BRAVO! FOODS INTERNATIONAL CORP. AND SUBSIDIARY
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (UNAUDITED)

Note 1 -Interim Periods

The accompanying unaudited consolidated financial statements include the accounts of Bravo! Foods International, Corp. and its wholly owned subsidiary China Premium Food Corp (Shanghai) Co., Ltd. (the "Company"). The Company is engaged in the sale of flavored milk products and flavor ingredients in the United States, Mexico and nine countries in the Middle East.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10QSB

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

and Article 10 of Regulation S-X. All significant inter-company accounts and transactions have been eliminated in consolidation. The consolidated financial statements are presented in U.S. dollars. Accordingly, the accompanying financial statements do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the period ended September 30, 2004 are not necessarily indicative of the results that may be expected for the year ending December 31, 2004. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report for the year ended December 31, 2003.

As shown in the accompanying consolidated financial statements, the Company has suffered operating losses and negative cash flow from operations since inception and has an accumulated deficit of \$32,990,665, a capital deficit of \$3,108,608, negative working capital of \$2,473,031 and is delinquent on certain of its debts at September 30, 2004. Further, the Company's auditors stated in their report on the Company's Consolidated Financial Statements for the year ended December 31, 2003, that these conditions raise substantial doubt about the Company's ability to continue as a going concern. Management plans to increase gross profit margins in its U.S. business, grow its international business, obtain additional financing and is in the process of repositioning its products with the launch of four new product lines. While there is no assurance that funding will be available or that the Company will be able to improve its profit margins, the Company is continuing to actively seek equity and/or debt financing and has raised \$3,590,000 in the first three quarters 2004. No assurances can be given that the Company will be successful in carrying out its plans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Revenue Recognition

The Company recognizes revenue in the United States at the gross amount of its invoices for the sale of finished product to wholesale buyers. Commencing with the first quarter 2004, the Company no longer uses the sale of "kits" as a revenue event in the United States. Rather, the Company takes title to its branded flavored milks when they are shipped by the Company's third party processors and recognize as revenue the gross wholesale price charged to the

F-5

BRAVO! FOODS INTERNATIONAL CORP. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Company's wholesale customers. Expenses for slotting fees and certain promotions are treated as a reduction of reported revenue. The Company determines gross margin by deducting from the reported wholesale price the cost charged by the Company's third party processors to produce the branded milk products. The sale of "kits" will remain as the revenue model for the Company's international business.

The Company recognizes revenue for its international business at the gross amount of its invoices for the sale of flavor ingredients and production rights (collectively referred to as "kits") at the time of shipment of flavor ingredients to processor dairies with whom the Company

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

has production contracts for extended shelf life and aseptic long life milk. This recognition is based upon the Company's role as the principal in these transactions, its discretion in establishing kit prices (including the price of flavor ingredients and production right fees), its development and refinement of flavors and flavor modifications, its discretion in supplier selection and its credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model is allocated for the processors' purchase of flavor ingredients and fees charged by the Company to the processors for production rights. The Company formulates the price of production rights to cover its royalties under intellectual property licenses, which varies by licensor as a percentage of the total cost of a kit sold to the processor dairy under the production agreement. The Company recognizes revenue on the gross amount of "kit" invoices to the dairy processors and simultaneously records as cost of goods sold the cost of flavor ingredients paid by the processor dairies to ingredients suppliers. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped. The criteria to meet this guideline are: 1) persuasive evidence of an arrangement exists, 2) delivery has occurred or services have been rendered, 3) the price to the buyer is fixed or determinable and 4) collectibility is reasonably assured.

The Company follows the final consensus reached by the Emerging Issues Task Force (EITF) 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent". In certain circumstances in its U.S. business, the Company is required to pay slotting fees, give promotional discounts or make marketing allowances in order to secure wholesale customers. These payments, discounts and allowances reduce the Company's reported revenue in accordance with the guidelines set forth in EITF 01-9 and SEC Staff Accounting Bulletin No. 101. Pursuant to EITF 99-19, international sales of kits made directly to customers by the Company are reflected in the statements of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue.

