are party to, or otherwise subject to administrative orders and consent decrees with federal, state and local environmental authorities, as applicable, addressing corrective actions under RCRA, the Clean Air Act and the Clean Water Act. The petroleum business also is subject to (i) the Mobile Source Air Toxic II ("MSAT II") rule which requires reductions of benzene in gasoline; (ii) the Renewable Fuel Standard ("RFS"), which requires refiners to either blend "renewable fuels" in with their transportation fuels or purchase renewable fuel credits, known as RINs, in lieu of blending; and (iii) "Tier 3" gasoline sulfur standards. Except as otherwise described below, there have been no new developments or material changes to the environmental accruals or expected capital expenditures related to compliance with the foregoing environmental matters from those provided in our 2015 Form 10-K. CRRM, CRNF, CRCT, WRC and CRT each believe it is in substantial compliance with existing EHS rules and regulations.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

There can be no assurance that the EHS matters described or referenced herein or other EHS matters which may develop in the future will not have a material adverse effect on our Energy segment's business, financial condition, or results of operations.

On August 1, 2016, CRCT received a Notice of Probable Violation, Proposed Civil Penalty and Proposed Compliance Order (the "NOPV") from the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (the "PHMSA"). The NOPV alleges violations of the Pipeline Safety Regulations, Title 49, Code of Federal Regulations. The alleged violations include alleged failures (during various time periods) to (i) conduct quarterly notification drills, (ii) maintain certain required records, (iii) utilize certain required safety equipment (including line markers), (iv) take certain pipeline integrity management activities, (v) conduct certain cathodic protection testing, and (vi) make certain atmospheric corrosion inspections. The preliminary assessed civil penalty is approximately \$0.5 million and the NOPV contained a compliance order outlining remedial compliance steps to be undertaken by CRCT. CRCT paid approximately \$160,000 of the preliminary assessed civil penalty, is contesting and requesting mitigation of the remainder, and is also requesting reconsideration of the proposed compliance order.

Although CVR Refining cannot predict with certainty the ultimate resolution of the claims asserted, CVR Refining does not believe that the claims in the NOPV will have a material adverse effect on CVR Refining's business, financial condition or results of operations.

As of September 30, 2016 and December 31, 2015, our Energy segment had environmental accruals of \$5 million and \$4 million, respectively. CVR's management periodically reviews and, as appropriate, revises its environmental accruals. Based on current information and regulatory requirements, CVR's management believes that the accruals established for environmental expenditures are adequate.

Environmental expenditures are capitalized when such expenditures are expected to result in future economic benefits. Capital expenditures incurred for environmental compliance and efficiency of the operations were \$7 million and \$9 million for the three months ended September 30, 2016 and 2015, respectively, and \$13 million and \$27 million for the nine months ended September 30, 2016 and 2015, respectively.

The cost of RINs was \$58 million and \$19 million for three months ended September 30, 2016 and 2015, respectively, and \$152 million and \$93 million for nine months ended September 30, 2016 and 2015, respectively. As of September 30, 2016 and December 31, 2015, the petroleum business' biofuel blending obligation was \$127 million and \$10 million, respectively, which was recorded in accrued expenses and other liabilities on the condensed consolidated balance sheets.

Joint Venture Agreement

On September 19, 2016, Coffeyville Resources Pipeline, LLC ("CRPLLC"), an indirect wholly owned subsidiary of CVR, entered into an agreement with Velocity Central Oklahoma Pipeline LLC ("Velocity") related to their joint ownership of Velocity Pipeline Partners, LLC ("VPP"), which will construct, own and operate a crude oil pipeline. CRPLLC holds a 40% interest in VPP. Velocity holds a 60% interest in VPP and serves as the day-to-day operator of VPP. As of September 30, 2016, CRPLLC has contributed \$3 million to VPP and expects to contribute a total of approximately \$9 million during the pipeline construction.

Metals

Environmental Matters

Certain of PSC Metals' facilities are environmentally impaired in part as a result of operating practices at the sites prior to their acquisition by PSC Metals and as a result of PSC Metals' operations. PSC Metals has established procedures to periodically evaluate these sites, giving consideration to the nature and extent of the contamination. PSC Metals has provided for the remediation of these sites based upon management's judgment and prior experience. PSC Metals has estimated the liability to remediate these sites to be \$28 million and \$29 million at September 30, 2016 and December 31, 2015, respectively. Management believes, based on past experience, that the vast majority of these environmental liabilities and costs will be assessed and paid over an extended period of time. PSC Metals believes that

it will be able to fund such costs in the ordinary course of business.

Estimates of PSC Metals' liability for remediation of a particular site and the method and ultimate cost of remediation require a number of assumptions that are inherently difficult to make, and the ultimate outcome may be materially different from current estimates. Moreover, because PSC Metals has disposed of waste materials at numerous third-party disposal facilities, it is possible that PSC Metals will be identified as a PRP at additional sites. The impact of such future events cannot be estimated at the current time.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
 ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
 Notes to Condensed Consolidated Financial Statements
 September 30, 2016 (Unaudited)

PSC Metals has been designated as a PRP under U.S. federal and state superfund laws with respect to certain sites with which PSC Metals may have had a direct or indirect involvement. It is alleged that PSC Metals and its subsidiaries or their predecessors transported waste to the sites, disposed of waste at the sites or operated the sites in question. In addition, PSC Metals recently learned that its Knoxville location was the subject of investigations by the State of Tennessee under the federal Superfund law. These investigations were performed by the State of Tennessee pursuant to a contract with the EPA. PSC Metals is exploring a potential settlement of the matter. Currently, PSC Metals cannot assess the impact of any cost or liability associated with these investigations. With respect to all other matters in which PSC Metals has been designated as a PRP under U.S. federal and state superfund laws, PSC Metals has reviewed the nature and extent of the allegations, the number, connection and financial ability of other named and unnamed PRPs and the nature and estimated cost of the likely remedy. Based on reviewing the nature and extent of the allegations, PSC Metals has estimated its liability to remediate these sites to be immaterial as of both September 30, 2016 and December 31, 2015. If it is determined that PSC Metals has liability to remediate those sites and that more expensive remediation approaches are required in the future, PSC Metals could incur additional obligations, which could be material.

In November and December of 2011, PSC Metals received three notices of violation ("NOV") from the Missouri Department of Natural Resources ("MDNR") for hazardous waste and water violations related to its Festus, Missouri location. PSC Metals has entered into a settlement with MDNR that resolves these NOVs. Currently, PSC Metals believes that it has established adequate reserves for the cost of this settlement. In addition, PSC Metals believes that it has a claim for indemnification against the prior owner of the facility associated with the above-referenced notices of violation. MDNR and PSC Metals, as part of the resolution of MDNR's NOVs, have undertaken sampling for lead at residences near PSC Metals' Festus yard. Approximately 67 residences were sampled and tested, and of those, approximately 15 tested above residential standards for lead contamination. PSC Metals has entered into a settlement agreement with MDNR which resolves MDNR's claims and requires limited soil remediation at the 15 residences. PSC Metals is in the process of completing the remediation required by the settlement agreement. Currently, PSC Metals believes that it has adequately reserved for the cost of remediation associated with its Festus yard and the residential areas near the yard. However, PSC Metals cannot assess its liability with certainty at this time. Additionally, PSC Metals believes that liability for off-site contamination was retained by the prior owner of the Festus yard and accordingly, it would have a claim for indemnification against the prior owner.

In late February 2016, the PSC Metals shredder in Beaver Falls, Pennsylvania unknowingly processed scrap obtained from a third party containing radioactive material. Processing and transfer of that material resulted in the contamination of equipment there, and two other PSC Metals facilities. PSC Metals notified the appropriate governmental authorities and is working with those agencies and qualified specialist companies to properly remediate the contaminated facilities and dispose of the contaminated material. PSC Metals believes that the cost of the remediation effort and any business interruption costs are covered by insurance and its financial exposure would be immaterial. Remediation efforts are ongoing and PSC Metals expects that the impacted facilities will be operational in the fourth quarter of 2016.

Railcar

On October 24, 2014, ARI filed a complaint in United States District Court for the Southern District of New York against Gyansys, Inc. ("Gyansys"). The complaint asserts a claim against Gyansys for breaching its contract with ARI to implement an enterprise resource planning system. ARI seeks to recover monetary damages in an amount still to be determined, but which ARI alleged exceeds \$25 million. Gyansys filed a response to the suit denying its responsibility. It also counterclaimed against ARI for a breach of contract and wrongful termination, seeking damages in excess of \$10 million and equitable relief. At this time, ARI does not have sufficient information to reasonably form an estimate of the potential outcome (gain or loss) of this litigation. On September 12, 2015, the court denied ARI's motion to dismiss the wrongful termination counterclaim. A trial date has been tentatively scheduled for

January 17, 2017. However, ARI believes that Gyansys' counterclaims lack merit and will continue to vigorously defend against these counterclaims.

FRA Directive

On September 30, 2016, the Federal Railroad Administration ("FRA") released Railworthiness Directive Number 2016-01 (the "FRA Directive"). The FRA Directive addressed certain welding practices in one weld area in specified DOT 111 tank railcars manufactured between 2009 and 2015 by ARI and ACF. The FRA became involved as a result of one tank railcar manufactured by ARI having a leak that was identified in 2014. The FRA Directive indicated that approximately 14,800 general purpose tank railcars could be subject to the FRA Directive.

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

The FRA Directive requires owners of all subject railcars to identify tank railcars in their respective fleets covered by the FRA Directive by October 30, 2016 and to ensure appropriate inspection, testing and repairs, if needed, during a period that ranges from 12 to 24 months from September 30, 2016, depending on the commodity service of the railcar. Owners, including our Railcar segment as a railcar lessor, and lessees of the subject railcars will likely incur future costs associated with compliance with this requirement including but not limited to, freight costs for transporting these railcars to and from repair facilities, inspection, cleaning and repair, if necessary. Lessors of subject railcars, including our Railcar segment in its capacity as a lessor, may also experience loss of revenue during periods of rent abatement, if applicable, as a result of railcars being out of service due to compliance with the FRA Directive. The incurrence of such costs and/or any such loss of revenue may be subject to the terms of any applicable warranty coverage and the terms of any applicable lease. Our Railcar segment's contractual obligations under its operating leases for railcars in its lease fleet may vary from lease to lease.

Our Railcar segment has evaluated its potential exposure related to the FRA Directive and has established a loss contingency of \$32 million to cover its probable and estimable liabilities, as of September 30, 2016, with respect to its remedial response to the FRA Directive, taking into account currently available information and its contractual obligations in its capacity as both a manufacturer and lessor of railcars subject to the FRA Directive. This amount is included in accrued expenses and other liabilities on the condensed consolidated balance sheet and will continue to be evaluated as our Railcar segment and its customers' compliance with the FRA Directive progresses and our Railcar segment's understanding of the impact the FRA Directive may have on its business, including results of operations and cash flows, evolves. Legal fees incurred with respect to this matter will be expensed in the period in which they occur, in accordance with our Railcar segment's accounting policy.

Other Matters

Mr. Icahn, through certain affiliates, owns 100% of Icahn Enterprises GP and approximately 89.7% of Icahn Enterprises' outstanding depositary units as of September 30, 2016. Applicable pension and tax laws make each member of a "controlled group" of entities, generally defined as entities in which there is at least an 80% common ownership interest, jointly and severally liable for certain pension plan obligations of any member of the controlled group. These pension obligations include ongoing contributions to fund the plan, as well as liability for any unfunded liabilities that may exist at the time the plan is terminated. In addition, the failure to pay these pension obligations when due may result in the creation of liens in favor of the pension plan or the Pension Benefit Guaranty Corporation ("PBGC") against the assets of each member of the controlled group.

As a result of the more than 80% ownership interest in us by Mr. Icahn's affiliates, we and our subsidiaries are subject to the pension liabilities of entities in which Mr. Icahn has a direct or indirect ownership interest of at least 80%. As a result of our ownership of more than 80% in our subsidiaries, we and our subsidiaries are subject to the pension liabilities of all entities in which Mr. Icahn has a direct or indirect ownership interest of at least 80%. ACF and Federal-Mogul, are the sponsors of several pension plans. All the minimum funding requirements of the Internal Revenue Code, as amended, and the Employee Retirement Income Security Act of 1974, as amended by the Pension Protection Act of 2006, for these plans have been met as of September 30, 2016 and December 31, 2015. If the plans were voluntarily terminated, they would be underfunded by approximately \$550 million and \$589 million as of September 30, 2016 and December 31, 2015, respectively. These results are based on the most recent information provided by the plans' actuaries. These liabilities could increase or decrease, depending on a number of factors, including future changes in benefits, investment returns, and the assumptions used to calculate the liability. As members of the controlled group, we would be liable for any failure of ACF and Federal-Mogul to make ongoing pension contributions or to pay the unfunded liabilities upon a termination of the pension plans of ACF and Federal-Mogul. In addition, other entities now or in the future within the controlled group in which we are included may have pension plan obligations that are, or may become, underfunded and we would be liable for any failure of such entities to make ongoing pension contributions or to pay the unfunded liabilities upon termination of such plans.

The current underfunded status of the pension plans of ACF and Federal-Mogul requires them to notify the PBGC of certain “reportable events,” such as if we cease to be a member of the ACF and Federal-Mogul controlled group, or if we make certain extraordinary dividends or stock redemptions. The obligation to report could cause us to seek to delay or reconsider the occurrence of such reportable events.

Starfire Holding Corporation ("Starfire") which is 99.4% owned by Mr. Icahn, has undertaken to indemnify us and our subsidiaries from losses resulting from any imposition of certain pension funding or termination liabilities that may be imposed on us and our subsidiaries or our assets as a result of being a member of the Icahn controlled group. The Starfire indemnity (which does not extend to pension liabilities of our subsidiaries that would be imposed on us as a result of our interest in these subsidiaries and not as a result of Mr. Icahn and his affiliates holding more than an 80% ownership interest in us, and as such would not extend to the unfunded pension termination liability for Federal-Mogul) provides, among other things, that so long

ICAHN ENTERPRISES L.P. AND SUBSIDIARIES
ICAHN ENTERPRISES HOLDINGS L.P. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
September 30, 2016 (Unaudited)

as such contingent liabilities exist and could be imposed on us, Starfire will not make any distributions to its stockholders that would reduce its net worth to below \$250 million. Nonetheless, Starfire may not be able to fund its indemnification obligations to us.

