APPROXIMATE DATE OF COMMENCEMENT OF PROPOSED SALE TO THE PUBLIC: From time to
time, at the discretion of the selling shareholders after the effective date of
this Registration Statement.

If any of the securities being registered on this form are to be offered on a
delayed or continuous basis pursuant to Rule 415 under the Securities Act of
1933, other than securities offered only in connection with dividend or interest
reinvestment plans, check the following box. [X]

If the registrant elects to deliver its latest Form 10-K, as amended, to

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

security holders or a complete and legible facsimile thereof, pursuant to Item 11.(a)(1) of this Form, check the following box. [X]

If the registrant elects to deliver its latest Form 10-Q, as amended, to the security holder or a complete and legible facsimile thereof, pursuant to Item 11.(a)(2)(ii) of this Form, check the following box. [X]

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration number of the earlier effective registration statement for the same offering. []

Calculation Of Registration Fee			
Title of Each Class of Securities To Be Registered	Amount To Be Registered	Proposed Maximum Offering Price Per Share (1) (2)	Proposed Maximum Offering
Common Stock, par value \$0.005 per share.....	20,000,000 shares	\$.1172	\$2,34

- (1) Estimated solely for the purpose of computing the amount of the registration fee in accordance with Rule 457(c) under the Securities Act of 1933, as amended.
- (2) Estimate based on the average of the high and low prices of the Registrant's common stock as reported by the OTC Bulletin Board on February 23, 2001 pursuant to Rule 457(c) promulgated under the Securities Act of 1933, as amended.
- (3) This Registration Statement shall also cover any additional shares of common stock which become issuable in connection with the shares registered for sale hereby as a result of any stock dividend, stock split, recapitalization or other similar transaction effected without the receipt of consideration which results in an increase in the number of the Registrant's outstanding shares of common stock.

WE WILL amend this Registration Statement on such date or dates as may be necessary which may delay its effective date until we file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until this Registration Statement shall become effective on such date as the Commission, acting according to Section 8(a), may determine.

THE INFORMATION IN THIS PROSPECTUS IS NOT COMPLETE AND MAY BE CHANGED. THESE SECURITIES MAY NOT BE SOLD UNTIL THE REGISTRATION STATEMENT FILED WITH THE SECURITIES AND EXCHANGE COMMISSION IS EFFECTIVE. THIS PROSPECTUS IS NOT AN OFFER TO SELL THESE SECURITIES AND IS NOT SEEKING AN OFFER TO BUY THESE SECURITIES IN ANY STATE WHERE THE OFFER OR SALE IS NOT PERMITTED.

SUBJECT TO COMPLETION, DATED MAY __, 2001

PROSPECTUS

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

IMAGING TECHNOLOGIES CORPORATION

20,000,000 shares of common stock

- o All of the shares of common stock offered by this prospectus are being sold by us on a "best efforts," "no minimum" basis. We may sell some shares through qualified selling agents.
- o We currently expect the public offering price to be \$___ per share. We will provide specific terms for the sale of the common stock in supplements to this prospectus. You should read this prospectus and the applicable prospectus supplement carefully before you invest.
- o Concurrently with this offering, we are registering the offering of 25,000,000 shares of our common stock pursuant to a selling stockholder prospectus. We will commence selling shares under that prospectus immediately upon effectiveness of the registration statement of which the prospectus is a part.
- o Our common stock is traded on the OTC Bulletin Board under the symbol "ITEC".
- o On April 26, 2001, the closing bid price of our common stock on the OTC Bulletin Board was \$.0880.

The securities offered in this prospectus involve a high degree of risk. You should carefully consider the factors described under the heading "Risk Factors" beginning on page 5 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is May __, 2001

FORWARD-LOOKING STATEMENTS

This prospectus contains some forward-looking statements that involve substantial risks and uncertainties. These forward-looking statements can generally be identified by the use of forward-looking words like "may," "will," "expect," "anticipate," "intend," "estimate," "continue," "believe" or other similar words. Similarly, statements that describe our future expectations, objectives and goals or contain projections of our future results of operations or financial condition are also forward-looking statements. Our future results, performance or achievements could differ materially from those expressed or implied in these forward-looking statements as a result of certain factors, including those listed under the heading "Risk Factors" and in other cautionary statements in this prospectus.

PROSPECTUS SUMMARY

This summary highlights information in this document. You should carefully review the more detailed information and financial statements included in this document. The summary is not complete and may not contain all of the information you may need to consider before investing in our common stock. We urge you to carefully read this document, including the "Risk Factors" and the financial statements and their accompanying notes.

THE COMPANY

Our wholly-owned direct and indirect subsidiaries include EduAdvantage.com, Inc., a Delaware corporation, DealSeekers.com, Inc., a Delaware corporation, Personal Computer Products, Inc., a California corporation, NewGen Imaging Systems, Inc., a California corporation, Prima Inc., a California corporation, Color Solutions, Inc., a California corporation, McMican Corporation, a California corporation, ITEC Europe, Ltd., a company registered under the laws of the United Kingdom and Advanced Matrix Technology Accel UK Ltd., a company registered under the laws of the United Kingdom.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

We develop, manufacture, and distribute high-quality digital imaging solutions. We produce a wide range of printers and other imaging products for use in graphics and publishing, digital photography and other niche business and technical markets. Beginning with a core technology in the design and development of controllers for non-impact printers and multifunction peripherals, we have expanded our product offerings to include monochrome and color printers, external print servers, digital image storage devices, and software to improve the accuracy of color reproduction. Our new generation of products incorporate advanced printer and imaging controller technologies to produce faster, enhanced image output at competitive prices.

Our ColorBlind(R) Color Management software is a suite of applications, utilities and tools designed to create, edit and apply industry standard ICC (International Color Consortium) profiles that produce accurate color rendering across a wide range of peripheral devices. "ColorBlind Aware" is being recognized as an industry standard for color accuracy as manufacturers integrate ColorBlind's Color Management resources into their product designs.

We benefit from technology alliances with industry partners to develop the next generation of embedded printer controller and digital imaging technology. We produce printer controllers that provide modularity and performance advantages for our OEM customers. Our customers benefit by outsourcing their engineering development and manufacturing to us, thus achieving faster time-to-market.

