MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION**

INTRODUCTION

Management's discussion and analysis of results of operations and financial condition (MD&A) is a supplement to the accompanying consolidated financial statements and provides additional information on Time Warner Cable Inc.'s (together with its subsidiaries, TWC or the Company) business, current developments, financial condition, cash flows and results of operations. MD&A is organized as follows:

Overview. This section provides a general description of TWC's business, as well as recent developments the Company believes are important in understanding the results of operations and financial condition or in understanding anticipated future trends.

Financial statement presentation. This section provides a summary of how the Company's operations are presented in the accompanying consolidated financial statements.

Results of operations. This section provides an analysis of the Company's results of operations for the three and six months ended June 30, 2010.

Financial condition and liquidity. This section provides an analysis of the Company's financial condition as of June 30, 2010 and cash flows for the six months ended June 30, 2010.

Caution concerning forward-looking statements. This section provides a description of the use of forward-looking information appearing in this report, including in MD&A and the consolidated financial statements. Such information is based on management's current expectations about future events, which are susceptible to uncertainty and changes in circumstances. Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2009 (the 2009 Form 10-K) for a discussion of the risk factors applicable to the Company.

OVERVIEW

TWC is the second-largest cable operator in the U.S., with technologically advanced, well-clustered systems located mainly in five geographic areas—New York State (including New York City), the Carolinas, Ohio, Southern California (including Los Angeles) and Texas. As of June 30, 2010, TWC served approximately 14.5 million residential and commercial customers who subscribed to one or more of its three primary subscription services—video, high-speed data and voice—totaling approximately 26.7 million primary service units.

TWC offers video, high-speed data and voice services over its broadband cable systems to residential and commercial customers. TWC markets its services separately and in bundled packages of multiple services and features. As of June 30, 2010, 59.0% of TWC's residential and commercial customers subscribed to two or more of its primary services, including 25.3% of its customers who subscribed to all three primary services. TWC also sells advertising to a variety of national, regional and local advertising customers.

Video generates the largest share of TWC's revenues and, as of June 30, 2010, TWC had approximately 12.7 million video subscribers, of which approximately 9.1 million received digital video signals. Although TWC expects to continue to lose video subscribers as a result of increased competition, TWC believes it will continue to increase video revenues for the foreseeable future through the offering of incremental video services (e.g., digital video recorder services and additional programming tiers), as well as through equipment rentals and price increases; however, future video revenue growth rates will depend on video subscriber and penetration levels, competition, regulation, pricing and the state of the economy. TWC also offers video services to business customers, and of the Company's 12.7 million video subscribers as of June 30, 2010, 163,000 were commercial video subscribers. Video programming costs represent a major component of TWC's expenses and are expected to continue to increase, reflecting rate increases on existing programming services, costs associated with retransmission consent agreements, growth in video subscribers taking tiers of service with more channels and the expansion of service offerings (e.g.,

new network channels). TWC expects that its video programming costs as a percentage of video revenues will continue to increase as increases in programming costs outpace growth in video revenues.

Table of Contents

**TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

As of June 30, 2010, TWC had approximately 9.3 million residential high-speed data subscribers and 315,000 commercial high-speed data subscribers. TWC's commercial high-speed data services include high-speed data, networking and transport services. TWC expects continued growth in high-speed data subscribers and revenues for the foreseeable future; however, future high-speed data subscriber and revenue growth rates will depend on high-speed data penetration levels, competition, regulation, pricing, the rate of wireless substitution of wireline high-speed data service and the state of the economy.

During the fourth quarter of 2009, TWC began launching a wireless mobile broadband service in several cities and expects to continue the roll-out during the remainder of 2010 and over the next several years. The Company estimates that it will incur start up losses of approximately \$50 million during 2010 in connection with the deployment of this service, of which approximately \$10 million and \$15 million were incurred during the three and six months ended June 30, 2010, respectively.

As of June 30, 2010, TWC had approximately 4.3 million residential Digital Phone subscribers. TWC also offers its commercial Digital Phone service, Business Class Phone, in nearly all of its operating areas and had 90,000 commercial Digital Phone subscribers as of June 30, 2010. TWC expects increases in Digital Phone subscribers and revenues for the foreseeable future; however, future Digital Phone subscriber and revenue growth rates will depend on Digital Phone penetration levels, competition, regulation, pricing, the rate of wireless substitution of wireline phone service and the state of the economy.

TWC faces intense competition for customers from a variety of alternative communications, information and entertainment delivery sources. TWC competes with incumbent local telephone companies, including AT&T Inc. and Verizon Communications Inc., across each of its primary services. Some of these telephone companies offer a broad range of services with features and functions comparable to those provided by TWC and in bundles similar to those offered by TWC, sometimes with the addition of wireless service. Each of TWC's services also faces competition from other companies that provide services on a stand-alone basis. TWC's video service faces competition from direct broadcast satellite services, and increasingly from companies that deliver content to consumers over the Internet. TWC's high-speed data service faces competition from wireless data providers, and competition in voice service is increasing as more homes in the U.S. are replacing their wireline telephone service with wireless service or over-the-top phone service, such as that provided by Vonage or Skype. Technological advances and product innovations have increased and will likely continue to increase the number of alternatives available to TWC's customers and potential customers, further intensifying competition. The more competitive environment may negatively affect the growth of primary service units and average monthly subscription revenues per primary service unit and, additionally, may increase TWC's cost to obtain certain video programming.

TWC's business is also affected by the economic environment and, in particular, trends in new home formation, housing vacancy rates, unemployment rates and consumer spending levels. The Company believes that the challenging economic environment since 2008 has negatively affected its growth.

Management believes that cash generated by or available to TWC should be sufficient to fund its capital and liquidity needs for the foreseeable future, including quarterly dividend payments. As of June 30, 2010, the Company had approximately \$6.5 billion of unused committed financial capacity (including cash and equivalents). Additionally, there are no maturities of the Company's long-term debt prior to the February 2011 maturity of the Company's \$5.875 billion senior unsecured five-year revolving credit facility (the Revolving Credit Facility), which, as of June 30, 2010, had no outstanding borrowings and supported no outstanding borrowings under the Company's commercial paper program. The Company expects to enter into a new revolving credit agreement prior to the maturity of the current Revolving Credit Facility. See Financial Condition and Liquidity for further details regarding the Company's committed financial capacity.

**TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

Recent Developments

Common Stock Dividend

On each of March 15, 2010 and June 15, 2010, the Company paid a quarterly cash dividend of \$0.40 per share of TWC common stock to stockholders of record at the close of business on February 26, 2010 and May 28, 2010, respectively. The total amount of dividends paid during the six months ended June 30, 2010 was \$288 million. On July 30, 2010, the Company's Board of Directors declared a quarterly cash dividend of \$0.40 per share of TWC common stock, payable in cash on September 15, 2010 to stockholders of record at the close of business on August 31, 2010.

Goodwill and Indefinite-lived Intangible Assets

Historically, goodwill and other intangible assets not subject to amortization, primarily cable franchise rights, have been tested for impairment during the fourth quarter of each year (December 31) or earlier upon the occurrence of a triggering event. The Company's most recent annual impairment testing during the fourth quarter of 2009 did not result in any goodwill or cable franchise rights impairment charges. Refer to the Company's 2009 Form 10-K for additional information related to the 2009 impairment testing.

During the first quarter of 2010, the Company revised its annual impairment testing date to July 1 to coincide more closely with the Company's annual preparation of long range projections (LRPs), which are a significant component used in the impairment analysis. Prior to the Company's separation (the Separation) from Time Warner Inc. (Time Warner) (discussed further below), the Company's LRPs were prepared during the fourth quarter of each year, consistent with Time Warner's other business units. After the Separation, the Company began preparing its LRPs in the middle of each year. Accordingly, the Company believes the change in the annual impairment testing date to be preferable in its circumstances. This change is being applied on a prospective basis. The Company does not believe this change would have delayed, accelerated or avoided an impairment charge in prior periods.

The Company has commenced its 2010 annual impairment testing, which it expects to complete by the end of the third quarter of 2010.

FINANCIAL STATEMENT PRESENTATION

Revenues

The Company's revenues consist of Subscription and Advertising revenues. Subscription revenues consist of revenues from video, high-speed data and voice services.

Video revenues include residential and commercial subscriber fees for the Company's three main levels or tiers of video programming Basic Service Tier (BST), Expanded Basic Service Tier (or Cable Programming Service Tier) (CPST) and Digital Basic Service Tier (DBT), as well as fees for genre-based programming tiers, such as movies, sports and Spanish language tiers. Video revenues also include related equipment rental charges, installation charges and fees collected on behalf of local franchising authorities and the Federal Communications Commission (the FCC). Additionally, video revenues include revenues from premium channels, transactional video-on-demand (e.g., events and movies) and digital video recorder services. Several ancillary items are also included within video revenues, such as commissions earned on the sale of merchandise by home shopping networks and revenues from home security services.

Table of Contents

**TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

High-speed data revenues primarily include subscriber fees from both residential and commercial subscribers, along with related home networking fees and installation charges. High-speed data revenues also include fees paid to TWC by (a) the Advance/Newhouse Partnership for the ability to distribute TWC's Road Runner™ High Speed Online (Road Runner) high-speed data service and TWC's management of certain functions for the Advance/Newhouse Partnership, including, among others, programming and engineering, and (b) other distributors of TWC's Road Runner high-speed data service. In addition, high-speed data revenues include fees received from third-party internet service providers whose on-line services are provided to some of TWC's customers (e.g., Earthlink). Commercial high-speed data revenues also include amounts generated by the sale of commercial networking and transport services. These services include point-to-point transport services offered to wireless telephone providers (i.e., cell tower backhaul), Internet service providers and competitive carriers on a wholesale basis, as well as Metro Ethernet service.

Voice revenues include subscriber fees from residential and commercial Digital Phone subscribers, along with related installation charges.

Advertising revenues include the fees charged to local, regional and national advertising customers for advertising placed on the Company's video and high-speed data services. Nearly all Advertising revenues are attributable to advertising placed on the Company's video service.

Costs and Expenses

Costs of revenues include the following costs directly associated with the delivery of services to subscribers or the maintenance of the Company's delivery systems: video programming costs; high-speed data connectivity costs; voice network costs; other service-related expenses, including non-administrative labor; franchise fees; and other related costs.

Selling, general and administrative expenses include amounts not directly associated with the delivery of services to subscribers or the maintenance of the Company's delivery systems, such as administrative labor costs, marketing expenses, bad debt expense, billing system charges, non-plant repair and maintenance costs and other administrative overhead costs.

Use of Operating Income (Loss) before Depreciation and Amortization and Free Cash Flow

In discussing its performance, the Company may use certain measures that are not calculated and presented in accordance with U.S. generally accepted accounting principles (GAAP). These measures include OIBDA and Free Cash Flow, which the Company defines as follows:

OIBDA (Operating Income (Loss) before Depreciation and Amortization) means Operating Income (Loss) before depreciation of tangible assets and amortization of intangible assets.

