SUNOCO LOGISTICS PARTNERS L.P.
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (UNAUDITED)

1. Basis of Presentation

Sunoco Logistics Partners L.P. (the Partnership) is a publicly traded Delaware limited partnership formed by Sunoco, Inc. (Sunoco) in October 2001 to acquire a substantial portion of Sunoco's logistics business. The Partnership owns and operates a geographically diverse portfolio of complementary assets, consisting of refined product pipelines, terminalling and storage assets, crude oil pipelines, and crude oil acquisition and marketing assets located in the Northeast, Midwest and South Central United States. Sunoco, Inc. and its wholly owned subsidiaries including Sunoco, Inc. (R&M) are collectively referred to as Sunoco.

The consolidated financial statements reflect the results of Sunoco Logistics Partners L.P. and its wholly-owned partnerships, including Sunoco Logistics Partners Operations L.P. (the Operating Partnership). Equity ownership interests in corporate joint ventures, which are not consolidated, are accounted for under the equity method.

The accompanying condensed consolidated financial statements are presented in accordance with the requirements of Form 10-Q and accounting principles generally accepted in the United States for interim financial reporting. They do not include all disclosures normally made in financial statements contained in Form 10-K. In management's opinion, all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for the periods shown have been made. All such adjustments are of a normal recurring nature. Results for the three months ended March 31, 2007 are not necessarily indicative of results for the full year 2007.

2. Acquisitions**Mid-Valley Pipeline Acquisition**

On August 18, 2006, the Partnership purchased from Sunoco a 100 percent interest in Sun Pipe Line Company of Delaware LLC, the owner of a 55.3 percent equity interest (50 percent voting rights) in Mid-Valley Pipeline Company (Mid-Valley) for approximately \$65 million, subject to certain adjustments five years following the date of closing, based on the throughput of Sunoco. Mid-Valley owns a 994-mile pipeline, which originates in Longview, Texas and terminates in Samaria, Michigan, and has operating capacity of approximately 238,000 bpd and 4.2 million shell barrels of storage capacity. Mid-Valley provides crude oil to a number of refineries, primarily in the Midwest United States. The Partnership is the operator of the Mid-Valley pipeline. The Partnership receives a quarterly cash dividend from Mid-Valley that is proportionate with its ownership interest. The purchase price of the acquisition was funded with \$46.0 million in borrowings under the Partnership's Credit Facility and with cash on hand. Since the acquisition was from a related party, the interest in the entity was recorded by the Partnership at Sunoco's historical cost of approximately \$12.5 million and the \$52.5 million difference between the purchase price and the cost basis of the assets was recorded by the Partnership as a capital distribution. The results of the acquisition are included in the financial statements within the Western Pipeline System business segment from the date of acquisition.

Millennium and Kilgore Pipeline Acquisition

On March 1, 2006, the Partnership purchased a Texas crude oil pipeline system from affiliates of Black Hills Energy, Inc. for approximately \$40.9 million. The system consists of (a) the Millennium Pipeline, a 200-mile, 12-inch crude oil pipeline with approximately 65,000 bpd operating capacity, originating near the Partnership's Nederland Terminal, and terminating at Longview Texas; (b) the Kilgore Pipeline, a 190-mile, 10-inch crude oil pipeline with approximately 35,000 barrel per day capacity originating in Kilgore, Texas and terminating at refineries in the Houston, Texas region; (c) approximately 900,000 shell barrels of storage capacity at Kilgore, and Longview, Texas, approximately 550,000 of which are inactive; (d) a crude oil sales and marketing business; and (e) crude oil line fill and working inventory. The purchase price of the acquisition was funded with borrowings under the Partnership's Credit Facility. The purchase price has been allocated to the assets acquired based on their relative fair values at the acquisition date. The following is a summary of the effects of the transaction on the Partnership's consolidated financial position (in thousands of dollars):

Table of Contents

Increase in:	
Inventories	\$ 2,189
Properties, plants and equipment, net	38,711
Cash paid for acquisition	\$ 40,900

The results of the acquisition are included in the financial statements within the Western Pipeline System business segment from the date of acquisition.

Amdel and White Oil Pipeline Acquisition

On March 1, 2006, the Partnership acquired a Texas crude oil pipeline system from Alon USA Energy, Inc. for approximately \$68.0 million. The system consists of (a) the Amdel Pipeline, a 503-mile, 10-inch common carrier crude oil pipeline with approximately 27,000 bpd operating capacity, originating at the Nederland Terminal, and terminating at Midland, Texas, and (b) the White Oil Pipeline, a 25-mile, 10-inch crude oil pipeline with approximately 40,000 bpd operating capacity, originating at the Amdel Pipeline and terminating at Alon's Big Spring, Texas refinery. The pipelines were idle at the time of purchase, were re-commissioned by the Partnership during the second quarter 2006 and began making deliveries during the fourth quarter 2006. During the first quarter of 2007, the Partnership completed a project to expand the capacity on the Amdel Pipeline from approximately 27,000 to 40,000 bpd. Construction on new tankage at the Nederland Terminal to service these new volumes more efficiently is expected to be completed during 2007. The purchase price of the acquisition was funded with borrowings under the Partnership's Credit Facility, and has been allocated to property, plants and equipment based on the relative fair value of the assets acquired on the acquisition date. The results of the acquisition are included in the financial statements within the Western Pipeline System business segment from the date of acquisition.

3. Related Party Transactions*Advances To and From Affiliates*

The Partnership has a treasury services agreement with Sunoco pursuant to which it, among other things, participates in Sunoco's centralized cash management program. Under this program, all of the Partnership's cash receipts and cash disbursements are processed, together with those of Sunoco and its other subsidiaries, through Sunoco's cash accounts with a corresponding credit or charge to an intercompany account. The intercompany balances are settled periodically, but no less frequently than monthly. Amounts due from Sunoco earn interest at a rate equal to the average rate of the Partnership's third-party money market investments, while amounts due to Sunoco bear interest at a rate equal to the interest rate provided in the Partnership's revolving credit facility (see Note 6).

Selling, general and administrative expenses in the condensed consolidated statements of income include costs incurred by Sunoco for the provision of certain centralized corporate functions such as legal, accounting, treasury, engineering, information technology, insurance and other corporate services, including the administration of employee benefit plans. These are provided to the Partnership under an omnibus agreement ("Omnibus Agreement") with Sunoco for an annual administrative fee. The fee for the annual period ended December 31, 2006 was \$7.7 million. In January 2007, the parties extended the term of Section 4.1 of the Omnibus Agreement (which concerns the Partnership's obligation to pay the annual fee for provision of certain general and administrative services) by one year. The annual administrative fee applicable to this one-year extension is \$6.5 million, which reflects the Partnership directly incurring some of these general and administrative costs. These costs may be increased if the acquisition or construction of new assets or businesses requires an increase in the level of general and administrative services received by the Partnership. There can be no assurance that Section 4.1 of the Omnibus Agreement will be extended beyond 2007, or that, if extended, the administrative fee charged by Sunoco will be at or below the current administrative fee. In the event that the Partnership is unable to obtain such services from Sunoco or third parties at or below the current cost, the Partnership's financial condition and results of operations may be adversely impacted.

