Cautionary Statement about Forward-Looking Statements

This report contains “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are those that address activities, events or developments that we or our management intends, expects, projects, believes or anticipates will or may occur in the future. They are based on management’s assumptions and assessments in the light of past experience and trends, current economic and industry conditions, expected future developments and other relevant factors. They are not guarantees of future performance, and actual results, developments and business decisions may differ from those envisaged by our forward-looking statements. Our forward-looking statements are also subject to risks and uncertainties, which can affect our performance in both the near- and long-term. These forward-looking statements should be considered in the light of the information included in this report and our other filings with the Securities and Exchange Commission, including, without limitation, the Risk Factors, as well as the description of trends and other factors in Management’s Discussion and Analysis of Financial Condition and Results of Operations, set forth in our Form 10-K for the year ended December 31, 2014.

PART I. FINANCIAL INFORMATION

The financial statements and related footnotes as of March 31, 2015 should be read in conjunction with the financial statements for the year ended December 31, 2014 contained in our 2014 Annual Report on Form 10-K.

Notes to Financial Statements

(Unaudited)

(Dollars in millions, except per share amounts)

Note 1. Basis of Presentation

In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the financial position of Honeywell International Inc. and its consolidated subsidiaries (Honeywell or the Company) at March 31, 2015 and the results of operations and cash flows for the three months ended March 31, 2015 and 2014. The results of operations for the three months ended March 31, 2015 should not necessarily be taken as indicative of the results of operations that may be expected for the entire year.

We report our quarterly financial information using a calendar convention; that is, the first, second and third quarters are consistently reported as ending on March 31, June 30 and September 30. It has been our practice to establish actual quarterly closing dates using a predetermined fiscal calendar, which requires our businesses to close their books on a Saturday in order to minimize the potentially disruptive effects of quarterly closing on our business processes. The effects of this practice are generally not significant to reported results for any quarter and only exist within a reporting year. If differences in actual closing dates are material to year-over-year comparisons of quarterly or year-to-date results, we provide appropriate disclosures. Our actual closing dates for the three months ended March 31, 2015 and 2014 were March 28, 2015 and March 29, 2014.

Certain prior year amounts have been reclassified to conform to current year presentation.

Note 2. Recent Accounting Pronouncements

The Company considers the applicability and impact of all accounting standard updates (ASUs). ASUs not listed below were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

In May 2014, the Financial Accounting Standards Board (FASB) issued guidance on revenue from contracts with customers that will supersede most current revenue recognition guidance, including industry-specific guidance. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at

an amount that the entity expects to be entitled to in exchange for those goods or services. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. Other major provisions include capitalization of certain contract costs, consideration of time value of money in the transaction price, and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. The guidance also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. The guidance is effective for the interim and annual periods beginning on or after December 15, 2016 (early adoption is not permitted). The guidance permits the use of either a retrospective or cumulative effect transition method. We have not yet selected a transition method and are currently evaluating the impact of the amended guidance on our consolidated financial position, results of operations and related disclosures.

Severance	\$37	\$71
Asset impairments	8	9
Exit costs	1	8
Adjustments	(7)	(6)
Total net repositioning charge	39	82
Asbestos related litigation charges, net of insurance	46	48
Probable and reasonably estimable environmental liabilities	46	82
Other	—	2
Total net repositioning and other charges	\$131	\$214

The following table summarizes the pretax distribution of total net repositioning and other charges by income statement classification:

	Three Months Ended March 31, 2015 2014	
Cost of products and services sold	\$122	\$191
Selling, general and administrative expenses	9	23
	\$131	\$214

The following table summarizes the pretax impact of total net repositioning and other charges by segment:

	Three Months Ended March 31, 2015 2014	
Aerospace	\$48	\$76
Automation and Control Solutions	24	46
Performance Materials and Technologies	7	14
Corporate	52	78
	\$131	\$214

In the quarter ended March 31, 2015, we recognized repositioning charges totaling \$46 million including severance costs of \$37 million related to workforce reductions of 3,040 manufacturing and administrative positions across our segments. The workforce reductions were primarily related to cost savings actions taken in connection with our productivity and ongoing functional transformation initiatives and outsourcing of certain component manufacturing in our Automation and Control Solutions (ACS) segment.