Free Cash Flow means cash provided by operating activities (as defined under GAAP) excluding the impact, if any, of cash provided or used by discontinued operations, plus any excess tax benefits from the exercise of stock options, less (i) capital expenditures, (ii) cash paid for other intangible assets, (iii) partnership distributions to third parties and (iv) principal payments on capital leases.

Management uses OIBDA, among other measures, in evaluating the performance of the Company's business because it eliminates the effects of (1) considerable amounts of noncash depreciation and amortization and (2) items not within the control of the Company's operations managers (such as net income (loss) attributable to noncontrolling interests, income tax benefit (provision), other income (expense), net, and interest expense, net). Management believes that Free Cash Flow is an important indicator of the Company's liquidity after the payment of cash taxes, interest and other cash items, including its ability to reduce net debt, pay dividends and make strategic investments. Performance measures derived from OIBDA are also used in the Company's annual incentive compensation programs. In addition, both of these measures are commonly used by analysts, investors and others in evaluating the Company's performance and liquidity.

Table of Contents

**TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

These measures have inherent limitations. For example, OIBDA does not reflect capital expenditures or the periodic costs of certain capitalized assets used in generating revenues. To compensate for such limitations, management evaluates performance through, among other measures, Free Cash Flow, which reflects capital expenditure decisions, and net income (loss) attributable to TWC shareholders, which reflects the periodic costs of capitalized assets. OIBDA also fails to reflect the significant costs borne by the Company for income taxes and debt servicing costs, the share of OIBDA attributable to noncontrolling interests, the results of the Company's equity investments or other non-operational income or expense. Management compensates for these limitations by using other analytics such as a review of net income (loss) attributable to TWC shareholders. Free Cash Flow, a liquidity measure, does not reflect payments made in connection with investments and acquisitions, which reduce liquidity. To compensate for this limitation, management evaluates such investments and acquisitions through other measures such as return on investment analyses.

These measures should be considered in addition to, not as substitutes for, the Company's Operating Income (Loss), net income (loss) attributable to TWC shareholders and various cash flow measures (e.g., cash provided by operating activities), as well as other measures of financial performance and liquidity reported in accordance with GAAP, and may not be comparable to similarly titled measures used by other companies.

Basis of Presentation

Separation from Time Warner

On March 12, 2009, TWC completed the Separation from Time Warner, which, prior to the Separation, owned approximately 84% of the common stock of TWC (representing a 90.6% voting interest) and a 12.43% non-voting common stock interest in TW NY Cable Holding Inc. (TW NY), a subsidiary of TWC. As a result of the Separation, Time Warner no longer has an ownership interest in TWC or TW NY. Refer to the 2009 Form 10-K for additional information regarding the Separation.

Reclassifications

Certain reclassifications have been made to the prior year financial information to conform to the current year presentation.

Recent Accounting Standards

See Note 2 to the accompanying consolidated financial statements for accounting standards adopted in 2010 and recently issued accounting standards not yet adopted.

RESULTS OF OPERATIONS

Three and Six Months Ended June 30, 2010 Compared to Three and Six Months Ended June 30, 2009

The following discussion provides an analysis of the Company's results of operations and should be read in conjunction with the accompanying consolidated statement of operations, as well as the consolidated financial statements and notes thereto and MD&A included in the 2009 Form 10-K.

Table of Contents

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

Revenues. Revenues by major category were as follows (in millions):

	Three Months Ended June 30,			Six Months Ended June 30,		
	2010	2009	% Change	2010	2009	% Change
Subscription:						
Video	\$ 2,781	\$ 2,706	2.8%	\$ 5,521	\$ 5,373	2.8%
High-speed data	1,232	1,123	9.7%	2,425	2,224	9.0%
Voice	505	471	7.2%	998	922	8.2%
Total Subscription	4,518	4,300	5.1%	8,944	8,519	5.0%
Advertising	216	174	24.1%	389	319	21.9%
Total	\$ 4,734	\$ 4,474	5.8%	\$ 9,333	\$ 8,838	5.6%

Selected subscriber-related statistics were as follows (in thousands):

	June 30,		% Change
	2010	2009	
Video ^(a)	12,706	13,048	(2.6%)
Residential high-speed data ^{(b)(c)}	9,291	8,757	6.1%
Commercial high-speed data ^{(b)(c)}	315	289	9.0%
Residential Digital Phone ^{(c)(d)}	4,302	4,016	7.1%
Commercial Digital Phone ^{(c)(d)}	90	48	87.5%
Primary service units ^(e)	26,704	26,158	2.1%
Digital video ^{(f)(g)}	9,059	8,802	2.9%
Revenue generating units ^{(g)(h)}	35,763	34,960	2.3%
Customer relationships ^{(g)(i)}	14,498	14,652	(1.1%)
Double play ^{(g)(j)}	4,889	4,834	1.1%
Triple play ^{(g)(k)}	3,658	3,335	9.7%

(a) Video subscriber numbers reflect billable subscribers who receive at least the BST video programming tier.

(b) High-speed data subscriber numbers reflect billable

subscribers who receive TWC's Road Runner high-speed data service or any of the other high-speed data services offered by TWC.

- (c) The determination of whether a high-speed data or Digital Phone subscriber is categorized as commercial or residential is generally based upon the type of service provided to that subscriber. For example, if TWC provides a commercial service, the subscriber is classified as commercial.
- (d) Digital Phone subscriber numbers reflect billable subscribers who receive an IP-based telephony service.
- (e) Primary service unit numbers represent the total of all video, high-speed data and voice subscribers.

- (f) Digital video subscriber numbers reflect billable video subscribers who receive any level of video service as digital signals.

- (g) During the three months ended June 30, 2010, the Company recorded adjustments that increased both digital video subscribers and revenue generating units by 41,000 and triple play subscribers by 69,000. The Company also recorded adjustments that reduced customer relationships and double play subscribers by 76,000 and 64,000, respectively. These adjustments are reflected in the Company's subscriber numbers as of June 30, 2010.

- (h) Revenue generating unit numbers represent the total of all video, digital video,

high-speed data
and voice
subscribers.

- (i) Customer relationships represent the number of subscribers who receive at least one of the Company's primary services. For example, a subscriber who purchases only high-speed data service and no video service will count as one customer relationship, and a subscriber who purchases both video and high-speed data services will also count as only one customer relationship.
- (j) Double play subscriber numbers reflect customers who subscribe to two of the Company's primary services.
- (k) Triple play subscriber numbers reflect customers who subscribe to all three of the Company's primary

services.

For the three months ended June 30, 2010, residential subscription revenues increased 4.2% to \$4.250 billion and commercial subscription revenues increased 20.2% to \$268 million. For the six months ended June 30, 2010, residential subscription revenues increased 4.2% to \$8.422 billion and commercial subscription revenues increased 19.7% to \$522 million. Total subscription revenues increased 5.1% and 5.0% for the three and six months ended June 30, 2010, respectively, as a result of increases in video, high-speed data and voice revenues.

6

Table of Contents

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

The increase in video revenues was primarily due to video price increases, the continued growth of digital video subscribers and increases in revenues from digital video recorder service and transactional video-on-demand, which were partially offset by a decrease in video subscribers. Commercial video revenues were \$67 million and \$131 million for the three and six months ended June 30, 2010, respectively, compared to \$63 million and \$123 million for the three and six months ended June 30, 2009, respectively. Additional information regarding the major components of video revenues was as follows (in millions):

	Three Months			Six Months		
	Ended			Ended		
	June 30,			June 30,		
	2010	2009	% Change	2010	2009	% Change
Programming tiers ^(a)	\$ 1,822	\$ 1,811	0.6%	\$ 3,633	\$ 3,598	1.0%
Premium channels	217	219	(0.9%)	434	438	(0.9%)
Transactional video-on-demand	105	96	9.4%	195	186	4.8%
Video equipment rental and installation charges	327	298	9.7%	645	593	8.8%
Digital video recorder service	146	129	13.2%	288	251	14.7%
Franchise and other fees ^(b)	125	119	5.0%	247	237	4.2%
Other	39	34	14.7%	79	70	12.9%
Total	\$ 2,781	\$ 2,706	2.8%	\$ 5,521	\$ 5,373	2.8%

(a) Programming tier revenues include subscriber fees for the BST, CPST and DBT video programming tiers, as well as genre-based programming tiers, such as movie, sports and Spanish language tiers.

(b) Franchise and other fees include fees collected on behalf of local franchising authorities and

the FCC.

High-speed data revenues increased primarily due to growth in high-speed data subscribers and, to a lesser extent, increases in average revenues per subscriber and other commercial service revenues (e.g., cell tower backhaul and Metro Ethernet revenues). Commercial high-speed data revenues were \$172 million and \$336 million for the three and six months ended June 30, 2010, respectively, compared to \$144 million and \$284 million for the three and six months ended June 30, 2009, respectively.

The increase in voice revenues was due to growth in Digital Phone subscribers, partially offset by a decrease in average revenues per subscriber. Commercial voice revenues were \$29 million and \$55 million for the three and six months ended June 30, 2010, respectively, compared to \$16 million and \$29 million for the three and six months ended June 30, 2009, respectively.

Average monthly subscription revenues (which includes video, high-speed data and voice revenues) per unit were as follows:

	Three Months			Six Months Ended		
	Ended June 30,		% Change	June 30,		% Change
	2010	2009		2010	2009	
Average monthly subscription revenues per:						
Customer relationship ^(a)	\$ 103.46	\$ 97.73	5.9%	\$ 102.39	\$ 97.02	5.5%
Primary service unit	56.40	54.90	2.7%	56.08	54.78	2.4%

^(a) During the three months ended June 30, 2010, the Company recorded adjustments that reduced customer relationships by 76,000. This adjustment is reflected in the Company's subscriber numbers as of June 30, 2010, impacting the average customer relationships used to calculate average monthly subscription revenues per customer relationship for the three and six months ended June 30, 2010.

Advertising revenues increased primarily due to higher revenues from regional, local and, to a lesser extent, national businesses, as well as growth in political advertising revenues. The Company expects that Advertising revenues will increase during the second half of 2010 as compared to 2009 primarily as a result of higher political advertising revenues and the continuing recovery of the advertising market.

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

Costs of revenues. The major components of costs of revenues were as follows (in millions):

	Three Months			Six Months Ended		
	Ended			June 30,		
	June 30,			June 30,		
	2010	2009	% Change	2010	2009	% Change
Video programming	\$ 1,059	\$ 1,001	5.8%	\$ 2,113	\$ 2,004	5.4%
Employee ^(a)	648	641	1.1%	1,290	1,293	(0.2%)
High-speed data	32	33	(3.0%)	66	66	
Voice	167	157	6.4%	329	309	6.5%
Video franchise and other fees ^(b)	125	119	5.0%	247	237	4.2%
Other direct operating costs ^(a)	192	177	8.5%	373	351	6.3%
Total	\$ 2,223	\$ 2,128	4.5%	\$ 4,418	\$ 4,260	3.7%
Costs of revenues as a percentage of revenues	47.0%	47.6%		47.3%	48.2%	

(a) Employee and other direct operating costs include costs directly associated with the delivery of the Company's video, high-speed data and voice services to subscribers and the maintenance of the Company's delivery systems.