The annual administrative fee does not include the costs of shared insurance programs, which are allocated to the Partnership based upon its share of the cash premiums incurred. This fee also does not include salaries of pipeline and terminal personnel or other employees of the general partner, or the cost of their employee benefits. These employees

are employees of the Partnership's general partner or its affiliates, which are wholly-owned subsidiaries of Sunoco. The Partnership has no employees. Allocated Sunoco employee benefit plan expenses for employees who work in the pipeline, terminalling, storage and crude oil gathering operations, including senior executives, include non-contributory defined benefit retirement plans, defined contribution 401(k) plans, employee and retiree medical, dental and life insurance plans, incentive

Table of Contents

compensation plans, and other such benefits. The Partnership is reimbursing Sunoco for these costs and other direct expenses incurred on its behalf. These expenses are reflected in cost of products sold and operating expenses and selling, general and administrative expenses in the condensed consolidated statements of income.

Accounts Receivable, Affiliated Companies

Affiliated revenues in the condensed consolidated statements of income consist of sales of crude oil as well as the provision of crude oil and refined product pipeline transportation, terminalling and storage services to Sunoco. Sales of crude oil are priced using market based rates. Pipeline revenues are generally determined using posted tariffs. In 2002, the Partnership entered into the pipelines and terminals storage and throughput agreement and various other agreements with Sunoco under which the Partnership is charging Sunoco fees for services provided under these agreements that, in management's opinion, are comparable to those charged in arm's-length, third-party transactions. During the first quarter of 2007, the agreement to throughput at the Partnership's refined product terminals and to receive and deliver refined product into the Partnership's Marcus Hook Tank Farm expired. During the second quarter of 2007, the Partnership executed new agreements with Sunoco for five years to provide these services.

Under various other agreements, Sunoco is, among other things, purchasing from the Partnership, at market-based rates, particular grades of crude oil that the Partnership's crude oil acquisition and marketing business purchases for delivery to certain pipelines. These agreements automatically renew on a monthly basis unless terminated by either party on 30 days' written notice. Sunoco also leases the Partnership's 58 miles of interrefinery pipelines between Sunoco's Philadelphia and Marcus Hook refineries for a term of 20 years.

Capital Contributions

The Partnership has agreements with Sunoco which requires Sunoco to, among other things, reimburse the Partnership for certain expenditures. These agreements include:

the Interrefinery Lease Agreement, which requires Sunoco to reimburse the Partnership for any non-routine maintenance expenditures incurred, as defined through February 2022; and

the Eagle Point purchase agreement, which requires Sunoco to reimburse the Partnership for certain capital improvement projects incurred regarding the assets acquired, as defined, up to \$5.0 million through March 2014. The Partnership has received \$2.5 million to date under this agreement.

During the first quarter 2007, the Partnership was reimbursed \$0.7 million associated with these agreements. There were no amounts reimbursed during the first quarter 2006. The reimbursement of these amounts was recorded by the Partnership as capital contributions to Partners' Capital within the condensed consolidated balance sheet at March 31, 2007.

In May 2006, the Partnership sold 2.4 million common units in a public offering. In June 2006, the Partnership sold an additional 280,000 common units to cover over-allotments in connection with the May 2006 sale (see Note 9). As a result of this issuance of 2.680 million common units, the general partner contributed \$2.4 million to the Partnership to maintain its 2.0 percent general partner interest. The Partnership recorded this amount as a capital contribution to Partners' Capital within its condensed consolidated balance sheet.

In February 2007 and 2006, the Partnership issued 0.1 million common units in each period to participants in the Sunoco Partners LLC Long-Term Incentive Plan (LTIP) upon completion of award vesting requirements. As a result of these issuances of common units, the general partner contributed \$0.1 million in each period to the Partnership to maintain its 2.0 percent general partner interest. The Partnership recorded these amounts as capital contributions to Partners' Capital within its condensed consolidated balance sheets.

Asset Acquisition

On August 18, 2006, the Partnership purchased from Sunoco a 100 percent interest in Sun Pipe Line Company of Delaware LLC, the owner of a 55.3 percent equity interest (50 percent voting rights) in Mid-Valley Pipeline Company (Mid-Valley) for approximately \$65 million, subject to certain adjustments five years following the date of closing, based on throughput of Sunoco (see Note 2). Since the acquisition was from a related party, the interest in the entity was recorded by the Partnership at Sunoco's historical cost of approximately \$12.5 million, and the \$52.5 million difference between the purchase price and the cost basis of the assets was recorded by the Partnership as a capital distribution.

Table of Contents*Conversion of Subordinated Units*

A total of 11,383,639 subordinated limited partner units, equal to all of the originally issued subordinated units held by the general partner, have been converted into common units on a one-for-one basis, 2,845,910 each on February 15, 2005 and February 15, 2006 and 5,691,819 on February 15, 2007 (see Note 10).

4. Net Income Per Unit Data

Basic and diluted net income per limited partner unit is calculated by dividing net income, after deducting the amount allocated to the general partner's interest, by the weighted-average number of limited partner common and subordinated units outstanding during the period.

The general partner's interest in net income consists of its 2.0 percent general partner interest and incentive distributions, which are increasing percentages, up to 50 percent of quarterly distributions in excess of \$0.50 per limited partner unit (see Note 10). The general partner was allocated net income of \$2.1 million (representing 9.3 percent of total net income for the period) and \$1.3 million (representing 7.3 percent of total net income for the period) for the three months ended March 31, 2007 and 2006, respectively. Diluted net income per limited partner unit is calculated by dividing net income applicable to limited partners by the sum of the weighted-average number of common and subordinated units outstanding and the dilutive effect of incentive unit awards, as calculated by the treasury stock method.

The following table sets forth the reconciliation of the weighted average number of limited partner units used to compute basic net income per limited partner unit to those used to compute diluted net income per limited partner unit for the three months ended March 31, 2007 and 2006:

	Three Months Ended	
	March 31,	
	2007	2006
Weighted average number of limited partner units outstanding - basic	28,564,996	25,819,210
Add effect of dilutive unit incentive awards	137,732	125,542
Weighted average number of limited partner units - diluted	28,702,728	25,944,752

5. Investment in Affiliates

The Partnership's ownership percentages in corporate joint ventures as of March 31, 2007 and December 31, 2006 are as follows:

	Partnership Ownership Percentage
Mid-Valley Pipeline Company ⁽¹⁾	55.3%
West Texas Gulf Pipe Line Company	43.8%
Wolverine Pipe Line Company	31.5%
Yellowstone Pipe Line Company	14.0%
West Shore Pipe Line Company	12.3%
Explorer Pipeline Company	9.4%

(1) The Partnership's interest in the Mid-Valley Pipeline Company includes 50 percent voting

rights.

