COMMISSION FILE NUMBER 001-34653

First Interstate BancSystem, Inc.

(Exact name of registrant as specified in its charter)

Montana

81-0331430

(State or other jurisdiction of
incorporation or organization)

(IRS Employer
Identification No.)

401 North 31st Street, Billings, MT

59116-0918

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code: 406/255-5390

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.)

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting
company

(Do not check if a smaller
reporting Company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the Registrant's classes of common stock:

June 30, 2011 Class A common stock

16,213,617

June 30, 2011 Class B common stock

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)***(1) Basis of Presentation**

In the opinion of management, the accompanying unaudited consolidated financial statements of First Interstate BancSystem, Inc. and subsidiaries (the Company) contain all adjustments (all of which are of a normal recurring nature) necessary to present fairly the financial position of the Company at June 30, 2011 and December 31, 2010, the results of operations for each of the three and six month periods ended June 30, 2011 and 2010, and cash flows for the six months ended June 30, 2011 and 2010, in conformity with U.S. generally accepted accounting principles. The balance sheet information at December 31, 2010 is derived from audited consolidated financial statements. Certain reclassifications, none of which were material, have been made to conform prior year financial statements to the June 30, 2011 presentation. These reclassifications did not change previously reported net income or stockholders' equity.

These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

(2) Investment Securities

The amortized cost and approximate fair values of investment securities are summarized as follows:

| <i>Available-for-Sale</i> | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Estimated Fair Value |

| December 31, 2010 | Fair Value | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses | Fair Value | Gross Unrealized Losses |
|--|------------|-------------------------|------------|-------------------------|------------|-------------------------|
| <i>Held-to-Maturity</i> | | | | | | |
| State, county and municipal securities | \$ 42,178 | \$ (1,814) | \$ 3,023 | \$ (121) | \$ 45,201 | \$ (1,935) |

The investment portfolio is evaluated quarterly for other-than-temporary declines in the market value of each individual investment security. The Company had 27 and 128 individual investment securities that were in an unrealized loss position as of June 30, 2011 and December 31, 2010, respectively. Unrealized losses as of June 30, 2011 and December 31, 2010 related primarily to fluctuations in the current interest rates. The Company does not have the intent to sell any of the available-for-sale securities in the above table and it is more likely than not that the Company will not be required to sell any such securities before a recovery of cost. No impairment losses were recorded during the three or six months ended June 30, 2011 or 2010.

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

Maturities of investment securities at June 30, 2011 are shown below. Maturities of mortgage-backed securities have been adjusted to reflect shorter maturities based upon estimated prepayments of principal. All other investment securities maturities are shown at contractual maturity dates.

| June 30, 2011 | Available-for-Sale | | Held-to-Maturity | |
|---------------------------------------|--------------------|-------------------------|-------------------|-------------------------|
| | Amortized Cost | Estimated Fair Value | Amortized Cost | Estimated Fair Value |
| Within one year | \$ 309,476 | \$ 316,854 | \$ 6,245 | \$ 5,963 |
| After one year but within five years | 1,206,374 | 1,225,273 | 23,235 | 23,769 |
| After five years but within ten years | 177,136 | 183,958 | 58,708 | 61,237 |
| After ten years | 142,299 | 147,779 | 60,486 | 62,288 |
| Total | 1,835,285 | 1,873,864 | 148,674 | 153,257 |
| Investments with no stated maturity | | | 191 | 191 |
| Total | \$ 1,835,285 | \$ 1,873,864 | \$ 148,865 | \$ 153,448 |

(3) Loans

If interest on impaired loans had been accrued, interest income on impaired loans during the three and six months ended June 30, 2011 would have been approximately \$3,512 and \$6,530, respectively. If interest on impaired loans had been accrued, interest income on impaired loans during the three and six months ended June 30, 2010 would have been approximately \$2,117 and \$4,008, respectively. At June 30, 2011, there were no material commitments to lend additional funds to borrowers whose existing loans have been renegotiated or are classified as nonaccrual.

The Company had loans renegotiated in troubled debt restructurings of \$101,994 as of June 30, 2011, of which \$70,383 were included in nonaccrual loans and \$31,611 were on accrual status, including loans aggregating \$1,011 that were more than 90 days past due and still accruing interest. The Company had loans renegotiated in troubled debt restructurings of \$53,700 as of December 31, 2010, of which \$40,210 were included in nonaccrual loans and \$13,490 were on accrual status.

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

As part of the on-going and continuous monitoring of the credit quality of the Company's loan portfolio, management tracks internally assigned risk classifications of loans. The Company adheres to a Uniform Classification System developed jointly by the various bank regulatory agencies to internally risk rate loans. The Uniform Classification System defines three broad categories of criticized assets, which the Company uses as credit quality indicators:

Other Assets Especially Mentioned - includes loans that exhibit weaknesses in financial condition, loan structure or documentation, which if not promptly corrected, may lead to the development of abnormal risk elements.

Substandard - includes loans that are inadequately protected by the current sound worth and paying capacity of the borrower. Although the primary source of repayment for a Substandard is not currently sufficient; collateral or other sources of repayment are sufficient to satisfy the debt. Continuance of a Substandard loan is not warranted unless positive steps are taken to improve the worthiness of the credit.

Doubtful - includes loans that exhibit pronounced weaknesses to a point where collection or liquidation in full, on the basis of currently existing facts, conditions and values, is highly questionable and improbable. Doubtful loans are required to be placed on nonaccrual status and are assigned specific loss exposure.

The following table presents the Company's recorded investment in criticized loans by class and credit quality indicator based on the most recent analyses performed as of the dates indicated.

| As of June 30, 2011 | Other Assets Especially Mentioned | Substandard | Doubtful | Total Criticized Loans |
|--------------------------------|--|-------------|-----------|------------------------------|
| Real estate: | | | | |
| Commercial | \$ 141,294 | \$ 155,847 | \$ 33,228 | \$ 330,369 |

| Total | \$ 305,925 | \$ 303,653 | \$ 133,353 | \$ 742,931 |

The Company maintains an independent credit review function to assess assigned internal risk classifications and monitor compliance with internal lending policies and procedures. Written action plans with firm target dates for resolution of identified problems are maintained and reviewed on a quarterly basis for all criticized loans.

(4) Allowance For Loan Losses

The following tables present a summary of changes in the allowance for loan losses by portfolio segment for the three and six months ended June 30, 2011.

| Three months ended June 30, 2011 | Real Estate | Consumer | Commercial | Agriculture | Other | Total |
|---|----------------|----------|------------|-------------|-------|------------|
| Allowance for loan losses: | | | | | | |
| Beginning balance | \$ 92,350 | \$ 8,992 | \$ 21,790 | \$ 1,314 | \$ | \$ 124,446 |
| Provision charged to operating expense | 10,941 | 563 | 3,798 | 98 | | 15,400 |

Edgar Filing: FIRST INTERSTATE BANCSYSTEM INC - Form 10-Q

| | | | | | | |
|---|-----------|----------|-----------|----------|----|------------|
| Less loans charged-off | (13,157) | (1,499) | (1,407) | (39) | | (16,102) |
| Add back recoveries of loans previously charged-off | 109 | 470 | 253 | 3 | | 835 |
| Ending balance | \$ 90,243 | \$ 8,526 | \$ 24,434 | \$ 1,376 | \$ | \$ 124,579 |

| Six months ended June 30, 2011 | Real Estate | Consumer | Commercial | Agriculture | Other | Total |
|---|-------------|----------|------------|-------------|-------|------------|
| Allowance for loan losses: | | | | | | |
| Beginning balance | \$ 84,181 | \$ 9,332 | \$ 25,354 | \$ 1,613 | \$ | \$ 120,480 |

| Less loans charged-off | (17,388) | (2,959) | (8,049) | (45) | | (28,441) |
| Add back recoveries of loans previously charged-off | 354 | 902 | 874 | 10 | | 2,140 |
| Ending balance | \$ 90,243 | \$ 8,526 | \$ 24,434 | \$ 1,376 | \$ | \$ 124,579 |

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

| As of June 30, 2011 | Real Estate | Consumer | Commercial | Agriculture | Other | Total |
|---------------------------------------|--------------|------------|------------|-------------|----------|--------------|
| Individually evaluated for impairment | \$ 29,903 | \$ | \$ 13,740 | \$ 249 | \$ | \$ 43,892 |
| Collectively evaluated for impairment | 60,340 | 8,526 | 10,694 | 1,127 | | 80,687 |
| Ending balance | \$ 90,243 | \$ 8,526 | \$ 24,434 | \$ 1,376 | \$ | \$ 124,579 |
| Individually evaluated for impairment | \$ 208,485 | \$ | \$ 32,609 | \$ 923 | \$ | \$ 242,017 |
| Collectively evaluated for impairment | 2,585,238 | 626,184 | 691,549 | 132,975 | 3,297 | 4,039,243 |
| Total loans | \$ 2,793,723 | \$ 626,184 | \$ 724,158 | \$ 133,898 | \$ 3,297 | \$ 4,281,260 |

In determining the allowance for loan losses, the Company estimates losses on specific loans, or groups of loans, where the probable loss can be identified and reasonably determined. The balance of the allowance for loan losses is based on internally assigned risk classifications of loans, historical loan loss rates, changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends, current economic factors and the estimated impact of current economic conditions on certain historical loan loss rates.

The allowance for loan losses consists of three elements: (1) specific valuation allowances based on probable losses on impaired loans; (2) historical valuation allowances based on loan loss experience for similar loans with similar characteristics and trends; and (3) general valuation allowances determined based on general economic conditions and other qualitative risk factors both internal and external to us.