(b) Video franchise and other fees include fees collected on behalf of local franchising authorities and the FCC.

For the three and six months ended June 30, 2010, costs of revenues increased 4.5% and 3.7%, respectively, primarily related to increases in video programming and voice costs.

The increase in video programming costs was primarily due to contractual rate increases, incremental costs associated with the continued retransmission of certain local broadcast stations and increased transactional video-on-demand expense, partially offset by a decline in video subscribers and premium channel subscriptions. Average programming costs per video subscriber increased 8.2% to \$27.63 per month for the three months ended June 30, 2010 from \$25.53 per month for the three months ended June 30, 2009. Average programming costs per video subscriber increased 7.7% to \$27.52 per month for the six months ended June 30, 2010 from \$25.55 per month for the six months ended June 30, 2009.

Employee costs for the three months ended June 30, 2010 increased as a result of higher costs associated with commercial service-related employees. For the six months ended June 30, 2010, higher commercial service-related employee costs were more than offset by a decline in residential service-related employee costs, primarily resulting from decreased connect and installation activity. Employee expense for both the three and six months ended June 30, 2010 was also impacted by a decrease in pension expense, which was partially offset by higher employee medical expense.

Voice costs consist of the direct costs associated with the delivery of voice services, including network connectivity costs. Voice costs for the three and six months ended June 30, 2010 increased primarily due to growth in Digital Phone subscribers.

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

Selling, general and administrative expenses. The components of selling, general and administrative expenses were as follows (in millions):

	Three Months			Six Months		
	Ended			Ended		
	June 30,			June 30,		
	2010	2009	% Change	2010	2009	% Change
Employee	\$ 306	\$ 276	10.9%	\$ 623	\$ 579	7.6%
Marketing	156	128	21.9%	307	268	14.6%
Bad debt ^(a)	40	51	(21.6%)	57	94	(39.4%)
Separation-related make-up equity award costs ^(b)	2	2		4	2	100.0%
Other	258	239	7.9%	506	478	5.9%
Total	\$ 762	\$ 696	9.5%	\$ 1,497	\$ 1,421	5.3%

(a) Bad debt expense includes amounts charged to expense associated with the Company's allowance for doubtful accounts and collection expenses, net of late fees billed to subscribers. Late fees billed to subscribers were \$34 million and \$67 million for the three and six months ended June 30, 2010, respectively, and \$26 million and \$52 million for the three and six months ended June 30, 2009, respectively.

(b) As a result of the Separation, pursuant to their terms, Time

Warner equity awards held by TWC employees were forfeited and/or experienced a reduction in value as of the date of the Separation.

Amounts represent the costs associated with TWC stock options and restricted stock units granted to TWC employees during the second quarter of 2009 to offset these forfeitures and/or reduced values (Separation-related make-up equity award costs).

Selling, general and administrative expenses for the three and six months ended June 30, 2010 increased primarily due to higher employee and marketing expenses, partially offset by a decrease in bad debt expense. The increase in employee costs was primarily due to higher headcount and compensation, partially as a result of increased costs associated with commercial service-related employees. Marketing expense increased primarily as a result of the timing of marketing spending. The decrease in bad debt expense was primarily due to improvements in collection efforts.

Restructuring costs. The results include restructuring costs of \$20 million and \$31 million for the three and six months ended June 30, 2010, respectively, and \$7 million and \$50 million for the three and six months ended June 30, 2009, respectively, primarily related to headcount reductions, as well as the termination of a facility lease during the second quarter of 2010. During the first quarter of 2009, TWC began a significant restructuring, resulting in the elimination of approximately 1,300 positions during 2009, of which approximately 900 occurred during the first half of the year. During the first half of 2010, TWC eliminated approximately 350 additional positions as a result of this restructuring. Full-year 2010 restructuring costs are expected to be approximately \$50 million.

Gain on sale of cable systems. During the second quarter of 2009, the Company recovered \$2 million of losses associated with the 2008 sale of certain non-core cable systems as a result of additional working capital adjustments.

OF OPERATIONS AND FINANCIAL CONDITION (Continued)

Reconciliation of OIBDA to Operating Income. The following table reconciles OIBDA to Operating Income. In addition, the table provides the components from Operating Income to net income attributable to TWC shareholders for purposes of the discussions that follow (in millions):

	Three Months			Six Months Ended		
	Ended			June 30,		
	2010	2009	% Change	2010	2009	% Change
OIBDA	\$ 1,729	\$ 1,645	5.1%	\$ 3,387	\$ 3,109	8.9%
Depreciation	(749)	(701)	6.8%	(1,492)	(1,392)	7.2%
Amortization	(62)	(62)		(127)	(119)	6.7%
Operating Income	918	882	4.1%	1,768	1,598	10.6%
Interest expense, net	(341)	(336)	1.5%	(688)	(626)	9.9%
Other expense, net	(18)	(13)	38.5%	(33)	(64)	(48.4%)
Income before income taxes	559	533	4.9%	1,047	908	15.3%
Income tax provision	(217)	(216)	0.5%	(490)	(407)	20.4%
Net income	342	317	7.9%	557	501	11.2%
Less: Net income attributable to noncontrolling interests		(1)	(100.0%)	(1)	(21)	(95.2%)
Net income attributable to TWC shareholders	\$ 342	\$ 316	8.2%	\$ 556	\$ 480	15.8%

OIBDA. As discussed above, for the three and six months ended June 30, 2010, OIBDA was impacted by restructuring costs and Separation-related make-up equity award costs. For the three and six months ended June 30, 2009, OIBDA was impacted by restructuring costs, Separation-related make-up equity award costs and the gain on sale of cable systems. Excluding these items, OIBDA for the three and six months ended June 30, 2010 increased principally as a result of revenue growth, partially offset by higher costs of revenues and selling, general and administrative expenses, as discussed above.

Depreciation expense. The increase in depreciation expense for the three and six months ended June 30, 2010 was primarily associated with continued investments in customer premise equipment, scalable infrastructure and line extensions occurring during or subsequent to the comparable period in 2009.

Amortization expense. The increase in amortization expense for the six months ended June 30, 2010 was primarily due to a benefit of approximately \$13 million recorded during the first half of 2009 to reduce excess amortization recorded in prior years.

The Company expects amortization expense to decrease significantly in the second half of 2010 compared to the second half of 2009 as approximately \$880 million of customer relationships acquired in the July 31, 2006 transactions with Adelpia Communications Corporation and Comcast Corporation will be fully amortized as of July 31, 2010. As of June 30, 2010, such customer relationships had a remaining balance, net of accumulated amortization, of \$17 million.

Operating Income. As discussed above, for the three and six months ended June 30, 2010, Operating Income was impacted by restructuring costs and Separation-related make-up equity award costs. For the three and six months ended June 30, 2009, Operating Income was impacted by restructuring costs, Separation-related make-up equity

award costs and the gain on sale of cable systems. Excluding these items, Operating Income for the three and six months ended June 30, 2010 increased primarily due to the increase in OIBDA, partially offset by the increase in depreciation expense, as discussed above.

Interest expense, net. Interest expense, net, for the three months ended June 30, 2010 increased slightly primarily due to higher average interest rates on outstanding debt during the period. Interest expense, net, for the six months ended June 30, 2010 increased primarily due to higher average debt outstanding during the first quarter of 2010 as compared to the first quarter of 2009. Additionally, interest expense, net, for the six months ended June 30, 2009 included \$13 million of debt issuance costs primarily related to upfront loan fees on a 364-day senior unsecured term loan facility entered into in 2008 in connection with the Separation, which were recognized as expense when the facility was repaid and terminated following the Company's public debt issuance in March 2009.

Table of Contents

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

Other expense, net. Other expense, net, detail is shown in the table below (in millions):

	Three Months		Six Months Ended	
	Ended		June 30,	
	June 30,		June 30,	
	2010	2009	2010	2009
Direct transaction costs related to the Separation ^(a)	\$	\$ (1)	\$	\$ (28)
Loss from equity investments, net ^(b)	(21)	(10)	(41)	(23)
Impairment of investment in The Reserve Fund's Primary Fund				(10)
Other investment gains		3		3
Equity award reimbursement obligation to Time Warner ^(c)	3	(6)	7	(8)
Other		1	1	2
Other expense, net	\$ (18)	\$ (13)	\$ (33)	\$ (64)

(a) Amounts primarily consist of legal and professional fees.

(b) The increase in loss from equity investments, net, for the three and six months ended June 30, 2010 was primarily due to increases in losses incurred by Clearwire Communications LLC.

(c) See Note 3 to the accompanying consolidated financial statements for a discussion of the Company's accounting for its equity award reimbursement obligation to Time Warner.

Income tax provision. For the three months ended June 30, 2010 and 2009, the Company recorded income tax provisions of \$217 million and \$216 million, respectively. For the six months ended June 30, 2010 and 2009, the

Company recorded income tax provisions of \$490 million and \$407 million, respectively. The effective tax rate was 38.8% and 40.5% for the three months ended June 30, 2010 and 2009, respectively, and 46.8% and 44.8% for the six months ended June 30, 2010 and 2009, respectively.

The income tax provision and the effective tax rate for the six months ended June 30, 2010 were impacted by a net noncash charge of \$70 million related to the reversal of previously recognized deferred income tax benefits primarily as a result of the expiration, on March 12, 2010, of vested Time Warner stock options held by TWC employees. As a result of the Separation on March 12, 2009, TWC employees who held stock options under Time Warner equity plans were treated as if their employment with Time Warner had been terminated without cause at the time of the Separation. In most cases, this treatment resulted in shortened exercise periods, generally one year from the date of Separation, for vested Time Warner stock options held by TWC employees.

Vested Time Warner stock options held primarily by certain retirement-eligible TWC employees (pursuant to the terms of the award agreements) have exercise periods of up to five years from the date of the Separation and, as such, the Company estimates that it may incur additional noncash income tax expense of up to approximately \$90 million through March 2014 upon the exercise or expiration of these stock options. This estimate and the timing of such charges are dependent on a number of variables related to Time Warner and TWC equity awards, including the respective stock prices and the timing of the exercise or expiration of stock options and restricted stock units.

The income tax provision and the effective tax rate for the six months ended June 30, 2009 were impacted by the passage of the California state budget during the first quarter of 2009 that, in part, changed the methodology of income tax apportionment in California. This tax law change resulted in an increase in state deferred tax liabilities and a corresponding noncash tax provision of \$38 million, which was recorded in the first quarter of 2009.