The following table provides summarized combined statement of income data on a 100 percent basis for the Partnership's corporate joint venture interests for the three months ended March 31, 2007 and 2006 (in thousands of dollars):

Table of Contents

	Three Months Ended	
	March 31,	
	2007	2006
Income Statement Data:		
Total revenues	\$ 109,689	\$ 83,356
Net income	\$ 29,972	\$ 20,738

The following table provides summarized combined balance sheet data on a 100 percent basis for the Partnership's corporate joint venture interests as of March 31, 2007 and December 31, 2006 (in thousands of dollars):

	March 31,	December 31,
	2007	2006
Balance Sheet Data:		
Current assets	\$ 119,944	\$ 104,276
Non-current assets	\$ 488,768	\$ 489,514
Current liabilities	\$ 123,169	\$ 111,476
Non-current liabilities	\$ 397,511	\$ 399,826
Net equity	\$ 88,032	\$ 83,028

The Partnership's investments in Wolverine, West Shore, Yellowstone, and West Texas Gulf at March 31, 2007 include an excess investment amount of approximately \$54.8 million, net of accumulated amortization of \$2.8 million. The excess investment is the difference between the investment balance and the Partnership's proportionate share of the net assets of the entities. The excess investment was allocated to the underlying tangible and intangible assets. Other than land and indefinite-lived intangible assets, all amounts allocated, principally to pipeline and related assets, are amortized using the straight-line method over their estimated useful life of 40 years and included within depreciation and amortization in the condensed consolidated statements of income.

6. Long-Term Debt

The components of long-term debt are as follows (in thousands of dollars):

	March 31,	December
	2007	31, 2006
Credit Facility	\$ 116,000	\$ 68,000
Senior Notes 7.25%, due February 15, 2012	250,000	250,000
Senior Notes 6.125%, due May 15, 2016	175,000	175,000
Less unamortized bond discount	(1,041)	(1,090)
	\$ 539,959	\$ 491,910

Sunoco Logistics Partners Operations L.P. (the Operating Partnership), a wholly-owned entity of the Partnership, has a \$300 million Credit Facility available to fund the Operating Partnership's working capital requirements, to finance future acquisitions and for general partnership purposes. It may also be used to fund the quarterly distribution to a maximum of \$20.0 million. Borrowing under this distribution sublimit must be reduced to zero each year for a 15-day period. The Credit Facility matures in November 2010 and may be prepaid at any time. It bears interest at the Operating Partnership's option, at either (i) LIBOR plus an applicable margin or (ii) the higher of the federal funds rate plus 0.50 percent or the Citibank prime rate (each plus the applicable margin). There were \$116.0 million of outstanding borrowings under the Credit Facility at March 31, 2007. The Credit Facility contains various covenants limiting the Operating Partnership's ability to incur indebtedness; grant certain liens; make certain loans, acquisitions and investments; make any material change to the nature of its business; acquire another company; or enter into a merger or sale of assets, including the sale or transfer of interests in the Operating Partnership's subsidiaries. The

Credit Facility also contains covenants (each as defined in the credit agreement) requiring the Operating Partnership to maintain, on a rolling four-quarter basis, a maximum total debt to EBITDA ratio of 4.75 to 1, which can generally be increased to 5.25 to 1 during an acquisition period; and an interest coverage ratio of at least 3.0 to 1. The Operating Partnership is in compliance with these covenants as of March 31, 2007. The Partnership's ratio of total debt to EBITDA was 3.2 to 1 and the interest coverage ratio was 4.8 to 1 at March 31, 2007.

On March 1, 2006, the Partnership completed its acquisition of two Texas crude oil pipeline systems for approximately \$108.9 million (see Note 2). The Partnership initially financed these transactions with \$109.5 million of borrowings under the Credit Facility. All of the \$216.1 million in borrowings outstanding under the Credit Facility were repaid in May 2006 with

Table of Contents

proceeds from the Senior Notes offering described below, together with a portion of the net proceeds from the concurrent offering of 2.68 million limited partner common units (see Note 9).

During May 2006, the Operating Partnership issued \$175 million of 6.125 percent Senior Notes, due May 15, 2016 at 99.858 percent of the principal amount, for net proceeds of \$173.3 million after the underwriter's commission and legal, accounting and other transaction expenses. The Senior Notes are redeemable, at a make-whole premium, and are not subject to sinking fund provisions. The Senior Notes contain various covenants limiting the Operating Partnership's ability to incur certain liens, engage in sale/leaseback transactions, or merge, consolidate or sell substantially all of its assets. The Operating Partnership is in compliance with these covenants as of March 31, 2007. The net proceeds from the Senior Notes, together with the \$110.3 million in net proceeds from the concurrent offering of 2.68 million limited partner common units, were used to repay all of the \$216.1 million in outstanding borrowings under the Partnership's Credit Facility. The balance of the proceeds from the offerings are being used to fund the Partnership's organic growth program and for general Partnership purposes, including to finance pending and future acquisitions.

On August 21, 2006, the Partnership purchased from Sunoco a 100 percent interest in Sun Pipe Line Company of Delaware LLC, the owner of a 55.3 percent equity interest in Mid-Valley Pipeline Company (Mid-Valley) for \$65 million, subject to certain adjustments five years following the date of closing (see Note 2). The purchase price of the acquisition was funded with \$46.0 million in borrowings under the Partnership's Credit Facility and with cash on hand.

The Partnership and the operating partnerships of the Operating Partnership serve as joint and several guarantors of the Senior Notes and of any obligations under the Credit Facility. The guarantees are full and unconditional. See Note 13 for supplemental condensed consolidating financial information.

7. Commitments and Contingent Liabilities

The Partnership is subject to numerous federal, state and local laws which regulate the discharge of materials into the environment or that otherwise relate to the protection of the environment. These laws and regulations result in liabilities and loss contingencies for remediation at the Partnership's facilities and at third-party or formerly owned sites. The accrued liability for environmental remediation in the condensed consolidated balance sheets was \$0.5 million as of March 31, 2007 and December 31, 2006. There are no liabilities attributable to unasserted claims, nor have any recoveries from insurance been assumed.

Total future costs for environmental remediation activities will depend upon, among other things, the identification of any additional sites, the determination of the extent of any contamination at each site, the timing and nature of required remedial actions, the technology available and needed to meet the various existing legal requirements, the nature and extent of future environmental laws, inflation rates and the determination of the Partnership's liability at multi-party sites, if any, in light of uncertainties with respect to joint and several liability, and the number, participation levels and financial viability of other parties. As discussed below, the Partnership's future costs will also be impacted by an indemnification from Sunoco.