Stock-based Compensation

The Company has adopted the intrinsic value method of accounting for employee stock options as permitted by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation" (SFAS No. 123) and discloses the pro forma effect on net loss and loss per share as if the fair value based method had been applied. For equity instruments, including stock options issued to non-employees, the fair value of the equity instruments or the fair value of the

F-6

BRAVO! FOODS INTERNATIONAL CORP. AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

consideration received, whichever is more readily determinable, is used to determine the value of services or goods received and the corresponding charge to operations.

The following table illustrates the effect on net loss and loss per share as if the Company had applied the fair value recognition provision of SFAS No. 123 to stock-based employee compensation.

Note 3 - Business Segment and Geographic Information

The Company operates principally in the single serve flavored milk industry segment, under two distinct business models. In the United States, the Company is responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, the Company recognizes as revenue the invoiced wholesale prices that the Company charges to the retail outlets that purchase the Slammers(R) flavored milks. In countries other than the United States, the Company's revenue is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for the Company's Slammers(R) flavored milks and production rights to manufacture and sell the milks. In line with the Company's revenue recognition policies, the Company recognizes the full invoiced kit price as revenue and credits the processor dairies. The Company currently sells kits to SADAFCO, a third party dairy processor located in Saudi Arabia, for distribution to eleven Middle Eastern countries.

FORWARD-LOOKING STATEMENTS

Statements that are not historical facts, including statements about the Company's prospects and strategies and the Company's expectations about growth contained in this report are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements represent the present expectations or beliefs concerning future events. The Company cautions that such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the uncertainty as to the Company's future profitability; the uncertainty as to whether the Company's new business model can be implemented successfully; the accuracy of the Company's performance projections; and the Company's ability to obtain

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

financing on acceptable terms to finance the Company's operations until profitability.

OVERVIEW

The Company's business model includes the development and marketing of a Company owned Slammers(R) trademarked brand, the obtaining of license rights from third party holders of intellectual property rights to other trademarked brands, logos and characters and the granting of production and marketing rights to processor dairies to produce branded flavored milk. The Company generates revenue in its international (non-US) business through the sale of "kits" to these dairies. The price of the "kits" consists of an invoiced price for a fixed amount of flavor ingredients per kit used to produce the flavored milk and a fee charged to the dairy processors for the production, promotion and sales rights for the branded flavored milk. In the United States, the Company generates revenue from the unit sales of finished branded flavored milks to retail consumer outlets.

The Company's new product introduction and growth expansion continues to be expensive, and the Company reported a net loss of \$2,882,131 for the nine-month period ended September 30, 2004, with a net loss of \$1,120,992 for the three months ended September 30, 2004. As shown in the accompanying financial statements, the Company has suffered operating losses and negative cash flows from operations since inception and at September 30, 2004 has an accumulated deficit, a capital deficit, is delinquent on certain debts and has negative working capital. These conditions give rise to substantial doubt about the Company's ability to continue as a going concern. As discussed herein, the Company plans to work toward profitability in the Company's U.S. and international business and obtain additional financing. While there is no assurance that funding will be available or that the Company will be able to improve the Company's operating results, the Company is continuing to seek equity and/or debt financing. No assurances can be given, however, that management will be successful in carrying out the Company's plans.

15

CORPORATE GOVERNANCE

The Board of Directors

The Company's board has positions for seven directors that are elected as Class A or Class B directors at alternate annual meetings of the Company's shareholders. Six of the seven current directors of the Company's board are independent. The Company's chairman and chief executive officer are separate. The board meets regularly, at least four times a year, and all directors have access to the information necessary to enable them to discharge their duties. The board, as a whole, and the audit committee in particular, reviews the Company's financial condition and performance on an estimated vs. actual basis and financial projections as a regular agenda item at scheduled periodic board meetings, based upon separate reports submitted by the Company's chief executive officer and chief financial officer. Directors are elected by the Company's shareholders after nomination by the board or are appointed by the board when a vacancy arises prior to an election. The Company has adopted a nomination procedure based upon a rotating nomination committee made up of those members of the director Class not up for election. The board presently is examining whether this procedure, as well as the make up of the audit and compensation committees, should be the subject of an

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

amendment to the by-laws.

