SEANERGY MARITIME HOLDINGS CORP. REPORTS FINANCIAL RESULTS  
FOR THE SECOND QUARTER AND SIX MONTHS ENDED JUNE 30, 2010

August 9, 2010 - Athens, Greece - Seanergy Maritime Holdings Corp. (the "Company") (NASDAQ: SHIP; SHIP.W) announced today its operating results for the second quarter and six months ended June 30, 2010.

Second Quarter 2010 Financial Highlights:

Net Revenues of \$22.6 million

Adjusted EBITDA of \$11.7 million

Operating Income of \$4.0 million

Six Months 2010 Financial Highlights:

Net Revenues of \$40.8 million

Adjusted EBITDA of \$23.6 million

Operating Income of \$9.2 million

Dale Ploughman, the Company's Chief Executive Officer, stated: "The second quarter of 2010 was another milestone in the development of our Company. Without, in our opinion, sacrificing the strength of our balance sheet, we concluded another transformational transaction with the acquisition of a controlling interest in Maritime Capital Shipping Limited ("MCS"). We expanded our controlled fleet to a total of 20 dry bulk vessels and decreased its average age from 14.5 years to 12.8 years. In addition, we enhanced our fleet's operational versatility, as we increased our presence in all dry bulk vessel classes. Furthermore, as a result of the acquisition of MCS, our fleet now has a more balanced charter portfolio which we believe will enable us to benefit both from secured cash flows from period employment and from the market upside with some of our vessels opening for re-chartering. MCS EBITDA contribution to the Company in the second quarter of 2010 was \$4.6 million. The projected MCS EBITDA contribution to the Company for the remainder of 2010 and 2011 is estimated to be \$22.2 million and \$32.5 million.

Our results during the second quarter of 2010 reflected the volatile market environment. Our TCE rates were 67% lower compared to the same period of last year and we incurred higher finance costs resulting from our expanded fleet, as well as from losses related to interest rate swap agreements. At the same time, we achieved fleet utilization excluding scheduled drydocking off-hire days of 99.5% for the second quarter of 2010.

The Baltic Dry Index has shown signs of life after a historic 35 consecutive day drop which was the result of a combination of new fleet deliveries and China importing less iron ore. We also believe the slowdown was seasonal as less demand for coal and iron ore is normal during the summer months. The upcoming harvest season in the northern hemisphere coupled with Russia cancelling all grain export is expected to help rates improve from current levels. Additionally, as stock piles of iron ore decrease in China, we expect demand for the commodity to increase, as the country continues its pace of robust growth. Coal, the other major commodity in the dry bulk sector, should also see its demand grow as we enter winter months.

In the short period of just two years as an operating company we have more than tripled our controlled fleet from six to 20 vessels and quadrupled our cargo-carrying capacity. We will continue to work to build Seanergy into a leading player in the global shipping industry with what we feel are prudent, well-timed and accretive acquisitions. As a first step, we expect to explore ways to acquire the minority shares of MCS and BET, thereby bringing the full impact of their revenue and profit generation capacity to Seanergy. We believe Seanergy is one of the most undervalued companies amongst our peers and we will continue to make every effort to increase Seanergy's shareholder value."

Christina Anagnostara, the Company's Chief Financial Officer, stated: "Our results for the second quarter 2010 correspond to a daily TCE, or time charter equivalent rate, of \$17,276.

As of June 30, 2010 and following the MCS acquisition, our total assets are \$727.9 million and our total debt is \$421.6 million. As of June 30, 2010 our cash reserves were \$81.1 million, reflecting \$16.4 million in cash generated from operations. Our significant cash position enables us to meet remaining debt repayments and anticipated capital expenditures in 2010.

The Company now operates a fleet of 20 vessels with secured period employment of 93% for 2010, 59% for 2011, 27% for 2012 and 19% for 2013 providing us with significant cash flow visibility.

On June 2, 2010, we entered into an agreement with Marfin Bank and extended the waiver on our market value to loan covenant from January 1, 2011 through January 3, 2012, thereby enhancing our financial and operational flexibility."

