The Fund

A LETTER FROM THE PRESIDENT OF DREYFUS

Dear Shareholder:

We are pleased to present this annual report for Dreyfus Strategic Municipal Bond Fund, covering the 12-month period from December 1, 2017 through November 30, 2018. For information about how the fund performed during

the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

The reporting period began with major global economies achieving above-trend growth. In the United States, a robust economy and strong labor markets encouraged the Federal Reserve to continue moving away from its accommodative monetary policy while other major central banks also began to consider monetary tightening. In the equity sphere, both U.S. and non-U.S. markets remained on an uptrend, though investor concerns about U.S. inflation and its effect on interest rates later began to weigh on global returns. Interest rates rose across the yield curve, putting pressure on bond prices.

Later in the reporting period, global growth trends began to diverge and market volatility returned. While the U.S. economy continued to grow at a healthy rate, Japan rebounded, but only briefly, from a weak first quarter, and the Eurozone economy began to moderate. Robust growth and strong corporate earnings continued to support U.S. stocks while other developed markets declined. Late in the reporting period, a broad sell-off occurred, partially offsetting earlier U.S. gains. Emerging markets remained under pressure as weakness in their currencies relative to the U.S. dollar added to investors' uneasiness.

Fixed income markets continued to struggle as interest rates rose; the yield on the benchmark 10-year Treasury bond breached 3.2% despite only moderate inflation, but investor concerns about slowing global growth brought yields down toward the end of the reporting period.

Despite continuing doubts regarding trade, U.S. inflationary pressures and global growth, we are optimistic that the U.S. economy will remain strong in the near term. However, we remain attentive to signs that indicate potential changes on the horizon. As always, we encourage you to discuss the risks and opportunities in today's investment environment with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Renee Laroche-Morris
President
The Dreyfus Corporation
December 17, 2018

2

DISCUSSION OF FUND PERFORMANCE (Unaudited)

For the period from December 1, 2017 through November 30, 2018, as provided by Daniel Rabasco and Jeffrey Burger, Portfolio Managers

Market and Fund Performance Overview

For the 12-month period ended November 30, 2018, Dreyfus Strategic Municipal Bond Fund, Inc. achieved a total return of 1.01% on a net-asset-value basis.¹ Over the same period, the fund provided aggregate income dividends of \$0.433 per share, which reflects a distribution rate of 6.07%.²

Municipal bonds during the reporting period encountered bouts of volatility stemming from rising interest rates and shifting supply-and-demand dynamics in the municipal securities market.

The Fund's Investment Approach

The fund seeks to maximize current income exempt from federal income tax to the extent believed by Dreyfus to be consistent with the preservation of capital. In pursuing this goal, the fund invests at least 80% of its assets in municipal bonds. Under normal market conditions, the weighted average maturity of the fund's portfolio is expected to exceed 10 years. Under normal market conditions, the fund invests at least 80% of its net assets in municipal bonds considered investment grade or the unrated equivalent as determined by Dreyfus.

The fund also has issued auction-rate preferred stock (ARPS), a percentage of which remains outstanding from its initial public offering, and has invested the proceeds in a manner consistent with its investment objectives. This, along with the fund's participation in secondary inverse floater structures, has the effect of "leveraging" the portfolio, which can magnify gain and loss potential depending on market conditions.

Over time, many of the fund's older, higher-yielding bonds matured or were redeemed by their issuers. We have attempted to replace those bonds with investments consistent with the fund's investment policies. We have also sought to upgrade the fund with newly issued bonds that, in our opinion, have better structural or income characteristics than existing holdings. When such opportunities arise, we usually look to sell bonds that are close to their optional redemption date or maturity.

Supply-and-Demand Dynamics and Interest-Rate Volatility Drove Municipal Bonds

Municipal bonds encountered bouts of volatility early in the reporting period. Prior to tax reform passing, a record number of new issues put upward pressure on yields and downward pressure on prices. However, the situation proved temporary and municipal bonds rebounded as volatility subsided by March. Market weakness abated as municipal bonds rebounded, supported by strong seasonal reinvestment demand and very manageable new-issue supply levels. Demand from individuals in high-tax states increased significantly as the search for immunization against the newly imposed tax restrictions on state and local tax deductions provided a catalyst. Conversely, tax cuts to corporations softened institutional demand for municipal bonds, particularly from banks and property and casualty insurance companies, as companies perceived less of a need to seek out tax-advantaged investments in the wake of lower tax rates.

As the economy remains strong, tax revenues continue to support the underlying financial conditions of many municipalities, reducing the perceived risk of lending money to these entities. In September, supportive factors started to diminish due to less reinvestment and growing concern over tightening employment markets and increasing inflation, pressuring municipal market performance. In October, the market continued to stumble over continued trade concerns as rates rose on the back of a strong economy. Ongoing trade tensions and fears of slowing global growth injected more volatility into markets at the end of the period. Municipal bonds benefited from the flight to quality brought on by increased volatility and rebounded during the month of November. In this historically low rate

3

DISCUSSION OF FUND PERFORMANCE *(Unaudited) (continued)*

environment, investors continue to display yield-seeking behavior, emphasizing lower-quality credits and longer maturity profiles.

Security Selection Supported Fund Results

The fund's performance was supported during the reporting period by its security selection, particularly within special tax bonds, tobacco bonds, and State of Illinois general obligation bonds. In addition, emphasis on lower-rated revenue-backed bonds also helped results. Bonds backed by certain states' settlement of litigation with U.S. tobacco companies fared well over the 12 months, as did those issued to finance transportation and water-and-sewer infrastructure. In general, an underweighted position among high-quality general obligation bonds also helped enhance returns. The fund's yield curve strategy proved beneficial due to its lack of emphasis on shorter-term bonds which struggled during the period. Fund performance was also bolstered by a shift in leverage from auction rate securities to tender option bond programs.

Conversely, some items weighed on the fund's results. Long duration positioning detracted. The fund maintains a long duration position due to an emphasis on longer-maturity bonds which can provide additional yield to investors versus shorter-maturity securities. The team added longer-maturity bonds to the portfolio during the period. In addition, some positions in underperforming high-quality essential service bonds detracted.

