SEL-LEB MARKETING, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

#### Abstract

Note 1 - Organization and basis of presentation: In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of Sel-Leb Marketing, Inc. ("Sel-Leb") and its 80\%-owned subsidiary, Ales Signature, Ltd. ("Ales"), as of March 31 , 2001, their results of operations and cash flows for the three months ended March 31, 2001 and 2000 and their changes in stockholders' equity for the three months ended March 31, 2001. Sel-Leb and Ales are referred to together herein as the "Company." Information included in the condensed consolidated balance sheet as of December 31,2000 has been derived from the audited consolidated balance sheet included in the Company's Form $10-K S B$ for the year ended December 31, 2000 (the "10-KSB") previously filed with the Securities and Exchange Commission (the "SEC"). Pursuant to rules and regulations of the SEC, certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted from these consolidated financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, these unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements, notes to consolidated financial statements and the other information in the $10-K S B$.

The consolidated results of operations for the three months ended March 31, 2001 are not necessarily indicative of the results to be expected for the full year ending December 31, 2001.

Note 2 - Earnings (loss) per share:
As further explained in Note 1 in the $10-K S B$, the Company has adopted the provisions of Statement of Financial Accounting Standards No. 128, "Earnings per Share" ("FAS 128"), which require the presentation of "basic" earnings (loss) per common share and, if appropriate, "diluted" earnings per common share. Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding during each period. The calculation of diluted earnings per share is similar to that of basic earnings per share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if all potentially dilutive common shares, such as those issuable upon the exercise of stock options and warrants, were issued during the period.

# Edgar Filing: SEL-LEB MARKETING INC - Form 10QSB 

Note 2 - Earnings (loss) per share (concluded): In computing diluted earnings per share for the three months ended March 31, 2001, the assumed exercise of all of the Company's outstanding stock options and warrants, adjusted for the application of the treasury stock method, would have increased the weighted average number of common shares outstanding as shown in the table below:

| Basic weighted average shares outstanding | 2,261,018 |
| :---: | :---: |
| Shares arising from assumed exercise of stock options | 67,215 |
| Diluted weighted average shares outstanding | 2,328,233 |

Since the Company had a net loss for the three months ended March 31, 2000, the assumed effects of the exercise of all of the Company's outstanding stock options and warrants and the application of the treasury stock method would have been anti-dilutive. Accordingly, the basic and diluted loss per share and weighted average share amounts are the same for that period.

Note 3 - Note payable under revolving line of credit: As further explained in Note 3 in the $10-K S B$, during December 1998, the Company entered into a loan agreement pursuant to which Merrill Lynch Business Financial Services, Inc. ("Merrill Lynch") is providing the Company with a credit facility (the "Facility"). Based on the latest amendments to the loan agreement, which extend the facility to June 30, 2001, the Facility, as of March 31, 2001 , consists of a revolving line of credit, with maximum borrowings of $\$ 4,350,000$ against the Company's eligible accounts receivable and inventories, and three term loans (see Note 4 in the $10-K S B$ ). Borrowings under the revolving line of credit, which totaled $\$ 4,225,951$ at March 31,2001 , bear interest, which is payable monthly, at $2.65 \%$ above the $30-$ day commercial paper rate (an effective rate of $7.65 \%$ as of March 31, 2001). Outstanding borrowings under the Facility are secured by substantially all of the Company's assets.

Note 4 - Stock options and warrants:
Descriptions of the Company's stock option plans and other information related to stock options and warrants are included in Note 5 in the $10-K S B$. No options or warrants were granted, exercised or cancelled during the three months ended March 31, 2001.

Note 5 - Segment information:
The Company has adopted the provisions of Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information" ("SFAS 131"). Pursuant to the provisions of SFAS 131, the Company is reporting segment sales and gross margins in the same format reviewed by the Company's management (the "management approach"). The Company has two reportable segments:

#### Abstract

"Opportunity" and "Cosmetics". The Opportunity segment is comprised of the operations connected with the acquisition, sale and distribution of name-brand and off-brand products which are purchased from manufacturers, wholesalers or retailers as a result of close-outs, overstocks and/or changes in the packaging of brand name items. The Cosmetics segment is comprised of the acquisition, sale and distribution of all other products, including "celebrity endorsed" and "tie-in" cosmetics and health and beauty aid products and designer and all other fragrances.

