**China Precision Steel, Inc.**  
**Notes to the Consolidated Financial Statements**  
**(Unaudited)**

**1. Description of Business**

China Precision Steel, Inc. (the “Company,” “CPSL” or “we”) is a steel processing company principally engaged in the manufacture and sale of cold-rolled precision steel products for downstream applications including automobile components and spare parts, kitchen tools, electrical appliances, roofing and food packaging materials. Raw materials, hot-rolled steel coils, will go through certain reduction, heating and cutting processing procedures to give steel coils or plates different thickness and specifications for deliveries in accordance with customers’ requirements. Specialty precision steel offers specific control of thickness, shape, width, surface finish and other special quality features that compliment the need for highly engineered end use applications. Precision steel pertains to the precision of measurements and tolerances of the above factors, especially thickness tolerance.

We have five wholly-owned subsidiaries, Partner Success Holdings Limited (“PSHL”), Blessford International Limited (“Blessford International”), Shanghai Chengtong Precision Strip Company Limited (“Chengtong”), Shanghai Blessford Alloy Company Limited (“Shanghai Blessford”) and Shanghai Tuorong Precision Strip Company Limited (“Tuorong”). The Company’s principal activities are conducted through our two operating subsidiaries, Chengtong and Shanghai Blessford, with manufacturing facilities located in Shanghai, the People’s Republic of China (the “PRC”). The sole activity of Tuorong is the ownership of land use rights with respect to facilities utilized by Chengtong and Shanghai Blessford. PSHL and Blessford International are both British Virgin Islands companies with the sole purpose of investment holding.

**2. Basis of Preparation of Financial Statements**

The financial statements have been prepared in order to present the consolidated financial position and consolidated results of operations in accordance with generally accepted accounting principles in the United States of America (“US GAAP”) and are expressed in terms of US dollars (see Note 3 “Functional Currency and Translating Financial Statements” below).

In June and July 2012, the Company defaulted on the repayment obligations of its short-term and long-term bank loans presently totaling \$44,615,772. The Company is currently in discussions with its banks regarding the restructuring of these loans for repayment but has not yet agreed on specific terms. There can be no assurance that the Company will be able to successfully work out a repayment plan or otherwise fulfill its obligations under the loans. The uncertainty surrounding the successful restructuring of our bank loans and our current lack of readily available

liquidity provided by other third party sources raise substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

The accompanying unaudited consolidated financial statements as of December 31, 2013 and for the periods ended December 31, 2013 and 2012 have been prepared in accordance with US GAAP and with the instructions to Form 10-Q and Regulation S-X applicable to smaller reporting companies. In the opinion of management, these unaudited consolidated financial statements include all adjustments considered necessary to make the financial statements not misleading. The results of operations for the three and six months ended December 31, 2013 are not necessarily indicative of the results to be expected for the full year ending June 30, 2014.

### **3. Summary of Significant Accounting Policies**

The following is a summary of significant accounting policies:

**Cash and Cash Equivalents** – The Company considers all highly liquid debt instruments purchased with a maturity period of three months or less to be cash equivalents. The carrying amounts reported in the accompanying consolidated balance sheets for cash and cash equivalents approximate their fair value.

**Accounts Receivable** – Credit periods vary substantially across industries, segments, types and size of companies in the PRC where we operate our business. Because of the niche products that we process, our customers are usually also niche players in their own respective segment, who then sell their products to end product manufacturers. The business cycle is relatively long, as well as the credit periods. The Company offers credit to its customers for periods of 60 days, 90 days, 120 days and 180 days. We generally offer longer credit terms to long-standing recurring customers with good payment histories and sizable operations. Accounts receivable are recorded at the time revenue is recognized and are stated net of allowance for doubtful accounts.

**Allowance for Doubtful Accounts** – The Company maintains an allowance for doubtful accounts based on its assessment of the collectability of the accounts receivable. Management determines the collectability of outstanding accounts by maintaining regular communication with such customers and obtaining confirmation of their intent to fulfill their obligations to the Company. Management also considers past collection experience, our relationship with customers and the impact of current economic conditions on our industry and market. We note that the continuation or intensification of the credit tightening in China and the slowdown of the Chinese economy had and will continue to have negative consequences on the business operations of our customers and adversely impact their ability to meet their financial obligations. To reserve for potentially uncollectible accounts receivable, management has made a 50% provision for all accounts receivable that are over 180 days past due and full provision for all accounts receivable over 1 year past due. We also regularly review these credit periods, along with our collection experience and the other factors discussed above, to evaluate the adequacy of our allowance for doubtful accounts, and to make changes to the allowance, if necessary. If our actual collection experience or other conditions change, revisions to our allowances may be required, including a further provision which could adversely affect our operating income, or write back of provision when estimated uncollectible accounts are actually collected. At December 31, 2013 and June 30, 2013, the Company had \$42,495,764 and \$30,642,373 of allowances for doubtful accounts, respectively.

Bad debts are written off for past due balances over two years or when it becomes known to management that such amount is uncollectible. There was a provision for accounts receivable bad debts of \$6,262,274 (2012: \$8,786,214) and \$11,327,712 (2012: \$10,159,214) recognized for the three and six months ended December 31, 2013 and 2012, respectively.

**Inventories** – Inventories are stated at the lower of cost or market. Cost is determined using the weighted average method.

Cost of inventories comprises all costs of purchases, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Costs of conversion of inventories include fixed and variable production overheads, taking into account the stage of completion.

As of December 31, 2013 and June 30, 2013, the Company had \$950,643 and \$937,695 of inventory provision, respectively.

**Intangible Assets and Amortization** – Intangible assets represent land use rights in China acquired by the Company and are stated at cost less amortization and impairment, if any. Amortization of land-use rights is calculated on the straight-line method, based on the period over which the right is granted by the relevant authorities in China.

**Advances to Suppliers** – In order to ensure a steady supply of raw materials, the Company is required to regularly make cash advances to its suppliers when placing purchase orders, for a guaranteed minimum delivery quantity at future times when raw materials are required. The advance is seen as a deposit to suppliers and guarantees our access to raw materials during periods of shortages and market volatility, and is therefore considered an important component of our operations. Contracted raw materials are priced at prevailing market rates when the advance purchase contracts are entered into. Advances to suppliers are shown net of an allowance which represents potentially unrecoverable cash advances at each balance sheet date. Such allowances are based on an analysis of past raw materials receipt experience and the credibility of each supplier according to its size and background. Our allowances for advances to suppliers are subjective critical estimates that have a direct impact on reported net earnings, and are reviewed quarterly at a minimum to reflect changes from our historic raw materials receipt experience and to ensure the appropriateness of the allowance in light of the circumstances present at the time of the review. It is reasonably possible that the Company's estimate of the allowance will change, such as in the case when the Company becomes aware of a supplier's inability to deliver the contracted raw materials or meet its financial obligations. As of December 31, 2013 and June 30, 2013, the Company had made allowances of advances to suppliers of \$20,305,486 and \$19,689,609, respectively.

Allowances for advances to suppliers are written off when all efforts to collect the materials or recover the cash advances have been unsuccessful, or when it has become known to the management that there is no intention by the suppliers to deliver the contracted raw materials or refund the cash advances. There was a provision for advances to suppliers bad debts of \$284,558 (2012: \$nil) and \$340,897 (2012: \$nil) recognized for the three and six months ended December 31, 2013 and 2012, respectively.

**Property, Plant and Equipment** – Property, plant and equipment are stated at cost less accumulated depreciation. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its present working condition and location for its intended use.

Depreciation is computed on a straight-line basis over the estimated useful lives of the related assets for financial reporting purposes. The estimated useful lives for significant property and equipment are as follows:

Buildings	10 years
Plant and machinery	10 years
Motor vehicles	5 years
Office equipment	5 years

Repairs and maintenance costs are normally charged to the statement of operations in the year in which they are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the asset, the expenditure is capitalized as an additional cost of the asset.

**Impairment of Long-Lived Assets** – The Company accounts for impairment of property, plant and equipment and amortizable intangible assets in accordance with ASC Topic No. 360 “Property, Plant and Equipment” (“ASC 360”), which requires the Company to evaluate a long-lived asset for recoverability when there is an event or circumstance that indicates the carrying value of the asset may not be recoverable. An impairment loss is recognized when the carrying amount of a long-lived asset or asset group is not recoverable (when carrying amount exceeds the gross, undiscounted cash flows from use and disposition) and is measured as the excess of the carrying amount over the asset’s (or asset group’s) fair value. We primarily use the income valuation approach to determine the fair value of our long-lived assets, with fair value being the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date.

**Capitalized Interest** – The Company capitalizes interest cost on borrowings incurred during the new construction or upgrade of qualified assets. Capitalized interest is added to the cost of the underlying assets and is amortized over the useful lives of the assets. During the three and six months ended December 31, 2013 and 2012, the Company

capitalized \$nil interest to construction-in-progress.

**Construction-in-Progress** – Plant and production lines currently under development are accounted for as construction-in-progress. Construction-in-progress is recorded at acquisition cost, including land rights cost, development expenditure, professional fees and the interest expenses capitalized during the course of construction for the purpose of financing the project. Upon completion and readiness for use of the project, the cost of construction-in-progress is to be transferred to property, plant and equipment.

**Contingent Liabilities and Contingent Assets** – A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. It can also be a present obligation arising from past events that is not recognized because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognized but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable, the contingency is then recognized as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the Company.

Contingent assets are not recognized but are disclosed in the notes to the financial statements when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognized.

**Advances from Customers** – Advances from customers represent advance cash receipts from customers and for which goods have not been delivered or services have not been rendered at each balance sheet date. Advances from customers for goods to be delivered or services to be rendered in the subsequent period are carried forward as deferred revenue.

