Registrant's telephone number, including area code: (312) 917-7700

Date of fiscal year end: October 31

Date of reporting period: April 30, 2014

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

Nuveen Investments to be acquired by TIAA-CREF

On April 14, 2014, TIAA-CREF announced that it had entered into an agreement to acquire Nuveen Investments, the parent company of your fund's investment adviser, Nuveen Fund Advisors, LLC ("NFAL") and the Nuveen affiliates that act as sub-advisers to the majority of the Nuveen Funds. TIAA-CREF is a national financial services organization with approximately \$569 billion in assets under management (as of March 31, 2014) and is a leading provider of retirement services in the academic, research, medical and cultural fields. Nuveen anticipates that it will operate as a separate subsidiary within TIAA-CREF's asset management business, and that its current leadership and key investment teams will stay in place.

Your fund investment will not change as a result of Nuveen's change of ownership. You will still own the same fund shares and the underlying value of those shares will not change as a result of the transaction. NFAL and your fund's sub-adviser(s) will continue to manage your fund according to the same objectives and policies as before, and we do not anticipate any significant changes to your fund's operations. Under the securities laws, the consummation of the transaction will result in the automatic termination of the investment management agreements between the funds and NFAL and the investment sub-advisory agreements between NFAL and each fund's sub-adviser(s). New agreements will be presented to the funds' shareholders for approval, and, if approved, will take effect upon consummation of the transaction or such later time as shareholder approval is obtained.

The transaction, expected to be completed by year end, is subject to customary closing conditions.

Chairman's Letter to Shareholders

Dear Shareholders,

After significant growth in 2013, domestic and international equity markets have been less compelling during the first part of 2014. Concerns about deflation, political uncertainty in many places and the potential for more fragile economies to impact other countries have produced uncertainty in the markets.

Europe is beginning to emerge slowly from recession in mid-2013, with improved GDP and employment trends in some countries. However, Japan's deflationary headwinds have resurfaced; and China shows signs of slowing from credit distress combined with declines in manufacturing and exports. Most recently, tensions between Russia and Ukraine may continue to hold back stocks and support government bonds in the near term.

Despite these headwinds, there are some encouraging signs of forward momentum in the markets. In the U.S., the news is more positive with financial risks slowly receding, positive GDP trends, downward trending unemployment and stronger household finances and corporate spending.

It is in such changeable markets that professional investment management is most important. Investment teams who have experienced challenging markets in the past understand how their asset class can behave in rapidly changing times. Remaining committed to their investment disciplines during these times is a critical component to achieving long-term success. In fact, many strong investment track records are established during challenging periods because experienced investment teams understand that volatile markets place a premium on companies and investment ideas that can weather the short-term volatility. By maintaining appropriate time horizons, diversification and relying on practiced investment teams, we believe that investors can achieve their long-term investment objectives.

As always, I encourage you to communicate with your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of the Nuveen Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

William J. Schneider Chairman of the Board June 23, 2014

Portfolio Managers' Comments

Nuveen Performance Plus Municipal Fund, Inc. (NPP) Nuveen Municipal Advantage Fund, Inc. (NMA) Nuveen Municipal Market Opportunity Fund, Inc. (NMO) Nuveen Dividend Advantage Municipal Fund (NAD) Nuveen Dividend Advantage Municipal Fund 2 (NXZ) Nuveen Dividend Advantage Municipal Fund 3 (NZF)

These Funds feature management by Nuveen Asset Management, LLC, an affiliate of Nuveen Investments. Portfolio managers Thomas C. Spalding, CFA, and Paul L. Brennan, CFA, discuss key investment strategies and the six-month performance of these six national Funds. Tom has managed NXZ since its inception in 2001 and NPP, NMA, NMO and NAD since 2003. Paul assumed portfolio management responsibility for NZF in 2006.

What key strategies were used to manage these Funds during the six-month reporting period ended April 30, 2014?

During this reporting period, we saw the municipal market shift from volatility to a more stable environment. As 2014 began, the selling pressure that had been triggered by uncertainty about the Federal Reserve's (Fed) next steps and headline credit stories involving Detroit and Puerto Rico gave way to increased flows into municipal bond funds, as the Fed remained accommodative and municipal credit fundamentals continued to improve. Municipal bonds rebounded, driven by stronger demand and declining supply. For the reporting period as a whole, municipal bonds nationwide generally produced positive total returns. During this time, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term and helped keep our Funds fully invested.

During this period, the Funds generally emphasized staying fully invested in credit sensitive sectors and longer maturity bonds that tend to perform well when new issuance is scarce and credit spreads are stable or tightening, as money flowed back into the municipal market. Overall, we were focused on finding bonds in the new issue and secondary markets that could enhance our efforts to achieve portfolio objectives. Because the Funds experienced turnover in short-term bonds, some of that focus was on purchasing bonds with longer maturities to maintain the Funds' longer durations. During the last part of 2013 and early 2014, this included the purchase of zero coupon bonds in NPP, NMA, NMO, NAD and NXZ, which provided long maturities and additional income to support the Funds' dividends. In general, NPP, NMA, NMO, NAD and NXZ continued to find value in sectors that represent some of our larger exposures, including transportation (e.g., tollroads, highways), water and sewer, health care and tobacco. One of our additions in the transportation sector was a new issue from the Foothill/Eastern Transportation Corridor Agency (F/ETCA) in California, which we purchased at attractive prices in December 2013. In one of the largest fixed-rate municipal transactions of 2013, F/ETCA refinanced \$2.3 billion in outstanding debt originally issued in 1999. The refinancing extended the agency's debt from 2040 to 2053, lowered annual payments through 2040 and reduced the maximum annual debt payment. Traffic

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's (S&P), Moody's Investors Service, Inc. (Moody's) or Fitch, Inc. (Fitch) Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

Bond insurance guarantees only the payment of principal and interest on the bond when due, and not the value of the bonds themselves, which will fluctuate with the bond market and the financial success of the issuer and the insurer. Insurance relates specifically to the bonds in the portfolio and not to the share prices of a Fund. No representation is made as to the insurers' ability to meet their commitments.

## Portfolio Managers' Comments (continued)

and revenues on the tollroads in F/ETCA's 36-mile network, which links major population centers in Southern California, have increased and the bonds have performed very well for the Funds since purchase.

NZF also found value in diversified areas of the market, including transportation, health care and general obligation (GO) bonds. Despite the challenging environment created by the 20% decrease in new issuance during this reporting period, we continued to find opportunities to purchase bonds that helped achieve our goals. In the primary market, we added some new BBB-rated bond offerings, including the F/ETCA issue as well as bonds issued to finance the Downtown Crossing bridge across the Ohio River from Indiana to Louisville, Kentucky. In addition, we purchased bonds for Catholic Health Initiative, a national non-profit health system that operates hospitals and long-term care facilities in 17 states, for facilities in Colorado and Tennessee. We also increased our exposure to GO bonds issued by the state of Illinois. Despite the state's well-publicized fiscal difficulties, we believe Illinois has taken small positive steps to begin addressing these problems and these holdings have performed well for NZF.

Also during this period, S&P upgraded its credit rating on National Public Finance Guarantee Corp. (NPFG), the insurance subsidiary of MBIA, to AA-rated from A-rated, citing NPFG's strong operating performance and competitive position in the financial guarantee market. As a result, the Funds' holdings of bonds backed by insurance from NPFG were similarly upgraded to AA-rated as of mid-March 2014. This action produced an increase in the percentage of our portfolios held in the AA-rated credit quality category (and a corresponding decrease in the A-rated category), improving the overall credit quality of the Funds. During this reporting period, S&P also upgraded its rating on Assured Guaranty Municipal (AGM) as well as AGM's municipal-only insurer Municipal Assurance Corp. to AA from AA-.

