Third Quarter Trading Statement 2007

Basel, Switzerland, 18 October 2007

Third quarter sales increased by 21% to \$1.7 billion; at constant exchange rates (CER) sales were 17% higher. For the first nine months sales rose 9% (CER) to \$7.4 billion.

In Crop Protection, third quarter sales rose 16% (CER) with growth across all regions. The main impetus came from Latin America where the strength of the portfolio was fully exploited in a strong market, notably Brazil and Argentina. In Europe, exceptional disease pressure in fruit and vegetables contributed to increased fungicide sales in major markets. Double digit growth in NAFTA reflected a strong US performance, particularly in herbicides. In Asia Pacific, continued progress in China, India and the emerging markets of South East Asia more than offset lower sales in Japan. For the first nine months, sales of new products rose 19% to \$949 million led by AXIAL[®], ACTARA[®], CRUISER[®] and CALLISTO[®].

Seeds sales rose 23% (CER) in the quarter driven largely by growth in Corn & Soybean in Latin America. Vegetables continued to deliver good growth with further expansion in Europe and emerging markets. The performance in Flowers reflected the consolidation of Fischer, acquired in the first half.

For the full year, continued strong performance enables the company to increase its 2007 target to high teens growth in earnings per share*.

* *Fully diluted, before restructuring, impairment, non-recurring income and share repurchase program.*

Syngenta is a world-leading agribusiness committed to sustainable agriculture through innovative research and technology. The company is a leader in crop protection, and ranks third in the high-value commercial seeds market. Sales in 2006 were approximately \$8.1 billion. Syngenta employs some 21,000 people in over 90 countries. Syngenta is listed on the Swiss stock exchange (SYNN) and in New York (SYT). Further information is available at www.syngenta.com.