Audit Committee

The Company's audit committee is composed of three independent directors and functions to assist the board in overseeing the Company's accounting and reporting practices. The Company's financial information is booked in house by the Company's CFO's office, from which the Company prepares financial reports. These financial reports are audited or reviewed by Lazar Levine & Felix LLP, independent certified accountants and auditors. The Company's chief financial officer reviews the preliminary financial and non-financial information prepared in house with the Company's securities counsel and the auditors. The committee reviews the preparation of the Company's audited and unaudited periodic financial reporting and internal control reports prepared by the Company's chief financial officer. The committee reviews significant changes in accounting policies and addresses issues and recommendations presented by the Company's internal and external certified accountants as well as the Company's auditors. Currently, there is one vacancy on the audit committee.

Compensation Committee

The Company's compensation committee is composed of three independent directors who review the compensation structure and policies concerning executive compensation. The committee develops proposals and recommendations for executive compensation and presents those recommendations to the full board for consideration. The committee periodically reviews the performance of the Company's other members of management and the recommendations of the chief executive officer with respect to the compensation of those individuals. Given the size of the Company, all such employment contracts are periodically reviewed by the board. The board must approve all compensation packages that involve the issuance of the Company's stock or stock options. Currently, there is one vacancy on the compensation committee.

16

Nominating Committee

The nominating committee was established in the second quarter 2002 and consists of those members of the director Class not up for election. The committee is charged with determining those individuals who will be presented to the shareholders for election at the next scheduled annual meeting. The full board fills any mid term vacancies by appointment.

CRITICAL ACCOUNTING POLICIES

Estimates

This discussion and analysis of the Company's consolidated financial condition and results of operations are based on the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, the Company evaluates the Company's estimates, including those related to reserves for

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

bad debts and valuation allowance for deferred tax assets. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the result of which forms the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates under different assumptions or conditions. The Company's use of estimates, however, is quite limited as the Company has adequate time to process and record actual results from operations.

Revenue recognition

United States

The Company recognizes revenue in the United States at the gross amount of its invoices for the sale of finished product to wholesale buyers. The Company takes title to its branded flavored milks when they are shipped by the Company's third party processors and recognize as revenue the gross wholesale price charged to the Company's wholesale customers. The Company's gross margin is determined by the reported wholesale price less the cost charged by Jasper Products, the Company's third party processor, to produce the branded milk products.

Prior to 2004, the Company reported revenue in the United States from its sale of "kits" to third party processors and from the differential between the cost of producing its finished product and the wholesale price of its finished product. Commencing in the first quarter 2004, the Company reports revenue from its sale of finished product on the wholesale level. The Company reports the cost of producing the product charged by a third party processor as the cost of goods sold. This change in revenue recognition has resulted in materially higher reported revenue for the Company, with a corresponding material increase in reported costs of goods sold.

17

In certain circumstances in its U.S. business, the Company is required to pay slotting fees, give promotional discounts or make marketing allowances in order to secure wholesale customers. These payments, discounts and allowances reduce the Company's reported revenue in accordance with the guidelines set forth in EITF 01-9 and SEC Staff Accounting Bulletin No. 101.

International Sales

The Company recognizes revenue in its international (non US) business at the gross amount of its invoices for the sale of kits at the time of shipment of flavor ingredients to processor dairies with whom the Company has production contracts for extended shelf life and aseptic long life milk. The Company bases this recognition on its role as the principal in these transactions, its discretion in establishing kit prices (including the price of flavor ingredients and production right fees), its development and refinement of flavors and flavor modifications, its discretion in supplier selection and its credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model consists of the cost of the processors' purchase of flavor ingredients and fees charged by the Company to the processors for production rights. The Company formulates the price of production rights

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

to cover the Company's intellectual property licenses, which varies by licensor as a percentage of the total cost of a kit sold to the processor dairy under the production agreement. The Company recognizes revenue on the gross amount of "kit" invoices to the dairy processors and simultaneously records as cost of goods sold the cost of flavor ingredients paid by the processor dairies to ingredients supplier. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped.

