

VIRTUS INVESTMENT PARTNERS, INC.
Form 10-Q
November 06, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File Number: 001-10994

VIRTUS INVESTMENT PARTNERS, INC.
(Exact name of registrant as specified in its charter)

Delaware 26-3962811
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)
100 Pearl St., Hartford, CT 06103
(Address of principal executive offices) (Zip Code)
(800) 248-7971
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

The number of shares outstanding of the registrant's common stock was 7,158,015 as of October 26, 2017.

Table of Contents

Virtus Investment Partners, Inc.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Organization and Business

Virtus Investment Partners, Inc. (“the Company,” “we,” “us,” “our,” or “Virtus”), a Delaware corporation, operates in the investment management industry through its subsidiaries.

The Company provides investment management and related services to individuals and institutions. The Company’s retail investment management services are provided to individuals through products consisting of U.S. 1940 Act mutual funds and Undertaking for Collective Investment in Transferable Securities (“UCITS”) (collectively, “open-end funds”), closed-end funds, exchange traded funds (“ETFs”) and retail separate accounts. Institutional investment management services are provided to corporations, multi-employer retirement funds, employee retirement systems, foundations, endowments, structured products and as a subadvisor to unaffiliated mutual funds.

On June 1, 2017, the Company completed the acquisition of RidgeWorth Investments (“RidgeWorth”), which provided investment management services through its affiliated managers to clients in North America, Europe and Asia. See Note 3 for further discussion of the RidgeWorth acquisition.

2. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the Company’s financial condition and results of operations. Operating results for the nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017.

The Company has reclassified certain amounts in prior-period financial statements to conform to the current period's presentation. Previously, the Company reported consolidated investment products and consolidated sponsored investment products separately. Currently, the Company combines these categories under the caption “consolidated investment products” and has accordingly reclassified prior presentations. Further, the Company has reclassified its prior net presentation of purchases and sales of investments by its consolidated sponsored investments products and its consolidated investment product in the Condensed Consolidated Statement of Cash Flows for the nine months ended September 30, 2016 to conform with the current year presentation of showing such purchases and sales as separate line items within the cash flows from operating activities. The reclassifications had no impact on the net cash provided by or used in operating, investing or financing activities within the Condensed Consolidated Statement of Cash Flows, nor any impact on the other Condensed Consolidated Financial Statements.

These unaudited Condensed Consolidated Financial Statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016 filed with the Securities and Exchange Commission. The Company’s significant accounting policies, which have been consistently applied, are summarized in its 2016 Annual Report on Form 10-K.

New Accounting Standards Implemented

The Company adopted Accounting Standards Update ("ASU") 2016-09, Improvements to Employee Share-Based Payment Accounting ("ASU 2016-09"), on January 1, 2017. This standard makes several modifications to the accounting for forfeitures and employer tax withholdings on share-based compensation as well as the financial statement presentation of excess tax benefits or deficiencies. ASU 2016-09 also clarifies the statement of cash flows presentation of certain components of share-based awards. Upon adoption, the Company recorded a \$1.1 million cumulative effect adjustment to retained earnings for excess tax benefits that were not previously recognized because the related tax deduction had not reduced current taxes payable. The Company elected to adopt all provisions impacting the Condensed Consolidated Statements of Operations and Cash Flows prospectively.

Table of Contents

The Company adopted ASU 2016-07, Investments - Equity Method and Joint Ventures (Topic 232): Simplifying the Transition to the Equity Method of Accounting, on January 1, 2017. This standard eliminates the requirement that, when an existing cost method investment qualifies for use of the equity method, a reporting entity must restate its historical financial statements, as if the equity method had been used during all previous periods. Under the new guidance, at the point an investment qualifies for the equity method, any unrealized gain or loss in accumulated other comprehensive income/(loss) would be recognized through earnings. The adoption of this standard did not have a material impact on the Company's condensed consolidated financial statements.

New Accounting Standards Not Yet Implemented

In November 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash ("ASU 2016-18"). ASU 2016-18 requires the inclusion of restricted cash with cash and cash equivalents when reconciling the beginning and ending cash on the statement of cash flows. This standard is effective for annual periods beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2017. Early adoption is permitted. A reporting entity is required to apply this standard on a retrospective basis as of the beginning of the fiscal year for which the standard is effective. The Company is currently evaluating the potential impact of this standard on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments ("ASU 2016-15"), which clarifies the treatment of several cash flow activities. ASU 2016-15 also clarifies that when cash receipts and cash payments have aspects of more than one classification of cash flows and cannot be separated, classification will depend on the predominant source or use. This update is effective for annual periods beginning after December 15, 2017 and interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the potential impact of this standard on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU 2014-09 was originally effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. In August 2015, the FASB issued ASU 2015-14, which deferred the effective date of ASU 2014-09 by one year or for periods beginning after December 15, 2017. Adoption of the standard requires either a retrospective or a modified retrospective approach to adoption, and early adoption is permitted as of the original effective date. The core principle of the model is that revenue is recognized upon the transfer of promised goods or services to customers in an amount that reflects the expected consideration to be received for the goods or services. The guidance also changes the accounting for certain contract costs and revises the criteria for determining if an entity is acting as a principal or agent in certain arrangements. This update is effective for annual periods beginning after December 15, 2017 and interim periods within those fiscal years. The Company's implementation assessment includes the identification of revenue within the scope of the guidance, as well as the evaluation of revenue contracts, and it is also evaluating the presentation of certain revenue-related costs on a gross versus net basis and related disclosures of revenue. Although the Company is still evaluating the impact of ASU 2014-09, it has not identified material changes in the timing of revenue recognition.

In March 2016, the FASB issued ASU 2016-08, Principal Versus Agent Considerations (Reporting Revenue Gross Versus Net), which amends the principal-versus-agent implementation guidance in ASU 2014-09, Revenue from Contracts with Customers, discussed above. The new guidance will impact whether an entity reports revenue on a gross or net basis. The Company is currently evaluating the potential impact of adopting this standard on its consolidated financial statements, which is effective for the Company in conjunction with the adoption of ASU 2014-09.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) ("ASU 2016-02"). The standard replaces current codification Topic 840 with updated guidance on accounting for leases and requires a lessee to recognize assets and liabilities arising from an operating lease on the balance sheet, whereas previous guidance did not require lease assets and liabilities to be recognized for most leases. Furthermore, this standard permits companies to make an accounting policy election to not recognize lease assets and liabilities for leases with a term of 12 months or less. For both finance leases and operating leases, the lease liability should be initially measured at the present value of the lease payments. The recognition, measurement and presentation of expenses and cash flows arising from a lease by a lessee will not significantly change under this new guidance. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018 and interim periods therein. Early adoption is permitted. The Company is currently evaluating the potential impact of this standard on its consolidated financial statements but expects to record a right-of-use asset and a related lease obligation in the Company's consolidated balance sheet upon adoption.

Table of Contents

In January 2016, the FASB issued ASU No. 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities ("ASU 2016-01"), which requires all equity investments (other than those accounted for under the equity method) to be measured at fair value with changes in the fair value recognized through net income. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017 and interim periods therein. Early adoption is not permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements with respect to equity investments that currently report changes in fair value as a component of accumulated other comprehensive income in equity attributable to stockholders. Comprehensive income, net of tax, with respect to these equity investments was \$0.2 million for the year ended December 31, 2016.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations: Clarifying the Definition of a Business ("ASU 2017-01"). The standard clarifies the definition of a business and adds guidance to assist entities when evaluating whether transactions should be accounted for as acquisitions or disposals of assets or as businesses. The standard provides a screen to determine whether a set of assets and activities qualifies as a business or as a set of assets. ASU 2017-01 is effective for fiscal years and interim periods within those years beginning after December 15, 2017. The standard requires a prospective approach to adoption, and early adoption is only permitted for specific transactions. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-04, Intangibles - Goodwill and Other: Simplifying the Test for Goodwill Impairment ("ASU 2017-04"). ASU 2017-04 requires that an entity perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity will recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, but the loss cannot exceed the total amount of goodwill allocated to the reporting unit. ASU 2017-04 is effective for fiscal years and interim periods within those years beginning after December 15, 2019. The amendments require a prospective approach to adoption, and early adoption is permitted for interim or annual goodwill impairment tests. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

3. Business Combination

On June 1, 2017, the Company completed the acquisition of RidgeWorth (the "Acquisition" or the "Acquired Business"), a multi-boutique asset manager with approximately \$40.1 billion in assets under management, including \$35.7 billion in long term assets under management and \$4.4 billion in liquidity strategies. The Acquisition significantly increased assets under management, and provided a wider range of strategies for institutional and individual investors, and broader distribution and client service resources.

The total purchase price of the Acquisition was \$547.1 million, comprising \$485.2 million for the business and \$61.9 million for certain balance sheet investments. At the closing, the Company paid \$471.4 million in cash, issued 213,669 shares of the Company's common stock with a value of \$21.7 million based on a stock price of \$101.76, and recorded \$51.7 million in contingent consideration and \$2.3 million in deferred cash consideration. The conditions for the \$51.7 million of contingent consideration were met as of September 30, 2017, and the Company expects to pay this amount during the fourth quarter of 2017.

The Company accounted for the acquisition in accordance with ASC 805, Business Combinations. Accordingly, the purchase price was allocated to the assets acquired and liabilities assumed based upon their estimated fair values at the date of the Acquisition.

Given the timing of this transaction and complexity of the purchase accounting, the Company's estimate of the fair value adjustment specific to the acquired intangible assets and final tax positions is preliminary. The Company intends to finalize the accounting for these items as soon as reasonably possible. The Company may adjust the preliminary purchase price allocation, as necessary, during the measurement period of up to one year after the closing date as it

obtains more information as to facts and circumstances existing as of the acquisition date. During the quarter ended September 30, 2017, the Company recorded a measurement period adjustment of \$1.0 million to increase deferred tax assets with a corresponding reduction to goodwill as a result of the finalization of certain tax analyses.

The excess purchase price over the estimated fair values of assets acquired and liabilities and non-controlling interests assumed of \$163.4 million was recorded as goodwill. It is anticipated that this full amount will be tax deductible when the additional \$51.7 million of contingent consideration is settled. In addition, \$6.4 million in acquisition costs will be included as goodwill for taxes and deducted over 15 years.

Table of Contents

The following table summarizes the initial estimate of amounts of identified acquired assets and liabilities assumed as of the acquisition date:

	June 1, 2017
(\$ in thousands)	
Assets:	
Cash and cash equivalents	\$ 39,343
Investments	5,516
Accounts receivable	19,941

Table of Contents

Acquired Business

For the three and nine months ended September 30, 2017, the Company incurred \$4.9 million and \$22.9 million in transaction and integration costs associated with the acquisition comprised of \$1.5 million and \$10.1 million in severance and restructuring charges, \$1.2 million and \$8.5 million of other operating expenses, and \$2.2 million and \$4.3 million in employment expenses, respectively.

Income of the Acquired Business subsequent to the effective closing date of the Acquisition of June 1, 2017, for the quarter and four months ended September 30, 2017, was as follows:

	Three Months Ended September 30, 2017	Four Months Ended September 30, 2017
(\$ in thousands)		
Total Revenues	\$ 32,478	\$ 44,014
Restructuring and severance	\$ 1,453	\$ 9,849
All other operating expenses	\$ 23,685	\$ 32,249
Operating Income (Loss)	\$ 1,648	\$ (3,776)
Income (Loss) Before Income Taxes	\$ 5,446	\$ 48

The following Unaudited Pro Forma Condensed Consolidated Results of Operations are provided for illustrative purposes only and assume that the acquisition occurred on January 1, 2016. The unaudited pro forma information also reflects adjustment for transaction and integration expenses as if the transaction had been consummated on January 1, 2016. This unaudited information should not be relied upon as being indicative of historical results that would have been obtained if the acquisition had occurred on that date, nor of the results that may be obtained in the future.

