Chairman's Statement

Dear Shareholders,

During the first half of the year, the world's major economies has shown signs of improvement. The U.S. economy recorded a mild recovery; the European debt crisis situation continued easing. Although the rate of economic growth in China slightly declined, it is still expected that China can meet its annual economic development target this year.

Faced with a complex external environment, the Company focused on reinforcing its development. We actively promoted the development of new oil and gas fields offshore China and strengthened our management of existing producing oil and gas fields, maintaining steady production growth for the Company. For overseas development, we successfully completed the acquisition of Nexen Inc. ("Nexen") with smooth progress made for post-transaction integration. At the same time, the Company maintained strong profitability and achieved satisfactory results.

Significant achievements in exploration were made in the first half of the year. In our core operating area, offshore China, we obtained two mid-sized oil discoveries, namely Bozhong 8-4 and Kenli 10-4, and successfully appraised the oil and gas structure of Penglai 15-2. Such new discoveries and successful appraisals will provide strong support for the "New Leap Forward" blueprint of CNOOC Limited.

I am pleased to note that oil and gas production of the Company in both China and overseas continued to grow steadily. Apart from contributions from the newly acquired Nexen, new oil and gas fields brought on stream since 2012 have become the major source of our production growth. These are results of our intensive work and careful planning in offshore China, and further demonstrate the enormous potential in the offshore China area. As part of the Company's major asset portfolio, overseas projects such as Eagle Ford in the U.S. have also become an important source of production growth. While putting great efforts to boost production growth, we have continued to monitor the integrity of our production facilities to ensure safe and environment-friendly operations at our oil and gas fields.

In February 2013, the Company completed the acquisition of Nexen. Following the acquisition, we have concentrated on the integration of Nexen through setting up a special committee, formulating integration strategies, consolidating business lines and enhancing communication with Nexen's staff. For the first half of the year, the transaction has already contributed to the production of the Company. In the long run, Nexen's value to the Company as well as to our shareholders, including its ample reserve base, advanced technologies for oil and gas development, and its experienced management and employee teams, will be gradually revealed and realized.

Benefiting from strong oil and gas production growth, the Company achieved a net profit of RMB34.38 billion despite a small decline in international oil prices, representing an increase of 7.9% year over year. Based on the Company's strong financial position and in accordance with the Company's dividend policy, the board of directors of the Company declared an interim dividend of HK\$0.25 (tax inclusive) per share for the first half of 2013.

The Company has entered into a new phase of development and will endeavour to realize its "New Leap Forward" blueprint. To this end, the Company will continue to maintain its high standards in health, safety and environmental protection, strengthen risk management and build a talented team in order to raise the Company's core competitiveness and capability for sustainable development, which will lead to an even brighter future for the Company.

WANG Yilin
Chairman

CEO's Statement

Dear Shareholders,

For the first half of 2013, the Company made smooth progress in exploration, development and production as well as overseas development, maintained a sound financial position and achieved satisfactory results. I am pleased to review with you our achievements for the first half of the year and share with you our plans for the second half.

REVIEW FOR THE FIRST HALF OF THE YEAR

In the first half of the year, the Company continued to focus on exploration, development and production and achieved encouraging results. In overseas, the Company successfully completed the acquisition of Nexen which has greatly enhanced our international profile. At the same time, the Company continued to maintain sound health, safety and environmental protection records.

For exploration, achievements in offshore China remained strong and progresses were made in overseas. During the first half of the year, the Company made 7 new discoveries and 18 successful appraisal wells in offshore China. The new discovery of Bozhong 8-4 indicated a major breakthrough in oil and gas exploration on Neogene shallow layers which have shifted from uplifts to depressions, which will lead to a new phase for oil and gas exploration in the western slope of Bozhong area and reveal the exploration potential of other faults in similar geological structures. Another discovery, Kenli 10-4 opened up a new horizon in the exploration of oil and gas of south slope of Laizhou Sag. In overseas, we made a new discovery under the HBR permit in Algeria.

For development and production, net oil and gas production in the first half of the year increased significantly to 198.1 million BOE, representing an increase of 23.1% year over year. Excluding the contribution of 24.8 million BOE from Nexen, the Company's net production reached 173.3 million BOE, representing a 7.7% increase year over year, mainly benefiting from the followings:

Firstly, production from projects that commenced production since 2012, including Panyu 4-2/5-1 adjustment, Lufeng 13-2 adjustment and Liuhua 4-1, increased steadily; secondly, Penglai 19-3 oilfield resumed production, with output volume gradually returning; thirdly, in overseas, oil and gas production from Eagle Ford in the U.S. and the Missan oilfields in Iraq ramped up steadily, bringing new impetus to production growth. In addition, maintaining high production efficiency in the producing fields also contributed to the growth of production.

On 26 February 2013, the Company completed the acquisition of Nexen, creating a new milestone in the Company's overseas development. The acquisition will provide us with a more economically efficient platform with higher growth potential, and generate synergies for our existing operation, including a lower-risk, more efficient portfolio of core producing assets, access to exploration opportunities worldwide, and expanded capabilities in exploration, development, and project management. Following the completion of the transaction, the Company and Nexen began to pursue orderly integration, in the areas of management, resources development and corporate culture. As part of our commitment at the time of the acquisition, the Company has been actively working on the application for listing on the Toronto Stock Exchange.

In the first half of the year, the Company posted strong performance on key financial indicators: oil and gas sales reached RMB 110.80 billion, representing an increase of 15.8% year over year, primarily due to the increase of oil and gas production. Net profit was RMB 34.38 billion, and earnings per share amounted to RMB 0.77, representing an increase of 7.9% year over year. The cost for operations of the Company has been satisfactorily under control, resulting in an all-in cost per BOE of US\$37.81 (excluding Nexen), representing an increase of 9.3% year over year, among which the operating cost increased slightly by 2.4%.

OUTLOOK FOR THE SECOND HALF OF THE YEAR

For the second half of the year, we will continue to enhance our businesses in a meticulous and conscientious manner. Specifically, the Company will focus on the development of the following:

Firstly, promote the timely commencements of the new projects and implement recovery enhancement measures such as infill drilling to accomplish the full year production target;

Secondly, continue to carry out exploration activities and conduct the appraisal of new discoveries made during the first half of the year;

Thirdly, continue to push forward integration work following the acquisition of Nexen and maximize the value of the integration while maintaining stable and efficient operation of Nexen;

Fourthly, continue to strengthen the management and system construction for health, safety and environmental protection to ensure safe and environmental-friendly production.

In the second half of the year, we will work hard to achieve goals for the year and deliver satisfactory results to our shareholders.

LI Fanrong
Chief Executive Officer

Business Overview

EXPLORATION

In the first half of 2013, approximately 15,000 km 2D seismic data and 9,500 km² 3D seismic data were acquired and 48 exploration wells were drilled in offshore China. 7 new discoveries were made and 18 successful appraisal wells were obtained in offshore China, resulting in a success rate of independent exploration wells of 53%-81%. Meanwhile, one new discovery was made overseas, namely RDA-1 under HBR permit in Algeria.

The Company's major exploratory activities in the first half of 2013 are shown in the table below*:

* Excluding Nexen.

ENGINEERING CONSTRUCTION, DEVELOPMENT AND PRODUCTION

In the first half of the year, the Company carefully organized operation resources to enable engineering construction progressed smoothly. Weizhou 6-12 and Wenchang 8-3 east commenced production as scheduled. Suizhong 36-1 Phase II adjustment, Weizhou 12-8 west and Wenchang 19-1 north projects are ready for production with engineering construction completed. In addition, offshore installation work for Qikou 18-1 adjustment project and Liwan 3-1 was completed. In overseas, Rochelle gas field, located in North Sea, is expected to commence production in the second half of the year.