Pursuant to EITF 99-19, international sales of kits made directly to customers by the Company are reflected in the statements of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue.

RESULTS OF OPERATIONS

Financial Condition at September 30, 2004

As of September 30, 2004, we had an accumulated deficit of \$32,990,665, cash on hand of \$58,263 and reported total capital deficit of \$3,108,608.

For this same period of time, we had revenue of \$2,704,992 and general and administrative expense of \$2,213,326.

After interest expenses of \$154,817, cost of goods sold of \$1,893,834, product development costs of \$55,104 and selling expenses of \$1,270,042 incurred in the operations of the Company, we had a net loss of \$2,882,131.

18

Nine Months Ended September 30, 2004 Compared to Nine Months Ended

September 30, 2003

Consolidated Revenue

We had revenues for the nine months ended September 30, 2004 of \$2,704,992, with cost of sales of \$1,893,834, resulting in a gross margin of \$811,158. This revenue and resultant gross margin is net of slotting fees, promotional discounts and marketing allowances for this period in the amount of \$126,469. Of the reported \$2,704,992, U.S. sales accounted for \$2,301,844 with an additional \$403,148 from international sales. We did not have revenue in 2004 in Canada or for the three months ended September 30, 2004 in the Middle East. Our reported revenue for the nine months ended September 30, 2004 increased by \$1,618,555, a 148.98% increase compared to revenue of \$1,086,437 for the same period in 2003. This increase is the result of a change in the Company's method of revenue recognition in the United States, commencing January 1, 2004, when the Company began to act as the principal in these transactions, rather than as an agent. In addition, in the first quarter of 2004, the Company began to phase out its Looney Tunes(TM) flavored milk products and to develop four new branded product lines in the United States, including the launch of the Company's Slammers(R) line of Marvel Comics Super Heroes(TM) branded flavored milks during the second quarter 2004. The Company also began to ship kits to its third-party Middle East dairy processor during the second

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

quarter 2004.

Consolidated Cost of Sales

We incurred cost of goods sold of \$1,893,834 for the nine months ended September 30, 2004, \$1,820,432 of which was incurred in our U.S. business, and \$73,402 in connection with out international sales. Cost of goods sold in 2004 increased by \$1,717,826, a 975.99% increase compared to \$176,008 for the same period in 2003. The increase in cost of goods sold reflects an increase in sales, the change in the Company's role from agent to principal during this period and the concomitant increase in reported cost of goods sold associated with that change.

In countries except the United States, the Company's revenue is generated by the sale of kits to dairy processors. Each kit consists of flavor ingredients for flavored milks and production rights to manufacture and sell the milks. In line with the Company's revenue recognition policies, the Company recognizes the full invoiced kit price as revenue, less the cost of production charged by the processor, which the Company records as cost of goods sold.

In the United States, the Company is responsible for the sale of finished Slammers(R) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, the Company recognizes as revenue the invoiced wholesale prices that the Company charges to the retail outlets that purchase the Slammers(R) flavored milks. The Company reports as cost of goods sold the price charged to it by Jasper Products, a third party processor under contract with the Company, for producing the finished Slammers(R) products.

Segmented revenues and costs of sales

The following table presents revenue by source and type against costs of goods sold, as well as combined gross revenues and gross margins. In countries other than the United States,

United States

Revenues for the period ended September 30, 2004 from unit sales in the United States increased from \$336,644 for the same period in 2003 to \$2,236,383 in 2004, a 564% increase. The increase is the result of a change in revenue recognition and the introduction of the Company's new product lines during this period.

