Section 1 Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

This Form SD of Black Box Corporation (“Black Box,” the “Company,” “we,” “our,” or “us”) is filed pursuant to Rule 13p-1 (collectively, including the Form SD, the “Rule”) promulgated under the Securities Exchange Act of 1934, as amended, (the “Act”) for the reporting period January 1, 2017 to December 31, 2017 (the “2017 Compliance Period”).

Black Box evaluated its current product lines and determined that, for the 2017 Compliance Year, certain products we manufacture or contract to manufacture contain gold, columbite-tantalite (coltan), cassiterite and wolframite, including their derivatives, which are limited to tantalum, tin and tungsten (the “Conflict Minerals”) that are necessary to the functionality or production of such product line (“Covered Products”). Accordingly, we undertook a Reasonable Country of Origin Inquiry (“RCOI”) to determine whether the Conflict Minerals contained in our current product lines were sourced from the Democratic Republic of the Congo (“DRC”) or an adjoining country (collectively referred to as the “Covered Countries”) or from recycled or scrap sources. Following such inquiry, we concluded in good faith that in 2017 we did not have sufficient information from our suppliers to reach a conclusion as to all sources of Conflict Minerals in the Covered Products.

Black Box exercised due diligence, as more fully described in the attached Conflict Minerals Report, to determine the source and chain of custody of Conflict Minerals for the Covered Products. See Appendix A for smelters and refiners that were obtained via company-level responses from our suppliers.

The Company expressly disclaims any obligation or undertaking to release publicly any updates or any changes in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any statement is based.