Sunoco has indemnified the Partnership for 30 years from environmental and toxic tort liabilities related to the assets contributed to the Partnership that arise from the operation of such assets prior to the closing of the Partnership's initial public offering (IPO) on February 8, 2002. Sunoco has indemnified the Partnership for 100 percent of all such losses asserted within the first 21 years of closing of the February 2002 IPO. Sunoco's share of liability for claims asserted thereafter will decrease by 10 percent a year. For example, for a claim asserted during the twenty-third year after closing of the February 2002 IPO, Sunoco would be required to indemnify the Partnership for 80 percent of its loss. There is no monetary cap on the amount of indemnity coverage provided by Sunoco. The Partnership has agreed to indemnify Sunoco and its affiliates for events and conditions associated with the operation of the Partnership's assets that occur on or after the closing of the February 2002 IPO and for environmental and toxic tort liabilities to the extent Sunoco is not required to indemnify the Partnership.

Sunoco has also indemnified the Partnership for liabilities, other than environmental and toxic tort liabilities related to the assets contributed to the Partnership, that arise out of Sunoco's ownership and operation of the assets prior to the closing of the February 2002 IPO and that are asserted within 10 years after closing of the February 2002 IPO. In addition, Sunoco has indemnified the Partnership from liabilities relating to certain defects in title to the assets

contributed to the Partnership and associated with failure to obtain certain consents and permits necessary to conduct its business that arise within 10 years after closing of the February 2002 IPO as well as from liabilities relating to legal actions pending against Sunoco or its affiliates as of February 2, 2002, or events and conditions associated with any assets retained by Sunoco or its affiliates.

Management of the Partnership does not believe that any liabilities which may arise from claims indemnified by Sunoco would be material in relation to the consolidated financial position of the Partnership at March 31, 2007. There are certain other pending legal proceedings related to matters arising after the February 2002 IPO which are not indemnified by

Table of Contents

Sunoco. Management believes that any liabilities that may arise from these legal proceedings will not be material in relation to the consolidated financial position of the Partnership at March 31, 2007.

8. Management Incentive Plan

Sunoco Partners LLC, the general partner of the Partnership, has adopted the Sunoco Partners LLC Long-Term Incentive Plan (LTIP) for employees and directors of the general partner who perform services for the Partnership. The LTIP is administered by the independent directors of the Compensation Committee of the general partner's board of directors with respect to employee awards, and by the non-independent members of the general partner's board of directors with respect to awards granted to the independent directors. The LTIP currently permits the grant of restricted units and unit options covering an aggregate of 1,250,000 common units. There have been no grants of unit options since the inception of the LTIP. Restricted unit awards under the Partnership's LTIP generally vest upon completion of a three-year service period. For performance-based awards, adjustments for attainment of performance targets can range from 0-200 percent of the award grant, and are payable in common units. Restricted unit awards may also include tandem distribution equivalent rights (DERs) at the discretion of the Compensation Committee. Subject to applicable vesting criteria, a DER entitles the grantee to a cash payment equal to cash distributions paid on an outstanding common unit during the period the restricted unit is outstanding. DERs are recognized as a reduction of Partners' Capital as they become vested.

As of March 31, 2007, there were approximately 0.2 million unvested restricted units outstanding with a weighted average grant-date fair value of \$45.05 per unit, and a contractual life of three years. As of March 31, 2007, total compensation cost related to non-vested awards not yet recognized was \$2.3 million, and the weighted-average period over which this cost is expected to be recognized in expense is 2.1 years. The number of restricted stock units outstanding and the total compensation cost related to non-vested awards not yet recognized reflect the Partnership's estimates of performance factors pertaining to performance-based restricted unit awards.

Effective January 1, 2006, the Partnership adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R), using the modified-prospective method. SFAS No. 123R revised the accounting for stock-based compensation required by Statement of Financial Accounting Standards No. 123

Accounting for Stock-Based Compensation (SFAS No. 123). Among other things, SFAS No. 123R requires a fair-value-based method of accounting for share-based payment transactions, which is similar to the method followed by the Partnership under the provisions of SFAS No. 123.

SFAS No. 123R also requires the use of a non-substantive vesting period approach for new share-based payment awards that vest when an employee becomes retirement eligible, as is the case under the Partnership's LTIP (i.e., the vesting period cannot exceed the date an employee becomes retirement eligible). The effect will be to accelerate expense recognition compared to the vesting period approach that the Partnership previously followed under SFAS No. 123. As a result of adopting Statement 123(R) on January 1, 2006, the Partnership's net income is \$1.4 million lower for the three months ended March 31, 2007, than if it had continued to account for share-based compensation under SFAS No. 123. Basic and diluted earnings per unit are \$0.02 and \$0.03, respectively, lower for the three months ended March 31, 2007 than if the Partnership had continued to account for share-based compensation under SFAS No. 123. The future impact of the non-substantive vesting period will be dependent upon the value of future stock-based awards granted to employees who are eligible to retire prior to the normal vesting periods of the awards.

The Partnership recognized share-based compensation expense related to the LTIP of approximately \$2.3 million in the first quarter of 2007 and \$0.9 million for the first quarter 2006. During the first quarter of 2007, the Partnership issued 50,410 new common units (after netting for taxes of approximately \$1.5 million) and made DER-related payments of approximately \$0.6 million in connection with the vesting.

9. Equity Offerings

In May 2006, the Partnership sold 2.4 million common units in a public offering at a price of \$43.00 per unit. In June 2006, the Partnership sold an additional 280,000 common units to cover over-allotments in connection with the May 2006 sale. The purchase price for the over allotment was equal to the offering price in the May 2006 sale. The total sale of units resulted in gross proceeds of \$115.2 million, and net proceeds of \$110.3 million, after the underwriters' commission and legal, accounting and other transaction expenses. Net proceeds of the offering, together with the \$173.3 million in net proceeds from the concurrent offering of Senior Notes (see Note 6), were used to repay

\$216.1 million of the debt incurred under the revolving credit facility, to fund the Partnership's 2006 organic growth program, and for general partnership purposes. Also as a result of the issuance of these units, the general partner contributed \$2.4 million to the Partnership to

Table of Contents

maintain its 2.0 percent general partner interest. At March 31, 2007, Sunoco's ownership in the Partnership, including its 2.0 percent general partner interest, was 43.4 percent.

10. Cash Distributions

Within 45 days after the end of each quarter, the Partnership distributes all cash on hand at the end of the quarter, less reserves established by the general partner in its discretion. This is defined as "available cash" in the partnership agreement. The general partner has broad discretion to establish cash reserves that it determines are necessary or appropriate to properly conduct the Partnership's business. The Partnership will make quarterly distributions to the extent there is sufficient cash from operations after establishment of cash reserves and payment of fees and expenses, including payments to the general partner.

The Partnership issued 11,383,639 subordinated units to its general partner in connection with the February 2002 IPO. The Partnership had 5,691,819 subordinated units outstanding as of December 31, 2006, all of which were held by the general partner, and for which there is no established public trading market. Any subordinated units that remain outstanding at the end of the subordination period convert to common units on a one-for-one basis if the Partnership meets certain required financial tests set forth in the Partnership Agreement. Upon conversion to common units, the subordinated units will no longer be subordinated to the rights of the holders of common units.

