Press Release

Magic xpi Integration Platform Achieves SAP-Certified Integration with SAP S/4HANA®

Magic s integration solution empowers customers to automate and optimize processes through interoperability with SAP® solutions

Or Yehuda, Israel, October 9, 2018 Magic Software Enterprises Ltd. (NASDAQ and TASE: MGIC), a global provider of end-to-end integration and low-code application development platforms and IT consulting services, announced today that its Magic xpi Integration Platform 4 has achieved SAP-certified integration with SAP S/4HANA, enabling Magic s customers to optimize business processes through automation across leading ERP, CRM, finance, and other enterprise systems using a single platform.

The SAP Integration and Certification Center (SAP ICC) has certified that Magic xpi Integration Platform 4 integrates with SAP S/4HANA to connect with any system or data source, and can expose SAP data on the web or via mobile devices.

SAP certifications for Magic xpi is part of our continuous commitment to provide vendor approved connectors to speed up time to market for software, while ensuring ease of maintenance and upgrades, commented Yuval Lavi, VP of Technology & Innovation at Magic Software. With today s focus on digital transformation and continuous innovation, certified integrations are an important building block for ensuring a free flow of information throughout the enterprise for optimizing end-to-end business processes.

As a result of the certified integration, Magic Software customers can be confident that Magic xpi has been proven to smoothly integrate with SAP solutions. Magic Software provides a fast and effective way to automate and optimize business processes involving SAP solutions and other applications, systems or data sources. For example, Magic xpi provides the ability to integrate ERP, CRM and eCommerce systems for supporting business growth and creating differentiating customer experiences. In addition, Magic xpi is used to integrate ERP and MES systems for improved inventory management and quicker agility when responding to fast changing customer requirements.