## Second Quarter 2010 Financial Results

Net Revenues for the second quarter of 2010 slightly increased to \$22.6 million from \$22.1 million in the same quarter in 2009.

The Company operated a fleet of 15.1 vessels on average during the second quarter of 2010, earning a TCE rate of \$17,276 as compared to an average of 6 vessels and TCE rate of \$52,292 during the second quarter of 2009. For continuing operations the decreased TCE results from lower market imposed time charter rates earned by our vessels whose original charters expired during the third quarter of 2009. MCS contributed \$6.0 million into Seanergy's revenue for the second quarter of 2010. MCS acquisition was concluded at the end of May 2010, however it is consolidated as of May 21, 2010 as the transaction was between two entities under common control.

EBITDA was \$10.2 million for the second quarter of 2010 as compared to \$16.3 million in the same quarter in 2009 due to lower income received during the period, higher vessel operating expenses due to increased owned fleet and loss on interest rate swap agreements. Adjusted EBITDA which excludes losses on interest rate swap agreements was \$11.7 million for the second quarter of 2010.

Operating income amounted to \$4.0 million for the three months ended June 30, 2010, as compared to an Operating income of \$8.6 million for the same quarter in 2009 due to higher operating expenses from the addition of vessels to our fleet.

Net Loss was \$1.5 million, or \$0.03 per basic and diluted share for the three months ended June 30, 2010, as compared to Net Income of \$7.2 million, or \$0.32 per basic and \$0.30 per diluted share, for the same quarter in 2009, based on weighted average common shares outstanding of 60,200,170 basic and diluted for 2010, 22,361,227, basic, and 24,621,227 diluted, for 2009.

The decrease in Net Income is primarily the result of a 67% decrease in TCE to \$17,276 per day for the three months ended June 30, 2010 compared to \$52,292 per day in the prior period, as well as a \$1.7 million increase in interest expense from \$1.5 million to \$3.2 million in the respective period and losses of \$1.5 million relating to interest rate swap agreements associated with the BET and MCS debt facilities as compared to nil in the prior period.

## Six Months 2010 Financial Results

Net Revenues for the first half of 2010 were \$40.8 million compared \$48.3 million in the same period in 2009. For continuing operations the decrease in revenues is mainly attributable to lower TCE rates earned by our vessels as a result of lower market imposed time charter rates whose original charters expired during the third quarter of 2009 as compared to the same period in 2009. Seanergy's revenues for the first half of the year incorporate MCS as of May 21, 2010.

The Company operated a fleet of 13 vessels on average during the first half of 2010, earning a TCE rate of \$17,729 as compared to an average of 6 vessels and TCE rate of \$51,982 during the same period of 2009.

EBITDA was \$20.9 million for the first half of 2010 as compared to \$37.6 million in the same period in 2009 due to lower income received during the period and loss on interest rate swap agreements. Adjusted EBITDA which excludes loss on interest rate swap agreements was \$23.6 million for the first half of 2010.

Operating Income amounted to \$9.2 million for the six months ended June 30, 2010, as compared to an Operating Income of \$22.2 million for the same period in 2009.

Net Loss was \$1.4 million, or \$0.03 per basic and diluted share for the period ended June 30, 2010, as compared to Net Income of \$19.3 million, or \$0.86 per basic and \$0.80 per diluted share, for the same period in 2009, based on weighted average common shares outstanding of 54,803,982 basic and diluted for 2010 and 22,361,227, and 24,621,227 basic and diluted for 2009 respectively.

The decrease in Net Income is primarily the result of a 66% decrease in TCE to \$17,729 per day for the six months ended June 30, 2010 compared to \$51,982 per day in the prior period, as well as a \$2.3 million increase in interest expense from \$3.1 million to \$5.4 million in the respective period and losses of \$2.8 million relating to interest rate swap agreements associated with the BET and MCS debt facilities as compared to nil in the prior period.

(1) Average number of vessels is the number of vessels that constituted the Company's fleet for the relevant period, as measured by the sum of the number of days each vessel was a part of the Company's fleet during the relevant period divided by the number of calendar days in the relevant period.

