BOC Group chief executive Tony Isaac to continue until January 2007

The board of The BOC Group plc announced today that Tony Isaac, chief executive, will continue in his role until the annual general meeting in January 2007.

Rob Margetts, chairman, said: "I am very pleased that Tony Isaac has accepted the invitation of the board to continue as chief executive. Tony has led the Group with great skill and vigour since 1999 and has established BOC on a path of growth and financial performance. Tony and our management team will continue to follow our strategy delivering the stretching targets we have set up to 2007 and to plan for the Group's further growth in the years beyond."

BOC to buy out Duke Energy's stake
in joint venture to pressurize Mexican oil field

Windlesham, UK, 25 May 2004 -- The BOC Group and Duke Energy have agreed to terms on the sale of Duke Energy's 30 percent ownership interest in Compania de Nitrogeno de Cantarell, S.A. de C.V. (CNC) - the joint venture company that owns the world's largest nitrogen complex and supplies nitrogen to maintain pressure and increase oil recovery in Mexico's Cantarell oil field.

BOC has agreed to purchase Duke Energy's stake in CNC for US\$59.7 million in cash, increasing BOC's overall stake in CNC to 65 per cent. The deal is subject to lender approval and certain other conditions. Duke Energy acquired its ownership interests in CNC when it acquired Westcoast Energy of Canada in 2002. Marubeni Corporation and Marubeni America Corporation will retain 25 percent and 10 percent, respectively.

CNC supplies nitrogen via pipeline to Pemex Exploracion y Produccion, the exploration and production arm of Petroleos Mexicanos (Pemex), Mexico's national oil company. Since 2000, when Pemex began injecting nitrogen into the Cantarell field to reduce the reservoir's natural decline of pressure, oil production has doubled to 2 million barrels per day (BPD). Pemex attributes an increase of some 600 thousand BPD in oil production to the nitrogen injection.

"BOC is pleased to increase its share in CNC and to reaffirm its commitment to the success of the Cantarell project," said Ned Galbally, senior vice president, Process Gas Solutions, BOC. "This is a very important undertaking for BOC. We led the consortium that was awarded this project in the 1990s and we continue to stay closely involved in the day-to-day operation. Today, the Cantarell oilfield nitrogen pressurization project is a huge success and BOC has assumed an even larger role in this project's future."