Cash for new purchases during this reporting period was generated primarily by the proceeds from called and matured bonds, which we worked to redeploy to keep the Funds fully invested and support their income streams. The Funds also engaged in some light selling for cashflow management purposes or to take advantage of attractive prices for some of the Funds' holdings. In addition, NPP, NMA, NMO and NAD sold several holdings of Puerto Rico paper. This activity is further discussed in our comments on Puerto Rico at the end of this Portfolio Managers' Comments section.

As of April 30, 2014, all six of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement.

How did the Funds perform during the six-month reporting period ended April 30, 2014?

The tables in each Fund's Performance Overview and Holding Summaries section of this report provide the Funds' total returns for the six-month, one-year, five-year and ten-year periods ended April 30, 2014. Each Fund's total returns at net asset value (NAV) are compared with the performance of a corresponding market index and Lipper classification average.

For the six months ended April 30, 2014, the total returns at common share NAV for all six of these Funds outperformed the return for the national S&P Municipal Bond Index. For the same period, NPP exceeded the average return for the Lipper General & Insured Leveraged Municipal Debt Funds Classification Average, while the remaining five Funds lagged this Lipper average.

Key management factors that influenced the Funds' returns during this reporting period included duration and yield curve positioning, credit exposure and sector allocation. In addition, the use of regulatory leverage was an important positive factor affecting the Funds' performance. Leverage is discussed in more detail in the Fund Leverage section of

#### this report.

As interest rates on longer bonds slipped and the yield curve flattened during this reporting period, municipal bonds with longer maturities generally outperformed those with shorter maturities. Overall, credits with long-intermediate maturities (15 years and longer) posted the best returns, while bonds at the shortest end of the municipal yield curve produced the weakest results. In general, the Funds' durations and yield curve positioning were the key contributors to their performance. Consistent with our long-term strategy, these Funds tended to have longer durations than the municipal market in general, with overweightings in the longer parts of the yield curve that performed well and underweightings in the underperforming shorter end of the curve. This was beneficial for the Funds' performance during this reporting period. Performance differentials among the Funds can be ascribed to individual differences in duration and yield curve positioning. Overall, NPP was the most advantageously positioned in terms of duration and yield curve, while the performance of NXZ and NZF was restrained by their shorter durations.

Credit exposure was another key factor in the Funds' performance during this six-month reporting period. In general, lower rated bonds were rewarded as the environment shifted from selloff to rally, investors became more risk-tolerant and credit spreads, or the

difference in yield spreads between U.S. Treasury securities and comparable investments such as municipal bonds, narrowed. Overall, A-rated credits and lower, outperformed those AAA-rated and AA-rated. These Funds benefited from their lower rated holdings during this reporting period.

For the reporting period, revenue bonds generally outperformed tax-supported bonds as well as the municipal market as a whole. Top performers included the industrial development revenue (IDR) and health care sectors. In addition, transportation (especially lower rated tollroad issues), water and sewer, education and housing credits generally outperformed the municipal market return. Each of these Funds had strong exposures to the health care and transportation sectors, which benefited their performance. Tobacco credits backed by the 1998 master tobacco settlement agreement also were among the best performing market sectors, due in part to their longer effective durations and lower credit quality. All of these Funds were overweighted in tobacco bonds, with NPP and NMO having the largest allocations of these credits and NZF the smallest.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, were among the weaker performers. The under-performance of these bonds relative to the market can be attributed primarily to their shorter effective maturities and higher credit quality. All of these Funds had holdings of pre-refunded bonds, with NMO and NZF having the heaviest exposures to these bonds and NAD the smallest. Utilities and GO bonds also trailed the market for the reporting period, although by a substantially smaller margin than the pre-refunded category.

Shareholders also should be aware of two events in the broader municipal bond market that continued to have an impact on the Funds' holdings and performance: the City of Detroit's ongoing bankruptcy proceedings and the downgrade of ratings on Puerto Rico GO bonds and related debt to below investment grade. Burdened by decades of population loss, changes in the auto manufacturing industry, and significant tax base deterioration, the City of Detroit filed for Chapter 9 in federal bankruptcy court in July 2013. Given the complexity of its debt portfolio, number of creditors, numerous union contracts, and significant legal questions that must be addressed, Detroit's bankruptcy filing is expected to be a lengthy one. All of these Funds had allocations of Detroit water and sewer credits, which are supported by revenue streams generated by service fees. Many of these holdings also are insured. In addition, NPP and NMO held positions in Detroit distributable state aid general obligation (limited tax) bonds secured by liens on certain shared revenue streams and NZF held insured Detroit City School District bonds. Neither of these issues are part of the Detroit bankruptcy. During this reporting period, the Fund's Detroit holdings generally posted positive results.

In Puerto Rico, the commonwealth's continued economic weakening, escalating debt service obligations and long-standing inability to deliver a balanced budget led to several downgrades on its debt. Following the most recent round of rating reductions in February 2014, Moody's, S&P and Fitch rated Puerto Rico GO debt at Ba2/BB+/BB, respectively, with negative outlooks. Ratings on sales tax bonds issued by the Puerto Rico Sales Tax Financing Corporation (COFINA) also have been lowered, with senior sales tax revenue bonds rated Baa1/AA-/AA- and subordinate sales tax revenue bonds rated Baa2/A+/A+ by Moody's, S&P and Fitch, respectively, as of April 2014. The COFINA bonds were able to maintain a higher credit rating than the GOs because, unlike the revenue streams supporting some Puerto Rican issues, the sales taxes supporting the COFINA bonds cannot be diverted and used to support Puerto Rico's GO bonds.

For the reporting period ended April 30, 2014, Puerto Rico paper underperformed the municipal market as a whole. At the beginning of this reporting period, all of these Funds had limited exposure to Puerto Rico bonds, generally between under 1% and 5%. The effect on performance from their Puerto Rico holdings differed from Fund to Fund in line with the type and amount of its position, but on the whole, the small nature of our exposures helped to limit the negative impact of the underperformance. Puerto Rico bonds were originally added to our portfolios in order to keep assets fully invested and working for the Funds. We found Puerto Rico credits attractive because they offer higher yields, added diversification and triple exemption (i.e., exemption from most federal, state and local taxes). As

previously mentioned, NPP, NMA, NMO and NAD sold some of their holdings of uninsured Puerto Rico paper. At period end, the majority of the Funds' exposure to Puerto Rico consisted of COFINA sales tax credits, issues that were insured or escrowed and bonds that Nuveen considers to be of higher quality. NPP, NMA, NMO, NAD, NXZ and NZF began the reporting period with portfolio allocations of 3.7%, 4.6%, 3.4%, 3.6%, 2.4% and 0.3% to Puerto Rico, respectively and ended the reporting period with an exposure to Puerto Rico of 3.2%, 3.2%, 1.8%, 2.3%, 2.1% and 0.2%, respectively. We believe that our decision to maintain limited exposure to Puerto Rico bonds will enable participation in any future upside for the commonwealth's obligations.

