Prudential plc

Laurence Pountney Hill London EC4R 0HH Tel 020 7220 7588 Fax 020 7548 3725

Incorporated and registered in England and Wales. Registered office as above. Registered number 1397169.

Prudential plc is a holding company, subsidiaries of which are regulated by the FSA

Notes to Editors:

1. Prudential's UK Insurance Operations provide a range of financial products and services including annuities, corporate and individual pensions, with-profits bonds and investment products to more than seven million customers.

2. Prudential UK Insurance Operations employs some 8,000 staff located in offices in Stirling, Reading, Belfast, Glasgow and London.

This announcement impacts primarily on its offices in Reading, where it expects to reduce headcount by a total of 850 by the end of 2004. This number is in addition to the total reduction in headcount across the UK of 2100 which we announced in November 2001, of which 1259 were in Reading. The total number of Prudential staff remaining in Reading at the end of 2004 will be 1400.

3. Prudential plc expects to incur a restructuring charge of approximately £20 million by the end of 2004 as a result of this initiative. The current estimated impact on shareholders will be a charge of £5 million against achieved basis pre-tax profit, spread over the next three years.

However, due to the creation of a lower cost servicing centre, Prudential expects to achieve annual gross cost savings from 2006 of approximately £16 million, of which it is currently estimated that £1 million (on an achieved profit basis) will be attributable to shareholders in 2003 (increasing to £2 million in 2004, to £3 million in 2005 and to £4 million in 2006 and thereafter).

These cost savings are in addition to the gross annual costs savings of around £200m which Prudential expects to achieve from 2004 due to the creation of the single customer service organisation, the rationalisation of support services and a refocusing of IT investment. Of this amount, £65 million (on an achieved profit basis) will be attributable to shareholders.

We announced details of the £200 million cost savings at our Interim Results in July of this year. This represented an increase of £25m per year on the £175m of annual cost savings which we had originally identified at the time of the November 2001 strategy announcement.

4. Prudential in Asia

Prudential was first established in Asia in 1923 and is currently the UK's largest life insurance company in Asia. Prudential Corporation Asia (PCA) now has 22 operations in 12 countries: China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, the Philippines, Singapore, Taiwan, Thailand and Vietnam. It has top five market positions in nine of these operations.

Alongside its wholly-owned operations in Asia, Prudential has forged successful joint ventures and strategic alliances with some of the region's leading financial institutions including Standard Chartered Bank, CITIC (China International Trust and Investment Corporation), Bank of China International and India's ICICI.

Earlier this year we launched the Prudential ICICI InstaCall service in India, the first ever 24-hour call centre service provided by a mutual fund company. This enables our Indian investors to carry out transactions such as redemptions and switches by telephone. They can also obtain updated information on their account balances, access the latest net asset values, product details, list of Customer Service Centres and transaction history.

5.

ICICI OneSource

The operation is being set up by ICICI OneSource a company with an established brand in India and a strong track record in delivering similar projects to a high standard for international clients. ICICI OneSource is one of the largest providers of offshore business processing and customer relationship management services out of India and currently has over 1,350 employees serving 10 international clients, both in the US and the UK.

ICICI OneSource is wholly owned by the ICICI group the flagship of which is ICICI Bank, the second largest bank in India with over \$20 billion in assets.
