Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the
Savings Plan for Union Employees of Unilever

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Savings Plan for the Union Employees of Unilever (the Plan) at December 31, 2007 and December 31, 2006, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements
December 31, 2007 and 2006

All collective bargaining employees located at the St. Albans and Huntington locations: 100% of the first 3% and 50% of the next 2% for Huntington participants accruing benefits under the final average pay formula of the UNICare Retirement Plan. 100% of the first 5% for Huntington participants accruing benefits under the cash balance formula of the UNICare Retirement Plan and those participants at the St. Albans location.

All collective bargaining employees located at the Baltimore, Maryland plant represented by the United Food and Commercial Workers International AFL-CIO Local 27, and the Elgin, Illinois plant are not eligible to receive company matching contributions.

In 2007 the Plan was amended to add non-elective contributions of 4% of compensation to eligible employees who were hired or re-hired on or after January 12, 2007 at the Hammond location and credited with at least one year of service. The amendment also provides for non-elective contributions of 4% of compensation for employees at the Huntington location, hired on or after June 30, 2007 and credited with at least one year of service. The amendment is further extended to employees at the Huntington location hired prior to June 30, 2007 that may have been eligible for an allocation under the UNICare Savings Plan if their plan assets had not been transferred from the UNICare Savings Plan to the Plan.

All contributions are deposited in the Unilever United States, Inc. Master Savings Trust.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution (b) the Company's contribution, and (c) an allocation of Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account. At December 31, 2007 and 2006, there were 1,529 and 1,463 participants in the Plan, respectively.

Vesting

Participants are fully vested in their contributions as well as the earnings thereon. Vesting provisions are at the discretion of the Company and are as follows:

All collective bargaining employees at the Hammond, Indiana plant, the Baltimore, Maryland plant, represented by the International Chemical Workers Union Council of the UFCW Local 217 C or the International Brotherhood of Teamsters Local 570, the Independence, Missouri plant, the Atlanta, Georgia plant and the Olathe, Kansas plant, Huntington and St. Albans locations: 100% upon hire.

All collective bargaining employees located at the Franklin Park, Illinois plant: 100% after 3 years of service, effective January 1, 2006; prior to January 1, 2006, 100% after 5 years of service.

All employees located at the Chicago, Illinois plant: 100% after 3 years of service, effective January 1, 2004; prior to January 1, 2004, 100% after 5 years of service.

At December 31, 2007 and 2006 forfeited nonvested accounts totaled \$1,749 and \$1,458, respectively. There were no forfeitures in 2007 and 2006. Forfeitures are available to reduce Company match contributions and administrative expenses. There were no forfeitures used for the years ended December 31, 2007 and 2006.

Payment of Benefits

Withdrawal provisions of active participants vary at the discretion of the Company and are as follows:

All collective bargaining employees at the Hammond, Indiana plant, the Baltimore, Maryland plant, represented by the International Chemical Workers Union Council of the UFCW Local 217 C or the International Brotherhood of Teamsters Local 570, the Atlanta, Georgia plant, the Baltimore, Maryland plant represented by the United Food and Commercial Workers International AFL-CIO Local 27, the Olathe, Kansas plant, the Elgin, Illinois plant, the Huntington location and the St. Albans location: participants may only withdraw all or part of their after-tax account , as applicable;

All collective bargaining employees at the Independence, Missouri plant: participants may only withdraw all or part of their after-tax account and the eligible portion of their company matching account , as applicable.

The following participants are allowed to make financial hardship withdrawals as follows:

All collective bargaining employees at the Atlanta, Georgia plant, the Baltimore, Maryland plant, represented by the International Chemical Workers Union Council of the UFCW Local 217 C or the International Brotherhood of Teamsters Local 570, the Baltimore, Maryland plant represented by the United Food and Commercial Workers International Union, Local 27, the Olathe, Kansas plant, the Elgin, Illinois plant, the Independence, Missouri plant, the Chicago Illinois plant, the Hammond, Indiana plant, the Huntington location and the St. Albans location: participants may apply to the Benefits Administration Committee for a financial hardship withdrawal up to 100% of the eligible portion of their before-tax account, prior to attaining age 59-1/2, provided the withdrawal does not exceed the amount of the hardship.