Specific allowances are established for loans where management has determined that probability of a loss exists by analyzing the borrower's ability to repay amounts owed, collateral deficiencies and any relevant qualitative or environmental factors impacting the loan. Historical valuation allowances are determined by applying percentage loss factors to the credit exposures from outstanding loans. For commercial, agricultural and real estate loans, loss factors are applied based on the internal risk classifications of these loans. For consumer loans, loss factors are applied on a portfolio basis. For commercial, agriculture and real estate loans, loss factor percentages are based on a migration analysis of our historical loss experience, designed to account for credit deterioration. For consumer loans, loss factor percentages are based on a one-year loss history. General valuation allowances are determined by evaluating, on a quarterly basis, changes in the nature and volume of the loan portfolio, overall portfolio quality, industry concentrations, current economic and regulatory factors and the estimated impact of current economic, environmental and regulatory conditions on historical loss rates.

The following table presents a summary of changes in the allowance for loan losses for the three and six months ended June 30, 2010:

| | Three months ended June 30, 2010 | Six months ended June 30, 2010 |
|--|-------------------------------------|-----------------------------------|
| Beginning balance | \$ 106,349 | \$ 103,030 |
| Provision charged to operating expense | 19,500 | 31,400 |

| | | |
|---|------------|------------|
| Less loans charged-off | (12,107) | (21,505) |
| Add back recoveries of loans previously charged-off | 586 | 1,403 |
| Ending balance | \$ 114,328 | \$ 114,328 |

(5) Common Stock

The Company had 16,213,617 and 15,598,632 shares of Class A common stock outstanding as of June 30, 2011 and December 31, 2010, respectively.

The Company had 26,751,304 and 27,202,062 shares of Class B common stock outstanding as of June 30, 2011 and December 31, 2010, respectively.

(6) Earnings per Common Share

Basic earnings per common share is calculated by dividing net income by the weighted average number of common shares outstanding during the period presented. Diluted earnings per common share is calculated by dividing net income by the weighted average number of common shares and potential common shares outstanding during the period.

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

The following table sets forth the computation of basic and diluted earnings per share for the three and six month periods ended June 30, 2011 and 2010.

| | Three Months Ended June 30, | | Six Months Ended June 30, | |
|--|-----------------------------|------------|---------------------------|------------|
| | 2011 | 2010 | 2011 | 2010 |
| Net income | \$ 9,854 | \$ 6,659 | \$ 19,360 | \$ 17,789 |
| Less preferred stock dividends | 853 | 853 | 1,697 | 1,697 |
| Net income available to common stockholders, basic and diluted | \$ 9,001 | \$ 5,806 | \$ 17,663 | \$ 16,092 |
| Weighted average common shares outstanding | 42,781,894 | 42,620,563 | 42,735,897 | 37,133,376 |
| Weighted average common shares issuable upon exercise of stock options and non-vested stock awards | 114,717 | 283,433 | 138,031 | 269,087 |
| Weighted average common and common equivalent shares outstanding | 42,896,611 | 42,903,996 | 42,873,928 | 37,402,463 |
| Basic earnings per common share | \$ 0.21 | \$ 0.14 | \$ 0.41 | \$ 0.43 |
| Diluted earnings per common share | \$ 0.21 | \$ 0.14 | \$ 0.41 | \$ 0.43 |

The Company had 2,960,016 and 2,623,276 stock options outstanding for the three and six months ended June 30, 2011, respectively, that were not included in the computation of diluted earnings per common share because their effect would be anti-dilutive. The Company had outstanding options to purchase 2,325,441 and 2,380,371 shares of common stock for the three and six months ended June 30, 2010, respectively, that were not included in the computation of diluted earnings per common share because their effect would be anti-dilutive.

(7) Regulatory Capital

The Company is subject to the regulatory capital requirements administered by federal banking regulators and the Federal Reserve. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company must meet specific capital guidelines that involve quantitative measures of the Company's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. Quantitative measures established by regulation to ensure capital adequacy require the Company to maintain minimum amounts and ratios of total and tier 1 capital to risk-weighted assets, and of tier 1 capital to average assets, as defined in the regulations. As of June 30, 2011 and December 31, 2010, the Company exceeded all capital adequacy requirements to which it is subject.

Actual capital amounts and ratios and selected minimum regulatory thresholds for the Company and its bank subsidiary, First Interstate Bank (FIB), as of June 30, 2011 and December 31, 2010 are presented in the following table:

| As of June 30, 2011: | Actual | | Adequately Capitalized | | Well Capitalized | |
|----------------------|--------|-------|------------------------|-------|------------------|-------|
| | Amount | Ratio | Amount | Ratio | Amount | Ratio |

| | | | | | | |
|----------------------------|------------|-------|------------|------|------------|-------|
| Total risk-based capital: | | | | | | |
| Consolidated | \$ 784,392 | 16.0% | \$ 391,954 | 8.0% | NA | NA |
| FIB | 646,830 | 13.3 | 389,883 | 8.0 | \$ 487,354 | 10.0% |
| Tier 1 risk-based capital: | | | | | | |
| Consolidated | 687,367 | 14.0 | 195,977 | 4.0 | NA | NA |
| FIB | 570,125 | 11.7 | 194,942 | 4.0 | \$ 292,412 | 6.0 |
| Leverage capital ratio: | | | | | | |
| Consolidated | 687,367 | 9.7 | 283,852 | 4.0 | NA | NA |

| Consolidated | 674,319 | 9.3 | 291,023 | 4.0 | NA | NA |
| FIB | 557,261 | 7.7 | 290,071 | 4.0 | \$ 362,589 | 5.0 |

(8) Commitments and Contingencies

In the normal course of business, the Company is involved in various claims and litigation. In the opinion of management, following consultation with legal counsel, the ultimate liability or disposition thereof is not expected to have a material adverse effect on the consolidated financial condition, results of operations, or liquidity of the Company.

The Company had commitments under construction contracts of \$4,876 as of June 30, 2011.

The Company had commitments to purchase held-to-maturity municipal investment securities of \$513 as of June 30, 2011.

(9) Financial Instruments with Off-Balance Sheet Risk

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the commitment contract. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. At June 30, 2011, commitments to extend credit to existing and new borrowers approximated \$993,610, which includes \$274,694 on unused credit card lines and \$238,580 with commitment maturities beyond one year.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. At June 30, 2011, the Company had outstanding standby letters of credit of \$71,966. The estimated fair value of the obligation undertaken by the Company in issuing the standby letters of credit is included in other liabilities in the Company's consolidated balance sheet.

(10) Supplemental Disclosures to Consolidated Statement of Cash Flows

The Company transferred loans of \$5,763 and \$14,202 to OREO during the six months ended June 30, 2011 and 2010, respectively.

The Company transferred equipment pending disposal of \$1,513 to other assets during the six months ended June 30, 2010.

The Company transferred accrued liabilities of \$195 and \$59 to common stock in conjunction with the vesting of liability-classified non-vested stock awards during the six months ended June 30, 2011 and 2010, respectively.

The Company transferred internally originated mortgage servicing rights of \$1,185 and \$1,379 from loans to mortgage servicing assets during the six months ended June 30, 2011 and 2010, respectively.

(11) Other Comprehensive Income

Total other comprehensive income for the six months ended June 30, 2011 and 2010 is reported in the accompanying statements of changes in stockholders' equity. Total other comprehensive income for the three months ended June 30, 2011 and 2010 was \$22,603 and \$12,334, respectively.

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

Information related to net other comprehensive income is as follows:

| | | |
|---|-----------|-----------|
| For the six months ended June 30, | 2011 | 2010 |
| Other comprehensive income: | | |
| Investment securities available-for-sale: | | |
| Change in net unrealized gain during the period | \$ 21,419 | \$ 11,223 |
| Reclassification adjustment for gains included in income | (18) | (42) |
| Change in the net actuarial loss on defined benefit post-retirement benefit plans | 69 | 49 |
| Total other comprehensive income | 21,470 | 11,230 |
| Deferred tax expense | 8,448 | 4,419 |
| Net other comprehensive income | \$ 13,022 | \$ 6,811 |

The components of accumulated other comprehensive income, net of income taxes, are as follows:

| | | |
|---|------------------|-------------------------|
| | June 30, 2011 | December 31, 2010 |
| Net unrealized gain on investment securities available-for-sale | \$ 23,939 | \$ 10,959 |
| Net actuarial loss on defined benefit post-retirement benefit plans | (1,542) | (1,584) |
| Net accumulated other comprehensive income | \$ 22,397 | \$ 9,375 |

(12) Fair Value Measurements

Financial assets and financial liabilities measured at fair value on a recurring basis are as follows:

| | Balance as of 6/30/2011 | Fair Value Measurements at Reporting Date Using | | |
|--|-------------------------------|--|---|--|
| | | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Investment securities available-for-sale: | | | | |
| Obligations of U.S. government agencies | \$ 1,012,628 | \$ | \$ 1,012,628 | \$ |
| U.S. agency residential mortgage-backed securities | 860,373 | | 860,373 | |
| Private residential mortgage-backed securities | 863 | | 863 | |
| Mortgage servicing rights | 14,607 | | 14,607 | |
| Derivative liability contract | 122 | | | 122 |

| | Fair Value Measurements at Reporting Date Using | | | |
|--|---|--|---|--|
| | Balance | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| As of December 31, 2010 | as of 12/31/2010 | | | |
| Investment securities available-for-sale: | | | | |
| Obligations of U.S. government agencies | \$ 953,420 | \$ | \$ 953,420 | \$ |
| U.S. agency residential mortgage-backed securities | 831,860 | | 831,860 | |
| Private residential mortgage-backed securities | 1,055 | | 1,055 | |
| Mortgage servicing rights | 13,694 | | 13,694 | |
| Derivative liability contract | 86 | | | 86 |
| | 19 | | | |

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

The following table reconciles the beginning and ending balances of the derivative liability contract measured at fair value on a recurring basis using significant unobservable (Level 3) inputs during the six months ended June 30, 2011 and 2010:

| For the Six Months Ended June 30, | 2011 | 2010 |
|-----------------------------------|--------|--------|
| Balance, beginning of period | \$ 86 | \$ 245 |
| Accruals during the period | 164 | |
| Cash payments during the period | (128) | (118) |
| Balance, end of period | \$ 122 | \$ 127 |

The following methods were used to estimate the fair value of each class of financial instrument above:

Investment Securities Available-for-Sale. The Company obtains fair value measurements for investment securities available-for-sale from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the investment's terms and conditions, among other things.

