PART I

ITEM 1. BUSINESS.

GENERAL

Airgas, Inc. and subsidiaries (Airgas or the Company) is the largest U.S. distributor of industrial, medical and specialty gases (delivered in packaged or cylinder form), and welding, safety and related products (hardgoods). Airgas also produces dry ice, liquid carbon dioxide, nitrous oxide, process chemicals and specialty gases for distribution throughout the United States. Airgas integrated network of over 800 locations includes branches, retail stores, packaged gas fill plants, specialty gas labs, production facilities and distribution centers. Airgas also distributes its products and services to its diversified customer base through e-Business, catalog and telesales channels. Sales were \$1.90 billion, \$1.79 billion, and \$1.64 billion in fiscal years 2004, 2003, and 2002, respectively.

At December 31, 2003, the Company elected to adopt Financial Accounting Standards Board Interpretation No. 46R, Consolidation of Variable Interest Entities, (FIN 46R) with respect to its joint venture, National Welders Supply Company, Inc. (National Welders) and consolidated this formerly unconsolidated affiliate. Since June 1996, the Company has participated in the joint venture and has used the equity method of accounting to report the Company s proportionate share of the joint venture s operating results. Consequently, the consolidation of National Welders had no impact on the net earnings of the Company. In addition, the consolidation did not change the fact that the liabilities of the joint venture are non-recourse to the Company and the cash flows, in excess of a management fee paid by National Welders, are not available to the Company. Through the nine months ended December 31, 2003, the Company recognized \$4.4 million of Equity in Earnings of Unconsolidated Affiliates related to National Welders. With the prospective adoption permitted by FIN 46R (prior periods not restated), the fourth fiscal quarter operating results of the joint venture were reflected broadly across the income statement with minority interest expense reflecting the preferred stockholders proportionate share of the joint venture s operating results. For the fourth quarter of fiscal 2004, National Welders contributed \$39.2 million to sales, \$3.4 million to operating income, \$291 thousand of minority interest expense and \$1.2 million in net earnings.

The Company has two operating segments, Distribution and All Other Operations. For the purpose of disclosing operating results by business segment, the Company renamed its Gas Operations segment as All Other Operations and disclosed the operating results of National Welders with the results of business units previously reported under that segment. These business units produce and distribute dry ice, carbon dioxide, nitrous oxide and specialty gases. The operating results of the Company s two air separation plants and its six national specialty gas labs are also reported under this segment. The National Welders joint venture structure, which limits the Company s control over the National Welders operations and cash flows, is the primary factor that led the Company to conclude that National Welders is most appropriately reflected in the All Other Operations segment. The business units reflected in the All Other Operations segment individually do not meet the materiality thresholds to be reported as separate business segments.

On April 2, 2004, the Company announced that it signed a definitive asset purchase agreement to acquire most of the U.S. packaged gas business of The BOC Group, Inc. (BOC) in a transaction valued up to \$200 million. The transaction is expected to close July 30, 2004 and includes approximately 120 locations in 21 states involved in the distribution of packaged industrial, medical and specialty gases, as well as welding hardgoods. In fiscal 2003, the packaged gas business of BOC, subject to the acquisition, generated approximately \$240 million in sales of which approximately 65% was gas and rent. The acquired operations will be integrated with the existing business units of the Company s Distribution segment.

3

Table of Contents

Financial information by business segment can be found in Item 7, Management s Discussion and Analysis of Financial Condition and Results of Operations (MD&A), and in Note 24 to the Company s Consolidated Financial Statements under Item 8, Financial Statements and Supplementary Data. Descriptions of the operating segments are as follows:

DISTRIBUTION

The Distribution segment accounts for approximately 90% of consolidated sales and reflects the distribution of industrial, medical and specialty gases, process chemicals and hardgoods.

Principal Products and Services

The Distribution segment s principal products and services include packaged and small bulk gases, gas cylinder and welding equipment rental, process chemicals and hardgoods. Gas sales include industrial, medical and specialty gases such as: nitrogen, oxygen, argon, helium, acetylene, carbon dioxide, nitrous oxide, hydrogen, welding gases, ultra high purity grades and special application blends. Rent is derived from gas cylinders, cryogenic liquid containers, bulk storage tanks, tube trailers and through the rental of welding equipment. Gas and rent represented approximately 52%, 53%, and 47% of the Distribution segment s sales in each of the fiscal years 2004, 2003 and 2002, respectively. Hardgoods consist of welding supplies and equipment, safety products, and industrial tools and supplies. In each of the fiscal years 2004, 2003, and 2002, hardgoods sales represented approximately 48%, 47%, and 53% of the Distribution segment s sales, respectively (see Note 24 of the Company s Consolidated Financial Statements for additional information regarding segment sales).

Principal Markets and Methods of Distribution

The Company believes that the market for industrial, medical and specialty gases in the United States is approximately \$9.4 billion annually. The industry has three principal modes of distribution: on-site supply, bulk or merchant supply, and cylinder supply. In the U.S. market, on-site supply accounts for approximately 25% of sales, bulk or merchant supply accounts for approximately 35% of sales, and cylinder supply accounts for the remaining 40% or \$3.8 billion in sales. Airgas market focus has been on the packaged gas segment of the market, which generally consists of customers who purchase gases in cylinders and in less than truck load bulk quantities. Generally, packaged gas distributors also distribute welding products. The Company believes the U.S. market for welding products to be approximately \$4.0 billion annually.

Airgas is the largest distributor of packaged gases and welding products in the United States, with approximately a 19% market share. The Company s competitors in this market are approximately 900 independent distributors that serve approximately 50% of the market through a fragmented distribution network. Large distributors, including vertically integrated gas producers such as Praxair, Inc. (Praxair), Liquid Air Corporation of America (Air Liquide), and BOC, serve the remaining 31% of the packaged gas market. The acquisition of the BOC packaged gas business described above will not affect BOC s on-site and most of its bulk supply business in the U.S. The Company also sells safety equipment. The United States market for safety equipment is approximately \$6 billion, of which Airgas share is approximately 4%.

4

Table of Contents

Customer Base

The Company s customer base is broad and includes many major industries. The Company estimates the following industry segments account for the indicated percentages of the Company s total sales:

```
Industrial Manufacturing (26%);
Repair & Maintenance (23%);
Medical (11%);
Construction (9%);
Wholesale Trade (6%);
Retail (5%);
Food Products (5%);
Transportation and Utilities (5%);
Petrochemical (4%);
All Other (6%).
Suppliers
```

The Company purchases industrial, medical and specialty gases pursuant to requirements contracts from national and regional producers of industrial gases. In February 2002, the Company entered into a 15-year take-or-pay supply agreement under which Air Products and Chemicals, Inc. (Air Products) supplies at least 35% of the Company s bulk liquid nitrogen, oxygen and argon requirements, exclusive of the volumes purchased under the BOC supply agreement noted below. Additionally, the Company purchases helium from Air Products under the terms of the supply agreement. Effective December 1, 2002, the Company entered into a 3-year take-or-pay supply agreement with BOC to purchase liquid nitrogen, oxygen and argon. With the BOC acquisition, both the Company and BOC will also sign new reciprocal long-term supply agreements. The Company will become the supplier for a substantial portion of BOC s resale packaged gas needs. BOC will supply the Company with approximately 85% of the liquid bulk gases volumes transferred to the Company in the acquisition. Both the Air Products and BOC supply agreements contain market pricing subject to certain economic indices and market analysis. Furthermore, the Company believes the minimum product purchases under the agreements are well within the Company s normal product purchases.

The Company also manufactures certain gases, including acetylene, nitrous oxide, nitrogen, oxygen and argon. The Company believes that, if a contractual arrangement with any supplier of gases or other raw materials was terminated, it would be able to locate alternative sources of supply without disruption of service. The Company purchases hardgoods from major manufacturers and suppliers. For certain products, the Company has negotiated national purchasing arrangements. The Company believes that if an arrangement with any supplier of hardgoods were terminated, it would be able to arrange comparable alternative supply arrangements.

ALL OTHER OPERATIONS

The All Other Operations segment produces and distributes certain gas products, principally dry ice, carbon dioxide, nitrous oxide and specialty gases. The Company also operates five air separation plants that produce oxygen, nitrogen and argon which are sold to on-site customers and to the Distribution segment. A description of the businesses included in the All Other Operations segment follows:

5

Table of Contents

Dry Ice

The Company is a producer and distributor of dry ice. With 14 dry ice plants (converting liquid carbon dioxide into dry ice), the Company has the largest network of conversion plants in the United States. Customers include food processors, food service, pharmaceutical and biotech industries, wholesale trade and grocery and other retail outlets. The dry ice business generally experiences a higher level of sales during the warmer months. The Company s carbon dioxide requirements are purchased from the vertically integrated producers of carbon dioxide and from internal production sources.

Carbon Dioxide

The Company is a producer and distributor of liquid carbon dioxide. Carbon dioxide is a byproduct of other chemical processes, typically the production of ammonia or ethanol. Carbon dioxide can also be extracted from natural wells. The Company s requirements are met by nine Company-owned production facilities including a newly constructed plant in Hopewell VA, a 50%-owned joint venture, and long-term supply contracts with vertically integrated gas producers. The Company believes the United States bulk supply market for liquid carbon dioxide is approximately \$500 million annually. The largest customer segments include chemical producers and manufacturers of foods and beverages. The Company s market share is approximately 14%, making it the third largest marketer of liquid carbon dioxide in the United States. However, the Company is heavily concentrated in the southeastern United States and maintains a 36% market share in that region.

Specialty and Other Gases

The Company operates six national specialty gas labs and a specialty gas equipment center. The national specialty gas labs are full-scale testing and blending facilities. They blend various special application gas mixtures, ultra high purity grade gases, multi-component hydrocarbon blended EPA protocol gases, and vehicle emission standard gases. Gas mixtures are used in process control, final product qualification and emissions monitoring. Specialty gases and specialty gas equipment produced by these facilities are primarily sold to the Distribution segment (see Note 24 of the Company's Consolidated Financial Statements for disclosure related to inter-segment sales). The third-party customer base for these products consists primarily of governmental entities and environmental-related businesses, manufacturers of electronics, petroleum refiners, and pharmaceutical companies. These operations also provide quality management and technical support to 45 regional labs, which are operated by the Distribution segment and one lab operated by National Welders. The national and regional labs perform testing and certification services for gas purity. Nearly half of the Company's labs are certified to the ISO 9001:2000 standard for quality management in the manufacture and sale of specialty gases.

Nitrous Oxide

The Company is a manufacturer of nitrous oxide gas. Nitrous oxide is used as an anesthetic in the medical and dental fields, as a propellant in the packaged food business and is utilized in the manufacturing process of certain electronics industries. The Company s market focus includes bulk customers as well as sales to the Distribution segment. The Company purchases the raw materials utilized in its nitrous oxide production pursuant to contracts with major manufacturers and suppliers.

6

Table of Contents

National Welders Supply Company, Inc.

Effective December 31, 2003 as a result of adopting FIN 46R, the Company consolidated National Welders, whose results through December 31, 2003 were reflected as equity in the earnings of unconsolidated affiliates below operating income. National Welders is a producer and distributor of industrial gases based in Charlotte, North Carolina. The joint venture has significant production capabilities with its three air separation plants, two acetylene plants and a specialty gas lab. It also distributes packaged gases and welding products through its 46 branch stores. The ownership interests in the joint venture consist of voting common stock and voting, redeemable preferred stock. The Company owns 100% of the joint venture s common stock, which represents a 50% voting interest. The Company does not hold a majority voting interest in the joint venture and, therefore, historically used the equity method to account for its interest in the joint venture. In fiscal 2005, the consolidation of National Welders is expected to contribute approximately \$100 million in additional revenue. However, the new presentation is not expected to have a material impact on earnings.

Suppliers

The Company believes that if a contractual arrangement with any All Other Operations segment supplier was terminated, it would not have a material adverse effect on operations. However, two of the Company s 14 dry ice production facilities are located on property owned by BOC. If the current arrangements with BOC were terminated, the Company s dry ice production capabilities may be reduced.

AIRGAS GROWTH STRATEGIES

The Company s primary objective is to maximize shareholder value by driving market-leading sales growth through leveraging its national distribution infrastructure. To meet this objective, the Company is focusing on:

Customer service strategies focused on growing our business with small and medium-sized core customers;

A new medical strategy with the formation of the Airgas Puritan Medical division within each regional distribution company offering an integrated portfolio of bulk and cylinder gases, medical equipment and services to hospitals, home healthcare providers and offices of medical professionals;

Opportunities in niche markets including bulk, medical and specialty gases, as well as safety products;

The expansion of sales to customers with multiple locations (i.e., Strategic Accounts);

The promotion of programs to help customers manage their supply chain for gases, equipment and safety products (i.e., Outlook Services); and

Acquisitions in its core packaged gas business to complement and expand its distribution network of locations. These strategic objectives are primarily designed to create a strong and stable platform to drive market-leading sales growth.

REGULATORY AND ENVIRONMENTAL MATTERS

The Company s subsidiaries are subject to federal and state laws and regulations adopted for the protection of the environment and the health and safety of employees and users of the Company s products. The Company has programs for the operation and design of its facilities to achieve compliance with applicable environmental regulations. The

Company believes that it is in compliance, in all-material respects, with such laws and regulations. Expenditures for environmental compliance purposes during fiscal 2004 were not material.

7

INSURANCE

The Company has established insurance programs to cover workers—compensation, business automobile, general and product liability claims. These programs have self-insured retention of \$500 thousand per occurrence and an additional annual aggregate limit of \$1.7 million of claims in excess of \$500 thousand. The Company accrues estimated losses using actuarial models and assumptions based on the Company—s historical loss experience. National Welders is also self-insured for workers—compensation claims. Workers—compensation claims are self-insured up to \$250 thousand per person annually with an aggregate liability of \$575 thousand. Provisions for expected future claim payments are accrued based on estimates of the aggregate liability for claims incurred plus an estimate for incurred but not reported claims using historical experience.

EMPLOYEES

On March 31, 2004, the Company employed approximately 9,700 employees (including 800 employees employed by National Welders) of whom less than 5% were covered by collective bargaining agreements. Through the fiscal 2005 acquisition of the U.S. packaged gas operations of BOC, the Company intends to offer employment to more than 1,000 BOC employees aligned with those operations. The Company believes it has good relations with its employees and has not experienced a significant strike or work stoppage in over ten years.

PATENTS, TRADEMARKS AND LICENSES

The Company holds the following registered trademarks: Airgas, Red-D-Arc. RED-D-ARC WELDERENTAL. Gold Gas, SteelMIX, Outlook, Ny-Trous+, Powersource, and RADNOR branded products. The Company als trademarks for AluMIX. StainMIX. Freshblend. Walk-O2-Bout. AcuGrav. SightSense, and SoundSense. Company believes that its businesses as a whole are not materially dependent upon any single patent, trademark or license.

EXECUTIVE OFFICERS OF THE COMPANY

The executive officers of the Company are as follows:

Name	Age	Position
Peter McCausland (1)	54	Chairman of the Board and Chief Executive Officer
Glenn M. Fischer	53	President and Chief Operating Officer
Roger F. Millay	46	Senior Vice President and Chief Financial Officer
Robert A. Dougherty	46	Senior Vice President and Chief Information Officer
Gordon L. Keen, Jr.	59	Senior Vice President Law and Corporate Development
Michael L. Molinini	53	Senior Vice President Hardgoods
Patrick M. Visintainer	40	Senior Vice President Sales
Dwight T. Wilson	48	Senior Vice President Human Resources
Alfred B. Crichton	56	Division President West
B. Shaun Powers	52	Division President East
Ted R. Schulte	53	Division President Gas Operations
Dean A. Bertolino	35	Vice President, General Counsel and Secretary

Robert M. McLaughlin

47 Vice President and Controller

(1) Member of the Board of Directors

8

Table of Contents

Mr. McCausland has been Chairman of the Board and Chief Executive Officer of the Company since May 1987. Mr. McCausland has also served as President from June 1986 to August 1988, from April 1993 to November 1995, and from April 1997 to January 1999. Mr. McCausland also serves as a director of the Fox Chase Cancer Center, the Independence Seaport Museum, the International Oxygen Manufacturers Association, Inc. and the Eisenhower Exchange Fellowships, Inc.

Mr. Fischer has been President and Chief Operating Officer since November 2000. Prior to joining Airgas, Mr. Fischer served as President of BOC Gases - North America from 1997 to 2000 and as Executive Vice President of BOC Gases - Americas from 1995 to 1997.

Mr. Millay has been Senior Vice President and Chief Financial Officer since November 1999. Prior to joining Airgas, Mr. Millay served as Senior Vice President and Chief Financial Officer of Transport International Pool, a division of General Electric Capital Corporation, from May 1995 to October 1999.

Mr. Dougherty has been Senior Vice President and Chief Information Officer since joining Airgas in January 2001. Prior to joining Airgas, Mr. Dougherty served as Vice President and Chief Information Officer from August 1998 to December 2000 and as Director of Information Systems from November 1993 to July 1998 of Subaru of America, Inc.

Mr. Keen has been Senior Vice President Law and Corporate Development since April 1997. Prior to that time, Mr. Keen served as Vice President - Corporate Development from January 1992 to March 1997.

Mr. Molinini has been Senior Vice President Hardgoods since August 2000. Prior to that time, Mr. Molinini served as Vice President Hardgoods Operations from August 1999 to July 2000 and as Vice President Airgas Direct Industrial from April 1997 to July 1999. Prior to joining Airgas, Mr. Molinini served as Vice President of Marketing of National Welders Supply Company, Inc. since 1991.

Mr. Visintainer has been Senior Vice President Sales since January 1999. Prior to that time, Mr. Visintainer served as Vice President Sales and Marketing from February 1998 to December 1998 and as President of one of the Company s subsidiaries from April 1996 to January 1998. Until March 1996, he was employed by BOC Gases and served in various field positions including National Sales Manager Industrial/Specialty Gases and National Accounts Manager.

Mr. Wilson was appointed Senior Vice President Human Resources in January 2004. Prior to joining Airgas, Mr. Wilson served as Senior Vice President, Corporate Resources at DecisionOne Corporation from October 1995 to December 2003.

Mr. Crichton has been Division President West since February 1993. Prior to that time, Mr. Crichton served in various leadership positions since joining the Company in 1988 and has more than 30 years of experience in the industrial gas industry.

Mr. Powers has been Division President East since joining Airgas in April 2001. Prior to joining Airgas, Mr. Powers served as Senior Vice President of Industrial Gases at AGA from October 1995 to March 2001. Mr. Powers has more than 25 years of experience in the industrial gas industry.

9

Table of Contents

Mr. Schulte has been Division President Gas Operations since February 2003. Prior to that time, Mr. Schulte served as Senior Vice President Gas Operations from August 2000 to January 2003, as Vice President Gas Operations from November 1998 to July 2000 and as President of Airgas Carbonic from November 1997 to October 1998. Prior to joining Airgas, Mr. Schulte served as Senior Vice President of Energetic Solutions, the U.S. subsidiary of ICI Explosives, from June 1997 to October 1997 and as Vice President Industrial Gas Sales of Arcadian Corporation from 1992 through June 1997.

Mr. Bertolino has been Vice President and General Counsel since December 2001, and Secretary since July 2002. Prior to joining Airgas, Mr. Bertolino served as Assistant General Counsel of The BOC Group, Inc. from 1999 to 2001 and as an Associate with the law firm of Brown & Wood, LLP from 1994 to 1999.

Mr. McLaughlin has been Vice President and Controller since joining Airgas in June 2001. Prior to joining Airgas, Mr. McLaughlin served as Vice President Finance for Asbury Automotive Group from 1999 to 2001, and was a Vice President and held various senior financial positions at Unisource Worldwide, Inc. from 1992 to 1999.

COMPANY INFORMATION

The Company s Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and any amendments to those reports filed with or furnished to the Securities and Exchange Commission (SEC) are available free of charge on the Company s website (www.airgas.com) under the Investors section. The Company makes these documents available as soon as reasonably practicable after they are filed with or furnished to the SEC, but no later than the end of the day in which they are filed or furnished to the SEC.