Effective December 1, 2000, we acquired all of the outstanding shares of Eduadvantage.com., a California corporation that is primarily engaged in an internet-based business. In December of 2000, we also signed a definitive agreement to purchase 75% of the stock of Pen Interconnect, Inc. However, in February of 2001, we terminated the transaction and retained a \$75,000 convertible note which is convertible into common stock of Pen Interconnect, Inc. In November of 2000, we entered into an agreement to acquire a majority interest in Quality

-3-

Photographic Imaging (formerly known as Quick Pix, Inc.), a Nevada corporation that is primarily engaged in the business of offering services to produce final color visuals. This transaction remains pending as it is subject to the approval of Quality Photographic Imaging's shareholders.

We were incorporated in March, 1982 under the laws of the State of California, and reincorporated in May, 1983 under the laws of the State of Delaware. Our principal executive offices are located at 15175 Innovation Drive, San Diego, California 92128. Our main phone number is (858) 613-1300.

Personal Computer Products, Inc., ColorBlind and Xtinguisher are trademarks of ours. This Prospectus also includes names and trademarks of companies other than us.

GOING CONCERN CONSIDERATIONS

At December 31, 2000, and for the three months then ended, we had a net loss, negative working capital and a decline in net worth which raises substantial doubt about our ability to continue as a going concern. Our losses have resulted primarily from an inability to achieve product sales and contract revenue targets due to insufficient working capital. Our ability to continue operations will depend on positive cash flow, if any, from future operations and on our ability to raise additional funds through equity or debt financing. We have reduced and/or discontinued some of our operations and, if we are unable to

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

raise or obtain needed funding, we may be forced to discontinue operations. At December 31, 2000, our net loss was \$3,962,000, our negative working capital was \$14,362,000 and our increase in net worth was \$31,000. Specific steps that we have taken to address these problems include obtaining working capital through the issuance and sale of the convertible debenture, of which this registration statement relates, and through a primary offering under a separate shelf registration statement, reduction in overhead costs through such actions as a recent reduction in our work force, the restructuring of our lease to reduce rent payments, transferring some parts production offshore and rebuilding our distribution channels.

THE OFFERING

SECURITIES OFFERED BY THE COMPANY

Common Stock	20,000,000
--------------	------------

EQUITY SECURITIES OUTSTANDING¹

Common Stock	159,878,731 (2)
Preferred Stock	420.5
Warrants	6,229,559 (3)
Options	682,185 (3)

- (1) The total number of equity shares outstanding as of April 26, 2001.
- (2) The total number of shares of common stock does not include shares of common stock issuable upon the exercise of warrants associated with Series D Convertible Preferred Stock and Series E Convertible Preferred Stock.
- (3) The warrants were issued to employees, consultants, finders and private placement investors. The exercise prices of the warrants range from \$.01 to \$6.25. The options were issued in connection with our stock option plans and/or in connection with some of our employment agreements. The exercise prices of the options range from \$.35 to \$8.45 per share.

Use of proceeds:

We intend to use the net proceeds from this offering of our common stock to fund:

- o annual shareholders meeting expenses

-4-

- o inventory purchases
- o mergers and acquisitions and reorganization costs associated therewith, and
- o general working capital

See also the section of this prospectus entitled "Use of Proceeds".

We intend to promptly commence the sale of the shares offered by us, which offering may continue for a period beyond 30 days from the date of effectiveness of the registration statement.

RISK FACTORS

AN INVESTMENT IN SHARES OF ITEC COMMON STOCK INVOLVES A HIGH DEGREE OF RISK. IN ADDITION TO THE OTHER INFORMATION CONTAINED IN THIS PROSPECTUS, YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS BEFORE PURCHASING ANY ITEC SHARES.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

EXCEPT FOR HISTORICAL INFORMATION, THE INFORMATION CONTAINED IN THIS PROSPECTUS AND IN OUR SEC REPORTS ARE "FORWARD-LOOKING" STATEMENTS. OUR ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE PROJECTED OR IMPLIED IN SUCH FORWARD-LOOKING STATEMENTS. THE RISKS DESCRIBED BELOW ADDRESS SOME OF THE FACTORS THAT MAY AFFECT OUR FUTURE OPERATING RESULTS AND FINANCIAL PERFORMANCE.

IF WE ARE UNABLE TO SECURE FUTURE CAPITAL, WE WILL BE UNABLE TO CONTINUE OUR OPERATIONS.

If we are unable to secure future capital, we will be unable to continue our operations. Our business has not been profitable in the past and it may not be profitable in the future. We may incur losses on a quarterly or annual basis for a number of reasons, some within and others outside our control. See "Potential Fluctuation in Our Quarterly Performance." The growth of our business will require the commitment of substantial capital resources. If funds are not available from operations, we will need additional funds. We may seek such additional funding through public and private financing, including debt or equity financing. Adequate funds for these purposes, whether through financial markets or from other sources, may not be available when we need them. Even if funds are available, the terms under which the funds are available to us may not be acceptable to us. Insufficient funds may require us to delay, reduce or eliminate some or all of our planned activities.

IF OUR QUARTERLY PERFORMANCE CONTINUES TO FLUCTUATE, IT MAY HAVE A NEGATIVE IMPACT ON OUR BUSINESS.

Our quarterly operating results can fluctuate significantly depending on a number of factors, any one of which could have a negative impact on our results of operations. The factors include:

- o the timing of product announcements and subsequent introductions of new or enhanced products by us and by our competitors,
 - o the availability and cost of components,
 - o the timing and mix of shipments of our products,
 - o the market acceptance of our new products,
 - o seasonality,
 - o currency fluctuations,
 - o changes in our prices and in our competitors' prices,
 - o price protection offered to distributors and OEMs for product price reductions,
 - o the timing of expenditures for staffing and related support costs,
 - o the extent and success of advertising,
- 5-
- o research and development expenditures, and
 - o changes in general economic conditions.

We may experience significant quarterly fluctuations in revenues and operating expenses as we introduce new products. In addition, our component

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

purchases, production and spending levels are based upon our forecast of future demand for our products. Accordingly, any inaccuracy in our forecasts could adversely affect our financial condition and results of operations. Demand for our products could be adversely affected by a slowdown in the overall demand for computer systems, printer products or digitally printed images. Our failure to complete shipments during a quarter could have a material adverse effect on our results of operations for that quarter. Quarterly results are not necessarily indicative of future performance for any particular period.

