PROSPECTUS SUMMARY

SUMMARY

This summary highlights information contained elsewhere in this prospectus. This summary is not complete and may not contain all of the information that you should consider before investing in the new notes. You should read the entire prospectus carefully, including the "Risk Factors" section and the financial statements and notes to these statements contained or incorporated by reference in this prospectus or in our filings with the Securities and Exchange Commission. For purposes of the financial information contained in this prospectus, PPM Cranes, Inc. has been treated as a subsidiary guarantor of the

Edgar Filing: TEREX CORP - Form S-4

new notes. All references in this prospectus to "we," "us," "our," "Terex" or the "Company" mean Terex Corporation and its subsidiaries, unless indicated otherwise.

The Company

We are a diversified global manufacturer of a broad range of equipment for the construction, infrastructure and mining industries. We are building a strong franchise under the Terex brand name by delivering reliable, cost-effective products designed to improve our customers' return on invested capital. Our products are manufactured at plants in the United States, Europe, Australia and Asia, and are sold primarily through a worldwide distribution network with over 1,000 locations to the global construction, infrastructure and surface mining markets.

We currently operate in three business segments: Terex Americas, Terex Europe and Terex Mining. The focus of Terex Americas and Terex Europe is geographic. Terex Americas includes the business units located in North and South America, Australia and Asia, with the exception of those business units included within Terex Mining. Terex Europe includes the business units located in Europe, with the exception of those business units included within Terex Mining. While our business is becoming increasingly global, the geographic organization of these segments reflect our belief that our business is a local one that can best be developed and served by focusing our operations geographically, rather than by product, and by developing local relationships among equipment users, distribution channels and the manufacturer.

The Terex Mining business segment includes the results of our mining equipment operations in Tulsa, Oklahoma, and in Germany and certain sales offices in Australia, South America and Africa. The Terex Mining business is organized under product lines and not geographic lines because of the worldwide scope of the mining business. In the mining industry, manufacturers and customers are located in various areas around the globe, with many customers operating multiple sites in widely dispersed locations, with the result that local geographic concerns are far less significant than a manufacturer's global range. Terex Americas and Terex Europe

The Terex Americas and Terex Europe segments manufacture and sell telescopic mobile cranes (including rough terrain, truck and all terrain mobile cranes), tower cranes (including self-erecting, hammerhead, flat top and luffing jib tower cranes), lattice boom cranes, utility aerial devices (including digger derricks and articulated aerial devices), telescopic material handlers (including container stackers and rough terrain, telescopic boom material handlers), truck-mounted cranes (boom trucks), aerial work platforms (including scissor, articulated boom and straight telescoping aerial work platforms), loader backhoes, articulated and rigid off-highway trucks, scrapers, crushing and screening equipment, asphalt pavers, asphalt mixing plants, and related components and replacement parts. In addition, the Terex Americas and Terex Europe segments manufacture and sell various light construction equipment, including mobile and portable floodlighting systems, concrete power trowels, concrete placement systems, concrete finishing systems, concrete mixers, generators, traffic control products, and related components and replacement parts.

Terex Mining

The Terex Mining segment manufactures and sells large hydraulic excavators and high capacity surface mining trucks.

Our principal executive offices are located at 500 Post Road East, Suite 320, Westport, Connecticut 06880, and our telephone number is (203) 222-7170.

Recent Developments

Restructuring Program

During the third quarter of 2001, we announced that a number of our production facilities would reduce staffing, 11 facilities would be consolidated and that related non-recurring expenses would be incurred. The restructuring program is designed to maximize factory utilization and to leverage common purchasing, engineering and marketing operations in the Americas and Europe. The plan is expected to be fully implemented by the end of the second quarter of 2002.

Acquisition of CMI Corporation

On October 1, 2001, we acquired CMI Corporation, a manufacturer and marketer of a wide variety of mobile equipment and materials processing equipment for the road building and heavy construction industry. CMI products include asphalt and concrete mixing plants, road profiling and reclaiming equipment, concrete paving systems and landfill compactors and grinders. In connection with the acquisition of CMI, we issued approximately 3.6 million shares of our common stock in exchange for all of the shares of CMI common stock.

Acquisition of Atlas Weyhausen GmbH and the Schaeff Group

On November 26, 2001, we announced our plan to acquire Atlas Weyhausen GmbH, also known as Atlas. On the same date we also announced that we entered into an agreement to acquire the Schaeff group of companies, also known as Schaeff. Atlas is a German manufacturer of wheeled excavators and truck mounted articulated cranes. Atlas competes primarily in two product categories: wheeled excavators from 11 to 20 tons and truck mounted articulated cranes. Schaeff is a German manufacturer of compact construction equipment and a full range of scrap material handlers. Schaeff competes primarily in four product categories: mini-excavators ranging from 1.5 to 5.5 tons, midi-excavators ranging from 6.5 to 11 tons, wheel loaders ranging from 50 to 140 hp, and scrap material handlers ranging from 20 to 65 tons. The Atlas transaction closed on December , 2001. The Schaeff transaction, which remains subject to customary closing conditions, including necessary regulatory approvals, is anticipated to close in early 2002.

Equity Offering

On December 10, 2001, we sold 5.75 million shares of our common stock in an equity offering. The net proceeds of our equity offering of approximately \$96.1 million was used to repay outstanding indebtedness under our revolving credit facility and for general corporate purposes.

Business Strategy

Over the past several years, we have implemented a series of interrelated operational and strategic initiatives designed to create a competitive advantage in the marketplace and maximize our financial performance. These initiatives include: (i) providing our customers with lower cost products to increase their return on invested capital; (ii) implementing a variable cost structure with over 80% of cost of sales from purchased components; (iii) reducing selling expense and eliminating non-value-added functions throughout the organization; and (iv) increasing our product and geographic diversity through internal development and acquisitions.

Increase Sales and Market Share Through Best Value Strategy--We have

Edgar Filing: TEREX CORP - Form S-4

increased our sales and gained market share by pursuing our best value strategy of providing comparable or superior products at lower prices:

- o We produce reliable and easy to maintain products designed to provide our customers with a lower total cost of ownership and higher returns on invested capital as compared to our competitors.

2

- o We typically price our products 10% to 25% below our competition while providing the same level of functionality.

Examples of our best value strategy include:

- o Our lifting equipment customers are primarily equipment rental companies which base rental rates solely on lifting capacity. We believe our lower-cost, easy-to-use products provide these customers with enhanced returns on invested capital. As a result, we believe our position in the U.S. commercial hydraulic mobile crane market has grown from number four in 1994 to a current leading market position.
- o We believe our diesel-electric drive surface mining trucks are more reliable and cost efficient than mechanical drive alternatives offered by competitors. As a result, we believe we have more than tripled our global market share from 1997 to 2000, and have a leading global market position in surface mining trucks.
- o In our opinion, Terex articulated off-highway trucks offer comparable or superior performance at a total cost of up to 20% lower than our competitors. As a result, we believe our global market share in off-highway trucks more than doubled from 1997 to 2000.
- o We believe our hydraulic mining shovels offer higher mobility and greater operating time at a lower initial investment than comparably sized alternatives sold by competitors, and as a result, we believe we are a global market leader in hydraulic mining shovels over 200 tons.

Reduce Costs and Improve Manufacturing Efficiency--Our best value strategy is supported by ongoing efforts to reduce costs and improve manufacturing efficiency. Over the past few years, we have initiated several programs to consolidate manufacturing operations, minimize selling costs, outsource non-critical manufacturing processes and rationalize product lines in order to increase profitability and reduce fixed costs. We believe our focus on reducing costs and improving manufacturing efficiency has yielded significantly more efficient and flexible operations than our competitors as measured by our:

- o Comparatively low selling, general and administrative expense to sales ratio;
- o significantly higher sales per employee; and
- o greater capital efficiency (based on the ratio of capital expenditures to sales).

Some recent examples of our cost reduction initiatives include:

- o Since our acquisition of Powerscreen International plc in July 1999, the number of employees at Powerscreen has been reduced by approximately 250, and since our acquisition of Cedarapids, Inc. in August 1999, the number of employees at Cedarapids has been reduced by

Edgar Filing: TEREX CORP - Form S-4

more than 525. Overall, we estimate these cost reduction initiatives have reduced annual operating expenses by over \$22.5 million in the aggregate.

- o Since our acquisition of Ferrec Holdings Limited in December 2000, the number of employees at Ferrec has been reduced by approximately 135. We also reduced costs at Ferrec through improved purchasing, outsourcing of fabrication and other selling, general and administrative expense reductions. Overall, we estimate these cost reduction initiatives have reduced annual operating expenses by over \$9 million.
- o In connection with the restructuring plan announced in the third quarter of 2001, we plan to consolidate 11 factory locations, including four CMI facilities, reducing headcount by approximately 1,225. Overall, we estimate these cost reduction initiatives will reduce annual operating expenses by approximately \$40 million.

3

Focus on Geographic, Product and End-Market Diversification--Over the past several years we have focused on growing and improving the operations of our core business segments. We have also expanded the size and scope of our core businesses both through acquisitions and through development of new products in order to increase our market share. Management believes that these initiatives have helped to reduce the effect of potential cyclical changes in any one product category or geographic market. These initiatives have also expanded our product lines within our core businesses, added new technology and improved our distribution network.

- o We have developed a geographically diverse revenue base with approximately one-half of our revenues derived outside the United States.
- o We have built a diverse product portfolio addressing a range of end-markets:

Product Category	Percentage of 2000 Sales
Crushing, Screening & Paving Equipment	20
Off-Highway Trucks	18
Hydraulic Mobile Cranes	14
Material Handlers	8
Utility Aerial Devices	8
Surface Mining Trucks	8
Hydraulic Mining Shovels	7
Aerial Work Platforms	4
Tower Cranes	3
Lattice Boom Cranes	3
Container Stackers	3
Boom Trucks	2
Light Construction	2

Total	100%

Grow through Acquisitions--During the past several years, we have invested over \$1.1 billion to strengthen our core business segments and complementary businesses through over 20 strategic acquisitions. We expect that acquisitions

Edgar Filing: TEREX CORP - Form S-4

will continue to be an important component of our growth strategy and we are continually reviewing opportunities to make additional acquisitions, some of which, individually or in the aggregate, could be material. As with our previous acquisitions, we will continue to pursue strategic acquisitions which accomplish the following goals:

- o complement our core operations;
- o offer cost reduction opportunities as well as distribution and purchasing synergies;
- o provide product diversification; and
- o provide geographic diversification.

Offer We are offering to exchange up to \$200,000,000 aggregate principal amount of our new 9-1/4% Senior Subordinated Notes due 2011, or new notes, which have been registered under the Securities Act of 1933, for a like amount of our outstanding 9-1/4% Senior Subordinated Notes due 2011, or old notes, which we issued on December 17, 2001 in a private offering. To exchange your old notes, you must properly tender them by following the procedures under the heading "The Exchange Offer" and we must accept them.

Withdrawal

Rights You may withdraw the tender of your old notes at any time before 5:00 p.m., New York City time, on the expiration date. If we decide for any reason not to accept any old notes for exchange, we will return your old notes without expense to you promptly after the expiration or termination of the exchange offer.

Conditions to the Exchange

Offer The exchange offer is subject to customary conditions, some of which we may waive. We reserve the right to terminate and amend the exchange offer at any time if any such condition occurs before the expiration date.

Interest Payments.. The new notes will bear interest from the date issued. Interest on your old notes accepted for exchange will cease to accrue upon issuance of the new notes.

Procedures for Tendering old notes

notes If you are a holder of old notes who wishes to accept the exchange offer for new notes:

- o you must complete, sign and date the accompanying Letter of Transmittal, or a facsimile thereof and mail or otherwise deliver it, together with your old notes, to the exchange agent at the address set forth under

Edgar Filing: TEREX CORP - Form S-4

"The Exchange Offer-Exchange Agent;" or

- o arrange for The Depository Trust Company to transmit certain required information to the exchange agent in connection with a book-entry transfer.

Do not send Letters of Transmittal and certificates representing old notes to us.

By tendering your old notes in this manner, you will be representing, among other things, that:

- o the new notes you acquire pursuant to the exchange offer are being acquired in the ordinary course of your business;
- o you are not participating, do not intend to participate, and have no arrangement or understanding with any person to

5

participate, in the distribution of the new notes issued to you in the exchange offer;

- o you are not an "affiliate" of ours; and
- o you are not a broker-dealer, and if you are a broker-dealer that you will receive the new notes for your own account, you will deliver a prospectus on resale of your new notes and that you acquired your old notes as a result of market making activities or other trading activities.

Special Procedures for Beneficial

Owners If you are a beneficial owner whose old notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and wish to tender your old notes in the exchange offer, please contact the registered owner as soon as possible and instruct it to tender on your behalf. If you wish to tender on your own behalf, you must, prior to completing and executing the Letter of Transmittal and delivering your old notes, either arrange to have your old notes registered in your name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take considerable time.

Guaranteed

Delivery Procedures If you wish to tender your old notes and time will not permit your required documents to reach the exchange agent by the expiration date, or the procedure for book-entry transfer cannot be completed on time, you may tender your old notes according to the guaranteed delivery procedures set forth in "The Exchange Offer-Procedures for Tendering."

Appraisal or Dissenters'

Rights Owners of old notes do not have any appraisal or dissenters'

Edgar Filing: TEREX CORP - Form S-4

rights in the exchange offer.

Consequences of

Not Exchanging

old notes If you do not tender your old notes or we reject your tender, you will not be entitled to any further registration rights or exchange rights, except under limited circumstances, and your old notes will continue to be subject to certain restrictions on transfer. However, your old notes will remain outstanding and entitled to the benefits of the indenture governing the new notes.

Resales We believe that you can offer for resale, resell or otherwise transfer the new notes without complying with further registration and prospectus delivery requirements of the Securities Act if you make the representations described above under "Procedures for Tendering old notes."

We base our belief on interpretations by the Securities and Exchange Commission staff in no-action letters issued to other issuers in exchange offers like ours. We cannot guarantee that the Securities and Exchange Commission would make a similar decision about our exchange offer.

If our belief is wrong, you could incur liabilities under the Securities Act. We will not protect you against any loss incurred as a result of this liability under the Securities Act.

6

If you are unable to make any of such representations and you transfer any new notes without delivering a proper prospectus or without qualifying for a registration exemption, you may incur liability under the Securities Act and applicable state securities laws. We will not assume or indemnify you against such liability.

Federal Tax

Consequences Your exchange of old notes for new notes pursuant to the exchange offer generally will not result in any gain or loss to you for United States federal income tax purposes. For more information, see "Certain United States Federal Income Tax Consequences."

Use of Proceeds ... We will receive no proceeds from the exchange offer. We will pay all of our expenses related to the exchange offer.

Exchange Agent The Bank of New York.

Summary Terms of the New Notes

The exchange offer relates to the exchange of up to \$200,000,000 aggregate principal amount of the old notes for an equal aggregate principal amount of new notes. The form and terms of the new notes will be the same as the form and terms of the old notes, except that the new notes will be registered under the Securities Act and, therefore, will not bear legends restricting the transfer thereof. The new notes will evidence the same debt as the old notes and will be entitled to the benefits of the Indenture. See "Description of the New Notes" for a more complete description of the new notes.

Edgar Filing: TEREX CORP - Form S-4

Issuer Terex Corporation

Securities

Offered \$200,000,000 aggregate principal amount of 9-1/4% Senior Subordinated Notes due 2011

Maturity July 15, 2011

Interest Payment

Dates We will pay interest on the new notes semi-annually on January 15 and July 15 of each year, beginning July 15, 2002.

Ranking The new notes will be our senior subordinated unsecured obligations. They will rank senior in right of payment to any of our future subordinated indebtedness, equal in right of payment with any of our existing and future senior subordinated indebtedness, and subordinated in right of payment to any of our existing and future senior indebtedness. The new notes will be effectively subordinated to indebtedness and other liabilities of our subsidiaries which are not guarantors. As of September 30, 2001, on a pro forma basis after giving effect to (i) the offering of old notes and our equity offering consummated on December 10, 2001 and our intended use of proceeds from these offerings and (ii) our acquisition of CMI Corporation on October 1, 2001, we would have had approximately \$274 million of senior indebtedness and approximately \$746 million of senior subordinated indebtedness, our subsidiaries which are guarantors would have had approximately \$15 million of senior indebtedness, and our subsidiaries which are not guarantors would have had approximately \$65 million of indebtedness.

7

Guarantees Substantially all of our domestic subsidiaries will guarantee the new notes with unconditional guarantees of payment that will effectively rank below their senior debt, but will rank equal to their other senior subordinated debt, in right of payment.

Optional Redemption

by Us Except in the case of certain equity offerings by us, we cannot choose to redeem the new notes until January 15, 2007. At any time after that date (which may be more than once), we can choose to redeem some or all of the new notes at certain specified prices plus accrued interest.

Optional Redemption after Equity

..... Offerings At any time (which may be more than once) before January 15, 2005, we can choose to redeem up to 33.3% of the outstanding new notes with money that we raise in one or more public equity offerings (not including our equity offering consummated on December 10, 2001), as long as we pay 109.25% of the principal amount of the new notes plus accrued interest and at least 65% of the new notes originally issued remain outstanding afterwards. See "Description of the New Notes--Optional Redemption."

Edgar Filing: TEREX CORP - Form S-4

- Change of Control Upon a change of control, each holder may require us to repurchase all or a portion of the new notes at a purchase price of 101% of their principal amount plus accrued interest, if any, to the date of purchase. See "Description of the New Notes--Change of Control."
- Covenants The indenture will contain covenants that limit what we (and most or all of our subsidiaries) may do. The indenture will limit our ability to:
- o incur additional indebtedness;
 - o pay dividends and make distributions;
 - o make certain investments;
 - o permit payment or dividend restrictions on certain of our subsidiaries;
 - o transfer and sell assets;
 - o create certain liens;
 - o engage in certain transactions with affiliates;
 - o issue stock of subsidiaries; and
 - o consolidate or merge or sell all or substantially all of our assets and the assets of our subsidiaries.

In addition, we will be obligated to offer to repurchase the new notes at a price of 100% of their principal amount plus accrued interest to the date of repurchase in the event of certain asset sales.

These restrictions and prohibitions are subject to a number of important qualifications and exceptions. See "Description of the New Notes--Certain Covenants."

8

For more complete information about the notes, see the "Description of the New Notes" section of this prospectus.

