Item 5. Other Events.

On November 1, 2002, the Registrant issued the following press release announcing operating results on an unaudited basis for the first quarter of fiscal year 2003 ended September 30, 2002:

FOR IMMEDIATE RELEASE

FRIDAY, NOVEMBER 1, 2002

PRECISION OPTICS CORPORATION ANNOUNCES  
FIRST QUARTER RESULTS

GARDNER, Massachusetts - Precision Optics Corporation, Inc. (Nasdaq: POCI) today announced operating results on an unaudited basis for the first quarter of fiscal year 2003 ended September 30, 2002.

## Edgar Filing: PRECISION OPTICS CORPORATION INC - Form 8-K

### FIRST QUARTER OPERATING RESULTS

Revenues for the quarter were \$542,443 compared to \$491,096 for the same period in fiscal year 2002, an increase of 10.5%. Revenues for the quarter decreased 9.7% sequentially from the preceding quarter. Net loss was \$791,891 compared to \$5,505,929 last year. Last year's net loss included provisions for asset impairment and inventory writedown totaling approximately \$3.98 million. Basic and diluted loss per share was \$0.08 in the current quarter ended September 30, 2002, versus \$0.52 per share for the comparable period last year. The weighted average common shares outstanding were 10,503,908 during both periods. In the preceding quarter ended June 30, 2002, net loss, which included a non-cash charge for asset impairment and restructuring of \$332,393, was \$1,331,262, or \$0.13 per share.

The increase in revenues was due primarily to higher sales of medical products (up by approximately \$204,000, or 69%), partially offset by lower sales of non-medical products (down by approximately \$153,000, or 79%). Sales of medical products were higher due primarily to higher shipments of stereo endoscopes and cameras. Non-medical sales were lower due primarily to the discontinuation of sales of Dense Wavelength Division Multiplexer (DWDM) filters.

### WORKFORCE REDUCTION

The Company has taken additional measures to realign its cost structure with current revenue expectations. In October 2002, the Company reduced its full-time workforce by approximately 16%, or six employees. As a result of this action, the Company expects to record a non-recurring pretax charge to earnings of approximately \$53,000 for employee severance benefits in the quarter ending December 31, 2002. In addition, the Company is in the process of reviewing other expense areas to determine where additional reductions in discretionary spending can be achieved.

### OUTLOOK

For the quarter ended September 30, 2002, cash and cash equivalents decreased by approximately \$736,000, including non-recurring payments of approximately \$168,000 related to idle space and terminating the lease on the Optical Thin Film Technology Center (which relieved the Company of an estimated \$460,000 lease obligation). Excluding the non-recurring payments, cash usage during the quarter was \$568,000, a 37% sequential decrease in cash usage from the previous quarter ended June 30, 2002.

During the quarter ending December 31, 2002, the Company anticipates receiving net proceeds of approximately \$550,000 related to the sale of a portion of its assets held for sale (property and equipment

previously used in the Company's telecommunications product line). The remaining assets in this category are anticipated to be sold by June 30, 2003.

Capital equipment expenditures during the quarter ended September 30, 2002 were approximately \$16,000, down 51% from the quarter ended September 30, 2001. Future capital expenditures will be dependent upon future sales and success of on-going research and development efforts.

For the quarter ended September 30, 2002, research and development expenses were approximately \$310,000, down 54% from the \$676,000 in the quarter ended September 30, 2001. It is anticipated that the quarterly level of R&D expenses for the foreseeable future will remain in this lower range, but is ultimately

## Edgar Filing: PRECISION OPTICS CORPORATION INC - Form 8-K

dependent upon the Company's assessment of new product opportunities.

The Company's recently introduced new medical products and certain non-medical applications of its optical technology have been well received by the marketplace. These new products include:

- Stereo endoscope systems (used in cardiac surgery and a growing number of other minimally invasive surgical procedures).
- 30 degree line of sight version of the successful 5 mm autoclavable laparoscope.
- 4 mm short endoscope (used in carpal tunnel surgery).
- Longer version of the 10 mm laparoscope (used in bariatric surgery for treatment of morbid obesity).
- 5 mm 30 degree endoscope (used in vessel transplant for cardiac bypass surgery).
- Relay lens system (for use in medical digital photo microscopy).
- Episcopes (for use in examination of the epidermis).

These initiatives alone have already generated orders from new and existing customers totaling approximately \$1,170,000, of which approximately \$83,000 was shipped in fiscal year 2002, approximately \$181,000 was shipped in the quarter ended September 30, 2002, and approximately \$274,000 and \$384,000, respectively, is scheduled to be shipped during the quarters ending December 31, 2002 and March 31, 2003. The timing of the remaining shipments on these orders of approximately \$248,000 is dependent upon customer delivery instructions. The Company anticipates additional follow-on orders for these products.

### ABOUT PRECISION OPTICS

Precision Optics Corporation, a leading manufacturer of optical thin films and optical instruments since 1984, designs and manufactures high-quality optical thin film coatings, medical instruments, and other advanced optical systems. The Company's medical instrumentation line includes laparoscopes, arthroscopes and endocouplers and a world-class 3-D endoscope for use in minimally invasive surgical procedures. Precision Optics Corporation is certified to the ISO 9001 Quality Standard, and complies with the FDA Good Manufacturing Practices and the European Union Medical Device Directive for CE Marking of its medical products. The Company's Internet Website is [www.info@poci.com](http://www.info@poci.com).