SINCE OUR COMPETITORS HAVE GREATER FINANCIAL AND MARKETING RESOURCES THAN WE DO, WE MAY EXPERIENCE A REDUCTION IN MARKET SHARE AND REVENUES.

The markets for our products are highly competitive and rapidly changing. Some of our current and prospective competitors have significantly greater financial, technical, manufacturing and marketing resources than we do. Our ability to compete in our markets depends on a number of factors, some within and others outside our control. These factors include:

- o the frequency and success of product introductions by us and by our competitors,
- o the selling prices of our products and of our competitors' products,
- o the performance of our products and of our competitors' products,
- o product distribution by us and by our competitors,
- o our marketing ability and the marketing ability of our competitors, and
- o the quality of customer support offered by us and by our competitors.

A key element of our strategy is to provide competitively priced, quality products. We cannot be certain that our products will continue to be competitively priced. We have reduced prices on certain of our products in the past and will likely continue to do so in the future. Price reductions, if not offset by similar reductions in product costs, will reduce our gross margins and may adversely affect our financial condition and results of operations.

IF WE ARE UNABLE TO DEVELOP AND MANUFACTURE NEW PRODUCTS IN A TIMELY MANNER, WE MAY EXPERIENCE A SIGNIFICANT DECLINE IN SALES AND REVENUES WHICH MAY HURT OUR ABILITY TO CONTINUE OPERATIONS.

The markets for our products are characterized by rapidly evolving technology, frequent new product introductions and significant price competition. Consequently, short product life cycles and reductions in product selling prices due to competitive pressures over the life of a product are common. Our future success will depend on our ability to continue to develop and manufacture competitive products and achieve cost reductions for our existing products. In addition, we monitor new technology developments and coordinate with suppliers, distributors and dealers to enhance our existing products and lower costs. Advances in technology will require increased investment in product development to maintain our market position. If we are unable to develop and manufacture new, competitive products in a timely manner, our financial condition and results of operations will be adversely affected.

IF THE MARKET'S ACCEPTANCE OF OUR PRODUCTS CEASES TO GROW, WE MAY NOT GENERATE SUFFICIENT REVENUES TO CONTINUE OUR OPERATIONS.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

developing. We believe that there has been growing market acceptance for color printers, color management software and supplies. We cannot be certain, however, that these markets will continue to grow. Other technologies are constantly evolving and improving. We cannot be certain that products based on these other technologies will not have a material adverse effect on the demand for our products. If our products are not accepted by the market, we will not generate sufficient revenues to continue our operations.

IF OUR SUPPLIERS CEASE LICENSING THEIR PRODUCTS TO US, WE MAY HAVE TO REDUCE OUR WORK FORCE OR CEASE OPERATIONS.

At present, many of our products use technology licensed from outside suppliers. We rely heavily on these suppliers for upgrades and support. In the case of our font products, we license the fonts from outside suppliers, who also own the intellectual property rights to the fonts. Our reliance on third-party suppliers involves many risks, including our limited control over potential hardware and software incompatibilities with our products. Furthermore, we cannot be certain that all of the suppliers of products we market will continue to license their products to us, or that these suppliers will not license their products to other companies simultaneously.

IF WE ACQUIRE COMPLEMENTARY BUSINESSES, WE MAY NOT BE ABLE TO EFFECTIVELY INTEGRATE THEM INTO OUR CURRENT OPERATIONS, WHICH WOULD ADVERSELY AFFECT OUR OVERALL FINANCIAL PERFORMANCE.

In order to grow our business, we may acquire businesses that we believe are complementary. To successfully implement this strategy, we must identify suitable acquisition candidates, acquire these candidates on acceptable terms, integrate their operations and technology successfully with ours, retain existing customers and maintain the goodwill of the acquired business. We may fail in our efforts to implement one or more of these tasks. Moreover, in pursuing acquisition opportunities, we may compete for acquisition targets with other companies with similar growth strategies. Some of these competitors may be larger and have greater financial and other resources than we do. Competition for these acquisition targets likely could also result in increased prices of acquisition targets and a diminished pool of companies available for acquisition. Our overall financial performance will be materially and adversely affected if we are unable to manage internal or acquisition-based growth effectively.

Acquisitions involve a number of risks, including:

- o integrating acquired products and technologies in a timely manner;
- o integrating businesses and employees with our business;
- o managing geographically-dispersed operations;
- o reductions in our reported operating results from acquisition-related charges and amortization of goodwill;
- o potential increases in stock compensation expense and increased compensation expense resulting from newly-hired employees;
- o the diversion of management attention;
- o the assumption of unknown liabilities;
- o potential disputes with the sellers of one or more acquired entities;
- o our inability to maintain customers or goodwill of an acquired business;
- o the need to divest unwanted assets or products; and
- o the possible failure to retain key acquired personnel.

Client satisfaction or performance problems with an acquired business could also have a material adverse effect on our reputation, and any acquired business could significantly under perform relative to our expectations. We are currently facing all of these challenges and our ability to meet them over the long term has not been established. As a result, we cannot be certain that we

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

will be able to integrate acquired businesses, products or technologies successfully or in a timely manner in accordance with our strategic objectives, which could have a material adverse effect on our overall financial performance.

In addition, if we issue equity securities as consideration for any future acquisitions, existing stockholders will experience ownership dilution and these equity securities may have rights, preferences or privileges superior to those of our common stock. See "Future Capital Needs."

-7-

IF OUR VENDORS ARE NOT ABLE TO CONTINUE TO SUPPLY GOODS AND SERVICES AT APPROPRIATE PRICES TO MEET THE PROJECTED MARKET DEMAND FOR OUR PRODUCTS, IT COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR FINANCIAL PERFORMANCE.

We presently outsource the production of some of our manufactured products through a number of vendors located in California. These vendors assemble products, using components purchased by us from other sources or from their own inventory. The terms of supply contracts are negotiated separately in each instance. Although we have not experienced any difficulty over the past several years in engaging contractors or in purchasing components, our present vendors may not have sufficient capacity to meet projected market demand for our products and alternative production sources may not be available without undue disruption.

Certain components used in our products are only available from single sources. Although alternative suppliers are readily available for many of our components, for some components the process of qualifying replacement suppliers, replacing tooling or ordering and receiving replacement components could take several months and cause substantial disruption to our operations. Any significant increase in component prices or decrease in component availability could have a material adverse effect on our business and overall financial performance.