Risk Factors

See "Risk Factors" beginning on page 9 for a discussion of certain factors that you should consider before participating in the exchange offer.

RISK FACTORS

You should carefully consider the following risk factors in connection with the exchange offer and your decision to exchange your old notes for new notes. You should also consider the other information contained or incorporated by reference in this prospectus.

This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those

Edgar Filing: TEREX CORP - Form S-4

anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us described below and elsewhere in this prospectus.

Risks Relating to the Exchange Offer

You are responsible for compliance with exchange offer procedures; You will not receive notice from the exchange agent or us of defects or irregularities in your tender your old notes.

Issuance of the new notes in exchange for your old notes pursuant to this exchange offer will be made only after a timely receipt by us of your old notes, a properly completed and signed Letter of Transmittal and all other required documents. Therefore, if you desire to tender your old notes in exchange for new notes you should allow sufficient time to ensure timely delivery. Neither the exchange agent nor us are under any duty to give notification of defects or irregularities in the tender of your old notes for exchange. Old notes that are not tendered or are tendered but not accepted for exchange will, following the completion of this exchange offer, continue to be subject to the existing restrictions on transfer of the old notes and, upon completion of this exchange offer, our obligation to register your old notes will terminate.

There may be consequences if you do not exchange your old notes for new notes.

If you do not exchange your old notes for the new notes pursuant to the exchange offer, you will continue to be subject to the restrictions on transfer of your old notes described in the legend on your old notes. In general, you may only offer or sell the old notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold pursuant to an exemption from such requirements. We do not intend to register the old notes under any law. In addition, if you exchange your old notes in the exchange offer for the purpose of participating in a distribution of the new notes, you may be deemed to have received restricted securities and, if so, will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction. To the extent old notes are tendered and accepted in the exchange offer, the trading market, if any, for the old notes would be damaged. For more information on the consequences of not exchanging your old notes, see "The Exchange Offer - Consequences of Failure to Exchange."

Risks Related to the Offering of the New Notes

Our significant debt levels may limit our future ability to obtain additional financing and to pursue business opportunities.

As of September 30, 2001, we had total debt of approximately \$1,038 million, which represented approximately 70% of our total capitalization. The proceeds from the sale of the old notes were used primarily to repay some of our debt. On a pro forma basis as of September 30, 2001, after giving effect to the sale of our old notes and our equity offering consummated on December 10, 2001 and our intended use of proceeds from these offerings and our acquisition of CMI Corporation on October 1, 2001, our total debt would have been approximately \$1,020 million, which would have represented approximately 63% of our total capitalization.

9

There are several important consequences of having debt, including the following:

- o a portion of our cash from operating activities will be used to pay

Edgar Filing: TEREX CORP - Form S-4

principal and interest on our debt;

- o competitive pressures and adverse economic conditions are more likely to have a negative effect on our business; and
- o our ability to make acquisitions and to take advantage of significant business opportunities may be negatively affected.

Our ability to pay the required interest and principal payments on our debt depends on the future performance of our business. The performance of our business is subject to general economic conditions and other financial and business factors. Many of these factors are beyond our control. If we do not have enough cash flow in the future to pay the required interest or principal payments on our debt, we may be required to refinance all or a part of our debt or borrow additional amounts. We do not know if refinancing our debt will be possible at that time or if we will be able to find someone who will lend us more money.

In addition, because part of our debt bears interest at floating rates, an increase in interest rates could adversely affect our ability to make the required interest and principal payments on our debt.

Our inability to comply with the restrictive debt covenants contained in the Indenture for the notes could lead to an acceleration of our debt under our debt agreements and possibly bankruptcy.

The indenture for the notes and our other existing debt agreements contain a number of significant covenants. These covenants limit our ability to, among other things, borrow additional money, make capital expenditures, pay dividends, dispose of assets and acquire new businesses. These covenants also require us to meet certain financial tests. Changes in economic or business conditions, results of operations or other factors could cause us to default under our debt agreements. If we are unable to comply with these covenants, there would be a default under our debt agreements. A default, if not waived by our lenders, could result in acceleration of our debt and possibly bankruptcy.

Since the notes are senior subordinated debt, there may not be sufficient assets to pay amounts owed on the notes if a default occurs.

The notes will be subordinated to the prior payment in full of all existing and future senior indebtedness and equal in right of payment with all other existing and future senior subordinated indebtedness. The guarantees of our subsidiaries will be subordinated to the prior payment in full of all senior indebtedness of each subsidiary that is a guarantor of the notes, including obligations under our bank credit facility, and equal in right of payment with all other existing and future senior subordinated indebtedness of each such subsidiary. Because of the subordination provisions of the notes, in the event of our bankruptcy, liquidation or reorganization, our assets and the assets of any of our subsidiaries that are guarantors of the notes would be available to pay obligations on the notes only after all payments have been made on our senior indebtedness and the senior indebtedness of such subsidiary guarantors.

We cannot assure you that there will be sufficient assets remaining after all payments have been made to pay amounts due on the notes then outstanding. As of September 30, 2001, on a pro forma basis after giving effect to (x) the issuance of the old notes and our equity offering consummated on December 10, 2001 and our intended use of proceeds from these offerings and (y) our acquisition of CMI Corporation on October 1, 2001, we would have had (i) approximately \$274 million of senior indebtedness outstanding (excluding unused commitments), (ii) approximately \$746 million of senior subordinated indebtedness outstanding and (iii) approximately \$1,020 million of total indebtedness outstanding, and the subsidiary guarantors would have had

Edgar Filing: TEREX CORP - Form S-4

approximately \$15 million of indebtedness outstanding, all of which is senior indebtedness. In addition, certain events of default under our senior indebtedness would prohibit us from making any payments on the notes, including payments on interest when due. The term "senior indebtedness" is defined in the "Description of the New Notes" section of

10

this prospectus. We are permitted to incur substantial additional indebtedness, some or all of which may be senior indebtedness.

Some but not all of our subsidiaries will guarantee the notes. Claims of creditors of any subsidiaries which do not guarantee the notes, including trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by such subsidiaries, will generally have priority with respect to the assets and earnings of such subsidiaries over our claims or those of our creditors, including holders of the notes, even if the obligations of those subsidiaries do not constitute senior indebtedness. As of September 30, 2001, on a pro forma basis after giving effect to the issuance of the old notes and our intended use of proceeds from the offering, our subsidiaries that are not guarantors would have had approximately \$65 million of indebtedness outstanding.

In addition to being subordinated to all of our senior indebtedness, the notes will not be secured by any of our assets or the assets of the subsidiaries that are guarantors of the notes. Our obligations and the obligations of the subsidiary guarantors under our bank credit facility are secured by a security interest in substantially all of our property and such subsidiary guarantors, including inventory, equipment, receivables and intangible assets such as licenses, trademarks and customer lists. If we become insolvent or are liquidated, or if payment under our bank credit facility is accelerated, lenders under the bank credit facility would be entitled to exercise the remedies available to a secured lender. Therefore, our bank lenders will have a claim on such assets before the holders of the notes. See "Description of Certain Indebtedness." We cannot assure you that the liquidation value of our assets would be sufficient to repay in full the indebtedness under the bank credit facility and our other indebtedness, including the notes.

As a result of fraudulent conveyance laws, a court could void a guarantee of a subsidiary, in which event noteholders would cease to have a claim against such subsidiary guarantor.

Although laws differ among various jurisdictions, in general, under fraudulent conveyance laws, a court could subordinate or avoid any guarantee and require noteholders to return payments received from guarantors if it found that the guarantee was incurred with actual intent to hinder, delay or defraud creditors or the guarantor did not receive fair consideration or reasonably equivalent value for the guarantee and the guarantor was any of the following:

- o insolvent or was rendered insolvent because of the guarantee,
- o engaged or about to engage in a business or transaction for which its remaining assets constituted unreasonably small capital, or
- o intended to incur, or believed or reasonably should have believed that it would incur, debts beyond its ability to pay at maturity.

If a court voided a guarantee as a result of fraudulent conveyance, or held it unenforceable for any other reason, noteholders would cease to have a claim against such guarantor and would be solely creditors of the Company.

It may not be possible for us to purchase notes on the occurrence of a change of

Edgar Filing: TEREX CORP - Form S-4

control.

Upon the occurrence of a change in control, you may require us to purchase all or a portion of your notes, and the holders of our currently outstanding \$300 million 10-3/8% Senior Subordinated Notes due 2011 and our \$250 million 8-7/8% Senior Subordinated Notes due 2008 may require us to repurchase all or any portion of their notes. If a change in control were to occur, we may not have enough funds to pay the purchase price for all tendered notes. Any future credit agreements or other agreements relating to our indebtedness may contain provisions that prohibit the purchase of the notes and the currently outstanding senior subordinated notes upon a change in control or may provide that a change in control constitutes an event of default under that agreement. If a change in control occurs at a time when we are prohibited from purchasing the notes and the currently outstanding senior subordinated notes, we could seek the consent of our lenders to purchase the notes and the currently outstanding senior subordinated notes or could attempt to refinance this debt. If we do not obtain a consent, we could not purchase the notes and the currently outstanding senior subordinated notes. Our failure to purchase tendered notes and the currently outstanding senior subordinated notes would constitute an event of default under the indenture, which might constitute a default under the terms of our other debt. In such circumstances, or if a change in control would constitute an event of default under our senior

11

indebtedness, the subordination provisions of the indenture would restrict payments to you. The term "change in control" is limited to certain specified transactions and may not include other events that may harm our financial condition. Our obligation to offer to purchase the notes upon a change in control would not necessarily afford you protection in the event of a highly leveraged transaction, reorganization, merger or similar transaction involving us. The term "change of control" is defined in the "Description of the New Notes--Certain Definitions" section.

You cannot be sure that an active trading market will develop for the new notes.

The new notes are being offered to the holders of the old notes. The old notes were issued on December 17, 2001 to a small number of institutional investors and overseas investors and are eligible for trading in the Private Offering, Resale and Trading through Automated Linkages (PORTAL) Market, the National Association of Securities Dealers' screenbased, automated market for trading of securities eligible for resale under Rule 144A. To the extent that old notes are tendered and accepted in the exchange offer, the trading market for the remaining untendered old notes could be adversely affected. There is no existing trading market for the new notes. We do not intend to apply for listing or quotation of the new notes on any exchange. Therefore, we do not know the extent to which investor interest will lead to the development of a trading market or how liquid that market might be, nor can we make any assurances regarding the ability of new note holders to sell their new notes or the price at which the new notes might be sold. Although the initial purchasers of the old notes (the "initial purchasers") have informed us that they currently intend to make a market in the new notes, they are not obligated to do so, and any such market-making may be discontinued at any time without notice. As a result, the market price of the new notes could be adversely affected. Historically, the market for non-investment grade debt, such as the new notes, has been subject to disruptions that have caused substantial volatility in the prices of such securities. Any such disruptions may have an adverse effect on holders of the new notes.

Risks Related to Our Business

Edgar Filing: TEREX CORP - Form S-4

We may face limitations on our ability to integrate acquired businesses.

We expect to continue our strategy of identifying and acquiring businesses with complementary products and services which we believe will enhance our operations and profitability. We may pay for future acquisitions from internally generated funds, bank borrowings, public offerings, private sales of stock or bonds, or some combination of these methods. However, we cannot give any assurance that we will be able to continue to find suitable businesses to purchase or that we will be able to raise the money necessary to complete future acquisitions.

In addition, we cannot guarantee that we will be able to successfully integrate any business we purchase into our existing business or that any acquired businesses will be profitable. The successful integration of new businesses depends on our ability to manage these new businesses and cut excess costs. If we are unable to complete the integration of new businesses in a timely manner, it could have a materially adverse effect on our results of operations and financial condition.

Our business is highly cyclical.

The demand for our products depends upon the general economic conditions of the markets in which we compete. Downward economic cycles result in reductions in sales of our products, which may reduce our profits. General economic conditions were down during 2001 as compared to 2000. We anticipate continuing weak conditions in many of our end markets in the near-term, particularly during the first half of 2002. We have taken a number of steps to reduce our fixed costs and diversify our operations to decrease the negative impact of these cycles.

We operate in a highly competitive industry.

We compete in a highly competitive industry. To compete successfully, our products must excel in terms of quality, price, product line, ease of use, safety and comfort, and we must also provide excellent customer service. The greater financial resources of certain of our competitors may put us at a competitive disadvantage.

We rely on key management.

12

We rely on the management and leadership skills of Ronald M. DeFeo, Chairman of the Board, President and Chief Executive Officer. Mr. DeFeo has an employment agreement with us which expires on December 31, 2001, unless extended by mutual agreement. The loss of his services could have a significant, negative impact on our business.

We are subject to currency fluctuations and other risks from our international operations.

Our products are sold in over 100 countries around the world. Thus, our revenues are generated in foreign currencies, including the Euro, British Pound Sterling, French Franc, German Mark, Italian Lira, Irish Punt, Dutch Gilder and Australian Dollar, while costs incurred to generate those revenues are only partly incurred in the same currencies. Since our financial statements are denominated in U.S. Dollars, changes in currency exchange rates between the U.S. Dollar and other currencies have had, and will continue to have, an impact on our earnings. To date, this impact has not been material on our earnings. To reduce this currency exchange risk, we may buy protecting or offsetting

Edgar Filing: TEREX CORP - Form S-4

positions (known as "hedges") in certain currencies to reduce the risk of an adverse currency exchange movement. We have not engaged in any speculative or profit motivated hedging activities. Although we partially hedge our revenues and costs, currency fluctuations will impact our financial performance in the future.

Our international operations are also subject to a number of potential risks. Such risks include, among others, currency exchange controls, labor unrest, regional economic uncertainty, political instability, restrictions on the transfer of funds into or out of a country, export duties and quotas, domestic and foreign customs and tariffs, current and changing regulatory environments, difficulty in obtaining distribution support and potentially adverse tax consequences. These factors may have an adverse effect on our international operations in the future.

Compliance with environmental and other governmental regulations could be costly and require us to make significant expenditures.

We generate hazardous and nonhazardous wastes in the normal course of our manufacturing operations. As a result, we are subject to a wide range of federal, state, local and foreign environmental laws and regulations. These laws and regulations govern actions that may have adverse environmental effects and also require compliance with certain practices when handling and disposing of hazardous and nonhazardous wastes. These laws and regulations also impose liability for the costs of, and damages resulting from, cleaning up sites, past spills, disposals and other releases of hazardous substances.

Compliance with these laws and regulations requires us to make expenditures. We do not expect that these expenditures will have a material adverse effect on our business or profitability.

THE EXCHANGE OFFER

Purpose and Effect of the Exchange Offer

The old notes were sold by us on December 17, 2001 to the initial purchasers with further distribution permitted only to (i) qualified institutional buyers under Rule 144A under the Securities Act and (ii) persons in offshore transactions in reliance on Regulation S under the Securities Act. In connection with the sale of the old notes, we and the initial purchasers entered into a Registration Rights Agreement which requires us to file with the Securities and Exchange Commission the registration statement of which this prospectus is a part within 60 days of the date of the issuance of the old notes (the "Issuance Date") with respect to a registered offer to exchange the old notes for new notes, identical in all material respects to the old notes, and to use its best efforts to cause such registration statement to become effective under the Securities Act within 150 days of the Issuance Date. We will keep the exchange offer open for not less than 30 days after the date notice of the exchange offer is mailed to the holders. A copy of the Registration Rights Agreement has been filed as an exhibit to the Registration Statement of which this prospectus is a part. The exchange offer is being made pursuant to the Registration Rights Agreement to satisfy our obligations thereunder.

Resale of New Notes

We believe that, except as described below, the new notes issued pursuant to the exchange offer in exchange for old notes may be offered for resale, resold and otherwise transferred by any holder of the new notes (other than any holder which is a broker-dealer or an "affiliate" of ours within the meaning of

Edgar Filing: TEREX CORP - Form S-4

Rule 405 under the Securities Act) without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that:

- (i) you acquired such new notes in the ordinary course of your business;
- (ii) you have no arrangement or understanding with any person to participate in the distribution of such new notes; and
- (iii) you are not engaged in, and do not intend to engage in, a distribution of such new notes.

By tendering old notes for new notes, you will represent to us, that:

- (i) the new notes issued in the exchange offer are being acquired in the ordinary course of business of the person receiving the new notes, whether or not such person is the holder;
- (ii) neither you nor any such other person is engaging in or intends to engage in a distribution of such new notes;
- (iii) neither you nor any such other person has an arrangement or understanding with any person to participate in the distribution of such new notes within the meaning of the Securities Act; and
- (iv) neither you nor any such other person is an affiliate of ours.

In the event that you cannot make the requisite representations to us, you cannot rely on such interpretation by the staff of the Securities and Exchange Commission and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a secondary resale transaction. Unless an exemption from registration is otherwise available, any such resale transaction should be covered by an effective registration statement containing the selling security holders information required by Item 507 of Regulation S-K under the Securities Act. This prospectus may be used for an offer to resell, resale or other retransfer of new notes only as specifically set forth herein.

We base our belief on interpretations by the Securities and Exchange Commission staff in no-action letters issued to other issuers in exchange offers like ours. We have not, however, asked the Securities and Exchange Commission to consider this particular exchange offer in the context of a no-action letter. Therefore, you cannot be sure that the Securities and Exchange Commission will treat this exchange offer in the same way it has treated other exchange offers in the past. If our belief is wrong, you could incur liabilities under the Securities Act. We will not protect you against any loss incurred as a result of this liability under the Securities Act.

Each broker-dealer that receives new notes for its own account in exchange for old notes, where such old notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of such new notes, and that it has not entered into any arrangement or understanding with us or any affiliate of ours to distribute new notes in connection with any resale of such new notes. See "Plan of Distribution."

Terms of the Exchange Offer

Upon the terms and subject to the conditions set forth in this prospectus and in the Letter of Transmittal, we will accept for exchange any and all old

Edgar Filing: TEREX CORP - Form S-4

notes properly tendered and not withdrawn prior to 5:00 p.m., New York City time, on the Expiration Date. We will issue \$1,000 principal amount of new notes in exchange for each \$1,000 principal amount of outstanding old notes surrendered pursuant to the exchange offer. Old notes may be tendered only in integral multiples of \$1,000.

The form and terms of the new notes will be the same as the form and terms of the old notes except the new notes will be registered under the Securities Act and hence will not bear legends restricting the transfer thereof. The new notes will evidence the same debt as the old notes. The new notes will be issued under and entitled to the benefits of the Indenture, which also authorized the

14

issuance of the old notes, such that both series will be treated as a single class of debt securities under the Indenture.