In the quarter ended March 31, 2014, we recognized repositioning charges totaling \$88 million including severance costs of \$71 million related to workforce reductions of 1,520 manufacturing and administrative positions across our segments. The workforce reductions were primarily related to cost savings actions taken in

Honeywell International Inc.**Notes to Financial Statements****(Unaudited)****(Dollars in millions, except per share amounts)**

connection with our productivity and ongoing functional transformation initiatives, factory transitions in ACS to more cost-effective locations, site consolidations and organizational realignments of businesses in ACS.

The following table summarizes the status of our total repositioning reserves:

	Severance Costs	Asset Impairments	Exit Costs	Total
December 31, 2014	\$ 285	\$ —	\$ 30	\$ 315
Charges	37	8	1	46
Usage - cash	(24)	—	(3)	(27)
Usage - noncash	—	(8)	—	(8)

Note 8. Financial Instruments and Fair Value Measures

Our credit, market, foreign currency and interest rate risk management policies are described in Note 14, Financial Instruments and Fair Value Measures, of Notes to Financial Statements in our 2014 Annual Report on Form 10-K.

Financial and nonfinancial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The following table sets forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis:

	March 31, 2015	December 31, 2014
Assets:		
Foreign currency exchange contracts	\$ 135	\$ 20
Available for sale investments	1,767	1,479
Interest rate swap agreements	108	93
Liabilities:		
Foreign currency exchange contracts	\$ 29	\$ 10

The foreign currency exchange contracts and interest rate swap agreements are valued using broker quotations or market transactions in either the listed or over-the-counter markets. These derivative instruments are classified within level 2 of the fair value hierarchy. The Company holds investments in certificates of deposits, time deposits and commercial paper that are designated as available for sale and are valued using market transactions in over-the-counter markets. These investments are classified within level 2 of the fair value hierarchy.

Honeywell International Inc.**Notes to Financial Statements****(Unaudited)****(Dollars in millions, except per share amounts)**

The carrying value of cash and cash equivalents, trade accounts and notes receivables, payables, commercial paper and short-term borrowings contained in the Consolidated Balance Sheet approximates fair value. The following table sets forth the Company's financial assets and liabilities that were not carried at fair value:

	March 31, 2015		December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets				
Long-term receivables	\$297	\$292	\$297	\$293
Liabilities				
Long-term debt and related current maturities	\$6,965	\$7,813	\$6,985	\$7,817

The Company determined the fair value of the long-term receivables by discounting based upon the terms of the receivable and counterparty details including credit quality. These receivables are classified within level 2 of the fair value hierarchy. The Company determined the fair value of the long-term debt and related current maturities utilizing transactions in the listed markets for identical or similar liabilities. The long-term debt and related current maturities are also classified within level 2 of the fair value hierarchy.

We enter into transactions designed to provide for netting of offsetting obligations in the event of the insolvency or default of a counterparty. However, we have not elected to offset multiple contracts with a single counterparty, therefore the fair value of the derivative instruments in a loss position is not offset against the fair value of derivative instruments in a gain position.

Interest rate swap agreements are designated as hedge relationships with gains or losses on the derivative recognized in Interest and other financial charges offsetting the gains and losses on the underlying debt being hedged. For the three months ended March 31, 2015 and 2014, we recognized \$15 million and \$13 million of gains in earnings on interest rate swap agreements. Gains and losses are fully offset by losses and gains on the underlying debt being hedged.

We also economically hedge our exposure to changes in foreign exchange rates principally with forward contracts. These contracts are marked-to-market with the resulting gains and losses recognized in earnings offsetting the gains

and losses on the non-functional currency denominated monetary assets and liabilities being hedged. We recognized \$162 million of expense and \$57 million of income in Other (Income) Expense for the three months ended March 31, 2015 and 2014.

Honeywell International Inc.**Notes to Financial Statements****(Unaudited)****(Dollars in millions, except per share amounts)****Note 10. Segment Financial Data**

Honeywell's senior management evaluates segment performance based on segment profit. Segment profit is measured as business unit income (loss) before taxes excluding general corporate unallocated expense, other income (expense), interest and other financial charges, pension and other postretirement income (expense), stock compensation expense, repositioning and other charges and accounting changes.

