## AMERICAN ISRAELI PAPER MILLS LTD. ANNOUNCES THE SIGNING OF A TERM SHEET FOR THE PURCHASE OF NATURAL GAS

Hadera, Israel, August 31, 2004 - American Israeli Paper Mills Ltd. (ASE: AIP) (the "Company") announced today that it had signed yesterday (August 30, 2004) a term sheet for the purchase of natural gas from the partners in the Thetis Sea Group (Noble Energy Mediterranean Ltd., Delek Drilling Limited Partnership, Avner Oil Exploration Limited Partnership and Delek Investments and Properties Ltd.).

The AIPM Group, as one of the largest cogeneration producers of steam and electricity in Israel, regularly invests in the improvement and streamlining of manufacturing processes, while promoting environmental aspects and meeting strict standards. As part of its development plan and in light of the availability of natural gas in Israel and the initial delivery of such gas to private consumers in the coming year, the Company is immediately preparing for converting its energy generation systems from using heavy fuel oil to natural gas, a conversion that will bring about a significant savings in its energy costs.

This process will be implemented in several stages. Initially, the steam boiler located at the Company plant in Hadera will be converted to the use of natural gas. The conversion of the steam boiler entails an investment of approximately \$3 million and was approved by the Company's Board of Directors that convened on August 11, 2004. This conversion is scheduled to be performed in the first half of 2005. The Company subsequently plans to join additional parties in establishing a 400-megawatt electricity and thermal cogeneration plant, at an overall investment estimated at \$250 million. The aim of the investment is to take advantage of the Company's capability to be a low cost and efficient co-generator producer of electricity, and to make a significant contribution to its financial results.

As part of the above-mentioned process, the said term sheet was signed, pursuant to which the Company will purchase natural gas from the Thetis Sea Partnership over a period that will end at the earliest of the following dates:

1. 15 years.
2. The date of completion of the delivery of an overall quantity of natural gas, as determined in the agreement (minimum 0.4 BCM and maximum 3 BCM).

The financial volume of the term sheet lies between \$35 million and \$260 million over the term of the agreement.

The said period may be shortened, under certain conditions determined in the term sheet.

It was further stipulated that the purchase of the natural gas was contingent upon the completion of the laying of a natural gas pipeline to Hadera, by a date to be agreed upon between the parties.

Edgar Filing: AMERICAN ISRAELI PAPER MILLS LTD - Form 6-K

The term sheet is subject to the signing of a binding agreement.

In parallel, the Company is examining possibilities of acquiring additional quantities of natural gas, necessary for the completion of its plans.
