Media Release

Syngenta launches CRUISER® seed treatment on soybeans in the USA

Basel, Switzerland, 23 December 2004

Syngenta announced today the launch of its innovative seed treatment insecticide CRUISER® for use on soybeans in the USA. CRUISER® provides broad-spectrum protection against early-season insects and improves crop vigor. It is already successfully used on many crops worldwide including corn and cotton in the USA, soybeans in Brazil and canola in Canada. In 2003, the global market for seed treatment was \$1.2 billion.

"We have made significant progress this year in strengthening our position in the all important corn and soybean markets in the USA," said John Atkin, Chief Operating Officer of Syngenta Crop Protection. "The expansion of the CRUISER® portfolio will increase the breadth of our offer to growers and drive further growth in our successful seed treatment business."

CRUISER® is one of the most significant growth products for Syngenta. Combined sales of the CRUISER® and ACTARA® product family increased by 32 percent to \$219 million in the first nine months of 2004. CRUISER® is now registered in 72 countries on more than 21 crops and has proven performance on corn, soybeans, cotton, oil seed rape, sorghum, sugar beets, sun-flowers, barley, and wheat.

In addition to soybeans, CRUISER® also received registration for use on potatoes, dry beans, dry peas and succulent peas in the USA .

Edgar Filing: SYNGENTA AG - Form 6-K

Syngenta is a world-leading agribusiness committed to sustainable agriculture through innovative research and technology. The company is a leader in crop protection, and ranks third in the high-value commercial seeds market. Sales in 2003 were approximately \$6.6 billion. Syngenta employs some 19,000 people in over 90 countries. Syngenta is listed on the Swiss stock exchange (SYNN) and in New York (SYT). Further information is available at www.syngenta.com.