The following discussion and analysis of the Company's results of operations, liquidity and financial condition should be read in conjunction with the Condensed Consolidated Financial Statements of the Company and related notes thereto. This Quarterly Report on Form 10-QSB contains certain forward-looking statements, including statements concerning the adequacy of the Company's sources of cash to finance its current and future operations. Actual results could differ materially from those projected in the forward-looking statements due to a number of factors, including but not limited to general trends in the

## Edgar Filing: SEL-LEB MARKETING INC - Form 10QSB

retail industry, the ability of the Company to extend its financing arrangements (or obtain satisfactory alternative financing) on favorable terms, or at all, the ability of the Company to successfully implement its expansion plans, consumer acceptance of any products developed and sold by the company, the ability of the Company to develop its "celebrity" product business, the ability of the Company to sell its specially purchased merchandise at favorable prices, on a timely basis or at all, and other factors set forth herein or in reports and other documents filed by the Company with the SEC. In addition, quarterly results in the Company's two business segments do not necessarily indicate trends in the Company's overall business operations, due to the timing of special purchases, special sales and large sales to any one particular customer.

Consolidated Results of Operations: Three months Ended March 31, 2001 Compared to the Three Months Ended March 31, 2000:

The Company has two principal business segments (see Note 5 to the Company's Condensed Consolidated Financial Statements - Unaudited): Opportunity and Cosmetics.

(A) The "Opportunity" segment of our business is comprised of the acquisition,

## Edgar Filing: SEL-LEB MARKETING INC - Form 10QSB

purchased from either manufacturers, wholesalers, or retailers as a result of close-outs, overstocks and/or change-of-packaging of name-brand items. The net increase in this segment of our business, of approximately $\$ 600,000$, primarily resulted from the introduction during the latter part of 2000 of a line of specially purchased merchandise, which approximated $\$ 900,000$ in the current year.
(B) The "Cosmetic" segment of our business is comprised of the acquisition, sale and distribution of all other products, including "celebrity endorsed" and "tie-in" cosmetics and health and beauty aid products and designer and all other fragrances. This segment increased in certain components of the category as a result of increased sales in the electronic media portion of the business, as well as the successful continued introduction of new products and development of new customers. However, this increase did not offset the reduction in sales versus the same period last year for a fragrance line which was completely sold out during the year 2000 , and in which the first quarter of 2000 had sales of approximately $\$ 1,000,000$.
(C) Cost of sales for the "Opportunity" segment of our business decreased from approximately $85 \%$ in 2000 to $62 \%$ in 2001 . This decrease resulted primarily from significantly higher margins on the sale of a line of specially purchased merchandise.
(D) Cost of sales for the "Cosmetic" segment of our business was approximately $81 \%$ of sales for the three months ended March 31, 2000 as compared to 76\% for the three months ended March 31, 2001. The increase in margins for this segment resulted primarily from the increased sales in the electronic media portion of our business, which generally yields a higher gross profit margin.
(E) Selling general and administrative expenses consist principally of payroll, rent, commissions, insurance, professional fees, and travel and promotional expenses. The increases during the three months ended March 31, 2001 versus the three months ended March 31,2000 are primarily the result of higher costs due to more sales being made through outside sales agencies, with resulting higher selling expenses.
$(F)$ The increase in interest expense during the three month period ended March 31, 2001 versus the three month period ended March 31, 2000 results primarily from additional borrowings under the credit facility to fund the increased levels of inventory, to meet anticipated sales demands.

10

## Liquidity and Capital Resources

At March 31, 2001 we had working capital of approximately $\$ 8,586,000$ including cash and cash equivalents of approximately $\$ 107,000$. Cash and cash equivalents decreased during the three months ended March 31, 2001 from approximately $\$ 214,000$ to $\$ 107,000$, resulting primarily from our financing activities, more fully discussed below.