Onondaga Lake, Syracuse, NY—We are implementing a combined dredging/capping remedy of Onondaga Lake pursuant to a consent decree approved by the United States District Court for the Northern District of New York in January 2007. We have accrued for our estimated cost of remediating Onondaga Lake based on currently available information and analysis performed by our engineering consultants. Honeywell is also conducting remedial investigations and activities at other sites in Syracuse. We have recorded reserves for these investigations and activities where appropriate, consistent with our accounting policy.

Honeywell has entered into a cooperative agreement with potential natural resource trustees to assess alleged natural resource damages relating to this site. It is not possible to predict the outcome or duration of this assessment, or the amounts of, or responsibility for, any damages.

Asbestos Matters

Honeywell is a defendant in asbestos related personal injury actions related to two predecessor companies:

Honeywell International Inc.**Notes to Financial Statements****(Unaudited)****(Dollars in millions, except per share amounts)**

North American Refractories Company (NARCO), which was sold in 1986, produced refractory products (bricks and cement used in high temperature applications). Claimants consist largely of individuals who allege exposure to NARCO asbestos-containing refractory products in an occupational setting.

Bendix Friction Materials (Bendix), which was sold in 2014, manufactured automotive brake parts that contained chrysotile asbestos in an encapsulated form. Claimants consist largely of individuals who allege exposure to asbestos from brakes from either performing or being in the vicinity of individuals who performed brake replacements.

The following tables summarize information concerning NARCO and Bendix asbestos related balances:

NARCO Products –In connection with NARCO’s emergence from bankruptcy on April 30, 2013, a federally authorized 524(g) trust (NARCO Trust) was established for the evaluation and resolution of all existing and future NARCO asbestos claims. Both Honeywell and NARCO are protected by a permanent channeling injunction barring all present and future individual actions in state or federal courts and requiring all asbestos related claims based on exposure to NARCO products to be made against the NARCO Trust. The NARCO Trust reviews submitted claims and determines award amounts in accordance with established Trust Distribution Procedures approved by the Bankruptcy Court which set forth the criteria claimants must meet to qualify for compensation including, among other things, exposure and medical criteria that determine the award amount. In addition, Honeywell provided, and continues to provide, input to the design of control procedures for processing NARCO claims, and has on-going audit rights to review and monitor the claims processors’ adherence to the established requirements of the Trust Distribution Procedures.

Honeywell is obligated to fund NARCO asbestos claims submitted to the NARCO Trust which qualify for payment under the Trust Distribution Procedures (Annual Contribution Claims), subject to annual caps of \$140

Honeywell International Inc.

Notes to Financial Statements

(Unaudited)

(Dollars in millions, except per share amounts)

million in the years 2015 through 2018 and \$145 million for each year thereafter. However, the initial \$100 million of claims processed through the NARCO Trust (the Initial Claims Amount) will not count against the annual cap and any unused portion of the Initial Claims Amount will roll over to subsequent years until fully utilized. As of March 31, 2015, Honeywell has not made any payments to the NARCO Trust for Annual Contribution Claims.

Honeywell is also responsible for payments due to claimants pursuant to settlement agreements reached during the pendency of the NARCO bankruptcy proceedings that provide for the right to submit claims to the NARCO Trust subject to qualification under the terms of the settlement agreements and Trust Distribution Procedures criteria (Pre-established Unliquidated Claims), which amounts are expected to be paid during the initial years of trust operations. Such payments are not subject to the annual cap described above.

Our consolidated financial statements reflect an estimated liability for Pre-established Unliquidated Claims (\$147 million), unsettled claims pending as of the time NARCO filed for bankruptcy protection (\$37 million) and for the estimated value of future NARCO asbestos claims expected to be asserted against the NARCO Trust through 2018 (\$743 million). In the absence of actual trust experience on which to base the estimate, Honeywell projected the probable value of asbestos related future liabilities, including trust claim handling costs, based on a commonly accepted methodology used by numerous bankruptcy courts addressing 524(g) trusts. Some critical assumptions underlying this methodology include claims filing rates, disease criteria and payment values contained in the Trust Distribution Procedures, estimated approval rates of claims submitted to the NARCO Trust and epidemiological studies estimating disease instances. This projection resulted in a range of estimated liability of \$743 million to \$961 million. We believe that no amount within this range is a better estimate than any other amount and accordingly, we have recorded the minimum amount in the range. In light of the uncertainties inherent in making long-term projections and in connection with the recent implementation of the Trust Distribution Procedures by the NARCO Trust, as well as the stay of all NARCO asbestos claims which remained in place throughout NARCO's Chapter 11 case, we do not believe that we have a reasonable basis for estimating NARCO asbestos claims beyond 2018.

