Chesapeake Energy Corporation (the “Company”) is unable to file, without unreasonable effort or expense, its Annual Report on Form 10-K for the year ended December 31, 2016 (the “Form 10-K”). As described in the Company’s Current Report on Form 8-K furnished on February 23, 2017 (the “Form 8-K”), the Company expects to report a material weakness in its internal control over financial reporting in the Form 10-K. As a result, additional time is needed for the Company to perform additional testing related to the applicable controls and procedures. The Company intends to file the Form 10-K no later than Monday, March 6, 2017.

If the answer is no, identify report(s).

Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company expects to report a net loss of \$4.399 billion for the year ended December 31, 2016, as compared to a net loss of \$14.635 billion for the year ended December 31, 2015. The primary drivers of the net loss were noncash impairments of the carrying value of the Company’s oil and natural gas properties totaling \$2.564 billion, largely resulting from decreases in the trailing 12-month average first-day-of-the-month oil and natural gas prices used in the Company’s impairment calculations, Barnett Shale exit costs of approximately \$645 million, and unrealized hedging losses of \$818 million as prices marginally recovered. The financial information set forth herein consists of unaudited results, which will not be final until the Company files its audited financial statements in its Form 10-K for the fiscal year ended December 31, 2016.

The statements included in this Form 12b-25 regarding our financial performance and results of operations, in each case as expected to be reported, expected filing date of the Form 10-K and other statements that are not historical facts are “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Although we believe the expectations and forecasts reflected in our forward-looking statements are reasonable, we can give no assurance they will prove to have been correct. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those indicated. Factors that could cause actual results to differ materially from expected results include the results and finalization of the Company’s financial statements, audit and reviews and those described under Risk Factors in our most recent Form 10-K and other filings with the U.S. Securities and Exchange Commission.