(2) Ownership days are the total number of days in a period during which the vessels in a fleet have been owned. Ownership days are an indicator of the size of the Company's fleet over a period and affect both the amount of revenues and the amount of expenses that the Company recorded during a period.

(3) Available days are the number of ownership days less the aggregate number of days that vessels are off-hire due to major repairs, dry dockings or special or intermediate surveys. The shipping industry uses available days to measure the number of ownership days in a period during which vessels should be capable of generating revenues. During the six months ended June 30, 2010, the Company incurred 102 off hire days for vessel scheduled drydocking. During the three months ended June 30, 2010, the Company incurred 97 off hire days for vessel scheduled drydocking.

(4) Operating days are the number of available days in a period less the aggregate number of days that vessels are off-hire due to any reason, including unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels actually generate revenues.

(5) Fleet utilization is the percentage of time that our vessels were generating revenue, and is determined by dividing operating days by ownership days for the relevant period.

(6) Fleet utilization excluding drydocking off hire days is calculated by dividing the number of the fleet's operating days during a period by the number of available days during that period. The shipping industry uses fleet utilization excluding drydocking off hire days to measure a Company's efficiency in finding suitable employment for its vessels and excluding the amount of days that its vessels are off-hire for reasons such as scheduled repairs, vessel upgrades, or dry dockings or special or intermediate surveys.

(7) TCE rates are defined as our net revenues less voyage expenses during a period divided by the number of our operating days during the period, which is consistent with industry standards. Voyage expenses include port charges, bunker (fuel oil and diesel oil) expenses, canal charges and other commissions.

Daily vessel operating expenses	5,123	5,360	5,457	5,513

(9) Daily management fees are calculated by dividing total management fees by ownership days for the relevant time period.

(10) Total vessel operating expenses or TVOE is a measurement of total expenses associated with operating the vessels. TVOE is the sum of vessel operating expenses and management fees. Daily TVOE is calculated by dividing TVOE by fleet ownership days for the relevant time period.

#### Recent Developments:

##### Acquisition of 51% ownership interest in MCS

On May 28, 2010, after entering into a share purchase agreement with Maritime Capital Shipping (Holdings) Limited ("Maritime Capital"), the Company completed the final documentation for the acquisition of a 51% ownership interest in MCS for a consideration of \$33.0 million. The consideration was paid to Maritime Capital from the proceeds of the Company's recent equity offering completed in February 2010 and from the Company's cash reserves. Maritime

Capital has retained a 49% ownership interest in MCS. As a result of the acquisition, the size of the Company's fleet increased from 11 to 20 dry bulk vessels, consisting of four Capesize, three Panamax, two Supramax, one Handymax and 10 Handysize dry bulk carriers, with a combined cargo-carrying capacity of approximately 1,292,544 dwt and an average fleet age of 12.8 years.

#### Estimated Drydocking and Maintenance Schedule

The BET Scouter's scheduled drydocking, which commenced on March 26, 2010, was completed on May 17, 2010. The total cost of the BET Scouter's drydocking amounted to \$1.5 million. On May 14, 2010, the BET Prince commenced its scheduled drydocking, which was completed on June 28, 2010. The cost of the BET Prince's drydocking amounted to \$1.0 million.

#### Other Matters

On July 22, 2010 the Company announced the results of the annual meeting of its shareholders held on Wednesday, July 21, 2010 at the Company's executive offices. At the meeting the following proposals were approved and adopted: 1) the re- election of Messrs. Elias Culucundis, Dimitrios Panagiotopoulos, Dimitrios Anagnostopoulos and George Taniskidis, as Class A Directors to serve until the 2013 Annual Meeting of Shareholders, 2) the amendment of the Company's Amended and Restated Articles of Incorporation to increase the number of authorized shares of common stock, par value \$0.0001 per share from 200,000,000 to 500,000,000 shares and 3) the appointment of PricewaterhouseCoopers S.A. as the Company's Independent Registered Public Accounting Firm for the Fiscal Year ending December 31, 2010. Mr. George Koutsolioutsos, Chairman and member of the Board of Directors, has resigned from his position as the Chairman and Director. Following the annual meeting of its shareholders, the Board of Directors thanked Mr. Koutsolioutsos for his contribution to Seanergy and appointed Mr. Dale Ploughman, CEO and Director, as the Chairman of the Board. Seanergy's Board now consists of nine members.