ITEM 2. PROPERTIES.

The principal executive offices of the Company are located in leased space in Radnor, Pennsylvania.

The Company s Distribution segment operates a network of multiple use facilities consisting of approximately 600 branch stores, 45 regional gas laboratories, 18 acetylene manufacturing facilities, 5 regional distribution centers, 200 cylinder fill plants and various customer call centers. The Distribution segment conducts business in 46 states. The Company owns approximately 28% of these facilities. The remaining facilities are primarily leased from third parties. A limited number of facilities are leased from employees and are on terms consistent with commercial rental rates prevailing in the surrounding rental market.

The Company's All Other Operations segment consists of businesses, located throughout the United States, which operate multiple use facilities consisting of 86 branch locations, 11 liquid carbon dioxide and 14 dry ice production facilities, 5 air separation plants, 6 national specialty gas laboratories, and 4 nitrous oxide production facilities. The Company owns approximately 36% of these facilities. The remaining facilities are leased from third parties.

During fiscal 2004, the Company s production facilities operated at approximately 79% of capacity based on an average daily production shift of 14 hours. If required, additional shifts could be run to expand production capacity.

The Company believes that its facilities are adequate for its present needs and that its properties are generally in good condition, well maintained and suitable for their intended use.

10

ITEM 3. LEGAL PROCEEDINGS.

The Company is involved in various legal and regulatory proceedings that have arisen in the ordinary course of its business and have not been fully adjudicated. These actions, when ultimately concluded and determined, will not, in the opinion of management, have a material adverse effect upon the Company s consolidated financial condition, results of operations or liquidity.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matters were submitted to a vote of security holders during the fourth quarter of the fiscal year ended March 31, 2004.

PART II

ITEM 5. MARKET FOR THE COMPANY S COMMON STOCK AND RELATED STOCKHOLDER MATTERS.

The Company s common stock (the common stock) is listed on the New York Stock Exchange (ticker symbol: ARG). The following table sets forth, for each quarter during the last two fiscal years, the high and low closing price per share for the common stock as reported by the New York Stock Exchange:

	High	Low
Fiscal 2004		
First Quarter	\$20.61	\$16.75
Second Quarter	19.44	17.64
Third Quarter	21.55	18.20
Fourth Quarter	24.35	19.85
Fiscal 2003		
First Quarter	\$19.68	\$15.72
Second Quarter	16.97	12.68
Third Quarter	17.25	11.87
Fourth Quarter	18.98	15.50

The closing sale price of the Company s common stock as reported by the New York Stock Exchange on June 9, 2004, was \$22.69 per share. As of June 9, 2004, there were approximately 14,000 stockholders of record of the Company s common stock.

On May 13, 2003, the Company s Board of Directors declared the first quarterly cash dividend in the Company s history of \$.04 per share, which was paid to stockholders on June 30, 2003. At the end of each quarter during fiscal 2004, the Company paid its stockholders regular quarterly cash dividends of \$0.04 per share. In addition, on May 25, 2004, the Company s Board of Directors declared a regular quarterly cash dividend of \$0.045 per share payable June 30, 2004 to stockholders of record as of June 15, 2004. Future dividend declarations and associated amounts paid will depend upon the Company s earnings, financial condition, loan covenants, capital requirements and other factors deemed relevant by management and the Company s Board of Directors.

11

ITEM 6. SELECTED FINANCIAL DATA.

Selected financial data for the Company are presented in the table below and should be read in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations included in Item 7 and the Company s Consolidated Financial Statements and notes thereto included in Item 8 herein.

(In thousands, except per share amounts):

⁽¹⁾ As discussed in Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations and in the notes to the Company s Consolidated Financial Statements included in Item 8, the results

for fiscal 2004 include a fourth quarter special charge recovery of \$776 thousand (\$480 thousand after tax) reflecting lower estimates of the ultimate cost of prior years—restructuring activities. Fiscal 2004 results also include the fourth quarter consolidation of the National Welders joint venture in accordance with FIN 46R. National Welders contributed \$39.2 million of sales and \$3.4 million of operating income in fiscal 2004. As of March 31, 2004, National Welders also contributed current assets of \$30 million, total assets of \$140 million, current liabilities of \$21 million, and non-current liabilities of \$119 million (including a minority interest liability of \$36 million).

12

Table of Contents

- (2) As discussed in Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations and in the notes to the Company s Consolidated Financial Statements included in Item 8, the results for fiscal 2003 include special and other charges of \$2.9 million (\$2.2 million after tax) primarily consisting of a restructuring charge (\$2.7 million) related to the integration of the business acquired from Air Products and costs related to the consolidation of certain hardgoods procurement functions.
- (3) As discussed in Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations and in the notes to the Company s Consolidated Financial Statements included in Item 8, the results for fiscal 2002 include: (a) a non-cash after-tax charge of \$59 million representing the cumulative effect of a change in accounting principle associated with the adoption of Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets*, (b) a litigation settlement charge of \$8.5 million (\$5.7 million after tax), and (c) a net non-recurring gain of \$1.9 million (\$120 thousand after tax) related to divestitures and a write-down of a business held for sale to its net realizable value.
- (4) The results for fiscal 2001 include: (a) net special charges of \$3.6 million (\$2.3 million after tax), (b) litigation charges, net, of \$5.8 million (\$3.6 million after tax), and (c) asset impairments associated with two equity affiliates of \$700 thousand after-tax. Working capital in fiscal 2001 decreased compared to fiscal 2000 partially attributable to a trade receivables securitization program entered into during fiscal 2001 and the classification of \$50 million of medium-term notes maturing September 2001 as a component of Current Liabilities. Cash proceeds of approximately \$73.2 million from the securitization program were used to reduce long-term debt.
- (5) The results for fiscal 2000 include: (a) special charge recoveries of \$2.8 million (\$1.7 million after tax), (b) divestiture gains of \$17.5 million (\$8.6 million after tax), (c) a litigation charge of \$7.5 million (\$4.8 million after tax), (d) an inventory write-down of \$3.8 million (\$2.2 million after tax), and (e) an after-tax charge of \$590 thousand representing a change in accounting principle.
- (6) Fiscal 2004, 2003 and 2002 exclude the amortization of goodwill in accordance with SFAS 142.
- (7) On May 13, 2003, the Company s Board of Directors declared the first quarterly cash dividend in the Company s history of \$.04 per share, which was paid to stockholders on June 30, 2003. At the end of each quarter during fiscal 2004, the Company paid its stockholders regular quarterly cash dividends of \$0.04 per share. In addition, on May 25, 2004, the Company s Board of Directors declared a regular quarterly cash dividend of \$0.045 per share payable June 30, 2004 to stockholders of record as of June 15, 2004. Future dividend declarations and associated amounts paid will depend upon the Company s earnings, financial condition, loan covenants, capital requirements and other factors deemed relevant by management and the Company s Board of Directors.

13

AIRGAS, INC. AND SUBSIDIARIES

MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 7.

RESULTS OF OPERATIONS: 2004 COMPARED TO 2003

OVERVIEW

The Company s net sales for the fiscal year ended March 31, 2004 (fiscal 2004) were \$1.90 billion compared to \$1.79 billion in the prior year (fiscal 2003). Sales growth of \$109 million was driven by acquisitions, same-store sales growth and the December 31, 2003 consolidation of National Welders. During fiscal 2004, the Company completed five acquisitions with combined annual sales of approximately \$59 million. Strategic product sales initiatives related to medical, bulk and specialty gases, and strategic accounts, contributed to a 1% increase in total same-store sales. Sales growth was achieved despite weakness in the manufacturing and industrial markets during much of fiscal 2004. While same-store sales were flat through the first nine months of fiscal 2004, they began rebounding in the fourth quarter led by sales of hardgoods, which increased significantly (9%) as the industrial marketplace began to show signs of an economic recovery. Gas and rent sales also showed improvement (2%) in the fiscal fourth quarter. Over the past several years, the Company has embarked on several programs to strengthen its infrastructure in anticipation of continued growth. As a result, management believes that the Company is well positioned to take advantage of a rebounding industrial economy.

Fiscal 2004 net earnings were \$80.2 million, or \$1.07 per diluted share, compared to \$68.1 million, or \$0.94 per diluted share, in fiscal 2003.

As discussed in the Income Statement Commentary below, fiscal 2004 results were affected by the following:

insurance-related losses of \$2.8 million (\$1.7 million after tax), or \$0.02 per diluted share, representing the Company s self-insurance retention associated with fire-related losses;

a \$1.7 million, or \$0.02 per diluted share, non-recurring insurance gain recognized by National Welders; and

a special charge recovery of \$776 thousand (\$480 thousand after tax), or \$0.01 per diluted share, reflecting lower estimates of the ultimate cost of prior years—restructuring activities.

Fiscal 2003 results were affected by the following:

special and other charges totaling \$2.9 million (\$2.2 million after-tax), or \$0.03 per diluted share, primarily consisting of a restructuring charge (\$2.7 million) related to the integration of the business acquired from Air Products and Chemicals, Inc. (Air Products) in fiscal 2002 and costs related to the consolidation of certain hardgoods procurement functions.

On April 2, 2004, the Company announced that it signed a definitive asset purchase agreement to acquire most of the U.S. packaged gas business of The BOC Group, Inc. (BOC) in a transaction valued up to \$200 million. The transaction is expected to close July 30, 2004 and includes approximately 120 locations in 21 states involved in the distribution of packaged industrial, medical and specialty gases, as well as welding hardgoods. In fiscal 2003, the packaged gas business of BOC, subject to the acquisition, generated approximately \$240 million in sales of which approximately 65% was gas and rent. The acquired operations will be integrated with the existing business units of the Company s Distribution segment.

14

Table of Contents

At December 31, 2003, the Company elected to adopt Financial Accounting Standards Board Interpretation No. 46R, *Consolidation of Variable Interest Entities*, (FIN 46R) with respect to its joint venture, National Welders Supply Company, Inc. (National Welders) and consolidated this formerly unconsolidated affiliate. Since June 1996, the Company has participated in the joint venture and has used the equity method of accounting to report the Company is proportionate share of the joint venture is operating results. Consequently, the consolidation of National Welders had no impact on the net earnings of the Company. In addition, the consolidation did not change the fact that the liabilities of the joint venture are non-recourse to the Company and the cash flows, in excess of a management fee paid by National Welders, are not available to the Company. Through the nine months ended December 31, 2003, the Company recognized \$4.4 million of Equity in Earnings of Unconsolidated Affiliates related to National Welders. With the prospective adoption permitted by FIN 46R (prior periods not restated), the fourth fiscal quarter operating results of the joint venture were reflected broadly across the income statement with minority interest expense reflecting the preferred stockholders proportionate share of the joint venture is operating results. For the fourth quarter of fiscal 2004, National Welders contributed \$39.2 million to sales, \$3.4 million to operating income, \$291 thousand of minority interest expense and \$1.2 million in net earnings.

The Company generated significant cash flow in fiscal 2004, which enabled the Company to finance acquisitions and capital expenditures and to repay debt. In addition, the Company s strong cash flow fundamentals enabled it to pay its first quarterly cash dividend in the Company s history of \$0.04 per share on June 30, 2003. Subsequently, at the end of each quarter during fiscal 2004, the Company paid its stockholders regular quarterly cash dividends of \$0.04 per share. In addition, on May 25, 2004, the Company announced that its Board of Directors declared a regular quarterly cash dividend of \$0.045 per share, representing a 13% increase compared to the prior year quarterly dividend. The dividend is payable June 30, 2004 to stockholders of record as of June 15, 2004.

Looking forward, fiscal 2005 appears to hold significant opportunities for the Company. The BOC acquisition will be the largest acquisition in the Company s history. The process of integrating BOC s packaged gas business into the Company s distribution network will provide both challenges and opportunities. The Company anticipates that the economic recovery will continue during fiscal 2005. Given these factors, the Company estimates that fiscal 2005 net earnings will be approximately \$1.21 to \$1.27 per diluted share, which includes up to \$0.02 per diluted share accretion from the BOC acquisition. Additionally, in the first quarter of fiscal 2005, the Company estimates that it will earn \$0.27 to \$0.31 per diluted share, which includes modest dilution from pre-integration expenses associated with the BOC acquisition. The fiscal 2005 range of estimated net earnings anticipates a continued supportive sales environment with gas and rent sales rising throughout the year. Actual fiscal 2005 net earnings may be impacted by a number of factors including the pace of the economic recovery, the sales mix of gas and rent versus hardgoods, the interest rate environment, and the costs to integrate the BOC acquisition.

15

INCOME STATEMENT COMMENTARY

Net Sales

Net sales increased 6% in fiscal 2004 compared to fiscal 2003 driven primarily by acquisitions, same-store sales growth of 1% and the consolidation of National Welders. The Company estimates same-store sales based on a comparison of current period sales to prior period sales, adjusted for acquisitions and divestitures. The pro-forma adjustments consist of adding acquired sales to, or subtracting sales of divested operations from, sales reported in the prior period. These pro-forma adjustments used in calculating the same-store sales metric are not reflected in the table below. The intercompany eliminations represent sales from All Other Operations to the Distribution segment.

(In thousands)	2004	2003	Increase
Distribution	\$1,702,471	\$1,642,076	\$ 60,395 4%
All Other Operations	235,926	183,849	52,077 28%
Intercompany eliminations	(42,929)	(38,961)	(3,968)
	\$1,895,468	\$1,786,964	\$108,504 6%

The Distribution segment s principal products include industrial, medical and specialty gases; process chemicals; equipment rental and hardgoods. Industrial, medical and specialty gases and process chemicals are distributed in cylinders or bulk containers. Equipment rental fees are generally charged on cylinders, cryogenic liquid containers, bulk and micro-bulk tanks, tube trailers and welding equipment. Hardgoods consist of welding supplies and equipment, safety products, and industrial tools and supplies.

Distribution segment sales increased \$60.4 million (4%) driven by acquisitions and growth in same-store sales. The Company estimates that business acquisitions contributed \$39.3 million to sales in fiscal 2004. Same-store sales growth of \$21.1 million (1%) resulted from increases in hardgoods sales of \$12.9 million (1%) and gas and rent sales of \$8.2 million (1%). Through the first nine months of fiscal 2004, Distribution same-store sales were negative, driven by lower sales of hardgoods reflecting weakness in the industrial and manufacturing sectors of the economy. However, same-store sales of hardgoods increased significantly (9%) in the fiscal fourth quarter as the industrial marketplace began to show signs of an economic recovery. Gas and rent sales also showed improvement (2%) in the fiscal fourth quarter. Same-store sales of safety products increased a strong 6% during fiscal 2004 as the Company continued its cross-selling strategy of marketing safety products to its broad base of customers. In addition, safety sales were helped by a new channel migration program that utilizes telemarketing to sell safety products to several thousand low volume customers.

The Company has followed a strategy of focusing on opportunities in niche markets to facilitate sales growth. The strategy focuses on products and markets that are expected to grow at a faster rate than the overall economy. These growth initiatives relate to sales of strategic products, including medical and specialty gases, gases sold in bulk and micro-bulk containers, safety products, and sales to strategic account customers. During fiscal 2004, these sales initiatives contributed to sales growth of gas and rent, which helped mitigate weakness in the industrial economy. Medical gas and rent revenues increased 8% to \$146 million versus the prior year reflecting volume gains. Sales growth of specialty gases fell short of expectations, driven by pricing pressure and sluggish demand associated with

economic conditions. Bulk gas and rent revenues grew 8% to \$107 million reflecting higher volumes as well as the promotion of the Company s micro-bulk program. The micro-bulk program is designed to service niche customers who require higher volumes of gases than can be provided efficiently through the use of gases packaged in cylinders. Sales to strategic account customers (sales to large customers with multiple locations) increased 3% to \$255 million in fiscal 2004. Rental revenue was also favorably impacted by a 7% increase in welding equipment rentals and sales associated with the Company s continued expansion of its rental welder fleet.

16

Table of Contents

The All Other Operations segment consists of producers and distributors of gas products, principally of dry ice, carbon dioxide, nitrous oxide and specialty gases. The segment also includes the Company's National Welders joint venture, which was consolidated effective December 31, 2003. All Other Operations sales, net of intercompany sales eliminations, increased \$48.1 million (33%), principally from the consolidation of National Welders, same-store sales growth and an acquisition during fiscal 2004. National Welders contributed sales of \$39.2 million in the fourth quarter and fiscal year. Had National Welders been consolidated for all of fiscal 2004, it would have contributed sales of \$147 million. Same-store sales growth of 5% was principally the result of higher sales volumes of liquid carbon dioxide reflecting the additional source of product from the Hopewell, Virginia plant that began operations in January 2003. Same-store sales growth associated with liquid carbon dioxide was partially offset by lower sales of dry ice. Sales of dry ice were negatively impacted during fiscal 2004 by significant pricing pressure related to additional competition in the market. The acquisition of a dry ice business in April 2003 also contributed sales of \$2.2 million in fiscal 2004.

Gross Profits

Gross profits do not reflect depreciation expense and distribution costs. As disclosed in Note 1 to the Consolidated Financial Statements, the Company reflects distribution costs as elements of Selling, Distribution and Administrative Expenses and recognizes depreciation on all its property, plant and equipment on the income statement line item Depreciation. Some companies may report certain or all of these costs as elements of their Cost of Products Sold. Consequently, gross profits discussed below may not be comparable to those of other entities.

Gross profits increased 5%, while the gross profit margin decreased 30 basis points to 52.1% in fiscal 2004 compared to 52.4% in fiscal 2003.

(In thousands)	2004	2003	Increas	se
Distribution All Other	\$857,031	\$835,756	\$21,275	3%
Operations	129,756	100,892	28,864	29%
	\$986,787	\$936,648	\$50,139	5%

The Distribution segment s gross profits increased \$21.3 million (3%) compared to the prior year. Distribution s gross profit margin of 50.3% in fiscal 2004 decreased 60 basis points from 50.9% in fiscal 2003. The lower gross profit margin primarily resulted from a shift in sales mix away from higher margin gas and rent sales and towards lower margin sales of hardgoods. Acquisitions of two distributors of safety products also contributed to the shift in mix. The Distribution segment s sales consisted of 51.8% gas and rent compared to 52.6% in fiscal 2003.

All Other Operations gross profits increased \$28.9 million (29%) compared to the prior year. Higher gross profits primarily reflect the consolidation of National Welders, higher sales volumes of liquid carbon dioxide sourced from the new Hopewell, Virginia plant and an acquisition. The consolidation of National Welders contributed gross profits of \$22 million. The gross profit margin of 55% was flat compared to 54.9% in the prior year. The fourth quarter consolidation of National Welders had an insignificant impact on the gross profit margin. Had National Welders been consolidated for all of fiscal 2004, the impact on the All Other Operations segment s gross profit margin would also not have been significant.

17

Operating Expenses

Selling, distribution and administrative expenses (SD&A) consist of labor and overhead associated with the purchasing, marketing and distribution of the Company's products, as well as costs associated with a variety of administrative functions such as legal, treasury, accounting, tax and facility-related expenses. SD&A expenses increased \$33.6 million (5%) compared to the prior year principally from the consolidation of National Welders, higher distribution-related expenses, costs contributed by acquired businesses and fire-related losses. The consolidation of National Welders contributed \$16 million to the increase in SD&A expenses. The increase in distribution-related expenses of approximately \$5 million was primarily driven by higher fuel, repair and maintenance costs. Higher fuel costs were directly related to the increase in oil prices during fiscal 2004. Acquired businesses contributed approximately \$13 million to the increase in SD&A expenses. During fiscal 2004, the Company sustained fire-related losses at certain of its plants of \$2.8 million, which represented the Company's self-insurance retention. The prior year included costs of \$2.7 million associated with the integration of the packaged gas business acquired from Air Products in February 2002. Acquisition integration expenses were not significant during fiscal 2004. As a percentage of net sales, SD&A expenses decreased 40 basis points to 38.7% compared to 39.1% in the prior year.