In the first half of the year, the Company's total net production recorded a strong growth and reached 198.1 million BOE, representing an increase of 23.1% year over year. Net production of the Company without taking into account 24.8 million BOE from Nexen was 173.3 million BOE, representing an increase of 7.7% year over year, of which 132.2 million BOE were from offshore China, representing an increase of 5.9% year over year, and 41.1 million BOE were from overseas, representing an increase of 13.7% year over year. The increase was mainly attributable to, firstly, the contribution from new oil and gas fields, including Panyu 4-2/5-1 adjustment, Lufeng 13-2 adjustment and Liuhua 4-1; secondly, resumption and ramp up of production from Penglai 19-3 oilfield; and thirdly, in overseas, the increased production from Eagle Ford shale oil and gas project in the U.S. and Missan oilfields in Iraq. In addition, producing fields maintained high production efficiency.

In the second half of the year, the Company will continue to implement measures to stabilize and enhance the performance of producing oil and gas fields, to ensure the timely commencement of new development projects in order to achieve the annual production target for 2013.

The Company's production by regions is shown in the table below:

CAPITAL EXPENDITURE AND COST

In the first half of 2013, cash outflow from investing activities was mainly used in acquisition, exploration activities and project development. Acquisition activities included the payments of RMB92,784 million for the acquisition of Nexen, and RMB379 million to fund Chesapeake's share of drilling and completion costs pursuant to the commitment made at the acquisition of the Niobrara project. Our development expenditures are primarily spent on the development of the Nexen's projects, Eagle Ford, OML130, and Suizhong 36-1 Phase II adjustment, as well as those incurred for improving recovery rate of the producing fields.

Compared with the first half of 2012, our expenses in the first half of 2013 increased primarily as a result of increased operating expenses and depreciation, depletion and amortization. Our operating expenses increased 49.2% to RMB 13,060 million in the first half of 2013 from RMB 8,753 million in the first half year of 2012. Our depreciation, depletion and amortization increased 74.3% to RMB 26,440 million in the first half of 2013 from RMB 15,172 million in the first half of 2012. These increases were mainly due to newly acquired business of Nexen.

For our commitment related to our exploration, development and production, please refer to note 20 – Commitments and contingencies – (i) Capital commitments to the Interim Condensed Consolidated Financial Statements on page 44 of this interim report.

Save as disclosed in this interim report, there has not been any material change in our performance and the material factors underlying our results and financial position during the first half of the year.

CNOOC Canada Holding ULC and Nexen Energy ULC (formerly known as Nexen Inc.) were amalgamated as one company under the name CNOOC Canada Holding ULC on 20 June 2013. After the amalgamation, CNOOC Canada Holding ULC changed its name to Nexen Energy ULC on the same day.

1. ORGANISATION AND PRINCIPAL ACTIVITIES (CONTINUED)

The above table lists the subsidiaries, joint venture and associates of the Company which, in the opinion of the Directors, principally affected the results for the period or formed a substantial portion of the total assets of the Group. To give details of other subsidiaries would, in the opinion of the Directors, result in particulars of excessive length.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

Basis of preparation

The interim condensed consolidated financial statements for the six months ended 30 June 2013 have been prepared in accordance with International Accounting Standard 34 (“IAS 34”) and Hong Kong Accounting Standard 34 (“HKAS 34”) Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 December 2012.

Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended 31 December 2012, except for the first time adoption of the following new and revised International Financial Reporting Standards (“IFRSs”)/Hong Kong Financial Reporting Standards (“HKFRSs”) effective for the Group’s financial year beginning on 1 January 2013:

IFRS 13/HKFRS 13 – Fair Value Measurement

IFRS 13/HKFRS 13 improves consistency and reduces complexity by providing, for the first time, a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs/HKFRSs. The requirements do not extend the use of fair value accounting, but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs/HKFRSs. Consequential amendments have been made to IAS 34/HKAS 34 to require certain disclosures to be made in the interim condensed consolidated financial statements. In accordance with the transitional provisions of IFRS 13/HKFRS 13, the Group has applied the new fair value measurement and disclosure requirements prospectively. The application of IFRS 13/HKFRS 13 has no impact to the financial position and performance of the Group but result in more extensive disclosure in the consolidated financial statements for the year ending 31 December 2013. Disclosures of fair value information are set out in note 22.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

IAS 1/HKAS 1 (Amendments) – Presentation of Items of Other Comprehensive Income

The IAS 1/HKAS 1 (Amendments) introduce new terminology, whose use is not mandatory, for statement of comprehensive income and income statement. Under the amendments to IAS 1/HKAS 1, the “statement of comprehensive income” is renamed as “statement of profit or loss and other comprehensive income” and the “income statement” is renamed as the “statement of profit or loss”. The amendments to IAS1/HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. IAS 1/HKAS 1 (Amendments) requires companies preparing financial statements in accordance with IFRSs/HKFRSs to group items of other comprehensive income into two categories: (1) items that will not be reclassified subsequently to profit or loss; and (2) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis. The amendments have been applied retrospectively, and hence the presentation of items of other comprehensive income has been modified to reflect the changes.

IAS 34/HKAS 34 (Amendments) – Interim Financial Reporting

The amendment clarifies that the total assets and liabilities for a particular reportable segment are required to be disclosed if, and only if: (1) a measure of total assets or of total liabilities (or both) is regularly provided to the chief operating decision maker; and (2) there has been a material change from those measures disclosed in the last annual financial statements for that reportable segment. The adoption of this amendment does not have any impact on the financial position or performance of the Group and the Group has followed the requirement to disclose its segment information.

The adoption of the other new and revised IFRSs/HKFRSs does not have any impact on the accounting policy, financial position or performance of the Group.

3.

ACQUISITION

On 23 July 2012, the Company, CNOOC Canada Holding Ltd. and Nexen entered into an arrangement agreement in relation to the Company's proposed acquisition (through its wholly-owned subsidiary, CNOOC Canada Holding Ltd.) of all the Nexen common shares and preferred shares, pursuant to a plan of arrangement under the Canada Business Corporations Act.

On 19 February 2013, the Company (through its wholly-owned subsidiary, CNOOC Canada Holding Ltd.) signed a short-term bank loan agreement with the maturity of one year of approximately US\$6 billion, for the payment of the consideration related to the acquisition of Nexen.

The acquisition of Nexen was subsequently completed on 26 February 2013 (Beijing time). The consideration of the acquisition was approximately US\$14.8 billion (approximately RMB92.8 billion), and was paid in cash. The consideration is related to acquisition of common shares and preferred shares. As a result of the acquisition, an additional amount of approximately US\$275 million was paid by Nexen to settle its long-term incentive plans. The indebtedness of Nexen at the acquisition date remains outstanding except for the US \$460 million of subordinated debt that was subsequently repaid.

3.