As of the date of this prospectus, \$200 million aggregate principal amount of the old notes are outstanding. This prospectus, together with the Letter of Transmittal, is being sent to all registered holders of old notes. There will be no fixed record date for determining registered holders of old notes entitled to participate in the exchange offer. The exchange offer is not conditioned with any minimum principal amount of old notes being tendered for exchange. However, the obligation to accept old notes for exchange pursuant to the exchange offer is subject to certain conditions, as described under "- Conditions."

We intend to conduct the exchange offer in accordance with the provisions of the Registration Rights Agreement and the applicable requirements of the Exchange Act, and the rules and regulations of the Commission thereunder. Old notes which are not tendered for exchange in the exchange offer will remain outstanding and continue to accrue interest and will be entitled to the rights and benefits such holders have under the Indenture and the Registration Rights Agreement.

We will be deemed to have accepted for exchange properly tendered old notes when, as and if we have given oral or written notice thereof to the exchange agent and complied with the provisions of the Indenture. The exchange agent will act as agent for the tendering holders for the purposes of receiving the new notes from us.

If you tender old notes in the exchange offer you will not be required to pay brokerage commissions or fees or, subject to the instructions in the Letter of Transmittal, transfer taxes with respect to the exchange of old notes pursuant to the exchange offer. We will pay all charges and expenses, other than certain applicable taxes described below, in connection with the exchange offer. See "- Fees and Expenses."

Expiration Date; Extensions; Amendments

The term "Expiration Date" shall mean 5:00 p.m., New York City time on _____, 2002, unless we, in our sole discretion, extend the exchange offer, in which case the term "Expiration Date" shall mean the latest date to which the exchange offer is extended. If the exchange offer is not completed by May 16, 2002, the interest rate on the old notes shall be increased by one-half of one percent (0.5%) per year until the exchange offer is completed.

In order to extend the exchange offer, we will notify the exchange agent of any extension by oral or written notice and will mail to the holders an announcement thereof, prior to 9:00 a.m., New York City time, on the next business day after the previously scheduled Expiration Date.

Edgar Filing: TEREX CORP - Form S-4

We reserve the right, in our sole discretion, (i) to delay accepting any old notes, to extend the exchange offer or to terminate the exchange offer and not permit acceptance of old notes not previously accepted, if any of the conditions set forth below under "- Conditions" have not been satisfied, by giving oral or written notice of the delay, extension or termination to the exchange agent or (ii) to amend the terms of the exchange offer in any manner which, in our good faith judgment, is advantageous to the holders of the old notes, whether before or after any tender of the new notes. Any delay in acceptance, extension, termination or amendment will be followed as promptly as practicable by oral or written notice thereof to the holders. If the exchange offer is amended in a manner determined by us to constitute a material change, we will promptly notify holders of the amendment by means of a prospectus supplement that will be distributed to the registered holders, if required by law, and we will extend the exchange offer for a period of five to ten business days, depending upon the significance of the amendment and the manner of disclosure to the registered holders, if the exchange offer would otherwise expire during such five to ten business day period.

Without limiting the manner in which we may choose to make a public announcement of any delay, extension, termination or amendment of the exchange offer, we will have no obligation to publish, advertise, or otherwise communicate any such public announcement, other than by making a timely release to the Dow Jones news service.

Interest on the New Notes

15

The new notes will bear interest at 9-1/4% per annum from the date of original issue. Interest on the new notes will be payable semi-annually, in arrears, on January 15 and July 15 of each year, commencing on July 15, 2002. Holders of new notes will receive interest on July 15, 2002 from the date of initial issuance of the new notes, plus an amount equal to the accrued interest on the old notes from January 15, 2002 to the date of exchange for new notes. Interest on the old notes accepted for exchange will cease to accrue upon issuance of the new notes.

Conditions

We will not be required to accept for exchange, or exchange any new notes for, any old notes, and may terminate the exchange offer before the acceptance of any old notes for exchange, if:

(a) any action or proceeding is instituted or threatened in any court or by or before any governmental agency with respect to the exchange offer which, in our sole judgment, might materially impair our ability to proceed with the exchange offer, or

(b) any law, statute, rule or regulation is proposed, adopted or enacted, or any existing law, statute, rule or regulation is interpreted by the staff of the Commission, which, in our sole judgment, might materially impair our ability to proceed with the exchange offer, or

(c) any governmental approval has not been obtained, which approval we shall, in our sole discretion, deem necessary for the consummation of the exchange offer as contemplated hereby.

If we determine in our sole discretion that any of these conditions are not satisfied, we may (i) refuse to accept any old notes and return all tendered old notes to the tendering holders, (ii) extend the exchange offer and retain all old notes tendered prior to the expiration of the exchange offer, subject,

Edgar Filing: TEREX CORP - Form S-4

however, to the rights of holders who tendered such old notes to withdraw their tendered old notes, or (iii) waive such unsatisfied conditions with respect to the exchange offer and accept all properly tendered old notes which have not been withdrawn.

The foregoing conditions are for the sole benefit of us and may be asserted by us regardless of the circumstances giving rise to any such condition or may be waived by us in whole or in part at any time and from time to time in our sole discretion. The failure by us at any time to exercise any of our rights shall not be deemed a waiver of any such right, and each such right, will be deemed an ongoing right which may be asserted at any time and from time to time.

Procedures for Tendering

Only a holder of old notes may tender such old notes in the exchange offer. To tender in the exchange offer, you must complete, sign and date the Letter of Transmittal, or a facsimile thereof, have the signatures thereon guaranteed if required by the Letter of Transmittal, and mail or otherwise deliver the Letter of Transmittal or such facsimile, together with the old notes and any other required documents, to the exchange agent prior to 5:00 p.m., New York City time, on the Expiration Date. In addition, either (i) old notes must be received by the exchange agent along with the Letter of Transmittal, or (ii) a timely confirmation of book-entry transfer (a "Book-Entry Confirmation") of such old notes, if such procedure is available, into the exchange agent's account at the Depository Trust Company (the "Book-Entry Transfer Facility") pursuant to the procedure for book-entry transfer described below must be received by the exchange agent prior to the Expiration Date, or (iii) you must comply with the guaranteed delivery procedures described below. To be tendered effectively, the old notes, Letter of Transmittal and other required documents must be received by the exchange agent at the address set forth below under "- Exchange Agent".

The tender by a holder which is not withdrawn prior to the Expiration Date will constitute an agreement between such holder and us in accordance with the terms and subject to the conditions set forth herein and in the Letter of Transmittal.

The method of delivery of old notes, the letter of transmittal and all other required documents to the exchange agent is at the election and risk of the holders. If such delivery is by mail, it is recommended that registered mail, properly insured, with return receipt requested, be used. In all cases, sufficient time should be allowed to assure delivery to the exchange agent before the expiration date. No letter of transmittal or old notes should be sent to us. Holders may request

16

their respective brokers, dealers, commercial banks, trust companies or nominees to effect the above transactions for and on behalf of such holders.

Any beneficial owner whose old notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender such old notes should contact the registered holder promptly and instruct such holder to tender on such beneficial owner's behalf. If such beneficial owner wishes to tender on its own behalf, such owner must, prior to completing and executing the Letter of Transmittal and delivering its old notes, either make appropriate arrangements to register ownership of the old notes in its name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take considerable time and may not be able to be completed prior to the Expiration Date.

Signatures on a Letter of Transmittal or a notice of withdrawal, as the

Edgar Filing: TEREX CORP - Form S-4

case may be, must be guaranteed by any Eligible Institution (as defined below) unless the old notes tendered pursuant thereto are tendered (i) by a holder who has not completed the box entitled "Special Issuance Instructions" or "Special Delivery Instructions" on the Letter of Transmittal or (ii) for the account of an Eligible Institution. In the event that signatures on a Letter of Transmittal or a notice of withdrawal, as the case may be, are required to be guaranteed, such guarantor must be a member firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc., a commercial bank or trust company having an office or correspondent in the United States or an "eligible guarantor institution" within the meaning of Rule 17Ad-15 under the Exchange Act which is a member of one of the recognized signature guarantee programs identified in the Letter of Transmittal (each, an "Eligible Institution").

If the Letter of Transmittal is signed by a person other than the holder of any old notes listed therein, the old notes must be endorsed or accompanied by a properly completed bond power, in satisfactory form as determined by us in our sole discretion, signed by the holder as the holder's name appears on the old notes with the signature thereon guaranteed by an Eligible Institution.

If the Letter of Transmittal or any old notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, these persons should so indicate when signing, and unless waived by us, evidence satisfactory to us of their authority to so act must be submitted with the Letter of Transmittal.

All questions as to the validity, form, eligibility (including time of receipt), acceptance of tendered old notes and withdrawal of tendered old notes will be determined by us in our sole discretion, which determination will be final and binding. We reserve the absolute right to reject any and all old notes not properly tendered or any old notes our acceptance of which would, in the opinion of counsel for us, be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular old notes. Our interpretation of the terms and conditions of the exchange offer (including the instructions in the Letter of Transmittal) will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of old notes must be cured within such time as we shall determine. Although we intend to notify holders of defects or irregularities with respect to tenders of old notes, neither we, the exchange agent nor any other person will incur any liability for failure to give such notification. Tendere of old notes will not be deemed to have been made until the defects or irregularities have been cured or waived. Any old notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders, unless otherwise provided in the Letter of Transmittal, as soon as practicable following the Expiration Date. While we have no present plan to acquire any old notes that are not tendered in the exchange offer, we reserve the right in its sole discretion to (i) purchase or make offers for any old notes that remain outstanding subsequent to the Expiration Date, (ii) as set forth above under "--Conditions," to terminate the exchange offer, or (iii) redeem the old notes as a whole or in part at any time and from time to time, as set forth under "Description of New Notes--Optional Redemption," or (iv) to the extent permitted by applicable law, purchase old notes in the open market, in privately negotiated transactions or otherwise. The terms of any such purchases or offers could differ from the terms of the exchange offer.

In all cases, issuance of new notes for old notes that are accepted for exchange pursuant to the exchange offer will be made only after timely receipt by the exchange agent of certificates for such old notes or a timely Book-Entry confirmation of such old notes into the exchange agent's account at the

Book-Entry Transfer Facility, a properly completed and duly executed Letter of Transmittal and all other required documents. If any tendered old notes are not accepted for exchange for any reason set forth in the terms and conditions of the exchange offer, or if old notes are submitted for a greater principal amount than the holder desires to exchange, the unaccepted or non-exchanged old notes will be returned without expense to the tendering holder thereof (or, in the case of old notes tendered by book-entry transfer into the exchange agent's account at the Book-Entry Transfer Facility pursuant to the book-entry transfer procedures described below, the non-exchanged old notes will be credited to an account maintained with such Book-Entry Transfer Facility) as promptly as practicable after the expiration or termination of the exchange offer.

Book Entry Transfer

The exchange agent will make a request to establish an account with respect to the old notes at the Book-Entry Transfer Facility for purposes of the exchange offer within two business days after the date of this prospectus, and any financial institution that is a participant in the Book-Entry Transfer Facility's system may make book-entry delivery of old notes by causing the Book-Entry Transfer Facility to transfer such old notes into the exchange agent's account at the Book-Entry Transfer Facility in accordance with such Book-Entry Transfer Facility's procedures for transfer. However, although delivery of old notes may be effected through book-entry transfer at the Book-Entry Transfer Facility, the Letter of Transmittal or facsimile thereof, with any required signature guarantees and any other required documents, must, in any case, be transmitted to and received by the exchange agent at the address set forth below under "- Exchange Agent" on or prior to the Expiration Date or, if the guaranteed delivery procedures described below are to be complied with, within the time period provided under such procedures. Delivery of documents to the Book-Entry Transfer Facility does not constitute delivery to the exchange agent.

Guaranteed Delivery Procedures

If you wish to tender your old notes and (i) your old notes are not immediately available or (ii) you cannot deliver your old notes, the Letter of Transmittal or any other required documents to the exchange agent prior to the Expiration Date, you may effect a tender if:

(a) The tender is made through an Eligible Institution;

(b) Prior to the Expiration Date, the exchange agent receives from an Eligible Institution a properly completed and duly signed Letter of Transmittal and the Notice of Guaranteed Delivery, substantially in the form provided by us (by facsimile transmission, mail or hand delivery) setting forth your name and address, the registered number(s) of the old notes and the principal amount of old notes tendered, stating that the tender is being made by guaranteed delivery and guaranteeing that, within three New York Stock Exchange trading days after the Expiration Date, the Letter of Transmittal (or facsimile thereof) together with the old notes or a Book-Entry Confirmation, as the case may be, and any other documents required by the Letter of Transmittal will be deposited by the Eligible Institution with the exchange agent; and

(c) Properly completed and signed Letter of Transmittal (or facsimile thereof), as well as all tendered old notes in proper form for transfer or a Book-Entry Confirmation, and all other documents required by the Letter of Transmittal, are received by the exchange agent within five New York Stock Exchange trading days after the Expiration Date. Upon request of the exchange agent, a Notice of Guaranteed Delivery will be sent to holders who wish to

Edgar Filing: TEREX CORP - Form S-4

tender their old notes according to the guaranteed delivery procedures set forth above.

Withdrawal of Tender

Except as otherwise provided herein, you may withdraw tenders of old notes at any time prior to 5:00 p.m., New York City time, on the Expiration Date.

To withdraw a tender of old notes in the exchange offer, a written or facsimile transmission notice of withdrawal must be received by the exchange agent at its address set forth herein prior to 5:00 p.m., New York City time, on the Expiration Date. Any such notice of withdrawal must:

- (i) specify the name of the person having deposited the old notes to be withdrawn (the "Depositor");

18

- (ii) identify the old notes to be withdrawn (including the principal amount of the old notes and, in the case certificates representing the old notes have been tendered, registered number or numbers and or, in the case of old notes transferred by book-entry transfer, the name and number of the account at the Book-Entry Transfer Facility to be credited);
- (iii) be signed by the holder in the same manner as the original signature on the Letter of Transmittal by which the old notes were tendered (including any required signature guarantees) or be accompanied by documents of transfer sufficient to have The Bank of New York, the trustee with respect to the old notes, register the transfer of such old notes into the name of the person withdrawing the tender; and
- (iv) specify the name in which any such old notes are to be registered, if different from that of the Depositor.

All questions as to the validity, form and eligibility (including time of receipt) of such notices will be determined by us, whose determination will be final and binding on all parties. Any old notes so withdrawn will be deemed not to have been validly tendered for purposes of the exchange offer and no new notes will be issued with respect thereto unless the old notes so withdrawn are validly re-tendered. Any old notes which have been tendered but which are not accepted for payment will be returned to the holder thereof without cost to the holder (or, in the case of old notes tendered by book-entry transfer into the exchange agent's account at the Book-Entry Transfer Facility pursuant to the book-entry transfer procedures described above, such old notes will be credited to an account maintained with such Book-Entry Transfer Facility) as soon as practicable after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn old notes may be re-tendered by following one of the procedures described above under "--Procedures for Tendering" and "--Book-Entry Transfer" at any time prior to the Expiration Date.

Fees and Expenses

The expenses of soliciting tenders will be paid by us. The principal solicitation is being made by mail; however, additional solicitation may be made by telegraph, telephone, facsimile, or in person by officers and regular employees of ours and our affiliates.

We have not retained any dealer-manager in connection with the exchange offer and will not make any payments to brokers, dealers or others soliciting acceptances of the exchange offer. We,

19

however, will pay the exchange agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses in connection therewith. We may also pay brokerage houses and other custodians, nominees and fiduciaries the reasonable out-of-pocket expenses incurred by them in forwarding copies of the prospectus and related documents to the beneficial owners of the old notes and in handling or forwarding tenders for exchange.

The cash expenses to be incurred in connection with the exchange offer will be paid by us and are estimated in the aggregate to be approximately \$100,000. Such expenses include fees and expenses of the exchange agent and Trustee, accounting and legal fees and printing costs, among others.

We will pay all transfer taxes, if any, applicable to the exchange of old notes pursuant to the exchange offer. If, however, new notes or old notes for principal amounts not tendered or accepted for exchange are to be delivered to, or are to be issued in the name of, any person other than the holder of the old notes tendered, or if tendered old notes are registered in the name of any person other than the person signing the Letter of Transmittal, or if a transfer tax is imposed for any reason other than the exchange of old notes pursuant to the exchange offer, then the amount of any transfer taxes (whether imposed on the holder or any other persons) will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exemption from such payment is not submitted with the Letter of Transmittal, the amount of such transfer taxes will be billed directly to such tendering holder.

Consequences of Failure to Exchange

Edgar Filing: TEREX CORP - Form S-4

Holders of old notes who do not exchange their old notes for new notes pursuant to the exchange offer will continue to be subject to the restrictions on transfer of such old notes as set forth in the legend on the old notes and in the Indenture as a result of the issuance of the old notes pursuant to exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities law. Accordingly, the old notes may be resold only (i) to us (upon redemption thereof or otherwise), (ii) pursuant to an effective registration statement under the Securities Act, (iii) so long as the old notes are eligible for resale pursuant to Rule 144A, to a qualified institutional buyer within the meaning of Rule 144A under the Securities Act in a transaction meeting the requirements of Rule 144A, or (iv) pursuant to another available exemption from the registration requirements of the Securities Act, in each case in accordance with any applicable securities laws of any state of the United States. We do not currently anticipate that we will register under the Securities Act the resale of any old notes that remain outstanding after consummation of the exchange offer. However, generally, (i) if any Initial Purchaser so requests with respect to old notes not eligible to be exchanged for Exchange Notes in the exchange offer and held by it following consummation of the exchange offer or (ii) if any holder of old notes is not eligible to participate in the exchange offer or, in the case of any holder of old notes that participates in the exchange offer, does not receive freely tradeable Exchange Notes in exchange for old notes, we are obligated to file a registration statement on the appropriate form under the Securities Act relating to the old notes held by such persons.

Accounting Treatment

The new notes will be recorded at the same carrying value as the old notes as reflected in our accounting records on the date of the exchange. Accordingly, no gain or loss for accounting purposes will be recognized by us. The expenses of the exchange offer will be amortized over the term of the new notes.