A Constructive Investment Posture

We feel the U.S. economy is positioned on a strong footing and that issuer and market fundamentals are solid. As we approach the conclusion of the year and move into 2019, we expect the supply-and-demand dynamics supporting prices of municipal bonds to be favorable. We believe demand will increase due to the investment of semiannual coupon payments and supply will remain manageable. In addition, municipal bonds offer higher yield ratios when compared to Treasuries, which should also provide price support going forward.

Given this environment, we continue to maintain a constructive investment posture. This means looking for opportunities to add yield to the portfolio, particularly on the long end of the curve where we believe added carry can benefit investor results. Furthermore, municipal bonds with long maturities have historically tended to outperform in a rising rate environment. We have recently purchased hospital, tobacco, energy, and transportation bonds with attractive yields and strong fundamentals.

December 17, 2018

¹ Total return includes reinvestment of dividends and any capital gains paid, based upon net asset value per share. Past performance is no guarantee of future results. Income may be subject to state and local taxes, and some income may be subject to the federal alternative minimum tax (AMT) for certain investors. Capital gains, if any, are fully taxable. Return figures provided reflect the absorption of certain fund expenses by The Dreyfus Corporation pursuant to an undertaking in effect through May 31, 2019, at which time it may be extended, terminated, or modified. Had these expenses not been absorbed, the fund's returns would have been lower.

² Distribution rate per share is based upon dividends per share paid from net investment income during the period, divided by the market price per share at the end of the period, adjusted for any capital gain distributions.

Bonds are subject generally to interest-rate, credit, liquidity, and market risks, to varying degrees, all of which are more fully described in the fund's prospectus. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes, and rate increases can cause price declines.

High yield bonds are subject to increased credit risk and are considered speculative in terms of the issuer's perceived ability to continue making interest payments on a timely basis and to repay principal upon maturity.

The use of leverage may magnify the fund's gains or losses. For derivatives with a leveraging component, adverse changes in the value or level of the underlying asset can result in a loss that is much greater than the original

investment in the derivative.

^a Zero coupon until a specified date at which time the stated coupon rate becomes effective until maturity.

^b Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At November 30, 2018, these securities were valued at \$253,899,548 or 65.04% of net assets.

^c Collateral for floating rate borrowings.

^d These securities are prerefunded; the date shown represents the prerefunded date. Bonds which are prerefunded are collateralized by U.S. Government securities which are held in escrow and are used to pay principal and interest on

the municipal issue and to retire the bonds in full at the earliest refunding date.

^e Security issued with a zero coupon. Income is recognized through the accretion of discount.

^f Security is a discount security. Income is recognized through the accretion of discount.

^g Variable rate security—rate shown is the interest rate in effect at period end.

^h The Variable Rate shall be determined by the Remarketing Agent in its sole discretion based on prevailing market conditions and may, but need not, be established by reference to one or more financial indices.

NOTES TO FINANCIAL STATEMENTS

NOTE 1—Significant Accounting Policies:

Dreyfus Strategic Municipal Bond Fund, Inc. (the “fund”) is registered under the Investment Company Act of 1940, as amended (the “Act”), as a diversified closed-end management investment company. The fund’s investment objective is to seek to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. The Dreyfus Corporation (the “Manager” or “Dreyfus”), a wholly-owned subsidiary of The Bank of New York Mellon Corporation (“BNY Mellon”), serves as the fund’s investment adviser. The fund’s Common Stock trades on the New York Stock Exchange (the “NYSE”) under the ticker symbol DSM.

The fund has outstanding 698 Series A shares, 662 Series B shares and 612 Series C shares, Auction Preferred Stock (“APS”), with a liquidation preference of \$25,000 per share (plus an amount equal to accumulated but unpaid dividends upon liquidation). APS dividend rates are determined pursuant to periodic auctions or by reference to a market rate. Deutsche Bank Trust Company America, as Auction Agent, receives a fee from the fund for its services in connection with such auctions. The fund also compensates broker-dealers generally at an annual rate of .15%-.25% of the purchase price of shares of APS.

The fund is subject to certain restrictions relating to the APS. Failure to comply with these restrictions could preclude the fund from declaring any distributions to shareholders of Common Stock (“Common Shareholders”) or repurchasing shares of Common Stock and/or could trigger the mandatory redemption of APS at liquidation value. Thus, redemptions of APS may be deemed to be outside of the control of the fund.

The holders of APS, voting as a separate class, have the right to elect at least two directors. The holders of APS will vote as a separate class on certain other matters, as required by law. The fund’s Board of Directors (the “Board”) has designated Joni Evans and Robin A. Melvin as director to be elected by the holders of APS.

On November 28, 2017, the fund announced that its Board had authorized the fund to conduct a tender offer for up to 100% of its then outstanding 1,240 shares each of Series A, Series B and Series C APS at a price equal to 95% of the APS’ liquidation preference of \$25,000 per share (\$23,750 per share) plus any unpaid dividends accrued through the expiration date of the tender offer. On February 28, 2018, the fund accepted for repurchase 542 Series A shares, 578 Series B shares and 628 Series C shares of the fund’s APS (approximately 47% of the fund’s then outstanding APS) with

NOTES TO FINANCIAL STATEMENTS *(continued)*

an aggregate liquidation preference of \$13,550,000 Series A, \$14,450,000 Series B and \$15,700,000 Series C for an aggregate purchase price of \$12,872,500 Series A, \$13,727,500 Series B and \$14,915,000 Series C. The difference between the liquidation preference of the APS and the actual repurchase price of the tendered APS (i.e., the 5% discount on the per share liquidation preference of the tendered APS) was recognized by the fund in the Statement of Changes in Net Assets for the period ended November 30, 2018 as Proceeds from Auction Preferred Stock to Common Shareholders.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification is the exclusive reference of authoritative U.S. generally accepted accounting principles (“GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund’s financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund’s maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund’s investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

30

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund’s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

Investments in securities are valued each business day by an independent pricing service (the "Service") approved by the Board. Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Other investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the Service, based on methods which include consideration of the following: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. All of the preceding securities are generally categorized within Level 2 of the fair value hierarchy.

The Service is engaged under the general supervision of the Board.

When market quotations or official closing prices are not readily available, or are determined not to accurately reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Board. Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized within Level 2 or 3 of the fair value hierarchy depending on the relevant inputs used.