	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2017	
		2017	2016
(\$ in thousands, except per share amounts)			
Total Revenues	\$ 118,010	\$361,070	\$349,091

(1) - See Note 3 for details on the acquired intangible assets related to the Acquisition.

5. Investments

At September 30, 2017 and December 31, 2016, the Company's investments were as follows:

	September 30, December 31,	
	2017	2016
(\$ in thousands)		
Marketable securities	\$ 75,702	\$ 74,907
Equity method investments	10,570	7,731
Nonqualified retirement plan assets	6,813	5,808
Other investments	3,667	925
Total investments	\$ 96,752	\$ 89,371

Marketable Securities

Marketable securities consist primarily of investments in the Company's sponsored mutual funds, excluding the investments in consolidated investment products discussed in Note 15. The Company's marketable securities consist of both trading and available-for-sale securities. The composition of the Company's marketable securities is summarized as follows:

September 30, 2017

	Cost	Unrealized Loss	Unrealized Gain	Fair Value
(\$ in thousands)				
Trading:				
Sponsored funds	\$56,511	\$(1,141)	\$ 1,204	\$56,574
Equity securities	12,677	—	2,555	15,232
Available-for-sale:				
Sponsored closed-end funds	3,694	(260)	462	3,896
Total marketable securities	\$72,882	\$(1,401)	\$ 4,221	\$75,702

Table of Contents

December 31, 2016

	Cost	Unrealized Loss	Unrealized Gain	Fair Value
(\$ in thousands)				
Trading:				
Sponsored funds	\$61,784	\$ (1,942)	\$ 177	\$60,019
Equity securities	10,578	—	895	11,473
Available-for-sale:				
Sponsored closed-end funds	3,500	(265)	180	3,415
Total marketable securities	\$75,862	\$ (2,207)	\$ 1,252	\$74,907

For the three and nine months ended September 30, 2017, the Company recognized a net realized gain of \$0.3 million and net realized loss of \$1.6 million, respectively, on trading securities. For the three and nine months ended September 30, 2016, the Company recognized a net realized gain of \$0.1 million and a net realized loss of \$0.3 million, respectively, on trading securities.

6. Fair Value Measurements

The Company's assets and liabilities measured at fair value on a recurring basis, excluding the assets and liabilities of consolidated investment products, which are separately discussed in Note 15, as of September 30, 2017 and December 31, 2016 by fair value hierarchy level were as follows:

September 30, 2017

	Level 1	Level 2	Level 3	Total
(\$ in thousands)				
Assets				
Cash equivalents	\$96,500	\$ —	\$ —	\$96,500
Marketable securities - trading:				
Sponsored funds	56,574	—	—	56,574
Equity securities	15,232	—	—	15,232
Marketable securities - available-for-sale:				
Sponsored closed-end funds	3,896	—	—	3,896
Other investments:				
Investment in collateralized loan obligation	—	—	2,741	2,741
Nonqualified retirement plan assets	6,813	—	—	6,813
Total assets measured at fair value	\$179,015	\$ —	—\$2,741	\$181,756

Table of Contents

December 31, 2016

	Level 1	Level 2	Level 3	Total
(\$ in thousands)				
Assets				
Cash equivalents	\$48,620	\$ —	—\$	—\$48,620
Marketable securities - trading:				
Sponsored funds	60,019	—	—	60,019
Equity securities	11,473	—	—	11,473
Marketable securities - available-for-sale:				
Sponsored closed-end funds	3,415	—	—	3,415
Other investments				
Nonqualified retirement plan assets	5,808	—	—	5,808
Total assets measured at fair value	\$129,335	\$ —	—\$	—\$129,335

The following is a discussion of the valuation methodologies used for the Company's assets measured at fair value:

Cash equivalents represent investments in money market funds. Cash investments in actively traded money market funds are valued using published net asset values and are classified as Level 1.

Sponsored funds represent investments in open-end mutual funds and closed-end funds for which the Company acts as the investment manager. The fair value of open-end mutual funds is determined based on their published net asset values and are categorized as Level 1. The fair value of closed-end funds is determined based on the official closing price on the exchange on which they are traded and are categorized as Level 1.

Equity securities include securities traded on active markets and are valued at the official closing price (typically last sale or bid) on the exchange on which they are primarily traded and are categorized as Level 1.

Investment in collateralized loan obligations is measured at fair value based on independent third party valuations and is categorized as Level 3.

Nonqualified retirement plan assets represent open-end mutual funds within a nonqualified retirement plan whose fair value is determined based on their published net asset value and are categorized as Level 1.

Cash, accounts receivable, accounts payable and accrued liabilities equal or approximate fair value based on the short-term nature of these instruments.

Transfers into and out of levels are reflected when: (1) significant inputs used for the fair value measurement, including market inputs or performance attributes, become observable or unobservable; (2) when the Company determines it has the ability, or no longer has the ability, to redeem, in the near term, certain investments that the Company values using a net asset value; or (3) if the book value no longer represents fair value. There were no transfers between levels during the three and nine months ended September 30, 2017 and 2016.

The following table is a reconciliation of assets for Level 3 investments for which significant unobservable inputs were used to determine fair value.

Table of Contents

(\$ in thousands)	Three Months		Nine Months	
	Ended	Ended	Ended	Ended
	September 30,	September 30,	September 30,	September 30,
	2017	2016	2017	2016
Level 3 Investments (a)				
Balance at beginning of period	\$ 2,909	\$ —	\$ —	\$ —
Acquired in business combination		—	2,916	—
Change in unrealized (loss), net	(168)	—	(175)	—
Balance at end of period	\$ 2,741	\$ —	\$ —	\$ —

(a) The investments that are categorized as Level 3 were valued utilizing third-party pricing information without adjustment.

7. Equity Transactions

During the nine months ended September 30, 2017, the Company issued 1,150,000 shares of 7.25% mandatory convertible preferred stock ("MCPS") in a public offering, which included the exercise of the underwriters' over-allotment option, for net proceeds of \$111.0 million, after underwriting discounts, commissions and other offering expenses. During the same period, the Company also issued 1,260,169 shares of common stock consisting of: 1) 1,046,500 shares of common stock in a public offering, which included the exercise of the underwriters' over-allotment option, for net proceeds of \$109.5 million, after underwriting discounts, commissions and other offering expenses; and 2) 213,669 shares of the Company's common stock as part of the consideration for the acquisition of RidgeWorth. See Note 3 for further discussion of the Acquisition.

The MCPS has a liquidation preference of \$100.00 per share. Unless converted earlier, each share of MCPS will convert automatically on February 1, 2020 (the "mandatory conversion date") into between 0.7576 and 0.9091 shares of common stock, subject to customary anti-dilution adjustments. The number of shares of common stock issuable upon conversion will be determined based on the average volume-weighted price per share of the Company's common stock over the 20 consecutive trading day period beginning on, and including, the 22nd scheduled trading day immediately preceding the mandatory conversion date. Each share of MCPS can be converted prior to the mandatory conversion date, at the option of the holder, at the minimum conversion rate of 0.7576 or at a specified rate, in the event of a fundamental change as defined in the certificate of designations of the MCPS.

Dividends on the MCPS will be payable on a cumulative basis when, as and if declared by the Company's Board of Directors, at an annual rate of 7.25% on the liquidation preference of \$100.00 per share. If declared, these dividends will be paid in cash, or, subject to certain limitations, in shares of common stock (or a combination thereof) on February 1, May 1, August 1, and November 1 of each year, continuing to, and including, February 1, 2020.

On August 16, 2017, the Company declared a quarterly cash dividend of \$0.45 per common share to be paid on November 15, 2017 to shareholders of record at the close of business on October 31, 2017. The Company also declared a quarterly cash dividend of \$1.8125 per share on the Company's 7.25% MCPS to be paid on November 1, 2017 to shareholders of record at the close of business on October 15, 2017.

During the nine months ended September 30, 2017, the Company repurchased 66,244 common shares at a weighted average price of \$113.21 per share for a total cost, including fees and expenses, of approximately \$7.5 million. As of September 30, 2017, there were 133,756 shares available to be repurchased of a total of 3,430,045 shares of Company common stock that had been approved by the Company's Board of Directors. Under the terms of the program, the Company may repurchase shares of its common stock from time to time at its discretion through open market repurchases, privately negotiated transactions and/or other mechanisms, depending on price and prevailing market and business conditions. The program, which has no specified term, may be suspended or terminated at any time.

8. Accumulated Other Comprehensive Income (Loss)

The changes in accumulated other comprehensive income (loss) by component for the nine months ended September 30, 2017 and 2016 were as follows:

15

Table of Contents

	Unrealized Net Gains and (Losses) on Securities Available-for- Sale	Foreign Currency Translation Adjustments

Net current-period other comprehensive income (loss)	230	569
Balance September 30, 2016	\$ (235)	\$ —

9. Stock-Based Compensation

The Company's Amended and Restated Omnibus Incentive and Equity Plan (the "Plan") provides for the grant of equity-based awards, including restricted stock units ("RSUs"), stock options and unrestricted shares of common stock. As of September 30, 2017, a maximum of 2,400,000 shares of common stock were authorized for issuance under the Plan, and 496,870 shares remained available for issuance. Shares that are issued upon exercise of stock options and vesting of RSUs are newly issued shares from the Plan and are not issued from treasury stock.

Restricted Stock Units

Each RSU entitles the holder to one share of common stock when the restriction expires. RSUs generally have a term of one to three years and may be time-vested or performance-contingent. The fair value of each RSU is estimated using the intrinsic value method, which is based on the fair market value price on the date of grant unless it contains a performance metric that is considered a market condition. RSUs that contain a market condition are valued using a simulation valuation model. RSU activity for the nine months ended September 30, 2017 is summarized as follows:

	Weighted Number of Shares	Average Grant Date Fair Value
--	---------------------------------	-------------------------------------

Edgar Filing: VIRTUS INVESTMENT PARTNERS, INC. - Form 10-Q

Outstanding at December 31, 2016	302,824	\$ 111.56
Granted	274,392	\$ 108.25
Forfeited	(29,134)	\$ 121.06
Settled	(78,423)	\$ 140.86
Outstanding at September 30, 2017	469,659	\$ 104.14

16

Table of Contents

For the nine months ended September 30, 2017 and 2016, a total of 32,186 and 19,457 RSUs, respectively, were withheld by the Company as a result of net share settlements to settle minimum employee tax withholding obligations. The Company paid \$3.4 million and \$1.5 million for the nine months ended September 30, 2017 and 2016, respectively, in minimum employee tax withholding obligations related to RSUs withheld. These net share settlements had the effect of share repurchases by the Company as they reduced the number of shares that would have been otherwise issued as a result of the vesting.

During the nine months ended September 30, 2017, the Company granted 87,458 RSUs which contain performance-based metrics in addition to a service condition (Performance Share Units or "PSUs"). Compensation expense for these PSUs is recognized over a three-year service period based upon the value determined using a combination of the intrinsic value method, for awards that contain a performance metric that represents a "performance condition" in accordance with ASC 718, and the Monte Carlo simulation valuation model, for awards under the performance metric that represents a "market condition" under ASC 718. Compensation expense for the awards that contain a market condition is fixed at the date of grant and will not be adjusted in future periods based upon the achievement of the market condition. Compensation expense for the awards with a performance condition is recorded each period based upon a probability assessment of the expected outcome of the performance metric with a final adjustment upon the final outcome. For the nine months ended September 30, 2017, total stock-based compensation expense was \$4.1 million for these PSUs.