In the period ended September 30, 2004, the Company's gross margin for U.S. sales of \$481,412, decreased by \$302,590, or by 38.6%, from \$784,002 for the same period in 2003. The decrease in gross margin was the result of the Company's role change from agent to principal in its US sales transactions, which required the Company to recognize the entire cost of production of its milk products against revenues from the wholesale sales for those products.

Foreign Sales

Revenues for the period ended September 30, 2004 from kit sales in foreign countries increased from \$190,566 for the same period in 2003 to \$403,148, a 111.6 % increase. The increase is the result of sales growth in Mexico during this period.

20

The Company recorded \$73,402 in costs of kit sales in foreign countries for the period ended September 30, 2004, an increase of \$9,263 or 14.4% from \$64,139 for the same period in 2003. The reduction of cost of goods sold as a percentage of sales was the result of greater efficiencies of shipment and lower costs in sourcing the product ingredients in Europe, rather than the United States.

For the period ended September 30, 2004, the Company's gross profit of \$329,746 for kit sales in foreign countries increased by \$203,319, or 160.83%, from \$126,427 for the same period in 2003. The increase in gross profit was consistent with the increase in sales volume and the decrease in

This expense is a one time charge.

As a percentage of total revenue, the Company's general and administrative expenses decreased from 162.8% in the period ended September 30, 2003, to 81.8% for the current period in 2004. The Company anticipates a continued effort to reduce these expenses as a percentage of sales through revenue growth, cost cutting efforts and the refinement of business operations.

The Company's interest expense increased by \$147,317, a 1,964% increase compared to \$7,500 for the same period in 2003. The net loss for the three month period ended September 30, 2004, represents a loss per share of \$0.03.

The lack of sales in the Middle East for the three months ended September 30, 2004 was the result of pipeline effect purchases in the prior quarter.

Our cost of goods sold for this period increased by \$575,274, a 1,076% increase compared to \$53,473 for the three months ended September 30, 2003. selling expense of \$357,384 for the three months ended September 30, 2003. The increase in selling expenses is the result of the adoption of the refined business plan in the U.S. for the Company's North America Bravo! operations, including the costs associated with the sale of finished product to retail establishments through brokers and distributors.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2004, the Company reported that net cash used in operating activities was \$3,392,948, net cash provided by financing activities was \$3,439,999 and net cash used in investing activities was \$47,647. The Company had a negative working capital of \$2,473,031 as of September 30, 2004.

Compared to \$1,118,564 of net cash used in operating activities in the period ended September 30, 2003, the Company's current year net cash used in operating activities increased by \$2,274,384 to \$3,392,948. This increase was the result the Company's utilization of cash rather than equity to pay service providers in this current period, and changes in deferred product development costs, prepaid expenses, accounts payable and accrued expenses. Included in the net loss in this current period were depreciation and amortization and stock compensation for a finder fee aggregating \$364,995, compared to \$102,843 for the same period in 2003.

Changes in accounts receivable in this current period in 2004 resulted in a cash decrease of \$8,490, compared to a cash increase in receivables of \$132,635 for the same period in 2003, having a net result of a decrease of \$141,125. The changes in accounts payable and accrued

23

liabilities in the period ended September 30, 2003 contributed to a cash increase of \$728,498, whereas the changes in accounts payable and accrued liabilities for the current period in 2004 amounted to an decrease of \$224,031. The Company has adopted and will keep implementing cost-cutting measures to lower its costs and expenses and to pay the Company's accounts payable and accrued liabilities by using cash and equity instruments. The Company's cash flow generated through operating activities was inadequate to cover all of its cash disbursement needs in the period ended September 30, 2004, and the Company had to rely on equity and debt financing to cover expenses.

The Company's cash used in 2004 in investing activities for equipment was \$47,647 for software, computer equipment and leasehold improvements in the U.S., compared to \$31,362 for the same period in 2003.