Depreciation expense of \$82.6 million in fiscal 2004 increased \$9.1 million (12%) compared to \$73.5 million in fiscal 2003. The increase reflects depreciation on the current and prior year s capital investments in revenue producing assets, including the Hopewell carbon dioxide plant, bulk and micro-bulk tanks and medical cylinders. The fourth quarter consolidation of National Welders also contributed \$2.6 million to the increase in depreciation expense.

Amortization expense of \$5.4 million in fiscal 2004 decreased \$1 million compared to \$6.4 million in fiscal 2003. The decrease in amortization expense was primarily attributable to the expiration of certain non-compete agreements.

Special Charges (Recoveries)

In fiscal 2004, a special charge recovery of \$776 thousand consisted of lower estimates of the ultimate cost of prior years—restructuring charges. The special charge recovery was included in the Distribution segment and represented a charge in estimate related to facility exit costs.

In fiscal 2003, a special charge of \$2.7 million incurred by the Distribution segment consisted of a restructuring charge related to the integration of the business acquired from Air Products and costs related to the consolidation of certain hardgoods procurement functions. The special charge included facility exit costs associated with the closure of certain facilities and employee severance. The facilities exited and the affected employees were part of the Company s existing operations prior to the acquisition of the Air Products business.

Operating Income

Operating income increased 8% in fiscal 2004 compared to fiscal 2003. The operating income margin increased 20 basis points to 8.9% from 8.7% in the prior year.

(In thousands)	2004	2003	Increas	se
Distribution All Other	\$136,449	\$130,534	\$ 5,915	5%
Operations	31,331	25,348	5,983	24%

\$167,780

\$155,882

\$11,898

8%

18

Table of Contents

The Distribution segment s operating income margin of 8% in fiscal 2004 was consistent with 7.9% in fiscal 2003. The fiscal 2004 operating income margin reflects the lower gross profit margin, described above, effectively offset by lower operating expenses as a percentage of sales.

The All Other Operations segment s operating income margin decreased 50 basis points to 13.3% compared to 13.8% in fiscal 2003. The decrease in the operating income margin primarily resulted from higher operating expenses as a percentage of sales driven by the consolidation of National Welders. National Welders has a higher cost structure compared to the other businesses included in the segment. Had National Welders been consolidated for all of fiscal 2004, the operating income margin would have been 11.5%.

Interest Expense and Discount on Securitization of Trade Receivables

Interest expense, net, and the discount on securitization of trade receivables totaled \$45.6 million representing a decrease of \$4.1 million

(-8%) compared to the prior fiscal year. The decrease in interest expense resulted from lower average outstanding debt levels and lower weighted-average interest rates associated with the Company s variable rate debt. The Company s interest expense and average outstanding debt levels were lower despite the July 1, 2003 consolidation of a grantor trust associated with an operating lease and the December 31, 2003 consolidation of National Welders.

The Company participates in a securitization agreement with two commercial banks to sell up to \$175 million of qualifying trade receivables. The amount of outstanding receivables under the agreement was \$162.6 million and \$158.9 million at March 31, 2004 and 2003, respectively. Net proceeds from the sale of trade receivables were used to reduce borrowings under the Company s revolving credit facilities. The discount on the securitization of trade receivables represents the difference between the carrying value of the receivables and the proceeds from their sale. The amount of the discount varies on a monthly basis depending on the amount of receivables sold and market rates.

As discussed in Liquidity and Capital Resources and in Item 7A, Quantitative and Qualitative Disclosures About Market Risk, the Company manages its exposure to interest rate risk through participation in interest rate swap agreements. Including the effect of the interest rate swap agreements, the Company s ratio of fixed to variable interest rates at March 31, 2004 was 57% fixed to 43% variable. A majority of the Company s variable rate debt is based on a spread over the London Interbank Offered Rate (LIBOR). Based on the Company s outstanding variable rate debt and credit rating at March 31, 2004, for every 25 basis point increase in LIBOR, the Company estimates its annual interest expense would increase approximately \$900 thousand.

Equity in Earnings of Unconsolidated Affiliates

Equity in earnings of unconsolidated affiliates totaled \$5.2 million in fiscal 2004 compared to \$3.8 million in the prior year. The results of National Welders for the nine months ended December 31, 2003 (earnings of \$4.4 million) were reported in the income statement as equity in earnings of unconsolidated affiliates. Effective January 1, 2004, National Welders results were reflected broadly across the income statement. The increase in the equity in earnings of unconsolidated affiliates compared to the prior year resulted primarily from a \$1.7 million non-recurring life insurance policy gain recognized by National Welders in December 2003. Prior to the date that the Company entered into the joint venture agreement with National Welders, the founders of National Welders had obtained life insurance policies on key personnel in which National Welders was the named beneficiary.

Minority Interest Expense

Minority interest expense of \$291 thousand in fiscal 2004 represents the portion of National Welders operating results applicable to the preferred stockholders of National Welders.

19

Table of Contents

Income Tax Expense

The effective income tax rate was 37.2% of pre-tax earnings in fiscal 2004 compared to 37.7% in fiscal 2003.

Net Earnings

Net earnings in fiscal 2004 were \$80.2 million, or \$1.07 per diluted share, compared to \$68.1 million, or \$0.94 per diluted share, in fiscal 2003.

The weighted average number of shares outstanding used in computing earnings per diluted share was 2.4 million shares higher in fiscal 2004 compared to fiscal 2003. The increase in the weighted average number of shares outstanding primarily resulted from stock option exercises and shares purchased by employees under the Company s Employee Stock Purchase Plans. The Company expects that the weighted average number of shares outstanding will increase 2% to 3% per year.

20

AIRGAS, INC. AND SUBSIDIARIES MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS: 2003 COMPARED TO 2002

OVERVIEW

The Company s net sales for the fiscal year ended March 31, 2003 (fiscal 2003) were \$1.79 billion compared to \$1.64 billion in fiscal 2002. Sales growth was driven by the fiscal 2002 fourth quarter acquisition of the majority of Air Products U.S. packaged gas business. In addition, the Company continued to pursue opportunistic acquisitions to complement its national distribution network, completing four acquisitions in fiscal 2003. Although there was significant acquisition-related sales growth, net sales were adversely affected by the sluggish economic environment. The weak manufacturing and industrial markets contributed to a same-store sales decline of 2% compared to the prior year reflecting lower hardgoods sales mitigated by higher gas and rent sales. Higher gas and rent sales reflect the Company s focus on strategic sales initiatives related to medical and bulk gases and strategic account customers. The Company s sales initiatives contributed to an 8% increase in medical gas sales, a 9% increase in bulk gas delivery sales, and a 7% increase in sales to strategic account customers. With a focus on controlling costs and improving operational effectiveness, the Company also embarked on other strategic initiatives, including the centralization of certain hardgoods procurement functions, rollout of an inventory management system, and implementation of a sales force effectiveness program.

Fiscal 2003 net earnings were \$68.1 million, or \$0.94 per diluted share, compared to a net loss of \$10.4 million, or a loss of \$0.15 per diluted share, in fiscal 2002.

As discussed in the Income Statement Commentary below, fiscal 2003 results were affected by the following:

special and other charges totaling \$2.9 million (\$2.2 million after-tax), or \$0.03 per diluted share, primarily consisting of a restructuring charge (\$2.7 million) related to the integration of the business acquired from Air Products and costs related to the consolidation of certain hardgoods procurement functions. Fiscal 2002 results were affected by the following:

a non-cash after-tax charge of \$59 million, or \$0.84 per diluted share, representing the cumulative effect of a change in accounting principle associated with the adoption of Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets*; and

a litigation settlement charge of \$8.5 million (\$5.7 million after-tax), or \$0.08 per diluted share.

During fiscal 2003, the Company successfully integrated the business acquired from Air Products in the prior year. In addition, during fiscal 2003, the Company completed the acquisition of four complementary packaged gas distributors with combined annual sales of approximately \$33 million. The acquired businesses further expanded the Company s broad distribution network and national market reach.

Strong cash flow fundamentals have been characteristics of the Company since its inception. The cash flow generated by the Company, excluding the cash generated from the expanded trade receivables securitization program that was used to pay down the Company s revolving credit facilities, enabled it to repay debt of \$93.5 million in fiscal 2003. Additionally, the Company was able to reduce its off-balance sheet commitments by \$2.5 million in fiscal 2003. Lower interest rates during fiscal 2003 also reduced the Company s debt service requirements and aided in the ability to repay debt, as well as favorably impacted net earnings during the year.

21

INCOME STATEMENT COMMENTARY

Net Sales

Net sales increased 9% in fiscal 2003 compared to fiscal 2002, driven primarily by the prior year acquisition of Air Products packaged gas business, while same-store sales declined 2%. The intercompany eliminations represent sales from All Other Operations to the Distribution segment.

(In thousands)	2003	2002	Increase	
Distribution	\$1,642,076	\$1,494,267	\$147,809 10%	
All Other Operations Intercompany	183,849	173,594	10,255 6%	
eliminations	(38,961)	(31,814)	(7,147)	
	\$1,786,964	\$1,636,047	\$150,917 9%	

Distribution segment sales increased \$148 million (10%) driven by acquisitions, partially offset by a decline in same-store sales. The Company estimates that net acquisition and divestiture activity contributed \$181 million to sales in fiscal 2003. The net acquisition and divestiture activity primarily reflects the impact of the February 28, 2002 acquisition of Air Products. The Air Products—operations contributed \$17.6 million to the Company—s fiscal 2002 net sales. On a same-store basis, the Distribution segment—s sales decreased \$33 million (-2%) reflecting a decline in hardgoods same-store sales of \$42 million (-5%), partially offset by gas and rent sales growth of \$9 million (1%). The decline in hardgoods same-store sales resulted from lower sales volumes of industrial tools and welding hardgoods, reflecting the general weakness in the industrial and manufacturing sectors of the economy. Although overall safety product sales were flat due to a decline in branch-based sales, safety product sales through the telesales channel grew 4%.

Distribution gas and rent same-store sales growth was driven by sales initiatives related to medical and bulk gases, as well as strategic accounts. The growth achieved through these initiatives was partially offset by volume declines in industrial gases reflecting the general weakness in the industrial and manufacturing sectors of the economy. Fiscal 2003 medical gas and rent revenues grew 8% to \$135 million versus the prior year reflecting volume gains. Bulk gas and rent revenues increased to approximately \$100 million, representing a 9% increase over the prior year with pricing remaining relatively stable. On a same-store basis, sales to strategic account customers (sales to large customers with multiple locations) grew 7% to \$247 million in fiscal 2003 reflecting the Company s success in leveraging its broad distribution network to service large customers. Although several major strategic account customers purchased lower volumes of products, the addition of nearly 80 new strategic account customers during fiscal 2003 generated sales growth. Rental revenue was also favorably impacted by an 8% increase in welding equipment rentals from the Company s expansion of its rental welder fleet. The Company has followed a strategy of focusing on strategic sales initiatives are designed to develop niches in products and services that are expected to grow at a faster rate than the overall economy and to position the Company for growth into the future.

All Other Operations sales, net of intercompany sales eliminations, increased \$3.1 million (2%), principally from net acquisition and divestiture activity and same-store sales growth. Acquired sales of high-end specialty gases from

the Air Products acquisition more than offset divested sales from two nitrous oxide plants sold in the third quarter of fiscal 2002. Same-store sales increased \$1.5 million (1%) driven by specialty gas sales and higher volumes of liquid carbon dioxide associated with the January 2003 completion of a new carbon dioxide plant in Hopewell, Virginia.

22

Gross Profits

Gross profits increased 15% and the gross profit margin increased 240 basis points to 52.4% in fiscal 2003 compared to 50% in fiscal 2002.

(In thousands)	2003	2002	Increas	se
Distribution	\$835,756	\$724,173	\$111,583	15%
All Other Operations	100,892	93,121	7,771	8%
	\$936,648	\$817,294	\$119,354	15%

Distribution gross profits increased approximately \$112 million (15%) primarily from the Air Products acquisition. The Distribution segment s gross profit margin of 50.9% in fiscal 2003 increased 240 basis points from 48.5% in fiscal 2002. The gross margin improvement resulted from a shift in sales mix towards higher-margin gas and rent and reduced product discounting associated with the Company s hardgoods discount management program. The shift in sales mix was primarily attributable to the Air Products acquisition, which had a sales mix of 76% gas and rent. On a same-store basis, lower volumes of hardgoods also contributed to the shift in sales mix towards gas and rent. Distribution segment sales consisted of 52.6% gas and rent compared to 47.3% in the prior year.

All Other Operations gross profits increased \$7.8 million (8%) driven by lower raw material and production costs of the dry ice operations, which reduced the cost per ton produced, and net acquisition and divestiture activity. Gross profits attributable to specialty gas business acquired from Air Products more than compensated for the fiscal 2002 divestiture of two nitrous oxide plants. Same-store sales growth of specialty gases also contributed to the increase in All Other Operations gross profits. All Other Operations gross profit margin of 54.9% increased 130 basis points from 53.6% in the prior year.

Operating Expenses

SD&A expenses increased \$78.9 million (13%) compared to fiscal 2002 principally from the addition of the Air Products operations. Although salaries and benefits, fuel and acquisition integration costs increased in fiscal 2003 compared to fiscal 2002, the increases were partially mitigated by lower legal expenses and management s focus on expense control in other areas. Legal expense in fiscal 2002 included a charge of \$8.5 million associated with the settlement of litigation brought by a competitor. There were no similar charges in fiscal 2003. As a percentage of net sales, SD&A expenses increased 120 basis points to 39.1% compared to 37.9% in the prior year. The increase in operating expenses as a percentage of net sales reflects the addition of the Air Products business, a majority of which is comprised of the distribution of packaged gases. Packaged gas distribution typically carries higher operating expenses than the hardgoods portion of the business and correspondingly higher gross profit margins.

Depreciation expense of \$73.5 million in fiscal 2003 increased \$8.7 million (13%) compared to \$64.8 million in fiscal 2002. The increase was primarily due to depreciation on the addition of the fixed assets from the Air Products acquisition.

Amortization expense of \$6.4 million in fiscal 2003 decreased \$1.8 million compared to \$8.2 million in fiscal 2002. The decrease in amortization expense was primarily attributable to the expiration of certain non-compete

23

Special Charge

A special charge of \$2.7 million incurred by the Distribution segment in fiscal 2003 consisted of a restructuring charge related to the integration of the business acquired from Air Products and costs related to the consolidation of certain hardgoods procurement functions. The special charge included facility exit costs associated with the closure of certain facilities and employee severance. The facilities exited and the affected employees were part of the Company s existing operations prior to the acquisition of the Air Products business.

Operating Income

Operating income increased 25% in fiscal 2003 compared to fiscal 2002.

(In thousands)	2003	2002	Increa	ise
Distribution	\$130,534	\$103,430	\$27,104	26%
All Other Operations	25,348	21,603	3,745	17%
	\$155,882	\$125,033	\$30,849	25%

The Distribution segment s operating income margin of 7.9% in fiscal 2003 increased 100 basis points compared to 6.9% in fiscal 2002. The operating income margin increase reflects the higher gross profit margin, described above, partially offset by the special charge noted above and an increase in operating expenses as a percentage of sales.

All Other Operations operating income margin increased 140 basis points to 13.8% compared to 12.4% in fiscal 2002. The improved operating income margin reflects lower raw material and production costs of the Company s dry ice operations, higher gross profits from higher specialty gas sales leveraging fixed manufacturing costs, and a focus on cost control by management.

Interest Expense and Discount on Securitization of Trade Receivables

Interest expense, net, and the discount on securitization of trade receivables totaled \$49.7 million representing a decrease of \$2.2 million

(-4%) compared to the prior fiscal year. The decrease in interest expense resulted from lower weighted-average interest rates associated with the Company s variable rate debt, partially offset by higher average debt levels. Higher average debt levels resulted from indebtedness associated with acquisition activity, principally the Air Products acquisition.

The Company participates in a securitization agreement with two commercial banks to sell up to \$175 million of qualifying trade receivables. The amount of outstanding receivables under the agreement was \$158.9 million and \$134 million at March 31, 2003 and March 31, 2002, respectively. Net proceeds from the sale of trade receivables were used to reduce borrowings under the Company s revolving credit facilities. The discount on the securitization of trade receivables represents the difference between the carrying value of the receivables and the proceeds from their sale. The amount of the discount varies on a monthly basis depending on the amount of receivables sold and market rates.

As discussed in Liquidity and Capital Resources and in Item 7A, Quantitative and Qualitative Disclosures About Market Risk, the Company manages its exposure to interest rate risk through participation in interest rate swap agreements. Including the effect of the interest rate swap agreements, the Company s ratio of fixed to variable interest rates at March 31, 2003 was 41% fixed to 59% variable.

24

Table of Contents

Income Tax Expense

The effective income tax rate was 37.7% of pre-tax earnings in fiscal 2003 compared to 38% in fiscal 2002.

Pursuant to an accelerated depreciation provision of a fiscal 2002 change in the tax law, the Company anticipated receiving a tax refund of approximately \$19 million during fiscal 2003 related to the assets acquired in the Air Products acquisition. After further review, it was concluded that the Company would not be eligible for the refund in fiscal 2003, but instead would receive the cash benefit over the next four years. As a result, an adjustment was made in the first quarter of fiscal 2003 that resulted in approximately a \$19 million reclassification between current and deferred income taxes. The adjustment did not impact net earnings or operating cash flows in either fiscal 2003 or fiscal 2002.

Earnings before the Cumulative Effect of a Change in Accounting Principle

Earnings before the cumulative effect of a change in accounting principle for fiscal 2003 were \$68.1 million, or \$0.94 per diluted share, compared to \$48.6 million, or \$0.69 per diluted share, in fiscal 2002.

Cumulative Effect of a Change in Accounting Principle

In connection with the adoption of SFAS 142, *Goodwill and Other Intangible Assets*, on April 1, 2001, the Company performed an evaluation of goodwill, which indicated that goodwill of one reporting unit, its tool business, was impaired. Fiscal 2002 included a \$59 million, or \$0.84 per diluted share, non-cash charge as the cumulative effect of a change in accounting principle for the write-down of goodwill to its fair value. The impaired goodwill was not deductible for taxes, and consequently, no tax benefit was recorded in relation to the charge.

Net Earnings (Loss)

Net earnings for fiscal 2003 were \$68.1 million, or \$0.94 per diluted share, compared to a net loss in fiscal 2002 of \$10.4 million, or a loss of \$0.15 per diluted share.

25

LIQUIDITY AND CAPITAL RESOURCES

Fiscal 2004 Cash Flows

Net cash provided by operating activities totaled \$209.1 million in fiscal 2004 compared to \$194.4 million in fiscal 2003. The increase in fiscal 2004 operating cash flows principally resulted from improvements in cash provided by working capital, higher net earnings and the consolidation of National Welders, partially offset by a lower source of cash from the trade receivables securitization program. In fiscal 2003, deferred taxes and the change in other current assets reflect an equal and opposite impact of the reversal of a \$19 million tax refund related to a revised interpretation of a change in the tax law. Comparing the fiscal 2004 changes in working capital to the fiscal 2003 changes in working capital adjusted for the non-cash deferred tax reclassification, working capital provided cash of \$12.9 million in 2004 versus a use of cash of \$11.2 million in 2003. Net earnings adjusted for non-cash items provided cash of \$192.4 million versus \$180.7 million in fiscal 2003, adjusted for the fiscal 2003 deferred tax reclassification. Fiscal 2004 cash from operations also reflects \$9.8 million associated with the fourth quarter operating results of National Welders. The cash flows of National Welders, in excess of a management fee paid by National Welders to the Company, are not available to the Company. Prior to the fourth quarter consolidation of National Welders, the management fee paid by National Welders to the Company was reflected as an investing activity as fees from unconsolidated affiliates. In fiscal 2004, the trade receivables securitization program was a lower source of cash by \$21.2 million compared to fiscal 2003. In fiscal 2003, the addition of trade receivables associated with the Air Products acquisition in February 2002 contributed to an increase in receivables sold under the securitization program. Cash provided by operating activities in fiscal 2004 were primarily used to fund capital expenditures and acquisitions as well as for the repayment of debt.

