PROXY STATEMENT

FOR ANNUAL MEETING OF STOCKHOLDERS

To be held on May 4,2005

This Proxy Statement is furnished in connection with the solicitation of proxies by and on behalf of the Board of Directors of USA Truck, Inc., a Delaware corporation (the Company or USA Truck), for use at the Annual Meeting of Stockholders of the Company to be held at the time and place and for the purposes set forth in the foregoing notice. The mailing address of the Company is 3200 Industrial Park Road, Van Buren, Arkansas 72956, and its telephone number is (479) 471-2500.

The cost of soliciting proxies will be borne by the Company. In addition to solicitation by mail, certain officers and employees of the Company, who will receive no special compensation therefor, may solicit proxies in person or by telephone, telegraph, facsimile or other means. The Company will reimburse banks, brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses incurred by them in sending proxy material to the beneficial owners of the Common Stock of the Company.

The approximate date on which this Proxy Statement and the accompanying proxy are first being mailed to stockholders is April 6, 2005.

REVOCABILITY OF PROXY

Any stockholder executing a proxy retains the right to revoke it at any time prior to exercise at the Annual Meeting. A proxy may be revoked by delivery of written notice of revocation to Clifton R. Beckham, Secretary of the Company, by execution and delivery to the Company of a later proxy or by voting the shares in person at the Annual Meeting. If not revoked, all shares represented at the Annual Meeting by properly executed proxies will be voted as directed therein. If no direction is given, such shares will be voted for election of all nominees for director and in the discretion of the persons named as proxies therein on any other matters that may properly come before the Annual Meeting or any adjournments thereof.

OUTSTANDING STOCK AND VOTING RIGHTS

The Board of Directors has fixed the close of business on March 8, 2005 as the record date for determining the stockholders having the right to notice of, and to vote at, the Annual Meeting. As of the record date, 9,352,946 shares of Common Stock were outstanding. Each stockholder will be entitled to one vote for each share of Common Stock owned of record on the record date. The stock transfer books of the Company will not be closed. Stockholders are not entitled to cumulative voting with respect to the election of directors. The holders of a majority of the outstanding shares of Common Stock, present in person or represented by proxy, are necessary to constitute a quorum.

REQUIRED AFFIRMATIVE VOTE AND VOTING PROCEDURES

The Company's bylaws provide that the nominees who receive a plurality of the votes cast by stockholders present or represented by proxy at an Annual Meeting, and entitled to vote on the election of directors, will be elected as directors of the Company. Thus, any abstentions or broker non-votes will have no effect on the election of directors.

As indicated in the table under the heading Security Ownership of Certain Beneficial Owners, Directors and Executive Officers, the directors and executive officers of the Company beneficially owned more than 45% of the outstanding shares of the Company's Common Stock as of the record date and therefore collectively may have the ability to effectively control the outcome of the vote on the election of directors at the Annual Meeting.

Nominating Committee

The Board has adopted a written charter for the Nominating Committee, which sets forth the purpose and responsibilities of the Nominating Committee in greater detail, a copy of which is available at our Internet address <http://www.usa-truck.com> under the caption Corporate Governance. The Nominating Committee is composed of all Board members. In accordance with the written charter, in order to be considered a Nominating Committee nominee, a person's (including an incumbent director's) nomination must be approved by both the vote of a majority of a quorum of the full Committee and the vote of a majority of the directors then serving on the Nominating Committee who are independent directors as defined in Rule 4200(a)(15) of The Nasdaq Stock Market's listing standards. The vote of the independent directors must be taken by unanimous written consent or at a meeting in executive session, without the presence of the other members of the Nominating Committee.

The Nominating Committee's policy with regard to considering director candidates recommended by stockholders is set forth in detail in the Nominating Committee charter. Any stockholder of the Company who is the record or beneficial owner of at least one percent or one thousand dollars in market value of the shares of stock entitled to be voted at the next annual meeting of the Company and who has held such shares for at least one year may submit to the Nominating Committee for consideration for approval as a director nominee a recommendation of any person who meets certain minimum qualifications, which are described below and listed in the Nominating Committee charter. Stockholders must submit such recommendations in the manner and by the dates specified for stockholder nominations in the Company's bylaws. The Nominating Committee will evaluate any stockholder recommendations pursuant to the same procedures that it follows in connection with consideration of recommendations received from any other source.