IF WE ARE FOUND TO BE INFRINGING ON A COMPETITOR'S INTELLECTUAL PROPERTY RIGHTS OR IF WE ARE REQUIRED TO DEFEND AGAINST A CLAIM OF INFRINGEMENT, WE MAY BE REQUIRED TO REDESIGN OUR PRODUCTS OR DEFEND A LEGAL ACTION AT SUBSTANTIAL COSTS TO US.

We currently hold no patents. Our software products, hardware designs, and circuit layouts are copyrighted. However, copyright protection does not prevent other companies from emulating the features and benefits provided by our software, hardware designs or the integration of the two. We protect our software source code as trade secrets and make our proprietary source code available to OEM customers only under limited circumstances and specific security and confidentiality constraints. In many product hardware designs, we develop application-specific integrated circuits (ASICs) which encapsulate proprietary technology and are installed on the circuit board. This can serve to significantly reduce the risk of duplication by competitors, but in no way ensures that a competitor will be unable to replicate a feature or the benefit in a similar product.

Competitors may assert that we infringe their patent rights. If we fail to establish that we have not violated the asserted rights, we could be prohibited from marketing the products that incorporate the technology and we could be liable for damages. We could also incur substantial costs to redesign our products or to defend any legal action taken against us. We have obtained U.S. registration for several of our trade names or trademarks, including: PCPI, NewGen, ColorBlind, LaserImage, ColorImage, ImageScript and ImageFont. These trade names are used to distinguish our products in the marketplace.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

IF THE PRESENT ECONOMIC CRISIS IN ASIA CONTINUES, OUR ACCOUNTS RECEIVABLES IN ASIA WILL NOT BE COLLECTIBLE AND WILL HAVE A NEGATIVE IMPACT ON OUR CONTINUED OPERATIONS AND OVERALL FINANCIAL PERFORMANCE.

We conduct business globally. Accordingly, our future results could be adversely affected by a variety of uncontrollable and changing factors including:

- o foreign currency exchange fluctuations;
- o regulatory, political or economic conditions in a specific country or region;
- o the imposition of governmental controls;
- o export license requirements;
- o restrictions on the export of critical technology;
- o trade restrictions;
- o changes in tariffs;
- o government spending patterns;
- o natural disasters;
- o difficulties in staffing and managing international operations; and
- o difficulties in collecting accounts receivable.

In addition, the laws of certain countries do not protect our products and intellectual property rights to the same extent as the laws of the United States.

-8-

In our 1998 fiscal year, we experienced contract cancellations and the write-off of significant receivables related to continuing economic deterioration in foreign countries, particularly in Asia. Any or all of these factors could have a material adverse impact on our business and overall financial performance.

We intend to pursue international markets as key avenues for growth and to increase the percentage of sales generated in international markets. In our 2000, 1999 and 1998 fiscal years, sales outside the United States represented approximately 2%, 56% and 57% of our net sales, respectively. We expect sales outside the United States to continue to represent a significant portion of our sales. As we continue to expand our international sales and operations, our business and overall financial performance may be adversely affected by the factors stated above.

IF IT BECOMES NECESSARY TO WRITE OFF ACCOUNTS RECEIVABLE FOR CUSTOMERS IN ASIA, AS WE DID IN FISCAL 1998, OUR FINANCIAL PERFORMANCE WOULD BE ADVERSELY AFFECTED.

In our 1998 fiscal year, we experienced contract cancellations and the write-off of significant receivables related to continuing economic deterioration in foreign countries, particularly in Asia. Although we have not had to write off any significant accounts receivable of customers in Asia since that time, if it should become necessary to do once again, our financial performance would be adversely affected.

IF ALL OF THE LAWSUITS CURRENTLY FILED WERE DECIDED AGAINST US AND/OR ALL THE JUDGMENTS CURRENTLY OBTAINED AGAINST US WERE TO BE IMMEDIATELY COLLECTED, WE WOULD HAVE TO CEASE OUR OPERATIONS.

On or about October 7, 1999, the law firms of Weiss & Yourman and Stull, Stull & Brody made a public announcement that they had filed a lawsuit against us and certain current and past officers and/or directors, alleging violation of federal securities laws during the period of April 21, 1998 through October 9, 1998. On or about November 17, 1999, the lawsuit, filed in the name

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

of Nahid Nazarian Behfarin, on her own behalf and others purported to be similarly situated, was served on us. A motion to dismiss the lawsuit was granted on February 16, 2001 on our behalf and those individual defendants that have been served. However, on or about March 19, 2001, an amended complaint was filed on behalf of Nahid Nazarian Behfarin, Peter Cook, Stephen Domagala and Michael S. Taylor, on behalf of themselves and others similarly situated. On or about March 20, 2001, we once again filed a motion to dismiss the case along with certain other individual defendants. The motion is pending. We believe these claims are without merit and we intend to vigorously defend against them on our behalf as well as on behalf of the other defendants. ___ The defense of this action has been tendered to our insurance carriers.

Throughout fiscal 1999, 2000 and 2001, and through the date of this filing, approximately fifty trade creditors have made claims and/or filed actions alleging the failure of us to pay our obligations to them in a total amount exceeding \$3 million. These actions are in various stages of litigation, with many resulting in judgments being entered against us. Several of those who have obtained judgments have filed judgment liens on our assets. These claims range in value from less than one thousand dollars to just over one million dollars, with the great majority being less than twenty thousand dollars. Should we be required to pay the full amount demanded in each of these claims and lawsuits, we may have to cease our operations. However, to date, the superior security interest held by Imperial Bank has prevented nearly all of these trade creditors from collecting on their judgments.

IF OUR OPERATIONS CONTINUE TO RESULT IN A NET LOSS, NEGATIVE WORKING CAPITAL AND A DECLINE IN NET WORTH, AND WE ARE UNABLE TO OBTAIN NEEDED FUNDING, WE MAY BE FORCED TO DISCONTINUE OPERATIONS.