Cash used in investing activities totaled \$122.5 million and primarily consisted of capital expenditures and acquisitions. Capital expenditures of \$93.7 million, including \$2.2 million associated with National Welders, were \$25.8 million higher than fiscal 2003 principally due to spending for cylinders, bulk and micro-bulk tanks, two fill plant upgrades and the purchase of a corporate plane. Cylinder and bulk tank purchases were driven by continued growth in medical and bulk gas sales. The Company estimates fiscal 2005 capital expenditures will be in the range of \$115 million to \$130 million. The higher level of capital spending anticipated in fiscal 2005 is driven by a real estate and tube trailer lease buyout program and expansion of the Company s medical product distribution infrastructure. The acquisition of five businesses during fiscal 2004 also used cash of \$34.9 million.

Financing activities used cash of \$86.6 million primarily for the net repayment of debt of \$70.7 million, lower cash overdrafts of \$14.2 million and dividends paid to stockholders of \$11.8 million. National Welders repayment of \$7.8 million of debt in the fourth quarter of fiscal 2004 contributed to the cash used in financing activities. The cash overdraft represents the change in the balance of outstanding checks. Financing activities also included proceeds of \$13.1 million received from the exercise of stock options.

Cash on hand at the end of each fiscal year is zero. On a daily basis, depository accounts are swept of all available funds. The funds are deposited into a concentration account through which all cash on hand is used to repay debt under the Company s revolving credit facilities.

The Company will continue to look for appropriate acquisitions to complement its existing businesses and improve its geographic coverage. Capital expenditures, current debt maturities and any future acquisitions will be funded through the use of cash flow from operations, revolving credit facilities, and other financing alternatives. The Company believes that its sources of financing are adequate for its anticipated needs and that it could arrange additional sources of financing for unanticipated requirements. The cost and terms of any future financing arrangement depend on the market conditions and the Company s financial position at that time.

Table of Contents

Dividends

On May 13, 2003, the Company s Board of Directors declared the first quarterly cash dividend in the Company s history of \$0.04 per share, which was paid to stockholders on June 30, 2003. Subsequently, at the end of each quarter during fiscal 2004, the Company paid its stockholders regular quarterly cash dividends of \$0.04 per share. In addition, on May 25, 2004, the Company announced that its Board of Directors declared a regular quarterly cash dividend of \$0.045 per share, representing a 13% increase compared to the prior year quarterly dividend. The dividend is payable June 30, 2004 to stockholders of record as of June 15, 2004. Future dividend declarations and associated amounts paid will depend upon the Company s earnings, financial condition, loan covenants, capital requirements and other factors deemed relevant by management and the Company s Board of Directors.

Financial Instruments

The Company s Consolidated Balance Sheet at March 31, 2004 includes the financial obligations of the National Welders joint venture in accordance with the requirements of FIN 46R. National Welders financial debt instruments are non-recourse to the Company, meaning that the creditors of National Welders do not have a claim on the assets of Airgas, Inc. in settlement of the joint venture s debt obligations. The financial instruments of National Welders are discussed separately under the heading Financial Instruments of the National Welders Joint Venture.

Revolving Credit Facilities

The Company has unsecured revolving credit facilities with a syndicate of lenders totaling \$367.5 million and \$50 million Canadian (U.S. \$38.2 million) under a credit agreement with a maturity date of July 30, 2006. At March 31, 2004, the Company had borrowings under the credit agreement of approximately \$8 million and \$25 million Canadian (U.S. \$19 million). The Company also had commitments under letters of credit supported by the credit agreement of approximately \$33 million at March 31, 2004. The credit agreement contains covenants that include the maintenance of certain leverage ratios, a fixed charge ratio, and potential restrictions on certain additional borrowing, the amount of dividends declared and paid, and the repurchase of common stock. Based on restrictions related to certain leverage ratios, the Company had additional borrowing capacity under the revolving credit facilities of approximately \$225 million at March 31, 2004. The variable interest rates of the U.S. and Canadian revolving credit facilities are based on LIBOR and Canadian Bankers Acceptance Rates, respectively. At March 31, 2004, the effective interest rates on borrowings under the revolving credit facilities were 3.13% on U.S. borrowings and 4.44% on Canadian borrowings.

Borrowings under the revolving credit facilities are guaranteed by certain of the Company s domestic subsidiaries and Canadian borrowings are guaranteed by Canadian subsidiaries. The Company pledged 100% of the stock of its domestic guarantor subsidiaries and 65% of the stock of its foreign guarantor subsidiaries for the benefit of the syndicate of lenders. If the Company s credit rating is reduced, the Company will be required to grant a security interest in substantially all of the tangible and intangible assets of the Company for the benefit of the syndicate of lenders.

In May 2003, the Company obtained an amendment to its credit agreement that allowed for the issuance of up to an additional \$200 million of senior public debt and for the expansion of its senior credit facilities by up to \$150 million (see *Senior Subordinated Notes* below). Subject to existing financial covenants, the amendment also provided the Company with additional flexibility to pay dividends, repurchase Airgas common stock and invest in acquisitions.

27

Table of Contents

In anticipation of the acquisition of assets from BOC, the Company obtained an amendment to its credit agreement in February 2004 that, among other things, permits the Company to invest up to \$275 million in acquisitions during fiscal 2005.

Term Loan

At March 31, 2004, the Company had an outstanding term loan with a principal balance of \$70 million bearing an effective interest rate of 3.11%. The term loan is due in quarterly installments with a final payment due July 30, 2006. The term loan is unsecured and bears a variable interest rate based on LIBOR plus a spread related to the Company s credit rating. Principal payments on the term loan are classified as Long-term Debt in the Company s Consolidated Balance Sheets based on the Company s ability and intention to refinance the payments with borrowings under its long-term revolving credit facilities.

Medium-Term Notes

At March 31, 2004, the Company had \$100 million of unsecured medium-term notes due September 2006 bearing interest at a fixed rate of 7.75%. The medium-term notes are guaranteed by each of the domestic guarantors under the revolving credit facilities.

Acquisition and Other Notes

The Company s long-term debt also included acquisition and other notes principally consisting of notes issued to sellers of businesses acquired and are repayable in periodic installments. At March 31, 2004, acquisition and other notes totaled approximately \$8.5 million with interest rates ranging from 4% to 9%.

Senior Subordinated Notes

In March 2004, the Company issued \$150 million of senior subordinated notes (the 2004 Notes) with a maturity date of July 15, 2014. The 2004 Notes bear interest at a fixed annual rate of 6.25%, payable semi-annually on January 15 and July 15 of each year. Proceeds from the issuance of the 2004 Notes were used to redeem \$75 million of medium-term notes due March 2004 and to pay down borrowings on the Company s U.S. revolving credit facility. The 2004 Notes were sold in accordance with the provisions of Rule 144A under the Securities Act of 1933 (the Securities Act). During fiscal 2005, the Company will exchange the 2004 Notes for substantially similar notes registered with the Securities and Exchange Commission in accordance with the Securities Act.

In addition to the 2004 Notes, at March 31, 2004, the Company had \$225 million of senior subordinated notes (the 2001 Notes) outstanding with a maturity date of October 1, 2011. The 2001 Notes bear interest at a fixed annual rate of 9.125%, payable semi-annually on April 1 and October 1 of each year.

The 2004 Notes and 2001 Notes contain covenants that could restrict the payment of dividends, the repurchase of common stock, the issuance of preferred stock, and the incurrence of additional indebtedness and liens. The 2004 Notes and 2001 Notes are guaranteed on a subordinated basis by each of the domestic guarantors under the revolving credit facilities.

28

Table of Contents

Financial Instruments of the National Welders Joint Venture

In July 2002, National Welders entered into a credit agreement (the Credit Agreement) to provide for available credit up to \$100 million secured by certain assets of National Welders. The Credit Agreement provides for a Term Loan A of \$26.2 million, a Term Loan B of \$21 million, a Term Loan C of \$8.8 million, and a revolving credit line of \$44 million. Term Loan A is repayable in monthly amounts of \$254 thousand through maturity in June 2007. Term Loan B matures in July 2006. The revolving credit line matures in June 2006. Interest rates on the Credit Agreement are variable and range from LIBOR plus 150 to 225 basis points based on National Welders leverage ratio. The Credit Agreement contains certain covenants which, among other things, limit the ability of National Welders to incur and guarantee new indebtedness, subject National Welders to minimum net worth requirements, and limit its capital expenditures, ownership changes, merger and acquisition activity, and the payment of dividends. In addition, the payment of dividends on National Welders common stock is further limited by the joint venture agreement. The payment of dividends on the common stock is subordinate to the payment of the 5% dividend on the preferred stock. Additionally, the common stock dividends must be declared by a vote of the joint venture s board of directors.

At March 31, 2004, National Welders had borrowings under its revolving credit line of \$5.5 million, under Term Loan A of \$21.1 million and under Term Loan B of \$21 million. There were no amounts borrowed or outstanding under Term Loan C at March 31, 2004. At March 31, 2004, the effective interest rate for the debt instruments covered under the Credit Agreement was 3.09%. Based on restrictions related to certain leverage ratios, National Welders had additional borrowing capacity under its Credit Agreement of \$47.3 million at March 31, 2004. National Welders also had a note payable to a bank of \$5.5 million that is secured by a production facility and bears a fixed interest rate of 7%. National Welders long-term debt also included acquisition and other notes totaling \$652 thousand.

Interest Rate Swap Agreements

The Company manages its exposure to changes in market interest rates. At March 31, 2004, the Company was party to a total of eight interest rate swap agreements. The swap agreements are with major financial institutions and aggregate \$215 million in notional principal amount at March 31, 2004. Four swap agreements with approximately \$90 million in notional principal amount require the Company to make fixed interest payments based on an average effective rate of 4.55% and receive variable interest payments from its counterparties based on three-month LIBOR (average rate of 1.12% at March 31, 2004). The remaining terms of these swap agreements range from between four and nineteen months. Four swap agreements with approximately \$125 million in notional principal amount require the Company to make variable interest payments based on six-month LIBOR (average effective rate of 3.16% at March 31, 2004) and receive fixed interest payments from its counterparties based on an average effective rate of 8.36% at March 31, 2004. The remaining terms of these swap agreements range from between two and seven years. The Company monitors its positions and the credit ratings of its counterparties, and does not anticipate non-performance by the counterparties.

National Welders participates in one interest rate swap agreement with a notional principal amount of \$21 million on which it makes interest payments based on a fixed rate of 6.72% and receives variable interest payments from its counterparty based on a floating 30-day LIBOR rate of 1.09% at March 31, 2004.

29

Table of Contents

After considering the effect of interest rate swap agreements on the Company's debt and off-balance sheet trade receivables securitization agreement, the Company's ratio of fixed to variable interest rates was 57% fixed to 43% variable at March 31, 2004. The ratio includes the effect of the fixed to variable ratio of National Welders' debt. A majority of the Company's variable rate debt is based on a spread over LIBOR. Based on the Company's outstanding variable rate debt and credit rating at March 31, 2004, for every 25 basis point increase in LIBOR, the Company estimates its annual interest expense would increase approximately \$900 thousand.

Trade Receivables Securitization

The Company participates in a securitization agreement with two commercial banks to sell up to \$175 million of qualifying trade receivables. The agreement expires in December 2005, but may be renewed subject to renewal provisions contained in the agreement. During fiscal 2004, the Company sold, net of its retained interest, \$1,696 million of trade receivables and remitted to bank conduits, pursuant to a servicing agreement, \$1,692 million in collections on those receivables. The net proceeds were used to reduce borrowings under the Company s revolving credit facilities. The amount of outstanding receivables under the agreement was \$162.6 million at March 31, 2004 and \$158.9 million at March 31, 2003.

The transaction has been accounted for as a sale under the provisions of Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. Under the securitization agreement, eligible trade receivables are sold to bank conduits through a bankruptcy-remote special purpose entity, which is consolidated for financial reporting purposes. The difference between the proceeds from the sale and the carrying value of the receivables is recognized as Discount on securitization of trade receivables in the accompanying Consolidated Statements of Earnings and varies on a monthly basis depending on the amount of receivables sold and market rates. The Company retains a subordinated interest in the receivables sold, which is recorded at the receivables previous carrying value. A subordinated retained interest of approximately \$44 million and \$45 million is included in Trade receivables in the accompanying Consolidated Balance Sheets at March 31, 2004 and 2003, respectively. The Company s retained interest is generally collected within 60 days. On a monthly basis, management measures the fair value of the retained interest at management s best estimate of the undiscounted expected future cash collections on the transferred receivables. Changes in the fair value are recognized as bad debt expense. Actual cash collections may differ from these estimates and would directly affect the fair value of the retained interest. In accordance with a servicing agreement, the Company continues to service, administer and collect the trade receivables on behalf of the bank conduits. The servicing fees charged to the bank conduits approximate the costs of collections.

Debt of Grantor Trust

Since October 1999, the Company has leased certain real estate and equipment from a grantor trust (the Trust) under a sale-leaseback arrangement. The Trust incurred debt to purchase the properties and equipment from the Company. The Company, in turn, paid rent to the Trust. The rental payments to the Trust were based on LIBOR plus an applicable margin and matched the debt service requirements for the debt held by the Trust. The Trust was not consolidated for financial reporting purposes and the non-cancelable lease obligation of the real estate and equipment leases totaled approximately \$41 million at March 31, 2003.

Effective July 1, 2003, the Company elected to early adopt FIN 46 with respect to the Trust (see Note 2 to the Consolidated Financial Statements included under Item 8). The Company determined the Trust to be a variable interest entity as defined by FIN 46. In addition, the Company was determined to be the primary beneficiary of the sale-leaseback arrangement. FIN 46 required the Company to consolidate the Trust for financial reporting purposes. Upon consolidation, the Company recorded on its balance sheet approximately \$29 million of real estate and equipment and debt of \$42 million, while eliminating a deferred gain of \$13 million. The consolidation of the Trust

resulted in the Company recognizing \$1 million in interest expense

30

Table of Contents

and \$1 million in depreciation expense in the nine months ended March 31, 2004, which had previously been recognized as rent expense to the Trust. The debt of the grantor trust matures in October 2004 and is classified as long-term based upon the Company s ability and intention to refinance it with borrowings under its long-term credit facilities.

Employee Benefits Trust

Since March 1999, the Company has maintained a trust (the Employee Benefits Trust) to fund certain future obligations of the Company s employee benefit and compensation plans. From inception through 2001, the Company, pursuant to a Common Stock Purchase Agreement, sold approximately 7 million shares of common stock, previously held as treasury stock, to the Employee Benefits Trust. The Company holds promissory notes from the Employee Benefits Trust in the amount of common stock purchased by the trust. Shares held by the Employee Benefits Trust serve as collateral for the promissory notes and are available to fund certain employee benefit plan obligations as the promissory notes are repaid. The shares held by the Employee Benefits Trust are not considered outstanding for earnings per share purposes until they are released from serving as collateral for the promissory notes. Approximately 1.2 million and 900 thousand shares were issued from the Employee Benefits Trust for employee benefit programs during fiscal 2004 and 2003, respectively. As of March 31, 2004, the Employee Benefits Trust held approximately 2.2 million shares of Company common stock. An independent third-party financial institution serves as the Trustee. The Trustee votes or tenders shares held by the Employee Benefits Trust in accordance with instructions received from the participants in the employee benefit and compensation plans funded by the Employee Benefits Trust.

Inflation

While the U.S. inflation rate has been relatively modest for several years, rising costs continue to affect the Company s business. The Company strives to minimize the effects of inflation through cost containment and price increases under highly competitive conditions.

OTHER

Critical Accounting Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make judgments, assumptions and estimates that affect the amounts reported in the Consolidated Financial Statements and accompanying notes. Note 1 to the Consolidated Financial Statements included under Item 8 describes the significant accounting policies and methods used in the preparation of the Consolidated Financial Statements. Estimates are used for, but not limited to, determining the net carrying value of trade receivables, inventories, goodwill and business insurance reserves. Actual results could differ from these estimates. The following critical accounting policies are impacted significantly by judgments, assumptions and estimates used in the preparation of the Consolidated Financial Statements.

Trade Receivables

The Company must make estimates of the collectability of its trade receivables. Management has established an allowance for doubtful accounts to adjust the carrying value of trade receivables to fair value based on an estimate of the amount of trade receivables that are uncollectible. The allowance for doubtful accounts is determined based on historical experience, economic trends, known bankruptcies and problem accounts. Management believes that the allowances for doubtful accounts as of March 31, 2004 and 2003 are adequate.

Table of Contents

Inventories

The Company s inventories are stated at the lower of cost or market. The Company writes down its inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon its physical condition as well as assumptions about future demand and market conditions. If actual demand or market conditions in the future are less favorable than those estimated, additional inventory write-downs may be required.

Goodwill

The Company accounts for goodwill in accordance with SFAS 142, *Goodwill and Other Intangible Assets*. Under SFAS 142, goodwill is not amortized, but is instead tested for impairment at least annually. The Company has elected to perform its annual tests for indications of goodwill impairment as of October 31 of each year. The annual impairment test used by the Company consists of a discounted cash flow analysis. The discounted cash flow analysis requires estimates, assumptions and judgments that could be materially different if different estimates, assumptions and judgments were used.

Business Insurance Reserves

The Company has insurance programs to cover workers—compensation, business automobile, general and product liability claims. The insurance programs have self-insured retention of \$500 thousand per occurrence and an annual aggregate limit of \$1.7 million of claims in excess of \$500 thousand. The Company accrues estimated losses using actuarial models and assumptions based on the Company—s historical loss experience. National Welders is also self-insured for workers—compensation claims. Workers—compensation claims are self-insured up to \$250 thousand per person annually with an aggregate liability of \$575 thousand. Provisions for expected future claim payments are accrued based on estimates of the aggregate liability for claims incurred plus an estimate for incurred but not reported claims using historical experience. Although management believes that the insurance reserves are adequate, the reserve estimates are based on historical experience, which may not be indicative of current and future losses. In addition, the actuarial calculations used to estimate insurance reserves are based on numerous assumptions, some of which are subjective. Both the Company and National Welders will adjust their insurance reserves, if necessary, in the event that future loss experience differs from historical loss patterns.

32

Contractual Obligations and Off-Balance Sheet Arrangements

The following table presents the Company s contractual obligations and off-balance sheet arrangements as of March 31, 2004:

		Payments Due by Period						
Total	Less than 1 year	1 to 3 years	3 to 5 years	More than 5 years				
\$ 688,838	\$ \$ 6,140	\$288,106	\$ 12,157	\$ 382,435

- (1) Aggregate long-term debt instruments are reflected in the Consolidated Balance Sheet as of March 31, 2004. Long-term debt includes capital lease obligations, which were not material and, therefore, did not warrant separate disclosure. See Note 10 to the Consolidated Financial Statements for more information regarding long-term debt instruments.
- (2) The Company s operating leases include approximately \$55 million in fleet vehicles under long-term operating leases. The Company guarantees a residual value of \$13.8 million related to its leased vehicles.
- (3) The Company participates in a securitization agreement with two commercial banks to sell up to \$175 million of qualifying trade receivables. The agreement expires in December 2005, but the term is subject to renewal provisions contained in the agreement. Under the securitization agreement, on a monthly basis, eligible trade receivables are sold to two commercial banks through a bankruptcy-remote special purpose entity. Proceeds received from the sale of receivables were used by the Company to reduce its borrowings on its revolving credit facilities. The securitization agreement is a form of off-balance sheet financing. Also see Note 13 to the Consolidated Financial Statements.
- (4) Letters of credit are guarantees of payment to third parties. The Company s letters of credit principally back obligations associated with the Company s self-insured retention on workers compensation, automobile and general liability claims and acquisition notes. The letters of credit are supported by the Company s revolving

Table of Contents

(5) In connection with the Air Products acquisition, the Company entered into a 15-year take-or-pay supply agreement, expiring September 1, 2017, under which Air Products will supply at least 35% of the Company s bulk liquid nitrogen, oxygen and argon requirements, exclusive of the volumes purchased under the new BOC supply agreement noted below. Additionally, the Company has commitments to purchase helium under the terms of the supply agreement. Based on the volume of fiscal 2004 purchases, the Air Products supply agreement represents approximately \$42 million in annual liquid bulk gas purchases. The purchase commitments for future periods contained in the table above reflect estimates based on fiscal 2004 purchases.