Our insurance receivable corresponding to the estimated liability for pending and future NARCO asbestos claims reflects coverage which reimburses Honeywell for portions of NARCO-related indemnity and defense costs and is provided by a large number of insurance policies written by dozens of insurance companies in both the domestic insurance market and the London excess market. We conduct analyses to estimate the probable amount of insurance that is recoverable for asbestos claims. While the substantial majority of our insurance carriers are solvent, some of our individual carriers are insolvent, which has been considered in our analysis of probable recoveries. We made judgments concerning insurance coverage that we believe are reasonable and consistent with our historical dealings and our knowledge of any pertinent solvency issues surrounding insurers.

Projecting future events is subject to many uncertainties that could cause the NARCO-related asbestos liabilities or assets to be higher or lower than those projected and recorded. Given the uncertainties, we review our estimates periodically, and update them based on our experience and other relevant factors. Similarly, we will reevaluate our projections concerning our probable insurance recoveries in light of any changes to the projected liability or other developments that may impact insurance recoveries.

Friction Products—The following tables present information regarding Bendix related asbestos claims activity:

Honeywell International Inc.**Notes to Financial Statements****(Unaudited)****(Dollars in millions, except per share amounts)**

Claims Activity	Three Months Ended	Years Ended	
	March 31,	December 31,	
	2015	2014	2013
Claims Unresolved at the beginning of period	9,267	12,302	23,141
Claims Filed	707	3,694	4,527
Claims Resolved ^(a)	(781) (6,729) (15,366)
Claims Unresolved at the end of period	9,193	9,267	12,302

(a) Claims resolved in 2014 include 2,110 cancer claims which were determined to have no value. Also, claims resolved in 2014 and 2013 included significantly aged (i.e., pending for more than six years) claims totaling 1,266 and 12,250, respectively, of which 82% and 92%, respectively, were non-malignant.

Disease Distribution of Unresolved Claims	March 31,	December 31,	
	2015	2014	2013
Mesothelioma and Other Cancer Claims	3,773	3,933	5,810
Nonmalignant Claims	5,420	5,334	6,492
Total Claims	9,193	9,267	12,302

Honeywell has experienced average resolution values per claim excluding legal costs as follows:

	Years Ended December 31,				
	2014	2013	2012	2011	2010
	(in whole dollars)				
Malignant claims	\$53,500	\$51,000	\$49,000	\$48,000	\$54,000
Nonmalignant claims	\$120	\$850	\$1,400	\$1,000	\$1,300

It is not possible to predict whether resolution values for Bendix-related asbestos claims will increase, decrease or stabilize in the future.

Our consolidated financial statements reflect an estimated liability for resolution of pending (claims actually filed as of the financial statement date) and future Bendix-related asbestos claims. We have valued Bendix pending and future claims using average resolution values for the previous five years. We update the resolution values used to estimate the cost of Bendix pending and future claims during the fourth quarter each year.

The liability for future claims represents the estimated value of future asbestos related bodily injury claims expected to be asserted against Bendix over the next five years. Such estimated cost of future Bendix-related asbestos claims is based on historic claims filing experience and dismissal rates, disease classifications, and resolution values in the tort system for the previous five years. In light of the uncertainties inherent in making long-term projections, as well as certain factors unique to friction product asbestos claims, we do not believe that we have a reasonable basis for estimating asbestos claims beyond the next five years. The methodology used to estimate the liability for future claims is similar to that used to estimate the liability for future NARCO-related asbestos claims.

Our insurance receivable corresponding to the liability for settlement of pending and future Bendix asbestos claims reflects coverage which is provided by a large number of insurance policies written by dozens of insurance companies in both the domestic insurance market and the London excess market. Based on our ongoing analysis of the probable insurance recovery, insurance receivables are recorded in the financial statements simultaneous with the recording of the estimated liability for the underlying asbestos claims. This determination is based on our analysis of the underlying insurance policies, our historical experience with our insurers, our ongoing review of the solvency of our insurers, judicial determinations relevant to our insurance programs, and our consideration of the impacts of any settlements reached with our insurers.

Honeywell International Inc.