18. Subsequent Events.

Icahn Enterprises
Distribution

On November 1, 2016, the Board of Directors of the general partner of Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit. The quarterly distribution is payable in either cash or additional depositary units, at the election of each depositary unit holder and will be paid on or about December 19, 2016 to depositary unit holders of record at the close of business on November 14, 2016. Depositary unit holders have until December 7, 2016 to make an election to receive either cash or additional depositary units; if a holder does not make an election, it will automatically be deemed to have elected to receive the dividend in cash. Depositary unit holders who elect to receive additional depositary units will receive units valued at the volume weighted average trading price of the units on NASDAQ during the 5 consecutive trading days ending December 14, 2016. No fractional depositary units will be issued pursuant to the dividend payment. Icahn Enterprises will make a cash payment in lieu of issuing fractional depositary units to any holders electing to receive depositary units. Any holders that would only be eligible to receive a fraction of a depositary unit based on the above calculation will receive a cash payment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion is intended to assist you in understanding our present business and the results of operations together with our present financial condition. This section should be read in conjunction with our condensed consolidated financial statements and the accompanying notes contained in this Quarterly Report on Form 10-Q for the period ended September 30, 2016 (this "Report").

Overview

Introduction

Icahn Enterprises L.P. ("Icahn Enterprises") is a master limited partnership formed in Delaware on February 17, 1987. Icahn Enterprises Holdings L.P. ("Icahn Enterprises Holdings") is a limited partnership formed in Delaware on February 17, 1987. References to "we," "our" or "us" herein include both Icahn Enterprises and Icahn Enterprises Holdings and their subsidiaries, unless the context otherwise requires.

Icahn Enterprises owns a 99% limited partner interest in Icahn Enterprises Holdings. Icahn Enterprises G.P. Inc. ("Icahn Enterprises GP"), which is owned and controlled by Mr. Carl C. Icahn, owns a 1% general partner interest in each of Icahn Enterprises and Icahn Enterprises Holdings as of September 30, 2016. Icahn Enterprises Holdings and its subsidiaries own substantially all of our assets and liabilities and conduct substantially all of our operations. Therefore, the financial results of Icahn Enterprises and Icahn Enterprises Holdings are substantially the same, with differences relating primarily to debt and to the allocation of the general partner interest, which is reflected as an aggregate 1.99% general partner interest in the financial statements of Icahn Enterprises. In addition to the above, Mr. Icahn and his affiliates owned approximately 89.7% of Icahn Enterprises' outstanding depositary units as of September 30, 2016.

We are a diversified holding company owning subsidiaries currently engaged in the following continuing operating businesses: Investment, Automotive, Energy, Metals, Railcar, Gaming, Mining, Food Packaging, Real Estate and Home Fashion. We also report the results of our Holding Company, which includes the results of certain subsidiaries of Icahn Enterprises and Icahn Enterprises Holdings (unless otherwise noted), and investment activity and expenses associated with the Holding Company.

Results of Operations

Consolidated Financial Results

The following tables summarize total revenues, net income (loss) and net income (loss) attributable to Icahn Enterprises for each of our reporting segments and the Holding Company for the three and nine months ended September 30, 2016 and 2015.

	Revenues		Net Income (Loss)		Net Loss Attributable to Icahn Enterprises

Icahn Enterprises Holdings

Due to the structure of our business, the consolidated results of operations for Icahn Enterprises and Icahn Enterprises Holdings are substantially the same with minor differences primarily related to non-cash portions of interest expense

that are only reflected in the results of operations for our Holding Company.

Overview

Our operating businesses are managed on a decentralized basis. Due to the structure of our business, we discuss the results of operations below by individual reporting segments. See Note 2, "Operating Units," to the condensed consolidated financial statements for a description of each of our operating segments and Note 13, "Segment Reporting," for a reconciliation of each of our reporting segment's results of operations to our consolidated results.

Investment

Our Investment segment is comprised of various private investment funds, including Icahn Partners L.P. ("Icahn Partners") and Icahn Partners Master Fund LP ("Master Fund") (collectively, the "Investment Funds"), through which we invest our proprietary capital. We and certain of Mr. Icahn's wholly owned affiliates are the sole investors in the Investment Funds. Icahn Onshore LP and Icahn Offshore LP (together, the "General Partners") act as the general partner of Icahn Partners and the Master Fund, respectively. The General Partners provide investment advisory and certain administrative and back office services to the Investment Funds but do not provide such services to any other entities, individuals or accounts. Interests in the Investment Funds are not offered to outside investors.

Mr. Icahn, along with his affiliates (excluding Icahn Enterprises and Icahn Enterprises Holdings), makes investments in the Investment Funds. As of September 30, 2016 and December 31, 2015, the total fair market value of investments in the Investment Funds made by Mr. Icahn and his affiliates was approximately \$4.1 billion and \$4.1 billion, respectively, representing approximately 69% and 55%, respectively, of the Investment Funds' assets under management.

Our Interests in the Investment Funds

As of September 30, 2016 and December 31, 2015, we had investments with a fair market value of approximately \$1.8 billion and \$3.4 billion, respectively, in the Investment Funds.

Our share of the Investment Funds' net income (loss) through our interests in the Investment Funds was \$111 million and \$(479) million for the three months ended September 30, 2016 and 2015, and \$(446) million and \$(119) million for the nine months ended September 30, 2016 and 2015, respectively.

Returns

The following table sets forth performance information for the Investment Funds for the comparative periods presented. These returns represent a weighted-average composite of the average returns, net of expenses for the Investment Funds.

	Returns			
	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Investment Funds	6.5 %	-10.3 %	-12.7 %	-2.8 %

Performance Attribution

The following table sets forth the performance attribution for the Investment Funds for the comparative periods presented.

	Performance Attribution			
	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
	2016	2015	2016	2015
Long positions	15.9 %	-24.5 %	14.7 %	-13.8 %
Short positions	-9.4 %	13.6 %	-25.1 %	12.3 %
Other	— %	0.6 %	-2.3 %	-1.3 %
	6.5 %	-10.3 %	-12.7 %	-2.8 %

Three Months Ended September 30, 2016 and 2015

The Investment Funds' aggregate return was 6.5% for the three months ended September 30, 2016. During the third quarter of 2016, the Investment Funds' performance was primarily driven by gains in their long equity positions,

primarily in a few of their largest core holdings, offset in part by losses in their short exposure, including broad market hedges.

The Investment Funds' aggregate return was -10.3% for the three months ended September 30, 2015. During the third quarter of 2015, the Investment Funds' performance was driven by losses in long equity positions, primarily in a few of their

largest core holdings. This was offset in part by gains in the Investment Fund's short equity exposure, including broad hedges, as equity markets declined.

Nine Months Ended September 30, 2016 and 2015

The Investment Funds' aggregate return was -12.7% for the nine months ended September 30, 2016. During the first nine months of 2016, the Investment Funds' performance was driven by losses in their short exposure, including broad market hedges, offset in part by gains in their long equity positions, primarily in a few of their largest core holdings. The Investment Funds' gains in their long equity positions occurred in the third quarter of 2016.

The Investment Funds' aggregate return was -2.8% for the nine months ended September 30, 2015. During the first nine months of 2015, the Investment Funds' performance was driven by losses in long equity positions, primarily in a few of their largest core holdings. This was offset in part by gains in the Investment Fund's short equity exposure, including broad hedges, as equity markets declined. The losses for the nine months ended September 30, 2015 were principally the result of the Investment Funds' losses during the third quarter of 2015, partially offset by the Investment Funds' gains during the first half 2015.

From inception in November 2004 through September 30, 2016, the Investment Funds' return was approximately 136.8%, representing an annualized rate of return of approximately 7.5%.

Automotive

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	2016	2015	2016	2015
	(in millions)			
Net sales	\$2,346	\$1,980	\$7,140	\$5,831
Cost of goods sold	1,899	1,660	5,797	4,950
Gross margin	\$447	\$320	\$1,343	\$881

We conduct our Automotive segment through our majority ownership in Federal-Mogul Holdings Corporation ("Federal-Mogul"), our wholly owned subsidiary, IEH Auto Parts Holding LLC ("IEH Auto"), which acquired substantially all of the auto parts assets in the United States of Uni-Select, Inc. through an acquisition that was consummated during the second quarter of 2015, and effective February 3, 2016, through our wholly owned subsidiary Pep Boys - Manny, Moe & Jack ("Pep Boys"). See Note 1, "Description of Business and Basis of Presentation - Acquisitions of Businesses," to the condensed consolidated financial statements for further discussion regarding the Pep Boys acquisition. Intercompany transactions among Federal-Mogul, Pep Boys and IEH Auto have been eliminated in consolidation.

On September 6, 2016, we, through our wholly owned subsidiary, IEH FM Holdings LLC commenced a cash tender offer (the "Federal-Mogul Tender Offer") to acquire, subject to the terms and conditions of the Federal-Mogul Merger Agreement, all of the issued and outstanding shares of Federal-Mogul's common stock not already owned by us. See Part II, Item 5, "Other Information - Federal-Mogul Tender Offer," of this Report for further discussion regarding this transaction.

Federal-Mogul is a leading global supplier of a broad range of components, accessories and systems to the automotive, small engine, heavy-duty, marine, railroad, agricultural, off-road, aerospace and energy, industrial and transport markets, including customers in both the original equipment manufacturers and servicers ("OE") market and the replacement market ("aftermarket"). Federal-Mogul's customers include the world's largest automotive OEs and major distributors and retailers in the independent aftermarket, including Pep Boys and IEH Auto.

Federal-Mogul operates with two end-customer focused businesses. The Powertrain business focuses on original equipment products for automotive, heavy duty and industrial applications. The Motorparts business sells and distributes a broad portfolio of products in the global aftermarket, while also serving original equipment manufacturers with products including braking, chassis, wipers, and other vehicle components.

Federal-Mogul's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q contain a detailed description of its business, products, industry, operating strategy and associated risks. Federal-Mogul's filings with the SEC are available on the SEC's website at www.sec.gov.

Pep Boys has 805 locations in the automotive aftermarket industry located throughout the United States and Puerto Rico. Pep Boys stores are organized into a hub and spoke network consisting of Supercenters and Service & Tire Centers. Supercenters average approximately 20,000 square feet and combine a parts and accessories store with professional service centers that perform a full range of automotive maintenance and repair services. Most of the Pep Boys Supercenters also have a

commercial sales program that provides prompt delivery of parts, tires and equipment to automotive repair shops and dealers. Service & Tire Centers, which average approximately 6,000 square feet, provide automotive maintenance and repair services in neighborhood locations that are conveniently located where our customers live or work.

IEH Auto has 21 distribution centers and 284 corporate-owned jobber stores (including 14 satellite locations) in the United States and supports a network of more than 2,000 independent wholesalers. Through its locations, IEH Auto sells predominantly to commercial aftermarket customers in the do-it-for-me ("DIFM") market as well as retail and do-it-yourself ("DIY") customers.

Pep Boys and IEH Auto are being operated together in order to grow their sales to DIFM distributors and DIFM service professionals, to grow their automotive service business, and to maintain their DIY customer bases by offering the newest and broadest product assortment in the automotive aftermarket.

Federal-Mogul is operated independently from Pep Boys and IEH Auto.

Major Influences Impacting Results of Operations

There is inherent uncertainty in the continuation of certain trends, as discussed below, which, among other factors, may have an effect on our Automotive segment. Our Automotive segment is affected by the relative strength of:

Global vehicle production levels

Global light vehicle production increased by 3.2% in the first nine months of 2016. European light vehicle production rose 3.1% and North American light vehicle production also increased 3.1%, with positive growth in Canada and the United States. Light vehicle production in the Asia-Pacific region increased by 4.8% with positive growth in China and India. Among the major regions, only South America posted a decline the first nine months of 2016, which was down 17.9%.

Global commercial vehicle production increased by 3.5% in the first nine months of 2016. European commercial vehicle production rose 5.4% and production in the Asia-Pacific region rose 11.6%, with positive growth in China and India. South America posted a decline during the nine months ended September 30, 2016, down 22.7%. There was a 13.8% decrease in commercial vehicle production in our Automotive segment's primary market of North America.

Global vehicle sales levels

Global light vehicle sales increased by 4.6% in the first nine months of 2016. European light vehicle sales rose 4.7% and North American vehicles sales increased 1.9%, with positive growth in Canada, Mexico, and the United States. Light vehicle sales in the Asia-Pacific region increased 8.0%, with positive growth in China and India. Among the major regions, only South America posted a decline during the first nine months of 2016, which was down 14.4%. Global commercial vehicle sales were up 6.8% in the first nine months of 2016. European commercial vehicles sales rose 9.3% and production in the Asia-Pacific region was up 13.8%, with positive growth in China and India. South America posted a decline during first nine months of 2016, down 25.4%. There was a 6.1% decrease in our primary market of North America.

Part replacement trends

The strength of our Automotive segment's aftermarket business is influenced by several key drivers. These include the vehicle population (or "parc"), average vehicle age, fuel prices and vehicle distance traveled. The vehicle parc is estimated to have expanded in most major markets, including the United States, China, and Germany. Average vehicle ages also increased, despite growth in new vehicle sales, in most regions. Vehicle distance traveled varies by region and is sensitive to several factors, including fuel prices and transportation alternatives. Average vehicle distance traveled has declined in China in the recent past, partially offsetting generally favorable trends in the country.

Geopolitical risk

Our Automotive businesses are global, subjecting them to numerous risks and uncertainties. For example, the recent decision of the referendum in the United Kingdom (the "UK") to leave the European Union has created economic uncertainty effects in both the UK and Europe. In addition, our Automotive segment has an interest in a certain joint venture in Turkey, which may be affected by recent turmoil in that region.

Foreign currencies

Our Automotive segment's operations are subject to fluctuations in foreign exchanges rates given the nature of their global operations and there has been significant volatility in foreign currency rates during the nine months ended September 30, 2016.

Three Months Ended September 30, 2016 and 2015

Net sales for our Automotive segment for the three months ended September 30, 2016 increased by \$366 million (18%) as compared to the comparable prior year period. The acquisition of Pep Boys in February 2016 accounted for \$349 million of the

increase, net of eliminations, and other acquisitions accounted for an additional \$7 million increase. The remaining increase of \$10 million for the three months ended September 30, 2016 was primarily due to other sales volume increases which were offset in part by an unfavorable effect of foreign currency exchange.