Whenever a determination has been made that it is necessary to nominate one or more persons, in addition to incumbent directors, the Nominating Committee will have primary authority for identifying persons who meet certain minimum qualifications and who otherwise have the experience and abilities necessary to serve as effective members of the Board of Directors. The Nominating Committee may delegate this identification function to one or more of its members. In performing this function, the Nominating Committee may rely on such resources as it deems appropriate, including without limitation, recommendations from management of the Company, from incumbent directors, from third parties or from stockholders. In addition, the Nominating Committee may, at the Company's expense, engage the services of professional search firms or other consultants or advisers and may pay them such fees as the Nominating Committee shall determine to be reasonable and appropriate.

Each nominee must be at least 21 years of age at the time of his or her election as a director and must meet such other minimum qualifications as may be set forth from time to time in the Company's bylaws. In addition to such minimum requirements, each nominee must, unless waived by the Nominating Committee and by the independent directors serving on the committee, have a bachelor's degree from an accredited U.S. college or university, or a corresponding degree from a foreign educational institution, have at least 10 years of experience in a business or profession (which need not be the truckload or other transportation industry) that, in the opinion of the Nominating Committee, provides the proposed nominee with such experience as will enable him or her to serve as an effective member of the Board of Directors, and have no relationship with the Company or other circumstances that would be likely to create a conflict of interest or otherwise interfere with the exercise by such person of impartial judgment in his or her capacity as a director. Finally, in identifying and selecting persons for consideration as nominees, the Nominating Committee will consider the rules and regulations of the Securities and Exchange Commission and The Nasdaq Stock Market (or such other stock exchange or stock market on which the Company's securities may be listed or traded from time to time) regarding the composition of the Board of Directors and the qualifications of its members.

The Nominating Committee may take such actions as it deems appropriate to evaluate whether each person who has been recommended or proposed for approval as a nominee meets the minimum qualifications, as described above and set forth in the Nominating Committee charter, and otherwise has the experience and abilities necessary to be an effective member of Board of Directors. These procedures may include at least one personal interview of the candidate by the Nominating Committee, discussions with qualified representatives of companies or firms by which the candidate is or has previously been employed or on whose boards of directors the candidate is serving or has previously served, or with such other persons as the Nominating Committee deems appropriate to rely upon as references for the candidate, and completion of a questionnaire regarding the candidate's prior employment and service on boards of directors, criminal convictions or sanctions and other matters deemed appropriate by the Nominating Committee.

EXECUTIVE COMPENSATION

Report of Executive Compensation Committee on Annual Compensation

The following paragraphs constitute the report of the Executive Compensation Committee of the Board of Directors (the Committee) on executive compensation policies for fiscal year 2004. In accordance with Securities and Exchange Commission (the Commission) rules, this report shall not be deemed to be incorporated by reference into any statements or reports filed by the Company with the Commission that do not specifically incorporate this report by reference, notwithstanding the incorporation of this Proxy Statement into any such reports.

The Committee administers the compensation program for executive officers and other management level employees of the Company and makes all related decisions, including decisions pertaining to the grant of options.

The principal elements of the compensation program for executive officers are base salary, performance-based annual incentives and options granted under the 2004 Equity Incentive Plan. The goals of the program are to give the executive officers incentives to work toward the improved financial performance of the Company and to reward them for their contributions to the Company's success. The program is also designed to retain the Company's key executives, each of whom plays an important role in enabling the Company to maintain its commitment to premium service to its customers and its high standards of efficiency, productivity and safety. For a summary of 2004 compensation to the Company's named executive officers, see the Summary Compensation Table under the heading Executive Compensation Tables below.

Annual salaries for the Company's executive officers, including the CEO, are generally reviewed in October of each year based on a number of factors, both objective and subjective. Objective factors considered include increases in the cost of living, the Company's current performance and, to a lesser extent, the Company's overall historical performance, although no specific formulas based on such factors are used to determine salaries. Salary decisions are based primarily on the Committee's subjective analysis of the factors contributing to the Company's long-term success and of the executives' individual contributions to such success.

Cash incentive payments based on the Company's performance may be paid to the executive officers under the Company's Executive Profit-Sharing Incentive Plan. Under this plan, a specified percentage, determined annually by the Committee, of the Company's pre-tax income for the year is distributed annually to the executive officers selected by the Board to participate in the plan in proportion to their base salaries. The payments are subject to certain limitations and to the achievement by the Company of a specified performance objective established annually by the Committee. Thus, whether the executive officers' total pay is comparable to the compensation of executives with similar responsibilities at comparable companies may vary from year to year depending upon the Company's performance. For 2004, pre-tax profit increased by approximately 73% from 2003 and the performance-based incentive bonuses represented approximately 42% of total base salary and bonus earned by the executive officers. The Committee will make the determinations regarding the percentage of pre-tax income to be distributed, performance objectives and bonus allocations under the Executive Profit-Sharing Incentive Plan for 2005 later in the year.