**Revenue Recognition** – Revenue from the sale of goods and services is recognized on the transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and the title has passed and services have been rendered. Revenue is reported net of all VAT taxes. Other income is recognized when it is earned.

**Functional Currency and Translating Financial Statements** – The Company’s principal country of operations is the PRC. Our functional currency is Chinese Renminbi; however, the accompanying consolidated financial statements have been expressed in United States Dollars (“USD”). The consolidated balance sheets have been translated into USD at the exchange rates prevailing at each balance sheet date. The consolidated statements of operations and cash flows have been translated using the weighted-average exchange rates prevailing during the periods of each statement. The registered equity capital denominated in the functional currency is translated at the historical rate of exchange at the time of capital contribution. All translation adjustments resulting from the translation of the financial statements into the reporting currency are dealt with as other comprehensive income in stockholders’ equity.

**Accumulated Other Comprehensive Income** – Accumulated other comprehensive income represents the change in equity of the Company during the periods presented from foreign currency translation adjustments.

**Taxation** – Taxation on overseas profits has been calculated on the estimated assessable profits for the year at the rates of taxation prevailing in the country in which the Company operates.

#### United States

China Precision Steel, Inc. is subject to United States federal income tax at a tax rate of 34%. No provision for income taxes in the United States has been made as China Precision Steel, Inc. had no taxable income in three and six months ended December 31, 2013 and 2012.

At December 31 and June 30, 2013, the Company had no unrecognized income tax positions recorded. The Company does not expect its unrecognized tax positions to change significantly in the next twelve months. If unrecognized tax

positions existed, the interest and penalties related to the unrecognized tax positions would be recorded as income tax expense in the consolidated statements of operation and comprehensive income.

The Company is subject to United States federal income taxes, as well as income taxes in various states and foreign jurisdictions. The Company's tax years 2009 through 2012 remain open to examination for U.S. federal income taxes. With few exceptions, the Company is no longer subject to state or non-U.S. income tax examinations prior to 2009.

#### BVI

PSHL and Blessford International were incorporated in the British Virgin Islands and, under the current laws of the British Virgin Islands, are not subject to income taxes.

F-8

PRC

Provision for the PRC enterprise income tax is calculated at the prevailing rate based on the estimated assessable profits less available tax relief for losses brought forward. The Company does not accrue taxes on unremitted earnings from foreign operations as it is the Company's intention to invest these earnings in the foreign operations indefinitely.

*Enterprise income tax*

On March 16, 2007, the National People's Congress of China passed The Enterprise Income Tax Law (the "New EIT Law"), and on December 6, 2007, the State Council of China passed the Implementing Rules for the EIT Law ("Implementing Rules") which took effect on January 1, 2008. The New EIT Law and Implementing Rules impose a unified enterprise income tax ("EIT") of 25% on all domestic-invested enterprises and foreign invested entities ("FIEs"), unless they qualify under certain limited exceptions. Therefore, nearly all FIEs are subject to the new tax rate alongside other domestic businesses rather than benefiting from the old FIE tax laws, and its associated preferential tax treatments, beginning January 1, 2008.

Despite these changes, the EIT Law gives the FIEs established before March 16, 2007 ("Old FIEs") a five-year grandfather period during which they can continue to enjoy their existing preferential tax treatments, commonly referred to as "tax holidays", until these holidays expire. As an Old FIE, Chengtong's tax holiday of a 50% reduction in the 25% statutory rates expired on December 31, 2008. Shanghai Blessford's full tax exemption from the enterprise income tax expired on December 31, 2009, and its 50% income tax reduction for the three subsequent years expired on December 31, 2012. Both Chengtong and Shanghai Blessford are currently subject to the 25% statutory rates. The discontinuation of any such special or preferential tax treatment or other incentives would have an adverse effect on any organization's business, fiscal condition and current operations in China.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets, including tax loss and credit carry forwards, and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred income tax expense represents the change during the period in the deferred tax assets and deferred tax liabilities. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company follows the provisions of the ASC Topic No. 740 “Accounting for Income Taxes” and “Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109” (“ASC 740”). ASC 740 requires the recognition of tax benefits or expenses based on the estimated future tax effects of temporary differences between the financial statements and tax bases of its assets and liabilities. Deferred tax assets and liabilities primarily relate to tax basis differences on unrealized gains on corporate equities, stock-based compensation, amortization periods of certain intangible assets and differences between the financial statements and tax bases of assets acquired.

The Company recognizes that virtually all tax positions in the PRC are not free of some degree of uncertainty due to tax law and policy changes in the PRC. However, the Company cannot reasonably quantify political risk factors and thus must depend on guidance issued by current officials in the PRC.

Based on all known facts and circumstances and current tax law, the Company believes that the total amount of unrecognized tax benefits as of December 31, 2013 is not material to its results of operations, financial condition or cash flows. The Company also believes that the total amount of unrecognized tax benefits as of December 31, 2013, if recognized, would not have a material effect on its effective tax rate. The Company further believes that there are no tax positions for which it is reasonably possible, based on current Chinese tax law and policy, that the unrecognized tax benefits will significantly increase or decrease over the next 12 months producing, individually or in the aggregate, a material effect on the Company’s results of operations, financial condition or cash flows.

*Value added tax*

Under the Provisional Regulations of the People's Republic of China Concerning Value Added Tax and its Implementing Rules, value added tax is imposed on goods sold in or imported into the PRC and on processing, repair and replacement services provided within the PRC.

Value added tax payable in the PRC is charged on an aggregated basis at a rate of 13% or 17% (depending on the type of goods involved) on the full price collected for the goods sold or, in the case of taxable services provided, at a rate of 17% on the charges for the taxable services provided, but excluding, in respect of both goods and services, any amount paid in respect of value added tax included in the price or charges, and less any deductible value added tax already paid by the taxpayer on purchases of goods and services in the same financial year.

The revised People's Republic of China Tentative Regulations on Value Added Tax became effective on January 1, 2009 with the issuance of Order of the State Council No. 538. With the implementation of this VAT reform, input VAT associated with the purchase of fixed assets is now deductible against output VAT.

**Retirement Benefit Costs** – According to the PRC regulations on pension, Chengtong and Shanghai Blessford contribute to a defined contribution retirement scheme organized by municipal government in the province in which Chengtong and Shanghai Blessford were registered and all qualified employees are eligible to participate in the scheme. Contributions to the scheme are calculated at 37% of the employees' salaries above a fixed threshold amount and the employees contribute 11%, while Chengtong and Shanghai Blessford contribute the balance contribution of 26%. The Group has no other material obligation for the payment of retirement benefits beyond the annual contributions under this scheme.

For the six months ended December 31, 2013 and 2012, the Company's pension cost charged to the statements of operations under the plan amounted to \$151,514 and \$120,632, respectively, all of which have been paid to the National Social Security Fund.

**Fair Value of Financial Instruments** – The carrying amounts of certain financial instruments, including cash, accounts receivable, other receivables, short-term loans, accounts payable, accrued expenses, and other payables approximate their fair values as at December 31, 2013 and June 30, 2013 because of the relatively short-term maturity of these instruments. The Company considers the carrying amount of long-term loans to approximate their fair values based on the interest rates of the instruments and the current market rate of interest.

**Use of Estimates** – The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates inherent in the preparation of the consolidated financial statements include allowance for doubtful accounts, provision for advances to suppliers bad debts, inventory and cost of sales, income taxes, and useful lives and impairment of long-lived assets.

#### 4. Concentrations of Business and Credit Risk

The Company's list of customers whose purchases from us were 10% or more of total sales during the six months ended December 31, 2013 and 2012 is as follows:

	2013		2012	
a. Customers	\$	% to sales	\$	% to sales
Shanghai Hongyu Metal Co., Ltd.	5,759,341	24	-	* - *
Changshu Jiacheng Steel Plating Co., Ltd.	-	* - *	1,548,787	11

\* *Not 10% customers for the relevant periods*

The Company's list of suppliers whose sales to us were 10% or more of our total purchases during the three months ended December 31, 2013 and 2012 is as follows:

b. Suppliers	2013		2012	
	\$	% to Purchases	\$	% to purchases
Maoxun Trading Co., Ltd.	8,260,817	32	-	* - *
Shanghai Tuoda Metal Materials Co., Ltd.	-	*	* 1,991,021	15
HebeiNuojin Trading Co., Ltd.	-	*	* 1,624,336	12
Wuxi Hangda Trading Co., Ltd	-	*	* 1,468,607	11
Zhejinag Wuchan Metal Group Co., Ltd	-	*	* 1,447,043	11

\* Not 10% suppliers for the relevant periods

Our management continues to take appropriate actions to perform ongoing business and credit reviews of our customers to reduce our exposure to new and recurring customers who have been deemed to pose a high credit risk to our business based on their commercial credit reports, our collection history, and our perception of the risk posed by their geographic location.

## 5. Accounts Receivable

The Company provides credit in the normal course of business. The Company performs ongoing credit evaluations of its domestic and international customers and clients and maintains allowances for bad and doubtful accounts based on factors surrounding the credit risk of specific customers and clients, historical trends, and other information. Trade accounts receivable, net totaled \$23,997,088 and \$29,480,738 as of December 31, 2013 and June 30, 2013, respectively.

Accounts receivable are regularly reviewed for changes from the historic collection experience to ensure the appropriateness of the allowances. These estimates have been relatively accurate in the past and currently there is no need to revise such estimates. However, we will review such estimates more frequently when needed, and make revisions if necessary. The continuation or intensification of the credit tightening in China and the slowdown of the Chinese economy had and will continue to have negative consequences on the business operations of our customers and adversely impact their ability to meet their financial obligations to us. A significant change in our collection experience, deterioration in the aging of receivables and collection difficulties could require that we increase our estimate of the allowance for doubtful accounts. Any such additional bad debt charges could materially and adversely affect our future operating results.