## Fund Leverage

## IMPACT OF THE FUNDS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the returns of the Funds relative to their comparative benchmarks was the Funds' use of leverage through their issuance of preferred shares and/or investments in inverse floating rate securities, which represent leveraged investments in underlying bonds. The Funds use leverage because our research has shown that, over time, leveraging provides opportunities for additional income, particularly in the recent market environment where short-term market rates are at or near historical lows, meaning that the short-term rates the Fund has been paying on its leveraging instruments have been much lower than the interest the Fund has been earning on its portfolio of long-term bonds that it has bought with the proceeds of that leverage. However, use of leverage also can expose the Fund to additional price volatility. When a Fund uses leverage, the Fund will experience a greater increase in its net asset value if the municipal bonds acquired through the use of leverage increase in value, but it will also experience a correspondingly larger decline in its net asset value if the bonds acquired through leverage decline in value, which will make the Fund's net asset value more volatile, and its total return performance more variable over time. In addition, income in levered funds will typically decrease in comparison to unlevered funds when short-term interest rates increase and increase when short-term interest rates decrease. Leverage made a positive contribution to the performance of these Funds over this reporting period.

As of April 30, 2014, the Funds' percentages of effective and regulatory leverage are as shown in the accompanying table.

	NPP	NMA	NMO	NAD	NXZ	NZF
Effective Leverage*	38.45%	35.79%	37.82%	35.93%	34.46%	34.50%
Regulatory						
Leverage*	36.20%	31.49%	34.50%	30.87%	30.33%	28.34%

\* Effective Leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative and other investments in a Fund's portfolio that increase the Fund's investment exposure. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage. Regulatory leverage consists of preferred shares issued or borrowings of a Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is subject to asset coverage limits set forth in the Investment Company Act of 1940.

# THE FUNDS' REGULATORY LEVERAGE

As of April 30, 2014, the Funds have issued and outstanding Institutional MuniFund Term Preferred (iMTP) Shares, Variable Rate MuniFund Term Preferred (VMTP) Shares and Variable Rate Demand Preferred (VRDP) Shares as shown in the accompanying table.

	iMTP Shares		VMTP S	Shares	VRDP S	hares
		Shares		Shares		Shares
		Issued at		Issued at		Issued at
	L	iquidation		Liquidation		Liquidation
	Series	Value	Series	Value	Series	Value Total
NPP	_		2015 \$	535,000,000		-\$535,000,000
NMA					1 \$	296,800,000 \$ 296,800,000
NMO	—				1 \$	350,900,000 \$ 350,900,000
NAD	—	—	2016 \$	265,000,000		-\$265,000,000
NXZ					2 \$	196,000,000 \$ 196,000,000
NZF	2017 \$ 15	0,000,000	2017 \$	91,000,000	—	-\$241,000,000

During the current reporting period, NAD refinanced all of its outstanding MuniFund Term Preferred (MTP) and VMTP shares with the issuance of new VMTP Shares, and NZF refinanced all of its outstanding MTP and VMTP shares with the issuance of new iMTP and VMTP Shares. Refer to Notes to Financial Statements, Note 1 – General Information and Significant Accounting Policies for further details on iMTP, MTP, VMTP and VRDP Shares and each Fund's respective transactions.

Common Share Information

## COMMON SHARE DIVIDEND INFORMATION

The following information regarding the Fund's distributions is current as of April 30, 2014. Each Fund's distribution levels may vary over time based on each Fund's investment activity and portfolio investments value changes.

During the current reporting period, the Funds' monthly dividends to common shareholders were as shown in the accompanying table.

	Per Common Share Amounts									
Ex-Dividend Date	NPP		NMA		NMO		NAD	NXZ		NZF
November 2013	\$ 0.0770	\$	0.0670	\$	0.0645	\$	0.0730	\$ 0.0670	\$	0.0580
December	0.0770		0.0670		0.0645		0.0730	0.0670		0.0580
January	0.0770		0.0670		0.0670		0.0740	0.0695		0.0595
February	0.0770		0.0670		0.0670		0.0740	0.0695		0.0595
March	0.0770		0.0670		0.0670		0.0740	0.0695		0.0595
April 2014	0.0770		0.0670		0.0670		0.0740	0.0695		0.0595
Ordinary Income										
Distribution*	\$ 0.0006	\$	0.0009	\$	0.0042	\$	0.0183	\$ 0.0002	\$	0.0002
Market Yield**	6.27%		6.05%		6.09%		6.44%	6.03%		5.34%
Taxable-Equivalent										
Yield**	8.71%		8.40%		8.46%		8.94%	8.38%		7.42%

\* Distribution paid in December 2013.

\*\* Market Yield is based on the Fund's current annualized monthly dividend divided by the Fund's current market price as of the end of the reporting period. Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of 28.0%. When comparing a Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of April 30, 2014, all of the Funds in this report had positive UNII balances, based upon our best estimate, for tax purposes and positive UNII balances for financial reporting purposes.

#### COMMON SHARE REPURCHASES

As of April 30, 2014, and since the inception of the Funds' repurchase programs, the Funds have not repurchased any of their outstanding common shares.

	NPP	NMA	NMO	NAD	NXZ	NZF
Common Shares						
Cumulatively						
Repurchased and						
Retired		·		·		·

## **Risk Considerations**

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment, Market and Price Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Funds, which generally trade in the over-the-counter markets. Shares of closed-end investment companies like these Funds frequently trade at a discount to their net asset value (NAV). Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful. Certain aspects of the recently adopted Volcker Rule may limit the availability of tender option bonds, which are used by the Funds for leveraging and duration management purposes. The effects of this new Rule, expected to take effect in mid-2015, may make it more difficult for a Fund to maintain current or desired levels of leverage and may cause the Fund to incur additional expenses to maintain its leverage.

Inverse Floater Risk. The Funds may invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that a Fund could lose more than its original principal investment.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Derivatives Risk. The Funds may use derivative instruments which involve a high degree of financial risk, including the risk that the loss on a derivative may be greater than the principal amount investment.

Municipal Debt Funds Classification				
Average				

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares. Comparative index and Lipper return information is provided for the Fund's shares at NAV only. Indexes and Lipper averages are not available for direct investment.

#### NPP Performance Overview and Holding Summaries as of April 30, 2014 (continued)

This data relates to the securities held in the Fund's portfolio of investments as of the end of the reporting period. It should not be construed as a measure of performance for the Fund itself. Holdings are subject to change.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below-investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (6) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Directors. For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (7) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July 15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.
- (8) Variable Rate MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 35.7%
- WI/DD Investment, or portion of investment, purchased on a when-issued or delayed delivery basis.

### (ETM) Escrowed to maturity.

- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

	Variable Rate Demand Preferred Shares,			(3	350,900,000)
	at Liquidation Value – (52.7)% (9)				
	Other Assets Less Liabilities – 2.6%				17,342,664
	Net Assets Applicable to Common Shares – 100%			\$	666,202,948

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (6) On November 28, 2011, AMR Corp. ("AMR"), the parent company of American Airlines Group, Inc. ("AAL") filed for federal bankruptcy protection. On December 9, 2013, AMR emerged from federal bankruptcy with

the acceptance of its reorganization plan by the bankruptcy court. Under the settlement agreement established to meet AMR's unsecured bond obligations, the bondholders, including the Fund, received a distribution of AAL preferred stock which was converted to AAL common stock over a 120-day period. Every 30 days, a quarter of the preferred stock was converted to AAL common stock based on the 5-day volume-weighted average price and the amount of preferred shares tendered during the optional preferred conversion period.

- (7) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Directors. For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (8) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July 15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.
- (9) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 33.9%.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

(1)	A 11 mana	pantages shown in the Portfolio of Investments	are based or	not occote or	nnliashla ta sam	mon charac

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (6) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.

