The Company provides its preliminary results at the request of its controlling shareholder. The expected results are presented below. The expected results reflect the previously reported trends, including the heightened competition and material price erosion, as well as the Company's efficiency measures. These trends are expected to further adversely affect the Company's results of operations in Q1/2013 compared to Q4/2012. The Company will continue to implement efficiency measures in an effort to mitigate such effects. The Company will publish its 2012 annual report and full and final financial results for the full year 2012 (audited) and for the fourth quarter 2012 at the beginning of March 2013.

	Q4/2012 preliminary results (in NIS millions)
Revenues	1,370-1,390
Revenues from services	1,040-1,050
Net income	100-115
EBITDA*	360-375
FCF**	288

*EBITDA is a non-IFRS measure and is defined as income before financing income (expenses), net; other income (expenses), net; income tax; depreciation and amortization and share based payments. This is an accepted measure in the communications industry.

**Free cash flow is a non-IFRS measure and is defined as the net cash provided by operating activities minus the net cash used in investing activities excluding short-term investment in tradable debentures and deposits and proceeds from sales of such debentures (including interest received in relation to such debentures) and deposits.

For additional details regarding the Company's usage of non-IFRS financial measures see the Company's current report on the Company's results of operations in the third quarter 2012, on Form 6-K filed on November 13, 2012, under the same title.