**6. Inventories**

ASC 330-10-35, "Adjustments to Lower of Cost or Market", requires us to reduce the carrying value of inventory when there is evidence that the utility of goods will be less than cost, whether due to physical deterioration, obsolescence, changes in price levels or other causes. The Company recorded inventory write-downs in the amounts of \$nil and \$404,242 for the six months ended December 31, 2013 and 2012, respectively. These amounts were recognized as a loss of the current period.

As of December 31, 2013 and June 30, 2013, inventories consisted of the following:

	December 31, 2013	June 30, 2013
At cost:		
Raw materials	\$1,789,364	\$1,502,235
Work in progress	225,045	1,483,490
Finished goods	7,673,855	7,383,617
Consumable items	6,587,105	6,405,554
	16,275,369	16,774,896
Less: provision	(950,643 )	(937,695 )
	\$15,324,726	\$15,837,201

F-11

Costs of finished goods include direct labor, direct materials, and production overhead before the goods are ready for sale.

Consumable items represent parts used in our cold rolling mills and other equipment that need to be replaced from time to time when necessary to ensure optimal operating results, such as bearings and rollers, and are included as a component of cost of goods sold.

Inventories amounting to \$6,660,073 (June 30, 2013: \$6,832,699) were pledged for short-term loans totaling \$20,131,318 at December 31, 2013 (June 30, 2013: \$19,857,110).

## 7. Advances to Suppliers

Cash advances are shown net of allowances of \$20,305,486 and \$19,689,609 at December 31, 2013 and June 30, 2013, respectively.

Due to an overall negative operating environment for steel businesses in China at present, caused by oversupply, increased cost of imported iron ore and tightened credit, we will regularly review our suppliers and our policy for provision for allowance for advances to suppliers to reflect changes from our historic raw materials receipt experience and to ensure the appropriateness of the allowance in light of the circumstances present at the time of the review.

## 8. Property, Plant and Equipment

Property, plant and equipment, stated at cost less accumulated depreciation, consisted of the following:

	December 31, 2013	June 30, 2013
Plant and machinery	\$81,307,871	\$80,161,729
Buildings	24,603,856	24,268,727
Motor vehicles	744,910	734,764
Office equipment	569,285	564,087
	107,225,922	105,729,307
Less: Accumulated depreciation	(49,482,415 )	(44,362,562 )

\$57,743,507    \$61,366,745

Depreciation expense related to manufacturing is included as a component of cost of goods sold. During the six months ended December 31, 2013 and 2012, depreciation totaling \$3,313,961 and \$3,113,906, respectively, was included as a component of cost of goods sold.

Plant and machinery amounting to \$29,649,416 (June 30, 2013: \$31,431,182) and \$16,390,062 (June 30, 2013: \$17,513,168) were pledged for short-term loans totaling \$28,415,772 and long-term loan including current portion totaling \$16,200,000, respectively, at December 31, 2013 (June 30, 2013: \$28,028,722 and \$16,200,000, respectively).

### 9. Construction-In-Progress

As of December 31, 2013 and June 30, 2013, construction-in-progress consisted of the following:

	December 31, 2013	June 30, 2013
Construction costs	\$295,857	\$255,996

Construction-in-progress represents construction and installations of annealing furnaces.

## 10. Intangible Assets

Land use rights amounting to \$1,904,880 (June 30, 2013: \$1,900,914) were pledged for short-term loans totaling \$28,415,772 at December 31, 2013 (June 30, 2013: \$28,028,722).

The Company acquired land use rights in August 2004 and December 2006 for 50 years that expire in August 2054 and December 2056, respectively. The land use rights are amortized over a fifty-year term. An amortization amount of approximately \$37,000 is to be recorded each year starting from the financial year ended June 30, 2009 for the remaining lease period.

Amortizable intangible assets of the Company are reviewed when there are triggering events to determine whether their carrying value has become impaired, in conformity with ASC 360. The Company also re-evaluates the periods of amortization to determine whether subsequent events and circumstances warrant revised estimates of useful lives.

## 11. Short-Term Loans

Short-term loans consisted of the following:

	December 31, 2013	June 30, 2013
Bank loan dated June 29, 2011, due July 31, 2012, with an interest rate at 115% of the standard market rate set by the People's Bank of China ("PBOC") (6.9% at December 31, 2013) per annum (Notes 6 and 8)	8,284,454	8,171,612
Bank loan dated June 29, 2011, due July 31, 2012 with an interest rate at 115% of the standard market rate set by PBOC (6.9% at December 31, 2013) per annum (Notes 6, 8 and 10)	20,131,318	19,857,110
	\$28,415,772	\$28,028,722

The above bank loans outstanding at December 31, 2013 are Renminbi ("RMB") loans. Other than the bank loan dated January 19, 2011 that was secured by bills receivable, all other short-term loans carry an interest rate of 1.15 times of the standard market rate set by the PBOC, and are secured by inventories, land use rights, buildings and plant and machinery, and guaranteed by PSHL and our former Chairman, Mr. Wo Hing Li. In addition, pursuant to a bank loan

agreement entered into between the Company and RaiffeisenZentralbankOsterreich AG (“RZB”), Mr. Li undertakes to maintain a shareholding percentage in the Company of not less than 33.4% unless otherwise agreed to with RZB.

The weighted-average interest rate on short-term loans at December 31, 2013 and June 30, 2013 was 6.9% and 7.26%, respectively. Principal and interest under the short-term loans totaling \$28,415,772 with RZB were to be repaid in full on July 31, 2012, but the Company has defaulted on this repayment obligation. The Company is currently in discussions with RZB regarding the restructuring of the loans for repayment but has not yet agreed on specific terms. Any restructuring will be subject to approval by RZB’s governing bodies, and to the Company’s ability to meet certain conditions and requirements that may be imposed by the Bank. RZB also has the right to take possession of the collateral granted in connection with its respective loan agreements, which action would have a material adverse impact on the Company.

As part of the ongoing discussions with RZB to potentially restructure our short-term loans, we have implemented and will continue to implement a series of measures to remain viable and improve overall profitability including expanding our customer base to increase total demand, strategizing our product mix to re-focus on our competitive advantage and niche capabilities including the ultra-thin low-carbon and high strength high-carbon products , improve our production management and increase quality control, and continuing to carry out research and development (“R&D”) to improve profitability of existing products and launch new high value-add products.

**12. Long-Term Loan – Current Portion**

	December 31, 2013	June 30, 2013
Bank loan dated June 29, 2010, due June 15, 2016 with an interest rate of the London Interbank Offered Rate (“LIBOR”) plus 4.5% (4.847 at December 31, 2013) per annum (Note 8)	\$ 16,200,000	\$ 16,200,000

On January 29, 2010, Shanghai Blessford entered into a Senior Loan Agreement with DEG-Deutsche Investitions-Und EntwicklungsgesellschaftMbh (“DEG”) for a loan amount up to \$18,000,000 at an annual interest rate of 4.5% above the six-month USD LIBOR rate. The loan is to be repaid semi-annually over five years starting on December 15, 2011 and is secured by a mortgage on the new cold rolling line and annealing furnaces at Shanghai Blessford’s facilities and guaranteed by the Company.

In June 2012, the Company defaulted on its semi-annual principal and interest repayment obligation. The Company is currently in discussions with DEG regarding a possibility to restructure the loan for repayment but has not yet agreed on specific terms. Until such agreement is reached, DEG has the right to cancel the total outstanding commitment of the loan, demand immediate repayment of all or part of the loan with accrued interest, and/or terminate the loan agreement. DEG also has the right to take possession of the collateral granted in connection with its respective loan agreements, which action would have a material adverse impact on the Company.

**13. Stockholders’ Equity***Reverse Stock Split*

In June 2012, the stockholders of the Company approved the authority of the Company’s Board of Directors to effect a one-for-twelve reverse stock split of the Company’s outstanding common stock. The reverse stock split became effective on August 27, 2012 and as a result of the reverse stock split, the issued and outstanding shares of the Company’s common stock decreased to 3,880,866 shares, without any change in the par value of such shares. These consolidated financial statements and accompanying notes to the consolidated financial statements give retroactive effect to the reverse stock split for all periods presented.

*Reduction in Authorized Shares*

In June 2013, the stockholders of the Company approved the authority of the Company's Board of Directors to amend the Company's Amended and Restated Articles of Incorporation to reduce the number of shares of common stock and preferred stock. On August 27, 2013, the Company's Board of Directors approved an amendment of our Amended and Restated Articles of Incorporation to effect a reduction in the number of authorized shares of the Company's common stock and preferred stock to (i) 10,000,000 shares of common stock, par value \$0.001 per share and (ii) 500,000 shares of preferred stock, par value \$0.001 per share. The amendment became effective upon filing with the Delaware Secretary of State on September 6, 2013.

#### 14. Income Taxes

Significant components of the Group's deferred tax assets and liabilities as of December 31, 2013 and June 30, 2013 are as follows:

	December 31, 2013	June 30, 2013
Deferred tax assets and liabilities:		
Net operating loss carried forward	\$ 13,781,756	\$ 11,247,441
Temporary differences resulting from allowances	15,937,974	12,805,597
Net deferred income tax asset	\$ 29,719,730	\$ 24,053,038
Valuation allowance	(29,719,730)	(24,053,038)
	\$-	\$-

The Company has not recognized a deferred tax liability as its foreign subsidiaries do not have any undistributed earnings as of December 31, 2013. A deferred tax liability will be recognized when the Company no longer plans to permanently reinvest undistributed earnings.