- (7) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (8) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July 15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.
- (9) A copy of the most recent financial statements for the investment companies in which the Fund invests can be obtained directly from the Securities and Exchange Commission on its website at http://www.sec.gov.
- (10) Variable Rate MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 29.8%.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

	Total Long-Term Investments (cost \$615,933,478)				655,875,767
	Floating Rate Obligations – (4.3)%				(19,570,000)
	Variable Rate Demand Preferred Shares,				(196,000,000)
	at Liquidation Value – (43.5)% (9)				
	Other Assets Less Liabilities – 2.1%				9,901,972
	Net Assets Applicable to Common Shares – 100%			\$	450,207,739

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (6) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (7) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (8) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July

15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.

- (9) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is 29.9%.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.
- 144A Investment is exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These investments may only be resold in transactions exempt from registration, which are normally those transactions with qualified institutional buyers.

See accompanying notes to financial statements.

		Net Assets Applicable to Common Shares – 100%		\$	

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to common shares unless otherwise noted.

(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

(3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.

(5)

Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.

- (6) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a fixed-income security, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (7) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees. For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Note 2 Investment Valuation and Fair Value Measurements for more information.
- (8) During January 2010, Las Vegas Monorail Company ("Las Vegas Monorail") filed for federal bankruptcy protection. During March 2012, Las Vegas Monorail emerged from federal bankruptcy with the acceptance of a reorganization plan assigned by the Federal Bankruptcy Court. Under the reorganization plan, the Fund surrendered its Las Vegas Monorail Project Revenue Bonds, First Tier, Series 2000 and in turn received two senior interest corporate bonds: the first with an annual coupon rate of 5.500% maturing on July 15, 2019 and the second with an annual coupon rate of 3.000% (5.500% after December 31, 2015) maturing on July 15, 2055. The Fund's custodian is not accruing income on the Fund's records for either senior interest corporate bond.
- (9) A copy of the most recent financial statements for the investment companies in which the Fund invests can be obtained directly from the Securities and Exchange Commission on its website at http://www.sec.gov.
- (10) Investment has a maturity of more than a year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
- (11) Institutional MuniFund Term Preferred Shares and Variable Rate MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments are 17.1% and 10.4%, respectively.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

(a) The amounts shown are based on common share equivalents.

(b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on

the Fund's market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(c) Ratios do not reflect the effect of dividend payments to Auction Rate Preferred shareholders, where applicable; Net Investment Income (Loss) ratios reflect income earned and expenses incurred on assets attributable to Auction Rate Preferred Shares ("ARPS"), VMTP Shares and/or VRDP Shares, where applicable.

(d) The expense ratios reflect, among other things, all interest expense and other costs related to VMTP Shares, VRDP Shares and/or the interest expense deemed to have been paid by the Fund on the floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, where applicable, each as described in Note 1 – General Information and Significant Accounting Policies, Variable Rate MuniFund Term Preferred Shares and Variable Rate Demand Preferred Shares and Note 3 – Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities, respectively, as follows:

Performance Plus (NPP) Year Ended 10/31: 2014(f) .75%\*\* 2013 .84 2012 .70 2011 .56 2010 .04 2009 .05 Municipal Advantage (NMA) Year Ended 10/31:

(a) The amounts shown are based on common share equivalents.

(b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share NAV is the combination of changes in common share NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending NAV. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its NAV), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- (c) Ratios do not reflect the effect of dividend payments to Auction Rate Preferred shareholders, where applicable; Net Investment Income (Loss) ratios reflect income earned and expenses incurred on assets attributable to ARPS, iMTP Shares, MTP Shares, VMTP Shares and/or VRDP Shares, where applicable.
- (d) After expense reimbursement from the Adviser, where applicable. As of March 31, 2011 and September 30, 2011, the Adviser is no longer reimbursing Dividend Advantage 2 (NXZ) and Dividend Advantage 3 (NZF), respectively, for any fees and expenses.
- (e) The expense ratios reflect, among other things, all interest expense and other costs related to iMTP Shares, MTP Shares, VMTP Shares, VRDP Shares and/or the interest expense deemed to have been paid by the Fund on the floating rate certificates issued by the special purpose trusts for the self-deposited inverse floaters held by the Fund, where applicable, each as described in Note 1 General Information and Significant Accounting Policies, Institutional MuniFund Term Preferred Shares, MuniFund Term Preferred Shares, Variable Rate MuniFund Term Preferred Shares and Variable Rate Demand Preferred Shares and Note 3 Portfolio Securities and Investments in Derivatives, Inverse Floating Rate Securities, respectively, as follows:

Dividend Advantage 2 (NXZ)	
Year Ended 10/31:	
2014(g)	.62%**
2014(g) 2013	.62
2012	.65

2011	.78
2010	.78
2009	.83

114 Nuveen Investments

iMTP, N

Notes to Financial Statements (Unaudited)

1. General Information and Significant Accounting Policies

General Information

Fund Information

The funds covered in this report and their corresponding New York Stock Exchange ("NYSE") or NYSE MKT symbols are as follows (each a "Fund" and collectively, the "Funds"):

• Nuveen Performance Plus Municipal Fund, Inc. (NPP) ("Performance Plus (NPP)")

- Nuveen Municipal Advantage Fund, Inc. (NMA) ("Municipal Advantage (NMA)")
- Nuveen Municipal Market Opportunity Fund, Inc. (NMO) ("Market Opportunity (NMO)")
- Nuveen Dividend Advantage Municipal Fund (NAD) ("Dividend Advantage (NAD)")
- Nuveen Dividend Advantage Municipal Fund 2 (NXZ) ("Dividend Advantage 2 (NXZ)")
- Nuveen Dividend Advantage Municipal Fund 3 (NZF) ("Dividend Advantage 3 (NZF)")

The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end registered investment companies. Performance Plus (NPP), Municipal Advantage (NMA), Market Opportunity (NMO) and Dividend Advantage (NAD) are traded on the NYSE while Dividend Advantage 2 (NXZ) and Dividend Advantage 3 (NZF) are traded on the NYSE MKT. Performance Plus (NPP), Municipal Advantage (NMA) and Market Opportunity (NMO) were organized as Minnesota corporations on April 28, 1989, November 6, 1989 and January 23, 1990, respectively. Dividend Advantage (NAD), Dividend Advantage 2 (NXZ) and Dividend Advantage 3 (NZF) were organized as Massachusetts business trusts on January 15, 1999, June 1, 1999 and March 21, 2001, respectively.

#### Investment Adviser

The Funds' investment adviser is Nuveen Fund Advisors, LLC (the "Adviser"), a wholly-owned subsidiary of Nuveen Investments, Inc. ("Nuveen"). The Adviser is responsible for each Fund's overall investment strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC (the "Sub-Adviser"), a subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds.

#### Agreement and Plan of Merger

On April 14, 2014, TIAA-CREF, a national financial services organization, announced that it had entered into an agreement (the "Purchase Agreement") to acquire Nuveen, the parent company of the Adviser. The transaction is expected to be completed by the end of the year, subject to customary closing conditions, including obtaining necessary Nuveen Fund and client consents sufficient to satisfy the terms of the Purchase Agreement and obtaining customary regulatory approvals. There can be no assurance that the transaction described above will be consummated as contemplated or that necessary conditions will be satisfied.