In December 2002, the Company entered into a 3-year take-or-pay supply agreement with BOC to purchase liquid nitrogen, oxygen and argon. Under the BOC supply agreement, BOC reserves specified production volumes at certain plants and the Company has agreed to purchase at least 75% of those volumes. Purchases under the existing BOC supply agreement are anticipated to be approximately \$10 million annually. The BOC supply agreement will be replaced with a new BOC supply agreement upon closing of the acquisition of the BOC packaged gas business.

Both the Air Products and BOC supply agreements contain market pricing subject to certain economic indices and market analysis. The Company believes the minimum product purchases under the agreements are well within the Company s normal product purchases. Actual purchases in future periods under the supply agreements could differ materially from those presented in the table due to fluctuations in demand requirements related to varying sales levels as well as changes in economic conditions.

- (6) The Company is a party to long-term take-or-pay supply agreements for the purchase of liquid carbon dioxide. The aggregate obligations under the supply agreements represent approximately 20% of the Company s annual carbon dioxide requirements. The purchase commitments for future periods contained in the table above reflect estimates based on fiscal 2004 purchases. The Company believes the minimum product purchases under the Agreements are within the Company s normal product purchases. Actual purchases in future periods under the carbon dioxide supply agreements could differ materially from those presented in the table due to fluctuations in demand requirements related to varying sales levels as well as changes in economic conditions. Certain of the liquid carbon dioxide supply agreements contain market pricing subject to certain economic indices.
- (7) Other purchase commitments primarily include property, plant and equipment expenditures.

New Accounting Pronouncements

There were no new accounting pronouncements that have been issued and not adopted as of the date of this Annual Report on Form 10-K.

Forward-looking Statements

This report contains statements that are forward looking within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements regarding: management s belief that the Company is well positioned to take advantage of a rebounding industrial economy; the closing of the BOC acquisition on July 30, 2004; the process of integrating the BOC acquisition providing both challenges and opportunities; the components of the BOC business and the revenues to be acquired; the Company s belief that the economic recovery will continue during fiscal 2005; the Company s estimate of fiscal 2005 net earnings of \$1.21 to \$1.27 per diluted share, including \$0.02 per diluted share of

34

Table of Contents

accretion from the BOC acquisition; the Company s estimate that net earnings in the fiscal 2005 first quarter will be \$0.27 to \$0.31 per diluted share; the success of strategic sales initiatives as platforms for sales growth and market penetration in the industries served by the Company; the ability to grow sales through the strategy of focusing on opportunities in niche markets; the success of focusing on products and markets that will grow at a faster rate than the overall economy; the Company s belief that, if a contractual arrangement with any supplier of gases, raw materials or hardgoods was terminated, it would be able to locate alternative sources of supply without disruption of service; the Compnay s beleif that the minimum product purchases under its liquid bulk gas and carbon dioxide supply agreements are well with in the Company s normal product purchases; the Company s estimate that for every 25 basis point increase in LIBOR, annual interest expense will increase approximately \$900 thousand; the Company s expectation that the weighted average number of shares outstanding will increase 2% to 3% per year; the Company s estimate that fiscal 2005 capital spending will be in the range of \$115 million to \$130 million; the identification of acquisition candidates; the funding of capital expenditures, current debt maturities and any future acquisitions through the use of cash flow from operations, revolving credit facilities and other financing alternatives; the ability of the Company to arrange additional sources of financing for unanticipated requirements; the future payment of dividends; the Company s ability to refinance the term loan and grantor trust debt with borrowings under its long-term revolving credit facilities; the ability to contain costs and/or pass-on cost increases to customers in an inflationary environment; the Company s estimates of purchase commitments associated with product supply agreements; the Company s belief that the minimum product purchases under product supply agreements are well within the Company s normal product purchases; and the performance of counterparties under interest rate swap agreements.

These forward-looking statements involve risks and uncertainties. Factors that could cause actual results to differ materially from those predicted in any forward-looking statement include, but are not limited to: adverse customer response to the Company s strategic sales initiatives and resulting inability to drive sales growth and market penetration; the Company s inability to identify niche products and services that will grow at a faster rate than the overall economy; the inability to obtain alternative supply sources to adequately meet customer demand; the inability to take delivery of minimum product purchases under the liquid bulk gas and liquid carbon dioxide supply agreements; the Company s inability to control operating expenses and the potential impact of higher operating expenses in future periods; adverse changes in customer buying patterns; an economic downturn (including adverse changes in the specific markets for the Company s products); higher than estimated interest expense resulting from increases in LIBOR and/or changes in the Company s credit rating; disruption to the Company s business from integration problems associated with acquisitions; the failure to close the BOC acquisition by July 30, 2004; higher or lower capital spending in fiscal 2005 than that estimated by the Company; a lack of available cash flow necessary to pay future dividends; higher levels of options exercised or shares purchased under the employee stock purchase programs and their effect on weighted average shares outstanding; actual earnings in the first quarter of fiscal 2005 and/or in fiscal 2005 falling outside the Company s range of estimates; the inability of the Company to increase sales despite a rebound in the economy; the inability to generate sufficient cash flow from operations or other sources to fund future acquisitions, capital expenditures, current debt maturities and to reduce debt; the inability to identify and successfully integrate acquisition candidates; defaults by counterparties under interest rate swap agreements; changes in the Company s debt levels and/or credit rating which prevent the Company from arranging additional financing; the inability to manage interest rate exposure; the effects of competition from independent distributors and vertically integrated gas producers on products, pricing and sales growth; changes in product prices from gas producers and name-brand manufacturers and suppliers of hardgoods; the inability to pass-on cost increases to customers; uncertainties regarding accidents or litigation which may arise in the ordinary course of business; and the effects of, and changes in, the economy, monetary and fiscal policies, laws and regulations, inflation and monetary fluctuations and fluctuations in interest rates, both on a national and international basis. The Company does not undertake to update any forward-looking statement made herein or that may be made from time to time by or on behalf of the Company.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

The Company manages its exposure to changes in market interest rates. The interest rate exposure arises primarily from the interest payment terms of the Company's borrowing agreements. Interest rate swap agreements are used to adjust the interest rate risk exposures that are inherent in its portfolio of funding sources. The Company has not, and will not establish any interest risk positions for purposes other than managing the risk associated with its portfolio of funding sources. The Company maintains the ratio of fixed to variable rate debt within parameters established by management under policies approved by the Board of Directors. Including the effect of interest rate swap agreements on the Company's debt and off-balance sheet financing agreements, the Company's ratio of fixed to variable rate debt was 57% to 43% at March 31, 2004. The ratio includes the effect of the fixed to variable rate debt of National Welders. Counterparties to interest rate swap agreements are major financial institutions. The Company has established counterparty credit guidelines and only enters into transactions with financial institutions with long-term credit ratings of A or better. In addition, the Company monitors its position and the credit ratings of its counterparties, thereby minimizing the risk of non-performance by the counterparties.

The table below summarizes the Company s market risks associated with long-term debt obligations, interest rate swaps and LIBOR-based agreements as of March 31, 2004. For long-term debt obligations, the table presents cash flows related to payments of principal and interest by fiscal year of maturity. For interest rate swaps and LIBOR-based agreements, the table presents the notional amounts underlying the agreements by year of maturity. The notional amounts are used to calculate contractual payments to be exchanged and are not actually paid or received. Fair values were computed using market quotes, if available, or based on discounted cash flows using market interest rates as of the end of the period.

- (a) The variable rate of U.S. revolving credit facilities and term loan is based on LIBOR as of March 31, 2004. The variable rate of the Canadian dollar portion of the revolving credit facilities is the rate on Canadian Bankers acceptances as of March 31, 2004.
- (b) The Grantor Trust debt will mature on October 8, 2004. The Company intends to refinance the Grantor Trust debt with its revolving credit facility.
- (c) The agreement expires in December 2005, but is subject to renewal provisions contained in the agreement. *Limitations of the tabular presentation*

As the table incorporates only those interest rate risk exposures that exist as of March 31, 2004, it does not consider those exposures or positions that could arise after that date. In addition, actual cash flows of financial instruments in future periods may differ materially from prospective cash flows presented in the table due to future fluctuations in variable interest rates, debt levels and the Company s credit rating.

Foreign Currency Rate Risk

Canadian subsidiaries of the Company are funded with local currency debt. The Company does not otherwise hedge its exposure to translation gains and losses relating to foreign currency net asset exposures. The Company considers its exposure to foreign currency exchange fluctuations to be immaterial to its consolidated financial position and results of operations.

38

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The consolidated financial statements, supplementary information and financial statement schedule of the Company are set forth at pages F-1 to F-54 of the report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company s Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company s disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of March 31, 2004. Based on that evaluation, the Company s Chief Executive Officer and Chief Financial Officer have concluded that as of such date, the Company s disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported in the periods specified in the Securities and Exchange Commission s rules and forms.

(b) Changes in Internal Controls

There were no changes in the Company s internal control over financial reporting that occurred during the fiscal quarter ended March 31, 2004 that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE COMPANY.

The biographical information of the Company s directors appearing in the Proxy Statement relating to the Company s 2004 Annual Meeting of Stockholders is incorporated herein by reference. Biographical information relating to the Company s executive officers set forth in Item 1 of Part I of this Form 10-K Report is incorporated herein by reference.

ITEM 11. EXECUTIVE COMPENSATION.

The information under Board of Directors and Committees, Executive Compensation and Certain Transactions appearing in the Proxy Statement relating to the Company s 2004 Annual Meeting of Stockholders is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.

The information required by this Item is set forth in the sections headed Security Ownership and Equity Compensation Plan Information under Executive Compensation appearing in the Company s Proxy Statement relating to the Company s 2004 Annual Meeting of Stockholders and such information is incorporated herein by reference.

39

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

The information required by this Item is set forth in the Proxy Statement under the section Certain Relationships and Related Transactions and such information is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANTS FEES AND SERVICES.

The information required by this Item is set forth in the Proxy Statement under the section Proposal to Ratify Accountants and such information is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES, AND REPORTS ON FORM 8-K.

(a)(1) and (2):

The response to this portion of Item 15 is submitted as a separate section of this report beginning on page F-1. All other schedules have been omitted as inapplicable, or not required, or because the required information is included in the Consolidated Financial Statements or notes thereto.

(a)(3) Exhibits.

The exhibits required to be filed as part of this annual report on Form 10-K are listed in the attached Index to Exhibits.

(b) Reports on Form 8-K.

During the fourth quarter ended March 31, 2004, the following Form 8-K reports were filed or furnished by the Company:

On January 27, 2004, the Company filed a current report on Form 8-K pursuant to Items 5 and 7 announcing that it signed a non-binding letter of intent to acquire most of the assets of the U.S. packaged gas business of The BOC Group, Inc. in a transaction valued up to \$200 million.

On January 29, 2004, the Company furnished a current report on Form 8-K dated January 28, 2004 pursuant to Items 7 and 12 reporting its earnings for its third quarter and nine months ended December 31, 2003.

On March 4, 2004, the Company filed a current report on Form 8-K dated March 2, 2004 pursuant to Items 5 and 7 announcing its intent to commence an offering of \$150 million of a new series of senior subordinated notes due 2014.

On March 4, 2004, the Company filed a current report on Form 8-K dated March 3, 2004 pursuant to Items 5 and 7 announcing that it priced and will sell \$150 million of its 6.25% senior subordinated notes due 2014.

40

(c) Index to Exhibits and Exhibits filed as a part of this report.

Exhibit No.	Description
3.1	Amended and Restated Certificate of Incorporation of Airgas, Inc. dated as of August 7, 1995. (Incorporated by reference to Exhibit 3.1 to the Company s September 30, 1995 Quarterly Report on Form 10-Q).
3.2	Airgas, Inc. By-Laws Amended and Restated through August 2, 1999. (Incorporated by reference to Exhibit 3 to the Company s September 30, 1999 Quarterly Report on Form 10-Q).
4.1	Tenth Amended and Restated Credit Agreement dated as of July 30, 2001 among Airgas, Inc., Airgas Canada, Inc., Red-D-Arc Limited, Bank of America, N.A. as U.S. Agent and Canadian Imperial Bank of Commerce as Canadian Agent. (Incorporated by reference to Exhibit 4.1 to the Company s June 30, 2001 Quarterly Report on Form 10-Q).
4.2	First Amendment, dated December 31, 2001, to the Tenth Amended and Restated Credit Agreement dated as of July 30, 2001 among Airgas, Inc., Airgas Canada, Inc., Red-D-Arc Limited, Bank of America, N.A. as U.S. Agent and Canadian Imperial Bank of Commerce as Canadian Agent. (Incorporated by reference to Exhibit 4.1 to the Company s December 31, 2001 Quarterly Report on Form 10-Q).
4.3	Second Amendment, dated August 20, 2002, to the Tenth Amended and Restated Credit Agreement dated as of July 30, 2001 among Airgas, Inc., Airgas Canada, Inc., Red-D-Arc Limited, Bank of America, N.A. as U.S. Agent and Canadian Imperial Bank of Commerce as Canadian Agent. (Incorporated by reference to Exhibit 4.3 to the Company s March 31, 2003 Report on Form 10-K).
4.4	Third Amendment, dated May 2, 2003, to the Tenth Amended and Restated Credit Agreement dated as of July 30, 2001 among Airgas, Inc., Airgas Canada, Inc., Red-D-Arc Limited, Bank of America, N.A. as U.S. Agent and Canadian Imperial Bank of Commerce as Canadian Agent. (Incorporated by reference to Exhibit 4.4 to the Company s March 31, 2003 Report on Form 10-K).
4.5	Fourth Amendment, dated February 6, 2004, to the Tenth Amended and Restated Credit Agreement dated as of July 30, 2001 among Airgas, Inc., Airgas Canada, Inc., Red-D-Arc Limited, Bank of America, N.A. as U.S. Agent and Canadian Imperial Bank of Commerce as Canadian Agent. (Incorporated by reference to Exhibit 4 to the Company s December 31, 2003 Quarterly Report on Form 10-Q).
4.6	Indenture dated as of August 1, 1996 of Airgas, Inc. to Bank of New York, Trustee. (Incorporated by reference to Exhibit 4.5 to the Company s Registration Statement on Form S-4 No. 333-23651 dated March 20, 1997).
4.7	Form of Airgas, Inc. Medium-Term Note (Fixed Rate). (Incorporated by reference to Exhibit 4.6 to the Company s Registration Statement on Form S-4 No. 333-23651 dated March 20, 1997).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders Airgas, Inc.:

We have audited the consolidated financial statements of Airgas, Inc. and subsidiaries as listed in the accompanying index. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as listed in the accompanying index. These consolidated financial statements and financial statement schedule are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Airgas, Inc. and subsidiaries as of March 31, 2004 and 2003, and the results of their operations and their cash flows for each of the years in the three-year period ended March 31, 2004, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

As discussed in Note 2 to the consolidated financial statements, the Company changed its method of accounting for goodwill and other intangible assets and derivative instruments and hedging activities effective April 1, 2001 and its method of accounting for variable interest entities effective December 31, 2003.

STATEMENT OF MANAGEMENT S FINANCIAL RESPONSIBILITY

Management has prepared and is responsible for the integrity and objectivity of the consolidated financial statements and related financial information in this Annual Report on Form 10-K. The statements are prepared in conformity with accounting principles generally accepted in the United States of America. The financial statements reflect management s informed judgment and estimation as to the effect of events and transactions that are accounted for or disclosed.

Management maintains a system of internal control, which includes disclosure controls and procedures, at each business unit. This system is designed to provide reasonable assurance that assets are safeguarded, records properly reflect transactions executed in accordance with management s authorization, and material information related to the Company is made known to management and disclosed in the Consolidated Financial Statements. Management has evaluated the effectiveness of the Company s disclosure controls as of March 31, 2004. Based on that evaluation, management has concluded that the Company s disclosure controls and procedures are effective and ensure that material information is recorded, processed, summarized and reported as required by accounting principles generally accepted in the United States of America.

The Company also maintains a staff of internal auditors who review and evaluate the system of internal control on a continual basis. In determining the extent of the system of internal control, management recognizes that the cost should not exceed the benefits derived. The evaluation of these factors requires estimates and judgment by management.

The Company s financial statements have been audited by KPMG LLP, an Independent Registered Public Accounting Firm. Their Independent Registered Public Accounting Firm Report, which is based on an audit made in accordance with auditing standards generally accepted in the United States of America, is presented on the previous page. In performing their audit, KPMG LLP considers the Company s internal control structure to the extent they deem necessary in order to plan their audit, determine the nature, timing and extent of tests to be performed and issue their report on the consolidated financial statements.

The Audit Committee of the Board of Directors, consisting solely of independent Directors, meets regularly (jointly and separately) with the independent auditors, the internal auditors and management to satisfy itself that they are properly discharging their responsibilities. The auditors have direct access to the Audit Committee.

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Description of the Business

Airgas, Inc. and subsidiaries (the Company) is the largest U.S. distributor of industrial, medical and specialty gases (delivered in packaged or cylinder form), process chemicals, and welding, safety and related products (hardgoods). The Company also produces dry ice, liquid carbon dioxide, nitrous oxide and specialty gases for distribution throughout the United States. The Company was founded in 1982 and became publicly traded on the New York Stock Exchange in 1986.

(b) Basis of Presentation

The consolidated financial statements include the accounts of Airgas, Inc. and subsidiaries, as well as the Company s consolidated affiliate, National Welders (see notes 2 and 16). Unconsolidated affiliates are accounted for on the equity method and generally consist of 50% owned operations. Intercompany accounts and transactions, including those between the Company and National Welders, are eliminated in consolidation.

The Company has made estimates and assumptions relating to the reporting of assets and liabilities and disclosure of contingent assets and liabilities to prepare these statements in conformity with accounting principles generally accepted in the United States of America. Estimates are used for, but not limited to, determining the net carrying value of trade receivables, inventories, plant and equipment, goodwill, other intangible assets and loss contingencies. Actual results could differ from those estimates.

(c) Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out (FIFO) method for approximately 85% and 90% of the inventories at March 31, 2004 and 2003, respectively. Cost for the remainder of inventories is determined using the last-in, first-out (LIFO) method.

(d) Plant and Equipment

Plant and equipment are initially stated at cost. Depreciation is computed using the straight-line method based on the estimated useful lives of the related assets. The carrying values of long-lived assets, including plant and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the recorded value cannot be recovered from undiscounted future cash flows. When the book value of an asset exceeds associated expected future cash flows, it is considered to be impaired and is written down to fair value, which is determined based on either future cash flows or appraised values.

(e) Other Intangible Assets and Deferred Financing Costs

Costs and payments pursuant to non-competition arrangements entered into in connection with business acquisitions are amortized over the terms of the arrangements, which are principally over five years. The Company assesses the recoverability of non-competition arrangements by determining whether the amortization of the asset balance can be recovered through projected undiscounted future cash flows of the related business over its remaining life.

Financing costs related to the issuance of long-term debt are deferred and recognized in other long-term assets. Deferred financing costs are amortized as interest expense over the term of the related debt.

F-8

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Commitments and Contingencies

The Company s policy is to accrue estimated legal fees to defend the Company through the resolution of the outstanding litigation when probable and reasonably estimable. Liabilities for loss contingencies arising from claims, assessments, litigation and other sources are recorded when it is probable that a liability has been incurred and the amount of the claim, assessment or damages can be reasonably estimated.

The Company maintains business insurance programs with significant self-insured retention, which covers workers compensation, business automobile and general product liability claims. The Company accrues estimated losses using actuarial models and assumptions based on historical loss experience. The actuarial calculations used to estimate business insurance reserves are based on numerous assumptions, some of which are subjective. The Company will adjust its business insurance reserves, if necessary, in the event future loss experience differs from historical loss patterns.