31

NOTES TO FINANCIAL STATEMENTS *(continued)*

For restricted securities where observable inputs are limited, assumptions about market activity and risk are used and such securities are generally categorized within Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of November 30, 2018 in valuing the fund's investments:

	Level 1 - Unadjusted Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 -Significant Unobservable Inputs	Total
Assets (\$)				
Investments in Securities:				
Municipal Bonds [†] -		596,544,884	-	596,544,884
Liabilities (\$)				
Floating Rate Notes ^{††} -		(162,356,715)	-	(162,356,715)

[†]See *Statement of Investments* for additional detailed categorizations.

^{††}Certain of the fund's liabilities are held at carrying amount, which approximates fair value for financial reporting purposes.

At November 30, 2018, there were no transfers between levels of the fair value hierarchy. It is the fund's policy to recognize transfers between levels at the end of the reporting period.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Interest income, adjusted for accretion of discount and amortization of premium on investments, is earned from settlement date and recognized on the accrual basis. Securities purchased or sold on a when issued or delayed delivery basis may be settled a month or more after the trade date.

(c) Dividends and distributions to Common shareholders: Dividends and distributions are recorded on the ex-dividend date. Dividends from investment income-net are normally declared and paid monthly. Dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

Common Shareholders will have their distributions reinvested in additional shares of the fund, unless such Common shareholders elect to receive cash, at the lower of the market price or net asset value per share (but not

32

less than 95% of the market price). If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price, Computershare Inc., the transfer agent for the fund's Common Stock, will buy fund shares in the open market and reinvest those shares accordingly.

On November 30, 2018, the Board declared a cash dividend of \$.035 per share from investment income-net, payable on November 30, 2018 to Common Shareholders of record as of the close of business on November 16, 2018. The ex-dividend date was November 15, 2018.

(d) Dividends and distributions to shareholders of APS: Dividends, which are cumulative, are generally reset every 7 days for each Series of APS pursuant to a process specified in related fund charter documents. Dividend rates as of November 30, 2018, for each Series of APS were as follows: Series A-2.220%, Series B-2.238% and Series C-2.249%. These rates reflect the "maximum rates" under the governing instruments as a result of "failed auctions" in which sufficient clearing bids are not received. The average dividend rates for the period ended November 30, 2018 for each Series of APS were as follows: Series A-2.097%, Series B-2.047% and Series C-2.147%.

(e) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax-exempt dividends, by complying with the applicable provisions of the Code, and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended November 30, 2018, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended November 30, 2018, the fund did not incur any interest or penalties.

Each tax year in the four-year period ended November 30, 2018 remains subject to examination by the Internal Revenue Service and state taxing authorities.

At November 30, 2018, the components of accumulated earnings on a tax basis were as follows: undistributed tax-exempt income \$2,979,199, accumulated capital losses \$22,637,777 and unrealized appreciation \$20,207,249.

Under the Regulated Investment Company Modernization Act of 2010 (the “2010 Act”), the fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 (“post-

33

NOTES TO FINANCIAL STATEMENTS *(continued)*

enactment losses”) for an unlimited period. Furthermore, post-enactment capital loss carryovers retain their character as either short-term or long-term capital losses rather than short-term as they were under previous statute. The 2010 Act requires post-enactment losses to be utilized before the utilization of losses incurred in taxable years prior to the effective date of the 2010 Act (“pre-enactment losses”). As a result of this ordering rule, pre-enactment losses may be more likely to expire unused.

The accumulated capital loss carryover is available for federal income tax purposes to be applied against future net realized capital gains, if any, realized subsequent to November 30, 2018. If not applied, \$21,871,958 of the carryover expires in fiscal year 2019. The fund has \$765,819 of post-enactment short-term capital losses which can be carried forward for an unlimited period.

The tax character of distributions paid to shareholders during the fiscal periods ended November 30, 2018 and November 30, 2017 were as follows: tax-exempt income \$22,441,441 and \$25,589,008, and ordinary income \$238,409 and \$158,689, respectively.

During the period ended November 30, 2018, as a result of permanent book to tax differences, primarily due to the tax treatment for capital loss carryover expiration and dividend reclassification, the fund increased total distributable earnings (loss) by \$4,802,422 and decreased paid-in capital by the same amount. Net assets and net asset value per share were not affected by this reclassification.

(f) New Accounting Pronouncements: In March 2017, the FASB issued Accounting Standards Update 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization On Purchased Callable Debt Securities (“ASU 2017-08”). The update shortens the amortization period for the premium on certain purchased callable debt securities to the earliest call date. ASU 2017-08 will be effective for annual periods beginning after December 15, 2018.

Also in August 2018, the FASB issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement (“ASU 2018-13”). The update provides guidance that eliminates, adds and modifies certain disclosure requirements for fair value measurements. ASU 2018-13 will be effective for annual periods beginning after December 15, 2019. Management is currently assessing the potential impact of these changes to future financial statements.

34

NOTE 2—Investment Advisory Fee, Administration Fee and Other Transactions with Affiliates:

(a) Pursuant to an investment advisory agreement with Dreyfus, the management fee is computed at the annual rate of .50% of the value of the fund's average weekly net assets, inclusive of the outstanding APS, and is payable monthly. The fund also has an administration agreement with Dreyfus and a custody agreement with The Bank of New York Mellon (the "Custodian"), a subsidiary of BNY Mellon and an affiliate of Dreyfus. The fund pays in the aggregate for administration, custody and transfer agency services, a monthly fee based on an annual rate of .25% of the value of the fund's average weekly net assets, inclusive of the outstanding APS. All out-of-pocket transfer agency and custody expenses, including custody transaction expenses, are paid separately by the fund.

Dreyfus has currently undertaken, from December 1, 2017 through May 31, 2019, to waive receipt of a portion of the fund's investment advisory fee, in the amount of .10% of the value of the fund's average weekly net assets (including net assets representing APS outstanding). The reduction in expenses, pursuant to the undertaking, amounted to \$462,231 during the period ended November 30, 2018.

(b) The fund compensates the Custodian under a custody agreement for providing custodial services for the fund. These fees are determined based on transaction activity. During the period ended November 30, 2018, the fund was charged \$90,958 for out-of-pocket and custody transaction expenses, pursuant to the custody agreement.