Notes to Financial Statements

(Unaudited)

(Dollars in millions, except per share amounts)

Honeywell believes it has sufficient insurance coverage and reserves to cover all pending Bendix-related asbestos claims and Bendix-related asbestos claims estimated to be filed within the next five years. Although it is impossible to predict the outcome of either pending or future Bendix-related asbestos claims, we do not believe that such claims would have a material adverse effect on our consolidated financial position in light of our insurance coverage and our prior experience in resolving such claims. If the rate and types of claims filed, the average resolution value of such claims and the period of time over which claim settlements are paid (collectively, the Variable Claims Factors) do not substantially change, Honeywell would not expect future Bendix-related asbestos claims to have a material adverse effect on our results of operations or operating cash flows in any fiscal year. No assurances can be given, however, that the Variable Claims Factors will not change.

Other Matters

Honeywell v. United Auto Workers (UAW) et. al—In July 2011, Honeywell filed an action in federal court (District of New Jersey) against the UAW and all former employees who retired under a series of Master Collective Bargaining Agreements (MCBAs) between Honeywell and the UAW seeking a declaratory judgment that certain express limitations on its obligation to contribute toward the healthcare coverage of such retirees (the CAPS) set forth in the MCBAs may be implemented, effective January 1, 2012. The UAW and certain retiree defendants filed a mirror suit in the Eastern District of Michigan alleging that the MCBAs do not provide for CAPS on the Company's liability for healthcare coverage. The New Jersey action was dismissed and Honeywell subsequently answered the UAW's complaint in Michigan and asserted counterclaims for fraudulent inducement, negligent misrepresentation and breach of implied warranty. The UAW filed a motion to dismiss these counterclaims. The court dismissed Honeywell's fraudulent inducement and negligent misrepresentation claims, but let stand the claim for breach of implied warranty. In the second quarter of 2014, the parties agreed to stay the proceedings with respect to those retirees who retired before the initial inclusions of the CAPS in the 2003 MCBA until the Supreme Court decided the *M&G Polymers USA, LLC v. Tackett* case. In a ruling on January 26, 2015, the Supreme Court held that retiree health insurance benefits provided in collective bargaining agreements do not carry an inference that they are vested or guaranteed to continue for life and that the "vesting" issue must be decided pursuant to ordinary principles of contract law. Based on this ruling, Honeywell is confident that the CAPS will be upheld and that its liability for healthcare coverage premiums with respect to the putative class will be limited as negotiated and expressly set forth in the applicable MCBAs. In the event of an adverse ruling, however, Honeywell's other postretirement benefits for pre-2003 retirees would increase by approximately \$180 million, reflecting the estimated value of these CAPS.

In December 2013, the UAW and certain of the plaintiffs filed a motion for partial summary judgment with respect to those retirees who retired after the initial inclusion of the CAPS in the 2003 MCBA. The UAW sought a ruling that the 2003 MCBA did not limit Honeywell's obligation to contribute to healthcare coverage for the post-2003 retirees.

That motion remains pending. Honeywell is confident that the Court will find that the 2003 MCBA does, in fact, limit Honeywell's retiree healthcare obligation for post-2003 retirees. In the event of an adverse ruling, however, Honeywell's other postretirement benefits for post-2003 retirees would increase by approximately \$120 million, reflecting the estimated value of these CAPS.

Joint Strike Fighter Investigation - In 2013 the Company received subpoenas from the Department of Justice requesting information relating primarily to parts manufactured in the United Kingdom and China used in the F-35 fighter jet. The Company is cooperating fully with the investigation. While we believe that Honeywell has complied with all relevant U.S. laws and regulations regarding the manufacture of these sensors, it is not possible to predict the outcome of the investigation or what action, if any, may result from it.

Given the uncertainty inherent in litigation and investigations (including the specific matters referenced above), we do not believe it is possible to develop estimates of reasonably possible loss in excess of current accruals for these matters (other than as specifically set forth above). Considering our past experience and existing accruals, we do not expect the outcome of these matters, either individually or in the aggregate, to have a material adverse effect on our consolidated financial position. Because most contingencies are resolved over long periods of time, potential liabilities are subject to change due to new developments, changes in settlement strategy or the impact of evidentiary requirements, which could cause us to pay damage awards or settlements (or become subject to equitable remedies) that could have a material adverse effect on our results of operations or operating cash flows in the periods recognized or paid.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF**ITEM 2. FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)****(Dollars in millions, except per share amounts)**

The following MD&A is intended to help the reader understand the results of operations and financial condition of Honeywell International Inc. and its consolidated subsidiaries (Honeywell or the Company) for the three months ended March 31, 2015. The financial information as of March 31, 2015 should be read in conjunction with the financial statements for the year ended December 31, 2014 contained in our 2014 Annual Report on Form 10-K.