On June 1, 2017, the Company also granted 35,148 PSUs and 65,561 RSUs to certain RidgeWorth employees in connection with the Acquisition in order to replace incentives that were in place prior to the Acquisition. The PSUs will vest if certain performance measures are met over a five-year period, with the ability for accelerated vesting if those same conditions are met by year four. The RSUs contain only a service condition and will vest over four years beginning with year two. For the nine months ended September 30, 2017, total stock-based compensation expense was \$0.8 million for these PSUs and RSUs.

The Company recognized total stock compensation expense of \$15.0 million and \$9.1 million, for the nine months ended September 30, 2017 and 2016, respectively. As of September 30, 2017, unamortized stock-based compensation expense for unvested RSUs and PSUs was \$32.4 million, with a weighted-average remaining amortization period of two years.

Stock Options

Stock options generally cliff vest after three years and have a contractual life of 10 years. Stock options are granted with an exercise price equal to the fair market value of the shares at the date of grant.

Stock option activity for the nine months ended September 30, 2017 is summarized as follows:

	Number of Shares	Weighted Average Exercise Price
Outstanding at December 31, 2016	137,157	\$ 17.77
Granted	—	\$ —
Exercised	(26,749)	\$ 23.43
Forfeited	—	\$ —
Outstanding at September 30, 2017	110,408	\$ 16.40

10. Restructuring and Severance

During the three months ended September 30, 2017, the Company incurred \$0.5 million in severance costs related to staff reductions in connection with the Acquisition and the Company's outsourcing activities and \$1.0 million in restructuring costs related to future lease obligations and leasehold improvement write-offs for vacated office space.

During the nine months ended September 30, 2017, the Company incurred \$9.4 million in severance costs related to staff reductions in connection with the Acquisition and the Company's outsourcing activities and \$1.0 million in restructuring costs related to future lease obligations and leasehold improvement write-offs for vacated office space. Total unpaid severance and related charges as of September 30, 2017 was \$6.8 million, which the Company expects to pay over the next three years. The Company expects to incur additional severance costs in connection with the Acquisition of approximately \$0.3 million related to one-time termination benefits that are being earned over a transition period.

Table of Contents

11. Earnings per Share

Basic earnings per share (“EPS”) is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period, excluding dilution for potential common stock issuances. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, including: (1) shares issuable upon the vesting of RSUs and common stock option exercises using the treasury stock method; and (2) shares issuable upon the conversion of the Company's MCPS, as determined under the if-converted method. For purposes of calculating diluted EPS, preferred stock dividends have been subtracted from net income (loss) in periods in which utilizing the if-converted method would be anti-dilutive.

The computation of basic and diluted EPS is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
(\$ in thousands, except per share amounts)				
Net Income (Loss)	\$20,523	\$16,276	\$34,296	\$36,846
Noncontrolling interests	(1,731)	(651)	(2,782)	(770)
Net Income (Loss) Attributable to Stockholders	18,792	15,625	31,514	36,076
Preferred stock dividends	(2,084)	—	(6,252)	—
Net Income (Loss) Attributable to Common Stockholders	\$16,708	\$15,625	\$25,262	\$36,076
Shares (in thousands):				
Basic: Weighted-average number of shares outstanding	7,212	7,676	6,942	8,062
Plus: Incremental shares from assumed conversion of dilutive instruments	1,280	178	226	161
Diluted: Weighted-average number of shares outstanding	8,492	7,854	7,168	8,223
Earnings (Loss) per Share—Basic	\$2.32	\$2.04	\$3.64	\$4.47
Earnings (Loss) per Share—Diluted	\$2.21	\$1.99	\$3.52	\$4.39

The following table details the securities that have been excluded from the above computation of weighted-average number of shares for diluted EPS, because the effect would be anti-dilutive.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
(in thousands)				
Restricted stock units and stock options	4	12	4	11
Preferred stock	—	—	878	—
Total anti-dilutive securities	4	12	882	11

12. Income Taxes

In calculating the provision for income taxes, the Company uses an estimate of the annual effective tax rate based upon the facts and circumstances at each interim period. On a quarterly basis, the estimated annual effective tax rate is adjusted, as appropriate, based upon changes in facts and circumstances, if any, as compared to those forecasted at the

beginning of the fiscal year and at each interim period thereafter.

The provision for income taxes reflected U.S. federal, state and local taxes at an estimated effective tax rate of 31.7% and 35.8% for the nine months ended September 30, 2017 and 2016, respectively. The decrease in the estimated effective tax rate was primarily due to changes in the valuation allowances related to market adjustments on the Company's marketable securities, as well as an increase in the valuation allowance associated with net operating losses that could expire before being utilized.

18

Table of Contents

13. Debt

Credit Agreement

On June 1, 2017, in connection with the Acquisition, the Company entered into a new credit agreement ("Credit Agreement") comprised of (1) \$260.0 million of seven-year term debt ("Term Loan") and (2) a \$100.0 million five-year revolving credit facility ("Credit Facility"). Additionally, as a result of the Credit Agreement, the Company's previous revolving credit facility and December 16, 2016 debt financing commitment were terminated. During the nine months ended September 30, 2017, the Company expensed approximately \$1.1 million of unamortized deferred financing costs related to the previous senior unsecured revolving credit facility. At September 30, 2017, \$260.0 million was outstanding.

Amounts outstanding under the Credit Agreement for the Term Loan and the Credit Facility bear interest at an annual rate equal to, at the option of the Company, either (i) LIBOR (adjusted for reserves) for interest periods of one, two, three or six months (or, solely in the case of the Credit Facility, if agreed to by each relevant Lender, twelve months or periods less than one month), subject to a "floor" of 0% for the Credit Facility and 0.75% for the Term Loan, or (ii) an alternate base rate, in either case plus an applicable margin. The applicable margins are set initially at 3.75%, in the case of LIBOR-based loans, and 2.75%, in the case of alternate base rate loans, and will range from 3.50% to 3.75%, in the case of LIBOR-based loans, and 2.50% to 2.75%, in the case of alternate base rate loans, based on the secured net leverage ratio of the Company as of the last day of the preceding fiscal quarter. Interest is payable on the last day of each interest period with respect to LIBOR-based loans, but at least at three-month intervals, and quarterly in arrears with respect to alternate base rate loans (but, in the case of LIBOR-based loans with an interest period of more than three months).

The obligations of the Company under the Credit Agreement are guaranteed by certain of its subsidiaries (the "Guarantors") and secured by substantially all of the assets of the Company and the Guarantors, subject to customary exceptions. The Credit Agreement contains customary affirmative and negative covenants, including covenants that affect, among other things, the ability of the Company and its subsidiaries to incur additional indebtedness, create liens, merge or dissolve, make investments, dispose of assets, engage in sale and leaseback transactions, purchase shares of our common stock, make distributions and dividends and pre-payments of junior indebtedness, engage in transactions with affiliates, enter into restrictive agreements, amend documentation governing junior indebtedness, modify its fiscal year, or modify its organizational documents, subject to customary exceptions, thresholds, qualifications and "baskets." In addition, the Credit Agreement contains a financial maintenance covenant, requiring a maximum leverage ratio, as of the last day of each of the trailing four fiscal quarter periods, of no greater than the levels set forth in the Credit Agreement.

At any time, upon timely notice, the Company may terminate the Credit Agreement in full, reduce the commitment under the Credit Facility in minimum specified increments, or prepay the Term Loan in whole or in part, subject to the payment of breakage fees with respect to LIBOR-based loans and, in the case of any Term Loans that are prepaid in connection with a "repricing transaction" occurring within the six-month period following the closing date, a 1.00% premium.

Term Loan

The Term Loan, which was priced on March 2, 2017, had a delayed draw fee of \$1.2 million between March 2, 2017 and the closing date of June 1, 2017. The Term Loan amortizes at the rate of 1.00% per annum payable in equal

quarterly installments and will be mandatorily repaid with: (a) 50% of the Company's excess cash flow, as defined in the Credit Agreement, on an annual basis, beginning with the fiscal year ended December 31, 2018, stepping down to 25% if the Company's secured net leverage ratio declines below 1.0, and further stepping down to 0% if the Company's secured net leverage ratio declines below 0.5; (b) the net proceeds of certain asset sales, casualty or condemnation events, subject to customary reinvestment rights; and (c) the proceeds of any indebtedness incurred other than indebtedness permitted to be incurred by the Credit Agreement.

Credit Facility

At September 30, 2017, no amounts were outstanding under the Credit Facility. The Company has the right, subject to customary conditions specified in the Credit Agreement, to request additional revolving credit facility commitments and additional term loans to be made under the Credit Agreement up to an aggregate amount equal to the sum of (x) \$75.0 million and (y) an amount subject to a pro forma secured net leverage ratio of the Company of no greater than 1.75 to 1.00.

Table of Contents

Under the terms of the Credit Agreement, the Company is required to pay a quarterly commitment fee on the average unused amount of the Credit Facility, which fee is initially set at 0.50% and will, following the first delivery of certain financial reports required under the Credit Agreement, range from 0.375% to 0.50%, based on the secured net leverage ratio of the Company as of the last day of the preceding fiscal quarter, as reflected in such financial reports.

14. Commitments and Contingencies

Legal Matters

The Company is regularly involved in litigation and arbitration as well as examinations, inquiries and investigations by various regulatory bodies, including the Securities and Exchange Commission ("SEC"), involving its compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker-dealers and other laws and regulations affecting its products and other activities. Legal and regulatory matters of this nature involve or may involve but are not limited to the Company's activities as an employer, issuer of securities, investor, investment adviser, broker-dealer or taxpayer. In addition, in the normal course of business, the Company discusses matters with its regulators raised during regulatory examinations or is otherwise subject to their inquiry. These matters could result in censures, fines, penalties or other sanctions.

The Company accrues for a liability when it is both probable that a liability has been incurred and the amount of the liability can be reasonably estimated. Significant judgment is required in both the determination of probability and the determination as to whether a loss is reasonably estimable. In addition, in the event the Company determines that a loss is not probable, but is reasonably possible, and it becomes possible to develop what the Company believes to be a reasonable range of possible loss, then the Company will include disclosures related to such matter as appropriate and in compliance with ASC 450, Loss Contingencies. The disclosures, accruals or estimates, if any, resulting from the foregoing analysis are reviewed at least quarterly and adjusted to reflect the impact of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular matter. Based on information currently available, available insurance coverage, indemnities and established reserves, the Company believes that the outcomes of its legal and regulatory proceedings are not likely, either individually or in the aggregate, to have a material adverse effect on the Company's results of operations, cash flows or its consolidated financial condition. However, in the event of unexpected subsequent developments and given the inherent unpredictability of these legal and regulatory matters, the Company can provide no assurance that its assessment of any claim, dispute, regulatory examination or investigation or other legal matter will reflect the ultimate outcome and an adverse outcome in certain matters could, from time to time, have a material adverse effect on the Company's results of operations or cash flows in particular quarterly or annual periods.