Cost of goods sold for the three months ended September 30, 2016 increased by \$239 million (14%) as compared to the comparable prior year period. The increase in cost of goods sold was primarily due to the inclusion of the results of Pep Boys which was acquired in February 2016.

Gross margin on net sales for the three months ended September 30, 2016 increased by \$127 million (40%) as compared to the comparable prior year period. Gross margin as a percentage of net sales was 19% and 16% for the three months ended September 30, 2016 and 2015, respectively. The increase in gross margin as a percentage of net sales over the respective periods was due to the inclusion of the results of Pep Boys which was acquired in February 2016. The gross margins on sales of Pep Boys' products are generally higher than those of Federal-Mogul's.

Nine Months Ended September 30, 2016 and 2015

Net sales for our Automotive segment for the nine months ended September 30, 2016 increased by \$1,309 million (22%) as compared to the comparable prior year period. The acquisition of Pep Boys in February 2016 accounted for \$975 million of the increase, net of eliminations, and other acquisitions accounted for an additional \$80 million increase. Additionally, IEH Auto accounted for an increase in net sales of \$309 million, net of eliminations, primarily due to its inclusion in our consolidated results for the full nine months ended September 30, 2016 compared to only four months in the comparable prior year period. Other sales volume increases accounted for an additional \$38 million increase in net sales for the nine months ended September 30, 2016. These increases were offset in part by an unfavorable effect of foreign currency exchange.

Cost of goods sold for the nine months ended September 30, 2016 increased by \$847 million (17%) as compared to the comparable prior year period. The increase in cost of goods sold was primarily due to the inclusion of the results of Pep Boys and IEH Auto, which were acquired in February 2016 and June 2015 respectively.

Gross margin on net sales for the nine months ended September 30, 2016 increased by \$462 million (52%) as compared to the comparable prior year period. Gross margin as a percentage of net sales was 19% and 15% for the nine months ended September 30, 2016 and 2015, respectively. The increase in gross margin as a percentage of net sales over the respective periods was due to the inclusion of the results of Pep Boys and IEH Auto, which were acquired in February 2016 and June 2015 respectively. The gross margins on sales of Pep Boys' and IEH Auto's products are generally higher than those of Federal-Mogul's.

Energy

	Three Months Ended September 30, 2016 2015		Nine Months Ended September 30, 2016 2015	
	(in millions)

Refining margin per barrel adjusted for FIFO impacts	10.09	18.65	8.99	16.98

Total crude oil throughput (barrels per day) 197,955 200,156 194,893 204,177

CVR Energy, Inc.'s ("CVR") Annual Report on Form 10-K and Quarterly Reports on Form 10-Q contain a detailed description of its business, products, industry, operating strategy and associated risks. CVR's filings with the SEC are available on the SEC's website at www.sec.gov.

As of September 30, 2016, we owned 82% of the total outstanding common stock of CVR. In addition, as of September 30, 2016, we owned approximately 3.9% of the total outstanding common stock of CVR Refining, LP ("CVR Refining").

CVR is a diversified holding company primarily engaged in the petroleum refining and nitrogen fertilizer manufacturing industries through its holdings in CVR Refining and CVR Partners, LP ("CVR Partners"), respectively. CVR Refining is an independent petroleum refiner and marketer of high value transportation fuels. CVR Partners produces and markets nitrogen fertilizers in the form of urea ammonium nitrate ("UAN") and ammonia.

As further discussed in Note 1, "Description of Business and Basis of Presentation," on April 1, 2016, CVR Partners completed the acquisition of CVR Nitrogen, LP.

Major Influences Impacting Results of Operations

Our Energy segment's earnings and cash flows from its petroleum operations are primarily affected by the relationship between refined product prices and the prices for crude oil and other feedstocks. In the nitrogen fertilizer business, earnings and cash flows from operations are primarily affected by the relationship among nitrogen fertilizer product prices, on-stream factors and direct operating expenses.

The earnings and cash flows of the petroleum business are primarily affected by the relationship between refined product prices and the prices for crude oil and other feedstocks that are processed and blended into refined products. The cost to acquire crude oil and other feedstocks and the price for which refined products are ultimately sold depend on factors beyond its control, including the supply of and demand for crude oil, as well as gasoline and other refined products which, in turn, depend on, among other factors, changes in domestic and foreign economies, weather conditions, domestic and foreign political affairs, production levels, the availability of imports, the marketing of competitive fuels and the extent of government regulation. Because the petroleum business applies first-in, first-out ("FIFO") accounting to value its inventory, crude oil price movements may impact net income in the short term because of changes in the value of its unhedged on-hand inventory. The effect of changes in crude oil prices on our results of

operations is influenced by the rate at which the prices of refined products adjust to reflect these changes.

The prices of crude oil and other feedstocks and refined product prices are also affected by other factors, such as product pipeline capacity, local market conditions and the operating levels of competing refineries. Crude oil costs and the prices of refined products have historically been subject to wide fluctuations. Widespread expansion or upgrades of competitors' facilities, price volatility, international political and economic developments and other factors are likely to continue to play an important role in refining industry economics. These factors can impact, among other things, the level of inventories in the market, resulting in price volatility and a reduction in product margins.

Moreover, the refining industry typically experiences seasonal fluctuations in demand for refined products, such as increases in the demand for gasoline during the summer driving season and for home heating oil during the winter, primarily in the Northeast. In addition to current market conditions, there are long-term factors that may impact the demand for refined products. These factors include mandated renewable fuels standards, proposed climate change laws and regulations, and increased mileage standards for vehicles. The petroleum business is also subject to the Renewable Fuel Standard ("RFS") of the United States Environmental Protection Agency ("EPA"), which requires it to either blend "renewable fuels" in with its transportation fuels or purchase renewable fuel credits, known as renewable identification numbers ("RINs"), in lieu of blending.

On December 14, 2015, the EPA published in the Federal Register a final rule establishing the renewable fuel volume mandates for 2014, 2015 and 2016, and the biomass-based diesel mandate for 2017. The volumes included in the EPA's final rule increase each year, but are lower, with the exception of the volumes for biomass-based diesel, than the volumes required by the Clean Air Act. The EPA used its waiver authority to lower the volumes, but its decision to do so has been challenged in the U.S. Court of Appeals for the District of Columbia Circuit. In addition, in the final rule establishing the renewable volume obligations for 2014-2016 and biomass based diesel for 2017, the EPA articulated a policy to incentivize additional investments in renewable fuel blending and distribution infrastructure by increasing the price of RINs.

On May 31, 2016, the EPA published in the Federal Register a proposed rule establishing the renewable fuel volume mandates for 2017, and the biomass-based diesel mandate for 2018. The volumes included in the proposed rule, with the exception of the volume for biomass-based diesel, are lower than the volumes required by the Clean Air Act. The EPA is required by the Clean Air Act to publish the final rule in the Federal Register by November 30, 2016.

The cost of RINs was \$58 million and \$19 million for three months ended September 30, 2016 and 2015, respectively, and \$152 million and \$93 million for nine months ended September 30, 2016 and 2015, respectively. The price of RINs has been extremely volatile and has increased over the last year. The future cost of RINs for the petroleum business is difficult to estimate. Additionally, the cost of RINs is dependent upon a variety of factors, which include EPA regulations, the availability of RINs for purchase, the price at which RINs can be purchased, transportation fuel production levels, the mix of the petroleum business' petroleum products, as well as the fuel blending performed at its refineries and downstream terminals, all of which can vary significantly from period to period. Based upon recent market prices of RINs and current estimates related to the other variable factors, the petroleum business currently estimates that the total cost of RINs will be approximately \$210 million to \$250 million for the year ending December 31, 2016.

If sufficient RINs are unavailable for purchase at times when the petroleum business seeks to purchase RINs, if the petroleum business has to pay a significantly higher price for RINs or if the petroleum business is otherwise unable to meet the EPA's RFS mandates, its business, financial condition and results of operations could be materially adversely affected.

Refining margin per crude oil throughput barrel is a measurement calculated as the difference between net sales and cost of goods sold (exclusive of depreciation and amortization, direct operating expenses and fair value inventory adjustments) and refining margin per crude oil throughput barrel adjusted for FIFO impact is a measurement calculated as the difference between net sales and cost of goods sold (exclusive of depreciation and amortization, direct operating expenses and fair value inventory adjustments) adjusted for FIFO impacts. Refining margin and refining margin adjusted for FIFO impact are non-GAAP measures that we believe are important to investors in evaluating our Energy segment refineries' performance as a general indication of the amount above our Energy segment's cost of goods sold (taking into account the impact of utilization of FIFO) they are able to sell refined products. We believe that refining margin and refining margin per crude oil throughput barrel is important to enable investors to better understand and evaluate our Energy segment's ongoing operating results and allow for greater

transparency in the review of our overall financial, operational and economic performance. In addition, we believe that presenting refining margin per crude oil throughput barrel adjusted for FIFO impact is useful to investors because this measure more accurately reflects the current operating environment.

In order to derive the refining margin per crude oil throughput barrel, our Energy segment utilizes the total dollar figures for refining margin, as derived above, and divides that by the applicable number of crude oil throughput barrels for the period. Our Energy segment's calculation of refining margin and refining margin adjusted for FIFO impact may differ from calculations of other companies in the industry, thereby limiting its usefulness as a comparative measure. Under our Energy segment's FIFO accounting method, changes in crude oil prices can cause fluctuations in the inventory valuation of our Energy segment's crude oil, work in process and finished goods, thereby resulting in favorable FIFO impacts when crude oil prices increase and unfavorable FIFO impacts when crude oil prices decrease.

In order to assess the operating performance of the nitrogen fertilizer business, CVR calculates the product pricing at gate as an input to determine its operating margin. Product pricing at gate represents net sales less freight revenue divided by product sales volume in tons. CVR believes product pricing at gate is a meaningful measure because it sells products at its plant gate and terminal locations' gates ("sold gate") and delivered to the customer's designated delivery site ("sold delivered"). The relative percentage of sold gate versus sold delivered can change period to period. The product pricing at gate provides a measure that is consistently comparable period to period.

Joint Venture Agreement

On September 19, 2016, Coffeyville Resources Pipeline, LLC ("CRPLLC"), an indirect wholly owned subsidiary of CVR Refining, entered into an agreement with Velocity Central Oklahoma Pipeline LLC ("Velocity") related to their joint ownership of Velocity Pipeline Partners, LLC ("VPP"). VPP will construct, own and operate a 12-inch crude oil pipeline with design capacity of approximately 65,000 barrel per day and with an estimated length of 25 miles with a connection to the Refining Partnership's Wynnewood refinery and a trucking terminal at Lowrance, Oklahoma. CRPLLC holds a 40% interest in VPP and expects to contribute \$9 million to VPP during the pipeline construction, which is expected to be completed in the second half of 2017. Velocity holds a 60% interest in VPP, serves as the day-to-day operator of VPP and expects to contribute \$14 million. As of September 30, 2016, CRPLLC has contributed \$3 million to VPP. On September 19, 2016, CVR Refining also entered into a transportation agreement with VPP for initial term of 20 years under which VPP will provide CVR Refining with crude oil transportation services for crude oil purchased within a defined geographic area, and CVR Refining entered into a terminalling services agreement with Velocity under which CVR Refining will receive access to Velocity's terminal in Lowrance, Oklahoma to unload and pump crude oil into VPP's pipeline for an initial term of 20 years.

Three Months Ended September 30, 2016 and 2015

Net sales for the petroleum business, before eliminations, for the three months ended September 30, 2016 decreased to approximately \$1.2 billion from approximately \$1.4 billion for the three months ended September 30, 2015. The decrease in net sales for the petroleum business was largely due to lower sales prices for the petroleum business' transportation fuels and by-products, coupled with a slight decrease in sales volumes. For the three months ended September 30, 2016, CVR's petroleum business sold approximately 10.2 million and 8.0 million barrels of gasoline and distillate, respectively, with an average sales price per gallon for gasoline and distillate of \$1.45 and \$1.45, respectively. For the three months ended September 30, 2015, CVR's petroleum business sold approximately 10.3 million and 8.2 million barrels of gasoline and distillate, respectively, with an average sales price per gallon for gasoline and distillate of \$1.72 and \$1.60, respectively.

Net sales for the fertilizer business, before eliminations, for the three months ended September 30, 2016 increased to \$78 million from \$49 million for the three months ended September 30, 2015. The increase in net sales for the fertilizer business was primarily due to the inclusion of the acquisition of CVR Nitrogen. For the three months ended September 30, 2016, CVR sold 296,000 and 47,700 tons of UAN and ammonia, respectively, with a sales gate price per ton of \$154 and \$345, respectively. For the three months ended September 30, 2015, CVR sold 174,500 and 7,800 tons of UAN and ammonia, respectively, with a sales gate price per ton of \$227 and \$478, respectively.

Cost of goods sold for the petroleum business for the three months ended September 30, 2016 and 2015 was approximately \$1.1 billion and approximately \$1.2 billion, respectively. Cost of goods sold for the petroleum business includes cost of crude oil, other feedstocks and blendstocks, purchased products for resale, RINs, transportation distribution costs, costs associated with the actual operations of CVR's refineries (such costs are collectively referred to as "direct operating expenses") such as energy and utility costs, property taxes, catalyst and chemical costs, repairs and maintenance and labor and environmental compliance costs. In addition, cost of goods sold includes depreciation and amortization.

The decrease in cost of sales for the petroleum business was primarily due to a decrease in cost of consumed crude oil, which was partially offset by an increase in purchased products for resale and an increase in RINs costs. The average cost per barrel of crude oil consumed for the three months ended September 30, 2016 was \$44.58 compared to \$46.64 for the comparable period in 2015, a decrease of approximately 4%. The impact of FIFO accounting also impacted cost of product sold during the comparable periods. Under the FIFO accounting method, changes in crude oil prices can cause fluctuations in the inventory valuation of crude oil, work in process and finished goods, thereby resulting in a favorable FIFO inventory impact when crude oil prices increase and an unfavorable FIFO inventory impact when

crude oil prices decrease. For the three months ended September 30, 2016, the petroleum business had an unfavorable FIFO inventory impact of \$8 million compared to an unfavorable FIFO inventory impact of \$46 million for the corresponding prior year period.