A reconciliation of the provision for income taxes with amounts determined by the PRC income tax rate to income tax expense per books is as follows:

	Six months ended	
	December 31,	
	2013	2012
Computed tax at the PRC statutory rate of 25%	\$(5,652,843)	\$(3,896,137)
Valuation allowance	5,666,692	1,286,999
Income not subject to tax	(13,863 )	-
Expenses not deductible for tax	14	2,609,138 )
Income tax per books	\$-	\$-

### 15. (Loss) Per Share

ASC 260-10 requires a reconciliation of the numerator and denominator of the basic and diluted (loss) per share (EPS) computations.

For the three and six months ended December 31, 2012, warrants to purchase 118,333 shares at an exercise price of \$101.40 were not included as their effect would have been anti-dilutive.

The following reconciles the components of the EPS computation:

	Income	Shares	Per
	(Numerator)	(Denominator)	Share
			Amount
For the three months ended December 31, 2013:			
Net (loss)	\$(12,958,983)		
Basic EPS (loss) available to common shareholders	\$(12,958,983)	3,880,866	\$ (3.34 )
Effect of dilutive securities:			
Warrants		-	

Edgar Filing: China Precision Steel, Inc. - Form 10-Q

Diluted EPS (loss) available to common shareholders	\$(12,958,983)	3,880,866	\$ (3.34 )
For the three months December 31, 2012:			
Net (loss)	\$(10,884,505)		
Basic EPS (loss) available to common shareholders	\$(10,884,505)	3,880,866	\$ (2.80 )
Effect of dilutive securities:			
Warrants		-	
Diluted EPS (loss) available to common shareholders	\$(10,884,505)	3,880,866	\$ (2.80 )

	Income	Shares	Per
	(Numerator)	(Denominator)	Share
			Amount
For the six months ended December 31, 2013:			
Net (loss)	\$(22,536,123)		
Basic EPS (loss) available to common shareholders	\$(22,536,123)	3,880,866	\$ (5.81 )
Effect of dilutive securities:			
Warrants		-	
Diluted EPS (loss) available to common shareholders	\$(22,536,123)	3,880,866	\$ (5.81 )
For the six months ended December 31, 2012:			
Net (loss)	\$(15,106,788)		
Basic EPS (loss) available to common shareholders	\$(15,106,788)	3,880,866	\$ (3.89 )
Effect of dilutive securities:			
Warrants		-	
Diluted EPS (loss) available to common shareholders	\$(15,106,788)	3,880,866	\$ (3.89 )

F-15

## 16. Contingencies and Commitments

### *Legal Proceedings*

The Company is subject to various legal proceedings and claims that have arisen in the ordinary course of business.

On March 15, 2012, the Company received notice of a complaint filed by a Mr. Haining Zhang and China Venture Partners, Inc. in the U.S. Southern District Court of New York on March 9, 2012, against several defendants, including the Company, as successor to OraLabs Holding Corp. In the complaint Mr. Zhang alleges, among other things, breach of contract by the Company and certain of our former officers, directors and control persons, in connection with our December 2006 acquisition of Partner Success Holdings Limited. Mr. Zhang asserts a breach of an agreement to compensate him for services he allegedly performed in connection with seeking out a merger candidate for the Company. The Company filed a motion to dismiss, as did the other defendants, and that motion was granted on or about March 13, 2013. The Plaintiff had the right to appeal within 30 days of the court decision, and has done so. The Plaintiff has filed an appellate brief and the Company has filed a brief in opposition. We expect a decision within the next five (5) months. Although an estimate of any potential loss cannot be made at this time, the Company does not believe that its business or financial condition is materially adversely affected.

In addition to the above, certain former officers and directors have filed a lawsuit against the Company claiming that they are entitled to defense and indemnification from the Company for the claims of Mr. Zhang and China Venture Partners. Because the underlying case was dismissed without any award to the plaintiffs, these former officers and directors are seeking to recover their costs and attorney's fees expended in defending against the claims of Mr. Zhang and China Venture Partners. This action is in its early stages. Although an estimate of any potential loss cannot be made at this time, the Company does not believe that its business or financial condition is or will be materially adversely affected.

### *Capital Commitments*

As of December 31, 2013, the Company did not have any capital commitments (June 30, 2013: \$nil).

## 17. Impairment

We determine impairment of long-lived assets, including property, plant and equipment and amortizable intangible assets, by measuring the estimated undiscounted future cash flows generated by these assets, comparing the result to the assets' carrying values and, if necessary, adjusting the assets to the lower of its carrying value or fair value and charging current operations for the measured impairment. The determination of the undiscounted future cash flows and fair value of these assets are subject to significant judgment.

The assets are subject to impairment consideration under ASC 360-10-35-17 if events or circumstances indicate that their carrying amounts might not be recoverable. In accordance with ASC 360, as of December 31, 2013, as the Company's market capitalization was lower than the carrying value of its assets and the Company experienced continuing losses, management performed an impairment test pursuant to the guidance outlined in ASC 360-10-35-21 and no impairment charges were recognized for the current period. As of December 31, 2013, the Company expects these assets to be fully recoverable based on the result of the impairment test. Goodwill amounting to \$99,999 as at December 31, 2013 was considered immaterial and not tested for impairment in accordance with ASC 350.

## **18. Recent Accounting Pronouncements**

In July 2013, the FASB issued ASU No. 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists* ("ASU 2013-11"). The objective of ASU 2013-11 is to eliminate the diversities that exist in financial statement presentation. The amendments aim at attaining this objective by giving explicit guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The amendments in this Update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments of ASU 2013-11, when adopted, are not expected to have a material impact on the Company's consolidated financial statements.

**ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS  
2. OF OPERATIONS.**

**Special Note Regarding Forward Looking Statements**

In addition to historical information, this report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We use words such as “believe,” “expect,” “anticipate,” “project,” “target,” “plan,” “optimistic,” “intend,” “aim,” “will” or similar expressions which are intended to identify forward-looking statements. Such statements include, among others, those concerning market and industry segment growth and demand and acceptance of new and existing products; any projections of sales, earnings, revenue, margins or other financial items; any statements of the plans, strategies and objectives of management for future operations; and any statements regarding future economic conditions or performance, as well as all assumptions, expectations, predictions, intentions or beliefs about future events. You are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, as well as assumptions, which, if they were to ever materialize or prove incorrect, could cause the results of the Company to differ materially from those expressed or implied by such forward-looking statements. Potential risks and uncertainties include, among other things, factors such as: plans to expand our exports outside of China; plans to increase our production capacity and the anticipated dates that such facilities may commence operations; our ability to obtain additional funding for our continuing operations and to fund our expansion; our ability to meet our financial projections for any financial year; our ability to retain our key executives and to hire additional senior management; continued growth of the Chinese economy and industries demanding our products; our ability to secure at acceptable prices the raw materials we need to produce our products; political changes in China that may impact our ability to produce and sell our products in our target markets; general business conditions and competitive factors, including pricing pressures and product development; and changes in our relationships with customers and suppliers. You should carefully review the risk factors described in other documents we file from time to time with the U.S. Securities and Exchange Commission, including our Annual Report on Form 10-K for our fiscal year ended June 30, 2013.

The following discussion should be read in conjunction with our unaudited consolidated financial statements and the related notes that appear in Part I, Item 1, “Financial Statements,” of this quarterly report. Our unaudited consolidated financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles. The following discussion and analysis covers the Company’s unaudited consolidated financial condition at December 31, 2013 and June 30, 2013, the end of its prior fiscal year, and its unaudited consolidated results of operation for the three and six months ended December 31, 2013 and 2012.

### **Overview of the Company’s Business**

We are a value-added steel processing company principally engaged in the manufacture and sale of high precision cold-rolled steel products, in the provision of heat treatment and in the cutting and slitting of medium and high-carbon hot-rolled steel strips. We use commodity steel to create a specialty premium steel. Specialty precision steel pertains to the precision of measurements and tolerances of thickness, shape, width, surface finish and other special quality features of highly engineered end-use applications.

We produce and sell precision ultra-thin and high strength cold-rolled steel products ranging from 7.5 mm to 0.03 mm. We also provide heat treatment and cutting and slitting of medium and high-carbon hot-rolled steel strips not exceeding 7.5 mm thickness. Our process puts hot-rolled de-scaled (pickled) steel coils through a cold-rolling mill, utilizing our patented systems and high technology reduction processing procedures, to make steel coils and sheets in customized thicknesses according to customer specifications. Currently, our precision products are mainly used in the manufacture of automobile parts and components, steel roofing, plane friction discs, appliances, food packaging materials, saw blades, textile needles, and micro electronics.

We conduct our operations principally in China through our wholly-owned operating subsidiaries, Chengtong and Shanghai Blessford, which are wholly owned subsidiaries of our direct subsidiary, PSHL. Most of our sales are made domestically in China; however, we began exporting during fiscal 2007 and our overseas market currently covers Indonesia, Thailand, the Caribbean, Nigeria, Ethiopia and Turkey. We intend to further expand into additional overseas markets in the future, subject to suitable market conditions and favorable regulatory controls.

To remodel our business to make it sustainable, we have implemented and will continue to implement a series of measures to remain viable and improve profitability. These measures include: (1) initiating additional sales and marketing efforts to expand our customer base and increase total demand; (2) continuing to carry out R&D to improve profitability of existing products and launch new high value-add products; and (3) improving working capital efficiency by increasing turnovers of advances to suppliers and accounts receivables. We will also continue to take appropriate actions to perform business and credit reviews of customers and suppliers with the downward pressure in the Chinese economy and credit crunch which have caused many difficulties faced by businesses.