Absent the impacts of the expiration of vested Time Warner stock options in 2010 and the tax law change in 2009, the effective tax rate would have been 40.1% and 40.6% for the six months ended June 30, 2010 and 2009, respectively.

Net income attributable to noncontrolling interests. Net income attributable to noncontrolling interests for the six months ended June 30, 2010 decreased principally due to changes in the ownership structure of the Company that occurred during the first quarter of 2009 in connection with the Separation.

Table of Contents

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

Net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders. Net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders were as follows for the three and six months ended June 30, 2010 and 2009 (in millions, except per share data):

	Three Months			Six Months Ended		
	Ended			June 30,		
	2010	2009	%	2010	2009	%
			Change			Change
Net income attributable to TWC shareholders	\$ 342	\$ 316	8.2%	\$ 556	\$ 480	15.8%
Net income per common share attributable to TWC common shareholders:						
Basic	\$ 0.96	\$ 0.90	6.7%	\$ 1.56	\$ 1.39	12.2%
Diluted	\$ 0.95	\$ 0.89	6.7%	\$ 1.55	\$ 1.39	11.5%

As discussed above, for the three and six months ended June 30, 2010, net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders were impacted by restructuring costs and Separation-related make-up equity award costs. For the three and six months ended June 30, 2009, net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders were impacted by restructuring costs, Separation-related make-up equity award costs and the gain on sale of cable systems. Excluding these items, for the three months ended June 30, 2010, net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders increased primarily due to an increase in Operating Income, partially offset by an increase in income tax provision, each as discussed above, and for the six months ended June 30, 2010, net income attributable to TWC shareholders and net income per common share attributable to TWC common shareholders increased primarily due to an increase in Operating Income and decreases in other expense, net, and net income attributable to noncontrolling interests, partially offset by increases in income tax provision and interest expense, net, each as discussed above.

FINANCIAL CONDITION AND LIQUIDITY

Management believes that cash generated by or available to TWC should be sufficient to fund its capital and liquidity needs for the foreseeable future, including quarterly dividend payments. There are no maturities of the Company's long-term debt prior to the February 2011 maturity of the Revolving Credit Facility, which, as of June 30, 2010, had no outstanding borrowings and supported no outstanding borrowings under the Company's commercial paper program. The Company expects to enter into a new revolving credit agreement prior to the maturity of the current Revolving Credit Facility. TWC's sources of cash include cash provided by operating activities, cash and equivalents on hand, borrowing capacity under its committed credit facility and commercial paper program, as well as access to capital markets.

TWC's unused committed financial capacity was \$6.529 billion as of June 30, 2010, reflecting \$814 million of cash and equivalents and \$5.715 billion of available borrowing capacity under the Company's \$5.875 billion Revolving Credit Facility.

Current Financial Condition

As of June 30, 2010, the Company had \$21.247 billion of debt, \$814 million of cash and equivalents (net debt of \$20.433 billion, defined as total debt less cash and equivalents), \$300 million of mandatorily redeemable non-voting Series A Preferred Equity Membership Units (the TW NY Cable Preferred Membership Units) issued by a subsidiary of TWC, Time Warner NY Cable LLC (TW NY Cable), and \$9.172 billion of total TWC shareholders equity. As of December 31, 2009, the Company had \$22.331 billion of debt, \$1.048 billion of cash and equivalents (net debt of \$21.283 billion), \$300 million of TW NY Cable Preferred Membership Units and \$8.685 billion of total TWC shareholders equity.

Table of Contents

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

The following table shows the significant items contributing to the change in net debt from December 31, 2009 to June 30, 2010 (in millions):

Balance as of December 31, 2009	\$ 21,283
Cash provided by operating activities	(2,692)
Capital expenditures	1,472
Dividends paid	288
Increase in the fair value of debt subject to interest rate swap contracts	177
All other, net	(95)
 Balance as of June 30, 2010	 \$ 20,433

In 2008, TWC filed a shelf registration statement on Form S-3 with the Securities and Exchange Commission (the SEC) that allows TWC to offer and sell from time to time senior and subordinated debt securities and debt warrants.

On July 30, 2010, the Company's Board of Directors declared a quarterly cash dividend of \$0.40 per share of TWC common stock, payable in cash on September 15, 2010 to stockholders of record at the close of business on August 31, 2010.

Cash Flows

Cash and equivalents decreased \$234 million and \$4.921 billion for the six months ended June 30, 2010 and 2009, respectively. Components of these changes are discussed below in more detail.

Operating Activities

Details of cash provided by operating activities are as follows (in millions):

	Six Months Ended	
	June 30,	
	2010	2009
OIBDA	\$ 3,387	\$ 3,109
Gain on sale of cable systems		(2)
Noncash equity-based compensation	61	54
Net interest payments ^(a)	(669)	(517)
Pension plan contributions ^(b)	(1)	(81)
Net income tax payments ^(c)	(194)	(13)
Net restructuring accruals	2	15
All other, net, including working capital changes	106	6
 Cash provided by operating activities	 \$ 2,692	 \$ 2,571

(a) Amounts include interest income received (including amounts received under interest rate

swap contracts)
of \$34 million
and \$3 million
for the six
months ended
June 30, 2010
and 2009,
respectively.

(b) Amounts
represent
contributions to
the Company's
funded and
unfunded
defined benefit
pension plans.

(c) Amounts
include income
tax refunds
received of
\$90 million and
\$43 million for
the six months
ended June 30,
2010 and 2009,
respectively,
which primarily
represent
reimbursements
from Time
Warner in
accordance with
a tax sharing
arrangement
between TWC
and Time
Warner.

Cash provided by operating activities increased from \$2.571 billion for the six months ended June 30, 2009 to \$2.692 billion for the six months ended June 30, 2010. This increase was primarily related to an increase in OIBDA (as previously discussed), the change in working capital requirements and the decrease in pension plan contributions, partially offset by increases in net income tax and interest payments.

Table of Contents

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

The Company did not make any contributions to its funded defined benefit pension plans during the six months ended June 30, 2010 but may make discretionary cash contributions to its funded defined benefit pension plans during the second half of 2010. See Note 7 to the accompanying consolidated financial statements for additional discussion of the funded status of the Company's defined benefit pension plans.

Net income tax payments for the six months ended June 30, 2009 benefited from the impact of the accelerated depreciation deductions provided by the American Recovery and Reinvestment Act of 2009, partially offset by the reversal of a portion of similar benefits received in 2008 from the Economic Stimulus Act of 2008. These Acts provide for a first year bonus depreciation deduction of 50% of the cost of the Company's qualified capital expenditures for the year. Net income tax payments for the six months ended June 30, 2010 were impacted by the absence of bonus depreciation and the reversal of a portion of the bonus depreciation benefits received in 2008 and 2009. The Company expects that net income taxes paid will continue to be significantly higher in the second half of 2010 as compared to 2009, primarily due to the absence of bonus depreciation (unless there is a legislative extension of bonus depreciation) and the reversal of a portion of the bonus depreciation benefits received in 2008 and 2009.

Net interest payments for the six months ended June 30, 2010 increased primarily as a result of the timing of interest payments related to the public debt issuances in March and June 2009. The Company expects that its net interest payments will increase in the second half of 2010 as compared to 2009 primarily as a result of the timing of interest payments related to the public debt issuance in December 2009.

Investing Activities

Details of cash used by investing activities are as follows (in millions):

	Six Months Ended	
	June 30,	
	2010	2009
Acquisitions and investments, net of cash acquired and distributions received:		
The Reserve Fund's Primary Fund ^(a)	\$ 33	\$ 54
SpectrumCo ^(b)		(27)
All other	(24)	(10)
Capital expenditures	(1,472)	(1,529)
Other investing activities	6	7
Cash used by investing activities	\$ (1,457)	\$ (1,505)

(a) Amounts reflect the receipt of the Company's pro rata share of partial distributions made by The Reserve Fund's Primary Fund.

(b) TWC is a participant in a joint venture with certain

other cable
companies
(SpectrumCo)
that holds
advanced
wireless
spectrum
licenses.

Cash used by investing activities decreased from \$1.505 billion for the six months ended June 30, 2009 to \$1.457 billion for the six months ended June 30, 2010. This decrease was principally due to a decline in capital expenditures. The Company expects that capital expenditures will decrease to less than \$3.0 billion in 2010.

Table of Contents

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

TWC's capital expenditures included the following major categories (in millions):

	Six Months Ended	
	June 30,	
	2010	2009
Customer premise equipment ^(a)	\$ 606	\$ 663
Scalable infrastructure ^(b)	372	334
Line extensions ^(c)	179	141
Upgrades/rebuilds ^(d)	74	86
Support capital ^(e)	241	305
Total capital expenditures	\$ 1,472	\$ 1,529

(a) Amounts represent costs incurred in the purchase and installation of equipment that resides at a customer's home or business for the purpose of receiving/sending video, high-speed data and/or voice signals. Such equipment includes digital (including high-definition) set-top boxes, remote controls, high-speed data modems (including wireless), telephone modems and the costs of installing such new equipment. Customer premise equipment also includes materials and labor costs incurred to install the drop cable that connects a

customer's dwelling or business to the closest point of the main distribution network.

- (b) Amounts represent costs incurred in the purchase and installation of equipment that controls signal reception, processing and transmission throughout TWC's distribution network, as well as controls and communicates with the equipment residing at a customer's home or business. Also included in scalable infrastructure is certain equipment necessary for content aggregation and distribution (video-on-demand equipment) and equipment necessary to provide certain video, high-speed data and Digital Phone service features (voicemail, e-mail, etc.).
- (c) Amounts represent costs incurred to extend TWC's distribution network into a geographic area previously not served. These costs typically include network design, the purchase and installation of fiber

- optic and coaxial cable and certain electronic equipment.
- (d) Amounts primarily represent costs incurred to upgrade or replace certain existing components or an entire geographic area of TWC's distribution network. These costs typically include network design, the purchase and installation of fiber optic and coaxial cable and certain electronic equipment.
- (e) Amounts represent all other capital purchases required to run day-to-day operations. These costs typically include vehicles, land and buildings, computer hardware/software, office equipment, furniture and fixtures, tools and test equipment. Amounts include capitalized software costs of \$85 million and \$67 million for the six months ended June 30, 2010 and 2009, respectively.

TWC incurs expenditures associated with the construction of its cable systems. Costs associated with the construction of transmission and distribution facilities are capitalized. TWC generally capitalizes expenditures for tangible fixed assets having a useful life of greater than one year. Capitalized costs include direct material, labor and overhead, as well as interest. Sales and marketing costs, as well as the costs of repairing or maintaining existing fixed assets, are expensed as incurred. With respect to customer premise equipment, which includes set-top boxes and high-speed data and telephone modems, TWC capitalizes installation costs only upon the initial deployment of these

assets. All costs incurred in subsequent disconnects and reconnects of previously installed customer premise equipment are expensed as incurred. Depreciation on these assets is provided generally using the straight-line method over their estimated useful lives. For set-top boxes and modems, the useful life is 3 to 5 years, and, for distribution plant, the useful life is up to 16 years.

TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)

Financing Activities

Details of cash used by financing activities are as follows (in millions):

	Six Months Ended June 30,	
	2010	2009
Repayments, net ^(a)	\$ (1,261)	\$
Borrowings		10,071
Repayments		(5,177)
Debt issuance costs		(24)
Proceeds from exercise of stock options	74	
Dividends paid	(288)	
Payment of special cash dividend		(10,856)
Other financing activities	6	(1)
Cash used by financing activities	\$ (1,469)	\$ (5,987)

^(a) Repayments, net, reflects repayments of borrowings under the Company's commercial paper program with original maturities of three months or less, net of such borrowings.

Cash used by financing activities decreased from \$5.987 billion for the six months ended June 30, 2009 to \$1.469 billion for the six months ended June 30, 2010. Cash used by financing activities for the six months ended June 30, 2010 primarily included net repayments under the Company's commercial paper program and the payment of quarterly cash dividends. Cash used by financing activities for the six months ended June 30, 2009 primarily consisted of the payment of the special cash dividend in connection with the Separation, partially offset by the net proceeds of the public debt issuances in March and June 2009 and net borrowings under the Revolving Credit Facility.

Free Cash Flow

Reconciliation of Cash provided by operating activities to Free Cash Flow. The following table reconciles Cash provided by operating activities to Free Cash Flow (in millions):

Six Months Ended June 30,	
2010	2009

Edgar Filing: TIME WARNER CABLE INC. - Form 10-Q

Cash provided by operating activities	\$ 2,692	\$ 2,571
Add: Excess tax benefit from exercise of stock options	13	
Less:		
Capital expenditures	(1,472)	(1,529)
Cash paid for other intangible assets	(9)	(10)
Other	(1)	(1)
Free Cash Flow	\$ 1,223	\$ 1,031

Free Cash Flow increased from \$1.031 billion for the six months ended June 30, 2009 to \$1.223 billion for the six months ended June 30, 2010, primarily as a result of an increase in cash provided by operating activities and a decrease in capital expenditures, as discussed above.

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, particularly statements anticipating future growth in revenues, Operating Income (Loss) before Depreciation and Amortization, cash provided by operating activities and other financial measures. Words such as anticipates, estimates, expects, projects, intends, plans, believes and words and terms of similar substance in connection with any discussion of future operating or financial performance identify forward-looking statements. These forward-looking statements are included throughout this report and are based on management's current expectations and beliefs about future events. As with any projection or forecast, they are susceptible to uncertainty and changes in circumstances.

The Company operates in a highly competitive, consumer and technology driven and rapidly changing business that is affected by government regulation and economic, strategic, political and social conditions. Various factors could adversely affect the operations, business or financial results of TWC in the future and cause TWC's actual results to differ materially from those contained in the forward-looking statements, including those factors discussed in detail in Item 1A, Risk Factors, in the 2009 Form 10-K, and in TWC's other filings made from time to time with the SEC after the date of this report. In addition, important factors that could cause the Company's actual results to differ materially from those in its forward-looking statements include:

increased competition from video, high-speed data and voice providers, particularly direct broadcast satellite operators, incumbent local telephone companies, companies that deliver programming over broadband Internet connections, and wireless broadband and phone providers;

Table of Contents

**TIME WARNER CABLE INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS
OF OPERATIONS AND FINANCIAL CONDITION (Continued)**

the Company's ability to deal effectively with the current economic slowdown or further deterioration in the economy, which may negatively impact customers' demand for the Company's services and also result in a reduction in the Company's advertising revenues;

the Company's continued ability to exploit new and existing technologies that appeal to residential and commercial customers;

changes in the regulatory and tax environments in which the Company operates, including, among others, regulation of broadband Internet services under Title II of the Communications Act of 1934, as amended, net neutrality legislation or regulation and federal, state and local taxation;

increased difficulty negotiating programming and retransmission agreements on favorable terms, resulting in increased costs to the Company and/or the loss of popular programming; and

changes in the Company's plans, initiatives and strategies.

Any forward-looking statements made by the Company in this document speak only as of the date on which they are made. The Company is under no obligation to, and expressly disclaims any obligation to, update or alter its forward looking statements whether as a result of changes in circumstances, new information, subsequent events or otherwise.

**TIME WARNER CABLE INC.
ITEM 4. CONTROLS AND PROCEDURES**

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in reports filed or submitted by the Company under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information required to be disclosed by the Company is accumulated and communicated to the Company's management to allow timely decisions regarding the required disclosure.

Changes in Internal Control Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting during the quarter ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. DESCRIPTION OF BUSINESS, RECENT DEVELOPMENTS AND BASIS OF PRESENTATION

Description of Business

Time Warner Cable Inc. (together with its subsidiaries, TWC or the Company) is the second-largest cable operator in the U.S., with technologically advanced, well-clustered systems located mainly in five geographic areas: New York State (including New York City), the Carolinas, Ohio, Southern California (including Los Angeles) and Texas. TWC offers video, high-speed data and voice services over its broadband cable systems to residential and commercial customers. TWC markets its services separately and in bundled packages of multiple services and features. TWC also sells advertising to a variety of national, regional and local advertising customers.

Recent Developments

Common Stock Dividend

On each of March 15, 2010 and June 15, 2010, the Company paid a quarterly cash dividend of \$0.40 per share of TWC common stock to stockholders of record at the close of business on February 26, 2010 and May 28, 2010, respectively. The total amount of dividends paid during the six months ended June 30, 2010 was \$288 million. On July 30, 2010, the Company's Board of Directors declared a quarterly cash dividend of \$0.40 per share of TWC common stock, payable in cash on September 15, 2010 to stockholders of record at the close of business on August 31, 2010.

Goodwill and Indefinite-lived Intangible Assets

Historically, goodwill and other intangible assets not subject to amortization, primarily cable franchise rights, have been tested for impairment during the fourth quarter of each year (December 31) or earlier upon the occurrence of a triggering event. The Company's most recent annual impairment testing during the fourth quarter of 2009 did not result in any goodwill or cable franchise rights impairment charges. Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2009 (the 2009 Form 10-K) for additional information related to the 2009 impairment testing.

During the first quarter of 2010, the Company revised its annual impairment testing date to July 1 to coincide more closely with the Company's annual preparation of long range projections (LRPs), which are a significant component used in the impairment analysis. Prior to the Company's separation (the Separation) from Time Warner Inc. (Time Warner) (discussed further below), the Company's LRPs were prepared during the fourth quarter of each year, consistent with Time Warner's other business units. After the Separation, the Company began preparing its LRPs in the middle of each year. Accordingly, the Company believes the change in the annual impairment testing date to be preferable in its circumstances. This change is being applied on a prospective basis. The Company does not believe this change would have delayed, accelerated or avoided an impairment charge in prior periods.

The Company has commenced its 2010 annual impairment testing, which it expects to complete by the end of the third quarter of 2010.

Basis of Presentation

Separation from Time Warner

As discussed more fully in the 2009 Form 10-K, in March 2009, TWC completed the Separation from Time Warner, which, prior to the Separation, owned approximately 84% of the common stock of TWC (representing a 90.6% voting interest) and a 12.43% non-voting common stock interest in TW NY Cable Holding Inc. (TW NY), a subsidiary of TWC. As a result of the Separation, Time Warner no longer has an ownership interest in TWC or TW NY.

Table of Contents

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Basis of Consolidation

The consolidated financial statements include all of the assets, liabilities, revenues, expenses and cash flows of TWC and all entities in which TWC has a controlling voting interest. The consolidated financial statements include the results of the Time Warner Entertainment-Advance/Newhouse Partnership (TWE-A/N) only for the TWE-A/N cable systems that are controlled by TWC and for which TWC holds an economic interest. Intercompany accounts and transactions between consolidated companies have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and footnotes thereto. Actual results could differ from those estimates.

Significant estimates inherent in the preparation of the consolidated financial statements include accounting for asset impairments, allowances for doubtful accounts, investments, depreciation and amortization, business combinations, pension benefits, equity-based compensation, income taxes, contingencies and certain programming arrangements. Allocation methodologies used to prepare the consolidated financial statements are based on estimates and have been described in the notes, where appropriate.

Reclassifications

Certain reclassifications have been made to the prior year financial information to conform to the current year presentation.

Interim Financial Statements

The consolidated financial statements are unaudited; however, in the opinion of management, they contain all the adjustments (consisting of those of a normal recurring nature) considered necessary to present fairly the financial position, results of operations and cash flows for the periods presented in conformity with GAAP applicable to interim periods. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements of TWC included in the 2009 Form 10-K.

Net Income per Common Share

Basic net income attributable to TWC common shareholders is determined using the two-class method and is computed by dividing net income attributable to TWC common shareholders by the weighted average of common shares outstanding during the period. The two-class method is an earnings allocation formula that determines income per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. Diluted net income attributable to TWC common shareholders reflects the more dilutive earnings per share amount calculated using the treasury stock method or the two-class method.

^(a) The Company's restricted stock units (RSUs) granted to employees and non-employee directors are considered participating securities with respect to regular quarterly cash dividends.

2. RECENT ACCOUNTING STANDARDS

Accounting Standards Adopted in 2010

Consolidation of Variable Interest Entities

In June 2009, the Financial Accounting Standards Board (FASB) issued authoritative guidance that requires an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the enterprise that has both of the following characteristics, among others: (a) the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and (b) the obligation to absorb losses of the entity, or the right to receive benefits from the entity, that could potentially be significant to the variable interest entity. Under this guidance, ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity are required. This guidance became effective for TWC on January 1, 2010 and did not have a material impact on the Company's consolidated financial statements.

Table of Contents

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Fair Value Measurements and Disclosures

In January 2010, the FASB issued authoritative guidance that expands the required disclosures about fair value measurements. This guidance provides for new disclosures requiring the Company to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately information about purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements. This guidance also provides clarification of existing disclosures requiring the Company to (i) determine each class of assets and liabilities based on the nature and risks of the investments rather than by major security type and (ii) for each class of assets and liabilities, disclose the valuation techniques and inputs used to measure fair value for both Level 2 and Level 3 fair value measurements. This guidance became effective for TWC on January 1, 2010, except for the presentation of purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements, which is effective for TWC on January 1, 2011, and did not have a material impact on the Company's consolidated financial statements. The guidance pertaining to the presentation of purchases, sales, issuances and settlements in the reconciliation of Level 3 fair value measurements is not expected to have a material impact on the Company's consolidated financial statements.

