PRESS RELEASE

FOR IMMEDIATE PUBLICATION

CGI issues unaudited results for fourth quarter ended September 30, 2003 and guidance for fiscal 2004

*Revenue up 21.4% year-over-year
Improved profitability; net earnings margin up to 6.9%
Results in-line with guidance*

Montreal, Quebec, October 28, 2003 - CGI Group Inc. (CGI) (TSX: GIB.A; NYSE: GIB;) a leading provider of end-to-end information technology and business processing services, today announced unaudited results for its fiscal 2003 fourth quarter ended September 30, 2003.

Revenue in the fourth quarter increased 21.4% to CDN\$694.2 million from revenue of \$571.9 million reported in last year's fourth quarter. Contract bookings in the fourth quarter were \$2.2 billion, including new contracts, extensions and renewals of \$752.3 million and extensions with the BCE family of \$1.5 billion. Year-over year organic revenue growth in the quarter was 2.5%. The currency exchange rate, mainly between the Canadian and US dollar, impacted year-over-year growth by \$14.9 million. Compared to the third quarter, revenue was impacted \$23.0 million by the seasonality of summer vacations, \$2.0 million as a result of the power outage in Ontario and parts of the US and \$1.5 million in currency fluctuations.

Consistent with the Company's decision to reevaluate all contracts and assets acquired from Cognicase, CGI made a decision in the fourth quarter to sell certain operations representing annualized revenue of approximately \$65 million. The sale of certain assets to Nexxlink, announced on October 21, 2003, represented approximately \$40 million in revenue and the balance relates to non-core operations that the Company is in the process of selling. In line with generally accepted accounting principles with respect to the disposal of long-lived assets and discontinued operations, CGI's second, third and fourth quarter fiscal 2003 results were all adjusted to reflect financial results that exclude the impact of these discontinued operations. The impact on revenue was a reduction of \$15.9 million in the fourth quarter of fiscal 2003, \$17.9 million in the third quarter and \$15.8 million in the second. Consequently, revenue was \$694.2 million in the fourth quarter, \$716.2 million in the third quarter and \$720.3 million in the second quarter.

Net earnings from continuing operations in the fourth quarter increased 34.2% to \$47.7 million, compared with net earnings of \$35.5 million in the same period of 2002, and increased 2.0% from comparable net earnings from continuing operations of \$46.8 million in the third quarter. The corresponding net earnings margin improved to 6.9% in the fourth quarter, compared with 6.2% last year and 6.5% in the third quarter. Basic and

diluted earnings per share from continuing operations were \$0.12 in the fourth quarter, against comparable basic and diluted earnings per share of \$0.09 in last year's fourth quarter and \$0.12 in the third quarter. The year-over-year increase in net earnings and the significant improvement in net earnings margin were a function of several factors including the improved profitability of the Company's US and European operations, tighter cost management company-wide and the actions taken to sell certain operations or discontinue unprofitable operations or contracts over the last several quarters.

While audited numbers are not yet complete, cash flow from operations was strong and the Company was able to pay down \$90.0 million of its credit facilities during the quarter.

Guidance for fiscal 2004

Based on information known today about current market conditions and demand, CGI anticipates base revenue and earnings per share growth ranging between 8% and 17% for its 2004 fiscal year. This excludes the impact of any acquisition or large outsourcing contract contributing more than \$100 million per year in revenue or the impact of significant foreign currency fluctuations.

Serge Godin, Chairman and CEO of CGI, said, "We are very proud of what we have accomplished this quarter and over the last year, and with our larger, stronger and more profitable operations, look forward to the opportunities for growth in 2004 and beyond. With annualized revenue at \$2.8 billion, we are on track to achieve our goal to become a world-class IT and BPO champion."