The fund has an arrangement with the Custodian whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

During the period ended November 30, 2018, the fund was charged \$7,668 for services performed by the Chief Compliance Officer and his staff. These fees are included in Miscellaneous in the Statement of Operations.

The components of "Due to The Dreyfus Corporation and affiliates" in the Statement of Assets and Liabilities consist of: investment advisory fees \$179,927, Administration fees \$90,964, Custodian fees \$219 and Chief Compliance Officer fees \$3,145, which are offset against an expense reimbursement currently in effect in the amount of \$35,985.

35

NOTES TO FINANCIAL STATEMENTS *(continued)*

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

NOTE 3—Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended November 30, 2018, amounted to \$112,160,719 and \$154,593,485, respectively.

Inverse Floater Securities: The fund participates in secondary inverse floater structures in which fixed-rate, tax-exempt municipal bonds are transferred to a trust (the "Inverse Floater Trust"). The Inverse Floater Trust typically issues two variable rate securities that are collateralized by the cash flows of the fixed-rate, tax-exempt municipal bonds. One of these variable rate securities pays interest based on a short-term floating rate set by a remarketing agent at predetermined intervals ("Trust Certificates"). A residual interest tax-exempt security is also created by the Inverse Floater Trust, which is transferred to the fund, and is paid interest based on the remaining cash flows of the Inverse Floater Trust, after payment of interest on the other securities and various expenses of the Inverse Floater Trust. An Inverse Floater Trust may be collapsed without the consent of the fund due to certain termination events such as bankruptcy, default or other credit event.

The fund accounts for the transfer of bonds to the Inverse Floater Trust as secured borrowings, with the securities transferred remaining in the fund's investments, and the Trust Certificates reflected as fund liabilities in the Statement of Assets and Liabilities.

The fund may invest in inverse floater securities on either a non-recourse or recourse basis. These securities are typically supported by a liquidity facility provided by a bank or other financial institution (the "Liquidity Provider") that allows the holders of the Trust Certificates to tender their certificates in exchange for payment from the Liquidity Provider of par plus accrued interest on any business day prior to a termination event. When the fund invests in inverse floater securities on a non-recourse basis, the Liquidity Provider is required to make a payment under the liquidity facility due to a termination event to the holders of the Trust Certificates. When this occurs, the Liquidity Provider typically liquidates all or a portion of the municipal securities held in the Inverse Floater Trust. A liquidation shortfall occurs if the Trust Certificates exceed the proceeds of the sale of the bonds in the Inverse Floater Trust ("Liquidation Shortfall"). When a fund invests in inverse floater securities on a recourse basis, the fund typically enters into a reimbursement agreement with the Liquidity

36

Provider where the fund is required to repay the Liquidity Provider the amount of any Liquidation Shortfall. As a result, a fund investing in a recourse inverse floater security bears the risk of loss with respect to any Liquidation Shortfall.

The average amount of borrowings outstanding under the inverse floater structure during the period ended November 30, 2018 was approximately \$148,307,100, with a related weighted average annualized interest rate of 1.96%.

At November 30, 2018, the cost of investments for federal income tax purposes was \$413,980,920; accordingly, accumulated net unrealized appreciation on investments was \$20,207,249, consisting of \$23,493,183 gross unrealized appreciation and \$3,285,934 gross unrealized depreciation.

37

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of Dreyfus Strategic Municipal Bond Fund, Inc.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Dreyfus Strategic Municipal Bond Fund, Inc. (the "Fund"), including the statement of investments, as of November 30, 2018, and the related statement of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund at November 30, 2018, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of November 30, 2018, by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more Dreyfus investment companies since at least 1957, but we are unable to determine the specific year.

New York, New York
January 28, 2019

38

ADDITIONAL INFORMATION (Unaudited)

Dividend Reinvestment Plan

Under the fund's Dividend Reinvestment Plan (the "Plan"), a Common Shareholder who has fund shares registered in his or her name will have all dividends and distributions reinvested automatically by Computershare Trust Company, N.A., as Plan administrator (the "Administrator"), in additional shares of the fund at the lower of prevailing market price or net asset value (but not less than 95% of market value at the time of valuation) unless such Common Shareholder elects to receive cash as provided below. If market price is equal to or exceeds net asset value, shares will be issued at net asset value. If net asset value exceeds market price or if a cash dividend only is declared, the Administrator, as agent for the Plan participants, will buy fund shares in the open market. A Plan participant is not relieved of any income tax that may be payable on such dividends or distributions.

A Common Shareholder who owns fund shares registered in nominee name through his or her broker/dealer (i.e., in "street name") may not participate in the Plan, but may elect to have cash dividends and distributions reinvested by his or her broker/dealer in additional shares of the fund if such service is provided by the broker/dealer; otherwise such dividends and distributions will be treated like any other cash dividend.

A Common Shareholder who has fund shares registered in his or her name may elect to withdraw from the Plan at any time for a \$5.00 fee and thereby elect to receive cash in lieu of shares of the fund. Changes in elections must be in writing, sent to The Bank of New York Mellon, c/o Computershare Inc., P.O. Box 30170, College Station, TX 77842-3170, should include the Common Shareholder's name and address as they appear on the Administrator's records and will be effective only if received more than fifteen days prior to the record date for any distribution.

The Administrator maintains all Common Shareholder accounts in the Plan and furnishes written confirmations of all transactions in the account. Shares in the account of each Plan participant will be held by the Administrator in non-certificated form in the name of the participant, and each such participant's proxy will include those shares purchased pursuant to the Plan.

The fund pays the Administrator's fee for reinvestment of dividends and distributions. Plan participants pay a pro rata share of brokerage commissions incurred with respect to the Administrator's open market purchases in connection with the reinvestment of dividends or distributions.

The fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid subsequent to written notice of the change sent to Plan participants at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by the Administrator on at least 90 days' written notice to Plan participants.

Level Distribution Policy

The fund's dividend policy is to distribute substantially all of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more consistent yield to the current trading price of shares of Common Stock of the fund, the fund may at

39

ADDITIONAL INFORMATION (Unaudited) (continued)

times pay out less than the entire amount of net investment income earned in any particular month and may at times in any month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the fund for any particular month may be more or less than the amount of net investment income earned by the fund during such month.