For several recent periods, up through the fiscal quarter ended December 31, 2000, we had a net loss, negative working capital and a decline in net worth which raises substantial doubt about our ability to continue as a going concern. Our losses have resulted primarily from an inability to achieve product sales and contract revenue targets due to insufficient working capital. Our ability to continue operations will depend on positive cash flow, if any, from future operations and on our ability to raise additional funds through equity or debt financing. Although we have reduced our work force and discontinued some of our operations, if we are unable to achieve the necessary product sales or raise or obtain needed funding, we may be forced to discontinue operations.

-9-

IF OUR WORLDWIDE DISTRIBUTORS REDUCE OR DISCONTINUE SALES OF OUR PRODUCTS, OUR BUSINESS MAY BE MATERIALLY AND ADVERSELY AFFECTED.

Our products are marketed and sold through a distribution channel of value added resellers, manufacturers' representatives, retail vendors, and systems integrators. We have a network of dealers and distributors in the United States and Canada, in the European Community and on the European Continent, as well as a growing number of resellers in Africa, Asia, the Middle East, Latin America, and Australia. We support our worldwide distribution network and end-user customers through centralized manufacturing, distribution, and repair operations headquartered in San Diego. As of February 9, 2001, we directly employed 8 individuals involved in marketing and sales activities.

Our sales are principally made through distributors which may carry competing product lines. These distributors could reduce or discontinue sales of our products which could materially and adversely affect us. These independent distributors may not devote the resources necessary to provide effective sales and marketing support of our products. In addition, we are dependent upon the

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

continued viability and financial stability of these distributors, many of which are small organizations with limited capital. These distributors, in turn, are substantially dependent on general economic conditions and other unique factors affecting our markets. We believe that our future growth and success will continue to depend in large part upon our distribution channels. Our business could be materially and adversely affected if our distributors fail to pay amounts to us that exceed reserves we have established.

AS A COMPANY IN THE TECHNOLOGY INDUSTRY AND DUE TO THE VOLATILITY OF THE STOCK MARKETS GENERALLY, OUR STOCK PRICE COULD FLUCTUATE SIGNIFICANTLY IN THE FUTURE.

The market price of our common stock historically has fluctuated significantly. Our stock price could fluctuate significantly in the future based upon any number of factors such as:

- o general stock market trends;
- o announcements of developments related to our business;
- o fluctuations in our operating results;
- o a shortfall in our revenues or earnings compared to the estimates of securities analysts;
- o announcements of technological innovations, new products or enhancements by us or our competitors,
- o general conditions in the computer peripheral market and the imaging markets we serve;
- o general conditions in the worldwide economy;
- o developments in patents or other intellectual property rights; and
- o developments in our relationships with our customers and suppliers.

In addition, in recent years the stock market in general, and the market for shares of technology stocks in particular, have experienced extreme price fluctuations which have often been unrelated to the operating performance of affected companies. Similarly, the market price of our common stock may fluctuate significantly based upon factors unrelated to our operating performance.

IF AN OPERATIONAL RECEIVER IS REINSTATED TO CONTROL OUR OPERATIONS, WE MAY NOT BE ABLE TO CARRY OUT OUR BUSINESS PLAN.

On August 20, 1999, at the request of Imperial Bank, our primary lender, the Superior Court, San Diego appointed an operational receiver to us. On August 23, 1999, the operational receiver took control of our day-to-day operations. Through further equity infusion, primarily in the form of the exercise of warrants to purchase our common stock, operations have continued, and on June 21, 2000, the Superior Court, San Diego issued an order dismissing the operational receiver as a part of a settlement of litigation with Imperial Bank pursuant to the Settlement Agreement effective as of June 20, 2000. The Settlement Agreement requires that we make monthly payments of \$150,000 to Imperial Bank until the indebtedness is paid in full. However, in the future, without additional funding sufficient to satisfy Imperial Bank and our other creditors, as well as providing for our working capital, there can be no assurances that an operational receiver may not be reinstated. If an operational receiver is reinstated, we will not be able to expand our products nor will we have complete control over sales policies or the allocation of funds.

-10-

UPON THE CONVERSION OF THE OUTSTANDING NOTES AND OUTSTANDING PREFERRED STOCK AND UPON EXERCISE OF OUTSTANDING OPTIONS AND WARRANTS, THE ISSUANCE OF COMMON STOCK WILL RESULT IN MUCH DILUTION, OR A LOWER BOOK VALUE PER SHARE, TO ANY INVESTOR FOLLOWING THIS OFFERING.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

The issuance of our reserved shares would dilute the equity interest of existing stockholders and could have an adverse effect on the market price of our common stock. As of April 26, 2001, we had 6,911,744 shares of common stock reserved for possible future issuances upon, among other things, conversion of preferred stock and exercise of outstanding options and warrants.

Under the convertible note purchase agreement we entered into on December 12, 2000, the amount of common stock issuable to each of the purchasers upon conversion of the notes is based on a formula that is tied to the market price of our common stock prior to the date of conversion of the notes. Accordingly, the issuance of some or all of the common stock upon conversion of the notes could result in dilution of the per share value of our common stock held by current investors. The lower the average trading price of our common stock at the time of conversion, the greater the number of shares of common stock that can be issued. Accordingly, this causes a greater risk of dilution. The perceived risk of dilution may cause the purchasers under the convertible note purchase agreement as well as other ITEC stockholders to sell their shares, which would contribute to the downward movement in the stock price of our common stock.

We may seek additional financing, which would result in the issuance of additional shares of our capital stock and/or rights to acquire additional shares of our capital stock. Additional issuances of capital stock would result in a reduction of current stockholders' percentage interest in ITEC. Furthermore, if the exercise price of any outstanding or issuable options or warrants or the conversion ratio of any preferred stock is lower than the price per share of common stock at the time of the exercise or conversion, then the price per share of common stock would decrease because the number of shares of common stock outstanding would increase without a corresponding increase in the dollar amount assigned to stockholders' equity.

The addition of a substantial number of shares of common stock into the market or by the registration of any other of our securities under the Securities Act may significantly and negatively affect the prevailing market price for our common stock. Furthermore, future sales of shares of common stock issuable upon the exercise of outstanding warrants and options may have a depressive effect on the market price of the common stock, as these warrants and options would be more likely to be exercised at a time when the price of the common stock is in excess of the applicable exercise price.

The sale or issuance of any shares of preferred stock having rights superior to those of the common stock may result in a decrease in the value or market price of the common stock. The issuance of preferred stock could have the effect of delaying, deferring or preventing a change of ownership without further vote or action by the stockholders and may adversely affect the voting and other rights of the holders of common stock.