The Partnership has met the minimum quarterly distribution requirements on all outstanding units for each of the four-quarter periods ended December 31, 2004, 2005 and 2006. As a result, the total of 11,383,639 subordinated units have been converted into common units on a one-for-one basis, 2,845,910 each on February 15, 2005 and February 15, 2006 and 5,691,819 on February 15, 2007.

The Partnership will, in general, pay cash distributions each quarter in the following manner:

Quarterly Cash Distribution Amount per Unit	Percentage of Distributions	
	Unitholders	General Partner
Up to minimum quarterly distribution (\$0.45 per Unit)	98%	2%
Above \$0.45 per Unit up to \$0.50 per Unit	98%	2%
Above \$0.50 per Unit up to \$0.575 per Unit	85%	15%
Above \$0.575 per Unit up to \$0.70 per Unit	75%	25%
Above \$0.70 per Unit	50%	50%

If cash distributions exceed \$0.50 per unit in a quarter, the general partner will receive increasing percentages, up to 50 percent, of the cash distributed in excess of that amount. These distributions are referred to as "incentive distributions". The amounts shown in the table under "Percentage of Distributions" are the percentage interests of the general partner and the unitholders in any available cash from operating surplus that is distributed up to and including the corresponding amount in the column "Quarterly Cash Distribution Amount per Unit," until the available cash that is distributed reaches the next target distribution level, if any. The percentage interests shown for the unitholders and the general partner for the minimum quarterly distribution are also applicable to quarterly distribution amounts that are less than the minimum quarterly distribution.

Distributions paid by the Partnership for the period from January 1, 2006 through March 31, 2007 were as follows:

Date Cash Distribution Paid	Cash		Total Cash Distribution to the General Partner (\$ in millions)
	Distribution per Limited Partner Unit	Total Cash Distribution to Limited Partners (\$ in millions)	
February 14, 2006	\$0.7125	\$ 18.4	\$ 2.0
May 15, 2006	\$0.7500	\$ 21.4	\$ 3.3

Edgar Filing: SUNOCO LOGISTICS PARTNERS LP - Form 10-Q

August 14, 2006	\$0.7750	\$ 22.1	\$ 4.0
November 14, 2006	\$0.7875	\$ 22.4	\$ 4.4
February 14, 2007	\$0.8125	\$ 23.2	\$ 5.1

On April 23, 2007, Sunoco Partners LLC, the general partner of Sunoco Logistics Partners L.P., declared a cash distribution of \$0.825 per common partnership unit (\$3.30 annualized), representing the distribution for the first quarter 2007. The \$29.0 million distribution, including \$5.4 million to the general partner, will be paid on May 15, 2007 to unitholders of record at the close of business on May 8, 2007.

Table of Contents

11. Exit Costs Associated with Western Pipeline Headquarters Relocation

On June 10, 2005, the Partnership announced its intention to relocate its Western area headquarters operations from Tulsa, Oklahoma to the Houston, Texas area. The Partnership offered to relocate all affected employees. The Partnership substantially completed the relocation during the first quarter 2006.

The total non-recurring expenses incurred in connection with the relocation plan amounted to \$5.0 million, including \$2.9 million recognized during the first quarter 2006. These costs consist primarily of employee relocation costs, one-time termination benefits and new hire expenses. These costs are included in selling, general and administrative expenses in the condensed statement of income, and are included in the operating results for the Western Pipeline System segment. In addition, the total capital expenditures associated with the move amounted to \$5.5 million, including \$2.8 million in the first quarter 2006. These capital expenditures include furniture and equipment, communication infrastructure and a pipeline control center. The Partnership has not incurred any material costs related to the move since the first quarter of 2006, and does not expect the remaining costs related to the relocation to be material.

Table of Contents**12. Business Segment Information**

The following table sets forth condensed statement of income information concerning the Partnership's business segments and reconciles total segment operating income to net income for the three months ended March 31, 2007 and 2006, respectively (in thousands of dollars):

	Three Months Ended March 31,	
	2007	2006
Segment Operating Income		
Eastern Pipeline System:		
Sales and other operating revenue:		
Affiliates	\$ 18,844	\$ 18,438

Net Income	\$ 22,307	\$ 18,424

Table of Contents

The following table provides the identifiable assets for each segment as of March 31, 2007 and December 31, 2006 (in thousands):

	March 31, 2007	December 31, 2006
Eastern Pipeline System	\$ 366,475	\$ 367,718
Terminal Facilities	344,466	341,878
Western Pipeline System	1,393,807	1,346,232
Corporate and other	10,464	26,249
Total identifiable assets	\$ 2,115,212	\$ 2,082,077

Corporate and other assets consist primarily of cash and cash equivalents, advances to affiliates and deferred charges.

13. Supplemental Condensed Consolidating Financial Information

The Partnership and the operating subsidiaries of the Operating Partnership serve as joint and several guarantors of the 6.125% and 7.25% Senior Notes and of any obligations under the Credit Facility. The guarantees are full and unconditional. Given that certain, but not all subsidiaries of the Partnership are guarantors, the Partnership is required to present the following supplemental condensed consolidating financial information. For purposes of the following footnote, Sunoco Logistics Partners, L.P. is referred to as Parent and Sunoco Logistics Partners Operations L.P. is referred to as Subsidiary Issuer. Sunoco Partners Marketing and Terminals L.P., Sunoco Pipeline L.P., Sun Pipeline Company of Delaware LLC and Sunoco Pipeline Acquisition LLC are collectively referred to as the Subsidiary Guarantors. Sunoco Logistics Partners GP LLC, Sunoco Logistics Partners Operations GP LLC and Sunoco Partners Lease Acquisition & Marketing LLC, are referred to as Non-Guarantor Subsidiaries.

The following supplemental condensed consolidating financial information (in thousands) reflects the Parent's separate accounts, the Subsidiary Issuer's separate accounts, the combined accounts of the Subsidiary Guarantors, the combined accounts of the Non-Guarantor Subsidiaries, the combined consolidating adjustments and eliminations and the Parent's consolidated accounts for the dates and periods indicated. For purposes of the following condensed consolidating information, the Parent's investments in its subsidiaries and the Subsidiary Issuer's investments in its subsidiaries are accounted for under the equity method of accounting.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Results of Operations – Three Months Ended March 31, 2007 and 2006
Sunoco Logistics Partners L.P.
Operating Highlights
Three Months Ended March 31, 2007 and 2006

	Three Months Ended March 31	
	2007	2006
Eastern Pipeline System: ⁽¹⁾		
Total shipments (barrel miles per day) ⁽²⁾	63,491,427	60,988,946
Revenue per barrel mile (cents)	0.472	0.460
Terminal Facilities:		
Terminal throughput (bpd):		
Refined product terminals	415,567	383,233
Nederland terminal	556,622	489,667
Refinery terminals ⁽³⁾	613,511	693,677
Western Pipeline System:⁽¹⁾⁽⁴⁾		
Crude oil pipeline throughput (bpd)	533,906	485,007
Crude oil purchases at wellhead (bpd)	185,151	181,413
Gross margin per barrel of pipeline throughput (cents) ⁽⁵⁾	24.9	28.4

(1) Excludes amounts attributable to equity ownership interests in corporate joint ventures.