In re Virtus Investment Partners, Inc. Securities Litigation; formerly Tom Cummins v. Virtus Investment Partners Inc. et al

On February 20, 2015, a putative class action complaint alleging violations of certain provisions of the federal securities laws was filed by an individual shareholder against the Company and certain of the Company's current officers (the "defendants") in the United States District Court for the Southern District of New York (the "Court"). On April 21, 2015, three plaintiffs, including the original plaintiff, filed motions to be appointed lead plaintiffs and, on June 9, 2015, the Court appointed Arkansas Teachers Retirement System lead plaintiff. On August 21, 2015, the plaintiff filed a Consolidated Class Action Complaint (the "Consolidated Complaint") amending the originally filed complaint, which was purportedly filed on behalf of all purchasers of the Company's common stock between January 25, 2013 and May 11, 2015 (the "Class Period"). The Consolidated Complaint alleges that, during the Class Period, the defendants disseminated materially false and misleading statements and concealed material adverse facts relating to certain funds formerly subadvised by F-Squared Investments Inc. ("F-Squared"). The Consolidated Complaint alleges claims under Sections 10(b) and 20(a) of the Exchange Act, and Rule 10b-5. The plaintiff seeks to recover unspecified damages. A motion to dismiss the Consolidated Complaint was filed on behalf of the Company and the other

defendants on October 21, 2015. On July 1, 2016, the Court entered an opinion and order granting in part, and denying in part, the motion to dismiss, narrowing Plaintiff's claims under Sections 10(b) and 20(a) of the Exchange Act and dismissing one of the defendants from the suit. The remaining defendants' Answer to the Consolidated Complaint was filed on August 5, 2016. Plaintiff's motion for class certification was granted on May 15, 2017. Discovery has since been completed. On October 6, 2017, defendants moved for summary judgment, and briefing on that motion is expected to be completed on December 21, 2017. The Company believes that the suit is without merit and intends to defend it vigorously. The Company believes that there is not a material loss that is probable and reasonably estimable related to this claim.

Mark Youngers v. Virtus Investment Partners, Inc. et al

Table of Contents

On May 8, 2015, a putative class action complaint alleging violations of certain provisions of the federal securities laws was filed in the United States District Court for the Central District of California (the "District Court") by an individual who alleges he is a former shareholder of one of the Virtus mutual funds formerly subadvised by F-Squared and formerly known as the AlphaSector Funds. The complaint alleges claims against the Company, certain of the Company's officers and affiliates, and certain other parties (the "defendants"). The complaint was purportedly filed on behalf of purchasers of the AlphaSector Funds between May 8, 2010 and December 22, 2014, inclusive (the "Class Period"). The complaint alleges that, during the Class Period, the defendants disseminated materially false and misleading statements and concealed or omitted material facts necessary to make the statements made not misleading. On June 7, 2015, a group of three individuals, including the original plaintiff, filed a motion to be appointed lead plaintiff, and on July 27, 2015, the District Court appointed movants as lead plaintiff. On October 1, 2015, the plaintiffs filed a First Amended Class Action Complaint which, among other things, added a derivative claim for breach of fiduciary duty on behalf of Virtus Opportunities Trust. On October 19, 2015, the District Court entered an order transferring the action to the Southern District of New York (the "Court"). On January 4, 2016, the Plaintiffs filed a Second Amended Complaint. A motion to dismiss was filed on behalf of the Company and affiliated defendants on February 1, 2016. On July 1, 2016, the Court entered an opinion and order granting in part, and denying in part, the motion to dismiss. The Court dismissed four causes of action entirely and a fifth cause of action with respect to a portion of the Class Period. The Court also dismissed all claims against ten defendants named in the Complaint. The Court held that the Plaintiffs may pursue certain securities claims under Sections 10(b) and 20(a) of the Exchange Act and Section 12 of the Securities Act of 1933. The remaining defendants filed an Answer to the Second Amended Complaint on August 5, 2016. A Stipulation of Voluntary Dismissal of the claim under Section 12 of the Securities Act was filed on September 15, 2016. The defendants filed a motion to certify an interlocutory appeal of the July 1, 2016 order to the Court of Appeals for the Second Circuit on August 26, 2016. The motion was denied on January 6, 2017. Plaintiff's motion for class certification was denied on May 15, 2017. On July 28, 2017 Plaintiffs filed a motion seeking leave to amend their complaint to address deficiencies identified by the Court in its orders dismissing, in part, plaintiffs' Second Amended Complaint and denying class certification. Briefing on that motion was completed, and a hearing was held on September 7, 2017, where the court reserved decision. The Company believes that the suit has no basis in law or fact and intends to defend it vigorously. The Company believes that there is not a material loss that is probable and reasonably estimable related to this claim.

15. Consolidation

The condensed consolidated financial statements include the accounts of the Company, its subsidiaries and investment products that are consolidated. Voting interest entities ("VOEs") are consolidated when the Company is considered to have a controlling financial interest, which is typically present when the Company owns a majority of the voting interest in an entity or otherwise has the power to govern the financial and operating policies of the entity.

The Company evaluates any variable interest entities ("VIEs") in which the Company has a variable interest for consolidation. A VIE is an entity in which either: (a) the equity investment at risk is not sufficient to permit the entity to finance its own activities without additional financial support; or (b) where as a group, the holders of the equity investment at risk do not possess: (i) the power through voting or similar rights to direct the activities that most significantly impact the entity's economic performance, (ii) the obligation to absorb expected losses or the right to receive expected residual returns of the entity or (iii) proportionate voting and economic interests and where substantially all of the entity's activities either involve or are conducted on behalf of an investor with disproportionately fewer voting rights. If an entity has any of these characteristics, it is considered a VIE and is required to be consolidated by its primary beneficiary. The primary beneficiary is the entity that has both the power to direct the activities that most significantly impact the VIE's economic performance and has the obligation to absorb losses of, or the right to receive benefits from, the VIE that could potentially be significant to the VIE.

In the normal course of its business, the Company sponsors various investment products, some of which are consolidated by the Company. Consolidated investment products include both VOEs, made up primarily of open-end funds in which the Company holds a controlling financial interest, and VIEs, which primarily consist of collateralized loan obligations ("CLOs") of which the Company is considered the primary beneficiary. The consolidation and deconsolidation of these investment products have no impact on net income (loss) attributable to stockholders. The Company's risk with respect to these investment products is limited to its beneficial interests in these products. The Company has no right to the benefits from, and does not bear the risks associated with, these investment products beyond the Company's investments in, and fees generated from, these products.

Table of Contents

The following table presents the balances of the consolidated investment products that, after intercompany eliminations, are reflected in the Condensed Consolidated Balance Sheets as of September 30, 2017 and December 31, 2016:

	As of			December 31, 2016		
	September 30, 2017			December 31, 2016		
	VOEs	VIEs CLOs	Other	VOEs	VIEs CLOs	Other
(\$ in thousands)						
Cash and cash equivalents	\$756	\$217,747	\$3,415	\$1,859	\$14,449	\$2,775
Investments	33,053	1,494,992	67,682	99,247	346,967	42,828
Other assets	790	34,847	1,303	2,211	5,888	1,059
Notes payable	—	(1,455,932)	—	—	(328,761)	—
Securities purchased payable and other liabilities	(1,422)	(188,270)	(1,620)	(2,310)	(12,534)	(1,799)
Noncontrolling interests	(3,821)	(16,487)	(63,406)	(12,505)	—	(24,761)
The Company's net interests in consolidated investment vehicles	\$29,356	\$86,897	\$7,374	\$88,502	\$26,009	\$20,102

Consolidated CLOs

The majority of the Company's consolidated investment products that are VIEs are CLOs. At September 30, 2017, the Company consolidated four CLOs. The financial information of certain CLOs is included in the Company's consolidated financial statements on a one-month lag based upon the availability of financial information. Majority-owned consolidated private funds, whose primary purpose is to invest in CLOs for which the Company serves as the collateral manager, are also included.

Investments of CLOs

The CLOs investments of \$1.5 billion at September 30, 2017 represent bank loan investments, which comprise the majority of the CLOs' portfolio asset collateral and are senior secured corporate loans across a variety of industries. These bank loan investments mature at various dates between 2018 and 2030 and pay interest at LIBOR plus a spread of up to 9.5%. At September 30, 2017, the fair value of the senior bank loans exceeded the unpaid principal balance by approximately \$6.2 million. At September 30, 2017, there were no collateral assets in default.

Notes Payable of CLOs

The CLOs hold notes payable with a total value, at par, of \$1.7 billion, consisting of senior secured floating rate notes payable with a par value of \$1.5 billion and subordinated notes with a par value of \$139.8 million. These note obligations bear interest at variable rates based on LIBOR plus a pre-defined spread ranging from 1.0% to 8.75%. The principal amounts outstanding of the note obligations issued by the CLOs mature on dates ranging from April 2018 to October 2029. The CLOs may elect to reinvest any prepayments received on bank loan investments between October 2019 and October 2021, depending on the CLO. Generally, subsequent prepayments received after the reinvestment period must be used to pay down the note obligations.

The Company's beneficial interests and maximum exposure to loss related to these consolidated CLOs is limited to: (i) ownership in the subordinated notes and (ii) accrued management fees. The secured notes of the consolidated CLOs have contractual recourse only to the related assets of the CLO and are classified as financial liabilities. Although these beneficial interests are eliminated upon consolidation, the application of the measurement alternative, as adopted on January 1, 2016, prescribed by ASU 2014-13, results in the net assets of the consolidated CLOs shown above to be

equivalent to the beneficial interests retained by the Company at September 30, 2017, as shown in the table below:

Table of Contents

	As of September 30, 2017
(\$ in thousands)	
Subordinated notes	\$ 85,963
Accrued investment management fees	934
Total Beneficial Interests	\$ 86,897

The following table represents income and expenses of the consolidated CLOs included in the Company's Condensed Consolidated Statements of Operations for the period indicated:

	Nine Months Ended September 30, 2017
(\$ in thousands)	
Income:	
Realized and unrealized gain (loss), net	\$ 11,063
Interest income	25,458
Other income	542
Total Income	37,063
Expenses:	
Other operating expenses	6,404
Interest expense	22,101
Total Expense	28,505
Noncontrolling interest	(1,073)
Net Income (loss) attributable to CIPs	\$ 7,485

As summarized in the table below, the application of the measurement alternative as prescribed by ASU 2014-13 results in the consolidated net income summarized above to be equivalent to the Company's own economic interests in the consolidated CLOs, which are eliminated upon consolidation:

	Nine Months Ended September 30, 2017
(\$ in thousands)	
Distributions received and unrealized gains on the subordinated notes held by the Company	\$ 4,783
Investment management fees	2,702
Total Economic Interests	\$ 7,485

Table of Contents

Fair Value Measurements of Consolidated Investment Products

The assets and liabilities of the consolidated investment products measured at fair value on a recurring basis as of September 30, 2017 and December 31, 2016 by fair value hierarchy level were as follows:

As of September 30, 2017

	Level 1	Level 2	Level 3	Total
(\$ in thousands)				
Assets				
Cash equivalents	\$217,708	\$—	\$—	\$217,708
Debt investments	—	1,511,791	48,760	1,560,551
Equity investments	34,614	—	562	35,176
Total Assets Measured at Fair Value	\$252,322	\$1,511,791	\$49,322	\$1,813,435
Liabilities				
Notes payable	\$—	\$1,455,932	\$—	\$1,455,932
Derivatives	2	—	—	2
Short sales	751	—	—	751
Total Liabilities Measured at Fair Value	\$753	\$1,455,932	\$—	\$1,456,685

As of December 31, 2016

	Level 1	Level 2	Level 3	Total
(\$ in thousands)				
Assets				
Cash equivalents	\$14,449	\$—	\$—	\$14,449
Debt investments	—	448,477	87	448,564
Equity investments	40,270	208	—	40,478
Derivatives	4	—	—	4
Total Assets Measured at Fair Value	\$54,723	\$448,685	\$87	\$503,495
Liabilities				
Notes payable	\$—	\$328,761	\$—	\$328,761
Derivatives	3	235	62	300
Short sales	649	—	—	649
Total Liabilities Measured at Fair Value	\$652	\$328,996	\$62	\$329,710

The following is a discussion of the valuation methodologies used for the assets and liabilities of the Company's CIPs measured at fair value:

Cash equivalents represent investments in money market funds. Cash investments in actively traded money market funds are valued using published net asset values and are classified as Level 1.