### **Second Quarter Financial Performance Highlights**

During the three months ended December 31, 2013, we saw a substantial increase in our sales volume, period-on-period. This is a direct result of the measures we have been taking during the past year including expanding customer base and improving production management, as mentioned above. However, as we further work to improve our operating results to achieve profitability, tightened credit and slowing growth in China continued to cause a negative impact on our business and a slow turnover of our accounts receivable for the three months ended December 31, 2013, a trend that is strongly correlated to the experience of other companies in the coal and steel sectors in China during the past year.

During the three months ended December 31, 2013, we sold a total of 15,036 tons of products, an increase of 4,331 tons from 10,705 tons a year ago, due to an increase in domestic sales in our high-carbon product categories. However, average cost per unit sold increased 27.8% while average selling prices increased only 3.4% period-on-period. As a bid to combat air pollution in the northern part of China including Beijing, North China's Hebei Province has plans on cutting steel production by 86 million tons by 2020. Hebei is China's largest steel production base and expected lower output is going to have negative impact on our raw material cost in the short run. Low average selling price coupled with a large allowance for bad and doubtful debts of \$6,546,832 led to a gross loss of \$5,131,331 and a net loss of \$12,958,983 for the three months ended December 31, 2013. Total company backlog as of December 31, 2013 was \$3,577,492.

In June and July 2012, we defaulted on the repayment obligations of our short-term and long-term bank loans totaling \$44,615,772. We are currently in discussions with our banks regarding the possibility to restructure these loans for repayment but have not yet agreed on specific terms. Any restructuring will be subject to approval by the banks' governing bodies, and to our ability to meet certain conditions and requirements that may be imposed by the banks. There can be no assurance that the Company will be able to successfully work out a repayment plan or otherwise fulfill its obligations under the loans. Each of the banks also has the right to take possession of the collateral (which collectively constitutes substantial assets of the Company) granted in connection with its respective loan agreements, which action would have a material adverse impact on the Company. We have implemented and will continue to implement a series of measures, discussed above, to remodel our business to make it sustainable, and as part of the ongoing discussions with banks to potentially restructure our bank loans.

The Company continued to suffer a significant loss in the period ended December 31, 2013. Operating cash flows have also been adversely impacted by the slow turnover of our accounts receivable. We expect the ongoing credit tightening in China and the slowdown of the Chinese economy to continue to have negative consequences on the business operations of our customers and suppliers and adversely impact their ability to meet their financial obligations to us. There can be no assurance that the Company will be able to generate sufficient positive cash flow from operations to address all of its cash flow needs, and to continue as a going concern.

The following are some financial highlights for the second fiscal quarter:

**Revenues:** Our revenues were approximately \$11.9 million for the quarter, an increase of 45.3% from last year.

**Gross Margin:** Gross margin was (43.2%) for the quarter, compared to (15.9%) last year.

**Loss from operations before tax:** Loss from operations before tax was approximately \$13.0 million for the quarter, compared to a loss of approximately \$10.9 million last year.

**Net loss:** Net loss was approximately \$13.0 million for the quarter, compared to a net loss of approximately \$10.9 million last year.

**Fully diluted loss per share:** Fully diluted loss per share was \$3.34 for the quarter, compared to a loss per share of \$2.80 last year.

## Results of Operations

The following table sets forth key components of our results of operations for the periods indicated, in USD and as a percentage of revenues.

**Comparison of Three and Six Months Ended December 31, 2013 and 2012**

	Three Months Ended December 31,				Six Months Ended December 31,			
	2013		2012		2013		2012	
	Amount	% of Revenues	Amount	% of Revenues	Amount	% of Revenues	Amount	% of Revenues

***Sales Revenues***

Sales volume increased by 4,331 tons, or 40.5%, period-on-period, to 15,036 tons for the three months ended December 31, 2013, from 10,705 tons for the three months ended December 31, 2012 and as a result, sales revenues increased by \$3,701,741, or 45.3%, period-on-period, to \$11,866,008 for the three months ended December 31, 2013, from \$8,164,267 for the three months ended December 31, 2012. The increase in sales revenues period-on-period is mainly attributable to the increase in production and sales as a result of management's sales and marketing efforts in the domestic market, as detailed more fully below.

### Sales by Product Line

A break-down of our sales by product line for the three months ended December 31, 2013 and 2012 is as follows:

Product Category	Three Months ended December 31,			Period-on-Period			
	2013	2012		2013	2012		
	Quantity	% of	Quantity	% of	Qty.		
	(tons)	\$ Amount	Sales	(tons)	\$ Amount	Sales	Variance
Low-carbon hard-rolled	256	203,122	2	1,202	842,901	10	(946 )
Low-carbon cold-rolled	4,580	2,980,938	25	5,840	4,513,375	55	(1,260 )
High-carbon hot-rolled	5,448	4,283,070	36	142	104,472	1	5,306
High-carbon cold-rolled	4,253	3,649,753	31	2,909	2,544,079	31	1,344
Subcontracting income	499	50,124	<1	612	31,768	1	(113 )
Sales of scrap metal	-	699,001	6	-	127,672	2	-
Total	15,036	11,866,008	100	10,705	8,164,267	100	4,331

During the three months ended December 31, 2013, domestic sales increased in our high-carbon product categories while sales decreased for our low-carbon product categories. Low-carbon cold-rolled steel products accounted for 25% of the current sales mix at an average selling price of \$651 per ton for the three months ended December 31, 2013, compared to 55% of the sales mix at an average selling price per ton of \$773 for the three months ended December 31, 2012. The decrease in sales in this category during the quarter was mainly due to streamlined production to reduce the sales of these loss-making products. Low-carbon hard-rolled steel products accounted for 2% of the current sales mix at an average selling price of \$793 per ton for the three months ended December 31, 2013, compared to 10% of the sales mix at an average selling price per ton of \$701 for the three months ended December 31, 2012, due to a strong RMB against USD which negatively impacted export sales. High-carbon cold-rolled steel products accounted for 31% of the current sales mix at an average selling price of \$858 per ton for the three months ended December 31, 2013, compared to 31% of the sales mix at an average selling price of \$875 for the three months ended December 31, 2012. The products in this category are mainly used in the automobile industry and the increase in sales volume period-on-period was a result of the increase in demand for automobiles in the PRC market and as a result of our continued sales and marketing efforts in this market segment. Subcontracting income revenues accounted for \$50,124 or less than 1% of the sales mix for the three months ended December 31, 2013, a slight increase from \$31,768 for the three months ended December 31, 2012.

	Three Months ended December 31,			
	2013	2012	Variance	
Average Selling Prices	(\$)	(\$)	(\$)	(%)
Low-carbon hard-rolled	793	701	92	13
Low-carbon cold-rolled	651	773	(122)	(16)
High-carbon hot-rolled	786	736	50	7
High-carbon cold-rolled	858	875	(17)	(2)
Subcontracting income	100	52	48	92

The average selling price per ton increased to \$789 for the three months ended December 31, 2013 compared to \$763 last year, representing an increase of \$26, or 3.4%, period-on-period. This increase was mainly due to increases in general steel prices and therefore our selling prices during the quarter.

#### Sales Breakdown by Major Customer

Customers	2013		2012	
	\$	% of Sales	\$	% of Sales
Shanghai Hongyu Metal Co., Ltd.	5,752,574	48	-	* - *
Maoxun Trading Co., Ltd.	1,605,363	14	-	* - *
Shanghai Haiheng Co., Ltd.	1,296,646	11	-	* - *
Wozi Jintian Saw Blade Co., Ltd.	990,145	8	-	* - *
Zhangjiagang Gangxin New Construction Materials Co., Ltd	844,816	7	-	* - *

	10,489,545	88	3,957,531	48
Others	1,376,463	12	4,206,736	52
Total	11,866,008	100	8,164,267	100

\* Not major customers for the relevant periods

Sales revenue generated from our top five major customers as a percentage of total sales was 88% for the three months ended December 31, 2013, as compared to 49% in 2012. The change in customer mix reflects management's continuous efforts in expanding our customer base and geographical coverage during the course of the quarter.

### *Cost of Goods Sold*

Cost of sales increased by \$7,531,114, or 79.6%, period-on-period, to \$16,997,339 for the three months ended December 31, 2013, from \$9,466,225 for the three months ended December 31, 2012. Cost of sales represented 143.2% of sales revenues for the three months ended December 31, 2013, compared to 115.9% for the three months ended December 31, 2012. Average cost per unit sold increased to \$1,130 for the three months ended December 31, 2013, compared to \$884 for the three months ended December 31, 2012, representing an increase of \$246 per ton, or 27.8%, period-on-period, as detailed more fully below.

	2013	2012	Variance	
	(\$)	(\$)	(\$)	(%)
Cost of goods sold				
- Raw materials	13,412,519	7,438,121	5,974,398	80.3
- Direct labor	201,922	107,895	94,027	87.1
- Manufacturing overhead	3,382,898	1,920,209	1,462,689	76.2
	16,997,339	9,466,225	7,531,114	79.6
Cost per unit sold				
Total units sold (tons)	15,036	10,705	4,331	40.5
Average cost per unit sold (\$/ton)	1,130	884	246	27.8

The increase in average per unit cost of sales is represented by the combined effect of:

an increase in factory overhead per unit sold of \$46, or 25.4%, from \$179 for the three months ended December 31, 2012, to \$225 for the three months ended December 31, 2013;

an increase in direct labor per unit sold of \$3, or 29.0%, from \$10 for the three months ended December 31, 2012, to \$13 for the three months ended December 31, 2013, and;

an increase in cost of raw materials per unit sold of \$197, or 28.4%, from \$695 for the three months ended December 31, 2012, to \$892 for the three months ended December 31, 2013.