A. Results of Operations – three months ended March 31, 2015 compared with the three months ended March 31, 2014**Net Sales**

	Three Months Ended March 31,	
	2015	2014
Net sales	\$9,213	\$9,679
% change compared with prior period	(5)%

The change in net sales compared to the prior year period is attributable to the following:

	Three Months	
Volume	2	%
Price	(1)%
Foreign Exchange	(4)%
Acquisitions/Divestitures	(2)%
	(5)%

A discussion of net sales by segment can be found in the Review of Business Segments section of this MD&A.

Cost of Products and Services Sold

**Three Months
Ended**

	March 31,	
	2015	2014
Cost of products and services sold	\$6,362	\$6,967
% change compared with prior period	(9)%	
Gross margin percentage	30.9 %	28.0 %

Cost of products and services sold decreased principally due to a decrease in direct and indirect material costs of approximately \$360 million (driven primarily by the favorable impact of foreign exchange and productivity), a decrease in labor costs of approximately \$125 million and lower repositioning and other charges of approximately \$70 million.

Gross margin percentage increased primarily due to higher segment gross margin in all business segments (approximately 2.0 percentage point impact collectively) and lower repositioning and other charges (approximately 0.7 percentage point impact).

Selling, General and Administrative Expenses

	Three Months	
	Ended	
	March 31,	
	2015	2014
Selling, general and administrative expenses	\$1,230	\$1,339
Percent of sales	13.4 %	13.8 %

Selling, general and administrative expenses decreased as a percentage of sales primarily driven by the favorable impact from foreign exchange, a decrease in labor costs (driven primarily by productivity, partially offset by merit increases and investments for growth), decreased indirect costs and lower repositioning and other charges.

Tax Expense

	Three Months Ended March 31, 2015 2014	
Tax expense	\$418	\$375
Effective tax rate	26.7%	26.6%

The effective tax rates for the three months ended in 2015 and 2014 were lower than the U.S. federal statutory rate of 35% due, in part, to non-U.S. earnings taxed at lower rates and benefits from manufacturing incentives.

Net Income Attributable to Honeywell

	Three Months Ended March 31, 2015 2014	
Net income attributable to Honeywell	\$1,116	\$1,017
Earnings per share of common stock – assuming dilution	\$1.41	\$1.28

Earnings per share of common stock – assuming dilution increased primarily due to increased segment profit in each business segment and lower repositioning and other charges, partially offset by lower other income (principally due to the absence of a realized gain related to the prior year sale of marketable equity securities) and increased tax expense.

Total % Change	(6)%	7	%

Aerospace sales decreased primarily due to the Friction Materials divestiture and unfavorable impact from foreign exchange, partially offset by an increase in organic sales.

Edgar Filing: HONEYWELL INTERNATIONAL INC - Form 10-Q

Commercial Original Equipment sales were flat (increased 1% organic) driven primarily by higher air transport volumes, consistent with the OE Manufacturers' (OEM) higher production rates and higher business and general aviation engine shipments, offset by timing delays on certain business jet aircraft platforms.

Commercial Aftermarket sales were flat (increased 1% organic) driven primarily by higher repair and overhaul activities, offset by lower sales of spare parts.

Defense and Space sales decreased by 2% (decreased 1% organic) primarily due to lower U.S. government deliveries, partially offset by growth in international programs.

Transportation Systems sales decreased by 23% (increased 5% organic) primarily due to the Friction Materials divestiture and unfavorable impact from foreign exchange, partially offset by continued growth from new platform launches and higher global gas turbo penetration.

Aerospace segment profit increased primarily due to an increase in operational segment profit, partially offset by the unfavorable impact from foreign exchange. The increase in operational segment profit is driven primarily by productivity, net of inflation, and favorable pricing. Cost of products and services sold totaled \$2.6 billion, a decrease of \$284 million, primarily due to the factors discussed above (excluding price).