Debt and equity investments represent the underlying debt, equity and other securities held in consolidated investment products. Equity investments are valued at the official closing price on the exchange on which the securities are traded and are generally categorized within Level 1. Level 2 investments represent most debt securities, including bank loans and certain equity securities (including non-US securities), for which closing prices are not readily available or are deemed to not reflect readily available market prices, and are valued using an independent pricing service. Debt investments are valued based on quotations received from independent pricing services or from dealers who make markets in such securities. Bank loan investments, which are included as debt investments are generally priced at the average mid-point of bid and ask quotations obtained from a third-party pricing service. Fair value may also be based upon valuations obtained from independent third-party brokers or dealers utilizing matrix pricing models that consider information regarding securities with similar characteristics. In certain instances, fair value has been determined utilizing discounted cash flow analyses or single broker non-binding quotes. Depending on the nature of the inputs,

Table of Contents

these assets are classified as Level 1, 2 or 3 within the fair value measurement hierarchy. Level 3 investments include debt securities that are not widely traded, are illiquid, or are priced by dealers based on pricing models used by market makers in the security.

For the nine months ended September 30, 2017 and 2016, securities held by consolidated investment products with an end-of-period value of \$0.0 million and \$0.3 million, respectively, were transferred from Level 2 to Level 1 because an exchange price became available. For the nine months ended September 30, 2017 and 2016, securities held by consolidated investment products with an end-of-period value of \$0.0 million and \$0.5 million, respectively, were transferred from Level 1 to Level 2 because certain non-U.S. securities-quoted market prices were adjusted based on third-party factors derived from model-based valuation techniques for which the significant assumptions were observable in the market.

Notes payable represent notes issued by consolidated investments products that are CLOs and are measured using the measurement alternative in ASU 2014-13. Accordingly, the fair value of CLO liabilities was measured as the fair value of CLO assets less the sum of: (a) the fair value of the beneficial interests held by the Company and (b) the carrying value of any beneficial interests that represent compensation for services.

Short Sales are transactions in which a security is sold which is not owned or is owned but there is no intention to deliver, in anticipation that the price of the security will decline. Short sales are recorded in the Condensed Consolidated Balance Sheets within other liabilities of CIPs and are classified as level 1 based on the underlying equity security.

The securities purchase payable at September 30, 2017 and December 31, 2016 approximated fair value due to the short-term nature of the instruments.

The following table is a reconciliation of assets of consolidated investment products for Level 3 investments for which significant unobservable inputs were used to determine fair value.

	Nine Months Ended September 30,	
(\$ in thousands)	2017	2016
Level 3 Debt securities (a)		
Balance at beginning of period	\$25	\$1,397
Realized gains(losses), net	(90) (356)
Change in unrealized gains (losses), net	87	350
Acquired in business combination	9,151	—
Purchases	1,212	163
Paydowns	—	(5)
Amortization	12	—
Sales	(765)	(1,461)
Transferred to Level 2	44,634	—
Transfers from Level 2	(4,944)	58
Balance at end of period	\$49,322	\$146

The investments that are categorized as Level 3 were valued utilizing third-party pricing information without (a) adjustment. All transfers are deemed to occur at the end of period. Transfers between Level 2 and Level 3 were due to a decrease in trading activities at period end.

Nonconsolidated VIEs

The Company serves as the collateral manager for other collateralized loan and collateralized bond obligations (collectively, “CDOs”) that are not consolidated. The assets and liabilities of these CDOs reside in bankruptcy remote, special purpose entities in which the Company has no ownership, nor holds any notes issued by, the CDOs, and provides neither recourse nor guarantees. The Company has determined that the investment management fees it receives for serving as collateral manager for these CDOs did not represent a variable interest as: (1) the fees the Company earns are compensation for services provided and are

25

Table of Contents

commensurate with the level of effort required to provide the investment management services; (2) the Company does not hold other interests in the CDOs that individually, or in the aggregate, would absorb more than an insignificant amount of the CDO's expected losses or receive more than an insignificant amount of the CDO's expected residual return; and (3) the investment management arrangement only includes terms, conditions and amounts that are customarily present in arrangements for similar services negotiated at arm's length.

The Company has interests in certain other entities that are VIEs that the Company does not consolidate as it is not the primary beneficiary of those entities. The Company is not the primary beneficiary as its interest in these entities does not provide the Company with the power to direct the activities that most significantly impact the entities' economic performance. At September 30, 2017, the carrying value and maximum risk of loss related to the Company's interest in these VIEs was \$14.7 million.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Statement Regarding Forward Looking Statements

This Quarterly Report on Form 10-Q contains statements that are, or may be considered to be, forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995, as amended, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements that are not historical facts, including statements about our beliefs or expectations, are forward-looking statements. These statements may be identified by such forward-looking terminology as “expect,” “estimate,” “intent,” “plan,” “intend,” “believe,” “anticipate,” “may,” “will,” “should,” “could,” “continue,” “project,” “predict,” “future,” “forecast,” “guarantee,” “assume,” “likely,” “target” or similar statements or variations of such terms. Our forward-looking statements are based on a series of expectations, assumptions and projections about our Company and the markets in which we operate. Our financial statements are not guarantees of future results or performance and involve substantial risks and uncertainty, including assumptions and projections concerning our assets under management, net cash inflows and outflows, operating cash flows, and future credit facilities, for all future periods. All of our statements contained in this Quarterly Report on Form 10-Q are as of the date of this Quarterly Report on Form 10-Q only.

We can give no assurance that such expectations or forward-looking statements will prove to be correct. Actual results may differ materially. We do not undertake or plan to update or revise any such forward-looking statements to reflect actual results, changes in plans, assumptions, estimates or projections, or other circumstances occurring after the date of this Quarterly Report on Form 10-Q, even if such results, changes or circumstances make it clear that any forward-looking information will not be realized. If there are any future public statements or disclosures by us which modify or impact any of the forward-looking statements contained in or accompanying this Quarterly Report on Form 10-Q, such statements or disclosures will be deemed to modify or supersede such statements in this Quarterly Report.

Our business and our forward-looking statements involve substantial known and unknown risks and uncertainties, including those discussed under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2016 Annual Report on Form 10-K, as well as the following risks and uncertainties: (a) any reduction in our assets under management; (b) the withdrawal, renegotiation or termination of investment advisory agreements; (c) damage to our reputation; (d) failure to comply with investment guidelines or other contractual requirements; (e) the inability to attract and retain key personnel; (f) challenges from the competition we face in our business; (g) adverse regulatory and legal developments; (h) unfavorable changes in tax laws or limitations; (i) adverse developments related to unaffiliated subadvisers; (j) negative implications of changes in key distribution relationships; (k) interruptions in or failure to provide service by third parties; (l) volatility associated with our common and preferred stock; (m) adverse civil litigation and government investigations or proceedings; (n) the risk of loss on our investments; (o) the inability to make quarterly common and preferred stock distributions; (p) the lack of sufficient capital on satisfactory terms; (q) liabilities and losses not covered by insurance; (r) the inability to satisfy financial covenants; (s) the inability to achieve expected acquisition-related financial benefits and synergies, and other risks and uncertainties described in our 2016 Annual Report on Form 10-K or in any of our filings with the Securities and Exchange Commission (“SEC”).

Certain other factors which may impact our continuing operations, prospects, financial results, and liquidity or which may cause actual results to differ from such forward-looking statements are discussed or included in the Company’s periodic reports filed with the SEC and are available on our website at www.virtus.com under “Investor Relations.” You are urged to carefully consider all such factors.

Overview

We are a provider of investment management and related services to individuals and institutions. We use a multi-manager, multi-style approach, offering investment strategies from affiliated managers and unaffiliated subadvisers, each having its own distinct investment style, autonomous investment process and individual brand. By offering a broad array of products, we believe we can appeal to a greater number of investors, which allows us to have offerings across market cycles through changes in investor preferences. Our earnings are primarily driven by asset-based fees charged for services relating to these various products, including investment management, fund administration, distribution and shareholder services.

We offer investment strategies for individual and institutional investors in different product structures and through multiple distribution channels. Our investment strategies are available in a diverse range of styles and disciplines, managed by

27

Table of Contents

a collection of boutique investment managers, both affiliated and unaffiliated. We have offerings in various asset classes (domestic and international equity, fixed income and alternative), in all market capitalizations (large, mid and small), in different styles (growth, blend and value), and with various investment approaches (fundamental, quantitative and thematic). Our retail products include open-end funds, closed-end funds, exchange traded funds ("ETFs") and retail separate accounts. We also offer certain of our investment strategies to institutional clients.

We distribute our open-end funds and ETFs principally through financial intermediaries. We have broad distribution access in the retail market, with distribution partners that include national and regional broker-dealers, independent broker-dealers and registered investment advisors, banks, and insurance companies. In many of these firms, we have a number of products that are on firms' preferred "recommended" lists and on fee-based advisory programs. Our sales efforts are supported by regional sales professionals, a national accounts relationship group, and separate teams for ETFs and retirement and insurance products.

Our retail separate accounts are distributed through financial intermediaries and directly by teams at one of our affiliated managers. Our institutional distribution strategy is an affiliate-centric and coordinated model. Through relationships with consultants, our affiliates target key market segments, including foundations and endowments, corporate, public and private pension plans, and unaffiliated subadvised mutual funds.

Financial Highlights

Net earnings per diluted share was \$2.21 in the third quarter of 2017.

Total sales (inflows) were \$4.6 billion in the third quarter of 2017, an increase of \$1.5 billion, or 48.3%, from \$3.1 billion in the third quarter of 2016. Net flows were \$0.2 billion in the third quarter of 2017 compared to \$0.5 billion in the third quarter of 2016.

Long-term assets under management were \$87.1 billion at September 30, 2017, an increase of \$40.6 billion from September 30, 2016.

Acquisition of RidgeWorth

On June 1, 2017, we completed the acquisition of RidgeWorth Investments (the "Acquisition" or the "Acquired Business"). RidgeWorth managed approximately \$40.1 billion in assets under management as of June 1, 2017, including \$35.7 billion in long term assets under management and \$4.4 billion in liquidity strategies. The Acquisition significantly increased our assets under management, and provided a wider range of strategies for institutional and individual investors, and broader distribution and client service resources.

Total consideration for the Acquisition was \$547.1 million, comprising \$485.2 million for the business and \$61.9 million for certain balance sheet investments. At the closing, we paid \$471.4 million in cash, issued 213,669 shares of our common stock with a value of \$21.7 million based on a stock price of \$101.76, and recorded \$51.7 million in contingent consideration and \$2.3 million in deferred cash consideration. The conditions for the \$51.7 million of contingent consideration were met as of September 30, 2017, and we expect to pay this amount during the fourth quarter of 2017.

Assets Under Management

At September 30, 2017, total assets under management were \$90.6 billion, representing an increase of \$44.0 billion, or 94.6% from September 30, 2016 and an increase of \$45.2 billion, or 99.6%, from December 31, 2016. The increase in assets under management from December 31, 2016 was primarily due to the Acquired Business which added \$40.1 billion as of June 1, 2017, market appreciation of \$6.2 billion, and positive flows of \$0.6 billion.

Average long-term assets under management, which represent the majority of our fee-earning asset levels, were \$64.3 billion for the nine months ended September 30, 2017, an increase of \$19.0 billion, or 41.9%, from \$45.3 billion for the nine months ended September 30, 2016. The increase in long-term average assets under management compared to September 30, 2016 was primarily due to the Acquisition and the cumulative impact of market appreciation.

Operating Results

28

Table of Contents

In the third quarter of 2017, total revenues increased 50.2% to \$123.7 million from \$82.3 million in the third quarter of 2016, primarily as a result of \$32.5 million of additional revenues from the Acquired Business. Operating income was relatively flat at \$16.8 million in the third quarter of 2017 compared to \$16.5 million in the third quarter of 2016. The third quarter of 2017 included \$4.9 million and \$4.9 million, respectively, in higher amortization of intangible assets and other operating expenses related to acquisition and integration costs.