Accounting Standards Not Yet Adopted***Accounting for Revenue Arrangements with Multiple Deliverables***

In September 2009, the FASB issued authoritative guidance that provides for a new methodology for establishing the fair value for a deliverable in a multiple-element arrangement. When vendor specific objective or third-party evidence for deliverables in a multiple-element arrangement cannot be determined, an enterprise is required to develop a best estimate of the selling price of separate deliverables and to allocate the arrangement consideration using the relative selling price method. This guidance will be effective for TWC on January 1, 2011 and is not expected to have a material impact on the Company's consolidated financial statements.

Accounting for Revenue Arrangements with Software Elements

In September 2009, the FASB issued authoritative guidance that provides for a new methodology for recognizing revenue for tangible products that are bundled with software products. Under the new guidance, tangible products that are bundled with software components that are essential to the functionality of the tangible product will no longer be accounted for under the software revenue recognition accounting guidance. Rather, such products will be accounted for under the new authoritative guidance surrounding multiple-element arrangements described above. This guidance will be effective for TWC on January 1, 2011 and is not expected to have a material impact on the Company's consolidated financial statements.

3. DERIVATIVE FINANCIAL INSTRUMENTS

The Company recognizes all derivative financial instruments in the consolidated balance sheet as either assets or liabilities at fair value. Derivative financial instruments are specifically designated, if certain conditions are met, as (a) a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment (a fair value hedge) or (b) a hedge of the exposure to variable cash flows of a forecasted transaction or a hedge of the foreign currency exposure of a forecasted transaction denominated in a foreign currency (a cash flow hedge). The Company uses derivative financial instruments primarily to manage the risks associated with fluctuations in interest rates and foreign currency exchange rates and does not hold or issue derivative financial instruments for speculative or trading purposes.

Table of Contents

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

The fair value of the assets and liabilities associated with the Company's derivative financial instruments recorded in the consolidated balance sheet as of June 30, 2010 and December 31, 2009 is as follows (in millions):

	Balance Sheet Location	June 30, 2010	December 31, 2009
Assets:			
Derivatives designated as hedging instruments:			
Interest rate swap contracts	Other assets	\$ 165	\$ 25
Foreign currency forward contracts	Other current assets	1	1
Total assets		\$ 166	\$ 26
Liabilities:			
Derivatives designated as hedging instruments:			
Interest rate swap contracts	Other liabilities	\$	\$ 37
Foreign currency forward contracts	Other current liabilities		1
Derivatives not designated as hedging instruments:			
Equity award reimbursement obligation	Other current liabilities	17	35
Total liabilities		\$ 17	\$ 73

Interest Rate Swap Contracts

Interest rate swap contracts are used to change the nature of outstanding debt (e.g., convert fixed-rate debt into variable-rate debt or convert variable-rate debt into fixed-rate debt). As of June 30, 2010, the Company had interest rate swap contracts outstanding that convert \$5.850 billion of fixed-rate debt instruments, with maturities extending through February 2015, to variable-rate debt. Such contracts are designated as fair value hedges. Under its interest rate swap contracts, the Company is entitled to receive semi-annual fixed rates of interest ranging from 3.500% to 10.150% and is required to make semi-annual interest payments at variable rates based on LIBOR plus margins ranging from 0.755% to 8.442%. During the three and six months ended June 30, 2010, the Company recognized no gain or loss related to its interest rate swap contracts because the changes in the fair values of such instruments were completely offset by the changes in the fair values of the hedged fixed-rate debt.

Foreign Currency Forward Contracts

Foreign currency forward contracts are used to mitigate the risk to the Company from changes in foreign currency exchange rates. Such contracts, which extend through May 2011, are designated as cash flow hedges and specifically relate to forecasted payments denominated in the Philippine peso made to vendors who provide Road Runner™ High Speed Online customer care support services.

The effective portion of the gain or loss on foreign currency forward contracts is recorded as a component of TWC shareholders' equity in accumulated other comprehensive income (accumulated OCI). The effective portion of such gains and losses are reclassified out of accumulated OCI into costs of revenues in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of such gains and losses are recognized in other expense, net, in the current reporting period. For the six months ended June 30, 2010 and 2009, the effects of foreign currency forward contracts on earnings were immaterial. The Company expects net gains of \$1 million to be reclassified out of accumulated OCI and into earnings within the next 12 months.

Table of Contents

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Equity Award Reimbursement Obligation

Upon the exercise of Time Warner stock options held by TWC employees, TWC is obligated to reimburse Time Warner for the excess of the market price of Time Warner common stock on the day of exercise over the option exercise price (the intrinsic value of the award). Prior to the Separation, TWC recorded an equity award reimbursement obligation for the intrinsic value of vested and outstanding Time Warner stock options held by TWC employees. This liability was adjusted each reporting period to reflect changes in the market price of Time Warner common stock and the number of Time Warner stock options held by TWC employees with an offsetting adjustment to TWC shareholders' equity. Beginning on March 12, 2009, the date of the Separation, TWC began accounting for the equity award reimbursement obligation as a derivative financial instrument because, as of such date, Time Warner was no longer a controlling shareholder of the Company. The Company records the equity award reimbursement obligation at fair value in the consolidated balance sheet, which is estimated using the Black-Scholes model, and, on March 12, 2009, TWC established a liability for the fair value of the equity award reimbursement obligation in other liabilities with an offsetting adjustment to TWC shareholders' equity in the consolidated balance sheet. The change in the equity award reimbursement obligation fluctuates primarily with the fair value and expected volatility of Time Warner common stock and is recorded in earnings in the period of change. Refer to Note 4 for the changes in the fair value of the equity award reimbursement obligation which are recognized in net income.

4. FAIR VALUE MEASUREMENTS

The fair value of an asset or liability is based on the assumptions that market participants would use in pricing the asset or liability. Valuation techniques consistent with the market approach, income approach and/or cost approach are used to measure fair value. The Company primarily applies a market-based approach for recurring fair value measurements. The Company follows a three-tiered fair value hierarchy when determining the inputs to valuation techniques. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels in order to maximize the use of observable inputs and minimize the use of unobservable inputs. The levels of the fair value hierarchy are as follows:

Level 1: consists of financial instruments whose values are based on quoted market prices for identical financial instruments in an active market.

Level 2: consists of financial instruments whose values are determined using models or other valuation methodologies that utilize inputs that are observable either directly or indirectly, including (i) quoted prices for similar assets or liabilities in active markets, (ii) quoted prices for identical or similar assets or liabilities in markets that are not active, (iii) pricing models whose inputs are observable for substantially the full term of the financial instrument and (iv) pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the financial instrument.

Level 3: consists of financial instruments whose values are determined using pricing models that utilize significant inputs that are primarily unobservable, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Fair Value of Derivative Financial Instruments

The fair values of assets and liabilities classified as derivative financial instruments are as follows as of June 30, 2010 and December 31, 2009 (in millions):

	June 30, 2010			December 31, 2009		
	Fair Value	Fair Value Measurements		Fair Value	Fair Value Measurements	
	Fair Value	Level 2	Level 3	Fair Value	Level 2	Level 3
Assets:						
Interest rate swap contracts	\$ 165	\$ 165	\$	\$ 25	\$ 25	\$
Foreign currency forward contracts	1	1		1	1	
	\$ 166	\$ 166	\$	\$ 26	\$ 26	\$
Liabilities:						
Interest rate swap contracts	\$	\$	\$	\$ 37	\$ 37	\$
Foreign currency forward contracts				1	1	
Equity award reimbursement obligation	17		17	35		35
	\$ 17	\$	\$ 17	\$ 73	\$ 38	\$ 35

Changes in the fair value of the equity award reimbursement obligation, valued using significant unobservable inputs (Level 3), are presented below (in millions):

Balance as of December 31, 2008	\$
Establishment of equity award reimbursement obligation	16
Losses recognized in net income ^(a)	21
Payments to Time Warner for awards exercised	(2)
Balance as of December 31, 2009	35
Gains recognized in net income ^(b)	(7)
Payments to Time Warner for awards exercised	(11)
Balance as of June 30, 2010	\$ 17

^(a) Of the total losses recognized in 2009, \$6 million and \$8 million was recognized

during the three and six months ended June 30, 2009, respectively.

- (b) Of the total gains recognized in 2010, \$3 million was recognized during the three months ended June 30, 2010.

Fair Value of Debt

Based on the level of interest rates prevailing at June 30, 2010 and December 31, 2009, the fair value of TWC's fixed-rate debt and mandatorily redeemable preferred equity exceeded the carrying value by approximately \$3.120 billion and \$2.268 billion as of June 30, 2010 and December 31, 2009, respectively. Unrealized gains or losses on debt do not result in the realization or expenditure of cash and are not recognized for financial reporting purposes unless the debt is retired prior to its maturity.

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

5. INCOME TAXES

For the three months ended June 30, 2010 and 2009, the Company recorded income tax provisions of \$217 million and \$216 million, respectively. For the six months ended June 30, 2010 and 2009, the Company recorded income tax provisions of \$490 million and \$407 million, respectively. The effective tax rate was 38.8% and 40.5% for the three months ended June 30, 2010 and 2009, respectively, and 46.8% and 44.8% for the six months ended June 30, 2010 and 2009, respectively.

The income tax provision and the effective tax rate for the six months ended June 30, 2010 were impacted by a net noncash charge of \$70 million related to the reversal of previously recognized deferred income tax benefits primarily as a result of the expiration, on March 12, 2010, of vested Time Warner stock options held by TWC employees. As a result of the Separation on March 12, 2009, TWC employees who held stock options under Time Warner equity plans were treated as if their employment with Time Warner had been terminated without cause at the time of the Separation. In most cases, this treatment resulted in shortened exercise periods, generally one year from the date of Separation, for vested Time Warner stock options held by TWC employees. Vested Time Warner stock options held primarily by certain retirement-eligible TWC employees (pursuant to the terms of the award agreements) have exercise periods of up to five years from the date of the Separation and, as such, the Company estimates that it may incur additional noncash income tax expense of up to approximately \$90 million through March 2014 upon the exercise or expiration of these stock options. This estimate and the timing of such charges are dependent on a number of variables related to Time Warner and TWC equity awards, including the respective stock prices and the timing of the exercise or expiration of stock options and RSUs.

The income tax provision and the effective tax rate for the six months ended June 30, 2009 were impacted by the passage of the California state budget during the first quarter of 2009 that, in part, changed the methodology of income tax apportionment in California. This tax law change resulted in an increase in state deferred tax liabilities and a corresponding noncash tax provision of \$38 million, which was recorded in the first quarter of 2009.

6. EQUITY-BASED COMPENSATION

The Company has granted options to purchase shares of TWC common stock and RSUs to its employees and non-employee directors under the Time Warner Cable Inc. 2006 Stock Incentive Plan (the 2006 Plan).