(2) Represents total average daily pipeline throughput multiplied by the number of miles of pipeline through which each barrel has been shipped.

(3) Consists of the Partnership's Fort Mifflin Terminal Complex, the Marcus Hook

Tank Farm and the Eagle Point Dock.

(4) Includes results from the Partnership's purchases of an undivided joint interest in the Mesa Pipe Line system, the Corsicana to Wichita Falls, Texas pipeline system, the Millennium and Kilgore pipeline system and the Amdel pipeline system from the acquisition dates.

(5) Represents total segment sales and other operating revenue minus cost of products sold and operating expenses and depreciation and amortization divided by crude oil pipeline throughput.

Analysis of Consolidated Net Income

Net income was \$22.3 million for the first quarter 2007 as compared with \$18.4 million for the first quarter 2006, an increase of \$3.9 million. This increase was due mainly to an increase in revenues at the Partnership's Nederland Terminal, operating results from the acquisitions completed in 2006 in the Western Pipeline System, increased revenues at the Partnership's refined product terminals associated with ethanol blending and product additives and increased other income associated with the August 2006 acquisition of a 55.3 percent equity interest in the Mid-Valley Pipeline Company. These increases were partially offset by lower lease acquisition margins, higher interest expense related to financing the acquisitions completed in 2006 and the Partnership's organic growth capital program and increased selling, general and administrative expenses related to the acceleration of compensation expense associated with the Partnership's long term incentive plan in accordance with applicable accounting standards.

Net interest expense increased \$2.4 million to \$8.6 million for the first quarter 2007 from \$6.2 million for the prior year's quarter due to increased borrowings related to financing the acquisitions completed in 2006, and funding the

Partnership's organic growth capital program and contango inventory positions.

Table of Contents**Analysis of Segment Operating Income***Eastern Pipeline System*

Operating income for the Eastern Pipeline System decreased \$0.2 million to \$9.7 million for the first quarter 2007 from \$9.9 million for the first quarter 2006. This decrease was primarily the result of a \$2.5 million increase in total expenses partially offset by a \$2.3 million increase in total revenues. Sales and other operating revenue increased from \$25.3 million for the prior year's quarter to \$27.0 million for the first quarter 2007 mainly due to an increase in total shipments. The increase in shipments was due to higher throughput on the Marysville, Michigan to Toledo, Ohio crude oil pipeline resulting from the completion of a project to expand the capacity of the pipeline, which was completed during the fourth quarter 2006. Additionally, refined product shipments increased compared to the prior year's quarter despite decreased volumes on certain pipeline segments which support a refinery which completed a maintenance turnaround during the quarter. Other income increased \$0.6 million compared to the prior year's quarter due primarily to an increase in equity income associated with the Partnership's joint venture interests. Operating expenses increased to \$12.0 million in the first quarter 2007 from \$10.6 million in the first quarter 2006 due mainly to increased utility costs along with increased employee and maintenance costs. Selling, general and administrative expenses increased from \$4.1 million during the first quarter 2006 to \$5.6 million in the first quarter 2007 due mainly to decreased capitalization of certain engineering employee costs associated with the Partnership's organic growth capital program along with the acceleration of compensation expense noted above. Depreciation and amortization expense decreased \$0.4 million in the first quarter 2007 to \$2.3 million as certain assets reached the end of their depreciation life during the third quarter 2006.

Terminal Facilities

The Terminal Facilities business segment had operating income of \$12.3 million for the first quarter 2007, as compared to \$9.4 million for the prior year's first quarter. Total revenues increased \$3.8 million from the prior year's first quarter to \$32.9 million for the first quarter 2007 due primarily to increased revenues at the Partnership's Nederland Terminal, increased revenues associated with the addition of ethanol blending at the Partnership's refined product terminals starting in May 2006, additional product additive revenues, and increased volumes at the refined product terminals. These increases were partially offset by a decrease in the Partnership's refinery terminals volumes compared to the prior year period which resulted from a maintenance turnaround at a refinery supported by the terminals. Selling, general and administrative expenses increased \$1.0 million from the prior year's first quarter to \$4.5 million for the first quarter 2007 due principally to the acceleration of compensation expenses noted above.

Western Pipeline System

Operating income for the Western Pipeline System increased \$3.6 million to \$9.0 million for the first quarter 2007 from \$5.4 million for the first quarter 2006. The increase was primarily the result of higher crude oil pipeline volumes associated with the March 2006 acquisitions of the Millennium and Kilgore crude oil pipelines and the Amdel pipelines along with an increase in other income of \$2.1 million related primarily to the acquisition of a 55.3 percent equity interest in the Mid-Valley Pipeline Company in August 2006. The increases were partially offset by lower lease acquisition margins. Total revenues and cost of products sold and operating expenses increased compared with the prior year's quarter due principally to an increase in lease acquisition volumes associated with contango inventory positions and increased bulk purchase and sale activity partially offset by a decrease in crude prices. The average price of West Texas Intermediate crude oil at Cushing, Oklahoma, decreased to \$58.23 per barrel for the first quarter 2007 from \$63.53 per barrel for the first quarter 2006. Operating expenses were higher also as a result of increased costs associated with operating the 2006 acquired assets. Selling, general and administrative expenses decreased \$2.0 million for the first quarter 2007 when compared to the prior year's quarter due primarily to the absence of costs associated with the Western Area office relocation which was completed during the first quarter 2006, partially offset by the acceleration of compensation expenses noted above.

Liquidity and Capital Resources*Liquidity*

Cash generated from operations and borrowings under the Credit Facility are the Partnership's primary sources of liquidity. At March 31, 2007, the Partnership had net working capital of \$21.7 million and available borrowing capacity under the Credit Facility of \$184.0 million. The Partnership's working capital position also reflects crude oil

inventories based on historical costs under the LIFO method of accounting. If the inventories had been valued at their current replacement cost, the Partnership would have had working capital of \$131.8 million at March 31, 2007.

Table of Contents*Capital Resources*

The Partnership periodically supplements its cash flows from operations with proceeds from debt and equity financing activities.

Credit Facility

Sunoco Logistics Partners Operations L.P., a wholly-owned subsidiary of the Partnership (the Operating Partnership), has a \$300 million Credit Facility available to fund working capital requirements, to finance future acquisitions, and for general partnership purposes. The Credit Facility matures in November 2010. It also includes a \$20.0 million distribution sublimit that is available for distributions, and may be used to fund the quarterly distributions, provided the total outstanding borrowings for distributions do not at any time exceed \$20.0 million. The Partnership will be required to reduce to zero all borrowings under the distribution sublimit under the Credit Facility each year for 15 days.

During the first quarter 2007, \$48.0 million was drawn against the Credit Facility to fund the Partnership's organic growth capital program and contango inventory positions. As of March 31, 2007, there was \$184.0 million available under the Credit Facility to fund the Partnership's organic growth capital program, and for general Partnership purposes, including to finance pending and future acquisitions.