ACQUISITION (CONTINUED)

The fair values of the identifiable assets and liabilities of Nexen as at the date of acquisition are as follows:

	Fair value recognised on acquisition
Property, plant and equipment	151,016
Intangible assets	3,586
Investment in associate	234
Deferred tax assets	119
Other non-current assets	892
Trade receivables	11,148
Inventories and supplies	2,782
Other current assets	672
Cash and cash equivalents	4,858
Trade and accrued payables	(17,678)
Taxes payable	(1,399)
Other payables and accrued liabilities	(529)
Loans and borrowings	(34,893)
Provisions for dismantlement	(12,992)
Deferred tax liabilities	(26,745)
Other non-current liabilities	(1,681)
Net assets acquired	79,390
Goodwill on acquisition	13,394
Satisfied by cash	92,784

The goal of the Nexen acquisition was to provide for a more economically efficient platform with higher and more consistent growth potential. The new portfolio is expected to be better balanced, with lower-risk resource plays located in OECD countries that help smooth out the volatility inherent in the Group's other international programs. More importantly, the acquisition results in the Company holding increased positions in Canadian oil sands and proven offshore basins, which tie directly to the Company's strategy to identify and develop unconventional resources and explore in related proven basins.

3.

ACQUISITION (CONTINUED)

The fair values disclosed above are provisional subject to finalisation of valuation for the identifiable assets and liabilities. The review of the fair value of the assets and liabilities acquired will be completed within 12 months after the acquisition date.

An analysis of the net outflow of cash and cash equivalents in respect of the acquisition is as follows:

Cash consideration	92,784
Cash and cash equivalents acquired	(4,858)
Net outflow of cash and cash equivalents in respect of the acquisition	87,926

Since the acquisition, Nexen contributed RMB15,356 million to the Group's turnover and RMB197 million to the consolidated profit for the period.

Had the acquisition taken place at the beginning of the period, the revenue of the Group and the consolidated profit for the period would have been RMB146,639 million and RMB34,710 million, respectively.

Legal and professional fees related to the acquisition were approximately RMB474 million. The expenses are charged to the statement of profit or loss directly.

4. OIL AND GAS SALES AND MARKETING REVENUES

Oil and gas sales represent the invoiced value of sales of oil and gas attributable to the interests of the Group, net of royalties, obligations to governments and other mineral interest owners. Revenue from the sale of oil is recognised when the significant risks and rewards of ownership have been transferred, which is when title passes to the customer. Revenue from the production of oil and gas in which the Group has a joint interest with other producers is recognised based on the Group's working interest and the terms of the relevant production sharing contracts. Differences between production sold and the Group's share of production are not significant.

Marketing revenues principally represent the sales of oil and gas purchased from the foreign partners under the production sharing contracts and revenues from the trading of oil and gas through the Company's subsidiaries. The cost of the oil and gas sold is included in "Crude oil and product purchases" in the interim condensed consolidated statement of profit or loss and other comprehensive income. In addition, the Group's trading activities in North America involves entering into contracts to purchase and sell crude oil, natural gas and other energy commodities, and use derivative contracts, including futures, forwards, swaps and options for hedging and trading purposes (collectively derivative contracts). Any change in the fair value is also included in marketing revenue.

5. SPECIAL OIL GAIN LEVY

In 2006, a Special Oil Gain Levy ("SOG Levy") was imposed by the Ministry of Finance of the PRC ("MOF") at the progressive rates from 20% to 40% on the portion of the monthly weighted average sales price of the crude oil lifted in the PRC exceeding US\$40 per barrel. MOF has decided to increase the threshold of the SOG Levy to US\$55, with effect from 1 November 2011. Notwithstanding this adjustment, the SOG Levy will continue to have five levels and will be calculated and charged according to the progressive and valorem rates on the excess amounts. The SOG Levy paid can be claimed as a deductible expense for corporate income tax purposes and is calculated based on the actual volume of the crude oil entitled.

6. FINANCE COSTS

Accretion expenses of approximately RMB893 million (six months ended 30 June 2012: approximately RMB647 million) relating to the provision for dismantlement liabilities have been recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income for the six months ended 30 June 2013.

7. TAX

(i) Income tax

The Company and its subsidiaries are subject, on an entity basis, to income taxes on profits arising in or derived from the tax jurisdictions in which the entities of the Group are domiciled and operate. The Company is subject to profits tax at a rate of 16.5% (2012: 16.5%) on profits arising in or derived from Hong Kong, which is qualified as a foreign tax credit to offset the PRC corporate income tax starting from 1 January 2008.

The Company is regarded as a Chinese Resident Enterprise (as defined in the “Enterprise Income Tax Law of the People’s Republic of China”) by the State Administration of Taxation of the PRC. As a result, the Company is subject to the PRC corporate income tax at the rate of 25% starting from 1 January 2008.

The Company’s subsidiary in Mainland China, CNOOC China Limited, is a wholly-owned foreign enterprise. It is subject to corporate income tax at the rate of 25% under the prevailing tax rules and regulations.

Operating subsidiaries of the Group domiciled outside the PRC are subject to income tax at rates ranging from 10% to 62%.

7.

TAX (CONTINUED)

(ii)

Other taxes

The Company's PRC subsidiaries pay the following other taxes and dues:

~~Production taxes at the rate of 5% on independent production and production under production sharing contracts;~~

Resource taxes at the rate of 5% (reduced tax rates may apply to specific products and fields) on the oil and gas sales revenue (excluding production taxes) derived by oil and gas fields under production sharing contracts signed after 1 November 2011 and independent offshore oil and gas fields starting from 1 November 2011, which replaced the royalties for oil and gas fields, except for those under production sharing contracts signed before 1 November 2011 which will be subject to related resource taxes requirement after the expiration of such production sharing contracts;

Mineral resource compensation at the temporary rate of 1% (reduced tax rates may apply) on the oil and gas sales revenue derived by oil and gas fields under production sharing contracts signed after 1 November 2011 and independent offshore oil and gas fields starting from 1 November 2011;

– Export tariffs at the rate of 5% on the export value of petroleum oil;

– Business tax at rates of 3% to 5% or value-added tax at the rate of 6% on other income;

~~City construction tax at the rate of 1% or 7% on the actual paid production taxes, business tax and value-added tax;~~

~~Educational surcharge at the rate of 3% on the actual paid production taxes, business tax and value-added tax; and~~

~~Local educational surcharge at the rate of 2% on the actual paid production taxes, business tax and value-added tax.~~

In addition, other taxes paid and payable by the Company's non-PRC subsidiaries include royalties as well as taxes levied on petroleum-related income, profit, budgeted operating and capital expenditures.

The other comprehensive income or loss of the Group's available-for-sale investments was derived from investment of corporate wealth management products, liquidity funds and the investment in the equity securities of MEG Energy Corporation.

10. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2013, additions to the Group's property, plant and equipment, including the property, plant and equipment acquired in acquisitions, amounted to approximately RMB190,309 million (six months ended 30 June 2012: approximately RMB32,474 million).

The interest of the Group in the North West Shelf ("NWS") Project in Australia has been collateralised to the other partners of the project as security for certain of the Group's liabilities relating to the project.

Included in the current period's additions was an amount of approximately RMB1,103 million (six months ended 30 June 2012: approximately RMB684 million) in respect of interest capitalised in property, plant and equipment.

11. INTANGIBLE ASSETS

The intangible assets of the Group comprise software, gas processing rights of the NWS Project, marketing transportation and storage contracts, drilling rights contracts and seismic data usage rights. The computer softwares are amortised over their respective useful lives on the straight-line basis. The intangible asset regarding the gas processing rights has been amortised upon the commencement of commercial production of the liquefied natural gas using the unit-of-production method. The intangible assets regarding the marketing transportation and storage contracts and drilling rights contracts are amortised over the life of the contracts. The intangible assets related to the seismic data usage rights are amortized over the estimated useful life of the seismic data.