The cost of raw materials consumed increased by \$5,974,398, or 80.3%, period-on-period, to \$13,412,519 for the three months ended December 31, 2013, from \$7,438,121 for the three months ended December 31, 2012. This increase was due to a large increase in total units sold during the three months ended December 31, 2013 and an increase in the cost of raw materials.

Direct labor costs increased by \$94,027, or 87.1%, period-on-period, from \$107,895 for the three months ended December 31, 2012, to \$201,922 for the three months ended December 31, 2013. Manufacturing overhead costs increased by \$1,462,689, or 76.2%, period-on-period, from \$1,920,209 for the three months ended December 31, 2012, to \$3,382,898 for the three months ended December 31, 2013. The increase was mainly attributable to the combined effect of an increase in utilities of \$389,499, or 133.7%, period-on-period, from \$291,260 for the three months ended December 31, 2012, to \$680,759 for the three months ended December 31, 2013, an increase in depreciation of \$536,049, or 40.2%, period-on-period, from \$1,331,827 for the three months ended December 31, 2012, to \$1,867,876, and an increase in consumables of \$236,347, or 103.3%, period-on-period, from \$228,772 for the three months ended December 31, 2012, to \$465,119 for the three months ended December 31, 2013.

### ***Gross Profit***

Gross profit in absolute terms decreased by \$3,829,373 or 294.1%, period-on-period, from a gross loss of \$1,301,958 for the three months ended December 31, 2012, to a gross loss of \$5,131,331 for the three months ended December 31, 2013. Gross profit margin decreased to (43.2%) for the three months ended December 31, 2013, from (15.9%) for the three months ended December 31, 2012. The decrease in gross profit margin is mainly attributable to a 27.8% period-on-period increase in average cost per unit sold.

### ***Selling Expenses***

Selling expenses increased by \$24,520, or 97.8%, period-on-period, from \$25,063 for the three months ended December 31, 2012, to \$49,583 for the three months ended December 31, 2013. The increase was mainly attributable to higher transportation costs and traveling expenses period-on-period.

*Administrative Expenses*

Administrative expenses decreased by \$98,180 or 24.4%, period-on-period, from \$401,797 for the three months ended December 31, 2012, compared to \$303,617 for the three months ended December 31, 2013. This was mainly due to a decrease in traveling expenses associated with attendance at investment conferences and legal and professional fees period-on-period.

***Allowance for Bad and Doubtful Debts***

Allowance for bad and doubtful debts decreased by \$2,239,382, or 25.5%, period-on-period. Allowance recognized for the three months ended December 31, 2012 was in the amount of \$6,546,832 in accordance with our policy for allowance for doubtful accounts.

***Loss from Operations***

Loss from operations increased by \$1,504,781, or 14.2%, period-on-period, to a loss of \$12,071,863 for the three months ended December 31, 2013, from \$10,567,082 for the three months ended December 31, 2012, as a result of the factors discussed above.

***Other Income***

Other income decreased by \$550,118, or 90.5%, to \$57,536 for the three months ended December 31, 2013, from \$607,654 for the three months ended December 31, 2012.

***Interest Expense***

Total interest expense increased by \$19,579, or 2.1%, to \$944,656 for the three months ended December 31, 2013, from \$925,077 for the three months ended December 31, 2012, due to the accrued late payment penalty interest as a result of the loan default.

***Income Tax***

For the three months ended December 31, 2013 and 2012, we recognized no income tax expense as a result of the net loss for the three months ended December 31, 2013 and 2012.

***Net Loss***

Net loss increased by \$2,074,478 or 19.1%, period-on-period, to \$12,958,983 for the three months ended December 31, 2013, from \$10,884,505 for the three months ended December 31, 2012. The increase in net loss is attributable to a combination of all the factors discussed above, principally the negative gross margin and the increase in allowance for bad and doubtful debts.

***Comparison of Six Months Ended December 31, 2013 and 2012***

***Sales Revenues***

Sales volume increased by 17,027 tons, or 92.2%, period-on-period, to 35,485 tons for the six months ended December 31, 2013, from 18,458 tons for the six months ended December 31, 2012 and as a result, sales revenues increased by \$9,510,368, or 67.3%, period-on-period, to \$23,631,395 for the six months ended December 31, 2013, from \$14,121,027 for the six months ended December 31, 2012. The increase in sales revenues period-on-period is mainly attributable to the increase in production and sales as a result of management's sales and marketing efforts in the domestic market, as detailed more fully below.

Sales by Product Line

A break-down of our sales by product line for the six months ended December 31, 2013 and 2012 is as follows:

Product Category	Six Months ended December 31, 2013			Six Months ended December 31, 2012			Year-on- Year Qty. Variance
	Quantity (tons)	\$ Amount	% of Sales	Quantity (tons)	\$ Amount	% of Sales	
Low-carbon hard-rolled	698	610,228	3	2,672	1,976,520	14	(1,974 )

High-carbon hot-rolled	9,143	5,265,431	22	179	117,669	1	8,964
High-carbon cold-rolled	9,103	7,768,663	33	5,747	5,089,243	36	3,356
Subcontracting income	914	116,509	<1	507	40,792	<1	407
Sales of scrap metal	-	1,070,843	5	-	335,517	2	-
Total	35,485	23,631,395	100	18,458	14,121,027	100	17,027

During the six months ended December 31, 2013, domestic sales increased across all product categories. Low-carbon cold-rolled steel products accounted for 37% of the current sales mix at an average selling price of \$563 per ton for the six months ended December 31, 2013, compared to 47% of the sales mix at an average selling price per ton of \$702 for the six months ended December 31, 2012. Low-carbon hard-rolled steel products accounted for 3% of the current sales mix at an average selling price of \$874 per ton for the six months ended December 31, 2013, compared to 14% of the sales mix at an average selling price per ton of \$740 for the six months ended December 31, 2012, due to a decrease in demand in the export market as a result of strong RMB against USD during the period. High-carbon cold-rolled steel products accounted for 33% of the current sales mix at an average selling price of \$853 per ton for the six months ended December 31, 2013, compared to 36% of the sales mix at an average selling price of \$886 for the six months ended December 31, 2012. The products in this category are mainly used in the automobile industry and the increase in sales volume period-on-period was a result of the increasing demand for automobiles in the PRC market and as a result of our continued sales and marketing efforts in this market segment. Subcontracting income revenues accounted for \$116,509, or less than 1% of the sales mix for the six months ended December 31, 2013, an increase from \$40,792 for the six months ended December 31, 2012.

Average Selling Prices	Six Months ended December 31,			Variance (%)
	2013 (\$)	2012 (\$)		
Low-carbon hard-rolled	874	740	134	18
Low-carbon cold-rolled	563	702	(139)	(20)
High-carbon hot-rolled	576	657	(81 )	(12)

Edgar Filing: China Precision Steel, Inc. - Form 10-Q

High-carbon cold-rolled	853	886	(33 )	(4 )
Subcontracting income	127	80	47	58

Although the average selling price per ton increased for the three months ended December 31, 2013 compared to last year, for the six months ended December 31, 2013, the overall average selling price per ton decreased to \$666 compared to \$765 last year, representing a decrease of \$99, or 13%, period-on-period. This decrease was mainly due to decreases in general steel prices and therefore our selling prices during the six months.

Sales Breakdown by Major Customer

Customers	2013		2012	
	\$	% of Sales	\$	% of Sales
Shanghai Hongyu Metal Co., Ltd.	5,759,341	24	-	* - *

Total	23,631,395	100	14,121,027	100

\* Not major customers for the relevant periods

Sales revenue generated from our top five major customers as a percentage of total sales was 58% for the six months ended December 31, 2013, as compared to 40% in 2012. The change in customer mix reflects management's continuous efforts in expanding our customer base and geographical coverage during the course of the year.

**Cost of Goods Sold**

Cost of sales increased by \$14,867,051, or 88.0%, period-on-period, to \$31,756,985 for the six months ended December 31, 2013, from \$16,889,934 for the six months ended December 31, 2012. Cost of sales represented 134.4% of sales revenues for the six months ended December 31, 2013, compared to 119.6% for the six months ended December 31, 2012. Average cost per unit sold decreased to \$895 for the six months ended December 31, 2013, compared to \$915 for the six months ended December 31, 2012, representing a decrease of \$20 per ton, or 2.2%, period-on-period, as detailed more fully below.

	2013 (\$)	2012 (\$)	Variance (\$)	(%)
Cost of goods sold				
- Raw materials	25,433,002	11,873,882	13,559,120	114.2
- Direct labor	341,830	246,963	94,867	38.4
- Manufacturing overhead	5,982,153	4,769,089	1,213,064	25.4
	31,759,985	16,889,934	14,867,051	88.0
Cost per unit sold				
Total units sold (tons)	35,485	18,458	17,027	92.2
Average cost per unit sold (\$/ton)	895	915	(20)	2.2

The decrease in average per unit cost of sales is represented by the combined effect of:

a decrease in factory overhead per unit sold of \$89, or 34.6%, from \$258 for the six months ended December 31, 2012, to \$169 for the six months ended December 31, 2013;

a decrease in direct labor per unit sold of \$3 or 25.3%, from \$13 for the six months ended December 31, 2012, to \$10 for the six months ended December 31, 2013, offset by;

an increase in cost of raw materials per unit sold of \$74, or 11.5%, from \$643 for the six months ended December 31, 2012, to \$717 for the six months ended December 31, 2013;

The cost of raw materials consumed increased by \$13,559,120, or 114.2%, period-on-period, from \$11,873,882 for the six months ended December 31, 2012, to \$25,433,002 for the six months ended December 31, 2013. This increase was due to a substantial increase in total units sold as well as increase in average raw material cost during the six months ended December 31, 2013.

