Hurricane Rita Delays Global Industries, Ltd. Third Quarter Earnings Release and Form 10-Q Filing

Carlyss, Louisiana, (October 28, 2005) **Global Industries, Ltd.** (Nasdaq: **GLBL**) announced today that as a result of Hurricane Rita it has delayed its third quarter earnings release and conference call as well as the anticipated filing date for its quarterly report on Form 10-Q for the quarter ended September 30, 2005.

Although Hurricane Rita caused only minor damage to Global's productive assets and corporate headquarters in Carlyss, Louisiana, the catastrophic effects of the storm on Southwest Louisiana did temporarily disrupt the Company's access to the personnel, facilities and information technology resources needed to close its financial accounting books for the third quarter and prepare and review the related disclosures. This delay was primarily caused by the temporary dislocation of Global's corporate accounting personnel and the lack of basic services in the Greater Lake Charles, Louisiana region during the weeks immediately following the landfall of the storm. Mr. Doré, Chairman and Chief Executive Officer, said "Global's employees made extraordinary efforts to keep the Company's Gulf of Mexico offshore operations functioning during the immediate aftermath of the storm and to minimize the disruption to the Company's administrative activities even though many employees suffered serious damage to their homes from the storm."

The Company currently intends to issue its third quarter earnings release on Wednesday, November 16, 2005, hold a conference call on Thursday, November 17, 2005, and file its quarterly report on Form 10-Q by November 23, 2005.

Global Industries provides pipeline construction, platform installation and removal, diving services, and other marine support to the oil and gas industry in the Gulf of Mexico, West Africa, Asia Pacific, the Mediterranean, Middle East/India, South America, and Mexico's Bay of Campeche. The Company's shares are traded on The NASDAQ National Market under the symbol "GLBL."

This press release may contain forward-looking information based on current information and expectations of the Company that involve a number of risks, uncertainties, and assumptions. Among the factors that could cause the actual results to differ materially are: industry conditions, prices of crude oil and natural gas, the Company's ability to obtain and the timing of new projects, and changes in competitive factors. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual outcomes could vary materially from those indicated.