Mortgage Servicing Rights. Mortgage servicing rights are initially recorded at fair value based on comparable market quotes and are amortized in proportion to and over the period of estimated net servicing income. Mortgage servicing rights are evaluated quarterly for impairment using an independent valuation service. The valuation service utilizes discounted cash flow modeling techniques, which consider observable data that includes market consensus prepayment speeds and the predominant risk characteristics of the underlying loans including loan type, note rate and loan term. Management believes the significant inputs utilized in the valuation model are observable in the market.

Derivative Liability Contract. In conjunction with the sale of all of its Class B shares of Visa, Inc. (Visa) common stock in 2009, the Company entered into a derivative liability contract with the purchaser whereby the Company will make or receive cash payments based on subsequent changes in the conversion rate of the Class B shares into Class A shares of Visa. The conversion rate is dependent upon the resolution of certain litigation involving Visa U.S.A. Inc. card association or its affiliates. The value of the derivative liability contract is estimated based on the Company's expectations regarding the ultimate resolution of that litigation, which involves a high degree of judgment and subjectivity. On April 6, 2011, Visa disclosed it had provided additional funding to its litigation escrow account thereby reducing the conversion rate of the Class B shares into Class A shares. During the three months ended June 30, 2011, the Company made cash payments to the purchaser of \$102 due to changes in conversion rates and \$26 to extend the derivative liability contract until all litigation is settled. In addition, during 2011 the Company revised its estimate of Visa's future litigation funding and increased its derivative liability contract by \$164.

Additionally, from time to time, certain assets are measured at fair value on a non-recurring basis. Adjustments to fair value generally result from the application of lower-of-cost-or-market accounting or write-downs of individual assets due to impairment.

The following table presents information about the Company's assets and liabilities measured at fair value on a non-recurring basis.

| Fair Value Measurements at Reporting Date Using | | | |
|---|--|------------------------------------|-----------------------------|
| | Quoted Prices in Active Markets for | Significant Other Observable | Significant Unobservable |

| As of June 30, 2011 | Total | Identical Assets (Level 1) | Inputs (Level 2) | Inputs (Level 3) |
|-------------------------|------------|----------------------------------|------------------------|---------------------|
| Impaired loans | \$ 119,940 | \$ | \$ | \$ 119,940 |
| Other real estate owned | 18,648 | | | 18,648 |
| | 20 | | | |

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

| | Fair Value Measurements at Reporting Date Using | Quoted | | |
|-------------------------|---|-------------|-------------|--------------|
| | | Prices | Significant | Significant |
| | Total | in Active | Other | Unobservable |
| | | Markets for | Observable | |
| | | Identical | | |
| | | Assets | Inputs | Inputs |
| | | (Level 1) | (Level | (Level 3) |
| As of December 31, 2010 | Total | (Level 1) | 2) | (Level 3) |
| Impaired loans | \$ 97,574 | \$ | \$ | \$ 97,574 |
| Other real estate owned | 23,727 | | | 23,727 |

Impaired Loans. Certain impaired loans are reported at the fair value of the underlying collateral if repayment is expected solely from collateral. The impaired loans are reported at fair value through specific valuation allowance allocations. In addition, when it is determined that the fair value of an impaired loan is less than the recorded investment in the loan, the carrying value of the loan is adjusted to fair value through a charge to the allowance for loan losses. Collateral values are estimated using inputs based upon observable market data and customized discounting criteria.

OREO. The fair values of OREO are determined by independent appraisals or are estimated using observable market data in combination with customized discounting criteria. Upon initial recognition, write-downs based on the foreclosed asset's fair value at foreclosure are reported through charges to the allowance for loan losses. Periodically, the fair value of foreclosed assets is remeasured with any subsequent write-downs charged to OREO expense in the period in which they are identified.

Long-lived Assets to be Disposed of by Sale. Long-lived assets to be disposed of by sale are carried at the lower of carrying value or fair value less estimated costs to sell. The fair values of long-lived assets to be disposed of by sale are based upon observable market data and customized discounting criteria. As of June 30, 2011 and December 31, 2010, the Company had one long-lived asset to be disposed of by sale carried at its cost of \$1,513.

In addition, mortgage loans held for sale are required to be measured at the lower of cost or fair value. The fair value of mortgage loans held for sale is based upon binding contracts or quotes or bids from third party investors. As of June 30, 2011 and December 31, 2010, all mortgage loans held for sale were recorded at cost.

The Company is required to disclose the fair value of financial instruments for which it is practical to estimate fair value. The methodologies for estimating the fair value of financial instruments that are measured at fair value on a recurring or non-recurring basis are discussed above. The methodologies for estimating the fair value of other financial instruments are discussed below. For financial instruments bearing a variable interest rate where no credit risk exists, it is presumed that recorded book values are reasonable estimates of fair value.

Financial Assets. Carrying values of cash, cash equivalents and accrued interest receivable approximate fair values due to the liquid and/or short-term nature of these instruments. Fair values for investment securities held-to-maturity are obtained from an independent pricing service, which considers observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the investment's terms and conditions, among other things. Fair values of fixed rate loans and variable rate loans that reprice on an infrequent basis are estimated by discounting future cash flows using current interest rates at which similar loans with similar terms would be made to borrowers of similar credit quality. Carrying values of variable rate loans that reprice frequently, and with no change in credit risk, approximate the fair values of these instruments.

Financial Liabilities. The fair values of demand deposits, savings accounts, securities sold under repurchase agreements and accrued interest payable are the amounts payable on demand at the reporting date. The fair values of fixed-maturity certificates of deposit are estimated using external market rates currently offered for deposits with similar remaining maturities. The carrying values of the interest bearing demand notes to the United States Treasury are deemed an approximation of fair values due to the frequent repayment and repricing at market rates. The fair value of the derivative liability contract was estimated by discounting cash flows using assumptions regarding the expected outcome of related litigation. The floating rate term notes, floating rate subordinated debentures, floating rate subordinated term loan and unsecured demand notes bear interest at floating market rates and, as such, carrying amounts are deemed to approximate fair values. The fair values of notes payable to the FHLB, fixed rate subordinated term debt and capital lease obligation are estimated by discounting future cash flows using current rates for advances with similar characteristics.

Commitments to Extend Credit and Standby Letters of Credit. The fair value of commitments to extend credit and standby letters of credit, based on fees currently charged to enter into similar agreements, is not significant.

Table of Contents**FIRST INTERSTATE BANCSYSTEM, INC. AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements***(In thousands, except share and per share data)*

A summary of the estimated fair values of financial instruments follows:

| | June 30, 2011 | | December 31, 2010 | |
|---|---------------------|----------------------|---------------------|----------------------|
| | Carrying Amount | Estimated Fair Value | Carrying Amount | Estimated Fair Value |
| Financial assets: | | | | |
| Cash and cash equivalents | \$ 415,491 | \$ 415,491 | \$ 685,618 | \$ 685,618 |
| Investment securities available-for-sale | 1,873,864 | 1,873,864 | 1,786,335 | 1,786,335 |
| Investment securities held-to-maturity | 148,865 | 153,448 | 147,068 | 146,508 |
| Net loans | 4,156,681 | 4,141,877 | 4,247,429 | 4,222,984 |
| Accrued interest receivable | 33,588 | 33,588 | 33,628 | 33,628 |
| Mortgage servicing rights, net | 13,218 | 14,607 | 13,191 | 13,694 |
| Total financial assets | \$ 6,641,707 | \$ 6,632,875 | \$ 6,913,269 | \$ 6,888,767 |
| Financial liabilities: | | | | |
| Total deposits, excluding time deposits | \$ 4,046,492 | \$ 4,046,492 | \$ 4,000,468 | \$ 4,000,468 |
| Time deposits | 1,748,173 | 1,758,786 | 1,925,245 | 1,936,011 |
| Securities sold under repurchase agreements | 435,039 | 435,039 | 620,154 | 620,154 |
| Derivative contract | 122 | 122 | 86 | 86 |
| Accrued interest payable | 11,712 | 11,712 | 13,178 | 13,178 |
| Other borrowed funds | 5,440 | 5,440 | 4,991 | 4,991 |

| Subordinated debentures held by subsidiary trusts | 123,715 | 129,094 | 123,715 | 128,954 |
| Total financial liabilities | \$ 6,408,173 | \$ 6,427,226 | \$ 6,725,339 | \$ 6,743,873 |

(13) Recent Authoritative Accounting Guidance

FASB ASC Topic 220, Comprehensive Income. The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05 under Accounting Standards Codification (ASC) Topic 220, Comprehensive Income. ASU No. 2011-05 allows an entity the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in separate but consecutive statements. ASU No. 2011-05 is effective for the Company on January 1, 2012, and is to be applied retrospectively to all periods presented. Management does not expect the adoption of ASU No. 2011-05 will have a significant impact on the Company's consolidated financial statements, results of operations or liquidity.

FASB ASC Topic 820, Fair Value Measurements and Disclosures. New authoritative accounting guidance, ASU No. 2011-04, under ASC Topic 820 represents the converged guidance of the FASB and the International Accounting Standards Board (collectively, the Boards) on fair value measurement. The collective efforts of the Boards and their staffs have resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term fair value. ASU No. 2011-04 is effective for the Company on January 1, 2012. Management does not expect the adoption of ASU No. 2011-04 will have a significant impact on the Company's consolidated financial statements, results of operations or liquidity.

FASB ASC Topic 860, Transfers and Servicing. New authoritative accounting guidance, ASU No. 2011-03, under ASC Topic 860, Transfers and Servicing, is intended to improve financial reporting or repurchase agreements and other agreement that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. ASU No. 2011-03 removes from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms, even in the event of default by the transferee, and (2) the collateral maintenance implementation guidance related to that criterion. The amendments in ASU No. 2011-03 are effective for the Company on January 1, 2012. Management does not expect the adoption of ASU No. 2011-03 will have a significant impact on the Company's consolidated financial statements, results of operations or liquidity.

Notes to Unaudited Consolidated Financial Statements

(In thousands, except share and per share data)

FASB ASC Topic 310, Receivables. New authoritative accounting guidance, ASU No. 2011-02, under Topic 310,

Receivables, requires significant new disclosures about the nature, extent and financial impact of troubled debt restructurings presented at the level of disaggregation that management uses when assessing and monitoring the portfolio's risk and performance. ASU No. 2011-02 also provides additional guidance to assist creditors in determining whether a restructuring of a receivable meets the criteria to be considered a troubled debt restructuring. ASU No. 2011-02 is effective for the Company on July 1, 2011, and is to be applied retrospectively to restructurings occurring on or after the beginning of the fiscal year of adoption. Management does not expect the adoption of ASU 2011-02 will have a significant impact on the Company's consolidated financial statements, results of operations or liquidity.

FASB ASC Topic 350, Intangibles Goodwill and Other. New authoritative accounting guidance under ASC Topic 350, Intangibles Goodwill and Other, amends prior guidance. Under this amended guidance, an entity is required to perform Step 2 of the goodwill impairment test if the reporting unit has a zero or negative carrying amount and if it is more likely than not that impairment exists. This guidance, which became effective for the Company on January 1, 2011, did not impact the Company's consolidated financial statements, results of operations or liquidity.

(14) Subsequent Events

Subsequent events have been evaluated for potential recognition and disclosure through the date financial statements were filed with the Securities and Exchange Commission. No events requiring disclosure were identified.

Item 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2010, including the audited financial statements contained therein, filed with the SEC.

When we refer to we, our, and us in this report, we mean First Interstate BancSystem, Inc. and our consolidated subsidiaries, unless the context indicates that we refer only to the parent company, First Interstate BancSystem, Inc.

Cautionary Note Regarding Forward-Looking Statements and Factors that Could Affect Future Results

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Rule 175 promulgated thereunder, and Section 21E of the Securities Exchange Act of 1934, as amended, (the Exchange Act) and Rule 3b-6 promulgated thereunder, that involve inherent risks and uncertainties. Any statements about our plans, objectives, expectations, strategies, beliefs, or future performance or events constitute forward-looking statements. Such statements are identified as those that include words or phrases such as believes, expects, anticipates, plans, trend, objective, continue or similar expressions or future or conditional verbs such as would, should, could, might, may or similar expressions. Forward-looking statements involve known and unknown risks, uncertainties, assumptions, estimates and other important factors that could cause actual results to differ materially from any results, performance or events expressed or implied by such forward-looking statements. The following factors, among others, may cause actual results to differ materially from current expectations in the forward-looking statements, including those set forth in this report:

The following factors, among others, may cause actual results to differ materially from current expectations in the forward-looking statements, including those set forth in this release:

credit losses;

concentrations of real estate loans;

economic and market developments, including inflation;

commercial loan risk;

adequacy of the allowance for loan losses;

impairment of goodwill;

changes in interest rates;

access to low-cost funding sources;

increases in deposit insurance premiums;

inability to grow business;

adverse economic conditions affecting Montana, Wyoming and western South Dakota;

governmental regulation and changes in regulatory, tax and accounting rules and interpretations;

sweeping changes in regulation of financial institutions due to passage of the Dodd-Frank Act;

changes in or noncompliance with governmental regulations;

effects of recent legislative and regulatory efforts to stabilize financial markets;

dependence on the Company's management team;

ability to attract and retain qualified employees;

failure of technology;

reliance on external vendors;

disruption of vital infrastructure and other business interruptions;

illiquidity in the credit markets;

inability to meet liquidity requirements;

lack of acquisition candidates;

failure to manage growth;

competition;

inability to manage risks in turbulent and dynamic market conditions;

ineffective internal operational controls;

environmental remediation and other costs;

failure to effectively implement technology-driven products and services;

litigation pertaining to fiduciary responsibilities;

capital required to support the Company's bank subsidiary;

soundness of other financial institutions;

impact of Basel III capital standards and forthcoming new capital rules proposed for U.S. banks;

inability of our bank subsidiary to pay dividends;

Table of Contents

change in dividend policy;

lack of public market for our Class A common stock;

volatility of Class A common stock;

voting control of Class B stockholders;

decline in market price of Class A common stock;

dilution as a result of future equity issuances;

uninsured nature of any investment in Class A common stock;

anti-takeover provisions;

controlled company status; and

subordination of common stock to Company debt.

A more detailed discussion of each of the foregoing risks is included in our Annual Report on Form 10-K for the year ended December 31, 2010, filed February 28, 2011. These factors and other risk factors described in our periodic and current reports filed with the Securities and Exchange Commission from time to time, however, are not necessarily all of the factors that could cause our actual results, performance or achievements to differ materially from those expressed in or implied by any of our forward-looking statements. Other unknown or unpredictable factors also could harm our results.

All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Forward-looking statements speak only as of the date they are made and we do not undertake or assume any obligation to update publicly any of these statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Executive Overview

We are a financial and bank holding company headquartered in Billings, Montana. As of June 30, 2011, we had consolidated assets of \$7,203 million, deposits of \$5,795 million, loans of \$4,281 million and total stockholders' equity of \$759 million. We currently operate 71 banking offices in 42 communities located in Montana, Wyoming and western South Dakota. Through our bank subsidiary, First Interstate Bank, or the Bank, we deliver a comprehensive range of banking products and services to individuals, businesses, municipalities and other entities throughout our market areas. Our customers participate in a wide variety of industries, including energy, healthcare and professional services, education and governmental services, construction, mining, agriculture, retail and wholesale trade.

Our Business

Our principal business activity is lending to and accepting deposits from individuals, businesses, municipalities and other entities. We derive our income principally from interest charged on loans and, to a lesser extent, from interest and dividends earned on investments. We also derive income from non-interest sources such as fees received in connection with various lending and deposit services; trust, employee benefit, investment and insurance services; mortgage loan originations, sales and servicing; merchant and electronic banking services; and from time to time, gains on sales of assets. Our principal expenses include interest expense on deposits and borrowings, operating expenses, provisions for loan losses and income tax expense.

Our loan portfolio consists of a mix of real estate, consumer, commercial, agricultural and other loans, including fixed and variable rate loans. Our real estate loans comprise commercial real estate, construction (including

residential, commercial and land development loans), residential, agricultural and other real estate loans. Fluctuations in the loan portfolio are directly related to the economies of the communities we serve. While each loan originated generally must meet minimum underwriting standards established in our credit policies, lending officers are granted discretion within pre-approved limits in approving and pricing loans to assure that the banking offices are responsive to competitive issues and community needs in each market area. We fund our loan portfolio primarily with the core deposits from our customers, generally without utilizing brokered deposits and with minimal reliance on wholesale funding sources.

Table of Contents**Recent Trends and Developments**

On July 15, 2011, the Board of Governors of the Federal Reserve System, or FRB, and the Federal Deposit Insurance Corporation, or FDIC, issued separate final rules to implement the Dodd-Frank Wall Street Reform and Consumer Protection Act, or Dodd-Frank Act, which mandated repeal of the prohibition against paying interest on demand deposits. These rules became effective on July 21, 2011. Management does not expect this change will have a significant impact on the Company's interest expense, consolidated financial statements, results of operations or liquidity.

On June 29, 2011, the FRB issued a final rule establishing standards for debit card interchange fees and prohibiting network exclusivity arrangements and routing restrictions. This rule, Regulation II – Debit Card Interchange Fees and Routing, implements provisions of the Dodd-Frank Act. Regulation II reduces the maximum allowable interchange fee per transaction to \$0.21 plus a fraud allowance of five basis points on the transaction value and provides for an additional \$0.01 fraud prevention on to the interchange fee for issuers that meet certain fraud prevention requirements. The debit card interchange fee limitations and fraud prevention adjustment provisions of Regulation II become effective October 1, 2011. Issuers with less than \$10 billion in assets, like us, are exempt from the debit card interchange fee limitations set by Regulation II, although the payment card networks could make other fee adjustments for smaller issuers. The Company recorded debit card interchange fees of \$2.9 million and \$5.7 million during the three and six months ended June 30, 2011, respectively.

In February 2011, the FDIC issued a final rule that, among other things, modified the definition of an institution's deposit insurance assessment base and revised assessment rate schedules. The final rule changes the deposit insurance assessment base to an institution's average total assets less its average tangible equity, with adjustments for brokered deposits, unsecured debt and for custodial banks and banks that primarily provide services to other banks. These changes, which became effective April 1, 2011, resulted in a reduction in the Company's FDIC insurance premiums.

Our success is highly dependent on economic conditions and market interest rates. Because we operate in Montana, Wyoming and western South Dakota, the local economic conditions in each of these areas are particularly important. Our local economies entered the recession later than many areas of the United States and are now just beginning to show some signs of recovery. Although the continuing impact of the national recession and related real estate and financial market conditions is uncertain, these factors affect our business and could have a material negative effect on our cash flows, results of operations, financial condition and prospects.