The Company maintains a self-insured health benefits plan, which provides medical benefits to employees electing coverage under the plan. The Company maintains a reserve for incurred but not reported medical claims and claim development. The reserve is an estimate based on historical experience and other assumptions, some of which are subjective. The Company will adjust its self-insured medical benefits reserve as the Company s loss experience changes due to medical inflation, changes in the number of plan participants and an aging employee base.

(g) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized.

(h) Foreign Currency Translation

The functional currency of the Company s foreign operations is the applicable local currency. The translation of foreign currencies into U.S. dollars is performed for balance sheet accounts using current exchange rates in effect at the balance sheet date and for revenue and expense accounts using average exchange rates during each reporting period. The gains or losses resulting from such translations are included in stockholders equity as a component of Accumulated other comprehensive loss. Gains and losses arising from foreign currency transactions are reflected in the consolidated statements of earnings as incurred.

(i) Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of trade receivables. Concentrations of credit risk are limited due to the Company s large number of customers and their dispersion across many industries throughout North America. Credit terms granted to customers are generally net

30 days.

F-9

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Financial Instruments

In managing interest rate risk exposure, the Company enters into interest rate swap agreements. An interest rate swap is a contractual exchange of interest payments between two parties. A standard interest rate swap involves the payment of a fixed rate times a notional amount by one party in exchange for a floating rate times the same notional amount from another party. As interest rates change, the difference to be paid or received is accrued and recognized as interest expense over the life of the agreement. These instruments are not entered into for trading purposes and the Company has the ability and intent to hold these instruments to maturity. Counterparties to the Company s interest rate swap agreements are major financial institutions. With the adoption of the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Certain Hedging Activities, as amended by SFAS No. 137 and 138, in fiscal 2002 (see Note (2)), the Company recognizes interest rate swap agreements on the balance sheet at fair value. The interest rate swap agreements are marked to market with changes in fair value recognized in either other comprehensive income (loss) or in the carrying value of the hedged portions of the medium-term and senior subordinated debt notes.

The carrying amounts for trade receivables and accounts payable approximate fair value based on the short-term maturity of these financial instruments.

(k) Employee Benefits Trust

The Company established a trust (the Employee Benefits Trust) to fund future obligations of the Company s employee benefit and compensation plans. Shares are purchased by the Employee Benefits Trust from the Company at fair market value and are reflected as a reduction of stockholders equity in the Company s Consolidated Balance Sheets under the caption Employee benefits trust. Shares are transferred from the Employee Benefits Trust to fund compensation and employee benefit obligations based on the original cost of the shares to the trust. The satisfaction of compensation and employee benefit plan obligations is based on the fair value of shares transferred. Differences between the original cost of the shares to the Employee Benefits Trust and the fair market value of shares transferred is charged or credited to capital in excess of par value.

(1) Revenue Recognition

Revenue from sales of gases and hardgoods products is recognized when products are delivered to customers. Rental fees on cylinders, cryogenic liquid containers, bulk gas storage tanks and other equipment are recognized when earned. Under long-term lease agreements in which rental fees are collected in advance, revenues are deferred and recognized over the terms of the lease agreements.

(m) Cost of Products Sold

Cost of products sold for the Distribution segment principally consists of direct material costs and freight-in for bulk gas purchases and hardgoods (welding supplies and equipment, safety products and industrial tools and supplies). Maintenance costs associated with cylinders, cryogenic liquid containers and bulk tanks are also reflected in Cost of products sold.

Cost of products sold for All Other Operations, which produce much of the gas sold, consists of direct material costs, direct labor, manufacturing overhead, freight-in and internal transfer costs associated with the production of certain gas products, principally, dry ice, carbon dioxide, nitrous oxide, specialty gases, as well as the oxygen, nitrogen and argon sold by the Company s consolidated affiliate, National Welders.

F-10

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Selling, Distribution and Administrative Expenses

Selling, distribution and administrative expenses consist of labor and overhead associated with the purchasing, marketing and distribution of the Company s products, as well as costs associated with a variety of administrative functions such as legal, treasury, accounting and tax, and facility-related expenses.

(o) Depreciation

The Company recognizes depreciation expense on all its property, plant and equipment in the consolidated statement of earnings line item Depreciation.

(p) Shipping and Handling Fees and Distribution Costs

The Company recognizes delivery and freight charges to customers as elements of net sales. Costs of third-party freight are recognized as cost of products sold. The majority of the costs associated with the distribution of the Company s products, which include direct labor and overhead associated with filling, warehousing and delivery by Company vehicles, is reflected in selling, distribution and administrative expenses and were \$277 million, \$258 million and \$217 million for the fiscal years ended March 31, 2004, 2003 and 2002, respectively. The Company conducts multiple operations out of the same facilities and does not allocate facility-related expenses to each operational function. Accordingly, there is no facility-related expense in the distribution costs disclosed above. Depreciation expense associated with the Company s delivery fleet of \$4.3 million, \$4.5 million, and \$4.9 million was recognized in depreciation for the fiscal years ended March 31, 2004, 2003 and 2002, respectively.

(2) ACCOUNTING AND DISCLOSURE CHANGES

SFAS 132 (revised 2003)

In December 2003, the FASB issued SFAS No. 132 (revised 2003), *Employers Disclosures about Pensions and Other Postretirement Benefits*. This revised statement retains the disclosures required by the original SFAS No. 132, which standardized employers disclosures about pensions and other postretirement benefits, and requires additional disclosures concerning the economic resources and obligations related to pension plans and other postretirement benefits. This revised statement is effective for fiscal years ending after December 15, 2003. The Company adopted SFAS 132 in fiscal 2004, as required. Since the Company does not have any defined benefit plans, the adoption of SFAS 132 did not impact the Company s benefit plan disclosures.

SFAS 133

On April 1, 2001, the Company adopted SFAS No. 133, *Accounting for Derivative Instruments and Certain Hedging Activities*, as amended by SFAS No. 137 and 138, (SFAS 133) which requires all derivatives to be recorded on the balance sheet at fair value. In accordance with the transition provisions of SFAS 133, on April 1, 2001, the Company recorded the cumulative effect of this accounting change as a liability and a deferred loss of \$6.7 million in the accumulated other comprehensive loss component of stockholders—equity to recognize, at fair value, interest rate swap agreements that are designated as cash flow hedging instruments. Additionally, the Company recorded an asset and adjusted the carrying value of the hedged portion of its fixed rate debt by \$6 million to recognize, at fair value,

interest rate swap agreements that are designated as fair value hedging instruments.

Table of Contents

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(2) ACCOUNTING AND DISCLOSURE CHANGES (Continued)

SFAS 141

Effective July 1, 2001, the Company adopted SFAS No. 141, *Business Combinations*. SFAS 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. The adoption of SFAS 141 did not have an impact on the historical results of operations, financial position or liquidity of the Company.

SFAS 142

In July 2001, the FASB issued SFAS No. 142, *Goodwill and Other Intangible Assets*. As permitted under the Statement, the Company adopted SFAS 142 effective April 1, 2001. SFAS 142 requires goodwill and intangible assets with indefinite useful lives to no longer be amortized, but instead be tested for impairment at least annually. Upon adoption of SFAS 142, the Company performed an evaluation of goodwill, which indicated that goodwill recorded in the Distribution segment associated with its industrial tool reporting unit was impaired as of April 1, 2001. Accordingly, the Company recognized a \$59 million non-cash charge, recorded as of April 1, 2001, as the cumulative effect of a change in accounting principle for the write-down of goodwill to its fair value. The impaired goodwill was not deductible for taxes, and as a result, no tax benefit was recorded in relation to the charge.

With the adoption of SFAS 142, the Company reassessed the useful lives and residual values of all acquired intangible assets to make any necessary amortization period adjustments. Based on that assessment, no adjustments were made to the amortization period or residual values of other intangible assets.

SFAS 142 also requires goodwill to be tested annually and between annual tests if events occur or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. The Company has elected to perform its annual tests for indications of goodwill impairment as of October 31 of each year. As of October 31, 2003 and 2002, the Company s annual assessment of each of its reporting units indicated that goodwill was not impaired.

SFAS 143

In July 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. SFAS 143 requires the recognition of a liability for an asset retirement obligation in the period in which it is incurred. A retirement obligation is defined as one in which a legal obligation exists in the future resulting from existing laws, statutes or contracts. The Company adopted SFAS 143 on April 1, 2003, as required. The adoption of SFAS 143 did not have a material impact on its results of operations, financial position or liquidity.

SFAS 144

On April 1, 2002, the Company adopted SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, as required. SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets, including discontinued operations. The adoption of SFAS 144 did not have a material impact on the Company s consolidated financial position, results of operations or liquidity.

F-12

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(2) ACCOUNTING AND DISCLOSURE CHANGES (Continued)

SFAS 146

On January 1, 2003, the Company adopted SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, as required, which is effective for exit or disposal activities initiated after December 31, 2002. SFAS 146 nullifies Emerging Issues Task Force (EITF) Issue No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*. SFAS 146 addresses financial accounting and reporting for costs associated with exit or disposal activities, including restructuring activities. The Statement requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred as opposed to at the time the Company commits to an exit plan as previously permitted under EITF 94-3. The adoption of SFAS 146 did not have a material impact on the Company s consolidated financial position, results of operations or liquidity.

SFAS 148

In December 2002, the FASB issued SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*. Based on the Statement's effective date of fiscal years ending after December 31, 2002, the Company adopted the provisions of SFAS 148 in fiscal 2003. SFAS 148 amends SFAS 123, *Accounting for Stock-Based Compensation*, to provide alternative methods of transition for an entity that voluntarily changes to the fair value basis of accounting for stock-based employee compensation. The Statement also amends the disclosure provisions of SFAS 123 to require prominent disclosure about the effects on reported net income of an entity's accounting policy decisions with respect to stock-based employee compensation. The Company has elected to continue to account for its stock-based compensation plans using the intrinsic value method of accounting as permitted by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, but has adopted the disclosure requirements of SFAS 148 (see Note 15).

SFAS 149

In April 2003, the FASB issued SFAS No. 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*. SFAS 149 amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*. SFAS 149 requires, among other things, that contracts with comparable characteristics be accounted for similarly and clarifies the circumstances under which a contract with an initial net investment meets the characteristic of a derivative and when a derivative contains a financing component that warrants special reporting in the statement of cash flows. The Company adopted SFAS 149 on July 1, 2003, as required. The adoption of SFAS 149 did not have a material impact on its results of operations, financial position or liquidity.

SFAS 150

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. SFAS 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity in the statement of financial position. SFAS 150 requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those financial instruments were previously classified as equity. The Company adopted

SFAS 150 on July 1, 2003, as required. The adoption of SFAS 150 did not have a material impact on its results of operations, financial position or liquidity.

F-13

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(2) ACCOUNTING AND DISCLOSURE CHANGES (Continued)

FASB Financial Interpretation No. 45

In November 2002, the FASB issued Financial Interpretation No. 45, *Guarantor s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, (FIN 45). FIN 45 elaborates on the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and measurement provisions of FIN 45 are applicable on a prospective basis to guarantees issued or modified after December 31, 2002.

Based on a review of the Company s material contracts and finance agreements, the only additional disclosure required by the interpretation relates to the Company s residual value guarantee associated with certain leased vehicles (see Note 21).

FASB Financial Interpretation No. 46

In January 2003, the FASB issued Financial Interpretation No. 46, *Consolidation of Variable Interest Entities*, (FIN 46). The interpretation was initially effective for the first interim period beginning after June 15, 2003. However, as a result of implementation issues, in December 2003, the FASB issued FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, (FIN 46R), which was effective as of the end of the first reporting period ending after March 15, 2004, with early adoption permitted.

FIN 46 and FIN 46R addresses consolidation by a business enterprise of variable interest entities. Variable interest entities are defined as corporations, partnerships, trusts, or any other legal structure used for business purposes, and by design, the holders of equity instruments in those entities lack one of the characteristics of a financial controlling interest. FIN 46 and FIN 46R changes previous accounting practice by introducing the concept of a Primary Beneficiary and requires variable interest entities to be consolidated by the party deemed to be the Primary Beneficiary (i.e., the party that is subject to a majority of the risk of loss from the variable interest entity s activities or entitled to receive a majority of the entity s residual returns or both). Under previous accounting practice, entities generally were not consolidated unless the entity was controlled through voting interests.

Since October 1999, the Company has leased certain real estate and equipment from a grantor trust (the Trust) under a sale-leaseback arrangement. The Trust incurred debt to purchase the properties and equipment from the Company. The Company, in turn, paid rent to the Trust. The rental payments to the Trust were based on LIBOR plus an applicable margin and matched the debt service requirements for the debt held by the Trust. The Trust was not consolidated for financial reporting purposes and the non-cancelable lease obligation of the real estate and equipment leases totaled approximately \$41 million at March 31, 2003.

Effective July 1, 2003, the Company elected to early adopt FIN 46 with respect to the Trust. The Company determined the Trust to be a variable interest entity as defined by FIN 46. In addition, the Company was determined to be the primary beneficiary of the sale-leaseback arrangement. FIN 46 required the Company to consolidate the Trust for financial reporting purposes. Upon consolidation, the Company recorded on its balance sheet approximately \$29 million of real estate and equipment and debt of \$42 million, while eliminating a long-term deferred gain of \$13 million. The consolidation of the Trust resulted in the Company recognizing \$1 million in interest expense and

\$1 million in depreciation expense in the nine months ended March 31, 2004, which had previously been recognized as rent expense to the Trust. The debt of the grantor trust matures in October 2004 and is classified as long-term based upon the Company s ability and intention to refinance it with borrowings under its long-term credit facilities.

F-14

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(2) ACCOUNTING AND DISCLOSURE CHANGES (Continued)

Since June 1996, the Company has participated in a joint venture with National Welders Supply Company, Inc. (National Welders), a producer and distributor of industrial gases based in Charlotte, North Carolina. The Company determined that National Welders meets the definition of a Variable Interest Entity under FIN 46R and that the Company is the Primary Beneficiary of the joint venture. Therefore, effective December 31, 2003, the Company elected to adopt FIN 46R, as it applies to the joint venture, and consolidated National Welders. As permitted by FIN 46R, the Company applied the interpretation prospectively from the date of adoption. Therefore, at December 31, 2003, the consolidation of National Welders only affected the balance sheet. There was no cumulative effect adjustment or impact on cash flows as a result of the consolidation. The consolidation had the effect of eliminating the Company s \$62 million investment in National Welders and recording the joint venture s assets, liabilities and a corresponding minority interest liability. The assets and liabilities of National Welders included goodwill of \$56 million and debt of \$62 million, which is non-recourse to the Company.

Beginning January 1, 2004, National Welders operating results were no longer reflected as Equity in Earnings of Unconsolidated Affiliates. Rather, the operating results were reflected broadly across the income statement with minority interest expense representing the quarterly dividend on the joint venture s redeemable preferred stock, net of interest earned on a note receivable from the preferred stockholders. The joint venture is structured such that the Company earns the residual net income available to the common stockholder, which is net of the minority interest expense. Since the allocation of the joint venture s net earnings was unaffected by the adoption of FIN 46R, the consolidation of National Welders did not impact the Company s net earnings. See Note 16 for additional disclosures regarding National Welders.

(3) ACQUISITIONS AND DIVESTITURES

(a) Acquisitions

Acquisitions have been recorded using the purchase method of accounting and, accordingly, results of their operations have been included in the Company s consolidated financial statements since the effective date of each respective acquisition. The purchase price for business acquisitions was allocated to the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition. Such allocations were based on preliminary estimates of fair value at the date of acquisition, which may be revised at a later date.

Fiscal 2004

During fiscal 2004, the Company purchased five businesses associated with the distribution of packaged gases and related hardgoods products and dry ice. The largest of these businesses and their effective dates of acquisition included Delta Safety Supply, Inc. (May 1, 2003) and Interstate Welding Sales Corporation (March 31, 2004). The aggregate purchase price of the fiscal 2004 acquisitions was \$41 million, including assumed liabilities. Four of the businesses had aggregate annual revenues of approximately \$57 million and were included in the Distribution segment. One acquired dry ice distribution business generated annual revenues of approximately \$2 million and was included in All Other Operations. The Company negotiated the respective purchase prices of the businesses based on the expected cash flows to be derived from their operations after integration into the Company s existing distribution network. The Company acquired the businesses to expand its geographic coverage and strengthen its national network of branch store locations. Total assets contributed by fiscal 2004 acquisitions were approximately \$41 million. The excess of the purchase price of acquired businesses over the net assets acquired (goodwill) related to fiscal 2004

acquisitions amounted to approximately \$10 million. Intangible assets, other than goodwill, totaled approximately \$5 million and primarily related to customer lists and non-compete agreements obtained from the sellers of the businesses.

F-15

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(3) ACQUISITIONS AND DIVESTITURES (Continued)

For the fiscal 2004 acquisitions, additional work related to the performance of asset appraisals needs to be completed to finalize the allocation of the purchase price to net assets, identified intangibles and goodwill acquired. The entire purchase price ultimately assigned to goodwill will be deductible for income taxes. The Company does not expect the final allocation of the purchase price to differ materially from the amounts included in the accompanying consolidated financial statements.

Fiscal 2003

During fiscal 2003, the Company purchased four businesses that distribute packaged gases and related equipment and hardgoods products with combined annual revenues of \$33 million. The largest of these businesses and their effective dates of acquisition included Welding Metals, Inc. (November 27, 2002) and Union Industrial Gas and Supply, Inc. (March 31, 2003). The aggregate purchase price of all four acquisitions was \$23.8 million, including assumed liabilities. The acquired businesses have been included in the Distribution segment from their effective dates of acquisition. Goodwill related to fiscal 2003 acquisitions totaled approximately \$6.4 million and was deductible for income taxes.

Fiscal 2002

On February 28, 2002, the Company purchased the majority of Air Products and Chemicals, Inc. s (Air Products) U.S. packaged gas business, excluding its electronic gases and magnetic resonance imaging-related helium operations, for cash of approximately \$247 million, including transaction costs. The transaction was financed entirely with senior bank debt. The acquisition included 88 facilities in 30 states associated with the filling and distribution of cylinders, liquid dewars, tube trailers, and other containers of industrial gases and non-electronic specialty gases, and the selling of welding hardgoods, including customer service centers, warehouses, and other related assets. The Company acquired the business based on its strategic fit with the Company s existing packaged gas distribution business and to strengthen its national network by giving it a presence in important geographies. Additionally, the acquisition strengthened the core competencies of the Company s specialty gas operations, enabling it to enhance its competitiveness. These operations historically generated annual revenues of approximately \$220 million and had 1,100 employees. Air Products also sold its packaged gas operations in the Carolinas and southern Virginia to National Welders. Goodwill related to the Air Products acquisition amounted to approximately \$48 million, of which \$25.9 million was recognized in fiscal 2003. The fiscal 2003 increase in goodwill was the result of adjustments to the March 31, 2002 preliminary purchase price allocation. The revised purchase price allocation was based on estimates of fair values determined primarily through third party appraisals. Third party appraisals and cylinder and other fixed asset inventories related to the Air Products acquisition were finalized during fiscal 2003.

Additionally, in September 2001, the Company acquired six retail distributor locations from Air Liquide America Corporation (Air Liquide). The purchase price of \$11 million resulted in goodwill of approximately \$7 million. The goodwill associated with the Air Liquide transaction was entirely deductible for income taxes. These operations added annual revenues of approximately \$10 million.

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(3) ACQUISITIONS AND DIVESTITURES (Continued)

Pro Forma Operating Results

The following presents unaudited pro forma operating results as if the fiscal 2004, 2003 and 2002 acquisitions had occurred on April 1, 2001. The pro forma results were prepared from financial information obtained during the due diligence process associated with the acquisitions. Pro forma adjustments to the historic financial information of businesses acquired were limited to those related to the Company s stepped-up basis in acquired assets and adjustments to reflect the Company s borrowing and tax rates. The pro forma results have been prepared for comparative purposes only and do not purport to be indicative of what would have occurred had the acquisitions been made as of April 1, 2001 or of results that may occur in the future.