All collective bargaining employees at the Hammond, Indiana plant, the Baltimore, Maryland plant, represented by the International Chemical Workers Union Council of the UFCW Local 217 C or the International Brotherhood of Teamsters Local 570, the Olathe, Kansas plant, the Atlanta, Georgia plant, the Baltimore, Maryland plant represented by the United Food and Commercial Workers International Union, Local 27, the Elgin, Illinois plant, and the Independence, Missouri plant are eligible to withdraw their entire account balance upon attainment of age 59-1/2.

Collective bargaining employees of the Franklin Park, Illinois plant are not allowed to make withdrawals.

Upon termination of employment, participants are entitled to all of their vested balances and must receive their full balance upon reaching the age of 65.

Retired employees may elect to leave their account balances in the Plan until they attain age 70-1/2 at which time Internal Revenue Service regulations require minimum distributions to be made. Failure to make a voluntary election to defer payment will result in a total distribution of vested Plan balances at age 65.

Plan Transfers

During 2007, approximately \$5 million of assets attributable to the account balances of the union employees at the St. Albans and Huntington locations were transferred from the UNICare Savings Plan to the Plan. This amount included \$506,492 of participant loans.

Investments

Participants have the option to invest in, and direct the Company matching contributions towards a wide variety of funds including money market, fixed income, balanced, equity and the Unilever N.V. Stock Fund. The funds are as follows:

The INVESCO (also known as PRIMCO) Interest Income Fund is primarily invested in a diversified portfolio of investment contracts issued by high quality financial institutions such as insurance companies and banks. Each contract has its own specific terms, including interest rate and maturity date. The crediting interest rates at December 31, 2007 and 2006 for the contracts range from 4.51% to 5.34% and 4.65% to 5.32%, respectively. The average crediting interest rates at December 31, 2007 and 2006 for the contracts are 4.95% and 5.20%, respectively.

Fidelity Asset Manager Fund, NTGI-QM Equity Index Fund, Fidelity Magellan Fund, PIMCO Total Return Fund Institutional Class, Harbor Capital Appreciation Fund, Unilever N.V. Stock Fund, Fidelity Growth & Income Portfolio Fund, Fidelity Contrafund, T. Rowe Price Small Cap Stock Fund, American Funds Washington Mutual Investors Fund Class A, Fidelity Select Health Care Portfolio Fund, Fidelity Select Technology Portfolio Fund, Fidelity Select Financial Services Portfolio Fund, Fidelity Select Natural Resources Portfolio Fund, NTGI-QM Collective Daily Russell 1000 Value Equity Index Fund, Legg Mason Partners Emerging Markets Equity Fund and the Fidelity Select International Equity Portfolio Fund.

Effective July 1, 2008, the Company will introduce Target Date Trusts and brokerage capabilities to the Plan. Additionally, on August 28, 2008 certain investment funds from those currently available will be eliminated from the Plan, which will be communicated to participants in early June 2008.

Loans to Plan Participants

At the request of Plan participants, loans are permitted up to the lesser of \$50,000 reduced by the largest outstanding loan balance in the previous 12 months or one-half of the participants' vested interest in their accounts less any outstanding loans. Loans bear interest at a fixed rate based on the Wall Street Journal published prime rate plus one percent, adjusted quarterly.

Interest rates ranging from 5.0% to 10.5% were charged on loans for the year ended December 31, 2007 and 2006.

For participants at the Hammond, Indiana plant, the Baltimore, Maryland plant, represented by the International Chemical Workers Union Council of the UFCW 217 C or the International Brotherhood of Teamsters Local 570, the Atlanta, Georgia plant, the Baltimore, Maryland plant represented by the United Food and Commercial Workers International AFL-CIO, Local 27, the Olathe, Kansas plant, the Elgin, Illinois plant, the Independence, Missouri plant, the Huntington location and the St. Albans location loans relating to the acquisition or construction of a participant's principal residence are to be repaid within fifteen years. All other loans are required to be repaid within five years.

For participants at the Chicago, Illinois plant and the Franklin Park, Illinois plant, loans are required to be repaid within five years.

For participants that were transferred from the Ben and Jerry's Homemade Plan in 2006, loans relating to the acquisition or construction of a participant's principal residence are to be repaid within thirty years. All other loans are required to be repaid within five years.

Administration

The Plan provides that the Benefits Administration Committee is responsible for the general administration of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting standards generally accepted in the United States of America.

