Table of Contents

At August 31, 2009, the cost basis of investments for federal income tax purposes was \$1,074,711. At August 31, 2009, gross unrealized appreciation and depreciation of investments and options for federal income tax purposes were as follows:

| | |
|--|------------|
| Gross unrealized appreciation of investments | \$ 398,679 |
| Gross unrealized depreciation of investments | (122,277) |
| Net unrealized appreciation | \$ 276,402 |

The identified cost basis for federal tax purposes is estimated based on information available from the Company's portfolio companies. In some cases, this information is very limited. Accordingly, the actual cost basis may prove higher or lower than the estimated cost basis included in this footnote.

SFAS No. 157. In September 2006, the FASB issued Statement on Financial Accounting Standards, Fair Value Measurements (SFAS No. 157). This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this Statement relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements.

As of December 1, 2007, the Company adopted SFAS No. 157. The Company has performed an analysis of all existing investments and derivative instruments to determine the significance and character of all inputs to their fair value determination. Based on this assessment, the adoption of this standard did not have any material effect on the Company's net asset value. However, the adoption of the standard does require the Company to provide additional disclosures about the inputs used to develop the measurements and the effect of certain measurements on changes in net assets for the reportable periods as contained in the Company's periodic filings. Further, valuation techniques to measure fair value shall maximize the use of relevant observable inputs that do not require significant adjustment and minimize the use of unobservable inputs.

SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into the following three broad categories.

Level 1 Quoted unadjusted prices for identical instruments in active markets to which the Company has access at the date of measurement.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.

Level 3 Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Company's own assumptions that market participants would use to price the asset or liability based on the best available information.

Table of Contents

The following table presents the Company's assets measured at fair value on a recurring basis at August 31, 2009. Note that the valuation levels below are not necessarily an indication of the risk or liquidity associated with the underlying investment. For instance, the Company's repurchase agreements, which are collateralized by U.S. Treasury notes, are generally high quality and liquid; however, the Company reflects these repurchase agreements as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

| | Total | Quoted Prices in Active Markets (Level 1) | Prices with Other Observable Inputs (Level 2) | Unobservable Inputs (Level 3)⁽¹⁾ |
|--|---------------------|--|--|--|
| <u>Assets at Fair Value</u> | | | | |
| Investments | \$ 1,349,412 | \$ 1,306,484 | \$ 36,808 | \$ 6,120 |
| Repurchase Agreement | 1,700 | | 1,700 | |
| Total assets at fair value | \$ 1,351,112 | \$ 1,306,484 | \$ 38,508 | \$ 6,120 |
| <u>Liabilities at Fair Value</u> | | | | |
| Unrealized depreciation on interest rate swaps | \$ 1,536 | | \$ 1,536 | |
| Option contracts written | 232 | | 232 | |
| Total liabilities at fair value | \$ 1,768 | | \$ 1,768 | |

(1) The Company's investments in Level 3 represent its investments in Clearwater Natural Resources, L.P. and CNR GP Holdco, LLC.

The following table presents the Company's assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at November 30, 2008 and at August 31, 2009.

| <u>Assets at Fair Value Using Unobservable Inputs (Level 3)</u> | Long-Term Investments |
|--|----------------------------------|
| Balance November 30, 2008 | \$ 32,987 |
| Transfers out of Level 3 | |
| Realized gains/(losses) | |
| Unrealized losses, net | (26,867) |
| Purchases, issuances or settlements | |
| Balance August 31, 2009 | \$ 6,120 |

The \$26,867 of unrealized losses presented in the table above relate to investments that are still held at August 31, 2009.

The Company did not have any liabilities that were measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at November 30, 2008 and at August 31, 2009.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. This standard amends and expands the disclosure requirements of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, to illustrate how and why an entity uses derivative instruments; how derivative instruments and related hedged items are accounted for under SFAS No. 133; and how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. As of December 1, 2008, the Company adopted SFAS No. 161.

The following table sets forth the fair value of the Company's derivative instruments.

| Derivatives Not Accounted for as Hedging | | Fair Value as of August 31, 2009 |
|---|---|---|
| Instruments under SFAS No. 133 | Statement of Assets and Liabilities Location | |