Benefits and Risks of Leveraging

The fund utilizes leverage to seek to enhance the yield and net asset value of its Common Stock. These objectives cannot be achieved in all interest rate environments. To leverage, the fund issues APS and floating rate certificate securities, which pay dividends or interest at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. The interest earned on these investments is paid to Common Shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the fund's Common Stock. In order for either of these forms of leverage to benefit Common Shareholders, the yield curve must be positively sloped: that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders. If either of these conditions change along with other factors that may have an effect on APS dividends or floating rate certificate securities, then the risk of leveraging will begin to outweigh the benefits.

Supplemental Information

During the period ended November 30, 2018, there were (i) no material changes in the fund's investment objectives or fundamental investment policies, and (ii) no changes in the fund's charter or by-laws that would delay or prevent a change of control of the fund, and (iii) no change in the persons primarily responsible for the day-to-day management of the fund's portfolio.

40

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby reports all the dividends paid from investment income-net during its fiscal year ended November 30, 2018 as "exempt-interest dividends" (not generally subject to regular federal income tax), except \$238,409 that is being reported as an ordinary income distribution for reporting purposes. Where required by federal tax law rules, shareholders will receive notification of their portion of the fund's taxable ordinary dividends (if any), capital gains distributions (if any) and tax-exempt dividends paid for the 2018 calendar year on Form 1099-DIV, which will be mailed in early 2019.

41

INFORMATION ABOUT THE RENEWAL OF THE FUND'S INVESTMENT ADVISORY AGREEMENT (Unaudited)

At a meeting of the fund's Board of Directors held on November 5-6, 2018, the Board considered the renewal of the fund's Investment Advisory Agreement and Administration Agreement, pursuant to which Dreyfus provides the fund with investment advisory services and administrative services (together, the "Agreement"). The Board members, a majority of whom are not "interested persons" (as defined in the Investment Company Act of 1940, as amended) of the fund, were assisted in their review by independent legal counsel and met with counsel in executive session separate from Dreyfus representatives. In considering the renewal of the Agreement, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Board member may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Fund. The Board considered information provided to it at the meeting and in previous presentations from Dreyfus representatives regarding the nature, extent, and quality of the services provided to funds in the Dreyfus fund complex. Dreyfus representatives stated that the fund is a closed-end fund without daily inflows and outflows of capital and provided the fund's asset size.

The Board also considered research support available to, and portfolio management capabilities of, the fund's portfolio management personnel and that Dreyfus also provides oversight of day-to-day fund operations, including fund accounting and administration and assistance in meeting legal and regulatory requirements. The Board also considered Dreyfus' extensive administrative, accounting and compliance infrastructures.

Comparative Analysis of the Fund's Performance and Management Fee and Expense Ratio. The Board reviewed reports prepared by Broadridge Financial Solutions, Inc. ("Broadridge"), an independent provider of investment company data, which included information comparing (1) the fund's performance with the performance of a group of comparable funds (the "Performance Group") and with a broader group of funds (the "Performance Universe"), all for various periods ended September 30, 2018, and (2) the fund's actual and contractual management fees and total

expenses with those of a group of comparable funds (the “Expense Group”) and with a broader group of funds (the “Expense Universe”), the information for which was derived in part from fund financial statements available to Broadridge as of the date of its analysis. Dreyfus previously had furnished the Board with a description of the methodology Broadridge used to select the Performance Group and Performance Universe and the Expense Group and Expense Universe.

Dreyfus representatives stated that the usefulness of performance comparisons may be affected by a number of factors, including different investment limitations and policies that may be applicable to the fund and comparison funds. The Board discussed with representatives of Dreyfus and/or its affiliates the results of the comparisons and considered that the fund’s total return performance on a net asset value basis was at the Performance Group median and above the Performance Universe median for the

42

various periods except for the ten-year period when it was below the medians. The Board also considered that the fund’s total return performance on a market price basis was below the Performance Group median except for the three- and ten-year periods when it was above and at the median respectively and above the Performance Universe median in the two-, three- and four-year periods but below median in the one-, five- and ten year periods. The Board also considered that the fund’s yield performance on a net asset value basis was above the Performance Group medians for five of the six one-year periods ended September 30th and above the Performance Universe median for all six one-year periods; and on a market price basis the fund’s yield performance was at or above the Performance Group medians for eight of the ten one-year periods ended September 30th and above the Performance Universe medians for seven of the ten one-year periods. Dreyfus also provided a comparison of the fund’s calendar year total returns (on a net asset basis) to the returns of the fund’s benchmark index, and it was considered that the fund’s returns were above the returns of the index in seven of the ten calendar years shown.

The Board also reviewed the range of actual and contractual management fees and total expenses of the Expense Group and Expense Universe funds and discussed the results of the comparisons. The Board considered that, based on common assets alone, the fund’s contractual management fee was above the Expense Group median and the fund’s actual management fee and total expenses were below the Expense Group and Expense Universe medians. The Board also considered that based on common and leveraged assets together, the fund’s actual management fee was above the Expense Group and Expense Universe medians and the fund’s total expenses were below the Expense Group and Expense Universe medians. Dreyfus representatives stated that Dreyfus has agreed to extend its agreement to waive receipt of a portion of the fund’s investment advisory fee, in the amount of .10% of the value of the fund’s average weekly net assets (including the net assets representing auction preferred stock outstanding), through May 31, 2019.

Dreyfus representatives reviewed with the Board the management or investment advisory fees (1) paid by funds advised or administered by Dreyfus that are in the same Lipper category as the fund and (2) paid to Dreyfus or the Dreyfus-affiliated primary employer of the fund’s primary portfolio manager(s) for advising any separate accounts and/or other types of client portfolios that are considered to have similar investment strategies and policies as the fund (the “Similar Clients”), and explained the nature of the Similar Clients. They discussed differences in fees paid and the relationship of the fees paid in light of any differences in the services provided and other relevant factors, stating that the fund is a closed-end fund. The Board considered the relevance of the fee information provided for the Similar Clients to evaluate the appropriateness of the fund’s management fee.