Valuation of Plan Investments and Income Recognition

The assets of the Plan have been commingled in the Master Trust with the assets of Good Humor-Breyer's Savings Plan and UNICare Savings Plan for investment and administrative purposes. The investment in the Master Trust represents the Plan's interest in the net assets of the Master Trust. The Plan's investment is stated at fair value and is based on the beginning of the year value of the Plan's interest in the Master Trust plus contributions and allocated investment income less distributions and allocated expenses. Participants' loans are valued at cost plus accrued interest, which approximates fair value.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the investment income for the Plan's interest in the Master Trust, which consists of its allocated share of investment income, realized gains and losses and the unrealized appreciation (depreciation) from the Master Trust.

The Plan's interest in the Master Trust represents more than 5 percent of the Plan's net assets available for plan benefits as of December 31, 2007 and 2006.

Investment Contracts

As of December 31, 2006, the Plan adopted the provisions of the Financial Accounting Standards Board Staff Position (FSP) Nos. AAG INV-1 and SOP 94-4-1, reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and

Savings Plan for Union Employees of Unilever
Notes to Financial Statements
December 31, 2007 and 2006

FSP clarifies the definition of fully benefit-responsive investment contracts for contracts held by defined contribution plans along with the financial statement presentation and disclosure of such contracts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis. In adopting the provisions of this FSP, there were no accounting effects to the Plan's financial statements, other than the requisite presentation of investment contracts' fair values in the accompanying Statements of Net Assets Available for Benefits.

Further information on the Plan's investment contracts is included in Note 4.

Benefit Payments

Benefit payments are recorded when paid and include deemed distributions of \$9,629 for the year ended December 31, 2007.

Administrative Expenses

Investment management fees for all funds and certain professional fees are paid by the Plan. All other administrative expenses are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting standards generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. These significant estimates include fair market values of investments. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, commingled funds, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the December 31, 2007 Statement of Net Assets Available for Plan Benefits.

The Master Trust is exposed to credit loss in the event of non-performance by the companies with whom guaranteed investment contracts are placed. However, the Plan administrator does not anticipate non-performance by these companies. The Plan administrator believes that the risk to the Master Trust portfolio from credit loss is not material due to the diversified nature of assets held.

Savings Plan for Union Employees of Unilever
Notes to Financial Statements
December 31, 2007 and 2006

3. Tax Status of the Plan

The Plan received a favorable tax determination letter, effective October 5, 2005 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code of 1986, as amended (the Code). Although the Plan has been amended since then, the Plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

4. Investments Held by the Master Trust

The Master Trust comprises the assets of the UNICare Savings Plan, the Good Humor-Breyer's Savings Plan and the Plan, all affiliated plans of Unilever US. The UNICare Savings Plan comprises approximately 91.6% and 91.5%, respectively, of the investments held by the Master Trust as of December 31, 2006 and 2005. The Plan has an undivided interest in the assets of the Master Trust. Certain investment assets of the Master Trust, related earnings and expenses are allocated to the plans participating in the Master Trust based upon the total of each individual participant's share of the Master Trust. On an overall basis, the Plan has an 8.2% and 8.0% interest in the investments of the Master Trust as of December 31, 2007 and 2006, respectively.

The Plan's approximate share of investments held by the Master Trust at December 31, 2007 and 2006 were as follows:

	2007	2006
Short-term Investment Fund	11.6%	11.2%

Investment Valuation and Income Recognition of Master Trust

Master Trust investments are stated at fair value. Investments in mutual funds are valued at the net asset value of shares held at year end while investments in commingled funds are stated at fair value based on unit values provided by the administrator which are based on market values of the underlying investments. Unilever N.V. common stock is valued at the last close price at end of the year. Short-term investments are valued at amortized cost, which is cost plus accrued interest, which approximates fair value. Investment contracts are stated at fair value based on the sum of the fair value of the underlying investments and the fair value of the wrapper. Fixed rate traditional guaranteed investment contracts and non-participating synthetic fair values are determined using a discounted cash flow method. The fair value for floating rate traditional guaranteed investment contracts is equal to the contracts book value.

Purchases and sales of securities are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date and interest is recorded on the accrual basis.

Investment income for the Master Trust includes net appreciation (depreciation) of investments, as well as, interest and dividends from investments. The net appreciation (depreciation) of investments held in the Master Trust consists of the realized gains (losses) and the unrealized appreciation (depreciation) on these investments.