Total % Change	(3)%		10%	

Automation and Control Solutions (ACS) sales decreased primarily due to the unfavorable impact of foreign exchange partially offset by organic sales growth.

Sales in Energy, Safety & Security decreased by 3% (increased 3% organic) principally due to the unfavorable impact of foreign exchange. Organic sales growth was primarily due to increases in sales volumes, most significantly in Scanning and Mobility driven by recent contract wins.

Sales in Building Solutions & Distribution decreased by 3% (increased 3% organic) principally due to the unfavorable impact of foreign exchange partially offset by increased sales volumes in Americas Distribution.

23

ACS segment profit increased due to an increase in operational segment profit partially offset by the unfavorable impact of foreign exchange. The increase in operational segment profit is primarily due to the positive impact of productivity, net of inflation and higher organic sales volumes partially offset by continued investments for growth. Cost of products and services sold decreased by \$99 million primarily due to the favorable impact of foreign exchange and productivity partially offset by higher organic sales volume and inflation.

	Sales	Segment Profit	
Organic growth/ Operational segment profit	(1)%	10	%
Foreign exchange	(4)%	(4))%
Total % Change	(5)%	6	%

Performance Materials and Technologies sales decreased due to the unfavorable impact of foreign exchange and decreased organic sales growth.

UOP sales increased 8% (increased 9% organic) driven primarily by higher gas processing and equipment revenues partially offset by lower engineering revenues due to order delays.

Sales in Process Solutions decreased 11% (decreased 3% organic) principally due to the unfavorable impact of foreign exchange and lower volumes due to order delays partially offset by volume growth in advanced solutions software and services.

Advanced Materials sales decreased 12% (decreased 9% organic) primarily driven by unfavorable pricing and unplanned plant outages in Resins and Chemicals partially offset by increased volume in Fluorine Products and Specialty Products. We anticipate unfavorable pricing to continue in 2015 primarily in Resins and Chemicals where sales fluctuate with the market price of certain raw materials, which are correlated to the price of oil.

PMT segment profit increased due to an increase in operational segment profit partially offset by the unfavorable impact of foreign exchange. The increase in operational segment profit is primarily due to price and productivity net of inflation and higher UOP sales volume partially offset by continued investments for growth. Cost of products and services sold decreased \$124 million primarily due to the favorable impacts of inflation and foreign exchange partially offset by higher UOP sales volume and continued investments for growth.

Repositioning Charges

Our repositioning actions are expected to generate incremental pretax savings of \$100 million to \$125 million in 2015 compared with 2014 principally from planned workforce reductions. Cash spending related to our repositioning actions was \$27 million in the three months ended March 31, 2015 and was funded through operating cash flows. In 2015, we expect cash spending for repositioning actions to be approximately \$150 million and to be funded through operating cash flows.

B. Liquidity and Capital Resources**Cash Flow Summary**

Our cash flows from operating, investing and financing activities, as reflected in the Consolidated Statement of Cash Flows are summarized as follows:

	Three Months Ended March 31, 2015 2014	
Cash provided by (used for):		
Operating activities	\$421	\$688
Investing activities	(920)	(345)
Financing activities	367	(48)
Effect of exchange rate changes on cash	(252)	(45)
Net (decrease) increase in cash and cash equivalents	\$(384)	\$250

Cash provided by operating activities decreased by \$267 million primarily due to (i) a \$151 million Aerospace OEM incentive payment (ii) increased cash tax payments of \$93 million (iii) a \$78 million decrease in customer advances, and (iv) a \$58 million unfavorable impact from working capital, partially offset by increased net income of \$110 million.

Cash used for investing activities increased by \$575 million primarily due to an increase of approximately \$239 million in settlement payments of foreign currency exchange contracts used as economic hedges on certain non-functional currency denominated monetary assets and liabilities, an increase in cash paid for acquisitions of \$185 million and a net \$174 million increase in investments (primarily short-term marketable securities).

Cash provided by financing activities increased by \$415 million primarily due to an increase in the net proceeds from debt issuances of \$507 million partially offset by an increase in net repurchases of common stock of \$57 million and an increase in cash dividends paid of \$52 million.

Liquidity

The Company continues to manage its businesses to maximize operating cash flows as the primary source of liquidity. In addition to our available cash and operating cash flows, additional sources of liquidity include committed credit

lines, short-term debt from the commercial paper market, long-term borrowings, as well as access to the public debt and equity markets. We continue to balance our cash and financing uses through investment in our existing core businesses, debt reduction, acquisition activity, share repurchases and dividends.