The consummation of the transaction will be deemed to be an "assignment" (as defined in the Investment Company Act of 1940) of the investment management agreements between the Nuveen Funds and the Adviser and the investment sub-advisory agreements between the Adviser and each Nuveen Fund's sub-adviser or sub-advisers, and will result in automatic termination of each agreement. It is anticipated that the Board of Directors/Trustees of the Nuveen Funds (the "Board") will consider a new investment management agreement with the Adviser and new investment sub-advisory agreements with each sub-adviser. If approved by the Board, the new agreements will be presented to the Nuveen Funds' shareholders for approval, and, if so approved by shareholders, will take effect upon consummation of the transaction or such later time as shareholder approval is obtained.

The transaction is not expected to result in any change in the portfolio management of the Funds or in the Funds' investment objectives or policies.

#### **Investment Objectives**

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a portfolio of municipal obligations issued by state and local government authorities or certain U.S. territories.

#### Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Notes to Financial Statements (Unaudited) (continued)

#### **Investment Transactions**

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds' portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. As of April 30, 2014, outstanding when-issued/delayed delivery purchase commitments were as follow:

	Per	rformance		Dividend
		Plus	A	dvantage 3
		(NPP)		(NZF)
Outstanding when-issued/delayed delivery purchase commitments	\$	111,675	\$	85,000

#### Investment Income

Dividend income is recorded on the ex-dividend date. Investment income, which reflects the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

#### **Professional Fees**

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders. If a refund is received for workout expenditures paid in a prior reporting period, such amounts will be recognized as "Legal fee refund" on the Statements of Operations.

#### Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards. Distributions to common shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

#### Auction Rate Preferred Shares

Each Fund is authorized to issue Auction Rate Preferred Shares ("ARPS"). During prior fiscal periods, the Funds redeemed all of their outstanding ARPS, at liquidation value.

#### Institutional MuniFund Term Preferred Shares

The following Fund has issued and outstanding Institutional MuniFund Term Preferred ("iMTP") Shares, with a \$5,000 liquidation value per share. iMTP Shares are issued via private placement and are not publicly available.

As of April 30, 2014, iMTP Shares outstanding, at liquidation value, for the Fund was as follows:

Shares Outstanding at \$5,000

		Shares	Per Share
			Liquidation
	Series	Outstanding	Value
Dividend Advantage 3 (NZF)	2017	30,000 \$	150,000,000

The Fund is obligated to redeem its iMTP Shares by the date as specified in its offering document ("Term Redemption Date"), unless earlier redeemed or repurchased by the Fund. iMTP Shares are subject to optional and mandatory redemption in certain circumstances. The iMTP Shares are not subject to redemption at the option of the Fund for one year following the date of issuance ("Non-Call Expiration Date"), at which point the Fund may begin to redeem at its option ("Optional Redemption Date"). The Fund may be obligated to redeem certain of the iMTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for the Fund's iMTP Shares are as follows:

		Term	Optional	Non-Call
		Redemption	Redemption	Expiration
	Series	Date	Date	Date
		October 1,		March 31,
Dividend Advantage 3 (NZF)	2017	2017	April 1, 2015	2015

The average liquidation value of iMTP Shares outstanding and annualized dividend rate for the Fund during the six months ended April 30, 2014, were as follows:

	Dividend
	Advantage 3
	(NZF)*
Average liquidation value of iMTP Shares outstanding	\$ 150,000,000
Annualized dividend rate	.84%

\* For the period April 1, 2014 (commencement of operations) through April 30, 2014.

iMTP Shares generally do not trade, and market quotations are generally not available. iMTP Shares are short-term or short/intermediate-term instruments that pay a variable dividend rate tied to a short-term index, plus an additional fixed "spread" amount established at the time of issuance. The fair value of iMTP Shares is expected to be approximately their liquidation par value so long as the fixed "spread" on the iMTP Shares remains roughly in line with the "spread" rates being demanded by investors on instruments having similar terms in the current market environment. In present market conditions, the Fund's Adviser has determined that the fair value of iMTP Shares is their liquidation value, but their fair value could vary if market conditions change materially. For financial reporting purposes, the liquidation value of iMTP Shares is recorded as a liability and recognized as "Institutional MuniFund Term Preferred ("iMTP") Shares, at liquidation value" on the Statement of Assets and Liabilities.

Dividends on the iMTP Shares (which are treated as interest payments for financial reporting purposes) are set weekly. Unpaid dividends on iMTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities, when applicable. Dividends accrued on iMTP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

Offering costs of \$970,000 were incurred in connection with the Fund's offering of iMTP Shares, which were recorded as a deferred charge and are being amortized over the life of the shares. These offering costs are recognized as components of "Deferred offering costs" on the Statement of Assets and Liabilities and "Interest expense and amortization of offering costs" on the Statement of Operations.

### MuniFund Term Preferred Shares

During the current fiscal period, Dividend Advantage (NAD) and Dividend Advantage 3 (NZF) had issued and outstanding MuniFund Term Preferred ("MTP") Shares, with a \$10 liquidation value per share. Each Fund's MTP Shares were issued in one or more series and trade on the NYSE/NYSE MKT.

Dividend Advantage (NAD) redeemed all of its outstanding Series 2015 MTP Shares on December 20, 2013. Dividend Advantage 3 (NZF) redeemed all of its outstanding Series 2016 MTP Shares on April 11, 2014.

Dividend Advantage's (NAD) MTP Shares were redeemed at their \$10 liquidation value per share plus dividend amounts owed using proceeds from its issuance of VMTP Shares (as described below in Variable Rate MuniFund Term Preferred Shares).

Dividend Advantage 3's (NZF) MTP Shares were redeemed at their \$10 liquidation value per share plus dividend amounts owed using proceeds from its issuance of iMTP Shares and VMTP Shares (as described above in Institutional MuniFund Term Preferred Shares and below in Variable Rate MuniFund Preferred Shares, respectively).

The average liquidation value of MTP Shares outstanding for each Fund during the six months ended April 30, 2014, was as follows:

	Dividend Dividend
	Advantage Advantage 3
	(NAD)* (NZF)**
Average liquidation value of MTP Shares outstanding	\$ 144,300,000 \$ 70,000,000

\* For the period November 1, 2013 through December 20, 2013.

\*\* For the period November 1, 2013 through April 11, 2014.

For financial reporting purposes, the liquidation value of MTP Shares is recorded as a liability and recognized as "MuniFund Term Preferred ("MTP") Shares, at liquidation value" on the Statement of Assets and Liabilities. Unpaid dividends on MTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Dividends accrued on MTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Dividends accrued on MTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Dividends accrued on MTP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations. Costs incurred by the Funds in connection with their offerings of MTP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as components of "Deferred offering costs" on the Statement of Assets and Liabilities and "Interest expense and amortization of offering costs" on the Statement of Operations. In conjunction with Dividend Advantage's (NAD) and Dividend Advantage 3's (NZF) redemption of MTP Shares, the remaining deferred offering costs of \$823,585 and \$547,569, respectively, were fully expensed during the current fiscal period, as the redemptions were deemed an extinguishment of debt.

Variable Rate MuniFund Term Preferred Shares

The following Funds have issued and outstanding Variable Rate MuniFund Term Preferred ("VMTP") Shares, with a \$100,000 liquidation value per share. VMTP Shares are issued via private placement and are not publicly available.