RATIOS OF EARNINGS TO FIXED CHARGES

The following table sets forth our unaudited historical ratios of earnings to fixed charges for the periods indicated below:

	Year Ended December 31,					Nine Months Ended September 30,	
	1996	1997	1998	1999	2000	2000	2001
	----	----	----	----	----	----	----
Ratio of earnings to fixed charges....	-	1.6x	2.4x	2.1x	2.5x	2.8x	1.3x

In calculating the ratio of earnings to fixed charges, earnings consist of income (loss) from continuing operations before income taxes and extraordinary items plus fixed charges. Fixed charges consist of interest expense, preferred stock accretion, amortization of indebtedness issuance costs, and

20

rental expense representative of the interest factor. Earnings were insufficient to cover fixed charges by \$42.2 million during the year ended December 31, 1996.

USE OF PROCEEDS

We will not receive any cash proceeds from the issuance of the new notes offered hereby. In consideration for issuing the new notes as contemplated in this prospectus, we will receive in exchange old notes in like principal amount,

Edgar Filing: TEREX CORP - Form S-4

the forms and terms of which are identical, in all material respects, to the new notes. The old notes surrendered in exchange for new notes will be retired and canceled and cannot be reissued. Accordingly, issuance of the new notes will not result in any increase in our indebtedness. Proceeds from the sale of the privately placed old notes were used to repay indebtedness and for fees and expenses in connection with the sale of the old notes.

-
- (1) Cost of goods sold includes \$27.1 million in nonrecurring charges. Excluding these charges, gross profit would have been \$96.3 million or 14.2% of net sales.
 - (2) Selling, general and administrative expenses includes \$2.8 million in nonrecurring charges. Excluding these charges, selling, general and administrative expenses would have been \$61.3 million.
 - (3) Includes the effect of the nonrecurring charges set forth in (1) and (2) above. Excluding these charges, income from operations would have been \$35.1 million.
 - (4) On November 27, 1996, Terex sold its former subsidiary Clark Material Handling Company and certain affiliated companies (the "Clark Material Handling Segment"). As a result, the Clark Material Handling Segment was accounted for as a discontinued operation for the year ended December 31, 1996. Generally accepted accounting principles permit, but do not require, the allocation of interest expense between continuing operations and discontinued operations. We did not allocate interest expense to discontinued operations. This allocation, although permitted, would not necessarily have reflected the use of proceeds from the sale of the Clark Material Handling Segment and the effect on interest expense of our continuing operations. As a result, loss from our continuing operations includes most of Terex's interest expense, and income from our discontinued operations does not include any material interest expense.
 - (5) This charge primarily reflects the utilization of acquired net operating losses by P.P.M. S.A.
 - (6) Represents income from operations of \$17.5 million of the Clark Material Handling Segment, and the gain on its sale of \$84.5 million.
 - (7) Includes:
 - o annual accretion on Terex's Series A Cumulative Redeemable Convertible Preferred Stock of \$7.7 million, which was irrevocably called for

Edgar Filing: TEREX CORP - Form S-4

redemption in December 1996;

- o annual accretion on Terex's Series B Cumulative Redeemable Convertible Preferred Stock of \$0.1 million, which was converted in December 1997 into 87,300 shares of our Common Stock;
 - o annual accretion of redeemable preferred stock of one of our subsidiaries of \$0.6 million, which was exchanged in December 1997 for 705,969 shares of our Common Stock; and
 - o a \$14.5 million nonrecurring charge as a result of the redemption of Terex's Series A Cumulative Redeemable Convertible Preferred Stock.
- (8) Represents the effect of:
- o the 9.46% redemption premium and the pro rata write-off of debt origination costs and original issue discount on the redemption of a portion of our then existing senior secured notes; and
 - o the early termination fee and the write-off of debt origination costs on the termination of the then existing domestic credit facility in April 1997.
- (9) Includes a \$3.2 million nonrecurring charge as a result of the redemption of the redeemable preferred stock of one of our subsidiaries.
- (10) Represents the effect of:
- o the premium and the write-off of debt origination fees and original issue discount on the purchase of all of our then outstanding senior secured notes; and
 - o the fees and expenses and the write-off of debt origination costs on the early termination of certain of our then existing credit facilities.
- (11) Cost of goods sold includes \$12.9 million in nonrecurring charges related to the operations and closure of the Milwaukee facility in the fourth quarter of 1999.
- (12) Selling, general and administrative expenses include (\$0.6) million in nonrecurring charges related to headcount reductions at O&K Germany offset by a favorable legal settlement.
- (13) Includes the effect of the nonrecurring charges set forth in (11) and (12) above. Excluding these charges, income from operations would have been \$190.6 million.
- (14) Cost of goods sold includes \$9.9 million of nonrecurring charges related to the closing of the Terex distribution facility in the United Kingdom, an aggregate customer filing bankruptcy and the further integration of Terex's mining businesses.
- (15) Selling, general and administrative expenses include \$3.4 million in nonrecurring charges related to the closing of the Terex distribution facility in the United Kingdom, headcount reductions in the Company's mining business and due diligence costs associated with a large potential acquisition which did not come to fruition, offset partially by a curtailment gain related to one of Terex's pension plans.
- (16) Includes the effect of the nonrecurring charges set forth in (14) and (15) above. Excluding these charges, income from operations would have been

Edgar Filing: TEREX CORP - Form S-4

\$211.6 million.

- (17) Cost of goods sold includes \$3.2 million in nonrecurring charges related to the further integration of the Company's mining businesses.
- (18) Selling, general and administrative expenses include (\$0.2) million in nonrecurring charges related to headcount reductions in the Company's mining business offset by a curtailment gain related to one of the Company's pension plans.
- (19) Includes the effect of the nonrecurring charges set forth in (17) and (18) above. Excluding these charges, income from operations would have been \$168.9 million.
- (20) Cost of goods sold includes \$28.0 million in non-recurring charges related to restructuring and other non-recurring charges.
- (21) Selling, general and administrative expenses include \$3.9 million in non-recurring charges related to restructuring and other charges.
- (22) Includes the effect of the non-recurring charges set forth in (20) and (21) above. Excluding these charges, income from operations would have been \$112.8 million.

DESCRIPTION OF CERTAIN INDEBTEDNESS

Existing Notes

On March 29, 2001, we issued and sold in a private placement \$300 million in aggregate principal amount of 10-3/8% Senior Subordinated Notes due 2011 (the "2001 Senior Subordinated Notes"). Subsequently, these notes were exchanged pursuant to a registered exchange offer for registered notes identical in all material respects (other than with respect to transfer restrictions) to the 2001 Senior Subordinated Notes (the "2001 Existing Notes"). The 2001 Existing Notes are jointly and severally guaranteed by certain domestic subsidiaries. The net proceeds from the offering were used to repay a portion of the outstanding indebtedness under our credit facilities and for acquisitions.

On March 9, 1999, we issued and sold in a private placement \$100 million in aggregate principal amount of 8-7/8% Senior Subordinated Notes due 2008 (the "1999 Senior Subordinated Notes"). Subsequently, these notes were exchanged pursuant to a registered exchange offer for registered notes identical in all material respects (other than with respect to transfer restrictions) to the 1999 Senior Subordinated Notes (the "1999 Existing Notes"). The 1999 Existing Notes are jointly and severally guaranteed by certain domestic subsidiaries. The net proceeds from the offering were used to repay a portion of the outstanding indebtedness under our credit facilities and for acquisitions.

On March 31, 1998, we issued and sold in a private placement \$150 million in aggregate principal amount of 8-7/8% Senior Subordinated Notes due 2008 (the "1998 Senior Subordinated Notes"). Subsequently, these notes were exchanged pursuant to a registered exchange offer for registered notes identical in all material respects (other than with respect to transfer restrictions) to the 1998 Senior Subordinated Notes (the "1998 Existing Notes," and together with the 2001 Existing Notes and the 1999 Existing Notes, the "Existing Notes"). The 1998 Existing Notes are jointly and severally guaranteed by certain domestic subsidiaries. The net proceeds from the offering were used to fund a portion of the aggregate consideration for the acquisition of O&K Mining.

Edgar Filing: TEREX CORP - Form S-4

Ranking

The Existing Notes are our general unsecured obligations, subordinate in right of payment to all our Senior Indebtedness (as defined in the indentures governing the Existing Notes), whether outstanding on the date of the note indenture or thereafter incurred, and senior in right of payment to or pari passu with all of our other indebtedness. The Existing Notes rank pari passu with the notes.

Optional Redemption

Except as noted below, the 1999 Existing Notes and the 1998 Existing Notes are not redeemable at our option before April 1, 2003. Thereafter, the 1999 Existing Notes and the 1998 Existing Notes will be subject to redemption at any time at our option, in whole or in part, at specified redemption prices plus accrued and unpaid interest, if any, thereon to the applicable redemption date.

Except as noted below, the 2001 Existing Notes are not redeemable at our option before April 1, 2006. Thereafter, the 2001 Existing Notes will be subject to redemption at any time at our option, in whole or in part, at specified redemption prices plus accrued and unpaid interest, if any, thereon to the applicable redemption date. In addition, at any time prior to April 1, 2004, we may on any one or more occasions redeem up to 33.3% of the original aggregate principal amount of the 2001 Existing Notes or both at a redemption price of 110.375% of the principal amount thereof, plus accrued and unpaid interest, if any, thereon to the date of redemption, with the net proceeds of one or more offerings of our common equity. However, at least 65% of the original aggregate principal amount of the 2001 Existing Notes must remain outstanding immediately after each occurrence of redemption.

Certain Covenants

The indentures governing the Existing Notes contain certain covenants that, among other things, significantly limit our ability and the ability of our subsidiaries to (a) incur additional indebtedness, (b) issue preferred stock, (c) pay dividends, (d) make certain other restricted payments, (e) create certain liens, (f) enter into certain transactions with affiliates, (g) sell our assets or the assets of our subsidiaries, (h) issue or sell equity interests of the subsidiaries or (i) enter into certain mergers and consolidations. In addition, under certain circumstances, we will be required to offer to purchase the Existing Notes at a price equal to 100.0% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of purchase with the proceeds of certain asset sales.

25

Change of Control

After the occurrence of a change of control (as defined in the indentures for the Existing Notes), we will be required to make an offer to repurchase the 2001 Existing Notes, the 1999 Existing Notes and the 1998 Existing Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of purchase.

Existing Bank Credit Facilities

On March 6, 1998, we entered into a bank credit facility with several financial institutions. This bank credit facility consists of a secured global revolving credit facility (described below) currently aggregating up to \$300 million (described below) and two term loan facilities providing for loans in an aggregate principal amount of up to approximately \$375 million. The revolving

Edgar Filing: TEREX CORP - Form S-4

credit facility is used for working capital and general corporate purposes, including acquisitions. We repaid \$ million under this revolving credit facility with a portion of the net proceeds we received under an equity offering we completed on December 10, 2001. With limited exceptions, our obligations under this credit facility are secured by (i) a pledge of all of the capital stock of our domestic subsidiaries, (ii) a pledge of 65% of the stock of our foreign subsidiaries and (iii) a first priority security interest in, and mortgages on, substantially all of our assets and those of our domestic subsidiaries. This bank credit facility contains covenants limiting our activities, including, without limitation, limitations on dividends and other payments, liens, investments, incurrence of indebtedness, mergers and asset sales, related party transactions and capital expenditures. This bank credit facility also contains certain financial and operating covenants, including a maximum leverage ratio, a minimum interest coverage ratio and a minimum fixed charge coverage ratio.

Pursuant to the term loan facilities, we borrowed (i) \$175 million in aggregate principal amount pursuant to a Term Loan A due March 2004 and (ii) \$200 million in aggregate principal amount pursuant to a Term Loan B due March 2005. We repaid (x) a portion of the Term A Loan with the net proceeds we received from the issuance of the 1999 Existing Notes, (y) the Term A Loan in full with the net proceeds we received from the issuance of the 2001 Existing Notes and (z) \$ million of the Term B Loan with a portion of the net proceeds we received from the sale of the old notes. The outstanding principal amount of the Term B Loan currently bears interest, at our option, at a rate of 2.75% per annum in excess of the adjusted Eurodollar rate or, with respect to U.S. Dollar denominated alternate base rate loans, 1.75% in excess of the prime rate. The Term B Loan amortizes in an annual percentage of 1% during each of the first six years of the term of the loan and 94% in the seventh year of the term of the loan. The Term B Loan is subject to mandatory prepayment in certain circumstances and are voluntarily prepayable without payment of a premium (subject to reimbursement of the lenders' costs in case of prepayment of Eurodollar loans other than on the last day of an interest period).

Pursuant to the \$300 million revolving credit facility, as of December 31, 2001, we have available an aggregate amount of up to \$ million. The outstanding principal amount of loans under the revolving credit facility bears interest, at our option, at an all-in drawn cost of 1.75% per annum in excess of the adjusted eurocurrency rate or, with respect to U.S. Dollar denominated alternate base rate loans, at an all-in drawn cost of 0.75% per annum below the prime rate. The revolving credit facility will terminate on March 6, 2004.

On July 2, 1999, we entered into a Tranche C credit agreement for a term loan of up to \$325 million to provide the funds necessary to acquire the outstanding share capital of Powerscreen International plc and for other general corporate purposes. This credit agreement was subsequently amended and restated on August 23, 1999 to provide an additional term loan of up to \$125 million to acquire Cedarapids, Inc. As of December 31, 1999, we had borrowed \$450 million under this facility. The term loans under this facility mature in March 2006 and bear interest, at our option, at a rate of 3.00% to 3.50% per annum in excess of the adjusted Eurodollar rate or 2.00% to 2.50% in excess of the prime rate. We repaid \$ million under the Term C Loan with a portion of the net proceeds we received from the sale of the old notes.

If for any reason we are unable to comply with the terms of the bank credit facilities, including the covenants included therein, such noncompliance could result in an event of default under the bank credit facilities and could result in acceleration of the payment of the indebtedness outstanding under the bank credit facilities.

Edgar Filing: TEREX CORP - Form S-4

We recently amended our bank credit facilities to revise certain of the financial covenants to provide us with greater flexibility in our business.

The Letter of Credit Facility

In conjunction with our bank credit facilities, in July 1999 we received a separate \$50 million letter of credit facility. Letters of credit issued under this facility do not decrease availability under the revolving credit facility.

27

DESCRIPTION OF THE NEW NOTES

The old notes were, and the new notes will be, issued under an Indenture, dated as of December 17, 2001 (the "Indenture") among the guarantors named therein (the "Subsidiary Guarantors"), The Bank of New York, as trustee, and us.

The following is a summary of certain provisions of the Indenture and the notes. The following summary of certain provisions of the Indenture and the notes does not purport to be complete and is subject to, and is qualified in its entirety by reference to, all the provisions of the Indenture and the notes, including the definitions of certain terms therein and those terms made a part thereof by the Trust Indenture Act. We urge you to read the Indenture and form of notes because they, not this description, define your rights as holders of these notes. You may request copies of these documents at our address set forth under the heading "Where You can Find More Information."

In this section, entitled "Description of the New Notes," when we refer to "Terex," "we," "our" or "us," we are referring to Terex Corporation and not its subsidiaries.

General

Principal of, premium, if any, and interest on the notes will be payable, and the notes may be exchanged or transferred, at the office or agency of Terex in the Borough of Manhattan, the City of New York (which initially shall be the corporate trust office of the trustee, at 30 Broad Street, B-Level, Corporate Trust Window, New York, New York 10004), except that, at the option of Terex, payment of interest may be made by check mailed to the address of the holders as such address appears in the note register.

The notes will be issued only in fully registered form, without coupons, in denominations of \$1,000 and any integral multiple of \$1,000. See "--Book-Entry, Delivery and Form." No service charge shall be made for any registration or exchange of notes, but Terex may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

Terms of the New Notes

The new notes:

- o will be unsecured senior subordinated obligations of Terex maturing on July 15, 2011;
- o will be subordinate in right of payment to certain other debt obligations of Terex; and
- o will bear interest at 9-1/4% per annum from their date of original issuance and will be paid semiannually.

Edgar Filing: TEREX CORP - Form S-4

Subject to compliance with the covenant described under "Certain Covenants--Limitation on Indebtedness," we may issue additional notes under the Indenture in a principal amount not to exceed \$300 million in the aggregate (the "additional notes"). The new notes will be subordinate in right of payment to certain of our other debt obligations. The new notes will be payable semiannually to holders of record at the close of business on the January 1 or July 1 immediately preceding the interest payment date on January 15 and July 15 of each year, commencing July 15, 2002. We will pay interest on overdue principal at 1% per annum in excess of such rate, and will pay interest on overdue installments of interest at such higher rate to the extent lawful. Interest on the new notes will be computed on the basis of a 360-day year of twelve 30-day months.

The interest rate on the notes is subject to increase in certain circumstances if we do not file a registration statement relating to the exchange offer (as defined below) or if the registration statement is not declared effective on a timely basis or if certain other conditions are not satisfied, all as further described under "Exchange Offer; Registration Rights."

Optional Redemption

Except as set forth in the following paragraph, we will not be entitled to redeem the notes at our option prior to January 15, 2007. Thereafter, we will be entitled at our option to redeem all or a portion of the notes, in whole or in part, at any time or from time to time, upon not less than 30 nor more than 60 days prior notice mailed by first-class mail to each holder's registered address, at the following

28

redemption prices (expressed in percentages of principal amount), plus accrued interest to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the 12-month period commencing on January 15 of the years set forth below:

Period	Redemption Price
-----	-----
2007	104.625%
2008	103.083%
2009	101.542%
2010 and thereafter	100.000%

In addition, before January 15, 2005, we may at our option on one or more occasions redeem in the aggregate up to 33.3% of the original principal amount of the notes (including the original principal amount of any additional notes) with the proceeds of one or more Public Equity Offerings (not including our equity offering consummated on December 10, 2001), at a redemption price (expressed as a percentage of principal amount) of 109.25% plus accrued interest to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that at least 65% of the aggregate principal amount of the notes originally outstanding remains outstanding (including the original principal amount of any additional notes) after each such redemption.

In the case of any partial redemption, we will select the notes for

Edgar Filing: TEREX CORP - Form S-4

redemption in accordance with the requirements of the principal national securities exchange, if any, on which the notes are listed or, if the notes are not listed on a securities exchange, the trustee will select the notes on a pro rata basis, by lot or by such other method as the trustee in its sole discretion shall deem to be fair and appropriate, although no note in original principal amount of \$1,000 or less shall be redeemed in part. If any new note is to be redeemed in part only, the notice of redemption relating to such note shall state the portion of the principal amount thereof to be redeemed. A new note in principal amount equal to the unredeemed portion thereof will be issued in the name of the holder thereof upon cancellation of the original note.