Assets Under Management by Product

(1) Represents assets under management of U.S. 1940 Act mutual funds and Undertakings for Collective Investments in Transferable Securities ("UCITS")

(2) Averages are calculated as follows:

- Funds - average daily or weekly balances
- Retail Separate Accounts - prior quarter ending balance or average of month-end balances in quarter
- Institutional Accounts - average of month-end balances in quarter

(3) Represents assets under management in liquidity strategies, including open-end funds and institutional accounts

Average fees earned represent investment management fees net of fees paid to third-party service providers for investment management related services and investment management fees earned from consolidated investment products, divided by average net assets. Open-end mutual fund, closed end fund and exchange traded fund fees are calculated based on average daily or weekly net assets. Retail separate account fees are calculated based on the end of the preceding or current quarter's asset values or on an average of month-end balances. Institutional account fees are calculated based on an average of month-end balances or current quarter's asset values. Structured products fees are

calculated based on a combination of the underlying cash flows and the principal value of the product. Average fees earned will vary based on several factors, including the asset mix and reimbursements to funds.

Table of Contents

The average fee rate earned for the three and nine months ended September 30, 2017 decreased by 8.4 and 4.3 basis points, respectively, compared to the same periods in the prior year, primarily due to the impact on the average fees earned as a result of the assets from the Acquired Business having a lower blended fee rate. The product categories most impacted were institutional accounts and retail separate accounts, where the additional assets were primarily in fixed income strategies. For the nine months ended September 30, 2017, the increase in average fees earned on open-end funds was primarily attributable to market appreciation and positive net flows in higher fee equity products.

Table of Contents**Investment Management Fees**

Investment management fees are earned based on a percentage of assets under management and are paid pursuant to the terms of the respective investment management contracts, which generally require monthly or quarterly payments. Investment management fees increased by \$36.9 million, or 61.1%, and \$54.4 million, or 30.9%, for the three and nine months ended September 30, 2017, respectively, compared to the same periods in the prior year primarily due to an increase in average assets of \$38.5 billion and \$15.0 billion, respectively, primarily as a result of the Acquisition. Also contributing to the increase was positive market performance over the trailing four quarters. The third quarter of 2017 included approximately \$32.5 million of investment management fee revenues related to the full quarter impact of the additional assets managed as a result of the Acquisition.

Distribution and Service Fees

Distribution and service fees, which are asset-based fees earned from open-end funds for marketing and distribution services, decreased by \$0.6 million, or 5.2%, and \$4.1 million, or 11.0%, for the three and nine months ended September 30, 2017, respectively, compared to the same periods in the prior year due to lower average open-end assets under management in share classes that have distribution and service fees.

Administration and Transfer Agent Fees

Administration and transfer agent fees represent fees earned for fund administration and shareholder services from our open-end mutual funds and certain of our closed-end funds. Fund administration and transfer agent fees increased by \$5.1 million, or 53.3%, the three months ended June 30, 2017 and \$4.1 million, or 14.0%, for the nine months ended September 30, 2017 compared to the same periods in the prior year primarily due to \$4.5 million in additional administration and transfer agent fees as a result of the fund reorganization following the Acquisition, which were largely offset by higher fund expense reimbursements included in net investment management fees.

Other Income and Fees

Other income and fees primarily represent contingent sales charges earned from investor redemptions of certain shares sold without a front-end sales charge. Other income and fees were relatively flat for the three months ended September 30, 2017, compared to the same period in the prior year. Other income and fees increased \$0.5 million, or 75.5%, for the nine months ended September 30, 2017, compared to the same period in the prior year, primarily due to \$0.5 million in other income related to the recovery of costs from a third-party service provider during the first quarter of 2017.

Operating Expenses

Operating expenses by category were as follows:

Table of Contents

Employment Expenses

Employment expenses consist of fixed and variable compensation and related employee benefit costs. Employment expenses for the three months ended September 30, 2017 were \$54.2 million, which represented an increase of \$21.0 million, or 63.4%, compared to the same period in the prior year. The increase reflected \$13.6 million of employment expenses as a result of the June 1, 2017 addition of employees from the Acquisition, higher sales-based and profit-based compensation, due to a 48.3% increase in total sales and increased profits at our affiliates, and \$2.3 million in incremental incentive compensation primarily related to efforts associated with the Acquisition.

Employment expenses for the nine months ended September 30, 2017 were \$136.8 million, which represented an increase of \$34.6 million, or 33.9%, compared to the same period in the prior year. The increase reflected \$18.0 million of employment expenses as a result of the addition of employees from the Acquisition, higher sales-based and profit-based compensation, due to a 35.8% increase in total sales and increased profits at our affiliates, and \$4.3 million of incremental incentive compensation primarily related to efforts associated with the Acquisition.

Distribution and Other Asset-Based Expenses

Distribution and other asset-based expenses consist primarily of payments to third-party distribution partners for providing services to investors in our funds and payments to third-party service providers for investment management-related services. These payments are primarily based on percentages of assets under management or revenues. These expenses also include the amortization of deferred sales commissions related to up-front commissions on shares sold without a front-end sales charge to shareholders. The deferred sales commissions are amortized on a straight line basis over the periods in which commissions are generally recovered from distribution fee revenues and contingent sales charges received from shareholders of the funds upon redemption of their shares. Distribution and other asset-based expenses increased by \$3.2 million, or 18.3%, in the three months ended September 30, 2017 as compared to the same period in the prior year primarily due increased asset based sub-transfer agent expenses related to services provided to mutual funds from the Acquisition. Distribution and other asset-based expenses decreased \$1.3 million, or 2.4%, for the nine months ended September 30, 2017 compared to the same period in the prior year, primarily due to lower average open-end fund assets under management and a lower percentage of assets under management in share classes where we pay distribution expenses.

Other Operating Expenses

Other operating expenses primarily consist of investment research and technology costs, professional fees, travel and distribution related costs, rent and occupancy expenses, operating expenses of our consolidated investment products and other miscellaneous costs. Other operating expenses for the three months ended September 30, 2017 increased by \$12.5 million, or 103.6%, as compared to the same period in the prior year primarily due to \$6.8 million in operating expenses of our consolidated investment products, consisting of expenses related to the issuance of a CLO in the quarter, \$4.5 million of additional other operating expenses of the Acquired Business, and \$1.2 million of acquisition and integration expenses, primarily comprised of professional fees.

Other operating expenses for the nine months ended September 30, 2017 increased by \$18.0 million, or 43.9%, as compared to the same period in the prior year, primarily due to \$8.5 million of acquisition and integration expenses, primarily comprised of professional fees, and \$6.0 million in other operating expenses of the Acquired Business. Other operating expenses for the nine months ended September 30, 2017 also included \$1.4 million in higher operating expenses of our consolidated investment products, primarily attributable to the addition of four consolidated investment products as a result of the Acquisition as compared to the corresponding prior year period.

Restructuring and Severance Expense

During the three months ended September 30, 2017, we incurred \$1.6 million of restructuring and severance expenses comprised of \$0.5 million in severance costs related to staff reductions in connection with the Acquisition and outsourcing activities, and \$1.0 million in restructuring costs, related to the payment of future lease obligations and leasehold improvements write-offs for vacated office space related to the Acquisition.

During the nine months ended September 30, 2017, we incurred \$10.5 million of restructuring and severance expenses, primarily comprised of \$9.0 million in severance costs related to staff reductions in connection with the Acquisition and \$0.4 million in severance costs related to outsourcing activities. We also incurred \$1.0 million in restructuring costs related to future lease obligations and leasehold improvements write-offs for vacated office space related to the Acquisition.

Table of Contents

Depreciation and Amortization Expense

Depreciation and amortization expense consists primarily of the straight-line depreciation of furniture, equipment and leasehold improvements, as well as the amortization of acquired investment advisory contracts, recorded as definite-lived intangible assets, both over their estimated useful lives. Depreciation and amortization expense increased by \$4.7 million and \$5.3 million for the three and nine months ended September 30, 2017, respectively, compared to the same periods in the prior year primarily due an increase in definite lived intangible assets as a result of the Acquisition.

Other Income (Expense), net

Other Income, net by category was as follows:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2017	2016	2017 vs. 2016	%	2017	2016	2017 vs. 2016	%

Realized and unrealized gain (loss) on investments, net

Realized and unrealized gain on investments, net increased during the three months ended September 30, 2017 by \$0.4 million, or 42.2%, as compared to the same period in the prior year. The increase was primarily due to unrealized gains related to marketable securities in domestic equity strategies.

Realized and unrealized gain on investments, net decreased during the nine months ended September 30, 2017 by \$0.6 million, or 17.7%, as compared to the same period in the prior year. The realized and unrealized gains on investments, net during the nine months ended September 30, 2017 was primarily attributable to unrealized gains on our domestic equity strategies. The realized and unrealized gains on investments, net during the nine months ended September 30, 2016 primarily consisted of a realized gain of approximately \$2.9 million on the sale of one of our equity method investments.

Realized and unrealized gain (loss) of consolidated investment products, net

Realized and unrealized gains, net of our CIPs, were \$13.5 million during the three months ended September 30, 2017, which primarily consisted of \$14.5 million in changes on the note payable as a result of applying the measurement alternative of ASU 2014-13 partially offset by \$1.0 million in realized and unrealized losses on the investments of our CIPs.

Realized and unrealized gains, net of our CIPs, were \$16.5 million during the nine months ended September 30, 2017, which primarily consisted of \$16.5 million in changes on the note payable as a result of applying the measurement

alternative of ASU 2014-13.

Interest Income (Expense), net

Interest income (expense), net by category were as follows:

Interest expense of consolidated investment products	(16,249)	(3,788)	(12,461)	329.0 %	(22,101)	(10,188)	(11,913)	116.9 %
Total Interest Income (Expense), net	\$(1,908)	\$1,716	\$(3,624)	(211.2)%	\$(350)	\$5,392	\$(5,742)	(106.5)%

Interest Expense

Interest expense increased \$4.0 million and \$7.7 million for the three and nine months ended September 30, 2017, respectively, compared to the same periods in the prior year. The increases were due to the write-off of \$1.1 million in unamortized deferred financing costs as a result of the termination of our prior credit facility, \$1.2 million in delayed draw fees associated with our new credit agreement, and a higher average level of debt outstanding compared to the same periods in the prior year.

Interest and Dividend Income

Interest and dividend income increased \$0.5 million or 207.2% and \$0.2 million or 18.0% for the three and nine months ended September 30, 2017, respectively, compared to the same periods in the prior year. The increases were primarily due to a higher dividend paying marketable securities during the three months ended September 30, 2017, compared to the same periods in the prior year.

Interest and Dividend Income of Investments of Consolidated Investment Products

Interest and dividend income of investments of CIPs increased \$12.4 million and \$13.7 million for the three and nine months ended September 30, 2017, respectively, compared to the same periods in the prior year. The increases were primarily due to a higher balance of our investments of CIPs during the three and nine months ended September 30, 2017 compared to the same periods in the prior year.

Interest Expense of Consolidated Investment Products

Interest expense of CIPs represents interest expense on the notes payable of the CIPs. Interest expense of CIPs increased by \$12.5 million, or 329.0%, and \$11.9 million, or 116.9%, for the three and six months ended September 30, 2017, respectively, primarily due to higher average debt balances for our consolidated investment products for the three and nine months ended September 30, 2017 as compared to the same periods in the prior year.