Analysis of Profitability and Economies of Scale. Dreyfus representatives reviewed the expenses allocated and profit received by Dreyfus and its affiliates and the resulting profitability percentage for managing the fund and the aggregate profitability percentage to Dreyfus and its affiliates for managing the funds in the Dreyfus fund complex, and

INFORMATION ABOUT THE RENEWAL OF THE FUND'S INVESTMENT ADVISORY AGREEMENT
(Unaudited) *(continued)*

the method used to determine the expenses and profit. The Board concluded that the profitability results were not unreasonable, given the services rendered and service levels provided by Dreyfus. The Board also considered the fee waiver arrangement and its effect on the profitability of Dreyfus and its affiliates. The Board also had been provided with information prepared by an independent consulting firm regarding Dreyfus' approach to allocating costs to, and determining the profitability of, individual funds and the entire Dreyfus fund complex. The consulting firm also had analyzed where any economies of scale might emerge in connection with the management of a fund.

The Board considered, on the advice of its counsel, the profitability analysis (1) as part of its evaluation of whether the fees under the Agreement, considered in relation to the mix of services provided by Dreyfus, including the nature, extent and quality of such services, supported the renewal of the Agreement and (2) in light of the relevant circumstances for the fund and the extent to which economies of scale would be realized if the fund grows and whether fee levels reflect these economies of scale for the benefit of fund shareholders. Dreyfus representatives stated that because the fund is a closed-end fund without daily inflows and outflows of capital, there were not at this time significant economies of scale to be realized by Dreyfus in managing the fund's assets. Dreyfus representatives also stated that, as a result of shared and allocated costs among funds in the Dreyfus fund complex, the extent of economies of scale could depend substantially on the level of assets in the complex as a whole, so that increases and decreases in complex-wide assets can affect potential economies of scale in a manner that is disproportionate to, or even in the opposite direction from, changes in the fund's asset level. The Board also considered potential benefits to Dreyfus from acting as investment adviser and took into consideration that there were no soft dollar arrangements in effect for trading the fund's investments.

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreement. Based on the discussions and considerations as described above, the Board concluded and determined as follows.

- The Board concluded that the nature, extent and quality of the services provided by Dreyfus are adequate and appropriate.
- The Board agreed to closely monitor performance and determined to approve renewal of the Agreement only until the second quarter 2019 regular Board meeting.
- The Board concluded that the fee paid to Dreyfus continued to be appropriate under the circumstances and in light of the factors and the totality of the services provided as discussed above, subject to review no later than the next renewal consideration.
- The Board determined that the economies of scale which may accrue to Dreyfus and its affiliates in connection with the management of the fund had been adequately considered by Dreyfus in connection with the fee rate charged to the

fund pursuant to the Agreement and that, to the extent in the future it were determined that material economies of scale had not been shared with the fund, the Board would seek to have those economies of scale shared with the fund.

In evaluating the Agreement, the Board considered these conclusions and determinations and also relied on its previous knowledge, gained through meetings and other interactions with Dreyfus and its affiliates, of Dreyfus and the services provided to the fund by Dreyfus. The Board also relied on information received on a routine and regular basis throughout the year relating to the operations of the fund and the investment management and other services provided under the Agreement, including information on the investment performance of the fund in comparison to similar funds and benchmark performance indices; general market outlook as applicable to the fund; and compliance reports. In addition, the Board's consideration of the contractual fee arrangements for this fund had the benefit of a number of years of reviews of the Agreement for the fund, or substantially similar agreements for other Dreyfus funds that the Board oversees, during which lengthy discussions took place between the Board and Dreyfus representatives. Certain aspects of the arrangements may receive greater scrutiny in some years than in others, and the Board's conclusions may be based, in part, on their consideration of the fund's arrangements, or substantially similar arrangements for other Dreyfus funds that the Board oversees, in prior years. The Board determined to renew the Agreement until the second quarter 2019 regular Board meeting.

The fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's Forms N-Q are available on the SEC's website at www.sec.gov.

A description of the policies and procedures that the fund uses to determine how to vote proxies relating to portfolio securities and information regarding how the fund voted these proxies for the most recent 12-month period ended June 30 is available at www.dreyfus.com and on the SEC's website at www.sec.gov and without charge, upon request, by calling 1-800-DREYFUS.

0852AR1118

Item 2. Code of Ethics.

The Registrant has adopted a code of ethics that applies to the Registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There have been no amendments to, or waivers in connection with, the Code of Ethics during the period covered by this Report.

Item 3. Audit Committee Financial Expert.

The Registrant's Board has determined that Ehud Houminer, a member of the Audit Committee of the Board, is an audit committee financial expert as defined by the Securities and Exchange Commission (the "SEC"). Ehud Houminer is "independent" as defined by the SEC for purposes of audit committee financial expert determinations.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees. The aggregate fees billed for each of the last two fiscal years (the "Reporting Periods") for professional services rendered by the Registrant's principal accountant (the "Auditor") for the audit of the Registrant's annual financial statements or services that are normally provided by the Auditor in connection with the statutory and regulatory filings or engagements for the Reporting Periods, were \$36,450 in 2017 and \$36,997 in 2018.

(b) Audit-Related Fees. The aggregate fees billed in the Reporting Periods for assurance and related services by the Auditor that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item 4 were \$31,804 in 2017 and \$32,671 in 2018. These services consisted of one or more of the following: (i) agreed upon procedures related to compliance with Internal Revenue Code section 817(h), (ii) security counts required by Rule 17f-2 under the Investment Company Act of 1940, as amended, (iii) advisory services as to the accounting or disclosure treatment of Registrant transactions or events, (iv) advisory services to the accounting or disclosure treatment of the actual or potential impact to the Registrant of final or proposed rules, standards or interpretations by the Securities and Exchange Commission, the Financial Accounting Standards Boards or other regulatory or standard-setting bodies and (v) agreed upon procedures in evaluating compliance by the Fund with the provisions of the Fund's articles supplementary, creating the series of auction rate preferred stock.

The aggregate fees billed in the Reporting Periods for non-audit assurance and related services by the Auditor to the Registrant's investment adviser (not including any sub-investment adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Registrant ("Service Affiliates"), that were reasonably related to the performance of the annual audit of the Service Affiliate, which required pre-approval by the Audit Committee were \$0 in 2017 and \$0 in 2018.