The notes will not have the benefit of a sinking fund.

Subsidiary Guarantees

Our obligations pursuant to the notes, including the repurchase obligation resulting from a Change of Control, will be unconditionally guaranteed, jointly and severally, on a senior subordinated basis, by each of the Subsidiary Guarantors. Each Subsidiary Guarantee will not exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally. If a Subsidiary Guarantee were to be rendered voidable, a court could deem it unenforceable or subordinate it to all other indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor, and, depending on the amount of such indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee could be reduced to zero. See "Risk Factors--Since the notes are senior subordinated debt, there may not be sufficient assets to pay amounts owed on the notes if a default occurs" and "Risk Factors--As a result of fraudulent conveyance laws, a court could void a guarantee of a subsidiary, in which event noteholders would cease to have a claim against such subsidiary guarantor."

Pursuant to the Indenture, a Subsidiary Guarantor may consolidate with, merge with or into, or transfer all or substantially all its assets to any other Person to the extent described below under "--Certain Covenants--Merger and Consolidation"; provided, however, that if such other Person is not Terex or another Subsidiary Guarantor, such Subsidiary Guarantor's obligations under its Subsidiary Guarantee must be expressly assumed by such other Person. However, generally upon the sale or other disposition (including by way of consolidation or merger) of a Subsidiary Guarantor or the sale or disposition of all or substantially all the assets of a Subsidiary Guarantor (in each case other than to us or any of our Affiliates) permitted by the Indenture (including pursuant to the exercise of remedies in respect of any Lien on the capital stock of a Subsidiary Guarantor, which Lien secures outstanding Bank Indebtedness), such Subsidiary Guarantor will be released and relieved from all its obligations under its Subsidiary Guarantee.

29

Subordination

The indebtedness evidenced by the notes will be our senior subordinated obligations. The payment of the principal of, premium (if any), and interest on the notes is contractually subordinated in right of payment as set forth in the Indenture, to the prior payment in full of all of our Senior Indebtedness.

The obligations of a Subsidiary Guarantor under its Subsidiary Guarantee will be a senior subordinated obligation of such Subsidiary Guarantor. As such, the rights of noteholders to receive payment by a Subsidiary Guarantor pursuant

Edgar Filing: TEREX CORP - Form S-4

to its Subsidiary Guarantee will be contractually subordinated in right of payment to the rights of holders of Senior Indebtedness of such Subsidiary Guarantor. The terms of the subordination provisions described herein with respect to our obligations under the notes apply equally to a Subsidiary Guarantor and the obligations of such Subsidiary Guarantor under its Subsidiary Guarantee.

Our indebtedness and indebtedness of the Subsidiary Guarantors that constitutes Senior Indebtedness will rank senior to the notes and the relevant Subsidiary Guarantee in accordance with the provisions of the Indenture. The notes will in all respects rank pari passu with all of our other Senior Subordinated Indebtedness and the Subsidiary Guarantees will in all respects rank pari passu with all other Senior Subordinated Indebtedness of the Subsidiary Guarantors. Furthermore, the notes will rank senior to all of our other Subordinated Obligations and the Subsidiary Guarantees will rank senior to all other Subordinated Obligations of the Subsidiary Guarantors. See "--Subsidiary Guarantees," "Risk Factors--Since the notes are senior subordinated debt, there may not be sufficient assets to pay amounts owed on the notes if a default occurs" and "Risk Factors--As a result of fraudulent conveyance laws, a court could void a guarantee of a subsidiary, in which event noteholders would cease to have a claim against such subsidiary guarantor."

As of September 30, 2001, after giving pro forma effect to (x) the issuance of the old notes and our equity offering consummated on December 10, 2001 and the intended use of proceeds from these offerings and (y) our acquisition of CMI Corporation on October 1, 2001, (i) the Senior Indebtedness of Terex and the Subsidiary Guarantors, to which the notes are contractually subordinated, would have been approximately \$209 million, consisting principally of Indebtedness Incurred under the Credit Facility, (ii) there would have been approximately \$546 million of Senior Subordinated Indebtedness of Terex or the Subsidiary Guarantors ranking pari passu with the notes or the Subsidiary Guarantees, consisting of the Existing Notes and the subsidiary guarantees thereof, and (iii) there would have been no Subordinated Obligations ranking junior to the notes or the Subsidiary Guarantees.

In addition, claims of creditors of our subsidiaries, including trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by such subsidiaries, and claims of preferred stockholders (if any) of such subsidiaries, generally will have priority with respect to the assets and earnings of such subsidiaries over the claims of our creditors, including the holders of the notes, even if such obligations do not constitute Senior Indebtedness. The notes therefore will be effectively subordinated to existing and future liabilities of our subsidiaries, except to the extent that the Subsidiary Guarantees may be enforceable by holders of the notes against the Subsidiary Guarantors.

We and the Subsidiary Guarantors have agreed in the Indenture that none of us will incur, directly or indirectly, any Indebtedness that is subordinate or junior in ranking in right of payment to its Senior Indebtedness unless such Indebtedness is, among other things, Senior Subordinated Indebtedness or is expressly subordinated in right of payment to Senior Subordinated Indebtedness. Unsecured Indebtedness is not deemed to be subordinated or junior to Secured Indebtedness merely because it is unsecured.

We may not pay principal of, premium (if any) or interest on, the notes or make any deposit pursuant to the provisions described under "Defeasance" below and may not repurchase, redeem or otherwise retire any notes (collectively, "pay the notes") if (i) any amount of principal, interest or other payments due under the Designated Senior Indebtedness has not been paid when due and remains outstanding or (ii) any other default on Designated Senior Indebtedness occurs and the maturity of such Designated Senior Indebtedness is accelerated in accordance with its terms unless, in either case, the default has been cured or

Edgar Filing: TEREX CORP - Form S-4

waived and any such acceleration has been rescinded or such Designated Senior Indebtedness has been paid in full. However, we may pay the notes without regard to the foregoing if we and the trustee receive written notice approving such payment from the Representative of the Designated Senior Indebtedness with respect to which either of the events set forth in clause (i) or (ii)

30

of the immediately preceding sentence has occurred and is continuing. During the continuance of any default (other than a default described in clause (i) or (ii) of the second preceding sentence) with respect to any Designated Senior Indebtedness pursuant to which the maturity thereof may be accelerated either immediately without further notice (except such notice as may be required to effect such acceleration) or upon the expiration of any applicable grace periods, we may not pay the notes for a period (a "Payment Blockage Period") (a) commencing upon the receipt by the trustee (with a copy to us) of written notice (a "Blockage Notice") of such default from the Representative of the holders of such Designated Senior Indebtedness specifying an election to effect a Payment Blockage Period and (b) ending 179 days thereafter (or earlier if such Payment Blockage Period is terminated (i) by written notice to the trustee and Terex from the Person or Persons who gave such Blockage Notice, (ii) because the default giving rise to such Blockage Notice is no longer continuing (solely as evidenced by written notice to the trustee by the Representative of such Designated Senior Indebtedness which notice shall be promptly delivered) or (iii) because such Designated Senior Indebtedness has been repaid in full). Notwithstanding the provisions described in the immediately preceding sentence (but subject to the provisions described in the first sentence of this paragraph), unless the holders of such Designated Senior Indebtedness or the Representative of such holders have accelerated the maturity of such Designated Senior Indebtedness, we may resume payments on the notes after the end of such Payment Blockage Period. The notes will not be subject to more than one Payment Blockage Period in any consecutive 360-day period, irrespective of the number of defaults with respect to Designated Senior Indebtedness during such period.

Upon any payment or distribution of the assets of either us or any Subsidiary Guarantor upon a total or partial liquidation or dissolution or reorganization of or similar proceeding, or any bankruptcy, insolvency, receivership or similar proceeding, relating to either us or any Subsidiary Guarantor or its property or an assignment for the benefit of creditors or marshalling of assets and liabilities of ours or any Subsidiary Guarantor: (i) the holders of Senior Indebtedness will be entitled to receive payment in full of such Senior Indebtedness before the noteholders are entitled to receive any payment, and (ii) until the Senior Indebtedness is paid in full, any payment or distribution to which noteholders would be entitled but for the subordination provisions of the Indenture will be made to holders of such Senior Indebtedness as their interests may appear. If a payment or distribution is made to noteholders that, due to the subordination provisions, should not have been made to them, such noteholders are required to hold it in trust for the holders of Senior Indebtedness and pay it over to them as their interests may appear.

If payment of the notes is accelerated because of an Event of Default, we or the trustee will promptly notify the holders of Designated Senior Indebtedness or the Representative of such holders of the acceleration.

Under the terms of the Indenture, in the event of insolvency: (i) our creditors or the creditors of a Subsidiary Guarantor who are holders of Senior Indebtedness of Terex or such Subsidiary Guarantor, as the case may be, may recover more, ratably, than the noteholders, and (ii) our creditors or the creditors of such Subsidiary Guarantor who are not holders of Senior Indebtedness may recover less, ratably, than holders of Senior Indebtedness and may recover more, ratably, than the noteholders.

Edgar Filing: TEREX CORP - Form S-4

The terms of the subordination provisions described above will not apply to payments from money or the proceeds of U.S. Government Obligations held in trust by the trustee for the payment of principal of and interest on the notes pursuant to the provisions described under "--Defeasance."

Change of Control

If we undergo a Change of Control, each holder shall have the right to require us to repurchase all or any part of such holder's notes at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Within 15 Business Days following any Change of Control, we will mail a notice to the trustee and to each holder stating, among other things:

(1) that a Change of Control has occurred and that such holder has the right to require us to purchase such holder's notes at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of holders of record on the relevant record date to receive interest on the relevant interest payment date);

31

(2) the circumstances and relevant facts regarding such Change of Control (including information with respect to pro forma historical income, cash flow and capitalization after giving effect to such Change of Control);

(3) the repurchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed); and

(4) the instructions determined by us, consistent with the covenant described hereunder, that a holder must follow in order to have its notes purchased.

We will comply in all material respects, to the extent applicable, with the requirements of Section 14(e) of the Securities Exchange Act of 1934, as amended, and any other securities laws or regulations in connection with the repurchase of notes as a result of a Change in Control. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the covenant described hereunder, we will comply with the applicable securities laws and regulations and shall not be deemed to have breached our obligations under the covenant described hereunder by virtue of our compliance with such securities laws or regulations.

Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to Incur additional Indebtedness are contained in the covenants described under "--Certain Covenants--Limitation on Indebtedness" and "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries." Such restrictions can only be waived with the consent of the holders of a majority in principal amount of the notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford holders protection in the

Edgar Filing: TEREX CORP - Form S-4

event of a highly leveraged transaction.

If a Change of Control offer is made, we can not assure the holders that we will have available funds sufficient to pay the purchase price for all of the notes that might be delivered by holders seeking to accept the Change of Control offer. Our failure to make or consummate the Change of Control offer or pay the purchase price when due will give the trustee and the holders the rights described under "--Events of Default."

The existence of a holder's right to require us to offer to repurchase such holder's notes upon a Change of Control may deter a third party from acquiring Terex in a transaction which constitutes a Change of Control.

The Credit Facility, under certain circumstances, prohibits us from purchasing any notes prior to its expiration, and will also provide that the occurrence of certain change of control events with respect to Terex would constitute a default thereunder. In the event a Change of Control occurs at a time when we are prohibited from purchasing notes, we may (but are not required to) seek the consent of our lenders to the purchase of notes or may (but are not required to) attempt to refinance the borrowings that contain such prohibition.

Future Indebtedness that we may Incur may contain prohibitions on the occurrence of certain events that would constitute a Change of Control or require such Indebtedness to be repaid or repurchased upon a Change of Control. Moreover, the exercise by the holders of their right to require us to repurchase the notes could cause a default under such Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on us. Finally, our ability to pay cash to the holders following the occurrence of a Change of Control may be limited by our then existing financial resources. We can not assure the holders that sufficient funds will be available when necessary to make any required repurchases.

The provisions under the Indenture relating to our obligation to make an offer to repurchase the notes as a result of a Change of Control may be waived or modified with the written consent of each holder of notes then outstanding.

Certain Covenants

The Indenture contains covenants including, among others, the following:

32

Limitation on Indebtedness

(a) Terex will not Incur, directly or indirectly, any Indebtedness (including Acquired Indebtedness) unless, on the date of such Incurrence, and after giving pro forma effect thereto, (i) no Default or Event of Default shall have occurred and be continuing or would occur and (ii) the Consolidated Cash Flow Coverage Ratio at the date of such issuance exceeds 2.0 to 1.0.

(b) Notwithstanding paragraph (a), Terex may Incur the following Indebtedness:

Edgar Filing: TEREX CORP - Form S-4

(2) Indebtedness owed to and held by a Restricted Subsidiary; provided, however, that any subsequent issuance or transfer of any Capital Stock that results in such Subsidiary ceasing to be a Restricted Subsidiary, or any transfer of such Indebtedness (other than to a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness by Terex;

(3) the old notes and the new notes (other than additional notes);

(4) Indebtedness (other than Indebtedness described in clause (1), (2), or (3) above) outstanding on December 17, 2001 (including the Existing Notes);

(5) any Refinancing Indebtedness in respect of Indebtedness Incurred pursuant to paragraph (a) or pursuant to clause (3), (4) or (8) or this clause (5) or pursuant to clause (5) of the covenant described under "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries" below;

(6) obligations of Terex pursuant to (A) Interest Rate Protection Agreements in respect of Indebtedness of Terex that is permitted by the terms of the Indenture to be outstanding to the extent the notional principal amount of such obligation does not exceed the aggregate principal amount of the Indebtedness to which such Interest Rate Protection Agreements relate, (B) Currency Agreement Obligations in respect of foreign exchange exposures Incurred by Terex in the ordinary course of its business and (C) commodity agreements of Terex to the extent entered into in the ordinary course of business to protect Terex from fluctuations in the prices of raw materials used in its business;

(7) Indebtedness of Terex consisting of obligations in respect of purchase price adjustments in connection with the acquisition or disposition of assets by Terex or any Restricted Subsidiary permitted under the Indenture;

(8) Capital Lease Obligations, Purchase Money Indebtedness and Acquired Indebtedness (to the extent not Incurred in connection with, or in anticipation or contemplation of, the relevant transaction) in an aggregate principal amount, together with the principal amount of Indebtedness Incurred pursuant to clause (9) of "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries," not exceeding \$15 million at any one given time outstanding;

(9) performance bonds, surety bonds, insurance obligations or bonds and other similar bonds or obligations incurred by Terex in the ordinary course of business consistent with past practice;

(10) Floor Plan Guarantees;

(11) Indebtedness Incurred pursuant to the terms of the outstanding Common Stock Appreciation Rights, as such terms are in effect on December 17, 2001; and

(12) Indebtedness in an aggregate principal amount which, together with all other Indebtedness of Terex then outstanding (other than Indebtedness permitted by paragraph (a) or clauses (1) through (11) of this paragraph (b)) does not exceed \$25 million (less the amount of any Subsidiary Indebtedness and Preferred Stock then outstanding and Incurred pursuant to clause (12) of "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries").

(c) Except to the extent that such Indebtedness is permitted to be Incurred pursuant to paragraphs (a) and (b) above and the provisions of "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries," Terex will not, and will not permit any Restricted Subsidiary to, Incur any Indebtedness if the proceeds thereof are used, directly or indirectly, to repay, prepay, redeem, defease, retire, refund or refinance any Subordinated Obligations unless such Indebtedness shall be subordinated to the notes or the relevant Subsidiary Guarantee, as applicable, to at least the same extent as such Subordinated Obligations.

(d) For purposes of determining compliance with the covenants entitled "--Limitation on Indebtedness" and "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries," in the event that an item of Indebtedness meets the criteria of more than one of the types of Indebtedness described above, Terex, in its sole discretion, will classify such item of Indebtedness and only be required to include the amount and type of such Indebtedness in one of the above clauses.

(e) For purposes of determining amounts of Indebtedness under the covenants entitled "--Limitation on Indebtedness" and "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries," Indebtedness resulting from security interests granted with respect to Indebtedness otherwise included in the determination of Indebtedness, and Guarantees (and security interests with respect thereof) of, or obligations with respect to letters of credit supporting, Indebtedness otherwise included in the determination of Indebtedness shall not be included in the determination of Indebtedness.

(f) Indebtedness of any Person which is outstanding at the time such Person becomes a Restricted Subsidiary of Terex (including upon designation of any subsidiary or other person as a Restricted Subsidiary) or is merged with or into or consolidated with Terex or a Restricted Subsidiary of Terex shall be deemed to have been Incurred at the time such Person becomes such a Restricted Subsidiary of Terex or merged with or into or consolidated with Terex or a Restricted Subsidiary of Terex, as applicable.

Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries

Terex will not permit any Restricted Subsidiary to Incur, directly or indirectly, any Indebtedness or Preferred Stock (except that a Subsidiary Guarantor shall be permitted to issue Preferred Stock) except for the following:

(1) Indebtedness Incurred pursuant to the Credit Facility, together with the aggregate amount of all Indebtedness then outstanding and issued pursuant to clause (b)(1) of "Limitation on Indebtedness" above, not to exceed in outstanding principal amount the greater of (1) \$950 million at any time outstanding and (2) the sum of (x) 80% of the consolidated book value of the net accounts receivable of Terex and (y) 50% of the consolidated book value of the inventory of Terex, in each case determined in accordance with GAAP;

(2) Indebtedness or Preferred Stock issued to and held by Terex or a Restricted Subsidiary; provided, however, that (A) any subsequent issuance or transfer of any Capital Stock that results in any such Subsidiary ceasing to be a Restricted Subsidiary or (B) any subsequent transfer of such Indebtedness or Preferred Stock (other than to Terex or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Indebtedness or Preferred Stock by the issuer thereof;

(3) Acquired Indebtedness (to the extent not Incurred in connection

Edgar Filing: TEREX CORP - Form S-4

with, or in anticipation or contemplation of, the relevant transaction) of such Restricted Subsidiary; provided that after giving effect to the Incurrence of such Acquired Indebtedness, Terex could incur \$1.00 of Indebtedness pursuant to paragraph (a) under "--Limitation on Indebtedness";

(4) Indebtedness or Preferred Stock (other than any described in clause (1), (2) or (3)) outstanding on December 17, 2001 (including Guarantees in respect of the Existing Notes);

(5) Refinancing Indebtedness Incurred in respect of Indebtedness or Preferred Stock referred to in clause (3), (4) or (10) or this clause (5); provided, however, that to the extent such Refinancing Indebtedness Refinances Acquired Indebtedness or Preferred Stock of a Restricted

34

Subsidiary that is not a Wholly Owned Subsidiary, such Refinancing Indebtedness shall be Incurred only by such Restricted Subsidiary;

(6) Obligations of a Restricted Subsidiary pursuant to (A) Interest Rate Protection Agreements in respect of Indebtedness of the Restricted Subsidiary that is permitted by the terms of the Indenture to be outstanding to the extent the notional principal amount of such obligation does not exceed the aggregate principal amount of the Indebtedness to which such Interest Rate Protection Agreements relate, (B) Currency Agreement Obligations in respect of foreign exchange exposures Incurred by the Restricted Subsidiary in the ordinary course of its business and (C) commodity agreements of the Restricted Subsidiary to the extent entered into in the ordinary course of business to protect the Restricted Subsidiary from fluctuations in the prices of raw materials used in its business;

Edgar Filing: TEREX CORP - Form S-4

Limitation on Liens Securing Subordinated Indebtedness

Terex will not, and will not permit any Restricted Subsidiary to, create, incur, assume or suffer to exist any Liens of any kind (other than Permitted Liens) upon any of their respective assets or properties now owned or acquired after the date of the Indenture or any income or profits therefrom securing either:

(1) any Indebtedness of Terex or a Restricted Subsidiary which is expressly by its terms subordinate or junior in right of payment to any other Indebtedness of Terex or such Restricted Subsidiary, as the case may be, unless the notes or the relevant Subsidiary Guarantee, as the case may be, are equally and ratably secured for so long as such Indebtedness is so secured; provided that, if such Indebtedness which is expressly by its terms subordinate or junior in right of payment to any other Indebtedness of Terex or a Restricted Subsidiary is expressly subordinate or junior to the notes or the relevant Subsidiary Guarantee, as the case may be, then the Lien securing such subordinated or junior Indebtedness shall be subordinate and junior to the Lien securing the notes or the relevant Subsidiary Guarantee, as the case may be, with the same relative priority as such subordinated or junior Indebtedness shall have with respect to the notes or the relevant Subsidiary Guarantee, as the case may be, or

(2) any assumption, guarantee or other liability of Terex or any Restricted Subsidiary in respect of any Indebtedness of Terex or a Restricted Subsidiary which is expressly by its terms subordinate or junior in right of payment to any other Indebtedness of Terex or such Restricted Subsidiary, unless the notes or the relevant Subsidiary Guarantee, as the case may be, are equally and ratably secured for so long as such assumption, guaranty or other liability is so secured; provided that, if such subordinated Indebtedness which is expressly by its terms subordinate or junior in right of payment to any other Indebtedness of Terex or a Restricted

35

Subsidiary is expressly by its terms subordinate or junior to the notes or the relevant Subsidiary Guarantee, as the case may be, then the Lien securing the assumption, guarantee or other liability of such Subsidiary shall be subordinate and junior to the Lien securing the notes or the relevant Subsidiary Guarantee, as the case may be, with the same relative priority as such subordinated or junior Indebtedness shall have with respect to the notes or the relevant Subsidiary Guarantee, as the case may be.

Limitation on Other Senior Subordinated Indebtedness

Terex will not, and will not permit any Restricted Subsidiary to, create, incur, assume, guarantee or in any other manner become liable with respect to any Indebtedness that is subordinate in right of payment to any Senior Indebtedness of Terex or any such Restricted Subsidiary, unless such Indebtedness (a) is in the form of additional notes, in which case this covenant will not apply, or (b) (i) has a maturity date subsequent to the Stated Maturity of the notes and an Average Life longer than that of the notes and (ii) is also pari passu with, or subordinate in right of payment to, the notes or the relevant Subsidiary Guarantee, as the case may be.

Limitation on Restricted Payments

(a) Terex will not, and will not permit any Restricted Subsidiary to,

Edgar Filing: TEREX CORP - Form S-4

directly or indirectly, (i) declare or pay any dividend or make any distribution on or in respect of its Capital Stock (including any payment in connection with any merger or consolidation involving Terex) or to the direct or indirect holders of its Capital Stock in their capacities as such (except dividends or distributions payable solely in Capital Stock (other than Disqualified Stock) or in options, warrants or other rights to purchase its Capital Stock (other than Disqualified Stock) and except dividends or distributions payable to Terex or any Restricted Subsidiary (and, if the Restricted Subsidiary making such dividends or distributions has any stockholders other than Terex or another Restricted Subsidiary, to such stockholders on no more than a pro rata basis, measured by value)), (ii) purchase, redeem or otherwise acquire or retire for value any Capital Stock of Terex, any Restricted Subsidiary or any other Affiliate of Terex, (iii) purchase, repurchase, redeem, defease or otherwise acquire or retire for value, prior to scheduled maturity, scheduled repayment or scheduled sinking fund payment, any Subordinated Obligations or (iv) make any Restricted Investment (any such dividend, distribution, purchase, redemption, repurchase, defeasance, other acquisition, retirement or Restricted Investment being herein referred to as a "Restricted Payment") if at the time Terex or such Restricted Subsidiary makes such Restricted Payment:

(1) a Default shall have occurred and be continuing (or would result therefrom); or

(2) Terex would not be permitted to issue an additional \$1.00 of Indebtedness pursuant to paragraph (a) under "--Limitation on Indebtedness" after giving pro forma effect to such Restricted Payment; or

(3) the aggregate amount of such Restricted Payment and all other Restricted Payments since March 31, 1998 would exceed the sum of:

(A) 50% of the Consolidated Net Income accrued during the period (treated as one accounting period) from the beginning of the first full fiscal quarter commencing after March 31, 1998 to the end of the most recent fiscal quarter for which financial statements are available (or, in case such Consolidated Net Income shall be a deficit, minus 100% of such deficit) plus

(B) the aggregate Net Cash Proceeds received by Terex from (x) the issue or sale of its Capital Stock (other than Disqualified Stock) subsequent to March 31, 1998 (other than an issuance or sale to a Subsidiary or an employee stock ownership plan or similar trust in the benefit of employees) and (y) the issue or sale (other than an issuance or sale to a Subsidiary or an employee stock ownership plan or similar trust in the benefit of employees) after March 31, 1998 of Disqualified Stock or debt securities that have been converted or exchanged in accordance with their terms for Capital Stock of Terex (other than Disqualified Stock), in each case to the extent such proceeds are not used to redeem, repurchase, retire or otherwise acquire Capital Stock or any Indebtedness of Terex or any Restricted Subsidiary or to make any Investment pursuant to clause (8) of the definition of "Permitted Investment."

(b) The provisions of clauses (2) and (3) of paragraph (a) shall not prohibit:

(1) any purchase or redemption of Capital Stock or Subordinated Obligations of Terex made by exchange for, or out of the proceeds of the substantially concurrent sale or issuance of, Capital Stock of Terex (other than Disqualified Stock and other than Capital Stock issued or sold to a

Edgar Filing: TEREX CORP - Form S-4

Subsidiary or an employee stock ownership plan); provided, however, that the Net Cash Proceeds from such sale shall be excluded from clause (3)(B) of paragraph (a);

(2) dividends paid within 60 days after the date of declaration if at such date of declaration such dividend would have complied with this provision; provided, however, that such dividend shall be deducted in the calculation of the amount of Restricted Payments available to be made referred to in clause (3) of paragraph (a) above;

(3) the repurchase of shares of, or options to purchase shares of, Capital Stock of Terex or any of its Subsidiaries from employees, former employees, directors or former directors of Terex or any of its Subsidiaries (or permitted transferees of such employees, former employees, directors or former directors), pursuant to the terms of the agreements (including employment agreements) or plans (or amendments thereto) approved by the Board of Directors under which such individuals purchase or sell or are granted the option to purchase or sell, shares of such common stock; provided, however, that the aggregate amount of any repurchases pursuant to this clause (3) and any purchases pursuant to clause (4) below shall not exceed \$2 million per year or \$10 million in the aggregate on or after March 31, 1998;

(4) provided that no Default or Event of Default shall have occurred or be continuing at the time of such payment or after giving effect thereto, the purchase by Terex of shares of its common stock (for not more than fair market value) in connection with the delivery of such stock to grantees under any stock option plan (upon the exercise by such grantees of their stock options) or any other deferred compensation plan of Terex approved by the Board of Directors; provided, however, that the aggregate amount of any purchases pursuant to this clause (4) and any repurchases pursuant to clause (3) above shall not exceed \$2 million per year or \$10 million in the aggregate on or after March 31, 1998;

(5) the redemption, purchase, retirement or other payoff of any Subordinated Obligations with the proceeds of any Refinancing Indebtedness permitted to be incurred pursuant to the terms of clause (b)(5) of "--Certain Covenants--Limitation on Indebtedness" and clause (5) of "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries"; and

(6) provided that no Default or Event of Default shall have occurred or be continuing at the time of such payment or after giving effect thereto, other Restricted Payments in an aggregate amount not to exceed \$10 million; provided, however, that such payment shall be deducted in the calculation of the amount of Restricted Payments available to be made referred to in clause (3) of paragraph (a) above.

Limitation on Restrictions on Distributions from Restricted Subsidiaries

Terex will not, and will not permit any Restricted Subsidiary to, directly or indirectly, create or permit to exist or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary to (a) pay dividends or make any other distributions on its Capital Stock or with respect to any other interest or participation in, or measured by, its profits to Terex or a Restricted Subsidiary or pay any Indebtedness or other obligation owed to Terex or a Restricted Subsidiary, (b) make any loans or advances to Terex or any other Restricted Subsidiary or (c) transfer any of its property or assets to Terex or any other Restricted Subsidiary, except for such encumbrances or restrictions existing under or by reason of:

(1) the Credit Facility as in effect on December 17, 2001, and any

Edgar Filing: TEREX CORP - Form S-4

amendments, restatements, renewals, replacements or refinancings thereof; provided, however, that such amendments, restatements, renewals, replacements or refinancings are no more restrictive with respect to such dividend and other payment restrictions than those contained in the Credit Facility (or, if more restrictive, than those contained in the Indenture) immediately prior to any such amendment, restatement, renewal, replacement or refinancing,

(2) applicable law,

(3) any instrument governing Indebtedness or Capital Stock of an Acquired Person acquired by Terex or any of its Restricted Subsidiaries as in effect at the time of such acquisition

37

(except to the extent such Indebtedness was incurred in connection with or in contemplation of such acquisition); provided, however, that (A) such restriction is not applicable to any Person, or the properties or assets of any Person, other than the Acquired Person, and (B) the consolidated net income of an Acquired Person for any period prior to such acquisition shall not be taken into account in determining whether such acquisition was permitted by the terms of the Indenture,

(4) by reason of customary non-assignment provisions in leases or other agreements entered into the ordinary course of business and consistent with past practices,

(5) Purchase Money Indebtedness for property acquired in the ordinary course of business that only impose restrictions on the property so acquired,

(6) an agreement for the sale or disposition of the Capital Stock or assets of such Restricted Subsidiary; provided, however, that such restriction is only applicable to such Restricted Subsidiary or assets, as applicable, and such sale or disposition otherwise is permitted under "--Limitation on Sales of Assets and Subsidiary Stock" below; provided, further, however, that such restriction or encumbrance shall be effective only for a period from the execution and delivery of such agreement through a termination date not later than 270 days after such execution and delivery, or

(7) Refinancing Indebtedness permitted under the Indenture; provided, however, that the restrictions contained in the agreements governing such Refinancing Indebtedness are no more restrictive in the aggregate than those contained in the agreements governing the Indebtedness being refinanced immediately prior to such refinancing.

Notwithstanding the foregoing, neither (a) customary provisions restricting subletting or assignment of any lease entered into in the ordinary course of business, consistent with past practice, nor (b) Liens permitted under the Indenture, shall in and of themselves be considered a restriction on the ability of the applicable Restricted Subsidiary to transfer such agreements or assets, as the case may be.

Limitation on Sales of Assets and Subsidiary Stock

(a) Terex will not, and will not permit any Restricted Subsidiary to, make any Asset Disposition unless:

(1) Terex or such Restricted Subsidiary receives consideration at the

Edgar Filing: TEREX CORP - Form S-4

time of such Asset Disposition at least equal to the fair market value, as determined in good faith by the Board of Directors (including as to the value of all non-cash consideration), of the shares and assets subject to such Asset Disposition and at least 75% of the consideration thereof received by Terex or such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents, and

(2) an amount equal to 100% of the Net Available Cash from such Asset Disposition is applied by Terex (or such Restricted Subsidiary, as the case may be):

(A) first, (x) to the extent Terex elects (or is required by the terms of any Senior Indebtedness), to prepay, repay or purchase Senior Indebtedness of Terex within 360 days of such Asset Disposition, (y) at Terex's election to the investment by Terex or any Wholly Owned Subsidiary or such Restricted Subsidiary in long-term assets to replace the assets that were the subject of such Asset Disposition or a long-term asset that (as determined in good faith by the Board of Directors) is directly related to the business of Terex and the Restricted Subsidiaries existing on December 17, 2001, in each case within 360 days from the date of such Asset Disposition, or (z) a combination of the foregoing purposes within such 360-day period;

(B) second, to the extent of the balance of such Net Available Cash after application in accordance with clause (A), to make a pro rata offer to purchase notes at par (and, to the extent required by the instrument governing such Indebtedness, any other Senior Subordinated Indebtedness designated by Terex, at a price no greater than par) plus accrued and unpaid interest, and

(C) third, to the extent of the balance of such Net Available Cash after application in accordance with clauses (A) and (B), for general corporate purposes otherwise permitted under the Indenture; provided, however, that in connection with any

38

prepayment, repayment or purchase of Indebtedness pursuant to clause (A) or (B) above, Terex or such Subsidiary shall retire such Indebtedness and cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid or purchased. Notwithstanding the foregoing provisions of this Section, Terex and its Restricted Subsidiaries shall not be required to apply any Net Available Cash in accordance with this Section except to the extent that the aggregate Net Available Cash from all Asset Dispositions (including any Asset Dispositions made since December 17, 2001) which are not applied in accordance with this Section exceeds \$10 million. Pending application of Net Available Cash pursuant to this Section, such Net Available Cash shall be used to temporarily reduce Senior Indebtedness or invested in Cash Equivalents.

For the purposes of this covenant, the following is deemed to be cash or Cash Equivalents: the express assumption of Indebtedness (other than any Indebtedness that is by its terms subordinated to the notes) of Terex or any Restricted Subsidiary, but only to the extent that such assumption is effected on a basis under which there is no further recourse to Terex or any of the Restricted Subsidiaries with respect to such liabilities.

(b) In the event of an Asset Disposition that requires the purchase of the

Edgar Filing: TEREX CORP - Form S-4

notes (and other Senior Subordinated Indebtedness) pursuant to clause (a) (2) (B) above, Terex will purchase notes tendered pursuant to an offer by Terex for the notes (and, to the extent required, other Senior Subordinated Indebtedness) at a purchase price of 100% of their principal amount (without premium) plus accrued but unpaid interest (or, in respect of such other Senior Subordinated Indebtedness, such lesser price, if any, as may be provided for by the terms of such Senior Subordinated Indebtedness) in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture which will include, among other things, that the offer shall remain open for 20 Business Days following its commencement. If the aggregate purchase price of notes (and, to the extent required, any other Senior Subordinated Indebtedness) tendered pursuant to such offer is less than the Net Available Cash allotted to the purchase thereof, Terex will be required to apply the remaining Net Available Cash in accordance with clause (a) (2) (C) above. Terex will not be required to make such an offer to purchase notes (and other Senior Subordinated Indebtedness) pursuant to this covenant if the Net Available Cash available therefor is less than \$10 million (which lesser amount shall be carried forward for purposes of determining whether such an offer is required with respect to any subsequent Asset Disposition).

(c) Terex will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, Terex will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations under this clause by virtue thereof.

Limitation on Affiliate Transactions

(a) Terex will not, and will not permit any Restricted Subsidiary to, directly or indirectly, conduct any business or enter into any transaction or series of similar transactions (including the purchase, sale, lease or exchange of any asset or property or the rendering of any service) with any Affiliate of Terex (other than any employee stock ownership plan for the benefit of Terex's or a Restricted Subsidiary's employees) unless the terms of such business, transaction or series of transactions are:

(1) set forth in writing;

(2) as favorable to Terex or such Restricted Subsidiary as terms that would be obtainable at the time for a comparable transaction or series of similar transactions in arms length dealings with an unrelated third Person; and

(3) a majority of the disinterested members of the Board of Directors have, by resolution, determined in good faith that such business or transaction or series of transactions meets the criteria set forth in (2) above;

provided, however, that if such transaction involves an amount in excess of \$10 million, Terex shall also obtain from a nationally recognized independent investment banking firm, accounting firm or appraisal firm with experience in evaluating the terms and conditions of such type of business or transactions an opinion that such transaction is fair from a financial point of view to Terex or its Restricted Subsidiary,

as the case may be; provided, further, however, that the provisions of both clause (3) above and the preceding proviso shall not apply with respect to any

Edgar Filing: TEREX CORP - Form S-4

such business, transaction or series of transactions between Terex or any Subsidiary Guarantor, on the one hand, and any Restricted Subsidiary, on the other hand, which business, transaction or series of transactions is entered into in the ordinary course of business.

(b) The provisions of the foregoing paragraph (a) will not prohibit:

(1) any Restricted Payment permitted to be made pursuant to the covenant described under "--Limitation on Restricted Payments," or any payment or transaction specifically excepted from the definition of Restricted Payment;

(2) any issuance of securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, employment arrangements, stock options and stock ownership plans entered into in the ordinary course of business and approved by a majority of the entire Board of Directors or by a majority of the disinterested members of the Board of Directors or a majority of the entire board of directors or a majority of the disinterested members of the board of directors of the relevant Restricted Subsidiary;

(3) the grant of stock options or similar rights to employees and directors pursuant to plans approved by a majority of the entire Board of Directors or by a majority of the disinterested members of the Board of Directors or a majority of the entire board of directors or a majority of the disinterested members of the board of directors of the relevant Restricted Subsidiary;

(4) loans or advances to officers, directors or employees in the ordinary course of business;

(5) the payment of reasonable fees to directors of Terex and its Restricted Subsidiaries who are not employees of Terex or its Restricted Subsidiaries;

(6) any Affiliate transaction between Terex and a Subsidiary Guarantor, between Subsidiary Guarantors, or between Restricted Subsidiaries (neither of which is a Subsidiary Guarantor);

(7) indemnification or insurance provided to officers or directors of Terex or any Subsidiary approved in good faith by the Board of Directors;

(8) payment of compensation and benefits to directors, officers and employees of Terex and its Subsidiaries approved in good faith by the Board of Directors; and

(9) the purchase of or the payment of Indebtedness of or monies owed by Terex or any of its Restricted Subsidiaries for goods or materials purchased, or services received, in the ordinary course of business.