Unaudited Years Ended March 31,

(In thousands, except per share amounts)	2004	2003	2002
Net sales	\$1,941,977	\$1,876,779	\$1,939,383
Income before the cumulative effect of a change in			
accounting principle	80,195	69,612	53,916
Net earnings (loss)	80,195	69,612	(5,084)
Diluted earnings (loss) per share	\$ 1.07	\$ 0.96	\$ (0.07)

(b) Divestitures

In fiscal 2002, the carrying values of the net assets of Kendeco, Inc. (Kendeco), an industrial tool business in the Distribution operating segment, were reduced by \$3.6 million to their net realizable value based on the estimated selling price less cost to sell. The loss, reflected in Other income (expense), net, included the write-off of \$3.1 million of non-tax deductible goodwill. The Company completed the sale of Kendeco in May 2002 (fiscal 2003) and recognized a loss on the sale of \$1.7 million. Kendeco contributed sales of \$17.7 million and operating income of \$158 thousand in fiscal 2002. Kendeco s fiscal 2003 operating results were insignificant.

In fiscal 2000, the Company divested its investment in a Polish gas distributor. As part of the sale agreement, the Company made representations and warranties about the business being sold. Subsequently, the acquirer presented the Company with an indemnity claim as a breach of the representations and warranties provided for under the sale agreement. In fiscal 2002, the Company recorded a liability and related expense of \$1.9 million associated with the indemnity claim. In fiscal 2003, the Company favorably resolved the indemnity claim and reversed \$1.5 million of expense, net of legal fees paid, and the related liability. These items are reflected in Other income (expense), net in the respective fiscal years.

In October 2001, the Company sold two of its nitrous oxide production facilities to Air Liquide. The Company retained its remaining four nitrous oxide production facilities to meet its requirements as a major producer and distributor of nitrous oxide. After-tax proceeds from the sale of approximately \$10 million were used to reduce borrowings under the Company s revolving credit facilities. The Company recognized a gain on the transaction of \$7.4 million in Other income (expense), net in fiscal 2002. The nitrous oxide facilities were reflected in the operating

results of the All Other Operations segment. The divested operations generated sales of \$3.5 million and operating income of \$1.2 million in fiscal 2002.

F-17

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(4) SPECIAL CHARGES (RECOVERIES), NET

During the fourth quarter of fiscal 2004, the Company recorded a special charge recovery of \$776 thousand (the 2004 Special Recovery) consisting of lower estimates of the ultimate cost of prior years restructuring charges. The 2004 Special Recovery pertained to a change in estimate related to facility exit costs.

During fiscal 2003, the Company recorded a special charge of \$2.7 million (the 2003 Special Charge) consisting of a restructuring charge related to the integration of the business acquired from Air Products during the fourth quarter of fiscal 2002 and costs related to the consolidation of certain hardgoods procurement functions. The special charge included facility exit costs associated with the closure of certain facilities and severance. The facilities exited and the affected employees were part of the Company s existing operations prior to the acquisition of the Air Products business.

During fiscal 2002, the Company announced the transition of certain administrative functions to a financial shared services center. The Company recorded a special charge of approximately \$1 million (the 2002 Special Charge) for severance costs and costs related to exiting one facility associated with the fiscal 2003-2004 transition to the shared services center.

At March 31, 2004, 2003, and 2002, accrued liabilities associated with the special charges were as follows:

(In thousands)	Severance costs	Facility exit costs	Total
March 31, 2001 liability	\$ 2,727	\$2,430	\$ 5,157
2002 Special Charge	916	41	957
Cash payments	(2,162)	(289)	(2,451)
Change in estimate	(565)	(392)	(957)
March 31, 2002 liability	\$ 916	\$1,790	\$ 2,706
2003 Special Charge	1,326	1,368	2,694
Cash payments	(1,269)	(758)	(2,027)
March 31, 2003 liability	\$ 973	\$2,400	\$ 3,373
,		<u></u> -	<u> </u>
2004 Special Recovery		(776)	(776)
Cash payments	(973)	(621)	(1,594)
March 31, 2004 liability	\$	\$1,003	\$ 1,003

During fiscal 2002, the Company reduced its estimate related to severance and facility exit costs associated with a 2001 cost reduction plan by approximately \$1 million. The change in estimate was recorded as a recovery in fiscal 2002 through the Special charges (recoveries), net line in the Consolidated Statement of Earnings.

The remaining liability for facility exit costs at March 31, 2004 relates to non-cancelable lease obligations that will be reduced over future periods as lease payments are made over the remaining terms of the leases.

F-18

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(5) EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is calculated by dividing net earnings (loss) by the weighted average number of shares of the Company s common stock outstanding during the period. Outstanding shares consist of issued shares less treasury stock and common stock held by the Employee Benefits Trust. Diluted earnings (loss) per share is calculated by dividing net earnings (loss) by the weighted average common shares outstanding adjusted for the dilutive effect of common stock equivalents related to stock options and warrants.

The table below reconciles basic weighted average common shares outstanding to diluted weighted average common shares outstanding for the three years ended March 31, 2004, 2003 and 2002:

Years Ended March 31,

(In thousands)	2004	2003	2002
Weighted average common shares outstanding:			
Basic	72,800	70,500	68,100
Stock options and warrants	1,900	1,800	1,800
Diluted	74,700	72,300	69,900

Pursuant to a joint venture agreement between the Company and the holders of the preferred stock of National Welders, between June 30, 2006 and June 30, 2009, the preferred shareholders have the option to exchange their 3.2 million preferred shares of National Welders either for cash at a price of \$17.78 per share or to tender them to the joint venture in exchange for approximately 2.3 million shares of Airgas common stock (see Note 16). If Airgas common stock has a market value of \$24.45 per share, the stock and cash redemption options are equivalent. No contingently issuable shares are included in the diluted weighted average common shares calculation (the diluted computation), as the conversion of the National Welders preferred stock in exchange for the Company s common stock is anti-dilutive.

Outstanding stock options and warrants, with an exercise price above market, are excluded from the Company s diluted computation as their effect would be anti-dilutive. There were approximately 545 thousand, 2 million and 2.6 million outstanding stock options and warrants with an exercise price above the average market price at March 31, 2004, 2003, and 2002, respectively. If the average market value of the Company s common stock increases above the respective exercise prices of the options and warrants, they will be included in the diluted computation as common stock equivalents.

F-19

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(6) INVENTORIES, NET

Inventories, net, consist of:

March 31,

(In thousands)	2004	2003
Hardgoods	\$154,038	\$136,347
Gases	16,262	15,058
	\$170,300	\$151,405

Net inventories determined by the LIFO inventory method totaled \$26.8 million and \$15.7 million at March 31, 2004 and 2003, respectively. If the FIFO inventory method had been used for these inventories, they would have been \$3 million and \$1.4 million higher at March 31, 2004 and 2003, respectively. Substantially all of the inventories are finished goods. The increase in net inventories determined by the LIFO inventory method resulted from the consolidation of National Welders (see Notes 2 and 16).

(7) PLANT AND EQUIPMENT

The major classes of plant and equipment, at cost, are as follows:

March	31,
	,

(In thousands)	Depreciable Lives (Yrs)	2004	2003
Land and land improvements		\$ 61,072	\$ 35,929
Buildings and leasehold improvements	25	167,217	121,303

Other adjustments	1,314	108	1,422
Balance at March 31, 2004	\$372,563	\$131,644	\$504,207

Other intangible assets amounted to \$19.7 million (net of accumulated amortization of \$33.2 million) and \$19.8 million (net of accumulated amortization of \$27.8 million) at March 31, 2004 and 2003, respectively. These intangible assets primarily consist of non-compete agreements entered into in connection with business combinations and are amortized over the term of the agreements, principally five years. There are no expected residual values related to these intangible assets. Estimated future amortization expense by fiscal year is as follows: 2005 \$5.8 million; 2006 \$4.4 million; 2007 - \$3.2 million; 2008 \$2.4 million; 2009 \$1.1 million and \$2.8 million thereafter.

Revolving Credit Facilities

The Company has unsecured revolving credit facilities with a syndicate of lenders totaling \$367.5 million and \$50 million Canadian (US \$38.2 million). The revolving credit facilities will mature on July 30, 2006. At March 31, 2004, the Company had borrowings under the revolving facilities of approximately \$8 million and \$25 million Canadian (U.S. \$19 million). The Company also had commitments under letters of credit supported by the revolving credit facilities of approximately \$33 million at March 31, 2004. Based on restrictions related to certain leverage ratios, the Company had additional borrowing capacity under the revolving facilities of approximately \$225 million at March 31, 2004. The variable interest rates of the U.S. and Canadian revolving credit facilities are based on the London Interbank Offered Rate (LIBOR) and Canadian Bankers Acceptance Rates, respectively. At March 31, 2004, the effective interest rates on borrowings under the revolving facilities were 3.13% on U.S. borrowings and 4.44% on Canadian borrowings.

Borrowings under the revolving credit facilities are guaranteed by certain of the Company s domestic subsidiaries and Canadian borrowings are guaranteed by Canadian subsidiaries. The Company pledged 100% of the stock of its domestic guarantor subsidiaries and 65% of the stock of its foreign guarantor subsidiaries for the benefit of the syndicate of lenders. If the Company s credit rating is reduced, the Company will be required to grant a security interest in substantially all of the tangible and intangible assets of the Company for the benefit of the syndicate of lenders. The revolving credit facilities also contain covenants, which include the maintenance of certain leverage

ratios, a fixed charge ratio, and potential restrictions on certain additional borrowing, the amount of dividends declared and paid, and the repurchase of common stock.

In May 2003, the Company obtained an amendment to its credit agreement that allowed for the issuance of up to an additional \$200 million of senior public debt and for the expansion of its senior credit facilities by up to \$150 million (see *Senior Subordinated Notes* below). Subject to existing financial covenants, the amendment also provided the Company with additional flexibility to pay dividends, repurchase Company common stock and to invest in acquisitions.

In anticipation of the acquisition of assets from The BOC Group, Inc. (BOC) (see Note 26), the Company obtained an amendment to its credit agreement in February 2004 that, among other things, permits the Company to invest up to \$275 million in acquisitions during fiscal 2005.

F-22

Table of Contents

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(10) INDEBTEDNESS (Continued)

Term Loan

At March 31, 2004, the Company had an outstanding term loan with a principal balance of \$70 million bearing an effective interest rate of 3.11%. The term loan is due in quarterly installments with a final payment due July 30, 2006. The term loan is unsecured and bears a variable interest rate based on LIBOR plus a spread related to the Company s credit rating. Principal payments on the term loan are classified as Long-term Debt in the Company s Consolidated Balance Sheets based on the Company s ability and intention to refinance the payments with borrowings under its long-term revolving credit facilities.

Medium-Term Notes

At March 31, 2004, the Company had \$100 million of unsecured medium-term notes outstanding due September 2006 and bearing interest at a fixed rate of 7.75%. The medium-term notes are guaranteed by each of the domestic guarantors under the revolving credit facilities.

Acquisition and Other Notes

Acquisition and other notes principally consist of notes issued to sellers of businesses acquired and are repayable in periodic installments. At March 31, 2004, acquisition and other notes totaled \$8.5 million with interest rates ranging from 4% to 9%.

Senior Subordinated Notes

In March 2004, the Company issued \$150 million of senior subordinated notes (the 2004 Notes) with a maturity date of July 15, 2014. The 2004 Notes bear interest at a fixed annual rate of 6.25%, payable semi-annually on January 15 and July 15 of each year. Proceeds from the issuance of the 2004 Notes were used to redeem \$75 million of medium-term notes due March 2004 and to pay down borrowings on the Company s U.S. revolving credit facility. The 2004 Notes were sold in accordance with the provisions of Rule 144A under the Securities Act of 1933 (the Securities Act). During fiscal 2005, the Company will exchange the 2004 Notes for substantially similar notes registered with the Securities and Exchange Commission in accordance with the Securities Act.

In addition to the 2004 Notes, at March 31, 2004, the Company had \$225 million of senior subordinated notes (the 2001 Notes) outstanding with a maturity date of October 1, 2011. The 2001 Notes bear interest at a fixed annual rate of 9.125%, payable semi-annually on April 1 and October 1 of each year.

The 2004 and 2001 Notes contain covenants that could restrict the payment of dividends, the repurchase of common stock, the issuance of preferred stock, and the incurrence of additional indebtedness and liens. The 2004 and 2001 Notes are guaranteed on a subordinated basis by each of the domestic guarantors under the revolving credit facilities.

F-23

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(10) INDEBTEDNESS (Continued)

Debt of Grantor Trust

Since October 1999, the Company has leased certain real estate and equipment from a grantor trust (the Trust) under a sale-leaseback arrangement. The Trust incurred debt to purchase the properties and equipment from the Company. The Company, in turn, paid rent to the Trust. The rental payments to the Trust were based on LIBOR plus an applicable margin and matched the debt service requirements for the debt held by the Trust. The Trust was not consolidated for financial reporting purposes and the non-cancelable lease obligation of the real estate and equipment leases totaled approximately \$41 million at March 31, 2003.

Effective July 1, 2003, the Company elected to early adopt FIN 46 with respect to the Trust (see Note 2). The Company determined the Trust to be a variable interest entity as defined by FIN 46. In addition, the Company was determined to be the primary beneficiary of the sale-leaseback arrangement. FIN 46 required the Company to consolidate the Trust for financial reporting purposes. Upon consolidation, the Company recorded on its balance sheet approximately \$29 million of real estate and equipment and debt of \$42 million, while eliminating a long-term deferred gain of \$13 million. The consolidation of the Trust resulted in the Company recognizing \$1 million in interest expense and \$1 million in depreciation expense in the nine months ended March 31, 2004, which had previously been recognized as rent expense to the Trust. The debt of the grantor trust matures in October 2004 and is classified as long-term based upon the Company s ability and intention to refinance it with borrowings under its long-term credit facilities.

Debt of the National Welders Joint Venture

Effective December 31, 2003, the Company adopted FIN 46R and consolidated its National Welders joint venture. In accordance with the requirements of FIN 46R, the Company s Consolidated Balance Sheet at March 31, 2004 includes the financial obligations of the National Welders joint venture. National Welders financial debt instruments are non-recourse to the Company, meaning that the creditors of National Welders do not have a claim on the assets of Airgas, Inc. in settlement of the joint venture s debt obligations. The debt of National Welders consists of:

March 31, 2004
\$ 5,507
42,142
6,174
53,823
(5,575)
\$48,248

In July 2002, National Welders entered into a Credit Agreement to provide for available credit of \$100 million secured by certain assets of National Welders. The credit agreement provides for a Term Loan A of \$26.2 million, a Term Loan B of \$21 million, a Term Loan C of \$8.8 million, and a revolving credit line of \$44 million. Term Loan A is repayable in monthly amounts of \$254 thousand through maturity in June 2007. The Term Loan B matures in July 2006. Amounts outstanding at March 31, 2004 under Term Loans A and B were \$21 million and \$21 million, respectively. There were no amounts borrowed or outstanding under Term Loan C at March 31, 2004. The revolving credit line matures in June 2006. Interest rates on the Credit Agreement are variable and range from LIBOR plus 150 to 225 basis points based on National Welders leverage ratio. The Credit Agreement contains certain covenants which, among other things, limit the

F-24

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(10) INDEBTEDNESS (Continued)

ability of National Welders to incur and guarantee new indebtedness, subject National Welders to minimum net worth requirements, and limit its capital expenditures, ownership changes, merger and acquisition activity, and the payment of dividends. In addition, the payment of dividends on National Welders common stock is further limited by the joint venture agreement. The payment of dividends on the common stock is subordinate to the payment of the 5% dividend on the preferred stock. Additionally, the common stock dividends must be declared by a vote of the joint venture s board of directors.

At March 31, 2004, the effective interest rate for the debt instruments covered under the Credit Agreement was 3.09%. Based on restrictions related to certain leverage ratios, National Welders had additional borrowing capacity under its Credit Agreement of \$47.3 million at March 31, 2004. Acquisition and other notes principally consisted of a note payable to a bank that is secured by a production facility and bears a fixed interest rate of 7%.

Aggregate Long-term Debt Maturities

The aggregate maturities of long-term debt are as follows:

Aggregate Maturity

Airgas, Inc.	National Welders	Total
\$ 565	\$ 5,575	\$ 6,140

(11) FAIR VALUE OF FINANCIAL INSTRUMENTS

Summarized below are the carrying and fair values of the Company s financial instruments at March 31, 2004 and 2003.

The fair value of the Company s publicly traded financial instruments is based on market pricing. The fair value of other non-publicly traded financial instruments is based on estimates using standard pricing models that take into account the present value of future cash flows as of the balance sheet date. The computation of fair values of these instruments is generally performed by the Company. The carrying amounts reported in the balance sheet for trade

receivables and payables, accrued liabilities, accrued income taxes, and short-term borrowings approximate fair value due to the short-term nature of these instruments. Accordingly, these items have been excluded from the table below:

F-25

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Interest rate swap agreement: - Cash flow hedge - liability	2,507	2,507

(12) DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company manages its exposure to changes in market interest rates. The Company s involvement with derivative instruments is limited to highly effective fixed and floating interest rate swap agreements used to manage well-defined interest rate risk exposures. Interest rate swap agreements are not entered into for trading purposes. As described in Note 2, the Company adopted SFAS 133 as of April 1, 2001.

At March 31, 2004, the Company had four fixed interest rate swap agreements with a notional amount of \$90 million that effectively convert a corresponding amount of variable interest rate debt of a consolidated grantor trust (see Note 10) and trade receivables securitization agreement (see Note 13). The swap agreements require the Company to make fixed interest payments based on an average effective rate of 4.55% and receive variable interest payments from its counterparties based on three-month LIBOR (average rate of 1.12% at March 31, 2004). The remaining terms of these swap agreements range from between four and nineteen months. In fiscal 2004 and 2003, the

Company recorded a net change in the fair value of the fixed interest rate swap agreements of \$2 million and \$565 thousand as accumulated other comprehensive income, respectively. The net additional interest payments made under these swap agreements during fiscal 2004 were recognized in interest expense. Over the next 12 months, the Company expects to reclassify \$1.9 million of the deferred loss from accumulated other comprehensive loss to interest expense as the related interest payments that are being hedged are recognized.

F-26

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(12) DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES (Continued)

At March 31, 2004, the Company also had four variable interest rate swap agreements with a notional amount of \$125 million that effectively converts a corresponding amount of fixed rate medium-term and senior subordinated notes to variable rate debt. The swap agreements require the Company to make variable interest payments based primarily on six-month LIBOR (average rate of 3.16% at March 31, 2004) and receive fixed interest payments from its counterparties based on an average effective rate of 8.36% at March 31, 2004. The remaining terms of these swap agreements range from between two and seven years. The fair value of these variable interest rate swap agreements and the increased carrying value of the hedged portions of the medium-term and senior subordinated notes at March 31, 2004 was \$13.8 million. The changes in the fair value of the swap agreements are offset by changes in the fair value of the hedged portions of the medium-term and senior subordinated notes.

The effect of these interest rate swap agreements was to adjust the Company s ratio of fixed to variable interest rates to 57% fixed and 43% variable and to reduce interest expense by approximately \$4.7 million and \$3.4 million in fiscal 2004 and 2003, respectively, and increase interest expense by \$2.9 million in fiscal 2002.

National Welders Hedging Activities

The Company s National Welders joint venture affiliate participates in one interest rate swap with a notional principal amount of \$21 million that effectively converts a corresponding amount of variable interest rate debt (Term Loan B see Note 10) to a fixed rate debt instrument. The interest rate swap requires National Welders to make interest payments based on a fixed rate of 6.72% and receivable variable interest payments from its counterparty based on a floating LIBOR rate of 1.09% at March 31, 2004. The interest rate swap agreement was not entered into for trading purposes. The consolidation of National Welders resulted in the addition of a cumulative unrealized loss on the National Welders interest rate swap of \$2.5 million and associated tax benefit of \$1 million in Accumulated Other Comprehensive Loss.