Senior Notes

During May 2006, the Operating Partnership issued \$175 million of 6.125 percent Senior Notes, due May 15, 2016 at 99.858 percent of the principal amount, for net proceeds of \$173.3 million after the underwriter's commission and legal, accounting and other transaction expenses. The Senior Notes are redeemable, at a make-whole premium, and are not subject to sinking fund provisions. The Senior Notes contain various covenants limiting the Operating Partnership's ability to incur certain liens, engage in sale/leaseback transactions, or merge, consolidate or sell substantially all of its assets. The Operating Partnership is in compliance with these covenants as of March 31, 2007. The net proceeds from the Senior Notes, together with the \$110.4 million in net proceeds from the concurrent offering of 2.68 million limited partner common units, were used to repay the \$216.1 million in outstanding borrowings under the Partnership's Credit Facility. The balance of the proceeds from the offerings were used to fund the Partnership's organic growth capital program and for general Partnership purposes.

Equity Offerings

In May 2006, the Partnership sold 2.4 million common units in a public offering. In June 2006, the Partnership sold an additional 280,000 common units to cover over-allotments in connection with the May 2006 sale. The total sale of units resulted in gross proceeds of \$115.2 million, and net proceeds of \$110.3 million, after the underwriters' commission and legal, accounting and other transaction expenses. Net proceeds of the offering were used to repay a portion of the \$216.1 million of the debt incurred under the revolving Credit Facility. As a result of this issuance of 2.68 million common units, the general partner contributed \$2.4 million to the Partnership to maintain its 2.0 percent general partner interest. The Partnership recorded this amount as a capital contribution to Partners' Capital within its condensed consolidated balance sheet.

Shelf Registration Statement

On April 7, 2006, the Partnership, the Operating Partnership, and the Operating Partnership's wholly-owned subsidiaries, as co-registrants, filed a shelf registration statement with the Securities and Exchange Commission. This shelf registration permits the periodic offering and sale of up to \$500 million of equity securities by the Partnership or debt securities of the Operating Partnership (guaranteed by the Partnership). At March 31, 2007, \$209.8 million remains available for issuance under the shelf registration statement. The shelf registration also covers the resale of up to five million common units by the Partnership's general partner. The amount, type and timing of any offerings will depend upon, among other things, the funding requirements of the Partnership, prevailing market conditions, and compliance with covenants in applicable debt obligations of the Operating Partnership (including the Credit Facility).

Cash Flows and Capital Expenditures

Net cash used in operating activities for the three months ended March 31, 2007 was \$25.6 million compared with \$38.8 million net cash provided by operating activities for the first three months of 2006. Net cash used in operating activities for the first three months of 2007 was primarily the result of a \$64.0 million increase in working capital offset by net income of \$22.3 million and depreciation and amortization of \$8.9 million. The working capital increase

is primarily attributable to revenue growth along with increased inventory volumes associated with contango inventory positions.

Table of Contents

Net cash provided by operating activities for the first three months of 2006 was principally generated by net income of \$18.4 million, depreciation and amortization of \$8.9 million, and a \$14.0 million decrease in working capital.

Net cash used in investing activities for the three months of 2007 was \$17.9 million compared with \$127.7 million for the first three months of 2006. The decrease between periods is due primarily to the acquisitions of the Millennium and Kilgore crude oil pipelines and the Amdel crude oil pipeline in March 2006.

Net cash provided by financing activities for the first three months of 2007 was \$34.1 million compared with \$72.2 million for the first three months of 2006. Net cash provided by financing activities for the first three months of 2007 was the result of \$48.0 million in increased borrowings under the Partnership's Credit Facility to fund the Partnership's organic growth capital program and contango inventory positions, and \$15.1 million in advances from affiliate. This increase was partially offset by \$28.3 million in distributions paid to limited partners and the general partner and \$1.5 million payment of statutory withholdings on the net issuance of limited partner units under the restricted unit incentive plan. Net cash provided by financing activities for the first three months of 2006 was the result of \$109.5 million of borrowings drawn against the Partnership's Credit Facility to fund the acquisitions of the Millennium and Kilgore pipeline system and the Amdel and White Oil pipeline system on March 1, 2006. This increase was partially offset by \$20.4 million in distributions paid to limited partners and the general partner, and a \$15.6 million increase in advances to affiliates.

Under a treasury services agreement with Sunoco, the Partnership participates in Sunoco's centralized cash management program. Advances from affiliates in the Partnership's condensed consolidated balance sheets at March 31, 2007 represent amounts due to Sunoco under this agreement. Advances to affiliates at December 31, 2006 represent amounts due from Sunoco under this agreement.

Capital Requirements

The pipeline, terminalling, and crude oil transport operations are capital intensive, requiring significant investment to maintain, upgrade or enhance existing operations and to meet environmental and operational regulations. The capital requirements have consisted, and are expected to continue to consist, primarily of:

Maintenance capital expenditures, such as those required to maintain equipment reliability, tankage and pipeline integrity and safety, and to address environmental regulations; and

Expansion capital expenditures to acquire assets to grow the business and to expand existing and construct new facilities, such as projects that increase storage or throughput volume.

The following table summarizes maintenance and expansion capital expenditures, including net cash paid for acquisitions, for the periods presented (in thousands of dollars):

	Three Months Ended	
	March 31,	
	2007	2006
Maintenance	\$ 2,636	\$ 6,439
Expansion	15,245	116,913
	\$ 17,881	\$ 123,352

Maintenance capital expenditures decreased \$3.8 million to \$2.6 million in the three months ended March 31, 2007 from the first three months of 2006 due mainly to the absence of capital expenditures associated with the Western area office relocation completed during the first quarter 2006. Management anticipates maintenance capital expenditures to be approximately \$25.0 million for the year ended December 31, 2007, excluding reimbursements from Sunoco in accordance with the terms of certain agreements. Maintenance capital expenditures for both periods presented include recurring expenditures such as pipeline integrity costs, pipeline relocations, repair and upgrade of field instrumentation, including measurement devices, repair and replacement of tank floors and roofs, upgrades of cathodic protection systems, crude trucks and related equipment, and the upgrade of pump stations.

Expansion capital expenditures decreased in the three months ended March 31, 2007 when compared to the first three months of 2006 due primarily to the March 2006 acquisitions of the Millennium and Kilgore pipelines and the Amdel pipeline for \$108.9 million. Excluding these acquisitions, expansion capital expenditures for the three months ended March 31, 2007 increased by \$7.2 million due to the continued construction at Nederland of six new crude oil storage tanks with a total capacity of approximately 3.6 million shell barrels and pipeline connections within the Western Pipeline System. In

Table of Contents

addition, the Partnership began the previously announced project to construct three additional crude oil storage tanks, with a combined capacity of 2.0 millions shell barrels, and a 12-mile 30" crude oil pipeline from the Nederland Terminal to Motiva's Port Arthur, Texas refinery.