On June 2, 2010, the Company executed an addendum no. 3 to the Company's loan agreement with Marfin Bank and extended the waiver on the Company's market value to loan covenant from January 1, 2011 through January 3, 2012. In connection with the addendum and extension of the waiver, Marfin made certain changes to the loan agreement including increasing the interest payable during the waiver period from LIBOR plus 3.00% to LIBOR plus 3.50% in respect of the term loan and from LIBOR plus 3.50% to LIBOR plus 4.00% in respect of the revolving facility and accelerating the due dates of certain of the Company's principal installments.

On May 20, 2010, the voting agreement expired between certain of the Company's shareholders who are affiliated with members of the Restis family and Seanergy Maritime's founding shareholders, (Mr. Georgios Koutsolioutsos, the former Chairman of the Company's Board of Directors, and Mr. Alexios Komninos and Mr. Ioannis Tsigkounakis, two of the Company's former Directors). On May 20, 2010, Mr. Komninos resigned from his position as a member of the Company's Board of Directors following the expiration of the voting agreement and due to other professional engagements he has undertaken.

EBITDA consists of earnings before interest and finance cost, taxes, depreciation and amortization. Adjusted EBITDA consists of earnings per share before interest and finance cost, taxes, depreciation and amortization and gain or losses on interest rate swaps. EBITDA and adjusted EBITDA is not a measurement of financial performance under accounting principles generally accepted in the United States of America, and does not represent cash flow from operations. EBITDA and adjusted EBITDA are presented solely as supplemental disclosures because management believes that they are common measures of operating performance in the shipping industry.

#### About Seanergy Maritime Holdings Corp.

Seanergy Maritime Holdings Corp., the successor to Seanergy Maritime Corp., is a Marshall Islands corporation with its executive offices in Athens, Greece. The Company is engaged in the transportation of dry bulk cargoes through the ownership and operation of dry bulk carriers.

The Company's initial fleet comprised two Panamax, two Supramax, one Handymax and one Handysize dry bulk carriers that Seanergy purchased and took delivery of in the third and fourth quarters of 2008 from companies associated with members of the Restis family. In August 2009, the Company acquired a controlling interest in Bulk Energy Transport (Holdings) Limited, which owns four Capesize and one Panamax dry bulk carriers. In May 2010, the Company acquired a controlling interest in Maritime Capital Shipping Limited, which owns nine Handysize dry bulk carriers.

The Company's current controlled fleet includes 20 drybulk carriers (four Capesize, three Panamax, two Supramax and one Handymax and 10 Handysize vessels) with a total carrying capacity of approximately 1,292,544 dwt and an average fleet age of 12.8 years.

The Company's common stock and warrants trade on the NASDAQ Global Market under the symbols "SHIP" and "SHIP.W", respectively.

#### Forward-Looking Statements

This press release contains forward-looking statements (as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) concerning future events and the Company's growth strategy and measures to implement such strategy. Words such as "expects," "intends," "plans," "believes," "anticipates," "hopes," "estimates," and variations of such words and similar expressions are intended to identify forward-looking statements. Although the Company believes that such expectations will prove to have been correct, these statements involve known and unknown risks and are based upon a number of assumptions and estimates, which are inherently subject to significant uncertainties and contingencies, many of which are beyond the control of the Company. Actual results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, the scope and timing of Securities and Exchange Commission ("SEC") and other regulatory agency review, competitive factors in the market in which the Company operates; risks associated with operations outside the United States; and other factors listed from time to time in the Company's filings with the SEC. The Company's filings can be obtained free of charge on the SEC's website at [www.sec.gov](http://www.sec.gov). The Company expressly disclaims any obligations or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Company's expectations with respect thereto or any change in events, conditions or circumstances on which any statement is based.