Limitation on the Sale or Issuance of Capital Stock of Restricted Subsidiaries

Terex will not sell or otherwise dispose of any Capital Stock of a Restricted Subsidiary, and will not permit any Restricted Subsidiary, directly or indirectly, to issue or sell or otherwise dispose of any of its Capital Stock except (1) to Terex or a Wholly Owned Subsidiary, (2) if, immediately after giving effect to such issuance, sale or other disposition, neither Terex nor any of its Subsidiaries own any Capital Stock of such Restricted Subsidiary, (3) Preferred Stock of a Subsidiary Guarantor, or (4) directors qualifying shares.

Merger and Consolidation

Edgar Filing: TEREX CORP - Form S-4

Terex will not, in a single transaction or a series of related transactions, consolidate with or merge with or into, or convey, transfer or lease all or substantially all its assets (computed on a consolidated basis) to, any Person or group of affiliated Persons, unless:

(1) the resulting, surviving or transferee Person shall be Terex or, if not Terex, shall be a corporation organized and existing under the laws of the United States of America, any State thereof or the District of Columbia (the "Successor Company"), and such Successor Company shall expressly assume, by an indenture supplemental to the Indenture, executed and delivered to

41

the trustee, all the obligations of Terex under the notes and this Indenture (and the Subsidiary Guarantees shall be confirmed as applying to such Person's obligations);

(2) at the time of and immediately after giving effect to such transaction or transactions on a pro forma basis (and treating any Indebtedness which becomes an obligation of the resulting, surviving or transferee Person or any Subsidiary as a result of such transaction as having been Incurred by such Person or such Subsidiary at the time of such transaction), no Default or Event of Default shall have occurred and be continuing;

(3) immediately after giving effect to such transaction, the resulting, surviving or transferee Person would be able to Incur at least \$1.00 of Indebtedness pursuant to paragraph (a) of the "--Limitation on Indebtedness"; and

(4) Terex shall have delivered to the trustee an Officers Certificate and if a supplemental indenture is required, an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture.

The Successor Company will be the successor to Terex and shall succeed to, and be substituted for, and may exercise every right and power of, Terex under the Indenture, and the predecessor company, in the case of a conveyance, transfer or lease, shall be released from the obligation to pay the principal of and interest on the notes.

For purposes of the foregoing, the transfer (by lease, assignment, sale or otherwise) of all or substantially all of the properties and assets of one or more Subsidiaries, Terex's interest in which constitutes all or substantially all of the properties and assets of Terex will be deemed to be the transfer of all or substantially all of the properties and assets of Terex.

Terex will not permit any Subsidiary Guarantor to consolidate with or merge with or into, or convey, transfer or lease, in one transaction or a series of transactions, all or substantially all of its assets to, any Person unless:

(1) the resulting, surviving or transferee Person shall be Terex or a Subsidiary Guarantor or, if not Terex or such a Subsidiary Guarantor, shall be a corporation organized and existing under the laws of the jurisdiction under which such Subsidiary was organized or under the laws of the United States of America, or any State thereof or the District of Columbia, and such Person shall expressly assume, by executing a Subsidiary Guarantee, all the obligations of such Subsidiary, if any, under its Subsidiary Guarantee;

Edgar Filing: TEREX CORP - Form S-4

(2) immediately after giving effect to such transaction or transactions on a pro forma basis (and treating any Indebtedness which becomes an obligation of the resulting, surviving or transferee Person as a result of such transaction as having been issued by such Person at the time of such transaction), no Default or Event of Default shall have occurred and be continuing;

(3) immediately after giving effect to such transaction, Terex would be able to Incur at least \$1.00 of Indebtedness pursuant to the "--Limitation on Indebtedness"; and

(4) Terex delivers to the trustee an Officers Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such Subsidiary Guarantee, if any, complies with the Indenture.

The provisions of clauses (1), (2) and (3) above shall not apply to any one or more transactions which constitute (a) an Asset Disposition subject to the applicable provisions of the covenant described under "--Limitation on Sales of Assets and Subsidiary Stock" above or (b) the grant of any Lien on the assets of a Restricted Subsidiary to secure outstanding Bank Indebtedness, which Lien is otherwise permitted by the terms of the Indenture, or any conveyance or transfer of such assets resulting from an exercise of remedies in respect of any such Lien.

Notwithstanding the foregoing, Terex may merge with or into, or convey, transfer or lease all or substantially all of its assets to, any Subsidiary Guarantor, and a Subsidiary Guarantor may merge with or into, or convey, transfer or lease all or substantially all of its assets to, any other Subsidiary Guarantor.

The phrase "all or substantially all" of the assets of Terex or a Subsidiary Guarantor will likely be interpreted under applicable state law and will be dependent upon particular facts and circumstances.

41

As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of "all or substantially all" of the assets of Terex or a Subsidiary Guarantor has occurred.

Future Subsidiary Guarantors

The Indenture provides that Terex and each Subsidiary Guarantor will cause each Restricted Subsidiary of Terex organized or existing under the laws of the United States, any state thereof or the District of Columbia of Terex which, after December 17, 2001 (if not then a Subsidiary Guarantor), becomes a Restricted Subsidiary to execute and deliver an indenture supplemental to the Indenture and thereby become a Subsidiary Guarantor which shall be bound by the Subsidiary Guarantee of the notes in the form set forth in the Indenture (without such future Subsidiary Guarantor being required to execute and deliver the Subsidiary Guarantee endorsed on the notes); provided, however that PPM Cranes, Inc. will not be a Subsidiary Guarantor unless PPM Cranes, Inc. has not transferred substantially all of its assets to another Subsidiary Guarantor on or prior to February 28, 2002. If substantially all of the assets of PPM Cranes, Inc. are not transferred to another Subsidiary Guarantor on or prior to February 28, 2002, PPM Cranes, Inc. will execute and deliver an indenture supplemental to the Indenture and thereby become a Subsidiary Guarantor of the notes. In addition, the Indenture provides that Terex will not permit any Restricted Subsidiary that is not a Subsidiary Guarantor to Guarantee any other

Edgar Filing: TEREX CORP - Form S-4

Indebtedness of Terex or any Subsidiary Guarantor unless such Restricted Subsidiary simultaneously executes a supplemental indenture to the Indenture providing for the Guarantee of the payment of the notes by such Restricted Subsidiary, which Guarantee of the payment of the notes shall be subordinated to the Guarantee of such other Indebtedness to the same extent as the notes or the Subsidiary Guarantees, as applicable, are subordinated to such other Indebtedness; provided, however, that such Restricted Subsidiary shall not be required to so Guarantee the payment of the notes to the extent that such other Indebtedness does not exceed \$1 million individually or, together with any other Indebtedness of Terex or any Subsidiary Guarantor Guaranteed by such Restricted Subsidiary, \$3 million in the aggregate. Such Restricted Subsidiary shall be deemed released from its obligations under the Guarantee of the payment of the notes at any such time that such Restricted Subsidiary is released from all of its obligations under its Guarantee of such other Indebtedness unless such release results from the payment under such Guarantee of other Indebtedness.

Limitation on Lines of Business

The Indenture provides that neither Terex nor any of its Subsidiaries or Unrestricted Subsidiaries shall directly or indirectly engage to any substantial extent in any line or lines of business activity other than that which, in the reasonable good faith judgment of the Board of Directors, is a Related Business.

Limitation on Designations of Unrestricted Subsidiaries

The Indenture provides that Terex may designate any Subsidiary of Terex (other than a Subsidiary Guarantor) as an "Unrestricted Subsidiary" under the Indenture (a "Designation") only if:

- (1) no Default shall have occurred and be continuing at the time of or after giving effect to such Designation; and
- (2) either (x) Terex's Investment in such Subsidiary does not exceed \$1,000 or (y) Terex would be permitted under the Indenture to make an Investment at the time of Designation (assuming the effectiveness of such Designation) in an amount (the "Designation Amount") equal to the fair market value of Terex's Investment in such Subsidiary on such date.

In the event of any such Designation, Terex shall be deemed to have made an Investment constituting a Restricted Payment pursuant to the covenant described under "--Limitation on Restricted Payments" for all purposes of the Indenture in the Designation Amount. The Indenture will further provide that Terex will not, and will not permit any Restricted Subsidiary to, at any time:

- (1) provide credit support for, or a guarantee of, any Indebtedness of any Unrestricted Subsidiary (including any undertaking, agreement or instrument evidencing such Indebtedness);
- (2) be directly or indirectly liable for any Indebtedness of any Unrestricted Subsidiary; or
- (3) be directly or indirectly liable for any Indebtedness which provides that the

holder thereof may (upon notice, lapse of time or both) declare a default thereon or cause the payment thereof to be accelerated or payable prior to its final scheduled maturity upon the occurrence of a default with respect to any Indebtedness of any Unrestricted Subsidiary (including any right to take enforcement action against such Unrestricted Subsidiary), except to

Edgar Filing: TEREX CORP - Form S-4

the extent permitted under the covenant described under "--Limitation on Restricted Payments."

The Indenture will further provide that Terex may revoke any Designation of a Subsidiary as an Unrestricted Subsidiary (a "Revocation") if:

(1) no Default shall have occurred and be continuing at the time of and after giving effect to such Revocation; and

(2) all Liens and Indebtedness of such Unrestricted Subsidiary outstanding immediately following such Revocation would, if Incurred at such time, have been permitted to be Incurred for all purposes of the Indenture and for all purposes of the Indenture shall be deemed to have been Incurred at such time.

All Designations and Revocations must be evidenced by an Officers Certificate delivered to the trustee attaching a certified copy of the resolutions of the Board of Directors giving effect to such Designation or Revocation, as applicable, and certifying compliance with the foregoing provisions.

Notwithstanding the foregoing, no Subsidiary that was a Subsidiary Guarantor as of December 17, 2001 shall be permitted to become an Unrestricted Subsidiary.

SEC Reports

Notwithstanding that Terex may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, Terex will file with the SEC and provide within 15 days to the trustee and noteholders such annual reports and such information, documents and other reports as are specified in Sections 13 and 15(d) of the Exchange Act and applicable to a U.S. corporation subject to such Sections, such information, documents and other reports to be so filed and provided at the times specified for the filing of such information, documents and reports under such Sections.

Defaults

An "Event of Default" is defined in the Indenture as the following:

(1) a default in the payment of interest on the notes when due, continued for 30 days (whether or not prohibited by the subordination provisions of the Indenture);

(2) a default in the payment of principal of any Note when due at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration or otherwise (whether or not prohibited by the subordination provisions of the Indenture);

(3) the failure by Terex to comply with its obligations under "--Certain Covenants--Merger and Consolidation" above;

(4) the failure by Terex to comply for 30 days after notice with any of its obligations in the covenants described above under "Change of Control" (other than a failure to purchase notes) or under "--Certain Covenants--Limitation on Indebtedness," "--Limitation on Indebtedness and Preferred Stock of Restricted Subsidiaries," "--Limitation on Liens Securing Subordinated Indebtedness," "--Limitation on Other Senior Subordinated Indebtedness," "--Limitation on Restricted Payments," "--Limitation on Restrictions on Distributions from Restricted Subsidiaries," "--Limitation on Sales of Assets and Subsidiary Stock" (other than a failure to purchase the notes), "--Limitation on Affiliate

Edgar Filing: TEREX CORP - Form S-4

Transactions," "--Limitation on the Sale or Issuance of Capital Stock of Restricted Subsidiaries," "--Future Subsidiary Guarantors," "--Limitation on Designations of Unrestricted Subsidiaries," or "--SEC Reports;"

(5) the failure by Terex to comply for 60 days after notice with its other covenants, obligations, warranties or agreements contained in the Indenture;

(6) Indebtedness of Terex or any Significant Subsidiary is not paid within any applicable

43

grace period after final maturity or is accelerated by the holders thereof because of a default and the total amount of such Indebtedness unpaid or accelerated exceeds \$10 million (the "cross acceleration provision");

(7) certain events of bankruptcy, insolvency or reorganization of Terex or any Significant Subsidiary (the "bankruptcy provisions");

(8) any judgment or decree for the payment of money, the portion of which is not covered by insurance is in excess of \$10 million, which is rendered against Terex or any Subsidiary and is not discharged and either (A) an enforcement proceeding has been commenced by any creditor upon such judgment or decree or (B) there is a period of 60 days following such judgment during which such judgment or decree is not discharged, waived or the execution thereof stayed (including pending appeal); or

(9) any Subsidiary Guarantee by a Significant Subsidiary ceases to be in full force and effect or becomes unenforceable or invalid or is declared null and void (other than in accordance with the terms of the Subsidiary Guarantee or the Indenture) or any Subsidiary Guarantor that is a Significant Subsidiary denies or disaffirms its obligations under its Subsidiary Guarantee.

However, a default under clause (4), (5) or (8) will not constitute an Event of Default until the trustee or the holders of 25% in principal amount of the outstanding notes notify Terex of the default and Terex does not cure such default within the time specified after receipt of such notice.

If an Event of Default (other than the bankruptcy provisions relating to Terex) occurs and is continuing, the trustee or the holders of at least 25% in principal amount of the outstanding notes may declare the principal of and accrued but unpaid interest on all the notes to be due and payable. Upon such a declaration, such principal and interest shall be due and payable immediately; provided, however, that for so long as the Credit Facility remains in effect, such declaration shall not become effective until the earlier of (1) five Business Days following delivery of notice to the Representative of such creditors of the intention to accelerate the notes or (2) the acceleration of any Indebtedness under the Credit Facility. If an Event of Default relating to the bankruptcy provisions relating to Terex occurs and is continuing, the principal of and interest on all the notes will ipso facto become and be immediately due and payable without any declaration or other act on the part of the trustee or any holders. Under certain circumstances, the holders of a majority in principal amount of the outstanding notes may rescind any such acceleration with respect to the notes and its consequences.

Subject to the provisions of the Indenture relating to the duties of the trustee, in case an Event of Default occurs and is continuing, the trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the holders unless such holders

Edgar Filing: TEREX CORP - Form S-4

have offered to the trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no holder of a Note may pursue any remedy with respect to the Indenture or the notes unless:

(1) such holder has previously given the trustee notice that an Event of Default is continuing;

(2) holders of at least 25% in principal amount of the outstanding notes have requested the trustee to pursue the remedy;

(3) such holders have offered the trustee reasonable security or indemnity against any loss, liability or expense;

(4) the trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and

(5) the holders of a majority in principal amount of the outstanding notes have not given the trustee a direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, the holders of a majority in principal amount of the outstanding notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or of exercising any trust or power conferred on the trustee. The trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the trustee

44

reasonably determines is unduly prejudicial to the rights of any other holder or that would involve the trustee in personal liability.

The Indenture provides that if a Default occurs and is continuing and is known to the trustee, the trustee must mail to each holder notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal or interest on any Note, the trustee may withhold notice if and so long as the Board of Directors, the executive committee or a committee of its trust officers reasonably determines that withholding notice is in the best interest of the holders. In addition, Terex is required to deliver to the trustee, within 120 days after the end of each fiscal year, a certificate regarding knowledge of Terex's compliance with all covenants and conditions under the Indenture. Terex also is required to deliver to the trustee, within 30 days after the occurrence thereof, written notice of any event which would constitute certain Defaults, their status and what action Terex is taking or proposes to take in respect thereof.

Amendments and Waivers

Subject to certain exceptions, the Indenture may be amended with the consent of the holders of a majority in principal amount of the notes then outstanding (including consents obtained in connection with a tender offer or exchange for the notes) and, subject to certain exceptions, any past default or compliance with any provisions may also be waived with the consent of the holders of a majority in principal amount of the notes then outstanding.

Without the consent of each holder of an outstanding Note affected thereby, no amendment may:

(1) reduce the amount of notes whose holders must consent to an amendment or waiver;

Edgar Filing: TEREX CORP - Form S-4

(2) reduce the rate of or extend the time for payment of interest on any Note;

(3) reduce the principal of or extend the Stated Maturity of any Note;

(4) reduce the premium payable upon the redemption of any Note or change the time at which any Note may be redeemed as described under "--Optional Redemption" above or alter the provisions (including definitions) set forth under "Change of Control" above in a manner adverse to the holders;

(5) make any Note payable in money or payable in a place other than that stated in the Note;

(6) impair the right of any holder to receive payment of principal of and interest on such holder's notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such holder's notes;

(7) make any change in the amendment provisions which require each holder's consent or in the waiver provisions;

(8) make any change to the subordination provisions (including definitions) of the Indenture that would adversely affect the holders; or

(9) make any change in any Subsidiary Guarantee that would adversely affect the holders.

Notwithstanding the preceding, without the consent of any holder, Terex and the trustee may amend the Indenture:

(1) to cure any ambiguity, omission, defect or inconsistency;

(2) to provide for the assumption by a successor corporation of the obligations of Terex under the Indenture;

(3) to provide for uncertificated notes in addition to or in place of certificated notes (provided that the uncertificated notes are issued in registered form for purposes of Section 163(f) of the Code, or in a manner such that the uncertificated notes are described in Section 163(f)(2)(B) of the Code);

(4) to add guarantees with respect to the notes, to secure the notes;

45

(5) to add to the covenants of Terex for the benefit of the holders or to surrender any right or power conferred upon Terex;

(6) to make any change that does not adversely affect the rights of any holder; or

(7) to comply with any requirement of the SEC in connection with the qualification of the Indenture under the Trust Indenture Act.

However, no amendment may be made to the subordination provisions of the Indenture that adversely affects the rights of any holder of Senior Indebtedness of Terex or any Restricted Subsidiary then outstanding unless the holders of such Senior Indebtedness (or their Representative) consent to such change.

Edgar Filing: TEREX CORP - Form S-4

The consent of the holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

After an amendment under the Indenture becomes effective, Terex is required to mail to holders a notice briefly describing such amendment. However, the failure to give such notice to all holders, or any defect therein, will not impair or affect the validity of the amendment.