Asset Quality

Difficult economic conditions and depressed real estate values and sales activity continued to negatively impact businesses and consumers in our market areas, especially in the Flathead, Gallatin Valley and Jackson market areas with economies dependent upon resort and second home communities. Our non-performing assets increased to \$292 million, or 6.77% of total loans and OREO, as of June 30, 2011, from \$244 million, or 5.55% of total loans and OREO, as of December 31, 2010. Approximately 46% of our non-performing assets were attributable to the Flathead, Gallatin Valley and Jackson market areas. Loan charge-offs, net of recoveries, totaled \$15 million during the second quarter of 2011, as compared to \$12 million during second quarter 2010. Approximately 78% of second quarter 2011 net charge-offs were attributable to the Flathead, Gallatin Valley and Jackson market areas. Net charge-offs are expected to remain elevated in future quarters as previously identified problem loans continue to work through the credit cycle. During second quarter 2011, we recorded provisions for loan losses of \$15.4 million, as compared to \$19.5 million during second quarter 2010. Management expects provisions for loan losses to decline as credit quality improves.

Primary Factors Used in Evaluating Our Business

As a banking institution, we manage and evaluate various aspects of both our financial condition and our results of operations. We monitor our financial condition and performance on a monthly basis at our holding company, at the Bank and at each banking office. We evaluate the levels and trends of the line items included in our balance sheet and statements of income, as well as various financial ratios that are commonly used in our industry. We analyze these ratios and financial trends against both our own historical levels and the financial condition and performance of comparable banking institutions in our region and nationally.

Table of Contents*Results of Operations*

Principal factors used in managing and evaluating our results of operations include net interest income, non-interest income, non-interest expense and net income.

Net interest income. Net interest income, the largest source of our operating income, is derived from interest, dividends and fees received on interest earning assets, less interest expense incurred on interest bearing liabilities. Interest earning assets primarily include loans and investment securities. Interest bearing liabilities include deposits and various forms of indebtedness. Net interest income is affected by the level of interest rates, changes in interest rates and changes in the composition of interest earning assets and interest bearing liabilities. The most significant impact on our net interest income between periods is derived from the interaction of changes in the rates earned or paid on interest earning assets and interest bearing liabilities, which we refer to as interest rate spread. The volume of loans, investment securities and other interest earning assets, compared to the volume of interest bearing deposits and indebtedness, combined with the interest rate spread, produces changes in our net interest income between periods. Non-interest bearing sources of funds, such as demand deposits and stockholders' equity, also support earning assets. The impact of free funding sources is captured in the net interest margin, which is calculated as net interest income divided by average earning assets. Given the interest free nature of free funding sources, the net interest margin is generally higher than the interest rate spread. We seek to increase our net interest income over time, and we evaluate our net interest income on factors that include the yields on our loans and other earning assets, the costs of our deposits and other funding sources, the levels of our net interest spread and net interest margin and the provisions for loan losses required to maintain our allowance for loan losses at an adequate level.

Non-interest income. Our principal sources of non-interest income include (1) income from the origination and sale of loans, (2) other service charges, commissions and fees, (3) service charges on deposit accounts, (4) wealth management revenues and (5) other income. Income from the origination and sale of loans includes origination and processing fees on residential real estate loans held for sale and gains on residential real estate loans sold to third parties. Other service charges, commissions and fees primarily include debit and credit card interchange income, mortgage servicing fees, insurance and other commissions and ATM service charge revenues. Wealth management revenues principally comprise fees earned for management of trust assets and investment services revenues. Fees earned for management of trust assets are generally based on the market value of assets managed. Other income primarily includes company-owned life insurance revenues, check printing income, agency stock dividends and gains on sales of miscellaneous assets. We seek to increase our non-interest income over time, and we evaluate our non-interest income relative to the trends of the individual types of non-interest income in view of prevailing market conditions.

Non-interest expense. Non-interest expenses include (1) salaries, wages and employee benefits expense, (2) occupancy expense, (3) furniture and equipment expense, (4) FDIC insurance premiums, (5) outsourced technology services expense, (6) amortization and impairment of mortgage servicing rights, (7) OREO expense, net of income, (8) core deposit intangibles amortization and (9) other expenses, which primarily includes professional fees; advertising and public relations costs; office supply, postage, freight, telephone and travel expenses; donations expense; debit and credit card expenses; board of director fees; and other losses. OREO expense is recorded net of OREO income. Variations in net OREO expense between periods is primarily due to write-downs of the estimated fair value of OREO properties, fluctuations in gains and losses recorded on sales of OREO properties, and fluctuations in the carrying costs and/or operating expenses associated with OREO properties. We seek to manage our non-interest expenses in consideration of the growth of our business and our community banking model that emphasizes customer service and responsiveness. We evaluate our non-interest expense on factors that include our non-interest expense relative to our average assets, our efficiency ratio and the trends of the individual categories of non-interest expense.

Net Income. We seek to increase our net income and provide favorable stockholder returns over time, and we evaluate our net income relative to the performance of other banks and bank holding companies on factors that include return on average assets, return on average equity and consistency and rates of growth in our earnings.

Financial Condition

Principal areas of focus in managing and evaluating our financial condition include liquidity, the diversification and quality of our loans, the adequacy of our allowance for loan losses, the diversification and terms of our deposits

and other funding sources, the re-pricing characteristics and maturities of our assets and liabilities, including potential interest rate exposure and the adequacy of our capital levels. We seek to maintain sufficient levels of cash and investment securities to meet potential payment and funding obligations, and we evaluate our liquidity on factors that include the levels of cash and highly liquid assets relative to our liabilities, the quality and maturities of our investment securities, our ratio of loans to deposits and our reliance on brokered certificates of deposit or other wholesale funding sources.

Table of Contents

We seek to maintain a diverse and high quality loan portfolio. We evaluate our asset quality on factors that include the allocation of our loans among loan types, credit exposure to any single borrower or industry type, non-performing assets as a percentage of total loans and OREO, and loan charge-offs as a percentage of average loans. We seek to maintain our allowance for loan losses at a level adequate to absorb potential losses inherent in our loan portfolio at each balance sheet date, and we evaluate the level of our allowance for loan losses relative to our overall loan portfolio and the level of non-performing loans and potential charge-offs.

We seek to fund our assets primarily using core customer deposits spread among various deposit categories, and we evaluate our deposit and funding mix on factors that include the allocation of our deposits among deposit types, the level of our non-interest bearing deposits, the ratio of our core deposits (i.e. excluding time deposits above \$100,000) to our total deposits and our reliance on brokered deposits or other wholesale funding sources, such as borrowings from other banks or agencies. We seek to manage the mix, maturities and re-pricing characteristics of our assets and liabilities to maintain relative stability of our net interest rate margin in a changing interest rate environment, and we evaluate our asset-liability management using complex models to evaluate the changes to our net interest income under different interest rate scenarios.

Finally, we seek to maintain adequate capital levels to absorb unforeseen operating losses and to help support the growth of our balance sheet. We evaluate our capital adequacy using regulatory and financial capital ratios including leverage capital ratio, tier 1 risk-based capital ratio, total risk-based capital ratio, tangible common equity to tangible assets and tier 1 common capital to total risk-weighted assets.

Critical Accounting Estimates and Significant Accounting Policies

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States and follow general practices within the industries in which we operate. Application of these principles requires management to make estimates, assumptions and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. The most significant accounting policies we follow are presented in Note 1 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010.

Our critical accounting estimates are summarized below. Management considers an accounting estimate to be critical if: (1) the accounting estimate requires management to make particularly difficult, subjective and/or complex judgments about matters that are inherently uncertain and (2) changes in the estimate that are reasonably likely to occur from period to period, or the use of different estimates that management could have reasonably used in the current period, would have a material impact on our consolidated financial statements, results of operations or liquidity.

Allowance for Loan Losses

The provision for loan losses creates an allowance for loan losses known and inherent in the loan portfolio at each balance sheet date. The allowance for loan losses represents management's estimate of probable credit losses inherent in the loan portfolio.

We perform a quarterly assessment of the risks inherent in our loan portfolio, as well as a detailed review of each significant loan with identified weaknesses. Based on this analysis, we record a provision for loan losses in order to maintain the allowance for loan losses at appropriate levels. In determining the allowance for loan losses, we estimate losses on specific loans, or groups of loans, where the probable loss can be identified and reasonably determined. Determining the amount of the allowance for loan losses is considered a critical accounting estimate because it requires significant judgment and the use of subjective measurements, including management's assessment of the internal risk classifications of loans, historical loan loss rates, changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends and the impact of current local, regional and national economic factors on the quality of the loan portfolio. Changes in these estimates and assumptions are possible and may have a material impact on our allowance, and therefore our consolidated financial statements, liquidity or results of operations. The allowance for loan losses is maintained at an amount we believe is sufficient to provide for estimated losses inherent in our loan portfolio at each balance sheet date, and fluctuations in the provision for loan losses result from management's assessment of the adequacy of the allowance for loan losses. Management monitors qualitative and quantitative trends in the loan portfolio, including changes in the levels of past due, internally

classified and non-performing loans. Note 1 of the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010 describes the methodology used to determine the allowance for loan losses. A discussion of the factors driving changes in the amount of the allowance for loan losses is included herein under the heading Asset Quality.

Table of Contents*Goodwill*

The excess purchase price over the fair value of net assets from acquisitions, or goodwill, is evaluated for impairment at least annually and on an interim basis if an event or circumstance indicates that it is likely an impairment has occurred. In testing for impairment, the fair value of net assets is estimated based on an analysis of our market value. Determining the fair value of goodwill is considered a critical accounting estimate because of its sensitivity to market-based trading of our Class A common stock. In addition, any allocation of the fair value of goodwill to assets and liabilities requires significant management judgment and the use of subjective measurements. Variability in the market and changes in assumptions or subjective measurements used to allocate fair value are reasonably possible and may have a material impact on our consolidated financial statements, liquidity or results of operations. Note 1 of the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010 describes our accounting policy with regard to goodwill.

Valuation of Mortgage Servicing Rights

We recognize as assets the rights to service mortgage loans for others, whether acquired or internally originated. Mortgage servicing rights are carried on the consolidated balance sheet at the lower of amortized cost or fair value. We utilize the expertise of a third-party consultant to estimate the fair value of our mortgage servicing rights quarterly. In evaluating the mortgage servicing rights, the consultant uses discounted cash flow modeling techniques, which require estimates regarding the amount and timing of expected future cash flows, including assumptions about loan repayment rates based on current industry expectations, costs to service and predominant risk characteristics of the underlying loans as well as interest rate assumptions that contemplate the risk involved. Management believes the valuation techniques and assumptions used by the consultant are reasonable.

Determining the fair value of mortgage servicing rights is considered a critical accounting estimate because of the assets' sensitivity to changes in estimates and assumptions used, particularly loan prepayment speeds and discount rates. Changes in these estimates and assumptions are reasonably possible and may have a material impact on our consolidated financial statements, liquidity or results of operations. Notes 1 and 8 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010 describe the methodology we use to determine fair value of mortgage servicing rights.

Other Real Estate Owned

Real estate acquired in satisfaction of loans is initially carried at current fair value less estimated selling costs. The carrying amount of the underlying loan is written down to the fair value of the real estate acquired by charge to the allowance for loan losses, if necessary. Subsequent declines in fair value less estimated selling costs are included in OREO expense. Subsequent increases in fair value less estimated selling costs are recorded as a reduction in OREO expense to the extent of recognized losses. Determining the fair value of OREO is considered a critical accounting estimate due to the assets' sensitivity to changes in estimates and assumptions used. Changes in these estimates and assumptions are reasonably possible and may have a material impact on our consolidated financial statements, liquidity or results of operations. Note 1 of the Notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010 describes our accounting policy with regard to OREO.

Results of Operations

The following discussion and analysis is intended to provide greater details of the results of our operations and financial condition.

Net Interest Income. During second quarter 2011, our net interest income on a fully taxable equivalent, or FTE, basis, decreased \$647 thousand, or 1.0%, to \$63.7 million, as compared to \$64.3 million during the same period in 2010, and our net FTE interest margin ratio decreased 12 basis points to 3.84%, as compared to 3.96% during the same period in 2010. For the six months ended June 30, 2011, our net FTE interest income decreased \$537 thousand, or less than 1.0%, to \$126.6 million, as compared to \$127.1 million during the same period in 2010, and our net FTE interest margin ratio decreased 20 basis points to 3.78%, as compared to 3.98% during the same period in 2010. Although net FTE interest income remained stable, our net FTE interest margin ratio decreased during the three and six months ended June 30, 2011, as compared to the same periods in the prior year. Compression in the net FTE interest margin ratio was primarily due to diminished loan demand combined with lower interest rates earned on loans and investment securities, the effects of which were partially offset by decreases in average time deposits outstanding,

overall reductions in the cost of funds and increases in interest free funding sources as a percentage of the funding base.

Table of Contents

The following table presents, for the periods indicated, condensed average balance sheet information, together with interest income and yields earned on average interest earning assets and interest expense and rates paid on average interest bearing liabilities.

Average Balance Sheets, Yields and Rates

(Dollars in thousands)

| | Average Balance | Three Months Ended June 30, | | Average Balance | 2010 Interest | Average Rate |

(1) Average loan balances include non-accrual loans. Interest income on loans includes amortization of deferred loan fees net of deferred loan costs, which is not material.

(2) Interest income and average rates for tax exempt loans and securities are presented on an FTE basis.

(3) Net FTE interest margin during the period equals (i) the difference between interest income on interest earning assets and the interest expense on interest bearing liabilities, divided by (ii) average interest earning assets for the period.

(4) Calculated by dividing total interest on total interest bearing liabilities by the sum of total interest bearing liabilities plus non-interest bearing deposits.

Table of Contents

The table below sets forth, for the periods indicated, a summary of the changes in interest income and interest expense resulting from estimated changes in average asset and liability balances (volume) and estimated changes in average interest rates (rate). Changes which are not due solely to volume or rate have been allocated to these categories based on the respective percent changes in average volume and average rate as they compare to each other.

Analysis of Interest Changes Due To Volume and Rates

(1) Interest income for tax exempt loans and securities are presented on a FTE basis.

Provision for Loan Losses. The provision for loan losses decreased \$4.1 million, or 21.0%, to \$15.4 million for second quarter 2011, as compared \$19.5 million for second quarter 2010. The provision for loan losses decreased \$1.0 million, or 3.2%, to \$30.4 million for the six months ended June 30, 2011, compared to \$31.4 million for the same period in 2010. Fluctuations in provisions for loan losses reflect management's estimate of the estimated effects of current economic conditions on our loan portfolio. Management expects quarterly provisions for loan losses to remain at current levels until non-performing loans level-off or begin to decline. For information regarding our non-performing loans, see *Non-Performing Assets* included herein.

Non-interest Income. Our principal sources of non-interest income include other service charges, commissions and fees, service charges on deposit accounts, income from the origination and sale of loans, and revenues from wealth

management. Non-interest income increased \$554 thousand, or 2.6%, to \$21.6 million for the three months ended June 30, 2011, as compared to \$21.0 million for the same period in 2010. Non-interest income increased \$1.2 million, or 3.0%, to \$41.8 million for the six months ended June 30, 2011, as compared to \$40.5 million for the same period in 2010. Significant components of changes in non-interest income are discussed below.

Other service charges, commissions and fees primarily include debit and credit card interchange income, mortgage servicing fees, insurance and other commissions and ATM service charge revenues. Other service charges, commissions and fees increased \$388 thousand, or 5.3%, to \$7.8 million during the three months ended June 30, 2011, as compared to \$7.4 million during the same period in 2010, and \$896 thousand, or 6.3%, to \$15.1 million for the six months ended June 30, 2011, as compared to \$14.3 million for the same period in 2010. These increases were primarily attributable to higher interchange income resulting from higher volumes of debit and credit card transactions. During the three and six months ended June 30, 2011, we recorded debit card interchange fee income of \$2.9 million and \$5.7 million, respectively, as compared to \$2.5 million and \$4.8 million, respectively, during the same periods in 2010. For additional information regarding recent regulations affecting future debit card interchange fee income, see [Recent Trends and Developments](#) included herein.

Table of Contents

Service charges on deposit accounts decreased \$374 thousand, or 7.9%, to \$4.4 million during the three months ended June 30, 2011, as compared to \$4.8 million during the same period in 2010, and \$862 thousand, or 9.2%, to \$8.5 million during the six months ended June 30, 2011, as compared to \$9.4 million during the same period in 2010. Quarter-to-date and year-to-date decreases in service charges on deposit accounts are primarily due to a reduction in overdraft fees assessed due to changes in customer utilization.

Income from the origination and sale of loans includes origination and processing fees on residential real estate loans held for sale and gains on residential real estate loans sold to third parties. Income from the origination and sale of loans increased \$664 thousand, or 19.3%, to \$4.1 million during the second quarter of 2011, as compared to \$3.4 million during the first quarter of 2011, primarily due to seasonal fluctuations in new home purchases. Income from the origination and sale of loans decreased \$77 thousand, or 1.8%, to \$4.1 million for the three months ended June 30, 2011, as compared to \$4.2 million for the same period in 2010, and increased \$68 thousand, or less than 1.0%, to \$7.6 million for the six months ended June 30, 2011, as compared to \$7.5 million for the same period in 2010.

Wealth management revenues are comprised principally of fees earned for management of trust assets and investment services revenues. Fees earned for management of trust assets are generally based on the market value of assets managed. Wealth management revenues increased \$284 thousand, or 8.9%, to \$3.5 million for the three months ended June 30, 2011, as compared to \$3.2 million for the same period in 2010, and \$565 thousand, or 9.1%, to \$6.8 million for the six months ended June 30, 2011, as compared to \$6.2 million for the same period in 2010. These increases were primarily due to new business activity and increases in the market values of assets under trust management.

Other income increased \$332 thousand, or 22.2%, to \$1.8 million for the three months ended June 30, 2011, compared to \$1.5 million for the same period in 2010, and increased \$562 thousand, or 17.6%, to \$3.8 million for the six months ended June 30, 2011, compared to \$3.2 million for the same period in 2010. Quarter and year-to-date increases are primarily due to fluctuations in earnings on securities held under deferred compensation plans.

Non-interest Expense. Non-interest expense decreased \$1.2 million, or 2.2%, to \$54.2 million for the three months ended June 30, 2011, as compared to \$55.4 million for the same period in 2010, and decreased \$1.0 million, or less than 1.0%, to \$107.2 million for the six months ended June 30, 2011, as compared to \$108.2 million for the same period in 2010. Significant components of the changes in non-interest expense are discussed below.

FDIC insurance premiums decreased \$1.0 million, or 38.9%, to \$1.6 million for the three months ended June 30, 2011, as compared to \$2.7 million for the same period in 2010, and \$1.0 million, or 20.1%, to \$4.1 million for the six months ended June 30, 2011, as compared to \$5.1 million for the same period in 2010. In February 2011, the FDIC issued a final rule that, among other things, modified the definition of an institution's deposit insurance assessment base and revised assessment rate schedules. These changes, which became effective April 1, 2011, reduced the Company's FDIC insurance premiums. For additional information regarding FDIC insurance, see *Recent Trends and Developments* included herein.

OREO expense is recorded net of OREO income. Variations in net OREO expense between periods are primarily due to write-downs of the estimated fair value of OREO properties, fluctuations in gains and losses recorded on sales of OREO properties and fluctuations in the carrying costs and/or operating expenses associated with OREO properties. OREO expense decreased \$938 thousand, or 31.5%, to \$2.0 million during second quarter 2011, as compared to \$3.0 million for the same period in 2010. OREO expenses increased \$232 thousand, or 6.6%, to \$3.8 million for the six months ended June 30, 2011, as compared to \$3.5 million for the same period in 2010.

Mortgage servicing rights are amortized in proportion to and over the period of estimated net servicing income. Changes in estimated servicing period and growth in the serviced loan portfolio cause amortization expense to vary between periods. The period of estimated net servicing income is significantly influenced by market interest rates. We project our amortization of mortgage servicing rights based on prepayment assumptions on the first day of each quarter. Mortgage servicing rights amortization decreased \$444 thousand, or 39.8%, to \$671 thousand for the three months ended June 30, 2011, as compared to \$1.1 million for the same period in 2010, and decreased \$770 thousand, or 34.3%, to \$1.5 million for the six months ended June 30, 2011, as compared to \$2.2 million for the same period in 2010. These decreases were primarily due to the sale of mortgage servicing rights during fourth quarter 2010 and

changes in the estimated duration of the loans underlying the Company's capitalized mortgage servicing rights.

Table of Contents

Mortgage servicing rights are evaluated quarterly for impairment based on the fair value of the mortgage servicing rights. The fair value of mortgage servicing rights is estimated by discounting the expected future cash flows, taking into consideration the estimated level of prepayments based on current industry expectations and the predominant risk characteristics of the underlying loans. Impairment adjustments are recorded through a valuation allowance. The valuation allowance is adjusted for changes in impairment through a charge to current period earnings. Fluctuations in the fair value of mortgage servicing rights are primarily due to changes in assumptions regarding prepayments of the underlying mortgage loans, which typically correspond with changes in market interest rates. During the second quarter of 2011 we recorded additional impairment of \$27 thousand, as compared to additional impairment of \$271 thousand during second quarter 2010. During the six months ended June 30, 2011, we reversed previously recorded impairment of \$320 thousand, as compared to recording additional impairment of \$221 thousand during the same period in 2010.

Other expenses primarily include professional fees; advertising and public relations costs; office supply, postage freight, telephone and travel expenses; donations expense; debit and credit card expenses; board of directors fees; and other losses. Other expenses increased \$1.4 million, or 13.1%, to \$12.2 million for the three months ended June 30, 2011, as compared to \$10.8 million for the three months ended June 30, 2010, and increased \$1.6 million, or 7.4%, to \$22.8 million for the six months ended June 30, 2011, as compared to \$21.2 million during the same period in 2010. The increases were primarily due to fluctuations in the timing of expenses, most significantly advertising and legal expenses.

Income Tax Expense. Our effective federal income tax rate was 27.5% for the six months ended June 30, 2011 and 26.8% for the six months ended June 30, 2010. State income tax applies primarily to pretax earnings generated within Montana and South Dakota. Our effective state tax rate was 4.6% for the six months ended June 30, 2011, and 4.3% for the six months ended June 30, 2010. Changes in effective federal and state income tax rates are primarily fluctuations in tax exempt interest income as a percentage of total income.

Financial Condition

Total assets decreased \$298 million, or 4.0%, to \$7,203 million as of June 30, 2011, from \$7,501 million as of December 31, 2010.

Loans. Fluctuations in the loan portfolio are directly related to the economies of the communities we serve. Total loans decreased \$87 million, or 2.0%, to \$4,281 million as of June 30, 2011 from \$4,368 million as of December 31, 2010, with all major categories of loans showing decreases except residential real estate loans. Management attributes decreases in loans to a general decline in new home construction in our market areas, particularly in markets dependent upon resort and second home communities including the Flathead, Gallatin Valley and Jackson market areas, sluggish consumer growth amid economic uncertainty, and to a lesser extent, the movement of lower quality loans out of the loan portfolio through charge-off, pay-off or foreclosure.

Residential real estate loans increased \$29 million, or 5.3%, to \$579 million as of June 30, 2011, from \$550 million as of December 31, 2010. We typically sell a significant portion of our residential real estate loan production to secondary investors. In mid-2010, we began to retain more of our residential real estate loan production. Residential real estate loans retained are typically secured by first liens on the financed property and generally mature in less than fifteen years.

Non-performing Assets. Non-performing assets include loans past due 90 days or more and still accruing interest, non-accrual loans, loans renegotiated in troubled debt restructurings and OREO. Restructured loans are loans on which we have granted a concession on the interest rate or original repayment terms due to financial difficulties of the borrower that we would not otherwise consider. OREO consists of real property acquired through foreclosure on the collateral underlying defaulted loans. We initially record OREO at fair value less estimated costs to sell by a charge against the allowance for loan losses, if necessary. Estimated losses that result from the ongoing periodic valuation of these properties are charged to earnings in the period in which they are identified.

We generally place loans on nonaccrual when they become 90 days past due, unless they are well secured and in the process of collection. When a loan is placed on nonaccrual status, any interest previously accrued but not collected is reversed from income.

Table of Contents

The following table sets forth information regarding non-performing assets as of the dates indicated:

Non-Performing Assets

(Dollars in thousands)

| | June 30, 2011 | March 31, 2011 | December 31, 2010 | September 30, 2010 | June 30, 2010 |
|--|------------------|----------------------|-------------------------|--------------------------|------------------|
| Non-performing loans: | | | | | |
| Non-accrual loans | \$ 229,662 | 212,394 | \$ 195,342 | \$ 174,249 | \$ 139,975 |
| Accruing loans past due 90 days or more | 2,194 | 4,140 | 1,852 | 1,129 | 7,550 |
| Restructured loans | 31,611 | 33,344 | 13,490 | 26,630 | 10,588 |
| Total non-performing loans | 263,467 | 249,878 | 210,684 | 202,008 | 158,113 |
| OREO | 28,323 | 31,995 | 33,632 | 35,296 | 42,338 |
| Total non-performing assets | \$ 291,790 | 281,873 | \$ 244,316 | \$ 237,304 | \$ 200,451 |
| Non-performing loans to total loans | 6.15% | 5.86% | 4.82% | 4.54% | 3.47% |
| Non-performing assets to total loans and OREO | 6.77% | 6.56% | 5.55% | 5.29% | 4.35% |
| Non-performing assets to total assets | 4.05% | 3.79% | 3.26% | 3.24% | 2.77% |

Non-performing assets increased \$47 million, or 19.4%, to \$292 million, or 6.77% of total loans and OREO, as of June 30, 2011, from \$244 million, or 5.55% of total loans and OREO, as of December 31, 2010. During the first half of 2011, difficult economic conditions continued to negatively impact businesses and consumers in certain of our market areas.

Total non-performing loans increased \$53 million, or 25.0%, to \$263 million as of June 30, 2011, from \$211 million as of December 31, 2010, primarily due to increases in restructured and non-accrual loans. Nonaccrual loans increased \$34 million, or 17.6%, to \$230 million as of June 30, 2011, from \$195 million as of December 31, 2010. During second quarter 2011, we placed loans of one land development borrower aggregating \$15 million on non-accrual status. The remaining increase was primarily due to loans of one land development, one commercial construction and two commercial real estate borrowers aggregating \$25 million that were placed on nonaccrual during first quarter 2011. These additions were partially offset by a \$5 million pay-off of the loans of one commercial real estate borrower and a \$6 million charge-off of the loans of one commercial borrower. As of June 30, 2011, approximately 67% of our non-accrual loans were current with regard to principal.

Restructured loans increased \$18 million, or 134.3% to \$32 million as of June 30, 2011, from \$13 million as of December 31, 2010. Approximately 73% of the increase in restructured loans was due to the loans of one residential real estate and one commercial real estate borrower restructured during first quarter 2011. As of June 30, 2011, approximately 96% of restructured loans were performing in accordance with their modified terms.

OREO consists of real property acquired through foreclosure on the related collateral underlying defaulted loans. We record OREO at the lower of carrying value or fair value less estimated costs to sell. Estimated losses that result

from the ongoing periodic valuation of these properties are charged to earnings in the period in which they are identified. OREO decreased \$6 million, or 15.8%, to \$28 million as of June 30, 2011, from \$34 million as of December 31, 2010. During the first half of 2011, the Company recorded additions to OREO of \$6 million, wrote down the fair value of OREO properties by \$4 million and sold OREO with a book value of \$8 million. As of June 30, 2011, approximately 71% of total OREO was comprised of properties located in the Flathead, Gallatin Valley and Jackson market areas.

Table of Contents

The following table sets forth the allocation of our non-performing loans among our various loan categories as of the dates indicated:

Non-Performing Loans by Loan Type

(Dollars in thousands)

| | June 30, 2011 | Percent of Total | December 31, 2010 | Percent of Total |
|----------------------------------|------------------|---------------------|-------------------------|---------------------|
| Real estate: | | | | |
| Commerical | \$ 86,188 | 32.7% | \$ 73,449 | 34.9% |

| Total non-performing loans | \$ 263,467 | 100.0% | \$ 210,684 | 100.0% |

Allowance for Loan Losses. In determining the allowance for loan losses, we estimate losses on specific loans, or groups of loans, where the probable loss can be identified and reasonably determined. The balance of the allowance for loan losses is based on internally assigned risk classifications of loans, historical loan loss rates, changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends, current economic factors and the estimated impact of current economic conditions on certain historical loan loss rates.

Table of Contents

The following table sets forth information regarding our allowance for loan losses as of and for the periods indicated.