Notes to Financial Statements (Unaudited) (continued)

As of April 30, 2014, VMTP Shares outstanding, at liquidation value, for each Fund was as follows:

			Shares
			Outstanding at
			\$100,000 Per
		Shares	Share
			Liquidation
Fund	Series	Outstanding	Value
Performance Plus (NPP)	2015	5,350 \$	535,000,000
Dividend Advantage (NAD)	2016	2,650 \$	265,000,000
Dividend Advantage 3 (NZF)	2017	910 \$	91,000,000

On January 6, 2014, Dividend Advantage (NAD) and on April 11, 2014, Dividend Advantage 3 (NZF) redeemed all 1,204 shares of its outstanding Series 2014 VMTP and 1,692 shares of its outstanding Series 2014 VMTP, respectively. Dividend Advantage (NAD) issued 2,650 shares of Series 2016 VMTP and Dividend Advantage 3 (NZF) issued 910 shares of Series 2017 VMTP, each through a privately negotiated offering, which was offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. Dividend Advantage (NAD) and Michigan Quality Income (NUM) completed their refinancing of their existing VMTP Shares with new VMTP Shares with a term redemption date of December 30, 2016 and April 1, 2017, respectively.

Each Fund is obligated to redeem its VMTP Shares by the date as specified in its offering document ("Term Redemption Date"), unless earlier redeemed or repurchased by the Fund. VMTP Shares are subject to optional and mandatory redemption in certain circumstances. The VMTP Shares are subject to redemption at the option of each Fund ("Optional Redemption Date"), subject to payment of premium for one year following the date of issuance ("Premium Expiration Date"), and at par thereafter. Each Fund may be obligated to redeem certain of the VMTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for each Fund's series of VMTP Shares are as follows:

		Term Redemption	Optional Redemption	Premium Expiration
Fund	Series	Date	Date	Date
		December 1,	December 1,	November
Performance Plus (NPP)	2015	2015	2013	30, 2013
		December 30,	January 1,	December 31,
Dividend Advantage (NAD)	2016	2016	2015	2014
				March 31,
Dividend Advantage 3 (NZF)	2017	April 1, 2017	April 1, 2015	2015

The average liquidation value of VMTP Shares outstanding and annualized dividend rate for each Fund during the six months ended April 30, 2014, were as follows:

	Performance	Dividend	Dividend
	Plus	Advantage	Advantage 3
	(NPP)	(NAD)	(NZF)
Average liquidation value of VMTP Shares outstanding	\$ 535,000,000	\$ 254,738,122	\$ 156,238,674

Annualized dividend rate

1.20% 1.01% 1.12%

VMTP Shares generally do not trade, and market quotations are generally not available. VMTP Shares are short-term or short/intermediate-term instruments that pay a variable dividend rate tied to a short-term index, plus an additional fixed "spread" amount established at the time of issuance. The fair value of VMTP Shares is expected to be approximately their liquidation par value so long as the fixed "spread" on the VMTP Shares remains roughly in line with the "spread" rates being demanded by investors on instruments having similar terms in the current market environment. In present market conditions, the Funds' Adviser has determined that the fair value of VMTP Shares is their liquidation value, but their fair value could vary if market conditions change materially. For financial reporting purposes, the liquidation value of VMTP Shares is recorded as a liability and recognized as "Variable Rate MuniFund Term Preferred ("VMTP") Shares, at liquidation value" on the Statement of Assets and Liabilities.

Dividends on the VMTP Shares (which are treated as interest payments for financial reporting purposes) are set weekly. Unpaid dividends on VMTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities, when applicable. Dividends accrued on VMTP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

Costs incurred by the Funds in connection with their offering of VMTP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as components of "Deferred offering costs" on the Statement of Assets and Liabilities and "Interest expense and amortization of offering costs" on the Statement of Operations.

In conjunction with Dividend Advantage's (NAD) and Dividend Advantage 3's (NZF) redemption of VMTP Shares, the remaining deferred offering costs of \$72,549 and \$145,744, respectively, were fully expensed during the current fiscal period, as the redemptions were deemed an extinguishment of debt. Dividend Advantage (NAD) and Dividend Advantage 3 (NFZ) each incurred offering costs of \$130,000 in connection with the issuance of Series 2016 and Series 2017 VMTP Shares, respectively, which were recorded as a deferred charge and are being amortized over the life of the shares.

Variable Rate Demand Preferred Shares

The following Funds have issued and outstanding Variable Rate Demand Preferred ("VRDP") Shares, with a \$100,000 liquidation value per share. VRDP Shares are issued via private placement and are not publicly available.

As of April 30, 2014, the details for each Fund's VRDP Shares outstanding are as follows:

			Shares Outstanding at \$100,000	
		Shares	Per Share	
			Liquidation	
Fund	Series	Outstanding	Value	Maturity
				March 1,
Municipal Advantage (NMA)	1	2,968	\$ 296,800,000	2040
				March 1,
Market Opportunity (NMO)	1	3,509	\$ 350,900,000	2040
				August 1,
Dividend Advantage 2 (NXZ)	2	1,960	\$ 196,000,000	2040

VRDP Shares include a liquidity feature that allows VRDP shareholders to have their shares purchased by a liquidity provider with whom each Fund has contracted in the event that purchase orders for VRDP Shares in a remarketing are not sufficient in number to be matched with the sale orders in that remarketing. Each Fund is required to redeem any VRDP Shares that are still owned by the liquidity provider after six months of continuous, unsuccessful remarketing. Each Fund pays an annual remarketing fee of .10% on the aggregate principal amount of all VRDP Shares outstanding. Each Fund's VRDP Shares have successfully remarketed since issuance.

Dividends on the VRDP Shares (which are treated as interest payments for financial reporting purposes) are set weekly at a rate established by a remarketing agent; therefore, the market value of the VRDP Shares is expected to approximate its liquidation value. If remarketings for VRDP Shares are continuously unsuccessful for six months, the maximum rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent's ability to successfully remarket the VRDP Shares.

Subject to certain conditions, VRDP Shares may be redeemed, in whole or in part, at any time at the option of each Fund. Each Fund may also redeem certain of the VRDP Shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The average liquidation value of VRDP Shares outstanding and annualized dividend rate for each Fund during the six months ended April 30, 2014, were as follows:

	Municipal	Market	Dividend
	Advantage	Opportunity	Advantage 2
	(NMA)	(NMO)	(NXZ)
Average liquidation value of VRDP Shares outstanding	\$ 296,800,000	\$ 350,900,000	\$ 196,000,000
Annualized dividend rate	.13%	.18%	.16%

For financial reporting purposes, the liquidation value of VRDP Shares is recorded as a liability and recognized as "Variable Rate Demand Preferred ("VRDP") Shares, at liquidation value" on the Statement of Assets and Liabilities.

Unpaid dividends on VRDP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities, when applicable. Dividends accrued on the VRDP Shares are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations. Costs incurred by the Funds in connection with their offerings of VRDP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as components of "Deferred offering costs" on the Statement of Operations. In addition to interest expense, each Fund also pays a per annum liquidity fee to the liquidity provider, as well as a remarketing fee, which are recognized as "Liquidity fees" and "Remarketing fees," respectively, on the Statement of Operations.

#### Indemnifications

Under the Funds' organizational documents, their officers and directors/trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

#### Netting Agreements

In the ordinary course of business, the Funds may enter into transactions subject to enforceable International Swaps and Derivative Association, Inc. ("ISDA") master agreements or other similar arrangements ("netting agreements"). Generally, the right to offset in netting agreements allows each Fund to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. Generally, a Fund manages its cash collateral and securities collateral on a counterparty basis.

As of April 30, 2014, the Funds were not invested in any portfolio securities or derivative instruments that are subject to netting agreements.