Income Tax Expense (Benefit)

The provision for income taxes reflects U.S. federal, state and local taxes at an estimated effective tax rate of 31.7% and 35.8% for the nine months ended September 30, 2017 and 2016, respectively. The decrease in the estimated effective tax rate was primarily due to a decrease in the valuation allowances related to market adjustments on the Company's marketable securities, as well as an increase in the valuation allowance associated with net operating

losses that could expire before being utilized.

Overview

At September 30, 2017, we had \$164.9 million of cash and cash equivalents and \$75.7 million of investments in marketable securities compared to \$64.6 million and \$74.9 million, respectively, at December 31, 2016. At September 30, 2017, we had \$260.0 million outstanding under our seven-year term debt ("Term Loan") and no outstanding borrowings under our \$100.0 million revolving credit facility (the "Credit Facility"). Our credit agreement contains a net leverage ratio covenant, defined as net debt divided by EBITDA, set at 2.5:1, as of September 30, 2017 with scheduled reductions to 1.75:1 through December 31, 2018 and thereafter. As of September 30, 2017, we had \$146.8 million of net debt, when including the \$51.7 million of contingent consideration, which resulted in a net leverage ratio of 0.9:1.0 as of September 30, 2017.

During the nine months ended September 30, 2017, we issued 1,046,500 shares of common stock and 1,150,000 shares of 7.25% mandatory convertible preferred stock ("MCPS") in public offerings for net proceeds of \$220.5 million, after underwriting discounts, commissions and other offering expenses. We used the net proceeds of these offerings, together with cash on hand, 213,699 shares of our common stock, proceeds from the sale of investments and net borrowings of approximately \$244.1 million from the new credit agreement, as described below, to finance the Acquisition and pay related fees and expenses.

Uses of Capital

Our main uses of capital related to operating activities include payments of annual incentive compensation, income tax payments and other operating expenses which primarily consist of investment research and technology costs, professional fees, distribution and occupancy costs. Annual incentive compensation which is one of the largest annual

operating cash expenditures is paid in the first quarter of the year. In the first quarter of 2017 and 2016, we paid approximately \$39.7 million and \$42.5 million, respectively, in incentive compensation earned during the years ended December 31, 2016 and 2015, respectively.

In addition to the capital used for operating activities, other uses of cash will include (i) payment of contingent consideration, (ii) integration costs, including severance, related to the Acquisition, (iii) investments in our organic growth, including our distribution efforts and launches of new products, (iv) seeding of new investments, including sponsoring CLO issuances from our affiliated managers, (v) interest and principal payments on debt outstanding, (vi) dividend payments to

Table of Contents

preferred and common stockholders, (vii) investments in our infrastructure and (viii) investments in inorganic growth opportunities as they arise. Although we continuously monitor working capital to ensure adequate resources are available for near-term liquidity requirements, our liquidity could be impacted by contingencies, as described in Note 14 of our consolidated financial statements.

Capital and Reserve Requirements

We operate two broker-dealer subsidiaries registered with the SEC which are subject to certain rules regarding minimum net capital. The broker-dealers are required to maintain a ratio of “aggregate indebtedness” to “net capital,” as defined, which may not exceed 15 to 1 and must also maintain a minimum amount of net capital. Failure to meet these requirements could result in adverse consequences to us including additional reporting requirements, a lower required ratio of aggregate indebtedness to net capital or interruption of our business. At both September 30, 2017 and December 31, 2016, the ratio of aggregate indebtedness to net capital of our broker-dealers was below the maximum allowed, and net capital was significantly greater than the required minimum.

Balance Sheet

Cash and cash equivalents consist of cash in banks and money market fund investments. Investments consist primarily of investments in our affiliated mutual funds. Consolidated investment products primarily represent investment products where we have either a controlling financial interest or we are considered the primary beneficiary of investment product that is a considered a variable interest entity.

Operating Cash Flow

Net cash used in operating activities of \$103.8 million for the nine months ended September 30, 2017 increased by \$102.7 million from net cash used by operating activities of \$1.1 million for the same period in the prior year primary due to an increase in net purchases of investments of our consolidated investment products.

Investing Cash Flow

Net cash used in investing activities consists primarily of capital expenditures and other investing activities related to our investing activities. Net cash used in investing activities of \$389.4 million for the nine months ended September 30, 2017 increased by \$394.0 million from net cash provided by investing activities of \$4.6 million in the same period for the prior year. The primary investing activities for the nine months ended September 30, 2017 was \$393.4 million of net cash used for the Acquisition.

Financing Cash Flow

Cash flows provided by financing activities consist primarily of the issuance of common and preferred stock, return of capital through repurchases of common shares, dividends, withholding obligations for the net share settlement of employee share transactions, and contributions to noncontrolling interests related to our consolidated investment products. Net cash provided by financing activities increased \$718.2 million to \$796.6 million for the nine months ended September 30, 2017 as compared to \$78.4 million for the nine months ended September 30, 2016. The primary reason for the increase was due to cash raised of \$220.5 million related to the issuance of preferred stock and common stock, net of issuance costs paid, \$244.1 million in term loan borrowings, net of issuance costs paid, and \$369.0 million in net borrowings of our consolidated investment products. These financing cash inflows were partially offset by the repayments of \$30.0 million on our terminated credit facility.

Credit Agreement

On June 1, 2017, in a connection with the Acquisition, the Company entered into a new credit agreement ("Credit Agreement") comprised of (1) \$260.0 million of seven-year term debt ("Term Loan") and (2) a \$100.0 million five-year revolving credit facility ("Credit Facility"). Additionally, as a result of the Credit Agreement, the Company's previous revolving credit facility and December 16, 2016 debt financing commitment were terminated. During the nine months ended September 30, 2017, the Company expensed approximately \$1.1 million of unamortized deferred financing costs related to the previous senior unsecured revolving credit facility. The Company borrowed the full \$260.0 million under the Term Loan on June 1, 2017 to fund a portion of the purchase price of the Acquisition, and at September 30, 2017, \$260.0 million was outstanding.

Table of Contents

Amounts outstanding under the Credit Agreement for the Term Loan and the Credit Facility bear interest at an annual rate equal to, at the option of the Company, either (i) LIBOR (adjusted for reserves) for interest periods of one, two, three or six months (or, solely in the case of the Credit Facility, if agreed to by each relevant Lender, twelve months or periods less than one month), subject to a “floor” of 0% for the Credit Facility and 0.75% for the Term Loan, or (ii) an alternate base rate, in either case plus an applicable margin. The applicable margins are set initially at 3.75%, in the case of LIBOR-based loans, and 2.75%, in the case of alternate base rate loans, and will range from 3.50% to 3.75%, in the case of LIBOR-based loans, and 2.50% to 2.75%, in the case of alternate base rate loans, based on the secured net leverage ratio of the Company as of the last day of the preceding fiscal quarter. Interest is payable on the last day of each interest period with respect to LIBOR-based loans, but at least at three-month intervals, and quarterly in arrears with respect to alternate base rate loans (but, in the case of LIBOR-based loans with an interest period of more than three months).

The obligations of the Company under the Credit Agreement are guaranteed by certain of its subsidiaries (the “Guarantors”) and secured by substantially all of the assets of the Company and the Guarantors, subject to customary exceptions. The Credit Agreement contains customary affirmative and negative covenants, including covenants that affect, among other things, the ability of the Company and its subsidiaries to incur additional indebtedness, create liens, merge or dissolve, make investments, dispose of assets, engage in sale and leaseback transactions, purchase of shares of our common stock, make distributions and dividends and pre-payments of junior indebtedness, engage in transactions with affiliates, enter into restrictive agreements, amend documentation governing junior indebtedness, modify its fiscal year, or modify its organizational documents, subject to customary exceptions, thresholds, qualifications and “baskets.” In addition, the Credit Agreement contains a financial maintenance covenant, requiring a maximum leverage ratio, as of the last day of each of the trailing four fiscal quarter periods, of no greater than the levels set forth in the Credit Agreement.

At any time, upon timely notice, the Company may terminate the Credit Agreement in full, reduce the commitment under the Credit Facility in minimum specified increments, or prepay the Term Loan in whole or in part, subject to the payment of breakage fees with respect to LIBOR-based loans and, in the case of any Term Loans that are prepaid in connection with a “repricing transaction” occurring within the six-month period following the closing date, a 1.00% premium.

Term Loan

The Term Loan, which was priced on March 2, 2017, had a delayed draw fee of \$1.2 million between March 2, 2017 and the closing date of June 1, 2017. The Term Loan amortizes at the rate of 1.00% per annum payable in equal quarterly installments and will be mandatorily repaid with: (a) 50% of the Company’s excess cash flow on an annual basis, beginning with the fiscal year ended December 31, 2018, stepping down to 25% if the Company’s secured net leverage ratio declines below 1.0, and further stepping down to 0% if the Company’s secured net leverage ratio declines below 0.5; (b) the net proceeds of certain asset sales, casualty or condemnation events, subject to customary reinvestment rights; and (c) the proceeds of any indebtedness incurred other than indebtedness permitted to be incurred by the Credit Agreement.

Credit Facility

At September 30, 2017, no amounts were outstanding under the Credit Facility. The Company has the right, subject to customary conditions specified in the Credit Agreement, to request additional revolving credit facility commitments and additional term loans to be made under the Credit Agreement up to an aggregate amount equal to the sum of (x) \$75.0 million and (y) an amount subject to a pro forma secured net leverage ratio of the Company of no greater than 1.75 to 1.00.

Under the terms of the Credit Agreement, the Company is required to pay a quarterly commitment fee on the average unused amount of the Credit Facility, which fee is initially set at 0.50% and will, following the first delivery of certain financial reports required under the Credit Agreement, range from 0.375% to 0.50%, based on the secured net leverage ratio of the Company as of the last day of the preceding fiscal quarter, as reflected in such financial reports.

Contractual Obligations

Except for borrowings under our Credit Agreement and notes payable of consolidated investment products acquired as part of the Acquisition as previously discussed in our Form 10-Q for the quarterly period ended June 30, 2017, there have been no material changes outside of the ordinary course of business in our contractual obligations since December 31, 2016 as disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations, set forth in Part II, Item 7, of our Annual Report on Form 10-K for the year ended December 31, 2016.

Table of Contents

Critical Accounting Policies and Estimates

Our financial statements and the accompanying notes are prepared in accordance with generally accepted accounting principles generally accepted in the United States of America, which require the use of estimates. Actual results will vary from these estimates. A discussion of our critical accounting policies and estimates is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2016 Annual Report on Form 10-K. A complete description of our significant accounting policies is included in our 2016 Annual Report on Form 10-K. There were no changes in our critical accounting policies in the three months ended September 30, 2017.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk

Substantially all of our revenues are derived from investment management, distribution and service, and administration and transfer agent fees, which are based on the market value of assets under management. Accordingly, a decline in the prices of securities would cause our revenues and income to decline due to a decrease in the value of the assets under management. In addition, a decline in security prices could cause our clients to withdraw their investments in favor of other investments offering higher returns or lower risk, which would cause our revenues and income to decline.

We are also subject to market risk due to a decline in the market value of our investments, which consist of marketable securities, other investments and the Company's net interests in consolidated investment products. The following table summarizes the impact of a 10% increase or decrease in the fair values of these financial instruments:

\$ in thousands	September 30, 2017	
	Fair Value	10% Change
Marketable Securities - Available for Sale (a)	\$3,896	\$390
Marketable Securities - Trading (b)	71,806	7,181
Other Investments (b)	2,741	274
Company's net interests in Consolidated Investment Products (c)	123,629	12,363
Total Investments subject to Market Risk	\$202,072	\$20,208

Any gains or losses arising from changes in the fair value of available-for-sale investments are recognized in accumulated other comprehensive income, net of tax, until the investment is sold or otherwise disposed of, or if the investment is determined to be other-than-temporarily impaired, at which time the cumulative gain or loss previously reported in equity is included in income. The Company evaluates the carrying value of investments for impairment on a quarterly basis. In its impairment analysis, the Company takes into consideration numerous (a) criteria, including the duration and extent of any decline in fair value and the intent and ability of the Company to hold the security for a period of time sufficient for a recovery in value. If the decline in value is determined to be other-than-temporary, the carrying value of the security is generally written down to fair value through the Condensed Consolidated Statement of Operations. If such a 10% increase or decrease in fair value were to occur, it would not result in an other-than-temporary impairment charge that would be material to the Company's pre-tax earnings.