Seven of the executive officers, including the CEO, currently hold incentive stock options granted to them in October 2000. These options vest in three increments, and each increment will be exercisable for a period of three years after vesting. Six executive officers, including the CEO, also currently hold incentive stock options granted to them in January 2002. These options, other than the one held by the CEO, vest in three increments, and each increment will be exercisable for a period of three years after vesting. The option granted to the CEO in January 2002 has an exercise price equal to 110% of the fair market value of our Common Stock on the grant date and vests in three annual increments beginning in January 2004, and each increment will be exercisable until January 2007. Eight of the executive officers, including the CEO, also currently hold incentive stock options granted to them in May 2004, and one executive officer holds an incentive stock option granted to him in July 2004. These options, other than the one held by the CEO, vest in five increments, and each increment will be exercisable for a period of two years. The 20,000-share option granted to the CEO in May 2004 has an exercise price equal to 110% of the fair market value of our Common Stock on the grant date and vests in four increments, and each increment will be exercisable for a period of one year. All of these options were granted with exercise prices greater than or equal to the market value of the Company's Common Stock at the time of grant. The Committee believes that the extended vesting schedules and limited exercise periods of the options will encourage the optionees not only to remain with the Company but also to seek to enhance the value of the Company's stock through improvements in the Company's performance and to sustain such improvements throughout the terms of the options.

Additional elements of the executive officers' compensation, which are not performance-based, include matching contributions by the Company under the Company's 401(k) plan and life insurance premiums paid by the Company on behalf of the executives. Each of the named executive officers also is provided the use of a Company-owned automobile, which he can use for both business and personal purposes. The incremental cost to the Company of providing the automobiles did not exceed 10% of the total annual salary and bonus paid to any of the named executive officers and is therefore not disclosed as a perquisite in the Summary Compensation Table. The Company does not have written employment agreements with its CEO or any of its other executive officers.

The CEO's salary and any equity incentive awards are determined based on the factors and analysis described above. Specific factors considered by the Committee in establishing the CEO's salary and option grant during 2004 include his current responsibilities with the Company, certain key performance ratios and his continuing contributions to the successful expansion of the Company's operations and its financial growth over recent periods. The Committee determined it prudent to increase the CEO's salary and to grant him an option in 2004 based, in part, on the progress the Company has made to improve its operating performance over the last several years. The cash bonus amount received by the CEO for 2004, as indicated in the Summary Compensation Table below, was paid to him pursuant to the terms of the Company's Executive Profit-Sharing Incentive Plan. The total cost to the Company of providing a Company-owned automobile to the CEO for his use during 2004 was \$4,237. The Committee believes that the CEO's 2004 total compensation reflects a fair level of compensation given the duties and responsibilities of his office and the Company's current level of profitability.

The Committee believes that the information disclosed under the heading "Executive Compensation Tables" below reflects all material items of total compensation paid to the CEO and the other named executive officers. Certain alternative measures of value are not included within that disclosure, including information regarding any unrealized appreciation in the value of shares underlying previously granted options held by the CEO or the other officers. The Company does not make any determination as to the percentages of his use of the automobile attributable to business purposes and to personal purposes. As disclosed under the heading "Certain Transactions" below, the Company purchases aircraft charter service from a company owned by the CEO, in a transaction unanimously approved by the Board, with the CEO abstaining, and reviewed annually by the Audit Committee and the Board. The Audit Committee and the Board have determined that the rates paid for those services are reasonable and no less favorable to the Company than it could obtain from an unrelated third party. In 2004, the total amount paid by the Company under this agreement was \$75,429. The Committee is not aware of what portion, if any, of this amount represented a net profit to the CEO under that agreement, and the Committee does not consider such amount to be an element of the CEO's compensation.

By the Members of the Executive Compensation Committee:

Joe D. Powers (Chairman)

Roland S. Boreham, Jr.

Jim L. Hanna

The preceding report has been provided by the directors who served on the Executive Compensation Committee when decisions regarding 2004 compensation were made. Jim L. Hanna resigned from his position as a director on January 26, 2005, after having served on our Board of Directors since 1992.

The Company has elected to include five additional executive officers in this table, rather than the four required by Securities and Exchange Commission rules, to enhance comparability of the information between years.

⁽¹⁾ Represents cash incentives earned by the executive officers pursuant to the Company's Executive Profit-Sharing Incentive Plan for services rendered in the years indicated.