Notes to Financial Statements (Unaudited) (continued)

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to common shares from operations during the reporting period. Actual results may differ from those estimates.

#### 2. Investment Valuation and Fair Value Measurements

The fair valuation input levels as described below are for fair value measurement purposes.

### Investment Valuation

Prices of municipal bonds and other fixed income securities are provided by a pricing service approved by the Funds' Board of Directors/Trustees. These securities are generally classified as Level 2. The pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer or market activity provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Common stocks and other equity-type securities are valued at the last sales price on the securities exchange on which such securities are primarily traded and are generally classified as Level 1. Securities primarily traded on the NASDAQ National Market ("NASDAQ") are valued, except as indicated below, at the NASDAQ Official Closing Price and are generally classified as Level 1. However, securities traded on a securities exchange or NASDAQ for which there were no transactions on a given day or securities not listed on a securities exchange or NASDAQ are valued at the quoted bid price and are generally classified as Level 2.

Investments in investment companies are valued at their respective net asset value ("NAV") on the valuation date and are generally classified as Level 1.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds' Board of Directors/Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's NAV (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a

particular security, all valuations are subject to review by the Funds' Board of Directors/Trustees or its designee.

#### Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

Level 1 – Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.

Level 2 – Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of the end of the reporting period:

The Nuveen funds' Board of Directors/Trustees is responsible for the valuation process and has delegated the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board of Directors/Trustees, is responsible for making fair value determinations, evaluating the effectiveness of the funds' pricing policies and reporting to the Board of Directors/Trustees. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making a fair value determination, based on the facts and circumstances specific to the portfolio instrument. Fair value determinations generally will be derived as follows, using public or private market information:

(i) If available, fair value determinations shall be derived by extrapolating from recent transactions or quoted prices for identical or comparable securities.

Notes to Financial Statements (Unaudited) (continued)

(ii) If such information is not available, an analytical valuation methodology may be used based on other available information including, but not limited to: analyst appraisals, research reports, corporate action information, issuer financial statements and shelf registration statements. Such analytical valuation methodologies may include, but are not limited to: multiple of earnings, discount from market value of a similar freely-traded security, discounted cash flow analysis, book value or a multiple thereof, risk premium/yield analysis, yield to maturity and/or fundamental investment analysis.

The purchase price of a portfolio instrument will be used to fair value the instrument only if no other valuation methodology is available or deemed appropriate, and it is determined that the purchase price fairly reflects the instrument's current value.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors/Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board of Directors/Trustees.

3. Portfolio Securities and Investments in Derivatives

#### Portfolio Securities

#### Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater").

An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) – Inverse floating rate investment." The Fund's Statement of Assets and Liabilities shows only the inverse floaters and not the underlying bonds as an asset and does not reflect the short-term floating rate certificates as liabilities. Also, the Fund

reflects in "Investment Income" only the net amount of earnings on its inverse floater investment (net of the interest paid to the holders of the short-term floating rate certificates and the expenses of the trust), and does not show the amount of that interest paid as an interest expense on the Statement of Operations.

An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction," with the Fund accounting for the short-term floating rate certificates issued by the trust, at their liquidation value, as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and recognizes the related interest paid to the holders of the short-term floating rate certificates as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the six months ended April 30, 2014, were as follows:

	]	Performance	Municipal		Market	Dividend	Dividend Advantage	Dividend Advantage
		Plus	Advantage		Opportunity	Advantage	2	3
		(NPP)	(NMA)		(NMO)	(NAD)	(NXZ)	(NZF)
Average floating rate obligations								
outstanding	\$	35,925,000	\$45,405,460	\$	34,730,000	\$42,810,000	\$19,570,000	\$44,412,000
Average annual interest rate and fees		.57%	.55%	, 2	.42%	.56%	.50%	.46%

As of April 30, 2014, the total amount of floating rate obligations issued by each Fund's self deposited inverse floaters and externally-deposited inverse floaters was as follows:

	P	erformance	Municipal		Market	Dividend	Dividend Advantage	Dividend Advantage
		Plus	Advantage	0	Opportunity	Advantage	2	3
		(NPP)	(NMA)		(NMO)	(NAD)	(NXZ)	(NZF)
Floating rate obligations: self-deposited inverse floaters	\$	35,925,000	\$ 37.988.333	¢	34,730,000	\$ 42.810.000	\$ 19,570,000	\$ 44,412,000
Floating rate obligations: externally-deposited inverse floaters		18,240,000	25,186,667		19,500,000	24,968,000	21,125,000	35,502,000
Total	\$	54,165,000	\$63,175,000	\$ 3	54,230,000	\$67,778,000	\$40,695,000	\$79,914,000

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") (such agreements referred to herein as "Recourse Trusts") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

As of April 30, 2014, each Fund's maximum exposure to the floating rate obligations issued by the externally-deposited Recourse Trusts was as follows:

	Performance	Municipal	Market	Dividend	Dividend	Dividend
					Advantage	Advantage
	Plus	Advantage	Opportunity	Advantage	2	3
	(NPP)	(NMA)	(NMO)	(NAD)	(NXZ)	(NZF)
Maximum exposure						
to Recourse Trusts	\$ 7,500,000	\$11,250,000	\$ 7,500,000	\$11,250,000	\$11,250,000	\$ 5,095,000

### Zero Coupon Securities

A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

### Investments in Derivatives

Each Fund is authorized to invest in certain derivative instruments such as futures, options and swap contracts. Each Fund will limit its investments in futures, options on futures and swap contracts to the extent necessary for the Adviser to claim the exclusion from registration by the Commodity Futures Trading Commission as a commodity pool operator with respect to the Fund. The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes.

Although the Funds are authorized to invest in derivative instruments and may do so in the future, they did not make any such investments during the six months ended April 30, 2014.

#### Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

Notes to Financial Statements (Unaudited) (continued)

# 4. Fund Shares

#### **Common Shares**

Since the inception of the Funds' repurchase programs, the Funds have not repurchased any of their outstanding common shares. Transactions in common shares were as follows:

#### 6. Income Tax Information

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the NAVs of the Funds.

As of April 30, 2014, the cost and unrealized appreciation (depreciation) of investments, as determined on a federal income tax basis, were as follows:

	Performance	Municipal	Market	Dividend	Dividend	Dividend
	Plus	Advantage	Opportunity	Advantage	Advantage 2	Advantage 3
Cost of investments	(NPP) \$1,362,260,562	(NMA) \$ 887,049,876	(	,		

Gross unrealized:						
Appreciation	\$ 127,967,946	\$ 65,287,146	\$ 67,987,974	\$ 63,464,024	\$ 56,204,892	\$ 55,144,906
Depreciation	(29,290,302)	(24,695,983)	(11,091,788)	(20,846,013)	(17,362,262)	(15,127,794)
Net unrealized						
appreciation						
(depreciation) of						
investments	\$ 98,677,644	\$ 40,591,163	\$ 56,896,186	\$ 42,618,011	\$ 38,842,630	\$ 40,017,112

Permanent differences, primarily due to federal taxes paid, taxable market discount and non-deductible offering costs, resulted in reclassifications among the Funds' components of common share net assets as of October 31, 2013, the Funds' last tax year end, as follows:

	ł	Performance	N	Municipal		Market	Dividend	A	Dividend Advantage	A	Dividend Advantage
		Plus	А	dvantage	0	Opportunity	Advantage		2		3
		(NPP)		(NMA)		(NMO)	(NAD)		(NXZ)		(NZF)
Paid-in-surplus	\$	(1,163,504)	\$	(80,034)	\$	(116,857)	\$ (713,666)	\$	(76,528)	\$	(592,744)
Undistributed

of) net investment											
income		1,078,184		(42,487)		69,206	679,185		39,756		539,164
Accumulated net											
realized gain (loss)		85,320		122,521		47,651	34,481		36,772		53,580

Notes to Financial Statements (Unaudited) (continued)

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains as of October 31, 2013, the Funds' last tax year end, were as follows:

	Performance	Municipal	Market	Dividend	Dividend	Dividend A dvantage
	Plus	Advantage	Opportunity	Advantage	Advantage 2	Advantage 3
	(NPP)	(NMA)	(NMO)	(NAD)	(NXZ)	(NZF)
Undistributed net						
tax-exempt income1	\$ 16,138,214	\$ 3,106,630	\$ 4,628,380	\$ 8,430,331	\$ 5,395,642	\$ 3,919,121
Undistributed net ordinary						
income2	42,237	41,221	210,382	827,058	6,428	9,046
Undistributed net						
long-term capital gains						

1 Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on October 1, 2013, paid on November 1, 2013.