Included in intangible assets is an amount of USD2,133 million (equivalent to RMB13,394 million and RMB13,183 million as at the date of acquisition and 30 June 2013, respectively) related to goodwill with respect to the acquisition of Nexen (note 3).

12. TRADE RECEIVABLES

The credit terms of the Group are generally within 30 days after the delivery of oil and gas. Payment in advance or collateral may be required from customers, depending on credit rating. Trade receivables are non-interest-bearing.

As at 30 June 2013 and 31 December 2012, substantially all the trade receivables were aged within 30 days. All customers have a good repayment history and no receivables are past due.

13. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include restricted cash for margin deposits of approximately RMB247 million relating to the Group's exchange-traded derivative contracts used in the energy marketing business.

14. TRADE AND ACCRUED PAYABLES

As at 30 June 2013 and 31 December 2012, substantially all the trade and accrued payables were aged within six months. The trade and accrued payables are non-interest-bearing.

18. SHARE OPTION SCHEMES (CONTINUED)

Other than those disclosed in these interim condensed consolidated financial statements, no right to subscribe for equity or debt securities of the Company was granted by the Company to, nor have any such rights been exercised by, any other person during the six months ended 30 June 2013.

The assumptions on which the option pricing model is based represent the subjective estimation of the Directors as to the circumstances existing at the time the options were granted.

19. RELATED PARTY TRANSACTIONS

As disclosed in note 1, the Company is a subsidiary of CNOOC, which is a state-owned enterprise subject to the control of the State Council of the PRC. The State Council of the PRC directly and indirectly controls a significant number of state-owned entities and organisations.

Comprehensive framework agreement with CNOOC in respect of a range of products and services

As the Group is controlled by CNOOC, transactions with CNOOC, its subsidiaries and associates (the “CNOOC Group”) are disclosed as related party transactions. The Company entered into a comprehensive framework agreement with CNOOC on 1 November 2010 for the provision (1) by the Group to the CNOOC Group and (2) by the CNOOC Group to the Group, of a range of products and services which may be required and requested from time to time by either party and/or its associates in respect of the continuing connected transactions. The term of the comprehensive framework agreement is for a period of three years from 1 January 2011. The continuing connected transactions and relevant annual caps were approved by the independent shareholders of the Company on 24 November 2010. The annual caps of the “sales of petroleum and natural gas products (other than long-term sales of natural gas and liquefied natural gas)” and “provision of exploration and support services” categories for the years 2012 and 2013 were revised in 2012. The approved related party/continuing connected transactions are as follows:

19. RELATED PARTY TRANSACTIONS (CONTINUED)

Pricing principles

The related party/continuing connected transactions referred to in paragraphs 1(a) to 1(d) above provided by the CNOOC Group to the Group and paragraph 2 above provided by the Group to CNOOC and/or its associates are based on negotiations with the CNOOC Group on normal commercial terms, or on terms no less favourable than those available to the Group from independent third parties, under prevailing local market conditions, including considerations such as volume of sales, length of contracts, package of services, overall customer relationship and other market factors.

For services provided by the CNOOC Group to the Group as described above, on the basis of the above pricing principle, such services must be charged in accordance with the following pricing mechanism and in the following sequential order:

- (i) state-prescribed prices; or
- (ii) where there is no state-prescribed price, market prices, including the local, national or international market prices; or
- (iii) when neither (i) nor (ii) is applicable, the costs of the CNOOC Group for providing the relevant service (including the cost of sourcing or purchasing from third parties) plus a margin of not more than 10%, before any applicable taxes.

The related party/continuing connected transactions referred to in paragraph 1(e) above provided by the CNOOC Group to the Group are at market prices on normal commercial terms which are calculated on a daily basis.

The related party/continuing connected transactions referred to in paragraphs 3(a) above provided by the Group to the CNOOC Group are at state-prescribed prices or local, national or international market prices and on normal commercial terms.

The related party/continuing connected transactions referred to in paragraphs 3(b) above provided by the Group to the CNOOC Group are at state-prescribed prices or local, national or international market prices and on normal commercial terms, which are subject to adjustment in accordance with movements in international oil prices as well as other factors such as the term of the sales agreement and the length of the relevant pipeline.

The following is a summary of significant related party transactions entered into in the ordinary course of business between the Group and its related parties during the period and the balances arising from related party transactions at the end of the period:

(vii) Transactions and balances with other state-owned entities

The Group enters into extensive transactions covering purchases or sales of crude oil, natural gas, property, plant and equipment and other assets, receiving of services, and making deposits and borrowings with state-owned entities, other than the CNOOC Group, in the normal course of business at terms comparable to those with other non state-owned entities. The purchases of property, plant and equipment and other assets, and receipt of services from these state-owned entities are individually not significant. The individually significant sales transactions with these state-owned entity customers: 16% (six months ended 30 June 2012: 29%) of the Group's revenue in the six-month period ended 30 June 2013 is generated from crude oil and natural gas sold to two major customers, PetroChina Company Limited and China Petroleum and Chemical Corporation. These two customers are controlled by the Chinese government. Other transactions with enterprises which are controlled, jointly controlled or significantly influenced by the same government are individually not significant and are in the ordinary course of business. In addition, the Group has certain of its cash and time deposits and outstanding short-term bank loans with certain state-owned banks in the PRC as at 30 June 2013, as summarised below:

	30 June 2013 (Unaudited)	31 December 2012 (Audited)

Notes:

- a) These represent the services for production operations, the provision of various facilities and ancillary services, such as provision of different types of materials, medical and employee welfare services, maintenance and repair of major equipment and supply of water, electricity and heat to the Group, some of which may not be available from independent third parties or available on comparable terms.
- b) These include marketing, administration and management, management of oil and gas operations and integrated research services as well as other ancillary services relating to exploration, development, production and research activities of the Group. In addition, CNOOC and/or its associates leased certain premises to the Group for use as office premises and staff quarters out of which they provided management services to certain properties.
- c) CNOOC Energy Technology & Services Limited leased floating production, storage and offloading (FPSO) vessels to the Group for use in oil production operations.
- d) The sales include crude oil, condensate oil, liquefied petroleum gas, natural gas and liquefied natural gas to CNOOC Group. Individual sales contracts were entered into from time to time between the Group and CNOOC Group.
- e) It is the market practice for sales terms to be determined based on the estimated reserves and production profile of the relevant gas fields. The long-term sales contracts usually last for 15 to 20 years.

RELATED PARTY TRANSACTIONS (CONTINUED)

Notes (continued):

f) CNOOC Finance is a 31.8% owned associate of the Company and also a subsidiary of CNOOC. Under the renewed financial services framework agreement with CNOOC Finance dated 20 August 2010, CNOOC Finance continues to provide to the Group settlement, depository, discounting, loans and entrustment loans services. The renewal agreement is effective from 1 January 2011 to 31 December 2013. The depository services were exempted from independent shareholders' approval requirements under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). The stated deposits in (iv) (b) above represent the maximum daily outstanding balance for deposits (including accrued interest excluding funds placed for the purpose of extending entrustment loans pursuant to the entrustment loan services) during the period/year.