Aggregate Maturities of Interest Rate Swap Agreements

Including National Welders, the aggregate maturities of the Company s interest rate swap agreements by type of swap for the five years ending March 31, 2009 and thereafter are as follows:

National	Princinal	A mounts
NOLIOHA		Amounts

(In thousands) Years Ending March 31,	Pay-Fixed	Pay-Variable	
2005	\$ 40,000	\$	
2006	50,000		
2007	21,000	50,000	
2008	•	·	
2009			
Thereafter		75,000	
	\$111,000	\$125,000	

F-27

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(13) TRADE RECEIVABLES SECURITIZATION

The Company participates in a securitization agreement with two commercial banks to sell up to \$175 million of qualifying trade receivables. The agreement will expire in December 2005, but may be renewed subject to renewal provisions contained in the agreement. During fiscal 2004, the Company sold, net of its retained interest, \$1,696 million of trade receivables and remitted to bank conduits, pursuant to a servicing agreement, \$1,692 million in collections on those receivables. The net proceeds were used to reduce borrowings under the Company s revolving credit facilities. The amount of outstanding receivables under the agreement was \$162.6 million at March 31, 2004 and \$158.9 million at March 31, 2003.

The transaction has been accounted for as a sale under the provisions of SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. Under the securitization agreement, eligible trade receivables are sold to bank conduits through a bankruptcy-remote special purpose entity, which is consolidated for financial reporting purposes. The difference between the proceeds from the sale and the carrying value of the receivables is recognized as Discount on securitization of trade receivables in the accompanying Consolidated Statements of Earnings and varies on a monthly basis depending on the amount of receivables sold and market rates. The Company retains a subordinated interest in the receivables sold, which is recorded at the receivables previous carrying value. A subordinated retained interest of approximately \$44 million and \$45 million is included in Trade receivables in the accompanying Consolidated Balance Sheets at March 31, 2004 and 2003, respectively. The Company s retained interest is generally collected within 60 days. On a monthly basis, management measures the fair value of the retained interest at management s best estimate of the undiscounted expected future cash collections on the transferred receivables. Changes in the fair value are recognized as bad debt expense. Actual cash collections may differ from these estimates and would directly affect the fair value of the retained interest. In accordance with a servicing agreement, the Company continues to service, administer and collect the trade receivables on behalf of the bank conduits. The servicing fees charged to the bank conduits approximate the costs of collections.

(14) STOCKHOLDERS EQUITY

(a) Common Stock

The Company is authorized to issue up to 200 million shares of common stock with a par value of \$0.01 per share. At March 31, 2004, the number of shares of common stock outstanding was 73.4 million, excluding 1.5 million shares of common stock held as treasury stock (923 thousand shares owned by National Welders), and 2.2 million shares of common stock held in the Employee Benefits Trust as described below. At March 31, 2003, the number of shares of common stock outstanding was 72.4 million, excluding 547 thousand shares of common stock held as treasury stock and 3.4 million shares of common stock held by the Employee Benefits Trust.

(b) Preferred Stock and Redeemable Preferred Stock

The Company is authorized to issue up to 20 million shares of preferred stock. Of the 20 million shares authorized, 200 thousand shares have been designated as Series A Junior Participating Preferred Stock and 200 thousand shares have been designated as Series B Junior Participating Preferred Stock (see *Stockholder Rights Plan* below). At March 31, 2004 and 2003, no shares of the preferred stock were issued or outstanding. The preferred stock may be issued from time to time by the Company s Board of Directors in one or more series. The Board of Directors is authorized to fix the dividend rights and terms, conversion rights, voting rights, rights and terms of redemption, liquidation preferences, and any other rights, preferences, privileges and restrictions of any series of preferred stock,

and the number of shares constituting each such series and designation thereof.

Additionally, the Company is authorized to issue 30 thousand shares of redeemable preferred stock. At March 31, 2004 and 2003, no shares of redeemable preferred stock were issued or outstanding.

F-28

Table of Contents

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(14) STOCKHOLDERS EQUITY (Continued)

(c) Dividends

On May 13, 2003, the Company s Board of Directors declared the first quarterly cash dividend in the Company s history of \$0.04 per share, which was paid to stockholders on June 30, 2003. Subsequently, at the end of each quarter during fiscal 2004, the Company paid its stockholders regular quarterly cash dividends of \$0.04 per share. In addition, on May 25, 2004, the Company announced that its Board of Directors declared a regular quarterly cash dividend of \$0.045 per share, representing a 13% increase compared to the prior year quarterly dividend. The dividend is payable June 30, 2004 to stockholders of record as of June 15, 2004. Future dividend declarations and associated amounts paid will depend upon the Company s earnings, financial condition, loan covenants, capital requirements and other factors deemed relevant by management and the Company s Board of Directors.

(d) Shares in Employee Benefits Trust

In March 1999, the Company established a trust (the Employee Benefits Trust) to fund certain future obligations of the Company semployee benefit and compensation plans. From inception through fiscal 2001, the Company, pursuant to a Common Stock Purchase Agreement, sold 7 million shares of common stock to the Employee Benefits Trust. The Company holds promissory notes from the Employee Benefits Trust in the amount of each purchase. Shares held by the Employee Benefits Trust serve as collateral for the promissory notes and are available to fund certain employee benefit plan obligations as the promissory notes are repaid. The shares held by the Employee Benefits Trust are not considered outstanding for earnings per share purposes until they are released from serving as collateral for the promissory notes. An independent third-party financial institution serves as the Trustee. The Trustee votes or tenders shares held by the trust in accordance with instructions received from the participants in the employee benefit and compensation plans funded by the trust. Approximately 1.2 million and 909 thousand shares were issued from the Employee Benefits Trust for employee benefit programs during fiscal 2004 and 2003, respectively. As of March 31, 2004, the Employee Benefits Trust held 2.2 million shares of the Company s common stock.

(e) Stockholder Rights Plan

Effective April 1, 1997, the Company s Board of Directors adopted a stockholder rights plan (the 1997 Rights Plan). Pursuant to the 1997 Rights Plan, the Board of Directors declared a dividend distribution of one right for each share of common stock. Each right entitles the holder to purchase from the Company one one-thousandth of a share Series B Junior Participating Preferred Stock at an initial exercise price of \$100 per share.

Rights become exercisable only following the acquisition by a person or group of 15% (or 20% in the case of the Chairman and certain of his affiliates) or more of the Company s common stock or after the announcement of a tender offer or exchange offer to acquire 15% (or 20% in the case of the Chairman and certain of his affiliates) or more of the outstanding common stock. If such a person or group acquires 15% or more (or 20% or more, as the case may be) of the common stock, each right (other than such person s or group s rights, which will become void) will entitle the holder to purchase, at the exercise price, common stock having a market value equal to twice the exercise price. In certain circumstances, the rights may be redeemed by the Company. If not redeemed, they will expire on April 1, 2007.

(f) Warrants

During fiscal 2002, the Company granted warrants to purchase 324,000 shares of the Company s common stock to an outside consulting firm for services rendered. The warrants have a term of three years from the date of grant and have exercise prices in excess of market value on the date of grant ranging from \$11.98 to \$18.78 per share. The aggregate value of the warrants on the dates of grant, as determined by the Black-Scholes model, was \$1.1 million, which the Company expensed during fiscal 2002. No additional warrants were granted during fiscal years 2004 or 2003.

F-29

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(15) STOCK-BASED COMPENSATION

The Company has elected to continue to account for its stock-based compensation plans in accordance with Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148. Accordingly, no compensation expense has been recognized for its stock option and employee stock purchase plans. The following table illustrates the effect on net income and earnings per share for fiscal 2004, 2003 and 2002 as if the Company had applied the fair value recognition provisions of SFAS 123 to stock-based compensation.

Years Ended March 31,

(In thousands, except per share amounts)	2004	2003	2002

The Company s stock-based compensation plans are described below:

(a) Employee Stock Option Plans

In May 1997, the Company adopted the 1997 Stock Option Plan (the 1997 Plan) under which officers and key employees may be granted options. The 1997 Plan replaced the previous 1984 Stock Option Plan. In May 2002, the Company amended the 1997 Plan to increase the total number of shares of common stock reserved for sale upon the exercise of stock options and restricted stock granted under the 1997 Plan from 8 million to 11.2 million. The amendment was approved by the Company s stockholders in July 2002.

Options granted under the 1997 Plan vest 25% annually and have a maximum term of ten years. Under the 1997 Plan, at March 31, 2004, 2003 and 2002, 3.8 million, 4.7 million and 2.6 million options, respectively, were available for issuance. In fiscal 2004, 2003 and 2002, 1.1 million, 1.2 million and 1.5 million options, respectively, were granted with an exercise price equal to market price at the date of grant. Options under the 1997 Plan are generally granted in May of each year.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions used for fiscal 2004, 2003 and 2002 option grants, respectively: expected volatility of 40.1%, 40.3% and 48.8%, risk-free interest rate of 2.6%, 4.3% and 4.7%, expected life of 7.3, 7.5, and 7.2 years, and a dividend yield of 0.83% (fiscal 2004). The weighted average fair value per share of the options granted during fiscal 2004, 2003 and 2002 was \$8.22, \$8.42 and \$5.31, respectively.

(15) STOCK-BASED COMPENSATION (Continued)

The following table summarizes the activity of the employee stock option plans during the three years ended March 31, 2004:

	Number of Shares	Exer	ccise Price Pe	er Share
March 31, 2002 Outstanding, beginning of year	8,305,961	\$1.83		\$23.25
Granted Exercised Expired	1,525,120 (1,049,173) (556,798)	1.83 5.50	9.29	19.00 22.00
March 31, 2003 Outstanding, beginning of year	8,225,110	3.30		23.25
Granted Exercised Expired	1,168,250 (1,098,851) (109,353)	3.30 5.50	16.52	17.31 22.00
March 31, 2004 Outstanding, beginning of year	8,185,156	4.63		23.25
Granted Exercised Expired	1,104,800 (1,364,769) (302,784)	5.21 5.21	19.36	19.00 22.00
Outstanding, end of year	7,622,403	\$4.63		\$23.25

Options for 4.7 million, 5.1 million and 4.7 million shares were exercisable at March 31, 2004, 2003 and 2002, respectively.

(b) Board of Directors Stock Option Plans

In May 1997, the Company adopted the 1997 Directors Stock Option Plan (the 1997 Directors Plan) under which directors of the Company who are not employees may be granted options. The 1997 Directors Plan replaced the previous 1989 Stock Option Plan for Directors. The 1997 Directors Plan reserved 500 thousand shares for issuance. In May 2004, the Company amended the 1997 Directors Plan, subject to stockholder approval, to increase the total number of shares of common stock reserved for issuance under the 1997 Directors Plan from 500 thousand to 800 thousand.

Under the 1997 Directors Plan, at March 31, 2004, 49,500 options were available for issuance. During fiscal 2004, 2003 and 2002, 60,000, 64,000 and 80,000 options, respectively, were granted with an exercise price equal to the market price at the date of grant and have a maximum term of ten years.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions used for fiscal 2004, 2003 and 2002 option grants, respectively: expected volatility of 40.5%, 41.5% and 51.1%, risk-free interest rate of 3.2%, 3.6% and 4.6%, expected life of 5.9, 5.9 and 5.7 years, and a dividend yield of 0.84% (fiscal 2004). The weighted average fair value per share of the stock options granted during fiscal 2004, 2003 and 2002 was \$7.58, \$6.70 and \$6.61, respectively.

(15) STOCK-BASED COMPENSATION (Continued)

(c) Employee Stock Purchase Plans

In July 2003, the Company s stockholders approved the 2003 Employee Stock Purchase Plan (the 2003 Plan) to encourage and assist employees in acquiring an equity interest in the Company. The 2003 Plan replaced the Company s 2001 Employee Stock Purchase Plan (the 2001 Plan). During fiscal 2004, substantially all of the authorized shares remaining under the 2001 Plan were issued. During fiscal 2005, the 2001 Plan will be terminated and the remaining authorized shares will be deregistered.

The 2003 Plan is authorized to issue up to 1.5 million shares of common stock. Eligible employees may elect to have up to 15% of their annual gross earnings withheld to purchase common stock at 85% of the market value. Market value under the 2003 Plan is defined as either the closing share price on the New York Stock Exchange as of an employee s enrollment date or the closing price on the first business day of a fiscal quarter when the shares are purchased, whichever is lower. An employee may lock-in a purchase price for up to 12 months. The 2003 Plan is designed to comply with the requirements of Sections 421 and 423 of the Internal Revenue Code. The terms of the Company s previous 2001 Plan were substantially the same as the 2003 Plan, except that under the 2001 Plan, employees could lock-in a purchase price for up to 27 months. During fiscal 2004 and 2003, the Company issued 554 thousand shares and 809 thousand shares, provided from the Employee Benefits Trust, to fund purchases made by employees under the 2003 and 2001 Plans. The average purchase price per share in fiscal 2004 and 2003 was \$12.44 and \$11.06, respectively. During fiscal 2002, the Company also issued 1.1 million shares, provided from the Employee Benefits Trust, to fund purchases made by employees at an average price of \$6.58 per share.

Compensation expense under SFAS 123 is measured based on the fair value of the employees option to purchase shares of common stock at the grant date and is recognized over the future periods in which the related employee service is rendered. The fair value of the employees option to purchase shares of common stock is estimated using the Black-Scholes model. The assumptions used to estimate the fair value of the employees option to purchase shares of common stock at grant dates in fiscal 2004 and 2002, respectively, were: average expected volatility of 31.1% and 61%, average risk-free interest rate of 0.96% and 2.6%, dividend yield of 0.87% (fiscal 2004), and expected option terms ranging from 3 to 6 months for the 2003 Plan and 3 to 27 months for previous employee stock purchase plans. Had the Company adopted SFAS 123, compensation expense related to the Employee Stock Purchase Plans would have been \$1.5 million, \$3.6 million and \$4.1 million in fiscal 2004, 2003 and 2002, respectively. Fiscal 2003 expense is related to the fiscal 2002 grant and represents the value of the options as they vest over the employee service period.

(16) CONSOLIDATED AND UNCONSOLIDATED AFFILIATES

With the adoption of FIN 46R (Note 2), the Company s previously unconsolidated joint venture affiliate, National Welders, became a consolidated affiliate. The Company s other joint venture affiliates were not impacted by FIN 46R. The Company has participated in a joint venture with National Welders since June 1996. National Welders is a producer and distributor of industrial gases based in Charlotte, North Carolina. National Welders owns and operates 46 branch stores, two acetylene plants, a specialty gas lab, and three air separation plants that produce all of the joint venture s oxygen and nitrogen and over 50% of its argon requirements. The joint venture also distributes medical and specialty gases, processed chemicals and welding equipment and supplies.

Ownership interests in National Welders consist of voting common stock and voting redeemable preferred stock with a 5% annual dividend. The Company owns 100% of the joint venture s common stock, which represents a 50%

voting interest. A family holds approximately 3.2 million shares of redeemable preferred stock and controls the balance of the voting interest. Between June 30, 2006 and June 30, 2009, the preferred stockholders have the option to redeem their preferred shares for cash at a price of \$17.78 per share or to tender them to the joint venture in exchange

F-33

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(16) CONSOLIDATED AND UNCONSOLIDATED AFFILIATES (Continued)

for approximately 2.3 million shares of Airgas common stock. If Airgas common stock has a market value of \$24.45 per share, the common stock and cash redemption options are equivalent. If the preferred stockholders elect to exchange their shares for Airgas common stock, the Company is obligated to provide the necessary shares to the joint venture by capital contribution or other means the Company reasonably deems appropriate. The Company may purchase shares on the open market or may issue new or treasury shares to meet its exchange obligation. The preferred stockholders may also elect to retain their interest in the preferred stock beyond June 30, 2009.

FIN 46R addresses the consolidation of variable interest entities. Variable interest entities are defined as corporations, partnerships, trusts, or any other legal structure used for business purposes, and by design, the holders of equity instruments in those entities lack one of the characteristics of a financial controlling interest. FIN 46R changes previous accounting practice by introducing the concept of a Primary Beneficiary and requiring variable interest entities to be consolidated by the party deemed to be the Primary Beneficiary (i.e., the party that is subject to a majority of the risk of loss from the variable interest entity s activities or entitled to receive a majority of the entity s residual returns or both).

The Company determined that National Welders met the definition of a Variable Interest Entity under FIN 46R. Additionally, the Company, as the only common stockholder, was determined to be the Primary Beneficiary of the joint venture. Therefore, effective December 31, 2003, the Company elected to adopt FIN 46R, as it applies to the joint venture, and consolidated National Welders. As permitted by FIN 46R, the Company applied the interpretation prospectively from the date of adoption (prior periods not restated). Therefore, at December 31, 2003, the consolidation of National Welders only affected the balance sheet. There was no cumulative effect adjustment as a result of the consolidation. The consolidation had the effect of eliminating the Company s \$62 million investment in National Welders and recording the joint venture s assets, liabilities and a corresponding minority interest liability. The minority interest liability represents the redemption value of the joint venture s preferred stock (\$57 million), net of a \$21 million note receivable, bearing interest at 8%, due from the preferred stockholders. At March 31, 2004, National Welders impact on the consolidated balance sheet is summarized below:

(In thousands)	Increase/(Decrease)
Current assets	\$ 29,922
Non-current assets	109,750
Total assets	\$ 139,672
Current liabilities Non-current liabilities	\$ 21,217 82,929
Minority interest	36,191
Common stockholder s equity	(665)

Total liabilities and stockholder s equity \$ 139,672

The assets and liabilities of National Welders at March 31, 2004 include \$55.1 million of goodwill and \$53.8 million of debt, which is non-recourse to the Company.

The Company recognized \$4.4 million of Equity in Earnings of Unconsolidated Affiliates related to National Welders through the nine-months ended December 31, 2003. With the prospective adoption permitted by FIN 46R, the Company s proportionate share of the joint venture s operating results for the fourth fiscal quarter was not reflected as Equity in Earnings of Unconsolidated Affiliates. Rather, the fourth fiscal quarter operating results of the joint venture were reflected broadly across the income statement with minority interest expense reflecting the quarterly dividend on the joint venture s redeemable preferred stock, net of interest earned on the note receivable from the preferred stockholders. For both the fourth quarter and fiscal year 2004, National Welders contributed

F-34

AIRGAS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(16) CONSOLIDATED AND UNCONSOLIDATED AFFILIATES (Continued)

\$39.2 million to sales, \$3.4 million to operating income, \$291 thousand of minority interest expense and \$1.2 million in net earnings. The liabilities of the joint venture are non-recourse to the Company. Likewise, the cash flows in excess of a management fee paid by National Welders are not available to the Company. For the fourth quarter and fiscal year 2004, National Welders contributed net cash from operating activities of \$9.8 million of which \$249 thousand was paid to the Company.

Summarized below are proforma results of National Welders that would have been reflected had the Company consolidated the joint venture as of April 1, 2001. Since the Company had previously recorded its proportionate share of the operating results of National Welders under the equity method of accounting, the consolidation of National Welders did not impact the Company s net earnings.

Pro forma results of National Welders:

Years Ended M	larch	31.
---------------	-------	-----

(In thousands)	2004	2003	2002
Net sales	\$147,604	\$142,056	\$132,148
Operating income	11,337	11,151	11,043
Minority interest expense	1,170	1,170	1,170
Net earnings available to common stockholder	\$ 5,617	\$ 2,684	\$ 2,861

In fiscal 2004, National Welders recognized a non-recurring, after-tax insurance gain of \$1.7 million.

The Company accounts for investments in unconsolidated affiliates by the equity method of accounting, as described in Note 1(b). The Company s investment in its unconsolidated affiliates totaled approximately \$6.3 million and \$66 million at March 31, 2004 and 2003, respectively. Unconsolidated affiliates in Fiscal 2003 included a \$59 million investment in National Welders, which was consolidated in Fiscal 2004. Unconsolidated affiliates at March 31, 2004 principally consist of a 50% joint venture interest in AC Industries, which is a carbon dioxide production plant reported under All Other Operations in Note 24. The Company s share of earnings from AC Industries was \$830 thousand; \$1.1 million and \$1.0 million for the years ended March 31, 2004, 2003, and 2002, respectively.