Our board of directors currently is authorized to issue up to 100,000 shares of preferred stock. The board has the power to establish the dividend rates, preferential payments on our liquidation, voting rights, redemption and conversion terms and privileges for any series of preferred stock.

-11-

THE DELISTING OF OUR COMMON STOCK FROM THE NASDAQ SMALLCAP MARKET HAS MADE IT MORE DIFFICULT TO RAISE FINANCING AND THERE IS LESS LIQUIDITY FOR OUR COMMON STOCK AS A RESULT.

The Nasdaq SmallCap Market and Nasdaq Marketplace Rules require an issuer to evidence a minimum of \$2,000,000 in net tangible assets, a \$35,000,000 market capitalization or \$500,000 in net income in the latest fiscal year or in two of the last three fiscal years, and a \$1.00 per share bid price,

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

respectively. On October 21, 1999, Nasdaq notified us that we no longer complied with the bid price and net tangible assets/market capitalization/net income requirements for continued listing on The Nasdaq SmallCap Market. At a hearing on December 2, 1999, a Nasdaq Listing Qualifications Panel also raised public interest concerns relating to our financial viability. While the Panel acknowledged that we were in technical compliance with the bid price and market capitalization requirements, the Panel was of the opinion that the continued listing of our common stock on The Nasdaq Stock Market was no longer appropriate. This conclusion was based on the Panel's concerns regarding our future viability. Our common stock was delisted from The Nasdaq Stock Market effective with the close of business on March 1, 2000. As a result of being delisted from The Nasdaq SmallCap Market, stockholders may find it more difficult to sell our common stock. This lack of liquidity also may make it more difficult for us to raise capital in the future.

Trading of our common stock is now being conducted over-the-counter through the NASD Electronic Bulletin Board and covered by Rule 15c-9 under the Securities Exchange Act of 1934. Under this rule, broker/dealers who recommend these securities to persons other than established customers and accredited investors must make a special written suitability determination for the purchaser and receive the purchaser's written agreement to a transaction prior to sale. Securities are exempt from this rule if the market price is at least \$5.00 per share.

The Securities and Exchange Commission adopted regulations that generally define a "penny stock" as any equity security that has a market price of less than \$5.00 per share. Additionally, if the equity security is not registered or authorized on a national securities exchange or the Nasdaq and the issuer has net tangible assets under \$2,000,000, the equity security also would constitute a "penny stock." Our common stock does constitute a penny stock because our common stock has a market price less than \$5.00 per share, our common stock is no longer quoted on Nasdaq and our net tangible assets do not exceed \$2,000,000. As our common stock falls within the definition of penny stock, these regulations require the delivery, prior to any transaction involving our common stock, of a disclosure schedule explaining the penny stock market and the risks associated with it. Furthermore, the ability of broker/dealers to sell our common stock and the ability of stockholders to sell our common stock in the secondary market would be limited. As a result, the market liquidity for our common stock would be severely and adversely affected. We can provide no assurance that trading in our common stock will not be subject to these or other regulations in the future, which would negatively affect the market for our common stock.

IF WE ARE UNABLE TO SELL ALL OF THE SHARES OFFERED BY US, OR IF WE ARE UNABLE TO SELL THOSE SHARES AT ANTICIPATED FIXED PRICES, WE WILL BE UNABLE TO RAISE THE AMOUNT OF CAPITAL NEEDED TO SUCCESSFULLY EXECUTE OUR BUSINESS PLAN.

We are simultaneously registering 22 million shares of common stock that have been issued or are issuable to selling security holders and will be attempting to raise capital at a fixed price(s) through the sale of 20 million shares of common stock offered by us. As a result, we may have difficulty selling the shares offered by us because the selling security holders may sell their shares for a price below our fixed offering price. The registration of the significant amount of shares offered by the selling security holders may also impact the total amount of shares that we will be able to sell. If we are unable to sell all of the shares offered by us at a sufficient fixed price(s), we will be unable to raise the amount of capital needed to successfully execute our business plan.

USE OF PROCEEDS

Set forth below is our anticipated use of proceeds. There is no minimum

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

number of shares that must be sold in the offering, and all funds will be paid directly to us.

-12-

If all shares offered herein are sold, we will receive \$_____ of net proceeds from this offering after deducting possible fees to qualified broker-dealers. The net proceeds of this offering will be used for general corporate purposes, including working capital, annual shareholders meeting expenses, inventory purchases and mergers and acquisitions and reorganization costs associated therewith.

Specifically, the use of proceeds from the sale of the shares of common stock offered by us and the priority of their use if all of the securities are not sold or are not sold at sufficient amounts will be in the following order:

- | | |
|---|---------|
| 1. Annual shareholders meeting expenses | \$_____ |
| 2. Inventory purchases | \$_____ |
| 3. Mergers and acquisitions and reorganization costs associated therewith | \$_____ |

Because we have no minimum proceeds for this offering, it is possible that we will receive no funds or insufficient funds to enable us to effectuate our planned use of proceeds set forth above.

PLAN OF DISTRIBUTION

We are registering 20,000,000 shares of our common stock in contemplation of offering unrestricted common stock to the public.

GENERAL.

We may sell up to 20,000,000 shares of our common stock through underwriters or dealers, through agents or directly to one or more purchasers. We may distribute the securities from time to time in one or more transactions at a fixed price or prices (which may be changed from time to time), at market prices prevailing at the time of sale, at prices related to these prevailing market prices or at negotiated prices.

The applicable prospectus supplement will describe the terms of the offering of the securities, including:

- o the name or names of any underwriters, if any;
- o the purchase price of our common stock and the proceeds we will receive from the sale;
- o any underwriting discounts and other items constituting underwriters' compensation;
- o any discounts or concessions allowed or reallocated or paid to dealers; and
- o any securities exchange or market on which our common stock may be listed.

Only underwriters named in the prospectus supplement, if any, are underwriters of our common stock offered with the prospectus supplement.

-13-

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

USE OF UNDERWRITERS AND AGENTS.

If underwriters are used in the sale, they will acquire our common stock for their own account and may resell them from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. We may offer our common stock to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions, the underwriters will be obligated to purchase all of our common stock of the series offered by the prospectus supplement. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may change from time to time.