(b) If such a 10% increase or decrease in fair values were to occur, the change of these investments would result in a corresponding increase or decrease in our pre-tax earnings.

(c) These represent the Company's direct investments in investment products that are consolidated. Upon consolidation, these direct investments are eliminated, and the assets and liabilities of consolidated investment

products are consolidated in the Condensed Consolidated Balance Sheet, together with a noncontrolling interest balance representing the portion of the consolidated investment products owned by third parties. If a 10% increase or decrease in the fair values of the Company's direct investments in consolidated investment products were to occur, it would result in a corresponding increase or decrease in the Company's pre-tax earnings.

Table of Contents

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. At September 30, 2017, we were exposed to interest rate risk as a result of approximately \$157.0 million in investments we have in fixed and floating rate income funds/products in which we have invested and which includes our net interests in consolidated investment products. We considered a hypothetical 100 basis point change in interest rates and determined that the fair value of our fixed income investments could change by an estimated \$1.1 million.

At September 30, 2017, we had \$260.0 million outstanding under our Term Loan and no amounts outstanding under our Credit Facility. Amounts outstanding under the Credit Agreement bear interest at an annual rate equal to, at the option of the Company, either LIBOR (adjusted for reserves) for interest periods of one, two, three or six months (or, solely in the case of the revolving credit facility, if agreed to by each relevant Lender, twelve months or periods less than one month) (subject to a “floor” of 0% in the case of the revolving credit facility and 0.75% in the case of the term loan) or an alternate base rate, in either case plus an applicable margin. The applicable margins are initially set at 3.75%, in the case of LIBOR-based loans, and 2.75%, in the case of alternate base rate loans and will, following the first delivery of certain financial reports required under the credit agreement, range from 3.50% to 3.75%, in the case of LIBOR-based loans, and 2.50% to 2.75%, in the case of alternate base rate loans, based on the secured net leverage ratio of the Company as of the last day of the preceding fiscal quarter, as reflected in such financial reports.

At September 30, 2017, we had \$1,455.9 million outstanding of notes payable of our consolidated investment products. The notes bear interest at annual rates equal to the average LIBOR rate for interest periods of three months and six months plus, in each case, an applicable margin, that ranges from 1.00% to 8.75%.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Consistent with guidance issued by the Securities and Exchange Commission that an assessment of internal controls over financial reporting of a recently acquired business may be omitted from management's evaluation of disclosure controls and procedures, management is excluding an assessment of such internal controls of RidgeWorth acquired by the Company on June 1, 2017, from its evaluation of the effectiveness of the Company's disclosure controls and procedures. RidgeWorth represented approximately 69.3% of the Company's consolidated total assets and 26.3% of the Company's consolidated total revenues as of and for the quarter ended September 30, 2017.

Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2017, the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Controls over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act) that occurred during the period covered by this Quarterly Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

As mentioned above, the Company acquired RidgeWorth on June 1, 2017. The Company is in the process of reviewing the internal control structure of RidgeWorth and, if necessary, will make appropriate changes as it integrates RidgeWorth into the Company's overall internal control over financial reporting process.

PART II – OTHER INFORMATION

42

Table of Contents

Item 1. Legal Proceedings

Legal Matters

The Company is regularly involved in litigation and arbitration as well as examinations, inquiries and investigations by various regulatory bodies, including the Securities and Exchange Commission ("SEC"), involving its compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker-dealers and other laws and regulations affecting its products and other activities. Legal and regulatory matters of this nature involve or may involve but are not limited to the Company's activities as an employer, issuer of securities, investor, investment adviser, broker-dealer or taxpayer. In addition, in the normal course of business, the Company discusses matters with its regulators raised during regulatory examinations or is otherwise subject to their inquiry. These matters could result in censures, fines, penalties or other sanctions.

The Company accrues for a liability when it is both probable that a liability has been incurred and the amount of the liability can be reasonably estimated. Significant judgment is required in both the determination of probability and the determination as to whether a loss is reasonably estimable. In addition, in the event the Company determines that a loss is not probable, but is reasonably possible, and it becomes possible to develop what the Company believes to be a reasonable range of possible loss, then the Company will include disclosures related to such matter as appropriate and in compliance with ASC 450, Loss Contingencies. The disclosures, accruals or estimates, if any, resulting from the foregoing analysis are reviewed at least quarterly and adjusted to reflect the impact of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular matter. Based on information currently available, available insurance coverage, indemnities and established reserves, the Company believes that the outcomes of its legal and regulatory proceedings are not likely, either individually or in the aggregate, to have a material adverse effect on the Company's results of operations, cash flows or its consolidated financial condition. However, in the event of unexpected subsequent developments and given the inherent unpredictability of these legal and regulatory matters, the Company can provide no assurance that its assessment of any claim, dispute, regulatory examination or investigation or other legal matter will reflect the ultimate outcome and an adverse outcome in certain matters could, from time to time, have a material adverse effect on the Company's results of operations or cash flows in particular quarterly or annual periods.

In re Virtus Investment Partners, Inc. Securities Litigation; formerly Tom Cummins v. Virtus Investment Partners Inc. et al

On February 20, 2015, a putative class action complaint alleging violations of certain provisions of the federal securities laws was filed by an individual shareholder against the Company and certain of the Company's current officers (the "defendants") in the United States District Court for the Southern District of New York (the "Court"). On April 21, 2015, three plaintiffs, including the original plaintiff, filed motions to be appointed lead plaintiffs and, on June 9, 2015, the Court appointed Arkansas Teachers Retirement System lead plaintiff. On August 21, 2015, the plaintiff filed a Consolidated Class Action Complaint (the "Consolidated Complaint") amending the originally filed complaint, which was purportedly filed on behalf of all purchasers of the Company's common stock between January 25, 2013 and May 11, 2015 (the "Class Period"). The Consolidated Complaint alleges that, during the Class Period, the defendants disseminated materially false and misleading statements and concealed material adverse facts relating to certain funds formerly subadvised by F-Squared Investments Inc. ("F-Squared"). The Consolidated Complaint alleges claims under Sections 10(b) and 20(a) of the Exchange Act, and Rule 10b-5. The plaintiff seeks to recover unspecified damages. A motion to dismiss the Consolidated Complaint was filed on behalf of the Company and the other defendants on October 21, 2015. On July 1, 2016, the Court entered an opinion and order granting in part, and denying in part, the motion to dismiss, narrowing Plaintiff's claims under Sections 10(b) and 20(a) of the Exchange Act and dismissing one of the defendants from the suit. The remaining defendants' Answer to the Consolidated Complaint was

filed on August 5, 2016. Plaintiff's motion for class certification was granted on May 15, 2017. Discovery has since been completed. On October 6, 2017, defendants moved for summary judgment, and briefing on that motion is expected to be completed on December 21, 2017. The Company believes that the suit is without merit and intends to defend it vigorously. The Company believes that there is not a material loss that is probable and reasonably estimable related to this claim.

Mark Youngers v. Virtus Investment Partners, Inc. et al

On May 8, 2015, a putative class action complaint alleging violations of certain provisions of the federal securities laws was filed in the United States District Court for the Central District of California (the "District Court") by an individual who alleges he is a former shareholder of one of the Virtus mutual funds formerly subadvised by F-Squared and formerly known as the AlphaSector Funds. The complaint alleges claims against the Company, certain of the Company's officers and

43

Table of Contents

affiliates, and certain other parties (the “defendants”). The complaint was purportedly filed on behalf of purchasers of the AlphaSector Funds between May 8, 2010 and December 22, 2014, inclusive (the “Class Period”). The complaint alleges that, during the Class Period, the defendants disseminated materially false and misleading statements and concealed or omitted material facts necessary to make the statements made not misleading. On June 7, 2015, a group of three individuals, including the original plaintiff, filed a motion to be appointed lead plaintiff, and on July 27, 2015, the District Court appointed movants as lead plaintiff. On October 1, 2015, the plaintiffs filed a First Amended Class Action Complaint which, among other things, added a derivative claim for breach of fiduciary duty on behalf of Virtus Opportunities Trust. On October 19, 2015, the District Court entered an order transferring the action to the Southern District of New York (the “Court”). On January 4, 2016, the Plaintiffs filed a Second Amended Complaint. A motion to dismiss was filed on behalf of the Company and affiliated defendants on February 1, 2016. On July 1, 2016, the Court entered an opinion and order granting in part, and denying in part, the motion to dismiss. The Court dismissed four causes of action entirely and a fifth cause of action with respect to a portion of the Class Period. The Court also dismissed all claims against ten defendants named in the Complaint. The Court held that the Plaintiffs may pursue certain securities claims under Sections 10(b) and 20(a) of the Exchange Act and Section 12 of the Securities Act of 1933. The remaining defendants filed an Answer to the Second Amended Complaint on August 5, 2016. A Stipulation of Voluntary Dismissal of the claim under Section 12 of the Securities Act was filed on September 15, 2016. The defendants filed a motion to certify an interlocutory appeal of the July 1, 2016 order to the Court of Appeals for the Second Circuit on August 26, 2016. The motion was denied on January 6, 2017. Plaintiff’s motion for class certification was denied on May 15, 2017. On July 28, 2017 Plaintiffs filed a motion seeking leave to amend their complaint to address deficiencies identified by the Court in its orders dismissing, in part, plaintiffs’ Second Amended Complaint and denying class certification. Briefing on that motion was completed, and a hearing was held on September 7, 2017, where the court reserved decision. The Company believes that the suit has no basis in law or fact and intends to defend it vigorously. The Company believes that there is not a material loss that is probable and reasonably estimable related to this claim.

Item 1A. Risk Factors

The reader should carefully consider, in connection with the other information in this report, the Company’s risk factors previously reported in our 2016 Annual Report on Form 10-K.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

As of September 30, 2017, 3,430,045 shares of our common stock have been authorized to be repurchased under a share repurchase program approved by our Board of Directors, and 133,756 shares remain available for repurchase. Under the terms of the program, we may repurchase shares of our common stock from time to time at our discretion through open market repurchases, privately negotiated transactions and/or other mechanisms, depending on price and prevailing market and business conditions. The program, which has no specified term, may be suspended or terminated at any time.

The following table sets forth information regarding our share repurchases in each month during the quarter ended September 30, 2017:

Month	Total number of shares repurchased	Average price paid per share (1)	Total number of shares repurchased as part of publicly announced plans or programs (2)	Maximum number of shares that may yet be repurchased under the plans or programs (2)
July 1-31, 2017	—	—	—	200,000
August 1-31, 2017	—	—	—	200,000
September 1-30, 2017	66,244	\$113.21	66,244	133,756
Total	66,244		66,244	

(1) Average price paid per share is calculated on a settlement basis and excludes commissions.

(2) The share repurchases above were completed pursuant to a program announced in the fourth quarter of 2010 and most recently expanded in October 2015. This repurchase program is not subject to an expiration date.

There were no unregistered sales of equity securities during the period covered by this Quarterly Report. Shares of our common stock purchased by participants in our Employee Stock Purchase Plan were delivered to participant accounts via open market purchases at fair value by the third-party administrator under the plan. We do not reserve shares for this plan or discount the purchase price of the shares.

Item 6. Exhibits

Exhibit Number	Description