The Partnership expects to fund capital expenditures, including pending and future acquisitions, from both cash provided by operations and, to the extent necessary, from the proceeds of borrowings under the Credit Facility, other borrowings and the issuance of additional common units.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Partnership is exposed to various market risks, including volatility in crude oil commodity prices and interest rates. To manage such exposures, inventory levels and expectations of future commodity prices and interest rates are monitored when making decisions with respect to risk management. The Partnership has not entered into any derivative transactions.

The \$300 million Credit Facility generally exposes the Partnership to interest rate risk since it bears interest at a variable rate of 5.67 percent at March 31, 2007. A one percent change in interest rates changes annual interest expense by approximately \$1.2 million based on outstanding borrowings under the Credit Facility of \$116.0 million at March 31, 2007.

Forward-Looking Statements

Some of the information included in this quarterly report on Form 10-Q contains forward-looking statements, as such term is defined in Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act, and information relating to the Partnership that is based on the beliefs of its management as well as assumptions made by and information currently available to management.

Forward-looking statements discuss expected future results based on current and pending business operations, and may be identified by words such as anticipates, believes, expects, planned, scheduled or similar expressions. Although management of the Partnership believes these forward-looking statements are reasonable, they are based upon a number of assumptions, any or all of which may ultimately prove to be inaccurate. Statements made regarding future results are subject to numerous assumptions, uncertainties and risks that may cause future results to be materially different from the results stated or implied in this document.

The following are among the important factors that could cause actual results to differ materially from any results projected, forecasted, estimated or budgeted:

Our ability to successfully consummate announced acquisitions or expansions and integrate them into our existing business operations;

Delays related to construction of, or work on, new or existing facilities and the issuance of applicable permits;

Changes in demand for, or supply of, crude oil, refined petroleum products and natural gas liquids that impact demand for the Partnership's pipeline, terminalling and storage services;

Changes in the demand for crude oil we both buy and sell;

The loss of Sunoco as a customer or a significant reduction in its current level of throughput and storage with the Partnership;

An increase in the competition encountered by the Partnership's petroleum products terminals, pipelines and crude oil acquisition and marketing operations;

Changes in the financial condition or operating results of joint ventures or other holdings in which the Partnership has an equity ownership interest;

Changes in the general economic conditions in the United States;

Changes in laws and regulations to which the Partnership is subject, including federal, state, and local tax, safety, environmental and employment laws;

Changes in regulations concerning required composition of refined petroleum products, that result in changes in throughput volumes, pipeline tariffs and/or terminalling and storage fees;

Improvements in energy efficiency and technology resulting in reduced demand for petroleum products;

Table of Contents

The Partnership's ability to manage growth and/or control costs;

The effect of changes in accounting principles and tax laws and interpretations of both;

Global and domestic economic repercussions, including disruptions in the crude oil and petroleum products markets, from terrorist activities, international hostilities and other events, and the government's response thereto;

Changes in the level of operating expenses and hazards related to operating facilities (including equipment malfunction, explosions, fires, spills and the effects of severe weather conditions);

The occurrence of operational hazards or unforeseen interruptions for which the Partnership may not be adequately insured;

The age of, and changes in the reliability and efficiency of the Partnership's operating facilities;

Changes in the expected level of capital, operating, or remediation spending related to environmental matters;

Changes in insurance markets resulting in increased costs and reductions in the level and types of coverage available;

Risks related to labor relations and workplace safety;

Non-performance by or disputes with major customers, suppliers or other business partners;

Changes in the Partnership's tariff rates implemented by federal and/or state government regulators;

The amount of the Partnership's indebtedness, which could make the Partnership vulnerable to adverse general economic and industry conditions, limit the Partnership's ability to borrow additional funds, place it at competitive disadvantages compared to competitors that have less debt, or have other adverse consequences;

Restrictive covenants in the Partnership's or Sunoco, Inc.'s credit agreements;

Changes in the Partnership's or Sunoco, Inc.'s credit ratings, as assigned by ratings agencies;

The condition of the debt capital markets and equity capital markets in the United States, and the Partnership's ability to raise capital in a cost-effective way;

Changes in interest rates on the Partnership's outstanding debt, which could increase the costs of borrowing;

Claims of the Partnership's non-compliance with regulatory and statutory requirements; and

The costs and effects of legal and administrative claims and proceedings against the Partnership or any entity in which it has an ownership interest, and changes in the status of, or the initiation of new litigation, claims or proceedings, to which the Partnership, or any entity in which it has an ownership interest, is a party.

These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of the Partnership's forward-looking statements. Other factors could also have material adverse effects on future results. The Partnership undertakes no obligation to update publicly any forward-looking statement whether as a result of new information or future events.

Item 4. Controls and Procedures

(a) As of the end of the fiscal quarter covered by this report, the Partnership carried out an evaluation, under the supervision and with the participation of the management of Sunoco Partners LLC, the Partnership's general partner (including the President and Chief Executive Officer of Sunoco Partners LLC), of the effectiveness of the design and operation of the Partnership's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the President and Chief Executive Officer of Sunoco Partners LLC concluded that the Partnership's disclosure controls and procedures are effective.

(b) No change in the Partnership's internal controls over financial reporting has occurred during the fiscal quarter covered by this report that has materially affected, or that is reasonably likely to materially affect, the Partnership's internal control over financial reporting.

Table of Contents

(c) Disclosure controls and procedures are designed to ensure that information required to be disclosed in the Partnership reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the Partnership reports under the Exchange Act is accumulated and communicated to management, including the President and Chief Executive Officer of Sunoco Partners LLC as appropriate, to allow timely decisions regarding required disclosure.

**PART II
OTHER INFORMATION**

Item 1. Legal Proceedings

There are certain legal and administrative proceedings arising prior to the February 2002 IPO pending against the Partnership's Sunoco-affiliated predecessors and the Partnership (as successor to certain liabilities of those predecessors). Although the ultimate outcome of these proceedings cannot be ascertained at this time, it is reasonably possible that some of them may be resolved unfavorably. Sunoco has agreed to indemnify the Partnership for 100 percent of all losses from environmental liabilities related to the transferred assets arising prior to, and asserted within 21 years of February 8, 2002. There is no monetary cap on this indemnification from Sunoco. Sunoco's share of liability for claims asserted thereafter will decrease by 10 percent each year through the thirtieth year following the February 8, 2002 date. Any remediation liabilities not covered by this indemnity will be the Partnership's responsibility.

There are certain other pending legal proceedings related to matters arising after the February 2002 IPO that are not indemnified by Sunoco. Management believes that any liabilities that may arise from these legal proceedings will not be material to the Partnership's financial position at March 31, 2007.

Item 1A. Risk Factors

There have been no material changes from the risk factors described previously in Part I, Item 1A of the Partnership's Annual Report on Form 10-K for the year ended December 31, 2006, filed on February 23, 2007.

Item 2. Unregistered Sales of Equity Securities and Uses of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 5. Other Information