Edgar Filing: China Precision Steel, Inc. - Form 10-Q

Direct labor costs increased by \$94,867, or 38.4%, period-on-period, from \$246,963 for the six months ended December 31, 2012, to \$341,830 for the six months ended December 31, 2013. Manufacturing overhead costs increased by \$1,213,064, or 25.4%, period-on-period, from \$4,769,089 for the six months ended December 31, 2012, to \$5,982,153 for the six months ended December 31, 2013. The increase was mainly attributable to the combined effect of an increase in utilities of \$356,623, or 41.6%, period-on-period, to \$1,214,607 for the six months ended December 31, 2013, from \$857,984 for the six months ended December 31, 2012, an increase in depreciation of \$200,055, or 6.4%, period-on-period, to \$3,313,961 for the six months ended December 31, 2013, from \$3,113,906 for the six months ended December 31, 2012, and an increase in consumables of \$368,039, or 67.0%, period-on-period, from \$549,389 for the six months ended December 31, 2012, to \$917,428 for the six months ended December 31, 2013.

- 12 -

### ***Gross Profit***

Gross profit in absolute terms decreased by \$5,356,683 or 193.5%, period-on-period, from a gross loss of \$2,768,907 for the six months ended December 31, 2012, to a gross loss of \$8,125,590 for the six months ended December 31, 2013. Gross profit margin decreased to (34.4%) for the six months ended December 31, 2013, from (19.6%) for the six months ended December 31, 2012. The decrease in gross profit margin is mainly attributable to a 13% period-on-period decrease in average selling prices.

### ***Selling Expenses***

Selling expenses increased by \$26,415, or 48.6%, period-on-period, to \$80,751 for the six months ended December 31, 2013, from \$54,336 for the six months ended December 31, 2012. The increase was mainly attributable to higher sales period-on-period.

### ***Administrative Expenses***

Administrative expenses decreased by \$93,364 or 11.1%, period-on-period, from \$844,412 for the six months ended December 31, 2012, compared to \$751,048 for the six months ended December 31, 2013. This was mainly due to a decrease in traveling expenses associated with attendance at investment conferences and legal and professional fees period-on-period.

### ***Allowance for Bad and Doubtful Debts***

Allowance for bad and doubtful debts increased by \$1,509,395, or 14.9%, period-on-period. Allowance recognized for the six months ended December 31, 2013 was in the amount of \$11,668,609 in accordance with our policy for allowance for doubtful accounts.

### ***Loss from Operations***

Loss from operations increased by \$6,783,760, or 48.7%, period-on-period, to \$20,714,640 for the six months ended December 31, 2013, from \$13,930,880 for the six months ended December 31, 2012, as a result of the factors discussed above.

***Other Income***

Other income decreased by \$547,693, or 90.1%, from \$607,757 for the six months ended December 31, 2012, to \$60,064 for the six months ended December 31, 2013.

***Interest Expense***

Total interest expense increased by \$97,882, or 5.5%, to \$1,881,547 for the six months ended December 31, 2013, from \$1,783,665 for the six months ended December 31, 2012, due to the accrued late payment penalty interest as a result of the loan default.

***Income Tax***

For the six months ended December 31, 2013 and 2012, we recognized no income tax expense.

***Net Loss***

Net loss increased by \$7,429,335, or 49.2%, period-on-period, to \$22,536,123 for the six months ended December 31, 2013, from \$15,106,788 for the six months ended December 31, 2012. The increase in net loss is attributable to a combination of all the factors discussed above, principally the negative gross margin and the increase in allowance for bad and doubtful debts.

## Liquidity and Capital Resources

Our business is capital intensive and requires substantial expenditures for, among other things, the purchase and maintenance of equipment used in our operations. Our short-term and long-term liquidity needs arise primarily from capital expenditures, working capital requirements and principal and interest payments related to our outstanding indebtedness. We have met these liquidity requirements with cash provided by operations, equity financing, and bank debt. As of December 31, 2013, we had cash and cash equivalents of approximately \$0.1 million.

The following table provides detailed information about our net cash flows for all financial statement periods presented in this report:

### CASH FLOWS

	Six Months Ended	
	December 31,	
	2013	2012
Net cash provided by/(used in) operating activities	\$478,410	\$(203,259)
Net cash (used in) investing activities	(80,759 )	(111,583)
Net cash (used in) financing activities	(223,707)	(504,269)
Net cash flow	59,976	(802,918)

### *Operating Activities*

Net cash flows provided by operating activities for the six months ended December 31, 2013 were \$478,410, as compared to net cash flows used in operating activities of \$203,259 for the six months ended December 31, 2012, resulting in a net increase of \$681,669. This increase was mainly due to an increase in cash inflow from advances from customers of \$7,540,990 as sales orders increased as a result of our sales and marketing efforts, an increase in cash inflows from accounts payable and accrued expenses of \$5,344,249 as we purchased more items on credit, and offset by a decrease in cash inflow from accounts receivable of \$7,895,673 during the six months ended December 31, 2013 due to less collection as the credit tightening in China continued to have negative consequences on the business operations of our customers.

For the six months ended December 31, 2013, sales revenues generated from the top five major customers as a percentage of total sales was 58%, as compared to 40% in the prior period. The loss of all or portion of the sales volume from a significant customer would have an adverse effect on our operating cash flows. We note that the

continuation or intensification of the worldwide economic crisis may have negative consequences on the business operations of our customers and adversely impact their ability to meet their financial obligations to us, resulting in unrecoverable losses on our accounts receivable. We have been strengthening our collection activities and will continue to closely monitor any changes in collection experience and the credit ratings of our customers. From time to time we will review credit periods offered, along with our collection experience and the other relevant factors, to evaluate the adequacy of our allowance for doubtful accounts, and to make changes to the allowance, if necessary. Delays or non-payment of accounts receivable would have an adverse effect on our operating cash flows.

### ***Investing Activities***

Our uses of cash for investing activities during the six months ended December 31, 2013 were for the purchase of additional property, plant and equipment to complement our existing production facilities.

Net cash flows used in investing activities for the six months ended December 31, 2013 were \$80,759, as compared with \$111,583 for the six months ended December 31, 2012. Cash flows used in investing activities decreased period-on-period as majority of the construction of the additional annealing furnaces have been completed.

We forecast lower capital expenditures in the coming years as the Company has already completed most of its major expansion plans.

### ***Financing Activities***

Net cash flows used in financing activities for the six months ended December 31, 2013 were \$223,707, as compared to \$504,269 for the six months ended December 31, 2012, for a net decrease of \$280,562, as the Company made a partial repayment of short-term loans during the six months ended December 31, 2013.

Our working capital requirements and the cash flow provided by future operating activities will vary from quarter to quarter, and are dependent on factors such as volume of business and payment terms with our customers. As such, we may need to rely on access to the financial markets to provide us with significant discretionary funding capacity. However, the current uncertainty arising out of domestic and global economic conditions, including the continuing disruption in credit markets, poses a risk to the economies in which we operate and may adversely impact our potential sources of capital financing. The general unavailability of credit could make capital financing more expensive for us or impossible altogether. Even if we are able to obtain credit, the incurrence of indebtedness could result in increased debt service obligations. In June and July 2012, we defaulted on the repayment obligations of our short-term and long-term bank loans totaling \$44,615,772. We are currently in discussions with our banks regarding the possibility to restructure these loans for repayment but have not yet agreed on specific terms. There can be no assurance that the Company will be able to successfully work out a repayment plan or otherwise fulfill its obligations under the loans. Further, each of these lenders has the right to take possession of the collateral (which collectively constitute substantial assets of the Company) granted in connection with their respective loan agreements. The unavailability of debt financing as a result of economic pressures on the credit and equity markets could have a material adverse effect on our business operations.

### ***Going Concern***

Historically, we have funded our operations and expansion expenditures from cash generated by operating activities, bank borrowings and issuance of common stock. As discussed above, the Company defaulted on the repayment obligations of its bank loans and the restructuring of these loans has not yet been agreed on. We also expect the tightened credit and slowing growth in China to continue to cause a slow turnover of our accounts receivable and have a negative impact on our operating cash flows in the next six months. The uncertainty surrounding the successful restructuring of our bank loans and our current lack of readily available liquidity provided by other third party sources raise substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

### ***Current Assets***

Edgar Filing: China Precision Steel, Inc. - Form 10-Q

Current assets decreased by \$4,712,233, or 8.4%, period-on-period, to \$51,589,030 as of December 31, 2013, from \$56,301,263 as of June 30, 2013, principally as a result of a decrease in accounts receivable of \$5,483,650, or 18.6%.

Accounts receivable, representing 46.5% of total current assets as of December 31, 2013, is a significant asset of the Company. We offer credit to our customers in the normal course of our business and accounts receivable is stated net of allowance for doubtful accounts.

As we expect the continuation or intensification of the credit tightening in China and the slowdown of the Chinese economy to continue to have negative consequences on the business operations of our customers and adversely impact their ability to meet their financial obligations to us, we have largely limited further credit sales and will only offer credit terms to customers with good payment histories.

To reserve for potentially uncollectible accounts receivable, we have made a 50% provision for all accounts receivable that are over 180 days past due and full provision for all accounts receivable over one year past due. We will also regularly review these credit periods, along with our collection experience and the other factors discussed above, to evaluate the adequacy of our allowance for doubtful accounts, and to make changes to the allowance, if necessary. If our actual collection experience or other conditions change, revisions to our allowances may be required, including a further provision which could adversely affect our operating income, or write back of provision when estimated uncollectible accounts are actually collected. Any such additional bad debt charges could materially and adversely affect our future operating results.