⁽²⁾ The dollar value of the restricted stock awards is estimated solely for purposes of this table based upon the award of 25,000 shares of restricted stock to each of Messrs. Beckham, Lewis, Cox and Key on August 22, 2003, and the closing price (\$10.71 per share) of the Company's Common Stock on The Nasdaq Stock Market on the date of the award. Each of Messrs. Beckham, Lewis, Cox and Key held 25,000 total shares of restricted stock as of December 31, 2004, the dollar value of which, in each case, was \$425,000 as estimated solely for purposes of this table based upon the closing price (\$17.00 per share) of the Company's Common Stock on The Nasdaq Stock Market on December 31, 2004. Each outstanding award will vest in five equal annual increments on March 1 of each year beginning in 2005 and ending in 2009, subject to the achievement by the Company of performance goals based on year-over-year increases in retained earnings. The performance goal for the period ending December 31, 2004, was fully achieved, and the first increment, in the amount of 5,000 shares,

of each award vested on March 1, 2005. Any shares that do not vest in future periods will be forfeited. The ultimate value of the awards depends on a number of factors, including whether the performance goals are achieved and the restricted shares vest or are forfeited. Dividends, if any, will be paid on all restricted shares at the same rate as dividends received by all stockholders, except that the Board may decide that any such dividends will be held in escrow and subject to the same risk of forfeiture as the restricted shares on which they are paid.

- (1) All options are incentive stock options. The option granted to Mr. Powell has an exercise price equal to 110% of the fair market value, determined in accordance with the Plan, of the Company's Common Stock on the date of grant. All options granted to the named executive officers, other than Mr. Powell, have exercise prices equal to the fair market value of the Company's Common Stock on the date of grant. The option granted to Mr. Powell was granted on May 5, 2004, and each tranche vests one year prior to its expiration date. All options with an exercise price of \$11.47 were granted on May 5, 2004, and each tranche of each such option vests two years prior to its expiration date. The option granted to Mr. Lewis with an exercise price of \$12.66 was granted on July 21, 2004, and each tranche vests two years prior to its expiration date.
- (2) The estimated grant date values have been determined using the Black-Scholes option-pricing model. The material assumptions used included the following: the exercise of each tranche of each option on the specified expiration date; a dividend yield of 0% in all cases; expected volatility of 0.261% for all options granted on May 5, 2004, and 0.258% for the option granted to Mr. Lewis on July 21, 2004, in each case, calculated using closing prices for one day each week for the 30 weeks preceding the grant date; risk-free interest rates ranging from 2.53% to 3.84% for the option granted to Mr. Powell on May 5, 2004, 2.53% to 4.44% for the options granted to the other named executive officers on May 5, 2004, and 3.15% to 4.22% for the option granted to Mr. Lewis on July 21, 2004, in each case representing the interest rate on a U.S. Treasury security with an expected maturity as close as possible to the expiration date of the tranche. No adjustments were made to the model for nontransferability or risk of forfeiture. The ultimate actual value, if any, that a named executive officer will realize upon exercise of any option will depend on the date the option is exercised and the amount (if any) by which the market price of the Company's Common Stock, which cannot be predicted with accuracy, exceeds the exercise price at that time.

COMPENSATION OF DIRECTORS

The Company pays each director who is not an employee of the Company a fee of \$1,500 per quarter plus \$500 per quarter for members of the Audit Committee and reimburses all directors for reasonable expenses they may incur attending Board or committee meetings. The Audit Committee Chairman receives an additional \$1,000 per quarter.

The 2004 Equity Incentive Plan (the Plan) permits awards of incentive stock options, nonqualified stock options, restricted stock, stock units, performance shares, performance units and other incentives payable in cash or in shares of Common Stock. Individuals to whom awards may be granted include any employee, officer or director of the Company or of any entity that is directly or indirectly controlled by the Company. No individual may receive in any one calendar year awards relating to more than 30,000 shares of the Company's Common Stock. The Committee may grant stock options to individuals either in the form of incentive stock options or nonqualified stock options, except that incentive stock options may not be granted to nonemployee directors. The exercise price of any shares subject to a stock option may be no less than 100% of the fair market value of the shares for the date the stock option is granted, or 110% of such fair market value for an incentive stock option granted to a participant who owns, directly or indirectly, stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or one of its parent or subsidiary corporations. The Plan is administered by the Executive Compensation Committee of the Board of Directors. However, with respect to participants who are nonemployee directors, the Plan is administered by the Nonemployee Director Stock Option Committee of the Board. The Board or the Executive Compensation Committee may delegate the administration of the Plan, subject to certain limitations.