2 Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' last tax year ended October 31, 2013 was designated for purposes of the dividends paid deduction as follows:

	Performance	Municipal	Market	Dividend	Dividend Advantage	Dividend Advantage
	Plus	Advantage	Opportunity	Advantage	2	3
	(NPP)	(NMA)	(NMO)	(NAD)	(NXZ)	(NZF)
Distributions from net						
tax-exempt income	\$ 62,511,839	\$ 36,937,595	\$ 37,276,853	\$39,961,764	\$24,606,089	\$34,899,121
Distributions from net						
ordinary income2	_	- 340,840	_	- 208,271	-	- 68,680
Distributions from net						
long-term capital gains	_					

2 Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

As of October 31, 2013, the Funds' last tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as shown in the following table. The losses not subject to expiration retain the character reflected and will be utilized first by a Fund, while the losses subject to expiration are considered short-term.

	Perfo	rmance	Municipal	Market	Dividend	Dividend Advantage	Dividend Advantage
		Plus	Advantage	Opportunity	Advantage	2	3
		(NPP)	(NMA)	(NMO)	(NAD)	(NXZ)	(NZF)
Expiration:							
October 31, 2014	\$	_\$	S —	\$ 1,437,187	\$	-\$	-\$
October 31, 2015				- 1,902,879			
October 31, 2016				1,398,166			

October 31, 2019	310,323	-	 3,031,141	_		-	 
Not subject to expiration:							
Short-term losses	280,724	-	 96,572	-	_	115,805	
Long-term losses	1,557,182	1,836,262	21,509,616	3,927,445		8,895,770	4,327,557
Total	\$ 2,148,229	\$ 1,836,262	\$ 29,375,561	\$ 3,927,445	\$	9,011,575	\$ 4,327,557

During the Funds' last tax year ended October 31, 2013, the following Funds utilized capital loss carryforwards as follows:

	Performance		Municipal	ınicipal		Dividend
		Plus	Advantage	(	Opportunity	Advantage
		(NPP)	(NMA)		(NMO)	(NAD)
Utilized capital loss carryforwards	\$	2,622,873	\$ 2,017,854	\$	4,519,331	\$ 3,027,846

7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

Each Fund's management fee consists of two components — a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedules:

	Performance Plus (NPP)
	Municipal Advantage (NMA)
	Market Opportunity (NMO)
Average Daily Managed Assets*	Fund-Level Fee Rate
For the first \$125 million	.4500%
For the next \$125 million	.4375
For the next \$250 million	.4250
For the next \$500 million	.4125
For the next \$1 billion	.4000
For the next \$3 billion	.3875
For managed assets over \$5 billion	.3750

	Dividend Advantage (NAD)
	Dividend Advantage 2 (NXZ)
	Dividend Advantage 3 (NZF)
Average Daily Managed Assets*	Fund-Level Fee Rate
For the first \$125 million	.4500%
For the next \$125 million	.4375
For the next \$250 million	.4250
For the next \$500 million	.4125
For the next \$1 billion	.4000
For managed assets over \$2 billion	.3750

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

\* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to certain types of leverage. For these purposes, leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain

circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen Funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen Funds or assets in excess of \$2 billion added to the Nuveen Fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of April 30, 2014, the complex-level fee rate for each of these Funds was .1661%.

The Funds pay no compensation directly to those of its directors/trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent directors/trustees that enables directors/trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

# Quarterly Form N-Q Portfolio of Investments Information

Each Fund is required to file its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. You may obtain this information directly from the SEC. Visit the SEC on-line at http://www.sec.gov or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC toll-free at (800) SEC-0330 for room hours and operation.

### Nuveen Funds' Proxy Voting Information

You may obtain (i) information regarding how each fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com and (ii) a description of the policies and procedures that each fund used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll free at (800) 257-8787. You may also obtain this information directly from the SEC. Visit the SEC on-line at http://www.sec.gov.

#### CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual. Each Fund has filed with the SEC the certification of its CEO and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

#### Common Share Information

Each Fund intends to repurchase shares of its own common stock at such times and in such amounts as is deemed advisable. During the period covered by this report, each Fund repurchased shares of its common stock as shown in the accompanying table. Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

	NPP	NMA	NMO	NAD	NXZ	NZF
Common shares repurchased			—	—		
128 Nuveen Investments						

Glossary of Terms Used in this Report

Auction Rate Bond: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have "failed," with current holders receiving a formula-based interest rate until the next scheduled auction.

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

Duration: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond fund's value to changes when market interest rates change. Generally, the longer a bond's or fund's duration, the more the price of the bond or fund will change as interest rates change.

Effective Leverage: Effective leverage is a fund's effective economic leverage, and includes both regulatory leverage (see Leverage) and the leverage effects of certain derivative investments in the fund's portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage.

Gross Domestic Product (GDP): The total market value of all final goods and services produced in a country/region in a given year, equal to total consumer, investment and government spending, plus the value of exports, minus the value of imports.

Inverse Floating Rate Securities: Inverse floating rate securities, also known as inverse floaters or tender option bonds (TOBs), are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

Leverage: Leverage is created whenever a fund has investment exposure (both reward and/or risk) equivalent to more than 100% of the investment capital.

Lipper General & Insured Leveraged Municipal Debt Funds Classification Average: Calculated using the returns of all closed-end funds in this category. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges.

Net Asset Value (NAV) Per Share: A fund's Net Assets is equal to its total assets (securities, cash, accrued earnings and receivables) less its total liabilities. NAV per share is equal to the fund's Net Assets divided by its number of shares outstanding.

Glossary of Terms Used in this Report Statements (continued)

Pre-Refunding: Pre-Refunding, also known as advanced refundings or refinancings, is a procedure used by state and local governments to refinance municipal bonds to lower interest expenses. The issuer sells new bonds with a lower yield and uses the proceeds to buy U.S. Treasury securities, the interest from which is used to make payments on the higher-yielding bonds. Because of this collateral, pre-refunding generally raises a bond's credit rating and thus its value.

Regulatory Leverage: Regulatory Leverage consists of preferred shares issued by or borrowings of a fund. Both of these are part of a fund's capital structure. Regulatory leverage is subject to asset coverage limits set in the Investment Company Act of 1940.

S&P Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade U.S. municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

Total Investment Exposure: Total investment exposure is a fund's assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes a fund's use of preferred stock and borrowings and investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities.

Zero Coupon Bond: A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.