During the three months ended March 31, 2001 we used approximately $\$ 675,000$ from operations, along with approximately $\$ 607,000$ in net additional financing, primarily to increase inventory by approximately $\$ 427,000$ in order to meet anticipated sales demands and take advantage of an opportunity to make a significant purchase of specially priced merchandise, and, to fund the increase in accounts receivable of approximately $\$ 481,000$.

During the three months ended March 31, 2001 we used approximately $\$ 40,000$ for the acquisition of property and equipment.

# Edgar Filing: SEL-LEB MARKETING INC - Form 10QSB 

As stated above, our cash and cash equivalent position of approximately $\$ 107,000$ at March 31, 2001 result primarily from our various financing activities. In December, 1998 we entered into a credit facility ("Facility") with Merrill Lynch Business Financial Services, Inc. ("Merrill Lynch"), as more fully described in Notes 3 and 4 to the annual report which has been previously filed on Form $10-\mathrm{KSB}$. As amended, the credit facility provides for the following:

1) A revolving line of credit with maximum borrowings of $\$ 4,350,000$ against the Company's eligible accounts receivable and inventories through June 30, 2001. At March 31, 2001 we had $\$ 4,225,951$ outstanding under the revolving line of credit, representing a net increase in our revolving line of credit of $\$ 821,446$ from December 31, 2000.
2) A $\$ 900,000$ term loan originated in December 1998 payable in monthly installments of $\$ 10,714$ plus interest through January 2006. This term loan had an outstanding balance of $\$ 613,268$ as of March 31, 2001.
3) A $\$ 500,000$ term loan originated in October 1999 payable in monthly installments of $\$ 8,333$ plus interest through November 2004. This term loan had an outstanding balance of $\$ 366,667$ as of March 31, 2001.
4) A $\$ 600,000$ term loan originated in December 2000 payable in monthly installments of $\$ 50,000$ plus interest through December 2001. This term loan had an outstanding balance of $\$ 450,000$ as of March 31, 2001.

Each of the aforementioned loans with Merrill Lynch require interest to be paid monthly at 2.65 \% above the 30 -day commercial paper rate (an effective rate of 7.65\% at March 31, 2001).

## 11

In addition to the Merrill Lynch credit facility, on September 26, 1997 the Paterson Restoration Corporation provided us with a $\$ 100,000$ term loan, which bears interest at $6 \%$ and provides for monthly installments in the amount of $\$ 1,461$ through October 1, 2004. On December 28, 1999 the Paterson Restoration Corporation provided us with an additional $\$ 100,000$ term loan, which bears interest at $6 \%$ and provides for monthly installments of $\$ 1,461$ through January 1, 2007. As of March 31, $2001 \$ 56,485$ and $\$ 86,159$ were outstanding under the 1997 loan and the 1999 loan, respectively.

As of June 15, 2001, the outstanding balance under the Revolving Line of Credit was $\$ 4,262,554$ and under the term loans, including the Paterson Restoration Corporation was $\$ 1,394,170$.

Pursuant to the terms of the term loans, we made principal payments of $\$ 211,234$ during the three months ended March 31, 2001.

The Company anticipates that its working capital, together with anticipated cash flow from the Company's operations, will be sufficient to satisfy the Company's cash requirements for at least twelve months assuming that the Company's Facility is extended or adequate alternative financing arrangements are obtained by the Company. In the event the Company's plans change, due to unanticipated expenses or difficulties or otherwise, or if the working capital and projected cash flow otherwise are insufficient to fund operations or if the Company's Facility is not extended on satisfactory terms, the Company could be required to seek financing sooner than currently anticipated. Except for the Facility, which expires on June 30, 2001, and the term loans under the Facility, the Company has no current arrangements with respect to, or sources of, financing. Accordingly, there can be no assurance that financing will be available to the Company when

## Edgar Filing: SEL-LEB MARKETING INC - Form 10QSB

needed, on commercially reasonable terms, or at all. The Company's inability to obtain adequate financing when needed could have a material adverse effect on the Company. In addition, any equity financing obtained by the Company could involve substantial dilution to the interests of the Company's stockholders. The Company believes that it will be able to extend the current Facility, although there can be no assurance of such.