We continuously assess the relative strength of each business in our portfolio as to strategic fit, market position, profit and cash flow contribution in order to upgrade our combined portfolio and identify business units that will most benefit from increased investment. We identify acquisition candidates that will further our strategic plan and strengthen our existing core businesses. We also identify business units that do not fit into our long-term strategic plan based on their market position, relative profitability or growth potential. These businesses are considered for potential divestiture, restructuring or other repositioning actions subject to regulatory constraints.

In 2015, we are not required to make contributions to our U.S. pension plans. We plan to make contributions of cash and/or marketable securities of approximately \$140 million (\$109 million of marketable securities were contributed in January 2015) to our non-U.S. plans to satisfy regulatory funding standards. The timing and amount of contributions to both our U.S. and non-U.S. plans may be impacted by a number of factors, including the funded status of the plans.

During the first quarter of 2015, the Company repurchased \$363 million of outstanding shares. Under the Company's previously reported \$5 billion share repurchase program, \$3.7 billion remained available as of March 31, 2015 for additional share repurchases. Honeywell presently expects to repurchase outstanding shares from time to time to offset the dilutive impact of employee stock based compensation plans, including future option exercises, restricted unit vesting and matching contributions under our savings plans. In addition, the Company may repurchase additional shares if and when its net cash (cash and cash equivalents plus short-term available

for sale investments less commercial paper, current maturities of long-term debt and long-term debt) exceeds \$1 to \$2 billion. The amount and timing of future repurchases may vary depending on market conditions and the level of operating, financing and other investing activities.

	March 31, 2015	December 31, 2014
Cash and cash equivalents	\$6,575	\$ 6,959
Short-term available for sale investments	1,750	1,463
Cash	8,325	8,422
Commercial paper	2,695	1,647
Current maturities of long-term debt	1,304	939
Long-term debt	5,661	6,046
Debt	9,660	8,632
Net cash	\$(1,335)	\$ (210)

C. Other Matters

Litigation

We are subject to a number of lawsuits, investigations and claims (some of which involve substantial amounts) arising out of the conduct of our business. See Note 12, Commitments and Contingencies, of Notes to Financial Statements for further discussion of environmental, asbestos and other litigation matters.

Critical Accounting Policies

The financial information as of March 31, 2015 should be read in conjunction with the financial statements for the year ended December 31, 2014 contained in our 2014 Annual Report on Form 10-K.

For a discussion of the Company's critical accounting policies, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2014 Annual Report on Form 10-K.

Recent Accounting Pronouncements

See Note 2, Recent Accounting Pronouncements, of Notes to Financial Statements for a discussion of recent accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures about Market Risks

See our 2014 Annual Report on Form 10-K (Item 7A). As of March 31, 2015, there has been no material change in this information.

Item 4. Controls and Procedures

Honeywell management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that such disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure information required to be disclosed in the reports that Honeywell files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that it is accumulated and communicated to our management, including our CEO, our CFO, and our Controller, as appropriate, to allow timely decisions regarding required disclosure. There have been no changes that have materially affected, or are reasonably likely to materially affect, Honeywell's internal control over financial reporting that have occurred during the period covered by this Quarterly Report on Form 10-Q.

Part II. Other Information**Item 1. Legal Proceedings****General Legal Matters**

We are subject to a number of lawsuits, investigations and claims (some of which involve substantial amounts) arising out of the conduct of our business. See a discussion of environmental, asbestos and other litigation matters in Note 12, Commitments and Contingencies, of Notes to Financial Statements.

Environmental Matters Involving Potential Monetary Sanctions in Excess of \$100,000

The Virginia Department of Environmental Quality (“DEQ”) has alleged that Honeywell’s facility in Hopewell, Virginia failed to comply with certain conditions of its wastewater discharge permit at various times between August 2013 and March 2015. Honeywell has met with the DEQ about this matter and negotiations to resolve it are ongoing. We do not believe that it will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Item 2. Changes in Securities and Use of Proceeds

Honeywell purchased 3,500,000 shares of its common stock, par value \$1 per share, in the quarter ending March 31, 2015. The following table summarizes Honeywell’s purchase of its common stock for the quarter ended March 31, 2015:
