ALLEGHANY CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

1. Principles of Financial Statement Presentation

This report should be read in conjunction with the Annual Report on Form 10-K for the year ended December 31, 2010 (the 2010 10-K) of Alleghany Corporation (Alleghany).

Alleghany, a Delaware corporation, which together with its subsidiaries is referred to as Alleghany unless the context otherwise requires, is engaged in the property and casualty and surety insurance business through its wholly-owned subsidiary Alleghany Insurance Holdings LLC (AIHL). AIHL s insurance business is conducted through its wholly-owned subsidiaries RSUI Group, Inc. (RSUI), Capitol Transamerica Corporation and Platte River Insurance Company (collectively CATA), and Pacific Compensation Corporation (PCC). AIHL Re LLC (AIHL Re), a captive reinsurance subsidiary of AIHL, has in the past provided reinsurance to Alleghany operating units and affiliates. Alleghany s equity investments, including those held by AIHL s insurance operating units, are managed primarily by Alleghany Capital Partners LLC, an indirect, wholly-owned subsidiary of Alleghany. Alleghany also owns and manages properties in the Sacramento, California region through its subsidiary Alleghany Properties Holdings LLC (Alleghany Properties). In addition, Alleghany owns approximately 33 percent of the outstanding shares of common stock of Homesite Group Incorporated (Homesite), a national, full-service, mono-line provider of homeowners insurance, and approximately 38 percent of ORX Exploration, Inc. (ORX), a regional oil and gas exploration and production company. Alleghany also makes strategic investments in operating companies and conducts other activities at the parent level.

The financial statements contained in this Quarterly Report on Form 10-Q are unaudited, but reflect all adjustments which, in the opinion of management, are necessary to a fair statement of results of the interim periods covered thereby. All adjustments are of a normal and recurring nature except as described herein.

The accompanying unaudited consolidated financial statements include the results of Alleghany and its wholly-owned and majority-owned subsidiaries, and have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). All significant inter-company balances and transactions have been eliminated in consolidation.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those reported results to the extent that those estimates and assumptions prove to be inaccurate.

Certain prior year amounts have been reclassified to conform to the 2011 presentation.

Table of Contents**2. Recent Accounting Standards***Recently Adopted*

In July 2010, the Financial Accounting Standards Board (FASB) issued guidance that provides for additional financial statement disclosure regarding financing receivables, including the credit quality and allowance for credit losses associated with such assets. This guidance is generally effective for interim and annual periods beginning after December 15, 2010, with certain disclosures effective for interim and annual periods ending on or after December 31, 2010. Alleghany fully adopted this guidance in the 2011 first quarter, and the implementation did not have any impact on its results of operations and financial condition.

Future Application of Accounting Standards

In October 2010, the FASB issued guidance that provides additional clarification for costs associated with acquiring or renewing insurance contracts. This guidance states that only incremental, direct costs associated with the successful acquisition of a new or renewal insurance contract may be capitalized as deferred acquisition costs. Furthermore, such costs: (i) must be essential to the contract transaction; (ii) would not have been incurred had the contract transaction not occurred; and (iii) must be related directly to the acquisition activities involving underwriting, policy issuance and processing, medical and inspection, and sales force contract selling. Advertising costs should be included in deferred acquisition costs only if the capitalization criteria in separate direct-response advertising guidance within GAAP are met. All other acquisition-related costs and other expenses should be charged to expense as incurred. This guidance is effective for interim and annual periods beginning after December 15, 2011, with early adoption permitted (but only at the beginning of an entity's annual reporting period). Alleghany will adopt this guidance in the 2012 first quarter, and Alleghany does not currently believe that the implementation will have a material impact on its results of operations and financial condition.

3. Earnings Per Share of Common Stock

The following is a reconciliation of the income and share data used in the basic and diluted earnings per share computations for the three months ended March 31, 2011 and 2010 (in millions, except share amounts):

	2011	2010
Net earnings	\$ 71.3	\$ 58.2
Effect of dilutive securities	(0.1)	(0.5)
Income available to common stockholders for diluted earnings per share	\$ 71.2	\$ 57.7
Weighted average shares outstanding applicable to basic earnings per share	8,928,807	9,213,252
Effect of dilutive securities	7,161	10,427
Adjusted weighted average shares outstanding applicable to diluted earnings per share	8,935,968	9,223,679

Contingently issuable shares of 45,579 and 40,398 were potentially available during the 2011 and 2010 first quarters, respectively, but were not included in the computations of diluted earnings per share because the impact was anti-dilutive to the earnings per share calculation.

Earnings per share by quarter may not equal the amount for the full year due to the timing of treasury stock purchases and rounding.

4. Commitments and Contingencies*(a) Leases*

Alleghany leases certain facilities, furniture and equipment under long-term lease agreements.

(b) Litigation

Alleghany's subsidiaries are parties to pending litigation and claims in connection with the ordinary course of their businesses. Each such subsidiary makes provisions for estimated losses to be incurred in such litigation and claims, including legal costs. In the opinion of management, such provisions were adequate as of March 31, 2011.

Table of Contents***(c) Asbestos and Environmental Impairment Exposure***

AIHL's reserves for unpaid loss and loss adjustment expenses include \$14.0 million of gross reserves and \$13.9 million of net reserves as of March 31, 2011, and \$14.1 million of gross reserves and \$14.0 million of net reserves as of December 31, 2010, for asbestos and environmental impairment claims that arose from reinsurance assumed by a subsidiary of CATA between 1969 and 1976. This subsidiary exited such business in 1976. Additional information concerning CATA's asbestos and environmental exposure can be found in Note 13 to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K.

(d) Indemnification Obligations

On July 14, 2005, Alleghany completed the sale of its world-wide industrial minerals business, World Minerals, Inc. (World Minerals), to Imerys USA, Inc. (the Purchaser), a wholly-owned subsidiary of Imerys, S.A., pursuant to a Stock Purchase Agreement, dated as of May 19, 2005, by and among the Purchaser, Imerys, S.A. and Alleghany (the Stock Purchase Agreement). Pursuant to the Stock Purchase Agreement, Alleghany undertook certain indemnification obligations, including a general indemnification for breaches of representations and warranties set forth in the Stock Purchase Agreement (the Contract Indemnification) and a special indemnification (the Products Liability Indemnification) related to products liability claims arising from events that occurred during pre-closing periods, including the period of Alleghany ownership (the Alleghany Period).

The Products Liability Indemnification is divided into two parts, the first relating to products liability claims arising in respect of events occurring during the period prior to Alleghany's acquisition of the World Minerals business from Johns Manville Corporation, Inc., formerly known as Manville Sales Corporation (Manville), in July 1991 (the Manville Period), and the second relating to products liability claims arising in respect of events occurring during the period of Alleghany ownership.

Under the terms of the Stock Purchase Agreement, Alleghany will provide indemnification at a rate of 100 percent for the first \$100.0 million of losses arising from products liability claims relating to the Manville Period and at a rate of 50 percent for the next \$100.0 million of such losses, so that Alleghany's maximum indemnification obligation in respect of products liability claims relating to the Manville Period is \$150.0 million. This indemnification obligation in respect of Manville Period products liability claims will expire on July 31, 2016. The Stock Purchase Agreement states that it is the intention of the parties that, with regard to losses incurred in respect of products liability claims relating to the Manville Period, recovery should first be sought from Manville, and that Alleghany's indemnification obligation in respect of products liability claims relating to the Manville Period is intended to indemnify the Purchaser for such losses which are not recovered from Manville within a reasonable period of time after recovery is sought from Manville. In connection with World Minerals' acquisition of the assets of the industrial minerals business of Manville in 1991, Manville agreed to indemnify World Minerals for certain products liability claims, in respect of products of the industrial minerals business manufactured during the Manville Period, asserted against World Minerals through July 31, 2006. In June 2006, Manville agreed to extend its indemnification for such claims asserted against World Minerals through July 31, 2009. Notwithstanding the expiration of the Manville indemnity on July 31, 2009, World Minerals did not, as part of its 1991 acquisition of the assets of Manville's industrial minerals business assets, assume liability for product liability claims to the extent that such claims relate, in whole or in part, to the Manville Period, and Manville should continue to be responsible for such claims. The Stock Purchase Agreement provides that Alleghany has no responsibility for products liability claims arising in respect of events occurring after the closing, and that any products liability claims involving both pre-closing and post-closing periods will be apportioned on an equitable basis.

With respect to the Contract Indemnification, substantially all of the representations and warranties to which the Contract Indemnification applies survived until July 14, 2007, with the exception of certain representations and warranties such as those related to environmental, real estate and tax matters, which survive for longer periods and generally, except for tax and certain other matters, apply only to aggregate losses in excess of \$2.5 million, up to a maximum of approximately \$123.0 million.

Additional information concerning the Products Liability Indemnification and Contract Indemnification can be found in Note 13 to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K.

Based on Alleghany's historical experience and other analyses, in July 2005, Alleghany established a \$0.6 million reserve in connection with the Products Liability Indemnification for the Alleghany Period. Such reserve was approximately \$0.2 million at both March 31, 2011 and December 31, 2010.

Table of Contents

(e) Equity Holdings Concentration

As of March 31, 2011 and December 31, 2010, Alleghany had a concentration of market risk in its available-for-sale equity securities portfolio with respect to certain energy sector businesses of \$1,084.0 million and \$1,004.8 million, respectively. Of the \$1,084.0 million, \$673.0 million represents Alleghany's ownership of common stock of Exxon Mobil Corporation.

5. Segments of Business

Information related to Alleghany's reportable segment is shown in the table below. Property and casualty and surety insurance operations are conducted by AIHL through its insurance operating units RSUI, CATA and PCC. In addition, AIHL Re is a wholly-owned subsidiary of AIHL that has in the past provided reinsurance to Alleghany's insurance operating units and affiliates.

Alleghany's reportable segment is reported in a manner consistent with the way management evaluates the businesses. As such, insurance underwriting activities are evaluated separately from investment activities. Net realized capital gains and other-than-temporary impairment losses are not considered relevant in evaluating investment performance on an annual basis. Segment accounting policies are described in Note 1 to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K.

The primary components of corporate activities are Alleghany Properties, Alleghany's investments in Homesite and ORX and strategic investments and other activities at the parent level.

Table of Contents

	Three Months Ended March 31, 2011 2010 (in millions)	
Revenues:		
<i>AIHL insurance group:</i>

RSUI	\$ 141.6	\$ 150.3
CATA	39.3	40.6
PCC	0.1	3.8
	181.0	194.7
Net investment income	30.2	33.4
Net realized capital gains	34.7	22.7
Other than temporary impairment losses (1)		(1.1)
Other income	0.1	0.1
Total insurance group	246.0	249.8
 <i>Corporate activities:</i>		
Net investment income (2)	1.4	(1.9)
Net realized capital gains		3.8
Other than temporary impairment losses		
Other income	0.7	
Total	\$ 248.1	\$ 251.7
 Earnings before income taxes:		
<i>AIHL insurance group:</i>		
Underwriting profit (loss) (3)		
RSUI	\$ 49.0	\$ 36.8
CATA	0.7	0.3
PCC	(6.3)	(5.4)
	43.4	31.7
Net investment income	30.2	33.4
Net realized capital gains	34.7	22.7
Other than temporary impairment losses (1)		(1.1)
Other income, less other expenses	(9.7)	(8.4)
Total insurance group	98.6	78.3
 <i>Corporate activities:</i>		
Net investment income (2)	1.4	(1.9)

Net realized capital gains		3.8
Other than temporary impairment losses		
Other income	0.7	
Corporate administration and other expenses	6.8	5.7
Interest expense	4.4	0.1
Total	\$ 89.5	\$ 74.4

- (1) Reflects impairment charges for unrealized losses related to AIHL's investment portfolio that were deemed to be other-than-temporary. See Note 7(c).
- (2) Includes \$0.5 million and \$1.8 million of Alleghany's equity in losses of Homesite for the three months ended March 31, 2011 and 2010, respectively, and \$1.0 million and \$2.4 million of Alleghany's equity in losses of ORX for the three months ended March 31, 2011 and 2010, respectively.
- (3) Represents net premiums earned less loss and loss adjustment expenses and commission, brokerage and other underwriting expenses, all as determined in accordance with GAAP, and does not include net investment income, net realized capital gains, other-than-temporary impairment losses, other income or other expenses. Commission, brokerage and other underwriting expenses represent commission and brokerage expenses and that portion of salaries, administration and other operating expenses attributable primarily to underwriting activities, whereas the remainder constitutes other expenses.

Table of Contents**6. Reinsurance**

As discussed in the 2010 10-K, RSUI reinsures its property lines of business through a program consisting of surplus share treaties, facultative placements, per risk and catastrophe excess of loss treaties. RSUI's catastrophe reinsurance program (which covers catastrophe risks including, among others, windstorms and earthquakes) and per risk reinsurance program run on an annual basis from May 1 to the following April 30 and thus expired on April 30, 2011. RSUI placed all of its catastrophe reinsurance program for the 2011-2012 period, and the new program is similar to the expired program. The new reinsurance program provides coverage in two layers for \$400.0 million of losses in excess of a \$100.0 million net retention after application of the surplus share treaties, facultative reinsurance and per risk covers. The first layer provides coverage for \$100.0 million of losses, before a 47.0 percent co-participation by RSUI (compared with a 33.0 percent co-participation under the expired program), in excess of the \$100.0 million net retention, and the second layer provides coverage for \$300.0 million of losses, before a 5 percent co-participation by RSUI, in excess of \$200.0 million. In addition, RSUI's property per risk reinsurance program for the 2011-2012 period provides RSUI with coverage for \$90.0 million of losses, before a 10.0 percent co-participation by RSUI, in excess of a \$10.0 million net retention per risk after application of the surplus share treaties and facultative reinsurance. As discussed in Note 5(a) to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K, RSUI reinsures its other lines of business through quota share treaties, except for professional liability and binding authority lines where RSUI retains all of such business.

7. Investments**(a) Fair Value**

The estimated carrying values and fair values of Alleghany's consolidated financial instruments as of March 31, 2011 and December 31, 2010 were as follows (in millions):

	March 31, 2011		December 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets				
Investments (excluding equity method investments)*	\$4,702.2	\$4,702.2	\$4,622.7	\$4,622.7
Liabilities				
Senior Notes**	\$ 299.0	\$ 302.4	\$ 298.9	\$ 291.8

* This table includes available-for-sale investments (securities as well as partnership investments carried at fair value that are included in other invested assets). This table excludes investments accounted for using the equity method (Homesite, ORX and other investments) and certain loans receivable that are carried at cost, all of which are included in other invested assets. The fair value of short-term investments approximates amortized cost. The fair value of all other categories of investments is discussed below.

** See Note 7 to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K.

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are not adjusted for transaction costs. In addition, GAAP has a three-tiered hierarchy for inputs used in management's determination of fair value of financial instruments that emphasizes the use of observable inputs over the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are market participant assumptions based on market data obtained from sources independent of the reporting entity. Unobservable inputs are the reporting entity's own assumptions about market participant assumptions based on the best information available under the circumstances. In assessing the appropriateness of using observable inputs in making its fair value determinations, Alleghany considers whether the market for a particular security is active or not based on all the relevant facts and circumstances. For example, Alleghany may consider a market to be inactive if there are relatively few recent transactions or if there is a significant decrease in market volume. Furthermore, Alleghany considers whether

observable transactions are orderly or not. Alleghany does not consider a transaction to be orderly if there is evidence of a forced liquidation or other distressed condition, and as such, little or no weight is given to that transaction as an indicator of fair value.

Table of Contents

The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 Valuations are based on unadjusted quoted prices in active markets for identical, unrestricted assets. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these assets does not involve any meaningful degree of judgment. An active market is defined as a market where transactions for the financial instrument occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Alleghany's Level 1 assets generally include publicly traded common stocks and debt securities issued directly by the U.S. Government, where Alleghany's valuations are based on quoted market prices.

Level 2 Valuations are based on quoted market prices where such markets are not deemed to be sufficiently active. In such circumstances, additional valuation metrics will be used which involve direct or indirect observable market inputs. Alleghany's Level 2 assets generally include preferred stocks and debt securities other than debt issued directly by the U.S. Government. Alleghany's Level 2 liabilities include the Senior Notes. Substantially all of the determinations of value in this category are based on a single quote from third-party dealers and pricing services. As Alleghany generally does not make any adjustments thereto, such quote typically constitutes the sole input in its determination of the fair value of these types of securities. In developing a quote, such third parties will use the terms of the security and market-based inputs. Terms of the security include coupon, maturity date, and any special provisions that may, for example, enable the investor, at its election, to redeem the security prior to its scheduled maturity date. Market-based inputs include the level of interest rates applicable to comparable securities in the market place and current credit rating(s) of the security. Such quotes are generally non-binding.

Level 3 Valuations are based on inputs that are unobservable and significant to the overall fair value measurement. Valuation under Level 3 generally involves a significant degree of judgment on the part of Alleghany. Alleghany's Level 3 assets are primarily limited to partnership investments. Net asset value quotes from the third-party general partner of the entity in which such investment is held, which will often be based on unobservable market inputs, constitute the primary input in Alleghany's determination of the fair value of such assets.

Alleghany validates the reasonableness of its fair value determinations for Level 2 securities by testing the methodology of the relevant third-party dealer or pricing service that provides the quotes upon which the fair value determinations are made. Alleghany tests the methodology by comparing such quotes with prices from executed market trades when such trades occur. Alleghany discusses with the relevant third-party dealer or pricing service any identified material discrepancy between the quote derived from its methodology and the executed market trade in order to resolve the discrepancy. Alleghany uses the quote from the third-party dealer or pricing service unless Alleghany determines that the methodology used to produce such quote is not in compliance with GAAP. In addition to such procedures, Alleghany also compares the aggregate amount of the fair value for such Level 2 securities with the aggregate fair value provided by a third-party financial institution. Furthermore, Alleghany reviews the reasonableness of its classification of securities within the three-tiered hierarchy to ensure that the classification is consistent with GAAP.

Table of Contents

The estimated fair values of Alleghany's financial instruments as of March 31, 2011 and December 31, 2010 allocated among the three levels set forth above were as follows (in millions):

	Level 1	Level 2	Level 3	Total
As of March 31, 2011				
Equity securities:				
Common stock(1)	\$ 1,598.7	\$	\$	\$ 1,598.7
Preferred stock				
Debt securities:				
U.S. Government obligations	275.9	30.5		306.4
Mortgage and asset-backed securities(2)		952.0		952.0
States, municipalities and political subdivision bonds		1,033.0		1,033.0
Foreign bonds		117.7		117.7
Corporate bonds and other		422.2		422.2
	275.9	2,555.4		2,831.3
Short-term investments	146.8	99.3		246.1
Other invested assets(3)			26.1	26.1
Investments (excluding equity method investments)	\$ 2,021.4	\$ 2,654.7	\$ 26.1	\$ 4,702.2
Senior Notes	\$	\$ 302.4	\$	\$ 302.4
As of December 31, 2010				
Equity securities:				
Common stock(1)	\$ 1,500.7	\$	\$	\$ 1,500.7
Preferred stock				
Debt securities:				
U.S. Government obligations	307.3	30.5		337.8
Mortgage and asset-backed securities(2)		866.5		866.5
States, municipalities and political subdivision bonds		1,068.5		1,068.5
Foreign bonds		114.2		114.2
Corporate bonds and other		445.4		445.4
	307.3	2,525.1		2,832.4
Short-term investments	86.4	178.4		264.8
Other invested assets(3)			24.8	24.8
Investments (excluding equity method investments)	\$ 1,894.4	\$ 2,703.5	\$ 24.8	\$ 4,622.7
Senior Notes	\$	\$ 291.8	\$	\$ 291.8

(1) Of the \$1,598.7 million of fair value as of March 31, 2011, \$1,084.0 million related to certain energy sector businesses. Of the \$1,500.7 million of fair value as of December 31, 2010, \$1,004.8 million related to certain energy sector businesses.

- (2) Of the \$952.0 million of fair value as of March 31, 2011, \$498.8 million related to residential mortgage-backed securities (RMBS), \$172.6 million related to commercial mortgage-backed securities (CMBS) and \$280.6 million related to other asset-backed securities. Of the \$866.5 million of fair value as of December 31, 2010, \$499.9 million related to RMBS, \$173.4 million related to CMBS and \$193.2 million related to other asset-backed securities.
- (3) Level 3 securities consist of partnership investments. The carrying value of partnership investments of \$26.1 million increased by \$1.3 million from the December 31, 2010 carrying value of \$24.8 million, due primarily to an increase in estimated fair value during the period.

Table of Contents**(b) Available-For-Sale Securities**

Available-for-sale securities as of March 31, 2011 and December 31, 2010 are summarized as follows (in millions):

	Amortized Cost or Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
As of March 31, 2011				
Equity securities:				
Common stock(1)	\$ 1,284.7	\$ 316.1	\$ (2.1)	\$ 1,598.7
Preferred stock				
Debt securities:				
U.S. Government obligations	304.0	3.8	(1.4)	306.4

Corporate activities	592.6	42.7		635.3
	\$ 4,352.9	\$ 275.4	\$ (30.4)	\$ 4,597.9

- (1) Of the \$1,598.7 million of fair value as of March 31, 2011, \$1,084.0 million related to certain energy sector businesses. Of the \$1,500.7 million of fair value as of December 31, 2010, \$1,004.8 million related to certain energy sector businesses.
- (2) Of the \$952.0 million of fair value as of March 31, 2011, \$498.8 million related to RMBS, \$172.6 million related to CMBS and \$280.6 million related to other asset-backed securities. Of the \$866.5 million of fair value as of December 31, 2010, \$499.9 million related to RMBS, \$173.4 million related to CMBS and \$193.2 million related to other asset-backed securities.

Table of Contents

The amortized cost and estimated fair value of debt securities as of March 31, 2011 by contractual maturity are shown below (in millions). Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Amortized Cost	Fair Value
Short-term investments due in one year or less	\$ 246.1	\$ 246.1
Mortgage and asset-backed securities	928.7	952.0
Debt securities		
One year or less	217.2	219.5
Over one through five years	650.8	669.8
Over five through ten years	543.2	553.0
Over ten years	443.2	437.0
Equity securities	1,284.7	1,598.7
	\$ 4,313.9	\$ 4,676.1

The proceeds from sales of available-for-sale securities were \$421.3 million and \$440.1 million for the three months ended March 31, 2011 and 2010, respectively. The amounts of gross realized capital gains and gross realized capital losses of available-for-sale securities (primarily, equity securities) for the three months ended March 31, 2011 and March 31, 2010 were:

	Three Months Ended March 31, 2011 2010 (in millions)	
Gross realized gains	\$ 40.9	\$ 27.1
Gross realized losses	(6.2)	(0.6)
Net realized gains	\$ 34.7	\$ 26.5

The gross loss amounts exclude other-than-temporary impairment losses, as discussed below. Realized gains and losses on investments are determined in accordance with the specific identification method.

(c) Other-Than-Temporary-Impairment Losses

Alleghany holds its equity and debt securities as available for sale, and as such, these securities are recorded at fair value. Alleghany continually monitors the difference between cost and the estimated fair value of its investments, which involves uncertainty as to whether declines in value are temporary in nature. If a decline in the value of a particular investment is deemed temporary, Alleghany records the decline as an unrealized loss in stockholders' equity. If the decline is deemed to be other than temporary, Alleghany writes it down to the carrying value of the investment and records an other-than-temporary impairment loss on its statement of earnings, regardless of whether Alleghany continues to hold the applicable security. In addition, under GAAP, any portion of such decline that relates to debt securities that is believed to arise from factors other than credit is recorded as a component of other comprehensive income.

Management's assessment of a decline in value initially involves an evaluation of all securities that are in an unrealized loss position, regardless of the duration or severity of the loss, as of the applicable balance sheet date. Such initial review consists primarily of assessing whether:

- (i) there has been a negative news event with respect to the issuer of any such security (irrespective of the duration or severity of its loss) that could indicate the existence of an other-than-temporary impairment;
- (ii) Alleghany has the ability and intent to hold an equity security for a period of time sufficient to allow for an anticipated recovery (generally considered to be less than one year from the balance sheet date); and
- (iii) it is more likely than not that Alleghany will sell a debt security before recovery of its amortized cost basis.

To the extent that an equity security in an unrealized loss position is not impaired based on the initial review described above, Alleghany then further evaluates such equity security and deems it to be other-than-temporarily impaired if its decline in fair value has existed for twelve months or more or if its decline in fair value from its cost is greater than 50 percent, absent compelling evidence to the contrary.

Table of Contents

Alleghany then evaluates all remaining equity securities that are in an unrealized loss position the cost of which:

(i) exceeds their fair value by 20 percent or more as of the balance sheet date; or

(ii) has exceeded their fair value continuously for six (6) months or more preceding the balance sheet date.

This evaluation takes into account quantitative and qualitative factors in determining whether such securities are other-than-temporarily impaired including:

market valuation metrics associated with the equity security (e.g., dividend yield and price-to-earnings ratio);

current views on the equity security, as expressed by either Alleghany's internal stock analysts and/or by independent stock analysts or rating agencies; and

discrete credit or news events associated with a specific company, such as negative news releases and rating agency downgrades with respect to the issuer of the investment.

To the extent that a debt security that is in an unrealized loss position is not impaired based on the initial review described above, Alleghany will consider a debt security to be impaired when it believes it to be probable that Alleghany will not be able to collect all amounts due under the security's contractual terms.

Alleghany may ultimately record a realized loss after having originally concluded that the decline in value was temporary. Risks and uncertainties are inherent in the methodology Alleghany uses to assess other-than-temporary declines in value. Risks and uncertainties could include, but are not limited to, incorrect assumptions about financial condition, liquidity or future prospects, inadequacy of any underlying collateral, and unfavorable changes in economic or social conditions, interest rates or credit ratings.

There were no other-than-temporary impairment losses for the three months ended March 31, 2011.

Other-than-temporary impairment losses for the three months ended March 31, 2010 reflect \$1.1 million of unrealized losses that were deemed to be other-than-temporary and, as such, were required to be charged against earnings. All of the \$1.1 million of other-than-temporary impairment losses related to equity holdings. The determination that unrealized losses on such securities were other-than-temporary was primarily based on the severity and duration of the declines in fair value of such securities relative to their cost as of the balance sheet date.

After adjusting the cost basis of securities for the recognition of other-than-temporary impairment losses, the gross unrealized investment losses for debt and equity securities as of March 31, 2011 were deemed to be temporary, based on, among other things:

the duration of time and the relative magnitude to which fair values of these investments has been below cost was not indicative of an other-than-temporary impairment loss (for example, no equity security was in a continuous unrealized loss position for twelve months or more as of March 31, 2011);

the absence of compelling evidence that would cause Alleghany to call into question the financial condition or near-term prospects of the issuer of the investment; and

Alleghany's ability and intent to hold the investment for a period of time sufficient to allow for any anticipated recovery.

Table of Contents

Such gross unrealized investment losses and related fair value for debt securities and equity securities as of March 31, 2011 and December 31, 2010, were as follows (in millions):

	2011		2010	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
<i>Debt securities:</i>				
U.S. Government obligations				
Less than 12 months	\$ 69.5	\$ 1.4	\$ 49.7	\$ 1.2
More than 12 months				
Mortgage and asset-backed securities				
Less than 12 months	282.6	3.0	170.8	2.8

Less than 12 months	76.1	2.1	139.5	5.6
More than 12 months				
Equity securities – Preferred Stock				
Less than 12 months				
More than 12 months				
Total temporarily impaired securities				
Less than 12 months	877.3	22.0	817.4	26.3
More than 12 months	40.9	3.5	47.2	4.1
Total	\$ 918.2	\$ 25.5	\$ 864.6	\$ 30.4

As of March 31, 2011, Alleghany held a total of 226 debt and equity securities that were in an unrealized loss position, of which 14 securities, all debt securities, were in an unrealized loss position continuously for 12 months or more. Of the debt securities that were in an unrealized loss position, all were mortgage and asset-backed securities, and states, municipalities and political subdivision bonds. As of March 31, 2011, substantially all of Alleghany's debt securities were rated investment grade. As of March 31, 2011, non-income producing invested assets were insignificant.

8. Income Taxes

As of March 31, 2011, Alleghany believes there were no material uncertain tax positions that would require disclosure under GAAP.

The effective tax rate on earnings before income taxes was 20.3 percent for the first three months of 2011, compared with 21.8 percent for the corresponding 2010 period. The lower effective tax rate in 2011 primarily reflects the impact of higher dividends received deductions in the first three months of 2011, partially offset by the absence of a permanent tax benefit significant in the 2010 period, which related to a finalization of Alleghany's unused foreign tax credits arising from its prior ownership of World Minerals which was sold on July 14, 2005.

Cautionary Statement Regarding Forward-Looking Information

Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures About Market Risk contain disclosures which are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as may, will, expect, project, estimate, anticipate, plan, believe, potential, should, continue or the negative versions of those words or other comparable words. These forward-looking statements are based upon our current plans or expectations and are subject to a number of uncertainties and risks that could significantly affect current plans, anticipated actions and our future financial condition and results. These statements are not guarantees of future performance, and we have no specific intention to update these statements. The uncertainties and risks include, but are not limited to,

significant weather-related or other natural or human-made catastrophes and disasters;

the cyclical nature of the property and casualty insurance industry;

adverse loss development for events insured by our insurance operating units in either the current year or prior years;

changes in market prices of our significant equity investments and changes in value of our debt securities portfolio;

the long-tail and potentially volatile nature of certain casualty lines of business written by our insurance operating units;

the cost and availability of reinsurance;

exposure to terrorist acts;

the willingness and ability of our insurance operating units' reinsurers to pay reinsurance recoverables owed to our insurance operating units;

changes in the ratings assigned to our insurance operating units;

claims development and the process of estimating reserves;

legal and regulatory changes, including the new federal financial regulatory reform of the insurance industry established by the Dodd-Frank Wall Street Reform and Consumer Protection Act;

the uncertain nature of damage theories and loss amounts; and

Table of Contents

increases in the levels of risk retention by our insurance operating units.

Additional risks and uncertainties include general economic and political conditions, including the effects of a prolonged U.S. or global economic downturn or recession; changes in costs; variations in political, economic or other factors; risks relating to conducting operations in a competitive environment; effects of acquisition and disposition activities, inflation rates or recessionary or expansive trends; changes in interest rates; extended labor disruptions, civil unrest or other external factors over which we have no control; and changes in our plans, strategies, objectives, expectations, or intentions, which may happen at any time at our discretion. As a consequence, current plans, anticipated actions and future financial condition and results may differ from those expressed in any forward-looking statements made by us or on our behalf.

Critical Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, or GAAP, requires us to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period covered by the financial statements. Critical accounting estimates are defined as those estimates that are important to the presentation of our financial condition and results of operations and require us to exercise significant judgment.

We review our critical accounting estimates and assumptions quarterly. These reviews include evaluating the adequacy of reserves for unpaid loss and loss adjustment expenses, or LAE, and reinsurance, analyzing the recoverability of deferred tax assets, assessing goodwill for impairment and evaluating our investment portfolio for other-than-temporary declines in estimated fair value. Actual results may differ from the estimates used in preparing the financial statements.

Readers are encouraged to review our Report on Form 10-K for the year ended December 31, 2010, or the 2010 10-K, for a more complete description of our critical accounting estimates.

Consolidated Results of Operations

The following discussion and analysis presents a review of our results for the three months ended March 31, 2011 and 2010. You should read this review in conjunction with the unaudited consolidated financial statements and other data presented in this Form 10-Q as well as Management's Discussion and Analysis of Financial Condition and Results of Operations and Risk Factors contained in our 2010 10-K. Our results for the first three months of 2011 are not indicative of operating results in future periods.

Overview

We are engaged, through AIHL and its subsidiaries, primarily in the property and casualty and surety insurance business. We also own and manage properties in the Sacramento, California region through our subsidiary Alleghany Properties and seek out strategic investments and conduct other activities at the parent level. Primarily through our wholly-owned subsidiary, Alleghany Capital Partners, we manage our public equity investments, including those held by our insurance operating units, as well as conduct equity investment and non-insurance acquisition research. Strategic investments currently include an approximately 33 percent ownership of the outstanding shares of common stock of Homesite Group Incorporated, or Homesite, a national, full-service, mono-line provider of homeowners insurance, and approximately 38 percent ownership of ORX Exploration, Inc., or ORX, a regional oil and gas exploration and production company. Our primary sources of revenues and earnings are our insurance operations and investments.

The profitability of our insurance operating units, and as a result, our profitability, is primarily impacted by the adequacy of premium rates, level of catastrophe losses, investment returns, intensity of competition and the cost of reinsurance. The adequacy of premium rates is affected mainly by the severity and frequency of claims, which are influenced by many factors, including natural disasters, regulatory measures and court decisions that define and expand the extent of coverage, and the effects of economic inflation on the amount of compensation due for injuries or losses. The ultimate adequacy of premium rates is not known with certainty at the time property and casualty insurance policies are issued because premiums are determined before claims are reported.

Catastrophe losses, or the absence thereof, can have a significant impact on our results. For example, RSUI's pre-tax catastrophe losses, net of reinsurance, were \$31.0 million for 2010, \$6.7 million for 2009 and \$97.9 million for 2008 (primarily reflecting net losses from 2008 third quarter Hurricanes Ike, Gustav and Dolly). The incidence and

severity of catastrophes in any short period of

Table of Contents

time are inherently unpredictable. Catastrophes can cause losses in a variety of our property and casualty lines of business, and most of our past catastrophe-related claims have resulted from severe hurricanes. Longer-term natural catastrophe trends may be changing due to climate change, a phenomenon that has been associated with extreme weather events linked to rising temperatures, and includes effects on global weather patterns, sea, land and air temperatures, sea levels, rain and snow. Climate change, to the extent it produces rising temperatures and changes in weather patterns, could impact the frequency or severity of weather events such as hurricanes. To the extent climate change increases the frequency and severity of such weather events, our insurance operating units, particularly RSUI, may face increased claims, particularly with respect to properties located in coastal areas. Our insurance operating units take certain measures to mitigate against the frequency and severity of such events by giving consideration to these risks in their underwriting and pricing decisions and through the purchase of reinsurance.

As of March 31, 2011, we had consolidated total investments of approximately \$4.9 billion, of which approximately \$2.8 billion was invested in debt securities and approximately \$1.6 billion was invested in equity securities. Net realized capital gains, other-than-temporary impairment losses and net investment income related to such investment assets are subject to market conditions and management investment decisions and as a result can have a significant impact on our results. In the 2011 first quarter, net realized capital gains were \$34.7 million, compared with \$26.5 million in the corresponding 2010 period, and there were no other-than-temporary impairment losses in the 2011 first quarter, compared with \$1.1 million in the corresponding 2010 period.

The profitability of our insurance operating units is also impacted by competition generally and price competition in particular. Historically, the performance of the property and casualty insurance industry has tended to fluctuate in cyclical periods of price competition and excess underwriting capacity followed by periods of high premium rates and shortages of underwriting capacity. Although an individual insurance company's performance is dependent on its own specific business characteristics, the profitability of most property and casualty insurance companies tends to follow this cyclical market pattern. In the past few years, our insurance operating units have faced increasing competition as a result of an increased flow of capital into the insurance industry, with both new entrants and existing insurers seeking to gain market share. This has resulted in decreased premium rates and less favorable contract terms and conditions. In particular, RSUI and CATA's specialty lines of business increasingly encounter competition from the standard market. We expect to continue to face strong competition in these and the other lines of business of our insurance operating units, and our insurance operating units may continue to experience decreases in premium rates and/or premium volume and less favorable contract terms and conditions.

As part of their overall risk and capacity management strategy, our insurance operating units purchase reinsurance for certain amounts of risk underwritten by them, especially catastrophe risks. The reinsurance programs purchased by our insurance operating units are generally subject to annual renewal. Market conditions beyond the control of our insurance operating units determine the availability and cost of the reinsurance protection they purchase, which may affect the level of business written and thus their profitability.

Table of Contents

The following table summarizes our consolidated revenues, costs and expenses and earnings.

	Three Months Ended March 31, 2011 2010 (in millions)	
Revenues		
Net premiums earned	\$ 181.0	\$ 194.7
Net investment income	31.6	31.4
Net realized capital gains	34.7	26.5
Other than temporary impairment losses		(1.1)
Other income	0.8	0.2
Total revenues	\$ 248.1	\$ 251.7
Costs and expenses		
Loss and loss adjustment expenses	\$ 71.0	\$ 96.6
Commissions, brokerage and other underwriting expenses	66.6	66.4
Other operating expenses	10.2	8.9
Corporate administration	6.4	5.2

* Corporate activities consist of Alleghany Properties, our investments in Homesite and ORX and corporate activities at the parent level.

Our earnings before income taxes in the 2011 first quarter increased from the corresponding 2010 period, primarily reflecting lower loss and LAE and higher net realized capital gains, partially offset by a decline in net premiums earned and higher interest expense. Net realized capital gains in the first quarter of 2011 and 2010 relate primarily to sales of certain equity securities, some of which had their cost basis reduced in earlier periods for the recognition of unrealized losses through other-than-temporary impairment losses. The decrease in loss and LAE and net premiums earned reflects the impact of continuing competition at RSUI and CATA. The decrease in loss and LAE also reflects a \$15.8 million release of prior year reserves at RSUI, compared with a net \$7.5 million increase in the 2010 period. Interest expense in the 2011 first quarter relates primarily to interest on our \$300.0 million of 5.625% Senior Notes

due on September 15, 2020, or Senior Notes, which were issued on September 20, 2010.

The effective tax rate on earnings before income taxes was 20.3 percent for the first three months of 2011, compared with 21.8 percent for the corresponding 2010 period. The lower effective tax rate in 2011 primarily reflects the impact of higher dividends received deductions in the first three months of 2011, partially offset by the absence of a permanent tax benefit significant in the 2010 period, which related to a finalization of our unused foreign tax credits arising from its prior ownership of World Minerals which was sold on July 14, 2005.

- (1) Represent components of total revenues.
- (2) Commission, brokerage and other underwriting expenses represent commission and brokerage expenses and that portion of salaries, administration and other operating expenses attributable primarily to underwriting activities, whereas the remainder constitutes other expenses.
- (3) Represents net premiums earned less loss and LAE and commissions, brokerage and other underwriting expenses, all as determined in accordance with GAAP, and does not include net investment income, net realized capital gains, other-than-temporary impairment losses, other income or other expenses. Underwriting profit does not replace net earnings determined in accordance with GAAP as a measure of profitability; rather, we believe that underwriting profit, which does not include net investment income, net realized capital gains, other-than-temporary impairment losses, other income or other expenses, enhances the understanding of AIHL's insurance operating units' operating results by highlighting net earnings attributable to their

Table of Contents

underwriting performance. With the addition of net investment income, net realized capital gains, other-than-temporary impairment losses, other income and other expenses, reported pre-tax net earnings (a GAAP measure) may show a profit despite an underlying underwriting loss. Where underwriting losses persist over extended periods, an insurance company's ability to continue as an ongoing concern may be at risk. Therefore, we view underwriting profit as an important measure in the overall evaluation of performance.

- (4) Loss and LAE divided by net premiums earned, all as determined in accordance with GAAP.
- (5) Commission, brokerage and other underwriting expenses divided by net premiums earned, all as determined in accordance with GAAP.
- (6) The sum of the loss ratio and expense ratio, all as determined in accordance with GAAP, representing the percentage of each premium dollar an insurance company has to spend on loss and LAE, and commission, brokerage and other underwriting expenses.

Table of Contents

Discussion of individual AIHL operating unit results follows, and AIHL investment results are discussed below under AIHL Investment Results.

RSUI

The decrease in gross premiums written by RSUI in the 2011 first quarter from the corresponding 2010 period primarily reflects the impact of reduced exposures of RSUI's customers and continuing and increasing competition, particularly in RSUI's property and, to a lesser extent, umbrella/excess lines of business, partially offset by growth in RSUI's binding authority business and assumed premium writings from international insurance carriers. RSUI's net premiums earned decreased in the 2011 first quarter from the corresponding 2010 period primarily due to the decline in gross premiums written, partially offset by a decrease in ceded premiums written associated primarily with RSUI's property line of business.

The decrease in loss and LAE in the 2011 first quarter from the corresponding period in 2010 primarily reflects a net \$15.8 million release of prior year reserves in the 2011 first quarter, compared with a net \$7.5 million increase of prior year reserves in the 2010 first quarter. The decrease in loss and LAE also reflects the impact of lower net premiums earned in the 2011 first quarter. Net catastrophe losses were minimal in both the 2011 and 2010 first quarters.

The \$15.8 million net release of prior year reserves in the 2011 first quarter relates primarily to the umbrella/excess, general liability and professional liability lines of business, primarily for the 2004 through 2008 accident years, and reflects favorable loss emergence compared with loss emergence patterns assumed in earlier periods for such lines of business. Specifically, cumulative losses for such lines of business, which include both loss payments and case reserves, in respect of prior accident years were expected to be higher through March 31, 2011 than the actual cumulative losses through that date. The amount of lower cumulative losses, expressed as a percentage of carried loss and LAE reserves at the beginning of the year, was 3.5 percent. Such reduction did not impact the assumptions used in estimating RSUI's loss and LAE liabilities for its umbrella/excess, general liability, professional liability lines of business earned in the 2011 first quarter. The net \$7.5 million increase in loss reserves in the 2010 first quarter resulted from an increase in estimated ultimate 2007 accident year losses for the directors and officers, or

D&O, liability line of business, reflecting, in part, unfavorable loss emergence on certain sub-prime mortgage industry claims.

The increase in RSUI's underwriting profit in the 2011 first quarter from the corresponding 2010 period primarily reflects a decrease in loss and LAE, partially offset by the decrease in net premiums earned.

In general, rates at RSUI in the first quarter of 2011, compared with the comparable period in 2010, reflect overall industry trends of downward pricing as a result of increased competition.

As discussed in the 2010 10-K, RSUI reinsures its property lines of business through a program consisting of surplus share treaties, facultative placements, per risk and catastrophe excess of loss treaties. RSUI's catastrophe reinsurance program (which covers catastrophe risks including, among others, windstorms and earthquakes) and per risk reinsurance program run on an annual basis from May 1 to the following April 30 and thus expired on April 30, 2011. RSUI placed all of its catastrophe reinsurance program for the 2011-2012 period, and the new program is similar to the expired program. The new reinsurance program provides coverage in two layers for \$400.0 million of losses in excess of a \$100.0 million net retention after application of the surplus share treaties, facultative reinsurance and per risk covers. The first layer provides coverage for \$100.0 million of losses, before a 47.0 percent co-participation by RSUI (compared with a 33.0 percent co-participation under the expired program), in excess of the \$100.0 million net retention, and the second layer provides coverage for \$300.0 million of losses, before a 5 percent co-participation by RSUI, in excess of \$200.0 million. In addition, RSUI's property per risk reinsurance program for the 2011-2012 period provides RSUI with coverage for \$90.0 million of losses, before a 10.0 percent co-participation by RSUI, in excess of a \$10.0 million net retention per risk after application of the surplus share treaties and facultative reinsurance. As discussed in Note 5(a) to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K, RSUI reinsures its other lines of business through quota share treaties, except for professional liability and binding authority lines where RSUI retains all of such business.

CATA

CATA's gross premiums written decreased in the 2011 first quarter from the corresponding 2010 period, primarily reflecting continuing price competition in CATA's property and casualty lines of business, including in excess and surplus markets, partially offset by higher gross premiums written in CATA's commercial surety line of business. The decrease in CATA's property and casualty lines of business also reflected reduced writings of certain specialty classes of business through a program administrator in connection with a program where notice of termination of such program has been given. CATA's net premiums earned in the 2011

Table of Contents

first quarter decreased from the corresponding 2010 period, reflecting the decrease in gross premiums written, partially offset by an increase in net premiums earned in CATA's miscellaneous errors and omissions liability line of business.

The decrease in loss and LAE in the 2011 first quarter from the corresponding 2010 period primarily reflects a higher amount of prior year reserve releases in the 2011 first quarter compared with the corresponding 2010 period, and the impact of lower net premiums earned in the 2011 first quarter.

During the 2011 first quarter, CATA had a net prior year reserve release of \$1.7 million, compared with a net prior year reserve release of \$0.8 million in the 2010 first quarter. The \$1.7 million reserve release primarily relates to favorable development on the property line of business from the 2010 accident year and, to a lesser extent, a prior year reserve release in the casualty lines of business from older accident years, reflecting favorable loss emergence compared with loss emergence patterns assumed in earlier periods for such lines of business. The \$1.7 million net release did not impact the assumptions used in estimating CATA's loss and LAE liabilities for business earned in the first quarter of 2011. The \$0.8 million reserve release in the 2010 first quarter was primarily related to casualty prior accident year reserves.

The decrease in loss and LAE, partially offset by the decrease in net premiums earned, was the primary cause for the modest increase in CATA's underwriting profit in the 2011 first quarter from the corresponding 2010 period.

In general, rates at CATA in the first three months of 2011, compared with the corresponding 2010 period, reflect overall industry trends of downward pricing as a result of increased competition.

PCC

Commencing August 1, 2009, PCC ceased soliciting new or renewal business on a direct basis due to its determination that it was unable to write business at rates it deemed adequate due to the difficult state of the California workers' compensation market and took corresponding expense reduction steps, including staff reductions, in light of such determination. Effective April 12, 2010, as part of a strategic repositioning effort, PCC changed its name from Employers Direct Corporation, changed the name of Pacific Compensation Insurance Company from Employers Direct Insurance Company, and took steps to emerge as a brokerage carrier at such time as it determines rates are adequate. In the first three months of 2011, PCC began writing a modest amount of new business through brokers.

PCC reported underwriting losses of \$6.3 million and \$5.4 million for the first three months of 2011 and 2010, respectively. The underwriting losses primarily reflect a lack of premiums earned for the reasons described above (particularly with respect to the first three months of 2011), combined with PCC's ongoing staffing and related expenses.

AIHL Investment Results

Following is information relating to AIHL's investment results.

	Three Months Ended March 31,	
	2011	2010
	(in millions)	
Net investment income	\$30.2	\$33.4
Net realized capital gains	\$34.7	\$22.7
Other than temporary impairment losses	\$	\$ (1.1)

Net Investment Income. The decrease in AIHL's net investment income in the 2011 first quarter from the corresponding 2010 period is due principally to the lack of equity-method partnership income in the first quarter of 2011 as such partnerships were dissolved in the 2010 third quarter, and the impact of ongoing negative cash flow at PCC, partially offset by higher dividend income.

Net Realized Capital Gains. Net realized capital gains in the first quarter of 2011 and 2010 relate primarily to sales of certain equity securities in the energy sector, some of which had their cost basis reduced in earlier periods for the recognition of unrealized losses through other-than-temporary impairment losses. Net realized capital gains in the first quarter of 2011 also included the sales of certain equity securities in the defense sector.

Table of Contents

Other-Than-Temporary Impairment Losses. There were no other-than-temporary impairment losses for the three months ended March 31, 2011. Other-than-temporary impairment losses for the three months ended March 31, 2010 reflect \$1.1 million of unrealized losses that were deemed to be other-than-temporary and, as such, are required to be charged against earnings. All of the \$1.1 million of other-than-temporary impairment losses related to equity holdings. The determination that unrealized losses on such securities were other-than-temporary was primarily based on the severity and duration of the declines in fair value of such securities relative to their cost as of the balance sheet date.

After adjusting the cost basis of securities for the recognition of other-than-temporary impairment losses, the gross unrealized investment losses for debt and equity securities as of March 31, 2011 were deemed to be temporary, based on, among other things:

the duration of time and the relative magnitude to which fair values of these investments has been below cost was not indicative of an other-than-temporary impairment loss (for example, no equity security was in a continuous unrealized loss position for twelve months or more as of March 31, 2011);

the absence of compelling evidence that would cause us to call into question the financial condition or near-term prospects of the issuer of the investment; and

our ability and intent to hold the investment for a period of time sufficient to allow for any anticipated recovery.

See Note 7 to the Notes to the Unaudited Consolidated Financial Statements set forth in Item 1 of this Form 10-Q for further details concerning gross unrealized investment losses for debt and equity securities as of March 31, 2011.

Corporate Activities Operating Results

The following table summarizes corporate activities results (in millions):

	Three Months Ended March 31,	
	2011	2010
Net investment income	\$ 1.4	\$ (1.9)
Net realized capital gains		3.8
Other than temporary impairment losses		
Other income	0.7	
Total revenues	\$ 2.1	\$ 1.9
Corporate administration and other expenses	6.8	5.7
Interest expense	4.4	0.1
(Loss) before income taxes	\$ (9.1)	\$ (3.9)

Losses for corporate activities in the first quarter of 2011 generally reflect corporate administration, interest and other expenses, partially offset by net investment income. Losses for corporate activities in the first quarter of 2010 generally reflect corporate administration and other expenses, partially offset by net realized capital gains. The increase in loss before income taxes in the 2011 first quarter from the corresponding 2010 period primarily reflects a lack of net realized capital gains in the first three months of 2011 and substantially higher interest expense, partially offset by an increase in net investment income. Interest expense in the 2011 first quarter relates primarily to interest on our Senior Notes, which were issued on September 20, 2010 (see Note 7 to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K for further details). The increase in net investment income for the first quarter of 2011 compared with the corresponding period in 2010 was primarily due to higher dividend income and lower equity in losses of Homesite and ORX. For the three months ended March 31, 2011 and 2010, net investment income included \$0.5 million and \$1.8 million, respectively, of our equity in losses of Homesite, and \$1.0 million and \$2.4 million, respectively, of our equity in losses of ORX.

Table of Contents**Reserve Review Process**

AIHL's insurance operating units periodically analyze, at least quarterly, liabilities for unpaid loss and LAE established in prior years and adjust their expected ultimate cost, where necessary, to reflect positive or negative development in loss experience and new information, including, for certain catastrophic events, revised industry estimates of the magnitude of a catastrophe. Adjustments to previously recorded liabilities for unpaid loss and LAE, both positive and negative, are reflected in our financial results in the periods in which these adjustments are made and are referred to as prior year reserve development. The following table presents the reserves established in connection with the loss and LAE of AIHL's insurance operating units on a gross and net basis by line of business. These reserve amounts represent the accumulation of estimates of ultimate loss (including for incurred but not reported loss) and LAE.

	Property	Casualty(1)	CMP(2)	Surety	Workers Comp(3)	All Other(4)	Total
	(dollars in millions)						
March 31, 2011							
Gross loss and LAE reserves	\$ 118.1	\$ 1,889.9	\$ 60.8	\$ 18.5	\$ 171.7	\$ 31.2	\$ 2,290.2
Reinsurance recoverables on unpaid losses	(43.1)	(768.2)	(0.2)	(0.1)	(10.9)	(17.2)	(839.7)
Net loss and LAE reserves	\$ 75.0	\$ 1,121.7	\$ 60.6	\$ 18.4	\$ 160.8	\$ 14.0	\$ 1,450.5
December 31, 2010							
Gross loss and LAE reserves	\$ 150.1	\$ 1,883.6	\$ 58.9	\$ 17.1	\$ 186.7	\$ 32.3	\$ 2,328.7
Reinsurance recoverables on unpaid losses	(52.0)	(765.2)	(1.0)	(0.1)	(10.9)	(18.2)	(847.4)
Net loss and LAE reserves	\$ 98.1	\$ 1,118.4	\$ 57.9	\$ 17.0	\$ 175.8	\$ 14.1	\$ 1,481.3

(1) Primarily consists of umbrella/excess liability, D&O liability, professional liability and general liability.

(2) Commercial multiple peril.

(3) Workers' compensation amounts include PCC, net of purchase accounting adjustments (see Note 4(a) to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K). Such adjustments include a minor reduction of gross and net loss and LAE for acquisition date discounting, as required under purchase accounting. Workers' compensation amounts also include minor balances from CATA.

(4) Primarily consists of loss and LAE reserves for terminated lines of business and loss reserves acquired in connection with prior acquisitions for which the sellers provided loss reserve guarantees. The loss and LAE reserves are ceded 100 percent to the sellers. Additional information regarding the loss reserve guarantees can be found in Note 5(c) to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K.

Changes in Loss and LAE Reserves between March 31, 2011 and December 31, 2010

Gross Reserves. Gross loss and LAE reserves as of March 31, 2011 decreased modestly from December 31, 2010 due primarily to reserve decreases in property and workers compensation lines of business. The decrease in property gross loss and LAE reserves is mainly due to claim payments made by RSUI in the first three months of 2011. Such claim payments caused RSUI to reduce its case reserves from prior accident years, primarily related to 2008 third quarter hurricane losses. The decrease in workers compensation gross loss and LAE reserves primarily reflects the impact of PCC ceasing to solicit new or renewal business on a direct basis commencing August 1, 2009.

Net Reserves. Net loss and LAE reserves as of March 31, 2011 decreased modestly from December 31, 2010 due primarily to reserve decreases in property and workers compensation lines of business. The decrease in property net loss and LAE reserves is mainly due to claim payments made by RSUI in the first three months of 2011. Such claim payments caused RSUI to reduce its case reserves from prior accident years, primarily related to 2008 third quarter hurricane losses. The decrease in workers compensation net loss and LAE reserves primarily reflects the impact of PCC ceasing to solicit new or renewal business on a direct basis commencing August 1, 2009.

Table of Contents**Reinsurance Recoverables**

As of March 31, 2011, AIHL had total reinsurance recoverables of \$867.8 million, consisting of \$839.7 million of ceded outstanding loss and LAE and \$28.1 million of recoverables on paid losses. RSUI's reinsurance recoverables totaled \$749.7 million of AIHL's \$867.8 million. The reinsurance purchased by AIHL's insurance operating units does not relieve them from their obligations to their policyholders, and therefore, the financial strength of their reinsurers is important. Approximately 90.1 percent of AIHL's reinsurance recoverables balance as of March 31, 2011 was due from reinsurers having an A.M. Best financial strength rating of A (Excellent) or higher. AIHL's Reinsurance Security Committee, which includes certain of our officers and the chief financial officer of each of AIHL's operating units and which manages the use of reinsurance by such operating units, has determined that reinsurers with a rating of A (Excellent) or higher have an ability to meet their ongoing obligations at a level that is acceptable to us.

Information regarding concentration of AIHL's reinsurance recoverables as of March 31, 2011 is as follows (dollars in millions):

Reinsurer(1)	Rating(2)	Dollar Amount	Percentage
Swiss Re	A (Excellent)	\$ 156.9	18.1%
Platinum Underwriters Holdings, Ltd.	A (Excellent)	96.5	11.1%
The Chubb Corporation	A++ (Superior)	92.6	10.7%
All other reinsurers		521.8	60.1%
Total		\$ 867.8	100.0%

(1) Reinsurance recoverables reflect amounts due from one or more reinsurance subsidiaries of the listed company.

(2) Represents the A.M. Best rating for the applicable reinsurance subsidiary or subsidiaries from which the reinsurance recoverable is due.

As of March 31, 2011, AIHL also had fully collateralized reinsurance recoverables of \$92.1 million due from Darwin Professional Underwriters Inc., or Darwin, a specialty property and casualty insurer of which we owned 55 percent until October 2008, when it was merged with a subsidiary of Allied World Assurance Company Holdings, Ltd. The A.M. Best financial strength rating of Darwin was A (Excellent) as of March 31, 2011. AIHL had no allowance for uncollectible reinsurance as of March 31, 2011.

Financial Condition*Parent Level*

General. In general, we follow a policy of maintaining a relatively liquid financial condition at the parent company. This policy has permitted us to expand our operations through internal growth at our subsidiaries and through acquisitions of, or substantial investments in, operating companies. As of March 31, 2011, we held marketable securities and cash of \$678.7 million at the parent company and \$546.3 million at AIHL, which totaled \$1,225.0 million. We believe that we have and will have adequate internally generated funds, cash resources and unused credit facilities to provide for the currently foreseeable needs of our business, and we had no material commitments for capital expenditures as of March 31, 2011.

Stockholders' equity increased to approximately \$3.1 billion as of March 31, 2011, compared with approximately \$2.9 billion as of December 31, 2010, representing an increase of 4.9 percent. The increase in stockholders' equity primarily reflects net earnings and a net increase in net unrealized appreciation in our investment portfolio in the first three months of 2011, partially offset by the repurchase of our common stock pursuant to our repurchase program described below.

As discussed in Note 7 to the Notes to the Consolidated Financial Statements set forth in Item 8 of the 2010 10-K, we issued \$300.0 million of Senior Notes on September 20, 2010, and we entered into a credit agreement that provides for a two tranche revolving credit facility in an aggregate principal amount of up to \$100.0 million, on September 9, 2010. There were no borrowings under such credit agreement during the first three months of 2011.

Common Stock Repurchases. In July 2010, our Board of Directors authorized the repurchase of additional shares of our common stock, at such times and at prices as management may determine advisable, up to an aggregate of \$300.0 million.

During the first three months of 2011, we repurchased an aggregate of 20,854 shares of our common stock in the open market for \$6.4 million, at an average price per share of \$306.99 (share and average price amounts are not adjusted for the stock dividend

Table of Contents

declared in February 2011). As of March 31, 2011 and December 31, 2010, we had 8,928,054 and 8,941,885 shares of our common stock outstanding, respectively. Unless stated otherwise, all preceding figures have been adjusted to reflect the common stock dividend declared in February 2011 and paid in April 2011.

Subsidiaries

Financial strength is also a high priority of our subsidiaries, whose assets stand behind their financial commitments to their customers and vendors. We believe that our subsidiaries have and will have adequate internally generated funds, cash resources, and unused credit facilities to provide for the currently foreseeable needs of their businesses. Our subsidiaries had no material commitments for capital expenditures as of March 31, 2011.

AIHL. The obligations and cash outflow of AIHL's insurance operating units include claim settlements, administrative expenses and purchases of investments. In addition to premium collections, cash inflow is obtained from interest and dividend income and maturities and sales of investments. Because cash inflow from premiums is received in advance of cash outflow required to settle claims, AIHL's insurance operating units accumulate funds which they invest pending the need for liquidity. As an insurance company's cash needs can be unpredictable due to the uncertainty of the claims settlement process, AIHL's portfolio, which includes those of its insurance operating units, is composed primarily of debt securities and short-term investments to ensure the availability of funds and maintain a sufficient amount of liquid securities. As of March 31, 2011, investments and cash represented 72.5 percent of the assets of AIHL and its insurance operating units.

Consolidated Investment Holdings

Overview. On a consolidated basis, our invested asset portfolio was approximately \$4.9 billion as of March 31, 2011, an increase of 1.6 percent from December 31, 2010. The increase reflects a net increase in unrealized appreciation on our investment portfolio during the first three months of 2011, partially offset by negative cash flow at PCC and our repurchase of common stock pursuant to our repurchase program. Negative cash flow at PCC was a result of PCC ceasing to solicit new and renewal business on a direct basis commencing August 1, 2009.

The overall weighted-average credit quality rating of our debt securities portfolio was AA+ as of March 31, 2011. Although many of our debt securities, which consist predominantly of states, municipalities and political subdivision bonds, are insured by third-party financial guaranty insurance companies, the impact of such insurance was not significant to the debt securities credit quality rating as of March 31, 2011.

Fair Value. The estimated carrying values and fair values of our consolidated financial instruments as of March 31, 2011 and December 31, 2010 were as follows (in millions):

	March 31, 2011		December 31, 2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
<i>Assets</i>				
Investments (excluding equity method investments)*	\$4,702.2	\$4,702.2	\$4,622.7	\$4,622.7
<i>Liabilities</i>				
Senior Notes	\$ 299.0	\$ 302.4	\$ 298.9	\$ 291.8

* This table includes available-for-sale investments (securities as well as partnership investments carried at fair value that are included in other invested assets). This table excludes investments accounted for using the equity method (Homesite, ORX and other investments) and certain loans receivable that are carried at cost, all of which are included in other invested assets. The fair value of short-term investments approximates amortized cost. The fair value of all other categories of investments is discussed below.

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are not adjusted for transaction costs. In addition, GAAP has a three tiered hierarchy for inputs used in management's determination of fair value of financial instruments that emphasizes the use of observable inputs over the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are market participant assumptions

based on market data obtained from sources independent of the reporting entity. Unobservable inputs are the reporting entity's own assumptions about market participant assumptions based on the best information available under the circumstances. In assessing the appropriateness of using observable inputs in making our fair value determinations, we consider whether the market for a particular security is active or not based on all the relevant facts and

Table of Contents

circumstances. For example, we may consider a market to be inactive if there are relatively few recent transactions or if there is a significant decrease in market volume. Furthermore, we consider whether observable transactions are orderly or not. We do not consider a transaction to be orderly if there is evidence of a forced liquidation or other distressed condition, and as such, little or no weight is given to that transaction as an indicator of fair value.

The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 Valuations are based on unadjusted quoted prices in active markets for identical, unrestricted assets. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these assets does not involve any meaningful degree of judgment. An active market is defined as a market where transactions for the financial instrument occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Our Level 1 assets generally include publicly traded common stocks and debt securities issued directly by the U.S. Government, where our valuations are based on quoted market prices.

Level 2 Valuations are based on quoted market prices where such markets are not deemed to be sufficiently active. In such circumstances, additional valuation metrics will be used which involve direct or indirect observable market inputs. Our Level 2 assets generally include preferred stocks and debt securities other than debt issued directly by the U.S. Government. Our Level 2 liabilities include the Senior Notes. Substantially all of the determinations of value in this category are based on a single quote from third-party dealers and pricing services. As we generally do not make any adjustments thereto, such quote typically constitutes the sole input in our determination of the fair value of these types of securities. In developing a quote, such third parties will use the terms of the security and market-based inputs. Terms of the security include coupon, maturity date, and any special provisions that may, for example, enable the investor, at its election, to redeem the security prior to its scheduled maturity date. Market-based inputs include the level of interest rates applicable to comparable securities in the market place and current credit rating(s) of the security. Such quotes are generally non-binding.

Level 3 Valuations are based on inputs that are unobservable and significant to the overall fair value measurement. Valuation under Level 3 generally involves a significant degree of judgment on our part. Our Level 3 assets are primarily limited to partnership investments. Net asset value quotes from the third-party general partner of the entity in which such investments are held, which will often be based on unobservable market inputs, constitute the primary input in our determination of the fair value of such assets.

We validate the reasonableness of our fair value determinations for Level 2 investment securities by testing the methodology of the relevant third-party dealer or pricing service that provides the quotes upon which the fair value determinations are made. We test the methodology by comparing such quotes with prices from executed market trades when such trades occur. We discuss with the relevant third-party dealer or pricing service any identified material discrepancy between the quote derived from its methodology and the executed market trade in order to resolve the discrepancy. We use the quote from the third-party dealer or pricing service unless we determine that the methodology used to produce such quote is not in compliance with GAAP. In addition to such procedures, we also compare the aggregate amount of the fair value for such Level 2 securities with the aggregate fair value provided by a third-party financial institution. Furthermore, we review the reasonableness of our classification of securities within the three-tiered hierarchy to ensure that the classification is consistent with GAAP.

Table of Contents

The estimated fair values of our financial instruments as of March 31, 2011 and December 31, 2010 allocated among the three levels set forth above were as follows (in millions):

	Level 1	Level 2	Level 3	Total
As of March 31, 2011				
Equity securities:				
Common stock(1)	\$ 1,598.7	\$	\$	\$ 1,598.7
Preferred stock				
Debt securities:				
U.S. Government obligations	275.9	30.5		306.4
Mortgage and asset-backed securities(2)		952.0		952.0
States, municipalities and political subdivision bonds		1,033.0		1,033.0
Foreign bonds		117.7		117.7
Corporate bonds and other		422.2		422.2
	275.9	2,555.4		2,831.3
Short-term investments	146.8	99.3		246.1
Other invested assets(3)			26.1	26.1
Investments (excluding equity method investments)	\$ 2,021.4	\$ 2,654.7	\$ 26.1	\$ 4,702.2
Senior Notes	\$	\$ 302.4	\$	\$ 302.4
As of December 31, 2010				
Equity securities:				
Common stock(1)	\$ 1,500.7	\$	\$	\$ 1,500.7
Preferred stock				
Debt securities:				
U.S. Government obligations	307.3	30.5		337.8
Mortgage and asset-backed securities(2)		866.5		866.5
States, municipalities and political subdivision bonds		1,068.5		1,068.5
Foreign bonds		114.2		114.2
Corporate bonds and other		445.4		445.4
	307.3	2,525.1		2,832.4
Short-term investments	86.4	178.4		264.8
Other invested assets(3)			24.8	24.8
Investments (excluding equity method investments)	\$ 1,894.4	\$ 2,703.5	\$ 24.8	\$ 4,622.7
Senior Notes	\$	\$ 291.8	\$	\$ 291.8

(1) Of the \$1,598.7 million of fair value as of March 31, 2011, \$1,084.0 million related to certain energy sector businesses. Of the \$1,500.7 million of fair value as of December 31, 2010, \$1,004.8 million related to certain energy sector businesses.

- (2) Of the \$952.0 million of fair value as of March 31, 2011, \$498.8 million related to residential mortgage-backed securities, or RMBS, \$172.6 million related to commercial mortgage-backed securities, or CMBS, and \$280.6 million related to other asset-backed securities. Of the \$866.5 million of fair value as of December 31, 2010, \$499.9 million related to RMBS, \$173.4 million related to CMBS and \$193.2 million related to other asset-backed securities.
- (3) Level 3 securities consist of partnership investments. The carrying value of partnership investments of \$26.1 million increased by \$1.3 million from the December 31, 2010 carrying value of \$24.8 million, due primarily to an increase in estimated fair value during the period.

Table of Contents

Mortgage-and Asset-Backed Securities. As of March 31, 2011, our mortgage-and asset-backed securities portfolio consisted of the following and was backed by the following types of underlying collateral (in millions):

Type of Underlying Collateral	Fair Value	Average Rating
RMBS: guaranteed by FNMA or FHLMC (1)	\$ 54.4	Aaa /AAA
RMBS: guaranteed by GNMA (2)	366.3	Aaa /AAA
RMBS: Alt A	11.6	A1 /AA
RMBS: Sub-prime	2.3	Aaa/AAA
All other	517.4	Aa1/AA+
Total	\$ 952.0	Aa1 /AA+

(1) FNMA refers to the Federal National Mortgage Association, and FHLMC refers to the Federal Home Loan Mortgage Corporation.

(2) GNMA refers to the Government National Mortgage Association.

States, Municipalities and Political Subdivision Bonds. The following table details the top five state exposures of our states, municipalities and political subdivision bond portfolio as of March 31, 2011 (in millions):

	General Obligation	Special Revenue	Total Fair Value
Texas	\$ 67.6	\$ 26.8	\$ 94.4
Washington	50.0	14.2	64.2
Massachusetts	4.5	54.4	58.9
New York	4.3	48.9	53.2
Illinois	32.7	15.7	48.4
All other	228.1	399.1	627.2
	\$ 387.2	\$ 559.1	\$ 946.3
Advance refunded / escrowed to maturity bonds			86.7
Total states, municipalities and political subdivision bond portfolio			\$ 1,033.0

Recent Accounting Standards*Recently Adopted*

In July 2010, the Financial Accounting Standards Board, or FASB, issued guidance that provides for additional financial statement disclosure regarding financing receivables, including the credit quality and allowance for credit losses associated with such assets. This guidance is generally effective for interim and annual periods beginning after December 15, 2010, with certain disclosures effective for interim and annual periods ending on or after December 31, 2010. We fully adopted this guidance in the 2011 first quarter, and the implementation did not have any impact on our results of operations and financial condition.

Future Application of Accounting Standards

In October 2010, the FASB issued guidance that provides additional clarification for costs associated with acquiring or renewing insurance contracts. This guidance states that only incremental, direct costs associated with the successful acquisition of a new or renewal insurance contract may be capitalized as deferred acquisition costs. Furthermore, such costs: (i) must be essential to the contract transaction; (ii) would not have been incurred had the

contract transaction not occurred; and (iii) must be related directly to the acquisition activities involving underwriting, policy issuance and processing, medical and inspection, and sales force contract selling. Advertising costs should be included in deferred acquisition costs only if the capitalization criteria in separate direct-response advertising guidance within GAAP are met. All other acquisition-related costs and other expenses should be charged to expense as incurred. This guidance is effective for interim and annual periods beginning after December 15, 2011, with early adoption permitted (but only at the beginning of an entity's annual reporting period). We will adopt this guidance in the 2012 first quarter, and we do not currently believe that the implementation will have a material impact on our results of operations and financial condition.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

Market risk is the risk of loss from adverse changes in market prices and rates, such as interest rates, foreign currency exchange rates and commodity prices. The primary market risk related to our non-trading financial instruments is the risk of loss associated with adverse changes in interest rates. We invest in equity securities which are subject to fluctuations in market value (refer to Item 7A set forth in Item 8 of the 2010 10-K). We also purchase debt securities with fixed maturities that expose us to risk related to adverse changes in interest rates. We hold our equity securities and debt securities as available for sale. Any changes in the fair value in these securities, net of tax, would be recorded as a component of other comprehensive income. However, if a decline in fair value relative to cost is believed to be other than temporary, a loss is generally recorded on our statement of earnings.

Debt Securities and Senior Notes. The primary market risk for our and our subsidiaries' debt securities is interest rate risk at the time of refinancing. We monitor the interest rate environment to evaluate refinancing opportunities. We generally do not use derivatives to manage market and interest rate risks. The tables below present sensitivity analyses as of March 31, 2011 of our (i) consolidated debt securities and (ii) Senior Notes, that are sensitive to changes in interest rates. Sensitivity analysis is defined as the measurement of potential change in future earnings, fair values, or cash flows of market sensitive instruments resulting from one or more selected hypothetical changes in interest rates over a selected time. In the sensitivity analysis model below, we use a +/- 300 basis point range of change in interest rates to measure the hypothetical change in fair value of the financial instruments included in the analysis. The change in fair value is determined by calculating hypothetical March 31, 2011 ending prices based on yields adjusted to reflect a +/- 300 basis point range of change in interest rates, comparing these hypothetical ending prices to actual ending prices, and multiplying the difference by the par outstanding.

As of March 31, 2011 (dollars in millions)

Interest rate shifts	-300	-200	-100	0	100	200	300
Assets:							
Debt securities, fair value	\$3,193.1	\$3,073.7	\$2,953.6	\$2,831.3	\$2,713.2	\$2,601.1	\$2,496.4
Estimated change in fair value	\$ 361.8	\$ 242.4	\$ 122.3		\$ (118.1)	\$ (230.2)	\$ (334.9)
Liabilities:							
Senior Notes, fair value	\$ 375.3	\$ 348.9	\$ 324.6	\$ 302.4	\$ 282.0	\$ 263.2	\$ 245.9
Estimated change in fair value	\$ 72.9	\$ 46.5	\$ 22.2		\$ (20.4)	\$ (39.2)	\$ (56.5)

This sensitivity analysis provides only a limited, point-in-time view of the market risk of the financial instruments discussed above. The actual impact of changes in market prices and market interest rates may differ significantly from those shown in the above sensitivity analysis. This sensitivity analysis is further limited because it does not consider any actions we could take in response to actual and/or anticipated changes in market prices and in market interest rates.

Partnership Investments. In addition to debt and equity securities, we invest in several partnerships which are subject to fluctuations in market value. Partnership investments are included in other invested assets. The carrying value of partnership investments accounted for on an available-for-sale basis was \$26.1 million as of March 31, 2011 and \$24.8 million as of December 31, 2010.

Item 4. Controls and Procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer, or CEO, and our chief financial officer, or CFO, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Form 10-Q Report pursuant to Rule 13a-15(e) or 15d-15(e) promulgated under the Exchange Act. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures were effective as of that date to provide reasonable assurance that information required to be disclosed by us in reports that we file or

submit under the Exchange Act is (i) recorded, processed, summarized, and timely reported as specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. Our disclosure controls and procedures were designed to provide such assurance; however, we note that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and we cannot assure you that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Table of Contents**PART II. OTHER INFORMATION****Item 1A. Risk Factors.**

There are no material changes from the risk factors set forth in Part I, Item 1A, Risk Factors, of our 2010 10-K. Please refer to that section for disclosures regarding what we believe are the more significant risks and uncertainties related to our businesses.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**(c) Issuer Purchases of Equity Securities.**

The following table summarizes our common stock repurchases for the quarter ended March 31, 2011:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 to January 31	15,440	\$ 306.15	15,440	
February 1 to February 28	4,418	\$ 307.54	4,418	
March 1 to March 31	3,570	\$ 319.33	996	
Total	23,428(2)	\$ 308.42	20,854	\$ 292,181,704

(1) Share and average price amounts are not adjusted for the stock dividend declared in February 2011.

(2) Of such shares, (i) 20,854 represent shares repurchased pursuant to an authorization of the Board of Directors, announced in July 2010, to repurchase shares of our common stock, at such times and at prices as management may determine advisable, up to an aggregate of \$300.0 million, and (ii) 2,574 represent the tender to us by a former director of Alleghany of already-owned common stock as payment of the exercise price in connection with the exercise of options.

Item 6. Exhibits.

Exhibit Number	Description
31.1	Certification of the Chief Executive Officer of the Company pursuant to Rule 13a-14(a) or Rule 15(d)-14(a) of the Securities Exchange Act of 1934, as amended.
31.2	Certification of the Chief Financial Officer of the Company pursuant to Rule 13a-14(a) or Rule 15(d)-14(a) of the Securities Exchange Act of 1934, as amended.
32.1	Certification of the Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. This exhibit shall not be deemed filed as a part of this report on Form 10-Q.

- 32.2 Certification of the Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002. This exhibit shall not be deemed filed as a part of this report on Form 10-Q.
- 101.1 Interactive Data Files formatted in XBRL (Extensible Business Reporting Language): (i) Consolidated Balance Sheets as of March 31, 2011 and December 31, 2010; (ii) Consolidated Statements of Earnings and Comprehensive Income for the three months ended March 31, 2011 and 2010; (iii) Consolidated Statements of Cash Flows for the three months ended March 31, 2011 and 2010; and (iv) Notes to Unaudited Consolidated Financial Statements, tagged as blocks of text. As provided in Rule 406T of Regulation S-T, this Exhibit 101.1 is deemed not filed or part of a registration statement or prospectus for purposes of Sections 11 or 12 of the Securities Act of 1933, as amended, is deemed not filed for purposes of Section 18 of the Exchange Act and otherwise is not subject to liability under those sections.