The Company's net cash provided by financing activities for the period ended September 30, 2004 was \$3,439,999. New cash provided by

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

financing activities for the same period in 2003 was \$1,027,062, for a net increase of \$2,412,937. The increase was due to issuing Series K preferred stock with gross proceeds of \$950,000 and debt in the aggregate amount of \$2,639,999 in this current period.

The Company used the proceeds of the current period financing for working capital purposes and to repay approximately \$1,128,386 under a note to Jasper Products.

Going forward, the Company's primary requirements for cash consist of (1) the continued development of the Company's business model in the United States and on an international basis; (2) general overhead expenses for personnel to support the new business activities; (3) development, launch and marketing costs for the Company's line of new branded flavored milk products, and (4) the payment of guaranteed license royalties. The Company estimates that its need for financing to meet cash needs for operations will continue to the fourth quarter of 2004, when cash supplied by operating activities will approach the anticipated cash requirements for operation expenses. The Company anticipates the need for additional financing in 2004 to reduce the Company's liabilities, assist in marketing and to improve shareholders' equity status. No assurances can be given that the Company will be able to obtain additional financing or that operating cash flows will be sufficient to fund the Company's operations.

The Company currently has monthly working capital needs of approximately \$200,000. The Company will continue to incur significant selling and other expenses in the remainder of 2004 and into 2005 in order to derive more revenue in retail markets, through the introduction and ongoing support of its new products. Certain of these expenses, such as slotting fees and freight charges, will be reduced as a function of unit sales costs as the Company expands its sales markets and increases its sales within established markets. Freight charges will be reduced as the Company is able to ship more full truck-loads of product given the reduced per unit cost associated with full truck loads versus less than full truck loads. Similarly, slotting fees, which are paid to warehouses or chain stores as initial set up or shelf space fees, are essentially one-time charges per new customer. The Company believes that along with the increase in the Company's unit sales volume, the average unit selling expense and associated costs will decrease, resulting in gross margins sufficient to mitigate the Company's cash needs. In addition, the Company is actively seeking additional financing to support its operational needs and to develop an expanded promotional program for the Company's products.

24

The Company is continuing to explore new points of sale for its branded flavored milk. Presently, the Company is aggressively pursuing the school and vending market through trade/industry shows and individual direct contacts. The implementation of such a school base program, if viable, could have an impact on the level of the Company's revenue during 2004. Similarly, the Company expects that the greater control over sales resulting from its refined business model and the anticipated expansion into bodega stores as well as national chains, such as 7-Eleven, will have a positive impact on revenues in 2004.

New Product Lines

In the third quarter 2003, the Company commenced an analysis of the Looney Tunes(TM) brand performance within the context of the possible renewal of its Warner Bros. licenses for United States, Mexico, China and

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

Canada. In the fourth quarter 2003, the Company concluded that, as a function of the sales of flavored milks, the Looney Tunes(TM) brand has not supported the guaranteed royalty structure required by Warner Bros. for its licenses. In the fourth quarter 2003, the Company decided not to renew its license agreements with Warner Bros., and began to develop new products in anticipation of the consummation of other license relationships with Marvel Comics and MoonPie for co-branded flavored milk, as well as a new single Slammers(R) brand. The Company has developed new aseptic products in anticipation of these licenses and its own singular brand. Coincident with the Marvel license, the Company executed a production agreement with Saudia Dairy & Foodstuff Company (SADAFCO), one of the largest Middle East dairy processors, headquartered in Jeddah, Saudi Arabia. SADAFCO will process the Company's Slammers (R) branded flavored milks, including the Marvel line, for distribution in eleven Middle East countries. SADAFCO has the capacity to process the Company's branded milk products for distribution throughout the European Community. The Company's international business is facilitated by AsheTrade, the Company's international agent, with offices in Miami, FL and Jeddah, Saudi Arabia.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

On September 21, 2004, the Company entered into a licensing agreement with Masterfoods USA, a division of Mars, Incorporated, for the use of Masterfood's Milky Way(R), Starburst(R) and 3 Musketeers(R) trademarks in connection with the manufacture, marketing and sale of single serving flavored milk drinks in the United States, its Possessions and Territories, and US Military installations worldwide. The license limits the relationship of the parties to separate independent entities. The initial term of the license agreement expires December 31, 2007. The Company has agreed to pay a royalty based upon the total net sales value of the licensed products sold and advance payments of certain agreed upon guaranteed royalties. Ownership of the licensed marks and the specific milk flavors to be utilized with the marks remains with Masterfoods. The Company has been granted a right of first refusal for other milk beverage products utilizing the Masterfoods marks within the license territory.