Refining margin per barrel of crude oil throughput decreased to \$9.66 for the three months ended September 30, 2016 from \$16.17 for the three months ended September 30, 2015. Refining margin adjusted for FIFO impact decreased to \$10.09 per crude oil throughput barrel for the three months ended September 30, 2016 from \$18.65 per crude oil throughput barrel for the three months ended September 30, 2015. Gross margin per barrel was \$2.09 for the three months ended September 30, 2016 as compared to a gross margin per barrel of \$7.98 for the three months ended September 30, 2015. The decrease in refining

margin and gross margin per barrel was primarily due to a weaker spread between crude oil and transportation fuels prices, higher RINs costs and an unfavorable change in the gasoline basis over the prior year period, which were partially offset by a favorable change in distillate basis over the prior year period.

The fertilizer business' cost of goods sold for the three months ended September 30, 2016 increased to \$70 million from \$57 million for the three months ended September 30, 2015. The increase was primarily due to the inclusion of the acquisition of CVR Nitrogen. Cost of goods sold for the fertilizer business is primarily comprised of pet coke expense, freight expense, distribution expense, purchased ammonia costs, direct operating expenses and depreciation and amortization.

Nine Months Ended September 30, 2016 and 2015

Net sales for the petroleum business, before eliminations, for the nine months ended September 30, 2016 decreased to approximately \$3.2 billion from approximately \$4.2 billion for the nine months ended September 30, 2015. The decrease in net sales for the petroleum business was largely due to significantly lower sales prices for the petroleum business' transportation fuels and by-products, as well as decrease in sales volumes. For the nine months ended September 30, 2016, CVR's petroleum business sold approximately 31.5 million and 23.8 million barrels of gasoline and distillate, respectively, with an average sales price per gallon for gasoline and distillate of \$1.31 and \$1.30, respectively. For the nine months ended September 30, 2015, CVR's petroleum business sold approximately 31.4 million and 25.5 million barrels of gasoline and distillate, respectively, with an average sales price per gallon for gasoline and distillate of \$1.69 and \$1.70, respectively.

Net sales for the fertilizer business, before eliminations, for the nine months ended September 30, 2016 increased to \$271 million from \$223 million for the nine months ended September 30, 2015. The increase in net sales for the fertilizer business was primarily due to the inclusion of the acquisition of CVR Nitrogen. For the nine months ended September 30, 2016, CVR sold 902,400 and 145,700 tons of UAN and ammonia, respectively, with a sales gate price per ton of \$187 and \$385, respectively. For the nine months ended September 30, 2015, CVR sold 698,800 and 26,900 tons of UAN and ammonia, respectively, with a sales gate price per ton of \$256 and \$529, respectively.

Cost of goods sold for the petroleum business for the nine months ended September 30, 2016 and 2015 was approximately \$3.1 billion and approximately \$3.7 billion, respectively. Cost of goods sold for the petroleum business includes cost of crude oil, other feedstocks and blendstocks, purchased products for resale, RINs, transportation distribution costs, costs associated with the actual operations of CVR's refineries (such costs are collectively referred to as "direct operating expenses") such as energy and utility costs, property taxes, catalyst and chemical costs, repairs and maintenance and labor and environmental compliance costs. In addition, cost of goods sold includes depreciation and amortization.

The decrease in cost of sales for the petroleum business was primarily due to a decrease in cost of consumed crude oil. The average cost per barrel of crude oil consumed for the nine months ended September 30, 2016 was \$39.81 compared to \$49.66 for the comparable period in 2015, a decrease of approximately 20%. The impact of FIFO accounting also impacted cost of product sold during the comparable periods. Under the FIFO accounting method, changes in crude oil prices can cause fluctuations in the inventory valuation of crude oil, work in process and finished goods, thereby resulting in a favorable FIFO inventory impact when crude oil prices increase and an unfavorable FIFO inventory impact when crude oil prices decrease. For the nine months ended September 30, 2016, the petroleum business had a favorable FIFO inventory impact of \$30 million compared to a favorable FIFO inventory impact of unfavorable \$34 million for the corresponding prior year period.

Refining margin per barrel of crude oil throughput decreased to \$9.55 for the nine months ended September 30, 2016 from \$16.38 for the nine months ended September 30, 2015. Refining margin adjusted for FIFO impact decreased to \$8.99 per crude oil throughput barrel for the nine months ended September 30, 2016 from \$16.98 per crude oil throughput barrel for the nine months ended September 30, 2015. Gross margin per barrel was \$1.70 for the nine months ended September 30, 2016 as compared to a gross margin per barrel of \$9.47 for the nine months ended September 30, 2015. The decrease in refining margin and gross margin per barrel was primarily due to a weaker spread between crude oil and transportation fuels pricing, an increase in RINs costs and an unfavorable change in gasoline basis over the prior year period, which was partially offset by a favorable change in distillate basis over the prior year period.

The fertilizer business' cost of goods sold for the nine months ended September 30, 2016 increased to \$231 million from \$168 million for the nine months ended September 30, 2015. The increase was primarily due to the inclusion of the acquisition of CVR Nitrogen. Cost of goods sold for the fertilizer business is primarily comprised of pet coke expense, freight expense, distribution expense, purchased ammonia costs, direct operating expenses and depreciation and amortization.

Metals

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(in millions)			
Net sales	\$72	\$92	\$206	\$301
Cost of goods sold	78	102	217	328
Gross margin	\$(6)	\$(10)	\$(11)	\$(27)

Summarized ferrous tons and non-ferrous pounds sold for the three and nine months ended September 30, 2016 and 2015 are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(in 000s)			
Ferrous tons sold	169	232	526	671
Non-ferrous pounds sold	30,056	27,404	80,089	94,085

We conduct our Metals segment through our indirect wholly owned subsidiary, PSC Metals, Inc. ("PSC Metals"). The scrap metals business is highly cyclical and is substantially dependent upon the overall economic conditions in the U.S. and other global markets. Ferrous and non-ferrous scrap have been historically vulnerable to significant declines in consumption and product pricing during prolonged periods of economic downturn or stagnation.

Three Months Ended September 30, 2016 and 2015

Net sales for the three months ended September 30, 2016 decreased by \$20 million (22%) compared to the corresponding prior year period. The decrease was due to lower shipment volumes and selling prices for most product types for the three months ended September 30, 2016 as compared to the corresponding prior year period.

Ferrous shipments decreased by 63,000 gross tons (27%) while the average price decreased by \$8 per gross ton (3%) during the three months ended September 30, 2016 as compared to the comparable prior year period. The shipment decrease was attributable to the slower flow of raw materials into the recycling yards due to efforts to reduce net unprofitable accounts from the supply base, and lower mill pricing which reduced peddler supply.

Non-ferrous shipment volumes decreased by 2.7 million pounds (10%) while average selling prices for non-ferrous decreased \$0.03 per pound (4%) during the three months ended September 30, 2016 compared to corresponding prior year period, reflecting lower market pricing and its unfavorable impact on raw material availability.

Cost of goods sold for the three months ended September 30, 2016 decreased by \$24 million (24%) compared to the corresponding prior year period. The decrease was primarily due to lower shipment volumes, lower material costs and lower processing costs. Gross margin as a percentage of net sales for the three months ended September 30, 2016 was a loss of 8% as compared to a loss of 11% in the corresponding prior year period. The material margin component of gross margin, as a percentage of net sales, improved over the respective periods, reflecting a continued focus on disciplined buying in the face of strong competition for shredder feedstock and lower pricing for non-ferrous auto shredder residue.

Nine Months Ended September 30, 2016 and 2015

Net sales for the nine months ended September 30, 2016 decreased by \$95 million (32%) compared to the comparable prior year period. The decrease was due to lower shipment volumes and selling prices for the nine months ended September 30, 2016 as compared to the corresponding prior year period.

Ferrous shipments decreased by 145,000 gross tons (22%) while the average price decreased by \$40 per gross ton (16%) during the nine months ended September 30, 2016 as compared to the comparable prior year period. The shipment decrease was attributable to reduced demand from domestic steel mills and to the slow flow of raw materials into the recycling yards. Low priced iron ore, direct-reduced iron pellets, and reduced demand from steel mills during

the current quarter continued to hold down market prices.

Non-ferrous shipment volumes decreased by 14.0 million pounds (15%) and average selling prices for non-ferrous decreased \$0.07 per pound (9%) during the nine months ended September 30, 2016 as compared to the comparable prior year period reflecting lower market pricing and its unfavorable impact on raw material availability.

Cost of goods sold for the nine months ended September 30, 2016 decreased by \$111 million (34%) compared to the comparable prior year period. The decrease was primarily due to lower shipment volumes, lower material costs and lower processing costs. Gross margin as a percentage of net sales was a loss of 5% and 9% for the nine months ended September 30, 2016 and 2015, respectively. The material margin component of gross margin, as a percentage of net sales, improved during the first nine months of 2016 as compared to the corresponding prior year period, reflecting a continued focus on disciplined buying in the face of strong competition for shredder feedstock and lower pricing for non-ferrous auto shredder residue. PSC Metals continued to expend considerable effort to bring costs in line with volumes and market pricing. PSC Metals closed nine feeder yards after March 31, 2015 in order to better align its cost structure to the current market environment.

Railcar

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	2016	2015	2016	2015
	(in millions)			
Net Sales/Other Revenues From Operations:				
Manufacturing	\$94	\$92	\$315	\$281
Railcar Leasing	120	114	360	331
Railcar Services	13	12	38	36
	\$227	\$218	\$713	\$648
Cost of Goods Sold/Other Expenses From Operations:				
Manufacturing	\$86	\$69	\$270	\$208
Railcar Leasing	72	45	166	133
Railcar Services	8	6	20	18
	\$166	\$120	\$456	\$359
Gross Margin:				
Manufacturing	\$8	\$23	\$45	\$73
Railcar Leasing	48	69	194	198
Railcar Services	5	6	18	18
	\$61	\$98	\$257	\$289

Our Railcar segment includes the results of American Railcar Industries, Inc. ("ARI") and American Railcar Leasing, LLC ("ARL"). On February 29, 2016, we entered into a contribution agreement with an affiliate of Mr. Icahn to acquire the remaining 25% economic interest in ARL not already owned by us. See Note 3, "Related Party Transactions - Railcar," for further discussion regarding this transaction.

ARI's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q contain a detailed description of its business, products, industry, operating strategy and associated risks. ARI's filings with the SEC are available on the SEC's website at www.sec.gov.

Summarized shipments of railcars to leasing and non-leasing customers for the three and nine months ended September 30, 2016 and 2015 are as follows:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Shipments to leasing customers	209	1,163	494	4,696

Shipments to non-leasing customers 855 745 2,917 2,277
1,064 1,908 3,411 6,973

As of September 30, 2016, our Railcar segment had a backlog of 5,083 railcars, including 1,902 railcars for lease customers and 3,181 for non-lease customers. In response to changes in customer demand, our Railcar segment continues to adjust production rates at its railcar manufacturing facilities.

Three Months Ended September 30, 2016 and 2015

Total manufacturing revenues for the three months ended September 30, 2016 increased by \$2 million (2%) over the comparable prior year period. The increase was primarily due to a higher volume of shipments to non-leasing customers offset in part by an overall decrease in the average selling prices with a higher mix of hopper railcars, which generally sell at lower prices than tank railcars due to less material and labor content, more competitive pricing on both hopper and tank railcars and a decrease in revenue from certain material cost changes that ARI generally passes through to its customers.

Gross margin from manufacturing operations for the three months ended September 30, 2016 decreased to \$8 million from \$23 million as compared to the comparable prior year period. Gross margin from manufacturing operations as a percentage of manufacturing revenues decreased to 9% for the three months ended September 30, 2016 from 25% as compared to the corresponding prior year period. The decrease in gross margin percentage over the respective period was primarily due to loss contingency related to a certain Federal Railroad Administration ("FRA") directive recorded during the third quarter of 2016, as discussed elsewhere in this Report, and to a higher mix of hopper railcar shipments, which generally sell at lower prices than tank railcars due to less material and labor content, in addition to more competitive pricing of both railcar types. See Note 17, "Commitments and Contingencies - Railcar," for further discussion regarding the FRA directive.

Railcar leasing revenues increased by \$6 million (5%) for the three months ended September 30, 2016 as compared to the corresponding prior year period due to an increase in number of railcars leased to customers and a slight increase in the average lease rate. The lease fleet grew to 45,481 railcars at September 30, 2016 from 44,608 railcars at September 30, 2015.

Nine Months Ended September 30, 2016 and 2015

Total manufacturing revenues for the nine months ended September 30, 2016 increased by \$34 million (12%) over the comparable prior year period. The increase was primarily due to a higher volume of shipments to non-leasing customers, an overall decrease in the average selling prices with a higher mix of hopper railcars, which generally sell at lower prices than tank railcars due to less material and labor content, more competitive pricing on both hopper and tank railcars and a decrease in revenue from certain material cost changes that ARI generally passes through to its customers.

Gross margin from manufacturing operations for the nine months ended September 30, 2016 decreased to \$45 million from \$73 million as compared to the comparable prior year period. Gross margin from manufacturing operations as a percentage of manufacturing revenues decreased to 14% for the nine months ended September 30, 2016 from 26% in the corresponding prior year period. The decrease in gross margin percentage over the respective period was primarily due to a loss contingency related to a certain FRA directive recorded during the third quarter of 2016, as discussed elsewhere in this Report, and to a higher mix of hopper railcar shipments, which generally sell at lower prices than tank railcars due to less material and labor content, in addition to more competitive pricing of both railcar types. See Note 17, "Commitments and Contingencies - Railcar," for further discussion regarding the FRA directive.

Railcar leasing revenues increased by \$29 million (9%) for the nine months ended September 30, 2016 as compared to the corresponding prior year period due to an increase in number of railcars leased to customers and a slight increase in the average lease rate. The lease fleet grew to 45,481 railcars at September 30, 2016 from 44,608 railcars at September 30, 2015.

Gaming

We conduct our Gaming segment through our majority ownership in Tropicana and our wholly owned subsidiary, Trump Entertainment Resorts, Inc. ("Trump") which owns Trump Taj Mahal Casino Resort ("Trump Taj Mahal"). As discussed further in Note 1, "Description of Business and Basis of Presentation - Acquisitions of Businesses," we obtained control and consolidated the results of Trump upon its emergence from bankruptcy on February 26, 2016. Trump Taj Mahal is located in Atlantic City, New Jersey. Trump Taj Mahal added approximately 160,000 square feet of gaming space with 2,500 slot machines, 130 table games and 2,000 hotel rooms to our existing gaming operations. Trump Taj Mahal closed and ceased its casino and hotel operations on October 10, 2016.