We may sell our common stock directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of our common stock and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise our agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by certain types of institutional investors to purchase our common stock from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

SALE DIRECTLY TO PURCHASERS.

We may enter into agreements directly with one or more purchasers. Those agreements may provide for the sale of our common stock at a fixed price, based on the market price of the common stock or otherwise. Alternatively, those agreements may provide for the sale of common stock over a period of time by means of draw downs at our election which the purchaser would be obligated to accept under specified conditions. Under this form of agreement, we may sell common stock at a per share price which is discounted from the market price. Those agreements may also provide for sales of common stock based on combinations of or variations from these methods.

DEEMED UNDERWRITERS.

In connection with the sale of the securities offered with this prospectus, underwriters, dealers or agents may receive compensation from us or from purchasers of our common stock for whom they may act as agents, in the form of discounts, concessions or commissions. The underwriters, dealers or agents which participate in the distribution of the securities may be deemed to be underwriters under the Securities Act and any discounts or commissions received by them and any profit on the resale of the securities received by them may be deemed to be underwriting discounts and commissions under the Securities Act. Anyone deemed to be an underwriter under the Securities Act may be subject to statutory liabilities, including Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

INDEMNIFICATION AND OTHER RELATIONSHIPS.

We may provide agents and underwriters with indemnification against certain civil liabilities, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to those liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

REGULATION M.

Any person engaged in a distribution of any of the shares we are registering by this registration statement, will be required to comply with Regulation M. In general, Regulation M precludes any purchasers and any broker-dealer or other person who participates in a distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase, any security which is the subject of the distribution until the entire distribution is complete. Regulation M defines a "distribution" as an offering of securities that is distinguished from ordinary

-14-

trading activities by the magnitude of the offering and the presence of special selling efforts and selling methods. Regulation M also defines a "distribution participant" as an underwriter, prospective underwriter, broker, dealer, or other person who has agreed to participate or who is participating in a distribution.

Regulation M prohibits any bids or purchases made in order to stabilize the price of a security in connection with the distribution of that security, except as specifically permitted by Rule 104 of Regulation M. These stabilizing transactions may cause the price of our common stock to be more than it would otherwise be in the absence of these transactions. We will inform any person participating in the distribution of the shares that stabilizing transactions permitted by Regulation M allow bids to purchase our common stock if the stabilizing bids do not exceed a specified maximum. Regulation M specifically prohibits stabilizing that is the result of fraudulent, manipulative, or deceptive practices. Any distribution participant is required to consult with its own legal counsel to ensure compliance with Regulation M.

DESCRIPTION OF SECURITIES

COMMON STOCK

Holders of the common stock are entitled to one vote for each share held in the election of directors and in all other matters to be voted on by shareholders. Stockholders have cumulative voting rights in the election of directors. Holders of common stock are entitled to receive dividends as may be declared from time to time by our board of directors out of funds legally available. In the event of liquidation, dissolution or winding up, holders of common stock are to share in all assets remaining after the payment of liabilities. The holders of common stock have no preemptive or conversion rights and are not subject to further calls or assessments. There are no redemption or sinking fund provisions applicable to the common stock. The rights of the holders of the common stock are subject to any rights that may be fixed for holders of preferred stock. All of the outstanding shares of common stock are fully paid and non-assessable.

INFORMATION WITH RESPECT TO THE REGISTRANT

The information required to be disclosed in the registration statement pertaining to this prospectus is incorporated by reference, including, among other documents, our latest Form 10-K and Form 10-Q, which are both being delivered with this prospectus. See "Documents Incorporated by Reference", "Prospectus Summary", "Risk Factors" and "Material Changes."

MATERIAL CHANGES

SIGNIFICANT TRANSITIONAL PHASE AND IMPORTANT SHORT-TERM OPERATIONAL AND

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

LIQUIDITY CHALLENGES

We have had operational and liquidity challenges for the past two years, characterized by declining sales and net operating losses. Furthermore, in August 1999, and continuing until June 2000, our operations were controlled by a court-appointed operational receiver, which restricted our ability to conduct normal business operations. The presence of the court-appointed operational receiver for ten months of fiscal 2000 resulted in the capture of all sales revenue by the receiver in favor of the creditor, Imperial Bank. During this period, we were not able to expand our products nor did we have complete control over sales policies or the allocation of funds. Additionally, many of our traditional customers elected to cease doing business with us, which resulted in significantly reduced revenues and associated cash flows to operate the business. Our minimum operating capital requirements to meet payroll and overhead expenses were met due to the sale of equity securities and the exercise of warrants by certain of our employees.

Shortfalls in income related to our OEM business, which traditionally represented the most profitable part of the business, were related to the election by these customers to either discontinue development projects already underway, or to cancel plans to manufacture contract-related products that would have generated royalty income for us. The component of our business has, traditionally, been volatile and we have not been able to accurately forecast revenues and profits from this business sector.

-15-

In light of the above, we elected to shift our business model, which had been reliant on engineering and royalty revenues from OEM customers who would incorporate our technologies into their products, to one focused on product sales of our printer and software products. Our ongoing financial difficulties, however, have compromised this strategy to the extent that there has been a shortage of capital for ongoing product development and marketing.

In order to address these difficulties, we have endeavored to enter into strategic acquisitions, which may provide revenues and profits to us. In December 2000, we acquired, for stock and debt assumption, EduAdvantage, Inc., an internet-based reseller of software and other computer products to the education market. The net effect of the acquisition was an increase in our sales on a consolidated basis. Also, in December 2000, we announced that we had agreed to acquire a majority interest in Quality Photographic Imaging, Inc. ("QPI"). However, this transaction is pending subject to the approval of QPI shareholders. In December 2000, we also announced that we would acquire a 75 percent interest in Pen Interconnect, Inc. However, in February of 2001, we terminated the transaction and retained a \$75,000 convertible note which is convertible into common stock of Pen Interconnect, Inc.