Coalbed Methane Resources Exploration and Development Cooperation Agreement with China United Coalbed Methane Corporation Limited

On 3 August 2012, CNOOC China Limited, a wholly-owned subsidiary of the Company, entered into the Coalbed Methane Resources Exploration and Development Cooperation Agreement (the "Cooperation Agreement") with China United Coalbed Methane Corporation Limited ("CUCBM") in connection with the exploration, development, production and sale of Coalbed Methane ("CBM") and CBM products within the contract areas (as defined in the Cooperation Agreement). The term of the Cooperation Agreement commences on the effective date and expires on the later of (i) 30 years from the effective date of the Cooperation Agreement, and (ii) the end of the production period of the last CBM field (as defined in the Cooperation Agreement) in the contract areas, unless otherwise agreed by CNOOC China Limited and CUCBM. The Cooperation Agreement and the transactions contemplated thereunder were approved by independent shareholders of the Company on 21 August 2012. As at the date of the Cooperation Agreement, CNOOC China Limited expected to incur total expenses of RMB9,933.3 million (being (1) RMB9,713.3 million for the initial three years of the five years' exploration period, plus (2) the minimum exploration costs of RMB220 million as required under the applicable PRC laws and regulations for the remaining two years of the exploration period). CUCBM is a connected person of the Company, hence the Cooperation Agreement constitutes a connected transaction of the Company under the Listing Rules. As of 30 June 2013, the accumulated investment incurred was RMB233 million.

The related party transactions in respect of items listed above also constitute connected transactions or continuing connected transactions as defined in Chapter 14A of the Listing Rules.

The amount due to the parent company and amounts due from/to related parties are unsecured, interest-free and are repayable on demand, unless otherwise disclosed.

The above table includes minimum lease payments of approximately RMB1,559 million (31 December 2012: RMB1,379 million) to the CNOOC Group.

20. COMMITMENTS AND CONTINGENCIES (CONTINUED)

(iii)

Contingencies

(a) On 8 January 2006, the Company signed a definitive agreement with South Atlantic Petroleum Limited (“SAPETRO”) to acquire a 45% working interest in the Offshore Oil Mining Lease 130 (“OML130”) in Nigeria (the “OML130 Transaction”) and the OML130 Transaction was completed on 20 April 2006.

In 2007, a local tax office in Nigeria (the “Nigerian Local Tax Office”) conducted a tax audit on SAPETRO. According to the preliminary tax audit results, the Nigerian Local Tax Office has raised a disagreement with the tax filings made for the OML130 Transaction.

The tax audit assessment made by the Nigerian Local Tax Office has been contested by the Company in accordance with Nigerian laws. The Company then filed a suit in the Nigerian Federal High Court (“FHC”). In March 2011, the FHC delivered a binding judgement in favour of the Company, agreeing that the Company is not subject to Value Added Tax for the OML130 Transaction. The judgement was appealed by counterparties to the High Court. After seeking legal advice, the Company’s management believes that the Company has reasonable grounds in defending for such appeal. Consequently, no provision has been made for any expenses which might arise as a result of the dispute.

20. COMMITMENTS AND CONTINGENCIES (CONTINUED)

(iii) Contingencies (continued)

(b) On 26 October 2011, the Company received a notice of assessment from Federal Inland Revenue Service of Nigeria (“FIRS”), confirming that the effective Petroleum Profit Tax (“PPT”) and related tax in the year of 2010 for the Company’s investment in OML130 project, shall be calculated and payable on the basis of the PPT Tax Return prepared by Nigerian National Petroleum Corporation (“NNPC”). The Company contested the notice of assessment. On 13 January 2012, the Company, together with SAPETRO (collectively referred to as the “PSC Partners”), has filed an appeal in relation thereto to the local Tax Appeal Tribunal (“TAT”). Since TAT ruled that it has jurisdiction over this dispute and struck out NNPC as the defendant, NNPC has filed an appeal to FHC against TAT’s decision. Therefore, TAT suspended its ongoing proceeding for the verdict of FHC.

The Company received a notice of assessment issued by FIRS on 13 June 2012, stating that the investment tax allowance (“ITA”), instead of investment tax credit (“ITC”) should be applied for the PPT calculation of the Company’s investment in OML130 project. In July 2012, the PSC Partners filed an appeal in relation thereto to the TAT. However, whether TAT has jurisdiction over this dispute is uncertain under the Nigerian Law. In order to protect the right of action, the PSC Partners filed an application to the FHC on 13 September 2012, seeking the permission to file a lawsuit over the application of ITA/ITC dispute at the FHC. The appeal over ITA/ITC dispute at TAT was withdrawn on 9 November 2012. No verdict has been issued to date, and the results of the appeals are still uncertain.

(c) As a Chinese Resident Enterprise, the Company may be liable to pay taxes on the deemed interest income for the funding provided to its overseas subsidiaries starting from 1 January 2008. The Company has prepared contemporaneous documentation in accordance with applicable PRC tax laws and regulations and is currently awaiting confirmation from its in-charge tax authority.

20. COMMITMENTS AND CONTINGENCIES (CONTINUED)

(iii) Contingencies (continued)

(d) Two oil spill accidents occurred on 4 June and 17 June 2011 respectively at Platforms B and C of Penglai 19-3 oilfield, which is being operated under a production sharing contract (“PSC”) among CNOOC China Limited, the subsidiary of the Company, and two subsidiaries of ConocoPhillips (“ConocoPhillips”), a US based oil company, among which ConocoPhillips China Inc. (“COPC”) is the operator and responsible for the daily operations of the oilfield.

On 21 June 2012, the State Oceanic Administration of the PRC (the “SOA”) announced the Accident Investigation and Settlement Report by a Joint Investigation Team on the Penglai 19-3 Oilfield Oil Spill Accidents, pointing out that the Joint Investigation Team has concluded that COPC violated the oilfield Overall Development Program, had defects in its operation procedures and management, and failed to take necessary precautionary measures against foreseen risks, all of which eventually resulted in the oil spills. The Penglai 19-3 Oilfield Oil Spill Accidents were accidents involving liabilities, causing significant marine pollution by oil spill. Pursuant to the PSC, COPC (the operator of the oilfield) shall bear full responsibility for the oil spill accidents. On 16 February 2013, the SOA announced, through its official website, that following a series of rectification measures, COPC was permitted to gradually resume the production of the Penglai 19-3 oilfield.

The Company is of the view that the Company’s obligations, if any, arising from the above mentioned accidents shall be determined in accordance with relevant laws and regulations, the PSC and related agreements, among others. Based on evaluations performed as of the date of the interim condensed consolidated financial statements, the Company believes that it is not possible to determine provisions, if any, for the above mentioned accidents in these financial statements. The financial impact of such oil spill accidents on the Company is still uncertain, and the Company has not made any provision for the accidents in these financial statements.

20. COMMITMENTS AND CONTINGENCIES (CONTINUED)

(iii) Contingencies (continued)

(e) On 11 October 2012, the Company was served with a purported class action complaint filed by Sam Sinay, individually and on behalf of all others similarly (the “Plaintiff”) situated in the United States District Court for the Southern District of New York (the “Trial Court”) (the foregoing legal action is therein below referred as the “Complaint”). The Complaint is lodged against the Company and certain of its officers, which alleges that during the period between 27 January 2011 and 16 September 2011, the Company made materially false and misleading statements regarding its business and financial results and the oil spill accidents occurred at the Penglai 19-3 oilfield.

On 21 December 2012, the Company filed a motion to dismiss the Complaint in the Trial Court.

On 4 April 2013, the judge of the Trial Court approved the Plaintiff’s voluntary dismissal, without prejudice, to its claims against the officers of the Company. On 6 May 2013, the judge of the Trial Court granted the Company’s motion to dismiss in the entirety with prejudice. On 5 June 2013, the Plaintiff appealed to the United States Court of Appeals for the Second Circuit.