Tropicana's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q contain a detailed description of its business, products, industry, operating strategy and associated risks. Tropicana's filings with the SEC are available on

the SEC's website at www.sec.gov.

Gaming revenues and expenses are classified in other revenues from operations and other expenses from operations, respectively, in our condensed consolidated financial statements.

Casino revenues are one of our gaming segment's main performance indicators and account for a significant portion of its net revenues. In addition, casino revenues can vary because of table games hold percentage and differences in the odds for different table games. High end play may lead to greater fluctuations in table games hold percentage and, as a result, greater revenue fluctuation between reporting periods may occur.

Three Months Ended September 30, 2016 and 2015

The increase in casino revenues for the three months ended September 30, 2016 as compared to the comparable prior year period was primarily due to an increase in consolidated gaming volumes of 22.2%, primarily due to the inclusion of results from Trump upon its emergence from bankruptcy on February 26, 2016, coupled with higher gaming volumes and table hold percentage at Tropicana Casino and Resort, Atlantic City ("Tropicana AC") in the third quarter of 2016 as compared to 2015. Our Gaming segment's consolidated slot hold percentage was 9.6% and 9.7% for the three months ended September 30, 2016 and 2015, respectively. Our Gaming segment's consolidated table game hold percentage was 18.8% and 15.6% for the three months ended September 30, 2016 and 2015, respectively. Revenues from rooms increased for the three months ended September 30, 2016 as compared to the corresponding prior year period, primarily due to the inclusion of results from the Trump casino upon its emergence from bankruptcy on February 26, 2016. The average daily room rate and occupancy across all of our Gaming segment's properties were \$95 and 73%, respectively, for the three months ended September 30, 2016 as compared to \$94 and 76%, respectively, for the comparable prior year period.

Nine Months Ended September 30, 2016 and 2015

The increase in casino revenues for the nine months ended September 30, 2016 as compared to the comparable prior year period was primarily due to an increase in consolidated gaming volumes of 20.2%, primarily due to the inclusion of results from Trump upon its emergence from bankruptcy on February 26, 2016, coupled with higher gaming volumes and table hold percentage at Tropicana AC and Tropicana Evansville. Our Gaming segment's consolidated slot hold percentage was flat at 9.6% for the nine months ended September 30, 2016 as compared to the corresponding prior year period. Our Gaming segment's consolidated table game hold percentage was 18.4% and 16.5% for the nine months ended September 30, 2016 and 2015, respectively.

Revenues from rooms increased for the nine months ended September 30, 2016 as compared to the corresponding prior year period, primarily due to the inclusion of results from the Trump casino upon its emergence from bankruptcy on February 26, 2016. The average daily room rate and occupancy across all of our Gaming segment's properties were \$89 and 70%, respectively, for the nine months ended September 30, 2016 as compared to \$86 and 72%, respectively, for the comparable prior year period.

Mining

We conduct our Mining segment through Ferrous Resources Limited ("Ferrous Resources"), which we consolidated during the second quarter of 2015.

For our Mining segment, the key performance driver has historically been from demand for raw materials from Chinese steelmakers. Since acquiring Ferrous Resources during the second quarter of 2015, our Mining segment has been concentrating on sales in its domestic market, Brazil, where the best margins are being captured. Although international iron ore prices have slightly improved to an average of \$59 per metric ton during the third quarter of 2016, our Mining segment expects the remainder of 2016 to be challenging for the steel industry as it contends with slowing growth, overcapacity and increased competition.

Three Months Ended September 30, 2016 and 2015

Net sales for the three months ended September 30, 2016 and 2015 was \$18 million and \$12 million, respectively.

Cost of goods sold for the three months ended September 30, 2016 and 2015 was \$13 million and \$14 million, respectively.

During the three months ended September 30, 2016 and 2015, our Mining segment sold approximately 0.9 million and 0.8 million metric tons, respectively, of iron ore with an average sales price of \$21 and \$18 per metric ton, respectively.

Our Mining segment continues to evaluate the best alternatives to sell its products in light of the challenging markets for iron ore.

Nine Months Ended September 30, 2016 and 2015

Net sales for the nine months ended September 30, 2016 and the period June 1, 2015 through September 30, 2015 was \$49 million and \$18 million, respectively. Cost of goods sold for the nine months ended September 30, 2016 and the period June 1, 2015 through September 30, 2015 was \$43 million and \$20 million, respectively. As a result of our acquisition of Ferrous Resources in the second quarter of 2015, the comparable prior year period results only include results in consolidation for the four months ended September 30, 2015.

During the nine months ended September 30, 2016 and the period June 1, 2015 through September 30, 2015, our Mining segment sold approximately 2.8 million and 1.1 million metric tons, respectively, of iron ore with an average sales price of \$17 and \$19 per metric ton, respectively.

Food Packaging

We conduct our Food Packaging segment through our majority ownership in Viskase Companies, Inc. ("Viskase"). Viskase currently operates nine manufacturing facilities and six distribution centers throughout North America, Europe, South America and Asia and derives approximately 70% of its total net sales from customers located outside the United States during the three months ended September 30, 2016.

Three Months Ended September 30, 2016 and 2015

Net sales for the three months ended September 30, 2016 decreased by \$5 million (6%) as compared to the corresponding prior year period. The decrease was primarily due to lower sales volume and unfavorable price and product mix, offset in part by favorable foreign currency translation.

Cost of goods sold for the three months ended September 30, 2016 decreased by \$7 million (10%) as compared to the corresponding prior year period. Gross margin as a percentage of net sales was 25% and 21% for each of the three months ended September 30, 2016 and 2015, respectively. The improvement in gross margin as a percentage of net sales over the comparable period was primarily due to efficiencies from improved plant performance.

Nine Months Ended September 30, 2016 and 2015

Net sales for the nine months ended September 30, 2016 decreased by \$19 million (7%) as compared to the corresponding prior year period. The decrease was primarily due to lower sales volume, unfavorable price and product mix and unfavorable foreign currency translation.

Cost of goods sold for the nine months ended September 30, 2016 decreased by \$16 million (8%) as compared to the corresponding prior year period. Gross margin as a percentage of net sales was 24% and 23% for the nine months ended September 30, 2016 and 2015, respectively. The slight improvement in gross margin as a percentage of net sales over the comparable period was primarily due to efficiencies from plant performance.

Real Estate

Real Estate revenues and expenses include results from club operations, sales of residential units and rental income and expenses, including income from financing leases. Sales of residential units are included in net sales in our condensed consolidated financial statements. Results from club and rental operations, including financing lease income, are included in other revenues from operations in our condensed consolidated financial statements. Revenue from our real estate operations for each of the three and nine months ended September 30, 2016 and 2015 were substantially derived from income from club and rental operations. During 2015, our Real Estate segment sold certain assets, primarily within its rental operations, contributing to a decrease in other revenues from operations during 2016.

Home Fashion

We conduct our Home Fashion segment through our indirect wholly owned subsidiary, WestPoint Home LLC ("WPH"). The business of WPH is significantly influenced by the overall economic environment, including consumer spending, at the retail level, for home textile products. Many of the larger retailers are customers of WPH. WPH has a stable manufacturing platform and is focused on continued improvement in its cost structure through the use of certain process improvement initiatives. WPH is actively negotiating acquisitions and will continue to focus on acquiring assets that will expand or supplement the manufacturing capabilities, product and brand offerings that align with WPH's core home textile expertise.

Three Months Ended September 30, 2016 and 2015

Net sales for the three months ended September 30, 2016 flat at \$48 million as compared to the comparable prior year period. Cost of goods sold for the three months ended September 30, 2016 increased by \$1 million (2%) compared to the comparable prior year period. The increase was primarily due to sales mix. Gross margin as a percentage of net sales was 13% for the three months ended September 30, 2016 as compared to 15% for the comparable prior year period. The decrease in gross margin as a percentage of net sales was primarily due to sales mix with programs and customers.

Nine Months Ended September 30, 2016 and 2015

Net sales for the nine months ended September 30, 2016 increased by \$4 million (3%) compared to the comparable prior year period. The increase was primarily due to an increase in sales volume. Cost of goods sold for the nine months ended September 30, 2016 increased by \$4 million (3%) compared to the comparable prior year period. The increase was primarily due to higher sales volume and mix. Gross margin as a percentage of net sales was 14% for each of the nine months ended September 30, 2016 and 2015.

Holding Company

The Holding Company had a net gain of \$1 million from investment activities for each of the three months ended September 30, 2016 and 2015. The Holding Company had a net gain from investment activities of \$10 million for the nine months ended September 30, 2016 compared to a net loss from investment activities of \$31 million in the comparable prior year period.

Other Consolidated Results of Operations

Other Income (Loss), Net

Three Months Ended September 30, 2016 and 2015

Our consolidated other income (loss), net for the three months ended September 30, 2016 and 2015 was \$13 million and \$37 million, respectively. For the three months ended September 30, 2016 and 2015, our Energy segment recorded net (losses) gains on certain derivative contracts of \$(2) million and \$12 million, respectively. See Note 6, "Financial Instruments," to the condensed consolidated financial statements for further discussion. During the three months ended September 30, 2016 and 2015, net (losses) gains on disposition of assets were \$(1) million and \$19 million, respectively, primarily from our Real Estate segment which sold certain assets in 2015 within its club and rental operations.

Nine Months Ended September 30, 2016 and 2015

Our consolidated other income (loss), net for the nine months ended September 30, 2016 and 2015 was \$53 million and \$29 million, respectively. For the nine months ended September 30, 2016 and 2015, our Energy segment recorded net losses on certain derivative contracts of \$5 million and \$52 million, respectively. See Note 6, "Financial Instruments," to the condensed consolidated financial statements for further discussion. During the three months ended September 30, 2016 and 2015, net gains on disposition of assets were \$10 million and \$39 million, respectively, primarily from our Real Estate segment which sold certain assets in 2015 within its club and rental operations.

Selling, General and Administrative

Three Months Ended September 30, 2016 and 2015

Our consolidated selling, general and administrative for the three months ended September 30, 2016 increased by \$185 million (44%) as compared to the comparable prior year period. The increase was primarily attributable to an increase from our Automotive segment of \$113 million primarily due to the inclusion of the acquisitions of Pep Boys in February 2016 and an increase of \$34 million from our Gaming segment primarily due to the inclusion of Trump casino upon its emergence from bankruptcy on February 26, 2016, coupled with an increase of \$45 million from our Investment segment due to an increase of compensation expense related to a certain fund performance over the respective periods.

Nine Months Ended September 30, 2016 and 2015

Our consolidated selling, general and administrative for the nine months ended September 30, 2016 increased by \$313 million (22%) as compared to the comparable prior year period. The increase was primarily attributable to an increase from our Automotive segment of \$409 million primarily due to the inclusion of the acquisitions of Pep Boys in February 2016 and IEH Auto in the second quarter of 2015 and an increase of \$76 million from our Gaming segment primarily due to the inclusion of Trump casino upon its emergence from bankruptcy on February 26, 2016, offset in part by a decrease of \$178 million from our Investment segment due to a decrease of compensation expense related to a certain fund performance over the respective periods.

Restructuring

Three Months Ended September 30, 2016 and 2015

Our consolidated restructuring costs were \$8 million and \$18 million for three months ended September 30, 2016 and 2015, respectively, which were primarily attributable to our Automotive segment. These restructuring charges, primarily consisting of employee costs and headcount reductions, pertain to all restructuring programs that Federal-Mogul has initiated in order to improve its operating performance.

Federal-Mogul's restructuring expenses for the nine months ended September 30, 2016 are aimed at optimizing its cost structure. Federal-Mogul expects to complete these programs in 2017 and incur additional restructuring and other charges of approximately \$1 million. For programs previously initiated in prior periods, Federal-Mogul expects to complete these programs in 2018 and incur additional restructuring charges of approximately \$4 million.

Nine Months Ended September 30, 2016 and 2015

Our consolidated restructuring costs were \$29 million and \$57 million for nine months ended September 30, 2016 and 2015, respectively, which were primarily attributable to our Automotive segment. These restructuring charges, primarily consisting of employee costs and headcount reductions, pertain to all restructuring programs that Federal-Mogul has initiated in order to improve its operating performance.

Federal-Mogul's restructuring expenses for the nine months ended September 30, 2016 are aimed at optimizing its cost structure. Federal-Mogul expects to complete these programs in 2017 and incur additional restructuring and other charges of approximately \$1 million. For programs previously initiated in prior periods, Federal-Mogul expects to complete these programs in 2018 and incur additional restructuring charges of approximately \$4 million.

Impairment

Three Months Ended September 30, 2016 and 2015

Our consolidated impairment charges increased by \$87 million for three months ended September 30, 2016 as compared to the comparable prior year period, which were primarily attributable to our Gaming segment. As a result of the Trump Taj Mahal's closing on October 10, 2016, we recorded an aggregate impairment charge of \$92 million for the three months ended September 30, 2016 related to property, plant and equipment and intangible assets for our Gaming segment. See Note 5, "Fair Value Measurements," for further discussion.

Nine Months Ended September 30, 2016 and 2015

Our consolidated impairment charges increased by \$660 million for nine months ended September 30, 2016 as compared to the comparable prior year period, which were primarily attributable to our Energy and Gaming segments. We recorded a goodwill impairment charge of \$574 million related to our Energy segment for the nine months ended September 30, 2016. In addition, as a result of the Trump Taj Mahal's closing on October 10, 2016, we recorded an aggregate impairment charge of \$92 million for the nine months ended September 30, 2016 related to property, plant and equipment and intangible assets for our Gaming segment. See Note 5, "Fair Value Measurements," and Note 8, "Goodwill and Intangible Assets, Net," for further discussion.

Interest Expense

Three Months Ended September 30, 2016 and 2015

Our consolidated interest expense during the three months ended September 30, 2016 decreased by \$74 million (25%) as compared to the corresponding prior year period. The decrease was primarily due to lower interest expense from our Investment segment attributable to a decrease in due to broker balances over the respective periods, offset in part by higher interest expense from our Automotive segment due to higher interest rates on borrowings under revolving credit facilities over the respective periods and the inclusion of interest from the acquisition of Pep Boys in February 2016, as well as higher interest from our Energy segment due to a certain debt offering during the second quarter of 2016.