Transfer

The registered holder of a Note will be treated as the owner of it for all purposes. The notes will be issued in registered form and will be transferable only upon the surrender of the notes being transferred for registration of transfer. Terex may require payment of a sum sufficient to cover any tax, assessment or other governmental charge payable in connection with certain transfers and exchanges.

Defeasance

Terex at its option at any time may terminate all of its obligations under the notes and the Indenture ("legal defeasance"), except for certain obligations, including, but not limited to, those respecting the defeasance trust and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes.

In addition, Terex at its option at any time may terminate its obligations under "Change of Control" and under the covenants described under "--Certain Covenants" (other than the covenant described under "--Merger and Consolidation") (and any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the notes), and the limitations contained in clause (3) of the first paragraph under "--Certain Covenants--Merger and Consolidation" above ("covenant defeasance"). In the event that a covenant defeasance occurs, certain events (not including non-payment, bankruptcy and insolvency events) described under "--Defaults" will no longer constitute Events of Default with respect to the notes.

Terex may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If Terex exercises its legal defeasance option, payment of the notes may not be accelerated because of an Event of Default with respect thereto.

In order to exercise either defeasance option, Terex must irrevocably deposit in trust (the "defeasance trust") with the trustee money or U.S. Government Obligations in such amounts as will be sufficient, in the report of a nationally recognized firm of independent public accountants or a nationally recognized investment banking firm, to pay and discharge the principal of, premium, if any, and interest on the outstanding notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the trustee of an Opinion of Counsel to the effect that holders will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to Federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel must be based on a ruling of the Internal Revenue Service or other change in applicable Federal income tax law).

If the funds deposited with the trustee to effect legal defeasance or covenant defeasance are insufficient to pay the principal of, premium, if any, and interest on the notes when due, then the

obligations of Terex under the Indenture will be revived and no such defeasance will be deemed to have occurred.

Concerning the Trustee

The Bank of New York is the trustee under the Indenture and has been appointed by Terex as Registrar and Paying Agent with regard to the notes. Such bank may also act as a depository of funds for, or make loans to and perform other services for, Terex or its Affiliates in the ordinary course of business in the future.

The holders of a majority in principal amount of the outstanding notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee, subject to certain exceptions. The Indenture provides that if an Event of Default occurs (and is not cured), the trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs. Subject to such provisions, the trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any holder of notes, unless such holder shall have offered to the trustee security and indemnity satisfactory to it against any loss, liability or expense and then only to the extent required by the terms of the Indenture. The trustee may resign at any time or may be removed by Terex. If the trustee resigns, is removed or becomes incapable of acting as trustee or if a vacancy occurs in the office of the trustee for any cause, a successor trustee shall be appointed in accordance with the provisions of the Indenture.

If the trustee has or shall acquire a conflicting interest within the meaning of the Trust Indenture Act, the trustee shall either eliminate such interest or resign, to the extent and in the manner provided by, and subject to the provisions of, the Trust Indenture Act and the Indenture. The Indenture also contains certain limitations on the right of the trustee, as a creditor of Terex, to obtain payment of claims in certain cases, or to realize on certain property received by it in respect of any such claims, as security or otherwise.

Governing Law

The Indenture provides that it, the Guarantees and the notes are governed by, and construed in accordance with, the laws of the State of New York without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

Certain Definitions

"Acquired Indebtedness" means Indebtedness of a Person or any of its Subsidiaries (the "Acquired Person") (i) existing at the time such Person becomes a Restricted Subsidiary of Terex or at the time it merges or consolidates with Terex or any of its Restricted Subsidiaries or (ii) assumed in connection with the acquisition of assets from such Person.

"Asset Disposition" means any sale, lease, transfer, conveyance or other disposition (or series of related sales, leases, transfers or dispositions) by Terex or any Restricted Subsidiary, including any disposition by means of a merger or consolidation (each referred to for the purposes of this definition as a "disposition"), of:

(1) any shares of Capital Stock of a Restricted Subsidiary (other than directors qualifying shares or shares required by applicable law to be held by a Person other than Terex or a Restricted Subsidiary);

(2) all or substantially all the assets of any division or line of business of Terex or any Restricted Subsidiary; or

(3) any other assets of Terex or any Restricted Subsidiary outside of the ordinary course of business of Terex or such Restricted Subsidiary

(other than, in the case of (1), (2) and (3) above, a disposition by a Restricted Subsidiary to Terex or by Terex or a Restricted Subsidiary to a Wholly Owned Subsidiary); provided, however, that each of (x) the consummation of any sale or series of related sales of assets or properties of Terex and the Restricted Subsidiaries by Terex and any Restricted Subsidiaries having an aggregate fair market value of less than \$1 million in any fiscal year and (y) the discounting of accounts receivable or the sale of inventory, in each case in the ordinary course of business, shall not be deemed an Asset Disposition.

"Average Life" means, as of the date of determination, with respect to any Indebtedness or Preferred Stock, the quotient obtained by dividing:

(1) the sum of the products of numbers of years from the date of determination to the dates of each successive scheduled principal payment of such Indebtedness or redemption or similar payment with respect to such Preferred Stock multiplied by the amount of such payment, by

If any Indebtedness bears a floating rate of interest and is being given pro forma effect, the interest of such Indebtedness shall be calculated as if the average interest rate for the period up to the date of determination had been the applicable rate for the entire period (taking into account any Interest Rate Protection Agreement applicable to such Indebtedness if such Interest Rate Protection Agreement has a remaining term in excess of 12 months). Book-Entry, Delivery and Form

General

The notes initially will be issued in the form of one or more fully registered notes in global form (the "Global Notes"). The Global Notes will be deposited upon issuance with the Trustee as custodian for DTC and registered in the name of DTC or its nominee, in each case for credit to the accounts of institutions that have accounts with DTC or its nominee (the "DTC participants") and to the accounts of institutions that have accounts with Euroclear or its nominee participants (the "Euroclear participants" and, collectively with the DTC participants, the "participants"). Each of DTC and Euroclear is referred to herein as a "Book Entry Facility." Ownership of beneficial interests in the Global Notes will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interest in the Global Notes will be shown on, and the transfer of that ownership will be effected only through, records maintained by a Book Entry Facility or its nominee (with respect to participants interests) for such Global Notes or by participants or persons that hold interests through participants (with respect to beneficial interests of persons other than participants). The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and laws may impair the ability to transfer or pledge beneficial interests in the Global Notes.

So long as DTC, or its nominee, is the registered holder of the Global Notes, DTC or such nominee, as the case may be, will be considered the sole legal owner and holder of such notes represented by such Global Notes for all purposes under the Indenture and the notes. Except as set forth below, owners of beneficial interests in the Global Notes will not be entitled to have such Global Notes or any notes represented thereby registered in their names, will not receive or be entitled to receive physical delivery or certificated notes in exchange therefor and will not be considered to be the owners or holders of such Global Notes or any notes represented thereby for any purpose under the notes or the

Indenture. We understand that under existing industry practice, in the event an owner of a beneficial interest in a Global Notes desires to take any action

Edgar Filing: TEREX CORP - Form S-4

that DTC, as the holder of such Global Notes, is entitled to take, DTC would authorize the participants to take such action, and that the participants would authorize beneficial owners owning through such participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them.

Any payment of principal or interest due on the notes on any interest payment date or at maturity will be made available by us to the trustee by such date. As soon as possible thereafter, the trustee will make such payments to DTC or its nominee, as the case may be, as the registered owner of the Global Notes representing such notes in accordance with existing arrangements between the trustee and the depository.

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of the Global Notes will credit immediately the accounts of the related participants with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Global Notes as shown on the records of DTC. We also expect that payments by participants to owners of beneficial interests in the Global Notes held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form of registered in "street name," and will be the responsibility of such participants.

None of us, the trustee or any payment agent for the Global Notes will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests or for other aspects of the relationship between the depository and its participants or the relationship between such participants and the owners of beneficial interests in the Global Notes owning through such participants.

Because of time zone differences, the securities account of a Euroclear participant purchasing an interest in a Global Note from a DTC participant will be credited, and any such crediting will be reported to the relevant Euroclear participant, during the securities settlement processing day (which must be a business day for Euroclear) immediately following the DTC settlement date. Cash received in Euroclear as a result of sales of interests in a Global Note by or through a Euroclear participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear cash account only as of the business day following settlement in DTC.

As long as the notes are represented by a Global Note, DTC's nominee will be the holder of such notes and therefore will be the only entity that can exercise a right to repayment or repurchase of such notes. See "Description of the Notes--Change of Control" and "--Certain Covenants--Limitation on Sales of Assets and Subsidiary Stock." Notice by participants or by owners of beneficial interests in the Global Notes held through such participants of the exercise of the option to elect repayment of beneficial interests in notes represented by the Global Note must be transmitted to the relevant Book Entry Facility in accordance with its procedures on a form required by the relevant Book Entry Facility and provided to participants. In order to ensure that DTC's nominee will timely exercise a right to repayment with respect to a particular Note, the beneficial owner of such note must instruct the broker or other participant to exercise a right to repayment. Different firms have cut-off times for accepting instructions from their customers and, accordingly, each beneficial owner should consult the broker or other participant through which it holds an interest in a note in order to ascertain the cut-off time by which such an instruction must be given in order for timely notice to be delivered to DTC. We will not be liable for any delay in delivery of notices of the exercise of the option to elect repayment.

Edgar Filing: TEREX CORP - Form S-4

Unless and until exchanged in whole or in part for notes in definitive form in accordance with the terms of the notes, the Global Notes may not be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC or by DTC or any such nominee to a successor of DTC or a nominee of each successor.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants of a Book Entry Facility, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of us or the trustee will have any responsibility for the performance by a Book Entry Facility or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations. We and the trustee may conclusively rely on, and shall be protected in relying on, instructions from a Book Entry Facility for all purposes.

62

Certificated notes

The Global Notes shall be exchangeable for corresponding notes in certificated fully registered form ("certificated notes") registered in the name of persons other than DTC or its nominee only if (A) DTC (i) notifies Terex that it is unwilling or unable to continue as depository for the Global Notes or (ii) at any time ceases to be a clearing agency registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), (B) there shall have occurred and be continuing an Event of Default (as defined in the Indenture) with respect to the applicable notes or (C) Terex executes and delivers to the trustee an order that the Global Notes shall be so exchangeable. Any certificated notes will be issued only in fully registered form, and shall be issued without coupons in denominations of \$1,000 and integral multiples thereof. Any certificated notes so issued will be registered in such names and in such denominations as DTC shall request.

The Clearing System

DTC has advised us as follows: DTC is a limited-purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and "a clearing agency" registered pursuant to the provisions of section 17A of the Exchange Act. DTC was created to hold securities of institutions that have accounts with its participants and to facilitate the clearance and settlement of securities transactions among its participants in such securities through electronic book-entry changes in accounts of participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's book-entry system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, whether directly or indirectly.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following summary describes the material United States federal income tax consequences of the ownership and disposition of the new notes by U.S. Holders (as defined below) who acquire such securities in the exchange offer (the "Initial U.S. Holders"). This summary is based on the Internal Revenue Code of 1986, as amended to the date hereof (the "Code"), administrative

Edgar Filing: TEREX CORP - Form S-4

pronouncements, judicial decisions and existing and proposed Treasury Regulations, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein. This summary discusses only notes held as capital assets within the meaning of Section 1221 of the Code. It does not discuss all of the tax consequences that may be relevant to a holder in light of his particular circumstances or to holders subject to special rules, such as persons who are not U.S. Holders (as defined below) or Initial U.S. Holders, certain financial institutions, insurance companies, tax-exempt entities, dealers in securities or foreign currency and holders who hold the new notes as part of a straddle, hedging, conversion or other integrated transaction. Holders of notes should consult their tax advisors with regard to the application of the United States federal income tax laws to their particular situations as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

As used herein, the term "U.S. Holder" means a beneficial owner of a note that, for United States federal income tax purposes, is (i) a citizen or resident of the United States, (ii) a corporation, partnership or other entity created or organized in or under the laws of the United States or of any political subdivision thereof, (iii) an estate the income of which is subject to United States federal income taxation regardless of its source, or (iv) a trust, if a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. fiduciaries have the authority to control all substantial decisions of such trust.

Exchange Offer

The exchange of old notes for new notes pursuant to the exchange offer will not result in any federal income tax consequences to U.S. Holders. When a U.S. Holder exchanges an old note for a new note pursuant to the exchange offer, the U.S. Holder will have the same adjusted basis and holding period in the new note as in the old note immediately before the exchange. There will be no federal income tax consequences of the exchange offer to nonexchanging Holders.

63

Payment of Interest

Stated interest paid on a new note will generally be taxable as ordinary income at the time it accrues or is received in accordance with the U.S. Holder's method of accounting for federal income tax purposes.

Sale, Exchange or Redemption

Upon the sale, exchange or redemption of a new note, a U.S. Holder will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or redemption (excluding amounts attributable to accrued and unpaid interest, which amounts will be includible as ordinary interest income) and such U.S. Holder's tax basis in the new note. Gain or loss realized on the sale, exchange or redemption of a new note will be capital gain or loss. Capital gains or losses recognized on new notes held more than one year (including the period of ownership of the old notes) will be treated as long-term capital gains or losses. The deduction of capital losses is subject to certain limitations. Investors should consult their tax advisors regarding the treatment of capital gains and losses.

THE FOREGOING IS A SUMMARY OF THE PRINCIPAL FEDERAL INCOME TAX CONSEQUENCES TO A U.S. HOLDER OF A NEW NOTE. EACH HOLDER OF AN OLD NOTE IS URGED TO CONSULT ITS TAX ADVISOR TO DETERMINE THE SPECIFIC FEDERAL INCOME TAX CONSEQUENCES OF ACCEPTING THE EXCHANGE OFFER, AS WELL AS THE EFFECT OF STATE, LOCAL AND FOREIGN INCOME AND OTHER TAX LAWS.

This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for old notes where such old notes were acquired as a result of market-making activities or other trading activities. We have agreed that, for a period of 180 days after the Expiration Date, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale.

We will not receive any proceeds from any sale of new notes by broker-dealers. New notes received by broker-dealers for their own account as a result of the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the new notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to the prevailing market prices or negotiated prices. Any of these resales may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any of these broker-dealers and/or the purchasers of any such new notes. Any broker-dealer that resells new notes that it received for its own account as a result of the exchange offer and any broker or dealer that participates in a distribution of such new notes may be deemed to be an "underwriter" within the meaning of the Securities Act, and any profit on any of these resales of new notes and any commissions or concessions received by any of these persons may be deemed to be underwriting compensation under the Securities Act. The Letter of Transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act.

For a period of 180 days after the Expiration Date, we will send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the Letter of Transmittal.

We have agreed to pay all expenses incident to this exchange offer (including the fees and expenses of one counsel for the holders of the notes) other than commissions or concessions of any brokers or dealers. We will indemnify the holders of the new notes (including any broker-dealers) against some liabilities, including liabilities under the Securities Act.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers

Section 145 of the Delaware General Corporation Law ("DGCL") and Article IX of Terex's Restated By-laws provide for the indemnification of Terex's directors and officers in a variety of circumstances, which may include liabilities under the Securities Act.

Article IX of Terex's restated by-laws generally requires Terex to indemnify its officers and directors against all liabilities (including judgments, settlements, fines and penalties) and reasonable expenses incurred in connection with the investigation, defense, settlement or appeal of certain actions, whether instituted by a third party or a stockholder (either directly or indirectly) and including specifically, but without limitation, actions brought under the Securities Act, and/or the Exchange Act; except that no such indemnification will be permitted if such director or officer was not successful in defending against any such action and it is determined that the director or officer breached or failed to perform his or her duties to Terex, and such breach or failure constitutes (i) a willful breach of his or her "duty of loyalty", (ii) acts or omissions not in good faith or involving intentional misconduct or a knowing violation of the law, (iii) a violation of Section 174 of the Delaware General Corporation Law, relating to prohibited dividends or distributions or the repurchase or redemption of stock or (iv) a transaction where such individual derived an improper financial profit (unless it is deemed that such profit is immaterial in light of all of the circumstances) (collectively, "Breach of Duty"). Notwithstanding the foregoing, subject to certain exceptions, the restated by-laws provide that directors or officers initiating an action, are not entitled to indemnification.

The restated by-laws also establish certain procedures by which (i) a director or officer may request an advance on his or her reasonable expenses, prior to the final disposition of an action, (ii) Terex may withhold an indemnification payment from a director or officer, (iii) a director or officer may be entitled to partial indemnification and (iv) a director or officer may challenge Terex's denial to furnish him or her with requested indemnification. Additionally, the restated by-laws provide that the adverse termination of an action against an officer or director, is not in and of itself sufficient to create a presumption that a director or officer engaged in conduct constituting a Breach of Duty.

Finally, Terex's restated certificate of incorporation, as amended, contains a provision which eliminates the personal liability of a director to Terex and its stockholders for certain breaches of his or her fiduciary duty of care as a director. This provision does not, however, eliminate or limit the personal liability of a director (i) for any breach of such director's "duty of loyalty" (as further defined therein) to Terex or its stockholders, (ii) for acts or omissions not in "good faith" (as further defined therein) or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL, relating in general to the willful or negligent payment of an illegal dividend or the authorization of an unlawful stock repurchase or redemption, or (iv) for any transaction from which the director derived an improper personal profit to the extent of such profit. This provision of the restated certificate of incorporation offers persons who serve on the Board of Directors of Terex protection against awards of monetary damages resulting from negligent (except as indicated above) and "grossly" negligent actions taken in the performance of their duty of care, including grossly negligent business

Edgar Filing: TEREX CORP - Form S-4

decisions made in connection with takeover proposals for Terex. As a result of this provision, the ability of Terex

II-1

or a stockholder thereof to successfully prosecute an action against a director for a breach of his duty of care has been limited. However, the provision does not affect the availability of equitable remedies such as an injunction or rescission based upon a director's breach of his duty of care. Although the validity and scope of Section 145 of the DGCL has not been tested in court, the Securities and Exchange Commission has taken the position that the provision will have no effect on claims arising under the Federal securities laws.

Terex maintains a directors' and officers' insurance policy which insures the officers and directors of Terex from any claim arising out of an alleged wrongful act by such persons in their respective capacities as officers and directors of Terex.