(c) Tax Fees. The aggregate fees billed in the Reporting Periods for professional services rendered by the Auditor for tax compliance, tax advice, and tax planning ("Tax Services") were \$3,503 in 2017 and \$3,860 in 2018. These services consisted of: (i) review or preparation of U.S. federal, state, local and excise tax returns; (ii) U.S. federal, state and local tax planning, advice and assistance regarding statutory, regulatory or administrative developments; and

(iii) tax advice regarding tax qualification matters and/or treatment of various financial instruments held or proposed to be acquired or held. The aggregate fees billed in the Reporting Periods for Tax Services by the Auditor to Service Affiliates, which required pre-approval by the Audit Committee were \$0 in 2017 and \$0 in 2018.

(d) All Other Fees. The aggregate fees billed in the Reporting Periods for products and services provided by the Auditor, other than the services reported in paragraphs (a) through (c) of this Item, were \$0 in 2017 and \$0 in 2018. These services consisted of a review of the Registrant's anti-money laundering program.

The aggregate fees billed in the Reporting Periods for Non-Audit Services by the Auditor to Service Affiliates, other than the services reported in paragraphs (b) through (c) of this Item, which required pre-approval by the Audit Committee, were \$0 in 2017 and \$0 in 2018.

(e)(1) Audit Committee Pre-Approval Policies and Procedures. The Registrant's Audit Committee has established policies and procedures (the "Policy") for pre-approval (within specified fee limits) of the Auditor's engagements for non-audit services to the Registrant and Service Affiliates without specific case-by-case consideration. The pre-approved services in the Policy can include pre-approved audit services, pre-approved audit-related services, pre-approved tax services and pre-approved all other services. Pre-approval considerations include whether the proposed services are compatible with maintaining the Auditor's independence. Pre-approvals pursuant to the Policy are considered annually.

(e)(2) Note. None of the services described in paragraphs (b) through (d) of this Item 4 were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) None of the hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year were attributed to work performed by persons other than the principal account's full-time, permanent employees.

Non-Audit Fees. The aggregate non-audit fees billed by the Auditor for services rendered to the Registrant, and rendered to Service Affiliates, for the Reporting Periods were \$31,197,139 in 2017 and \$38,822,724 in 2018.

Auditor Independence. The Registrant's Audit Committee has considered whether the provision of non-audit services that were rendered to Service Affiliates, which were not pre-approved (not requiring pre-approval), is compatible with maintaining the Auditor's independence.

Item 5. Audit Committee of Listed Registrants.

The Registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a) (58) (A) of the Securities Exchange Act of 1934, consisting of all of the non-interested Board members, who are: Joseph S. DiMartino, Joni Evans, Joan L. Gulley, Ehud Houminer, Alan H. Howard, Robin A. Melvin, Burton N. Wallack, and Benaree P. Wiley.

Item 6. Investments.

(a) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The board has delegated to The Dreyfus Corporation ("Dreyfus") the authority to vote proxies of companies held in the fund's portfolio.

Information regarding how the fund's proxies were voted during the most recent 12-month period ended June 30th is available on Dreyfus' website, by the following August 31st, at <http://www.dreyfus.com> and on the SEC's website at <http://www.sec.gov> on the fund's Form N-PX.

Proxy Voting By Dreyfus

Dreyfus, through its participation in The Bank of New York Mellon Corporation's ("BNY Mellon") Proxy Voting and Governance Committee (the "Proxy Voting Committee"), applies detailed, pre-determined, written proxy voting guidelines for specific types of proposals and matters commonly submitted to shareholders (the "BNY Mellon Voting Guidelines"). This includes guidelines for proxy voting with respect to open-end registered investment company shares (other than securities of a registered investment company over which BNY Mellon and its direct and indirect subsidiaries, including Dreyfus ("BNYM") has proxy voting authority).

Securities Out on Loan. It is Dreyfus' policy to seek to vote all proxies for securities held in the funds' portfolios for which Dreyfus has voting authority. However, situations may arise in which the Proxy Voting Committee cannot, or has adopted a policy not to, vote certain proxies, such as refraining from securities out on loan in instances in which the costs are believed to outweigh the benefits, such as when the matters presented are not likely to have a material impact on shareholder value or clients' voting will not impact the outcome of the vote.

Securities Out on Loan. For securities that the fund has loaned to another party, any voting rights that accompany the loaned securities generally pass to the borrower of the securities, but the fund retains the right to recall a security and may then exercise the security's voting rights. In order to vote the proxies of securities out on loan, the securities must be recalled prior to the established record date. The fund may recall the loan to vote proxies if a material issue affecting the fund's investment is to be voted upon.

Material Conflicts of Interest. Dreyfus seeks to avoid material conflicts of interest between the fund and fund shareholders, on the one hand, and Dreyfus, the Distributor, or any affiliated person of the fund, Dreyfus or the Distributor, on the other, through its participation in the Proxy Voting Committee. The BNY Mellon Proxy Voting Policy states that the Proxy Voting Committee seeks to avoid material conflicts of interest through the establishment of the committee structure, which applies the BNY Mellon Voting Guidelines in an objective and consistent manner across client accounts, based on internal and external research and recommendations provide by third party proxy advisory services (including Institutional Shareholder Services, Inc. and Glass Lewis & Co., LLC (the "Proxy Advisers")) and without consideration of any client relationship factors. The Proxy Voting Committee utilizes the research services of the Proxy Advisers most frequently in connection with proposals that may be controversial or require a case-by-case analysis in accordance with the BNY Mellon Proxy Voting Guidelines. In addition, the BNY Mellon Proxy Voting Policy states that the Proxy Voting Committee engages a third party as an independent fiduciary to vote all proxies for securities of BNY Mellon or securities of a registered investment company over which BNYM has proxy voting authority and may engage an independent fiduciary to vote proxies of other issuers at the Proxy Voting Committee's discretion.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) The following information is as of November 30, 2018:

Daniel Rabasco and Jeffrey Burger of Mellon Investments Corporation ("Mellon Investments"), an affiliate of The Dreyfus Corporation, are primarily responsible for the day-to-day management of the registrant's portfolio.