DEBT STRUCTURE

As of September 30, 2004, the Company has recorded \$147,115 in guaranteed royalty payments to Warner Bros. for the now expired China Looney Tunes license. The China license had been extended to October 29, 2003 by agreement of the parties, and the Company did not seek another license from Warner Bros. for China. This decision was based upon the lack of sales in the Company's China markets and what the Company perceived to be the licensor's continuing overall lack of brand support in China. The Company and Warner Bros. dispute the contractual necessity of the payment of the balance owed on the China license as a result of the above circumstances.

International Paper

During the process of acquiring from American Flavors China, Inc. the 52% of equity interest in Hangzhou Meilijian, the Company issued an unsecured promissory note to assume the American Flavors' debt owed to a supplier, International Paper. The face value of that note was \$282,637 at an interest rate of 10.5% per annum, without collateral. The note had 23 monthly installment payments of \$7,250 with a balloon payment of \$159,862 at the maturity date of July 15, 2000. On July 6, 2000, International Paper agreed to extend the note to July 1, 2001, and the principal amount was adjusted due to a different interest calculation. International Paper imposed a charge of \$57,000 to renegotiate the note owing to the failure of Hangzhou Meilijian to pay for certain packing material, worth more than \$57,000 made to order in 1999. The current outstanding balance on this note is \$187,743. The Company is delinquent in its payments under this note.

26

Individual Loans

On November 6 and 7, 2001, respectively, the Company received the proceeds of two loans aggregating \$100,000 from two offshore lenders. The two promissory notes, one for \$34,000 and the other for \$66,000, were payable February 1, 2002 and bear interest at the annual rate of 8%. These loans are secured by a general security interest in all the Company's assets. On February 1, 2002, the parties agreed to extend the maturity dates until the completion of the anticipated Series H financing. On September 18, 2002, the respective promissory note maturity dates were extended by agreement of the parties to December 31, 2002. On September

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

The holders of these notes have agreed to extend the maturity dates and the notes are now payable on a demand basis.

On August 27, 2003, the Company received the proceeds of a loan from Mid-Am Capital, L.L.C., in the amount of \$150,000. The note was payable November 25, 2003 and bears interest at the annual rate of 10%. This loan was secured by a general security interest in all the Company's assets. On April 2, 2004, this note was paid and cancelled.

On January 28, 2004, the Company converted accounts payable in the amount of \$1,128,386 by the issuance of a 10% short term promissory note to Jasper Products, LLC, dated January 1, 2004, in the principal amount of \$1,128,386 for amounts owed to Jasper in connection with Jasper's processing and sale of the Company's products. As of March 31, 2004, the Company paid \$200,000 in principal and was credited an additional \$11,350. On April 20, 2004, the Company paid an additional \$200,000. On May 7, 2004, the Company paid \$717,036 in full payment of the note's principal and accrued interest.

On May 6, 2004, the Company issued a secured promissory note to Mid-Am Capital LLC in the principal amount of \$750,000. The note provides for 8% interest. The note's original maturity date of September 4, 2004 has been extended to November 2, 2004. The Company issued warrants to purchase 3,000,000 shares of the Company's common stock to Mid-Am in connection with this promissory note. The warrants are exercisable for one year from issue at an exercise price of \$0.25 per share. The Company used the proceeds of this promissory note to pay the promissory note issued to Jasper Products in January 2004.

EFFECTS OF INFLATION

The Company believes that inflation has not had any material effect on its net sales and results of operations.
