PART III--NARRATIVE  
-----

The Company is unable to file its quarterly report on Form 10-Q within the prescribed time period as additional time is needed to complete a review of two accounting issues with its independent auditors.

As disclosed in the Company's press release on May 10, 2004, the Company needs to extend the filing date of its quarterly report on Form 10-Q for the period ended March 31, 2004. The Company expects to announce financial results and file its quarterly report on Form 10-Q by May 14, 2004. The additional time will allow the Company, and its independent auditors, to complete a review of two accounting issues.

One issue relates to the Company's methodology for establishing loan loss reserves. The Company records loan loss reserves in accordance with the provisions of Statement of Financial Accounting Standards No. 114, "Accounting by Creditors for Impairment of a Loan" ("SFAS No. 114"). Under SFAS No. 114, the Company has historically compared the present value of estimated future collections for each dealer-partner's loan portfolio to the Company's net investment in that portfolio. During the quarter, the Company concluded that this calculation should consider estimated future dealer holdback payments. Considering estimated future dealer holdback payments increases the Company's loss estimate as cash flows used to evaluate impairment are reduced. The Company developed a model for estimating the amount and timing of estimated dealer holdback payments during the quarter that provides a reasonable basis for including these cash outflows in its loan loss estimate. The change in methodology is expected to result in an approximately \$10 million increase in the allowance for credit losses and reduce after-tax earnings by approximately \$6.5 million. Had the Company historically utilized this methodology, the Company estimates that its provision for credit losses would have been higher in 2001, 2002, and 2003 and the current period provision for credit losses would have been unaffected. While the Company has recently concluded on its position with respect to this issue, additional time is required for the independent auditors to review the estimates and for the Company to reflect this change in the Company's quarterly report on Form 10-Q.

The second issue relates to revenue recognition for commissions on the sale of third-party vehicle service contracts as a result of the Company's interpretation of facts contained in agreements entered into during the quarter with two new third-party vehicle service contract providers. The agreements differ from the agreement that was previously in place in three material respects: (i) the new agreements provide a commission to the Company on all vehicle service contracts sold by its dealer-partners, regardless of whether the vehicle service contract is financed by the Company; (ii) the new agreements pay a higher commission on vehicle service contracts financed by the Company and;