Mr. Burger, a Portfolio Manager for Tax Sensitive Strategies at Mellon Investments, has served as a primary portfolio manager of the fund since July 2014. He has been employed as a portfolio manager and analyst at Mellon Investments since 2006.

Mr. Rabasco, the Chief Investment Officer for Tax Sensitive Fixed-Income at Mellon Investments, has served as a primary portfolio manager of the fund since July 2016. He has been employed at Mellon Investments since 1998.

(a)(2) The following information is as of the Registrant's most recently completed fiscal year:

<u>Portfolio Manager</u>	<u>Registered Investment Company</u>	Other Pooled				
		<u>Total Assets Managed</u>	<u>Investment Vehicles</u>	<u>Total Assets Managed</u>	<u>Other Accounts</u>	<u>Total Assets Managed</u>
Jeffrey Burger	12	\$4.6 billion	2	\$336 million	431	\$1.4 billion
Daniel Rabasco	17	\$8.3 billion	0	\$0	65	\$3.7 billion

None of the funds or accounts are subject to a performance-based advisory fee.

Portfolio managers may manage multiple accounts for a diverse client base, including mutual funds, separate accounts (assets managed on behalf of institutions such as pension funds, insurance companies and foundations), bank common trust accounts and wrap fee programs ("Other Accounts").

Potential conflicts of interest may arise because of Dreyfus' management of the Fund and Other Accounts. For example, conflicts of interest may arise with both the aggregation and allocation of securities transactions and allocation of limited investment opportunities, as Dreyfus may be perceived as causing accounts it manages to participate in an offering to increase Dreyfus' overall allocation of securities in that offering, or to increase Dreyfus' ability to participate in future offerings by the same underwriter or issuer. Allocations of bunched trades, particularly trade orders that were only partially filled due to limited availability and allocation of investment opportunities generally, could raise a potential conflict of interest, as Dreyfus may have an incentive to allocate securities that are expected to increase in value to preferred accounts. Initial public offerings, in particular, are frequently of very limited availability. Additionally, portfolio managers may be perceived to have a conflict of interest if there are a large number of Other Accounts, in addition to the Fund, that they are managing on behalf of Dreyfus. Dreyfus periodically reviews each portfolio manager's overall responsibilities to ensure that he or she is able to allocate the necessary time and resources to effectively manage the Fund. In addition, Dreyfus could be viewed as having a conflict of interest to the extent that Dreyfus or its affiliates and/or portfolio managers have a materially larger investment in Other Accounts than their investment in the Fund.

Other Accounts may have investment objectives, strategies and risks that differ from those of the Fund. For these or other reasons, the portfolio manager may purchase different securities for the Fund and the Other Accounts, and the performance of securities purchased for the Fund may vary from the performance of securities purchased for Other Accounts. The portfolio manager may place transactions on behalf of Other Accounts that are directly or indirectly contrary to investment decisions made for the Fund, which could have the potential to adversely impact the Fund, depending on market conditions.

A potential conflict of interest may be perceived to arise if transactions in one account closely follow related transactions in another account, such as when a purchase increases the value of securities previously purchased by the other account, or when a sale in one account lowers the sale price received in a sale by a second account.

Conflicts of interest similar to those described above arise when portfolio managers are employed by a sub-investment adviser or are dual employees of the Manager and an affiliated entity and such portfolio managers also manage other accounts.

Dreyfus' goal is to provide high quality investment services to all of its clients, while meeting Dreyfus' fiduciary obligation to treat all clients fairly. Dreyfus has adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures that it believes address the conflicts associated with managing multiple accounts for multiple clients. In addition, Dreyfus monitors a variety of areas, including compliance with Fund guidelines, the allocation of IPOs, and compliance with the firm's Code of Ethics. Furthermore, senior investment and business personnel at Dreyfus periodically review the performance of the portfolio managers for Dreyfus-managed funds.

(a)(3) Portfolio Manager Compensation. The portfolio managers' compensation is comprised primarily of a market-based salary and an incentive compensation plan (annual and long-term). Funding for the Mellon Investments' Incentive Plan is through a pre-determined fixed percentage of overall company profitability. Therefore, all bonus awards are based initially on Mellon Investments' overall performance as opposed to the performance of a single product or group. All investment professionals are eligible to receive incentive awards. Cash awards are payable in the February month end pay of the following year. Most of the awards granted have some portion deferred for three years in the form of deferred cash, BNY Mellon equity, interests in investment vehicles (consisting of investments in a range of Mellon Investments' products), or a combination of the above. Individual awards for portfolio managers are discretionary, based on both individual and multi-sector product risk adjusted performance relative to both benchmarks and peer comparisons over one year, three year and five year periods. Also considered in determining individual awards are team participation and general contributions to Mellon Investments. Individual objectives and goals are also established at the beginning of each calendar year and are taken into account. Portfolio managers whose compensation exceeds certain levels may elect to defer portions of their base salaries and/or incentive compensation pursuant to BNY Mellon's Elective Deferred Compensation Plan.

(a)(4) The dollar range of Fund shares beneficially owned by the primary portfolio managers is as follows as of the end of the Fund's fiscal year:

<u>Portfolio Manager</u>	<u>Registrant Name</u>	<u>Dollar Range of Registrant Shares Beneficially Owned</u>
Jeffrey Burger	Dreyfus Strategic Municipal Bond Fund, Inc.	None
Daniel Rabasco	Dreyfus Strategic Municipal Bond Fund, Inc.	None

(b) Not applicable.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

None.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures applicable to Item 10.

Item 11. Controls and Procedures.

(a) The Registrant's principal executive and principal financial officers have concluded, based on their evaluation of the Registrant's disclosure controls and procedures as of a date within 90 days of the filing date of this report, that the Registrant's disclosure controls and procedures are reasonably designed to ensure that information required to be disclosed by the Registrant on Form N-CSR is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Registrant in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Registrant's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes to the Registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies.

The fund did not participate in a securities lending program during this period.

Item 13. Exhibits.

(a)(1) Code of ethics referred to in Item 2.

(a)(2) Certifications of principal executive and principal financial officers as required by Rule 30a-2(a) under the Investment Company Act of 1940.

(a)(3) Not applicable.

(b) Certification of principal executive and principal financial officers as required by Rule 30a-2(b) under the Investment Company Act of 1940.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