The Company measures the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. That cost is recognized in the consolidated statement of operations over the period during which an employee is required to provide service in exchange for the award (generally four years subject to graded vesting conditions). The Company's policy is to recognize the cost on a straight-line basis over the requisite service period. The Company uses the Black-Scholes model to estimate the grant date fair value of a stock option. Because the option-pricing model requires the use of subjective assumptions, changes in these assumptions can materially affect the fair value of stock options granted. The volatility assumption is calculated using a 75%-25% weighted average of implied volatility of TWC traded options and the historical stock price volatility of a comparable peer group of publicly traded companies. The expected term, which represents the period of time that options are expected to be outstanding, is estimated based on the historical exercise experience of TWC employees. The risk-free rate assumed in valuing the stock options is based on the U.S. Treasury yield curve in effect at the time of grant for the expected term of the option. The Company determines the expected dividend yield percentage by dividing the expected annual dividend by the market price of TWC common stock at the date of grant. The table below presents the assumptions used to value TWC stock options at their grant date for the six months ended June 30, 2010 and 2009 and reflects the weighted average of all awards granted within each period:

	Six Months Ended	
	June 30,	
	2010	2009
Expected volatility	31.4%	34.3%

Expected term to exercise from grant date	6.73 years	6.02 years
Risk-free rate	3.1%	2.5%
Expected dividend yield	3.5%	

Table of Contents

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

For the six months ended June 30, 2010, TWC granted 3,796,000 stock options at a weighted-average grant date fair value of \$10.94 per option. For the six months ended June 30, 2009, TWC granted 6,139,000 stock options at a weighted-average grant date fair value of \$9.52 per option. Of the total stock options granted in 2009, 4,934,000 were granted at a weighted-average grant date fair value of \$9.26 per option and 1,205,000 were granted as Separation-related make-up equity awards at a weighted-average grant date fair value of \$10.64 per option. Stock options granted under the 2006 Plan have exercise prices equal to the fair market value of TWC common stock at the date of grant. Generally, the stock options vest ratably over a four-year vesting period and expire ten years from the date of grant. Certain stock option awards provide for accelerated vesting upon the grantee's termination of employment after reaching a specified age and years of service.

For the six months ended June 30, 2010, TWC granted 1,936,000 RSUs at a weighted-average grant date fair value of \$45.15 per RSU. For the six months ended June 30, 2009, TWC granted 2,609,000 RSUs at a weighted-average grant date fair value of \$38.81 per RSU. Of the total RSUs granted in 2009, 1,249,000 were granted at a weighted-average grant date fair value of \$53.47 per RSU, 1,305,000 were granted as Special Dividend retained distributions at a weighted-average grant date fair value of \$24.99 per RSU and 55,000 were granted as Separation-related make-up equity awards at a weighted-average grant date fair value of \$33.80 per RSU. RSUs granted under the 2006 Plan generally vest equally on each of the third and fourth anniversary of the grant date. RSUs provide for accelerated vesting upon the grantee's termination of employment after reaching a specified age and years of service. Shares of TWC common stock will generally be issued at the end of the vesting period of an RSU. RSUs awarded to non-employee directors are not subject to vesting or forfeiture restrictions and the shares underlying the RSUs will generally be issued in connection with a director's termination of service as a director. Holders of RSUs are generally entitled to receive cash dividend equivalents or retained distributions related to regular cash dividends or distributions, respectively, paid by TWC. Retained distributions are subject to the vesting requirements of the underlying RSUs.

Equity-based compensation expense for the three and six months ended June 30, 2010 and 2009 is as follows (in millions):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Stock options	\$ 10	\$ 9	\$ 27	\$ 25
Restricted stock and restricted stock units	15	10	34	29
Total equity-based compensation expense	\$ 25	\$ 19	\$ 61	\$ 54

7. PENSION COSTS

TWC has both funded and unfunded noncontributory defined benefit pension plans covering a majority of its employees (the TWC Pension Plans). Pension benefits are based on formulas that reflect the employees' years of service and compensation during their employment period. The pension expense recognized by the Company is determined using certain assumptions, including the expected long-term rate of return on plan assets, the interest factor implied by the discount rate and the expected rate of compensation increases.

Table of Contents

TIME WARNER CABLE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

TWC uses a December 31 measurement date for the TWC Pension Plans. A summary of the components of net periodic benefit costs and contributions for the three and six months ended June 30, 2010 and 2009 is as follows (in millions):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Service cost	\$ 27	\$ 26	\$ 58	\$ 50
Interest cost	24	23	50	44
Expected return on plan assets	(31)	(24)	(63)	(47)
Amounts amortized	6	17	14	33
Net periodic benefit costs	\$ 26	\$ 42	\$ 59	\$ 80
Contributions	\$	\$ 40	\$ 1	\$ 81

After considering the funded status of the TWC Pension Plans, movements in the discount rate, investment performance and related tax consequences, the Company may choose to make contributions to the TWC Pension Plans. As of June 30, 2010, there were no minimum required contributions for the Company's funded plans. The Company did not make any contributions to its funded defined benefit pension plans during the six months ended June 30, 2010 but may make discretionary cash contributions to its funded defined benefit pension plans during the second half of 2010. For the Company's unfunded plan, contributions will continue to be made to the extent benefits are paid. Benefit payments for the unfunded plan are expected to be \$3 million in 2010, of which \$1 million has been paid as of June 30, 2010.

8. RESTRUCTURING COSTS

Beginning in the first quarter of 2009, the Company began a restructuring to improve operating efficiency, primarily consisting of headcount reductions and, during the second quarter of 2010, the termination of a facility lease. Through June 30, 2010, the Company incurred costs of \$112 million related to this restructuring and made payments of \$88 million against this accrual. The Company eliminated approximately 1,300 positions during 2009 and approximately 350 additional positions during the first half of 2010. Full-year 2010 restructuring costs are expected to be approximately \$50 million. Information relating to this restructuring is as follows (in millions):

	Employee	Other	Total
	Terminations	Exit Costs	
Accruals ^(a)	\$ 68	\$ 13	\$ 81
Cash paid ^(b)	(48)	(12)	(60)
Remaining liability as of December 31, 2009	20	1	21
Accruals ^(c)	22	9	31
Cash paid ^(d)	(25)	(3)	(28)
Remaining liability as of June 30, 2010 ^(e)	\$ 17	\$ 7	\$ 24

(a)

Of the total amount accrued in 2009, \$7 million and \$50 million was accrued during the three and six months ended June 30, 2009, respectively.

(b) Of the total amount paid in 2009, \$14 million and \$30 million was paid during the three and six months ended June 30, 2009, respectively.

(c) Of the total amount accrued in 2010, \$20 million was accrued during the three months ended June 30, 2010.

(d) Of the total amount paid in 2010, \$14 million was paid during the three months ended June 30, 2010.

(e) Of the remaining liability as of June 30, 2010, \$21 million is classified as a current liability, with the remaining \$3 million classified as a noncurrent liability in the consolidated balance sheet.

Amounts are
expected to be
paid through
2013.

Between January 1, 2005 and December 31, 2008, the Company underwent a restructuring plan to simplify its organizational structure and enhance its customer focus, and incurred costs of \$80 million related to this restructuring. Through June 30, 2010, payments of \$79 million have been made against this accrual, of which \$2 million were made during the three months ended June 30, 2009, and \$1 million and \$5 million were made during the six months ended June 30, 2010 and 2009, respectively. The remaining \$1 million liability is classified as a current liability in the consolidated balance sheet as of June 30, 2010.

9. COMMITMENTS AND CONTINGENCIES**Legal Proceedings**

On September 20, 2007, *Brantley, et al. v. NBC Universal, Inc., et al.* was filed in the U.S. District Court for the Central District of California against the Company. The complaint, which also named as defendants several other cable and satellite providers (collectively, the distributor defendants) as well as programming content providers (collectively, the programmer defendants), alleged violations of Sections 1 and 2 of the Sherman Antitrust Act. Among other things, the complaint alleged coordination between and among the programmer defendants to sell and/or license programming on a bundled basis to the distributor defendants, who in turn purportedly offer that programming to subscribers in packaged tiers, rather than on a per channel (or à la carte) basis. Plaintiffs, who seek to represent a purported nationwide class of cable and satellite subscribers, demand, among other things, unspecified treble monetary damages and an injunction to compel the offering of channels to subscribers on an à la carte basis. On December 3, 2007, plaintiffs filed an amended complaint in this action (the First Amended Complaint) that, among other things, dropped the Section 2 claims and all allegations of horizontal coordination. On December 21, 2007, the distributor defendants, including TWC, and the programmer defendants filed motions to dismiss the First Amended Complaint. On March 10, 2008, the court granted these motions, dismissing the First Amended Complaint with leave to amend. On March 20, 2008, plaintiffs filed a second amended complaint (the Second Amended Complaint) that modified certain aspects of the First Amended Complaint in an attempt to address the deficiencies noted by the court in its prior dismissal order. On April 22, 2008, the distributor defendants, including the Company, and the programmer defendants filed motions to dismiss the Second Amended Complaint, which motions were denied by the court on June 25, 2008. On July 14, 2008, the distributor defendants and the programmer defendants filed motions requesting the court to certify its June 25, 2008 order for interlocutory appeal to the U.S. Court of Appeals for the Ninth Circuit, which motions were denied by the district court on August 4, 2008. On May 4, 2009, by stipulation of the parties, plaintiffs filed a third amended complaint (the Third Amended Complaint) and on June 12, 2009, the distributor defendants and the programmer defendants filed a motion to dismiss the Third Amended Complaint, which the district court granted with prejudice on October 15, 2009, terminating the action. On April 19, 2010, plaintiffs appealed this decision to the U.S. Court of Appeals for the Ninth Circuit. The Company intends to defend against this lawsuit vigorously.

On June 22, 2005, Mecklenburg County filed suit against TWE-A/N in the General Court of Justice District Court Division, Mecklenburg County, North Carolina and, on July 1, 2005, the action was removed to the U.S. District Court for the Western District of North Carolina. Mecklenburg County, the franchisor in TWE-A/N's Mecklenburg County cable system, alleges that TWE-A/N's predecessor failed to construct an institutional network in 1981 and that TWE-A/N assumed that obligation upon the transfer of the franchise in 1995. Mecklenburg County is seeking compensatory damages and TWE-A/N's release of certain video channels it is currently using on the cable system. On April 14, 2006, TWE-A/N filed a motion for summary judgment, which the district court granted on January 26, 2010 on the basis that the plaintiff's claims were barred by the statute of limitations. On February 25, 2010, Mecklenburg County filed a notice of appeal with the U.S. Court of Appeals for the Fourth Circuit. The Company intends to defend against this lawsuit vigorously.