The Company believes that the allegations and the claims in the Complaint are without merit and intends to defend itself vigorously against such claims and no provision has been made in these financial statements.

21.

SEGMENT INFORMATION

In previous corresponding periods, the Group reported three segments that comprised independent operations, operations under joint arrangements and trading business. The Group is engaged worldwide in the upstream operating activities of the oil and gas, shale oil and gas, oil sands and other unconventional oil and gas business. Segmental reporting has been changed with effect from the second half of 2012 and such change has been reflected in the consolidated financial statements for the year ended 31 December 2012, in line with the change in the way the Group's businesses are managed by the chief operating decision makers. The Group now reports the business through three reporting segments: exploration and production ("E&P"), trading business and corporate. Within each segment, geographical segments are presented as well and there are two new segments, South America and Europe, during the six months ended 30 June 2013. Segment information for the six months ended 30 June 2012 has been restated to conform to current period's presentation.

The following table presents revenue, profit and assets and liabilities information for the Group's segments.

22. FINANCIAL INSTRUMENTS

Fair value of financial instruments

The carrying values of the Group's cash and cash equivalents, time deposits, trade receivables, other current assets, trade and accrued payables, other payables and accrued liabilities and short-term loans approximated to their fair values at the reporting date due to the short maturity of these instruments.

At 30 June 2013, the fair value of the Group's long-term bank loans with floating interest rates approximated to the carrying amount of RMB3,384 million.

The estimated fair value of the Group's long-term guaranteed notes, based on current market interest rates was approximately RMB77,216 million as at 30 June 2013, which was determined by reference to the market price as at 30 June 2013.

Fair value hierarchy

The Group uses the following hierarchy that reflects the significance of the inputs used in making the fair value measurement:

Level quoted prices (unadjusted) in active markets for identical assets or liabilities. Active markets are those in which
1: transaction occur in sufficient frequency and volume to provide pricing information on an on-going basis.

Level fair value are those derived from inputs other than quoted prices included within Level 1 that are observable for
2: the asset or liability, either directly or indirectly. Instruments in this category include non-exchange traded derivatives such as over-the-counter physical forwards and options, including those that have prices similar to quoted market prices, private equity funds and corporate wealth management products. The Group obtains information from sources of independent price publications, over-the-counter broker quotes and the fund management's quotations as at the reporting date.

Level fair value measurements are those derived from valuation techniques that include inputs for the asset or liability
3: that are not based on observable market data (unobservable inputs), or where the observable data does not support the majority of the instruments fair value.

22. FINANCIAL INSTRUMENTS (CONTINUED)

Fair value hierarchy (continued)

As at 30 June 2013, the Group held the following financial instruments measured at fair value for each hierarchy respectively:

	30 June 2013	Level 1	Level 2	Level 3
Assets measured at fair value				
Available-for-sale financial assets – current				
Private equity funds	15	–	15	–
Corporate wealth management products	46,173	–	46,173	–
Liquidity funds	6,632	6,632	–	–
Derivative financial assets – current	305	11	118	176
	53,125	6,643	46,306	176
Available-for-sale financial assets – non current				
Equity investment in MEG	4,870	4,870	–	–
Derivative financial assets – non current	12	–	12	–
	4,882	4,870	12	–
Liabilities measured at fair value				
Derivative financial liabilities – current	(232)	(79)	(57)	(96)
Derivative financial liabilities – non current	(12)	–	(12)	–

The Group enters into contracts to purchase and sell crude oil, natural gas and other energy commodities, and use derivative contracts, including futures, forwards, swaps and options for hedging and trading purposes (collectively derivative contracts). The Group also use derivatives to manage foreign currency risk for non-trading purposes. For purposes of estimating the fair value of the derivative contracts, wherever possible, the Group utilises quoted market price and, if not available, estimates from third-party brokers. These brokers' estimates are corroborated with multiple sources and/or other observable market data utilising assumptions that market participants would use when pricing the assets or liabilities, including assumptions about risk and market liquidity. Inputs may be readily observable, market-corroborated or generally unobservable. The Group utilises valuation techniques that seek to maximise the use of observable inputs and minimise the use of unobservable inputs. To value longer term transactions and transactions in less active markets for which pricing information is not generally available, unobservable inputs may be used. In these instances, internally developed methodologies are used to determine fair value, which primarily includes extrapolation of observable future prices to similar locations, similar instruments or later time periods. Key inputs are forward price of the underlying commodity, which may be observable or unobservable, discount rate and foreign exchange rates. The derivatives are classified according to the above fair value hierarchy based on the amount of observable inputs used to value the instruments. For derivatives categorised within level 3 of the fair value hierarchy, the significant unobservable inputs used in the fair value measurement includes the extrapolation of future price of commodity.

22.

FINANCIAL INSTRUMENTS (CONTINUED)

Fair value hierarchy (continued)

No amounts have been transferred between the different levels of the fair value hierarchy for the period.

A reconciliation of changes in the fair value of the derivatives classified as Level 3 for the period ended 30 June 2013 is provided below:

Level 3 Reconciliation of derivative financial assets and liabilities, net

Fair value, beginning of period	–
Acquisition of subsidiaries	279
Net gains in profit or loss	150
Settlements	(349)
Fair value, end of period	80

Items classified in Level 3 are generally economically hedged such that gains or losses on positions classified in Level 3 are often offset by gains or losses on positions classified in Level 1 or Level 2. The Group performed a sensitivity analysis of inputs used to calculate the fair value of Level 3 instruments. Using reasonably possible alternative assumptions, the fair value of Level 3 instruments at 30 June 2013 could decrease by RMB11 million.

Report on Review of Interim Condensed Consolidated Financial Statements

TO THE BOARD OF DIRECTORS OF
CNOOC LIMITED

(Incorporated in the Hong Kong Special Administrative Region with limited liability)

INTRODUCTION

We have reviewed the interim condensed consolidated financial statements of CNOOC Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 10 to 57 which comprise the interim condensed consolidated statement of financial position as of 30 June 2013 and the related interim condensed consolidated statements of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended and certain explanatory notes. The Main Board Listing Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 “Interim Financial Reporting” (“IAS 34”) issued by the International Accounting Standards Board or Hong Kong Accounting Standard 34 “Interim Financial Reporting” (“HKAS 34”) issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with IAS 34 and HKAS 34. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of these interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 and HKAS 34.

*Except for share options granted under the Pre-Global Offering Share Option Scheme, all share options granted are subject to a vesting schedule pursuant to which one-third of the options granted vest on the first, second and third anniversaries of the date of grant, respectively, such that the options granted are fully vested on the third anniversary of the date of grant.

** Mr. Chiu Sung Hong exercised his right to subscribe for 1,150,000 shares of options granted under the 2002 Share Option Scheme of the Company on 19 July 2013 and the allotment was completed on 26 July 2013.

During the six months ended 30 June 2013, no share options granted under the share option schemes of the Company were exercised.

DIRECTORS' INTERESTS (CONTINUED)

All the interests stated above represent long positions. As at 30 June 2013, save as disclosed above, none of the Directors and chief executive of the Company was interested in the equity or debt securities of the Company or any associated corporations (within the meaning of the SFO) which were required (i) to be notified to the Company and the HKSE pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which they are taken or deemed to have under such provisions of the SFO), (ii) pursuant to section 352 of the SFO, to be entered in the register referred to therein or (iii) pursuant to the Model Code, to be notified to the Company and the HKSE.

