MARKET ANNOUNCEMENT

Ultrapar's specialty chemicals business Oxitenno expands operations to the United States

São Paulo, Brazil, April 9, 2012 – Ultrapar Participações S.A. (Ultrapar) hereby announces that its subsidiary Oxitenno acquired a specialty chemicals plant from Pasadena Property, LP. The total acquisition value is US\$15 million, with no debt assumption.

The plant is located in Pasadena, Texas, one of the most important chemical hubs in the world, benefiting from attractive feedstock conditions, including competitive natural gas-based raw materials, and highly efficient logistics infrastructure. Oxitenno will invest approximately US\$15 million in capital expenditures to retrofit the plant to its product line of specialty surfactants. The total production capacity will be 32 thousand tons per year and operations are expected to start in 2013.

Oxitenno's expansion plans outside Brazil stand on (i) access to competitive raw materials, (ii) access to a broader market, and (iii) cross-fertilization benefits, such as exchange of products and processes technology, global customer relationships, and development of new products and applications.

With this acquisition, Oxitenno continues its internationalization process that started in 2003, when it acquired the then third largest ethoxylates producer in Mexico. Based on careful strategic planning and execution, Oxitenno has become the market leader in that country serving both the Mexican and North American industries. Following this strategy, the company acquired in 2007 an ethoxylates business in Venezuela, the only other ethylene oxide producing country in Latin America where Oxitenno did not have operations. In 2007, Oxitenno also opened a sales office in the U.S. to enhance customer relationships.

Through this acquisition, Oxitenno will increase and strengthen its position in the Americas as a surfactants and specialty chemicals producer servicing the home & personal care, agrochemicals, coatings and industrial markets. The existing Pasadena site infrastructure allows Oxitenno to use it as a platform for future expansions in the U.S., which is the largest surfactants market in the world.