Allowance for Loan Losses

(Dollars in thousands)

| | June 30, 2011 | March 31, 2011 | Three Months Ended December 31, 2010 | September 30, 2010 | June 30, 2010 |

| Average loans | 4,269,637 | 4,303,575 | 4,402,141 | 4,504,657 | 4,520,119 |
| Annualized net loans charged off to average loans | 1.43% | 1.04% | 1.56% | 1.06% | 1.02% |
| Allowance to period end loans | 2.91% | 2.92% | 2.76% | 2.70% | 2.51% |

Although we believe that we have established our allowance for loan losses in accordance with accounting principles generally accepted in the United States and that the allowance for loan losses was adequate to provide for known and inherent losses in the portfolio at all times, future provisions will be subject to on-going evaluations of the risks in the loan portfolio. If the economy declines or asset quality deteriorates, material additional provisions could be required.

Investment Securities. We manage our investment portfolio to obtain the highest yield possible, while meeting our risk tolerance and liquidity guidelines and satisfying the pledging requirements for deposits of state and political subdivisions and securities sold under repurchase agreements. Investment securities increased \$89 million, or 4.6%, to \$2,023 million, or 28.1% of total assets, as of June 30, 2011, from \$1,933 million, or 25.8% of total assets, as of December 31, 2010. During the first half of 2011, excess liquidity was used to purchase primarily available-for-sale U.S. government agency investment securities.

We evaluate our investment portfolio quarterly for other-than-temporary declines in the market value of individual investment securities. This evaluation includes monitoring credit ratings; market, industry and corporate news; volatility in market prices; and, determining whether the market value of a security has been below its cost for an extended period of time. As of June 30, 2011, we had investment securities with fair values of \$3 million that had been in a continuous loss position more than twelve months. Gross unrealized losses on these securities totaled \$91 thousand as of June 30, 2011, and were primarily attributable to changes in interest rates. No impairment losses were recorded during the three or six months ended June 30, 2011 or 2010.

Table of Contents

Deposits. Our deposits consist of non-interest bearing and interest bearing demand, savings, individual retirement and time deposit accounts. Total deposits decreased \$131 million, or 2.2%, to \$5,795 million as of June 30, 2011, from \$5,926 million as of December 31, 2010, with a shift in the mix of deposits away from higher-costing time deposits to lower-costing savings, interest bearing demand and non-interest bearing demand deposits. The following table summarizes our deposits as of the dates indicated:

Deposits

(Dollars in thousands)

| | June 30, 2011 | Percent of Total | December 31, 2010 | Percent of Total |
|-----------------------------|------------------|---------------------|-------------------------|---------------------|
| Non-interest bearing demand | \$ 1,109,905 | 19.2% | \$ 1,063,869 | 18.0% |
| Interest bearing: | | | | |
| Demand | 1,233,039 | 21.3 | 1,218,078 | 20.6 |
| Savings | 1,703,548 | 29.4 | 1,718,521 | 28.9 |
| Time, \$100 and over | 772,567 | 13.3 | 908,044 | 15.3 |
| Time, other (1) | 975,606 | 16.8 | 1,017,201 | 17.2 |
| Total interest bearing | 4,684,760 | 80.8 | 4,861,844 | 82.0 |
| Total deposits | \$ 5,794,665 | 100.0% | \$ 5,925,713 | 100.0% |

(1) Included in Time, other are Certificate of Deposit Account Registry Service, or CDAR, deposits of \$144 million as of June 30, 2011 and \$139 million as of December 31, 2010.

Repurchase Agreements. In addition to deposits, repurchase agreements with commercial depositors provide an additional source of funds. Under repurchase agreements, deposit balances are invested in short-term U.S. government agency residential securities overnight and are then repurchased the following day. All outstanding repurchase agreements are due in one day. Repurchase agreements decreased \$185 million, or 29.8%, to \$435 million as of June 30, 2011, from \$620 million as of December 31, 2010, due to fluctuations in the liquidity of our customers.

Capital Resources and Liquidity Management

Stockholders' equity is influenced primarily by earnings, dividends, changes in the unrealized holding gains or losses, net of taxes, on available-for-sale investment securities and sales and redemptions of common stock. Stockholders' equity increased \$22 million, or 3.1% to \$759 million as of June 30, 2011, from \$737 million as of December 31, 2010, primarily due to increases in unrealized holding gains on available-for-sale investment securities and the retention of earnings.

On June 13, 2011, we declared a quarterly dividend to common stockholders of \$0.1125 per share to be paid on July 15, 2011 to shareholders of record as of July 1, 2011. During the first half of 2011, we paid aggregate cash dividends of \$9.6 million, or \$0.225 per share, to common stockholders, as compared to aggregate cash dividends of \$8.3 million, or \$0.225 per share, to common shareholders during the same period in 2010. In addition, we paid dividends of \$1.7 million to preferred stockholders during each of the six month periods ended June 30, 2011 and 2010.

Pursuant to the Federal Deposit Insurance Corporation Improvement Act, the Federal Reserve and FDIC have adopted regulations setting forth a five-tier system for measuring the capital adequacy of the financial institutions they supervise. As of June 30, 2011 and December 31, 2010, the Bank had capital levels that, in all cases, exceeded the well-capitalized guidelines. As of June 30, 2011, we had consolidated leverage, tier 1 and total risk-based capital ratios of 9.69%, 14.01% and 16.01%, respectively, as compared to 9.27%, 13.53% and 15.50%, respectively, as of

December 31, 2010.

Liquidity. Liquidity measures our ability to meet current and future cash flow needs on a timely basis and at a reasonable cost. We manage our liquidity position to meet the daily cash flow needs of customers, while maintaining an appropriate balance between assets and liabilities to meet the return on investment objectives of our shareholders. Our liquidity position is supported by management of liquid assets and liabilities and access to alternative sources of funds. Liquid assets include cash, interest bearing deposits in banks, federal funds sold, available-for-sale investment securities and maturing or prepaying balances in our held-to-maturity investment and loan portfolios. Liquid liabilities include core deposits, federal funds purchased, securities sold under repurchase agreements and borrowings. Other sources of liquidity include the sale of loans, the ability to acquire additional national market, non-core deposits, the issuance of additional collateralized borrowings such as FHLB advances, the issuance of debt securities, additional borrowings through the Federal Reserve's discount window and the issuance of preferred or common securities.

Table of Contents

Our short-term and long-term liquidity requirements are primarily to fund on-going operations, including payment of interest on deposits and debt, extensions of credit to borrowers, capital expenditures and shareholder dividends. These liquidity requirements are met primarily through cash flow from operations, redeployment of prepaying and maturing balances in our loan and investment portfolios, debt financing and increases in customer deposits. For additional information regarding our operating, investing and financing cash flows, see the unaudited Consolidated Statements of Cash Flows, included in Part I, Item 1.

As a holding company, we are a corporation separate and apart from the Bank and, therefore, we provide for our own liquidity. Our main sources of funding include management fees and dividends declared and paid by the Bank and access to capital markets. There are statutory, regulatory and debt covenant limitations that affect the ability of our subsidiary bank to pay dividends to us. Management believes that such limitations will not impact our ability to meet our ongoing short-term cash obligations.

Management continuously monitors our liquidity position and adjustments are made to the balance between sources and uses of funds as deemed appropriate. Our management is not aware of any events that are reasonably likely to have a material adverse effect on our liquidity, capital resources or operations. In addition, our management is not aware of any regulatory recommendations regarding liquidity, which if implemented, would have a material adverse effect on us.

Recent Accounting Pronouncements

See Note 13 Authoritative Accounting Guidance in the accompanying Notes to Unaudited Consolidated Financial Statements included in this report for details of recently issued accounting pronouncements and their expected impact on our financial statements.

Item 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of June 30, 2011, there have been no material changes in the quantitative and qualitative information about market risk provided pursuant to Item 305 of Regulation S-K as presented in our Annual Report on Form 10-K for the year ended December 31, 2010.

Item 4.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Exchange Act. As of June 30, 2011, an evaluation was performed, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of June 30, 2011, were effective in ensuring that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods required by the SEC's rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting for the quarter ended June 30, 2011, that have materially affected, or are reasonably likely to materially affect, such control.

Table of Contents**Limitations on Controls and Procedures**

The effectiveness of our disclosure controls and procedures and our internal control over financial reporting is subject to various inherent limitations, including cost limitations, judgments used in decision making, assumptions about the likelihood of future events, the soundness of our systems, the possibility of human error, and the risk of fraud. Moreover, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions and the risk that the degree of compliance with policies or procedures may deteriorate over time. Because of these limitations, any system of disclosure controls and procedures or internal control over financial reporting may not be successful in preventing all errors or fraud or in making all material information known in a timely manner to the appropriate levels of management.

PART II.**OTHER INFORMATION****Item 1. Legal Proceedings**

There have been no material changes in legal proceedings as described in our Annual Report on Form 10-K for the year ended December 31, 2010.

Item 1A. Risk Factors

There have been no material changes in risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2010.

Item 2. Sales of Equity Securities and Use of Proceeds

(a) There were no unregistered sales of equity securities during the six months ended June 30, 2011.

(b) Not applicable.

(c) The following table provides information with respect to purchases made by or on behalf of us or any affiliated purchasers (as defined in Rule 10b-18(a)(3) under the Exchange Act), of our common stock during the three months ended June 30, 2011.

| Period | Total Number of Shares Purchased (1) | Average Price Paid Per Share | Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs | Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs |
|------------|--|---------------------------------------|--|---|
| April 2011 | | \$ | 0 | Not Applicable |
| May 2011 | 1,079 | 13.25 | 0 | Not Applicable |
| June 2011 | | | 0 | Not Applicable |
| Total | 1,079 | \$ 13.25 | 0 | Not Applicable |

(1) Represents shares purchased by the Company in satisfaction of minimum required income tax withholding requirements pursuant to the vesting of restricted stock.

Item 3. Defaults upon Senior Securities

None.