Other than those disclosed in this interim report, no right to subscribe for equity or debt securities of the Company has been granted by the Company to, nor have any such rights been exercised by, any other person during the six months ended 30 June 2013.

SUBSTANTIAL INTERESTS IN SHARE CAPITAL

As at 30 June 2013, so far as was known to the Directors and chief executive of the Company, the persons, other than a Director or chief executive of the Company, who had an interest or a short position in the Shares and underlying Shares which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO were as follows:

	Ordinary shares held	Percentage of total issued shares	
(i) CNOOC (BVI) Limited	28,772,727,268	64.45	%
(ii) Overseas Oil & Gas Corporation, Ltd. ("OOGC")	28,772,727,273	64.45	%
(iii) CNOOC	28,772,727,273	64.45	%

Note: CNOOC (BVI) Limited is a direct wholly owned subsidiary of OOGC, which is a direct wholly owned subsidiary of CNOOC. Accordingly, CNOOC (BVI) Limited's interests are recorded as the interests of OOGC and CNOOC.

All the interests stated above represent long positions. As at 30 June 2013, save as disclosed above, the Directors and chief executive of the Company are not aware of any other person having interests or short positions (other than the Directors and chief executives of the Company) in the Shares and underlying Shares which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO, or who is, directly or indirectly, interested in 10% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of any other member of the Group.

INFORMATION ON SHARE OPTION SCHEMES

The Company has adopted the following share option schemes for the grant of options to the Company's Directors, senior management and other eligible grantees:

1. Pre-Global Offering Share Option Scheme (as defined below);
2. 2001 Share Option Scheme (as defined below);
3. 2002 Share Option Scheme (as defined below); and
4. 2005 Share Option Scheme (as defined below).

Under these share option schemes, the Remuneration Committee of the Board will from time to time propose for the Board's approval the grant of share options and the number of share options to be granted to the relevant grantees. The maximum aggregate number of shares (including those that could be subscribed for under the 2002 Share Option Scheme and the 2005 Share Option Scheme) which may be issued upon exercise of all options granted shall not exceed 10% of the total issued share capital of the Company as at 31 December 2005, being the date on which the shareholders of the Company approved the 2005 Share Option Scheme, excluding shares under options which have lapsed.

Pre-Global Offering Share Option Scheme and 2001 Share Option Scheme

On 4 February 2001, the Company adopted a pre-global offering share option scheme (the "Pre-Global Offering Share Option Scheme") and a share option scheme (the "2001 Share Option Scheme"). The exercise periods for all options granted under the Pre-Global Offering Share Option Scheme and the 2001 Share Option Scheme have lapsed.

2002 Share Option Scheme

In June 2002, the Company adopted a new share option scheme (the "2002 Share Option Scheme") for the purposes of recognising the contribution that certain individuals had made to the Company and for attracting and retaining the best available personnel to the Company.

Under the 2002 Share Option Scheme, the Board may, at its discretion, offer to grant to the directors and employees of the Company or any of its subsidiaries options to subscribe for shares of the Company. The maximum number of shares in respect of which options may be granted under the 2002 Share Option Scheme to any individual in any 12-month period up to the date of the latest grant shall not exceed 1% of the total issued share capital of the Company from time to time.

INFORMATION ON SHARE OPTION SCHEMES (CONTINUED)

According to the 2002 Share Option Scheme, the consideration payable by a grantee for the grant of options will be HK\$1.00. The exercise price for such options is determined by the Board at their discretion at the date of grant, except that such price shall be not less than the higher of:

1. the nominal value of a share of the Company on the date of grant;
2. the average closing price of the shares on HKSE as stated in the HKSE's quotation sheets for the five trading days immediately preceding the date of grant; and
3. the closing price of the shares on the HKSE as stated in the HKSE's quotation sheets on the date of grant.

The exercise periods for the options granted under the 2002 Share Option Scheme shall end not later than 10 years from the date of grant.

On 31 December 2005, the Company terminated the 2002 Share Option Scheme. Upon termination of the 2002 Share Option Scheme, no further options may be granted under the 2002 Share Option Scheme, but in all other respects the provisions of the 2002 Share Option Scheme shall remain in force. The outstanding options under the 2002 Share Option Scheme shall continue to be subject to the provisions of the 2002 Share Option Scheme.

2005 Share Option Scheme

On 31 December 2005, the Company adopted a new share option scheme (the "2005 Share Option Scheme"). Under the 2005 Share Option Scheme, the Board has the authority to grant options to subscribe for shares to the directors, officers and employees of the Company and its subsidiaries, and any other persons who in sole discretion of the Board have contributed or will contribute to the Group. Unless approved by the shareholders, the total number of shares issued and to be issued upon exercise of the options granted to each individual (including exercised and unexercised options) under the 2005 Share Option Scheme or any other share option scheme adopted by the Company, in any 12 months period, must not exceed 1% of the shares in issue of the Company.

According to the 2005 Share Option Scheme, the consideration payable by a grantee for the grant of options will be HK\$1.00. The exercise price for such options will be determined by the Board at its discretion at the date of grant, except that such price shall be at least the higher of:

1. the nominal value of a share of the Company on the date of grant;
2. the average closing price of the shares as stated in the HKSE's daily quotation sheets for the five trading days immediately preceding the date of grant; and
3. the closing price of the shares as stated in the HKSE's daily quotation sheets on the date of grant.

INFORMATION ON SHARE OPTION SCHEMES (CONTINUED)

The period within which the options must be exercised, as well as any minimum holding period or performance targets which apply to the options, will be specified by the Board at the time of grant. The exercise periods for options granted under the 2005 Share Option Scheme shall end not later than 10 years from the date of grant. No options may be granted under the 2005 Share Option Scheme after the date of the 10th anniversary of the adoption of the 2005 Share Option Scheme.

AUDIT COMMITTEE

The Audit Committee of the Board of the Company has reviewed together with the management the accounting principles and practices adopted by the Group and discussed the internal control and financial reporting matters. The interim results for the six months ended 30 June 2013 are unaudited, but have been reviewed by Deloitte Touche Tohmatsu in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, issued by the Hong Kong Institute of Certified Public Accountants. This interim report has been reviewed by the Audit Committee.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY’S LISTED SECURITIES

Save as disclosed in Note 15 – Loans and Borrowings to the Interim Condensed Consolidated Financial Statements of this interim report, there was no purchase, sale or redemption of the Company’s listed securities by the Company or any of its subsidiaries during the six months ended 30 June 2013.

CORPORATE GOVERNANCE CODE AND CORPORATE GOVERNANCE REPORT

For the six months ended 30 June 2013, the Company has complied with relevant code provisions set out in Appendix 14 to the Listing Rules, except for the deviation from the code provision (“Code Provision”) A.4.1 of the Corporate Governance Code and Corporate Governance Report as set out in the Appendix 14 to the Listing Rules (“Corporate Governance Code”). The following summarises the requirement under the above-mentioned Code Provision A.4.1 and the reason for such deviation.

Code Provision A.4.1

Under Code Provision A.4.1, non-executive directors should be appointed for a specific term and be subject to re-election.