APPOINTMENT AND REMOVAL OF OPERATIONAL RECEIVER

On August 20, 1999, at the request of Imperial Bank, our primary lender, the Superior Court, San Diego appointed an operational receiver to us. On August 23, 1999, the operational receiver took control of our day-to-day operations. Through further equity infusion, primarily in the form of the exercise of warrants to purchase our common stock, operations have continued, and on June 21, 2000, the Superior Court, San Diego issued an order dismissing the operational receiver as a part of a settlement of litigation with Imperial Bank pursuant to the Settlement Agreement effective as of June 20, 2000. The Settlement Agreement requires that we make monthly payments of \$150,000 to Imperial Bank until the indebtedness is paid in full. However, in the future, without additional funding sufficient to satisfy Imperial Bank and our other creditors, as well as providing for our working capital, there can be no

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

assurances that an operational receiver may not be reinstated.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and special reports, proxy statements and other information with the SEC. You may read and copy the materials we file at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549, as well as at the SEC's regional offices at 7 World Trade Center, 13th Floor, New York, New York 10048; and at Citicorp Center, 500 West Madison Street, Room 1400, Chicago, Illinois 60661-2511. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the Public Reference Rooms. Our filings are also available to the public from the SEC's World Wide Web site on the Internet at <http://www.sec.gov>. This site contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to "incorporate by reference" the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this Prospectus. We incorporate by reference the documents listed below:

1. Our Annual Report on Form 10-K for the fiscal year ended June 30, 2000 (as amended by Form 10-K/A filed on October 30, 2000);
2. Our Quarterly Reports on Form 10-Q for the fiscal quarters ended December 31, 2000, September 30, 2000, March 31, 2000, December 31, 1999, July 31, 1999 and March 31, 1999; and
3. Our Current Report on Form 8-K filed January 19, 2001.

DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Section 145 of the Delaware General Corporation Law permits indemnification of officers and directors of the Registrant under certain conditions and subject to certain limitations. Section 145 of the Delaware General Corporation Law also provides that a corporation has the power to purchase and maintain insurance on behalf of its officers and directors against any liability asserted against such person and incurred by him or her in such capacity, or arising out of his or her status as such, whether or not the corporation would have the power to indemnify him or her against such liability under the provisions of Section 145 of the Delaware General Corporation Law.

Article X of the Bylaws of the Registrant provides that the Registrant shall indemnify its officers, directors and employees. The rights to indemnity

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

thereunder continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. In addition, expenses incurred by a director or officer in defending any action, suit or proceeding by reason of the fact that he or she is or was a director or officer of the Registrant shall be paid by the Registrant unless such officer, director or employee is adjudged liable for negligence or misconduct in the performance of his or her duties.

Article Seventh of the Registrant's Certificate of Incorporation provides that the Registrant shall indemnify all persons whom it may indemnify pursuant to Section 145 of the Delaware General Corporation Law to the full extent permitted by such Section 145.

INDEMNIFICATION FOR LIABILITIES UNDER THE SECURITIES ACT OF 1933 MAY BE PERMITTED TO DIRECTORS, OFFICERS OR PERSONS CONTROLLING US ACCORDING TO THE PROVISIONS IN OUR ARTICLES OF INCORPORATION, WE HAVE BEEN INFORMED THAT IN THE OPINION OF THE SEC, THIS INDEMNIFICATION IS AGAINST PUBLIC POLICY AS EXPRESSED IN THE ACT AND IS THEREFORE UNENFORCEABLE

EXPERTS

The financial statements incorporated herein by reference to our Annual Report on Form 10-K for the year ended June 30, 2000 have been so incorporated in reliance on the report of Boros & Farrington APC, independent accountants, given on the authority of said firm as experts in auditing and accounting.

LEGAL OPINIONS

For the purpose of this offering, Jenkens & Gilchrist Parker Chapin LLP is our counsel in regard to this registration statement.

FINANCIAL INFORMATION

The following financial statements should be read in conjunction with the financial statement information contained in and incorporated by reference from our most recent report on Form 10-K, which is being furnished with this prospectus.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Section 145 of the Delaware General Corporation Law permits indemnification of officers and directors of the Registrant under certain conditions and subject to certain limitations. Section 145 of the Delaware General Corporation Law also provides that a corporation has the power to purchase and maintain insurance on behalf of its officers and directors against any liability asserted against such person and incurred by him or her in such capacity, or arising out of his or her status as such, whether or not the corporation would have the power to indemnify him or her against such liability under the provisions of Section 145 of the Delaware General Corporation Law.

Article X of the Bylaws of the Registrant provides that the Registrant shall indemnify its officers, directors and employees. The rights to indemnity thereunder continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. In addition, expenses incurred by a director or officer in defending any action, suit or proceeding by reason of the fact that he or she is or was a director or officer of the Registrant shall be paid by the

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

Registrant unless such officer, director or employee is adjudged liable for negligence or misconduct in the performance of his or her duties.

Article Seventh of the Registrant's Certificate of Incorporation provides that the Registrant shall indemnify all persons whom it may indemnify pursuant to Section 145 of the Delaware General Corporation Law to the full extent permitted by such Section 145.

INDEMNIFICATION FOR LIABILITIES UNDER THE SECURITIES ACT OF 1933 MAY BE PERMITTED TO DIRECTORS, OFFICERS OR PERSONS CONTROLLING US ACCORDING TO THE PROVISIONS IN OUR ARTICLES OF INCORPORATION, WE HAVE BEEN INFORMED THAT IN THE OPINION OF THE SEC, THIS INDEMNIFICATION IS AGAINST PUBLIC POLICY AS EXPRESSED IN THE ACT AND IS THEREFORE UNENFORCEABLE

(B) REPORTS ON FORM 8-K

Form 8-K filed July 28, 2000.

Form 8-K filed January 19, 2001.

ITEM 17. UNDERTAKINGS.

The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement to include any material information with respect to the plan of distribution not previously disclosed in this Registration Statement or any material change to such information in this Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The undersigned Registrant hereby undertakes to deliver or cause to be delivered with the Prospectus, to each person to whom the Prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the Prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X are not set forth in the Prospectus, to deliver, or cause to be delivered to each person to whom the Prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the Prospectus to provide such interim financial information.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, Delaware General Corporation Law or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form S-2/A

payment by the Registrant of expenses incurred or paid by a director, officer, or controlling person of the Registrant in the successful defense of any action, suit, or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered hereunder, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-2 and has duly caused this Pre-Effective Amendment No. 1 to Form S-2 to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of San Diego, State of California, on the 30th day of April 2001.

IMAGING TECHNOLOGIES CORPORATION