Investment Contracts

The Master Trust entered into benefit-responsive investment contracts, such as synthetic guaranteed investment contracts, with various third party financial institutions. These benefit-responsive investment contracts are held through the INVESCO (also known as PRIMCO) Interest Income Fund. Contract values represent contributions made to the investment contract plus earnings, less participant withdrawals and administrative expenses.

A synthetic GIC provides for a fixed return on principal over a specified period of time through fully benefit-responsive wrapper contracts issued by third party financial institutions which are backed by underlying assets owned by the Master Trust. The wrapper contract amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer of the wrapper contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate less than zero would result in a loss of principal or accrued interest.

Calculating the Interest Crediting Rate in Wrapper Contracts

The key factors that influence future interest crediting rates for a wrapper contract include:

The level of market interest rates

The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract

The investment returns generated by the fixed income investments that back the wrapper contract

The duration of the underlying investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio. Over time, the crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the underlying investments.

Because changes in the market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the wrapper contract value are presented on the Plan's Statements of Net Assets Available for Benefits as the Adjustment from Fair Value to Contract Value. If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the wrapper contract value is greater than the market value of the underlying investments. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. And if the Adjustment from Fair Value to Contract Value figure is negative, this indicates that the wrapper contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

All wrapper contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the Plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

Events That Limit the Ability of the Plan to Transact at Contract Value

Savings Plan for Union Employees of Unilever
Notes to Financial Statements
December 31, 2007 and 2006

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract. The events described above that could result in the payment of benefits at market value rather than contract value are not probable of occurring in the foreseeable future.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the Plan's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

The contract values of the synthetic GICs were approximately \$598 million and \$615 million at December 31, 2007 and 2006, respectively. Included in the contract values of the synthetic GICs are approximately \$(13.8) and \$1.4 million at December 31, 2007 and 2006, respectively, attributable to wrapper contract providers representing the amounts by which the value of the investment contracts are less than, in 2007, and greater than, in 2006, the value of the underlying assets.

As of December 31, 2007 and 2006, the average yields for synthetic GICs were as follows:

Average yields for synthetic GICs	2007	2006
Based on actual earnings	5.13%	5.12%
Based on interest rate credited to participants	4.84%	5.22%

5. Transactions with Related Parties and Parties-in-Interest

The Unilever N.V. Stock Fund invests in shares of Unilever N.V. Stock. This fund is designed as a means for employees to participate in the potential long-term growth of Unilever N.V. The Master Trust held 1,749,310 and 1,728,815 shares at December 31, 2007 and 2006, respectively, of common stock in Unilever N.V. The Master Trust also earned dividend income from the common stock of approximately \$1.7 million and \$2.0 million for the years ended December 31, 2007 and 2006, respectively. The Master trust had sales and purchases of \$28,903,628 and \$28,908,228 respectively, in 2007 and \$25,537,794 and \$20,603,526, respectively, in 2006.

Certain Master Trust investments consist of units in investment funds managed by Fidelity. Fidelity owns these investment funds, and is a party-in-interest as defined by ERISA. In the opinion of the Plan administrator, fees paid during the year for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of the Plan termination, the participant's rights to their accrued benefits are nonforfeitable. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. Effects of New Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an interpretation on FASB Statement No. 109. On January 1, 2007, the Plan adopted FIN 48. This interpretation, clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return. FIN 48 provides guidance on the measurement, recognition, classification and disclosure of tax positions, along with accounting for the related interest and penalty. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) (see Note 3). Accordingly, the adoption of FIN 48 did not have any effect on the Plan's net assets available for benefits and changes in net assets in net assets available for benefits.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. This statement clarifies the definition of fair value, establishes a framework for measuring fair value, and expands the disclosures on fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Plan is currently evaluating the statement's impact on its financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. This statement permits entities to choose to measure eligible financial instruments and certain other items at fair value. The fair value option established by this statement permits all entities to choose to measure eligible items at fair value on a specified election date or according to a pre-existing policy for specified types of eligible items and report unrealized gains and losses on items for which the fair value option has been elected in the net assets available for plan benefits at each subsequent reporting date. It will be effective for fiscal years beginning after November 15, 2007. The Plan is currently evaluating the statement's impact on its financial statements.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities. The new standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable users of the financial statements to better understand their effects on an entity's financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years end interim periods beginning after November 15, 2008, with early application encouraged. The Plan is currently evaluating the statement's impact on its financial statements.