The following table reflects the aging of our accounts receivable based on due date as of December 31, 2013 and June 30, 2013:

**December 31, 2013**

US\$	Total	Current	1 to 30 days	31 to 90 days	91 to 180 days	181 to 360 days	over 1 year
<b>TOTAL</b>	66,492,852	6,745,913	136,929	628,692	5,989,270	20,990,204	32,001,844
<b>%</b>	100	10	<1	1	9	32	48

**June 30, 2013**

US\$	Total	Current	1 to 30 days	31 to 90 days	91 to 180 days	181 to 360 days	over 1 year
<b>TOTAL</b>	60,123,111	6,328,112	1,605,948	955,364	8,932,972	23,314,353	18,986,362
<b>%</b>	100	10	3	1	15	39	32

***Current Liabilities***

Current liabilities increased by \$13,774,784, or 20.6%, period-on-period, to \$80,792,727 as of December 31, 2013, from \$67,017,943 as of June 30, 2013. The increase was mainly attributable to an increase in advances from customers of \$8,316,725, or 571.0%, period-on-period and an increase in accounts payable and accrued liabilities of \$5,298,157 or 75.2% period-on-period.

As of December 31, 2013, we had \$28,415,772 in short-term loans and \$16,200,000 in long-term loan current portion. Principal and interest under these loans were to be repaid in full in July and June 2012, but the Company has defaulted on these repayment obligations. The Company is currently in discussion with its banks regarding the possibility to restructure these loans but there can be no assurance that the Company will be able to successfully work out a repayment plan or otherwise fulfill its obligations under the loan.

***Capital Expenditures***

During the six months ended December 31, 2013, we invested \$80,759 in purchases of additional property, plant and equipment.

### *Loan Facilities*

The following table illustrates our credit facilities as of December 31, 2013, providing the name of the lender, the amount of the facility, the date of issuance and the maturity date:

All amounts in U.S. dollars

Lender	Date of Loan	Maturity Date	Duration	Interest Rate	Principal Amount
Raiffeisen Zentralbank Österreich AG (“RZB”)	June 29, 2011	July 31, 2012	1 year	1.15 times of the PBOC rate	\$ 8,284,454 RMB (50,154,084 )
Raiffeisen Zentralbank Österreich AG	June 29, 2010	July 31, 2012	1 year	1.15 times of the PBOC rate	\$ 20,131,318 RMB (121,875,000 ) \$28,415,772
DEG – Deutsche Investitions – und Entwicklungsgesellschaft mbH	June 29, 2010	June 15, 2016	6 years	6 month USD LIBOR + 4.5%	\$ 16,200,000 RMB (98,074,800 ) \$16,200,000
Total					\$44,615,772

On January 29, 2010, Shanghai Blessford entered into a Senior Loan Agreement with DEG -Deutsche Investitions-Und EntwicklungsgesellschaftMbh, or “DEG,” for a loan amount up to \$18,000,000 at an annual interest rate of 4.5% above the six-month USD LIBOR rate. The loan is secured by a mortgage on the new cold rolling line and annealing furnaces at Shanghai Blessford’s facilities and guaranteed by the Company. The loan was to have been repaid semi-annually over five years starting on December 15, 2011, but the Company has defaulted on this repayment obligation, as well as on repayment of the June 15, 2011 installment. The Company is currently in discussions with DEG regarding the possibility to restructure the loan for repayment but has not yet agreed on specific terms. Until such agreement is reached, DEG has the right to cancel the total outstanding commitment of the loan, demand immediate repayment of the loan or any part thereof together with accrued interest, and/or terminate the loan agreement. DEG may also take possession of the collateral granted in connection with their respective loan agreements, which would have a material adverse impact on the Company. There can be no assurance that the Company will be able to successfully work out a repayment plan with DEG or otherwise fulfill its obligations under the loan.

On June 29, 2011, the Company entered into two short-term loan agreements with RaiffeisenZentralbankOsterreich AG, or “RZB,” pursuant to which the Company borrowed an aggregate of \$28,111,165 at an annual interest rate of 1.15 times the standard market rate set by the People’s Bank of China. The loans are secured by inventories, land use rights, buildings and plant and machinery, and is guaranteed by PSHL and our former Chairman, Mr. Wo Hing Li. Mr. Li also undertook to maintain a shareholding percentage in the Company of not less than 33.4% unless otherwise agreed to with RZB. Principal and interest under the loans were to be repaid in full on July 31, 2012, but the Company has defaulted on this repayment obligation. The Company is currently in discussions with RZB regarding the possibility to restructure the loans for repayment but has not yet agreed on specific terms. Any restructuring will be subject to approval by RZB’s governing bodies, and to the Company’s ability to meet certain conditions and requirements that may be imposed by the Bank. Until such agreement is reached, RZB has the right to take possession of the collateral granted in connection with the loan agreement, which action would have a material adverse impact on the Company. There can be no assurance that the Company will be able to successfully work out a repayment plan with RZB or otherwise fulfill its obligations under the loan.

### ***Obligations under Material Contracts***

Below is a table setting forth our material contractual obligations as of December 31, 2013, debt obligations include principal repayments and interest payments:

	Payments Due By Year				Fiscal Years 2018 and Beyond
	Total	Fiscal Year 2013	Fiscal Year 2014-2015	Fiscal Year 2016-2017	
Contractual obligations:					
Short-Term Debt Obligations	\$30,376,460	\$30,376,460	\$ -	\$ -	\$ -

Edgar Filing: China Precision Steel, Inc. - Form 10-Q

Current Portion of Long-Term Debt Obligations	\$ 16,985,214	\$ 16,985,214	\$ -	\$ -	\$ -
	\$ 47,361,674	\$ 47,361,674	\$ -	\$ -	\$ -

**Recent Accounting Pronouncements**

In July 2013, the FASB issued ASU No. 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists* (“ASU 2013-11”). The objective of ASU 2013-11 is to eliminate the diversities that exist in financial statement presentation. The amendments aim at attaining this objective by giving explicit guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The amendments in this Update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments of ASU 2013-11, when adopted, are not expected to have a material impact on the Company’s consolidated financial statements.

### **Seasonality**

Our operating results and operating cash flows historically have been subject to seasonal variations. Our revenues are usually higher in the second half of the calendar year than in the first half of the calendar year and the first quarter of the calendar year is usually the slowest quarter because fewer projects are undertaken during and around the Chinese New Year holidays.

### **Off-Balance Sheet Arrangements**

For the six months ended December 31, 2013, we did not have any off-balance sheet arrangements

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Not Applicable.

### **ITEM 4. CONTROLS AND PROCEDURES.**

#### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to ensure that information that would be required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including to our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15 under the Exchange Act, our management, including our Chief Executive Officer, Mr. Hai Sheng Chen, and Chief Financial Officer, Ms. Leada Tak Tai Li, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2013. Based upon, and as of the date of this evaluation, Mr. Chen and Ms. Li, determined that because of the material weaknesses described below, as of December 31, 2013, our disclosure controls and procedures were not effective.

During its review of our consolidated financial statements for the fiscal quarter ended December 31, 2013, our management concluded that our accounting staff lacked sufficient accounting skills and experience necessary to fulfill our public reporting obligations according to U.S. GAAP and the SEC's rules and regulations.

Management is currently seeking for and plans to appoint qualified personnel as soon as practicable to remediate this material weakness. Our management does not believe that this material weakness had a material effect on our financial condition or results of operations or caused our financial statements as of and for the fiscal quarter ended December 31, 2013, such as to contain a material misstatement.

### **Changes in Internal Controls over Financial Reporting**

We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities, and migrating processes.

There were no changes in our internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

**ITEM 1. LEGAL PROCEEDINGS.**

From time to time, we may become involved in various lawsuits and legal proceedings, which arise, in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these, or other matters, may arise from time to time that may harm our business.

On March 15, 2012, the Company received notice of a complaint filed by a Mr. Haining Zhang and China Venture Partners, Inc. in the U.S. Southern District Court of New York on March 9, 2012, against several defendants, including the Company, as successor to OraLabs Holding Corp. In the complaint Mr. Zhang alleges, among other things, breach of contract by the Company and certain of our former officers, directors and control persons, in connection with our December 2006 acquisition of Partner Success Holdings Limited. Mr. Zhang asserts a breach of an agreement to compensate him for services he allegedly performed in connection with seeking out a merger candidate for the Company. The Company filed a motion to dismiss, as did the other defendants, and that motion was granted on or about March 13, 2013. The Plaintiff had the right to appeal within 30 days of the court decision, and has done so. The Plaintiff has filed an appellate brief and the Company has filed a brief in opposition. We expect a decision within the next five (5) months. Although an estimate of any potential loss cannot be made at this time, the Company does not believe that its business or financial condition is materially adversely affected.

In addition to the above, certain former officers and directors have filed a lawsuit against the Company claiming that they are entitled to defense and indemnification from the Company for the claims of Mr. Zhang and China Venture Partners. Because the underlying case was dismissed without any award to the plaintiffs, these former officers and directors are seeking to recover their costs and attorney's fees expended in defending against the claims of Mr. Zhang and China Venture Partners. This action is in its early stages. Although an estimate of any potential loss cannot be made at this time, the Company does not believe that its business or financial condition is or will be materially adversely affected.

Except with respect to the foregoing proceeding, we are currently not aware of any such legal proceedings or claims that we believe will have a material adverse affect on our business, financial condition or operating results.

**ITEM 1A. RISK FACTORS.**

Not Applicable.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

None.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES.**

None.