Nine Months Ended September 30, 2016 and 2015

Our consolidated interest expense during the nine months ended September 30, 2016 decreased by \$188 million (22%) as compared the corresponding prior year period. The decrease was primarily due to lower interest expense from our Investment segment attributable to a decrease in due to broker balances over the respective periods, offset in part by higher interest expense from our Automotive segment due to higher interest rates on borrowings under revolving credit facilities over the respective periods and the inclusion of interest from the acquisitions of Pep Boys in February 2016 and IEH Auto in the second quarter of 2015, higher interest from our Energy segment due to a certain debt offering during the second quarter of 2016, as well as higher interest from our Railcar segment due to higher debt balances over the respective periods.

Income Tax Expense

Three Months Ended September 30, 2016 and 2015

For the three months ended September 30, 2016, each of Icahn Enterprises and Icahn Enterprises Holdings recorded an income tax expense of \$15 million on pre-tax income of \$253 million compared to an income tax expense of \$22 million on pre-tax loss of \$918 million for the three months ended September 30, 2015. Our effective income tax rate was 5.9% and (2.4)% for the three months ended September 30, 2016 and 2015, respectively.

For the three months ended September 30, 2016, the effective tax rate was lower than the statutory federal rate of 35%, primarily due to partnership income not subject to taxation, as such income is allocated to the partners.

For the three months ended September 30, 2015, the effective tax rate was lower than the statutory federal rate of 35%, primarily due to partnership losses for which there was no tax benefit, as such taxes are the responsibility of the partners.

Nine Months Ended September 30, 2016 and 2015

For the nine months ended September 30, 2016, each of Icahn Enterprises and Icahn Enterprises Holdings recorded an income tax expense of \$81 million on pre-tax loss of approximately \$1.6 billion compared to an income tax expense of \$184 million on pre-tax income of \$207 million for the nine months ended September 30, 2015. Our effective income tax rate was (5.1)% and 88.9% for the nine months ended September 30, 2016 and 2015, respectively. For the nine months ended September 30, 2016, the effective tax rate was lower than the statutory federal rate of 35%, primarily due to partnership losses for which there was no tax benefit, as such losses are allocated to the partners, and goodwill impairment not deductible for tax purposes. For the nine months ended September 30, 2015, the effective tax rate was higher than the statutory federal rate of 35%, primarily due to partnership losses not subject to taxation, as such taxes are the responsibility of the partners.

Liquidity and Capital Resources

Holding Company

As of September 30, 2016, the Holding Company had investments in the Investment Funds with a total fair market value of approximately \$1.8 billion. As of September 30, 2016, our Holding Company had cash and cash equivalents of \$192 million and total debt of approximately \$5.5 billion.

We are a holding company. Our cash flow and our ability to meet our debt service obligations and make distributions with respect to depositary units likely will depend on the cash flow resulting from divestitures, equity and debt financings, interest income, returns on our interests in the Investment Funds and the payment of funds to us by our subsidiaries in the form of loans, dividends and distributions. We may pursue various means to raise cash from our subsidiaries. To date, such means include receipt of dividends from subsidiaries, obtaining loans or other financings based on the asset values of subsidiaries or selling debt or equity securities of subsidiaries through capital market transactions. To the degree any distributions and transfers are impaired or prohibited, our ability to make payments on our debt or distributions on our depositary units could be limited. The operating results of our subsidiaries may not be sufficient for them to make distributions to us. In addition, our subsidiaries are not obligated to make funds available to us, and distributions and intercompany transfers from our subsidiaries to us may be restricted by applicable law or covenants contained in debt agreements and other agreements.

As of September 30, 2016, based on covenants in the indenture governing our senior notes, we are not permitted to incur additional indebtedness. See Note 10, "Debt," to the condensed consolidated financial statements for additional information concerning credit facilities for us and our subsidiaries.

Distributions on Depositary Units

On February 23, 2016, Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit in which each depositary unit holder had the option to make an election to receive either cash or additional depositary units. As a result, on April 12, 2016, Icahn Enterprises distributed an aggregate 2,824,186 depositary units to unit holders electing to receive depositary units in connection with this distribution.

On April 29, 2016, Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit in which each depositary unit holder had the option to make an election to receive either cash or additional depositary units. As a result, on June 16, 2016, Icahn Enterprises distributed an aggregate 3,116,976 depositary units to unit holders electing to receive depositary units in connection with this distribution.

On August 3, 2016, Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit in which each depositary unit holder had the option to make an election to receive either cash or additional depositary units. As a result, on September 19, 2016, Icahn Enterprises distributed an aggregate 3,586,029 depositary units to unit holders electing to receive depositary units in connection with this distribution.

On November 1, 2016, the Board of Directors of the general partner of Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit, which will be paid on or about December 19, 2016 to depositary unit holders of record at the close of business on November 14, 2016. Depositary unit holders have until December 7, 2016 to make an election to receive either cash or additional depositary units; if a holder does not make an election, it will automatically be deemed to have elected to receive the dividend in cash. Depositary unit holders who elect to receive additional depositary units will receive units valued at the volume weighted average trading price of the units on NASDAQ during the 5 consecutive trading days ending December 14, 2016. No fractional depositary

units will be issued pursuant to the dividend payment. Icahn Enterprises will make a cash payment in lieu of issuing fractional depositary units to any holders electing to receive depositary units. Any holders that would only be eligible to receive a fraction of a depositary unit based on the above calculation will receive a cash payment.

Borrowings

Debt consists of the following:

	September 30, 2016	December 31, 2015
	(in millions)	
5.875% senior unsecured notes due 2022 - Icahn Enterprises/Icahn Enterprises Holdings	\$1,339	\$ 1,338
6.00% senior unsecured notes due 2020 - Icahn Enterprises/Icahn Enterprises Holdings	1,705	1,706
4.875% senior unsecured notes due 2019 - Icahn Enterprises/Icahn Enterprises Holdings	1,271	1,270
3.50% senior unsecured notes due 2017 - Icahn Enterprises/Icahn Enterprises Holdings	1,174	1,172
Debt and credit facilities - Automotive	3,324	3,121
Debt facilities - Energy	1,120	619
Debt and credit facilities - Railcar	2,343	2,671
Credit facilities - Gaming	287	289
Credit facilities - Food Packaging	265	267
Other	143	141
	\$12,971	\$ 12,594

Refer to our Annual Report on Form 10-K for the year ended December 31, 2015 for information concerning terms, restrictions and covenants pertaining to our debt. See Note 10, "Debt," to the condensed consolidated financial statements in this Report for information with respect to updates on our debt at September 30, 2016 compared to December 31, 2015. As of September 30, 2016, we are in compliance with all debt covenants.

Contractual Commitments and Contingencies

Other than certain debt transactions as described below for our Automotive, Energy and Railcar segments, there have been no material changes to our contractual commitments and contingencies as compared to those reported in our Annual Report on Form 10-K for the year ended December 31, 2015.

Off-Balance Sheet Arrangements

We have off-balance sheet risk related to investment activities associated with certain financial instruments, including futures, options, credit default swaps and securities sold, not yet purchased. For additional information regarding these arrangements, see Note 6, "Financial Instruments," to the condensed consolidated financial statements.

Consolidated Cash Flows

The following table summarizes cash flow information for the nine months ended September 30, 2016 and cash and cash equivalents as of September 30, 2016 for Icahn Enterprises' operating segments and the Holding Company:

	Nine Months Ended September 30, 2016			September 30, 2016
	Net Cash Provided By (Used In)			Cash and Cash Equivalents
	Operating Activities	Investing Activities	Financing Activities	
	(in millions)			
Investment	\$554	\$—	\$ 498	\$ 14
Automotive	394	(261)) 152	375
Energy	210	(172)) 58	763
Metals	(5)) (1)) —	5
Railcar	318	(107)) (347)) 299
Gaming	63	(34)) —	290
Mining	(2)) (12)) 2	2
Food Packaging	24	(11)) (3)) 47
Real Estate	19	3	(3)) 13
Home Fashion	(6)) (8)) 2	2
Holding Company	(247)) (1,064)) (80)) 192
	\$1,322	\$ (1,667)) \$ 279	\$ 2,002

The consolidated cash flows of Icahn Enterprises and Icahn Enterprises Holdings are substantially the same. The immaterial differences between Icahn Enterprises' and Icahn Enterprises Holdings' condensed consolidated statements of cash flows primarily relate to non-cash charges for interest expense which is included in net cash provided by operating activities. Therefore, we discuss only the consolidated cash flows of Icahn Enterprises below.

Operating Activities

Cash provided by operating activities during the nine months ended September 30, 2016 was primarily attributable to our Investment segment due to net cash provided by investment transactions. Additionally, our Energy and Railcar segments had net cash provided by operating activities primarily due to earnings before non-cash charges. Our Automotive segment also had net cash provided by operating activities due to earnings before non-cash charges offset in part by decreases in working capital. The Holding Company had net cash used in operating activities primarily due to interest payments on our senior unsecured notes.

Investing Activities

Cash used in investing activities during the nine months ended September 30, 2016 was primarily due to our acquisition of Pep Boys by the Holding Company as well as our Energy segment's acquisition of CVR Nitrogen. Additionally, our Railcar segment had capital expenditures of \$104 million, of which \$88 million was for the manufacture or purchase of railcars for its leasing operations, and our Automotive and Energy segments had capital expenditures of \$306 million and \$106 million, respectively. Additionally, the Holding Company had purchases of investments of \$67 million.

Financing Activities

Cash provided from financing activities during the nine months ended September 30, 2016 was primarily due to our Investment segment which received net contributions from affiliates of Mr. Icahn of \$498 million. This was offset in part by payments of distributions to our LP unitholders and payments of dividends and distributions to non-controlling interests in certain of our subsidiaries.

Discussion of Segment Liquidity and Capital Resources

There have been no material changes to our capital expenditures during the nine months ended September 30, 2016 as compared to the estimated capital expenditures for 2016 as reported in our Annual Report on Form 10-K for the year ended December 31, 2015.

Investment

As of September 30, 2016, the Investment Funds' net notional exposure was -138%. The Investment Funds' long exposure was 165% (157% long equity and 8% long credit) and the Investment Funds' short exposure was 303% (286% short equity, 17% short credit and other). The notional exposure represents the ratio of the notional exposure of the Investment Funds' invested capital to the net asset value of the Investment Funds at September 30, 2016.

Of our long exposure of 165%, the fair value of our long positions (with certain adjustments) represented 158% of our long exposure. The notional value of our other long positions, which primarily included single name equity forward contracts and credit contracts, represented 7% of our long exposure.

Of our short exposure of 303%, the fair value of our short positions represented 21% of our short exposure. The notional value of our other short positions, which primarily included short credit default swap contracts and short broad market index swap derivative contracts, represented 282% of our short exposure.

With respect to both our long positions that are not notionalized (158% long exposure) and our short positions that are not notionalized (21% short), each 1% change in exposure as a result of purchases or sales (assuming no change in value) would have a 1% impact on our cash and cash equivalents (as a percentage of net asset value). Changes in exposure as a result of purchases and sales as well as adverse changes in market value would also have an effect on funds available to us pursuant to prime brokerage lines of credit.

With respect to the notional value of our other short positions (282% short exposure), our liquidity would decrease by the balance sheet unrealized loss if we were to close the positions at quarter end prices. This would be offset by a release of restricted cash balances collateralizing these positions as well as an increase in funds available to us pursuant to certain prime brokerage lines of credit. If we were to increase our short exposure by adding to these short positions, we would be required to provide cash collateral equal to a small percentage of the initial notional value at counterparties that require cash as collateral and then post additional collateral equal to 100% of the mark to market on adverse changes in fair value. For our counterparties who do not require cash collateral, funds available from lines of credit would decrease.

The Investment Funds historically have had access to significant amounts of cash available from prime brokerage lines of credit, subject to customary terms and market conditions.

Automotive

During the first quarter of 2016, Federal-Mogul increased its borrowing capacity under a certain revolving credit facility (the "Federal-Mogul Replacement Revolver Facility") by \$50 million to \$600 million. As of September 30, 2016, the outstanding balance on the Federal-Mogul Replacement Revolver Facility was \$390 million. As of September 30, 2016, the borrowing availability under the Federal-Mogul Replacement Revolver Facility was \$173 million. Federal-Mogul had \$37 million of letters of credit outstanding as of September 30, 2016 pertaining to the Federal-Mogul Replacement Revolver Facility. As of September 30, 2016, Federal-Mogul had an aggregate availability of \$210 million with respect to its consolidated revolving credit facilities.

Federal-Mogul's subsidiaries in Brazil, France, Germany, Italy, Canada and the United States are party to accounts receivable factoring and securitization facilities. Gross accounts receivable transferred under these facilities were \$519 million and \$408 million as of September 30, 2016 and December 31, 2015, respectively. Of those gross amounts, \$510 million and \$401 million, respectively, qualify as sales as defined in FASB ASC Topic 860, Transfers and Servicing. The remaining transferred receivables were pledged as collateral and accounted for as secured borrowings and recorded in the condensed consolidated balance sheets within accounts receivable, net and debt. Under the terms of these facilities, Federal-Mogul is not obligated to draw cash immediately upon the transfer of accounts receivable. As of both September 30, 2016 and December 31, 2015, Federal-Mogul had withdrawn cash related to such transferred receivables of \$1 million. Proceeds from the transfers of accounts receivable qualifying as sales were approximately \$1.2 billion and \$1.2 billion for the nine months ended September 30, 2016 and 2015, respectively. On August 16, 2016, IEP Auto Holdings LLC ("IEP Auto"), a wholly owned subsidiary of ours and parent company of IEH Auto and Pep Boys, executed a new loan and security agreement (the "IEP Auto Credit Facility") providing for

borrowings

75

of up to \$675 million. A portion of the proceeds from the new IEP Auto Credit Facility was used to repay in full both the IEH Auto Revolving Credit Facility and Pep Boys Revolving Credit Facility (each as defined and discussed below). In addition, the IEP Auto Credit Facility replaced the both the IEH Auto Revolving Credit Facility and Pep Boys Revolving Credit Facility. See Note, 10, "Debt - Automotive," for further discussion regarding the new IEP Auto Credit Facility.

As of September 30, 2016, IEP Auto had an aggregate \$225 million outstanding under the IEP Auto Credit Facility. As of September 30, 2016, there was \$43 million in letters of credit outstanding with respect to the IEP Auto Credit Facility. To the extent letters of credit associated with the IEP Auto Credit Facility are issued, there will be a corresponding decrease in borrowings available under this facility. As of September 30, 2016, taking into account the borrowing base requirements (including reduction for amounts outstanding under the trade payable program), there was \$129 million of availability under the IEP Auto Credit Facility.

On November 25, 2015, IEH Auto entered into a senior secured asset based revolving credit facility (the "IEH Auto Revolving Credit Facility") for \$125 million. On January 25, 2016, the IEH Auto Credit Facility was amended and restated to increase the revolver commitments to \$210 million. As discussed above, the IEH Auto Revolving Credit Facility was paid in full from a portion of the proceeds from the IEP Auto Credit Facility and terminated during the third quarter of 2016.

Pep Boys had a revolving credit agreement (the "Pep Boys Revolving Credit Facility") providing for borrowings of up to \$300 million, with an original maturity date of July 26, 2016. The maturity date of this revolving credit agreement was extended to October 24, 2016. As discussed above, the Pep Boys Revolving Credit Facility was paid in full from a portion of the proceeds from the IEP Auto Credit Facility and terminated during the third quarter of 2016.

Energy

As of September 30, 2016, Coffeyville Resources, LLC had availability under the Amended and Restated ABL Credit Facility of \$323 million and had letters of credit outstanding of \$28 million. There were no borrowings outstanding under the ABL Credit Facility as of September 30, 2016. Availability under the Amended and Restated ABL Credit Facility was limited by borrowing base conditions as of September 30, 2016.

On September 30, 2016, CVR Partners entered into a senior secured asset based revolving credit facility (the "CVR Partners Credit Facility") providing for availability of up to \$50 million with an incremental facility, which permits an increase in borrowings of up to \$25 million in the aggregate subject to additional lender commitments and certain other conditions. As of September 30, 2016, CVR Partners and its subsidiaries had availability under the CVR Partners Credit Facility of \$48 million. There were no borrowings outstanding under the CVR Partners Credit Facility as of September 30, 2016. See Note 10, "Debt - Energy," for further discussion regarding this transaction.

On June 10, 2016, CVR Partners completed a private offering of \$645 million aggregate principal amount of 9.250% senior secured notes due 2023. Additionally, during the second quarter of 2016, CVR Partners repurchased approximately \$315 million of its 6.5% notes due 2021 pursuant to a certain tender offer and a change of control offer. See Note 10, "Debt - Energy," for further discussion regarding these transactions.

On January 24, 2013, the board of directors of CVR adopted a quarterly cash dividend policy. CVR began paying regular quarterly dividends in the second quarter of 2013. Dividends are subject to change at the discretion of CVR's board of directors and may change from quarter to quarter. In addition, the current policy of the respective board of directors of CVR Refining and CVR Partners is to distribute all of the respective available cash of CVR Refining and CVR Partners each quarter. CVR Refining and CVR Partners do not have a legal obligation to pay distributions and there is no guarantee that they will pay any distributions on the units in any quarter.

For the nine months ended September 30, 2016, we received \$107 million in dividends from CVR. Subsequent to September 30, 2016, CVR declared a quarterly dividend, which will result in an additional \$36 million in dividends paid to us in the fourth quarter of 2016.

Railcar

In December 2015, ARI completed a financing of its railcar lease fleet with availability of up to \$200 million under a credit agreement (the "ARI 2015 Credit Agreement"). The ARI 2015 Credit Agreement contains an incremental borrowing provision under which ARI, as debtor and subject to the conditions set forth in the ARI 2015 Credit Agreement, has the right but not the obligation to increase the amount of the facility in an aggregate amount of up to \$100 million (the amounts extended under the 2015 Credit Agreement, inclusive of any amounts extended under the

incremental facility, the Revolving Loans), to a maximum principal amount of \$300 million. In February 2016, ARI repaid amounts outstanding under this revolving loan in full and as of the date of this Report has borrowing availability of \$200 million under this credit facility.

On July 28, 2015, ARI's board of directors authorized the repurchase of up to \$250 million of its outstanding common stock ("ARI Stock Repurchase Program"). The ARI Stock Repurchase Program will end upon the earlier of the date on which it is terminated by ARI's board of directors or when all authorized repurchases are completed. The timing and amount of stock repurchases, if any, will be determined based upon ARI's evaluation of market conditions and other factors. The ARI Stock Repurchase Program may be suspended, modified or discontinued at any time and ARI has no obligation to repurchase any amount of its common stock under the ARI Stock Repurchase Program. Under the ARI Stock Repurchase Program, ARI repurchased shares of its common stock during the nine months ended September 30, 2016 at a cost of \$17 million.

On September 28, 2016, NCI IV LLC (f/k/a ARI First LLC), a wholly owned subsidiary of ARL, entered into a secured term facility with PNC Equipment Finance in the amount of \$150 million with an interest rate based on 30 day LIBOR with a maturity date of September 27, 2017. The net proceeds and cash on hand were used to pay off a certain debt of NCI IV LLC that matured during the third quarter of 2016 in the amount of \$208 million.

Gaming

On July 31, 2015 Tropicana's board of directors authorized the repurchase of up to \$50 million of its outstanding common stock with no set expiration date ("Tropicana Stock Repurchase Program"). The Tropicana Stock Repurchase Program will end upon the earlier of the date on which the plan is terminated by Tropicana's board of directors or when all authorized repurchases are completed. The timing and amount of stock repurchases, if any, will be determined based upon Tropicana's evaluation of market conditions and other factors. The Tropicana Stock Repurchase Program may be suspended, modified or discontinued at any time and Tropicana has no obligation to repurchase any amount of its common stock under the Tropicana Stock Repurchase Program. Under the Tropicana Stock Repurchase Program, Tropicana repurchased shares of its common stock during the nine months ended September 30, 2016 at a cost of \$6 million.

Critical Accounting Policies and Estimates

Other than the goodwill impairment for our Energy segment as discussed below, there have been no material changes to our critical accounting policies and estimates during the nine months ended September 30, 2016 as compared to those reported in our Annual Report on Form 10-K for the year ended December 31, 2015.

Energy

Due to worsening sales trends for our Energy segment's Petroleum reporting unit, we performed an interim goodwill impairment analysis during the first quarter of 2016. Based on this analysis, our Energy segment recognized a goodwill impairment charge of \$574 million, which represented the full amount of the remaining goodwill allocated to the Petroleum reporting unit. Due to the complexity in the "Step 2" goodwill impairment test performed during the first quarter of 2016, we finalized the assessment of our Energy segment's goodwill impairment during the third quarter of 2016 and noted that no additional adjustments to goodwill were required during the third quarter of 2016. Our Energy segment's reporting unit fair values are based upon consideration of various valuation methodologies, one of which is projecting future cash flows discounted at rates commensurate with the risks involved ("DCF"). Assumptions used in a DCF require the exercise of significant judgment, including judgment about appropriate discount rates and terminal values, growth rates, and the amount and timing of expected future cash flows. The forecasted cash flows are based on current plans and for years beyond that plan, the estimates are based on assumed growth rates. We believe that our assumptions are consistent with the plans and estimates used to manage the underlying businesses. The discount rates, which are intended to reflect the risks inherent in future cash flow projections, used in a DCF are based on estimates of the weighted-average cost of capital of a market participant. Such estimates are derived from our analysis of peer companies and consider the industry weighted average return on debt and equity from a market participant perspective.

Recently Issued Accounting Standards

Refer to Part I, Note 1, "Description of Business and Basis of Presentation," of this Report for a discussion of recent accounting pronouncements applicable to us.

Forward-Looking Statements

Statements included in “Management's Discussion and Analysis of Financial Condition and Results of Operations” which are not historical in nature are intended to be, and are hereby identified as, “forward-looking statements” for purposes of the safe harbor provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended, or by Public Law 104-67.

Forward-looking statements reflect our current views with respect to future events and are based on assumptions and subject to risks and uncertainties that may cause actual results to differ materially from trends, plans, or expectations set forth in the forward-looking statements. These risks and uncertainties may include the risks and uncertainties described in our Annual Report on Form 10-K for the year ended December 31, 2015 and those set forth in this Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Information about our quantitative and qualitative disclosures about market risk for each of our segments discussed below did not differ materially from those disclosed in Part II, Item 7A of our 2015 Form 10-K.

Investment

Our predominant exposure to market risk is related to our Investment segment and the sensitivities to movements in the fair value of the Investment Funds' investments.

The fair value of the financial assets and liabilities of the Investment Funds primarily fluctuates in response to changes in the value of securities. The net effect of these fair value changes impacts the net gains from investment activities in our condensed consolidated statements of operations. The Investment Funds' risk is regularly evaluated and is managed on a position basis as well as on a portfolio basis. Senior members of our investment team meet on a regular basis to assess and review certain risks, including concentration risk, correlation risk and credit risk for significant positions. Certain risk metrics and other analytical tools are used in the normal course of business by the General Partners.

Market Risk

The Investment Funds hold investments that are reported at fair value as of the reporting date, which include securities owned, securities sold, not yet purchased and derivatives as reported on our condensed consolidated balance sheets. Based on their respective balances as of September 30, 2016, we estimate that in the event of a 10% adverse change in the fair value of these investments, the fair values of securities owned, securities sold, not yet purchased and derivatives would decrease by approximately \$932 million, \$121 million and \$2.0 billion, respectively. However, as of September 30, 2016, we estimate that the impact to our share of the net gain (loss) from investment activities reported in our condensed consolidated statement of operations would be less than the change in fair value since we have an investment of approximately 31% in the Investment Funds, and the non-controlling interests in income would correspondingly offset approximately 69% of the change in fair value.

Credit Risk

We and certain of our consolidated Investment Funds are subject to certain inherent risks through our investments. Our entities typically invest excess cash in large money market funds. The money market funds primarily invest in government securities and other short-term, highly liquid instruments with a low risk of loss. The Investment Funds also maintain free credit balances with their prime brokers and in interest bearing accounts at major banking institutions. We seek to diversify our cash investments across several accounts and institutions and we monitor performance and counterparty risk.

The Investment Funds and, to a lesser extent, other entities hold derivative instruments that are subject to credit risk in the event that the counterparties are unable to meet the terms of such agreements. When the Investment Funds make such investments or enter into other arrangements where they might suffer a significant loss through the default or insolvency of a counterparty, the General Partners monitor the credit quality of such counterparty and seek to do business with creditworthy counterparties. Counterparty risk is monitored by obtaining and reviewing public information filed by the counterparties and others.

Automotive

See Note 6, "Financial Instruments - Automotive," to the condensed consolidated financial statements for discussion regarding our Automotive segment's interest rate risk, commodity price risk and foreign currency risk.

The translated values of revenue and expense from our Automotive segment's international operations are subject to fluctuations due to changes in currency exchange rates. During the nine months ended September 30, 2016, our Automotive segment derived 37% of its sales in the United States and 63% internationally. Of these international sales, 54% were denominated in the euro, with no other single currency representing more than 10% of international sales. To minimize foreign currency risk, our Automotive segment generally maintains natural hedges within its

non-U.S. activities, including the matching of operational revenues and costs. Where natural hedges are not in place, our Automotive segment manages certain

aspects of its foreign currency activities and larger transactions through the use of foreign currency options or forward contracts.

Energy

The risk inherent in our Energy segment's market risk sensitive instruments and positions is the potential loss from adverse changes in commodity prices, RINs prices and interest rates. Our Energy segment is exposed to market pricing for all of the products sold in the future both at its petroleum business and the nitrogen fertilizer business, as all of the products manufactured in both businesses are commodities.

Our Energy segment's earnings and cash flows and estimates of future cash flows are sensitive to changes in energy prices. The prices of crude oil and refined products have fluctuated substantially in recent years. These prices depend on many factors, including the overall demand for crude oil and refined products, which in turn depends, among other factors, general economic conditions, the level of foreign and domestic production of crude oil and refined products, the availability of imports of crude oil and refined products, the marketing of alternative and competing fuels, the extent of government regulations and global market dynamics. The prices our Energy segment receives for refined products are also affected by factors such as local market conditions and the level of operations of other refineries in our markets. The prices at which our Energy segment can sell gasoline and other refined products are strongly influenced by the price of crude oil. Generally, an increase or decrease in the price of crude oil results in a corresponding increase or decrease in the price of gasoline and other refined products. The timing of the relative movement of the prices, however, can impact profit margins, which could significantly affect our Energy segment's earnings and cash flows.

Commodity Price Risk

At September 30, 2016, CVR Refining had open commodity hedging instruments consisting of 2.2 million barrels net of 2-1-1 crack spreads, 0.2 million barrels net of crack spreads and 0.3 million barrels of price and basis swaps. A change of \$1.00 per barrel in the fair value of the benchmark crude or product basis would result in an increase or decrease in the related fair value of the commodity hedging instruments of \$3 million.

Compliance Program Price Risk

As a producer of transportation fuels from petroleum, CVR Refining is required to blend biofuels into the products it produces or to purchase RINs in the open market in lieu of blending to meet the mandates established by the EPA. CVR Refining is exposed to market risk related to the volatility in the price of RINs needed to comply with the RFS. To mitigate the impact of this risk on the results of operations and cash flows, CVR Refining purchases RINs when prices are deemed favorable. See Note 17, "Commitments and Contingencies," to Part I, Item 1 of this Report and "Energy - Major Influences on Results of Operations" in Part I, Item 2 of this Report for further discussion about compliance with the RFS.

Interest Rate Risk

CVR Partners had two floating to fixed interest rate swap agreements for the purpose of hedging the interest rate risk associated with a portion of its \$125 million floating rate term debt. The interest rate swaps agreements expired February 12, 2016, and subsequently, CVR Partners had exposure to interest rate risk on 100% of its \$125 million floating rate debt under its credit facility. On April 1, 2016, CVR Partners repaid all amounts outstanding under the term loan with respect to this credit facility and the credit facility was terminated.

Railcar

Our Railcar segment is exposed to price risks associated with the purchase of raw materials, especially steel and heavy castings. The cost of steel, heavy castings and all other materials used in the production of railcars represents a significant amount of the direct manufacturing costs per railcar. Given the significant volatility in the price of raw materials, this exposure can affect the costs of production. Our Railcar segment believes that the risk to its margins and profitability has been somewhat reduced by its practice to generally adjust the purchase prices of the railcars to reflect fluctuations in the cost of certain raw materials and components and, as a result, our Railcar segment is generally able to pass on to its customers most increases in raw material and component costs with respect to the railcars it plans to produce and deliver to them. Our Railcar segment believes that it currently has good supplier relationships and does not currently anticipate that material constraints will limit its production capacity. Such constraints may exist if railcar production were to increase beyond current levels, or other economic changes were to occur that affect the availability of certain raw materials.