On June 16, 1998, plaintiffs in *Andrew Parker and Eric DeBrauwere, et al. v. Time Warner Entertainment Company, L.P. and Time Warner Cable* filed a purported nationwide class action in U.S. District Court for the Eastern District of New York claiming that Time Warner Entertainment Company, L.P. (TWE) sold its subscribers personally identifiable information and failed to inform subscribers of their privacy rights in violation of the Cable Communications Policy Act of 1984 and common law. The plaintiffs seek damages and declaratory and injunctive relief. On August 6, 1998, TWE filed a motion to dismiss, which was denied on September 7, 1999. On December 8, 1999, TWE filed a motion to deny class certification, which was granted on January 9, 2001 with respect to monetary damages, but denied with respect to injunctive relief. On June 2, 2003, the U.S. Court of Appeals for the Second Circuit vacated the district court's decision denying class certification as a matter of law and remanded the case for

further proceedings on class certification and other matters. On May 4, 2004, plaintiffs filed a motion for class certification, which the Company opposed. On October 25, 2005, the district court granted preliminary approval of a class settlement arrangement, but final approval of that settlement was denied on January 26, 2007. The parties subsequently reached a revised settlement to resolve this action on terms that are not material to the Company, which the district court approved on July 6, 2009. Certain class members appealed the district court's decision with respect to attorneys' fees, and on May 24, 2010, the U.S. Court of Appeals for the Second Circuit upheld the district court's approval of the settlement.

Certain Patent Litigation

On September 1, 2006, Ronald A. Katz Technology Licensing, L.P. (Katz) filed a complaint in the U.S. District Court for the District of Delaware alleging that TWC and several other cable operators, among other defendants, infringe 18 patents purportedly relating to the Company's customer call center operations and/or voicemail services. The plaintiff is seeking unspecified monetary damages as well as injunctive relief. On March 20, 2007, this case, together with other lawsuits filed by Katz, was made subject to a Multidistrict Litigation (MDL) Order transferring the case for pretrial proceedings to the U.S. District Court for the Central District of California. In April 2008, TWC and other defendants filed common motions for summary judgment, which argued, among other things, that a number of claims in the patents at issue are invalid under Sections 112 and 103 of the Patent Act. On June 19 and August 4, 2008, the court issued orders granting, in part, and denying, in part, those motions. Defendants filed additional individual motions for summary judgment in August 2008, which argued, among other things, that defendants' respective products do not infringe the surviving claims in plaintiff's patents. On August 13, 2009, the district court found one additional patent invalid, but denied defendants' motions for summary judgment on three remaining patents, and on October 27, 2009, the district court denied the defendants' requests for reconsideration of the decision. On January 29, 2010, the district court found one of the three remaining patents invalid based on a motion for summary judgment brought by another defendant. The Company intends to defend against this lawsuit vigorously.

On June 1, 2006, Rembrandt Technologies, LP (Rembrandt) filed a complaint in the U.S. District Court for the Eastern District of Texas alleging that the Company and a number of other cable operators infringed several patents purportedly related to a variety of technologies, including high-speed data and IP-based telephony services. In addition, on September 13, 2006, Rembrandt filed a complaint in the U.S. District Court for the Eastern District of Texas alleging that the Company infringes several patents purportedly related to high-speed cable modem internet products and services. On June 18, 2007, these cases, along with other lawsuits filed by Rembrandt, were made subject to an MDL Order transferring the case for pretrial proceedings to the U.S. District Court for the District of Delaware. In November 2008, the district court issued its claims construction orders. In response to these orders, the plaintiff has indicated it will dismiss its claims relating to the alleged infringement of eight patents purportedly relating to high-speed data and IP-based telephony services. The plaintiff has not indicated that it will dismiss its claim relating to one remaining patent alleged to relate to digital video decoder technology. Summary judgment motions are pending relating to the remaining claim. The Company intends to defend against the remaining claim vigorously.

On April 26, 2005, Acacia Media Technologies (AMT) filed suit against TWC in the U.S. District Court for the Southern District of New York alleging that TWC infringes several patents held by AMT. AMT has publicly taken the position that delivery of broadcast video (except live programming such as sporting events), pay-per-view, VOD and ad insertion services over cable systems infringe its patents. AMT has brought similar actions regarding the same patents against numerous other entities, and all of the previously pending litigations have been made the subject of an MDL Order consolidating the actions for pretrial activity in the U.S. District Court for the Northern District of California. On October 25, 2005, the TWC action was consolidated into the MDL proceedings. The plaintiff is seeking unspecified monetary damages as well as injunctive relief. On September 25, 2009, the district court ruled on the Company's summary judgment motions finding all AMT patents invalid and, on February 2, 2010, AMT appealed this decision. The Company intends to defend against this lawsuit vigorously.

From time to time, the Company receives notices from third parties claiming that it infringes their intellectual property rights. Claims of intellectual property infringement could require TWC to enter into royalty or licensing agreements on unfavorable terms, incur substantial monetary liability or be enjoined preliminarily or permanently from further use of the intellectual property in question. In addition, certain agreements entered may require the Company to indemnify the other party for certain third-party intellectual property infringement claims, which could increase the Company's damages and its costs of defending against such claims. Even if the claims are without merit, defending against the claims can be time consuming and costly.

As part of the restructuring of TWE, Time Warner agreed to indemnify the Company from and against any and all liabilities relating to, arising out of or resulting from specified litigation matters brought against the TWE non-cable businesses. Although Time Warner has agreed to indemnify the Company against such liabilities, TWE remains a named party in certain litigation matters.

TIME WARNER CABLE INC.
SUPPLEMENTARY INFORMATION
CONDENSED CONSOLIDATING FINANCIAL STATEMENTS
(Unaudited)

Time Warner Entertainment Company, L.P. (TWE) and TW NY Cable Holding Inc. (TW NY) and, together with TWE, the Guarantor Subsidiaries) are subsidiaries of Time Warner Cable Inc. (the Parent Company). The Guarantor Subsidiaries have fully and unconditionally, jointly and severally, directly or indirectly, guaranteed the debt issued by the Parent Company in its 2007 registered exchange offer and its 2008 and 2009 public offerings. The Parent Company owns all of the voting interests, directly or indirectly, of both TWE and TW NY.

The Securities and Exchange Commission's rules require that condensed consolidating financial information be provided for subsidiaries that have guaranteed debt of a registrant issued in a public offering, where each such guarantee is full and unconditional and where the voting interests of the subsidiaries are wholly owned by the registrant. Set forth below are condensed consolidating financial statements presenting the financial position, results of operations, and cash flows of (i) the Parent Company, (ii) the Guarantor Subsidiaries on a combined basis (as such guarantees are joint and several), (iii) the direct and indirect non-guarantor subsidiaries of the Parent Company (the Non-Guarantor Subsidiaries) on a combined basis and (iv) the eliminations necessary to arrive at the information for Time Warner Cable Inc. on a consolidated basis.

There are no legal or regulatory restrictions on the Parent Company's ability to obtain funds from any of its subsidiaries through dividends, loans or advances.

These condensed consolidating financial statements should be read in conjunction with the consolidated financial statements of Time Warner Cable Inc.

Basis of Presentation

In presenting the condensed consolidating financial statements, the equity method of accounting has been applied to (i) the Parent Company's interests in the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries, (ii) the Guarantor Subsidiaries' interests in the Non-Guarantor Subsidiaries and (iii) the Non-Guarantor Subsidiaries' interests in the Guarantor Subsidiaries, where applicable, even though all such subsidiaries meet the requirements to be consolidated under U.S. generally accepted accounting principles. All intercompany balances and transactions between the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries have been eliminated, as shown in the column Eliminations.

The accounting bases in all subsidiaries, including goodwill and identified intangible assets, have been allocated to the applicable subsidiaries.

Prior to March 12, 2009, Time Warner Cable Inc. was not a separate taxable entity for U.S. federal and various state income tax purposes and its results were included in the consolidated U.S. federal and certain state income tax returns of Time Warner Inc. In the condensed consolidating financial statements, income tax provision has been presented based on each subsidiary's legal entity basis. Deferred taxes of the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries have been presented based upon the temporary differences between the carrying amounts of the respective assets and liabilities of the applicable entities.

Certain administrative costs incurred by the Parent Company, the Guarantor Subsidiaries or the Non-Guarantor Subsidiaries are allocated to the various entities based on the relative number of video subscribers at each entity.

Effective January 1, 2010, the Company prospectively modified its intercompany transfer pricing agreement for certain services. While this modification did not materially impact net income of either the Guarantor Subsidiaries or the Non-Guarantor Subsidiaries, it did increase revenues and associated expenses (including expenses reported as intercompany royalties) for the Non-Guarantor Subsidiaries and reduced revenues and associated expenses for the Guarantor Subsidiaries.

Prior to October 1, 2009, interest income (expense), net, was determined based on third-party debt and the relevant intercompany amounts within the respective legal entity. Beginning October 1, 2009, the Parent Company began to allocate interest expense to certain subsidiaries based on each subsidiary's contribution to revenues. This allocation serves to reduce the Parent Company's interest expense and increase the interest expense of both the Guarantor Subsidiaries and Non-Guarantor Subsidiaries.

Part II. Other Information

Item 1. Legal Proceedings.

Reference is made to the lawsuit filed by Andrew Parker and Eric DeBrauwere, *et al.* described on page 23 of the Company's Annual Report on Form 10-K for the year ended December 31, 2009 (the 2009 Form 10-K). On May 24, 2010, the U.S. Court of Appeals for the Second Circuit upheld the district court's approval of the settlement on terms that are not material to the Company.

Item 1A. Risk Factors.

There have been no material changes in the Company's risk factors from those disclosed in Part I, Item 1A of the 2009 Form 10-K.

Item 5. Other Information.

TWC's business is subject to extensive governmental regulation and, as the Company disclosed in its 2009 Form 10-K, it expects that legislative enactments, court actions, and regulatory proceedings will continue to clarify and in some cases change the rights of cable companies and other entities providing video, data and voice services under the Communications Act of 1934, as amended and other laws, possibly in ways that TWC has not foreseen.

Among recent developments, on June 17, 2010, the Federal Communications Commission (the FCC) adopted a Notice of Inquiry to explore classifying the transmission component of facilities-based wireline broadband Internet access service as a Title II common carrier service to provide a new jurisdictional basis for imposing net neutrality regulations. The Notice of Inquiry does not propose to change the regulatory framework applicable to application or content providers, on-line service providers or Internet backbone providers, but asks how non-facilities based and wireless broadband ISPs should be treated. In addition, on July 16, 2010, the FCC issued its Sixth Report under Section 706 of the Telecommunications Act of 1996, as amended, which requires the FCC to determine annually whether broadband is being deployed to all Americans in a reasonable and timely fashion. The FCC determined that broadband deployment to all Americans is not being met, and indicated that it would seek to achieve universal broadband deployment through FCC action under the National Broadband Plan, including the potential reform of the Universal Service Fund, innovative approaches to unleashing new spectrum, and the removal of barriers to infrastructure investment. Any such FCC actions could negatively impact the profitability of TWC's high-speed data services, its capital expenditures and its ability to compete effectively.

Item 6. Exhibits.

The exhibits listed on the accompanying Exhibit Index are filed or incorporated by reference as a part of this report and such Exhibit Index is incorporated herein by reference.