None of the existing Independent Non-executive Directors of the Company is appointed for a specific term. This constitutes a deviation from Code Provision A.4.1. However, all the Directors are subject to the retirement provisions under article 97 of the Articles of Association of the Company (“Article 97”). According to Article 97, one-third of the Directors for the time being must retire from the office by rotation at each annual general meeting. The Company has observed the need for good corporate governance practices. All the incumbent Independent Non-executive Directors of the Company have retired from the office by rotation and have been re-elected in the past three years. Therefore, the Company considers that sufficient measures have been taken to ensure that the Company’s corporate governance practices are no less exacting than those in the Corporate Governance Code.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted a Code of Ethics for Directors and Senior Management (“Code of Ethics”) incorporating the Model Code as set out in Appendix 10 to the Listing Rules. All Directors have confirmed that they complied, during the six months ended 30 June 2013, with the Company’s Code of Ethics and the required standards set out in the Model Code.

CHANGES IN SENIOR MANAGEMENT

During the six months ended 30 June 2013, there were changes in senior management.

On 22 March 2013, Mr. Chen Wei and Mr. Fang Zhi were appointed as executive vice presidents of the Company.

CHANGES IN INFORMATION OF DIRECTORS

Pursuant to Rule 13.51(B) of the Listing Rules, there has been no change in information of Directors of the Company subsequent to the date of the 2012 Annual Report of the Company.

STATEMENT OF SIGNIFICANT DIFFERENCES IN CORPORATE GOVERNANCE PRACTICES FOR
PURPOSES OF SECTION 303A.11 OF THE NEW YORK STOCK EXCHANGE LISTED COMPANY MANUAL

The Company is incorporated under the laws of Hong Kong and the principal trading market for the ordinary shares of the Company is The Stock Exchange of Hong Kong Limited. In addition, because the Company's ordinary shares are registered with the United States Securities and Exchange Commission and are listed on the New York Stock Exchange (the "NYSE"), the Company is subject to certain corporate governance requirements. However, many of the corporate governance rules in the NYSE Listed Company Manual (the "NYSE Standards") do not apply to the Company as a "foreign private issuer" and the Company is permitted to follow its home country corporate governance practices in lieu of most corporate governance standards contained in the NYSE Standards. Section 303A.11 of the NYSE Listed Company Manual requires NYSE listed foreign private issuers to describe the significant differences between their corporate governance practices and the corporate governance standards applicable to U.S. companies listed on the NYSE. The Company has posted a brief summary of such significant differences on its website, which may be accessed through the following web page:

<http://www.cnoocltd.com/encnoocltd/gsgz/socg/default.shtml>

MISCELLANEOUS

The Directors are of the opinion that there have been no material changes to the information published in its annual report for the year ended 31 December 2012, other than those disclosed in this interim report.

CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed from 9 September 2013 (Monday) to 13 September 2013 (Friday) (both days inclusive) during which no transfer of shares of the Company can be registered. In order to qualify for the interim dividend, members are reminded to ensure that all instrument of transfer of shares accompanied by the relevant share certificate(s) must be lodged with the Company's registrar, Hong Kong Registrars Limited, Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong, not later than 4:30 p.m. on 6 September 2013 (Friday). The interim dividend will be paid on or around 10 October 2013 (Thursday) to shareholders whose names appear on the register of members on 13 September 2013 (Friday) (the "Record Date").

WITHHOLDING AND PAYMENT OF ENTERPRISE INCOME TAX FOR NON-RESIDENT ENTERPRISES IN RESPECT OF 2013 INTERIM DIVIDEND

Pursuant to the “Enterprise Income Tax Law of the People’s Republic of China”, the “Regulations on the Implementation of the Enterprise Income Tax Law of the People’s Republic of China” and the “Notice of the State Administration of Taxation on Issues about the Determination of Chinese-Controlled Enterprises Registered Abroad as Resident Enterprises on the Basis of Their Body of Actual Management”, the Company has been confirmed as a resident enterprise of People’s Republic of China (“PRC”) and the withholding and payment obligation lies with the Company. The Company is required to withhold and pay 10% enterprise income tax when it distributes the 2013 interim dividend to its non-resident enterprise (as defined in the “Enterprise Income Tax Law of the People’s Republic of China”) shareholders. In respect of all shareholders whose names appear on the Company’s register of members as at the Record Date who are not individual natural person (including HKSCC Nominees Limited, corporate nominees or trustees such as securities companies and banks, and other entities or organisations, which are all considered as non-resident enterprise shareholders), the Company will distribute the 2013 interim dividend after deducting enterprise income tax of 10%. The Company will not withhold and pay the individual income tax in respect of the 2013 interim dividend payable to any natural person shareholders whose names appear on the Company’s register of members as at the Record Date.

If any resident enterprise (as defined in the “Enterprise Income Tax Law of the People’s Republic of China”) listed on the Company’s register of members which is duly incorporated in the PRC or under the laws of a foreign country (or a region) but with a PRC-based de facto management body, or any non-resident enterprise shareholder who is subject to a withholding tax rate of less than 10% pursuant to any tax treaty between the country of residence of such shareholder and the PRC or tax arrangements between the mainland of China and Hong Kong or Macau, or any other non-resident enterprise shareholder who may be entitled to a deduction or exemption of enterprise income tax in accordance with the applicable PRC rules, does not desire to have the Company withhold and pay the total amount of the said 10% enterprise income tax, it shall lodge with Hong Kong Registrars Limited documents from its governing tax authority confirming its PRC resident enterprise status, or the documents in support that a withholding tax of less than 10% is required to be paid pursuant to the above-mentioned tax treaty or arrangements, or the documents confirming its entitlement to a deduction or exemption of enterprise income tax in accordance with the applicable PRC rules at or before 4:30 p.m. on 6 September 2013 (Friday).

WITHHOLDING AND PAYMENT OF ENTERPRISE INCOME TAX FOR NON-RESIDENT ENTERPRISES IN
RESPECT OF 2013 INTERIM DIVIDEND (CONTINUED)

If anyone would like to change the identity of the shareholders in the register of members, please enquire about the relevant procedures with the nominees or trustees. The Company will withhold and pay the enterprise income tax for its non-resident enterprise shareholders strictly in accordance with the relevant laws and requirements of the relevant government departments and adhere strictly to the information set out in the Company's register of members on the Record Date. The Company assumes no liability whatsoever in respect of and will not entertain any claims arising from any delay in, or inaccurate determination of, the status of the shareholders at the aforesaid date or any disputes over the mechanism of withholding.

FORWARD-LOOKING STATEMENTS

This interim report includes “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995, including statements regarding expected future events, business prospectus or financial results. The words “expect”, “anticipate”, “continue”, “estimate”, “objective”, “ongoing”, “may”, “will”, “project”, “believe”, “plans”, “intends” and similar expressions are intended to identify such forward-looking statements.

These statements are based on assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors the Company believes are appropriate under the circumstances. However, whether actual results and developments will meet the expectations and predictions of the Company depends on a number of risks and uncertainties which could cause the actual results, performance and financial condition to differ materially from the Company’s expectations, including those associated with fluctuations in crude oil and natural gas prices, the exploration or development activities, the capital expenditure requirements, the business strategy, whether the transactions entered into by the Group can complete on schedule pursuant to the terms and timetable or at all, the highly competitive nature of the oil and natural gas industries, the foreign operations, environmental liabilities and compliance requirements, and economic and political conditions in the People’s Republic of China. For a description of these and other risks and uncertainties, please see the documents the Company files from time to time with the United States Securities and Exchange Commission, including the 2012 Annual Report on Form 20-F filed on 24 April 2013. Consequently, all of the forward-looking statements made in this interim report are qualified by these cautionary statements. The Company cannot assure that the results or developments anticipated will be realised or, even if substantially realised, that they will have the expected effect on the Company, its business or operations.