Our Railcar segment's financial results could be affected by changes in interest rates due to the impact those changes have on its variable rate debt obligation as of September 30, 2016. A one percentage point increase in the rate of the average

variable rate debt as of September 30, 2016 would have an \$11 million impact on our Railcar segment's annualized interest expense.

Gaming

Interest Rate Risk

Tropicana's primary exposure to market risk is interest rate risk associated with its Tropicana New Term Loan Facility that bears interest based on floating rates. Based on Tropicana's borrowings as of September 30, 2016, assuming a 1% increase over the 4% floor specified in its Tropicana New Term Loan Facility, Tropicana's annual interest cost would change by approximately \$3 million.

Mining

Commodity Price Risk

Ferrous Resources' revenues are based on the sale of iron ore fines. Our Mining segment's financial results can vary significantly as a result of fluctuations in the market prices of iron ore. International prices for this commodity have fluctuated historically and are affected by numerous factors beyond Ferrous Resources' control. The price index that is utilized in our Mining segment's iron ore sales contracts is the Platts 62 percent Fe fines spot rate pricing, which can fluctuate widely due to numerous factors, such as global economic growth or contraction, change in demand for steel or changes in availability of supply. Our Mining segment estimates that a hypothetical 10% adverse movement in the international price of iron ore for the nine months ended September 30, 2016 would have decreased net income attributable to Icahn Enterprises for our Mining segment by \$4 million.

Foreign Currency Risk

Ferrous Resources' principal objective is to produce iron ore which is typically priced in U.S. dollars. The majority of its funding and cash balances are also denominated in U.S. dollars. A proportion of Ferrous Resources' costs are incurred in Brazilian reais while significant capital expenditures are expected to be incurred in U.S. dollars.

Accordingly, our Mining segment's financial results may be impacted by exchange rate fluctuations between the U.S. dollar and the Brazilian real. Our Mining segment estimates that a hypothetical 10% adverse movement of the Brazilian real against the U.S. dollar during the nine months ended September 30, 2016 would have decreased net income attributable to Icahn Enterprises for our Mining segment by \$3 million.

Holding Company

Equity Price Risk

The carrying values of investments subject to equity price risks are based on quoted market prices or management's estimates of fair value as of the balance sheet dates. Market prices are subject to fluctuation and, consequently, the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, amounts realized in the sale of a particular security may be affected by the relative quantity of the security being sold.

Based on sensitivity analysis for our equity price risks as of September 30, 2016, the effects of a 10% adverse change in the fair value of these investments would result in loss of approximately \$32 million.

Item 4. Controls and Procedures.

As of September 30, 2016, our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of Icahn Enterprises' and Icahn Enterprises Holdings' and subsidiaries' disclosure controls and procedures pursuant to the Rule 13a-15(e) and 15d-15(e) promulgated under the Exchange Act. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by us in such reports is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

See Note 17, "Commitments and Contingencies" to the condensed consolidated financial statements located in Part I, Item I of this Report, which is incorporated by reference into this Part II, Item 1, for a description of the litigation, legal and administrative proceedings and environmental matters.

Item 1A. Risk Factors.

Except for the risk factors related to our Automotive and Railcar segments as discussed below, there were no other material changes to our risk factors during the nine months ended September 30, 2016 as compared to those reported in our Annual Report on Form 10-K for the year ended December 31, 2015.

Automotive

Our Automotive segment's operations in foreign countries exposes it to risks related to economic and political conditions and foreign currency fluctuations:

As a global business operating in a time of increasing global economic and political instability, our Automotive segment is exposed to global market risks, the consequences of which cannot always be anticipated or quantified. One example is the recent decision of voters in the United Kingdom to withdraw from the European Union (referred to as "Brexit"). While any ultimate effects of Brexit on our Automotive segment are difficult to predict (particularly given the potentially lengthy negotiation period to accomplish a formal withdrawal), because our Automotive segment currently conducts its business in the United Kingdom and in Europe, the results of the referendum and any eventual withdrawal could cause disruptions and create uncertainty for our Automotive segment's businesses, including affecting its relationships with its customers and suppliers, and could also alter the relationship among currencies, including the value of the British Pound relative to the US Dollar. Such disruptions and uncertainties could adversely affect our Automotive segment's financial condition, operating results and cash flows. Any ultimate effects of Brexit on our Automotive segment will also depend on whether the UK negotiates to retain access to European Union markets either during a transitional period or more permanently. The failed coup attempt in Turkey, a country in which our Automotive segment has various ownership and economic interests, is another example of a recent global political development for which any potential consequences for our Automotive segment are uncertain. These and other developments may increase volatility in the results our Automotive segment's operations and may adversely affect our Automotive segment's financial condition.

Railcar

Our Railcar segment may incur significant costs, loss to reputation and further regulatory action as a result of the issuance of the FRA Directive, any of which could materially adversely affect our Railcar segment's operations. On September 30, 2016, the Federal Railroad Administration ("FRA") released Railworthiness Directive Number 2016-01 (the "FRA Directive"). The FRA Directive addressed certain welding practices in one weld area in specified DOT 111 tank railcars manufactured between 2009 and 2015 by American Railcar Industries, Inc. and ACF Industries LLC. The FRA became involved as a result of one tank railcar manufactured by ARI having a leak that was identified in 2014. The FRA Directive indicated that approximately 14,800 general purpose tank railcars could be subject to the FRA Directive. The Directive reported that approximately 15% of railcar inspections reviewed by the FRA had weld conditions and the FRA has suggested that, over time, those conditions could develop cracks and lead to leaks. The FRA Directive requires owners of subject railcars to identify tank railcars in their respective fleets covered by the FRA Directive by October 30, 2016 and to ensure appropriate inspection, testing and repairs, if needed, during a period that ranges from 12 to 24 months from September 30, 2016, depending on the commodity service of the railcar. Owners, including our Railcar segment as a railcar lessor, and lessees of the subject railcars will likely incur costs associated with compliance with the FRA Directive, including but not limited to, freight costs for transporting covered railcars to and from repair facilities, and costs of inspection, cleaning and repair, if necessary. Our Railcar segment, and other lessors of subject railcars, may also experience loss of revenue during periods of rent abatement, if applicable, as a result of railcars being out of service due to compliance with the FRA Directive.

In accordance with accounting principles generally accepted in the United States of America, as of September 30, 2016, our Railcar segment established a loss contingency of \$32 million to cover its probable and estimable liabilities

with respect to its remedial response to the FRA Directive, taking into account currently available information and its contractual obligations in its capacity as both a manufacturer and lessor of railcars subject to the FRA Directive. Subsequent developments with respect to the FRA Directive may affect our Railcar segment's assessment and estimates of the loss contingency recorded as a reserve

and require it to make payments in excess of its reserves, which could have an adverse effect on our Railcar segment's results of operations.

Our Railcar segment's overall costs of compliance with the FRA Directive beyond the probable and estimable liabilities discussed above cannot currently be reasonably estimated and our Railcar segment cannot assure you that the amount of the loss contingency accrual is adequate to cover our Railcar segment's actual costs and losses. Such costs may be substantial and may not be adequately covered by insurance, if at all, and could include costs relating to, among others:

- applicable warranties and leasing arrangements;
- implementing changes to our manufacturing personnel or processes; and
- claims, litigation, settlements and/or regulatory proceedings.

Complying with the FRA Directive could require additional capital investments, restrict our Railcar segment's ability to expand its operations or lease fleet, or disrupt its operations. Failure to successfully manage compliance with the FRA Directive could cause lost revenue, harm to our Railcar segment's reputation, deterioration of business and customer relationships, including with its affiliates, and result in an adverse impact on our Railcar segment's business, financial condition and results of operations. Any material loss of revenue due to rent abatement, or otherwise, could adversely affect our Railcar segment's ability to comply with covenants in our debt facilities. Our Railcar segment cannot assure that costs incurred to comply with any new regulations, including the FRA Directive, will not be material to our Railcar segment's business, financial condition or results of operations.

Under the Directive, the FRA also reserved the right to seek civil penalties or to take any other appropriate enforcement action for violation of the Federal Hazardous Materials Regulations that have occurred. To the extent our Railcar segment become subject to any such civil penalties and/or enforcement actions, it could result in substantial costs and could harm our Railcar segment's business, financial condition and results of operations.

Item 5. Other Information.

In June and July of 2014, the U.S. Attorney's office for the Southern District of New York and the Securities and Exchange Commission contacted Icahn Enterprises and Mr. Carl Icahn seeking the production of various documents pertaining to our and Mr. Icahn's trading activities in various securities. We and Mr. Icahn have cooperated with the requests and provided documents in response to the subpoenas in October 2014. Neither the U.S. Attorney's office for the Southern District of New York nor the Securities and Exchange Commission has made any claims or allegations against us or Mr. Icahn and we have not heard back from either office. We maintain a strong compliance program and, while no assurances can be made, at this time we do not believe this inquiry or any proceedings will have a material impact on our business, financial condition, results of operations or cash flows.

Federal-Mogul Tender Offer

On September 6, 2016, we, through our wholly owned subsidiary, IEH FM Holdings LLC, and Federal-Mogul entered into an Agreement and Plan of Merger (the "Federal-Mogul Merger Agreement"). Pursuant to the Federal-Mogul Merger Agreement, and upon the terms and subject to the conditions thereof, we commenced a cash tender offer (the "Federal-Mogul Tender Offer") to acquire, subject to the terms and conditions of the Federal-Mogul Merger Agreement, all of the issued and outstanding shares of Federal-Mogul's common stock, par value \$0.01 per share, not already owned by us, for a purchase price of \$9.25 per share, net to the seller in cash, without interest, less any applicable tax withholding. The Federal-Mogul Tender Offer was extended and will currently expire on 12:00 midnight, New York City time, on November 14, 2016 (one minute after 11:59 P.M., New York City time, on November 14, 2016), unless further extended.

CVR Refining Call Right

On August 2, 2016, we sold 250,000 common units of CVR Refining. As a result of this transaction, we and our affiliates collectively own 69.99% of CVR. Pursuant to CVR Refining's partnership agreement, in certain circumstances, the general partner of CVR Refining has the right to purchase all, but not less than all, of CVR Refining common units held by unaffiliated unit holders at a price not less than their then-current market price, as calculated pursuant to the terms of such partnership agreement (the "Call Right"). Pursuant to the terms of the partnership agreement, because our holdings were reduced to less than 70.0%, the ownership threshold for the application of such Call Right was permanently reduced from 95% to 80%. Accordingly, if at any time the general

partner of CVR Refining and its affiliates owns more than 80% of CVR Refining common units, it will have the right, but not the obligation, to exercise such Call Right.

Closure of Trump Taj Mahal

On September 9, 2014, Trump Entertainment Resorts, Inc. (“Trump”) and its subsidiaries filed voluntary Chapter 11 petitions in the United States Bankruptcy Court for the District of Delaware in Wilmington, Delaware. On February 26, 2016

(the "Effective Date"), Trump emerged from bankruptcy. Icahn Enterprises was the sole holder of Trump's senior secured debt. On the Effective Date, among other things, the existing pre-petition senior secured debt with a face amount of \$286 million held by Icahn Enterprises was extinguished and converted into 100.0% of Trump's New Common Stock (as defined in the bankruptcy plan). As a result, we became the 100.0% owner of Trump after reorganization and accordingly, obtained control and began consolidating the results of Trump on February 26, 2016. Trump owns the Trump Taj Mahal Casino Resort ("Trump Taj Mahal"). The Trump Taj Mahal closed and ceased its casino and hotel operations on October 10, 2016.

LP Unit Distribution

On August 3, 2016, Icahn Enterprises declared a quarterly distribution in the amount of \$1.50 per depositary unit in which each depositary unit holder had the option to make an election to receive either cash or additional depositary units. As a result, on September 19, 2016, Icahn Enterprises distributed an aggregate 3,586,029 depositary units to unit holders electing to receive depositary units in connection with this distribution.

Mr. Icahn and his affiliates elected to receive a majority of their proportionate share of these distributions in depositary units. As of November 2, 2016, Mr. Icahn and his affiliates owned 89.7% of Icahn Enterprises outstanding depositary units.

Second Amended and Restated Partnership Agreement

On August 2, 2016, our Board of Directors of Icahn Enterprises adopted the Second Amended and Restated Limited Partnership Agreement (the "Agreement"), effective on August 2, 2016. The Agreement incorporates amendments No. 1 through No. 6, previously approved by the Board and filed between 1995 and 2007, and makes certain other non-material changes including changes designed to conform the Agreement with prior amendments and with the current practices of the Computershare Inc., as depositary agent (the "Depository"), including with respect to transfer of depositary units and the issuance of uncertificated units, among other items. The Board of Directors approved corresponding changes to the Second Amended and Restated Depositary Agreement by and between the Company and the Depository. The foregoing is a summary and is qualified in its entirety by reference to the Agreement, attached as exhibit 3.1 to our Quarterly Report on 10-Q for the quarter ended June 30, 2016 filed on August 4, 2016.

Item 6. Exhibits.

Exhibit No.	Description
31.1	Certification of Chief Executive Officer pursuant to Section 302(a) of the Sarbanes-Oxley Act of 2002 and Rule 13a-14(a) of the Securities Exchange Act of 1934.
31.2	Certification of Chief Financial Officer pursuant to Section 302(a) of the Sarbanes-Oxley Act of 2002 and Rule 13a-14(a) of the Securities Exchange Act of 1934.
32.1	Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350) and Rule 13a-14(b) of the Securities Exchange Act of 1934. The following financial information from Icahn Enterprises' and Icahn Enterprises Holdings' Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2016, formatted in XBRL (Extensible Business Reporting Language) includes: (i) the Condensed Consolidated Balance Sheets as of September 30, 2016 and December 31, 2015, (ii) the Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2016 and 2015, (iii) the Condensed Consolidated Statements of Comprehensive Income for the three and nine months ended September 30, 2016 and 2015, (iv) the Condensed Consolidated Statements of Changes in Equity for the nine months ended September 30, 2016 and 2015, (v) the Condensed Consolidated Statements of Cash Flows for the nine months ended September 30, 2016 and 2015 and (vi) the Notes to the Condensed Consolidated Financial Statements.
Exhibit 101	

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