On May 5, 2004, options were granted under the Plan to nonemployee directors Roland S. Boreham, Jr., Terry A. Elliott, Joe D. Powers, James B. Speed and Jim L. Hanna. The options granted to Mr. Boreham, Mr. Elliott, Mr. Powers and Mr. Speed will vest with respect to 2,500 shares on May 5, 2005, 2,500 shares on May 5, 2006, 2,500 shares on May 5, 2007 and 2,500 shares on May 5, 2008. The exercise period for each such increment will be one year from the vesting date and each has an exercise price of \$11.47 per share, which is equal to the market price of the Common Stock on the grant date. The expiration date of each option is May 5, 2009. The option granted to Mr. Hanna on May 5, 2004 had the same terms as the options granted to the other nonemployee directors on that date, but the vesting of the first increment of 2,500 shares was subsequently accelerated to January 15, 2005, and the remaining increments, covering 7,500 shares, terminated as a result of Mr. Hanna's resignation from the Board effective January 26, 2005.

Compensation Committee Interlocks and Insider Participation

The pre-approval policy also contains a non-exclusive list of prohibited non-audit services that may not be performed by the Company's independent registered public accounting firm, and provides that permissible non-audit services classified as "all other services" must be separately pre-approved by the Audit Committee. The Audit Committee did not approve any services pursuant to Rule 2-01(c)(7)(i)(C) of Regulation S-X promulgated under the Exchange Act, which permits the waiver of the pre-approval requirements in certain circumstances.

Report of Audit Committee

The following paragraphs constitute the report of the Audit Committee of the Board of Directors for fiscal year 2004. In accordance with Securities and Exchange Commission (the Commission) rules, this report shall not be deemed to be incorporated by reference into any statements or reports filed by the Company with the Commission that do not specifically incorporate this report by reference, notwithstanding the incorporation of this Proxy Statement into any such reports.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. The Audit Committee's actions are governed by a written charter, which has been adopted by the Board of Directors. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. All of the members of the Audit Committee are independent as defined by Rule 4200(a)(15) and meet the independence and other requirements of Rule 4350(d)(2) of The Nasdaq Stock Market's listing standards. In addition, the Audit Committee has discussed with the independent registered public accounting firm their independence from management and the Company including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of non-audit services with their independence.

The Audit Committee discussed with the Company's independent registered public accounting firm the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards, AU §380), as well as the overall scope and plans for their audit. The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Audit Committee held four meetings in person and three by conference call during fiscal year 2004.

In reliance on the reviews and discussions referred to above, and after receiving and reviewing the written disclosures and the letter from the independent accountants as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2004 for filing with the Securities and Exchange Commission. The Audit Committee has appointed Ernst & Young LLP as the Company's independent registered public accounting firm for 2005.

Terry A. Elliott (Chairman)

CERTAIN TRANSACTIONS

The Company has a long-standing policy of not making loans to officers, directors or affiliates of the Company. The Company's policy further prohibits entering into leases, equipment purchase agreements or other contracts with officers, directors or affiliates of the Company unless the Board, and the disinterested members of the Board, so approve upon the Audit Committee's recommendation, after the Audit Committee has determined that the transaction is reasonable, in the best interest of the Company and on terms no less favorable than could be obtained from an unrelated third party.

The Company is a party to an agreement with Alpha Delta Aviation, Inc. pursuant to which the Company receives aircraft charter service for the transportation of employees in connection with Company business. Robert M. Powell, Chairman and CEO of the Company, is the owner of Alpha Delta Aviation, Inc. This transaction was unanimously approved by the Board of Directors, with Mr. Powell abstaining, and is reviewed annually by the Audit Committee and the Board of Directors. The Audit Committee and the Board of Directors review, on a regular basis, rates charged for similar services by third parties in the relevant market area and have concluded that the terms of this agreement are no less favorable than the Company could obtain from an unrelated third party. In 2004, the total amount paid by the Company to Alpha Delta Aviation, Inc. under this agreement was \$75,429.

SECTION 16(a) COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's directors and officers, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes of ownership with the Securities and Exchange Commission. Based solely on its review of the copies of such reports received by it, and written representations from certain reporting persons, the Company believes that during fiscal 2004, its directors, officers and greater than 10% beneficial owners complied with all filing requirements applicable to them, except that one report on Form 4 for Garry R. Lewis, Senior Vice President, Operations, relating to one transaction, was inadvertently filed late.
